

## What I Think and Have a Right to Say

Edwin R. Eaton

### WHAT DO YOU THINK?

One of the important questions to come before the legislature at this session will be the proposal to take away from the state a part of its income from the sales tax and give it to local units of government.

The agitation for this division is due to two facts. The first one is that the state of Michigan is taxing the people for more money than the state needs.

The basis of all taxation lies upon the simple plan of collecting enough money from the people to pay for the economical operations of various governmental functions. When a city or a state collects more tax money than is actually needed, to my way of thinking, it is treading upon dangerous grounds and may create a condition that some day might result most disastrously to the best interests of the state.

But that is not the real point of the discussion going on.

Detroit and Grand Rapids, two cities that for some reason seem to be in financial difficulties most of the time, are trying to find some way to get a good sized slice of the state sales tax.

They have figured out no definite way to make, the division—they just want it done, and right away.

One must admit that these two cities have faced serious and difficult problems in the past few years. The population of a city the size of Grand Rapids has been moved right into Detroit since the war started.

Detroit has been forced to provide shelter, heat, water, transportation and all the other necessities of life to this "new city" living within its boundary lines. This has been done at a tremendous cost and sacrifice upon the part of the citizens of Detroit.

But Detroit's problems did not all arise as a direct result of the war. Many of them have been of long standing, in fact beginning chiefly with the administration of Frank Murphy. To get votes, Murphy found that the use of welfare funds was most productive. As a result, he added millions of dollars to Detroit's deficit through his political welfare expenditures.

Just the other day an out-State farmer told me of his own experience with the city of Detroit during that period. For the fireplaces for some of the lodges Murphy established, the city needed stove wood. Officials arranged to buy large quantities from this farmer. Each day Detroit city trucks would drive out to his farm and put on a few cords of wood.

There were generally ten or twelve men on each truck to throw four or five cords of wood on the trucks. For two or three weeks before the city election these trucks came out to the farm each day to get what we called "welfare" wood. But the very day after election we never saw another truck," he said.

Irrespective of what caused the financial troubles of these two cities, their present financial plight is said to be serious.

The question arises as to the right of the legislature to divert some of the state's income to two municipalities and not to other governmental units.

There are some members of the legislature who are agreeable to helping these two cities but in doing so, it appears that the legislature must make a distribution of a stated amount on an equitable basis to all governmental units of the state.

Using Wayne county for example, this plan would provide for the mailing of a check by the state auditor of Wayne county's share of state funds to the county treasurer of Wayne county. He in turn, upon some basis of distribution not yet worked out, would mail a check to the city treasurer of Detroit for his share, a check to the city treasurer of Plymouth for his pro-rated share and to the various other cities and townships of Wayne county for their proposed share.

Under this basis of distribution there are many cities in Michigan that would receive state financial aid that do not need it.

Take Kalamazoo for example. This has always been a well governed and well managed city. It has been progressive and has kept ahead of most other municipalities in civic improvements. Kalamazoo has no city debt. It has a million and a quarter dollars in reserve.

But under the one plan that seems legal and just for a distribution of state funds there seems no other way than to help those cities that do not need help, in order to help Grand Rapids and Detroit.

The same situation applies to townships. Plymouth township is in about the same class as the city of Kalamazoo. Several big factories have been built in this township. Through its long years of well managed and well conducted township government Plymouth township "has money in the bank" so to speak.

There are some other townships in the metropolitan area of Detroit, like Nankin, Livonia, Taylor and Romulus townships in Wayne county and Waterford township in Oakland county, where an exceptional increase in population within a very few years has raised a grave tax situation.

Many of the new residents in these outlying townships moved out of the big city to escape conditions within the city they did not like.

But once when established in the rural sections they immediately demanded the conveniences they enjoyed in the city. The township is expected to furnish these improvements.

The increased income from real estate taxes which can be levied for township purposes is not sufficient to provide all of the improvements being demanded.

Livonia township, for example, has increased in population from 4,000 or 5,000 in a few years to a township of nearly 20,000 people. Waterford township in Oakland county has a population of some 20,000 people and a few years ago it had less than 5,000 residents.

One can readily see that these townships have become fair-sized cities almost overnight.

Should Detroit and Grand Rapids be allowed special state tax grants and these townships be deprived of state funds, when as a matter of fact, their problems are just as serious in proportion as those of either Grand Rapids or Detroit?

We think not. If the cities are to get a split of state tax money, townships like those mentioned also should be granted state aid.

The situation in Grand Rapids is somewhat different than the problem in Detroit. Even residents of Grand Rapids will tell you that property in that city is assessed far below the state average. And the residents of the city have voted a limit upon the amount of taxes that can be collected upon the under-assessed property.

Should we in Plymouth be required to help out a city which does not carry its just proportion of taxes?

And there are a lot of things about Detroit's financial situation that will require a lot of explaining before at least one member of the legislature will vote hurriedly to give that city a state subsidy.

There are many few residents of Plymouth who get as much pay week in and week out as does the city employee in Detroit. In fact most of the business men of this town would be glad to have an annual guaranteed income as large as the average pay of a Detroit city worker.

The writer is one of many who does not believe that Detroit officials have put forth a proper effort to increase the municipal income of the city from sources within the city.

We frequently get on a Grand River car to ride to the downtown section of Detroit. For a ride on a street car of several miles, we pay less than a cent per mile for that transportation. A Detroit street car ride is probably the cheapest transportation any one can find in the world.

Why not a ten cent street car fare in Detroit instead of a 6 cent fare?

Why not?

Because it might mean a loss of a few votes for the administration that inaugurated a ten cent fare.

As we see the situation, there is but one proper answer at the present time.

The state of Michigan has no right to be collecting more tax money than it needs.

It is a credit to any administration to live within its budget.

It is a black mark against any administration to take from the taxpayers millions and millions of dollars in taxes more than a properly set up state budget requires.

When the sales tax law was enacted back in 1932 it was stated that if the tax ever produced \$40,000,000 per year, the financial problems of Michigan were forever solved.

The sales tax collection last year ran well over double that total. On top of that, when Michigan's real estate tax system collapsed and the sales tax was adopted, the state did not have an income from a hundred million dollar liquor business.

Our state profit from this poorly managed and administered state business ran close to \$25,000,000 last year. That figure is just about the total amount the state used to collect from a real estate tax to care for most of the financial needs of the state government.

There are many who believe that if the state had the nerve to cut off the \$4,000,000 or \$5,000,000 subsidy it pays to private clubs that

## Plymouth Lad Stands "Battle-Watch" During Jap Island Invasion

Edward C. Holdsworth

There is one highly important job when a big tank landing ship swings into action during smashing amphibious assaults against enemy-held shores. That job is known as standing "battle-watch" at the main engine room controls.

Coast Guardsman Edward C. Holdsworth, son of Mr. and Mrs. W. G. Holdsworth, 1342 South Main street, motor machinist's mate second class, has more than once held that important place in recent months.

This picture of the lad was taken as he stood "battle-watch" recently somewhere in the western Pacific.

He is seeing plenty of action aboard a Coast Guard-manned LST in the successful operations of the American navy that are driving the Japs from the islands they took during the early weeks of the war.

## Latture Heads Goodfellows

The Old Newsboys Goodfellows Association has elected Jim Latture president for 1945 at its annual meeting.

Harry Mumby, formerly secretary, was named vice president, Edward Sinta was selected as secretary and William C. Michaels was picked as treasurer.

The association paid out a total of \$556.62 to aid unfortunate families in the Plymouth area this season, says General Chairman Bob Joffile.

It raised \$843.08 at its annual paper sale in December, and received contributions of \$157 for a total of \$1000.06. A balance of approximately \$425 remains, says Ernie Wilson, outgoing treasurer.

The food committee, under the chairmanship of Mrs. Garnet Baker, issued 21 grocery orders ranging in value from \$5 to \$15 each. The committee also purchased 22 baskets of fruit for shut-ins.

Toys Chairman Ed Sinta supervised distribution of toys of all kinds to children of 11 families.

Mrs. Carl Sheat, clothing chairman, distributed clothing ranging from snow suits to underwear, hosiery, etc., to 11 families.

The demand for children's dresses was much lighter this year than formerly, reports Mrs. Jarry Brown, chairman. Eight girls, in three families were supplied with dresses.

Six boxes of candy were given to Plymouth patients in Eloise and three tons of coal were donated to deserving families.

Spent on clothing, toys, dresses, etc., was \$154.17. Groceries, fruit, nuts and coal came to \$402.55, making the total \$556.62.

The Ladies' Aid of the Lutheran church will meet Wednesday afternoon, February 7, at the home of Mrs. Oscar Freiheit, 455 Mill street, north.

etail liquor at nearly a 200 percent profit and reduce the percentage allowed SDDs for handling liquor, and retail most of the liquor through state stores as the law, originally intended, another \$10,000,000 could be added to the state's income.

But this will not be done. It would benefit the state but cost votes — and votes are the thing that count more than anything else.

As we see the situation at the present time from all information we have been able to gather, there seems to be but one answer, and that is, in justice to the people of Michigan the sales tax should be reduced from three to two per cent.

Why collect MORE tax money than the state has been able to expend?

Why create a grab-bag for every one to try and get their hands in?

There is not the slightest question but what substantial reductions could be made in some of the state's expenditures and no one would suffer as a result.

True, every one is working who wants to work or who can work, but notwithstanding the fact that wages seem high, there are many who are having a tough time getting along.

In some cases there has been long illnesses in the families. In other cases there are several small children to be fed and clothed.

Why not give these people a break?

Why not cut a third of the sales tax off?

That would mean many quarts of milk and a dozen or so loaves of bread and maybe a pair of shoes or two for thousands of families throughout the state.

Some years ago I urged the removal of the sales tax from food and some clothing. But after considerable study I came to the conclusion that the elimination of certain items from the sales tax would make it difficult of administration.

The reduction of the sales tax from three to two percent would bring no problem at all — and what a God-send it would be to thousands of people of our state.

That's what I think about this tax business.

What do you think about it?

## Destroyer Sunk, Sailor Horn Is A Survivor

"I'm not feeling sorry for myself, in fact I look upon myself as the luckiest man in the whole world. I have clothes on my back, something to eat and a shelter over my head. I'm lucky, even though I lost everything I had, except a few photographs I managed to hang on to. They are warped and discolored, but I have them," wrote Donald E. Horn, a Plymouth lad who is one of the survivors of the U. S. destroyer Mahon, sunk during the battle of Leyte on December 7.

It was the first news heard directly from him since his parents, Mr. and Mrs. Alfred Horn, heard the radio broadcast soon after the battle telling of the sinking of the destroyer on which their son was serving. The letter to his wife, the former Virginia Savage, said he could not tell much about the sinking.

"But I want you to know that I am O.K. I tried to see Bud (Edgar) Westfall, who was injured on the U.S.S. Lamson, but I wasn't quite able to make it," he wrote to his wife.

"I am sure I will be home before long, as I know the navy has usually given survivors a leave after their ships have been sunk. Haven't had any mail for nearly two months and I am wondering how things are at home.

"All the boys on the ship lost everything but since that time we have been given enough gear to get along on for a while.

"A few days ago I volunteered to work in the laundry while we are here in order to keep my mind busy. The work is far out of my line, but it helps.

"I've just finished a five page letter to Mom and I hope she gets it.

"I can picture the snow on the ground back home, and the icy roads. Wow! What a difference!"

"During my noon hour today I took a swim bath and then I work and sweat some more.

"We are just waiting for the day to come when we receive the word to shove off again. But don't worry and say hello to everybody back home" he writes to his wife.

Don enlisted in the navy on his 17th birthday, December 16, 1940, nearly a year before this country became involved in war.

His younger brother Alfred went into the armed forces November 1, 1944, and the oldest of the boys, Thomas, is now with General Patton's armored division in Germany. He is at present in a hospital, but the family has not been advised as to whether he is ill or has been wounded.

## Purple Heart For James Luker

Mr. and Mrs. Hubert Luker, 981 North Mill street, have just received the purple heart awarded their son, James L. Luker, an American machine gunner, who was seriously wounded in Germany on November 11.

Last word heard from him came from a hospital in England. The nurse writing that he was gradually improving from his wounds, but that he had suffered a nervous collapse. This probably indicates that he was not only wounded in action, but possibly shell-shocked at the same time.

James is a former Plymouth high school student and for nearly two years before going into the service, he was employed at the Kelsey-Hayes plant where he helped to make the machine guns that he used in service overseas.

After leaving Camp Butler in North Carolina, he was sent to England, then Scotland, France and into Belgium, being wounded during an engagement fought within the German boundary line.

## Director Of Conservation To Speak Here

For the annual meeting of the Western Wayne County Conservation Association to be held April 4, President Brick Champe has announced that Director P. J. Hoffmaster of Michigan's famed conservation department, will be the chief speaker.

The meeting will be held this year in the Masonic temple banquet room, the Mayflower hotel Crystal dining room not being large enough to accommodate the membership of the organization.

Secretary Ernest Henry stated that tickets will be sold only for the number of seats that can be provided at the tables.

It will be recalled that at the meeting six years ago when Director Hoffmaster came to Plymouth to speak before the organization that several hundreds were turned away. This was due to the fact that more tickets were disposed of than the Mayflower dining room would accommodate. The officers of the club plan to see to it that such a thing does not happen this year.

Director Hoffmaster, with members of the Michigan Conservation commission, has been working out one of the most extensive development programs for his department that the state has ever had. Much of it is being planned for after-the-war work. In his Plymouth address, it is expected that he will have much to say on this subject.

## Gift Received By Jack Gordon

Good news is coming rapidly these days to Dr. and Mrs. G. H. Gordon, long time residents of Plymouth, now living in Six Lakes.

Two weeks ago Dr. Gordon received a postcard mailed by his son, Jack, from a prison camp on the island of Formosa. Jack, it will be recalled, was captured with Joe Merritt when the Japs took Corregidor.

Last week Dr. Gordon received another card from Jack. The card was an acknowledgment of the receipt of a gift package sent to Jack on August, 1943, for his birthday on April 12, 1944.

"This is the first time he had heard from home, I am sure" wrote Dr. Gordon to The Mail yesterday.

"His last card was sent to our new address at Six Lakes, while all of the others had first been sent to Plymouth and forwarded to this address" said Dr. Gordon.

## Bill Bartell III Wounded in Leg

Pvt. William Bartell, III, son of William Bartell, Jr., of the Bartell Florists, has received a bad leg wound in France, his parents learned this week.

The letter from young Bartell was received Monday, exactly one year from the date when he was inducted in the services. It was his first word his parents had had from him since Dec. 15, when he told them he was in France.

The young paratrooper said he is in a hospital in France and doing nicely with the aid of fine care from the hard-working nurses.

## Plymouth Joins Detroit and Nation In Brownout to Conserve Fuel

Plymouth merchants began "browning out" this week along with all other business establishments in Wayne County in response to the War Production Board's nation-wide order issued for the conservation of coal.

The brownout prohibits the use of all outdoor lighting not required for public safety or for actual operation of outdoor business.

Billboard, smaller advertising sign and all window display lights except those used for lighting business interiors must go out. Theater marquees are permitted to use only a total of 60 watts.

The brownout is expected to save between 6,000 and 10,000 tons of coal a year in the Detroit area and about 6,000 tons a month throughout the state, utility company officials stated.

Although the order didn't go into effect nationally until Thursday, Detroit area businessmen began shutting off their lights Monday after plans were laid at a meeting of WPB officials with utility and lighting firms.

Police have been instructed to report violations to the utility concerns, who will mail warnings to violators. If they then persist in violating the rule, a telegram from the WPB will be followed by shutting off of all electricity on the premises of the violator.

City Manager Clarence H. Elliott said Plymouth would not shut off any more street lights as has

## City Continues Fine Traffic Safety Record

The city of Plymouth continued its remarkably fine traffic record in 1944, figures released by Police Chief Lee R. Sackett disclose.

Only 120 accidents were reported, most of them of a minor nature, such as bumped fenders, and very few resulting in injuries. One of the injuries resulted in the eventual death of the victim.

December was the most disastrous month, when 21 mishaps occurred. May was the lightest, only three cases being reported.

The most mishaps occurred at the intersections of Ann Arbor Trail and South Main street and Ann Arbor Trail and South Mill street, each having been the scene of 7 accidents.

George Mullen, 17, of Middlebelt road, died after falling from a moving car on Union street, in front of the Daisy factory, July 8, fracturing his skull.

Only one other of the few injury accidents was serious enough to require more than casual medical care, said Sackett.

Twenty-two of the accidents involved drivers under 21 years of age, 11 were less than 18 years old.

A total of 347 traffic violation tickets was issued during the year. Of these, 153 involved speeding and reckless driving, 16 drunk driving and 168 failure to stop at stop streets, lack of drivers' licenses and parking.

Sackett issued a plea for continued care in driving, saying there is no reason why Plymouth should have even 120 accidents.

He also urged no letup in vigilance while at the wheel when the weather improves. Unless a driver is constantly alert, he said, accidents are bound to happen in which he may not even be to blame.

"Think constantly what the other driver MIGHT do while you're at the wheel, not what he SHOULD do," Sackett said. "And remember, when arriving conditions are ideal is when most accidents occur as a general rule.

"Just remember that you are operating a potential instrument of death—to yourself or others—all the time you're behind that steering wheel."

As a general rule, throughout the nation, most accidents occur in the daylight with clear weather and dry pavements to cars with no defects and with normal adult drivers driving straight ahead, a recent survey showed, indicating drivers tend to relax under ideal conditions.

Chief Sackett also referred to Section 34-A Public Act, 1927, of the State of Michigan, in reminding hitchhikers and other pedestrians of the proper use of the highways for their own safety. The act states:

"When sidewalks are provided, it shall be unlawful for pedestrians to walk upon the main traveled portion of the highway. Where sidewalks are not provided, pedestrians shall, when practicable, walk on the left side of the highway, facing traffic which passes nearest."

"The Dhu Varren Farm, one of the largest and most modern farms in Washtenaw county, located west of Salem on the Six Mile road, has been purchased by Gerald and Claud Simmons. The farm was formerly owned by Mrs. Hunter of Los Angeles, California. The new owners have already taken possession.

## Henry Hondorp Dies Suddenly Monday

1885 - 1945

Henry Hondorp

## Former Mayor Long Active in Civic Affairs

Master of Masonic Lodge  
When New Temple  
Was Dedicated

The unexpected death Monday of Henry Hondorp cost the City of Plymouth the services of one of its most civic-minded adopted sons.

The city commissioner and former mayor had been active in civic affairs throughout his 27 years' residence here. He long was known as a champion of public improvements and was very active in boys' work and recreation programs.

Mr. Hondorp, who was 59 years old at the time of his passing, had been a member of the city commission continuously since his first election to the body in 1936. He also served as mayor in 1936, 1937 and 1938.

His first experience in politics was in 1927 and 1928 when he served on the old village commission. He also was a member of the Wayne County Board of Supervisors from Feb. 21, 1930, until his resignation, Sept. 20, 1943.

He was mayor pro tem in 1941 and was named to his second term in April, 1944, a term he would have completed in April, 1945.

Mr. Hondorp, a native of Grand Rapids, came to Plymouth during the first World War to work for the old Millard Band Instrument Co. He was born Sept. 14, 1885.

After the band instrument concern ceased business, he went to work for the Daisy Manufacturing Co., where he was employed as an electroplater.

In August, 1923, with Frank Henderson, he formed the Plymouth Plating Works of which he was president at the time of his passing.

Mr. Hondorp also was active in Free Masonry, having been Master of the Plymouth Lodge at the time of the dedication of the new Temple at the corner of Union and Penniman.

He also had been a member of the Old Newsboys Goodfellows Association.

City Manager Clarence H. Elliott, ordering the City Hall flag at halfmast, called Mr. Hondorp's passing an "irreparable loss to the City of Plymouth."

"With the death of Mr. Hondorp, Plymouth lost a great champion of public improvements and youth activities," said Elliott. "His passing will be felt keenly by the whole city as well as by his host of friends."

Mr. Hondorp was first elected to the City Commission April 6, 1936, and was re-elected each term thereafter. He was elected mayor at the commission's first meeting, after he became a member, April 20, 1936, and was re-elected mayor, April 19, 1937, and April 20, 1938.

He was appointed to the Wayne County Board of Supervisors Feb. 21, 1938, when George Robinson left the city for a vacation in Florida.

He resigned from the Board of Supervisors April 5, 1938, and was reappointed April 11, 1938, to complete the term of J. W. Henderson, who resigned.

He was reappointed to the Board for the full term beginning May 2, 1938; May 1, 1939; April 15, 1940; April 21, 1941; April 20, 1942, and April 19, 1943, resigning in September, 1943.

Mr. Hondorp died at about 3:30 a.m. Monday, complaining of pains in his chest. He was about to return to bed, telling his wife, Lavina, that he felt better, when he collapsed.

He was dead when Dr. C. J. Westover arrived. Dr. Westover pronounced the death due to coronation.

## Swadling Writes That He's O.K.

Pvt. Bill Swadling, who recently was disclosed to be a German prisoner of war, after being reported missing since Sept. 26, has written his wife, Shirley, of Blanche street, that he is well.

The letter, dated Nov. 11, 1944, said he was happy as could be expected under the circumstances.

He asked his wife to tell his folks, Mr. and Mrs. Bert Swadling, that he's fine and not to worry. He told of having attended church conducted by an English chaplain the day he wrote the letter.

Swadling said he'll be glad when the war is over and he can come home and see his son, Jack, who's a year old today. He said the boy must be a man by now. He also asked his wife to tell all his friends hello for him.

The address on the envelope indicates Swadling is being held in Bavaria, in Spalag Camp 7A.

Rotary Gets OPA Picture

W. E. Fitzgerald, district director of the Office of Price Administration, told the Rotary Club last Friday that, contrary to some people's beliefs, OPA is not operating with the purpose of "crucifying" anybody.

Rather, he said, is the OPA there to help everybody, big and small. He said OPA is not in politics or is it governed or motivated by politics.

He stressed the fact that rationing is conducted by local boards made up of "your neighbors," who serve without pay. If there is any complaint or hardship, a person has merely to go before this board made up of his neighbors for relief.

And he can rest assured that in the great majority of cases he can be much more sure of the relief than if he had to go before some distant, impersonal board.

Likewise, the chances are much greater that "chiselers" will be found out by their neighbors than by the far-removed board. Rationing, he said in outlining the OPA program and the necessity of rationing, is designed to

see that every man, woman and child in the United States gets his proper share of the available supplies.

Price ceilings, he added, are designed to prevent runaway inflation and so far have been fairly successful.

Approximately 50 members heard Fitzgerald's interesting and informative talk in the Mayflower Hotel.

In Memoriam: In loving memory of our father, William Wolf, who passed away, 3 years ago January 30, 1942. It is someone here without you, I miss you more each day. Some-how life doesn't seem the same. Since you were called away. Not lost to the one that loved you, just gone on before to that beautiful isle of somewhere. Where parting will be no more. God took you home it was His will, but in my heart you linger still. Sadly missed by his children.

Former Plymouth Man Is Honored in Florida: George J. Haas, former Plymouth architect, has been elected secretary-treasurer of the Florida South Chapter of the American Institute of Architects, according to word received by the Plymouth Mail.

Haas, who now resides in Miami, is a past president of the Michigan Society of Architects, and is district manager of the Stran-Steel division of the Great Lakes Steel Corp.

He is a member of the board of directors of the National Producers' Council, former chairman of its postwar technical committee and one of the original founders of the Kiwanis club.

Based on mileage, special studies indicate that drivers under 20 years of age have the highest accident rate, the National Safety Council reports.

School Music Directors Meet Here Next Week. Clarence A. Luchtman, Plymouth High School music director, will be host Tuesday night to a meeting of the five other music directors of the newly organized Suburban Six B League. Plans will be made for spring music programs.

Henry Hondorp (Continued from Page 1) nary tuberculosis. Aside from a slight attack three days earlier which he evidently didn't recognize as a heart condition, Mr. Hondorp had had no trouble with his heart.

His only previous serious illness was last August when he spent three weeks in St. Joseph's hospital, in Ann Arbor, with a stomach disorder. Doctors said there was no connection between that illness and the fatal attack.

Mr. Hondorp was interred in the Riverside Cemetery Mausoleum following services Thursday afternoon from the Fred Schrader Funeral Home. The services were conducted by the Rev. Henry Walsh, of First Presbyterian Church.

Besides his wife, he is survived by two daughters, Mrs. Edward Dobbs, of Plymouth, and Mrs. Harold Turner, of Cincinnati; a son, Gerald, of Plymouth; five grandchildren, Jack and Kay Dobbs and Gary H. and Judy Turner, of Cincinnati; three brothers, John, Dennis and Garret, of Grand Rapids, and three sisters, Mrs. Ann Bos, Mrs. Jenny Lozenort and Mrs. Henrietta Blou, also of Grand Rapids.

Mr. Hondorp's son, Gerald, of 1482 Penniman, has been associated with him "all my life" in his plating business with the exception of his brief period in the Army. He was discharged last November after wounds suffered at Anzio.

Yeung Hondorp said he probably would carry on in his father's footsteps, with the plating business.

### Farm Meetings Are Arranged

Two meetings to give farmers information which will be of assistance in their operations and help them to meet 1945 goals will be held in Plymouth next Thursday, E. I. Besemer, county agricultural agent, has announced. Don Horton, Allis-Chalmers dealer, at 705 West Ann Arbor road, has arranged a meeting in his establishment and the Sinclair Refining Co. will hold another of its annual meetings in the Odd Fellows hall. Besemer will be present at each meeting to discuss current farm problems. The County Agent's office will again handle farm labor place-

ments this year. Already farmers are calling for spring help. Help will be obtainable from a group of boys and girls in Detroit who have had from two to four summer's experience on farms. From experiences with them the past three years some very dependable help can be secured. There is some call at the office for the location of farms for rent and for sale. An up-to-date list maintained at the office would be a convenient service for those making inquiries.

#### Half-Year Plates

Half-year license plates will go on sale tomorrow in the branch Secretary of State's office in the Mayflower Hotel, Frank Rambo, head of the local office, announced yesterday.

### New Postal Notes Placed on Sale in Plymouth

City Manager Clarence H. Elliott stepped up to the postoffice window yesterday morning and bought a postal note from Postmaster Harry Irwin. Thus was born and placed on sale for the first time here the new, cheaper and more efficient postal note series, which went on sale all over the nation yesterday for the first time. The new notes supplement existing money orders, Irwin said, and are much simpler to handle for those wanting to mail small sums of money.

Elliott sent his note off to one of his "service boys," one of the several from Plymouth he has "adopted" in the service. The purchasing fee for the new note is five cents for any amount up to and not exceeding \$10. The notes are obtainable in denominations up to \$10.

Postal note stamps ranging from one to 10 cents, inclusive, and in 20, 30, 40, 50, 60, 70, 80 and 90-cent denominations may be affixed to the note to cover any desired amount between one cent and \$10.

In securing a postal note for \$2.93 for instance, the purchaser pays that amount, and the five cent fee, to the clerk at the post office money order window. The clerk will affix a 90-cent and a three-cent stamp to a \$2 postal note.

No application need be filled out by the purchaser or the clerk. The purchaser merely writes in the name of the payee on the note, detaches his record stub, and mails the note.

The note is a pre-punched calculating card which will be numerically filed for inquiry, claims and accounting at the post office general accounting office.

Only first class postoffices sell the new form money orders. All post offices will cash them, however.

#### Pheasant Helps Hay Fever Sufferer

The ringneck pheasant is a real friend of the hay fever sufferer. Analyses of pheasants' crops made at the conservation department's nearby Rose Lake wildlife experiment station show that ragweed seeds are an important item in the pheasant diet.

One crop contained 5,000 ragweed seeds, another 1,500.

Fifty-five counties of lower Michigan cover more than 32,687 square miles of known salt deposits, and Michigan has led all states in salt production since 1911.

## BOY SCOUT WEEK

FEBRUARY 8<sup>TH</sup>-14<sup>TH</sup> 1945

Troop P-2 wishes to thank the John M. Campbell Plumbing and Heating Co. of Wayne Road for its very generous contribution of a steam boiler to our salvage program. The material has been delivered to the proper authorities. Thus two very good ends have been attained; more scrap to hang around Hirohito's head and a bit of ready cash to add to our Troop Camping Fund. Neal Lamphers patrol will go on a hike Sunday. Neal is a patrol leader of P-4. There will be a Green Bar round table meeting next Thursday. All Green Bar boys, commissioners, and Scout leaders are urged to attend. The theme of this meeting will be judging and knot tying.

### Howard Cadot Drops Dead

Howard Sidney Cadot, 58, of 829 Forest avenue, dropped dead unexpectedly Tuesday night in the Sinclair Service Station on Spring street in Northville, where he worked.

Cadot, a brother-in-law of Clarence Lidgard, was alone in the station at about 5:30 p.m., preparing to leave for home. He was found some time later by a returning driver.

Funeral services will be conducted this afternoon at 2 o'clock from the Fred Schrader Funeral Home, under auspices of Plymouth Rock Lodge No. 47 F. & A. M. Rev. Henry J. Walsh will officiate. Burial will be in Riverside cemetery.

Surviving besides his brother-in-law are, his wife, Mrs. Cora P. Cadot; daughter, Ann Cadot; and a cousin, Mrs. Cad Lyons of Portsmouth, Ohio.

### Hazel Wesseling Joins The Wacs

Miss Hazel Wesseling of 709 Pine street, joined the Woman's Army Corps last week. She will leave soon to start her basic training at Fort Des Moines, Iowa.

Miss Wesseling is twenty years old and has lived in Plymouth with her family all her life. She attended Plymouth high school, and then took employment at Kelsey-Hayes Wheel Co. More recently she worked for Warren Products in Northville.

She has an older brother in the Air Corps who received his wings upon graduation from a flying school in Texas last year.

Hazel requested assignment in the WAC Medical department, and hopes to work in an army hospital as a medical technician after completing basic training. She feels that the medical training, and army experience will greatly assist her in the post war world.

### Plans Prepared for City's "World Day of Prayer"

"We thank Thee that Thy Church unsleeping, While earth rolls onward into light, Through all the earth her watch is keeping, And rests not now by day or night."

These words, taken from the Universal World Day of Prayer hymn, which will be sung throughout the Christian World Friday, Feb. 16, sets the keynote for this 1945 service.

All thoughtful people everywhere of whatever faith, creed or color are seeking for Light, a Light that will dissolve the horrors of war, the darkness of fears, the gloom of biased minds and prejudiced hearts.

The United Council of Church Women has endeavored for many years to offer to women and men the opportunity, on the first Friday in Lent, to gather together in a service of inspiration and spiritual enlightenment.

At such a service the participants may share "that true Light which lighteth every man coming into the world—The Light of the knowledge of the Glory of God in the face of Jesus Christ."

The foregoing quote is from an article prepared by Margaret T. Applegarth, chairman of the World Day of Prayer committee.

The church women of Plymouth and environs are co-operating in the planning and conducting of this year's World Day of Prayer services.

At a meeting in the home of Mrs. John Paul Morrow, the plans were set in motion for this year's service.

It will be held in the St. John's Episcopal church at 2 p.m. Friday, Feb. 16.

Invitations were sent in advance of this meeting to the churches of Plymouth and Newburg.

The response was the best yet and at the planning committee meeting eight churches were represented.

Several others whose representatives were unable to be present have pledged their support and co-operation.

The atmosphere of friendliness and Christian fellowship which pervaded the committee meeting was a heartening indication that "our town" has an awakened and keenly alive church group.

Not all the details of the service have been completed. However, the committee is planning a service from which all women can and should receive an inspiration.

We hope the women of Plymouth and neighboring communities will take time, to encircle upon their February calendar the date, Feb. 16, and plan ahead to be present on that afternoon at the World Day of Prayer service at the St. John's Episcopal church.

### Swadlings Sell Plymouth Grill

Announcement was made Thursday of the sale of the Plymouth Grill by Mr. and Mrs. Bert Swadling to C. J. Darling, Mr. Darling, a resident of this city for 14 years, has been employed in the past with the Wonder Bread company in Detroit. The Pittsburgh Plate Glass company and for several months worked at the Phoenix plant of the Ford Motor company.

In selling their business the Swadlings gave as their reason for the sale Mrs. Swadling's health. Since opening a restaurant some 9 years ago Mr. and Mrs. Swadling have both devoted full time to the business and in addition to their regular work Mrs. Swadling has been unusually active in all of Plymouth's bond campaigns and was at one time cited by the Treasury department for her outstanding work.

Since the start of the war they have furnished free meals to local service men and their records show that nearly 1,000 meals have been served. At the time inductions were made at the draft board here in Plymouth the Swadlings furnished free coffee to the boys each time they left for Detroit.

### Model Airplane Show Sunday

Jewell & Blaisch Hall, 587 West Ann Arbor Trail, will be the scene Sunday of a Model Airplane show presented by the Plymouth Wing Warpers Model Airplane club and sponsored by the Junior Chamber of Commerce.

The show is scheduled from 1 to 5 p.m. with judging due to take place at about 3 o'clock. It is open to anybody wishing to enter and is not restricted to Plymouth residents.

A feature of the show will be scale models furnished by Stinson Aircraft modeled after their regular planes.

They and other officers will be responsible for maintaining the social, academic and general activities of their dormitories.

## Group Discusses Box Lunches

Boxes lunches! Remember how popular they were years and years ago?

The other day when the Hough Extension group held its January meeting at the home of Mrs. Charles Baker, 39920 Warren avenue, the discussion was very much about the advantages and benefits of the old fashioned box lunch for both school children and workers.

Mrs. John T. Maxwell was the discussion leader. A model lunch was prepared during the meeting and then the members at the noon hour enjoyed the kind of a box lunch they had decided was best for school students and others who are required to carry their lunches.

The meeting also served as a "going-away" party for Mrs. Baker, who is leaving soon to join her husband now employed in war work at an aircraft plant in Hagerstown, Maryland.

## Army Reports Soldier Missing

Pfc. Chearis March, of Indiana, who last September 16 became the husband of the former Marjorie Hirzel, daughter of Mr. and Mrs. Harry Hirzel of Northville road, has been reported missing in action since December 21, according to a telegram received by his wife.

He has been serving in the infantry, first going to England, then France and Belgium. Mrs. March is now employed at the Kelsey-Hayes plant in Plymouth. At the time he was reported missing, he was somewhere inside Germany.

If lakes may be described as "bodies of standing water occupying basins and lacking continuity with the sea," all standing waters are lakes, regardless of size, depth or origin. Ponds, bogs, swamps, reservoirs, etc., are merely special kinds of lakes.

**C. J. Henderson Is Heart Victim**

Details of the unexpected death in the West of Claude J. Henderson, son of Mrs. Emma Henderson, of 238 South Main street, were received here last week.

Henderson, 58, who spent most of his younger years in Plymouth, suffered a heart attack while riding in his auto in his adopted city, Mount Vernon, Wash.

His wife, the former Heddie Patterson, sister of Mrs. Fred Schrader, was at the wheel at the time. He succumbed almost immediately.

A graduate of the Plymouth schools and the University of Michigan, he went West to practice law soon after his marriage in 1909.

He was a past president of the Mount Vernon Chamber of Commerce and Rotary Club and a member of Seattle's Nile Temple and the Mount Vernon Masonic and Elks Lodges.

Burial was in Seattle following Elks funeral services conducted by the Rev. Dr. A. W. Wilson, a retired Presbyterian minister, of Mount Vernon.

Beside his wife and mother, he is survived by a daughter, Mrs. Don Willhite, of Portland, Oregon.

Give us a clean city and we'll put up with a moderate amount of political corruption.

**Bill Thomas Is Wounded**

Cpl. William S. Thomas has been wounded in action in Belgium and is recuperating in a hospital near Paris, his parents, Mr. and Mrs. Fred Thomas, of 345 Blunk, have learned.

Mrs. Thomas received a letter from Bill, who is 22, a day after she got the War Department's telegram telling of the wound.

Both Bill's letter and the telegram minimized the wound, for which all of his Plymouth friends will be thankful. The wound was in his back.

"I can still walk, talk, sleep, and of course, eat as much as usual," Bill said in his letter.

Bill enlisted in November, 1942, and went overseas late last September.

He was in a tank corps connected with Lt. Gen. Patton's Third Army. He had been in action since about the first of the year, Mrs. Thomas said she gathered from his letters.

### Seniors in Services Before Graduation

Thirteen students will graduate this January. Wilfred Aubrey, Charles Burden, Robert Hall, Jack Vershure, and LeRoy Woodward who were inducted before graduation have now received service credits which enable them to graduate. Three girls, Josephine Cicirelli, Virginia Woods, and Nina Jean Lawson; together with six boys, Russell Downing, Mark Everett, Earl Smith, Robert Elliott, Jack Labbe and Edwin Shiable will also receive their diplomas. The last three expect to be Uncle Sam's boys soon.

### Teachers Honor Two Who Leave

Mrs. Murray and Mrs. Carey who are leaving Plymouth at the end of the semester were given a bond each by the women teachers at a tea at Mrs. Gilder's home on January 23. Mrs. Ranger, formerly Mr. Smith's secretary, was given a purse made up by the women teachers last Friday before she left for New Mexico.

### Senior Sketches

Agnes, daughter of David and Agnes Tarbet, Mayfield, is taking a general course. Roller skating and dancing are her hobbies, girls who smoke are her pet peeves. Pumpkin pie a la mode is her favorite dessert. Sonny Tuft is her favorite movie star.

Collecting picture post cards is the hobby of Jean Ana Livernois, Plymouth road. She is taking a combined college and commercial course and has been in Girl Reserves for 3 years; Glee club for 2 years; Hesco for 2 years; Senior play and committees for the Junior-Senior play, J-Hop, Annual, and Senior prom. Her pet peeve is waiting for school buses. Jean Ann plans to join the U. S. Cadet Nurse Corps after she graduates.

Collecting cat pictures is the hobby of Shirley Hitt, daughter of Mr. and Mrs. Ira Hitt of Sheridan. Last year she was a drama major. "To be interrupted while I'm reading," is her pet peeve.

Wearing slacks with high heels is the pet peeve of Joyce Priebe, daughter of Mr. and Mrs. Eric Priebe of Mercedes. She plans to be a teacher. She was a member of the publicity and invitation committees for the Prom and J-Hop, and is a member of the annual staff. Her hobby is music.

Ed, son of Sidney and Alice Strong, William street, is taking a college preparatory course. He has been on the cross country team, J-Hop committee, was general chairman of the Senior prom, on the freshman reception committee, Junior and Senior get-together, and is a Junior Rotarian. He has been a judge, secretary of the Hi-Y, and also a member of the Varsity club. He also has a part in the Senior play. Model railroading is his hobby. Chipped finger nail polish is his pet peeve. Moose is his favorite food. His favorite music is "Winged Victory." He plans to be an aeronautical engineer if the war is over; otherwise he will join the Navy.

### Here and There

The Junior class presented Mrs. Carey with a book called "The World of Washington Irving" by Van Wyks Brooks, and a lapel pin in appreciation for her work as chairman of Junior Advisers. The High School collected \$91 for the March of Dimes by sending the can containers through the fourth hour classes on January 22 and 23. Three-fourths of the total enrollment have contributed to the fund.

### Rocks Meet Wayne There Tonight

The Plymouth basketball squad will meet the Wayne quintet in a game which promises to be good and fast here tonight. This will be the second time the Rocks have come up against Wayne, the results of the first game being 37-35 for Plymouth, which is too close a margin for much comfort.

At this writing, Plymouth has played eight games, and lost two, and their league standing is .600. Plymouth's regular lineup will be in and this promises to be a real thriller. After Friday's game, Plymouth plays only four more times, with February 23, when Ecorse comes to Plymouth for the final game as the only home contest. Our most recent defeat was at the hands of Ecorse when they took us 24-29.

### News Of Girl Scout Troop

All Girl Scout troops including the Brownies are invited to participate in an ice carnival to be held at Newburg Lake February 3rd from 3 to 5:30 o'clock in the afternoon.

Those in charge say that each troop must arrange for their own transportation, and each scout must bring sandwiches and a beverage. A hot dish will be served by the ladies in charge and a charge of ten cents will be made. Scouts are asked to bring along a dish for this hot food.

Skating, sliding and other outdoor games will be enjoyed. Mrs. Wm. Arscott will be in charge of the games. Mrs. Ed. Dobbs in charge of skating and Mrs. H. W. Frisbie in charge of sliding. Food arrangements come under a committee composed of Mrs. Charles Root, Jr., Mrs. Kenneth Gates, Mrs. Henry Holmes and Mrs. J. R. Witter.

The Girl Scouts of troop 3 have changed their meeting date from Wednesday to Monday afternoon because of the lack of coal to be used in heating the church.

The indoors meetings are devoted to business. As the girls have started working on their winter sports badge they then spend the rest of the time outdoors, playing snow games, sculpturing humans and animals, tracking and trailing in the snow, and shovelling.

Saturday, January 7th, they went ice skating at Wilcox Lake where they enjoyed relays and games. They also passed most of number 13 of the winter sports badge. This included demonstrating to their leaders, Mrs. Alex Lloyd and Mrs. William Arscott, maintenance of body balance by progression forward, gradual stopping, sudden stopping, turns right and left while in motion and from a stand.

At their last meeting, troop 3 elected new patrol leaders and representatives to their executive board.

The second training course meeting of the Girl Scouts will be held Tuesday, January 30th, at 7:30 in the high school Home Economics room.

The meeting will be under the leadership of Mrs. Wilma Alton, camp specialist of the National Girl Scout staff, Miss Kay Beckman, special field advisor on the National staff, and Miss Gertrude Bruns.

The theme of the meeting will be "Out of Doors" while the topic for discussion is "Girls participation in logg term planning" and troop government.

### News of Our Boys

#### TWO PLYMOUTH MEN AMONG GREAT LAKES GRADUATES.

Two Plymouth men were among those graduating from intensive courses of specialized training at recent service schools ceremonies at the U. S. Naval training center at Great Lakes. The men were selected for this specialized training on the basis of their recruit training aptitude test scores. Upon graduation the Bluejackets are then sent to sea, to shore stations, or to advanced schools for further study.

The recent graduates and the schools in which they trained are: Loren P. Zimmerman, 18, son of Mr. and Mrs. Loren Zimmerman, S. Harvey; and Frederick H. Zander, 24, husband of Florence C. Zander, Oakview Ave., both graduates of basic engineering school.

#### GOOD CONDUCT MEDAL AWARDED TO CORP. WALTER SMITH.

Cpl. Walter A. Smith of Plymouth has been awarded the good conduct medal for exemplary behavior, efficiency, and faithful performance of duty according to news from England.

Cpl. Smith is a member of the service squadron assigned to the 58th Fighter group, highest-scoring P-47 Thunderbolt outfit in the Eighth Air Force, commanded by Colonel David C. Schilling of Traverse City. Cpl. Smith is a machinist in the engineering section operated by his squadron.

Prior to his entry into the armed forces he was a tool maker and foreman for Ford Motor company in Manchester, Mich.

His wife, Mrs. Azell, Smith, lives at North Main street, Plymouth. His mother, Mrs. Mary E. Smith, Northville Road, Plymouth.

### Asks Magazines for Ypsi Hospital

Mrs. A. R. Kidston, of 9337 Newburg road, who has been collecting old magazines for the patients in Ypsilanti State Hospital for several years, has issued a plea for more periodicals.

"Magazines are something those poor unfortunates really need," said Mrs. Kidston. "Having something to read like that helps occupy their minds and has a definite curative value."

Mrs. Kidston asks that anybody who has some used magazines, and who happens to be passing her home, drop them off. Those who don't get out that way should call 861-74 and Mrs. Kidston will pick up their magazines.

#### U. of M. Club Invited by Evered Jolliffes

The Evered Jolliffes, of 12075 Beck road, have invited members of the University of Michigan Club of Plymouth to an old time songfest in their home on Sunday at 7 p.m.

They say: "Plan to come if you can sing, hum, mumble or grumble." Accompaniment will be furnished by their Hammond organ.

#### FREDERICK JACKSON SAYS ITS COLD DOWN IN OKLAHOMA

The weather down here in Oklahoma is cold, much colder than it is at home when the wind is blowing, even though there is no snow here," writes Frederick A. Jackson from Camp Gruber down in Oklahoma. Frederick is with a field artillery battery and would like to have any Plymouth boys who might be in the camp, look him up.

"Kenneth Hart and Robert Gottschalk are about the only ones from Plymouth who are here. They were at Fort Sill with me, and we are still together," he writes. "We are taking training on 8 inch guns. They throw a 200 pound shell a mighty long ways. Next month we are going out in the field and live for a month, and I imagine it will be pretty rough going. We have one thing in Garrison that we like pretty much, we get off every Saturday at noon."

"We are about 75 miles from Arkansas and about the same distance from Tulsa."

"Most of the fellows down here with us were up in the Aleutians. They certainly are a mighty fine bunch of fellows."

Frederick asked that his best regards be extended to all of his friends.

#### GLENN JOHNSON, JUNGLE FIGHTER, IS AWARDED HONORS.

For demonstrating fidelity through faithful and exact performance of duty, Cpl. Glenn S. Johnson, son of Mr. and Mrs. Robert Johnson, Fairfield street, has been awarded the Good Conduct medal in a veteran jungle-fighting infantry regiment in the division, somewhere in the southwest Pacific.

Cpl. Johnson has served in Fiji Islands and Bougainville and is entitled to wear one star on his Asiatic-Pacific campaign ribbon for active participation in action against the Japanese in the latter theatre.

The Plymouth soldier has been overseas for 13 months. The American Division is the only division in combat to be designated by name rather than number, and was the first American army unit to engage the Japanese in offensive operations on Guadalcanal in November, 1942.

#### SGT. FRANK RIDLEY HELPS RUN RAILWAY OVER IN FRANCE.

Railroads are doing an amazingly successful job in these United States during wartime. But many do not know that American boys are doing an equally good job of running railroads over in France and that Sgt. Frank Ridley of 1033 Oakview road of Plymouth is one of the boys who is helping to keep them going.

In one month's time it was possible for a Southern Pacific sponsored railway operating battalion to increase the line of track leading to Paris and see 400 serviceable freight cars and locomotives put back into service.

This feat was only possible by the complete utilization of all three companies of the battalion which had anything at all to do with the direct maintenance work of the railway. Approximately 96 hours after the unit reached its destination in France, they were hard at work. The conditions at that time were very adverse due to the lack of proper signals and equipment. Pieces of straw elaborate were used to signal trains and dispatch them in proper order in duties in small stations along the many of the maintained stations.

Some of the men were on special line and have been on assignment 24 hours a day since the battalion first started its operations. Especially essential is the maintenance away company, which contains squads for track leveling and repair, filling in bomb craters, raising bridges and repairing railway buildings, and supplying systems for use of coal and water by the locomotives. This company, "A" is commanded by Captain Neander Peterson, Audubon, Minn.

Company "B" which takes care of the maintenance of the equipment is under the command of Captain Samuel S. Gillespie, Bishop street, El Paso, Texas; a master mechanic in railroading. The men in this unit are trained men who service all of the rolling stock and make running repairs which requires their constant vigilance and varied skills. The men have all had training with railroads before assignment and are skilled mechanics in their line of work. In case of any sort of wreck or disruption along the line to any of the rolling stock, these are the men who are on the spot to repair and put back into action as much of the equipment as they can.

No railroad could be run without the crews which are needed to operate the trains. These men in this particular operating battalion make up 50 different crews with usually 40 operating in each direction and one crew for emergencies. The crews are made up of conductors, firemen, engineers and brakemen. Each crew consists of five men, who operate on a 12-hour shift. Capt. William P. Olson, Desmond street, San Francisco, Calif., has charge of these men and also takes care of the movement of all the rolling stock and the crews are supplied.

From all of these companies there are many men who are out on special duty and are temporarily stationed at various points along the line, maintaining the tracks, manning the signal stations, giving orders and clearing the trains as they come down the line. These men are representative of all three companies and also from the H and H company, which is strictly an administrative one, under the command of Capt. H. G. Gould, Crescent street, Oakland, Calif. In this company the various administrative duties necessary in taking care of personnel records, operations records, and general military supervision are handled. Telegraph and telephone operators are assigned to this company and also the dispatchers of the trains. In charge of the administrative duties at the headquarters of this battalion of men is Master Sergeant Donald W. Wolfe, South Scott street, Arlington, Va., who works directly under the adjutant of the battalion.

This railway operating battalion is under the command of Major Walter H. Marlin, 56th Avenue, Oakland, Calif., with Captain H. G. Bligh, Kator street, San Antonio, Texas, as executive officer, and Lieut. Thomas A. Faute, Geary street, San Francisco, Calif., as the acting adjutant. The unit is sponsored by the San Antonio branch of the Southern Pacific and was activated in December, 1943, at Fort Sam Houston, Texas.

### Wins Promotion To Lieutenant

Charles A. George, Jr., son of Mr. and Mrs. Charles George of Waterford and a Plymouth high school graduate, has been advanced to the rank of first lieutenant in the army's air forces. He is at present an instructor at Norfolk, Virginia, but is expected to go overseas sometime during the next few weeks. His wife and baby daughter are at the family home in Waterford where they will remain until Lieut. George returns from services in the armed forces.

The soundest asset any man can have is the earning power of his hands and brains.

Help the nation's efforts to keep your living costs DOWN, the buying power of your dollar UP.

### The DOLLAR that just burnt a hole in your pocket

You just spent that dollar. You spent it on something you didn't really need. If you keep spending your dollars carelessly like that, some day your dollars won't buy as much as they used to. Wasted dollars force prices higher and higher. Plan your spending, plan your savings. Be realistic. Work out your program in black and white. Then, as you buy War Bonds regularly and go to the bank every pay day to deposit as much as you can—you will help yourself to buy more after the war, when the time comes that there is plenty for all of us, not just a little for the spendthrift few.

### John Willis Is Among Missing

Many Plymouth friends of Sgt. John C. Willis, son of Mrs. May Willis of 40681 Six Mile road, will regret to know that he has been reported missing in action somewhere in Luxembourg. He was reported lost on December 18.

Jack was born near Northville on a farm on the Six Mile road, in 1923. His father, Mark A. Willis, died two years later. He attended Northville schools through the seventh grade, mother and son living in town. Moving back to the farm, sent Jack to the Plymouth school, where he graduated in 1941. He then took up employment in the Kelsey-Hayes plant where he worked until he joined the army.

In February of 1943 Jack enlisted and received training at Camp McCain, Miss.; Ft. Jackson, S. C.; and Ft. Mead, Md. The sergeant was last home on furlough in July of '44. He was sent overseas in October of 1944 as an expert Infantryman and served in England, France and Germany before going into Luxembourg.

### Joins Up With The Red Cross

Miss Evelyn Ambler, daughter of Mrs. Leota Ambler of Blanche street, has just resigned her position with the Diesel plant of the General Motors company on Plymouth road, to join up with the American Red Cross.

Her selection to an important position in the morale building division in the Red Cross came recently after she was invited to St. Louis, Missouri, for consultation with officials of the Red Cross.

She expects to leave in a few days for Washington and then will go overseas. Her mother, Mrs. Ambler, is employed at the Plymouth United Savings bank.

During the past few years Miss Ambler has been directing the work of the Dieseloque staff, one of the important publications issued by General Motors.

The following article about Miss Ambler is taken from the last issue of the Dieseloque:

"It is with mingled pride and regret that Dieseloque announces the entrance of its only charter member into the Red Cross organization. Miss Ambler's choice to serve the cause of mercy will carry her to the far flung boundaries of Pacific war areas. She will serve in an important capacity in the morale building activities of the Red Cross at base hospitals and evacuation centers near the front lines.

"Evelyn is one of Detroit Diesel's oldest women employees from point of service. Her initial job was as secretary to the chief engineer. She later entered the personnel division to assist in establishing and directing the Dieseloque staff. Her efficiency, friendliness and understanding have gained Evelyn many friends who will be happy only in the knowledge that her new assignment offers greater opportunities for her boundless generosity.

"Miss Ambler will be missed by the thousands of Diesel men and women who have come to know her through her daily contacts in extolling their good deeds and expressing sympathies to them in time of bereavement.

"Bon voyage, Evelyn, and when your work in the interest of helping those in the midst of sadness and suffering throughout the world permits, may you return to us at Diesel who like you so much."

A man may have authority over others, but he can never have their hearts, except by giving his own.—W. Wilson.

Design V-6  
The Romantic Ranch House

### Your New Home...

We present these plans hoping they will prove interesting and helpful to you in making plans for your future home. Please ask our assistance at any time. Complete working drawings are available for each house we illustrate.

This little ranch house has many unusual and interesting features. It will appeal to the practical-minded for there is not one square foot of floor area wasted in the plan; it is a lovely, rustic Ranch home.  
The living room, the main feature of the house, has a typical ranch type fireplace, and wide windows at the front and rear opening on to porches.  
The dinette is separated from the living room by a wide dropped ceiling beam, and has perfect cross-ventilation from front to rear,—combining the good features of the open breeze-way.  
The bedrooms are excellently placed, desirably separated from the living quarters and each with good cross-ventilation and large closets.  
The kitchen is ample, well-lighted, and arranged for all modern conveniences. One of the nicest features of the plan is the direct access from the kitchen to the L-shaped porch, making serving of meals on this porch convenient and easy.  
The exterior is a rustic ranch house style, of frame construction, with large view windows. A gracious living porch, which should be screened or may be enclosed for winter, is a feature. Altogether this house will make a most desirable home, and will be very appealing in the proper environment. Plans are available either with or without basement.

### VICTORY'S SONS

**A**N AMERICAN TANK pushed on too far in advance of the infantry, and the crew members found themselves cut off near Mateur in north Africa. Italian soldiers closed in and captured them.

When evening fell the Italians made camp, and after supper they began to pass the wine bottle. Presently they forgot about their prisoners. Capt. Dwight Varner, commander of the crew, gave the word, and the Americans slipped away and hid in a wheat field.

Next morning, with cleared heads the Italians began a search. One party came close to the unarmed American tankmen. Captain Varner boldly leaped up, drew a shining metal object—it was a teaspoon—and commanded the searchers to drop their rifles. The frightened Italians threw down their arms, the Americans snatched them up. A few hours later Captain Varner and his crew returned to their camp, after having turned over half a dozen enemy soldiers to the British Eighth Army.

### Babson Says - -

Babson Park, Florida, February 2.—Postwar full employment depends upon keeping the national income up to \$120 billions or more. This compares with a pre-war figure of \$80 billions. Some increase!

**Preventing Unemployment**  
Three times in the past, the U.S. was up against a similar problem. (1) In 1845-8, following the Mexican War, there would have been a revolution in the U.S. except for the acquisition from Mexico of Texas and seven other states. (2) In 1874-9, following the Civil War, there would have been economic chaos except for the development of the railroads. (3) In 1919-23, following World War I, there again would have been an economic collapse had not the "horseless carriage" saved the day.

To jack up national income 50 percent and prevent unemployment, some new great industry must be born, or some radical change must take place in education. I believe that—following World War II—some revolutionary change will take place in our system which now "Educates" 30,000,000 people and spends billions of dollars annually. Hence, I repeat that postwar employment depends upon our school committees.

**Memories vs Brains**  
Here is my forecast: First, schools will give less attention to memory work and more to brain development. Such memory work, as is given, should be concentrated on spelling, arithmetic tables and vocabularies which knowledge will help students get and hold jobs. Second, schools will give much more attention to training students to think and solve original problems.—work which they dislike to do.

The above two changes would mean that students will take home more problems to work out, but fewer textbooks to read. The present craze of lugging home a mass of textbooks, each day, results in less thinking. Encyclopedias and reference books can displace memories; but nothing can take the place of brains. Employers can install machines to do everything but THINK. Hence, students should be taught to pioneer and create jobs, rather than to memorize and hunt jobs.

**Need of Good Habits**  
The third important change will be in helping students develop good habits and self-control. The student should be taught to diagnose and govern his own will, worry, anger, fear, etc. Upon these emotional traits, his health, happiness and economic value largely depend. Students will frankly be told that body, mind and soul are one; that work in the small laboratories of their private individual lives is more important than work in the large laboratories of schools and colleges.

School committees will realize that the student's greatest need is for self-discipline, so necessary to coordinate body, mind and spirit. Our present school system worked fairly well before the days of mass production and modern conveniences; but if continued along present lines will result in much postwar unemployment. The present universal fear of unemployment and the increasing demand for "security legislation" clearly indicate the present lack of a pioneering and independent character.

**Spiritual Energy Necessary**  
Unfortunately school committees are mistaking material wealth, in terms of dollars, for human progress, in terms of usefulness. Christian philosophy, biology and psychology, as they relate to each student, are very important. The development of this spiritual field, following World War II, can be as effective in preventing postwar unemployment as was the Louisiana Purchase following the Mexican War, the building of the railroads following the Civil War and the automobile industry following World War I.

Certainly, it can be shown that acquiring self-mastery to use one's energy constructively is in the self-interest of every student. This is the religious awakening for the need of which the world is today suffering. True intelligence needs spiritual energy, kindly feelings, insight and imagination. Find out the one thing in which each student is most interested. When this is discovered, it is easily possible to convince him the necessity of self-mastery. By so revising the educational program, school committees can both best serve the students' and the nation's future welfare.

If the legislature approves the proposal, Michigan bow and arrow hunters who fail to get a deer during future archery seasons will be privileged to hunt bucks during the regular gun season that follows. Purchase of a second license would be required.

Reports to the National Safety Council indicate that two out of every three bicyclists injured and killed in traffic accidents were violating a traffic law at the time

### Rathburn Named As Chairman

At the annual meeting of the Michigan Supervisor's Association held in Lansing last week, Supervisor Charles Rathburn of Plymouth township, was named chairman of the legislative committee of the state organization.

Mr. Rathburn, Supervisor Jesse Ziegler and a number of other

Chief interest was centered around the taxation discussion, but all in attendance were not in agreement with the general plan of distribution of state funds that was suggested by the association's tax committee.

### 25 Years Ago

News items of a quarter of a century ago taken from the files of The Plymouth Mail.

The name of M. G. Hill of this village has been sent to the senate for confirmation as postmaster at Plymouth.

Announcement has been made of the marriage of Monte H. Wood of Detroit, son of Mr. and Mrs. Ed. Wood of this place, and Mrs. Beatrice Stevens, also of Detroit.

The Plymouth & Northville Gas Company are anticipating another coal shortage, unless there is a radical change in the fuel situation.

John Patterson is building a five-room bungalow on Roe street, F. H. Bird and Guy Fisher have opened a plumbing and tinning shop at the rear of the P. A. Nash hardware store in north village.

A sleighload of young folks gathered at the home of Miss Edna Gots at Waterford, last Wednesday evening.

Plymouth friends will be interested to know that Mr. and Mrs. E. L. Riggs have purchased a beautiful new home at Venice, California.

The tearing down of the wooden awning in front of the Gayde block at the corner of Main street and Penniman avenue, makes a great improvement in that building.

Dr. Grainger has sold his residence on Harvey street to Frank Hake of Livonia. Dr. and Mrs. Grainger expect to soon move to their farm home at Commerce.

The 1919-1920 girls at H. W. Murray's candy store, enjoyed a sleigh-ride party to Northville, last Wednesday evening.

About forty ladies were present at the Aid Society meeting of the Methodist church, held at the home of Mrs. Arthur White on West Ann Arbor street, last week Wednesday afternoon, January 22nd. A business meeting was followed by a program and a social hour, delicious home-made candy being served.

Thirteen members of the Girls' Community club enjoyed a sleigh-ride party out to the home of Miss Edna Hummell, daughter of Mr. and Mrs. I. W. Hummell, on the Ann Arbor road, last Monday evening. A pot-luck supper was served at 6:30 o'clock, after which a business meeting was held. This was followed by a social hour with music, and at 9:30 the girls returned to town declaring the evening a pleasant one.

### Honored For Gallant Action

Mrs. A. B. Miller, the former Agnes Mattinson, daughter of Mr. and Mrs. Silas Mattinson of Forest street, has just received word that her husband, First Lieut. A. B. Miller, serving with Patton's army somewhere in Germany, has been awarded the silver star for gallantry in action.

This award is the fourth highest, and was made to Lieut. Miller by General J. A. Van Fleet of the 90th Infantry division. Lieut. Miller has been in almost constant action since D-day, going through France and into Germany with the 3rd army.

He is a son of Mr. and Mrs. Ernest Miller of Osceola and was married to the Plymouth girl some two years ago. Mrs. Miller is now employed at the Burroughs plant in Plymouth.

Timely items of interest and value... helpful suggestions about cooking, lighting and appliance use.

**4 MINUTES—ONE KILOWATT HOUR**... One comparison of the nations' living standards is based on the amount of work required in the various countries of the world to purchase comparable merchandise. The following table, based on pre-war wage scales, shows the number of minutes' work required of unskilled labor to purchase one kilowatt hour of electricity in 12 leading countries:

United States	4 minutes	Hungary	30 minutes
Holland	12 minutes	Belgium	30 minutes
England	18 minutes	Brazil	30 minutes
France	18 minutes	Argentina	31 minutes
Germany	18 minutes	Uruguay	36 minutes
Austria	24 minutes	Chile	37 minutes

America leads the world in the electrical standard of living, as she leads in so many other ways!  
Wasting electricity is wasting badly needed coal

**SAVORY SAVING**... This recipe for using up "leftover" roast beef is highly recommended by our Home Service Department:

**Luncheon Rolls with Mushroom Sauce**  
2 cups sifted flour 4 tsp. baking powder  
1 tsp. salt 4 tbs. shortening  
3/4 to 3/8 cup milk

Sift dry ingredients together, cut in shortening, and add milk to make a soft dough. Roll to 1/4-inch thickness and spread with mixture of ground leftover roast beef, finely diced cooked potatoes and finely minced onion. (This may be moistened slightly with white sauce or leftover gravy.) Roll like a jelly roll and cut into one-inch slices. Bake in muffin pans at 450° F. for 12 to 15 minutes. Serve with mushroom sauce.

**CARE OF CORDS**... It is always important to take care of your electric appliance cords—and particularly so in wartime. These simple instructions will extend the life of your cords: Keep them free from oil, moisture and grease; avoid kinking and knotting; keep them away from sharp edges and hot appliances. Do not hang them over nails. When disconnecting them from outlets, grasp plug firmly—don't jerk cord.
