Plymouth, Michigan, Friday, January 4, 1946

\$2.00 Per Year in Advance

What I Think and Have a Right to Say

Elton R. Eaton

LET'S MAKE IT THE BEST

The year 1946 is with us. We have opened our books to new accounts, new prospects, new hope.

While our nation seemingly is in a state of confusion there is no reason why we here in Plymouth should not keep forging ahead during this as well as the "war" years that lie ahead.

True, we have our problems, but they are minor ones—problems that come with "growing pains."

Our schools need expansion. Our city government in the last two or three years has found its rightful place in a good community. Thanks to Mayor Shour and those on the commission who are working with him, real progress is being made in a civic way. Streets are being improved, water and sewer main extended, business and home building encouraged.

Our merchants have more than kept step with the times. Our retail stores compare favorably with stores in cities three and four times as large as Plymouth. Many local business men plan to expand their places, just as fast as conditions will permit.

Our factories are busy and they are planning to keep abreast of the times with new additions, new products and more workers.

So fast is our growth that within the next year or so we are going to see a most extensive expansion of our business district along South Main street and Forest avenue. It has already started and by the end of another year, Plymouth residents will be surprised at the development that has taken place.

Let's keep growing and building. We can all do our part by putting our shoulders to the wheel and pushing in the right direction. Plymouth is a mighty and little city, one of the best in the nation. We are growing. We are facing a more prosperous condition than any other place we know of in Michigan. Let's keep Plymouth at the top. Let's make 1946 the greatest year in all Plymouth history.

THE PEARL HARBOR INQUIRY

Two or three weeks ago we wrote something about the Pearl Harbor inquiry. We said it had developed into something that looked like a political farce.

Since then a copy of a Detroit Free Press editorial discussing the same subject has come to our attention.

And what the Free Press said about it made our editorial statement look pretty tame.

We regret to see Republican members of the senate becoming so badly involved in a mess that is going to turn out to be a "hot potato" for those who stirred it up.

We all knew that we had been fooled and we knew that our country was not ready to enter into any war. Everybody knew that Japan was seeking a war with the country and would sooner or later go to war against America. Up to the present time, the Pearl Harbor inquiry hasn't produced an important fact we didn't know long ago.

It's about time for some of the senators and congressmen to begin to devote their talents and energies to a solution of our home building and labor and transportation problems instead of delving into past political issues.

DELIBERATE DECEPTION

The other night we heard some radio speaker in Washington twist the words of a government order in such a way that what he said was a deliberate deception. He was discussing the administration's plan to help home building construction for our returned veterans.

The government, in its plan, proposes to give FIRST consideration to veterans who desire to build new homes that will cost less than \$10,000.

What did this radio faker do? In his desire to be critical of the home building plan, he led radio listeners to believe that veterans had to build homes that COST \$10,000, in order to get permission from the government to erect a new home. Why any one would do such a thing is hard to understand.

THE NEW DEMOCRATIC STATE CHAIRMAN

Glad to read in the newspapers the other day where Michigan Democrats had elected David Martin of Flint as the chairman of the Democratic State Central Committee. The writer has known Chairman Martin for many years. Back in the days of Governor Frank Murphy we were near intimates in the state legislature. "Dave" is a clean-cut, progressive party man who will serve his party in a creditable way. He's a hard fighter, and a clean fighter, and the Democratic party is fortunate in getting him to serve in this important political position. Congratulations both to Dave and his party.

DREW PEARSON SCORES AGAIN

There have been times when we have thought Drew Pearson, famed Washington columnist, has by the way gone in some of his comments. But now and then he scores a bullseye that blots out all of his errors. He is just now revealing to the public the double-play that one of the vast aircraft manufacturers pulled off this country to the benefit of Japan when war clouds were gathering and every one knew that we couldn't step out of war with either Japan or Germany. Pearson is serving his country well by the exposures he is making. We'd be better off if we turned the Pearl Harbor inquiry over to him and permit the house and senate members now making the investigation to do something at which they are more competent than off to Drew Pearson again.

THE COUNTY AIRPORT

While many residing in this part of Wayne county do not yet fully realize the importance to Plymouth of the proposed transfer of the Detroit city airport to the county airport down Middlebelt road at Goddard, it will not be long before we do.

This action of the city and county will bring to this side Detroit and to a location not far from Plymouth one of the latest airports in the country.

The development that is planned will make the county airport equal to the best there is, and it will be less than 30 minutes by auto from Plymouth. Five years from today we will realize the benefits of this move, especially when so many who have never traveled by air will then be doing much of it.

DRES TO CLOSE EARLIER SUNDAY EVENINGS

The Dodge Drug Store and the Community Pharmacy announce their ads appearing elsewhere in this issue of the Mail the fact that both stores will close at 8 on Sunday evenings. The was taken to enable the employees of the two stores to have more hours of freedom on Sundays.

The Rosedale Gardeners' branch of the Women's National Fair and Garden association will have its annual meeting and election of officers at 2 o'clock Tuesday afternoon, January 8, in the community club house. Mrs. Stafford Fray is chairman of the nominating committee with Mrs. Leslie Daniels and Mrs. Robert Bruce assisting.

MICHIGAN, My MICHIGAN

By Elton R. Eaton

Michigan, my Michigan, I love you with all my heart and soul.

From the rolling hills of the north to the sandy beaches of the south, you are a land of beauty and opportunity.

Editor: Seated right on page one and in the third line says that Michigan is the 10th state in area.

Editor: Seated right on page one and in the third line says that Michigan is the 10th state in area.

This is a correction to the article on Michigan's statehood.

Rotary Club Hears Pastors

The Rotary Club heard a series of talks by local pastors on the theme of "Faith and Service."

Federal Savings Has Biggest Year

The Federal Savings and Loan Association reports its best year in its history.

The association's assets have reached a record high of over \$400,000,000.

Local Stylist Says Skirts Will Be Longer This Year

A local fashion stylist predicts that skirts will be longer in 1946.

She says that the fashion trend is moving towards more conservative styles.

Yes, The Mail Has Learned from Mrs. Lila Humphries, who conducts classes in dressmaking and tailoring, that for the first time in many seasons, skirts will be noticeably longer.

Yes, The Mail has learned from Mrs. Lila Humphries, who conducts classes in dressmaking and tailoring, that for the first time in many seasons, skirts will be noticeably longer.

This is a reflection of the current fashion trends.

Preside has welcome announcement about longer skirts. Mrs. Humphries also predicts that the styles for 1946 will feature rounded shoulders and diminutive waists.

Preside has welcome announcement about longer skirts. Mrs. Humphries also predicts that the styles for 1946 will feature rounded shoulders and diminutive waists.

She also mentions the importance of proper fit and fabric choice.

Church News

Hours of services and notices of church organization meetings.

FIRST CHURCH OF CHRIST SCIENTIST—Sunday morning service, 10:30; Sunday school at 10:30. Pupils received up to the age of 20 years. Wednesday evening testimony service, 8:00. "God" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, January 6. The Golden Text (Rev. 1:3) is: "I am Alpha and Omega, the beginning and ending, saith the Lord, who is, and which was, and who is to come, the Almighty." Among the Bible citations is this passage (Deut. 6:4-5): "Hear, O Israel: The Lord our God is one Lord; And thou shalt love the Lord thy God with all thine heart, and with all thy soul, and with all thy might. Correlative passages to be read from the Christian Science text-book, "Science and Health" with Key to the Scriptures," by Mary Baker Eddy, include the following: p. 275: "The starting-point of divine Science, is that God is Spirit, is All-in-all, and that there is no other might nor mind—that God is Love, and therefore He is divine Principle."

THE SALVATION ARMY: Sunday: 10 a.m. Sunday School; 11 a.m. Holiness meeting. Young Peoples' Legion, 6:30 p.m. Salvation meeting, 8 p.m. Wednesday: Mid-week meeting, 7:30 p.m. Thursday: Ladies Home League, 2:30 p.m. Saturday: Band of Love, 2 p.m. Mary Congdon, Capt.

DO YOU HAVE HOT WATER ON TAP ANY HOUR Day or Night?

If you do not have automatic hot water service in your home you are passing up one of the first essentials to better, happier living. Nothing encourages cleanliness of body, of clothing and home surroundings more than a plentiful supply of instant hot water. And to assure an adequate hot water supply, plan now to install an automatic, dependable GAS water heater as soon as possible. It's the clean, safe, economical way to end your hot water problem.

WILLOUGHBY BROS.

THE OLD JUDGE SAYS...

STEVE: "How was the hospital dinner, Judge? Sorry I couldn't get there."
OLD JUDGE: "Very interesting, Steve. One of the doctors on the staff read a paper on the research work that is going on at one of the big universities where they are studying chronic alcoholism."
STEVE: "I'd like to have heard that, Judge."
OLD JUDGE: "He pointed out that approximately 95% of the people who drink do so sensibly. Only 5% abuse the privilege oc-

asionally and included in that 5% is the very small number known as alcoholics. Then he quoted a doctor from a famous university who said 'Alcoholics are sick persons and, if treated as such, may be cured.' Alcoholism, he said, is not caused by alcohol but by deep-rooted emotional derailments which can be prevented by education and often cured through modern psychology!"
STEVE: "That's the most sensible approach to the problem I've heard."

What I Hear And Think About Under The Palm Trees Down in Florida

(By E.R.E.)
 "Plymouth Plans Candle Service" read a headline in the Miami News the other night. Thought at first it was some news from home. Then after reading the article, it was found to be about a service planned for the Plymouth Congregational church, one of the big churches in this city. What a glorious name—PLYM-

OUTH. It signifies everything good, everything progressive, everything for which the Pilgrim Fathers believed of benefit to mankind. Our city of Plymouth should forever be proud of its name and all for which it has stood during all the years of American history. But unfortunately outside of the name we have nothing in or about the city which

in anyway typifies Plymouth. Oh yes, there's the Mayflower, which is well named, but I mean something of a constructive nature, something typical of the Plymouth after which this city took its name. Maybe some day something of this character will be developed in our own Plymouth.

The weather? It seems hard to believe that one can get into an automobile in Michigan and drive only three or four hundred miles further than it is from Plymouth to Ironwood in the Upper Peninsula and be in a land of sunshine in winter time, in a land where you can walk around in your shirt sleeves, even wipe sweat from your brow. When you pick up the morning paper as you sit out in the open enjoying mild June-like weather, you read of blizzards, freezing weather and snow-blocked highways back in the land from which you came. Truly these United States of ours is a wonderful country, the envy of the entire world.

Have a friend over at Northville who is building a new home. Last fall he wanted a plate glass for a "picture window" that will provide light for the living room. He hunted the Detroit market for days before he could find a plate glass. When he bought it, he was

told that it was the last piece of plate glass to be had in Detroit. Maybe so. Maybe all the rest of it is down here in Miami. Saw one new store front being put in the other day where more than half a dozen big sheets of plate glass were being installed. Any number of new stores and old stores which are being remodeled down here seem to have no difficulty in getting plate glass, as it is being used in plentiful ways.

If there are any automobile trailers left in Michigan, it is probably due to the fact that they are without tires or wheels. Never saw so many trailers with Michigan licenses, on them on any road in Michigan as we did on our way down here or since our arrival. There are dozens and dozens of them in every auto camp around here. In fact the auto camps seem to be more crowded than are the hotels. Many new ones are being built to take care of the rush of northern tourists who own trailers.

No ocean passenger boats are operating in or out of Miami. The navy has turned one pier back to the city and says that the other will be turned back after the first of the year. But even then there is not much prospect of ocean passenger travel, as the government

still has all of the big ocean going passenger boats in service bringing men back from overseas.

Met Dr. Ed. Lee, former resident of Wayne who now lives in Miami, at the Miami Rotary meeting the other day. He wanted to be remembered to Frank Rambo, Fred Schrader and George Smith. When told that Mr. Schrader died a few months ago, he was greatly surprised. He was too young to die, but he worked too hard. No man can afford to work the way he did. It's too bad for any community to lose a man like him," said Dr. Lee. He's right, a hundred percent right. Dr. Lee was one of the organizers of the Plymouth Rotary club. It was the Wayne club which sponsored the Plymouth club into the Rotary organization. He is now one of the active members of the Miami club, which has a membership numbering up into the hundreds.

Local residents tell you without the slightest hesitation that the black market flourishes in everything down here. Read in one of the local newspapers the other day where it is suspected that big sugar shipments are being made from Cuba to some point along the Florida coast or to one of the Key islands between here and Key West. It would be easy for daring smugglers to get sugar or any other commodity into Florida along the Keys. These are a series of islands, some of them with deep water right up near the shore, that spread for a hundred miles or more to the southwest of this place. They are all connected by miles and miles of bridges, maintained by the state and the government.

Met Ralph Honsinger* on the street in Miami the other day. Ralph, who is a former Pontiac auto dealer in Plymouth, is here for the winter and expects to return to Plymouth early in the spring. He has worked in the post-office here during the holiday rush last year as well as this. Ralph was one of the early winter arrivals here, having left Plymouth the first week in November.

The U. S. navy has had over 1000 bright young Chinese boys in training here for naval services. Didn't know before that China had any navy. They are clean, intelligent looking youngsters and they mind their own business

when on the street, showing a pedestrian courtesy that is so lacking among most Americans in big cities.

Florida collects a seven cent gas tax from motorists but there is one thing sure, mighty little of the money finds its way back into the highways. Michigan's highway system is so far above that of this state that there isn't the slightest comparison between them. In fact our first automobile trip out of Michigan in five years took us across five different states. Not one of them can make even a favorable highway comparison to Michigan, although the state of Alabama should be given credit for ranking up among the top-notchers.

People down here say there is one difference between Miami and Miami Beach. People in Miami wear clothing. People in Miami Beach only make a pretext at wearing clothing.

Elmer Smith, well known Northville-Plymouth real estate dealer who is spending the winter with Mrs. Smith over in St. Petersburg, says there is a large colony of Northville folks in St. Pete. The Harry Clarks, Mr. and Mrs. Dayton Bunn, Mr. and Mrs. John Nelson (former residents of Bradner road), Dr. and Mrs. Gardner of Northville and about a dozen other residents of Plymouth's neighbor to the north, joined together for a Christmas day celebration.

Within another two or three weeks the army and navy will have returned to their owners all of the big hotels in Miami and Miami Beach that have been used by the armed forces during the past four years. Workmen are right now making ready for civilian use the big Columbus hotel and others will be ready soon.

How the hotels get around OPA prices for hotel rooms down here, no one can figure it out, but seemingly they can charge any old price they want to and get away with it. Home rents are within reason and within OPA prices. Miami is having no difficulty in providing plenty of eating places for its big crowd of winter visitors. It is explained that hundreds of new restaurants and lunch counters were necessary to take care of the thousands and thou-

sands of people who came here to work during the war, as well as to provide eating places for service men who desired to eat "out" once in a while. As a result, there are eating places, dozens of them, seemingly, in every block.

Bearded vultures live in the Himalayas at an altitude of 24,000 feet where the air pressure is 5.4 pounds per square inch, while rattail fishes live at a depth of 20,000 feet where the water pressure is 8,900 pounds per square inch, or 1,648 times greater.

Local News

But It's True

DR. ADRIAN ALLENSON, OF GRAND RAPIDS, MICHIGAN, OFFICIATED AT THE BIRTH OF FOUR GENERATIONS OF THE LEBERT FAMILY—... GREAT GRANDFATHER, GRANDFATHER, FATHER AND SON

Mr. and Mrs. Lewis Goddard entertained 14 guests at their home on Maple street New Year's eve.

Mr. and Mrs. Edwin D. Scott entertained 16 Detroit people at a New Year's eve party in their home on West Maple street.

Mr. and Mrs. Kenneth McPherson and daughter Jean were Thursday evening guests of Mr. and Mrs. Floyd Reddeman.

Mr. and Mrs. Wyman Bartlett spent the Christmas holidays with their son, Kenneth Bartlett in Syracuse, New York.

Sgt. and Mrs. Jack Gordon, Mr. and Mrs. Robert Gordon, Lt. Bill Sterns, and Mr. Walter Jendryka were dinner guests of Mr. and Mrs. John Urban, Sunday.

The Palmer Bible class of the First Baptist church will meet in the church parlors January 7, with an election of officers. All members are to be present.

H. B. McAllister of Los Angeles, Calif., was a recent visitor in the home of his brother and wife, Mr. and Mrs. W. S. McAllister of Northville road.

Mr. and Mrs. Asa Giegler of Otsego Lake visited at the home of Mr. and Mrs. B. F. Reafsnyder, Sunday. Mr. Giegler is a brother of Mrs. Reafsnyder.

Mr. and Mrs. Richard Olin entertained Mr. and Mrs. John Bickensstaff, Mr. and Mrs. Robert Strachan and Mr. and Mrs. Moe Arnold New Year's eve.

Mrs. Floyd B. Sherman attended the Sherman family Christmas party at the home of Mr. and Mrs. Fred Phillips and family of Ann Arbor.

Weekend guests of Virginia Moss of Ann Arbor, Trail were Reta Makowski of Grand Rapids, Iva Jo Rabahl of Richmond, Merrill Walker of Niles, and Clifford Boyce of Grand Rapids.

Mr. and Mrs. Ernest Burden welcomed to their home on Adams street, their eldest son and his wife, Mr. and Mrs. Arvid E. Burden from Wheaton, Ill., for over Christmas. They returned to Wheaton Saturday where they are working with the Youth Gospel Crusade.

Arthur Dickie, Gerald Krumm, and Ernie McBride, were honored guests Saturday evening at the home of Mr. and Mrs. Bert Krumm of Ann street. The occasion was the first time the brothers have been together in four years. Friends were present from Detroit, Dearborn, Plymouth, Northville, and Walled Lake.

Mr. and Mrs. Bert Krumm gave a Christmas dinner for their children, Mr. and Mrs. Charles Gow and son, Mr. and Mrs. Ernie McBride and family, Mr. and Mrs. Arthur Dickie, and Mr. and Mrs. Gerald Krumm and daughter. This was the first Christmas with the whole family together in four years. Other guests were Mrs. Anne McBride of Dearborn, and Miss Emma Dumka of Detroit.

Last Sunday night the Youth Fellowship of the Methodist church held Student Recognition night. The evening started with supper at 6:30, when students home from college were guests. After supper devotions were conducted by Marion Oldenberg and Carolyn Goodale, president of the Youth Fellowship, spoke concerning the goals of the group. Students from the different colleges spoke of their interests and Rev. Sanders closed the evening speaking on "Going His Way."

Phyllis Campbell Marries Army Captain in Baltimore, Maryland

Miss Phyllis L. Campbell, daughter of Mr. and Mrs. E. Fletcher Campbell, 941 West Ann Arbor, Plymouth, and Capt. Walter J. Hochlowski, son of Mrs. C. Grokowski, 42 Laurel Street, Poughkeepsie, N. Y., were united in marriage Thursday, December 26, 1945 in Baltimore, Maryland. The bride is well known in her local community as well as in Ann Arbor where she so recently worked. A graduate of Plymouth High School in 1941, a member of the school band, she worked for a time with the Michigan Bell Telephone Company. During the war she served in the office at an Army Officer's Flying School near Altus, Oklahoma.

The groom, who recently returned from France, served in the historical section of the United States army. He is continuing in this work on active duty at Baltimore, Maryland. He graduated from Poughkeepsie High School, took preparatory work at Ramapo, N. J., and graduated from the University of Michigan at Ann Arbor with a degree of Bachelor of Arts. A post-graduate course at Ann Arbor earned him a Master of Arts degree. Specializing in history and languages he is looking to consular work in the United States diplomatic service.

The best wishes of the relatives and many friends go with the young couple in their new home at 3100 Auchentoroly Terrace, Baltimore, Maryland.

Nearly one-fourth of all drivers in fatal accidents in 1944 were charged with a speed violation, according to the National Safety Council.

Recipe from the National Safety Council for avoiding falls on icy walks or steps: Take a liberal quantity of sand, gravel or fine cinders, add coarse or rock salt and mix. Garnish all icy spots generously with the preparation.

Youth Loses 4 Fingers in Meat Grinder

Jerry Krull, of 11307 Merriman Road, an eighth grade student at Newburg Junior High school, met with a painful and most tragic accident recently while allegedly working in the meat department of the Rosedale Super Market.

The family reports that while the youth was putting meat through a grinder his right hand became entangled in the machine and as a result four fingers were cut off. He was treated by Dr. O. L. Brooker.

Upon being contacted by telephone by The Livonian the proprietor of the market where the youth was allegedly employed, declined to give any information about the accident. He did not deny such an accident had occurred but refused to talk about it on the telephone.

Officials at the Newburg school reported that to their knowledge the Krull boy was being employed without a working permit having been obtained for him. The owner of the market when advised of this by The Livonian during the telephone conversation did not deny nor confirm the allegation.

It is too cold to open the garage doors while you warm up the car on these winter mornings? Maybe it's chilly, but cold air is better than carbon monoxide, says the National Safety Council, pointing out that 196 persons met death from automobile exhaust gas in 1942.

Impartiality is the life of justice, as justice is of all good government.—Justinian.

If you have anything to sell or rent try a Mail want ad. They bring results.

Gives Suggestions On Cooking Meats

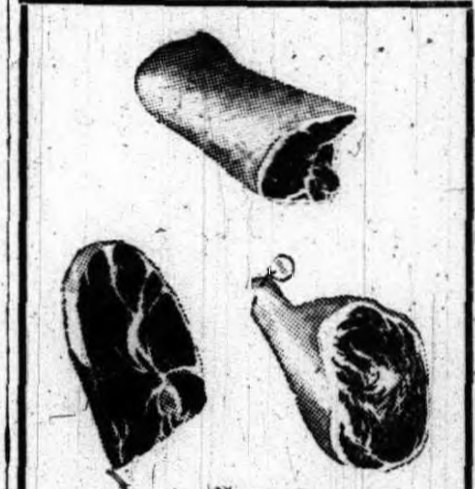

Now that meat is more plentiful, the housewife may wish to devote more attention to careful preparation that will bring out the best flavor in the meat being served.

Roberta Hershey, extension nutrition specialist at Michigan State college, offers these suggestions for preparing various kinds of meat:

Experiments prove that meat roasted in an uncovered roaster at a low temperature, about 260 degrees F., is juicier, more tender, and shows much less shrinkage than when higher temperatures are used. Roasts should be cleaned with a damp cloth and placed on a rack in the roaster, fat side up. If the piece can rest on the bone ends, a rack is not needed. No water should be added. Very lean meat should have a strip of fat meat, suet or some other fat placed over the top. Roasts brown better in unsalted, and since salt does not penetrate far into the roast, there is little advantage in salting before the meat is sliced.

Steaks should be placed in a sizzling hot frying pan, seared quickly on both sides, and then cooked more slowly. Pork and veal chops should be browned and then covered and cooked slowly. Bacon should be placed in a cold pan and turned frequently.

There is no virtue so truly great and godlike as justice.—Addison.

"Michigan and the Old Northwest"

Fr. Marquette had opened Michigan's first mission at the Sault in 1668.

To escape hostile Sioux, the Huron and Marquette moved in 1671 to Mackinac.

1669: Louis Jolliet, guided by a captive Iroquois, finds Detroit strait.

The Detroit information led Frs. Dollier and Galinee to use Jolliet's route.

To the Sault in 1671 went St. Ignace. "Possession" occurred June 14th.

In 1672, St. Ignace thriving, Marquette envisioned the "Father of Waters."

During winter (1672-3) he and Jolliet prepared for the epochal voyage.

They left St. Ignace for the Mississippi via Green Bay on May 17, 1673.

Expert Gives Freezing Hints

Frozen storage exerts no magic over the quality of meat products—even though it does provide a convenient means of extending the "fresh meat season" for home-butchered and prepared beef, lamb or pork. The product taken from the frozen food locker can be no better than it was when put into storage and may even be poorer unless certain precautions have been taken, cautions George A. Brown, head of animal husbandry at Michigan State college.

These precautions include the proper handling of the meat previous to freezing and the maintenance of proper storage temperatures during storage. The meat should come from animals that were absolutely healthy when butchered, and it should be dressed under sanitary conditions after the animal heat has been eliminated. The meat should be protected from freezing temperatures before it is put into storage. The holding temperature before storage should be between 34 and 40 degrees F.

Pork should be prepared for storage within 48 to 72 hours after dressing; lamb within one week, and beef within 10 to 12 days. With thin beef animals that show little finish, it is not desirable to hold them longer than 5 days.

Meat should be prepared in meat-sized parcels and all protruding bones that might puncture the paper should be removed. The wrap should consist of moisture-proof cellophane next to the meat and an outside wrapping of waxed paper. The packages should be wrapped flat and either stapled or tied. Each package should be labeled, showing the contents, date, and locker number. As soon as wrapped, the meat should be frozen as quickly as possible, preferably being placed on racks to permit the circulation of cold air. Storage temperatures should be zero or below, with as little variation as possible. Properly prepared, and kept under correct conditions, beef may be held in storage for as long as a year, lamb from 6 to 8 months, and pork from 3 to 6 months, without any deterioration in quality.

Persons desiring detailed information on the preparation and freezing of meat may wish to read

At their first meeting of the new year, the Cadets of C.A.P. will receive their fund raising tickets to sell. The funds from this will go towards helping them to purchase their airplane which has been mentioned in previous editions of this column. No complete house to house campaign will be made but the names of some of the ticket sellers published below will be gratified to have you phone if you wish to purchase tickets and you find they have not called on you. Ann Watkins, call 391, or Margaret Swanson at 1062W.

Lieut. Duffy plans to start the new year by giving the Cadets a test in First Aid that they have had during the latter part of 1945. Several films from the army have been received to help them in their course. Other courses in navigation and meteorology will be taught them in the year for their school credit. Many other courses of great value in the field of aviation will also be given to the cadets. A brushing up course will no doubt be given to them on the Code that they had during the last summer.

An hour of drill and one and a half hours of classes are given at each meeting throughout which military discipline is given. The meetings are held every Tuesday evening from 7:00 to 9:30 at the high school. This is a great opportunity being given to any one between the ages of 15 and 18, who is interested in the advancing field of aviation.

Livonia Teachers' Club Features Noted Lecturer

More than 1,500,000 miles of travel—miles polka-dotted with the stories of Indians, cowboys, fishermen, pirates, padres and pioneer women—will be paraded before the Livonia Teachers' club on Jan. 7 when James P. Welsh, the Old AAA Traveler of Automobile Club of Michigan, relates the glories of "This Amazing America."

These explorations into the "unusual" cover a period of 35 years during which Welsh has prowled the byways of America for little known oddities, places and personalities. His notebooks are crammed with bizarre facts and vignettes that form the very roots of American history.

Welsh, veteran newspaperman, magazine writer, radio commentator and traveler-extraordinary, was born in a southwestern frontier army post, Fort Huachuca. Reared in the traditions of Custer's famous Seventh Cavalry, his childhood was spent in numerous transfers among these outposts. Cochise and Geronimo were still fresh in memory as he grew up among Indians and punched cattle in the Pecos country made famous by Judge Roy Bean.

Welsh has been adopted by the Ojibwa of Canada and the Navajo of New Mexico. His Ojibwa name, Odo-Ba-Nik-Kay-Ogemaw, is translated "Chief Who Drives Wagon without Horse." He is still a frequent visitor to Indian ceremonies of these tribes.

As a newspaperman, Welsh has written for the nation's leading newspapers, on all of which travel was his major interest. For years he was travel editor and pathfinder for The New Orleans Times-Picayune. He also was attached to

the late Huey P. Long's publicity staff, and during World War I was a correspondent with the 37th (Ohio) Division.

Welsh's experiences have been manifold and versatile—sailing with the fishing fleet out of Gloucester, flying over the barren wastes of the Yukon, penetrating by foot trail to mountain shacks in Tennessee and prowling through Death Valley. So rare is his gift of speech and sound Americanism that his radio programs and lectures are highlights for thousands of listeners.

His hobby of studying and consuming fine foods has produced considerable writing on cookery, the most recent of which is "Grill and Skillet." His recipes include favorites learned from the Indians, the French of Louisiana, the Dutch of Pennsylvania, Canadian guides, Gloucester fishermen and other rare culinary artists encountered in his travels.

Note: Guests of all club members are welcome to attend the lecture, 7 o'clock at the Wilcox school.

In the Milwaukee Sentinel appeared this weather forecast: "I will be a little colder and a little warmer today than it was yesterday."

In Jersey City, Carl Thomas unwisely reported the theft of his car to police, who discovered that it had been stolen once before.—by Thomas—

The source of the term "New Deal" used by the Roosevelt administration, is still controversial, despite the fact that it was disclosed by the late President himself in a letter which he wrote to the International Mark Twain Society on Dec. 3, 1933. In this letter, F. D. R. stated that he took it "from that passage in the book, A Connecticut Yankee at King Arthur's Court, in which the Yankee declares that, in a country where only six people out of a thousand have any voice in the government, what the 994 dupes need is a new deal.

Here Today! With Tomorrow Written All Over it!

It's now in town and you can see it—The new Nash "600"—the car that shows you today what tomorrow's cars must have. And everything you see you're going to like—

★ Here is the first big car that gives you 25 to 30 miles on a gallon of gas, at moderate highway speeds—500 to 600 miles on one filling of the tank.

★ A car so big that the front seat's nearly five feet wide, and the back compartment can be made into a big double bed at night.

A car that's built like a B-29 fuselage—one single unit of welded steel! No split body-and-frame; no separate parts to squeak and rattle. Made stronger, but hundreds of pounds lighter.

★ A car that sweeps over bumps as if they didn't exist—with deep, soft coil-springing on all four wheels.

★ A car with a built-in exclusive Weather Eye Conditioned Air System that lets you shut your windows to dust and drafts the year 'round—and drive without a coat in the bitterest cold weather, with frost-free windows and windshield.

Above all, a brand new standard of performance! Handling ease—brilliant pickup—that will thrill you as no automobile ever has before!

And with all its amazing advancements—with all its clean, sparkling beauty—this Nash sells in the low-price field.

See how little it costs to own the most modern car on the road. See how much you'll be ahead with Nash.

Your Nash dealer shown below now, has the Nash "600" and also the new 1946 Ambassador, master of the medium-price field. See the most-talked-about car of a decade!

**Plymouth
Scouting News**

(By Harold H. Schryer)

Once again the 'Wheel of Time has turned and in its turning has borne us all farther towards the goal of human understanding.

Human understanding! This is the essence of all true living regardless of the time or place of its existence: life with others under all sorts of complications is the common test of the human soul. By the results of our living we bear the proofs of our existence in the world of Man.

Scouting is one of the best fields of endeavor in this regard, for in our contacts with others we are subjected to the tests of sportsmanship and clean living; we undergo the practices of friendly co-operation with others in keen competition based upon the principles which key-note the Movement of which we are proud to be a part.

Upon us falls the selfless tasks of community service and cooperative activities, with others who depend upon us for such action because of our known precepts and tenets of operation as a united group of fellows dedicated to the well being of our communities and fellow men the world around.

Hence, it is most imperative that we, as Scouts, seek to foster and abet the best principles of human understanding in our every thought and action, for all the genuine reflections of this all-important phase of brotherly living we are as idle wheels upon a moving vehicle; senseless and without utility of purpose.

This new year of 1946 is to be one of utmost importance throughout the Scouting world. The cessation of world-wide hostilities has brought to light many needs of brotherly co-operation in the light of better and broader spheres of Scouting on a world-wide basis.

The theme of our International Scouting Movement for the year 1946 suggests more than your reporter can intimate in his limited space: "Scouts of the World-Building Together."

Such a theme as this spells great deeds afoot; deeds in which you, the Scout, Scouter or interested adult may well participate.

We are all aware of the great destruction vested upon the many nations of Europe and the Orient in these bloody years of conflict among men. We are aware, too, that many of these nations were the scenes of great Scouting programs in the post-war period.

In the aggressor nations this was one of the first organizations destroyed prior to the activation of these youths into war-like activities. Scouting ideals had to be destroyed to permit of other less desirable actions such as were visited upon the citizenry of these nations.

How your reporter wishes that he could take the space to elucidate upon the under-ground activities of many of these former Scouts on the side of the Allied Nations during this long interim between the destruction of the Scouting Movement and the cessation of hostilities; of heroic acts unnamed and unnamed and created perhaps, in anonymity, but brought about by the teachings of Scouting tenets.

It will suffice, perhaps, if we mention here that as of Sept. 30, 1945 there were 1,486,241 boys listed in the membership of the Boy Scouts of America, with an over-all total of 424,994 adults registered as Scouters and Cubbers on a volunteer basis; to mention also that this is an increase over 1944 of 7.7 per cent in boys

and 13.5 per cent in adult leadership. Surely this record speaks for itself as regards the general opinion of Scouting in the public eye and bespeaks an even more powerful influence in the National importance of its known activities.

One of our most important Community services of the New Year is the part we are to play in the nationwide clothing collection for overseas relief which is to be conducted from January 7 to January 31. This drive has as its aim 100,000,000 garments (and bedding and shoes). Watch for complete details.

All American Scouts are responding to the plea for contributions to the World Friendship Fund. These monies are to be used to bring Scouting back to the fore in all parts of the world which the past few years have suffered from the hands of the war makers.

The problem of salvage paper is still acute here. We are all pledged to continue our efforts in this respect. We are ready and willing to do our part as long as the need shall exist.

This is a partial picture of Scouting as a Service; other parts of it are to be found in the various communities in the guise which are particular to those localities.

All this is added to the regular Scouting activities which go towards the general make-up of the programs of the Troops and Packs of the various Councils and Districts, among which are the Rallies, Camporees, Summer Camps, Troop and Patrol Hikes, etc., which are the real means of identifying the Scouting Brotherhood from the neighborhood groups which lack this fine spirit of Action which tends to enlarge and visualize the membership through the spirit of adventure and participation together in the things which all like to do.

We, of Plymouth, realize that we have had a busy year; realize, too, that there is an even busier one ahead—and we are glad!

Greetings, Scouts and Scouters: A Happy New Year to All!

The Scout Troops of District Seven are to open the new year with a bang on Jan. 13 with the advent of the Dawson City Sweepstakes event to be held at the Cass Benton Park beginning at 1:00 p.m.

This is the Winter program similar to the Summer Camporee save that it is an afternoon program sans the camping effect. Based upon the various Scouting skills this event is one of competitive values and permits of great rivalry among friends.

Whereas this is a traveling event covering quite a large area of the Park, the start and finish lines are almost parallel, which permits the followings of the various Troops the privilege of watching their Scouts perform under the same circumstances as the followers of a golfing tournament.

Come on out you parents and friends and see what your lads can do that you cannot. Signaling, First Aid, Mapping, knife and axe demonstrations, fire building, cooking and other skills are on the program, among other similar skills. Wouldn't you like to see for yourself what Scout-Son talks about 'put into actual practice'? It's fun! It's skill! It's Scouting at its best! Don't be a Scouter-doubter! Be prepared: We'll be seeing you!

Den 3 of the local Cub Pack were entertained at a ski-toboggan party at Cass Benton Park. Highlighting the party was the first attempts of several of the Cubs at these thrilling Winter sports. Some fun!

The Den Mother was most ably assisted by Mrs. Claude Dykhouse and Mrs. Byron Champion. Such splendid co-operation is most gratefully appreciated by all concerned. Nice going, folks!

Cub Robert Willoughby of Den 3 entertained the Den on Sunday last with a sleigh-ride party. Besides the Den there were members of other Dens and their parents included in the invitation. This would make for an ideal Cubbing set-up as this is a program of neighborhood interest. There is nothing more interesting to the Cubs than activities which include parental participation of such types.

Scout Troop 2 which has had a holiday from routine meetings will resume their regular activities on Jan. 7.

All Patrol Leaders are urged to activate their parts in the Dawson City Sweepstakes. Bring your ideas to the Troop meeting and let's get on the ball.

The Troop wishes to thank all of the parents who were at our last meeting for their splendid co-operation and to congratulate the parents of the new members for their fine show of interest in our activities.

Also to thank the members of the Troop Committee and the other gentlemen who served as a part of our Court of Honor Court which was held for the Troop at that time.

A Happy and Active New Year to all from the Troop!

The next Pack meeting of Cub Pack 620 will be held on January 4 at the Grade School Gym at 7:30 p.m.

The theme of the month is Cub Music, with each Den presenting a "skit" based upon the theme in typical Cub manner.

Cub parents and interested persons are invited to come and see what these youngsters can do in this field.

Regular Cub Scout advancement will be made.

It takes the average car traveling at 20 miles an hour 191 feet to stop on a road covered with glare ice, says the National Safety Council. Chains on the rear wheels reduce this stopping distance to 110 feet, and chains on all four wheels allow the car to stop in 25 feet.

**Rosedale Rink
Plenty Busy**

Rosedale Gardens Ice Skating and Hockey Club is announcing plenty of ice skating at the community rink at Hubbard and Orangelawn.

The club reports that Ed Zoff and Bert French should be given a pat on the back for the excellent job they have done in flooding the rink. To date the club's junior team has won one, tied one and lost one in the Detroit Night Hockey League.

Rosedale Gardens is anxious to organize a boys' hockey league under the direction of William Lloyd. Players should call Mr. Lloyd at Livonia 2018.

**Garden Club Sets
Annual Meeting**

The Rosedale Gardens branch of the Women's National Farm and Garden Association will hold its annual meeting and election of officers at 2 p.m. next Tuesday, Jan. 8, at the Rosedale Community House.

Mrs. Stafford Francis, chairman of the nominating committee, will be assisted by Mrs. Leslie Daniels and Mrs. Robert Bruce. The new officers will appear in The Livonian issue of Jan. 16.

**THERE ISN'T ALWAYS ROOM
FOR ONE MORE—**

Oh! "Leaping Lena" ain't what she used to be. One more bobby-soxer and Lena would give up with a well-earned wheeze and a sigh. Likewise, homes wired for yesterday's electrical needs are inadequate for today's electrical living. Yet many home owners have become accustomed to inadequate wiring—to frequent blown fuses because of an overloaded circuit. Making sure that your home wiring is up to date is your assurance of being able to use the electrical appliances you want in your home when you want to use them—where you want to use them. It means having your home furnishings arranged to suit your taste, with outlets always convenient. It also means that it should accommodate a new frozen-food cabinet, electric range, automatic laundry, electric dishwasher and many other electrical appliances. And, of course, if your plans for tomorrow include a brand-new home, adequate wiring is an "A-1" item to check in plans and specifications.

This is one of a series of advertisements prepared in cooperation with the electrical contractors in your area in the interest of insuring adequate wiring for every home. When you build or remodel, be sure your home is properly wired. For wiring recommendations, call your local Detroit Edison office.

Babson Says --
Babson Park, Mass., Jan. 4— At the close of each year I like to go through the various interesting inventions of the preceding year. They always give me inspiration and make me certain that there are opportunities enough for those who will use their heads and legs. I will not discuss atomic bombs or radar or electronics or plastics or other things which have been discussed in the papers and magazines. Rather, I take the apparently insignificant things in the belief that they, in the aggregate, may do much more for individual readers of my column.
Suggestions for G.I. Men
One of the simplest, and yet may be revolutionary, is the development of confections, cakes and other food products by the use of starch sponge. To jump to the other side of the spectrum, we find the use of fog to put out fires. May I continue without comment: Nonbreakable incandescent lamp bulbs . . . ice boxes with revolving interiors . . . electric switches which work with a delayed action of three minutes—windows made of glass strips like venetian blinds . . . new "smoke screens" to protect orchards and groves against frosts and insects . . . paint mixed with D.D.T. to kill flies and mosquitoes.
A year ago I mentioned the new art of recording music, messages, etc., on magnetized wire; well this is now on the market. A new one that has not yet been marketed is truly hole-proof stockings made out of ramie instead of cotton or rayon . . . a machine for projecting reading matter on the ceiling so you can read actually lying down . . . new methods of home heating where the heat radiates through the plaster, eliminating registers, radiators, etc. . . . a new "packaged kitchen" whereby the refrigerator, stove, incinerator and dish washer will be a part of the same machine . . . a new flooring known as stoneium which can be applied directly over concrete floors avoiding dust and cracking—a new machine to automatically figure dividends, pay rolls, and do billing at the speed of 4,000 per hour.
Salesmen vs Inventors
As the vacuum cleaner put grandma's whisk broom out of business, the new electric dust collector destroys the dust that even a bag is unnecessary . . . A new type of oil coating house-

wives can use to prevent fruits and vegetables from getting dry and prevent ham and other meats from getting moldy is being sold. To offset this, the vacuum cleaner salesman will offer a new electric clothes brush! We will no longer need to telephone our telegrams but simply write them and drop them in a slot and they will be delivered by facsimile television.
Some G.I. men will be selling fountain pens which need filling only once in ten years, and new dry-cell batteries which will outlast 200 of the old-fashioned kind. The bedroom windows will rise and fall automatically by pushing a button under your pillow (I already have one); while old-fashioned window screens will be seen only in museums. I could write a column on new plans for the frozen food industry and also forecast that your grandchildren will break no dishes or glassware— why? because they can't be broken! The best opportunities, however, will come to those who SELL these things rather than to the inventors.
Chemical Products Enticing
Great steps are being taken in colored photography for amateurs. I expect soon to have an electronic bread toaster on my table—requiring no cord connection with the wall. During 1945 one of the leading investment houses sold stock for an entirely new process of marketing powdered fruit juices. 1945 showed great strides in fluorescent lighting. All our garden seeds may soon be immunized so that no bugs will attack the plants. New developments in X-ray read like fairy tales.
Hundreds of new uses for rubber are in the offing while micro-photography has some surprises. We must also remember the possibilities in ply-wood and super-wood. Electronic eye-glasses may do for the nearly blind what hearing-aids are doing for the deaf. New synthetic foods, flavors and aromas have great possibilities and the rayon factories may soon be turning out candles, cookies and other food products. PLEASE DON'T WRITE ME FOR FURTHER PARTICULARS REGARDING ANY OF THE ABOVE THINGS. I AM NEITHER AN INVENTOR NOR CHEMIST BUT AM MERELY PASSING ALONG NEWS AND DREAMS.

Only imported chinaware was used for state dinners in the White House until 1918, when the first American-made set was purchased by Woodrow Wilson.

25 Years Ago
News items of a quarter of a century ago taken from the files of The Plymouth Mail.
The following officers for the ensuing year were elected by the Scott D. Cortrite Post, at the last meeting of the year, Monday, December 20: Post Adjutant, Alton Richwine; post vice com, Harold Daggett; post adjutant, Harold Stewart; post finance officer, Lester Cooper; post sergeant, Howard Sly; post historian, Harold Jolliffe; post chaplain, Howard Eckles. The new officers will be installed at the next regular meeting of the Post, which will be held in the Post club rooms, Monday evening, Jan. 3. A large attendance is urged at this meeting to give the Post a good "start off" for the New Year. H. B. Daggett, Post adjutant.
Cass Sheffield Hough is home for the holidays from the Culver Military school at Culver, Ind.
Shear & Shaw Bros. have sold a new Buick touring car to Charles Dunning on the Plymouth road, and a seven-passenger sedan to Ralph Lee of Rosedale.
Mrs. H. A. Spicer spent the latter part of last week at the home of her son, S. W. Spicer, while he and his wife were attending the State Grand meeting in Grand Rapids.
The local postoffice has been a busy place. Postmaster Hill and his assistants have done splendid work in handling the big volume of incoming and outgoing mail. This splendid service is appreciated by the patrons of the local office.
S. J. Winters, the contractor and builder, has opened a wood-working shop in the rear of Mrs. Wingard's residence on Starkweather avenue. He has installed all the best and latest machinery for doing all kinds of woodwork. Mr. Winters reports that outlook for building in Plymouth the coming year as very encouraging. See his ad in the Mail this week.
Frank Rambo made a business trip in the "Thumb" the latter part of last week, and visited his brother at Marlette.
Mrs. Don VanAtta has returned home from a few days visit with her aunt, Mrs. Henry Davis, at Cincinnati, Ohio.
Mrs. Ed Evelett of Canton, visited her daughter, Mrs. Harold Wilson, and family, also her son, Matthew and wife, Sunday.
A fine new electric sign now adorns the front of the Penniman Allen.
Percy Smith is building a new house on Blunk avenue.
Miss Dorothy Dibble, who is attending the Capen School for Girls at Northampton, Mass., is home for the holiday vacation.
Mr. and Mrs. Charles Root and son, Charles, Miss Mather, Miss Bennett, Miss Helen Roe and Miss Ernestine Roe attended the big masquerade party at the Normal College, Ypsilanti, last Thursday evening.
In examining the children at the Plymouth school, Tuesday, for physical defects, Miss McIntyre, the community nurse, found Vera Stoneburner, 9-year-old daughter of Mr. and Mrs. Charles Stoneburner, physically 100 per cent

perfect. This is quite a remarkable circumstance. Vera is in the fourth grade.
Chief of Police Springer says that the practice of leaving cars on side streets without light being lighted, must be stopped. The chief also wishes it known that the law requiring every auto driven after January 1 to carry a 1921 license number, will be strictly enforced by the local officers.
One of the most pleasant open meetings of the Daisy Employees Association was held last week Thursday evening, when a delicious chicken-pie supper was served to about 250 members of the association and their families in the dining room of the Methodist church between the hours of five and eight. At eight o'clock a fine musical and literary program was presented in the High school auditorium, ending with a comic sketch, presented by members of the Northville L.O.T.M. Later in the evening the company went to the Penniman Allen auditorium, where dancing was indulged in. The Daisy orchestra furnished the music. All who attended spent a very enjoyable evening. There were about 450 in attendance.
Mrs. Wm. T. Pettingill and cousin, Mrs. John G. Clark of Bad Mr. and Mrs. Cyrus Rorabacher entertained their children and friends, Tuesday.
Axe were calling on Wayne families at their home on South Main street, Christmas Day.
Mr. and Mrs. C. H. Goyer will entertain a company of about 20 Detroit relatives at a family dinner at their home on Blunk avenue, New Year's Day.
The Daisy Mfg. Co.'s plant and the Markham Air Rifle Co. are closed down this week for the purpose of taking inventory. Both plants will resume operations next Monday.
Mrs. Charles Ebert met with a painful accident, last Sunday, at her home on Hohbrook avenue, when she fell down the cellar stairs. She was badly bruised, but no bones were broken.
Mr. and Mrs. Albert Stever spent Christmas and the forepart of the week with Mr. and Mrs. C. A. Nelson at Saginaw.
John C. Schaufele of Traversa City, is in town for a few weeks at the home of his parents, Mr. and Mrs. A. Schaufele.
Mr. and Mrs. C. A. Hearn and Aleita, Mr. and Mrs. L. H. Galpin and Naomi, with their guests, Fred Hakes and family spent Christmas at Burton Gaipin's near Dixboro.
Mr. and Mrs. Charles Thumme and family, Mr. and Mrs. F. J. Brown of this place and Elton Brown of Laingsburg, spent Christmas Day with Mr. and Mrs. Fred Bredin of Elm.
C. B. Crimbis has just completed in Elm Heights, a beautiful stucco bungalow, which is very complete and modern in every particular. It will be occupied by the owner, Mrs. F. S. Loeck, together with her son-in-law and daughter, Mr. and Mrs. H. W. Hovey.

Under certain conditions, an approaching sound can create a visible effect. A short time ago in England, for example, a man standing on a hill suddenly noticed a long, narrow shadow rushing toward him across the valley; and as it passed, he felt a violent shock and heard a loud report. A powder magazine several miles away had exploded and the concussion had produced a compression wave of such density that its shadow was cast by the sunlight.
If you have anything to sell or rent try a Mail want ad. They bring results.
