YOUR DUTY TUESDAY IS TO VOTE.

No matter to which political party you belong, no matter whether you are "for" or "agin" certain proposals on the state ballot, your duty Tuesday is to vote. It is NOT good citizenship, if you fail to vote.

KILL 'EM OFF! WHO CARES?

Seven more people were killed a few days ago in just one automobile accident near Bay City on one of the state's murdering three lane highways.

It is about time for Michigan to wake up to the fact that its main line highways should be divided highways, with one way traffic on one thoroughfare and traffic moving in the other direction on a separated highway.

This will not stop all killings, but it will end many of them. Why doesn't the state build highways like this, do you ask? Just because the state hasn't got the cash with which to do it.

And still there are groups within the state perfectly willing to take more than half of the rest of the state's income for local

But who cares? Keep on killing them off. What difference does it make?

DETROIT SHOULD WAKE UP.

Ed. WHAT "THE MICHIGAN TEACHER" SAYS.

In the October issue of "The Michigan Teacher" there is an interesting paragraph as to how Proposal No. 2, got on the ballot for next Tuesday's election.

'The Michigan Teacher," a publication devoted to the interests of the teaching profession, is strongly opposed to the Race Meet Is proposed amendment.

Under the heading "How The Amendment Got on The

WHAT A WIND-UP!

At least a dozen voters in this part of Wayne county in the last few days have given me a circular letter from Murray D. VanWagoner, Democratic candidate for Governor, which contained enclosures of an editorial printed in the Ingham County News, published by Vernon J. Brown, one of the Republican candidates who ran against Kim Sigler in the last primary. The editorial berates Sigler and a group of editors and two outstanding Michigan who supported him.

Brown has been a recipient of Republican nominations and elections and other favors for close on to half a century. Now that he is a defeated candidate, isn't the thing he is doing a fine way to wind up a political career? We said before, and we say again, that we feel sorry for him.

How to Store

Potatoes

Since light causes potatoes to turn greenish and taste bitter, they should be covered with cloth or paper or stored in a dark place—preterably where the temperature is about 40°. Below that, there is danger of freezing. Be careful not to bruise, asbruises open the way for decay.

A word to the wives is sufficient . . . and that word is "hurry!" For you can keep these firm, thickskinned potatoes all winter long, but we can't . . . not at A&P's thrifty prices. What Michigan's Best Posted and Influential Educator says about Big Cities' Money-Grabbing No. 2 Scheme

Edson Root, state representative from Van Buren county who for twelve years has been chairman of the Committee of Education in the house of representatives and who, previous to his election as a state official, served for years as a public school teacher and school superintendent, has issued a timely warning against the bigcity money-grabbing scheme in proposal No. 2 upon which you will vote Tuesday.

Public schools have had no stronger champion at any time in the history of the state than is Chairman Edson O. Root of the

house education committee.

He has done MORE for the public schools of Michigan than ALL of the other so-called champions of public school education

in Michigan put together.

While they talk, he ACTS.

And no man in Michigan, including the state department of education, knows MORE about the state's educational problems than He recently sent out a letter to the newspapers in his district

in which he said in part: "From a total educational standpoint there is no fairness in the proposition. If the promotors claims for public school aid come true, it would be an educational disaster. University, Michigan State, Michigan Tech., Colleges of Education, Schools for the Handicapped, Special Education, Aid to Junior Colleges, Vocational Education, Rural Agricultural School Aid, Adult Education, and aid through office of County Commissioner, as well as appropriations to keep Retirement Fund sound, all depend upon appropriations from

For the public schools to take a position that would impoverish the state and make it difficult for these other important educa-tional agencies to be properly financed is unthinkable. The G. I. educational program would suffer with the rest, and the Wayne University project would have to be shelved.

"As a matter of fact, the amendment does not guarantee schools other than the 170 districts paying no tax, anything at all. A large measure of school support is and should be tax dollars locally assessed. In discussing the appropriation two years ago, Governor Kelly said, and I quote, 'Root, we want the schools to have this money, but how are you going to fix it so that they will get it? When the state puts in money, many districts scale down their school tax and the schools are not a bit better off.' And I had to say Governor, you have asked the 64 dollar question." 'Any notion that this amendment carries a big wage boost for

teachers is pure bunk.
"THE SCHOOLS WILL BE TAKEN CARE OF. The public is school minded. It does not take a fight to get an appropriation for schools from the Legislature. If a fight occurs, as it did two years ago, it is because some powerful interest wants money and for this reason opposes large school appropriations.

'Work for and with the schools and school people has been pleasure as well as a challenge and I am glad to say that all evidence indicates that the M.E.A. membership are not back of the action taken by a Board of Directors. I think that fully 90 per cent of the school executives of the state are opposed to the amendment The men who have sponsored it are fine capable school men, but they represent the cities that are grabbing for this money and can-

not do other than support that position.
"THE SCHOOLS WILL BE TAKEN CARE OF. Everybody wants it that way for therein lies the safety of Democracy, and our educational aim and goal should be a well rounded citizenship for the coming generation, ability to cope with our growing social-economic complexes, and view world problems unafraid. If our educational leadership will think this one through, raise their sights to this level, and leave the matter of financing to agencies set up in the constitution to deal with such matters, all will be well, and THE SCHOOLS WILL BE TAKEN CARE OF."

Help! Help! For The Postmaster

Pity Harry Irwin, the poor Post-master of Plymouth! He's all in a dither-scared to death because he's afraid he's got to use the broom, mop and dusting cloth in order to keep Uncle

Sam's postoffice in Plymouth looking spic and span. He needs help and he needs it badly, but don't see him about the job. See Assistant Postmis-

tress Beatrice Schultz.
You see, here's the trouble. Ernest Krumm who thought it a patriotic duty to hold down two jobs during the war, feels that he just can't keep on doing it any longer, so he has quit his job at the postoffice and now the U. S. badly needs someone eo keep the postoffice looking just like a postoffice in Plymouth should look.

Its a good job, with good pay. One can make it a part time or full time job. A man and his wife can fill the job together, working at it evenings, if they so desire.

If interested, please see the
Assistant postmistress at once be-

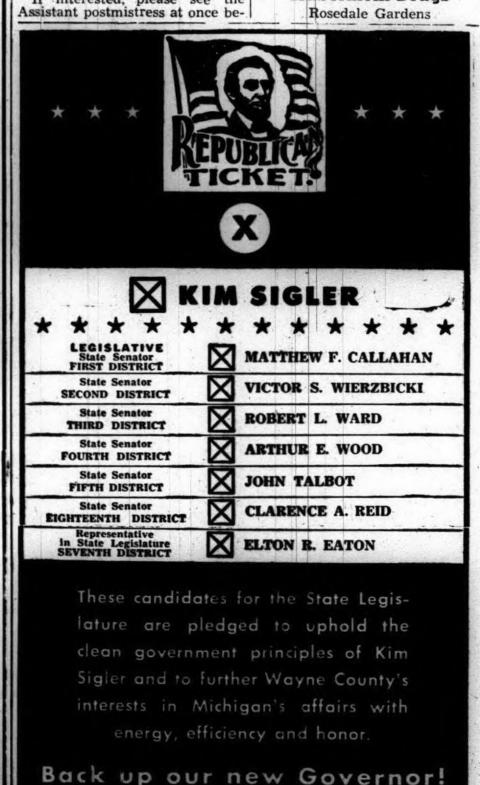

Postmaster Irwin can't hardly sleep nights, worrying over what he might have to do if this good paying, inside, all-year round job isn't filled pretty soon.

If you have any items of interest about your family or friends please call Plymouth 6.

Col. Thomas MacClure tells Rotary of "Work Pigeons Did in War"

Germany Was Surrounded by Pigeons

Colonel Thomas MacClure who® was Deputy Chief of Pigeon Training for the U. S. Army Air three way flying. These are still Forces was the guest speaker at the Rotary Club meeting Monday, October 21.

Deputy Chief of pigeon training in 1941 and he told of "Work Pigeons did in war." Colonel MacClure was in charge of the ly called in by the City of Detroit Selfridge Field unit and here the to rid the city hall and like places raining was carried out in con- of these birds and over 900 birds unction with the pilot training. were trapped.

The Air Corps pigeon unit was larger than that of the Army. Homer pigeons were used in antisubmarine work on every air front. The Colonel stated that, Rowling Lean "17,000 were dropped into Italy by parachute and France for the underground. Germany was surrounded by pigeons." The basket holding the birds when dropped was an invention of the Colonels and was a celluloid basket which county the burned in an instant. couuld be burned in an instant Cloverdale by the member of the under-ground and really the only thing that would have given him away to the Germans was the fact that Parkview Ladies he had some birds under his coat.

some of the outstanding feats and records made by the feathered corps during the war. "Pathfinder" holds the record for distance that of 1762 miles. Another outstanding mark was made by a Selfridge Field bird that of fly-ing from the Mid-Atlantic to Selfridge Field a distance of 1753 miles. Actually the bird flew fur-ther, but because the bird took one week and four hours to make the trip, it was penalized.

The average speed of a racing pigeon is from 38 to 42 miles per hour although Col. MacClure stated that they have been clocked as high as 71 miles per hour. He also told of the development of night flying homers and birds

Monday, October 21 the Liv-onia Board of Education opened the plumbing bids which had been submitted by four plumbing contractors and the lowest bid one of \$67,883 was submitted by the Page Plumbing and Heating Company of Detroit.

All of the plumbing, heating and ventilating bids received this past week were found to be lower than those submitted previously and the Board saved about \$13,-000 by this action of reopening the bids.

Edward H. Schendel and Company of Wyandotte was awarded the contract for the general construction at a cost of \$182,135,000 and the Kuehne Electrical Company of Detroit the electrical work with a low bid of \$10,800.

The general contractor expects to start construction next month and stated to the School Board that he already had most of the necessary material.

Stateism or Free Enterprise" is is the subject that has been selected by Homer Martin for his talk before members of the St. Johns Men's Club at the Episcopal church Thursday evening, Nov. 7, according to Kenneth Hulsing.

The dinner will begin promptly at 6:45. It is expected there will be a large attendance. Mr. Martin was the first president of the C.I.O. Because of his fight against the Communistic elements that now control the C.I.O. he was defeated for re-election.

He is now in business in Detroit, but owns a farm on Brookville road, just over the county line Washtenaw county.

Staff Sergeant Norwood Boadway, of Ann Arbor, in charge of army recruiting in Plymouth, has announced that his services are now available to help all aliens who served in the United States army secure citizenship.

Booklets on "Special Natural-ization Privileges for veterans and Women Married to U. S. Citzens," have been secured from Immigration and Naturalization Service in Detroit.

Recruiters wish to aid all vet-erans who served honorably in the period beginning September 1, 1939, and ending December 28, 1945, and who have not yet obtained citizenship.

Staff Sergeant Boadway advises all who are interested to apply soon as the special naturalization privileges end December

Ping-Pong Champ Visits Plymouth's Music Box

An unexpected honor came to Plymouth's "Music Box" crowd last Tuesday when P.A. Secord, of Pontiac, table tennis champion of the senior men's division in Michigan, 1942-46, dropped in to give an exhibition.

Mr. Secord showed the crowd lots of trick shots and challenged several of the crowd to games which he won easily after letting them get a lead.

Saturday night, tonight, there will be a Halloween party at the other diversions. Free cider, apples and donuts also will be available. Members will be admitted free with guests charged 25 cents

Democracy Marches On

Delegates from local units representing the more than 15,000 members of the Michigan Milk Producers Association convene at Lansing on November 7 for their 30th annual meeting.

In the traditional manner of a democracy, these Delegates were elected by the general membership and speak the majority voice of all Association members on matters of major policy and administra-

Because these Delegates represent a large and important segment of all residents of this area, it follows that what is good for MMPA members likewise reacts to the public good.

The inter-dependence of dairy farmer and general public has been recognized by MMPA from its inception 30 years ago.

It has prompted Delegates to foster new scientific safeguards for public health protection;

It has led Delegates to sponsor production methods for increasing the quantity and quality of milk to meet increasing public demands for nature's best food at its very best;

It has enabled Delegates to set up administrative procedures for cooperative marketing and mutual aid which cost less than one per cent of gross sales-far less than administrative costs of the American Red Cross, Community Fund and similar activities; It has resisted taking temporary advantage of ab-

normal conditions to obtain "quick money" at the expense of sound long-range planning; It adopted more than a decade ago the base-and-

excess plan which authorities on milk marketing have called the best year-in, year-out program ever devised for the advantage and protection of both milk consumer and milk producer.

Out of this background of successful operation, Delegates on November 7 will lay broad plans for sound future growth.

And action of the Delegates, you may be sure, will adhere to those basic principles of Democracy on which MMPA has operated for more than three decades-Awareness that what is good for the milk producer must be likewise good for the milk consumer.

MICHIGAN MILK PRODUCERS **ASSOCIATION**

Edison Co. Asks To Slash Rates

The Detroit Edison Company has filed with the Michigan Public Service Commission a formal request for permission to reduce charges to all classes of electrical customers.

The request is contained in two petitions receipt of which was announced today by William J. McBrearty, chairman of the commission, who fixed October 29 for hearing in Lansing.

The first proposal would reduce by \$1,500,000 bills to be sent to farm, residence and commercial customers during the remainder of 1946. The second would effect a rate reduction of three per cent for service to industrial customers effective January 1, 1947. The estimated saving to industrial customers for the year 1947 is \$927,-

The immediate reduction to he first class of consumers would amount to 30 per cent of one month's commercial bill and 15 per cent on the two month's residential bill. Commercial customers are billed monthly, so the entire 30 per cent would be deducted from their November bills. Since farm and residence customers are billed bi-monthly, 15 per cent would be deducted from their November and December

The discounts, if approved as proposed, combined with the rate reduction which became effective last January 1, will bring the total 1946 saving to customers to more than \$5,000,000. It was believed that the general rate reduction of last January would reduce customer's bills by \$3,000,-000 but the increase in the volume of business over the estimate made at that time brought the customer savings to more than

Prentiss M. Brown, chairman of the board for Detroit Edison. explained that proposal is in fulfillment of a promise made to members of the Public Service Commission last December when the \$16,450,000 refund of Federal tax monies collected for 1944-45 and the January 1 rate cut of \$3,000,000 were agreed on. The amount of the rate reduction was approved by the commission on the sugestgion of Edison officials that further voluntary adjust-ments would be proposed later in the year if justified by income.

The commission today notified the City of Detroit and other interested parties of the proposals made and the date of hearing.

In a third petition the Edison company proposes to strengthen its Employes Retirement Fund by transferring to that fund from reserve accounts the sum of \$5,804,500. This amount represents a savings in Federal taxes accom-plished under the Federal Income Tax Law which provided deduction to compensate for the emergency construction of facili-ties required to assist in the prosecution of the war.

Rock Eleven Bows To Redford Union

P.H.S. bowed to defeat last at Plymouth Park, and the first quarter of the game was an excitfavor, of Redford Union, but the Plymouth squad was in there fighting, and it looked as though they had an excellent chance of winning. But in the last three quarters Redford Union took a large lead. After adding four more touchdowns to their score, they ended up winning 33-6.

Frosh Boys Challenge Girls in Volleyball

The up-and-coming boys of the class of 1950 have challenged the girls of the class to a volleyball contest to be held in the gym. The captains for the two teams are girls, Nancy Morrow, and boys, Harry Blessing.

The girls' volleyball tournament is about half over and two teams are found to be tied for first place with six points each. Two points are credited to the winning team, one to the two teams if they tie, and none to the losing team. Team V (Alliene Burns) and Team VIII (Nancy Morrow) are the teams in first place. Volleyball is played every Tuesday night after school in the High School Gym.

Not only boys, but girls too, participate in inter school sports. The Junior and Senior members of Leaders' Club are playing hostess to thirty girls from Belleville High School Wednesday, October 30, at 3:30 in a get acquainted play day. The girls will be divided into teams according to the color ribbons they receive when they arrive. The purpose of the play day is to get acquainted and promote good school spirit. Light refreshments will be served.

Sophomores Hold First Dance Tonight.

All students of the Plymouth High School who have thirty cents to spend for a good time are invited by the Sophomores to the "Balloon Bounce", their first dance of the year which will be held tonight, November 1, in the high school gymnasium.

The chairmen of the various committees striving to make this the best dance of the year are: Irving Stewart, general chairmen and chairman of music; Margie Tait, chairman of advertising and decorations; David Heinzman chairman of refreshments; Jack Scheel, chairman of floor and lighting; and Edson Whipple, chairman of tickets committee. HERE'S what we've done so far this year to provide more telephone service

SINCE THE FIRST OF THE YEAR MICHIGAN BELL . . .

- Installed 300,000 telephones . . . 70,000 more than during any previous ninemonths period.
- Reduced the total number of waiting applicants from 113,000 to less than 80,000 even though thousands of new applications were added to those already on file at the beginning of this year.
- Supplied telephone service to 17,000 additional customers in rural areas of Michigan,
- Completed 20 major building additions or alterations; and pushed ahead on the construction of three new buildings and 14 other major additions or alterations.
- Added 380,000 miles of wire and installed enough additional central office switching equipment to serve 130,000 more customers.
- Constructed new telephone plant costing \$28,250,000 to serve Michigan telephone users.

The first nine months of 1946 were the busiest months Michigan Bell has ever known. Despite shortages of many critical materials like copper, steel and lead-shortages which affected our supply of telephone equipment—we put in more telephones than during any previous nine-months period . . . as many, in fact, as during any previous entire year. But even that record-breaking performance was not enough.

We have been able to take care of a large majority of the customers who had placed their orders for telephones with us prior to January 1, 1946. And we hope to complete orders for the rest of those applicants by early next year . . . in many cases sooner Of course, in areas where facilities were available, we have been able to fill many orders that have come in this year. Most of those

installations have been for new applicants entitled, under govern-ment priorities, to get service ahead of older applicants with lower priorities. By and large, however, new low-priority applications have piled up almost as fast as we have been able to clean up the old

ones. But we have made progress in meeting the sky-rocketing demand for telephones.

(ELEPHONE USE UP

The first nine months of 1946 also brought an extraordinary increase in the use of the telephone. Local calls in Michigan now are running at the rate of 7,397,000 in a normal business day ... an increase of 1,393,000 a day over last year. Long distance calls are at an all-time high, averaging nearly 160,000 a day compared with 143,000 in 1945. As a result of the record-breaking load on the equipment, service is not always as good as we want it to be. But despite that, more people are getting more good telephone service now than ever before.

THERE'S STILL A BIG JOB AHEAD

Nearly 80,000 applicants in our territory still are waiting for telephones. No effort is being spared to bring service to them, and to improve the quality of service for everybody, just as fast as we can. In the face of continuing material shortages, we shall do our best to get all the additional equipment we need to provide more and better telephone service as quickly as possible. Michigan Bell's huge \$150,000,000 expansion and improvement program is dedicated to that end.
