try to deceive either his neighbor or himself with the specious alibi that he can thank God just as well at home as in church. The Lord says: "Enter into His gates with thanksgiving, and into His courts with praise," and "I will pay my vows of thanksgiving in the presence of all His people." Your unbelieving neighbor who puts his conscience at ease because he sees that you, a Christian, also remain at home from church on Thanksgiving, will blame you on the Judgment Day for not having testified to him by means of your example. The boys in the fox-holes and ship-holds will have to be excused from our services back here in the smug security and prosperity of our war-born wealth; but what do you consider would they think of you, if all you think of on the Day of Thanksgiving is to fill your belly with the prosperity you have gained greatly at their expense, instead of at least going to the House of God and thanking Him for what thus far He has permitted them to achieve, and to plead with Him of His great mercy to bless them and to hold His sheltering and supporting hand over them?

ROSEDALE GARDENS PRESBYTERIAN CHURCH—John B. Forsyth, Minister. The Spirit of Thanksgiving

THE TRUE significance of Thanksgiving is not found in the thrill and excitement of the Thanksgiving Day football game... nor in the splendor of the groaning table or the gaiety of the festive occasion.

Rather the Spirit of Thanksgiving is expressed in grateful contemplation of the good fortune that has favored us... which makes such things possible. For this we give thanks.

SOCIETY OF GOOD NEIGHBORS

wishes to express its appreciation to the thousands of Detroit families, who through their contributions of clothing, bedding, house furnishings and toys... have so materially aided us to bring added cheer and comfort to the unfortunate, on this Thanksgiving occasion.

Babson Says --

Future Filled With Opportunities

Babson Park, Mass., Nov. 26—First, let me say a word to young businessmen who claim that they have not the opportunity of making a fortune which their elders had. They claim that at their age the money which their elders were permitted to save for a business nest egg is now taken away by the government in the form of taxes. Let me say this is merely an alibi for laziness, inefficiency and extravagant ideas.

Let us assume a man with a salary of \$2,000 who has a wife and two children. His Federal tax would be about \$350. It is true that he has this much less money to save or invest toward buying an interest in some business. On the other hand, although the net income, after taxes, of the young executive is reduced by a tax of about 12%, his employer would probably be obliged to pay a tax of 3% to 7% of his net income. This reduces the value of the business to the employer and causes him to sell it much cheaper than if these heavy taxes did not exist.

Before these Federal taxes went into effect a man could die and leave his business outright to his family as the death taxes were very small. Today, however, in a great many cases the family is compelled to sell a part interest in the business in order to secure funds to pay the death taxes. This gives an exceptional opportunity to young executives employed in the business to secure an interest at a very low price.

The present Federal ceiling on interest rates enables young people today to buy a home or business and pay for it with an interest rate of perhaps only half what they would be obliged to pay before these taxes went into effect. I, myself, am a director of a bank which has today voted to loan a young man money at 3% in order to buy an interest in a department store. This same money would have cost him 6% fifteen years ago.

Business success is not a matter of legislation; but rather of heredity, industry, integrity and vision. Whatever our system of government, a certain group, who save, work and intelligently plan, will always be on top. All young people have a greater opportunity to succeed in the true sense today than ever before. Even children of the well-to-do may be better off under high Federal taxes. There is such a thing as leaving children too much money.

Now, just a word to those employers and investors who have large tax bills. Previous December I have called attention to the importance of taking losses in order to offset certain gains. In many cases this should be done today. On the other hand, a new factor enters the situation this year which has never happened before. This year an amendment to the Federal Tax Law threw out 75% of one full tax year so as to get on a "pay-as-you-go" basis. After much struggle, it was agreed to throw out 75% of either 1942 or 1943, whichever is the smaller. This means that one must estimate his 1943 income and compare the same with his 1942 income and pay the 25% excess tax on whichever is the larger. Now, I find my friends are instinctively doing the wrong thing by trying to show their 1943 income as small as possible when in many cases much money could be saved in taxes by showing it as large as possible. Let me illustrate:

When a taxpayer last December sold securities at a profit, he was obliged to pay 25% in taxes on the said profit. This December, however, if his 1943 income is larger than his 1942 income, he is obliged to pay a tax of only 25%

of said 25% as the Government "forgives" 75% of either 1942 or 1943, whichever is the smaller. This means that this is a year when taxes can sometimes be saved by taking profits as well as by taking losses if taxpayers will go about intelligently. Hence, consult your lawyer, banker or accountant.

Even industry gets one break in the present law, namely, the privilege of replacing old machinery with new machinery, old merchandise with new merchandise and all kinds of scrap with profitable items and having the government pay most of the cost. By selling these outmoded things at the present time, a business concern may save from 40-90% over what may be possible after the war is over. Do so this December as after World War II you may not either have the money to buy the new equipment or the above-mentioned tax advantage.

Now, just a word for heirs and charities. The present law allows every taxpayer to give \$3,000 this year to any person without paying a gift tax which in many cases would ordinarily run from 2-50%. It further allows the giving of 15% of one's income to charities which gift is tax-exempt. For instance, a person in a 50% bracket can give away \$1,000 with it costing him only \$500. Furthermore, if a taxpayer gives away securities instead of cash he can (1) avoid the tax which he would pay on the profit; (2) be allowed contribution deduction for the market value of the securities; and (3) then invest the money he would ordinarily contribute in this same security, thus establishing a higher cost-price for future sale. When one considers the tax deduction for contributions, plus the saving through not selling, and tops these savings off by replacing, after 30 days, the same securities, he may find that it is indeed possible to save through generous giving to your relatives, your church or some useful charity.

Thanksgiving finds U.S. truly Blessed

There'll be a cheery group around the Thanksgiving table—even though "your own boys" are far from home, in uniform—and Ellen and the children couldn't travel to join you. There'll be a cheery group of family, friends, neighbors—and other boys and girls in uniform to whom you extend your hospitality through the U. S. O. And if the feast isn't as elaborate as in peacetime Thanksgivings, there'll still be plenty of good things for all to enjoy!

Ours is a bountiful, beautiful land—but its produce is now feeding our armed forces, and helping to sustain our allies around the world! Enjoy your Thanksgiving dinner in this free land all the more—by remembering not to waste a crumb or a drop! Then there'll be more to spare, because we at home Share and Play Square!

Aid For Children Who Are Deaf Given By Nearby School

To those who have children who have become deaf from birth or who have become hard of hearing through serious illness in early years, it is encouraging to know that there is close at hand a school where it is possible for them to be taught speech, lip reading and language development which will in time enable them to take their rightful place in society.

At the meeting of the Wayne County Health Guild held at the First Baptist church in Garden City on Thursday afternoon, November 4, Miss Jean Blair of Lowry School, Dearborn, gave a demonstration with six young children, five of whom had been born deaf and one who was hard of hearing as a result of illness. The alertness, eagerness and happiness which these little folks displayed and the progress which they have made in a short time filled the hearts of the listeners with tender sympathy and acclaim and made them resolve to pass on the good news.

If you know of a child thus handicapped, please urge that the parents take advantage of the clinic at Lowry School, where Miss Blair will give tests. The school is under the supervision of John Tenny.

The purpose of the Health Guild meetings is to further the education of the public in various phases of health.

Due to transportation difficulties no meetings will be held until the first Thursday in March when it is hoped to have members of the new County Health Department present. Watch for notice of this meeting in late February.

Newburg

(Omitted from Last Issue) Reverend Carson's message Sunday was "The New Birth." There were 141 in Sunday school. The collection totaled \$50.50, which will be turned over to the War Chest. Last Sunday, new members were welcomed into the church.

The Riverside Book Club met last Thursday afternoon at the home of Mrs. Raymond Grimm. Mrs. Jesse Bennett presided.

Edward Reing and Mr. Benjamin, of the Wayne County Health Department, gave interesting talks on the effect on juvenile delinquency of the control of venereal diseases. Their addresses were accompanied by moving pictures. The December meeting will be held at the home of Mrs. Roy Kidston, when members will exchange Christmas gifts.

Last Thursday afternoon, Mrs. Viva Stowell and Arthur Frost were united in marriage at the home of the bride's parents, Mr. and Mrs. Floyd Bassett. The ceremony was performed by Rev. Verle Carson. Only the immediate friends of the family were present. The couple will reside on Stark road.

The Harvest Festival and Homecoming Saturday night was a decided success. A large number partook of the delicious dinner and also patronized the various booths liberally. The Girl Scout booth and fish pond were especially popular. During the eve-

ning, Edith Nolte, accompanied by Rosemary Gutherie, exhibited her skill as drum majorette. Guests from Detroit, Northville and Plymouth were present. Approximately \$200 were taken in. Tips which the children in the checking booth received were turned in to the organ fund.

Mr. and Mrs. Fred Schmidt, accompanied by their son, Roy, and family, have gone on a trip to Lewiston.

Mrs. Henry Grimm, Jr., and daughter, Phyllis Ann, and Wallace Moore, were Sunday dinner guests at the Ryder home.

Mrs. Harry Richardson and sons, Robert and John, called on Mrs. E. Ryder and Mrs. Clyde Smith Saturday. They also attended the bazaar that evening and were later joined by Mr. Richardson and James who had attended the football game in Ann Arbor in the afternoon.

Mrs. Verle Carson was hostess Tuesday evening to a shower given in honor of Mrs. William Leesh. The honoree was the recipient of many nice gifts. Dainty refreshments were served by the hostess.

Several lovely showers have been given in this community for Miss Mary Margaret McCollough, bride-elect of Lt. Albert E. Jones of the Army Air Force. The ceremony will be solemnized at the First Methodist church of Dearborn with a reception at the Dearborn Inn.

Mrs. Kenneth Lockhardt returned Monday from Alpena where she had gone to visit her father who has been ill. While there she contracted pneumonia and was confined to a hospital herself for the past few weeks.

THREE BRANCHES OF SERVICE REPRESENTED IN HEURION FAMILY

One date that's very important to the John J. Heurion family is November 18, for it was on that day in 1941 that son William Gerald left for service with the Marines. Since that time, William has been made a private first class and has seen plenty of action on Midway Island. He's back in the good old States now, attending school at Camp Lejeune, North Carolina. He was recently home on furlough. Then, on November 18 of this year, Pfc. John Donald graduated from technical training school down in Gulfport, Mississippi. He's a member of the Army Air Forces.

Not to be outdone by her brothers, daughter Marjorie enlisted in the WAVES and reported to Smith College, Northampton, Massachusetts for officer's training on that important day—November 18. She formerly taught a commercial course at the high school in Howell. That leaves ten year old Janet to keep the home fires burning for her brothers and sister who are fighting to make a better world for her.

The Heurions, formerly of Chelsea, are making their home at 35809 Joy road, maintaining the home of Mrs. Heurion's brother, Seaman first class John J. McGarvey, who is somewhere in the Pacific. Mr. Heurion is employed at the Kelsey-Hayes Wheel Company.

FORMER POLICEMAN DOES SIMILAR WORK WITH WACS IN FLORIDA

Deep from the sunny south last week came a plea to Plymouth citizens for "some snow for Christmas."

It came from none other than attractive Sgt. Marilyn I. Martin, Plymouth policeman for two years and now an Air-WAC at Boca Raton Field, Florida, a technical school of the Army Training Command.

The daughter of Mr. and Mrs. William Martin of 344 North Harvey street, Sgt. Martin is still doing police work. She is secretary in the provost marshal's office and the provost marshal in the Army Air Forces is something like a police chief's job.

"I love the work," said Sgt. Martin, "and I find it extremely interesting. In fact, I wouldn't go back to civilian life for anything. Just about the only thing I miss down here is a change in the weather."

The work that blue-eyed Sgt. Martin does is that of operating a two-way radio system used in the field's "squad cars," writing delinquency reports and filing records of prisoners.

"If there's a standing women's army after the war, I'd like to stay right here and continue with this work, too," she said. "What I like about the Air-WACs is that I have met so many interesting people and feel that I am definitely doing something to help win the war."

As proof that she is "doing all right," Sgt. Martin jumped from private first class to sergeant without so much as seeing corporal stripes. In addition to her work with the provost marshal, she is a platoon sergeant in her detachment.

Of course, her life in the Air Forces isn't "all work and no play" and, as captain of her detachment's bowling team, Sgt. Martin has rolled a high league game of 186 and maintained a classy average of 140. She also does a lot of swimming, and, on week ends, visits such nearby cities as Palm Beach, Miami Beach, and Fort Lauderdale.

"It's an interesting life. It's new and different and, at times, exciting," she concluded.

PFC. ANNA SHOWER TAKES SPECIAL TYPING COURSE IN SPARE TIME

What's this? Another girl in the news of OUR BOYS? You "fellas" had better get busy and make news or it may be necessary to change the heading of this column.

This time it's Pfc. Anna Showner, WAC, who is one of a group of twenty WACs at Camp Carson, Colorado, who is taking a special course in typing. Anna attends typing class two hours a night two evenings a week and she does it on her free time, aside from performing her assigned daily job efficiently. Not only is she improving herself, but she is making herself more valuable in her present assignment. This class is another example of the determination and willingness of the WACs to make themselves a more valued part of the Army. Anna is the daughter of Nick Showner.

SGT. RICHARD INNIS HAS DIFFICULTY WITH ENGLISH MONEY "OVER THERE"

It was a sunny afternoon somewhere in England when Sgt. Richard Innis of the Chemical Corps, sat down at the Red Cross social center to write to his parents, Mr. and Mrs. Alfred Innis, of the Ann Arbor Trail.

He stated that the center was one of the finest he had ever seen, being very comfortable and accommodating. The food given to OUR BOYS there is good, according to Dick, and most of

leave the post every night and also on week ends without the formality of asking for a pass and signing out as all of us carry a permanent pass with us. Once a month we are entitled to a special three-day pass which is usually taken so it will end at the same time as the permanent pass starts so in reality we have about five days which seems almost like a short furlough.

The weather here is most delightful now in comparison with what it was during the summer and it would run along the line of what Michigan weather is like in early September or late in August, with the exception that during the night, it gets pretty chilly. For instance, last night it was 35 degrees and today it has run up to about 80 degrees. Next month, I am told, the rainy season starts, which would compare to the snow back home.

"So far I have found no one from Plymouth here although there are a few boys from Detroit and other Michigan cities. I certainly would appreciate knowing if there are any boys from home out here in this camp so we could get together and talk over old times."

HE WOULD LIKE TO KNOW IF THERE ARE ANY LOCAL BOYS AT CAMP ROBERTS

Pvt. Kenneth Kleinschmidt is preparing for the rainy season at Camp Roberts, located in sunny California. Recently home on furlough, he discovered, when he returned, that he had been transferred to another regiment and, he writes, "assigned as a member of the cadre to the section that draws up all training schedules for the battalions and batteries in the different training cycles."

"I am now doing nearly the same type of work that I was doing in civilian life, that is, stenography and clerical work, and although I know I am still in the Army, it is more like a civilian job."

"Up here, we are entitled to be sworn in on the historic state capital grounds in Lansing last Monday morning. And so the Shiers proudly add another star to their service flag in the window."

ALDEN PLANK WRITES INTERESTING LETTER ABOUT THE SEABEES

"This is coming from Camp Peary, Virginia," wrote Alden Plank, better known as "Doc" in this vicinity, who is now an apprentice seaman in the Seabees. He continues, "Our camp is located near Williamsburg, Virginia, historically famous and recently restored by the Rockefeller's. We are within a few miles of the bay and get the benefit of the ocean breezes. As the Chaplain said the other day, referring to the song, 'Carry Me Back to Old Virginia,' that is the only way they will ever get me back."

"The Seabees, although a new branch of the service, have already made their place in history. It is already an historical fact that while Seabee officers have been trained by the Marines, the Seabees have already outworked and outfought the Marines. When the Marines boast about being the first to land, Seabees can truthfully reply that when they do land, the Seabees will have a place ready for them. Seabees have consistently been the first to land in the Pacific, were among the first to land in North Africa, and they were the first on the beach at Salerno."

"Boot camp lasts approximately 21 to 24 days and advanced about as long. At the end of that time, battalions are formed, replacement pools formed, and assignments to Ship's Company are made. From then on, the game is for keeps. 'I came down with Hal Horton, but he was lost in the shuffle the first day in camp and assigned to another area. It will be impossible to see him until after the

detention period. I noticed from a clipping in the paper that Norman Marquis is here, but I couldn't possibly get to see him. He would have to come to see me. 'The boys in my barracks are from all over the Union. I say boys—men who are just learning to shave and boys with children as big as they are. There is a gang of Texans in my platoon and believe me, all that you hear about Texans is true. If you were to believe them, there is only one state in the Union—all others are cunctics in Texas. 'Before a man has a chance to orient himself to the customs around here, he is whizzed through boot and advanced and is handed a shovel, rifle, and a knife in his teeth and is told to get going. An example, today we got our shots. We barely got our shirts off until we were out the other side, all taken care of. One fellow fainted and before he hit the floor, they had three needles in him and it was all over."

"Doc" was formerly employed at the Mail office. His wife, Helen, and son are making their home with Mrs. Plank's parents in Middlebury, Indiana. HE'S GOING TO HELP KEEP AMERICA'S FLYING FORTRESSES IN THE AIR

Earl N. Merriman, son of Mr. and Mrs. Leon L. Merriman of Newburg road, has completed his course of studies as an aviation mechanic in the Army Air Forces Technical School at Amarillo, Texas.

His graduation from this technical school now fits him for airplane maintenance and he will be sent to some air base where he will assist in keeping America's Flying Fortresses in the air for Allied Victory.

CALL HIM SERGEANT FROM NOW ON

Getting used to his sergeant's stripes is Francis J. Pitt, son of

Mr. and Mrs. Nicholas Pitt of Sibley road. He was recently promoted to that rank at Baer Field, Fort Wayne, Indiana. There, Sgt. Pitt is shift chief in meteorology and teletype maintenance, which is the highest branch of the Air Corps. He was transferred to Fort Wayne from the Weather Station, Rome, New York.

PEARL HARBOR NAVY YARD WORKER RECEIVES PROMOTION

One of the many workers who are carrying out the slogan, "We Knew Them in '41" at the Pearl Harbor Navy Yard is Calvin F. Carrier. He was recently promoted from machinist second class to machinist first class. Formerly employed by the Detroit Engineering and Machine Company, he made his home at 47214 Ford road.

LAWRENCE A. DRAKE IS AWARDED AIR MEDAL

He wears an Air Medal for outstanding service while on Guadalcanal—Staff Sergeant Lawrence A. Drake does. He's the son of Lawrence D. Drake of this city. Sgt. Drake was in the thick of it on Guadalcanal, but has now been transferred to an unnamed base in the Pacific. He's been serving Uncle Sam since June, 1941.

How much does it cost to bomb Berlin?

SUPPOSE, in the dusk of an English evening, 1,000 huge bombers soar over the Channel and head for Berlin.

By the time those planes return to England, their motors will have consumed 2,400,000 gallons of gasoline!

The cost . . . of the gasoline ALONE . . . will be more than \$380,000.

To pay for the gasoline used on ONE such raid, 96,000 Americans would have to invest at least 10 percent of their next pay check in War Bonds!

You get a big kick out of reading about those 1,000-plane raids. You know that such raids, if repeated often enough, will soften up the Axis. But . . .

What are YOU doing to help pay the cost of those raids? (In addition to the gasoline they use, it costs Uncle Sam TWO HUNDRED MILLION DOLLARS to build 1,000 4-motored bombers . . . plus the cost of training the 10,000 men who make up their crews!)

Modern war is expensive business . . . its cost runs into fantastic figures. 30,000,000 American wage earners are now putting an average of 10 percent of each pay check into War Bonds every pay day . . . but still it isn't enough!

Our air raids on the Axis are increasing in frequency and intensity. When land operations really get going, the cost will be staggering.

More and more Americans must join the Pay-Roll Savings Plan . . . more than those already in the Pay-Roll Savings Plan must begin to jack up their War Bond purchases . . . must start to invest more than 10 percent!

Remember . . . War Bonds are the finest investment in the world today. You get back \$4 for every \$3 you invest. And . . . the more War Bonds you buy now, the quicker the Axis will be licked . . . and the less the war will cost in the long run.

Think it over. And every time you're tempted to put a nickel in something you don't absolutely need—put it in War Bonds instead!

Senior Prom Friday Evening

Toylend with all its trimmings such as blocks, hobby horses, and pink elephants will mark the theme of the Senior Prom in the high school gym December 3 from 9 to 1:30.

Invited from the parents of class members are the chaperons Mr. and Mrs. Sexton, Mr. and Mrs. Strachan, Mr. and Mrs. Lodge, Mr. and Mrs. Butt, Mr. and Mrs. Vetal, Mr. and Mrs. Schoof, Dr. and Mrs. Todd, Mrs. Deya, and Mrs. Heller. In addition to these are the school officials including the members of the school board, Mr. and Mrs. Sidney Strong, Mr. and Mrs. George Fischer, Mr. and Mrs. Howard Stark, Dr. and Mrs. Harold Brisbois, and Mr. and Mrs. M. J. Huber, the superintendent and his wife, Mr. and Mrs. George Smith, and the principal and his wife, Mr. and Mrs. Claude Dykhouse.

All people outside of school wishing an invitation may turn their names into Miss Allen, 687-W Broadway, 228-J, or Ruth Hoystradt, 7126-P2 Northville, by November 24.

Here And There

The following members of the advanced string class furnished dinner music for the All Parish Bazaar at the Baptist church, Thursday, November 18: Fletcher Campbell, John Grettler, Frank Hadley, Ardis Curtiss, Evelyn Elliott, and Ruth Campbell.

"Jep" Hart and Downing Jewell went to the Michigan-Jewell State football game at Ann Arbor, Saturday. Joyce Tarnutzer, Audrey Morris, Bill Saxton, Ruth Popovich, Bob David, Shirley Luttermoser, Doris Johnson, Irene Nicospas, Gordie Vetal, "33", Margery Livingstone, Wayne Hohl, Valerie Kolin, Dick Reamer, Janet Strachan, Jack Schoof, Dorothy Vaughan, and Bill Schoof celebrated Valerie's birthday by going to the snow and having a party afterwards at her home last Saturday evening.

Mrs. Bixler's Dramatic Club and a few students from her Spanish class gave their play at the Grange Hall Tuesday evening, November 9. After the play Mrs. Bixler invited them to her house where they enjoyed talking in Spanish and later refreshments were served. The students present were George Waters, Joan Gilles, Raymond Funkel, Betty Jean Duff, Agnes Moncreiff, George Valrance, Loraine Nichol, and Bob Erdly.

Twenty senior boys took the Army and Navy College qualifying exam Tuesday, November 9, in the Study Hall of the Plymouth High School, under the supervision of Mr. Reeves.

"Jackie" Dalton, Ralph Bachel-dor, Marilyn Vershure, "Bud" McDowell, Mary Jane Christenson, Jim Baker, and George Valrance went over to Nat Reimer's home after the dance Friday night.

The Hesco's Harvest Social was held at the home of Edith Nolte Saturday evening, November 6. The theme for decorations was carried out for Halloween. The entertainment was dancing. Those present were Rosemary Miller, Joan Gilles, Betty Lou Arnold, Jean Ann Livernois, Joan Miller, Merlin Datcher, Bob Miroek, Jim Willis, Dick Tole, Andrew Millburg, Bernard Bir-Andrew Horie, Stan Burden, Bob Robacher. Guests from Detroit were George Hara and Dick Fazekas. Despite the heavy rain and man shortage, eleven boys and six girls were present. As usual someone always leaves something behind and this time Jim left his rubbers.

George Hara and Dick Fazekas were the guests of Edith Nolte and Rosemary Miller last Saturday. After bowling they went to Rosemary's house for a coke. To celebrate Pauline Weidman's birthday, Esther Mettetal, Bob Schepple, Jean Schuler, Jack Schoof, and Bob Deyo ate dinner at Hunds and saw "Thank Your Lucky Stars" at the Michigan.

Dorothy Vaughan, Helen Schoof and Jean Schuler were escorted home from the Northville dance, Friday night by Bill Schoof, "Mad" MacGregor and Wayne Hohl.

The G. R.'s Give All-Girls' Party

Dorothy Richwine, Shirley Luttermoser, and Mary Ann Zukosky won the prizes for the best costumes at the All Girls' party given by the Girl Reserves last Thursday. Dorothy, dressed as a wounded football player, was the most original; Shirley, dressed as a man with a rubber mask over her head, was the funniest; and Mary Ann, dressed as Little Bo Peep, was the prettiest. The girls danced for a while and then the skits were given. The teachers' skit was a take off on students in which the teachers were dressed in short skirts, sloppy sweaters, beanies, and anklets. They were in class reading magazines, putting on make up, eating peanuts and apples, and doing other things students are seen doing. The seniors won the prize for the best skit. They had an old fashioned car in which about twelve kids were piled. When the car would run they would bounce a great deal, but most of the time the car had a flat tire or was out of gas. After a grand march refreshments were served.

Chicago U. Offers Scholarships

Scholarships to the University of Chicago to a value of \$150 to \$600 a year are available to qualified students who have completed two, three, or four years of high school. Many of these scholarships are renewable yearly up to a total of four years or the attainment of the Bachelor's degree if the student's record is of sufficiently high quality.

All scholarship awards are made to students who show unusual promise of intellectual and personal achievement. Ordinarily no students below the top ten per cent of their high school class will be considered. They must take a three-hour test which measures scholastic aptitude and intellectual power. The test consists of sections which measure such abilities as clear and critical thinking, understanding of words and concepts, familiarity with important facts and ideas, ability to deal with numbers and quantitative relationships, and familiarity with and appreciation of the arts, including literature.

Students are judged upon the range and quality of their participation in the high school and community activities. Twelve national scholarships of \$600 each (covering one year's tuition and \$300 cash) are offered boys and girls who live outside the Chicago metropolitan area. Twelve, valued at \$300, are offered under the same conditions and also a limited number of special scholarships covering one-half tuition for one year at \$150. Applicants for scholarships or tuition aids planning to enter the college in June or September, 1944, must file an application for admission and a scholarship application no later than April 3, 1944 and they will take their tests on April 22, 1944.

Now I lay me down to sleep, I pray my hair the curl will keep. If all the pins fall out before I wake, at least, let me look like Veronica Lake.

Bill Saxton said he went "dear" hunting. But he didn't seem to catch one.

We wonder why a certain junior is always late for history. She knows the way to her classes, Fris!

Apparently the man shortage is not affecting Joan G. She had three boys walk home with her from the dance.

It seems Audrey N. can never keep her mind on chemistry. Who is he, Aud?

After seeing Irene dressed up for the "All Girls' Party", Bob Deyo exclaimed the next morning, "Gosh, you look human again."

Now we know how the teachers of PHS think the girls act, in class after their skit at the "All Girls' Party."

Shop Boys Study Job Plan

Every shop boy must make a job plan before he starts a project. A job plan can be compared to a foundation of a building. If the foundation is not a good one the whole structure will crumble and fall and if the boys have not planned their jobs well these will not turn out good projects.

A good job plan consists of the name of the job, the units of work, the work drawing, the procedure, the tools to be used, the bill of stock or materials, and the date begun and completed. The object of a good drawing is to give a clearer mental picture of what one is about to make.

Some of the best job plans will be on display in the first floor show case just inside the main entrance. Among those on display are in metal, John Wiltsie of his pin-up lamp made of peened metal; Ted Thrasher, tinning a soldering copper; Rodger Corey, ash tray; and Edson Whipple, candy dish with legs. The boys doing electrical work are: Roderick Cassidy, wire cord; Jimmy Shetter, extension cord with an underwriter's knot; and Bill Osgood, without a doorbell which has one bell but two push buttons. Jack Renwick has a plan of his lawn ornament for woodwork and Bob Brunner a plan for sharpening a wood chisel as his work in household mechanics. The job plans are judged on neatness as well as on the quality of the work.

Listening In On P. H. S.

It seems that Beverly Broman was homesick the other day in Spanish. She wouldn't stand in the corner without Dor Rock.

Ray Kulek held the Spanish class in awe the other day when he gave his speech in Spanish. His topic was "My Sweetheart" and he described how pretty she was. Just about when the kids started to debate which one of the red heads of P.H.S. she was, he ended saying that she was his mother.

We understand that Joan Gillis and Elizabeth Neal are now directing a play in Drama Club and that Mrs. Bixler will not be held responsible if the play is not a success.

We hear June U. is making quite a conquest of Sanford in Spanish class.

Jack S. and Bill S. signed up for the senior skit at the "All Girls' Party. Sorry boys, they couldn't use you.

When Mr. Latture was asked to purchase a war stamp, he declined saying that he never wrote to anyone.

A senior when asked on a test by Miss Fiegel what an electoral college was, said it was a place where electricians go to school.

We certainly are glad that a certain senior girl finally found out who D. Reamer was. It is kind of embarrassing when you invite the wrong Dick isn't it Val.

Strange that Audrey should forget all about singing in Latin class when Miss Hearn was absent last week but started to sing the very first day she came back. Seeing Miss Hearn must make her very happy or is it because she just came from band.

Class News

The 8B science classes are studying the weather. The 8A classes are studying transportation.

The 7A math classes are learning the method of figuring gas and electric on percentage.

The government classes are divided into groups and are giving reports on departments of the government.

The shop classes seem to run to lathe work and with three lathes it means they are busy at all times.

The members of the auto-mechanics class do not all agree that 35 miles an hour saves on gas.

The electricity class prefers problems to reading of texts. Since these are all boys, it is hard to understand.

The Spanish class is preparing a play in Spanish entitled "A Day in School." About one half of the students will participate in the play which is a scene in a daily Spanish classroom. The students are also giving speeches in Spanish as part of their daily work.

The Tradition Of Thanksgiving

The first Thanksgiving was in the fall of 1621. Originally it was a harvest when the crops were gathered. Later in 1864 President Lincoln appointed the last Thursday of November as Thanksgiving Day.

This day is set aside as a day to give thanks to the Lord for the things He has given us. In those days the women spent days baking and cooking before open fires to prepare these feasts. This first Thanksgiving was not a feast but a day for prayers, songs of praise, and a day for everybody to be thankful.

This year, unlike other years, with many of our dear ones in far off lands fighting for the security of our home front and the American way of life, we still have much to be thankful for.

Thanksgiving
For all that God gives us today. Our friends and relatives far away. For our unhindered sleep at night. Safe from bombs and screams of fright. For guidance in our daily life. In this war torn world of strife. We give Thee thanks Dear Lord on this, Thanksgiving Day.

Air Corps Exam December 1

The Army Air Corps exam will be given December 1, at one o'clock in the high school. At present there are twenty-seven boys signed to take the exam; any one between the ages 17 and 27 can take this exam. Others are asked to sign with Mr. Dykhouse sometime before the date set.

After passing the physical and being sworn in, students will be given the silver wings of the Army Air Corps Reserve and will finish school or remain until they are eighteen and one-half years old, when they will be called into the regular Air Corps for about five months of college training and then into flight training.

Also next May the army and navy will give the exams for their A-12 and V-12 training programs.

VICTORY'S SONS

"Did we get them out?"

FRANTIC message reached naval headquarters at Kukum, on Guadalcanal. The landing party of 225 Marines which had been put ashore on a Jap-held beach that morning was being pressed back into the sea. A desperate evacuation attempt was ordered. Douglas Munro, 22-year-old Coast Guard signalman who had commanded the landing boats in several previous actions, was sent with ten of the craft.

Munro piloted his boat close to the beach, took on his complement of weary Leathernecks and pulled away, all under intense Japanese machine gun fire. A moment he stood upright to signal the other boats to come in. Suddenly he crumpled. A Jap bullet had pierced his temple.

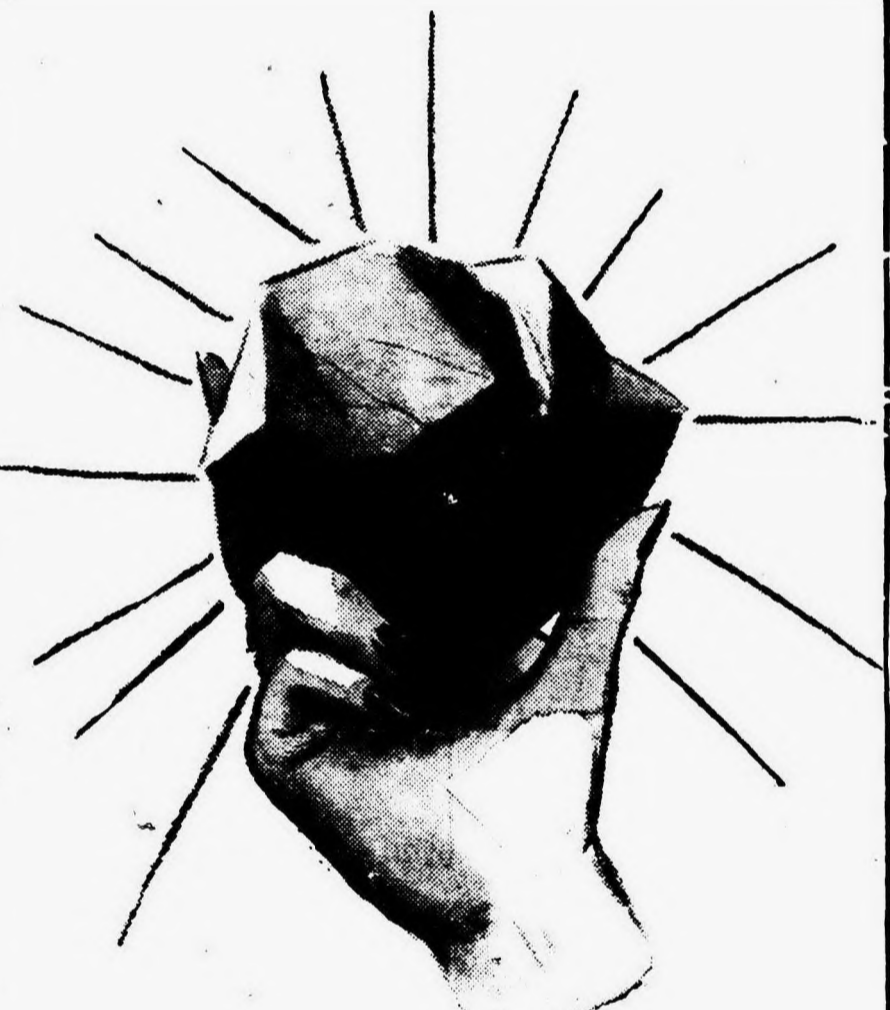

He lived until the boats had returned to Kukum, bearing most of the Marines to safety. But still with his responsibility uppermost in his mind, he spoke his last words to his buddy, Ray Evans, asking, "Did we get them out?"

BLACK DIAMOND:

Help to save coal by conserving electricity

Long ago, coal acquired the title "BLACK DIAMOND." Coal is precious today because it is a critical war material, because it is needed to run steel mills and railroads and power plants as well as to heat our homes.

Thousands of tons of coal are required every day in Edison power plants to make the electricity used by war plants and homes and business places in this area. If you use less electricity, less coal will be burned. The problem is as simple as that. Anything you can do to save electricity also saves coal.

That is why the Government asks for the utmost conservation in your use of electric power. Be careful in your use of electric appliances and equipment—turn off immediately when the task is completed. In home or office or factory, turn off lights not in use. Clean lamp bulbs and reflectors regularly. Don't leave the radio turned on when not listening to it. "Share the light" so that one lamp can serve two or more people.

These things are small in themselves. But this conservation program, which includes ALL utility services, will save thousands of tons of coal vitally needed for war. The Detroit Edison Company.

CONSERVE ELECTRICITY
 Even a 5% saving in the monthly use of electricity by Detroit Edison customers will save about **190 CARLOADS OF COAL PER MONTH**

THE OPA

Judging from comments of people who have been in the northlands during the past two or three weeks, any one who is in any way connected with the OPA hadn't better let the fact be known in the years to come.

What in the first place was not much more than resentment against the anti-hunting edit, is now a burning hatred of every person directly or indirectly connected with the OPA. Hunters cannot figure out why Michigan was picked as the state for the OPA crack-down on one of the greatest sources of revenue the good people of our northern counties have during the entire year. The deer seasons have been open in Minnesota, Wisconsin, New York and Pennsylvania, but there has not been a word in any news dispatches about any OPA crackdowns in those states.

Possibly Michigan was selected because of the fact that vast numbers of our hunters cross the Straits of Mackinaw, which provides a perfect trap for such operations as conducted by the type of snooping politicians hired by the OPA to enforce its anti-American edits.

The Plymouth Mail does not and will not believe that over 200,000 residents of this state who secured deer licenses are not good citizens, probably far more patriotic and doing more to support the war effort than are the "payroll patriots" of the OPA.

The whole deer season mess is just another one of those things you can charge up to an administration that has gone out of its way to select misfits, unfits and smart alecks to conduct important public affairs. It is little wonder that the OPA is one of the greatest administrative blunders of all time.

ELECTION YEAR RATIONING TIME-TABLE FORECAST

Next year being the year when the New Dealers will attempt to buy up enough votes in one way or another to retain their nice soft and highly paid public jobs for another four years we predict the very free use of rationing "points" in exchange for votes.

In view of the fact that "points" are as valuable as money, and in some cases more so, here's about the way the time-table for rationing will work out next year:

- June—Cut in points for meats and fruits.
- July—More gas for auto driving.
- August—Tires for everybody. No points.
- September—All coupons off for gas for automobiles.
- October—All points off all kinds of gas, including political "gas."
- November—Due to the great abundance of everything because of the New Deal, all rationing will be over—until AFTER election.

Maybe this idea may seem a little far-fetched, but our prediction is that rationing points will be used in some such a way to buy up votes of those willing to sell their birthright.

THANKSGIVING DAY AT GRANDMA'S

- A bustle in the kitchen.
- A smell of cakes and pies.
- Children running everywhere
- With bright and wandering eyes.
- Rows and rows of good things
- On the pantry shelves,
- A cunning little table
- All to themselves.
- Apples in the evening.
- Lots of merry play—
- All this fun at grandma's
- On Thanksgiving day!

Keep On Backing the Attack With War Bonds

25 Years Ago

News items of a quarter of a century ago taken from the files of The Plymouth Mail.

The Plymouth Agricultural Association held an important and interesting meeting last week, Thursday evening at the Grange Hall at which there was a large attendance of the members of the vegetable section of the association. The meeting was preceded by a "Smoker."

Mr. and Mrs. H. A. Spicer and Mr. and Mrs. H. S. Doerr and family went to Sheldon Sunday, to attend a family reunion, the occasion being the birthday of Mrs. Spicer's sister, Mrs. Fannie Barker. Every member of Mr. and Mrs. Spicer's family were present—the first time in three years.

Every ticket for the opening of the new Penniman-Allen Theatre which occurs this evening, has been sold.

Announcement has been made of the marriage of Miss Mae White, daughter of Mr. and Mrs. George White, and Jay Stimpson of Northville. The ceremony was performed at the home of the groom's brother, Grant Stimpson in Northville, Tuesday, October 31st. Several miscellaneous showers were given for the bride this week.

Many in Cherry Hill are busy with bean threshing, which has been a long drawn out job on account of the many rainy days.

A special meeting of the Order of the Eastern Star was held in Masonic Hall last Tuesday evening, November 19th. Supper was served to about 100 members

and guests. Later in the evening, the degrees of the order were conferred upon several candidates. Ten chapters from other cities were represented.

The Detroit Chapter has asked the Junior Red Cross of the Plymouth branch to assist in making scrap books for the wounded soldiers in the hospitals. They have asked for five hundred books to be completed by December 1.

Little Chase Willett pleasantly celebrated his seventh birthday Monday, November 18, by having several guests for dinner.

Born to Mr. and Mrs. Henry Simpson, of Maple avenue, a daughter, Friday, November 15th. Sergeant Maxwell Moon of Selfridge Field visited his wife and other friends here over Sunday.

The pupils of the Miller school at Free Church will give a "shadow and box" social at the home of Mr. and Mrs. Charles Root for the benefit of the Red Cross. There will be a program given by the pupils, patriotic yells, singing of national and war songs and a general peace celebration.

Mrs. Mark Joy entertained in honor of the birthday of her mother, Mrs. Hattie Ostrander, who received many pretty remembrances.

The "Entre Nous" of Perrinsville gave a party in the hall Wednesday evening. About 15 guests and members were present. They played games until a late hour when refreshments were served.

Up to the war, 90 per cent of America's 2,800,000 business employed less than eight persons apiece.
