### Twenty Speeders Are Given Fines

Twenty speeders were arrested during the month of June according to Police Chief Vaughan Smith in a department report to the city commission Monday night.

"Some individuals seem to think the streets through our city are speedways," the chief declared. "Although the larger share of the violators are from outside the city, several Plymouth residents were included with those given tickets for the offense."

"I have instructed my officers to arrest anyone breaking the speed limit. The established speed law in Plymouth is 25 miles per hour in areas not designated by a posted limit. That doesn't mean a person will be overlooked if he goes 30 miles an hour as in some other municipalities. Twenty-five is the law, and violators of the limit will be given tickets. The amount of fine varies with the speed."

Although there were 202 driv-

ers' licenses issued last month, eight persons failed to carry their licenses while driving.

"Two months ago, the police department announced that a careful check was being made on parking in the city. The two-hour limit was enforced and at the end of that month it was learned that 16 had been arrested for the offense."

"This month that number was decreased to three. We appreciate the cooperation recently given us on the parking situation but are sorry that we had to make so many arrests in order to enforce the law."

"The two-hour limit was put into effect and enforced so rigidly because of the congested parking situation in the city. We want to give everyone a fair chance to park his automobile near the business district and the only way to do it is to ban overtime parking."

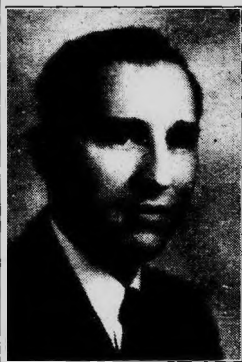

The chief said that just because the general run of motorists had complied with the parking limit, it would by no means be lifted. "The two-hour parking limit is still strictly in force," he declared.

Six tickets were issued during the month to individuals who failed to stop at stop street intersections.

Reckless driving charges were made against five operators and one ticket was issued for making an improper turn. Improper parking was cause for the issuance of another ticket, and police fined one individual whose car was making unnecessary noise.

The whole hope of human progress is suspended on the ever-growing influence of the Bible—William H. Seward.

### To Run for State Representative

JOHN B. AMBROSE

John B. Ambrose, justice of the peace in Redford township, has announced his candidacy on the Republican ticket as state representative for the fifth district, to fill the vacancy created by the decision of Elton E. Eaton of Plymouth to throw his hat in the ring in the nomination as lieutenant governor.

Judge Ambrose is a republican stalwart of Redford township and is secretary of the Lincoln Republican club there. He is an attorney, is married and the father of one child.

As a candidate, Judge Ambrose is an record as opposed to the spirit of "bossism." In this regard, his attitude is that a true legislator should not be one who merely says "aye" or "nay" to bills proposed by others, but a man who will fight for the principles and laws of good government. He says "American government was founded upon the principles laid down by the people's representatives from all walks of life, and not by any man or group of men acting in their own selfish interests or for any political reasons. The Republican convention last week showed quite definitely that neither this country nor the Republican party is to be controlled by any faction or clique. That convention demonstrated very clearly how the votes of sincere individual delegates can overcome orthodox political obstructionism. Wayne county needs fearless, fighting representation in the state government to accomplish the same results."

### Attends Funeral of Father in Kalamazoo

Mr. and Mrs. C. S. Putnam, of Reseda Gardens, were in Kalamazoo last Friday to attend the funeral of Lewis D. Putnam, father of Mr. Putnam. He died at his home in Detroit following an illness of several weeks. Mr. Putnam was a former well known resident of Kalamazoo. The family moved to Detroit a number of years ago.

### New Books at Library for Summer Reading

The following new books are at the Plymouth library: "Bees in Your Garden," by Coleman; "Be Your Own Gardener," by Sterling Patterson; how to make, maintain and find satisfaction in intimate flower gardening; "Garden for Gourds," by Bailey; "Gardening for Fun, Health and Money," by A. F. Collins; "Herbs: How to Grow Them and How to Use Them," by Helen Webster; "So You're Going to Buy a Boat," by Harold Calahan; "Seaman's Lip Below Deck," by Ruth Brinkley.

"Salt Water Fishing," by Van Campen Heilner; "Gadgets and Wrinkles," by Harold Calahan; useful information for the yachtsman; "Swimming," by Francis; "Swimming for Everyone," by Whitford; "Guns and Gunning," by Curtis; "Baseball," by Coombs; "Baseball, the Fan's Game," by Cochrane.

Mrs. Ada Murray, at the Plymouth library, will interloan any of these books for you.

### Scouts to Camp in Rouge Park

The second section of the local Scout Council's Sixth Annual Camporee will be held at Scout Hollow in Rouge park this weekend, Saturday, Sunday, July 13-14. About 65 patrols of six to eight Scouts each will participate. Eighty patrols and maximum number that could be accommodated, took part in the first section, June 8-9, 46 of them achieving "Standard Camper" rating.

These Camporees are conducted as a means of increasing camping knowledge of local Scouts and stimulating their interest in outdoor experiences. The Patrols will register as they enter the Camporee site, and will be judged by a corps of camping experts during their stay. The groups are under boy leadership, a patrol leader and assistant in charge of their boys. They do not compete against one another, but attempt to attain certain standards in program, equipment, activities, and other phases of Scout camping.

What the Scouts do to keep busy depends largely on themselves. Setting up camp and cooking takes some time, but there is considerable time left for other activities. A certain number of projects are required of each patrol, such as crafts in wood, model fires, and tracking signs.

The Patrols "pack in" all supplies and equipment necessary to feed and care for themselves during the overnight period. Nine o'clock Saturday morning is the opening hour, and the activity officially ends at 9:00 a.m. Sunday. All Patrols must be checked out by this time.

The public is invited to attend, especially Saturday afternoon, during the contest period, or Saturday evening to witness the Patrol Campfire programs.

### Rotarians Hear Boys' Reports

Members of Rotary at their meeting Friday noon listened to reports from the sons of two of its members who attended Boys' State at East Lansing this year. The boys were Jack Baker, son of Mr. and Mrs. Granet Baker and Jimmy Zuckerman, son of Mr. and Mrs. Elmer Zuckerman. The two high school juniors were sent to the model forty-ninth state under the auspices of the club. They were among seven who attended from Plymouth.

The youths told of their training, in which Americanism was stressed. The entire state as set up on the Michigan State college campus was conducted exactly as a state with county, township and municipal governments.

Both Plymouth boys were honored by being elected to public office. Baker was appointed a state trooper and Zuckerman acted as county clerk.

The boys expressed their appreciation to the club for sending them to the model state and expressed the hope that in future years the club would send other boys so that they might enjoy the same advantages that were offered this year.

Now faith is the substance of things hoped for, the evidence of things not seen.—Hebrews 11:1

### Farmers' Day Set for July 26

Annual Farmers' Day program at Michigan State college will offer new types of information morning and afternoon Friday, July 26. It is announced by R. W. Tenny, short course director.

Speaker for the day will be Dave Thompson, Chicago, farm magazine writer and agricultural authority. His subject is to be "Agriculture and National Defense." This part of the program will be held after the noon basket lunch on the campus. E. L. Anthony, dean of agriculture, will serve as afternoon chairman.

In the morning some of the newest wrinkles in agricultural science are to be presented to visitors. From 9:30 to 10:30 the program includes a demonstration and market grading of seeds sponsored by the animal husbandry department headed by George A. Brown. Another feature will present details on the construction of trench silos, offered by the agricultural engineering department headed by H. H. Musselman. Third of these features will show experiments in grass and legume silage as conducted by the farm crops department headed by H. C. Ratter. Exhibits of silage making equipment and samples of the silage will be set up.

An invitation to bring in disease and insect samples for identification and treatment is announced. Men in charge of this special booth include Ray Hutson, entomology; R. W. Lewis, plant disease; E. S. Weisner, poultry disease; and B. J. Killham, animal diseases. Michigan's Future Farmers of

American band will open morning and afternoon portions of the day's events. At noon R. B. Daurbert will sound out the Beaumont tower chimes. Final events after the speaking program omit the traditional pageant and permit inspection of the new college gymnasium, the new music building and the new auditorium.

### Safety Measure Taken at Street Dead End

For motorists' safety, the city has just completed a 24-inch stone and cement wall at the dead end of Spring street, just back of the Starkweather grade school. Cars may now be parked with safety on the bluff which overlooks the school playground and part of the Wayne county parkway.

During recent years only a curbing protected motorists from driving over the edge of the hill.

# Dondero Calls T. V. A. One of Greatest Swindles Ever Put Over on Taxpayers of Nation — Points Out Reasons

## Brands Scheme Gigantic Fraud

### Says Trick Bookkeeping Used to Fool People

Congressman George A. Dondero from this district speaking before congress the other day, branded the T. V. A. as one of the biggest swindles ever perpetrated upon the American public.

In his bitter assault upon the project, he declared in part:

"This would establish one of the most dangerous precedents in the history of this government. If the principle involved in the pending amendment was carried out and extended to all the operations of the federal government, it would mean that ex-

ery municipality, every taxing unit, and every state in the union ought to demand from the government of the United States reimbursement for property taken in order to carry out the necessary functions of federal authority. Every city that has a postoffice, every state that has a federal highway, every water course that has a navigable channel which has been dredged from taxable property, should immediately file a claim with congress to be reimbursed for taxable property taken from the tax rolls of such taxing units.

"I have opposed the establishment of the T. V. A. from its very inception on the ground that it was extending the hand of the federal government into private business and in competition with private enterprise. Its plain import is nothing less than national socialism.

"The T. V. A. is one of the greatest swindles ever perpetrated upon the American people and some day, when the full and complete truth becomes known and the ultimate results are made apparent to the people, those results will rival the Mississippi Bubble of more than two centuries ago.

"Every good engineer in this country knows that with very few exceptions it costs less to generate electric energy by steam than by hydroelectric power. In order that the people might not know, and in order to deceive the American people, the program of the T. V. A. is to shift \$215,000,000 for this gigantic scheme out of an estimated cost of more than \$500,000,000 to flood control and navigation.

"It is known that navigation on the Tennessee river costs twice as much as transportation by rail, and not including taxes. Nearly 1,000,000 acres of the best agricultural land in Tennessee have actually been destroyed by this gigantic scheme, which represents an area double the acreage ever destroyed by floods by natural causes.

"The absurdity of the claim made that utilities are overcharging the users of electric energy \$1,000,000,000 annually needs no further explanation from me.

## State Buying Lake Shores

Sites that are usable immediately are first choice of the conservation commission when it buys lands giving anglers access to lakes and streams.

General rules laid down by the commission to guide users of funds accumulated by earmarking 40 cents of each fishing license dollar provide for deferring purchase of sites requiring such improvements as earth fills, road building and brush clearing. All developments will await actual need, and then working agreements for maintenance may be made with counties or other agencies. Emphasis will be on access.

Sites on the Great Lakes will be acquired without special considerations like perch runs or good walleye fishing warrant. Sites in national forests will be developed in harmony with federal policies.

Where purchase is impossible or inadvisable, long-term leases of access rights may be obtained.

Desirable features sought in access sites are trees, dry and level ground, hard beaches, and location on a road, but not on a heavily traveled paved highway, where traffic would be a hazard.

On national forest stream camps, site values will not be considered immediately unless spring-fed and now lacking developments.

## Vacation School Opens in August

The 1940 sessions of the Nahma Vacation school, a not-for-profit institution in Michigan's cool Upper Peninsula, will be held August 11 to 24 in the Land of Hiawatha's model lumbering community.

The curriculum will include photo-journalism, outdoors photography, bird story, the novel, juvenile fiction, poetry, newspaper writing and public speaking, dramatic writing, painting, dramatic speech, play writing and nature study. An outstanding faculty includes such well-known instructors as Wallace Kirkland, O. I. Sprungman, Jean Mowat, Frank Bunce, Frederic Nelson, Litten, Arnold Mulder, Mary Dickerson Donahue, Edwin Baird, Burton Biss, Foster, Peter De Vries, Marion Stahl, Lucy Rogers Hopkins, Dan Bolt, Howard Thomas, Leroy Stahl and Sam Thorn.

Among the visiting lecturers will be Marjorie Colkin Banning, Joe Mitchell, Charles and Stewart H. Holbrook. Tuition for the two-week sessions covering any or all courses, will be \$15. Costs of board and room range from \$14 to \$17.50 a week, with meals only at \$10 to \$12.50 a week. Registration fee is \$2. Expenses can be reduced by living in a tent or trailer at Nahma's free tourist camping ground, where boats, grocery store and other facilities are available.

Nahma is a sawmill town on the north shore of Bay de Nequet in the great Hiawatha National Forest. Wild life is plentiful and there is some excellent fishing. Students may enjoy golfing privileges on a nine-hole course where deer are frequently seen on the fairways. The village has a good hotel and a large community club building where games and assemblies are held during August. The locality is accessible to a main highway. Pleasant excursions to the surrounding woods and waters are a part of the school activities. Write the Vacation School registrar, Nahma, Michigan, for further particulars and enrollment blanks.

## Many Attend Opening of New Jewelry Store

John Halstead, of the firm, Halstead and Herriek, owners of a new jewelry store in Plymouth, estimates that nearly 1,000 persons visited their store on its opening day, Saturday. It is located in the Rae building on Penniman avenue and features the latest in jewelry for both men and women. Several makes of watches and clocks are also carried.

The owners wish to express their appreciation to Plymouth and surrounding residents for accepting them with so high a degree of enthusiasm, and declare that their clerks will be pleased to give any information or advice concerning jewelry purchases or repairs.

Experience is victor, never vanquished; and out of defeat comes the secret of victory.—Mary Baker Eddy.

## Miss Winifred Sayre Weds Charles Wolfe; Will Reside Here

Of interest to their many friends in Plymouth was the announcement of the marriage of Miss Winifred Sayre, daughter of Mr. and Mrs. Lavern Sayre, of Belleville, to Charles P. Wolfe, of this city. The ceremony took place at 3:00 o'clock at the Belleville Methodist church, Sunday, June 30. Many of the younger set from Plymouth attended the wedding.

Mr. Wolfe is a hustling young business man here, having taken over the agency for the Detroit Times, with offices at 276 South Main street. He is also a member of the Junior Chamber of Commerce. The young couple have returned from a short trip and are now at home to their friends in an apartment in the Library building.

## Stevenson Uses Harsha Story

Bob Marshall, star Plymouth half-miler from Stark, received more than local recognition for his self-sacrificing effort in the last high school track meet of the year a month ago.

Marshall who was unable to run in the annual Twin Valley Activity association meet because the day before he had given his mother a blood transfusion was given a whole paragraph in L. L. Stevenson's column last Friday, "The Seven Million," which is printed on the magazine page of the Detroit News.

Mr. Stevenson in taking his hat off to Marshall said that he had received the information from a correspondent who had cut the article from the Plymouth Pilgrim Prints, high school sheet in The Plymouth Mail, where the first article appeared.

The original article told how Marshall was the scheduled winner of the half-mile and how he was expected to set a new record based on his preceding performances. After he had given his mother, sick in Mt. Carmel Mercy hospital, a pint of his blood in a transfusion, physicians informed him he was on his way out the next day. His mother, how-

ever, is recovering.

Here is the story as told by Stevenson:

"My hat's off to young Bob Marshall, of Plymouth, Michigan. He was scheduled to run the 880-yard run in the final of a dual track meet. Not only that, but he was expected to set a new record since he never has been defeated. But when physicians examined him, they found him too weak to run. The week before the meet, he had given a pint of his blood to his mother, who was desperately ill in a hospital. . . the mother is now recovering. . . So instead of a medal, a mother . . . with my salute, wishes for the best that life can afford. . . and thanks to the friend who sent along the high-school paper clipping telling of what Bob had done."

**Try Michigan for YOUR Vacation!**

Michigan's fine roads do much to account for our State's prestige as a vacation playground.

Have you considered Michigan for your vacation? There is much to recommend it.

You can, for example, pitch your tent or park your trailer beside a lake no larger than a mill-pond, or one so vast that it resembles an inland sea. You can choose among thousands of trout streams.

You can visit historic shrines and famous industrial plants . . . bike through splendid forests . . . or doze among picturesque sand dunes!

A great vacation State, Michigan has this added advantage: It's near, so your money goes farther!

And while you are away, remember that you are as near home as the nearest telephone.

**Schraders Win One-Sided Games**

Last week, the Schrader-Haggerty baseball team won two one-sided games at Riverside park. On July 4, they swamped the Northville Merchants, 13-5, and Sunday afternoon Ann Arbor, 15-7.

In Tuesday's game, the feature was a home run by H. Fields, putting the game on ice for the local team. G. Mohr hurled for Plymouth and DeGroot and Harold Williams were on the receiving end of the hot fire. Haggerty, Stanford and Atchinson worked for the locals.

Schrader — Haggerty was out-pitched by the Northville nine who filled an 13 blows, but they were so soft that they were unable to do any amount of scoring. Plymouth garnered 11 runs. Their opponents committed five errors contributing to the loss. Plymouth made three.

The Sunday and DeGroot pitched Plymouth to another victory Sunday when Ann Arbor was able to put only 11 runs on bases because of hits. The Plymouth teamers had 19 base knocks. However, Schraders didn't have their eyes on the ball and made seven miscues to Ann Arbor's two.

The batteries were: For Plymouth, Pansolin, DeBuz and DeGroot and Schombarger; Ann Arbor, Wilson, Semmonds and Livarovich and Jaffa.

Pansolin and DeGroot hit some runs for Plymouth while the hitting attack was led by Kubitsky with two doubles and a single.

Schrader-Haggerty plays next Sunday at Riverside park with Garden City.

**Better buy NOW—**

**And get Top Value for your Money**

IT'S pretty conclusive proof of a real value when more people than ever before buy a certain make of car in a single year.

That is true of this 1940 Buick.

It's pretty good proof of value when a higher percentage of all new-car buyers selects that car after looking the field over.

That is also true of this 1940 Buick.

So on sheer value, it should be clear that right now, "Best buy's Buick"—the question we'd like to ask is: Isn't this also the best time to buy?

Isn't this the smart time to put yourself behind a brand-new power plant, husky, thrifty, thrilling — and smoother than ever?

Isn't this a smart time to get more room—up-to-date controls — sure, soft brakes — new rubber — springing that never needs lubrication — truly modern features (Buick has no less than six dozen) — months on months of reliable, trouble-free, low-cost, stay-out-of-the-shop service?

## '... Cast Their Shadows Before'

There is no dearth of presidential hopefuls at the Democratic national convention which opens in Chicago July 15. But from beginning to the end one name dominates the huge Stadium building, with delegates and spectators numbering in the thousands. It is the name of Franklin Delano Roosevelt who is to determine the fate of the third term tradition, and with it who is to be the presidential nominee and the tenor of the Democratic platform of 1940. "Coming events cast their shadows before," says the poet. How right he is in this instance will soon be decided by the delegates.

## Handball Courts Being Built

In order to promote interest in a sport for which there never has been facilities in Plymouth in the past, the Summer Recreation committee has given permission to Anthony S. Matulis to proceed with arrangements for the construction of a handball court. It will be built on one end of the east tennis courts at Central high school.

Construction was begun Tuesday afternoon and it is planned that it will be ready for play today (Friday).

A 10- by 20-foot backboard was erected at the outside end of the 20- by 20-foot concrete court.

Mr. Matulis who directs the Plymouth summer recreation program, believes that by late August there will be enough interest in the sport to have a local tournament. A state tourney is also planned which will take place in Detroit.

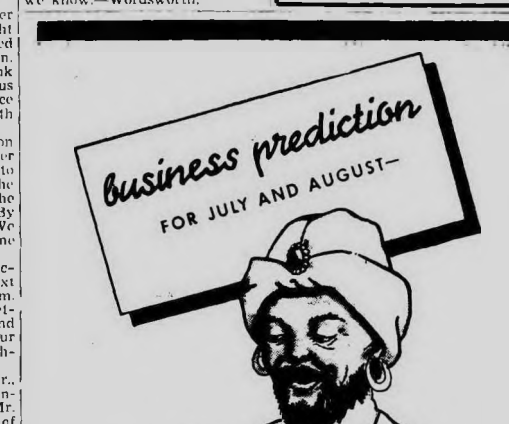

Instruction in handball fundamentals is open to men and women of all ages to be given by Mr. Matulis.

Reconnaissance in the vast marshlands of Alaska indicate their value in contributing to the continental supply of waterfowl has not been fully appreciated.

## New Animal Acts in Big Circus

The most sensational mixed groups of performing wild animals ever seen in America—those of Europe's foremost trainer, Alfred Court—the Ringling Brothers and Barnum & Bailey circus will exhibit in Detroit, July 13, 14, 15, 16, its performance further notable by its new and fine array of other super-features from the continent and countless innovations in presentation.

Racing with Alfred Court for peak honors in this thrilling European invasion is the new opening spectacle, "The Return of Miter Polo," fashioned and returned in Paris by Max Woldy, designer of the Polles Gorgere productions, at a cost of over \$80,000. This is the last word in present-day color tones, gorgeously fantastic garb and rich trappings are like nothing ever seen in America before.

The newly-visited horse acts for the big show—64 marvelously trained equines—brings Europe's most famous horsemen, the world's largest big top, now a solid blue canvas, with its air conditioning perfected by a season's experimentation.

Scores of European headline troupes and stars, headed by the unparalleled Les Brolinis, Ely Ardelli, Truzzi, the Akimotos, Reia-Rola, Adriana and Charlys and Tanita Ikoa, perform aloft and in the rings with such favorites as the Riding Christianis, the three Flying Concello troupes, Hubert Castle, wizard of the tight wire; the marvelous Yacopis and the Davises.

The performances begin at 2:15 and 8:15 p.m., with doors open at 1:00 and 7:00 p.m., to permit public inspection of the menagerie, including Gargantua the Great, giant gorilla, and the hundreds of blue-blooded steeds in the new horse fair tent adjoining it.

In 1940, it is estimated by the federal Fish and Wildlife Service, there are some 65,000,000 migratory birds in North America.

In Michigan, at the end of the breeding season, the stock of cottontail rabbits may be 10 times as numerous as the stock which survived the winter.
