This is a photo-diagram of the dreaded 4,000 pound super-block-buster, made in the United States, and dropped on Germany in night and day raids by American fliers and RAF men. Approximately 2,200 pounds of the two-ton bomb are TNT and other secret explosives. The rest are shell and fuses. Dropped from a plane 20,000 feet up, the bomb strikes the ground at pulverizing 600-mile-an-hour speed.

THINKS EACH COPY
OF THE MAIL IS WORTH
NOT LESS THAN \$50.

Well, here comes a pretty high compliment to The Mail from one of its soldier readers down in Tennessee. Arthur Lockwood, who will be remembered by many residents of the city as the lad who twice each week during the summer and fall delivered some of those mighty fine Lockwood grown vegetables around the city, writes that every copy of The Plymouth Mail is worth more to him than a \$50 bill. That's a fine compliment, espec-

ially when The Mail sells for only five cents a copy—and it goes to our Plymouth boys in the service free of charge. At any rate, The Mail appreciates these kind words.

Arthur, who has been stationed at Camp Forrest for several months in the Ranger school, says that he has now graduated from the school and yesterday signed up for foreign service in a Ranger battalion.

"I surely hope I pass my physical. It may be hard for some people to understand why I signed up for the tough service in the Rangers. I volunteered for it because I am not going to sit back

and see some of my buddies over there taking it the way they are," he writes.

"I figure that I am ready for combat service and I want to get into it as quickly as I can. There are a lot of rats on the other side that have got to be killed off and they are going to find the Rangers some pretty tough customers to deal with.

"We've got the best of equipment with which to meet our enemy. Last week we were out training and when we woke up in the morning, we were covered with a heavy coat of frost. But we are in such good physical shape that we don't notice those things. We generally get up at 3:30 in the morning and sometimes keep going to midnight or after with only a couple of jelly sandwiches. We don't mind, as our stomachs are getting used to it.

"Our work is very interesting, even though it is hard and the hours long.

"I have two brothers in the service besides myself and I'm sure they are just as anxious as I am to get a chance at those Japs or some of Hitler's boys. It might sound crazy, but that's the way we feel about it.

"I certainly want to say a good word about all the people in Plymouth for what they are doing. May we have victory sooner than we expect.

"Last Sunday I was best man at the wedding of one of my buddies, 'Chuck' Rivers. We entered the army together and have been together ever since. His bride was Miss Thelma Stecker of Garden City. They were married in the Camp Chapel and after the wedding there was a nice lunch for the wedding party. 'Chuck' has also signed up for overseas service.

"You would be pleased and surprised to know how all of the soldiers from everywhere like to read The Plymouth Mail. There's so much in it that they like. I'm proud to tell them that its my home town paper. Give my regards to all of my friends, and tell them all that I wish them every blessing in the world."

We're Glad To Hang Our Service Star, Too!

Because we're feeling the loss of employes and the pinch of priorities just as any other establishment, we cannot make more promises of one day service, and quick pick-up and delivery. We do promise, however, that the excellence of our work shall continue unchanged, and our customers can always say—"To Jewells, of course."

WILLIAM J. RUSSELL GIVEN TRANSFER TO AIR FORCE ARMOR SCHOOL.

In a letter to the editor, Private First Class William J. Russell, a Plymouth lad serving in Uncle Sam's army, advises that he has been transferred to the United States Air Force Armor school at Buckley Field, Denver, Colorado. The youthful soldier states that one of his greatest joys is found in reading the news of his home and friends each week when The Plymouth Mail arrives in camp. "I have received it ever since I entered the armed forces, and it takes more than words for me to tell you how much it is appreciated," he writes.
