CALVARY BAPTIST CHURCH—Ann Arbor Trail at Elizabeth street. Lynn B. Stout, pastor. Invasion or no invasion, fair weather or foul, peace or war, the Lord's house should be filled with the Lord's people on the Lord's day. But it sure is a bad sign when on the verge of the greatest battle that our country has ever been engaged in, when the list of dead and missing will double over night, to find our Wednesday night prayer meeting gone out of business—the house of God darker than an Egyptian tomb on Sunday night and a pitiful few in comparison to the population fidgeting through a thirty minute sermon on Sunday morning. Come to church on Sunday. Come to pray Wednesday night. Don't wait for a minute or two on "D" Day. Start praying now. Students Run City For a Day

For one full day, the city government of Plymouth was operated by the "youth" of the Plymouth high school last week, and during that period Plymouth grew, prospered and got along fine. There was no squabbling among city commissioners. There was no incessant and silly talk for the purpose of making an impression upon a few spectators gathered at the "city commission" meeting. There was no backbiting and no one started any scandalous stories in order to hurt some one they didn't like. In fact the young people of James Latture's government class, did a fine job.

"City Manager" Ed Strong when he heard a "complaint" about the police department, stood manfully by his department and declared that it was doing a good job.

He recommended to the "city commission" that the improvements to be made during the coming year should be of the permanent type, such as pavings, sewer construction and extension of water mains.

The youngsters also favored a recreational center for the boys and girls of the community, but decided that there should be proper adult supervision.

Shirley Luttermoser acted as "mayor" for a day and she demonstrated the fact that she believed in doing something worthwhile instead of talking all the time.

Other members of the city commission besides Miss Luttermoser were Irene Nicodopol, Valeria Kolin, Kenneth Brinks and Sanford Burr.

City treasurer was Betty Spicer. Five secretarial jobs were given to Elizabeth Karns, Norma Robinson, Lucille Zielasko, Joyce Whitehead and Catherine Trinka. Chief of police was Robert Dale. He had only one officer with him—Jack Vershure.

Other city officials for the day were:

Fire chief—Wilfred Aubrey.
City engineer—Robert Schultz.
Health officer—Bernard Burt.
Cemetery Sexton—Arnold Phillips.
City mechanic—Ewart Gladstone.
Milk inspector—Warren Barget.
Meter reader—Robert Bingley.
Assessor—Robert Majors.

The young students demonstrated the fact that they believed in cooperation among themselves in order to bring about an orderly conducted government. There was no "horseplay" and a lot of good common sense was used by the youngsters. Apparently Instructor James Latture has been doing a splendid job in impressing his students with the seriousness of a public position. At least the student "officials" for a day gave observers that belief.

Tung oil (also called wood oil) was imported from China for use in making paints, enamels, linoleum, tiles and printing inks. In wartime, many imports have been cut off entirely. This makes saving of waste kitchen fats more important than ever. Save every drop! Turn it in for cash and extra ration points.

Seek Aid From Livonians

Did you ever live in Livonia township?
Were your parents born there—or maybe your grandparents?
Are any of your relatives buried in the old Livonia cemetery, corner of Farmington and Five Mile roads?
If so, then you surely are interested in seeing to it that the Livonia cemetery is properly maintained.

For years and years this burial place, containing the remains of many, many of the pioneers who made possible the cultivated farms and communities hereabouts, was maintained by the Ladies Aid society of the Little Union church located nearby. Then a number of years ago the Livonia Cemetery Association was organized.

Riley Wolfson is president of the association and W. M. Garchow is secretary.

The officers are right now in need of funds to place water mains to the cemetery and make other improvements. The old pump that did service so many years, is no longer useable.

Do you want to help to improve this historic burial place in Livonia township?
If so, just make out a check to the Livonia Cemetery Association and mail it to W. M. Garchow, secretary, whose address is R.F.D. No. 3, Plymouth, Michigan. The members of the association will be grateful—and you will be doing something to honor the pioneers of years gone by.

We have the resources in America—and therefore we are resourceful.

Mrs. Yerkes of Northville Dies

Funeral services for Mrs. Donald Purdy Yerkes of Northville who died suddenly last Saturday afternoon were held Tuesday afternoon in the Presbyterian church at Northville. From young girlhood, Mrs. Yerkes had been a member and an active worker in the church from which final rites took place.

Mrs. Yerkes was a daughter of the pioneer Purdy family of the little community known in past years as Meads Mills, located just south of where the present Ford plant at Waterford stands on the Plymouth-Northville road.

She was an active member of the D. A. R. and was well known in Plymouth. Burial took place in the Yerkes cemetery on Base Line road just east of Northville. Many from Plymouth attended the services.

Surviving are her husband; three daughters, Mrs. Winfield L. Holden, Mrs. John C. Burkman and Mrs. Harold R. Smith; a son, D. P. Yerkes, Jr.; a Sister, Mrs. Harry L. Weaver, of Traverse City; seven grandchildren and four great-grandchildren.

Rotarians Hear New Members

It is a practice in the Rotary club when new members are taken into the organization, for these new members to tell the other members about their occupations and its importance to the community and country.

Recently Harry Davis, who some time ago purchased with Wendell Lent the former Wild & Company men's furnishing store on Penniman avenue, told members of the Rotary club just how it happened that he came to Plymouth to go in business.

"The day I came over here from Flint to visit some of my relatives who reside here, I didn't have the slightest idea of ever going in business in Plymouth. But before the day was over, Wendell Lent and myself had purchased the popular men's store on Penniman avenue," said Mr. Davis.

"Every passing day, I have been glad that I did do so. I have found Plymouth to be one of the finest little cities in the country and I am highly satisfied with the move I made."

Previous to coming to Plymouth, Mr. Davis was a well known business man of Flint.

The other speaker was Horace Johnson, who is associated with the Dunn Steel Products company. Mr. Johnson displayed to the Rotarians a large assortment of the products of the Dunn Steel company that are at present so important in the nation's war.

"But we are looking forward to the day when the war is over and we are preparing for that time. We hope to have our factory just as busy; if not busier than at present, turning out products that will be needed in the making of new automobiles," said Mr. Johnson.

Is it better to lead a narrow and intense life; or to branch out in more unconventional ways? How much experimenting is worth while? Every man must decide this for himself.

An Ordinance to License and Regulate Taxicabs in the City of Plymouth, Michigan.
THE CITY OF PLYMOUTH ORDINANCES:

Section 1.
No person shall engage in the business of operating a taxicab upon the streets of the City of Plymouth without having first obtained a license therefor for each of such taxicabs as herein provided.

Section 2.
Application for license under this ordinance shall be made under oath and in writing upon blanks to be furnished by the City Clerk, and shall state applicant's full name; whether married or single; age and residence, and the make, ownership, engine number and license number of the automobile to be used in said business and its seating capacity, and that the applicant is a citizen of the United States, a voting resident of the City of Plymouth and of good moral character. Each applicant shall be certified by at least five residents of the City of Plymouth who have been personally acquainted with applicant for at least one year; that applicant is a person of good moral character and is not addicted to the use of intoxicating liquors. The Police Department shall make such inquiry as it shall deem necessary in regard to the applicant and within a reasonable length of time shall endorse upon the application its approval or rejection. In the event of such application being rejected, the Police Department shall note thereon their reasons. No such license shall be issued to any person less than twenty-one years of age, or who has within the preceding twelve months been convicted of any violation of ordinances of the City of Plymouth or laws of this State involving intoxication or moral turpitude, or three times convicted of a violation of any traffic ordinances of the City of Plymouth.

Section 3.
Upon the approval of any application by the Police Department the City Clerk shall issue a license to such applicant for their operation of a taxicab under the provisions herein upon such applicant paying a license fee and filing an insurance policy as herein provided. All of said licenses shall expire upon the 31st day of December after the date of issuance thereof.

Section 4.
Before the City Clerk shall issue a license, each applicant shall pay to the City Treasurer the following fees: For each motor vehicle capable of seating five passengers or less, the sum of Twelve (\$12.00) Dollars; for each motor vehicle capable of seating more than five passengers, the sum of Twelve (\$12.00) Dollars and in addition Three (\$3.00) Dollars for each additional passenger which said vehicle is capable of seating; provided, however, the license fees provided for in this section shall be prorated on a

monthly basis from January 1 to December 31.

Section 5.
It shall be unlawful to operate a taxicab or permit the same to be operated, nor shall any license be issued hereunder, until and unless the applicant for license deposit with the City Clerk and City Attorney a prepaid policy of liability insurance for each taxicab for which a license is sought or a Blanket Policy covering all his cabs, said policy to be acceptable and approved by the City Clerk and issued by a company authorized to do business in the State of Michigan, indemnifying the applicant in the sum of at least five thousand (\$5000.00) dollars for injury to one person or ten thousand (\$10,000.00) dollars for injury to more than one person, and five thousand (\$5000.00) dollars property damage in any one accident, through the operation of the taxicab of the applicant. The policy of insurance so deposited shall contain a clause, obligating the company issuing the same to give ten (10) days' written notice to the City Clerk before cancellation thereof.

Section 9.
All vehicles licensed under this ordinance shall be kept in good repair, in good mechanical order, and in a clean and sanitary condition. The Police Department shall have the right to examine or cause to be examined all licensed vehicles for the purpose of ascertaining that the provisions of this section are complied with.

Section 10.
No person shall act as a driver of a taxicab upon the streets of the City of Plymouth unless he shall apply for and obtain a taxicab driver's license. Each applicant for a taxicab driver's license shall take and successfully pass a test before the Police Department relative to such applicant's knowledge of the traffic laws and ordinances of the City of Plymouth, and be approved by the Police Department as competent as a driver of a motor vehicle, and a person of good moral character, and in addition, shall furnish a certificate from the City Health Officer that he or she is not suffering from any contagious or infectious disease.

Section 11.

The clerk, upon payment of a minimum license fee of One (\$1.00) dollar, shall issue a taxicab driver's license to the applicant when application has been approved by

the Police Department, which shall be valid until the 31st of the following December, and shall also issue said driver a badge similar to the badge issued to the taxicab licensee as hereinafter provided.

All taxicabs waiting at taxicab stands must be parked in single file.

Section 16.
The City Commission shall by resolution, establish the rates of fare to be charged by taxicabs engaged in the transportation of passengers, and no greater rate of fare shall at any time be charged by the operators thereof than that fixed by the Commission. A printed schedule of rates shall be conspicuously posted on each taxicab.

Section 17.
Any person who has made an application for an operator's or driver's license as herein provided and has been refused same, may file a written appeal to the City Commission, which Commission may order the license issued if in their opinion the applicant is entitled to a license as herein provided.

FOLK LITERATURE . . . A TALL TALE

Folk literature is the current subject of study in Miss Allen's eleventh grade English classes. This type of literature differs from ordinary writings in that it is made up by great masses of people and the original authorship is lost. America has gathered a great number of folk stories and ballads from the Indians, cowboys, lumbermen, sailors, soldiers, and mountaineers. A professor at Central State Teachers College in Mt. Pleasant has been attempting to enlarge the boundaries of folklore by collecting tales from the prairie folks and the Ozark people. One such example is the story about three men from Nebraska who had been on a fishing trip in Minnesota. On their way home they had run into a freight train and been killed. The men were to be cremated. The fellow in charge of the crematorium turned the heat on for the required length of time to dispose of the body of the first man and then removed his remains. He turned the heat on for the required length of time for the second man and then removed his remains. For the third time he turned the current on for the required time and when he looked through the quartz window before removing the remains, there was the man sitting up and fanning himself furiously as he declared, "Three more days of this heat and we won't get no corn crop at all." Tall stories of plains, heat, cold, blizzards, fires are the material of plains folk lore.

SUMMER BAND IS PLANNED

Many people will be pleased to learn that a summer program of band and orchestra concerts is in preparation with Mr. Luchtman as conductor. Concerts will be held every two weeks. The summer music department will be composed of four distinct divisions. The first group will be entirely made up of students who have been taking lessons during the past school year and will serve as preparation for joining the high-school band next year. Group two will be for people who have been taking lessons and playing for about two years. The third section will contain people now playing in the band and adults, while division number four will be a dance band (Mr. Luchtman directing) to play for the summer dances, to be held at the high school.

The rehearsals are to begin immediately after the close of the school, the week of June 20. Probably each section will meet and practice once every week.

To re-create cheerfulness, hope in God, or change the object of attention to one more elevated and worthy of thought.

—C. Simmons

Did you know there are more county officials in Wayne county than in all England.

Mr. Lature can't understand why marriage licenses are received through county officers while dog licenses are purchased from the city. They both cost two dollars. About the only difference lies in the fact that dog licenses must be renewed, but once someone gets a marriage license he's stuck for life.

Is it any wonder mail men get gray hair when one considers they often have to decipher such names as Menshort Drive and Winecest Drive for Minehart Drive.

In Miss Fiegel's third hour history class one boy defined the C.C.C. as the Civilian Conservation Corps. Bright boy.

At least there's one girl around school who lets nothing go to her head. When asked if she saw the play "Wake Up Willie," Betty Jean Duff pondered a moment and then replied she guess she hadn't. Why Betty Jean, you were in it.

The feud between Phyllis T. and Clarence H. resulted in a spilling of blood by the - Ahem - stronger sex last week.

Miss Fiegel was telling the fifth hour history class about the cruelty of Peter the Great of Russia and how so many men perished in the swamps on which the city of Leningrad stands when it was being built. Donald Rock asked what they filled the swamp in with, and Doris Sawtelle brightly spoke forth "men."

Senior Sketches

Waiting for his call in the Air Cadets where he recently enlisted is Andrew Mellburg, son of Hara and Earl Darring of 9983 Cardwell near Garden City. Having completed a general course in January Andrew is now a messenger boy at General Motors Building in Detroit. He was on the school football team for two years. He enjoys model airplanes and playing baseball. His pet love is having his hair messed up.

George Rathbun, who completed a commercial course in February, plans to join the navy in the near future. His hobbies are sports and collecting records. His pet love is girls who wear too much make-up. George is the son of Mr. and Mrs. Oral B. Rathbun, of 662 Kellogg Street. They Come in Twos

P.H.S. boasts of two sets of boy twins. The first set is that of Martin and Marvin Mepnyans, now completing their senior year. They always try to dress alike but make no attempt to have classes together. Stamp collections, music, and sports are favorite hobbies of the twins. Both associate with the same circle of friends.

While Martin is good in chemistry Marvin excels in history. They are planning somewhat related professions; Martin in the field of science and Marvin in the field of medicine. Though this Mike and Ike do not look alike, their names are very confusing.

Contrast these with the eleventh grade twins John and Fred Hopkins who are very frequently mistaken for one another. They have simplified identifications by not dressing alike. Both delight in having models and radio photography as their hobbies. They chum around with the same pals. While Fred enjoys history and English, John is at his best in Spanish. John has already decided to make radio his life work but Fred still can't make up his mind what he would really like to do.

Betty Lou Arnold Hesco President Betty Lou Arnold was elected president of the Hescos for the following year on May 16. Joan Miller was elected vice-president; Pat Keho, secretary; and Doris Sawtelle, treasurer. These officers will replace Rosemary Miller, president; Kay Fisher, vice-president; and Doris Sawtelle, treasurer. The last gathering of the Hescos will be a picnic in Riverside Park.

School Dances to Be Continued In connection with the summer recreation program a dance a week throughout the summer will be held in the gym. The dances will not be held to make a profit for any special organization but as recreation for the students of P. H. S.

An attempt will be made to secure a dancing teacher for senior high students who wish to learn to dance next semester. Twenty five to fifty people must sign up before the class is started. Elaine Kunkel

Elaine Kunkel became president of Senior Girl Reserves for the next school year at a recent election, with Anna Marie Cooper, vice-president; Carol Hubbell, secretary; and Betty Lou Arnold, treasurer. Elaine, Anna Marie, and Carol have been members of the club for a year and Betty Lou for four years. The new officers will be seniors next year. Twenty-five girls will graduate this June, leaving fifteen for a starter of 1944-45.

Mrs. Harold Stevens entertained the Girl Reserves who are seniors and their Adult Council at a tea in her home Thursday, May 18. Miss Allen and Mrs. Lickfeld poured. The tea was in the nature of a farewell for the senior girls and get acquainted games were played. Thirteen Counselors and 16 Girl Reserves were present.

The annual Girl Reserve May Breakfast was held in the park Wednesday morning at six o'clock. Mary Brandt was the general chairman with Carol Hubbell chairman of the food committee, Margaret Brown, devotions; Valerie Kolin, transportation and location; and Peggy Hart, program. Tomato juice, pancakes, maple syrup, sausages, jelly doughnuts, breakfast rolls and coffee or hot chocolate composed the menu. After breakfast the girls sang songs.

In character, in manners, in style, in all things, the supreme excellence is simplicity.

Class News

Mrs. Bixler's biology class has begun first aid study as an appropriate ending of the school year and as a safe beginning for summer when probably First Aid knowledge will come in handy.

Mrs. Lickfeld's seventh graders have a system of extra credit that brings up their mark while they review. The students do practice work from their books, but to get extra credit they must do at least ten problems and it must be a work. They also can bring in examples of checks, receipts, bills, or whatever they are studying.

Mrs. Tefft's tenth grade English classes, have been dramatizing parts from "The American Way" by Moss Hart and George S. Kaufman. For extra credit they are writing original skits to be given for the classes.

A final agreement has been arrived at in regard to the dissenation concerning the band leader. The members of the music department has set up some principles regarding letter awards. The letter issued to members will be the regulation block "P" with the instrument the person plays across the back. In addition chevrons will be worn in place of stripes and the President of the band will be awarded a star.

Miss Anderson's English classes have been studying Evangelin by Longfellow and the Legend of Sleepy Hollow, by Irving. Several original drawings have been produced illustrating the scenes from these stories. These drawings, along with all extra-credit work, are being kept in special notebooks to turn in at the end of the marking period.

... this is NOT the way to buy children's shoes... believe it or not, children's shoes are bought this way everyday.

We don't approve: Children's feet grow fast... constantly changing in size and width requirements. Misfitted shoes quickly lose their shape, wear unevenly... and ruin young feet!

Today, when shoes must last, it's most important they be correctly fitted to allow for growth without gapping, pinching or cramping.

For your youngsters' sake, don't buy shoes by guesswork. Bring them in... put their feet in our hands. We'll both be better satisfied when they're carefully fitted in

News of Our Boys In Uncle Sam's Fighting Forces Defending Our Homeland and Our Liberties.

CALIFORNIA GIRL "CAPTURES" ONE OF PLYMOUTH'S BOYS.

Here's a warning to Plymouth girls—you better watch that boy friend of yours, or some California girl might land him. That's what has happened in the case of William R. Widmaier, well known Plymouth lad who has returned from overseas duty and is now assigned to the U.S. Naval Amphibious Training Base Coronado, at San Diego.

Maybe it is best to let "Bill" tell about it. A part of his letter follows:

"I doubt if anyone back there remembers me except a few people who cannot forget very easily. However, Plymouth, Michigan is still my home town and has not been forgotten. Memories back there will never be forgotten.

"For the past nine months, ever since I have been back from overseas, I have been transferred up and down the coast of California in the vicinity of San Diego. If I remember right, I have been transferred seven times in the past nine months.

"I have had my present duty for two months and it looks like I will be stationed here for the duration so last week I went to the RYAN AERONAUTIC COMPANY, Lindberg Field, San Diego, California and am now working a day shift with the civilian aircraft workers. I carry on my Navy duties during the night and build planes during the day. I am classified as a Metal Fitter on the Exhaust Assembly line. I work six hours a day and six days a week.

"California not only has wonderful weather but has some very attractive girls here. Several months ago I met Rhea M. Miller in Long Beach, California. Our plans are to be married some time this coming fall. My defense plant is helping our plans work out.

"Last week while I was visiting my brother at Pacific Beach, I ran across a ground rattlesnake. I killed and skinned the snake and tonight I have completed a very nice looking belt from its skin."

ROBERT BOWDEN IS NOW A GRADUATE.

Robert Cowen Bowden, son of Mr. and Mrs. Howard Weston Bowden, 229 Ann street, was recently graduated from the Naval Air Technical Training Center located at Norman, Oklahoma. While at the Norman school he studied the aviation specialty field for which his recruit training aptitude tests showed he was best suited. The newly graduated man is now awaiting active duty orders either at sea or to a naval base, where after further experience in his new trade the Bluejacket will be eligible for a higher promotion.

LT. (J.G.) MATULIS GOES TO NORFOLK.

A note from Lieut. (j.g.) Anthony S. Matulis states that he has been transferred from Noroton Training school in Connecticut to Camp Allen at Norfolk, Virginia. The former popular athletic director of the Plymouth schools states that he is so busy at present he hasn't time to write much of a letter, but will do so soon.

HAS "ENJOYED" MANY TRANSFERS IN THE PAST FEW MONTHS.

A note from Lieut. Paul F. Thams states that he is now located at Mt. Home, in Idaho, "where it is much nicer than the place we have been in."

He writes, "I was stationed at Tucson, Arizona for a couple of weeks, and then was moved to Wendover, Utah. That was a thriving little community of 80 people, two chicken coops and about 1,000 slot machines. It was a lively little place right out in the middle of the salt flats, where even the dust had a salty tang.

"After a stay of about six weeks in that place, we were transferred up here in the mountains and it is very nice up here. The weather for flying is certainly ideal."

EXPECTS TO COME HOME ON FURLOUGH.

Edward Rohde, a Plymouth lad who is now at the Great Lakes Naval Training station, is expecting to get a leave of absence in a few days for a visit to his home and friends.

"It sure seems good to read about what is going on in the good old town of Plymouth. The Mail keeps us well informed. I met a good friend of mine from Rosedale Gardens who is here. His name is George Newton. Two more of my friends, I am sorry to say, who were here, have been sent to some other place. They are Freddie Schmidt and Kenneth McMillan," wrote Edward.

LEARNING HOW TO DO NIGHT FIGHTING.

A note from Thomas P. Lacy, son of Mr. and Mrs. Perry Lacy of Sheridan avenue, states that he is for the present stationed at Cherry Point, North Carolina and is attached to a group of night fighters.

"The work is intensely interesting and I like it very much. Thanks for the good old Mail. It makes one feel as though he is right at home, and you would be surprised to know how much it helps to keep one in touch with the other fellows in the service," wrote Tom.

SAYS "NAVY HAS CHANGED MY ADDRESS."

In a note to The Plymouth Mail, Fred M. Byrd says that "the navy has changed my address for me. I am notifying you immediately, because I do not want to miss a single copy of The Plymouth Mail. I do not believe you folks back home fully realize what a lot of fond memories one receipt of The Mail means each week to one so far away." Fred has been assigned to a fleet hospital unit for some time.

PLYMOUTH SPAR ASSIGNED TO DUTY.

SPAR Eleanor Wescott, daughter of Mr. and Mrs. Charles H. Freeman, Route 1, Plymouth, has completed the indoctrination course at the U.S. Coast Guard Training Station in Palm Beach, Florida, and has been assigned to duty in Miami, Florida. Her husband, Lt. Hanson C. Wescott, is stationed in Camden, South Carolina.

ELEANOR PETRASZEWSKY TO GET FURLOUGH

From the public relations section of Camp Elliott in San Diego, California, comes the following interesting item about a Plymouth girl. It says:

"Private First Class Eleanor Petraszewsky, United States Marine Corps Women's Reserve, daughter of Constantine and Fragera Petraszewsky, 39901 Schoolcraft road, Plymouth, will leave here shortly on furlough to visit her parents. PFC Petraszewsky, who is assigned to the Motor Transport Division here as a driver, is a graduate of Plymouth high school. Before she enlisted in the Marine Corps, PFC Petraszewsky—(Continued on Page 13)

FROG SEASON TO OPEN ON SUNDAY, JUNE 25

Open season on frogs, this year, coincides with the start of the bass and panfish season, June 25, the conservation department reminds small boys today. It continues through November 15.

The season opening was advanced from June 1 by the legislature last year when it was shown that the earlier opening day had resulted in disturbing fish on spawning beds near shorelines of lakes. The later closing day was ordered because commercial frog takers pleaded that the former November 1 closing

date halted their operations in the year's best season and that their operations did not reduce frog populations.

Under Ground River Found

Discovery near the Ford Bomber plant of a hundred foot gravel vein containing water, probably the thickest water-bearing gravel vein ever found in Michigan, has been announced by the geological survey division of the conservation department.

The vein was discovered while tests were being made to find a water supply for the Willow Run bomber plant and surrounding territory. It is a potential source of supply for Ypsilanti, Ann Arbor, and the area around Willow Run.

In the search for an adequate water supply in this war-boom area, 13 wells were drilled from January to May by the Federal Works Agency under the supervision of the United States geological survey assisted by the department's geologists.

Cultivating sesame oil is as old as the history of China itself. But now not as much of this important oil gets through the blockade. All fats and oils are scarce. That's why your used kitchen fat is so important to war industry that you can turn it in for cash and extra ration points. Save a tablespoon a day.

THINKS RANDOLPH FIELD IN TEXAS IS "THE IDEAL SPOT."

After enjoying a brief leave of absence spent at his home in Plymouth with parents and many friends, Lieut. Keith Jolliffe is now back at Randolph Field, Texas, which he declares is called "The West Point of The Air."

"This is a very beautiful spot, one that I would not mind living in after the war. After a month here I expect to be returned to Spence Field, Georgia for a time," writes Lieut. Jolliffe.

SHARKS CHASE SWIMMERS OUT OF THE SEA.

Dwight L. Paddock, writing from somewhere in the world where it is pretty hot at this time, told his father, E. A. Paddock of Newburg, that over 500 boys were recently in swimming, and one of the boys saw a big shark coming towards the boys. It didn't take the boys long to get on shore. Dwight writes that they have killed a number of sharks, some of immense size. That the fighting lads of America are not only offering their lives for their country, but buying a share in the future as well, is indicated by his assertion that his camp recently bought more than \$150,000 worth of war bonds.

Police Chief Rotary Speaker

Members of the Plymouth Rotary club now know why the Plymouth police department is so efficient in keeping crime at a low stage in Plymouth, and why, after capture, there is sure to be a conviction of the guilty person. Chief Charles Thumme let the Rotarians know a whole lot about his fingerprint work at the meeting last Friday noon. He demonstrated to the club members just exactly how fingerprinting is done and why it is so important in police work.

The meeting was well attended and proved to be one of more than ordinary interest. Dr. "Ace" Williams was chairman of the meeting.

THE OLD JUDGE SAYS...

"Did you hear that Tom is going to be inducted into the Army next week, Judge?"
"Yes, Frank told me this morning down at the barber shop. Our town's got a lot of men in the service now, Jim. In fact, all towns have. I was just reading in the paper where there are more than 10,000,000 men away from their homes in the armed forces. And, from all reports, they're doing a grand job bringing victory closer every day."
"We folks at home have a mighty big obligation to those 10,000,000 fighting men. We've got to produce the food to keep them well fed. We've got to keep them supplied with the ammunition and equipment they need to finish their job. We've got to help the Government pay for all these supplies our men need by buying more and more War Bonds. We'll have another big chance to do that by helping to put the 5th War Loan drive over the top, Jim."
"And, in addition, we must be sure that, while they're away and can't express their opinions, we don't go voting on and deciding any things that will displease them when they come back."

Babson Says --

Babson Park, Mass., May 26—From a civilian point of view the tire situation is currently more critical than the gasoline supply. The production of synthetic rubber will about equal, by the end of this year, our inventory of natural crude rubber, namely about 600,000 tons, which was on hand at the end of 1941. Meanwhile all natural rubber and most of the synthetic, must go for military purposes. The over-all rubber supply is now particularly acute. I do, however, believe that the end of our rubber shortage is in sight. But do not think that tires for civilians are just around the corner.

With all pre-Pearl Harbor sources of natural rubber shut off, our major supply now comes from the Island of Ceylon. In addition, some is coming out of the revived Amazon River Valley district. We also are picking up a little Mexican Guayule and perhaps a small amount of natural rubber from Brazil and from Africa. However, with the exception of Ceylon, the great Middle East sources are naturally out until we lick Japan.

Our consumption of natural rubber, and remember that it is all for the military, is estimated at 150,000 tons for 1944. This compares with an all purpose use of natural in 1943 amounting to 340,000 tons and in 1942 to 370,000 tons. Our stock pile at the beginning of the year was about 140,000 tons with receipts estimated at 80,000 tons. We will cut our inventory in half by the end of 1944.

The production of synthetic rubber was slow in getting under way but increased in 1943 from a January production of 600 tons to a December production of 39,000 tons. The entire year's work produced under 185,000 tons or about one-half our total 1942 consumption. Synthetic production capacity has expanded rapidly during 1944 and for March, 1944, reached an annual output rate of 670,000 tons. As plants are exceeding their rated capacity, output should progressively rise. I estimate for the full year that about 870,000 tons will be made.

Our 1944 American rubber consumption should look something like this:

Natural Crude	150,000
Reclaimed	250,000
Synthetic	700,000
Tons	1,100,000

The difference between our synthetic production of say 870,000 tons and of the 700,000 tons which we use, or about 170,000 tons, will be lend-leased or stocked for our future use. All natural reclaimed will be used or set aside for war purposes. Out of the above synthetic supply about 18,000,000 tires will be made this year for civilians against an estimated need of over 30,000,000.

Natural rubber, and perhaps total rubber supplies, will be short for from two to five years after the war. It will take some time to clear up the Far East plantations after the Japs are driven out. Not much more than 250,000 tons a year for the first two or three years can be expected from pre-war sources. The United States alone will require 1,000,000 tons of rubber annually which may be of the entire world. Estimating our production of synthetic at 1,000,000 tons; it looks as though our synthetic plants might have 100 percent capacity operation ahead of them for a few years after the war is over; but after 1950 look out!

Tire company stocks, while selling at about their best prices since the war, may not be too high; but I do not know. Earnings for 1944 should run close to 1943 and dividends may run a little higher as provisions for postwar conversion and other reserves have been largely taken care of. For the long-term and as a businessman's risk, I am not adverse to the best tire stocks. Here as in all other situations the best managements—especially those which have the confidence of labor—will provide the best profits.

VICTORY'S SONS

TWO MARINES of Lt. Goldblatt's platoon had dropped under the intense Jap fire. The platoon was acting as the point of a drive to take the mouth of the Matanikau river on Guadalcanal, back in September, 1942.

Lt. Goldblatt crawled across an open space to the wounded men. One had both legs broken. The other was less seriously wounded. Goldblatt tied the end of a coil of rope around this man's body, then turned to the other fellow, and began to drag him, inch by inch, to shelter. As they progressed, Goldblatt slowly unwound the coil of rope.

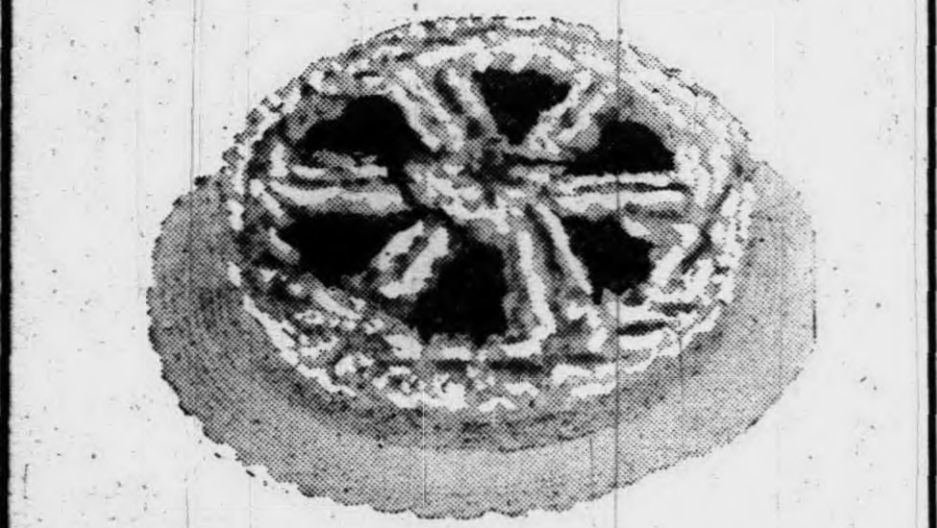

"I had to hold him by both hands," said Lt. Goldblatt. "Sometimes I would raise my back a little, and I could just feel the heat of Jap bullets going over me. When finally I got him to safety, I had three superficial wounds in my back."

Other Marines seized the end of the rope Goldblatt had brought in, and slowly they drew the other wounded comrade to shelter.

How to STOP FUSE TROUBLE

before it happens!

It's no fun sitting in the dark simply because a blown fuse has plunged your house into a black-out. Most fuse trouble can be stopped before it happens by observing a few simple precautions.

- (1) Frayed lamp cords and extension cords are often responsible for short circuits. Such frayed cords are dangerous. Have them repaired BEFORE they cause trouble. (Don't loop cords over a nail. Don't kink cords or tie them in knots. Don't run cord through a door jamb or under rugs.)
- (2) Never put an electric appliance in water. Never poke at the element of your electric toaster (or any other appliance) with a fork or sharp tool, whether turned on or off.
- (3) Don't connect too many appliances and extra lamps on one circuit. (4) Be careful not to overload your washer, or feed too many pieces of clothing through the wringer at one time. The same is true of your ironer.
- (5) Disconnect appliances by pulling on the plug—never jerk out the cord. Do not let cords come in contact with water, grease or acids.
- (6) If a faulty lamp or appliance burns out a fuse, disconnect it at once—and don't use again until it has been repaired.

Electricity is not rationed. But its production requires coal and railroad transportation. Don't waste it!
