

What I Think and Have a Right to Say

By *Edwin R. Eaton*

It is Not Surprising
There was a Democratic convention in Detroit the other day. Members of the party returned home without having been able to induce someone to become a candidate for the gubernatorial sacrifice.

The party leaders, like everyone else, know what the handwriting on the wall says. No matter who is nominated for governor in Michigan, no matter what the state political situation might be, the thinking Democratic leaders of Michigan have come to a full realization that the Washington new dealers have greased the highway for an overwhelming Republican victory this fall.

State issues mean nothing. The voters of Michigan, like the voters of other loyal American states, are so fed up on the regulations, the political regimentation and the rottenness of affairs in Washington that nothing can stop a Republican sweep this fall. With this tidal wave of votes, it is safe to predict that nearly every candidate on the Republican ticket will be carried into office, except possibly in Detroit.

Harry Kelly is no issue. "Bossism" is no major issue. There is but ONE ISSUE—and that is the new deal effort to make America into a nation of goose-steppers. And American voters are NOT going to goose-step! That's why no Michigan Democrat is willing to permit his name to appear on the Democratic ticket as a "sacrifice" player for the Washington new dealers.

Not Good Judgment

The Plymouth Mail was one of the very few Michigan papers that was for the nomination of Thomas Dewey of New York for president four years ago. Our position has never changed. We are for Dewey for president, just as emphatically as ever. Four years ago we regarded the Vandenberg "boom" as a sort of stop-Dewey effort. We look upon our able senator's present campaign in behalf of General MacArthur as another sort of "stop-Dewey" plan.

But we do not believe they are going to be able to stop Dewey this time. We believe that even Wendell Willkie has come to that conclusion and that is why he has retired from the contest.

Neither do we think it good judgment for Republican editors and other party leaders to be lashing away at Willkie with the vengeance of political demons. Their actions of today typify somewhat the shameful conduct of new dealer fanatics four years ago when they hurled eggs and spoiled vegetables at the Republican candidate when he visited Pontiac and Detroit.

Mr. Willkie has proven himself a great thinker and a keen student of world affairs, much more alert to the dangers of the future than many of our statesmen in Washington. Even though he will probably never be elected to the presidency, he has won for himself a permanent place in future American histories.

No, we do not think it good judgment for Republican editors, especially, or others to be hurling stones at a citizen who has been able to make history without the aid of a public office.

Socialized Medicine—a New Deal Quack Idea

A few years ago, while serving as a member of the house of representatives in Lansing, there was a group of alleged "social reformers" in the house who favored every proposal that came along which sought to enable the lazy, shiftless, good-for-nothing loafers of the state to secure a bit of public aid here and there without working for it. Well do we recall the assertion of one of those fellows that he hoped the time would come when no man would have to work over six hours in any one week to make a living. They favored unlimited welfare aid, saw no reason why children should help take care of their parents and thought everybody over the age of 60 should have a pension that would permit him to live the life of Riley, whether they were in need of the pension or not.

Serving as chairman of the welfare committee, the writer was in constant conflict with these fellows who wanted to make a political grab-bag out of the state treasury.

Some half dozen years or more have rolled around—and we find that nearly EVERY ONE of these loud talking "social reformers" who were then serving as members of the legislature have since been indicted for graft—their votes having allegedly been purchased for a measly few dollars.

Now we have before us another crack-pot piece of legislation—originating in Washington.

It is a proposal which seeks to put the government into the "doctoring" business. The scheme provides that there shall be taken out of every paycheck a certain per cent of the wages paid to a worker and put into a political jackpot which will be used to pay doctors for practicing medicine. If a person should happen to be in business and does not draw a paycheck, he's got to pay a certain tax, too, into the jackpot.

If this assinine bill should be made into law, and you should become sick and need a doctor, you could not call your "family doctor." You would call up some snooty governmental clerk, and tell him or her that you or your babe was sick and you needed a doctor right away.

It would depend upon what that sassy bureaucratic clerk decided as to whether you needed a doctor or not, and what doctor you could have.

Yes, if your doctor should be coerced into permitting his name to be "listed" with this bureaucratic proposal, you might ask to have him sent. If he was busy on some other case, or the clerk had some half-baked doctor friend she preferred to send, you'd get just what the clerk sent, and not what you asked for.

Under this strange congressional proposal, all doctors are rated in the same category—good, bad and indifferent—all alike. Only the surgeon general of the United States would have a right to say what doctors can serve as specialists and what patients are entitled to treatment by specialists. But all of this is to be decided through a lot of bureaucratic red tape.

Meanwhile, if you do not die for lack of specialist treatment, the bureaucrats will decide how, when, where and who will look after your case.

If you should be sick and the bureaucrats sent you some whippersnapper, don't-care sort of a doctor, who doesn't seem to give a whoop whether you live or die, you couldn't fire that doctor from your case. No, sir! You've got to accept his dope and like it.

Then, too, there are many who think it "cute" to beat a doctor out of payment for his services, who will be very much in favor of this bill. If they think neighbors have got to help pay their doctor bill, that's good business! Human nature is a strange thing. When a person is in need of medical services, he immediately demands—and receives—medical treatment. But a doctor's bill seems the hardest thing in the world to pay.

We presume that the doctors of this country have in their files more unpaid accounts than any other group of people. We have heard it frequently said that a doctor is a mighty poor business man, all because of the fact that he seldom puts the pressure on to force delinquent patients to pay for services given to them.

We have never discussed this subject with a Plymouth physician, but we are willing to wager that there is not a doctor in this city who hasn't thousands of dollars in COLLECTABLE accounts standing on his books.

No, not all of the people who owe doctors money will favor socialized medicine, because there are many people who through

Wins Promotion and Coveted Air Medal for Outstanding Services

LIEUT. HAROLD GRANGER

Honors came thick and fast for Harold Granger, son of Mr. and Mrs. Don M. Granger of 8641 Canton Center road, now serving with the United States flying forces in England, recently, according to news just received from England. Not only was he promoted to first lieutenant, but he received the coveted Air Medal award for exceptionally meritorious achievements during many Eighth AAF bombing attacks against Germany and occupied Europe. Lieutenant Granger is a graduate of the Plymouth high school and previous to enlisting for service with Uncle Sam's fighting forces was employed as a telephone installer by the Michigan Bell Telephone company.

Lieutenant Granger is with the same flying outfit in which Col. Cass S. Hough is serving.

Youth Rally To Be Held Sunday

The Methodist and Presbyterian young people of Northville, Newburg, Rosedale Gardens and Plymouth churches will hold a youth rally on Sunday afternoon, April 23, at 5 o'clock in the Presbyterian church of Plymouth. The rally will open with a vesper service led by the Rev. Harold Fredsell and the Rev. Leslie Williams of Northville. The speaker for the vesper service will be Rev. H. Paul Sloan of the First Presbyterian church of Detroit.

Following the vesper there will be an hour of recreation and fellowship, under the leadership of Jane Burr and Pauline Wedman, and refreshments will be served after the fellowship hour. The committee on arrangements includes Jane Ann Lyon, Sanford Burr, Dick Daniel and Thomas Sanders.

Will Collect Paper Thursday

Plymouth's waste paper collection will take place next Thursday, April 27, advised Mrs. Russell Powell, salvage chairman, yesterday.

House Burns on Porath Farm

Fire Wednesday forenoon completely destroyed the residence on the Julius Porath farm, West Six Mile road, near Salem, and all the furnishings. Mr. and Mrs. Coe Bennett, who occupied the first floor of the house, and another family that had just recently moved into the second floor apartment, lost all of their belongings. The house some time ago had been converted into a two-apartment structure. The fire, which started in the basement, was not discovered by Mrs. Bennett until the flames had made so much progress they could not be checked. The Salem fire department answered the call, but there was no aid that could be given. The farm, known as the old George Van Sickle place, was some years ago converted into a horse ranch by Mr. Porath, where he has been raising pedigreed Belgians. None of the barns was damaged by fire.

Make Slight Change in Building Code

The city commission at its meeting Monday night adopted a new amendment to the building code of the city which provides that all joists in new home construction shall be not more than 16 inches apart.

The previous building code provided for joists 20 inches apart. The new code means there will be stronger home construction in the city.

Shear Seeks New Anti-Beer Garden Juvenile Law

Would Prohibit Adults From Taking Minors Into Beer Gardens

City Commissioner Carl Shear proposed to the city commission Monday night that the city adopt an ordinance which will prevent minors from entering beer gardens, or any other public place which serves liquor, whether they are accompanied by their parents or not.

Mr. Shear told the commission that for some time he has been investigating the appearance of minors in the beer parlors, after being taken there by their parents.

"If parents haven't got the ability to bring up their children without the beer garden influence, then something should be done about it," he declared. The condition has been developing in Plymouth during the past three or four years and it is time to end it, he stated.

There is no state law guarding the children against the beer garden influence, he said. He pointed out that other cities already have ordinances preventing minor children from participating in the beer garden influence.

City Manager Clarence Elliott was instructed to obtain sample ordinances from various cities, which will be considered by the Plymouth commission.

Mr. Shear said that he is certain that it is giving the youngsters the wrong start in life and giving them the wrong break, and he is determined to do something about it.

Art Todd Recovering From Serious Illness—To Reopen Store Soon

If the condition of Art Todd, who has been confined to his home by illness for nearly a month, continues to improve, he will probably be able to open up his grocery and meat market on South Main street some time next week. This is entirely contingent, however, upon the progress he makes from the effects of the serious attack of the flu that he has been suffering from.

Legion and Auxiliary to Hold Joint Meeting

The Myron H. Beals post and auxiliary will hold their regular joint meeting this Friday, April 21, at 8 p.m. in the American Legion hall, Newburg road.

A lunch will follow the meeting. Come and spend an enjoyable evening together.

Mrs. Henry J. Walch was hostess Tuesday at a luncheon and for the afternoon to 25 members of the Kenjockey club of Detroit. The group consists of wives of the Presbytery of Detroit and surrounding communities.

No Survivor of Lost Ship Ever Located

CHARLES HADLEY
Missing for over year somewhere in the Atlantic.

Believe Every Man on 'Craft With Charles Hadley Lost

According to information received by Mr. and Mrs. Erwin Hadley of 601 Evergreen, not a single survivor has ever been located of the big government merchant ship that was sunk by German submarines some time during February, 1943, and which carried their only son, Charles, to his death, presumably somewhere in the Atlantic.

It was just a year previous, February, 1932, when Charles enlisted in the merchant marines as a ship's cook. He had, since graduation from high school in 1930, been employed in the Terry bakery as a cook and at the time of his enlistment the navy was putting forth a special effort to recruit cooks with experience.

After his enlistment he was almost immediately assigned to duty at sea.

Since the ship he was serving on was reported lost in February, 1943, his parents have put forth a diligent effort to secure more information about its fate. The only information they have been able to secure states that as far as the navy department can find out, there has never been a single survivor of the boat found. How many were in the crew and on the boat is not known, but the craft is believed to have been one of the largest of the merchant ships in service at that time.

The father is employed in the Ford bomber plant. Miss Ruth Hadley, the Plymouth girl who is doing Red Cross work in Australia, is a cousin and took the picture of Charles that appears with this article.

New President of Rotary Club

JOHN MacLACHLAN

John MacLachlan, manager of the Michigan Bell Telephone company, was elected president of the Plymouth Rotary club at the last meeting of the board of directors. Mr. MacLachlan will succeed Garnet Baker as president of the club and will take office July 1.

Other officers elected by the board of directors were Rolfe Smith, vice president; Harold Curtis, treasurer, and William Wood, secretary.

The new Rotary president has been most active in the affairs of the club, especially its boys' activities. He has also taken an active interest in other Rotary affairs.

Ralph Lorenz Sells Business

Ralph Lorenz, who has been in the gas business in Plymouth for more than a dozen years, announced this week that he had sold his interest in the Lorenz & Ash service station on South Main street to Alfred Wick of Wayne and will retire from business for the present.

Mr. Wick has already assumed his new duties in Plymouth with Walter L. Ash and will for the present drive back and forth to his home in Wayne until he can find a place to live in Plymouth.

Mr. Wick has been associated with the well known James Austin Oil company of Wayne for nearly 14 years.

The concern's name has been changed to Wick & Ash. Mr. Lorenz has made no plans for the future, but he does expect to take a much needed vacation during the next two or three months. It is his intention to remain in his old home town. The many friends of Mr. Ash will be glad to know that he intends to remain permanently in the new partnership, that has just been formed.

Claude Buzzard Named City Attorney

Plymouth again is to have a city attorney.

Claude Buzzard was named as city attorney by the city commission at its meeting Monday night because of the increasing need for legal services.

The city has been without an attorney for the past two years, except as one was needed for special occasions.

20 Tons of Tin Collected Here

As the result of the combined efforts of the residents of Plymouth, Redford township, Livonia township, Northville and the various institutions located about here, an entire carload of cans, weighing more than 20 tons, is now on its way to munition factories of the United States, stated Mrs. Russell Powell, executive chairman of the Plymouth salvage committee, yesterday.

Residents of Redford township brought in two tons, Livonia one ton, and Northville three tons.

Mrs. Powell states that many cans could not be collected because they were not properly prepared. The cans are valueless to anyone, unless the paper wrappers are removed and the cans flattened out.

Old license plates, tin roofing and similar junk cannot be used, she advises. Much of this refuse was piled with the tin cans last Friday.

It is urged that everyone remember that collection of tin in the future will be on certain Fridays designated by the chairman.

Here's Way to Help Wounded

There is on display in the windows of the West implement store at 507 South Main street one of the many laprobes being made by the Navy Mothers of Plymouth for use in the American hospitals throughout the world.

Mrs. Alfred West, energetic chairman of the committee making dozens and dozens of these laprobes from old clothing, states that if anyone desires to make some of these laprobes in their own homes, they can visit the West store and see just how they are made.

It is also suggested that people who plan to donate old woolen clothing or woolen articles of any kind to be made into robes, could help the Mothers greatly by washing the garments before sending them down to the store. At the present time, Mrs. West and other members of the committee are not only forced to do most of the collecting, but the washing, cutting and sewing. On top of that they provide their own funds for the linings, which must be purchased, and pay for all shipments.

Here is one war activity that is doing an immense amount of good in which you can help without much trouble to yourself.

Miss Miriam Hall of Detroit and Mrs. D. F. Saxton of Plymouth were guests of Mr. and Mrs. John Ridley of Detroit Monday.

Stanley T. Corbett Mayor of Plymouth

STANLEY T. CORBETT

Plymouth's new mayor. He has already assumed office. He served as president of the Plymouth Chamber of Commerce, long active in community affairs, progressive, clean and believes in doing things worthwhile.

CARL G. SHEAR

He is Plymouth's lone representative on the board of supervisors, his appointment having been confirmed by the city commission Monday night. Mr. Shear is past president of the Plymouth Rotary club, and like the new mayor, has long been active in every movement that has been for the benefit of the city. Members of the board of supervisors have given Mr. Shear a cordial welcome to the organization.

Original Music for Festival

Two original compositions by Plymouth musicians will be performed for the first time at the annual spring music festival of the Plymouth high school music department on April 27—next Thursday.

Clarence A. Luchtman, supervisor of high school music, and his committee made the selections from more than 12, which were submitted.

The compositions are "That Melody," a popular number, composed by Murray O'Neil, and to be sung as a vocal solo.

Donald Montgomery will play as an accordion solo his composition, which he calls "There's a Longing in My Heart."

The remainder of the program will be performed by the high school orchestra and chorus, and the various sections of each.

The orchestra will feature "Holiday for Strings," "Poinciana," and June Van Metre will play portions of Tchaikowsky's piano concerto, accompanied by the orchestra.

The chorus will feature "The Lost Chord" and various spring numbers.

Carl Shear Is New Supervisor

Two Voted Against Confirming Mayor's Appointments

Stanley T. Corbett, long-time Plymouth electrical contractor, was elected mayor for the next year by the city commission at its reorganization meeting Monday night.

His election came on unanimous vote on the nomination of retiring Mayor Carl Shear.

But his election was practically the only unanimous action of the evening.

Following his election, Mayor Corbett called for nominations for mayor pro tempore. Mrs. Ruth Whipple nominated Carlton Lewis and Mr. Corbett nominated Henry Hondorp.

Mrs. Whipple moved for a roll call vote on the two nominations, but her move was lost, and on a secret ballot Mr. Hondorp was elected by a vote of 4 to 1.

The commission then set the salary for the city treasurer, and in the only other unanimous action of the night, reappointed Charles Garlett to the job.

Mayor Corbett announced the following appointments:

Assessor, Arno B. Thompson.
City attorney, Claude Buzzard.
Board of review, Stewart M. Dodge, E. S. Roe and Mr. Thompson.

Auditing commission, Mrs. Whipple and Mr. Lewis.
Board of registration, Charles Garlett and Mrs. Doris MacLachlan.

County supervisor, Mr. Shear.

Following the motion for approval of the appointments by the commission, Mrs. Whipple attacked the supervisor appointment, and asked why a person she said was not interested in county government should be appointed to the post. She asked whether Mr. Shear was willing to accept the appointment and whether he was willing to take the time and effort and money to make the job effective.

Mr. Lewis expressed the opinion that Mrs. Whipple should be reappointed to the supervisors because of the work she has done on that body in the past.

After Mrs. Whipple had occupied the floor for some time with an attack on the supervisor appointment, Mr. Shear appealed to the mayor on the ground that Mrs. Whipple was out of order, that her arguments were personal and not pertinent to the motion before the commission for approval or disapproval of the appointments as a whole.

The mayor supported Mr. Shear and put the question, and all of the appointments were confirmed, with Mrs. Whipple and Mr. Lewis voting against all of them.

The suggested ordinances governing the operation of taxicabs in the city and providing for the proper disposal of rubbish were again presented to the commission, and were tabled until the May 1 meeting.

The entire session of the organization meeting occupied only 35 minutes, but provided some of the most acrimonious debate in years.

Brings California Sunshine to His Old Home Town

Roy Williams, son of Mr. and Mrs. Homer Williams of Sutherland avenue, came home from a California army camp this week, bringing with him the sunshine that this part of the world has been enjoying for a few days.

"We have lots of it out there in the mountains where I am at present located," stated Roy yesterday, "and I knew you folks back home needed some of it, so I packed up plenty and brought it with me."

Roy has been in the army for over two years. Most of the time has been spent in Colorado, Louisiana and California. He has no idea when his outfit may get overseas.

"Looks to me as though we are something of an experimental outfit," he said. He has a 10-day furlough.

Plan Check on Meal Prices

The Plymouth war price and rationing board is now making a check of all restaurants in this area to determine whether there are price violations.

The restaurants are not permitted to increase the price of their meals over the highest price charged between April 4 and April 10 of 1943.

Reports from Detroit indicate that most of the restaurants in

the area have increased their prices.

Of 142 declarations of war by 43 countries since September, 1939, Russia has made none; Japan only two—against the "British Empire" and the United States; Germany four—against Russia, Greece, Yugoslavia and the United States; the United States six—against Germany, Italy, Japan, Bulgaria, Hungary and Rumania; and Great Britain seven—against Germany, Italy, Japan, Bulgaria, Hungary, Rumania and Finland.

What I Think

(Continued from Page 1)

misfortune or otherwise are unable to pay for medical services. Our comment refers only to those who are able to pay, and do not pay. This group will be very much in favor of socialized medicine.

Not only will these people be for socialized medicine, but lined up solidly for the measure will be all of the "social reformers." And what a gravy train it would be for them!

Look at the hundreds of thousands of easy public jobs that such a scheme would create! Maybe we think we have a lot of bureaucrats in Washington at the present time, but under "socialized" medicine, we will have a new army of bureaucrats that would put to shame anything this country has ever before experienced.

There's nothing quit like a government job, where there is little or no work to do, and with a paycheck out of the taxpayers' pockets coming right on the dot, in the eyes of a social reformer.

Socialized medicine is another one of those foreign-born ideas. There is nothing American about it—nothing good about it. Among those backing the proposal will be found every crack-pot in America. EVERY anti-American, plus the non-thinking and those who believe they are going to get something for nothing. The scheme should be overwhelmingly defeated in congress—and it will be!

There are ways that we can bring to ALL the people of our country better medical service and that is by the creation of thousands of more hospitals, hospitals that will be in the reach of EVERY person.

Our funds and efforts now are necessarily tied up in the nation's war effort. The war is our first big job and we must not let other matters interfere until we have decisively CRUSHED our enemies.

But when victory has been won, then we should immediately turn our efforts and attention to the establishment of hospitals throughout our own state and nation, hospitals that will be available to EVERY person needing hospital treatment.

We believe that a plan can be worked out for Michigan whereby the great University of Michigan, with state and local financial co-operation, could establish in various communities of the state branch hospitals of the university hospital, these to be directed by the famed staff of the University of Michigan hospital.

Michigan has given to the world probably the most progressive and outstanding medical hospital in existence. The medical department of the university is not excelled by that of any other school in the land.

So why not give to the people of the state the benefit of the leadership and the medical skill of our famed University hospital that has reached its pinnacle of fame because of freedom from political interference?

By the use of state and local funds, these branch hospitals could and should be made available to the most lowly without the stigma of welfare being attached to the admission.

The Michigan State college has worked out an amazingly successful system through its extension department of bringing direct aid to the farmer, the fruit grower and the stock producer in EVERY county within the state. The extension department takes its information and aid DIRECTLY to the people of Michigan.

Why could not a similar system for the treatment of the ills of humanity be brought to the people of the state through a university-controlled branch hospital system? When the war is over, there will be available thousands of trained nurses who could help staff these branch hospitals under the direction of the famed University hospital staff.

Anyway, this is an idea that fits into our future health program far better than does the creation of a much more expensive bureaucratic department to mess up our health problem with a lot of cheap politics.

In our own community there IS a tremendous need for a hospital, but in wartime, the needs of our fighting boys at the front come first. They must have, and will get, everything they need, no matter how much we have to go without at home.

In wartime, the civilian population doesn't count for much. So we who are now going without the blessings of medical science brought to mankind by the DOCTORS of the world, must be patient and get along without, the best we can.

We must not, however, hamstring the great work of the medical profession of this nation by imposing upon it a lot of bureaucratic regulations in order to create more jobs for bureaucrats and more regimentation for the people of America.

We must first of all WORK for victory, and at the same time plan for the future. In that planning we must place ABOVE everything else the needs of OUR BOYS who are now suffering and dying for the freedom that a lot of bureaucrats would take from them and us.

In that planning, first must come the welfare of our soldier and sailor lads—and then our own. This planning must necessarily include a vast expansion of the nation's hospital requirements, but NOT "socialized medicine."

Hens Working for Victory!

Well, folks, the hens are still patriotic.

The hens cannot be said to be working overtime, and they are not being paid in proportion to their efforts, but the facts still are that there are more eggs right now than the nation knows what to do with, although the government is buying eggs at a terrific rate in order to hold the price up.

Merchandisers are aiding the hens by urging housewives to use more eggs. There are special egg menus for almost anything a person wants to eat.

There are fried eggs, boiled eggs (soft, hard or medium), scrambled eggs, egg souffle, omelets and dozens of other ways to prepare the product of the war's greatest producer.

As a matter of fact, there are more eggs this year than ever before. The hens have really broken the records.

The government is drying eggs, and putting them in cold storage, and still they are not moving fast enough.

But as The Plymouth Mail pointed out last week, there is

every prospect that there will be a cut in production this year, with the result that eggs will be scarce in the future.

Millers Return From Florida Vacation

Mr. and Mrs. Peter A. Miller of Russell street, who have recently returned from Lake Worth, Fla., where they spent the winter, brought with them a lemon grown at that place that weighs two and a half pounds.

"We saw many like it down there. I brought one home with me so Plymouth residents might see how big lemons do grow sometimes," stated Mrs. Miller. It is on display in one of the windows of The Plymouth Mail office.

Mr. and Mrs. Miller spent three months in Florida and enjoyed their winter stay very much.

The largest aerial bomb in use today is England's new "super-cooky," which weighs four tons. As this monster explodes on con-

tact instead of several seconds after penetrating the ground, its lateral force is not impeded and, consequently, it blasts to bits virtually everything within an area of 50,000 square yards.

Meet A Real Post-War Thinker

Battle-sore shaves are apt to be rough and tough, so don't frown down the thoughtful thinking of this stubble-chinned private as he uses the cold-water, scrape-and-pull method.

He's thinking now of the civilized comforts of his own home of Tomorrow and the magical conveniences that will be his from that little blue economy-flame.—GAS!

High up on the list of his dreams-to-come-true is that happy time when hot-water will speed his "once-over-lightly" . . . when hot-roll-soaks will revitalize tired nerves and muscles . . . when K.P. will be but a memory . . . and a clean shirt will not be an event.

Oh, Johnny's home comforts will be many but none more welcome than the quick-flowing, always-hot-water he'll get from his post-war Automatic Gas Water Heater that keeps hot-water pure and rust-free.

It's worth planning for!

GAS IS A VITAL FUEL DON'T WASTE IT

GAS . . . the fuel that helps to make life easier, more enjoyable, in today doing its part in our great war plans. Your water heater manufacturers too are busy with war orders. Symposium on POLAND

Conducted by PHILIP A. ADLER

Here's a series of articles by leading exponents of the various Polish factions... factions which keep controversial issues such as the Curzon line, the corridor problem, the exile government in London and the Russian-sponsored government constantly before the public eye.

Watch for these articles in which Michigan's leading Poles express their opinions on subjects which will play a great part in the peace to come.

PLEASE HELP!

The Plymouth Mail finds it necessary to call attention again to the necessity of all want ads being sent in not later than Wednesday. During the past two or three weeks many calls have been received Thursday. Because of the shortage of help, it is almost an impossibility to get these ads set on publication day. So it will help VERY MUCH if you can get your want ads into The Mail office on Monday, Tuesday or Wednesday. Earlier in the week the better.

William Higgs Back From South Pacific

William Higgs, son of Mrs. Ruth Higgs of 713 Ann street, is in Plymouth visiting his mother for the first time in two years. The young soldier, with the U. S. artillery forces in the South Pacific, was recently transferred from the Pacific field of action after many months of hard service on Guadalcanal and other islands in the Solomons group. He is now being assigned to Fort Briggs as an instructor.

Many From Here Attend PEO Meeting

The annual statewide convention for PEO was held at the Statler hotel in Detroit Monday and Tuesday, April 10 and 11. The election of officers and regular business meeting was held, with several speakers following. One of the speakers was Miss Isabella Heck, whose home is in Kalamazoo. Miss Heck was a prisoner of the Japs for six months and told of her experiences while interned.

Those attending from here were Mrs. Paul Christensen, Mrs. Man-

ley Smith, Mrs. Albert Curry, Mrs. S. N. Thams; Mrs. William Otwell, Miss Mabel Bowers, Mrs. Halvar Blomberg, Mrs. Ernest Berridge, Mrs. Olive Cook, Mrs. Alvin Balden, Mrs. Paul Simmons, Mrs. R. L. Hills, Mrs. William Kaiser and Mrs. Edwin Rice.

Little Damage Is Caused by Fire

The fire department was called to the home of Dr. Charles Westover, 982 West Ann Arbor trail, Tuesday at 12:30 p.m., where rubbish was burning near the garage. There was no damage, but there might have been, which prompted City Manager Clarence Elliott to complain about the manner in which fires are reported.

Announcement

We wish to announce that Mr. Alfred Wick of Wayne, Mich., formerly with the J. Austin Oil Co., has purchased the interest of Mr. Ralph Lorenz in the partnership of Lorenz & Ash, and that the business will continue under the name of Wick & Ash, at 584 South Main Street, Plymouth, dealing in Shell gasoline, oils and sundry products. Mr. Lorenz wishes to thank his many friends and customers for their past patronage and favors, and wishes to assure them that they may expect the same courtesies and service as has been the custom in the past.

More About Clean Politics

Plymouth, Mich., 4-17-44.
To the Editor:
Corrections to my advertisement of last week: "His temper" should have read "her temper."

When I wrote the barb last week I wrote it full-knowing what it meant, a person in any business should not even speak his own mind. A town of 6000 people and no one dares challenge dirty politics at home. I know you hurt peoples' feelings, your friends and relatives, but I have been hurt, too, so I will try and take whatever ridicule is offered.

To be fair to all, when a person offers his services to the community let's not crucify the man without a fair trial.
I have reasons to believe some people are not too happy about conditions in our fair city.
At the next opportunity let's all take inventory of the issue, the person to be judged, ourselves and all concerned. If this is done I believe more people will be happy and we will have a better world in which we all must live.

Thank you,
HARRY TERRY.
P.S.: My stick and hatchet are for sale.—H. D. T.

Has Faith in Honesty of People—And Mail Advertising, Too

Mrs. Beatrice Tyler of 26530 Plymouth road not only has faith in the honesty of people, but she has just as much faith in the value of Plymouth Mail advertising.

It was on February 25 when she lost a pin somewhere in Plymouth. An advertisement was immediately inserted in The Mail. There was snow on the ground and there were no immediate results from the advertisement.

Two or three weeks later she ran the advertisement the second time. To show how advertising pays, even though it takes time, Mrs. E. Hamilton, who lives on Haggerty highway south of the Ford road, recently was telling a friend that she had found a pin last winter and she would like to find the owner. The friend advised her that she had some time ago read an advertisement in The Mail of a lady who had lost a pin during the winter in Plymouth.

Old copies of The Plymouth Mail were dug out of the paper scrap pile, the ad found, and Mrs. Hamilton immediately called Mrs. Tyler.

Yes, it was the pin that Mrs. Tyler had lost. Mrs. Hamilton refused to accept any reward when she returned the pin.

There is quite a bit of sentiment attached to the pin. It was given to Mrs. Tyler by her son, soldier Leonard E. Perkins, who is now in England. He had purchased it from another soldier friend, who since has been killed in action.

Picture Plymouth Soldier Lad on Island of Tarawa

Sgt. J. William Darnell, son of Mr. and Mrs. James Darnell of Northville road, was the baseball player at bat in that game of softball pictured on the island of Tarawa in last Friday's issue of the Detroit Times and the issue of Life Magazine of the same week.

His parents and friends immediately recognized the picture of the well known Plymouth soldier lad.

His brother, Ben, who is also in the armed services, is located in the same area in the South Pacific, but the two boys, according to their letters, have not yet met.

Plymouth Has Own Reserve Council

The Girl Reserves in Plymouth have been withdrawn from the Detroit Girl Reserve council and have set up their own organization, affiliated with the national council.

A council of 12 Plymouth women are sponsoring the new organization, which is now operating under its own constitution, which was finally approved last Tuesday evening.

The Girl Reserves are affiliated with the YWCA, and it is the fond hope of the new council that this pioneer organization will lead to a full YWCA group in the city.

Benefit Bridge Is Attended by Many

About 125 ladies attended the Crippled Children's benefit dessert bridge party held Wednesday afternoon in St. John's parish house, arranged by the new members of the Plymouth Woman's club.

The church parlor was given a spring like appearance by the use of large vases of forsythia and pussy willows.

to all those who helped to make the benefit such a success. One of the pleasing features of the occasion was the assistance given in the kitchen by some 15 or 20 Girl Scouts from the Scout organization which is sponsored by the Woman's club.

Extra Safety

Tire chains should be applied to the wheels of your automobile when roads get slippery. They help in starting and stopping, and drivers should know how to use them. They should not be applied too tightly and tires never should be deflated to put them on and then inflated to tighter them. When the need for chains is past, they should be taken off to conserve them and to make driving easier and smoother. Even with chains, fast starts and sudden stops should be avoided. Chains should be allowed to provide the extra safety which they can.

Make Sausage

In the sausage department of a packing plant 17 different jobs are being performed by women, ranging from cutting cords and placing them in position for tying, and lacing cords at regular intervals around the sausage, to mixing the seasonings and stuffing the sausages. In the casing department, where the sausage casings are made, the most colorful job title is that of "gut puller," in which large and smaller intestines are separated and their surplus tissue removed to prepare them for sausage casings.

Type 'A' Flu

The symptoms of type "A" flu are usually headache, backache, muscular aches, fever, and/or a chill along with the symptoms of a common cold. Usually this type of flu hits all at once, and you long for nothing so much as to crawl into bed, which is the very best thing to do. Keep warm; drink lots of water, fruit juices, and soup; eat lightly; stay in bed until you feel good—at least 24 hours after the end of any fever.

The Horses

On every giant generator capable of pulling loads equal to that of 250,000 horses, there is a little box about two feet square. Engineers call it an exciter. The "horses," they tell us, are naturally lazy just like real horses and humans. If a spur is not put to their flanks, they loaf, go to sleep, stop. Every power and light plant must have its exciters.

Early Boom Town

Silver made the high Andean plateau of Bolivia the boom land of the New World soon after Spanish conquerors found the mines of Potosi. The cold, lofty city became the seventeenth century metropolis of both Americas and swayed the world's money markets by the volume of its silver output.

Tin Standard

Tin regularly made up two-thirds to nine-tenths of Bolivia's exports, put the country on a "tin standard" instead of a gold standard, ran export duties to such a figure that they were the government's chief source of income. Bolivia normally produced about one-sixth of the world's tin tonnage.

Save Soap

Cakes of soap should not be left in wet dishes. Packaged soaps should be measured when used and not thrown wastefully into the dishpan or wash tub. Slivers of soap should be saved and pressed against new cakes or used in a soap shaker.

Girl Reserves Aiding Soldiers

There is a constant hue and cry for the people at home to see that the men and women who have gone away to war should be kept in contact with the old home town.

And the Girl Reserves at the high school have been doing that for a long time.

With only 43 members in their organization, and with limited finances, the girls have collected more than 600 names of men and women in the service, all of whom at some time or another have attended the high school.

The service folk get Christmas cards, and Easter cards, and a card on their birthdays.

There is a note about a teacher, a classmate, and there have been long letters back to the girls from the service men in the far cor-

ners of the world, who have been overjoyed by that card.

It's a work which the girls have financed themselves, and of which they are justly proud.

An analysis of 79,800 words used in 1,900 telephone conversations has confirmed the belief that Americans no longer make a distinction between the auxiliary verbs, will and shall, in spoken English.

Mr. and Mrs. Fred Phillips and sons, Clyde and Junior, of Ann Arbor, Miss Nina Sherman of Adrian, and Mr. and Mrs. Arthur McIntyre and son, Frederick, of Detroit, were Sunday dinner guests of Mr. and Mrs. Louis Sherman and their mother, Mrs. Floyd Sherman.

The Moms club will meet Monday at 7:30 p.m. at the service center. Each Mom who has a birthday during the first four months of the year will be honored. They are requested to notify either Mrs. Charles Robinson, phone 766-J, or Mrs. William Erdelyi, phone 284-J.

The Plymouth branch of the Woman's National Farm and Garden association is co-operating with the Plymouth public forum in presenting "Gardens for Victory" this Friday evening at 8 o'clock in central grade school. The children are invited to attend with their parents.

Sgt. Gilbert Williams, home on furlough from Miami Beach, Fla., was the guest Sunday of Mr. and Mrs. B. Felsner. Mr. and Mrs. John Williams, Mr. and Mrs. Fred Killingsworth and three daughters, of Plymouth, and Mr. and Mrs. Charles Randolph and Hershel MacDonald, all of Detroit, were also present.

Miss Elizabeth Oimstead, Miss Molly Saxton and Arvid Andren visited the Recreation club sponsored by the Mothers' club of Novi at the Novi high school on Tuesday evening. The group, which is under the direction of Mrs. Dean Saxton, plans to continue its activities through May.

Mr. and Mrs. Dean F. Saxton attended the advanced folk dance class of the Detroit Recreation Cooperative at the Aaron DeRoy memorial center Monday evening.

Mrs. Henry Augustin of Sheboygan, Wis., is a guest in the home of her sister, Mrs. Leo Wright, on Penniman. She expects to remain for two weeks. On Friday, Mrs. Wright and Mrs. Augustin are attending a luncheon in the home of Mrs. Ed Rothermel in Detroit.

Mrs. Robert Champe and son John of Detroit and Miss Merriam Jolliffe are visiting at the home of their parents, Mr. and Mrs. E. V. Jolliffe of Beck road. They planned their visit to Plymouth to be here while their brother, Lieut. Keith Jolliffe, is home on a brief furlough from Spence field, Georgia.

Miss Margaret Ayers, field representative of the Red Cross, who is leaving for overseas duty; Mrs. Wilson, who will replace Miss Ayers, and Mrs. Wesson Seyburn, director of various branches in the Red Cross, were guests of the chairman of the Red Cross organization of Plymouth at a luncheon at the Chateau Rousseau on Plymouth road Wednesday noon.

Mrs. Floyd Sherman attended the marriage of her niece, Hope Peters, to John Busman of Detroit, on Saturday evening, April 15, at the Bushnell Congregational church in Detroit. The marriage was performed by the Rev. J. G. Peters of Bowling Green, Ohio, father of the bride and brother of Mrs. Sherman. The reception was held at the Peter Petcoff home on Mansfield avenue, Detroit.

Hosier and son, Philip; Billie, James, Ruth and Myrtle Franklin; Jean Kellen, Luella Wright and James Weber attended the 4-H achievement day program which was held Monday evening at the Wayne county training school.

Mrs. Syl Kostielney, Mrs. H. R. Hosier and Mrs. A. W. Huettner attended the supper at Sheldor Tuesday evening sponsored by the Ladies' Aid.

The Mothers club held its monthly meeting last Wednesday at the home of Mrs. Ed Richard. Mr. and Mrs. A. W. Huettner visited Sunday at the home of Mr. and Mrs. Ray Meyer in Ypsilanti.

Warren Merdock has purchased the grocery store business from Frank Sarver at the corner of Cherry Hill road and Canton Center. Mr. Merdock opened for business Monday, April 3. Mr. and Mrs. Sarver and family moved to a farm in Illinois.

Daughters and Mothers Banquet

Mrs. Marjorie Bingham of Cranbrook academy will be the principal speaker at the annual Mother and Daughter banquet, which is sponsored by the Girl Reserves of the high school.

Mrs. Laura Lickfeldt, sponsor of the Girl Reserves, is making plans for the banquet, assisted by the various committees of girls. Roberta Orr is the general chairman for the girls.

Only 300 tickets will be sold for the banquet, which will be served in the high school gymnasium at 6:30 on the evening of May 10.

The tickets for the annual affair will go on sale next week.

Mrs. Bingham's talk will be based around the general theme of "The Good Green Earth," and she will show movies of wild life to illustrate her lecture.

Barnett School News

Our 4-H Victory club gave a victory party on Friday, April 14. The admission fees totaled 200 pounds pressed tin cans, 19 pounds waste fat, and the sale of \$28.50 in war stamps.

The boys and girls of our entire school had previously collected 1,500 pounds of waste paper. They are making another collection now and hope to reach their goal of a ton before school closes for summer vacation.

Many members of our 4-H club attended the achievement day program at the Wayne county training school on Monday evening. Madelyn Fedell and Nona Lee Lamerand received honorable mention and gold seals for their achievements in food preparation. Gold seals for outstanding achievement were also awarded to Sally Mackintosh, Patricia Simons, Sarah Baker, Joan and Lois Wilkie, Betty Jarvis, Betty Stone, Melvin Korte and Blackmore. Billy Jarvis participated in the ceremonial part of the program.

The gold seals are as much an honor for our excellent leaders as for the industry and achievement of our boys and girls. Mr. and Mrs. James Mackintosh and Mrs. Benjamin Lamerand have given generously of their time and talents in their leadership of these 4-H club projects.

Our Junior Red Cross members are making ash trays and book marks for our hospitalized war veterans.

We were happy to help in the sale of Easter seals for the crippled children fund. We sold 2,083 seals.

The Bartlett Mothers club enjoyed hearing Dr. John Lee of Wayne university at its regular meeting on April 12. He discussed the plan for our state to provide for a visiting teacher program to help lessen our delinquency problems.

We hope to have our own visiting teacher, Mrs. June Salsbury, speak at our next meeting, on May 10.

In Japan, 1944 is the year of the monkey, during which those born under the sign of this animal are supposed to undertake many "crazy" journeys with great expectations but meet only with bitter disappointment.

Golfers

In most cases...
The Damage Is Only Skin Deep!

Those used, cut-up, old golf balls you have lying about the house usually have sound hearts—about which manufacturers can build new playable golf balls.

This will be the third year that new balls have not been made. You, the golfers, must supply the "worn outs" in order to keep the game going!

So let me buy them from you. Dig them out and call me. I'll pick them up and pay you for them. And don't be misled in believing that 2 or 3 are not worth bothering about—they'll count up.

Wall Wire Has Annual Election

At the annual meeting of the Wall Wire Products company held at the company's offices at Plymouth recently all officers were unanimously re-elected, as follows:

- President, Waldo Reiner.
- Vice president and general manager, E. L. Malone.
- Vice president and works manager, R. V. Heilmann.
- Vice president and sales manager, Earl Russell.
- Treasurer, S. B. Fortenbaugh Jr. Secretary, F. D. Rice.

The company is engaged in 100 per cent production of war materials and expects to continue so right up to the time the country's enemies have been defeated.

The past year was a satisfactory one in the conduct of the company's business and officers hope to make the present year a successful one.

Sergeant Arnold Ash Home on Furlough From South Pacific

Tech. Sgt. Arnold L. Ash, son of Mr. and Mrs. Charles Ash, has returned home after 26 months in the southwest Pacific, but he came home merely a soldier home from the wars. He's been doing a job in Australia and New Guinea and not enjoying many of the thrills that come to some.

"Oh, there were a few bombing raids," he said, "but when the Nips come over, you just duck and wait until they leave."

No, there just wasn't a thing that would make a story. He just did a job. For three years, since April 18, 1941, he has been doing the job, principally in ordnance—fixing guns so that the fliers will have protection against the Nips.

The boys, he said, are anxious to get the job over with and get home.

After 26 months in the fighting fronts, he was happy to see the United States, and Plymouth in particular. Some of the boys may want to live in Australia after the war is over, but not Arnold Ash.

He thinks the Australian people are wonderful. He likes the cities and even the country somewhat, but he still likes Plymouth better.

After a 21-day furlough, he will report to Atlantic City for further assignment.

He has two brothers also in the service, one a radio technician third class with the navy in San Francisco, and another with the army at Camp Walters, Texas.

Arnold has been connected with the airforce service squadron since his induction into the army.

Appoint Member of School Board

Sterling Eaton was appointed Tuesday by the unanimous vote of the Plymouth school board to serve in the place of the late George E. Fischer until the June elections. That procedure is required by the state school law, that the remaining members of the school board shall appoint a successor to serve until an election can be held. The appointment must be made within 20 days after the loss of a member from the board, or the county school board will make the appointment.

Mr. Eaton said that as a result of his appointment by the members of the board that he will stand for election in June to serve the unexpired term of Mr. Fischer. It has two years yet to run. The term of Michael Hueber, the current president of the school board, also expires in June, and it is expected that he will stand for election for the full term.

THE OLD JUDGE SAYS...

"The war stories I like best, Judge, are the ones by the special writers overseas who live right with our troops. They give us a better idea of how our men react to things going on over there and back here at home."

"I agree with you, Sam. I never miss one of those stories in the papers or magazines. And there's one thing those writers seem to agree on no matter where they are stationed with our men... and that is that the men who have left their homes and families to go away and fight this war don't want to come back and find that prohibition has been put over on them while they were away... either nationally or locally. They have heard about the attempts being made and they resent it bitterly."

"I agree with them, Judge, even though I don't happen to drink myself. Furthermore, I don't think it's fair for us at home to be making any major changes while 10,000,000 of our fighting men are away and have no chance to express their opinions."

Last Class Night Program, April 27

Over 100 Students Take Part in Concert

If one can predict the future, then he can safely say that the coming spring concert will be an outstanding and enjoyable program, far over 100 students of the music department will take part. This concert is the last of the class night series, and the orchestra, mixed chorus and double quartet are combining their talents and efforts. The mixed chorus alone will include 75 voices and the orchestra features 30 players.

The orchestra numbers will include a Spanish number, "Aye, Aye, Aye"; "Holiday for Strings," by David Rose; "Poinciana"; "Themes From the Piano Concerto," by Tchaikovsky, and "Still as the Night," by Carl Bohm.

The string ensemble, under the direction of Miss Hamill, will play several numbers. The mixed chorus numbers will consist of "April Showers," "The World Is Waiting for the Sunrise," "Bells of Saint Mary's," "Hallelujah," from "Hit the Deck," "The Lost Chord," and the great favorite of everyone, "Easter Parade."

Many of the music students have been working hours after school preparing the stage settings and lighting, which will be rather uncommon and impressive.

Mr. Luchtman asks that every boy and girl in school be sure to invite his or her friends and family so that the last class night of the school year will be a huge event and a success.

English Classes Take Tests

The eleventh and twelfth grade English classes and the journalism students were given a general information test covering war, politics, personalities in the news, sports, science and well-known advertisements last week to determine how alert high school people are and how much they know about current activities.

Warren Mason, Shirley Luttermose and Bob Scheppel had the highest scores in the twelfth grade, while Don Schely, Jack Huebler and Nora Wefsenmoe took top honors in the eleventh grade. Out of a possible score of 50 the average number of correct answers was 24 in the eleventh grade college English class. The most popular mistake was identifying the red star as the Russian navy. A few of the other mistakes were calling the Atlantic charter a newspaper, identifying Jimmy Doolittle as an orchestra leader, defining Cassino as the son-in-law of Mussolini, locating Rabaul as an Italian general, and identifying Bagdolio as a town in India. Oh, "students," what is the matter?

Class News

The Spanish class and Mrs. Bixler went to Ann Arbor Wednesday night to attend a play at the Lydia Mendelssohn theater. The play, "Sveno de Una Noche de Agosto," meaning "A Midsummer Night's Dream," was sponsored by the play production department and the university Spanish class. In it were also several South American actors.

Some of the members of Mrs. Carey's eighth grade history class will present a radio drama, entitled "For Want of a Nail," for their classmates Friday. This drama should jog the memories of all who have been lax about showing their responsibilities in the war effort.

One of the 8B history classes has been writing plays leading to the struggle for independence of the colonies. Two of the original plays will be presented in class.

The other 8B class is preparing a program for pan-American day, April 14. Members of the class are drawing and painting flags of the 21 members of the pan-American union.

The 11th and 12th grade classes are tracing the history of American foreign policy, examining the points of the Atlantic charter and Hull's recent 17-point statement Clarifying America's aims for peace.

According to the "Mouth Organ," official bulletin of Wayne county district of the Michigan Education association, Plymouth schools have 100 per cent enrollment in the MEA along with the district's Brownstown, Canton, Dearborn, Grosse Ile, Huron, Livonia, Moundville, Northville, Redford, Romulus, Sumpter, Taylor and the Wayne county training school.

Miss Waldorf was one of the five delegates to the constitutional convention of classroom teachers' department at the Olds hotel in Lansing in March.

Miss Niles' history class is starting a unit entitled "United States Enters World Affairs." Velma Brunz, Natalie Reitzel, Frances Eskra and Shirley McDonald received the highest marks in the monthly test. Her English class wrote themes on characters they have really known. Jean Phillips, Raymond Schmaedeke, Irene Newman, Marjorie Elliott, Virginia Waldecker and Elizabeth Neal wrote the best.

Mr. Hedrick's biology classes are studying reproduction and are learning about the belief held by people until the middle of the nineteenth century that life was created by spontaneous generation. They believed that frogs and toads were created from mud and insects from the bodies of dead animals. Louis Pasteur and John Tyndall, two great scientists, finally disproved these ideas and helped establish one of biology's basic generalizations, all life from life.

His seventh grade hygiene classes are studying sanitation on the farm and in the city.

So far no one has signed up for freshman baseball, which is waiting for nice weather to really begin.

Miss Anderson's English classes are giving oral book reports. Jane Hawk presented her report in the form of a dramatization. Herbert Swanson, who read a mystery story, presented the clues to his class and they guessed the outcome of the story.

The librarians have been busy taking library science tests this week.

Typing students have changed typewriters for the next five weeks so they will become accustomed to working on different machines.

Miss Fiegel's history classes have completed the outlines and notes for their term papers. Deadline for bibliographies, notes and outlines eliminate last minute "cramping," which many pupils do. The subjects of the papers are limited to American history phases. Causes of the Civil war, immigration to America, part of the Revolutionary war, or World War I, social aspects of American life, and economic progress are typical subjects.

The seventh grade homemaking classes have finished the preparation, serving and eating of meals. Study in the form of actual experience helps each girl individually in the preparation of wartime meals.

Did you ever hear of a peanut and bacon sandwich? Or a mixed vegetable sandwich? No? Just ask any ninth grade homemaking girl how to make one and she'll fix up a box lunch with unusual sandwiches and really good things to eat.

Father, we thank Thee that Thy light and Thy love reach earth, open the prison to them that are bound, console the innocent, and throw wide the gates of heaven.

Senior Sketches

Marian I. Oldenburg, daughter of Mr. and Mrs. John Oldenburg, 418 Blunk avenue, is taking a commercial course and plans to be a secretary. She has participated in the one-act play contest, junior-senior get-together, junior play, senior play, J-Hop, Girl Reserves, Drama club and sports. Marian's hobbies are writing letters and making scrapbooks. People who can't be friendly are her pet peeve.

Two-faced people are just the sort of folks who had better steer clear of Betty Spicer. She is the daughter of Edwin and Grace Spicer of 11419 Auburndale, Rose-dale Gardens. She is completing a commercial course and after school plans to do secretarial work. Betty is a member of the Junior Red Cross and has been on the committees for the junior-senior play and the senior prom. Her hobbies are mainly painting and drawing.

To work in a defense plant for the duration is the aim of Joyce Penny, daughter of Glen and Margaret Penny of 44675 Joy road. Dancing to popular music and week-end passes, particularly the latter, are her hobbies. Joyce has been a member of both Girl Reserves and the school bowling team. Her pet peeve is the guy whose voice is thrilling millions. She has taken a general-commercial course.

Lila Mumby, whose pet peeves are indifferent people and playing cards, is following a commercial course. She has been a member of the Girl Reserves and the glee club and has worked on the senior prom committee. Her hobbies are swimming, basketball and dancing. At the present she is employed at the Michigan Bell Telephone company, but she is undecided as to what she will do in the future. Lila is the daughter of Mr. and Mrs. Harry Mumby of 1312 West Ann Arbor trail.

After three years of college prep course Edith Nolte, daughter of Arnold and Aurelia Nolte of 14269 Minehart drive, will graduate. She has won several prizes in speech contests. She was the treasurer of the Junior Girl Reserves, and has had a part in both the four one-act plays and the junior-senior play. She is the treasurer of the Hescos. For two years she was the chairman for election board for her class. Her hobbies are bicycling and baton twirling. Haughty boys are her pet peeve. Edith plans to attend college, where she will prepare for newspaper work.

Myrtle Ione Schrader, better known as "Myrt," is the daughter of Maude and Owen Schrader of 1859 Canton Center road. Despite the fact that she has taken a commercial course, she anticipates attending a girls' school in Virginia next year. Myrtle has worked on a committee of the J-Hop and was a member of the Girl Reserves and is on the school bowling league. Dancing and sports are her hobbies.

Corrine Schiffler, a January graduate, is the daughter of Walter Schiffler of 18655 Francis street. She was a member of both the prom and J-Hop committees. Her pet peeve is "stuck-up people." Corrine is now employed by the Burroughs Adding Machine company and plans to be married in early summer. She particularly enjoys dancing and crocheting.

People who are always late is the pet peeve of Jean Warren, 1294 West Maple street, daughter of Mr. and Mrs. J. C. Warren. Jean's hobby is roller skating. She is taking a general course and plans to go to business school and then become a stenographer.

Here and There

Esther Witkowski spent an exciting week-end in Chicago doing shopping. Saturday and Sunday she went dancing at the USO.

Jean Ann Livernois entertained Mary and Joe Fitzgerald at a surprise birthday dinner for Norm Livernois last Wednesday evening when Norm celebrated his 18th birthday. After dinner they went to the show and saw "The Desert Song."

Bob Sheppard was the guest of Edith Nolte on Easter Sunday. After church they had dinner at Edith's home. In the afternoon they went through the Felician Sisters' convent.

Jean Ann Livernois and Mary Ann Cylkowski, who attends St. Joseph academy in Adrian, went to the Palms-State theater last Monday and saw "The Heavenly Body" and "The Cross of Lorraine."

Dick Groth entertained Nat Reitzel, George Valrance, Jim Thornton, Nancy Groth and Marilyn Vershure at a breakfast on Easter morning.

June Basset gave a spaghetti supper last Friday night with Lois Vetal, Leona Bakhaus, Donna Tiltonson, Mary Lou Rowe, Barbara Davis, Phyllis Christenson, Margie Basset, Gordon Vetal, Don Vetal, Willie-Schwartz, Tom Robertson and Chuck Rowe as guests. They all went to the "Bunny Hop" afterwards.

Dot Petschulat, Dick Erdelyi, Jerald Frisbie and Barb Litzenger saw "The Purple Heart" at the Martha Washington theater in Ypsilanti Sunday night.

Velma Brunz, Doris Blancher and Elizabeth McCarthy saw "Song of Bernadette" at the Fox Sunday evening.

Last Thursday evening Betty Jean Duff was hostess to a party in her home at which the following were present: Connie Moncreiff, Lorraine Nichol, Shirley Nichol, Bill Bennett, Russ Downing, Audrey Neal, Mitsy Jacobson, Bob Hall, Jack Labbie, George Newton, George Waters, Gloria Eckles, Jack Howard, Bernard Birt, Harry Curtner, Don Korte, Merlin Datcher, Ray Runkel, Don Sheley, Cass Hoffman, Rex Parrish, Adelmia Tandbergh and Fritz Van Lou.

Mrs. Bixler entertained the Drama club at a luncheon in her home Tuesday evening.

Violette Brown saw "Lady in the Dark" at the Fox last week-end.

Jean Mack, Veronica Kucie, Marjorie Elliot, Wanda Merritt, Lois Bryan, Laitia Pierce, Audrey Noble, Bernice Miklosky, Marilyn Belkote, Marion Miklosky and Lucille Kilponen helped Elaine Sanko celebrate her birthday April 15. The girls played bunco and gave an amateur show.

PHS Teachers Hear Lord Halifax

Viscount Halifax, British ambassador to the United States, gave the address at the annual honors convocation held in connection with the Michigan Schoolmasters' club's 58th annual meeting April 21 at the University of Michigan. This convocation honored all students of the university who have won special honors or have done work of exceptional merit in the past year. At the Friday morning general session of the Schoolmasters' club, which all teachers of Plymouth high school attended, Robert C. Wallace, principal and vice chancellor, Queen's university, Kingston, Ontario, Canada, spoke on "Looking Ahead in Education." On the evening program, Willis R. Peck, division of science education and art, department of state, Washington, D. C., formerly United States minister to Thailand, gave an address on "The Wartime Cultural Exchange Program With China." Also on Friday a conference of deans of women and counselors of girls was held in the Michigan league with Miss Consuelo Rodriguez, teacher in San Juan high school and vocational and educational counselor in Coama high school, Puerto Rico, who spoke on "Education in Five Languages." At the Saturday morning general session Carl Joachim Hambro, formerly president of the Norwegian parlia-

ment and of the League of Nations assembly, and Edgar B. Wealy, University of Michigan, director of the joint committee on American history in schools and colleges, were speakers. The program this year was the best the club has presented in many years.

Girl Reserve News

Mrs. Marjorie Bingham, botanist from Cranbrook Institute of Science in Bloomfield Hills, will speak at the annual Mother and Daughter banquet May 10. Mrs. Bingham, who will speak on "Michigan's Good Green Earth," would appreciate it if someone in the community could be generous enough to drive her back to Bloomfield Hills after the banquet. Anyone who could do this may call Mrs. Lickfeldt, 705-W, after 5 o'clock.

The Girl Reserves have decided to call off the amateur show to be held during the fifth war loan drive because the date for the drive has been set at June 12, which is after all examinations are over. School year ends on June 16.

Pancakes and sausages compose the main part of the menu for the annual May 24 breakfast. Mary Brandt is general chairman.

Due to a change in the budget for the Mother and Daughter banquet the club voted not to give free tickets to the girls working on committees. The banquet is not given to make a profit but the girls do want to break even. The club will pay only a part of the cost of the tickets for the workers.

A Girl Reserve election board has nominated officers for next

year to be elected at the meeting April 26. Four points were considered in nominating: 1. activities participated in; 2. responsibility and capability of holding the office; 3. ability to get along with others; 4. degree to which she has lived up to the Girl Reserve constitution and by-laws.

The following girls were nominated: Elaine Kunkel and Eleanor MacDonald for president; Anna Marie Cooper and Marion Fisher, vice president; Carol Hubbell, Rosemary Miller and Joan Gillis, secretary; Clara Simonetti, Kay Fisher and Betsy Ross, treasurer, and Jean Norgren and Peggy Hart, council member.

Sports Short

Everybody was surprised to find a nice, well-varnished gymnasium when they returned from a short spring vacation, but they were more surprised when they again found the gym all marked up from street shoes after orders were given that nobody should enter it in any shoes whatever.

Jay Dasset did 1,000 setups and was still able to walk to the shower room.

This is the finest baseball weather in years—rain, rain and more rain. The track team has canceled its meet with Rouge at Ann Arbor's Yost field house because of lack of practice—rain, you know.

Interest in Consolidation Assures Big Vote Saturday

Interest in the Saturday election on school district consolidation in Livonia township has been increasing at a greatly accelerated rate as the electors collect more information about the advantages to be gained. Three well-attended meetings addressed by representatives of the department of public instruction and local speakers, and enlivened by the showing of a highly interesting and informative film entitled "Pop Rings the Bell," demonstrated the keen interest fathers and mothers are taking in improving the educational facilities for Livonia children.

Nor is the interest limited to fathers and mothers of children of school age. Earl L. Bedell of 38111 Five Mile road and G. A. Bakewell of 38105 Plymouth road, speaking in behalf of those who have no children of school age, say, "We are just as much interested in seeing that the children of our neighbors and friends have a good education from kindergarten through high school as we would be for our own children. We believe that consolidation is the first step in that program."

One of the considerations which convinced the voters of Livonia township that there must be very careful long-term planning for their children's education is that the number of children in the township under 5 years of age is almost twice the number from 10 to 14, inclusive. This means that there will be a steady increase in school membership, even though no more people move into this area. It is felt that the consolidated district could plan much more effectively and economically for this increase.

The Livonia township people are aware of the necessity of selecting five of their outstanding citizens to the new township school board when consolidation becomes effective, if they are to protect their gains. To that end there has already been some discussion as to the availability of certain persons for membership. It is felt that the most desirable candidates will be those who are drafted into service rather than self-starters.

It is to the distinct credit of all the people of the township that this entire campaign has been conducted in a spirit of neighborliness and fairness without personalities entering into the picture. Such a spirit, they believe,

will insure the success of the consolidation when voted.

Carbon dioxide, bottled in liquid form obtained by compressing it to 1/460th of its normal volume, returns to its gaseous state with such speed and force, when uncorked, that army and navy air-men use it for many purposes, one being to open jammed bomb doors in emergencies. Two pounds of this liquid produce sufficient energy to raise 25 tons one foot in the air.

Yes, most Long Distance calls are handled as quickly as ever — while you hold the line.

But many others — especially those to war-busy centers and to far-away points outside Michigan — meet delay. They must pass over lines crowded with war calls and through switchboards loaded to the limit.

The tip-off that lines are extra busy is the operator's "Please limit your call to 5 minutes." This request means that others are waiting a turn to talk.

By being brief on your call, you will help other important calls get through.

Makes Changes on Price Panels

William Wood, chairman of the Plymouth war price and rationing board, announced this week some additions and changes to the various price panels of the board.

Two new members of the price panel were appointed. They are Mrs. Dow J. Swope and Cal Simon, and Steve Schomberger, who has been a member of the industrial panel, was shifted to the price panel are William Pettigill, chairman; Mrs. Catherine Henderson, Preston Fuller of Northville, and John Gillis.

H. T. Valrance of Rosedale Gardens was made a member of the fuel oil panel.

Gives Rotarians Heat Saving Tips

Rotarians were given tips on ways to keep warmer with less fuel at the meeting last Friday when Fred C. Weinert of Rosedale Gardens presented them with statistics gathered by the National Engineering society.

Mr. Weinert, a member of the national fuel conservation committee, presented many interesting facts in regard to the values of different materials as insulating agents and told of the advantages of some building materials over others from the standpoint of retaining heat.

He expressed an opinion that coal rationing would become a reality this summer and urged coal users to replenish their supply at once to avoid a last-minute rush. He also told club members that in homes with oil burners a saving of almost 10 per cent on a yearly oil consumption could be made by turning oil burners down 10 to 15 degrees each night.

What is the **Plymouth Public Forum**?

It is a council-type organization planned to provide a neutral platform for the frank presentation of all sides of vital public affairs. It is non-sectarian (all Churches are invited to participate); it is non-partisan and non-profit.

Every Plymouth organization (club, society or association) is urged to select a representative who will be a member of the Trustee Board that will elect officers and develop the program. Dues are now \$2 per organization plus 1 cent per member. For example, if your club has 60 members, the yearly dues would be \$2.60. An early response to your desire to participate will be appreciated in order to set an early date for the Annual Meeting for election of permanent officers and arrangement of future programs.

The public is cordially invited to all Forums free, every Friday night at 8 o'clock.

Become a Sponsor

As an individual, you are invited to become a "Sponsor" by sending in a donation of \$1 up. You will be mailed booklets as often as available, on coming Forums, so you can come prepared to take a more active part in discussions. These booklets are timely, authoritative and fill a definite spot in your reading program and library.

Suggest Topics for Discussion

If you or your organization have a topic you would like scheduled, mail it in. If you can supply speakers on it or can tell us where to find experts, state it.

Why Is It Incorporated?

A charter was granted by the State of Michigan to give the Forum sole right to use the name for 30 years. It makes it responsible because annual reports must be submitted to the State.

Coming Forum Topics

- April 21—Victory Gardens explained by color films and speakers. Be sure to bring the kiddies.
- April 28—"Needs of American Youth in War-Time," Professor Morse of Ann Arbor; film, "Boy's Town."
- May 5 (Starkweather School)—"Should Congress Adopt the Socialized Medicine Bill?"
- May 12—"Should the City Provide Post-War Jobs?"; film, "The City."

 "THEY ARE THE DIRTIEST
 LOOKING THINGS I
 HAVE EVER SEEN"
 ★ ★ ★ ★ ★

Dan J. Dugan, serving as a pharmacist mate on a big U. S. navy craft somewhere in the Pacific, the other day had his first opportunity of seeing some Japs close at hand. He made a visit to one of the Marshall islands that had recently been taken by the fleet from the Japs.

"To say the least, they (the Japs) are the dirtiest looking people I have ever seen. They had tunnels dug underground all over the island in which they stayed most of the time," wrote the navy lad to "Our Boys" column the other day.

"We were in the Marshall island invasion, but never met any of the boys from home. I did meet Chuck Minthorn after I got back into port. It sure was nice to talk to someone from home.

"I cannot tell you how much I appreciate The Plymouth Mail. It has been coming pretty regular most of the time. I read where Plymouth had a blood drive. When I first entered the medical corps two years ago the first thing they taught us was how to use it. The blood of the people of Plymouth and elsewhere are giving us saving hundreds of lives of our boys who are fighting on the front. I have used it quite a lot in my work and it really is great how it works. People who donate blood should be glad they have done so."

 GETS HIS WISH, HE'S
 BEEN ASSIGNED TO A
 BIG LANDING CRAFT
 ★ ★ ★

Sometimes it seems strange the type of service in the army or navy that a lad desires to be assigned to—who would ever think that the courteous, lightweight Jack Sipes, former bank teller at the Plymouth United, would want to be a big LCI? Well, that's what he wanted, and that is what he has been given, according to letters just received from him from somewhere in Italy. The letters stand for landing craft, infantry. He states that he has always wanted duty on a ship since getting into the service.

"All I can say is that I have been in Italy, and it wasn't very sunny at the time," he writes.

"Give my regards to all and tell them to write me occasionally by V-mail."

 PLYMOUTH BOYS ENROLL

Robert Frederick Bovee, 17-year-old son of Mr. and Mrs. Donald F. Bovee of Ann Arbor trail, and William Elbridge Baker, 17-year-old son of Mr. and Mrs. Henry E. Baker of 1373 Sheridan avenue, have recently enrolled in the navy V-12 unit at Central Michigan college, Mount Pleasant.

Entrance into the special training unit enables the student seaman to take a series of approved university courses. The regular academic curriculum is supplemented with military drill, physical education and naval organization. The young bluejackets will also have the opportunity to participate in competitive sports and campus activities.

Satisfactorily completing the V-12 program the seaman will be sent to one of the many midshipman schools established for the training of naval reserve officers. After successful completion of the midshipman course, the two Plymouth bluejackets then may be commissioned as ensigns in the U. S. naval reserve.

The two men who write the 60-odd types of income tax forms for the bureau of internal revenue did their greatest job of "compressing" in the preparation of the instructions for filing in the 1040 and 1040A blanks for 1944. Into these five pages, the writers had to compress a law that, with its regulations, consists of more than 650 book-size pages.

 SAYS AVON PARK,
 FLORIDA IS A
 REGULAR PARADISE
 ★ ★ ★

Aviation Cadet Ray Harrison, who was recently assigned to the Ludwick Aviation Military academy at Avon Park, Fla., writes that the place he is at present located at is "a real paradise."

In part, his letter follows:

"We are staying at a beautiful hotel that was formerly used for tourists. It has been leased by the air force and is now being used to house the cadets. It is located right on the bank of a beautiful lake.

"I've been here less than a week and I have already started to get a tan. The weather is really warm. This is without doubt the best place I have been located in since I entered the army over a year ago. Usually there are always a few fellows who will find fault with anything, no matter how good it is. But here I have yet to hear one say one word against the place. It is the closest thing to civilian life we have seen for quite a while. We can really enjoy ourselves during our spare time. We have every kind of sports available and a fine place to swim. Certainly like to get The Mail."

Ray enclosed a number of pictures of the place, and it certainly must be a delightful hotel in which to be living while in training.

Since 1832, members of 18 different U. S. congresses have introduced 26 joint resolutions proposing a constitutional amendment to limit the presidency to one or two terms. But only two of these resolutions, made in 1821 and 1825, ever reached a vote on

the floor of either house and they, although passed by the senate, died in committee in the house of representatives.

YOUR "HIGH COST OF LIVING" WOULD BE LOW
 if all prices were as low as
ELECTRICITY!

"You take the high road and I'll take the low road" might well apply to the picture above. The rough and rocky mountain path shows living costs during two World Wars, including such items as food, clothing, rent, household furnishings, etc.

The downhill road is the average price of household electricity. The price of electricity has gone down. Because of many rate reductions and greater use, its cost to you has dropped steadily. The trend is still downward. Electricity is cheap. Today in the face of rising living costs, electricity is one of the smallest items in your family budget. It costs half as much as in the last war.

Can You Picture MICHIGAN without its Fire Fighters?

Maybe you've never had to call the fire department — maybe you never will. But it's a mighty comforting thought to know that it's there, ready night and day to save you and yours from one of man's most treacherous and terrifying enemies.

The heroic work done by fire fighters in so many of the towns and cities of our Allies, which have been showered with incendiaries and explosives, is drama itself. The job of our own firemen right here at home in Michigan may be less spectacular but it's no less important—particularly to us. Yet most of us give little thought to this vital safeguard of our everyday life—until an emergency comes along.

There are 3,438 men in Michigan whose full-time job is the protection of lives and property of the citizens of this State. These are the regular firemen—

but there are thousands more who are ready to do their share at a moment's notice, the volunteer firemen.

To all of these valiant men, we of the Greyhound Lines pay sincere tribute. We're proud of these fellow-citizens—thankful for them, too. And we feel we have at least one thing in common with them. They're fighting hard to improve the safety record of our State and so are we. In these tense and busy days, we feel that Greyhound, in providing safe, convenient transportation between this community and its good neighbors, is also playing its part in making Michigan a safer, happier place to live.

Heavy Crop of Fruit Predicted
A check of the fruit farmers in the Plymouth area shows that most of them are expecting heavy crops this year in almost all types.
One farmer who caters to cherries, plums, apples and pears said that there is every indication that there will be an exceptionally large crop this year.
A check of the peach farmers brought the same information.
Most of the farmers believe that the short crop last year will mean a heavy crop this year, barring some unforeseen blight or freeze, which could reduce the production.
However, most of them feel that this is the year.
While there is no definite information available, most of them also believe that the price will be lower this year than it was last year when the short crop sent prices skyrocketing.

Minor Changes in Sugar Ration
There have been a few minor changes in rationing sugar for the coming canning season.
However, for the most part, there is little change over the program of last season.
Each consumer can buy five pounds of canning sugar with sugar ration stamp No. 40 in war ration book No. 4. After that has been purchased and used, each consumer may then apply to the ration board for a special allotment of canning sugar amounting to 20 pounds per person.
Users are asked to estimate their home canning needs carefully and apply only for as much sugar as actually needed.
Spare ration stamp No. 37 will be detached from the ration book and attached to the special rations when the application is made.
The change in the rationing program for sugar is that there is absolutely no requirement that the sugar be used exclusively for canning fruit. Therefore, it may be used for making jellies and jams or for canning pickles.
Heretofore, it has been necessary to show that fruit has been canned with the sugar received.

Wilson Funeral City's Largest
Funeral service for former Sheriff Ira Wilson, held at the Schrader funeral home last Saturday, was one of the largest, if not the largest, ever held in Plymouth.
And in addition to being one of the largest, it brought to Plymouth one of the largest delegations of men prominent in the public life of the state and the city of Detroit.
Included among those who paid their tribute to the former sheriff were Mayor Jeffries of Detroit, ex-Governor Brucker, Senator Ferguson, and practically every prominent political figure in Detroit.
It was estimated that more than 600 persons crowded into the Schrader funeral home for the service.
The Rev. T. Leonard Sanders, pastor of the Methodist church, delivered the sermon. Music was furnished by Herbert Peterson, soloist with the Commandery choir from Detroit, accompanied by Mrs. M. J. O'Connor.
Burial was at Newburg cemetery.
There were more than 150 large and beautiful floral tributes at the service.
Broker's Tip was the only horse in American turf history whose first and last winning race was the Kentucky Derby, which he won in 1933.

Babson Says -

There Are Seven Major Goals to Seek

Babson Park, Mass., April 21.—The U. S. is probably headed for a \$3,000,000,000 debt which no one likes to think of. Yet, at 2½ per cent interest this is not so bad if it can gradually be reduced. This interest is all paid to the people of our country. None of it leaves the U. S. A. Of every dollar received by us as interest, a certain proportion must be returned to the government as taxes. Hence, in a way, the debt will be self-liquidating as well as a business stabilizer. Every cloud has a silver lining.

On the other hand, we must not be too free with our money. We cannot expect to put the whole world on a new deal. If the new deal could not stand on its own feet here in this country, so we could not pay for it except with borrowed money, what can we do for the whole world? We are not justified in borrowing money to support millions in depressed countries with nothing back of them in industrial or farming facilities. Let us be generous with such money as we have, but not go into more debt to give away more money.

Also remember that if our cost of producing goods, including farm products, continues to increase, this will harm our American workers and farmers who are the backbone of our nation. It stands to reason that we cannot keep our social gains if we try to save the rest of the world by letting them send in their cheap goods that are made with cheap labor. If we do let in these cheap goods, millions of American workers are going to be out of jobs. Then our war bonds could be a burden.

After the peacemakers get under way with their trade agreements, international bank, etc., and when unemployment is rampant because of foreign competition, and after the borrowing comes to an end, what will happen? I assume that then the new dealers will want to start new government WPA projects to provide housing, clothing, and goods for idle workers. Yet, there is no need for this.

The alternative is to keep the cost of goods down so as to be able to meet competition during the years ahead. What is the sense of now building our costs sky-high when we know they must tumble after the war. In the meantime, the ultimate consumer will pay the bill. This will happen in spite of any labor or other organizations. Only wise investors and those engaged in active business can pass these costs along.

To win the battle of production is the supreme task today of both employers and wage workers. Private enterprise must prove its real usefulness to the country at this time of crisis and demonstrate its right to survive. It is the responsibility of all groups to produce the best possible product in quantities as large as needed at the lowest possible cost consistent with fair wages and a fair return on money invested.

America needs a national philosophy of teamwork. For business this means teamwork within each concern and teamwork with labor, competitors, the public and the government. Though alien armies may be conquered, alien philosophies can still overrun the land. Industry is one of the first targets. The true battle line is between patriotic elements in management and labor on the one hand, and the self-seeking elements of the other.

Seven postwar goals:

1. Industry should give as much thought to building men as to producing materials. The exploitation of human beings is the certain road to revolution. Industry must win the battle against fear, hate and greed. As America has found the power to harness the forces of physical nature, so it must now learn how to harness the forces of human nature. This is God's plan for a better world.

2. We all should cease talking about the abundant life and again teach that life is struggle. Homes, schools and colleges should once more put the emphasis on sacrifice, training and the good of all. But all must be given more equal opportunities, irrespective of color or creed.

3. Fewer laws should be enacted but greater emphasis will be put upon law enforcement. Accompanied with this there should be a movement to let natural law work more freely. There will be fewer subsidies to unfortunate farmers, inefficient manufacturers and independent merchants. There however will be a recognition that the safety of the nations depends upon prohibiting certain commercialized evils.

4. Big cities should be decentralized. This is the only known protection against bombing planes as well as against social hazards. This may be accomplished by some method of taxation that will encourage more people to live in the rural sections.

5. Voting some day should be restricted. Because one is of age,

he is not necessarily entitled to vote irrespective of character, intelligence or record. This does not mean that one must own property in order to vote; but it does mean that prospective voters should successfully pass certain fair tests to eliminate the unworthy.

6. Religion must again become a part of the nation's educational system. The church, however, will be stripped of its superstitions, dogmatism and business enterprises. Churches are due for a rude awakening, severe taxation and a general purging; but the

church will come out of this more useful than ever.
7. Finally, biology and the importance of BLOOD and SOIL should be given greater consideration. Those who breed and best train the most children will ultimately control. In the meantime, the democratic countries will have become more democratic; while the autocratic countries will have become more totalitarian.

25 Years Ago

News items of a quarter of a century ago taken from the files of The Plymouth Mail.

W. H. Brown, who has served as postmaster of the Plymouth post office for the past several years, tendered his resignation to the post office department several weeks ago.

The annual meeting of the Order of Eastern Star was held in the Masonic hall Tuesday evening. The following officers were elected for the ensuing year: Worthy matron, Maude Schrader; worthy patron, C. H. Rauch; associate matron, Carrie Hillmer; secretary, Luella Chappell; treasurer, Lena Willett; conductress, Flora Rathburn; associate conductress, Lyla Chambers.

At the recent town meeting the following money was ordered raised by taxation for the coming year: Contingent fund, \$1,500; highway fund, \$3,500; total, \$5,000. The township board made a recommendation for \$2,500 for the contingent fund, but the amount asked for was cut down to \$1,500. There is now over \$8,000 in the township strong box, which is the largest sum that the treasury has ever previously contained at this time of year.

A meeting was held at the home of Mr. and Mrs. S. W. Spicer last night for the purpose of appointing a community committee to cooperate with the Wayne county farm bureau.

The only woman to be awarded America's Medal of Honor was Dr. Mary E. Walker, who received it in 1865 for her work as a federal army surgeon on the battlefields of the Civil war. But in 1917, two years before her death, the decoration was revoked by the board of medical awards because the war department records did not contain the specific reason for its presentation.

VICTORY'S SONS

ALL THE guns on the cruiser San Francisco were pouring into a sinking Jap warship with the exception of an anti-aircraft pom-pom manned by Marine Corporal Walter Ramsy. He was standing by, on watch for hostile airplanes.

Corp. Walter Ramsy

A searchlight beam picked out the San Francisco. It was from a Jap super-dreadnaught. Realizing instantly that his was the only gun trained toward the battleship, Ramsy, a veteran of Pearl Harbor and many other actions, shot out the light. But the Jap gunners had found the range.

Concussion from a 14 inch shell knocked Ramsy out. When he came to, he tied up his badly burned hands, and staggered forward to navigation deck to fight a fire. Another salvo hurled him 20 feet below, where he lay for hours under eight bodies. His legs and face were bleeding. Five of his ribs were fractured. Rising water from the firehoses threatened to drown him. Somebody pulled him out, and he lost consciousness.

When he recovered, he was made an orderly on inactive duty. But as Corp. Ramsy goes about his errands, he yearns to get back into action.
