
 ★ **What I Think and**
 ★ **Have a Right**
 ★ **to Say**
 ★ *Eaton R. Eaton*
 ★
 ★ REAPING THE WHIRLWIND.
 ★ For ten long years the queer new thinkers of Washington
 ★ thought hate, talked hate, inspired hate and lived hate. If
 ★ "they" didn't like somebody, that somebody was ruined, jailed
 ★ or held up to public ridicule and scorn.
 ★ The country was made to believe that there were two
 ★ classes, the upper and the lower — that we had in America the
 ★ same sort of cast system that prevailed in most of the rotten
 ★ nations of Europe.
 ★ As a result of all of this lying and faking and deception we
 ★ are now reaping the whirlwind.
 ★ Where there should be good will between men, there is no
 ★ good will. Where there should be cooperation and mutual
 ★ understanding, there is no cooperation and in place of mutual
 ★ understanding there is suspicion and mistrust.
 ★ What should be done about it?
 ★ The entire country should turn about, right face, eliminate
 ★ this hating business, and begin to think that there surely must
 ★ be some good in the hearts of men.
 ★ Do you suppose for one minute if the right spirit prevailed,
 ★ that there would be such strikes as now are sweeping the na-
 ★ tion? Do you think if the right spirit prevailed that the men
 ★ who receive the pay checks and the men who make possible the
 ★ pay checks could not get together and iron out their differences?
 ★ Of course they could.
 ★ Let us begin RIGHT NOW to lay aside our hatreds, our
 ★ suspicions and our dislikes and begin to think, after all, that
 ★ there is some good in the world and that there is here and there
 ★ an honest person who means well and wants to help all man-
 ★ kind.

★
 ★ **THIS PARKING BUSINESS.**
 ★ Not a new automobile has been sold in Plymouth in over
 ★ three years, but the parking congestion has become such a seri-
 ★ ous problem that this city must immediately give it some at-
 ★ tention. Some years ago the Chamber of Commerce brought
 ★ about the creation of a municipal parking lot back of the stores,
 ★ but that is now outgrown and rarely a day goes by when there
 ★ is sufficient parking space for all the cars. It's time for the
 ★ Chamber of Commerce or some other organization to get busy
 ★ and help solve a serious civic problem. What will the situation
 ★ be when new cars are made available to the public next year,
 ★ if we do not provide additional parking facilities before that
 ★ time?
 ★
 ★ **THERE IS A LOT TO DO.**
 ★ The W. K. Kellogg Foundation in Battle Creek says that
 ★ only 16 per cent of the homes on Michigan farms and small
 ★ communities have bathtubs or showers. It is difficult to believe
 ★ that these figures are correct, but the Kellogg Foundation has
 ★ a way of getting at the truth of matters. From these facts, it
 ★ looks as though the next biggest business in Michigan to the
 ★ automobile business could be made the plumbing business. We
 ★ do not blame the residents of the smaller communities and the
 ★ rural sections so much for this condition as we do the poor job
 ★ that has been done by plumbers in selling their wares to the
 ★ farmers.
 ★
 ★ **FREE PRESS ENDED THE STRIKE.**
 ★ Others may claim the glory and others may say that they
 ★ "did it" but there was just one thing that ended the Consumers
 ★ Power strike against the people of the state. It was that Free
 ★ Press editorial published the day after the strike was called.
 ★ That one editorial was the talk of the state and it created so
 ★ much public sentiment in a few brief minutes that no one dared
 ★ face the storm. Say what you want to, it was that one smash-
 ★ ing editorial in the Free Press that brought a lot of people to
 ★ their senses.
 ★
 ★ **GOING REUTHER ONE BETTER.**
 ★ Walter Reuther who during his entire life time has never
 ★ "toiled or spinned" except to stick his nose into somebody
 ★ else's business, says he knows General Motors can cut \$100
 ★ off the price of Chevrolets and still make lots of money. We'll
 ★ go him one better. General Motors can make Chevrolets and
 ★ give 'em away and still make lots of money. In other words
 ★ Reuther doesn't know any more about what he is talking about
 ★ than we do when it comes to knowing what profits can be or
 ★ cannot be made in making automobiles. Still the big newspa-
 ★ pers give his mouthings valuable space. We can't figure that
 ★ one out either. We received a booklet the other day entitled
 ★ "Let Our People Live." We are for that, too. But how can peo-
 ★ ple live if big bosses with questionable intent keep people from
 ★ working so they cannot make a good living?
 ★
 ★ **FALSE ROADS TO THE PROMISED LAND.**
 ★ In a recent issue of Liberty magazine there was published
 ★ an editorial with a lot of common-sense. It discusses some
 ★ of the problems of the day and points out the necessity of
 ★ trailing the right road if we are to have in this country the
 ★ prosperity that all have been predicting.
 ★ The Liberty editorial follows:
 ★ We stand today at the threshold of America's golden age. Within
 ★ our hands are the opportunity and the means to create for ourselves
 ★ a life of abundance and tranquility far beyond previous imaginings.
 ★ Our industries are in splendid shape. We know now how magnifi-
 ★ cently our people and machines can produce. A fever of production
 ★ is in the air. Businessmen, large and small are raring to go. Consumers
 ★ are amply supplied with money eagerly await the products of the as-
 ★ sembly line. Should we lose this chance, it will be a shameful thing
 ★ for all time.
 ★ Yet we can do just that if we forgo our opportunity and dissipate
 ★ our means in the pursuit of ideas that will not and cannot work.
 ★ One of the more dangerous and persistent of these false ideas is
 ★ that the way to keep everybody at work is to lower the work week so
 ★ that four people will be required to do the work formerly performed
 ★ by three. We can only share and consume the goods we produce.
 ★ No speciously reasoned theory can alter this fact. If four people do
 ★ the work of three, the proceeds of their labor must be divided four
 ★ ways instead of three ways, as before. The result is a lower standard
 ★ of living for all of them.
 ★ Nor will it remedy the situation to pay people the same wages
 ★ for thirty hours of work as they formerly received for forty hours.
 ★ Take-home pay itself is not consumable. It cannot be eaten, worn,
 ★ or driven around in. It must be exchanged for the necessities and
 ★ luxuries of life. Unless more of these are produced to compensate for
 ★ increased take-home pay, what are produced will cost more. It is
 ★ bound to balance out this way in the long run.
 ★ It is true that output per man has increased during the war. So
 ★ has our standard of living. We already have absorbed the benefit
 ★ of the increase in higher wages.
 ★ No magic wand can effect the immediate one-third increase in
 ★ over-all output which would be required if the work week were
 ★ reduced from forty hours to thirty hours. Whenever and wherever
 ★ such an increase does come about, those who accomplish it will not
 ★ be satisfied with present-day living standards. They will want the
 ★ benefit of their increased earning power more than ten extra hours
 ★ of leisure. The thirty-hour week can only come when living standards
 ★ generally approach the point of complete satisfaction. The only solu-
 ★ tion to our job problem is to create more jobs in more businesses,
 ★ which will produce more wealth to be shared among us.
 ★ It will further this objective if industry and every workman in
 ★ it produce at ever increasing efficiency, equaling and surpassing
 ★ the war achievements. The sum total of goods to be shared will then
 ★ constantly increase. Take-home pay will go steadily upward to buy
 ★ more things at lower prices. New businesses will have markets for
 ★ their products. More and more people will find employment in the
 ★ making of them.
 ★ Management which holds down production in order to produce
 ★ limited quantities of goods at high prices impedes this process. Re-

THE PLYMOUTH MAIL

Vol 58, No. 8 Plymouth, Michigan, Friday, October 26, 1945 \$2.00 Per Year in Advance

Plymouth Ready For Great Victory War Bond Drive

JOHN JACOBS
 He will name committee of Veterans to help in drive.

ROLPH SMITH
 Rotarians select him as Victory bond drive chairman.

RANDALL PENHALE
 Veteran Upper Peninsula war bond executive will help put Plymouth over the top.

MRS. ANN KELLOGG SUMNER
 She has already organized the women for the Victory drive. Her Gallants start work Monday.

LEROY CRITES
 Hustling Kiwanis war bond chairman has already put Kiwanians to work.

HARRY IRWIN
 To him falls the honor of organizing a committee to push sales of Roosevelt Memorial war bonds.

Hundreds See Work Started on Church School

Several hundred persons last Sunday afternoon witnessed ground-breaking ceremonies held by the congregation of St. Peter's Evangelical Lutheran church at their new building site at Penniman and Garfield.

Excavation for the new Christian day school to be built there by the congregation will get underway in earnest tomorrow, Saturday. Trenches for the foundation and footing will be started at that time by volunteer laborers, the Rev. Edgar Hoenecke said.

Blessed by ideal weather, the ceremonies attracted many from outside the congregation. They were most impressive. The Rev. G. Press, of Wayne, prominent pastor and religious educator, was the principal speaker.

Other members of the Lutheran clergy attending beside Pastor Press and Pastor Hoenecke were the Rev. E. Rossow, of Northville, and the Rev. Theodore Sauer, of Livonia.

Tomorrow Is Waste Paper Day!

Tomorrow — Saturday, is the day!
 It's paper collection day for the Boy Scouts!
 Get your paper bundles ready and tie up that bunch of magazines!
 The Scouts will be around Saturday to collect that badly needed waste paper.
 Oh yes, the war is over, but waste paper still remains one of Uncle Sam's greatest needs.

Jack Gordon In Frisco Hospital

Sgt. Jack Gordon, son of Dr. and Mrs. G. H. Gordon, who was taken prisoner by the Japs when Bataan fell, is now in a hospital in San Francisco for a final check-up before he leaves for his return to Michigan.

Selects Workers For Memorial Auditorium

Incorporated as a non-profit organization, under the name of the Veterans Memorial Foundation, first steps were taken this week to put into motion the erection of one of the finest civic auditoriums in a city of this size in the country.

The name of the building will be decided upon at a later date after the selection of complete committee memberships.

Chairman Cass S. Hough has named the following various chairmen who will soon announce the complete list of their committees:
 They are as follows:
 Site committee, Wendell Lent and Mrs. William Erdelyi; finance planning, Lt. Ralph Lorenz and Jack Taylor; organizational committee, David Mather and Robert Fisher; building committee, Sterling Eaton and Marion Taylor; fund acceptance committee, Lt. Edwin Schrader; planning committee, Lorraine Corbett.

Russell Daane Gets Promotion

According to an announcement just made at the naval base at Charleston, South Carolina, Russell M. Daane, USNR, of 530 Garfield Ave., Plymouth, now serving as the Methods and Procedures Officer in the Supply department at the Charleston Navy Yards has been promoted from the rank of lieutenant to lieutenant commander.

Wild Lifers Are Called to Work!

Help! Help!
 That's what President Brick Champe of the Western Wayne County Conservation club is asking for all day Sunday.
 He wants every able bodied man of the club to go out to the site on Joy road and help do some very needed work around the new club house.

Forbes Smith To Remain in Army

Forbes Smith, son of Mr. and Mrs. William Smith, 1386 South Harvey street, who went into the armed forces early in the war, saw service during the entire European campaign as an aerial gunner with the 12th air force, was recently honorably discharged and enlisted again the very same day for three more years of service with Uncle Sam's armed forces.

Husband Kills Wife, Himself

There will be no funeral services for Mrs. Ethel Frances Kells, 44, who was shot to death in Detroit Wednesday by her husband James Kells, 50, who after killing his wife shot himself to death, the family has announced.

Although Detroit newspapers gave the addresses of the estranged couple as 9200 Hix road, they were not generally known here. Kells was a well known consulting tool engineer in Detroit, where he had been employed during the years by many Detroit concerns.

To Provide Aid to New Citizens

Do you need instruction in knowing how to fill out your application blanks for naturalization papers?
 Are you a foreign born citizen who would like to become a citizen of the United States, but do not know just how to go about it to do so?

Zuckerman Gets The Last Tire

When you see Elmer Zuckerman of the Allen Industries riding down the highways with one new automobile tire on his car (if and when he gets it), you are witnessing the passing of the last automobile tire that was rationed by the Plymouth tire panel.

Thanksgiving To Fall on Thursday, November 22, This Year

About Thanksgiving!
 You don't have to worry about the date in Michigan any more.
 Thanksgiving is going to take place on the fourth Thursday in every November from now on, as far as Michigan is concerned.

Joe Merritt Now In Seattle

A telegram was received Thursday afternoon by parents of Joe Merritt, recently released Jap prisoner, that he had landed in Seattle Thursday morning, that he was in excellent health and expected to be home soon.

Horton Builds Large Storage Space for Store

The business and industrial building boom here is moving along at a rapidly increasing tempo. Right now it seems to be centered in the implement business.

Two weeks ago The Mail told about new building projects on Forest street. This week it is able to bring its readers news about the expansion of another well known local firm.

The Mixed-Married Class will hold their social evening at the church at 7:30 p.m. this Saturday, October 27th. Union Thanksgiving Service at this church at 10:00 a.m. November 22nd.

FIRST METHODIST CHURCH. T. Leonard Sanders, minister. Mrs. O'Conner, director of Music. You are cordially invited to worship with us at any or all our services. Sunday October 28, 1945. 10 o'clock Church School with classes for all. 11 o'clock Morning Worship with music by the Junior High and Adult Chorus. Subject "Why Be Religious?" We have a nursery where you may leave small children while you attend the church service. 3 o'clock The Youth Fellowship will meet at the church to go to the Lincoln Park church for the District Annual Retreat for youth. Monday 3:45 Girl Scouts, 7:30 Boy Scouts, 7:30 Annual School of Religion. Wednesday: Day of Prayer beginning at 10 o'clock in the morning and ending with Holy Communion at 3 o'clock in the afternoon. 7:30 Youth Choir. Thursday 3:45 Junior High Choir, 7:30 Adult Choir. Friday 3:45 Junior Choir.

FIRST CHURCH OF CHRIST SCIENTIST. Sunday morning service, 10:30; Sunday school at 10:30. Pupils received up to the age of 20 years. Wednesday evening testimony service, 8:00. "Probation After Death" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, October 28. The Golden Text, (Matthew 24: 13) is: "He that shall endure unto the end, the same shall be saved." Among the Bible citations in this passage (I Cor. 15:20,21): "But now is Christ risen from the dead, and become the first-fruits of them that slept. For since by man came death, by man came also the resurrection of the dead." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (427): "If man is never to overcome death, why do the Scriptures say, 'The last enemy that shall be destroyed is death.' The tenor of the Word shows that we shall obtain the victory over death in proportion as we overcome sin."

BEREA CHRISTIAN ASSEMBLY. corner of Ann Arbor Trail and Mill street, John Walaskay, pastor. Sunday School 10:00 a.m. Morning Worship 11:00 a.m. Young Peoples Meeting 6:00 p.m. Evangelistic service 7:30 p.m. Cottage prayer meeting on Tuesday evening at 7:30 p.m. Mid-week prayer service, Thursday at 7:30 p.m. Golden Text "Be ye kind one to another, tenderhearted, forgiving one another even as God for Christ's sake hath forgiven you." Eph. 4:32.

NEWBURG METHODIST CHURCH. minister, Verle J. Carlson, 9614 Newburg road, Plymouth 781-J. Today, Friday, at 2:00 p.m. Our Woman's Society of Christian Service is having a service of prayer and self denial. All women of the church are invited. OUR LADY OF GOOD COUNSEL. -Rev. William P. Mooney, pastor. Masses, 6:00, 9:00, 10:00 and 12:00 noon.

Thinks Most Men Will Be Out of Army Soon

Claude Rathburn, brother of John Rathburn of The Plymouth Mail staff, who has been in Europe for over 37 months, has returned home from Germany and has been given an honorable discharge. After spending a few days in Plymouth, he will go to his home in Lake City where he expects to remain.

Since he left the States for service overseas, he has been in Ireland, England, France, Belgium, Holland and Germany. "There is nothing quite like getting home. But the way they are moving troops now, I do not believe it will be long before most of the men who are not in the army of occupation will be back in the United States" he stated.

Are Your **Youngster's Shoes a Big Problem?**

THEN READ THESE WARTIME FACTS

FACT NO. 1
All children's shoes are not the same! War conditions have created greater differences than ever in the wearing quality of some shoes.

FACT NO. 2
The important differences are inside. You can't see them when you buy... yet these hidden materials... inner construction are vital factors in long shoe mileage.

FACT NO. 3
Today, when every pair must last longer, it's more important than ever to choose buy a brand you can trust... of long, rugged wear and lasting, comfortable fit.

AS SEEN IN PARENTS' MAGAZINE

Wise Mothers choose **Poll-Parrot Shoes** with BUILT-IN FIT* for Boys and Girls

Because today... as always... this famous brand means the rugged inner construction and sturdy materials that give long wear. Your youngster's feet are correctly supported... comfortable... protected by a shoe that keeps its shape. And that's vital to growing feet.

Jaycees Plan Dancing Party

Final arrangements have been made for the annual Halloween party of the Plymouth Junior Chamber of Commerce which will take place Saturday evening, October 27, at the Masonic Temple. The hours will be from 9 to 10 o'clock.

Costume prizes will be awarded. These events, which have been featured by the organization to raise funds for its various community activities, have been exceedingly popular among the young people and it is expected there will be a large crowd Saturday night.

Every man in the organization either raises or lowers the average.

Virginia Squier Woman's Club Guest Today

On Friday afternoon, November 2, the Woman's Club of Plymouth will meet at 2 o'clock in the St. Johns Episcopal parish house for its monthly business meeting.

Following the meeting Mrs. Kenneth Hulsing will introduce the guest artist, Virginia Squier, of Royal Oak, who will feature a dramatized interpretation, in costume, of Phil Spong's best seller, "Marta of Muscovy."

Mrs. Squier has developed a technique in book reviewing which is unique. Combining her own flair for drama, the result of ten years experience in the Little Theatre, with an understanding and appreciation of modern trends in literature, she deftly selects scene after scene from a book, skillfully bringing out the philosophy of the author and highlighting his style.

Those who were present last year when Mrs. Squier gave such a marvelous review of "Latch-String Out" will surely want to attend the November meeting.

It is to be "Guest Day" and each member is privileged to invite one guest. The guest hostesses for the afternoon are Mrs. Clifford Tait, Mrs. Frank Dunn and Mrs. Vaughan Smith.

At the October meeting it was voted to sponsor the project of contributing gifts and prizes to the men of Percy Jones hospital. Party prizes should not exceed 50 cents in cost and suitable items are as follows: Small picture frames, army ties, shaving lotion and cream, tooth paste, combs, writing paper, note books or any personal item. Birthday gifts around a dollar or more would include such items as wallets, manicure sets, razors, game sets.

Each prize or gift is to be wrapped and contents listed on a small card on outside. This project will continue for months with members bringing their gifts or prizes whatever meeting they wish and Mrs. Hudson, chairman of the War Service committee, will have a box at each meeting to receive them and when there are enough packages to warrant will take them to the main office for distribution.

Starlings are not protected under Michigan law or by conservation commission regulation. They may be killed at any time. However, the conservation department continues to advise embattled householders that permission of local authorities should be secured if guns are to be used in wars of extermination inside boundaries of most cities and villages.

PHS Band To Play in Detroit

The vocal and instrumental music departments of Plymouth high school have been invited to participate in the giant Victory Loan Drive parade Monday night at Detroit.

Clarence Luchtman, high school music director, will take about 125 students there for the occasion. They will travel in three chartered buses leaving Plymouth at 4 p.m.

The mammoth parade which will launch the Victory Loan Drive in Wayne County is to be filmed by several newsreel services and will be broadcast over a nation wide network. It will get underway at 6 p.m. next Monday.

Plymouth's marching band is expected to head one division of the parade down Woodward. Upon reaching Cadillac Square they will join with other bands. This will be the greatest massed band in the world.

It will play several numbers in the street near Detroit's City Hall.

The vocal aggregation from the local high school will be part of a massed chorus of 5,000 voices.

Mr. Luchtman and his students are very enthusiastic over the prospects of taking part in such a gigantic affair and for such an occasion.

They are very proud to be invited to take part and are eagerly awaiting the momentous night. It is a distinct honor to the local high school to be selected.

To be part of the world's greatest massed band upon such an occasion in the nation's fourth largest city is honor enough. But Plymouth gets only the best. Therefore it is no wonder that the band will not only play in the massed group but also has been asked to head one division of the mammoth parade.

Many Plymouth residents, especially the parents of the participating bandmen, are planning on being in Detroit that night. It will be a great spectacle and one not soon forgotten.

Let's go if we can and take pride in our band. Such an opportunity may not present itself soon again.

Local News

Mr. and Mrs. Kenneth Greer announce the arrival of a son Malcolm Thomas, 8 pounds, 8 ounces, Tuesday, October 23 at Henry Ford hospital.

Marleta Martin of Washington, D. C., will spend this week end with her parents, the W. Martins on north Harvey street. Miss Martin has been employed in the office of the Pennsylvania railroad in Washington, since the completion of her work at Michigan State College last June.

Mr. and Mrs. Cleo Curtis and two children—guests at the open house party, at the home of S/Sgt. and Mrs. Don Curtis in Ann Arbor. The occasion was in honor of S/Sgt. Don Curtis, who has recently returned home from overseas. Mrs. Nellie Sott assisted Mrs. Curtis as hostess.

Lieut. and Mrs. H. J. Moran, accompanied by Lieut. and Mrs. Robert Reimard, who are now stationed at the naval base in Cleveland, were guests Sunday of Mrs. Moran's parents, Mr. and Mrs. Clayton W. Clair at their home Plymouth Acres on West Phoenix road.

The Girl Scout troop No. 3 and the Boy Scout group No. P4 will have a Halloween party Monday night in the Presbyterian church dining room. The party will be chaperoned and directed by Girl Scout leaders Mrs. William Arscott and Mrs. Eric Lloyd. The boys and girls will be entertained with games, folk dancing and refreshments.

Emerson Robinson, son of Mr. and Mrs. Charles Robinson of 810 Forest street, who served with the flying forces of Uncle Sam in the South and Central Pacific for more than two years, is back in Plymouth safe and sound with an honorable discharge from the armed forces. During his many months overseas Emerson saw plenty of Jap action. He is right now enjoying a vacation from all activities but declares that it is his intention to remain in Plymouth.

Mr. and Mrs. Myron W. Willott, and daughter Mrs. E. F. Rotnour, also Mrs. Willott's sister Mrs. Tria Eckles, visited Mr. and Mrs. C. J. Teufel and family, of Toledo, over the week end. They attended the second annual civic Center Chrysanthemum show, where two million "mums" were viewed by 1200 persons. A floral spinning wheel, covered with red, white and russet "mums" received first prize. It has a beautiful cluster of orchids in the center.

A dinner was given recently by Mr. and Mrs. Paul Mandl of 1290 Junction, in honor of their son Mathew, who just returned after 19 months in Panama. Mr. and Mrs. Mathew Mandl, who reside in Detroit, also spent the week end with his parents. Dinner guests included: Kay Mettetal, Mr. and Mrs. John Diel, their daughter Rose and son Jack, and their grandsons Robert, Mrs. Arthur Boyko, Mrs. Wally Pazzro, Mr. and Mrs. Paul Pellerin and daughter Lillian, Mr. Frank Lottbrien, Mr. and Mrs. Mike Armbruster and daughter Jo. It turned out to be a double celebration as Mathew's brother-in-law, John Diel EM 1/c, surprised his family by being home from the South Pacific after 23 months on a destroyer escort.

Officers Check Thefts, Damage to Mail Boxes

Depredations on rural mail boxes in the area served by the Plymouth postoffice have caused local postal officials considerable trouble.

They have been perpetrated, it is thought, by youngsters from district schools in those areas and in some cases by those coming into the city schools.

Officials in Chicago have written the local postoffice asking that the officials here institute some type of program in the local schools, both city and rural, to combat the depredations through education.

Contrary to popular belief these incidents involving rural mail boxes have not been limited to the occasional uprooting of a box support or the removal of the box from its support.

In fact the majority of the incidents have been out and out thefts from the boxes and from letters contained therein. Many were prompted, postal officials believe, by criminal intent on the part of the children involved.

The waves of mail box thefts in local rural region reached their crest during the height of the rationing program. Ration stamps being the most prized loot.

Officials believe many children knew perfectly well that it was unlawful to take such stamps from letters and then sell them to the unscrupulous.

Evidence found after raids on rural boxes showed that letters of a personal nature and those appearing to be business correspondence were not opened. They were, however, taken from the box.

Postal officials here and in Washington, D. C., are of the opinion that children responsible for these depredations do not realize the terrific penalties that can be imposed on them if they are caught.

Tampering with a mail receptacle of any type is punishable by imprisonment or heavy fine or both. Persons caught stealing mail and then opening that mail to obtain cash or articles they can convert to cash suffer double penalties.

Juveniles are not let off by the Federal government. The FBI already is investigating some of the more flagrant cases in this area. Children should remember that the FBI men wear no uniforms. They work at various jobs and one can never tell when they are about.

Thus, the children who are suspected of having stolen mail from rural boxes in this area are being watched and will be watched for the next several months.

Empty envelopes that have been found near the boxes which have been rifled were discovered to bear fingerprints. These were taken and placed on file so any person caught can be linked to the thefts through their fingerprints.

To remove mail from a box other than your own is violation of a law as much as taking an apple from out of the grocery store window without paying for it.

Stealing mail is one of the worst crimes that can be committed. It is a disgrace and can result in many years spent in prison.

Children who want to be good citizens and of value to their country do not steal from other persons mail boxes. Only those who are not honest and do not want to be like other people do these things.

Parents can do well to check and see if their children are exposed to rural mail boxes containing mail. If so they should warn them about leaving the boxes alone.

Dr. Haskell Is Hi-12 Speaker

Dr. Robert Haskell of the Wayne County Training School was the speaker at Hi-12 on Wednesday evening. Brought to the club through the efforts of Blake Gillies the speaker traced the inception and growth of the school during the last 20 years.

He told of the work the staff of the institution had done in developing aids for the mentally deficient and stated that their work had done much to salvage many children that might otherwise have never had the opportunity to stabilize themselves.

He cited the fact that classification of mentally deficient was probably the most important contribution of his school to the aid of subnormal children.

The next meeting of the club will be held at the Masonic Temple and the ladies of the Eastern Star will serve the dinner.

Cub Scout Leaders Plan Course In Handicraft Training

A joint district 7-10 Cubbers' handicrafts course will get underway on Monday, October 29 at the Stark school, Stark and Lone Pine roads (just south of Plymouth road) beginning at 7:30 p.m.

Here is another opportunity for training in one of the most important parts of the cubbing program. Included in this course will be such subjects as leather, raffia, wood, metal, paper and others.

These classes will be led by suitable instructors who know and practice the methods shown in practical Cubbing programs.

As handicrafts are the mainstays of Cubbing crafts it is the thought of the course leaders to demonstrate the full potency of its strength in the home, the Den and Pack.

It is urged that every Pack in these two districts should be rep-

Joseph Wickens of the Specialty Feed company has announced the purchase of the Thomas Read elevator at Pinckney and has already taken possession of the property.

The new Pinckney plant will be operated in connection with the Plymouth plant, thereby enabling Mr. Wickens to take care of customers in that vicinity.

He has already started enlargement of the Pinckney plant and will as soon as possible install considerable new equipment.

Husband Kills

(Continued from Page 1)
before 10 a.m. Wednesday forenoon he heard a woman scream

and then heard several shots.

Kells apparently shot his former wife in the chest and head and then shot himself through the temple with a .303 caliber Remington automatic rifle, police said.

The note, written in an address book found in Kells' pocket, said Mrs. Kells had become unduly interested in psychology.

This interest led to the Kells' divorce in California in September 1944, the note said. Numerous books on psychology found in the office were said to belong to Mrs. Kells.

The bodies were identified by the couple's son-in-law, Jerry Killham, of Plymouth.

Killham told Police Lts. Leo Doyle and Harry Williams, of the Homicide Squad, that he and his wife Jean had feared Kells would harm some member of the family.

The office in which the bodies were found is rented by the Underwriters Service Co. and the

Kalamazoo Vegetable Parchment Company.

Charles Kushall, 63, of the Whittier Hotel, owner and operator of the latter company, told Doyle and Williams that Mrs. Kells was hired by the two concerns two months ago as a secretary and stenographer.

Livonia Seeks State Aid for Badly Needed New Public School Buildings

Action taken last Monday night at a civic assembly in Livonia may result in Livonia being able to obtain state and federal funds for the construction of school buildings.

At that meeting, representatives of more than 20 organizations conferred with Harry Johnson, superintendent of Livonia public schools. This group extended him a vote of confidence for his efforts toward obtaining such aid.

Moderator for the evening was Earl Bedell, a Livonia resident, and director of vocational education in the Detroit public schools.

After considerable discussion and explanation of the proposition with which Supt. Johnson hopes to aid the building programs of many school districts beside Plymouth and Livonia, the group unanimously adopted two resolutions.

One requested Gov. Harry F. Kelly to include state aid for schools in his call for a special session of the Michigan legislature next January.

The other was directed to Senator Homer S. Ferguson, Senator Arthur H. Vandenberg and Congressman George A. Dondero.

It requested each of them to give their support to such Federal legislation as would provide funds for the construction of school buildings.

The assembly also commended Supt. Johnson for his thought in proposing such a plan. It was originally offered by him last month at a meeting of Michigan school heads at Traverse City.

At that time the state educators unanimously hailed his idea and adopted a resolution to be sent Gov. Kelly similar to the one adopted by the assembly at Livonia Monday night.

Supt. Johnson naturally was motivated by the obvious need of additional housing for education in Livonia. He also had in mind the similar needs of countless other school districts in the state. Many are worse off than Livonia.

Charts and statistics showing the lack of adequate educational facilities in Livonia have been prepared in detail by Supt. Johnson. These were presented to the assembly.

They show that in 1950—with in five short years—there will be 27 fewer classrooms in the Livonia schools than will be required to properly provide for the student body.

Supt. Johnson predicts that by 1950, due to the ever increasing school census in Livonia, there will be more than 3,200 students enrolled in the schools.

An enrollment like that would require 89 classrooms. This is in addition to the necessary shop space, home economic kitchens, auditorium and gymnasium, Supt. Johnson said.

Even with the additional five mills school tax which Livonia school electors voted to accept for the next five years the district would not have sufficient funds of its own to construct the necessary plant.

According to Supt. Johnson, the additional school tax to be collected within the next five years, will be sufficient only to underwrite the construction of a 62-room school without any auditorium or gymnasium or vocational education space.

He explains that this is due to the state legislation limiting the school tax to 15 mills. He condemns the act as hampering the furtherance of education because in most cases it prevents the district from underwriting adequate housing construction.

With state and federal funds made available for such expansion the districts now lacking in proper housing for its students could progress on a basis equal with the larger and richer districts.

Supt. Johnson believes that with the proper support from the qualified electors and civic associations in such stalemated districts, which in course includes Plymouth, at least 75 per cent of the construction costs can be obtained from the state and federal

agencies. It would be a simple matter then for the districts to underwrite the other 25 per cent.

Such aid would not only give the districts necessary classroom space but also would provide such educational "musts" as shops, experimental kitchens, sewing machines, auditoriums and gymnasiums.

The future for such hamstrung districts as Livonia and Plymouth is very bright if the proper support is forthcoming on Supt. Johnson's proposal.

His work thus far has won the plaudits of State Senator Clarence Reid, of Highland Park; Charles Brake, deputy superintendent of schools in Wayne County; and Harry Burton, president of the Rosedale Gardens Civic Association.

All were present at the meeting Monday night and each warmly praised the proposition and its author, Supt. Johnson.

Senator Reid remarked that several other districts, some of whom are in worse condition than Livonia, were contemplating similar action. It can be rightly presumed, he said, that they were nudged into action by Supt. Johnson's proposal which first came to light at the state school superintendents' convention a few weeks ago at Traverse City.

Both Senator Reid and Mr. Brake told the assembly they felt certain that once Gov. Kelly hears the plea of Livonia and other districts and includes state aid for school buildings in his special legislative call, the rest will be simple.

Supt. Johnson expressed himself as feeling that way too. He also said he thought that once state aid had been secured it would require little effort to obtain the Federal aid.

Thus it would appear that a most ambitious program to secure state and Federal funds for providing deserving districts with adequate educational housing has been launched.

Certainly there is no other district more deserving of a consolidated school plant than Livonia, at least in this region. Plymouth also could use additional school buildings.

Whether the requested aid is obtained is presently put directly into the governor's lap. His refusal to include such legislation in his call for a special session will terminate the program.

Proper support by the electors

Patchen School To Start PTA

At a meeting to be held at 8 o'clock, Friday evening, November 2 at the Patchen school on Newburg road, steps will be taken to organize a Parent-Teachers Association.

All of the parents of school children in the district as well as all others interested in the affairs and progress of the Patchen school are invited to be present.

Mrs. Chester Tuck, district president of the PTA and one of the best workers in the organization in Michigan, will be present to help organize the association.

Methodists Plan Organ Memorial

A unique and beautiful Vesper service is being planned for 5 o'clock on All Saint's Day, Sunday Nov. 4, in honor of former members and friends of the First Methodist church of Plymouth.

The service will include an address by the pastor, T. Leonard Sanders; an impressive candle lighting ritual; and the Adult Choir will present "Give them Rest and Light Eternal" from the Manzoni Requiem by Verdi, with solo obligato by Ardis Curtiss and "How Lovely are Thy Dwellings" from the Brahms Requiem.

All friends of the church are cordially invited to attend this ceremony. A list of all memorial gifts, which are to be used to rebuild and enlarge the church organ, is being compiled and a permanent record will later be transcribed and placed on the organ to commemorate those honored in the service.

Buy U. S. Defense Bonds and Stamps, the I.O.U. of the Red, White and Blue!

Urge Parents of Cub Scouts to Attend Their Meetings

The November Pack meeting will be held on Friday, November 2 at 7:30 p.m. in the Central Grade school gymnasium.

Program chairman for this meeting will be Mrs. Roy Leeman. The skits to be presented will be based on the "Historical" theme of the Pilgrims.

New Cubs and their parents will be received into the Pack and the special achievement awards also will be presented.

Again a special appeal is made to the parents of the Cubs to be present. If the parents are unable to attend it is suggested the boys be accompanied by an adult.

Old Timers Hold Reunion Here

A gathering of unusual interest took place on the afternoon of Sunday, October 21 at Hilltop Farm, the home of Mr. and Mrs. Evered Jolliffe.

Fifteen persons who have been away from Plymouth for thirty or more years, and all of whom were active in the Plymouth Methodist church, had a very happy reunion. These friends came out to greet many from Plymouth who knew them.

The following were from out of town: Mr. and Mrs. W. N. Isbell of Howell, Rev. and Mrs. Ralph Brown of Hartland, Rev. and Mrs. Joseph Dutton, Dr. and Mrs. J. J. Travis and Mrs. Ethel Rice of Ann Arbor, Mrs. Adelaide Hudd of Bay City, Mr. and Mrs. Paul W. Voorhies and Mrs. E. Egbert Isbell of Ypsilanti.

Sgt. Lorne Archer To Get Discharge

S/Sgt. Lorne Archer is expected home Saturday from Amarillo, Texas, where he received a discharge, Thursday, from the Air Force.

S/Sgt. Archer was a member of the famous 390th division of the 8th Air Force. He spent four years and four months in the service, seven months of which he was overseas.

Sgt. Archer was a tail gunner on a B17 and received the Air Medal, also, the 290th division was the recipients of the Presidential Citation of honor.

Prior to going to Amarillo for discharge, Sgt. Archer was stationed in Deming, New Mexico.

Obituaries

Charles Groth. Funeral services for Charles Groth were held at the Christian Missionary Alliance church of Flint, Michigan, on Friday, October 19th at 10:30 a.m. Burial took place at the Thayer cemetery at Salem, Michigan, at 1 o'clock.

Mr. Groth was born at South Lyon September 15, 1884, and most of his earlier life was spent in and around Plymouth. He moved to Monroe in 1921 where he lived a period of 14 years, then moving to Flint where he passed away at the St. Joseph hospital October 17th, after a very short illness. He leaves to mourn his loss his wife, one son, Ivan of Monroe, two brothers, Paul and Albert Groth, one sister, Mrs. Irving Bay of Plymouth and a host of other relatives and friends.

Miss Mary Kape. Funeral services were held Monday, October 22nd at 2 p.m. from the Schrader Funeral Home for Miss Mary Kape who resided at 767 Wyoming avenue, Detroit, who passed away Saturday, October 20th. Miss Kape was the sister of the late William Kape who preceded her in death in 1934. Miss Kape was the aunt of Mrs. Henry Livranee of Pinckney, Michigan, Louis Keehl of Detroit, William and Frank Keehl, both of Plymouth, Rev. T. Leonard Sanders, officiated. Two beautiful hymns were rendered by Mrs. J. T. Chapman, accompanied at the organ by Mrs. M. J. O'Conner. The active pallbearers were Messrs. Louis, William and Frank Keehl and Henry Livranee. Interment was in Livonia Cemetery.

No man makes progress until he takes an active part in his own reform.

Newburg

Little Gary Allen of Detroit was a week end guest in the home of Mr. and Mrs. Joseph Sitarz of Plymouth road.

Mr. and Mrs. Glen Curby and children of Alpena spent the week end at the home of Mr. and Mrs. Clyde Smith on Newburg road.

Callers Sunday evening in the home of Mr. and Mrs. Dale Lisicum were Mr. and Mrs. Warren Joy of Farmington, Mr. and Mrs. Herschel N. Manning of Whitmore Lake, Mr. and Mrs. Glen Curby of Alpena and Mr. and Mrs. Clyde Smith of Newburg road.

Mr. and Mrs. Mark Joy of Plymouth road called on Mrs. Mary Pecking and Mr. and Mrs. Carl Renns of Perry Sunday.

Mr. and Mrs. Marlin Simmons of Ann Arbor: Trail visited in the home of Mr. and Mrs. Wilbur Hone in Manchester Sunday.

Mr. and Mrs. Wm. Pangborn of Brighton, who have been visiting Mr. and Mrs. Marlin Simmons for the past week returned to their home Sunday.

\$2.00 Per Year in Advance

New Method to Keep Food Fresh

The two-fold possibility of providing consumers with farm-fresh produce throughout the year and substantially reducing the nation's estimated 25 per cent waste and spoilage of fresh fruits and vegetables is indicated after two years of a college-industry experiment, it was announced recently.

Consumer packaging and scientific refrigeration methods in the retail store were revealed as the key to improving the marketing of fresh produce, according to Frank McGeough, head of A & P Food Stores Columbus unit, whose company is conducting the tests in collaboration with Ohio State University.

Pointing out that sharp reductions in waste and spoilage have been noted in six of the food chain's super markets here where the experiment is being conducted, McGeough stated that tests definitely prove that the produce retains its original freshness and vitamin content one to five days longer.

Organizations cooperating with A & P and the University in the studies that are expected to continue for some time are the Du Pont Company of Wilmington, Del., The Ohio Boxboard company of Rittman, Ohio, Hussman Refrigeration company of St. Louis and the Oliver Machinery company of Grand Rapids, Mich.

In the tests all produce, with the exception of potatoes and a few other staples, are cellophane-wrapped in consumer-size packages and sold in open-type, self-service refrigerator cases. Not only is the freshness and vitamin content retained, McGeough said, but surveys reveal a marked preference for this method of handling produce which has not been picked over repeatedly by other consumers.

Dr. Charles W. Hauck, of the University's department of rural economics, who is working on the experiment with A & P, pointed out that the packaging and refrigeration had lengthened the life span and helped retain the vitamin content of every item studied.

"The experiment has been underway for two years and every one connected with it is satisfied that this is one way of reducing waste and spoilage," Dr. Hauck said. "Since this is the first time such a program has ever been undertaken on such an extensive basis, we have had to feel our way along slowly. However, the most encouraging part of this project is that something concrete is being done to attack the problems of waste and spoilage."

"Eventually we hope the packaging will be done at the farm or processing plant and that substantial benefits will be gained by growers who will not lose through waste and spoilage or on the freight charges for the inedible parts of the produce now thrown away."

He pointed out that as part of the farm packaging tests, packaged strawberries had been shipped to Columbus from Tennessee and peaches from South Carolina.

As examples of the far-reaching effects of the experiment on waste and spoilage McGeough pointed to packaged, refrigerated green beans, 100 per cent salable at the end of five days, but which are a complete loss at the end of that period when unpackaged and unrefrigerated; parsley, the same; spinach, 90 per cent salable at the end of that period, compared with a complete loss at the end of 24 hours. He said peas and carrots retained their full freshness under the new method, but lost 75 per cent of it in five days under present methods; tomatoes and head lettuce were also 100 per cent fresh with packaging and refrigeration but lost 50 per cent of it without this protection. Celery's 100 per cent freshness when packaged compares with a 65 per cent loss when sold in bulk.

In southern Michigan the original forests were predominately hardwoods of many species. North of any imaginary line from Muskegon to Port Huron conifers were mixed with the hardwoods, and still farther north the forests of red and white pine grew.

Gerald Blanton Is Helping Army to Fix Things Up in Manila

Pfc. Gerard A. Blanton, son of Mr. and Mrs. H. Blanton, 3657 1/2 Warren road, is currently serving with the 5250th Signal Technical Intelligence company in Manila as a repairer of enemy equipment, according to information just released by the army.

Entering the army in July 1943, he received training in electrical engineering at Purdue University and the Eastern Signal Corps training schools, Ft. Monmouth, New Jersey.

Embarking for overseas duty in November, 1944, Pvt. Blanton served first at Hollandia, New Guinea. In April, 1945, he was assigned to the 5250th Signal Technical Intelligence which boasts some of the most highly skilled craftsmen in the armed forces. Their combined functions during the war were to capture enemy equipment, analyze each piece for manufacturer's trademark and then forward this information to higher headquarters together with data approximating the area where this material was being manufactured. This meant almost pinpoint bombings against military targets on Japanese home lands. It is interesting to note that since their arrival overseas, the company has used in excess of 45 per cent enemy equipment, captured with the aid of Filipino guerrillas, against the Japanese in direct support to our own forces. The complete story of their successful operations may never be known but their "long distance spy" methods have paid huge dividends.

Pvt. Blanton is privileged to wear the Good Conduct ribbon, Asiatic-Pacific ribbon with two stars and the Philippine Liberation ribbon.

Before entering the army he was a student attending the Edison Institute of Technology.

Kindness in ourselves is the honey that blunts the sting of unkindness in another.—Landor.

Wells Furnished Water for Ford's Willow Run Bomber Plant

A "now it can be told" story of a successful search by state and federal geologists for adequate water supplies near Plymouth for the Willow Run bomber plant and nearby war boom communities is released by the U. S. Geological Survey.

Peak consumption of water supplied by new wells in the area was 6,130,000 gallons daily in 1944; declined to about 5,000,000 gallons a day in the first half of 1945.

The bomber plant used 4,000,000 gallons daily, the city of Ypsilanti used 1,600,000 gallons a day, and the Willow Run war housing community 470,000 gallons daily.

The conservation department's geological survey division worked with the U. S. Geological Survey in locating sites of new wells.

Liichow Helping To Fix Up Okinawa

Although V-J Day brought an end to hostilities, it meant only a breathing spell and a back to work order for M. C. Liichow, machinist's mate, first class, 397 Blunk St., of the 112th U. S. Naval Construction Battalion, now on Okinawa.

Construction of this major advanced base was only partly complete and, although there were cutbacks in the work program, harbor development, hospitals and supply depots had to be finished for occupation forces.

This Seabee outfit, which has been overseas 19 months, had a part in the construction of the gigantic Naval Air Station at Kaneohe Bay, Oahu, T. H., and of the Superfortress base on Tinian.

During the first fifty years of the state geological survey's history the state geologists kept all the survey records and carried on its business in their homes. In 1889 the survey finally obtained an office of its own.

Labor Unrest Caused Upset In Michigan's Prosperity Plans

(By Gene Alleman)

The Michigan merry-go-round continues to whirl at an ever increasingly dizzy pace.

It's the promised post-war world that has become suddenly a period of emotional letdown after years of war excitement and an income letdown after years of push, inflated paychecks financed chiefly by piling blindly more and more billions upon the public's debt.

From the atomic bomb down to matters of lesser import, public confusion reigns supreme. Washington leadership is anything but positive; in fact, woefully wobbly. Labor and management have their respective viewpoints. Class hatreds are being revived now that war is over and the pressure for victory has come abruptly to an end.

Headlines of metropolitan journals vary between a revolting act of murder and new labor strikes. It's the great day of peace!

Employees of Consumers Power company go on a strike, rejecting a compromise offer of a mediator, all because the proposed pay increase fell short two cents of the union's demand.

A mediator proposed settlement of 13 cents an hour; the company agreed; the union held out for 15 cents. Hence, the threat of an industrial tie-up and widespread hardships, like a pistol at your head, just to get two cents more an hour.

Are nerves on edge? Something is obviously wrong somewhere. We'll be charitable and blame it on the jitters.

Michigan has been banking heavily on the automobile industry to lead the way back to prosperity.

Our banks are loaded with money. Deposit boxes are jammed with war bonds. Everyone is anxious to buy this and that as soon as possible. The stage is set for a genuine period of good times for everyone who really wants to work.

Then comes the UAW demand for 52 hours' pay for 40 hours' work, or the equivalent of a 30 per cent increase in the worker's income computed at overtime rates for 48 hours' war work. Now the UAW doesn't expect to get 30 per cent, but that's their bargaining bid.

"If you don't give us 30 per cent, we will call a strike vote," is the ultimatum.

And so strikes are coming.

Well, where does the Michigan farmer enter this picture?

That's what a lot of growers would like to know. They are being advised on reliable authority to expect a decline in the price of their farm products in the post-war world, although temporary new highs may be attained during an interim.

History reminds us that farm commodity prices, following the November 11 armistice in 1918, sagged slightly and then went up to a peak in the early summer of 1920. Then prices crashed.

Post-war inflation then was of short duration. Many farmers paid dearly for speculation in land. The same logic applies today, regardless of hopes for perpetual Washington price controls and whatnot. The government is now committed to maintain farm commodity prices at 85-90 per cent of parity until December 31, 1947.

Farm experts advise that low cost, efficient producers will continue to make money in the post-war world. But they can expect LESS income, not more.

If such is the case, it is not reasonable to predict that farm unrest will be aggravated by a FURTHER unbalancing of the national economy?

We use the word "further" on good authority. At least, we assume that when it comes to facts, three of Michigan's top educators—Dr. Alexander G. Ruthven of the University of Michigan, Dr. John A. Hanna of Michigan State College and Dr. Eugene B. Elliott of the state department of public instruction—know what they are talking about.

Consider then the significance of the following words which ap-

peared in a joint statement signed by these educators for "Rural Michigan," a work book available to Michigan citizens through the generosity of the W. K. Kellogg Foundation of Battle Creek.

Ponder them well:

"For the past decade or two, farmers and small town residents have comprised a fifth of the nation's population. They have received only about one-tenth of the national income. Such 'short-changing' should not be brushed off by statements regarding the values of farmer's home ownership, his household partnership, his life in the out-of-doors, or his relatively independent mode of life.

"In the rural area of Michigan live one and three quarter millions of people. It must be the primary concern of all to make life in these sections richer, more attractive, more satisfying, more secure. That some of these essentials are lacking is manifested by the large number of people—young people especially—who migrate to the city for comforts and privileges denied them on the farm."

And so we come to an interesting question, as labor strike clouds grow black on the Michigan horizon. Here it is:

If Michigan farmers were already getting less than their share of the national income and if they can expect less income in the post-war world, instead of more, how much less would they have if work wages of organized industrial workers are pushed upward? Wages are prices. You can't boost one without boosting the other. Farmers are not going to stand by idly and let the city worker, because of the power of a union and the threat of a strike, get a larger share of the national income.

That much we confidently predict.

Between 1912 and 1919 the Champion mine in Houghton county, discovered through the studies of State Geologist Lucius L. Hubbard, paid in taxes more than twice the entire cost of the geological survey from 1837 to 1922.

See Nature At Its Best—Take a "Color" Tour

Color tours in Michigan during the mellow days of "Injun Summer" are fast becoming extremely popular with the state's motoring public and motorists of adjacent states.

A tour of several days up the center of the state and across the straits into the virgin territory of Michigan's sparsely populated upper peninsula is something unequalled for viewing nature in all her splendor.

But, many of us can not take such an extensive trip. Those who find themselves moored to Plymouth and its environs except for weekends need not feel cheated. Like so many humans they are too close to the forest to see the trees. They are most likely thinking of the sheer beauty that awaits them in more distant areas.

Pause and take a look around you, Plymouthites, you will find natural beauty in abundance within five minutes driving time. For instance drive out Schoolcraft to the limits of Detroit and return. Drive it easy and look about, you'll find some of the most dazzling sights ever conjured up by Jack Frost and Mother Nature.

There you will find colors that are mellow, those that seem to shout at you and bid you halt to drink in their beauty. Other colors though somber to view alone will blend in nicely with the raucous red Oak leaves and the golden glow of the soft Maples.

One spot in particular on Schoolcraft just west and a bit to the rear of the Felician Sisters School is the most rich with color and gets our nomination for the prettiest spot on that highway. No artist ever could hope to duplicate such a scene.

The entire countryside around Plymouth and clear to Northville or Ann Arbor is a riot of color. Leave the north lands to the nomads and the upper peninsula to the natives, just get out and drive around within a 25 mile radius of Plymouth.

Sights that your eyes will encounter couldn't possibly be bettered anywhere else in the state. You have hills, valleys, dense woods, red-rimmed sumac and the russet of the scrub oak.

Any color combination the human mind might think up can be found in this area. It is yours free and for the asking. Don't pity yourself on your inability to take the much publicized tours "up North."

This is one time of the year when the "grass isn't greener in the other feller's yard."

The beauty you long for and believe you can not enjoy because a long trip is not manageable is right in Plymouth's back yard. It just hasn't been developed or brought to the minds of local residents.

It's here so let's stop lamenting about our collective inability to get away for a trip through the "color belts" of Michigan. Plymouth has its own color belt but few have taken notice of it.

Get out this weekend, whether the weather be fair or foul, the beauty will still be there and it's all free. Of course the sunshine brings out the beauty but rain doesn't stifle it enough to spoil its loveliness.

Anything created by the Almighty, like the mellow autumn beauty now rampant in this area, cannot and is not dimmed by the elements.

God gave us eyes to see with but oft times we are too busy looking for something in the distance to notice that that something is right under our nose. Such is the case with Michigan's autumnal beauty and Plymouth we believe.

"Bill" Swadling Helps Get 'Em Out

During the war, it was the foot-slogging infantryman who played a big but glamorous part as the backbone of the army, but now, with demobilization in full swing, it's the clerk at the separation center who does the behind-the-scenes job which will mean speedy success for the army's last and biggest task—discharging its soldiers back to civilian life.

At Fort Sheridan Separation Center, which was one of the first five established in the country, the number of men discharged each day depends largely on the number of trained and highly specialized clerks who handle the tremendous volume of records which must be completed before a man gets his discharge.

The separation center clerk has to possess skills and receive training which mean as much, or even more, to the success of his job as the ability to handle a rifle meant to the infantryman.

Pfc. William L. Swadling, whose wife, Shirley, lives at 262 Blanche St., Plymouth, is a member of the staff of the incoming records section, where the discharge process is initiated. Pfc. Swadling, who took night classes at the Lawrence Institute of Technology in engineering, was inducted in March, 1944; he received infantry basic training at Camp Robinson, Ark., and served overseas with the 35th Division, 134 Infantry Regiment.

Working on two 8-hour shifts, Fort Sheridan's Separation Center clerks process separatees' records while the men to be discharged are turning in their clothing, receiving physical exams, getting expert advice from army counselors, and drawing their final pay. It's a race against time, because the records must be complete before a man receives his discharge certificate.

The clerks verify the authority for discharge, and check to make sure the soldier's baggage hasn't been lost. They forward forms to the Veterans' Administration. They see if his records show whether he needs medical or dental care. They make sure he receives all the money he has coming to him, and even provide a certificate which will enable the veteran to purchase two pairs of civilian shoes. These are just a few of the multitude of records which must be completed.

The man being discharged never sees most of the clerks who do the bulk of the major part in the success of the army's demobilization program.

Kiwanis Progresses In This District Under Direction of Governor Allison

Plymouth Executive of Club District Will Soon Finish Term

Ernest J. Allison, Plymouth's genial Chevrolet dealer and a charter member of the city's 20-year-old Kiwanis club, is completing his term as lieutenant governor of Michigan Kiwanis District No. 6. He will relinquish the duties of that office on next December 31.

Mr. Allison, a sincere Kiwanian and business executive, is winding up his tenure of office with an enviable record. Despite tire and gasoline shortages he has managed the past year to expertly discharge the duties incumbent upon him.

He has taken time from his own business to serve the needs of Kiwanis and more especially the desires of the seven clubs in his district.

Weather nor illness never deterred him from aiding one of these clubs in the presentation of their programs, serving as a pinch-speaker or master of ceremonies. In addition he has visited each club "officially" and several times unofficially.

Even though his personal business required his presence in Plymouth, Mr. Allison somehow found time to be present at the various district, divisional or state Kiwanis meetings to which he was summoned as lieutenant governor of District No. 6.

As he looks back on a year that was made hectic by the war and its attendant upheavals, he is apt to say, "I'm glad it's almost over."

But quickly he will remark, "But don't get me wrong, in spite of all the war-wrought trouble I had, I consider it a rich experience and would not want to miss it."

Supervising the activities of clubs in Ann Arbor, Chelsea, Dexter, Plymouth, South Lyons, Wayne and Ypsilanti is not an easy task. Mr. Allison found that out long ago.

With the honor the position brings to an individual go certain responsibilities which are not always easy to discharge. Mr. Allison met these responsibilities and with a firm hand saw each through to a successful completion.

He addressed all seven clubs on various occasions. Of course Kiwanism was always his theme. Not once did he ever repeat a talk. He felt it would not be fair to give the same talk more than once.

Thus he wrote himself a new address each time he appeared before a different club. Such painstaking effort clearly demonstrates his sincerity and his capacity for work.

Shortly after he took office, Mr. Allison was called upon in his official capacity to conduct installation ceremonies for the new officers of the clubs at Chelsea and Wayne. Continuing in this vein he assisted in similar ceremonies for his home club in Plymouth.

Then came a series of state meetings. He was bound to attend as his office as lieutenant governor of this district also made him an automatic trustee of the Michigan District.

He put in 20 solid hours of business at these meetings exclusive of his traveling time or time spent at banquets preceding such meetings. They were held in Lansing, Grand Rapids and Detroit.

Mr. Allison proudly saw his district gain in membership the past year and heard the state secretary acclaim his district as leading Michigan in attendance per centage. The district maintained an average of 90 when the state average was only 84 plus.

Mr. Allison modestly turns aside all compliments on his year as lieutenant governor. He will not countenance individual praise or acclaim. "Don't put me on a pedestal," he says, "for in Kiwanis we

NOTICE

City of Plymouth

At the regular meeting of the City Commission held October 15, 1945, the following motion was offered by Commissioner Corbett and supported by Commissioner Taylor.

"That a public hearing be called on Monday, November 19, 1945 at 7:30 p.m. for the purpose of determining whether or not to vacate Blanche Street between the Pere Marquette Railroad and Amelia Street.

Motion carried.

The City Commission will hear any objections or comments pertaining to this matter on Monday, November 19, 1945 at 7:30 p.m.

C. H. Elliott,
City Clerk

Racing Records at Northville

Record-breaking crowds continue to turn out for the Fall race meeting here at Northville Downs. The meeting which is in its fourth week is setting up all kinds of new records, and there is no question now but that it is the greatest harness horse race meeting ever given in Michigan.

A crowd which came within just 200 persons of equalling the all-time attendance record for Northville, set last summer when the \$8,000 Michigan Pacing Derby was raced, turned out recently to witness the first racing of the free-for-all racing stakes.

The first racing of the pacing stake had the mammoth crowd on their feet throughout the racing of both dashes.

Northville Downs fans got a look at a real trotting star when the southern trainer Carl Hatchell paraded Kaolafor the first time. Starting in the first of the handicap features that will be given during the balance of the meeting, the mare who just ten days ago equaled the world's half-mile track race record for mares, 2:03 flat, started from the top penalty of 170 feet and won handily.

Stables continue to arrive at the track, and stabling facilities have been taxed to the very limit, with the overflow having to be quartered away from the oval. Upwards of 400 horses are here for the meeting, which runs into November, and the great racing that the fans are seeing each night is a result of this meeting of the top stables from all sections of the country. A total of 28 different states and Canada are represented in the list of stables now at the track, a record for all time at a Michigan harness horse race meeting.

That the fans are being treated to a great brand of racing is seen in the number of photo finishes that the judges have to call for each night to help separate the horses at the finish. On one recent night out of the eight dashes, the photo camera had to be called upon in no less than six.

Post time remains the usual 8:30 each night, with racing six nights each week, Sunday being the one night on which there is no racing at the track.

Several new track records were broken during the past week's racing, and before the meeting comes to an end it looks like every track record, both for the trotters and pacers, will have been lowered.

Ypsilanti Hospital Herd One of the Best

The 50-cow herd of registered Holstein-Friesians owned by Ypsilanti State Hospital, has recently completed a year of production testing with the average butterfat production per cow being nearly 3 times as much as that of the nation's average dairy cow, says The Holstein-Friesian Association of America.

An average of 520 pounds of butterfat and 15,225 pounds of milk has been officially recorded. Milking was done three times daily.

The highest producer in the herd was Ypsi Veeman Colantha, a 6-year-old, which produced 693 pounds of butterfat and 21,936 pounds of milk.

Testing was supervised by Michigan State College of Agriculture, in cooperation with The Holstein-Friesian Association of America.

We have to settle with our conscience after the crowd has gone home.

ROCKS LOSE TO REDFORD UNION 19-0

Plymouth lost to Redford Union, a superior team, by the score of 19-0 at a game played on the Redford Union field on Friday, October 19.

Playing a more enthusiastic and aggressive game than previously the Rocks were still unable to make any touchdowns. Jacobs broke away for a run to a touchdown, but was stopped by one man. Most of Plymouth's losses are caused by failure to block and tackle.

Boys outstanding in the line were, Strautz, Woods, and Mitchell for their good defense, also Jacobs and Wagonschultz in the backfield. It was evident that Bob Newsted played his usual fine game at guard.

Contributing to Plymouth's loss was the very muddy and slippery field. Also, they played against a very inspired Redford Union team with two excellent running backs.

The starting line-up for Plymouth was as follows: Kurtz, Capt., L.E.; Sommermann, RE; Bentley, L.T.; Kachenko, RT; Brink, FB; Allen, LH; Daggett, QB; Hitt, RH; Woods, C; Mitchell, LG; Dudley, RG.

INQUIRING REPORTER

What improvements would you like in the Pilgrim Prints? Mary Jane Davis: There are not enough social affairs reported in the Pilgrim Prints.

Fred Weinert: Let's have a little more gossip and fewer editorials in the Pilgrim Prints.

Joan Laitur: More gossip about all students instead of the selected few that are in every week.

Bill Strautz: More about sports. Ann Watkins: Let us know who you are writing about. Too many initials leave us in a daze. Some more gossip columns.

Ed note: Please remember there is a suggestion box in the library where anyone may place any news that he wants.

RING GROUP FORMED BY G.R.

Thirteen Girl Reserves met on October 9, 1945 to form a ring group, an organization which has been inactive here for two years. The purposes of the ring group are to render service and to help girls strive for the highest ideals of girlhood.

A girl is eligible to wear the Girl Reserve ring when she has participated in one service project, has attended three ring meetings, and has otherwise proved herself worthy of the honor. The following girls are members of the ring group: Pat Woods, M. Fiedahl, L. Pierce, B. Schumacker, J. Tuck, E. Wood, P. Isbell, E. Houk, B. Daniel, C. Rolan, B. Ross, I. Daniels, and Sally Gustafson. Pat Woods was elected chairman of the group. Mary Lou Fiedahl and Pat Isbell are co-secretaries.

STUDENTS ARE GUESTS OF DETROIT SYMPHONY

The following students will be guests of the Detroit Symphony Orchestra at its opening season of school concerts Saturday, October 27: Bob Bartlett, Bob Chute, Don Coon, Sally Gustafson, Shirley Hersh, Virginia Ousterhout, Patsy Packard, Allyn Williams, Doris Waldecker, Jeanean Stillwagon, Leland Weathers and Patsy Lidgard. The Detroit Symphony Concerts are under the direction of Karl Kruger and are held in the Masonic Temple auditorium in Detroit.

BUY WAR BONDS

A NOON HOUR TREAT; SCHOOL LUNCH ROOM

Food. What would the human race, or anything for that matter, do without food? Yes, every living thing must have food, but principally we are interested in our own stomachs. Thus when the school clocks reach their hands near 11:30 a.m. each school day, all of the students are anxious to get FOOD.

At last the time is here, the bell rings, the pupils speed out of class and throw the teacher into the nearest wastebasket, and dash into the hall toward their one and only goal, the lunchroom.

Finally arrived and situated in line one begins to read or smell the menu and after this is accomplished begins a gab fest or heated argument with the person next to him. This continues for some time when finally it dawns on the individual that he has not moved one inch or if he has it has been toward the rear of the line. What is the reason, he wonders? After a careful examination the conclusion is reached that the teachers are all being treated with care, before the hard working students.

Gradually the line of teachers dwindles down and one is ready to be served, but alas some clever person sees his friend in front of you and receives "cuts." Again arriving at the food window one opens his mouth and says, "I would like,"—when a stragling teacher arrives upon the scene and steps in front of the window blocking one's view. All of a sudden the cook yells at you and asks, "What in all get out are you waiting for?" "That is what I would like to know," exclaims the individual. Then he begins to place his order once more, "I would like some Spanish rice, please." "I am sorry," exclaims the cook, "but it is all gone." This continues for enough time so that when one reaches the cashier he has only a glass of water and a cold potato.

After eating this nourishing lunch, which contains all of the necessary food builders as described on the posters covering the walls and ceiling of the lunch room, one takes his "dish" to the dishwasher and then proceeds to the ice cream window, but here has formed a huge line of students that go home for lunch but must have a little ice cream when they come back to school.

Deciding it is hopeless one leaves and goes to his classroom with the determination that tomorrow he will put in his stomach what every living thing must have for existence, "FOOD."

NEW CHEERLEADERS CHOSEN THURSDAY

Trying to be a cheerleader was the aim of thirty students last Thursday after school when a meeting of would-be cheerleaders was held. Don Coon, Nancy Gerst, Fred Weinert, and Lois Thomas were chosen by Mr. R. Penhale, principal of Senior High and Mr. A. Alford, principal of Junior High and last year's cheerleaders to lead the school this year in yells and cheers.

G. R.'S GIVE COUNCIL TEA

On October 17, the Girl Reserves entertained their council members, Mrs. Nelson and Mrs. Penhale, at a tea held in the home economics room.

Nancy Groth was general chairman. The program consisted of several songs by the Double Quartette and piano selections by Rosemary Guthrie. Yellow candles in amber holders and an unusual arrangement of fruit on autumn leaves decorated the tea table.

SPORT SHORTS

The Athletic Department, under the direction of Coach Wayne Falan, has instituted a new plan this year by which a Freshman team, and a Varsity team play the corresponding teams from each school in the league. The Freshmen play on Monday afternoons; the Second teams play on Thursday afternoons, and the Varsity on Friday.

Varsity club will sponsor a special pep assembly on January 18, at which time football and cross-country awards will be given out.

ed a hayride in the early evening and a barn dance later at Ella Ahearne's home. Ella Ahearne, Vince Simonetti, Curly Newman, Bob Newsted, Lorraine French, LaVern Neilson, Lenora Westfields, Jim Walkers, Ruth Prengle, Ken Pankow, Mary Walborn, Bill Curtner, Dorothy Young, Ted Campbell, Norma Stevenson, Ed Sommermann, Joyce Farwell, Ray Lawrence, Libby Neal and Harry Curtner.

THROUGH THE KEYHOLE.

George Schomberger, Bob Brink, Irwin Brink, Dan Wieseley and Bob Newsted went hunting on the opening day of the season. Schomberger and Newsted both got birds, Wieseley got a sparrow—the rest got tired. Danny Hines and Fred Fisher seem to have a novel way to get into the games—Nice school spirit, boys.

Have you seen Ralph D. and Mary R. lately? This might be a new combination. Betty D. is singing "No Can Do" and David L. is singing "Please Don't Say No." We wonder!

Just call Marion Gould the Vitamin Kid. Dick Tarnutzer says if he had a hotel room he would not lock the door.

What did Joe and Barbara do after they dropped Myrlene off—oh, Joe?

Emm's skirt, which was lost in assembly last week, may be found in Mr. Latture's room. He has been enjoying himself modeling it in front of his classes.

My, how these girls fall for sailors—and sprain their ankles doing it! Eh, Margaret W.? Say Ann D. are you going with Don H., Saturday?

Knickerbocker to Speck on Town Hall

H. R. Knickerbocker, one of the world's most colorful reporters will speak at Detroit Town Hall in the Fisher Theatre, Wednesday morning, Oct. 31st at 11 o'clock.

In his lecture, "Ringside of History," the ace correspondent will analyze today's headlines, and discuss the latest developments in the international situation.

For seventeen years, Knickerbocker covered the news both home and abroad. He was in Europe, Asia, Africa, Australia and South America, and on assignment during the fiercest fighting on all fronts. Since his return from Europe after winning the Pulitzer Prize for distinguished reporting, the noted newsgetter has kept closely in touch with current post-war problems.

H. R. Knickerbocker began his roving career as the son of a Methodist preacher. He came to New York at twenty, and from there to Munich where he officially began his life's work as a foreign correspondent. From then on the red-headed scribe has been courting danger and thrills in every war-stricken country in Europe.

Single tickets for the Knickerbocker lecture are available at Grinnell's, Ra. 1124. Town Hall membership information may be had by calling Cherry 5617.

HI-Y NOTES

"What about Universal Military Training" was the topic for discussion at the first program meeting of the Hi-Y held on Thursday, October 18. Dick Olin led the discussion which showed the consensus of opinion to be against the compulsory training.

SENIOR SKETCHES

Band and basketball are the activities which Harry Curtner, son of Harry and Nancy Curtner, has participated in. Harry, who is completing a general course, resides at 39035 Plymouth road. "Dates" are his hobby while teachers who do not like him are his pet peeve. He has traveled in New York and some of the Southern states. He plans to join the Navy.

Virginia Lucille Cayton, daughter of Mr. and Mrs. Preston Cayton is completing a general course. Lucille, who formerly attended Carrellton high school, likes to collect China dogs. Anklets with high heels and girls who smoke are her pet peeves. Lucille, who is working on the Prom committee, lives at 1287 South Main. The following students attend:

Postwar Agriculture Demands

THE RIGHT TRACTOR FOR THE PARTICULAR JOB

THE proverbial Jack-of-all-trades was master of none. The modern world of science and technology passed him by. The same principle applies to farm tractors. The tractor that does a wide variety of jobs unsatisfactorily can't possibly produce the greatest results at the least cost in any job.

But that's what the farmer—particularly the small operator—has got to do to meet postwar competition: he's got to produce the most food possible with the least effort and, consequently, at the lowest cost.

The farmer with 10 acres in truck crops needs one kind of tractor. The farmer with 100 acres in wheat alone needs another kind—or, as is usually the case, two or more different tractors. The tractor which does a good job on the Great Plains may be useless in the rice territory. And so it goes.

Conditions of climate, the lay of the land, and the character of soils in the different parts of this vast country, together with wide variations in the nature of crops and the size of operations, combine to produce wide differences in the requirements for tractors. Harvester's policy is to meet all these requirements.

That is why Harvester's postwar line includes a great variety of Farmalls and other specialized tractors and attachments rather than a single tractor with a single system of tools. Every tractor in the line was developed after scientific research and testing under actual operating conditions showed the specifications needed for efficiency and economy.

Every Harvester-built tractor is the right machine for its particular job.

"We have six rooms, bath and kitchen... but that kitchen is a Shangri-la"

"Six" rooms, bath and kitchen are not the biggest home in the world, but ours is really one of the most livable homes I have ever seen. Take, for instance, our all-electric kitchen—it really is a Shangri-la. No longer does Mary dread preparing meals and cleaning up afterwards. The electric refrigerator permits purchasing in larger, more economical quantities. The electric range, with timer and temperature control, allows Mary to prepare the meals with a minimum of effort... in fact, meals can be started while she is downtown shopping. The garbage disposal unit and dishwasher make the clean-up job far easier, and the conveniences all add up to more time to enjoy our home. Yes, that kitchen is a Shangri-la."

Electric kitchen equipment is not generally available for sale now. Some is being manufactured and distributed. It will be to your advantage to have your name on your electrical dealer's list, so that you will be able to get it at the earliest possible time.

Weddings

Shirley Osmun Becomes Bride of Roderick Heiden of Brightmoor

Announcement has been made of the marriage of Shirley Osmun, daughter of Mr. and Mrs. S. H. Osmun of Newburg road to Roderick Heiden, who was recently given an honorable discharge from the navy, the marriage taking place at Covington, Kentucky. The bride, a former Plymouth high school girl, has been in Norfolk, Virginia, with her husband since their marriage. Upon his discharge they have returned to this locality and are now living at the corner of Napier and Six Mile road where the groom is starting farm operations. He was a resident of Brightmoor before he enlisted in the navy three years ago.

Maxine Polson Becomes Bride of Sergeant Stephen Hathaway

The following report of the marriage of Maxine Polson to S. Sgt. Stephen C. Hathaway, taken from a recent issue of the Marcus News at Marcus, Iowa, will be of interest to the many Plymouth friends of the young couple. At a very impressive ceremony Sunday afternoon, October 7, Maxine Polson, daughter of Mr. and Mrs. Alfred Polson and S. Sgt.

Stephen C. Hathaway, son of Rev. and Mrs. S. Conger Hathaway, of Brooklyn, Michigan, were united in marriage at the Methodist church at four o'clock. Rev. S. Conger Hathaway, father of the groom, officiated at the double ring ceremony.

The bride, given in marriage by her father, was lovely in a white floor length dress with satin bodice, net insert, and net skirt. She wore a finger tip veil. Her bouquet was of white roses.

Jean Peterson, of Sioux City, maid of honor, wore orchid net over pale pink satin with matching net gloves. She carried an orchid colonial bouquet. The bridesmaid, Betty Godsey, of Sioux City, wore lime green net over pale yellow taffeta with matching gloves of net. She carried a colonial bouquet of yellow.

The groom wore his army uniform. Langdon Polson, best man, brother of the bride, and Marvin Polson, the groom's man, cousin of the bride, wore brown business suits.

Mrs. Annabel Camerigg of Correctionville, attired in a white dress, presided at the piano and played nuptial music preceding and during the ceremony. Vera Grauer sang "Always" and "Oh Perfect Love." She wore a two-piece dress of gold.

A reception was held in the church parlors immediately following the ceremony. A three tiered cake was frosted with decorations of the bride's chosen colors topped with a miniature bride and groom. Kitchen hostesses were Mrs. Ralph McConnell, Mrs. Lovell Simons and Mrs. George Scott.

Out of town guests were Rev. and Mrs. S. Conger Hathaway of Brooklyn, Mich.; Mr. and Mrs. August Peterson and family of Correctionville; Mr. and Mrs. O. C. Earhart of Pipestone, Minnesota; Mrs. Elizabeth Patterson, Miss Otilla Ott, Arthur Anderson, Miss Ruth Anderson, Miss Shirley Klingbeil, Miss Esther Vaupel, Miss Celesta Allen and Miss Phyllis Thompson, all of Sioux City; Mr. and Mrs. Amundson and daughters of Remsen; Mr. and Mrs. Ray Olson and daughter Laverne of Paulina; and Miss Mary

Haught of Aurelia. Mrs. Hathaway chose an aqua wool dress with brown accessories for her wedding trip. The couple took a plane for Omaha, Nebraska, and from there will travel by train to Deming, New Mexico, where the groom is employed as assistant to the Judge Advocate at the army air base located in that city. After October 20, when his furlough ends, they will be at home in Apt. 581, Florida Vista Project, Deming, New Mexico.

Fully grown Michigan bald eagles may have a wing span of six to eight feet, measure two and one-half to three feet from beak to tail, and may weigh from seven to 11 pounds. Females are larger than males and some of the largest birds are young birds scarcely a year old.

Buys Grocery Store in Quincy

Fred Vanlandingham, former operator of a self-serve grocery in Plymouth, has purchased Tim's Food Store at Quincy, Mich. He assumed operation of that business this week.

Tim's Food Store, is the leading grocery in Quincy and the exclusive retailer of all Monarch

foods. Mr. Vanlandingham purchased the business from L. C. Wilcox, a business leader, civic official and school board member in Quincy for many years. When possible the Vanlandingham family will move to Quincy from their Plymouth residence at 543 Adams street. Their 14-year-old son will transfer to Quincy high school.

Quincy is a community of 1,750 in Branch county in a fertile farm land belt in the extreme part of Southern Michigan. It is just 12

miles from the Indiana line and 20 miles from Ohio. There is a large cement plant, flour mill and many small war-inspired plants there. It is on the New York Central railroad and highway US-112 between Jonesville and Bronson.

Sgt. John E. Johnson Now Out of the Army
Sgt. John E. Johnson Jr., of Russell St., has been honorably discharged from the Army at the

Separation Center at Indiantown Gap Military Reservation in Pennsylvania after more than three years of service. He served overseas with the 348th Engineers Battalion and has been awarded the Good Conduct Medal, the ETO with five battle stars, the Purple Heart, a Presidential Citation, Good merit, Bronze Arrow Head and Expert Rifleman's medal.

Scout Activities of This District

(By Harold H. Schryer)

Troop P4 turned out to be the winner of the Plymouth Camp-out and rally held in the Riverside Park on October 13-14. This Troop came up with some very nice Scouting to take the head of the list, for which all of the participating members will be the guests of the Plymouth Rotarians at an Olympia hockey game in the near future. Congratulations, Scouts! Keep it up!

The final results gave the following Patrols of the various troops the ensuing standings as listed: Stag, P. 4; Pine Tree, P. 4; Flaming Arrow, P. 3; Eagle, P. 2; Bob White, P. 3; Pine Tree, P. 2; Beaver, P. 1; Wolf, P. 2. All four of the local Troops were on the job and we feel that everyone gave their best toward co-operating in a Scout-like demonstration of practical field-work.

The second of a series of classes for Scout leaders was held on Friday last and a good crowd of interested men were on hand to view the presentation of the Scouting picture "The Patrol Method" which was brought to Plymouth by the Detroit Council Office under the direction of Mr. G. Earl Silvers. This method of visual education will prove to be a very definite boon to all of us as it gives the opportunity to see the real values of approved Scouting in direct application to our many problems.

The pointed questions and direct answers which became a part of the following discussion period proved that interests were keen and the pictorial presentation a fine stimulus to provocative thought.

The third meeting will be held at the Grade School Gym Friday, October 26, (today) at 8:00 p.m. The topic of this class will be Patrol and Troop Programing. We hope to see more of our local men on hand for this event as they are not all represented.

Despite the fact that the war is over as far as the actual fighting is concerned, there are still some things to finish here on the home front before we can safely say that that task is done.

The salvage of grease and paper

is still an important factor in our re-conversion program. While the Scouts have nothing to do with the former item, the latter is still one of our local projects and must be activated if we are to fully accomplish the ends to which we are pledged.

Will you please co-operate and have your contribution ready for our next paper pick-up which is scheduled for Saturday, October 27? We hope that the response will hold its high level of wartime strength as the mills are in desperate need of this paper.

There seems to be a general misconception as to the adult quotient in our Scouting program. Our Scouts will welcome any and all visits which you might make to their meetings and events.

If you are parents of these Scouts we know that you can see the need for evincing your interest in their program as it would add much to their own interests and tend to give them more incentive to accomplish greater effectiveness in practical Scouting.

What say you? How about dropping in on us now and then? After all, it is your local lads who need your mental and moral support and someday you'll need theirs.

Leon Bedwell Given Honorable Discharge

First Sgt. Leon M. Bedwell, 105 North Union was honorably discharged at the Percy Jones hospital Center Separation Point in Battle Creek, October 17, according to Brig. Gen. Joseph E. Bastion, center commander. He entered the army Aug. 29, 1941 and served with the infantry in the south Pacific.

Sgt. Bedwell, has been decorated with the American Defense ribbon; Combat Infantry badge; Bronze Star medal; Philippine Liberation ribbon with one Bronze campaign star; Good Conduct ribbon; Asiatic-Pacific theatre ribbon with three Bronze campaign stars and one Arrowhead.

The Michigan wild fur industry harvests almost \$2,000,000 worth of raw pelts annually and requires the services of more than 35,000 trappers, more than 500 fur traders, and about 5,000 persons working in 269 fur garment manufacturing companies.

BUSES DIRECT FROM 7 MILE AND GRAND RIVER

From Bustles...

TO BOBBED HAIR...

To Bobby Sox

Big things have happened in women's fashions since 1904... and since 1918. Yes, and the big changes have taken place in the telephone system since bustles were "the rage."

• In 1904, Michigan Bell had only 65,000 telephones. Total cost of buildings, equipment, wires, telephones, etc., was only 10 million investment dollars.

• By 1918 there were 260,000 telephones; the cost had risen to 38 million dollars.

• Beginning in 1945 there were 1,122,000 Michigan Bell telephones, and the cost stood at 242 million investment dollars.

You see, to add more telephones, and continually improve service, we must invest more money for central offices and switchboards, more for wire and cable — more for everything it takes to provide service.

Right now, 125,000 families want service that we can't supply. We already have started work on a 5-year \$120,000,000 program to enable us to fill waiting orders... to care for future growth... to resume extension of rural service... to put into use new technical improvements... and to give you the service you want in the future.

Rates charged for telephone service do not supply sufficient money for expansion. Such investment dollars must come from the savings of thrifty Americans willing to buy Bell System securities. And — in order to attract

their money — earnings must be sufficient to assure reasonable dividends, now and in the future. If not, those folks will place their money elsewhere.

The future quality of your telephone service depends on telephone rates sufficient to produce earnings attractive to investors. Too long a continuation of inadequate earnings would weaken our ability to meet expected post-war telephone needs.

Michigan Bell customers want good service. The telephone bill is so small an item in their regular expenditures that customers want really good service even though it might cost a trifle more than they would need to pay for inferior service.

CLOVERDALE FARMS DAIRY

Babson Says - -
Babson Park, Mass., Oct. 26.—When war plants were going full-blast, I suggested to readers of this column that they buy the stocks of merchandising companies because people then had MONEY to spend. Now, when these war plants are shutting down, I suggest the serious consideration of the stocks of leisure companies because people now have TIME to spend.
Leisure Stocks
There are several examples of leisure stocks—namely, stocks of companies which have their peak business when people have the most spare time—that is working forty hours per week instead of fifty-four hours. Ordinarily, movie stocks would be a good example; but they have already gone up so much in price that they may not now be attractive. A true leisure stock is one which was obliged to curtail and cut its dividend during wartime.
Perhaps the simplest examples of companies profiting most when wage workers have reasonable leisure are those making bowling alleys, billiard tables and the like. This should be especially true if the company has funds so as to be able to sell on installments as soon as the restrictions are off installment selling. Please, however, do not ask me to name any such company. Go to your broker and ask him to tell you what concerns are the leaders in the field. Incidentally, such stocks are the best hedge against the unwarranted activities of labor leaders.
Opportunities for Veterans
I hesitate to advise any returning veteran to enter business for himself at this time. By all means make every effort to buy out some small existing business rather than to start a new business. However, if a reader is really determined to enter business for himself he had far better stick to the "service" line of companies. They are more adapted to being run by their owners and—as a rule—are not dominated by labor leaders.
A company which installs bowling allies and similar apparatus is usually prepared to enter the installment business. Certainly, installment stocks, which have been held back throughout the war, should be better purchases than the stocks of most concerns. Hence, a veteran may open a new bowling alley with the payment of a very little money down because these "sports" concerns are prepared to "install on installment payments." Another thought: Such sports as bowling, pool, etc., which up to now have been patronized 90 percent by men, will soon also become a women's sport as well.
Recreation Becoming an Industry
A generation or so ago, sports were carried on in an informal way—largely by colleges, Y.M.C.A.'s and clubs of various kinds. This was because people worked long hours and only the young, the old and the unemployed indulged in baseball, bowling, pool, etc. But today the situation is rapidly changing. I even forecast that football teams will be incorporated and stock sold to the public.
The commercialization of sports has both advantages and disadvantages. If it is controlled by men of good character and kept clean, it will work out for the good of all. Certainly, men and women, after finishing their day's work, would be better off by bowling than by drinking—and the two cannot successfully be combined. Another thing which should be remembered by all readers of this column: Although it is the personal affair of an individual and his employer what he or she does during his working hours, it is of paramount importance to the entire community what he or she does during the leisure hours.

Remember Filling Stations
Yes, it is a sure bet that wage workers will have more leisure time during the next few years than they have had any year since 1939. May it not be wise to capitalize this coming change? Readers remember how I urged the buying of closed filling stations two years ago. Well, they are now selling for double and treble their wartime prices. Look forward—not backward!
Canadian Ducks Under U. S. Law
Plymouth duck hunters who go to Canada to hunt, should know that federal regulations and not Michigan laws, control the amount of game that can be brought across the United States-Canadian boundary.
Federal regulations provide that not more than the following numbers of migratory birds may be imported into Michigan from Canada by any one person in any one calendar week:
Twenty ducks, including not more than one wood duck; eight woodcock; eight blue and snow geese except Ross' geese (singly or in the aggregate), plus four of some other kind or kinds, including brant; 25 coot; 25 sora; 15 rails and gallinules except sora and coot (in the aggregate of all kinds); 20 doves (10 each of mourning or turtle, and white-winged doves); 10 band-tailed pigeons. There is no limit on American and red-breasted mergansers.
The bald eagle's nest measures five or six feet wide and deep and may weigh a ton or more. In Michigan the nests are usually situated in a sturdy crotch at the top of the largest tree available, frequently 60 to 80 feet from the ground.

6 Obtain Permits To Build Garages
Building permits for garages in the amount of \$3,080 have been issued six Plymouth residents by the City last month.
City Manager Clarence Elliott said several other permits had been issued local residents for additions to their homes or for repairs.
In most cases the permits for the garages would have been obtained long ago but the delay experienced in getting the necessary materials also delayed the requests for permits.
The average building cost of the garages will be \$500 according to the records of the City's building inspector.
However, the most elaborate structure will be a frame garage which is estimated to cost \$750. Another of cinder block construction with an asphalt shingle roof will cost \$500. One of brick veneer is estimated at \$500 as is one of frame construction.
Two other frame garages are listed at \$480 and \$350 respectively.
Residents to whom the permits were issued include Mrs. Clifford Wood, Charles Vickstrom, M. G. Blunk and Mrs. William Hobson.

25 Years Ago
News items of a quarter of a century ago taken from the files of The Plymouth Mail.
The monthly meeting of the Missionary Society of the Methodist church, will be held at the home of Mrs. William Tait on Harvey street, this (Friday) afternoon.
A meeting of citizens interested in the organization of a co-operative store in Plymouth, was held at the village hall, Wednesday evening. It was decided to organize what is to be known as the Plymouth Co-operative Co., with capital stock of \$10,000.
The enrollment at the Ypsilanti Normal college is 1057, which is much larger than for several years past.
Born to Mr. and Mrs. William Bowers of Ann Arbor, a seven and one-half pound son, October 4th at St. Joseph's Sanitarium.
Mr. and Mrs. A. D. Gallery of Caro, and their son, James Gallery of Ann Arbor, were callers of the pastor Sunday. They drove over from Northville to attend the Automobile service at the Presbyterian church. Mr. Gallery is the editor of the Tuscola County Advertiser.
If it isn't a REO — It isn't a Speedwagon.
George Hearn and daughter Helen of Wayne, sailed on the Aquitania from New York, Tuesday, to visit Mr. Hearn's mother in England, whom he has not seen for forty years. They will return next month.
Mr. and Mrs. A. E. Blunk and daughter Serepha, and Mr. and Mrs. M. G. Blunk and son Melvin, motored to Lansing last Sunday.
Alton Richwine left Sunday for Wilmington, Delaware, and Philadelphia, on a business trip for the Robert L. Turner Co., of Detroit, public accountants, with whom he has a splendid position.
The Corbett Electric Co. has secured the electric wiring contract for the new Redford school.
The opening dancing party of the season at the Penniman-Allen auditorium, last Friday evening was largely attended, and a splendid success.
Senator Warren G. Harding continues to lead Governor Cox in the straw vote being taken by more than 8,000 Rexall drug stores over the United States. A ballot box is located at the Beyer Pharmacy, the Rexall store in Plymouth.
The Plymouth-Wayne game at the High School field on Tuesday was the hardest fought game of the season, and one of the hardest in many years. The final score, 20-7, in Wayne's favor, represents the difference in weight between the teams, but not the difference in their playing.
Born to Mr. and Mrs. James Love of Perrinville, Wednesday, October 16th, a two-pound baby boy. Mother and babe are doing fine.
The village of Plymouth has a new Ford truck. It will be mighty convenient for Village Manager Strong in getting about to supervise the work being done in various parts of the village.
The young people of the village are asked to remember that on Halloween anything but innocent amusement is liable to bring them into trouble.

Allison Sees New Chevrolet
Ernest J. Allison, Chevrolet dealer at Plymouth returned from Detroit last Tuesday where he attended a preview of the new 1946 Chevrolet at the company's zone headquarters.
He was reluctant to discuss the mechanical and style features of the new car, but by his eager attitude it was apparent that he expected the formal announcement and public showing of the car to be at an early date.
Mr. Allison said he and other dealers in the area were confident that the 1946 Chevrolet will maintain the record of top volume sales which Chevrolet reached in 10 of the last 11 prewar years of automobile production, to meet the unprecedented pent-up demand for new cars.
Following the same policy as in former years, the new Chevrolet will be displayed simultaneously in dealers' showrooms throughout the country, Mr. Allison said.
Local newspaper announcements will be made, telling when prospective customers may see the new car for the first time. These announcements are expected to be good news to motorists and to dealers alike.
Throughout the war period, car owners have been forced to get along with their old automobiles. At the same time dealers have expended every effort to service these cars, and to keep them rolling for the duration.
Mr. Allison stressed car care, with the warning that motorists should not expect the 1946 Chevrolet to be available in great quantities immediately. The supply to dealers will increase as production in the Chevrolet plants permits.
