

## What I Think and Have a Right to Say

By *Evan R. Eaton*

**MONEY DOES MAKE VOTES! BLOOD MONEY!**

We know now, at first hand, that money does make votes! A business man said to the writer the other day he was going to vote for Roosevelt for a fourth term because, the business man said, "I have made more money in the past few years than I have ever made before in my life. People have all got money and when they have money, I make money."

And why have people got lots of money these days — and why has this "business man" made more money in the past few years than ever before?

Because the life blood of millions of American boys is being spilled over the face of the earth.

Because hundreds of thousands of them are being killed. Because hundreds of thousands of them are being blinded for life, made legless and armless and helpless.

Because hundreds of thousands of homes have been disrupted and hundreds of thousands of young wives and mothers are being deprived of the right to live in the comforts of a family circle.

Because hundreds and hundreds of thousands of children are deprived of the joy and happiness that the companionship of only their fathers now facing death on both land and sea, can provide them.

**MONEY, MONEY, MONEY** — yes it is **BLOOD MONEY!**

Yes, it is true that most people have **MORE MONEY** now than they had a few years ago, and many of them are enjoying life as usual.

But that money is being made as the result of war and all of its horrors and all of its sufferings.

The American people are the only people in all the world who are making money out of this war.

The office holders in Washington saw a chance through this horrible war to strengthen its wobbly political machine. So they instituted a system whereby big money would take the place of patriotism and sacrifice and devotion to our beloved country — they'd **BUY** with **MONEY** the things that true Americans would do anyway in order to save our America and **OUR BOYS**.

They said "no one would make any money out of this war" and now they are boasting because everybody has made money out of this war!

And because everybody has made money out of this terrible war and wages are high in America, they want you to vote for four more years of deception, of double-talk, of pre-war welfare doles.

You know, we all know, that before we began making machines and guns and munitions to be used in **KILLING** people, there was no prosperity in this country!

Look to the welfare expenditures in Michigan during the years of 1933, 1934, 1935, 1936, 1937, 1938 and 1939, all New Deal years!

Do these **MILLIONS** and **MILLIONS** of dollars spent each year in this state alone for **WELFARE**, spell prosperity? Only a knave would say so.

Prosperity came with the war!

And we have among us those who are going to vote for Roosevelt because "I've made more money in the past few years than I have ever made before."

May God help us if that is the attitude of the majority of the people of this country.

### YOUR DUTY TO VOTE TUESDAY!

No matter how great the sacrifice may seem—vote Tuesday, November 7. Voting is almost a **SACRED** right of Americans, it is a right possessed by the people of but few nations throughout the world. Vote, and be sure to vote **FOR AMERICA** and the **AMERICAN WAY!**

### DO NOT FAIL!

This week and for the next few days the drive will be continued to raise Plymouth's quota for the War Chest and Community Fund. Yes, we have been buying war bonds, but that's just an investment. We have been giving to the Salvation Army, the churches and other humane agencies. But the greatest of all needs just at this time is aid for the war chest and community fund. Plymouth never fails! Let's exceed our quotas as we have in all other war efforts.

### A SOUTHERN EDITOR SPEAKS UP.

What does the South think about the Nudael? Clayton Rand is the editor of a Democratic newspaper down in Gulfport, Mississippi. Not so long ago he made a speech before a group of Lions club members at Birmingham, Alabama.

What did this Democrat say about the Nudael?

Following is what he said in part:

"What is our escape from this bureaucratic New Slavery already upon us? The first objective is the defeat of Franklin D. Roosevelt in November. This can be done in the North East and West by backslidden Republicans quitting the New Deal and returning to their own political house. Too many Republicans have kept bad company.

"The job can be done in the South by splitting the Democratic Party wide open, and repudiating at the polls an illegitimate 'dastard' named the New Deal that was dropped on our doorstep and illegally adopted without the full consent of decent Democrats. This political secession movement already gathers momentum as Southern Democrats disown the New Deal.

"The next objective is to elect senators, congressmen, city and state officials who stand foursquare for the Constitution economy in government, legislative independence and an untrammelled judiciary.

"The times call for a patriotism that transcends all partisanship, all political and sectional lines. Next only to victory over our foreign foes is the defeat of bureaucracy and bondage on the domestic front."

### LONG TENURE IN OFFICE.

Like millions of other American citizens, we have never thought it was a good thing for our state or nation to have public officials hold important offices over a long period of years. We believe that it would be better for the state if our governor served one term of four years. We believe it would be better for the nation if our United States senators served probably one term of six years. We believe that America will long suffer as a result of twelve years of Roosevelt. If he should be elected for another four year term, our republic would no longer be a republic. If you desire to take the time you can trace all of the troubles of Europe back to long tenure in office of its monarchs and its dictators.

What did Grover Cleveland say about long tenure in office—Grover Cleveland, a Democrat? It follows:

"When we consider the patronage of great office, the allurements of power, the temptations to retain public place once gained, and more than all, the availability a party finds in an incumbent when a horde of office holders with a zeal born of benefits received and fostered by the hope of favors yet to come, stand ready to aid with trained political assistance, we recognize in the eligibility of the president for re-election, the most serious danger to that calm, deliberate and intelligent action which must characterize a government by the people."

### Another Soldier Is Buried Here

David J. Estep

Another World War II soldier buried in beautiful Riverside cemetery. Another Plymouth mother and three little children mourn the passing of a father who died in service while wearing the uniform of his country.

Sunday the funeral of David J. Estep who died Monday, October 23 in the army camp at Laredo, Texas, was held from the Schrader Funeral home in Plymouth. The chapel was packed with old friends of the soldier and of the family. Discharged veterans served as pallbearers and a soldier guard stood at the coffin during services. Rev. Leonard T. Sanders (Continued on Page 6)

## To Move Library

### Lease Former Highway Department Building

Plymouth's library problem has finally been settled, according to William Van Dyke, chairman of the Wayne County Library board.

A long term lease has been taken on the building formerly occupied by the branch office of the state highway department which has been consolidated with the office on Grand River near Redford.

Chairman Van Dyke stated that work would be started immediately in making the new location ready for the library which will be in its new location by December 1.

It is doubtful if a better location could be found in the entire city than the one that has been secured. The building will permit a considerable expansion of the library facilities for this city and district and the large lot to the rear of the building will solve the distressing parking problem for library patrons.

"The large old house, is well built and has plenty of space to provide for an immediate expansion of the library as well as for future growth. It is ideal for the purposes for which it has been leased," stated Mr. Van Dyke.

"When I was out there looking around last spring for a new location, I observed that place and I feel that we are fortunate in being able to get it. I have never approved of store buildings and big stone fronts for library purposes. People just do not like to go into them to read," he added.

It will not be a difficult problem to move the library, as the new site is but a slight distance nearer the downtown section and across the street from the present location.

## Tin Collection November 10

Prepare now!

The next tin collection will take place in Plymouth and vicinity on Friday, November 10.

Mrs. William Rambo is exceedingly anxious to have as good a showing for the late fall collection as the city made earlier in the year.

Maybe 25 tons or more can be shipped to the munition factories if you do your part—shipped direct from Plymouth.

Flatten out the cans and place them at the curb, as you have done in previous collections.

That's a week from today! Place them out the previous evening, so you will not forget.

Because of the fact that the tin can collection will be made during the afternoon, the garbage collection in precinct 4 must be made in the forenoon. Residents in that part of the city are requested by City Manager Elliott to have their refuse ready for collection next Friday morning.

## Former Machine Gun Tester Now Serving In Southwest Pacific

Theron N. Tallmadge

Not so long ago Theron N. Tallmadge, gunner's mate third class, was testing machine guns out at the Kelsey-Hayes plant on Plymouth road. Now he's loading 20mm guns aboard a Coast Guard manned troop transport somewhere in the southwest Pacific.

The picture with this article shows him changing a gun barrel as his transport moves through the Pacific.

Gunner Tallmadge is the husband of the former Jennie Bassett of 244 Ann street, daughter of Mr. and Mrs. James Bassett. She left a few weeks ago thinking possibly her husband might be coming into port in California

### Distinguished Flying Cross Awarded Plymouth Gunner

Sgt. James Nairn

Pictured standing by his gun is Technical Sergeant James E. Nairn, 25, of Plymouth, radio operator and gunner on the B-17 Flying Fortress "St. Christopher" who has been awarded the Distinguished Flying Cross for "extraordinary achievement" during numerous Eighth Air Force bombing attacks on vital German industrial and military targets.

## Election Instructions!

When you vote Tuesday, be sure and remember that your national and state tickets are separated. You must vote **TWICE** in order to vote either a straight Republican or Democratic ticket. The national ticket is separated from the state ticket. Be sure and vote both ballots.

Take time to do your voting, so your ballot will help decide one of the nation's most important elections.

Do NOT mark your ballot with a check sign, which looks like a V. It will not be counted, if you do. You MUST mark your ballot with a cross, like an X, if you want it counted.

Vote EARLY in the day. It will make it easier for those who must necessarily vote after work.

Take your time to vote. You will get seven different ballots. You have a right to study your ballots so that you will not make a mistake in your voting. Don't lose your vote by making a mistake in marking the ballot. TAKE YOUR TIME!

If you make a mistake while marking your ballots in the booth, do not try to correct it on the ballots. You may lose your vote, if you do. RETURN your wrongly marked ballot to the election clerk who gave it to you, and ask for another ballot.

Because of the fact that there is a county bond issue question to be voted upon, taxpayers will be given TWO cards to sign. One card will be the regular voting card you are required to sign at every election. The other card will be for property owners. No one can vote on the county bond issue EXCEPT taxpayers. That is why you will be asked when you get your ballots whether you are a taxpayer or not. If you are NOT a taxpayer, you will NOT get the Wayne County Bond Issue Proposition ballot. If you are a taxpayer and desire to vote on this question, then you must sign TWO cards.

Once again—DO NOT mark your ballots with a V check. Be sure and mark your designations with a cross, which looks like an X. This is important!

If you are the wife of one who possesses property assessed for taxes and if you are a registered voter, you have a right to vote on the proposed bond issue to erect a new county building. You will be required to sign a card that you are the owner of property assessed for taxes as well as signing the regular registration card.

Take your time to vote! Vote accurately! This is a tremendously important election. Every vote counts!

The voting place for residents of Plymouth township for the election Tuesday, November 7, will be at the Grange hall on Union street in Plymouth. This hall is located just around the corner from the Penn theatre and almost directly across the street from the Masonic temple. This information is published because of numerous requests for information made at the Plymouth Mail office during the past few days as to where the voting place is for Plymouth township.

## Starvation Faced By Europe Says Nichol

David Nichol, son of Mrs. Walter Nichol of Church street, who in recent years has gained high distinction in the newspaper world by his work as foreign correspondent of The Chicago News in Berlin and Moscow, has been spending a few days in Plymouth this week. He returned recently from Moscow after spending two years in Russia. David was joined in Plymouth by his wife. They plan to leave at the end of the present week for Virginia, the home of Mrs. Nichol, where their two boys are staying for the present.

He predicts that there will be hunger and starvation in Europe when the war finally comes to an end.

"German forces in their retreat to the homeland, have taken everything from the occupied countries. They have stripped them bare of the necessities of life," he declared.

"The armies and people of Germany will probably have enough food for this winter, food that has been taken from the people of the countries that were invaded."

Correspondent Nichol does not believe the war with Germany is going to be ended in the next few weeks. He believes that it may continue for sometime and that the victory of the Nazis is going to be a costly one in the lives of Americans.

What about Russia? The former Plymouth resident declares that this country has no reason to fear Russia. The people are exceedingly friendly to residents of this country, but they are beginning to find out that Russia has not made the progress they have been led to believe. The country is strictly regimented and the activities of the individual are rigidly governed.

He will return to The Chicago News when his leave of absence expires, but he does not know where he will be sent when he goes back to work, except that he expects to remain in foreign service.

## Buffalo Dinner For Wild Lifers

Annual fall roundup of the members of the Western Wayne County Conservation Association has been fixed for the evening of Wednesday, November 8, with real buffalo pot roast as the main dish of the feast.

President Brick Champe and Secretary Ernest Henry didn't ride the range to round-up the big beast, they bought it from a buffalo meat dealer out in Wyoming and had a dressed buffalo "beef" weighing several hundred pounds shipped to Plymouth for the fall pow-wow.

The buffalo is already here in cold storage.

Because of limited seating capacity, the ticket sale must necessarily be limited. William Morgan out at the Kelsey Hayes plant, Hugh Horton, Jack Taylor, Brick Champe, Ernest Henry and Charles Messmore, over at the Bomber plant, have the tickets.

Members are advised that no tickets will be sold at the door. As usual, the kitchen committee will be composed of Barrister John Crandell, Ezna Rountner, William Gayde, and Harry Rackham of Northville. While not many know it, there's a story going the rounds among members of the Conservation club that Barrister Crandell is an old timer at barbecuing buffalo. But where he did the barbecuing no one has yet been able to find out. Harry Rackham will preside over the coffee urn and beer keg, if one can be found. Bill Gayde and Ezra Rountner will do the carving.

## They Will Count Your Ballots

Plymouth's election commission, consisting of Mayor Stanley Corbett, City Manager Clarence Elliott and City Attorney Claude Buzzard, has named the members of the election boards who will count your votes next Tuesday night.

Not only will they count your votes in one of the most important elections ever held in this country, but they will see to it that you get your ballots and vote properly during the day.

Members of the various election boards that will serve next Tuesday are:

Precinct No. 1: J. Rusling Cutler, Verne Rowley, Mrs. Anna Richards, Mrs. Alice Rathburn, Miss Mabel Spicer, Mrs. Harry Deyo.

Precinct No. 2: Mrs. Mary Starkweather, Charles Humphreys, Mrs. Ethel Joliffe, Mrs. Dorothy Stinson, Mrs. Marie Polkey, Mrs. Maud Bennett.

Precinct No. 3: Mrs. Henrietta Dobbs, Mrs. Catherine Henderson, Mrs. Ellen Laible, Mrs. Ruth Thomas, Miss Ada Daggett, Mrs. Jessie Squires.

Precinct No. 4: Mrs. S. D. Strong, Mrs. E. H. Scully, Mrs. Elsie Arscott, Mrs. Clara Mummy, Mrs. Dora Wood, Mrs. Margaret Smith.

## All Is Ready For Tuesday's Election

### How Plymouth Marine Fighter Looks Right After Bloody Battle

Arthur Talmadge, (right).

How does a fighting man look after he has been through a battle with the Japs and hasn't even had time to wash the dirt from his hands or to adjust his badly torn shirt?

Take a look at this picture. The lad to the right is mild-mannered, happy-go-lucky Arthur Talmadge, son of Mr. and Mrs. George Talmadge, 15410 Braden road. His companion to the left is a boy known only to Arthur's parents as "Koshi." His home is in Saginaw.

The picture was taken on Saipan just after the Americans had cleaned up a Jap force. The U. S. fighters had stopped to rest when some one with a kodak snapped the picture of the two boys.

The capture of Saipan resulted in one of the bloodiest fights of the Pacific and the American forces were weeks in digging the few remaining Japs out of caves and holes into which they had crawled.

On September 1st, his brother-in-law, Donald Burke, was killed in France.

Arthur has not written his parents much about his experiences, except to say that he never believed that he would be doing the things that he has found necessary to do in order to save his own life and that of his companions.

He has been in many of the "oughest battles in the Pacific in which the Marines have fought and licked the Japs to a finish.

## Lieut. Everson Wins Honor

First Lt. Robert F. Everson of this city, according to a newspaper dispatch appearing in The Chicago Tribune, has received an oak leaf cluster to his bronze star by order of Major General John S. Wood, commander of the 4th armored division, now battling the Nazis somewhere along the Moselle river in France.

Everson during mopping up operations near Troyes August 26 learned from French sources that German S.S. (elite) troops, had taken refuge in a hospital.

He entered the main building to demand their surrender but was met by 12 armed Germans who had been cut off from their escape route by small arms fire.

Despite danger to himself, Everson shouted to his men outside to open fire on the hospital. After 15 minutes of heavy machine gun and small arms fire the Germans gave up to Everson.

The total bag was 138 S.S. troop prisoners, 12 dead and several wounded. One American prisoner was freed and 16 loaded supply vehicles captured.

Robert, before his enlistment, was a clerk in the Willoughby shoe store and has many friends among the younger people in this city.

He was married to the former Beverly Smith, one time employe of The Plymouth Mail, who is now working at the Bomber plant. Mrs. Everson is a daughter of Desper and Mrs. Clyde Smith. During recent weeks Mrs. Everson has been advised that in addition to the oak cluster recently awarded her husband that he was given the silver star for gallantry in action.

## Vote No

There is one special question you will vote upon Tuesday that we urge an emphatic NO vote. That is the question of whether Wayne county shall bond to build a new county building. Vote NO on this. Only taxpayers can vote on this question. Vote NO!

## Record Vote Is Expected

Plymouth and the surrounding townships are ready for Tuesday's momentous election.

City Manager Clarence Elliott has ordered an additional supply of ballots to take care of the increased registration lists.

He expects that the total number of votes to be cast in this city will be over the 3,000 mark, the largest ever recorded in Plymouth.

Norman Miller of Plymouth township and officials of other nearby townships are expecting the same tremendous increase in the voting.

Those who have closely followed the big registration, say that a very large portion of it is going to be a "protest" vote to the messy way things have been going in Washington.

Others say that the interest in the election is due to the war and that thousands of parents who have sons in the armed forces have registered and plan to vote to express the wishes of their fighting lads. Some of this vote is known to be anti-administration.

But whatever the cause, the vote is going to be a tremendously big one, irrespective of weather or other causes.

The polls will open at 7 o'clock in the morning. If you do not want to wait long in line, VOTE early, as it is going to take you longer to vote than usual because of the number of ballots you will be required to mark and the increased number of voters.

Vote EARLY

## Wounded Vets Work In New Ford Factory

Probably one of the most beautiful little factories in all America is now in operation. While full production has not yet been reached, a number of men have already gone to work in this little factory set amidst big trees, on the bank of a little creek right in the heart of a strictly farm community.

Who are the workers? They are all wounded veterans of World War No. I.

Who owns the factory? Henry Ford.

Where is it located—right in the heart of Cherry Hill, a strictly little rural community.

For nearly two years men have been working building this attractive little factory out southwest of Plymouth. They have been landscaping acres of ground that surrounded the building. Trees have been trimmed and trees planted.

Those who have traveled much throughout the country, say there are few such attractive factory surroundings anywhere.

No, the factory is not a large one. But it is providing work for a half dozen or more men who suffered wounds in serving their country during the "War to Save Democracy."

The new Cherry Hill factory is just a continuation of Mr. Ford's plan inaugurated nearly a quarter of a century ago, to tie industry and agriculture together—to bring employment to communities where farms do not provide year-round employment.

Some day if you can spare a gallon of gas, drive out to Cherry Hill and see the amazing thing that Henry Ford has accomplished with a few trees, a little brook, a small building and some grass seed.

## Leaders For Girl Scouts Needed

No more girls can be taken into the Plymouth Girl Scout troops until additional leaders are found who will take charge of troops. The local girl scout organization has a waiting list that will have to remain a waiting list until some patriotic Plymouth woman will join the 16 leaders who now direct the activities of our Girl Scouts.

On the eve of the National Girl Scout Week which started October 29th Girl Scouts in Plymouth number 236 girls. That this is a remarkable record of growth can be judged from the fact that just a little less than two years ago the Girl Scouts of our city were going to disband because of the small membership and lack of patriotic, public spirited women who would act as leaders.

Knowing that Plymouth would respond to the need if its women only knew of the dire need, the

**Plymouth Girl Takes Part In Broadcast**

Edith Nolte, freshman at Michigan State college and daughter of Mr. and Mrs. Arnold Nolte, Minehart drive, Plymouth, took part in a recent broadcast of the Student Forum over WKAR, college radio station.

The Forum has been developed by YMCA, YWCA, and the speech department on the MSC campus to give students the opportunity to exchange ideas on current problems. Students with ability to contribute freely and significantly to radio discussions are selected from general forum meetings.

**New Baptist Pastor Takes Up Duties in This City Sunday**

Rev. Mark F. Sanborn

The Rev. Mark F. Sanborn, D.D. new pastor of the First Baptist church of Plymouth, is a graduate of Kalamazoo College (A.B. 1905), of the University of Chicago, of the Divinity School of the University of Chicago (D.B. 1909), and the degree of Doctor of Divinity was conferred upon him by Kalamazoo College in 1924.

He has served Baptist churches in Berwyn, Illinois, Minneapolis, Minnesota, the First Baptist church in Detroit, the Immanuel Baptist church in Scranton, Pa., before going to Battle Creek where he served as pastor for eight years.

While there he led in the organization of the churches ministry to the service men at Camp Custer, with such success that he was asked by the American Baptist Home Mission Society to take charge of the Department of Ministry to Service Men, and establish religious centers near camps in the eastern part of the United States. He has been engaged in this work for the past two years. He and his other co-workers have established 135 of these centers. But now no new camps are being established and so Plymouth Baptists have been able to secure him as their pastor.

During his years as pastor he was also honored from 1927 to 1925 with the Presidency of the Baptist Young Peoples Union of America, and has also served on the executive board of the Northern Baptist convention.

Plymouth Baptists feel that they are very fortunate in being able to secure him as the pastor of the First church in this city. Members are urged to give him their loyal support.

He will take up his work in this city Sunday, November 5 coming here from South Carolina.

Also a hot luncheon will be served from 11 to 1 o'clock—Price 65c & 35c.

**Day Nursery Adds To Its Services To Busy Mothers**

Plymouth's Salvation Army, always helpful wherever there is an opportunity, has now offered a new aid to the busy mothers of this city. Adjutant Arnold, who is in charge of the Army's day nursery on Mill street, has announced that the nursery will, in addition to its regular work in caring for children of war-working parents by the week, also care for children by the day. If a mother finds it necessary to be away from home just for a day, she can leave her child or children at the nursery between the hours of 6:30 in the morning and 5:30 in the afternoon. Only children between the ages of two and five are taken.

Sunday School, 10 a.m.; Church at 10:30. Evening service at 7:30. Prayer meeting at 7:30. Wednesday evenings. Next Sunday the church will listen to two inspiring messages, morning and evening from the lips of the Rev. J. C. Beattie of Detroit. Mr. Beattie has, on many occasions, filled our pulpit, and has never failed to bring a blessing to his hearers. Don't miss him. We were glad to have with us, last Sunday, one of our soldier boys, Glen Ford, and to listen to his testimony.

We quote this for the comfort of Christian parents, from "The November Christian Digest." Theodore W. Engstrom, a former editor of C.D., now a member of our armed forces says: "It likewise seems to me that an increasingly greater stress is being given to servicemen's spiritual life by our government. Testaments, hymn books, beautiful chapels, organs, religious literature, all are being supplied in ever increasing amounts. Sound, evangelical chaplains are given absolute freedom to preach the message of redeeming grace. Our military leaders seem to realize the importance and the necessity of being led by God in these most difficult days in our world's history. Since entering the service I have not only come to a new appreciation of the power of God to keep, bless and satisfy under the most trying circumstances, but also can say, with new meaning and reverent thankfulness, 'Thank God for America,' a nation founded by God-fearing men, dedicated to Him, and devoted to the four great freedoms."

**FREE METHODIST CHURCH.** Sutherland at Harvey, Rev. Wm. Cusick, Pastor, F. S. Highfield local preacher in charge. Bible School, 2:30 p.m. Preaching, 3:30 p.m. Welcome to all to worship with us.

### Newburg Church To Celebrate

The Newburg Methodist church is making plans to celebrate the 110th Anniversary of the founding of the Church during the week of November 12-19. Guest speakers during the week will include two former pastors, Dr. Joseph Dutton and Dr. Thomas Pryor. The speaker at the anniversary banquet will be Professor Preston Slosson of the University of Michigan. The banquet is to be held on Thursday, November 16.

### Girl Scout Troop 8 Has Halloween Party

Girl Scout Troop Number 8 held their Halloween party at the home of Miss Patty Krump, of Gold Arbor, Monday evening. The girls had a grand march with prizes for the nicest and funniest costumes. Many games were played, followed by cider and doughnuts. Forty-three Girl Scouts attended and enjoyed a grand party.

New Hospital To Incorporate

Articles of incorporation for the new community hospital are now prepared for filing, having been submitted to the incorporators and approved. The hospital is to be named the Parkview Community Hospital and its purpose or purposes are taken from the articles of incorporation as follows:

To acquire by construction, purchase, exchange, or other means, and thereafter to own, maintain, operate, and carry on hospitals, nurses homes, or other incidental buildings thereto, and other establishments suitable and necessary for the care and treatment of the sick and infirm.

"Said corporation is organized upon a non-profit, non-stock basis" and further under section (b) of Article IV "Said Corporation is to be financed under the following general plan: (a) It is proposed to construct a hospital and purchase land for that purpose from voluntary contributions of individuals and others.

(b) It is proposed to fix a schedule of charges for hospital services that will pay the maintenance and cost of operation of such hospital, it being the plan that no profit shall be made upon the operation of the hospital.

(c) No stock shall be issued, and under no circumstance shall any person be entitled to any dividend or other compensation by reason of being a member of the corporation.

Under Article IV are listed the names of the first Board of Directors who are as follows: Dr. H. Van Howe, Con. Lansing, field, Harper Britton and Walter Couss of Northville; Jack Taylor, Mrs. Kathryn Henderson, Mr. Hogan and Mr. Gallimore of Plymouth, and Mr. Jess Ziegler of Livonia Township. Of the group of civic-minded people that have been meeting regularly for the past few months there are more than one who are actively interested and constant workers so that two or three equally good boards of directors could have been chosen and been equally representative of the cross section of this area of Wayne County.

Under the by-laws the directors are to be chosen three each year, for a three year term, not more than one of which to be from Northville, the same from Plymouth and the third from without the corporate limits of the two municipalities. Each voting member to be a contributor of a nominal sum within the reach of all, and no person to have more than one vote regardless of the size of his contribution. It is the desire and hope of the incorporators to make this a hospital not only for the people in this area but one built by the people.

There have been no commitments of any kind made to anyone, nor will there be, for personal gain or advantage" is the resolve of these now actively working in behalf of this hospital.

It is not known when materials will be released for construction, nor how soon the government will make available grants for the construction of such community projects, however plans are being considered and plans are to take advantage of both when available.

Funds are being received from time to time although none have been solicited to date. A very real indication of the sincere interest that is developing was illustrated this past week by the Braveries, Troop No. 1 of Northville, who desired to give their entire treasury to the new hospital, but were prevailed upon by their leaders to limit it to half of their treasury. This amounting to ten dollars was presented to the hospital fund with a gift card reading—"To bring you best wishes and something else too; Save it or spend it, it's all up to you." Each Scout signed her name. This trust also distributed the entire stock of handbills throughout Northville for the Hospital Benefit night. Troop No. 4 of Plymouth Boy Scouts was responsible for the distribution in Plymouth. The time for personal solicitation will come—however it is urged and desired that organizations and others consider ways in which their groups can assist in the raising of funds for this, your community hospital.

Kitchen Knives Kitchen knives should be washed and dried separately, then put into a knife rack or a separate compartment in a drawer. Inspection of all electrical equipment will be a valuable precaution against possible accidents or fires. Frayed or worn cords should be repaired immediately and, if they are beyond repair, discarded without hesitation. A few minutes could be profitably spent in checking to be sure that no extension cords run over nails or around pipes and radiators.

### Onion Crop Is Record Breaker

Onions! What onions! Once again John Guideau of the Briar Ridge farm on east Six Mile road has demonstrated the fact that a man can accomplish near-miracles if he puts his heart into the task and is willing to work at it.

Last year and the year before Mr. Guideau on a sandy loam farm produced an onion crop that amazed his neighbors and friends. His crop of sweet Spanish onions, was probably one of the best produced in the entire state.

This year he has exceeded all previous years. There isn't an onion on his whole place that isn't as big as a grape fruit.

It simply goes to show what a man can do who will study soil conditions and the care of the crop he intends to produce. No one ever believed that the Briar Ridge farm could be turned into one of the most productive onion farms in Michigan—but that is just what has happened in a few brief years.

Pride says thanksgiving, but a humble mind is the soil out of which thanks naturally grows.—H. W. Beecher.

### Better Luck For Deer Hunters

Deer hunters should have better luck in Michigan next month than during the 1943 season when a record 66,169 bucks were taken on regular deer licenses, on the basis of deer censuses made by conservation officers while on patrol.

Reports to date show that more deer have been counted in recent weeks than were seen a year ago in 34 of the 54 counties in which the animals may be legally hunted with guns. The census began July 1 and continues through October and final tabulation of officers' reports is not made until after November 1.

As is the case during any deer season, weather conditions will largely determine the size of the kill.

Although frequently played on programs of Irish songs, I'll Take You Home Again, Kathleen has no Gaelic connection. It was written about 70 years ago by the American composer, Thomas Westendorf, as a musical confirmation of a promise made to his wife, Kathleen, that he would take her back to visit her old home in Germany.

### U. of M. Club Plans Discussions

The Plymouth University of Michigan club will hold a series of discussions on November 9, 10, 13, and 14. The first discussion will be held on Thursday, November 9, at the home of Paul Harsha in Rosedale Gardens, and will be led by Lt. Harry Fischer on the topic, "Problems of Returning Veterans."

Friday, November 10, Dr. Walter Hammond will lead a discussion on "Socialized Medicine" at the home of Mrs. Cass Hough.

Monday, November 13, Rev. Henry Welch will discuss "Religion in a Changing World" at the home of Sidney Strong.

The last discussion will be held on Tuesday, November 14, at the home of Coella Hamilton and will be led by Miss Gertrude Fiegel, on the subject, "Is World Government Possible?"

All discussions will start at 7:45 p.m. and last not more than an hour and a half.

The University of Michigan club now has 182 members and it is hoped that every member will attend at least one of the discussions.

At the send-off party, which was given on October 19, for the students who are entering the University for the first time, over 100 members of the University club were present.

### No Licenses For 400 Violators

Nearly 400 persons whose names appear on a conservation department list are denied hunting privileges for periods ranging from one to five years.

These are individuals whose careless use of firearms has resulted in death or injury to others, who have suffered self-inflicted wounds, or who have been convicted of game law violations or infractions of gun-handling regulations.

Names of 19 persons have been added to the list since the opening of the small game season October 15. Seven of these have been responsible for injuries to others, four have wounded themselves. The list will be swelled considerably as courts move to revoke other licenses. Thirteen persons were wounded fatally, 55 others suffered non-fatal wounds during the first 10 days of the season.

Hunting accidents which result in death or injury to others bring denial of hunting privileges for five-year periods. Courts are no more lenient with persons who wound themselves. Game law violations, or careless use of firearms, are grounds for canceling hunting privileges for periods ranging from one to five years.

Sixty-seven of the 395 persons whose names appear on the list have suffered self-inflicted wounds.

### Don't Send Money To Men Overseas

Persons who missed the October deadline for mailing Christmas packages overseas and who plan to send a belated gift of money to Army and Navy personnel should send the money via postal money order, the Army and Navy Post Offices emphasize.

At many places where service men and women are stationed, it was pointed out, there is a local prohibition against the importation of U.S. currency, and cash could not be used if received.

Army personnel can cash postal money orders at any APO or by presenting the order to their company mail clerk. Navy men and women whether land based or aboard ship, present the order to their Navy mail clerk. In both cases, the money is paid in local currency at the rate of exchange in effect on the date of the presentation of the money order. As on domestic orders, there is a \$100 limitation on the amount that can be sent on a single postal order.

Late gift articles can also be sent Army personnel, without a written request from the service man, if they weigh less than eight ounces. However, Army post office officials say there may be no assurance of their receipt by the addressee before December 25.

If gratitude is due from man to man, how much more from man to his Maker!

### Salem Farmers Hold Meeting

The South Salem Community Farm Bureau met Thursday night, October 26th, at the home of Albert Rider and Mr. and Mrs. H. Oddyke, Northville. There were thirty in attendance. In the absence of President Homer Martin, Vice-President George Hennings presided.

The group continued its discussion of cooperatives, including such questions as, "How does group discussion prepare for cooperative action?" "How can home and family life be conducted to train both parents and children in cooperatives?" "What things can be done in the school to train for group activity and cooperation?" "What cooperative service have we in our community?" and "What can we do to better inform our members about the cooperative movement?"

All discussions will start at 7:45 p.m. and last not more than an hour and a half.

The University of Michigan club now has 182 members and it is hoped that every member will attend at least one of the discussions.

At the send-off party, which was given on October 19, for the students who are entering the University for the first time, over 100 members of the University club were present.

### To Extend

(Continued from Page 1) votes in this city.

**PLYMOUTH TOWNSHIP.**  
Because of the fact that the registration is not excessive in Plymouth township, it is not expected that it will be necessary for this township to extend its hours, if authority is given to do so. Any one in line at 8 o'clock will be voted, however, no matter how late it may take to get all the ballots in. But it is not expected that there will be a waiting line in Plymouth township, states Supervisor Charles Rathburn.

**CANTON TOWNSHIP.**  
Canton township plans to follow the same procedure it has in past elections, the same as will be done in Plymouth township. Every one in line at 8 o'clock will be voted, but it is believed that everybody in the township will have voted by 8 o'clock.

"We have had quite an increase in registration, but it does not mean that we can't take care of all the voters in the regular voting time," stated Supervisor Phil Dingeldey yesterday.

**LIVONIA TOWNSHIP.**  
Because of the excessive increase of population and the large number of additional registrations due to the growth of

**NANKIN TOWNSHIP.**  
Because of the tremendous increase of registrations in Nankin township, the officials in Wayne announce that if the legislature approves of the extension of voting time that township will be open at 10 o'clock election day. The registration in Nankin has almost doubled since the primary election, which indicates that there will be a heavy vote in next Tuesday's regular election.

**NORTHVILLE TOWNSHIP.**  
Northville township will probably keep its polls open until 9 o'clock, giving one additional hour for voters to cast their ballots. Supervisor Mollie Lawrence stated that she felt that the additional hour might not be necessary, but if it was believed that it might help the voters, Northville township would add the one hour. There has been a marked increase in Northville in the registration especially among farmers. One Northville township official stated that even if the time should be extended to midnight, there are some people who would wait until just before midnight and then dash in at the last minute to vote. "You know there are always some people who put off to the last minute things that can be done much earlier," the official explained.

**Leaders For**  
(Continued from Page 1)  
Plymouth Mail brought the important condition of Girl Scouting in this city to the attention of the public. A small group of citizens gathered together and put new emphasis into the Girl Scout movement.

Today Plymouth Girl Scouting has reached another cross road—another mile stone in its forward progress. Only 21 girls have been able to join the Scouts since last March, due to the lack

of a sufficient number of leaders to guide their activities. More leaders are needed immediately. If you love to work with girls, like to help them become better women and citizens of tomorrow, want to retain that contact with vibrant youth that keeps us all in an active youthful state of mind telephone Mrs. Wallace Osgood, Plymouth 745W and tell her that you can devote some time to this great work.

ing missions to targets that make up the nerve center of the German war machine. He has taken part in bombing attacks aimed at German ground forces and installing them in support of Allied ground forces in France.

The official citation accompanying the award of the DFC, commented on the "courage, coolness and skill" displayed by Set. Nairn on all occasions. In addition to the DFC, the Plymouth gunner holds the Air Medal and three Oak Leaf Clusters to the Air Medal for "meritorious achievement."

Set. Nairn is a member of the Third Bombardment Division, which has been cited for the new historic England-Africa shuttle bombing of the Messerschmitt factories at Regensburg, Germany, in August 1943. The son of Mr. and Mrs. James

G. Nairn, 1309 Sheridan Ave., the sergeant is a graduate of Plymouth Central High School. Before entering the Army Air Forces in March 1941, he was employed as an electric welder by the Wall Wire Company. He received his gunner's wings at Las Vegas, Nevada, in December 1943.

of the First Methodist church of Detroit.

He was born in Plymouth August 8, 1913, and had spent his life in this vicinity.

His wife, the former Gertrude Garden of Detroit, and two small daughters, Betty and Barbara, now in California, a son David, his mother, Mrs. Alicia Estep, a sister Mrs. Esther Minthorn, all of Plymouth and a brother, Arthur Max of Moline, Illinois, as well as his grandmother, Mrs. Phoebe McBurney of Plymouth, survive. His home was at 556 North Mill street, where the young mother and her three small children now live. During his school days in Plymouth he was active in various sports. He was employed by the Wall Wire company for sometime before he went to Cleveland to take a position with a tool and die company of that city. He was working in Cleveland when he joined up with the army.

Smith, Mrs. Ted Johnson, Mrs. Edwin Schrader, Mrs. Evelyn Schrader, and Miss Regina Polley enjoyed dinner at Hillside, Tuesday evening. In honor of Mrs. Gallagher who with her family is returning to their home in Vero Beach, Florida, the young ladies presented her with a farewell gift.

Mr. and Mrs. Henry E. Fisher were given a most pleasant surprise, Tuesday evening, when their children entertained for them in the home of Mr. and Mrs. Roy Fisher on Mill street, in honor of their birthday anniversaries. A delicious lunch was served late in the evening and a beautiful gift was presented to Mr. and Mrs. Fisher. Those present besides the hosts and guests of honor were Mr. and Mrs. Guy Honey, Mrs. Abby and Mrs. Keith Honey of Detroit, Mr. and Mrs. James Honey, Jr., of Northville, Miss Fannie Kurtz, of Petoskey, Mr. and Mrs. James Honey and daughter, Mr. and Mrs. Harold Behler and sons, Dick and Dale, Mr. and Mrs. Fletcher Campbell, Mr. and Mrs. Delos Goebel and family, Mrs. Robert Hitt, of Plymouth.

**Mid-Joy Grill To Open Soon**

Livonia Township will have another new eating place when on November 11th, Ray Thorpe and Barney Shoemaker, open the Mid-Joy Grill. The restaurant will be located in the former Vannoy Grocery building which was purchased a few years ago by Mr. Thorpe and is located on the corner of Joy and Middlebelt roads.

The grill will feature steak and chicken dinners and short orders and other specialties will be available. It is the first restaurant ever to serve this area of the township and it is welcomed by the many residents and business firms of the locality.

Mr. Thorpe operates the Ray Thorpe Hardware on Joy Road and has been active in Township affairs in that area for a number of years. Mr. Shoemaker has been until this week a member of the Wayne County Sheriff's force and has relinquished his duties to become active in the grill.

**Green Islands**

The Green Islands, also known as the Nissan group, are formed by a Pacific coral atoll some 14 to 16 miles. They lie 30 miles north of Bougainville and 120 miles east of Rabaul. General MacArthur announced the complete military conquest of the Solomons when combined American and New Zealand forces took them in February. On the largest of the five islands, a horseshoe-shaped enclosure protecting a lagoon, the Seabees built an airfield in 19 days to transform the island into an Allied operational base. The 1,500 natives confine themselves chiefly to the picking of coconuts and ivory nuts.

**California Bedroom**

In a delightful California bedroom, the clearest of colors are woven into a strikingly modern effect. An emerald green rug is set off by walls and ceiling painted cool, light gray and the plaid upholstery on the chairs is clear lemon yellow and gray. The woodwork and the bricks of the huge fireplace are white.

**Detects Defects**

Defects, such as cracks, in aluminum castings that are invisible under ordinary inspection, are shown up in a new fluorescent test with ultra-violet radiation. The test can be applied to the inspection of parts for planes, searchlights and other war products.

**Salted Vegetables**

Vegetables preserved in fairly large amounts of salt keep many months because the salt prevents the growth of bacteria that cause spoilage. Salted vegetables need to be freshened in water before they are used.

**Cheap Sale**

The Indians who held the title by right of occupancy to Manhattan island let their holding go for \$24 worth of trinkets offered by Peter Minuit of the Dutch West India company.

**Mosel Wine**

Most famous Mosel wine, perhaps, is that of Berncastel, known for 500 years as Doctor's Wine, or just Doctor, because of a legend of how it cured a bishop's violent fever.

The natural flights of the human mind are not from pleasure to pleasure, but from hope to hope.—Samuel Johnson.

**Don't Hunt From Seat Of Tractor**

Shooting of birds or other game from the seat of a tractor-drawn corn binder or other mechanically driven farm implement is an unlawful method of hunting, the conservation department emphasizes. Farm implements are classified with automobiles, airplanes, floating devices or other contrivances "propelled by or using as motive power, steam, gas, naphtha, oil, gasoline, or electricity, in the meaning of the law."

The point is raised because a boy recently wounded himself in attempting to bag a pheasant from a bucking tractor seat.

When the production of automobiles is resumed, research engineers tell us that sealed cooling systems—already proved in warplanes—can end the nuisance of adding water and antifreeze. Already chemicals have been added in minute quantities to motor oil to stretch its life even under the increasing abuse the newer types of motors give it.

**Knives Dangerous**

Last year one-seventh of all home accidents in the United States were caused by knives or other sharp tools.

**Shore Organization**

The largest shore organization for merchant seamen in the world is the Seaman's Church Institute in New York city.

**Candle Wax**

Wax came into use for candles in the 12th century. In China candles of vegetable wax have been used for centuries.

**Pine Knots**

Pine knots can be effectively painted over if they are first coated with a mixture of orange shellac made plastic with blown castor oil.

**Avoids Wind Resistance**

The osprey (fish hawk) always carries his captured fish head-first in the direction of flight to avoid wind resistance.

**Suppress Opium**

One of the purposes of the World's Women's Christian Temperance Union is to suppress trade in opium.

**Contour Tillage**

Contour tillage enables the soil to hold more moisture but by itself may not completely stop erosion.

Between levity and cheerfulness there is a wide distinction; the mind that is most open to the former is frequently a stranger to the latter.—Blair.

**Party Opens New Dann's Tavern**

In an advertisement elsewhere in this issue of the Livonian the opening of the newly enlarged and modernized Dann's Tavern is announced for next Saturday evening by the proprietor Douglas Richards.

"Doug" as he is better known to his many Livonia friends has brought to Livonia for the first time a modern and up-to-date night club. With the addition of a dance hall on the west side of the building the tavern now offers its patrons the utmost in comfort and hospitality.

George Malacos and his Great Lakes Orchestra will furnish the music for the patrons on every night of the week except Sunday and Wednesday. An opening party is planned for this Saturday night and everyone in this area is invited to attend. A special program has been planned for the opening show and a full evening entertainment is promised those that attend.

The residents of Livonia extend to Mr. and Mrs. Richards their best wishes for continued success in their new undertaking.

**Bill was with the first Marines who went to the Pacific. For three years he fought Japs.**

Then at Saipan, Bill had a quick decision to make.

He saw a job he thought should be done. He couldn't be sure it would help. He couldn't be sure he'd come back if he tried it. But it seemed worth trying.

He went ahead with the job. And it did help. And he didn't come back.

Perhaps there's a lesson in this story for some of us at home.

Bill had already done quite a bit for his country. But when the time came, he didn't stop to think about that. He didn't look around for someone else to take the risk for a change. He knew his work wasn't finished.

The same thing is true about buying War Bonds. Don't waste time wondering whether or not you've done your share.

As long as there are men like Bill still fighting—your job isn't finished yet—your job is to back them up. So keep on buying War Bonds.

**Turkey Prices Have Been Fixed**

Turkey prices for Thanksgiving in the Detroit district are approximately the same as last year being a penny or two higher or lower, depending on the size of the turkey you bought in 1943, said A. B. McWood, Price Executive.

A simplified method of pricing has been inaugurated to establish one price for all weight live young turkeys at 47 cents a pound in Group 1 and 2 and 3 stores and 46 cents a pound in Group 4 stores, and all weight young turkeys dressed at 52 cents a pound in Group 4 stores where the ceiling is 51 cents a pound.

Last Thanksgiving, prices ranged from 43 cents to 48 cents for young turkeys alive depending on the size of the bird and ranging from 49 cents to 53 cents for young turkeys dressed, the price also depending on the size.

Old turkeys have been listed at 44 cents a pound for live birds and 50 cents a pound for dressed turkeys except in Group 4 stores where the price is established at 49 cents for old turkeys dressed.

Young birds are turkeys under a year old, McWood explained, and OPA investigators will keep a close check on retail outlets to see that old turkeys are not sold for young turkeys. The consumer can usually tell a young bird by pressing the breast bone, said McWood. If the bone is pliable, the bird is young and if not, the bird is undoubtedly over a year old.

Prices for other fowl are 1 to 2 cents a pound cheaper dressed than in 1943 and 2 cents a pound cheaper on all types at live weight, OPA said.

Few plays have been presented more realistically than The Count of Monte Cristo as it is staged on Chateau d'If, an island off Marseille, where the fictional Dantes spent twenty years in a dungeon. The performances are given in the real prison courtyard, and when the convicted hero arrives there a curtain is drawn aside and the audience sees him led to the actual door mentioned in the novel. Later, when Dantes escapes by taking the place of the dead abbot, a heavy sack that is supposed to contain his body is hurled from a turret into the sea.

Once there was a man named Bill

The members of the local club feel that they are very fortunate in securing Professor Dorr for this meeting, whose subject will be "Outdoor Citizenship," which is directly in line with the National Federation's program.

**Clean Up Garden  
Now, It is Urged**

Information has been received that the War Approved Seed Potato Program will not be continued in 1945. Growers who grew this seed in 1944 are urged to plant certified seed and list it for certification. Rules for certification may be obtained from the County Agent's Office.

There's no winter housing shortage for the bug colony in your victory garden if you forget to clean off the withered vegetation before cold weather arrives. Those cutworms, flea beetles, squash vine borers, and cabbage worms and aphids are making themselves quite comfortable in rent-free quarters right now, reminds County Agricultural Agent, Mr. E. I. Besemer. If you want to see that they don't stay around for free board off your garden next spring, better do that clean-up job immediately, he says.

The bugs stay over winter and find food in most any kind of refuse, mainly the vine and plant remnants that are left in the garden after the vegetables are harvested. Bean vines, weeds, beet tops, and other plants are comfortable apartments for these garden trouble makers.

Ray Hutson, Michigan State College entomologist, cites three methods as satisfactory in getting rid of the insects. First, and perhaps most advisable the garden spot can be fall-plowed to turn under all refuse. Second, the plant materials can be raked and placed in a compost pile for decay and then spread on the garden a year later. Or, as a last resort, the vegetation can be raked and burned.

**Foxes Destroy Pheasants**

According to Howard Hall, one of the best posted sportsmen in this part of the state, foxes will within a few years completely eliminate not only all of the pheasants in this part of Michigan, but also partridge in the northern counties of Michigan as well.

The Northville hunter declares that within the vicinity of Plymouth and Northville, the destructive work of the fox is almost beyond belief.

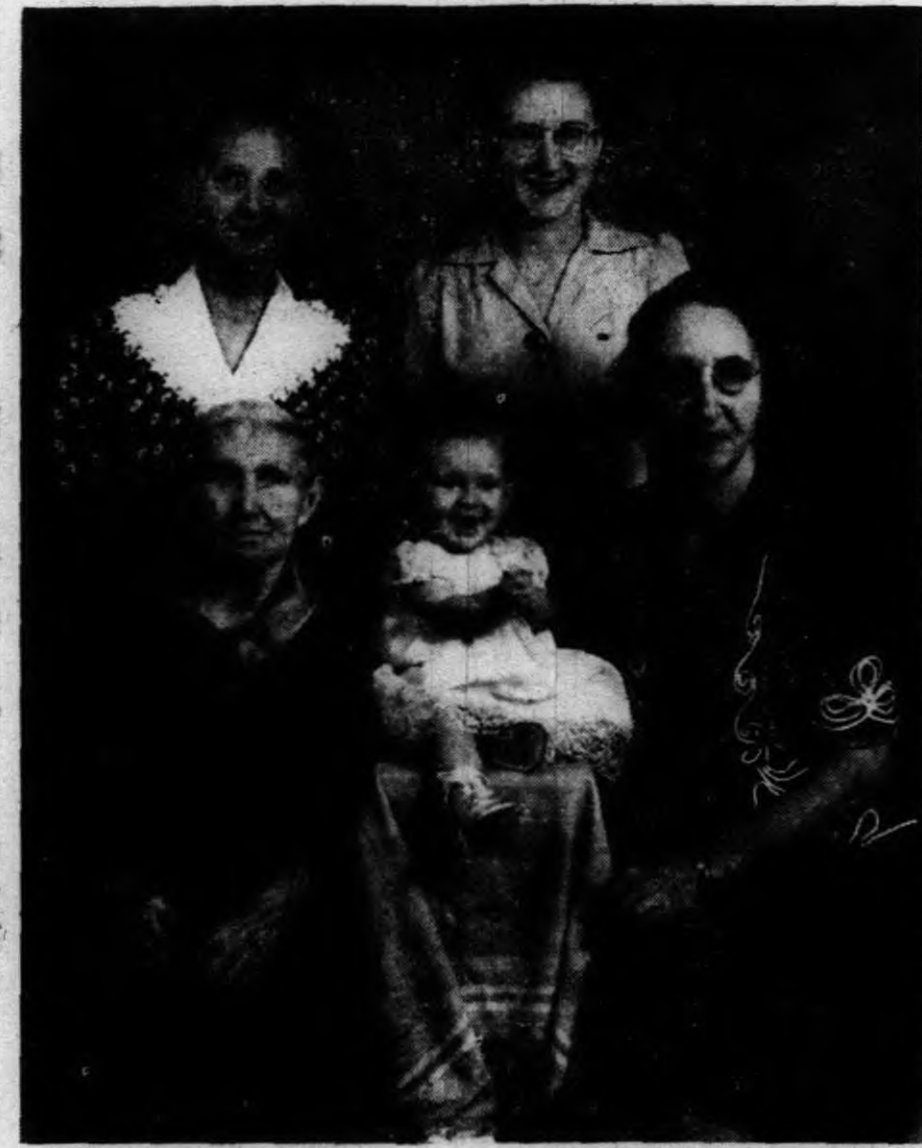

Mr. Hall, who spends much of his time during the summers operating the Brae Burn golf course over south of Salem, says that he discovered a fox den near this golf course during the summer and that at the time he found it there were the remains of 16 pheasants, two chickens, two domestic ducks, one goose and a small pig lying on the ground outside the den.

That reflects the destructive work of probably not over two weeks of just one den of foxes, he said.

Recently he returned from an inspection trip to a farm in Ogemaw county. There he was advised by farmers that one fox will dispose of an average of 350 partridge during one summer season.

In a part of the state where formerly there were thousands and thousands of partridge, there are practically none now, he stated.

**Here's Something Unusual, Five Generations In This Family**

Left to Right, standing: Mrs. Edward (Margaret) Mueller, Ann Arbor, the great-grandmother; Mrs. Archie Stokes, Plymouth, the mother. Left to right, sitting: Mrs. Kuni Borck, the great-great-grandmother of Saginaw; Baby Velma Diane Howell, the newest of the five generations; and the grandmother, Mrs. Horace Stokes, well known resident of this vicinity.

Members of five different generations in one family, all living at the same time—that is something heard about only once in a very great while. But such a thing does exist in the family of Mrs. Archie Howell, who resides at 34451 Pine Tree road.

Living is the great-great-grandmother, the great-grandmother, the grandmother, the mother and a little baby daughter.

Recently these five had their pictures taken, as a keepsake for future generations.

The great-great-grandmother, Mrs. Kuni Stokes of Saginaw, is now 86 years of age and in excellent health.

Mrs. Archie Howell is the former Velma Stokes, a graduate of the Plymouth high school with the class of 1942. She was married shortly after graduation and her husband, Archie, soon after the wedding ceremony, entered the military service on August 1, 1942.

He spent some 23 months in training camps in the United States. He is now in France where he has been for several months, leaving for overseas after a brief furlough home at Easter time to see his wife and babe. Mrs. Howell has lived in or around Plymouth ever since early childhood. Her grandparents lived in Caro, New Boston and Ann Arbor for many years.

Her great grandmother came to America on a sailing vessel from Germany to make her home with relatives who had settled in Bay City. She is now living with her youngest daughter in Saginaw.

**THE OLD JUDGE SAYS...**

"Quite a stack of newspapers I left you yesterday, Judge. Aren't you in the newspaper business, are you?"

"No, I just enjoy reading different papers so my nephew George sends them to me whenever he takes a business trip. I got a big kick out of some he sent me from several counties where they still have prohibition. Particularly from some headlines that read 'Drunk Driving Arrests Rise'."

"Bootleggers must post Ceiling Prices," "Federal Agents seize 'Trick' Liquor Truck" Doesn't that go to prove, Joe, that prohibition does not prohibit?"

"I watched conditions pretty carefully during our 13 years of prohibition in this country. The only thing I could see we got out of it was bootleg liquor instead of legal liquor... plus the worst crime and corruption this country has ever known."

**Interests Of Good Government Demand Re-Election Of SENATOR CLARENCE A. REID**

The record of Senator Clarence A. Reid, candidate for re-election to the State Senate, is impressive. Mr. Reid at present is completing his second term as senator from this district. His record should be well known to every voter. He has not been content to sit by and watch, but has participated actively in state affairs, as is evidenced by his committee work. Mr. Reid is chairman of the University of Michigan committee and is a member of other important committees in the legislature. Among these are Labor, Education, Judiciary and Taxation committees. He has devoted considerable time to the all-important problem of juvenile delinquency.

In these various fields, Clarence A. Reid has worked conscientiously and diligently in the interests of better state government. He has been one of the most active of our state senators and his good work should be continued. It seems high time that representatives of the people be chosen according to the records they have achieved in office. If this basic and simple principal of good government were followed more generally, our governments, both state and national, would be far less corrupt and far more efficient than they are today.

Clarence A. Reid has been a practicing attorney in the city of Detroit for twenty-five years and is thus well qualified for legislative work. He is a veteran of World War I, going into the conflict as a private and emerging as a lieutenant.

To keep this man in the office he so well deserves, check Clarence A. Reid for State Senator on the X ballot at the election on November 7.

**How to keep a house from catching cold!**

ONE WAY to keep a house from getting cold is by weatherstripping all doors and windows. Closing up the cracks that let cold in—and heat out.

There is going to be some shortage of coal delivered to homes this winter. It is estimated that 29 millions more tons of bituminous coal will be mined this year than last—with fewer men. Quite a tribute to mine owners and miners alike!

There are adequate rail facilities for hauling the coal to your city. But certain grades of coal are going to be greatly in demand for war production. And your coal dealer is handicapped by a shortage of manpower, trucks and tires. So be patient with him.

Little, common-sense precautions can make your coal pile last 10% longer—and save that much on your fuel bill.

Such things as weatherstripping, cleaning the heating system, closing off unused rooms, firing carefully, and drawing your shades at night can help to keep your family snug and warm.

One of the biggest jobs of the C & O Lines is hauling coal from the mines along its routes, so we're in a position to understand the problem, and to know how essential coal is these days.

**"Easy Come... Easy Go" means DANGER AHEAD**

Let's get one thing straight. There is real danger to you and your family—and to your country—in the belief that it is all right for you to spend everything you made last week because another fat pay envelope will come to you this week.

Lots of people felt that way in the last war, too. And they had rough jolts—to put it mildly. Readjustment always follows wars. Factories will have to be closed for retooling. Business will have to shift from a wartime to a peacetime basis. And no matter how much of an attempt is made to cushion the change, millions of persons may find that, temporarily at least, pay envelopes aren't coming in so regularly and so fat.

Take a pencil and figure out your total income, your necessary spending. What remains is your savable income, your future spending fund. That's the way to plan your spending and your saving. For the present, buy only what you need. Invest in War Bonds and hold them to maturity. Save a good part of your income week after week. Build up a reserve. Build it confidently knowing that it is going to help take care of you in the readjustment period which is bound to come.

Then you can face the future with confidence.

Help the nation's efforts to keep your living costs DOWN, the buying power of your dollar UP.

Legion Plans Christmas Aid

Plymouth's newly organized Passage-Gayde American Legion post has not waited long to become active in an American patriotic effort. These honorably discharged men of Plymouth from World War II have decided to take up as one of their efforts the collection and distribution of Christmas gift boxes to wounded soldiers and sailors of the present world war.

The American Legion organization throughout the country has set as the goal not less than half a million Christmas boxes for fighting lads who are now confined to hospitals throughout the world.

The Plymouth members are asking the cooperation of Plymouth residents in this effort. Each Christmas box, say Passage-Gayde members, should contain toilet articles, stationery, home-made hard candies, cookies, playing cards and books. Individuals can pack their own boxes if they desire and then turn them over to some member of the newly organized Plymouth American Legion post for proper distribution to soldiers in hospitals.

Mr. and Mrs. Ernest Thrall of Ann street have just received a cablegram from their son Donald, advising them that he is right now enjoying his first furlough since joining up with the fighting forces three years ago.

Gets Furlough, Visits Sydney

No, he is not enjoying that furlough at his home in Plymouth or anywhere in the states.

He has been granted a 15-day leave to spend in Sydney, Australia.

The former Plymouth high school graduate and later public school art instructor, went through two of the tough campaigns in New Guinea. In recent months he has been in the Netherland East Indies where the Marines have been doing a good job in driving the Japs out of that country.

Donald has not been back to Plymouth since he joined up with the Marines, his outfit being one of the first to go into the southwest Pacific.

**What Home Rule Means!**

By James K. Watkins  
 Chairman, Citizens' Committee on Home Rule for Wayne County.

Citizens of Detroit and Wayne County have a right to know what Wayne County Home Rule means and why it appears on their state ballot in the November election, Proposal Number 4, to be adopted or rejected by them.

It is not fair to them that they should be subjected to a barrage of misrepresentation, some of it unfortunately being vicious and deliberate.

An issue as important as this one, vitally affecting the welfare of 2,225,000 people, should be determined on facts, not prejudice.

Proposal Number 4, if adopted by the voters of the State would give to the people of Wayne County the right to set up the form of government under which they wish their county affairs to be managed. Under Proposal Number 4, they would elect a charter commission representative of the entire county; the commission would draft a proposed charter, and it would be up to the people to say whether they wanted it, or whether it should be sent back to the commission for revision before being again submitted to a vote.

Mandatory provisions in the charter as set forth in Proposal Number 4 include:

1. A smaller, stream-lined Board of Supervisors, elected by the people, in place of the present clumsy 84-member board, most of whom are political appointees.
2. A county chief executive whom the people can hold responsible for efficient management of the county government, in place of the slipshod divided authorities now spread out among a dozen or more individuals, boards and commissions.
3. Civil service, initiative and referendum and non-partisan elections.
4. The right to abolish useless county offices and to consolidate others whose duties overlap.
5. The right to amend their charter by vote of the people whenever changing conditions warrant such action.

Those are the chief improvements which must be included in a new charter. What others may be added are a matter for the charter commissioners to decide, and the people elect the commissioners.

Instead of discussing these plain provisions of the proposal, we find our opponents, most of whom are on the county pay-rolls, resorting to false claims to the general effect that adoption of Proposal Number 4 would enable the county to seize the powers of the local governments. The language of the proposal specifically prohibits any such invasion of the rights of local units of government.

I plead only for an honest presentation of the facts. Once they are understood, there is no doubt in my mind but that Proposal Number 4 will carry by a wide margin.

I'm the guy who looked at you from a U.S.O. poster some time ago. I'm the guy for whom you and millions of others gave and gave so generously. I'd like to tell you what was done with your money.

The money you gave last year helped give the boys the tonic of entertainment... a personal appearance by Jack Benny in Africa... by Gary Cooper in the South Seas... and by lovely women stars in remote places where just the sight of a feminine face is enough to make up for weeks and months of loneliness and isolation.

Your dollars made possible the U.S.O.—in addition to many other great services at home and abroad—3,000 U.S.O. clubs and U.S.O. Camp Shows.

The job is bigger this year... much bigger. Won't you be bigger than ever this year, too, and give generously?

**Barber Shop Singers Active**

Many a man has been heard to moan "Oh! for the good old days!"—but when you'd question him, you'd find that he doesn't mean the days when you could buy a carton of cigarettes or a box of cigars—or when a Sunday afternoon drive was the usual thing.

Oh, no! He meant the days when you'd drive the horse and buggy to wherever you couldn't walk—and the days when sweet harmonies would emanate from the local Tonsorial Parlor.

Now, those veeners, from Plymouth and Livonia township, for the dulcet melodies of the barber shop, can have those yearnings satisfied.

Six years ago, a group of business men from Tulsa, Okla., headed by O. C. Cash let loose an avalanche of melody upon North America—close harmony that is spreading with exciting rapidity.

Last December, a group of seven local devotees of the "Barber Shop Chord" visited the Detroit chapter of the society for the preservation and encouragement of Barber Shop Quartet Singing in America, Inc., thrilled to Detroit's regular monthly meeting and returned to their homes in Livonia township resolved to be part of this great society, or else.

A new chapter was born—the Rosedale Gardens chapter—the 22nd chapter in Michigan—and for the first part of 1944 enjoyed a normal growth. From the 38 members then enrolled, a chorus of 20 men, four end men and an interlocutor played the Shine, Shine and Shampoo Minstrels to packed houses in Rosedale Gardens, Plymouth and Garden City for six nights. Apart from this Minstrel show, there was little other activity except meetings held every two weeks.

In the late spring, it was voted to hold no meetings during the summer months. The first meeting of the fall was held on Friday, September 23. Hereafter, meetings will be held on the fourth Friday of each month.

Now, this chapter is open to all white males with melody in their souls—that is, all males who can get to the Community House in Rosedale Gardens on the fourth Friday of the month, and the only conditions for membership are these: the man must like to sing Barber Shop Harmony in quartet or chorus or he must like to hear Barber Shop Harmony, whether he can sing or not.

Here is an interesting fact about the society. Last June the 260 or so organized quartets in the society had sung at more than 8000 entertainments for service men—more than 30 appearances for each quartet—during the year ending in June.

**Don't Like Fish? Must Eat 'Em Anyway**

With record supplies of fresh and frozen fish available, the War Food Administration and the Fish and Wildlife Service are asking Michigan consumers to eat fish more often during the period October 30 to November 18. The most plentiful supplies of fresh and salt-water fish are bluefish, lake herring, and perch. Other varieties include bass, mullets and mackerel, according to A. C. Doane, District Representative, Office of Distribution, WFA.

Detroit cold storage stocks of bluefish total 36,550 pounds, lake herring 130,795, perch 25,880; of

bass 38,000, mullets 36,000 and mackerel 23,000. Fish are an excellent source of highly digestible protein, and are rich in vitamins and minerals. Salt-water fish, particularly, is recognized as a leading source of iodine among the natural foods. About 20 percent of the edible portion of fish is protein, Doane said.

During coming weeks, retailers will draw attention to the availability of fish and will have on

hand a wide variety of tested recipes which can be depended upon to turn this valuable food into a table delicacy, Doane stated.

Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear.—Hebrews 11:3.

**Prison Wardens Fear Future**

"Big Money" made by thousands of people during the present war boom, and the days when these easy dollars will not flow so freely, are providing prison officials with the real worry growing out of this war, was the consensus of opinion of wardens who attended the recent conference of the American Prison Association in New York city, according to Warden Blake Gillies who has just returned from the east.

"After the last world war many who had been making unheard of incomes, were determined to keep on getting 'easy money.' It all ended up in a tremendous increase in prison population. Many of the officials present at the New York conference already see signs of the same condition developing, and they are alarmed about it," stated Warden Gillies about the numerous discharges yesterday.

"There was considerable said being made by the government of men who have been wounded and crippled in action. Many, very many of these men are being discharged before they have fully recovered, said some who were at the conference. While the officials were not expecting returning soldiers to be any problem, there seemed to be much sympathy for them, due to the plight they are in," stated Warden Gillies.

**Re-education of Germany Is Subject**

Sigrid Schultz, former Director of the Berlin Bureau of the Chicago Tribune, will speak on the "Re-education of Germany" at Detroit Town Hall in the Fisher Theatre, Wednesday morning, November 8, at 11 o'clock.

From the first, this brilliant correspondent warned the world of the inherent danger of the Nazi movement. As the head of a large news staff, she watched the Nazis rise to power. She knew Goering, Goebbels, Himmler, even Hitler, covering many historic events in Central Europe.

When World War I broke out, Sigrid Schultz and family were in Germany. Illness made it impossible for her to leave, so she remained in the Reich until after the Armistice, returning to America to act as assistant to Richard Henry Little of the Chicago Tribune.

In 1925 she succeeded to the position of Director of the Tribune's Central European Bureau in Berlin, where she remained for sixteen years.

On leave now from the paper, the newswoman has just completed a new book, "They'll Try It Again." Frequently heard on national radio programs, the authoritative views of Sigrid Schultz are eagerly awaited.

Reservations for the lecture may be obtained at Grinnell's Music House, Ra. 1124, or at the Fisher Theatre on the morning of the talk.

**FACTS about Proposal No. 4**

1. Elected officials of local governments in 63 Michigan counties are vigorously opposed to Proposal No. 4 which imposes Detroit rule on 11 cities and 18 townships in Wayne county. It constitutes the entering wedge for destruction of responsible government in every county of Michigan.
2. It vitally concerns all of Michigan. The so-called county home rule plan FIRST applied to ALL counties. It was beaten by Michigan voters in 1924 and 1926. The Wayne county scheme was rejected in 1942. Let's bury this threat for all time! Defeat Proposal No. 4!
3. Let Detroit clean house first in Detroit! Here is the record of Detroit city officials and Detroit state legislators, now elected AT LARGE:  
CONVICTED! One-third of Detroit city council, mayor and many police officials.  
CONVICTED! A majority of Detroit state legislators in 1944.  
Proposal No. 4 would impose AT LARGE elections with non-partisan ballots upon Wayne county, despite Detroit's record of corruption under that system.
4. Proposal No. 4 would destroy responsible county government. Wayne county has the lowest tax rate and bonded debt of any county of its size in the nation. Contrasted to the county's 13 per cent debt DECREASE since 1919, Detroit's debt has soared more than 11 times—\$30,627,253 to \$332,125,738. Detroit city taxes have doubled, while the county tax rate goes downward—dropping another 14 cents on Dec. 1, 1944.

## Farmers Urge Big Vote Nov. 7

Pointing to the fact that only 62 per cent of the eligible voters actually voted in the 1940 presidential election, F. R. Clements, president of the Washtenaw County Farm Bureau, today issued a statement urging a heavy turnout at the polls on November 7.

"It is our duty, not only as rural and small-town citizens, but as Americans," said Mr. Clements. "Voting is a right—a privilege—for which our sons and brothers are fighting in many parts of the world today. It is our duty to them and to ourselves to vote in this national election when so many crucial issues are at stake."

Mr. Clements' statement came in response to an appeal from the American Farm Bureau Federation which was sent by Mr. C. J. Reid, President of the Michigan State Farm Bureau to presidents of all county organizations. The Farm Bureau Federation is now carrying on a nation-wide campaign, strictly non-partisan, urging rural America to vote in the November elections.

Farmers and citizens of small towns can have a powerful voice in governmental affairs through their representatives if they will get out and vote for the man of their choice, according to Mr. Clements. He added that rural people have the power to influence national politics if they will only use it. He called attention to the fact that 77 per cent of the senators and 62 per cent of the congressmen come from districts which have no cities of more than

10,000 population and hence are predominantly rural. He said, however, that if rural America stayed at home on election day and the big city vote turned out full strength, rural people would have an even harder time from then on making their wishes heard.

Mr. Clements said that an appeal for farmers to vote in the coming election was stirringly made by Edward A. O'Neal, president of the American Farm Bureau Federation, in a recent address. Mr. O'Neal said:

"I know the farmer has an obligation to get his crops in at the proper time, but I also know that he has a duty that transcends even the obligation to produce, and that is to contribute to good government by exercising his right to vote. Leave your plow, leave your cow, leave your sow, and go to the polls in what is one of the most precious rights and privileges that we enjoy under our democratic form of government. In my opinion, farm people carry a greater responsibility for the preservation of our great tradition of democracy than any other group."

In his statement, Mr. Clements said that although Farm Bureau members, like everyone else, are busy at this time, they and all other rural citizens can take off the necessary hour or two that voting requires. "We should remember," he said, "that our boys in the armed services are giving the best years of their lives to defend of their country. They were not too busy when the call came. We cannot and we will not be too busy to vote. We should everyone of us go to the polls November 7 and thereby act as share-holders in America."

## Brothers Meet In War Zones

Many strange things, unusual things, happen during a war. Mrs. Elmer Reddeman, 334 Auburn avenue, has four brothers serving in the uniforms of our country.

Two of these young men were sent into the Italian war zone very early in the invasion made in that part of the world.

One was Staff Sergeant James Cash, the other Corporal Robert Cash, who lives over near New Hudson. Robert is a cook in the officers' air corps and James is with an ordnance outfit.

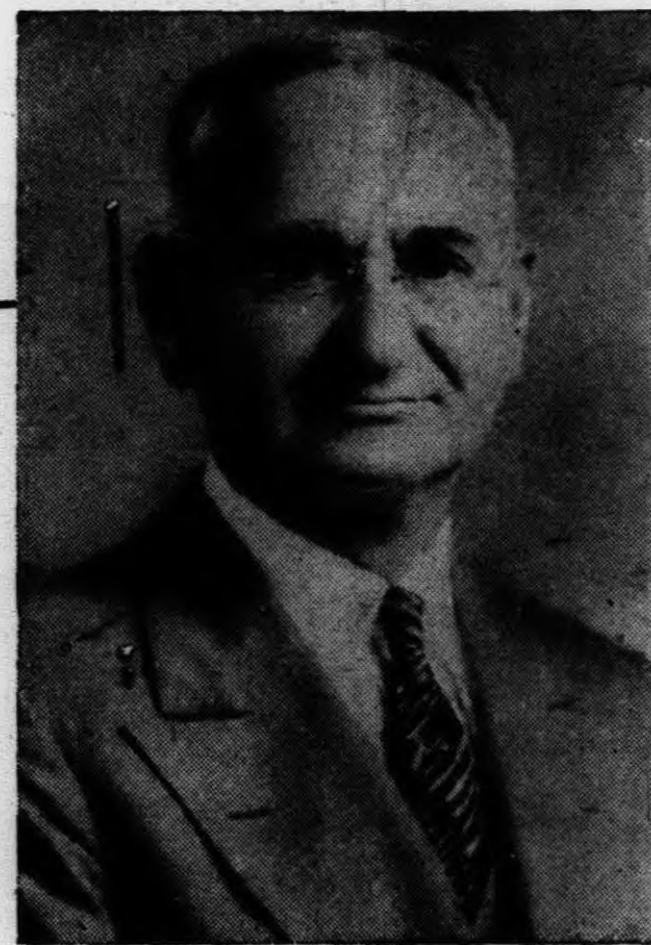

Before they went overseas, they met at the home of their sister, Mrs. Reddeman, in this city on September 9, 1942.

It was just one year later when the two brothers met again, this time by chance, in Sicily.

A few months later, Robert, serving with the British 8th Army as it swept up the east coast of Italy, under General Montgomery, and James, with General Patton's forces going up the west coast, met again in Italy.

Then the boys again separated. The other day Mrs. Reddeman received a letter from her brothers in which they told of meeting for the third time, this time in southern France some three weeks ago.

That surely is one for the books. Mrs. Reddeman's other brothers, Sergeant John L. Cash, and Air Cadet Charles B. Cash, are still both in this country. John, who visited Plymouth during the past few days, is now located at an air base near Santa Ana, California, and Charles is at Gunter Field in Alabama.

# RE-ELECT Circuit Judge William FRIEDMAN

Candidate for re-election on the Non-Partisan ballot in the coming election, was in the unusual position today of being endorsed by both labor and industry, leaders of both political parties, by the Bar Association and the Detroit Citizens' League, and by scores of other groups.

The CIO and the AFL are united in this campaign to return the veteran attorney to the bench as successor to the late Judge Harry B. Keidan.

It is a Non-Partisan election on a separate ballot and voters should not fail to exercise the duty of citizenship by voting this ballot which is in addition to the Presidential and State tickets.

Born in Detroit, Judge Friedman long has been active in civic affairs, particularly in connection with prison reform and the battle against juvenile delinquency.

No man has served longer on the Detroit House of Correction Commission. He was a member of that body 18 years, appointed and re-appointed by five mayors.

During his regime, the House of Correction was transformed from an antiquated "house of punishment" to one of the nation's most modern and advanced "houses of

correction." The medieval idea of punishment was replaced by methods of human rehabilitation.

Judge Friedman is a member of the Board of Directors of the Boy Scouts of America, Good Will Industries, The Round Table, and director of many other charitable and communal organizations.

Chosen by Governor Kelly to replace the late Judge Keidan, Judge Friedman quickly demonstrated the aptitude for fair, impartial, courageous administration of justice that made his predecessor one of the most beloved jurists in the city.

His sound knowledge of the law results from his many years as a leading attorney.

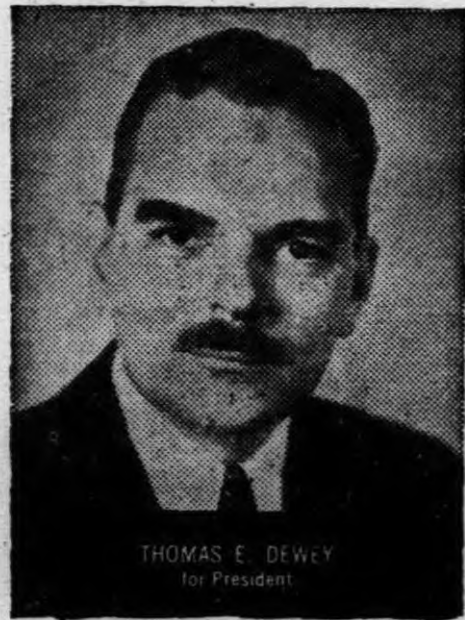

At the start of the Selective Service System, Judge Friedman was appointed by President Roosevelt as Chairman of the Wayne County Draft Appeal Board No. 2 which has jurisdiction over 16 Local Draft Boards.

Besides being endorsed by the CIO and AFL, he is the candidate of the Teamsters' Union, Brotherhood of Railroad Trainmen Unions, the Fire Fighters Association, and many other groups.

He is a Mason, a Shriner, an Elk, and a member of the Knights of Pythias.

(This advertisement is contributed by Plymouth friends of Judge Friedman)

# A SERIOUS MESSAGE To Every Michigan Voter!

Through New-Deal-controlled depression, for 10 years we have seen our liberties disappear. Year after year, millions have been forced to live on New Deal doles. Even Churchill, in 1937, accused the New Deal, through its persecution of capital, of forcing the world back into another depression! To restore our liberties, protect our freedom of speech, our vote and our opportunities to progress, vote for Dewey's program. To preserve good government in Michigan, re-elect Governor Harry F. Kelly!

### DEWEY'S PROGRAM:

An administration devoted to public service instead of bureaucratic bickering.

An administration working in harmony with Congress.

An administration in which the Cabinet is restored as a responsible instrument of Government.

An administration in which you will not have to support three men to do one man's job.

An administration which will root out waste and bring order out of chaos.

An administration which will give the people of this country value received for the taxes they pay.

An administration made up of the ablest men and women in America who will receive full authority to do their jobs and will be let alone to do them.

An administration free from the influence of Communists and the domination of corrupt big city machines.

An administration in which the Constitution is respected so that the liberties of our people shall again be secure.

An administration which will devote itself to the single-minded purpose of jobs and opportunity for all.

### KELLY'S RECORD:

Distribution of blood plasma to civilians, a program which the medical profession says is saving 1,000 lives a year.

Statewide tuberculosis diagnosis program.

Pioneering in postwar adult education and preparing for return of veterans to civilian life.

More adequate aid for dependent children.

Increased assistance to aged.

More liberal assistance to injured workmen.

Correlation of tourist and resort agencies.

Providing recreation facilities for "starved" metropolitan areas.

Youth guidance program designed to prevent delinquency.

Orderly future planning under State Planning Commission.

A farm program administered and approved by practical farmers.

Should the incompetent, radical-supported New Deal continue, we may end with dictatorship. THIS may be your last chance to vote for the preservation of your freedoms.

**Rocks Lose by Three Touchdowns**  
 Playing with a patched-up backfield because of the loss of two players, Plymouth lost 19 to 0 in a night game at Ecorse last Friday. Twenty yards from Ecorse's goal line on a forty-yard run by Schroeder was the closest Plymouth came to a touchdown. Plymouth's game lacked both blocking and charging. Ecorse gained one hundred fifty-two yards against Plymouth's ninety-seven yards. Thirteen first downs were made, eight of which were Plymouth's. Plymouth completed three passes, while Ecorse did not complete any.  
 During the first half, Ecorse made two touchdowns and one conversion against the first team. Coach Tomshack substituted his sophomores and juniors at the half. One touchdown was scored against them. Four of Plymouth's eight first downs were made by the second team, who gained more yardage than the first team. The starting lineup was:

The publicity committee under the supervision of Miss Allen and Mrs. Gorton is headed by Bud Zielasko.

**Bernard Birt Heads Camera Club**  
 Bernard Birt was elected president of the Camera Club at its first meeting, Monday, October 23. Charles Strachan is vice-president; Marian Kirkpatrick is secretary-treasurer. In each meeting some division of photography will be discussed.  
 Bernard Birt led the first discussion on the theory of the pin-hole camera. In the second meeting, October 29, Alan Kijston and Freeman Hoover explained the technique of developing films. As their first project the members will take pictures of the next home football game for the Senior annual.

**Typists Do Over 149 Hours Extra Work**  
 From time to time during the year, the advanced typewriting classes are called upon to do work aside from their regular class assignments.  
 During the past four weeks, the students have given a little over 149 hours of their time to this work. As much as possible, this work is done during the regular class hour as no other time is available to most students. Because of this, many of the assignments are replaced by this work.  
 There is some good to be gained from this practice as the students make real application of the principles learned in class. They are encouraged to make no errors and to waste no materials — just as is done in an office.  
 The classes are always glad when the material comes to them in neat and distinct handwriting for it is their duty to decipher this material before it is placed on the typewritten page.

**Lois Mills Heads Leaders' Club Dance**  
 Sadie Hawkins day will be the theme of the Leaders' Club dance November 10 under the general chairmanship of Lois Mills. The chaperone committee consists of Jean Schuler and Mary Lou Rowe. Other committee heads are publicity chairman, Margaret Jackson; program, Ellen McAninch; tickets, Jean Murray; refreshments, Mary Agnes Evans; decoration, Marjorie Elliott, and floor, Mary Jane Christensen.

**Class News**  
 Miss Bristah's first hour geometry class, which is now using formal proofs, is experimenting with democracy in the classroom. When board work or individual help leaves a group of students just sitting, the students take it upon themselves to drill each other on weak points. Miss Bristah especially praises Nancy Groth and Ann Hopkins for their teaching ability.  
 Chairmen to assign different propositions are also chosen daily. Miss Niles is emphasizing spelling in her English classes, pupils who are doing "A" work in the weekly tests are Nila Anderson, Anita Duke, Virginia Elliott, Doris Puckett, Arlene Wagenschutz, June Venus, Barbara Fallon, Owen Hedder, and Barbara Lorenz.  
 Margery Fegan, Maxine Martin, and John Meyers wrote good paragraphs in Miss Niles' English class. Those who did well in American history 1A quizzes are Verna Bruny, Wanda Wyatt, and Madeline Gearnes. Donna Langdon made good cartoons.  
 Mrs. Murray's world history classes are making maps of the empire of Alexander the Great. The seventh and eighth grade sewing classes of Mrs. Moran are engaged in making aprons and pajamas as part of their regular projects.  
 Mrs. Gilders' 8B English classes are having fun diagramming sentences.  
 Mrs. Highfield stated that although mothers have been very cooperative in supplying the tin cans necessary as part of household mechanics, her classes are short on small cans such as those containing baby food. She and her students would appreciate any contributions.  
 Jerry Walsh is mending a doll crib which has a music box in it. Alan Wiedman is repainting a kitchen chair which is an antique. Richard Burden is sharpening scissors and Howard Tower is conditioning small tools. Robert Jones has converted an automobile parking light into a light for his bicycle. Ferris Mather is conditioning his mother's sewing cabinet and his own desk chair. Jack Scheel is making a metal tray. Other boys are sharpening and repairing hunting knives and hatchets.

**Sport Shorts**  
 First and second team basketball practice starts November 6. Plymouth will play its last game with Dearborn here November 3. The cross-country team has two more meets, the state meet on November 4, and the conference meet November 8 at Ypsilanti.  
 New game schedules will be posted next Tuesday. On Wednesday, recreation night, ping pong, volley ball, and badminton will be played. Miss Olmsted reports that there was not a volley ball game on last Tuesday, October 30, because of the number of Halloween parties.  
 The new plate lunches have sold well, said Mrs. Soule. They have been sold every day this week instead of every other day as formerly. The children seem to prefer soup, potatoes, desserts and ice cream. The high school students show a preference for salads and main dishes.

**Gremlin Gossip**  
 "If we meet each other in Hudson's Friday, we might as well be open and above-board about it." Hmm, teachers skipping "Institute"?  
 Overhead on third floor: "If I can find Dorothy I won't be here this afternoon." More skipping?  
 Marvel of the age: that a junior can think that Lincoln was a Southerner.  
 Miss Bristah: What is one times one?  
 Bruce Murray, triumphantly: Two.

**French Club Plans Dance**  
 Marie Duthoo is president of the newly formed French Club, which met for the first time Friday noon and discussed themes for a future dance. The vice-president is Jack Huebler; secretary is Rosamund Busby. Miss Killham is treasurer, from which post she cannot resign except in case of death or departure from Plymouth high. The immediate aim of the club is to develop a theme for a not-too-distant dance.

**Ed Strong Chairman of Senior Prom**  
 Committee chairmen for the Senior Prom assisting Ed Strong, general chairman, are Elaine Kunkel and Annamarie Cooper, decorations; George Valrance, music; Don Shely, lighting and construction; Lois Hanson, invitations; Bernice Miklosky, publicity; Ralph Bachelder, clean-up; Eleanor McDonald, admission; and Jean Ann Livernois, ticket and check room.

Guests were Judith McWethy, June Rohman, Bruce Walborn, Barbara Lorenz, Mary Lou Klinski, Aleta Shekell, Mary Rolen, Dick Farwell, DeWayne Becker, Irwin Brink, Helen Moore, Dick Moore, Raymond Michaels, Harry Blessing, Joanne Miller, Rosemary Miller, Glen Hix, Tom Saunders, Jack Rutwick, Betty Lou Arnold, Bob Kimbrough, Kay Witham, and Nancy Maddox.

Wanda Merritt entertained Elaine Sanko, Nancy Pettibone, Eleanor McDonald, Violette Meyers, Yette Jackson, Bernice Miklosky, Marion Miklosky, Veronica Kucie, Doris Merritt, Dora Gruebner, Juanra Harrison, Mary Jane Moore, Marie Duthoo, Shirley Schokow, and Ardis Curtis on Saturday, October 28, celebrating her sixteenth birthday. Refreshments were served after games.

The Scriptures require more than a simple admission and feeble acceptance of the truths they present; they require a living faith, that so incorporates their lessons into our lives that these truths become the motive-power of every act.—Mary Baker Eddy.

Ford Making Robot Bombs

A jet propulsion engine for robot bombs is being produced by the Ford Motor Company, officials of the company and the War Department have announced.

At the request of the Air Technical Service Command at Wright Field, Ohio, Ford engineers worked out production engineering details following reconstruction of a German robot engine from parts shipped from England. Ford-made engines already are powering robot bombs of American make which are being used for testing purposes.

Previously, Ford had become interested in the subject as far back as 1918, when General Henry H. Arnold, then a captain, and now Chief of the Army Air Forces, viewed a Ford-designed and Ford-built robot bomb engine in Dearborn. The World War I model looked promising, but the war ended before it could be tested. It has since reposed in the Edison Institute Museum in Dearborn.

Ford's interest was renewed Aug. 9 when Colonel D. J. Keirn, acting chief of the power plant laboratory of the Air Technical Service Command, asked if he could borrow two Ford engines to help produce a number of robot bombs for testing purposes. Subsequently, additional Ford experts were sent to Wright Field to confer on robot bomb engine problems.

The robot in which the Ford-made engine is being used consists of a highly streamlined fuselage with stubby wings over which is mounted a tube containing an impulse jet engine. Fuel used is gasoline. Motive power comes from a series of rapid explosions in a combustion chamber. The force of these explosions follows the line of least resistance—the open rear end of the tube—and drives the aerial bomb forward. The front end of the tube is equipped with an ingenious "gate" which opens to admit air for combustion and closes with each explosion to prevent loss of power. In action, the engine sounds like a giant outboard motor.

The fuselage contains a war head, fuel, automatic control equipment and two spherical compressed air tanks for running control units. Over all the bomb measures about 17 feet in span and 27 feet in length.

1; Patricia Helen Hudson, sophomore, daughter of Mr. and Mrs. Harry L. Hudson of 188 N. Main; and Audrey Marie Morris, freshman, daughter of Mr. and Mrs. William Morris of 10217 Stark Road. Albion's enrollment represents a 17 percent increase over last year's civilian registration.

Between 1932 and 1943, the number of bank holdups in this country decreased from 606 to 22, or 96 per cent, because of the work of the FBI with the cooperation of local authorities, the FBI not being hindered by "state lines" in its pursuit of criminals.

"WHY CAN'T I WALK LIKE OTHER BOYS?"

Here in your own city—maybe right in your own block or just around the corner—there are poor bewildered children who yearn to walk and romp and play. Think what it would mean if you couldn't walk—think how you would feel if your child were crippled...

Think—then in gratitude and sympathy, decide what you can give to your Community War Chest. Give—that crippled children may have care and treatment, a chance to walk again—

Help all three—your fighting men, your Allies, your neighbors.

Purple Heart For Monte Hines

Mr. and Mrs. Jake Hines the other day received from their son, Monte Hines, the Purple Heart decoration he has been awarded as the result of the wounds he received during the invasion of Saipan. It was sent to them by their son, who wrote that he thought it would be in a safer place if it was here.

Monte wrote that he has entirely recovered from the head-injury he received when hit by a flying fragment of a Jap shell, and that he is now back in service.

In his letter he stated that he had met Arthur Russell, who is in the Marines, somewhere on Saipan. Mr. Hines advises that he does not know the parents of Arthur Russell, but that if they will call him, he will be glad to convey such information to them as the letter contained.

FIGHTING LINES IN FRANCE**

Corporal Charles A. Barger,  
who was recently awarded the  
combat infantryman's badge for  
his services while in combat,  
found time the other day to write  
a brief note to "Our Boys" page.  
"Thought you would be inter-  
ested in knowing that The Plym-  
outh Mail comes to us right up  
here at the front. You don't know  
how good it seems to get the pa-  
per from home, even if they are  
weeks old" he wrote.

"I read recently in The Mail  
where Plymouth is doing some  
improving of its streets. It makes  
me very happy to read this good  
news about my old town and to  
know that the city is making a  
few improvements that were bad-  
ly needed.

"I would like to say hello and  
good luck to all of my old friends

NEW LANDING SHIP.**  
\*\*\*\*\*

William E. Semand, a resident  
of Plymouth whose wife and two-  
year-old son reside on rural route  
No. 2 has been chosen by the  
Navy to serve aboard an LSM  
(Landing Ship, Medium), the  
speed carrier of attack that has  
been especially developed for  
Pacific duty.

Now stationed at the Amphib-  
ious Training Base in Little  
Creek, Virginia, Semand is going  
through the rigorous training  
program to prepare for duty as  
gunner's mate on the swift new  
invasion vessel.

The amphibious ship on which  
the Plymouth youth will serve  
has been designed with a shel-  
low draft that enables it to ne-  
gotiate the coral reefs of the Pa-  
cific islands. It can cross the  
ocean with its cargo of tanks and  
machines and discharge them di-  
rectly onto enemy-held shores  
over its landing ramp bow.

He is now entitled to wear the  
Distinguished Unit ribbon. The  
award was given for the precision  
bombing of the Bad Voslau, ME,  
109 fighter plane factory. This  
new factory, the pride of Her-  
mann Göring, had just swung  
into production, when it was at-  
tacked by the 15th AAF. Despite  
intense flak and numerous enemy  
fighters, this particular group  
led its entire wing directly over  
the target, and literally wiped  
the factory off the face of the  
earth. Not one building was left  
untouched. Called by the press  
"the finest example of precision  
bombing by Liberators," the  
destruction was so complete the  
Nazis never made an attempt to  
rebuild the plant, or even remove  
the debris. The group was com-  
manded at the time of the attack  
by Col. Marden M. Munn of Al-  
bany, Calif., who was awarded  
the Distinguished Flying Cross  
for his leadership and flying  
skill.

Before joining the Air Corps  
in September 1942, Sgt. Gerrard  
was employed as a machinist by  
Ford Motor Co.

Savere Jr. Quелlette, son of  
Mr. and Mrs. S. J. Quелlette, of  
26866 Southwestern, Rt. No. 4,  
Plymouth, has just graduated  
from the Naval Air Training  
Base, Corpus Christi, and was  
commissioned an ensign in the  
U. S. Naval Reserve.

He received his preliminary  
flight instruction at the Olathe,  
Kans., naval air base.

Each Naval Aviator is an ex-  
pert flyer, navigator, aerologist,  
gunner, and radio operator.

Naval Aviators fly carrier-based  
or land-based planes in com-  
bat zones, or at Naval Air Sta-  
tions at home and abroad.  
Types of planes in Naval Avia-  
tion include fighters, dive bom-  
bers, scout and observation, multi-  
engine bombers, patrol planes,  
and air transports.

Whether in the Marine Corps  
or in the Navy, Naval Aviators  
wear the famous "Wings of

**ANOTHER APPROVES  
OF NO CELEBRATION  
ON VICTORY DAY.**

It seems that the men in the  
fighting forces of the country  
have displayed more interest in  
what The Plymouth Mail said  
against a V-Day celebration than  
any one else. Recently Col.  
Hough, a member of Uncle Sam's  
fighting air forces who have been  
wiping Germany off the map,  
wrote a strong objection to any  
V-Day celebration back home.  
He declared it ought to be a  
day of prayer.

Now comes a letter from Lieut.  
Tony Matulis of the Navy who  
expresses nearly the same senti-  
ments as did Col. Hough.

Lieut. Matulis now in France,  
says:

"A lot has been said by the  
armed forces regarding the V-Day  
celebration at home. They don't  
like it, because it is they who  
should celebrate because they are  
lucky enough to be alive. I would  
like to see U.S. papers print some  
of the exact horrors these men go  
through."

"This is such a large scale war;  
we think in terms of billions, and  
when thousands of casualties are  
printed, the number seems small.  
"This is a bloody war right now.  
How I wish I could talk Cass  
Hough was right; prayers would  
be a much better morale booster  
for the G.I's; they are in for a  
rough show. We will win, but you  
know the result when you shoot  
into a flock of birds—a lot get  
hurt."

Pvt. Frank B. Aldrich, son of  
Mr. and Mrs. Frank V. Aldrich,  
12301 Diana Lane, Rt. 4, Plym-  
outh, has completed the first  
leg of a training program that  
will qualify him for dual duties  
as a member of a combat air  
crew, at Keesler Field in Mis-  
sissippi.

He was graduated from the  
Army Air Forces Training Com-  
mand's B-24 Liberator bomber  
mechanics school. With 17 weeks  
of aircraft maintenance and  
emergency operations training  
behind him, he will complete his  
Air Force schooling at another  
station. During the last seven  
days of his course, he logged sev-  
eral hours in a B-24 Liberator  
bomber in the practice perfor-  
mance of the duties of an aerial  
engineer. He previously had been  
skilled in the fundamentals of the  
Liberator's fuel, electrical, en-  
gine, hydraulic and propeller  
systems.

Sergeant Donald G. Barker,  
R.F.D. No. One, Plymouth, gun-  
ner on a B-24 Liberator, has re-  
ceived the Oak Leaf Cluster to the  
Air Medal for meritorious  
achievement in combat over Eu-  
rope. Major-General William E.  
Kepner, commanding general,  
Second Bombardment Division  
has announced.

The citation accompanying the  
award reads:

"For exceptionally meritorious  
achievement, while participating  
in bomber combat missions over  
enemy occupied Continental Eu-  
rope. The courage, coolness, and  
skill displayed by this man on  
these occasions reflect great  
credit upon himself and the Arm-  
ed Forces of the United States."  
of the Liberator Group com-  
manded by Col. Lorin L. John-  
son of Payson, Utah. The Group  
made its 100th mission in sup-  
port of the initial landings by Al-  
lied Forces invading Normandy  
on D-day. The Group was also  
recently cited for "distinguished  
and outstanding" service on these  
five score missions.

Sergeant Barker entered the  
service in May, 1942. His par-  
ents are Mr. and Mrs. Sylvester  
Barker.

Pfc. Francis L. Twigg of Plym-

Infantry Division units which  
paced Lt. General Mark W. Clark's  
Fifth Army smash from the Ga-  
ragliano to north of the Arno Ri-

Men of the 350th, hardened  
mountain fighters, went into  
action in early March and during  
the drive up the peninsula, skip-  
ped cities and towns to capture  
innumerable strategic heights  
which paved the way for ad-  
vance of other Fifth Army units.

Particularly outstanding was  
the regiment's capture of Mt.  
Cianelli in 51 minutes after  
opening of the May 11 drive.  
Seizure of this height, almost un-  
mentioned in news dispatches at  
the time, has been described as  
the most important action in the  
initial operations against the  
Gustav Line since it cleared the  
flank of the French Corps and  
enabled the French to crash  
through the bottleneck that was  
Castelforte.

After Cianelli came Hill 316,

terattacks in a valley south of San Boggio, where supplies and ammunition were dropped from planes, the 350th drove on to capture Roccaeca dei Volsci, 10 miles ahead of Fifth Army lines. Swarming down out of the mountains after Roccaeca, a motorized unit of the 350th was among first Allied troops to enter Rome late Sunday afternoon, June 4. North of Rome, the 350th was pulled out for rest and reorganization and returned to the lines July 7.

Assigned a corps objective in the Volterra area, key point in the Nazi line below the Arno River, the 350th attacked the night of July 8 and took, on schedule, the high ground to the west and north of the famed hilltop town, ancient stronghold of the Etruscans. From Volterra, the 350th drove steadily across rough and treacherous terrain to the Arno. Trained originally in Oklahoma, Louisiana and Texas under command of Colonel Charles P. Lynch, who served during the World War as a Lieutenant in the same regiment, the 350th came overseas late in 1943 and went into the lines in the Minturno sector in early March of this year.

Shortly after taking up defensive positions, it equalled its World War I record of being the first unit of the 38th to repel a German thrust when it beat back a strong German daylight raiding party.

### CORPORAL JOSEPH CURTIS SERVES AT AIR BASE IN SCOTLAND.

It took trans-Atlantic ship transport 450 years to make the leap from pioneer craft to luxury liner. Trans-Atlantic air travel has made the same leap in 17 years.

Within the past 18 months a fleet of silver, sleek, four-motored C-54's operated by the European Division of the USAAF Air Transport Command has been shuttling back and forth over the Atlantic with time-table regularity. The accident rate is negligible, the hours of departure and arrival predictable within minutes.

During this same period, besides the transports, over ten thousand military aircraft have been ferried over the same run by the Air Transport Command.

If there were a roadway over the blue waters of the Atlantic stretching from New York to Britain, it would be well rutted by this time, and require traffic cops to keep things from getting started. At this point, concessionaries would doubtless have set up hot dog stands along the way.

Tucked away in the green lowlands of Scotland this Air Transport Command Station is the great air terminal for most of the planes coming into or leaving Europe.

Corporal Joseph H. Curtis whose wife, Mrs. Ruth M. Curtis, lives on Route No. 1, Plymouth, is a member of the Transportation Corps at this ATC base in Scotland.

VIP's—Very Important People—come and go by the scores. Ambassador Harriman, Lord Halifax, Secretary Stimson, Queen Wilhelmina, General Eisenhower, Admiral Starke, General Arnold, and a flock of diplomats and military and naval officers of the United Nations, come and go.

It is a huge take-off station for air evacuation to the United States of the boys wounded on the Continent. Many hundreds of planes have made this mercy trip. There is even a field hospital here to cater for and prepare patients heading homewards.

Freight of high priority moves swiftly through the Priorities and Traffic Office. There are propaganda leaflets to be dropped over enemy territory, parts for planes or weapons, equipment for guerrilla armies, needed medical items, pieces of tactical equipment, luggage and bags of mail—all of it barely 18 hours out of New York.

so many of the girls back home are getting married. Its hard to express to you how much the paper means to a fellow who is far away from home" wrote Donald Holman, the other day from down in the southwest Pacific.

"I see by The Mail that there are quite a few boys I know over here in New Guinea, but so far I have not run across any of them. It sure would be swell to see some of the boys from the good old Plymouth high school. Thanks again for the fine things you are doing in sending The Mail to the boys in service" wrote Donald.

### HE'S LEARNING TO COOK FOR HUNGRY BOYS IN THE ARMY.

"You will be interested in knowing that I am now working in the center kitchen, where I am doing cooking for the boys. I find it extremely interesting" writes Charles A. Burden from Fort Sill, Oklahoma, where he is for the present located.

"We leave in a day or so for a two weeks' tactical field bivouac and will do the cooking while we are out. I know it will be a lot of fun, but a lot of hard work as well. Say hello to all of my friends through the good old Plymouth Mail. You don't know how much I appreciate it. Thanks a million for sending it. It seems that about all I do is wait from one week to the other for it to come" he concluded.

### MARGARET ERDELYI NOW AT GLENVIEW NAVAL AIR STATION.

WAVE Margaret Viola Erdelyi, Yeoman first class, USNR, daughter of Mr. and Mrs. William B. Erdelyi, 751 Forest Ave., Plymouth, has reported for duty at headquarters of the Naval Air Primary Training Command, U. S. Naval Air Station, Glenview, Ill. The Naval Air Primary Training Command has supervision over subordinate units located throughout the country at which Navy, Marine Corps, Coast Guard, British Fleet Air Arm, and Free French personnel receive primary aviation training. She is assigned duty in the Aviation Training department.

Yeoman Erdelyi, a graduate of the Plymouth High School, enlisted in the Women's Reserve

on February 24, 1943, in Detroit. She received indoctrination training at the Naval Training School (Women's Reserve) Cedar Falls, and completed a course in office and clerical procedure at the Navy's school for WAVE yeoman strikers, also at Cedar Falls, Ia. Her last civilian employment was with the Ford Motor Co., as a registrar in the Airplane School, Willow Run.

She has two brothers in the service, Pvt. Robert Erdelyi, U. S. Navy, and Ensign Bayliss Erdelyi, U. S. Navy.

### WALTER A. SMITH HAS BEEN GIVEN CORPORAL'S PROMOTION.

Information sent The Mail from the commanding general of the AAF Eighth Fighter command somewhere in England, states that Pfc. Walter A. Smith of this city has been promoted to corporal. His wife Ezell, resides at 243 North Main street. Corporal Smith who attended the Ford Trade school at Dearborn, is now serving as a machinist in the engineering section of the highest scoring P-47 Thunderbolt group in Europe, according to Lt. Col. David C. Schilling.

### Seek To Prevent Farm Accidents

The accident toll among farm persons in 1943 was 17,200 killed and 1,500,000 injured, according to figures made available to the Office of War Information in connection with a "Stop Accidents" campaign in which a score of Government agencies and American Red Cross are collaborating.

Of fatal accidents to rural persons, 7,500 resulted from home mishaps, with falls leading the list, due principally to insecure footing and poor visibility. Next came burns, which most often resulted from misuse of kerosene and gasoline. Then came poisons, poisonous gas, mechanical suffocation, firearms and drowning.

Farm work fatalities numbered 4,500. Farm machinery was involved in most of these injuries because farm workers insisted on unclogging, oiling and adjusting moving machines. Other farmers met death on tractors that tipped over. The startled horse and

the bull that everyone thought was tame were responsible for most of the injuries caused by livestock.

Motor vehicles were involved in 800 farm work tragedies. Falling trees, especially trees that were being felled, caused a relatively large number of deaths. Misuse of tools, heat and lightning also took their toll.

Here are some rules for farm safety:

Pour gasoline or kerosene outdoors to prevent accumulation of treacherous vapors. Never use them to start or quicken fires.

Clearly label medicines and chemicals and keep them out of reach of children.

Don't wear loose and floppy clothes around machinery.

Start tractors smoothly and turn corners slowly. Avoid ditch banks and soft ground. Always hitch to the drawbar.

Know how to notch and guide a tree so that it will fall the way you want it to before you start to cut it down.

Keep guns unloaded except when you are using them. Loaded or not, always treat every gun as though it were loaded.

Speak to farm animals when approaching. Animals usually cause injury when they are frightened. Keep them calm by being calm yourself.

No bull is safe. Always provide food pens and never handle a bull unless he is properly restrained.

November—election month—has been the birth month of more Presidents of the United States than any other. Five of our 31 Presidents were born in November, but May and June have never been represented.

### Issue Warning of Diphtheria

There has been an increase of 30 per cent in the number of cases of diphtheria in the state this year as compared with the number reported for a similar period last year. This is the statement made recently by Dr. William DeKliene, Commissioner of Health for Michigan. This statement is borne out by the increase noted in the out-county area of Wayne County. Up to October 6th there had been 33 cases reported this year. Within the last few weeks other cases have occurred. The most recent one being a child 18 months of age.

The Wayne County Department of Health considers this a critical condition and calls the attention of parents to the fact that diphtheria is a disease which can be prevented. All children, when they reach the age of nine months should be protected against the dangers of this disease by being given two doses of diphtheria toxoid one month apart. Parents should have their family physician administer the toxoid. This should be followed in six months by a Schick test to determine if the child has been rendered immune by the two doses of toxoid already given.

Following this immunization of the child before it is one year old, when the child reaches

school age, another Schick test should be given to see if it still retains immunity against the disease. At this time, if the test shows the child to have lost the immunity, another single dose of toxoid should be given. This will re-establish immunity and protect against contracting the di-

sease. If this procedure was carried out by the parents of all children, in a very short time diphtheria would cease to be a problem in any community.

Due to the present incidence of diphtheria in the out-county area of Wayne county, the County Department of health urges all parents in this area who have children between the ages of nine months and 11 years who have not been already protected against this disease, to have their physician give the necessary two doses of toxoid and so ensure their protection against contracting this very dangerous disease.

VICTORY'S SONS

A lone merchant vessel, loaded with precious war supplies for American troops in North Africa, was pushed through heavy seas. Without warning a torpedo struck amidships, smashing in the side and igniting the oil in the fuel tanks. Flaming oil and smoke filled the passageways, cutting off men trying to get on deck and into the lifeboats.

Chief engineer August Friberg knew there was one thing that might save them. A fire-extinguishing system ran throughout the ship. If it could be turned on, live steam would smother the burning oil. But the main control valve was far back in the stern and part of the deck between Friberg and the valve was blazing.

Babson Says --

Babson Park, Mass., Nov. 3.—Inflation is the result of increasing the currency or the debt of the country more rapidly than the assets of the country. Inflation is a form of disease which has started from many different sources. Note these five:

(1) The crudest form of inflation came from "clipping coins." This means making them smaller or thinner. It is the form that is still used in certain countries.

(2) In the case of paper money, the same result is obtained by printing additional paper money without increasing the gold reserve. This is the method which is now being used in the United States.

(3) A similar result can be obtained by issuing an excess of Government bonds, which are really a form of currency and which tend to debase the currency already issued.

(4) Inflation comes through the increased use of checks, notes, and other forms of municipal, corporation and personal indebtedness. When an acceptor accepts your handwritten check for \$10, this brings on inflation the same as printing more \$10 bills.

(5) Finally, a great increase in the circulation of money brings about inflation. When money changes hands three times as fast every week, it has the same effect as increasing the amount of currency outstanding by threefold.

Let me refer again to my definition. So long as there is an increase in the country's food, clothing and shelter equal to the increase in the circulating money, there is nothing to fear; but otherwise beware. Today, our outstanding currency is increasing more rapidly than is our supply of food, clothing and shelter.

Inflation has the same effect on living costs as changing the size of a bushel, or changing the length of a yardstick, or changing a gallon measure would have if the price per bushel, per yard or per gallon remains constant. This is a very important factor for all municipal officials — especially fire chiefs — to keep in mind when the nation is facing a postwar boom.

After World War II inflation will show itself in increased prices of finished products such as road machinery, crushed rock, fire trucks and especially fire alarm equipment. Furthermore, these increases — caused by inflation — will be in addition to the natural price increases due to greater demand and general prosperity. In fact, all the things which cities will need after the war can be bought for less now.

In case some one argues with you that further inflation is not coming, give them the following three reasons:

(1) Government expenses are still in excess of government receipts. In order for the government to pay its bills, it must either print bonds or currency.

(2) Debtors will continue to howl for more inflation. This applies to farmers real estate promoters and some merchants who owe money. They know that as prices of the land, houses and goods which they now own go up, it will be easier for them to sell and get out of debt.

(3) Those engaged in foreign trade are usually anxious to have the U. S. further devalue its dollar. When other countries devalue their currencies which do not lose trade.

Inflation is a temporary stimulant to business; but, like whiskey, its stimulating effects last for only a short time. Sooner or later increased prices offset all advantages temporarily secured by a "cheap dollar." Hence, to refer again to Fire Departments:

(A) In the postwar period, there will be a general rise in the prices of all materials which municipalities purchase. This means that the sooner fire departments purchase their fire alarm systems the better off the cities will be. Furthermore, only common justice demands an increase in firemen's wages.

(B) As the effects of inflation become recognized there will be a demand by real estate owners, merchants and others for greater fire protection. When it costs more to replace property, the owners of buildings and merchandise will be more fearful of fires and more anxious for greater protection. Therefore, city officials can now talk inflation to their citizens with the full support of all property owners.

25 Years Ago

News items of a quarter of a century ago taken from the files of The Plymouth Mail.

Born, a daughter, to Mr. and Mrs. Richard Vealey, Sunday, November 2.

Mr. and Mrs. Fred Micol have moved into the Bennett house on Depot street.

Ed Rotnour left Monday for a two weeks' deer hunt near Au-Sable, where he will join William Beattie and "Biddy" Weeks, who are trapping and hunting there.

Ed Bolton, Fredman and son, Leroy Reid, Lee Ryder and Jay Stimpson, with friends from Detroit, left Thursday for a three weeks' deer hunt near Cumings, Michigan.

L. W. Hummell and family, last Thursday, attended a celebration in honor of the seventy-seventh birthday of Mr. Hummell's mother.

A special meeting of the Baptist Ladies' Aid society for the purpose of quilting, was held at the home of Mrs. Florence Beale, last Wednesday afternoon. Sixteen ladies were in attendance.

Miss Madeline Kingsley and brother Charles, pleasantly entertained at a Halloween party at their home on Ann street, last Friday evening. Twenty guests were present, and games and music furnished the entertainment.

The following item from the "College News" of the State Normal school at Ypsilanti, will be of special interest to Plymouth friends. Nine new members have been added to the Delta Phi society this year, and the Misses Mildred Bennett and Edna Mather of this place, were among that number.

Mrs. Coello Hamilton entertained about twenty little girls at a surprise Halloween party at her home on Depot street, last Friday afternoon, in honor of her four little daughters, Ruth, Clarice, Elaine and Mary Jane. Halloween games furnished much merriment for the children, and late in the afternoon dainty refreshments were served.

Miss Dorothy Dodsley of Detroit, was the guest of Miss Dorothy Dibble the latter part of last week, and attended the Halloween party given in Penniman-Allen auditorium, last week Thursday evening.

Last week Thursday evening, the children and grandchildren of Mr. and Mrs. Chris Drews, with their families, numbering about eighteen, gathered at the home of Mr. and Mrs. James Horan on Farmer street, the occasion being the thirty-fifth wedding anniversary of Mr. and Mrs. Drews and the seventh wedding anniversary of Mr. and Mrs. James Horan. The house was attractive with Halloween decorations, the same being used for the table, and at six o'clock a delicious dinner was served. Mrs. Drews was presented with a large bouquet of roses as a token of love and remembrance.

Halloween was observed here last Friday evening with greater demonstration than it has been in several years past. The pleasant part of the merry making was that nothing of a malicious nature was done, the fun being of the frolicsome sort. About 8:30 o'clock a company of funmakers, several of the members of the Millard band, marched from north village down Main street, each in costume and most of them carrying instruments. The procession was headed by a director, who was "dressed for the occasion" and beating time with a broom. On reaching the corner of Main street and Penniman avenue, the director circled his party and several instrumental selections were rendered. In a short time the sound of the music called out a large crowd, and the scene soon presented the appearance of carnival night, as there were many masqueraders, gypsies, goblins, ghosts and others in costume promenading about and dancing on the pavement. The band later serenaded several business places, Mr. Thornberry, proprietor of the Plymouth Hotel and H. W. Murray being among the favorites. The usual ringing of door bells, soaping of windows and the lighted jack o' lantern was the entertainment of smaller boys and girls.

On Wednesday afternoon at three o'clock a very pretty wedding ceremony took place at St. Paul's Lutheran church at Livonia. The contracting parties were Miss Lina Parko, daughter of Mrs. Matt Miller, and Edward W. Salow, son of William Salow of Northville. To the strains of the wedding march, played by Miss Clara Strasen, the young couple, attended by the Misses Elsie Rutenbar and Edna Helm, and the Messrs. Lionel Fendt and Ernest Rossow, marched up to the altar, where Rev. C. Strasen officiated according to the very impressive Liturgy of the Lutheran church. About one hundred friends attended the marriage. The bride was crowned in white georgette and carried white roses. At 6:30 a sumptuous dinner was served to about seventy-five guests at the home of William Salow in Northville. The guests were entertained with music and singing until a late hour. The young people left on a wedding trip for Niagara Falls and later will be at home to their friends at the Salow home in Northville.

HURRICANE... When a hurricane churned out of the sea and swept up the Atlantic seaboard a few weeks ago, The Detroit Edison Company rushed help to Connecticut and Long Island. Power lines had been torn down, poles uprooted, electric service disrupted. Edison crews, consisting of a dozen men with two trucks and complete equipment, were sent.

INSIDE STORY... The Detroit Edison Company maintains an "X-ray" that looks inside wooden poles to discover the invisible beginnings of decay—for the half-million wood poles that support our lines must be structurally sound. Incidentally, the start of decay is postponed and the life of poles extended by chemically treating the poles.

NEW CRANBERRY COMBINATION... Our Home Service Department offers a taste-tempter for Thanksgiving.

Cranberry Gingerbread 2 cups flour 1/2 cup sugar 1/2 cup molasses 1 egg, well beaten 1/2 cup milk 2 cups flour 1/2 teaspoon salt 1 teaspoon baking soda 1/4 teaspoon cinnamon 1/4 teaspoon ginger

1 cup small cubes cranberry sauce Cream shortening, gradually add sugar until smooth. Then add molasses, egg and milk. Mix and sift the dry ingredients and add to first mixture. Very carefully fold in the small cubes of jellied cranberry sauce. Pour into a greased baking tin, 6" x 10" x 2", and bake in a moderate oven (350° F.) for 45 minutes. Serve with whipped cream as a dessert.

ARE YOU READY FOR WINTER?... If you haven't yet filled your coalbin or placed your winter's fuel order, do it now! It eases future pressure on local delivery facilities. An overhaul of your heating system and a thorough check-up of your house to prevent heat losses will pay dividends in fuel conservation and increased comfort.
