A January meeting of the mothers of the Starkweather school was held Tuesday in the auditorium. Two piano selections were rendered by Doris Puckett and a very interesting talk and art display of the children's work was presented by Miss Meigan, the art director.

The Lutheran Woman's Club met Monday evening, January 6, at the home of Mrs. Edward Van Loon on Wing street. Mrs. Otto Beyer, president of the mission society of the church explained the work and obligations of the society to the club. Refreshments were served by the hostess.

WEDDINGS

Saiem Girl Wed To R. J. Keller Saturday

On Saturday afternoon, January 4, Royal J. Kelly and Louise E. Atchison were united in marriage by Rev. C. M. Pennell at the bride's home in South Lyon.

Mrs. Keller is the daughter of Earl Atchison and Mrs. Frances Atchison of Salem township, and Mr. Keller's parents are Mr. and Mrs. Peter J. Keller of Northville. The young people were attended for her wedding the bride chose a light tan suit with black accessories and a corsage of white carnations, while Mrs. Atchison wore a pastel blue suit with accessories and corsage similar to the bride's.

A reception for the young people was held in the Peter J. Keller home, co-incident with the celebration of the fiftieth wedding anniversary of the groom's parents.

Roy F. Kincade Marries Ontario Girl

At one o'clock Saturday, December 28 Miss Helen L. Holden, daughter of Mrs. Moe Morgan of Ontario and the late John Holden, became the bride of Roy F. Kincade, son of Mrs. Nettie E. Kincade of Plymouth. The wedding took place in the Church of the Nazarene in Plymouth. Rev. Wm. O. Welton, performed the ceremony.

The bride chose a grey striped suit with navy blue accessories and wore a corsage of Johanna Hill roses.

LaVerne Paddock, sister of the bridegroom, was the matron-of-honor. She wore a light grey suit with burgundy accessories and a corsage of Talisman roses.

Andrew Lincoln, Jr. attended the bridegroom as best man.

A reception was held following the ceremony at the home of the bridegroom on North Holbrook.

The couple will tour the southern states and Canada for two weeks.

Stringed Instruments Orchestra to Be Tried

Plans are underway for the organization of a string orchestra in Plymouth under the direction of Paul Wagner, band director at Plymouth High school.

Persons interested in joining such a group are asked to meet in the band room of the high school at 7:30 p.m. next Tuesday with Mr. Wagner.

Girls' College Seeking Prospective Students

The Plymouth High school guidance department has reported that alumnae of seven Eastern colleges for women are holding a conference for prospective students on Saturday tomorrow, at the Women's City Club, in Detroit.

The conference is scheduled for Room A of the fourth floor from 10 a.m. to 4:30 p.m. Girls, parents and faculty members who are interested are urged to be present and introduce themselves to the alumnae representatives present. Information about entrance requirements, curriculum, campus expenses, scholarships and self-help opportunities at Barnard, Bryn Mawr, Mt. Holyoke, Radcliffe, Smith, Vassar and Wellesley colleges will be available.

JayCees See Football Pics

Plymouth JayCees had the rare opportunity of seeing a play-play account of the Michigan-Ohio State football game, which was played down in Columbus, Ohio, when the group met for its January meeting Wednesday evening at the Hotel Mayflower.

The Sports committee headed by Marya Patridge and Rockwell Smith arranged for the meeting to which JayCees' employers and other guests were invited. "Bosses' night" is an annual affair and this year reservations were made for more than 50.

Altho his primary duty is coaching, "Ernie" McCoy, who presented the movies, proved to be an intensely interesting speaker. He gave a cross-section and analysis of the University's 1946 football season and conducted a question and answer period, as well as a running commentary of the game. At Michigan he is assistant to Fritz Cramer, athletic director.

Manferd Burleigh Takes New Job

R. W. Budd of Cleveland, president of Central Greyhound Lines and identified with Greyhound for more than 23 years, has been elected president of Great Lakes Greyhound Lines, a position in which he will direct a broad expansion program, it was announced by President Orville S. Casson of the Greyhound Corporation.

F. W. Benefield of Chicago, vice president of Central and another veteran in the Greyhound organization, will become Central Greyhound president when Mr. Budd assumes his new duties with headquarters at Detroit.

Manferd Burleigh, who has been president of Great Lakes Greyhound for many years and has been associated with the Greyhound system since 1928, has resigned to become president of

Which Way?

The religions of mankind have one thing in common, they indicate to their adherents that by self-effort each one makes himself acceptable to God. This is done without consulting God in the matter. A parallel case would be a man caught after committing a crime and being brought before a judge, denying the judge the right to speak for society, and then the criminal proceeding to set his own sentence according to his own taste.

This is all contrary to what the Bible teaches. The Bible is God speaking, there it is made clear how a man can be made acceptable to God. There is only one way, Jesus said, "I am the Way, the Truth and the Life; no man cometh unto the Father but by Me."

NOTICE OF Board of Review

Notice is hereby given that a meeting of the Board of Review will be held in the Commission Chamber at the City Hall on Friday, January 17, 1947, from 9:00 A.M. until 5:00 P.M. at which time the following special assessment rolls will be reviewed:

- Roll No. 137, Sunset Avenue from Blanche St. to Junction Ave., storm sewers
- Roll No. 138, Auburn Avenue from Penniman Ave. to Junction Ave., storm sewers
- Roll No. 139, Evergreen Avenue from Blanche St. to Junction Ave., storm sewers
- Roll No. 140, Arthur Street from Blanche St. to Junction Ave., storm sewers
- Roll No. 141, Forest Avenue from Wing St. to Ann Arbor Trail, sanitary sewers
- Roll No. 142, Forest Avenue from Wing St. to Ann Arbor Trail, water main
- Roll No. 143, Pacific Avenue from Williams Ave. to Junction Ave., grading only
- Roll No. 144, Park Place, Garfield Ave., McKinley Ave., and Maple Ave., sanitary sewers

Any property owners deeming themselves aggrieved by the assessment will have an opportunity to be heard. Any person dissatisfied with the decision of the Board of Review, may appeal to the City Commission at its next regular meeting after the completion of such review by the Board.

ARNO B. THOMPSON,
City Assessor

American Business, Inc. Subject to Interstate Commerce Commission approval, the operations of Cincinnati & Lake Erie Transportation Co., which were recently acquired by the Greyhound Corporation, will be merged into Great Lakes Greyhound Lines.

It is also anticipated that certain other operation divisions of the Greyhound system will be placed under Mr. Budd's direction. He will remain as a director of Central Greyhound Lines.

Mr. Budd's career with Greyhound began with Northern Greyhound Lines in Minneapolis in 1926 as a mechanic's helper. He became president of that company in 1954, was moved east in 1931, and 1933 he was appointed chief executive of Central Greyhound. Under his guidance the mileage operated by Central has increased threefold, providing Mr. Budd with the broad experience which should materially assist in the further development of Great Lakes Greyhound.

Mr. Benefield was vice president of the former Greyhound Management Co. at Cleveland before he took a similar post with Central Greyhound at Chicago. He was key figure in the extension of Greyhound's lines into the east a score of years ago.

More Xmas Mail Handled Here In 1946 Than 1945

A net gain of six per cent in the total number of cancellations was recorded by the Plymouth postoffice during December, according to Mrs. Beatrice Schultz, assistant postmaster.

Mrs. Schultz also reported that the postoffice receipts for the same period were \$17,566.99. She said that figure was not as high as had been anticipated. The reason was the railroad curtailment of service due to the coal shortage.

Several local plants, notably the Daisy, discontinued planned heavy shipments at that time and then did not resume them until after the holidays, Mrs. Schultz said.

The total number of pieces of mail sent out from the Plymouth postoffice during December was 484,801, exclusive of metered mail. In 1945 the December cancellations were only 456,558.

Mrs. Schultz said despite December's poor financial showing the office managed to show a gross of \$42,927.93 for the last three months in 1946. This was an increase of \$7,175.30 over the same period during 1945, she said.

As usual, Mrs. Schultz reported, the mail came in all at once. Of course it was partly due to the surprise ending of the miner's

strike, she believed. Anyway the Plymouth postal workers put in long and hard hours to try and move all Christmas mail on time.

"It was at a great personal effort on the part of all concerned," she said, "that Plymouthites got their incoming Christmas mail on time and had their outgoing mail dispatched without delay."

Mrs. Schultz praised the general public for their fine co-operation. She reported that many times the mailing rush was so great that all windows in the office had lines of customers. With very few exceptions all patrons were courteous and co-operative, she said.

The staff appreciated that spirit and told Mrs. Schultz it made their job easier when the public responded in that manner. Persons thought they would not be able to do much Christmas mailing, Mrs. Schultz believed, because of the miner's strike.

When it ended suddenly they scrambled wildly to get their packages off at the last minute. She said the only mail that could not be delivered before Christmas was that which came in the afternoon before. Had it not been for the coal shortage the December cancellations and receipts at the postoffice would have set a new record, Mrs. Schultz said.

The state of Ohio leads all others in capacity for the production of both electric furnace steel and Bessemer steel.

What Makes American women's voices so shrill?

County Primary Set for Feb. 17.

Qualified electors of Plymouth will join with other Wayne County voters on Monday, Feb. 17, to cast ballots in a primary election to name candidates for the various circuit judgeships and county auditor.

There is a keen race on for the various county juror posts and the field for the position of county auditor is full. The voting is expected to be very heavy as electors visit the polls to support their favorites.

There are three city commissioners to be elected in Plymouth this year. If more than that number of candidates file nominating petitions, the city primary election will be held at the same time. No balloting will be necessary if only three candidates file.

Poultry Experts Give Egg Tips

Will I buy chicks this year or will I carry my yearling hens over the second year?

That's a question that Michigan State college poultry department specialists often get this time of the year from farmers throughout Michigan. Howard C. Zindel, extension specialist, says it's an established fact that pullets lay more eggs than hens, and lay them when eggs are selling at the highest prices.

July to December is usually the season of highest egg prices. Early hatched pullets produce more eggs from August through December than will older hens. Older hens hit the production peak in their second year of laying between January and June—when egg prices are usually at their lowest.

Heavy priced yearlings should not be kept over for market eggs alone according to the recommendation of the poultry specialists.

Orders for new chicks should be placed immediately. Soon copies of a list of hatcheries operating under the national poultry improvement program will be available from county agricultural agents and the Msc. poultry department. These hatcheries are inspected for control of pullorum disease and chicks are produced from eggs produced from tested and approved flocks.

Chicks should be ordered for early delivery to take advantage of early layers during late summer and early fall. When chicks have been ordered, farmers should then begin making ready a sanitary, warm and roomy brooding house to bring the chicks along in a method that will insure successful growth.

The founder of the Salvation Army was William Booth, a native of Nottingham, England. As its leader he was a self-styled general, who, with his wife, Catherine, Manford Booth, gave impetus to international evangelical groups. Mrs. Booth developed the distinctive uniform and the "Hallelujah" bonnet worn by all women of the organization.

PROCLAMATION

TO Whom These Presents Shall Come:
 WHEREAS, The United States Junior Chamber of Commerce, the Michigan State Junior Chamber of Commerce and their member organizations are dedicating their efforts toward a greater America and a greater Michigan and
 WHEREAS, The young men of this state are given the opportunity to serve their community and training through the medium of the Junior Chamber of Commerce participation, and
 WHEREAS, The program of service as presented by the state and national offices of the Junior Chamber of Commerce is helpful in presenting projects that will improve the welfare of the citizens of this state, and
 WHEREAS, The United States Junior Chamber of Commerce is observing its 26th year of service to the nation, and has pledged its future services to the nation, and has pledged its future services to the welfare of all Americans.
 Now, THEREFORE, I Kim Sigler, Gov. of the State of Mich.

believing that the aims, ideals and accomplishments of Young Men as exemplified by the Junior Chamber of Commerce, is worthy of the attention of all citizens within this state, do hereby proclaim the interim between January 15 and January 22, 1947 as "Junior Chamber of Commerce Week" and urge the citizens of this Great State to give full consideration towards the future service and activity of the Michigan State Junior Chamber of Commerce and its members throughout the nation.

IN TESTIMONY WHEREOF, I have set my hand and have caused to be affixed the Seal of the State of Michigan this day, January 2, 1947.

Kim Sigler,
Governor.

Even if opportunity knocked the door down some people would not be interested.

A lot has been accomplished in improving automobile. The thing now is to improve the people who drive them.

Making new mistakes is not as mad as making the old ones over and over again. The only chance some husbands get to talk—is in their sleep.

The man who "wanted but little here below" is the only one getting his share these days.

A friend of ours said his son was looking for a wife that is too proud to make him work.

If it pays to be careful, the more careful you are the better it pays.

FOR CREAM QUALITY IMPROVEMENT YOU NEED A De Laval Separator
 There is a serious need for cream quality improvement. A new De Laval Separator provides one sure way to improve the quality of your cream (and your profits, too) because it will:
 → Produce smooth, even textured cream, best for churning.
 → Produce cream uncontaminated and undiluted.
 → Maintain even, unvarying cream test.
 → Produce better butter, fat for better butter—today's urgent need.

30" SNOW PLOW 24" LAWN MOWER
30" SICKLE BAR
SIMPLICITY

WHETHER YOU HAVE ONE COW OR MANY... THERE'S A DE LAVAL SEPARATOR FOR YOU
 There is a De Laval Separator just right for you in size, style and price. Regardless of size or price, each is De Laval quality through and through and will:
 → Skim cleaner.
 → Earn more.
 → Cost less per year of use.

Only SIMPLICITY has the SIMPLICITY "patented" QUICK-HITCH. There is nothing quite like this famous SIMPLICITY QUICK-HITCH. Gives a positive hitch that will not let go until the operator wants to change attachments. Takes less than a minute to change attachments. No tools or wrenches required.

Near-Sighted Students
 About 7 per cent of all American children entering kindergarten are near-sighted, but the defect increases rapidly from grade to grade, with surveys indicating that approximately 24 per cent of all students are near-sighted upon graduation from high school. In college, visual shortcomings continue to increase, with statistics indicating that 31 per cent of the young men and women graduating from college are myopic.

Indians Use Blowguns
 Blowguns with poisoned darts are by no means exclusive to the Orient. Indian tribes of Ecuador and Brazil make bamboo pipes more than 12 feet long. They use darts up to 18 inches with the points dipped in juice of the native strychnine fruit to bag large game, and sun-baked balls of clay for small game. When the Iroquois braves roamed the region of Upper New York state in the pre-Colonial times, blowguns were among their weapons.

Store Fish
 Preserve fish in freezer lockers or home freezing cabinets. To freeze the fish, chill them promptly after they are caught. As soon as you can, scale and dress the fish, remove the head, and wash the part left. Small fish are usually frozen whole with fins and tail removed; large fish are cut in pan-ready steaks or boneless strips. Wrap the fish in moisture-vapor-proof paper and seal carefully. Storage is at zero degrees.

First Vet Benefit
 The first national law for veterans' benefits was passed by the Continental congress in 1776. By this act veterans were promised half pay in case of disability sufficient to interfere with earning a livelihood. Since no federal funds were available at the time, this law acted only as a recommendation to individual states. However, a United States congressional act of 1789 took over all state-paid pensions as a national responsibility.

Guard Health
 Not only aboard trains and ships, but in schools, homes, army and navy bases at home and abroad, bactericidal lamps are guardians of health. They aid in preventing contamination in blood plasma laboratories, penicillin processing plants, textile plants and in food and beverage processing.

Sign of Age
 One of the marks of time appearing in some eyes are the little white spots seen at the edge of the cornea, says the Better Vision Institute. Appearing generally in middle life, sometimes these spots are mistaken for cataract; actually they are harmless and have no effect upon vision. They are, however, a sign of age.

Aid Exploration
 War-improved aerial reconnaissance techniques will be a boon to postwar exploration of mineral deposits. Color cameras on high flying planes will register varying colors and shades of vegetation and rock formations which are clues to the identity of underlying geological strata.

Gray Tones
 For silver gray add a trace of lampblack and raw umber to white and, if you prefer, a trace of raw sienna also. For pearl gray add chromium oxide (green) and iron oxide (red) to white. For French gray add Prussian blue to gray. For stone gray add raw sienna and raw umber to white.

Curbs Fading
 Garments containing acetate rayon may fade due to atmospheric gases. A final rinse of one heaping teaspoon of washing soda to one quart of warm water will reduce this fading. Don't store acetate rayon in paper or near felt and wool. This increases the fading.

Remove Excess Dye
 Before wearing a new dark slip, wash it to remove excess surface dye. Otherwise the dye may rub off on a dress or foundation garment. Squeeze slip in lukewarm suds until water is colored. Wash again in clean suds. Rinse in lukewarm water until the water remains clear.

Declaration of Independence
 The Declaration of Independence was not signed on the Fourth of July. Although it reads, "In congress July 4, 1776," the Declaration of Independence was ordered to be engrossed and signed on July 19 and the last signature wasn't affixed until 1781.

Suitable Perfumes
 The young girl should wear perfumes of blossoming, "poetic" scents. Dark, heavy persons might use light evasive odors to contrast with their type, or heavy odors to harmonize. For the middle-aged woman, perfumes advise refreshing types.

Drying Food
 Drying of food for home use has been a common practice in rural areas for many years. It usually consists of placing the prepared products in the sun, in the oven, over the stove, or in the attic until sufficiently dry for storage.

Woods Cooler
 During the hottest weather it may be more than 5 degrees cooler in the woods. The air is also somewhat cooler above the trees, too, and this cooling influence may extend as high as 3,000 feet above forested areas.

Safe Alteration
 Before altering new cotton house dresses, children's dresses or slits, make sure they are marked "fully pre-shrunk" or "residual shrinkage less than 1 per cent." If they are not so marked, launder them before making alterations.

BOWLING
 High Scores for the week
 Men
 1. M. Boughman 277
 2. J. Stremich 252
 3. R. Hitt 244

Chicken Delousing
 To delouse hens, a shallow box of dry sawdust is placed in the henhouse and sprinkled with louse powder. When the hens scratch, the powder settles in their feathers, killing the lice.

Selective Breeding
 Selective breeding has reduced undesirable characteristics of sheep, such as wool blindness and excessive skin folds that detract from the value of the animals for both meat and wool.

Stretch Drinks
 When making lemonade or orangeade, run the oranges or lemons through a food chopper. You'll find the juice will go twice as far and taste fruitier.

White Lilies
 White lilies look best against an evergreen background. All lilies appear to advantage when planted in small groups among other plants.

Piecowork Quilts
 To display piecowork quilts, gather or pleat a ruffle and tack it on the board below the mattress, using the quilt as a spread.

TODAY'S HERO by CREAMO
 "Look, Dear, I saved six slices of CREAMO bread!"
CREAMO BREAD

As plants take hold, not for the sake of staying, but only that they may climb higher, so it is with men.—Beecher
 I know the Bible is inspired because it finds me at greater depths of my being than any other book.—Coleridge
 One sure way to make a life-long enemy is to call the guy's bluff.
 Wichita, Kansas, began to be a grain market and milling center as early as 1874.
 Every new woman you meet and like seems to present some new problem.
 The hard part about making good is that you have to do it every day.

Mr. and Mrs. George Burr entertained at a New Year's party at their home on Sheridan avenue in honor of their son, Sanford, who was home from Albion College for the holidays. The guests were Caroline Goodale, Marian Oldenburg, Dorothy Woodbury, David Nelson and son Stevens, of Plymouth, Marjorie Boothroyd, of Detroit, and Philip Elliot, of Jackson.

Mr. and Mrs. Charles Prom of Detroit entertained Christmas day the following: Mr. and Mrs. James Gates, Mr. and Mrs. Ross Gates, Mr. and Mrs. Ernest Robinson and son Louis, Mr. and Mrs. Jerry Cooper and Mr. and Mrs. Frank Merkson of Detroit.

Mr. and Mrs. Ross Gates entertained New Year Eve Mr. and Mrs. Earl Trinkaus of Northville, Mr. and Mrs. Robinson, Mr. and Mrs. John Moyer, Mr. and Mrs. James Gates of Plymouth and Mr. and Mrs. Charles Prom of Detroit.

The Woman's Club of St. Peter's Evangelical Lutheran Church met at the home of Mrs. Edward Van Lee on Wing street Monday evening. Eighteen members were present. After the business meeting a discussion on missions was held. Refreshments were served by the hostess.

The Past-Matrons Club of the O.E.S. will hold their annual meeting and election of officers Thursday evening, January 16, at the home of Mr. William Downing on South Main street with Mrs. Merton McCormick as co-hostess. A dessert will be served at 7:30 o'clock, after which the meeting will be called to order.

The Plymouth Branch of the Michigan National Farm and Garden Association will hold its annual meeting and election of officers on January 13, at 2 o'clock at the home of Mrs. Edwin D. Bolton, Mrs. Horace Johnson will be hostess assisted by Mrs. Ward Jones, Mrs. Milton Laible, Mrs. A. L. Lantz, Mrs. Roy Lindsay, Mrs. Ralph G. Lorenz, and Mrs. Ralph J. Lorenz.

Cadet Robert Kimbrough of Wentworth Military Academy Lexington, Missouri spent the holidays with his parents Mr. and Mrs. Richard Kimbrough of South Main street. Robert and his guests two of his classmates, Cadet Loren Newman of Manhattan, Kansas, and Cadet Rafael Davila of Puerto Rico. The three young men spent part of their furlough in Manhattan, Kansas before returning to their studies at Wentworth Military Academy.

Mrs. Charles Neal entertained the members of her bridge club and their husbands at a pot luck dinner Thursday evening at her home. Those present were Mr. and Mrs. Earl Reh, Mr. and Mrs. M. A. Arnold, Mr. and Mrs. Harry Deyo, Mr. and Mrs. L. Crane, Mr. and Mrs. Jack Taylor, Mr. and Mrs. Vaughn Smith, Mr. and Mrs. S. M. Heisele.

Mr. and Mrs. Henry Lorenz were pleasantly surprised on their 10th wedding anniversary Saturday, when twenty of their friends and relatives honored them with a party which commemorated that occasion and also served as a housewarming. They have just moved into their new home on Burroughs avenue. A sumptuous midnight luncheon was served and Mr. and Mrs. Lorenz were presented with a gift.

Mrs. Nicholas Schultze announces the engagement of her daughter, Miss Olga Bebbington to Robert Louis Thomson, son of Mr. and Mrs. Robert Richardson Thomson of Battle Creek. The wedding will take place in April.

Miss Bebbington is a graduate of the University of Michigan. Mr. Thompson, after graduating from Culver Military academy, attended the Michigan College of Mining and Technology. He then spent three years with the Air Transport Command, and is now a senior at the University of Michigan.

Mr. and Mrs. George Huebler, Mrs. J. M. Swegles, Mr. and Mrs. Ernest Vealey of this city and Mr. and Mrs. S. Toles of Ypsilanti were among the dinner guests at Hillside on New Years day. Later the group went to the Swegles home where the afternoon was pleasantly spent playing bridge and pinocle. About 7:30 in the evening a delicious supper was served by the hosts.

Mr. and Mrs. Robert Ingram, of North Territorial road were hosts of a co-operative dinner at their home, Saturday evening. The guests included Mr. and Mrs. William Campbell and Robert, Mr. and Mrs. Louis Schmidt and Barbara, Mr. and Mrs. Paul Wagner and Carol, Mr. and Mrs. R. S. Harding and Richard, Mr. and Mrs. H. A. Nelson and sons, James and David, and Mrs. A. J. Alford and children.

Their guests were Mr. and Mrs. Austin Whipple, Mr. and Mrs. Carvel Bentley, Mr. and Mrs. William Morgan, Mr. and Mrs. Louis Truesdell, Mr. and Mrs. F. R. Heisele, and Dr. and Mrs. A. E. Van Ornum of Plymouth, and Mr. and Mrs. Harold Simms, of Birmingham.

The Tuesday Contract Bridge club will meet at the home of Mrs. George Chute Tuesday afternoon, January 14. The following members will be present: Mrs. Claude Dykhouse, Mrs. Harold Hill, Mrs. Elmore Carney, Mrs.

Charles Draper, Mrs. George Smith, Mrs. Harry Reeves, Mrs. William Kaiser, Mrs. George Burr, Mrs. Albert Stever, Mrs. Harold Stevens, and Mrs. Wyman Bartlett.

On Sunday evening, January 12, the Presbyterian Church of Ann Arbor will be host to the young people from the eleven churches which make up the seventh district of the Detroit Youth Presbytery. There will be a speaker provided by the youth group from South Lyon. The devotional services will be led by the officers of the Plymouth Youth Fellowship. Following the program, refreshments will be served by the Ann Arbor group.

An important observation, which is still true, was when Lewis Cass, many years ago, said: "The schoolmaster is a more powerful antagonist than the soldier, and the alphabet is a more efficient weapon than the bayonet."

OBITUARIES

Dr. John F. Kelly
Funeral services were held Wednesday, January 8 at 2 p.m. from the Schrader Funeral Home for Dr. John F. Kelly under the auspices of the Myron Beals Post of the American Legion. Dr. Kelly was born a doctor of medicine in the City of Plymouth for the past eleven years. He passed away suddenly Sunday, January 5 at his home 543 Deer street. Surviving are his widow, Mrs. Velda M. Kelly; four sons and one daughter, John Noud Kelly of Indianapolis, Indiana; William Kelly of Kenosha, Wisconsin; Ben, Nancy and Daniel Kelly, all of Plymouth; two brothers, Ralph and Edward Kelly, both of Detroit; and two sisters, Mrs. Mary All-house of Chicago, Illinois; and Mrs. Edith St. Peter of Pittsburgh, Pa.; other relatives and a host of friends. Two hymns were rendered by Mrs. M. J. O'Conner at the organ. Members of the American Legion acted as pallbearers. Interment was in Riverside cemetery.

RICHARD E. SUGGS
Richard E. Suggs, born in Princeton, Arkansas, December 27, 1870, passed away January 4. He is survived by his wife, Mrs. Ruby Snipes Suggs and eight children: Mrs. Marie Andrew of Indianapolis, Indiana; Mrs. Jewell Taylor of Miami, Florida; Mrs. Evers Suggs of Detroit, Michigan; Mrs. Thomas Suggs of Atlanta, Georgia; Mrs. Clara Tombley of Miami, Florida; Earl Suggs of Kokomo, Indiana; John Suggs of Miami, Florida; and one sister, Mrs. Mary Lizzy Perry of Americus, Georgia and also seven grandchildren.

Funeral services were conducted by the Wilkie Funeral home at 2:30 o'clock at the home of Mrs. Ethel Poole of Stark road. Interment in Parkview Memorial cemetery. Rev. L. A. Johnson of Detroit officiated.

Whiten Linen
To whiten linen when it looks gray, put four slices of lemon with end in the water in which you had the linen.

Worn Garments
Badly sun-faded or worn garments often will not dye uniformly and may even disintegrate in the faded areas.

Hybrid Corn
More than 50 per cent of the corn grown in the nation and 90 per cent grown in the corn belt is hybrid corn.

Loaves in Barrel
One barrel of flour is considered sufficient to make an average of 270 one-pound loaves of bread.

Watch Crystal
Laboratory tests show an ordinary watch crystal will crack under 20 pounds weight.

Dry After Swim
A wool bathing suit should be washed and dried in the shade after each swim.

Prevent Erosion
Pine trees planted on idle acres prevent erosion and pay profits as a timber crop.

5,000 Languages
There are about 5,000 different languages spoken in the world.

HOW MUCH Do You Know about Christian Science?

Even if you know nothing about Christian Science, take this opportunity to learn some of the facts about this scientific religion which heals sickness and solves human problems.

Accept this invitation on behalf of yourself, your family, and your friends, to hear

A FREE LECTURE entitled **"Christian Science: The Religion of Love, which Heals"** By Mrs. Elisabeth F. Norwood, C.S.B. of Brookline, Massachusetts

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts

Cordially Invites You

Robots: Read Instruments
Electronic robots that read instruments more accurately than a man can, and which automatically print their readings on a strip of paper, are used to measure the speed of motors used in airplane wind tunnel tests.

Tougher Steel
The metals nickel, chromium, molybdenum and vanadium are used in a number of alloy steels, where their function is to make it possible to obtain stronger and tougher components than can be produced from simple carbon steels.

Avoid Delay
Neglecting to repair a machine until it breaks down is a waste of time during the growing season; needed repair parts should be ordered early, and the machine reconditioned before the season begins.

Tasty Broth
The carcass of the old bird makes a delicious broth so don't be wasteful and throw it away. Use chopped celery for seasoning and rice or barley for a bit of substance. The results are excellent.

Air Expansion
Nearly half of the \$4 billion dollars spent in the past decade by the federal government for military aviation has been expended in the last three years to pay for U. S. air superiority.

Commercial Cryolite
Commercial cryolite all comes from the southwest corner of ice-covered Greenland. It is mined near the town of Ivigtut, in a pit several hundred feet across, and about 200 feet deep.

Clean Husking
Cleanliness of husking is a factor of great importance in storing corn of high moisture content because husks and silks seriously retard air movement through the crib.

Brown Sugar
Brown sugar kept in the refrigerator will not lump or harden. When mayonnaise jars are almost empty mix sandwich filling in the jar and nothing is wasted.

Preserve Olives
Olives, after they are opened, will keep fresh much longer if they are covered with salad oil and kept in the refrigerator or other cold place.

Free-Machining Steels
Sulfur is added as the element to certain steels to increase their machinability, and such steels are known as free-machining steels.

Food Fuel
An active farmer needs 3,500 to 4,000 calories a day; his wife needs 2,600 calories. Calories are the "fuel" provided by food.

Maintain Pasture
Mere establishment of an improved pasture is not enough. The pasture must be maintained in good condition.

First Graduate Architect
America's first architecture graduate was Clifford Ricker, graduated in 1872 at the University of Illinois.

Undercoating Enamel
A better job of enameling can be achieved by first using an undercoater, which usually is made by the same manufacturer who makes the enamel. Directions for use of both the undercoater and the enamel usually are found printed on the container.

Know Neighbors
Before neighbors can work together effectively they need to know their neighborhood. A series of meetings may not only help to solve problems that must be faced, but may restore some of the social values of neighborhood life that have been lost.

Wet Book
To remove water that has been spilled on the pages of a book without damaging the paper place a blotter on each side of the wet page, then press with a medium hot iron, until dry. The leaves will not crinkle.

Iceing Vegetables
Ice may be too cold for some vegetables as they go to market, report scientists. Ice directly from freezing tanks may be much colder than freezing and need warming up to properly protect vegetables.

Seal Cabinet
Brush paraffin over all the seams in the floor bin, sugar drawer, and other drawers in the kitchen cabinet and let dry thoroughly. This prevents leaks and helps keep the cabinet clean.

Ancient Ruins
No one knows how old prehistoric ruins located near Tucson, Ariz., are but 2,300 years is the estimate of archeologists who think it was the base of a lookout tower.

First Trans-ocean Cable
In 1866, the first cable to connect Europe and the American continent was completed, stretching from Ireland to Newfoundland.

Free of Grubs
The only cattle raising area believed to be free of cattle grubs in this country is the valley of the Red River of the North—an area only 40 to 50 miles wide.

Gypsum Wallboard
Gypsum wallboard comes in large panels which can be easily sealed so that no joints are visible. It will take any kind of interior decoration.

Pre-Invasion Shelling
Pre-invasion shelling by U. S. warships was said to have destroyed most of the lowland trees on Peleliu island in the Palaus.

Honor War Dead
Memorial stadium at the University of Illinois, seating 69,000 persons, is a gift to alumni in honor of World War I dead.

Separate Hangers
Hanging each garment on a separate hanger keeps the garment in shape and avoids wrinkles.

Cheapens Cost
Silage will cheapen the dairy ration. Cheapening this ration brings an increase in profit.

Grade Label
A grade labeled brand is one that states the ranking quality, as determined by point scoring the important characteristics, on the basis of established grade standards, in a single composite term, of such consumer understanding as excellent, good, fair, and poor. Determining factors are color and maturity, inherent in the raw material; and uniformity of size and absence of defects, representing the workmanship of the processor.

Iron Rails
Until 1844 there were no plants in the United States which could make "heavy" iron rails although in that year more than 4,000 miles of railroad had already been built. The first production of "heavy" iron rails in this country got under way early in 1844 at the Mt. Savage Rolling Mill in Allegheny County, Maryland, which had been built the year before by the Maryland and New York Iron and Coal company.

Cleaning Rugs
Use the same cleaning methods for linen rugs as for all-cotton. Linens are very absorbent, take up a great deal of water during any cleaning process, and should be dried thoroughly. A cotton or linen rug, like any other, will pay you dividends in longer service if you take time to give it proper care. Keep it clean—pamper it, and its good looks will flatter your ability.

Flavor Dressing
You'll like the effect of chopped or sliced ripe olives for body and flavor in a hot dressing of seasoned oil and vinegar, which reduces crisp lettuce to a desirable pungent, wilted salad. Add thin rounds of green onions to taste and pour over head lettuce, torn in fragments, or over leaf lettuce for a pleasant change in salad enjoyment.

Beautiful State-House
Settled first by Scotch-Irish from Pennsylvania and Virginia and then by New Englanders, Ohio became a state in 1803. Its beautiful state house at Columbus was completed in 1861. The limestone was transported from quarries northwest of the city by a railroad built especially for the purpose.

Amino Acid
Arginine, an amino acid, has been found important in the production of sperm cells. A diet deficient in it resulted in a marked decline in the production of these cells, but when it was replaced in the diet, the cells were again produced. The effect of arginine on sterility is now being studied.

Heat Control
A newly-invented heat-control device makes it possible for each apartment in a large building to have individual heat. No longer does one temperature have to be set for the entire house. Special types of thermostats control the heat to suit each occupant.

Missouri is the leading manufacturing state west of the Mississippi river. Its most important manufacturing consists of mill products, tobacco and cigars, malt liquors, lumber and foundry and machine products. It also has large boot and shoe factories and ranks high in the printing and publishing industry.

The winter catalogs of the big mail order houses are in the mails, featuring many new postwar products, and offering price reductions from 10 to 49 per cent under the previous fall catalog listings.

Spun glass "sound blankets," cemented to the steel roofs and quarter panels, are used to insulate Kaiser Special and Frazer automobiles from objectionable road noises.

Ford Motor Company's six wartime ocean ships, which before the war were operated on the Great Lakes as barges of the company's fleet, have been sold to Chinese and Greek interests.

In Louisville, Paul Johnson left his clubhouse late at night, started home, got slugged, awoke several hours later in a polka-dot dress.

Will somebody please break down a \$50 check for night club expense and tell us exactly how much goes for taxes—liquor, cigarette, luxury, sales, income, etc.?

DISTRIBUTOR GENERAL TIRES

Ever Hear of a LAZY LAMP BULB?

PROBABLY NOT. Every year, electric lamp bulbs are doing a better and better job.

But lamp bulbs are often overworked in winter—when the days are dark and the nights are long. In fact, the average lamp bulb in the home is lighted almost twice as long in January as in July.

To spare yourself needless bother, be sure you have plenty of spare bulbs on hand. Your dealer has them—in all sizes—and all modestly priced.

Remember, too, that you can exchange burned-out bulbs for new ones at any Edison office. There's no charge, of course.

THE DETROIT EDISON Co.

Plymouth In New Phone Division

Plymouth is one of 46 exchanges included in a new operating division of the Michigan Bell Telephone Company, formation of which was announced today by Ben R. Marsh, vice-president and general manager.

Headquarters of the new, Eastern Division, which becomes operative Jan. 1, will be in the

Boulevard Building in Detroit with three district offices at Pontiac, Ann Arbor, and Royal Oak. The division will have more than 3,600 employees. Nearly 175,000 telephones are in service in the territory.

Chief officials will be: James F. Healy, division commercial superintendent, now on a similar post with the company's Southern Division at Grand Rapids; Harold L. Packer, division traffic superintendent, now general supervisor of traffic at Detroit; and Kenneth W. Thompson, division plant superintendent, now on special assignment to the general plant manager at Detroit.

efficient operation is expected by confining the Detroit Division to that exchange while forming a new unit out of the territory having a community of interest with Detroit.

Eastern will be the company's fifth division. The Northern Division, with headquarters at Menominee, covers the company's territory in the Upper Peninsula.

Eastern will include the following exchanges: Pontiac District—Pontiac, Clarkston, Lake Orion, Leonard, Oxford, Rochester, Mt. Clemens, Argonia, Armada, New Baltimore, New Haven, Romeo, Steca, Washington, Marine City, Ann Arbor District—Ann Arbor, Dexter, Whitmore Lake, Chelsea, Manchester, Plymouth, Livonia, South Lyon, Northville, Walker-Lake, Farmington, Ypsilanti, Willis, Milan, Wayne, Romulus, Belleville, Flat Rock, Carleton, Monroe.

Royal Oak District—Royal Oak, Southfield, Warren, Centerline, Rosville, Birmingham, Big Beaver, West Bloomfield, Wyandotte, Trenton, Rockwood.

Tall Forests
The tall forests of the Carpathian mountains—pine, oak, and beech—have helped make Romania a timber exporter. With wood products forming a quarter of the country's industrial output in times of peace. The disputed wedge of Romania's Transylvania contains three of Romania's five largest sawmills.

Prevent Clouding
A little glycerin rubbed over freshly cleaned windows or mirrors will prevent them from clouding over in damp or foggy weather. This may also be used for eye glasses, when the wear is forced to stand over steaming hot water.

Strange Grasshopper
Among specimens sent back to Smithsonian institution by American armed service men is a long-horned grasshopper from New Guinea measuring nearly six inches, with nine-inch wing spread.

Provide Shields
Give a new dress small under-arm shields and a back shield. These keep off perspiration and body-oil stains. A back shield, even a thin one, gives some extra warmth.

Find Cedar Chests Repel Moths
It was not until later chests were made of cedar because of the beauty and pleasant odor of the wood that people discovered they were moth-repellent.

Poisonous Plant
The cocklebur plant is poisonous to hogs, cattle and sheep and especially dangerous in the spring while plants are young and tender.

Save Polishing
You can save a lot of silver polishing if you wash your silverware in hot soapy water and wipe quickly, directly out of the suds.

Wrinkle Out
When wool dresses or coats "rest" on hangers, fasten them so they hang straight... not twisted or wrinkled. Give them elbowroom and some of the wrinkles will drop out.

Julian Calendar
Prior to the adoption of the Gregorian calendar which came into effect in Europe in 1582 the Julian calendar was used. It was promulgated by Julius Caesar in 46 B. C.

Insure Constitution
When the original draft of the United States Constitution was displayed at its centennial celebration in Philadelphia in 1937, it was insured for \$10,000.

Clean Rag
Cloths that have been used to polish furniture or to apply wax can be cleaned by soaking in sudsy water to which a small amount of kerosene has been added.

Remove Dirt
Patches of dirt on floors that will not come off by dry mopping may be cleaned by rubbing slightly with fine steel wool moistened with turpentine.

Color Preference
Studies of buying habits of the public indicate that men lean towards blue in their choice of purchases, and women incline towards red.

Buying Curtains
If new curtains must be purchased, it is wise to choose those that best meet an actual need, and ones that will wear well.

Protect Trousers
Protect new trousers by sewing retreads inside, in seat and knees. Sew wear guards around the lower edge of trouser legs.

Dress Patterns
Use those old dress patterns. Old tissue dress patterns are fine for polishing mirrors and windows.

Food Storage
If you store food in porcelain enameled ware containers, you might heat it right in the container.

Prevent Tarnish
Colorless nail polish, used to cover silvered candlesticks and metal ash trays, may prevent tarnish.

U. S. Territory
Territory of the United States outside its borders includes more than 711,000 square miles.

Housing Need
Construction of 12,600,000 non-farm houses and apartment units will be required in the first post-war decade to meet the needs of American families and to make substantial progress in replacing substandard structures with good homes, the National Housing agency estimated.

Protect Woolens
On wet days, protect your wool clothes with an umbrella or rain-coat. A soaked wool coat is seldom the same again. If wool clothes get wet or muddy, dry them slowly at room warmth—never close to a stove or radiator. When dry, brush clean.

Chinese Enterprise
A Chinese, Ts'ai Lun invented the process of making paper in A.D. 105. Other firsts for the Chinese were the introduction of silk, folding umbrellas, lacquer, tea, porcelain, kites, playing cards, dominoes, the mariner's compass and gunpowder.

Passing Plate
When passing your plate for a second helping or when you are through eating, place the knife and fork parallel across the plate with the tines of the fork turned up and the cutting edge of the knife turned toward the fork.

Powder Kills Pests
In many cases poison powders ground very fine are more effective as killers of crop and other pests than the same powders in larger particles.

Sun Ray Shield
Scientists claim the earth's atmosphere shields its inhabitants from harmful sun rays and helps to equalize day and night temperatures.

Grain Needs
If the dairy cow gives 20 pounds of milk, daily, she needs 6 pounds of grain; if her production is 30 pounds, she needs 12 pounds of grain.

Dirty Oven
A dirty oven cleans more easily if dust and grease are loosened by leaving a cloth, saturated with household ammonia, inside overnight.

Dairy Feed
If dairy cows are fed better, a balanced ration at all times in line with production per cow, milk yields may be greatly increased.

Define Small Business
The department of commerce reckons a small business as one having a yearly net sales or receipts of less than \$50,000. A wholesaler with annual net turnover of less than \$200,000 is small business. A manufacturer employing less than 100 persons falls into the same class. Jesse Jones painted the picture, stating: "Over nine-tenths of all business concerns in the country are small, and these nine-tenths account for 45 per cent of the workers employed, and for 34 per cent of the business in dollar volume."

Regulates Irrigation
Boulder dam regulates the supply of water for irrigation of the highly developed and richly productive lands in the Imperial valley of California and the Gila and Yuma projects in Arizona. It has reduced the destructive Colorado river floods and has made available a daily supply of a billion gallons of domestic water to the Metropolitan water district, comprised of Los Angeles and 12 other coastal California cities.

Small Business
Of our 646,000 service businesses—barber shops, plumbers, tailors, shoe men, etc.—365,000 (over half) employed no salaried help. Of the remainder, a considerable proportion had only one employee each, with, perhaps, an additional part-time employee for apprenticeship or deliveries.

Replace Brick
As soon as a brick has worked loose, it should be taken out entirely, cleaned off, and soaked in a pail of water. New mortar should be applied to bottom, sides and back, and the brick should be reset in place. A straight edge laid across the firm members will line up the loose brick.

Old Mill Stream
The famous song "Down by the Old Mill Stream" refers to the Blanchard river running through Fremont, Ohio. It was written by Tell Taylor, who was born on a farm near Fremont in 1876 and lived there until his death in 1937.

Close Vision
The average 10-year-old child can read fine print when held only two inches from his eyes, but a 30-year-old adult must move the printing to a distance of six or more inches from the eyes.

During his tenure as President of the United States Andrew Jackson said: "As long as our government is administered for the good of the people, and is regulated by their will, as long as it secures to us the rights of person and property, liberty of conscience and of the press, it will be worth defending."

Senior Sketches

Prom. Junior Play, J-Hop, Science Club, Hi-Y, and French Club are the activities of Bruce Devo, 17, son of Mr. and Mrs. Harry Devo of 808 Church Street. Bruce is on a college course and plans to attend Michigan State University to become an engineer. Bruce has traveled throughout Michigan and claims that people who talk about you behind your back is his pet peeve. Yellow is his favorite color and basketball his favorite sport.

Baseball is the favorite sport of Elwood DeHoff, 18, son of Mr. and Mrs. Walter (Dewitt) DeHoff of 41001 Five Mile Road. His favorite color is red and his pet peeve is girls who wear high heels. Elwood's hobbies are hunting, fishing and baseball, while his favorites are Canada, New York, Ohio, and Indiana. To live in northern Michigan is Elwood's ambition; he is on an industrial course and plans to work in a U.S. Post Office.

Blue is the favorite color of Edward DeLoy, 16, son of Mr. and Mrs. Roy Lindsay of 11900 McClumpha Road, who is on a general course and wants to become a landscaping artist. Riding horses is Ed's favorite sport, so he belongs to the Dundy Street Rider's Club. Canada and Buffalo, New York are his favorites, while horses and drawing are his hobbies. Girls who smoke and do not act their age in public is Ed's pet peeve.

Photography is the hobby of Robert DeWulf, 18, son of Mr. and Mrs. Victor DeWulf of 29350 Plymouth Rd., Catty. Football is Bob's pet peeve; football his activity and favorite sport. He has traveled through New York and plans to join the Navy after he graduates. His favorite color is white, and his ambition is to become a pilot and then.

Reading, bowling and baseball are the hobbies of John Elliot, 17, son of Mr. and Mrs. Clayton Elliot of 4262 Cherry Hill Road. Lack of time to do the things he wants is his pet peeve. John belongs to Hi-Y and has traveled through Washington, D.C., Western Canada, and Northern Michigan; he plans to continue traveling after he leaves school, on an apprentice course. John's ambition is to own his own business. His favorite sport is baseball, and green his favorite color.

Charter Amendment to be Voted on February 17, 1947

The following Resolution was offered by Commissioner Corbett and supported by Commissioner Taylor:

RESOLVED, that a proposal to amend the Charter of the City of Plymouth be submitted to the electors of the City of Plymouth at the Primary Election to be held February 17, 1947 as follows:

“Shal. Section 19 of Chapter 1 of the Charter of the City of Plymouth be amended to read as follows:”

Section 19. It shall be the duty of the Election Commission, as provided by State law, to appoint a Board of Election Inspectors for each voting precinct in the city, consisting of three members for each district, each of whom shall be a duly qualified elector; and if at the opening of the polls at any election any of the inspectors so appointed shall not be present, the vacancies shall be filled as provided by state law. Gatekeepers shall be appointed as provided by state law. Election inspectors and gatekeepers of the election shall receive such compensation as shall be provided by resolution of the City Commission.

() YES
() NO

BE IT FURTHER RESOLVED, that the City Clerk cause a copy of this Resolution to be published in the Plymouth Mail, a newspaper of general circulation within the City, twice prior to February 17, 1947.

BE IT FURTHER RESOLVED, that the City Clerk cause a copy of this Resolution to be forwarded to the Governor of this State for his action thereon as required by law.

YES: Mayor Lidgard, Commissioners Corbett, Davis, Shayor and Taylor.
NO: None. Carried.

H. R. CHEEK
City Clerk

Blitz Victims Do Not Forget

Blitz victims of the Plymouth area are not forgetting the help they have received from the community. At a recent meeting of the Plymouth Relief Committee, Mrs. Blyton, president, reported that she had received clothing for the victims of Plymouth. Mrs. Blyton also reported that she had received help from the Red Cross.

It is an expressed appreciation for the kind help of Mr. Blyton and the citizens of this community in providing many thousands of pieces of garments for the poor victims of that city which suffered so severely from German bombings.

Michigan State College, East Lansing, has set a new record enrollment of 10,200, including 8,285 men and 1,915 women who seek to attend classes at almost double the previous record of 6,776, established in the 1946 fall term. The registrar's office announces.

While our country calls for more men and ships should be sent to the public safety—

PHS PLACES SECOND IN LEAGUE DEBATING

Plymouth High school, which is a member of the Suburban B League, rated second in competition with Trenton, coming in first: Ypsilanti, third: Redford, fourth: Wayne, fifth: and Belleville, sixth.

The Plymouth team, which upheld the negative, was made up of two freshmen, Roger and Ronald Witt.

For 16 consecutive years Plymouth has placed first or second in the league contests. Each year the team has been awarded a bronze plaque by the Detroit Free Press in recognition of their fine work.

COUNCIL REVISES SCHOOL CONSTITUTION

The Student Council has revised and modernized the school constitution. Yesterday the revised constitution was put before the executive boards of all the grades for their approval.

The Student Council is also planning a tag day for some date in the future for the purpose of getting money for the football field. The Council is planning to ask the school clubs to make donations for this cause.

ROCKS HUMBLE BELLEVILLE FIVE

Scoring eleven points in the last four minutes of the game Plymouth's cage quintet gained their second victory of the season, trimming Belleville 39-28 at Belleville on December 20.

The tilt was nip and tuck throughout with the lead changing hands several times. The Rocks were behind by three points with five minutes to go in the last quarter, but by netting five points before the automatic four minute time out they held a slim 28-29 lead. Then the Rocks poured it on and won. This win somewhat avenged the two defeats inflicted by Belleville on the Rocks last season. Becker lead the Plymouths scores with fourteen points; Schomberger came next with twelve points. While the Varsity regined high, the second team dropped the second game 27-15.

Tonight at the P.H.S. gym the Rocks play host to the Ypsilanti Braves, defending court champions of the Suburban B.

Story and Clark Piano Company, Grand Haven, sent two dozen pianos by air recently, on two successive days, the company's first shipment of pianos by air. The consignment went to Bamberger and Company, New York City, a Macy outlet.

A government of equal rights must, therefore, rest upon mind, not wealth, not brute force; the sum of the moral intelligence of the community should rule the state.—Bancroft.

COLLEGES HOLD CONFERENCE SAT.

Word has been received by the Guidance Department that alumni of seven Eastern women's colleges are holding a conference for prospective students on Saturday, January 11, 1947 in room A on the fourth floor of the Women's City Club, between 10:05 a.m. and 4:30 p.m. Material will be displayed concerning Barnard, Bryn Mawr, Mt. Holyoke, Radcliffe, Smith, Vassar, and Wellesley colleges. There will be information about entrance requirements, curriculum, the campus, college activities, expenses, scholarships, and opportunities for self-help in college. Girls, parents, and faculty who are interested in any of these colleges are urged to come and introduce themselves to alumnae representatives present.

SOCIAL NEWS

A New Year's Eve party at Chuck Stewart's at the Lams dance was attended by Joan Travis, Ray Haffield, Allyn Williams, Ralph Dederick, Doris Oldenburg, Bill Bateman, and Donna Campbell.

Betsy Ross, Pat Isbell, and Bev Hauk saw "Blossom Time" at the Cass on December 28.

Bea Hartmann, Graham Laible, Ann Hopkins, Fred Weirner, Elaine Sanke, Dick Olin, Pat Isbell, John Lodge, and Freeman Hoover attended a New Year's eve party at Rosemary Guthrie's at the Lams dance.

The Freshmen gave a dance Friday, January 3 in the high school gym. The students danced to the music of Frank Santo's Orchestra.

Betty Schumaker was hostess at a tea held on December 30 at 2:30 p.m. The guests were Gerry Sneyer, Bea Hartmann, Jeanne Tuck, Rosemary Guthrie, Ann Hopkins, and Pat Isbell.

B. BROWN ENTERTAINS HOMEMAKING CLASS

Homemaking III class and Miss I. Lundin were entertained on Wednesday, December 18, 1946, at a Christmas Tea which was given after school at the home of Barbara Brown.

An attractive table setting was arranged by Barbara Jelly roll for the tea was made by Catherine Eads, Mary O'Neil, Wilma Smith, Betty Norgrove, and Edna Newton.

Betty Norgrove was in charge of the singing of Christmas carols and the exchange of gifts.

Production in America's rubber industry hit an all-time record high in 1946 and consumption of rubber topped a million tons for the first time, with about 73 per cent being American-made rubber. John L. Collyer, president of B. F. Goodrich Company, reports.

A NEW SCHOOL POLICY

At a recent meeting of the Board of Education the policy was adopted requiring everyone participating in Physical Education to pay one dollar per year for towel rental. Considering the number of towels used per student this is less than one half the actual cost. Students, boys or girls, participating in athletic contests will not be required to pay additional rental. Thus no pupil will be required to pay more than one dollar per year regardless of the number of activities in which he or she may participate.

The dollar fee must be paid before the end of the first semester or credits will be withheld.

Fisher Agency Gets Salesman

Jerry Engle, of 416 Evergreen street, a new Plymouth resident, is the new real estate salesman for Roy A. Fisher.

Mr. Engle operates from his home and can be reached by calling 1231-R, or may be contacted through Mr. Fisher's office.

A commercial artist by trade, Mr. Engle spent the war years as an illustrator at the Willow Run bomber plant. He also is former head illustrator for General Motors at their Grand Rapids plant.

Mr. Engle is an alumnus of University of Michigan and has been in the real estate business the past year.

Ford Motor Company has established a uniform inspection procedure, with an inspection report to the filled out for each new car delivered by Ford and Lincoln-Mercury dealers, to help guarantee against oversights that might result in customer complaints, announces I. L. Pierce, Ford director of parts and service.

George Osborn Seeks Regency

George A. Osborn, publisher of the Sault Ste. Marie Evening News, a life-long Republican and son of former Gov. Chase S. Osborn, today announced that he had acceded to requests he had been prevailed upon to enter the spring convention and that he sincerely felt that he could be of service to the University.

Terms of two regents expire next year, Harry G. Kipke of Ypsilanti and J. Joseph Herbert of Manistique. Republican candidates will be nominated at the Republican state convention and their names will go on the ballot in the spring general election. Term of a regent is eight years and the state constitution provides for eight regents as the governing body of the University of Michigan.

"The University of Michigan is one of the greatest educational institutions in the world. I would be grateful for the opportunity to serve my alma mater for the next eight years," Osborn said.

Mr. Osborn has been interested greatly in University affairs, in the Alumni Association which he served as 11th district president, in Michigan educational institutions and in Republican politics. He is an alumnus of both the University of Michigan and the Michigan College of Mining and Technology which now has a branch at Sault Ste. Marie. His three daughters are all alumnae of the University of Michigan, two of them graduates and one a post-graduate student.

The Veterans Administration reveals that \$8,000,000 worth of new automobiles have been delivered free to 5,000 disabled veterans under the "cars-for-amputees" program. Approximately 15,000 additional veterans may qualify for the special vehicles under the \$50,000,000 cap-buying law, which went into effect in September.

The Ford Motor Company has recently placed a vacuum leveling tank on the market as an accessory, which keeps windshield wipers operating normally under all driving conditions, whether the car is ascending a hill or accelerating.

The negro population of the United States, including full blood and half blood, number more than 12 1/2 million persons. Their numerical growth since the cessation of the slave-trade has far outstripped that of any other of the original groups of Americans.

WEDDINGS

Neoma Mildred Benjamin and Kenneth Felt Are Wed

Neoma Mildred Benjamin, daughter of Mrs. Mildred Benjamin of Merriman road in Wayne, became the bride of Kenneth E. Felt, son of Mrs. Roy Felt of Plymouth, Saturday, December 21, at three-thirty p.m. The double-ring ceremony was read by Rev. Doty of the Methodist church in the living room of the Felt home before a host of relatives and friends.

The bride chose for her wedding, a street length dress of pale blue nylon with which she wore black accessories and a shoulder corsage of yellow rose buds. The bride's attendant was her sister, Miss Donna Benjamin, who wore a teal blue crepe dress with which she wore black accessories and a shoulder corsage of carnations.

W. W. Milliman of Plymouth assisted the bridegroom.

For the wedding the bride's mother, Mrs. Benjamin chose a black crepe dress with black accessories and a white corsage of carnations.

Following the ceremony a reception for the wedding party was held at the Hearststone Inn in Wayne. The tables were beautifully decorated with white baby mums, flanked on either side with tall lighted candles and tapers and white satin streamers were attached to a tiny place card.

The couple left the following morning for Chicago for their honeymoon.

Nina Jean Lawson Becomes the Bride of Robert G. Marshall

A candlelight ceremony in the Methodist church, Saturday, December 28, united in marriage Nina Jean Lawson and Robert G. Marshall. The bride is the daughter of Mr. and Mrs. Roy Lawson and the groom is the son of Mr. and Mrs. Wilbur Coffman of this city. The Rev. Clifford E. Doty performed the ceremony.

The bride, who was given in marriage by her father, wore a beige crepe dress made with a bustle and trimmed with rhinestone buttons. She wore an aqua gardenia in her hair and carried a white bible mounted with aqua gardenias.

Stylin Neal, a cousin of the bride was matron of honor. She wore an aqua crepe dress with a bright pink gardenia corsage.

Tom Marshall, brother of the bridegroom of Birmingham, Alabama acted as best man. The ushers were Robert Lawson and Homer Marshall, brothers of the bride and bridegroom.

The bride's mother wore a grey dress with pink accessories and the bridegroom's mother wore an aqua dress with a black hat and white corsage.

Following a reception in the church, the young couple flew to Chicago. From there residence will be established at Tuscaloosa, Alabama where the bridegroom is attending the University of Alabama.

Gloria Doerr Marries Melvin L. Vickstrom

In a double ring ceremony in St. Peter's Evangelical Lutheran Church in Plymouth Friday evening, January 3, Gloria Jean Doerr, daughter of Mrs. Thomas Toler, of Detroit, became the bride of Melvin L. Vickstrom, son of Mr. and Mrs. Charles Vickstrom of Blunk avenue.

The Rev. Edgar Hoenecke performed the rites at eight o'clock before an altar decorated with white mums, palms and candelabra.

The bride wore a gown of white satin and chiffon made with long pointed sleeves and fashioned with a high neckline. The lace yoke was outlined with seed pearls. The full chiffon skirt ended in a medium-length circular train. Her finger-tip veil of illusion was fastened to a coronet of seed pearls, and she carried a bouquet of white roses, centered with orchids.

Miss Linnea Vickstrom, sister of the bridegroom, was the maid-of-honor, and wore a gown of blue marquisette with matching head-dress. She carried a bouquet of yellow mums and blue mums. The bridesmaids were Betty Lou

Phillips of Plymouth, a cousin of the bride, and Peggy Doerr, sister of the bride. They were dressed in pink marquisette and wore matching head-dresses. They carried bouquets of white mums and blue mums.

William Felt, of Ishpeming was the best man, and the ushers were David Folsom, of Rosedale Gardens, and Donald Poster, of Wayne.

The bride's mother chose a black gown and wore a corsage of yellow roses. Mrs. Vickstrom wore navy blue and rose gown with a corsage of pink roses.

During the ceremony Mable Vickstrom, a sister of the bridegroom, sang "The Lord's Prayer."

Following the ceremony a reception for fifty guests was held at the Rosedale Gardens Club House.

Announcement of Elizabeth Tilton

Mr. and Mrs. Gardner Tilton of Concord, N. H., announce the engagement of their daughter, Miss Elizabeth Ann Tilton, to Thurston J. Carpenter, son of Mr. and Mrs. Earle A. Carpenter, also of Concord.

Miss Tilton is a graduate of Colby Junior College, 1944, and for the past two and one half years has held a position as laboratory technician at the Children's Hospital, Boston.

Mr. Carpenter attended Dartmouth College, class of 1945, and was a member of the Chi Phi Fraternity. During the war he served as a Captain in the 38th Inf. Division in the Pacific area. At present he is attending Tufts Dental School in Boston.

Miss Tilton's mother is a sister of Mrs. Max Moon and was a former Plymouth resident.

Maccabees Plan Installation

At a meeting of the members of the Maccabee lodge last Wednesday evening plans were made for a formal installation of the new officers to take place in the high school auditorium on Thursday evening, Jan. 23. The public will be invited to attend.

Other Hives which will participate are located in Rochester, Pontiac, Ferndale, Royal Oak, Farmington, New Hudson, and Detroit. The installation will be followed by a home talent musical and play.

A banquet at 6:30 o'clock in the Presbyterian church banquet hall for Maccabees only will precede the installation. It is requested that those desiring reservations for the banquet call either Mrs. Gladstone or Mrs. Granger.

Naval Reserve Recruits Sought

Alfred J. Schuster, Lieut. Naval Reserve, of 565 West Ann Arbor Trail, has been appointed officer-in-charge of the Plymouth Naval Reserve Volunteer Recruiting Office.

The office actually will be at Schuster's home. He requests that all former Navy officers and enlisted men interested in obtaining further information about the Naval Reserve V-6 Inactive Duty program, contact him.

He has all the necessary forms and all information about the program. He points out that the program is not a move to recall former Navy men to active duty. It is strictly a voluntary program designed to aid former Navy men and at the same time keep a valuable trained reserve built up.

Enlisted men are especially sought, Mr. Schuster said. They can take correspondence courses in most any course of study, take part in at least two cruises a year out of Detroit or visit the Navy installations at Gross Island for study or training to keep up their standing in the reserve.

At any rate, see Mr. Schuster and learn all about the program. He has all the answers and will be pleased to explain everything to you former tars in Plymouth and its immediate area.

The United States navy came into existence in 1775, when small vessels were armed to intercept supplies for the British troops in Boston. Before the end of the Revolutionary war 64 vessels, carrying 1242 guns, had been placed in service.

Farm Bureau Dinner Monday

The Wayne County Farm Bureau will open the 1947 membership drive next Monday night with a "kick off" dinner at the Sheldon M. E. church.

During 1946 the bureau boasted a membership of 187 families. The 1947 goal is 300 member families. The state goal for this year is 51,500. During 1946 it grew to 45,110.

Township chairmen for the drive are Joseph Holman, Northville; Ray Grimm, Livonia; Clyde Smith, Nankin; Harold Fisher, Plymouth; Phillip Dingeldey and Howard Moyer, Canton; George Bowyer and Ed Moore, Romulus; David Dunk, Van Buren; Glenn Miller, Sumpter; Forest Newland, Huron and Jesse Brown, Brownstone.

Shipments of Kaiser jet-propelled dishwashers totaled 3,361 units in November, it is announced by W. A. MacDonald, vice-president in charge of sales for Kaiser-Frazier Corporation and Graham-Paige Motors Corporation. The unit has no motor and is operated by household water pressure.

Kansans boast that the city of Wichita has become one of the nation's airplane manufacturing centers.

Fair in the Light of Memory Shines

MICHIGAN, My MICHIGAN
BY ELTON R. EATON

Where are all of these suggestions from the so-called Sportsmen's organizations of Michigan pertaining to methods of eliminating the illegal kill of deer in Michigan?

Certainly some of them must have some suggestions as to what to do, to end the killings of does and fawns by alleged sportsmen out of the big cities, but so far, not even the blink of an eyelash.

Well, tell you what we think had ought to be done — and we are one hundred percent for it.

If some swaggering drunk or smart aleck hunter or some giggling deer-hunting female shoots at or kills a doe or fawn, soak them a mandatory \$500 fine, ban them from all hunting and fishing for ten years and confiscate their guns.

On top of that, we'd offer a \$200 reward to any one who provides sufficient evidence upon which a conviction can be secured for killing a doe or fawn.

Think that over—and tell me what you think of this method of cracking down on the crazy fools who swarmed through the northlands in November killing anything they saw moving in the woods.

A two-year old bull elk who tired of life in the wilds of Otsego county is going to see plenty of civilization. When he came into the vicinity to live with domestic cattle he was such a nuisance the county called on Conservation Officer Leo Marlatt and district game supervisor Otto Failing for relief. Marlatt and Failing, with some assistance, roped the elk and delivered him to the Traverse City zoo where he will see and be seen by city folk.

Conservation authorities won a signal anti-pollution victory in Ohio recently, according to the Sportsmen's Service Bureau, when the Electric Autolite Company of Toledo agreed to pay the State \$10,000 for fish killed in the Little Miami River by acids and cyanides which the company had dumped into the water. In addition, the company agreed to provide 200,000 minnows for restocking the stream and to cease the practice of dumping lethal wastes into public waters.

The out-of-court settlement was reached in agreement of the company's lawyers with assistant district attorney A. Lee Shield after the latter had completed preparations to file suit to collect damages for fish killed by the pollution. Action was started at the instigation of conservation authorities on the basis of a recent ruling by Attorney General Hugh S. Jenkins that the commission was authorized to protect wildlife from pollution menaces, and after pollution engineer Thomas H. Gallagher had reported on damage resulting from the Autolite Company's waste disposal practices.

A state-wide "alert" of sportsmen's clubs, conservation officers, 4-H clubs, high school science classes, newspapers and the radio, next May and June is the aim of the conservation department in its first big move against the parasitic sea-lamprey, enemy of the choice fish of the Great Lakes, declares "Frenchy" Paquin.

The department will have five fisheries biologists on call at the time of the sea lamprey spawning run, and hopes for local cooperation in every stream tributary to the Great Lakes. Technical examination of every reported run is necessary because Michigan has two species of lampreys and current interest is in the destructive sea lamprey only. The native lake lamprey and the three brook lampreys, here for generations, cause little damage.

From the simultaneous observations of all streams during sea lamprey spawning time the department hopes to narrow control efforts to the type of stream sea lampreys prefer. Available evidence indicates they do shun certain streams, concentrate on others.

The sea lamprey spawning census is the first half of Michigan's study of lamprey investigation agreed upon at the interstate conference held in the Fish and Wildlife service office here. The other half is assigned Michigan is study of sea lamprey life history on Georgian river, Presque Isle county, one of their favorite streams. A study also to be installed on the Ocean by the Fish and Wildlife service next spring, and this year, besides giving conservation fishermen a chance to find out where and when the sea lamprey is most vulnerable to control measures, is expected to provide enough for experiments in making these eels edible. They are considered a potential source of vitamins, and may be used as a stock and fox farm food—and even as food for man. In some areas they were an esteemed delicacy, and canning, pickling and other uses will be tried, if possible, for the lamprey. The food research will be planned in cooperation with Michigan State College.

Also on the Michigan program is investigation of controls other than traps, such as the trough and trap at Manistiquet.

An interstate conference here Dr. John Van Osten of the Michigan Wildlife service was chosen chairman and Dr. Albert S. Hensley, Michigan conservation department's institute for fisheries research, was named secretary of the anti-lamprey campaign forces. The men do not expect to be able to exterminate the lamprey, but do hope to learn enough about it to limit the damage it does to the fish and the corn borer have been limited in the past.

Lamprey research in other lake states and Ontario is coordinated with that in Michigan. The Michigan conservation commission approved spending \$10,000 in each of the fiscal years beginning July 1, 1947 and July 1, 1948, on sea lamprey study and control.

Winter fishing wasn't very good last year, you said? It's expected to be better during the summer of 1947, providing the weather continues to remain cold and the snow fall is heavy for the winter months.

Wolverine said so, so it must prove to be true. Dewey Loomis, who for years run a fishing camp up on the Muskegon river at "Loomis Landing" 17 miles directly east of Manistee, declares that he has been his observation that when we have a very heavy winter with lots of snow and ice, the fishing during the following summer is always good.

Check your 1947 fishing calendar and see how the prediction compares with the 1947 fishing season.

Kendrick Kimball of the Michigan Outdoor Writers' Bureau announces that the winter meeting of the organization will be held on February 8 and 9 at Blaney Park in the Upper Peninsula. The prominent conservation leaders of the country will be invited to address the organization.

How had you or two say that deer hunters from the big cities were entirely to blame for the killing of so many illegal deer during the last hunting season. No, not all, we admit—but almost. What they did was nothing less than a crime against all the people of the state.

Show us to what extent these deer hunters went last fall, read the item taken from AJ Weber's column in the Cheboygan Chronicle. It will interest you greatly:

A pretty little fawn that has been feeding with a considerable amount of cattle and one that Wolverine passersby have been seeing in the woods just before the hunting season bars were set.

Two young Jackson hunters and their wives visiting Wolverine were suspected as having killed that fawn, and curious persons found blood and deer hair in their car. Wolverine people wanted to have them arrested, but the powers that be didn't think the evidence strong enough to convict, but while this debate was taking place a conservation officer had contacted the party and they had confessed and then they were lined up in front of Justice Sowton, who assessed them over a hundred and a half dollars for their violation. They had some difficulty getting financial help from parents at Jackson, but finally a relative came to the rescue and paid the shot, and the judge allowed them to keep their guns to continue their hunt, and do it legally, which Justice Sowton is sure they did.

Justice Harry can be hard and he can show a real softness when he believes the victims that come before him have really learned a lesson and are tamed.

Phones in Autos Soon Hi-12 Members Are Told

A mobile radiotelephone network covering all important highways in the Southern half of Michigan's Lower Peninsula and which would permit motorists to call any telephone in the world that connects with the Bell System was a forecast made recently to the Plymouth Hi-12 Club by Neil C. Youngs, Sales Supervisor of the Michigan Bell Telephone Company.

Sometime this year, Youngs said, Michigan Bell will apply for permission to install a radiotelephone station between Saginaw and Bay City, Flint, Lansing, Grand Rapids, Port Huron, Jackson, and midway between Kalamazoo and Battle Creek.

Besides serving independently for urban service in the nearby area, the stations will also operate as part of a nation-wide network for over-the-highway service which will essentially link all large cities.

At conclusion of the meeting, Youngs demonstrated how the mobile radiotelephone is operated. An equipped company automobile was driven from Detroit for this purpose by the speaker.

Youngs also told how mobile service worked in the Detroit area. Service, initially, is on a trial commercial basis to a list of 50 selected subscribers, he said. Duration of the trial period has not yet been set by the Federal Communications Commission which authorized the tests.

Purpose of the initial trials is to determine operating costs and practices. When these tests are completed, the new service will be offered on a full commercial basis.

Youngs said that in Detroit, a FM (Frequency modulation) transmitter connected to the land-line telephone system sends message to mobile units. The 250-watt transmitter, atop the Bell-Western Building, Oakman at Woodruff Wilson, has a 20-mile range.

Replies from vehicles, which have shorter range transmitters, are picked up by auxiliary receiving stations located at Roseville, Royal Oak, Bedford, Wyandotte and also the downtown Detroit Bell Building. The calls are then automatically relayed by land wire through the control station to the called parties.

"The mobile unit is equipped with a receiver, 20-watt transmitter, selective signaling equipment, and a control unit consisting of a telephone instrument, ringing device and a switch to turn the equipment on and off," Youngs stated. "An 18-inch an-

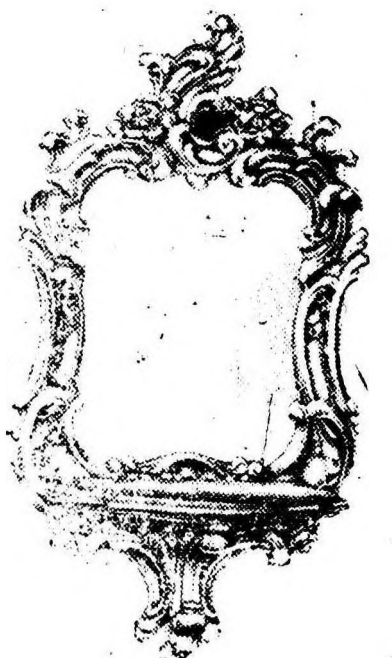

tenna attached to the top of the mobile unit completes the visible layout."

The authors of some books write as though their readers had nothing to do but kill time, and they may be right at that.

It's easy to organize a group of annual celebrants but nearly impossible to break it up without dynamite.

High Prices Due To Labor Strikes

By Gene Alleman
 Another round of labor strikes in big cities, now in the offing as a result of Washington's lifting of wage and price controls, will only accelerate migration of industry to small towns.

That's the belief of a number of labor relation experts who make a business of finding out why workers become dissatisfied and what the employer can do to keep them happy.

Industrial plants in small towns where the boss knows the worker personally, are comparatively free of employee turmoil. There is more democracy in living; home ownership is not penalized by high taxes; transportation is no great problem; food is relatively easy to get, and prices are reasonable.

Our authority? The sedate Wall Street Journal, which has just conducted a nationwide survey. A minority factor contributing to employee satisfaction: Profit-sharing. Cost-of-living adjustment in wages work fine when costs are going up, but not when costs are

going down. In the cities it's the high cost of living. On the farms it's the high cost of production. For example: A consumer's council in Detroit raised a howl when the price of milk is adjusted to bring the Detroit market in line with Toledo and Chicago.

Latest figures from the bureau of agricultural statistics (U. S. department of agriculture) show that farm production costs have more than doubled since the five-year period, 1935-39. Production costs jumped from 5 1/2 billions to 11 1/2 billions.

This increase of cost to the farmer does not include such items as clothing, household goods, automobiles, trucks and so forth—things which farmers need just as city people need.

The Michigan Milk Producers' association, serving some 15,000 Michigan dairy farmers, made a study this year of producing costs. Whereas milk sold for \$3.90 per hundred weight, including federal subsidy, production costs averaged \$3.78. The profit per cwt. was 12 cents.

And what was the hourly wage of the dairy farmer—the man who is required to make a substantial investment in dollars for buildings, cows and equipment?

In these days of boom-time wages, you'll be surprised to know that the farmer and farm workers receive the generous sum of 74 cents an hour.

During the war the price of dairy products was relatively low in comparison to industrial wages. Bitter retaliated at approximately 56 cents a pound, milk at 15 to 17 cents a quart.

Since June dairy prices have gone up temporarily—butter as high as \$1 a pound, and milk to 20 and 22 cents a quart.

Charles Figy, state director of agriculture, recently forecast that prices would remain "firm" for several years, due to limited production and an expectancy of continued demand.

The American industrial situation is full of paradoxes—facts which appear to be a direct contradiction.

Unless labor and industry stage a costly cat-and-dog fight paralyzing our industrial production, economists now predict a mild economic "recession" in 1947 to be followed by a fairly stable period of good times. Federal labor courts, proposed by Senator Homer Ferguson, would assist the nation in averting disastrous nationwide tie-ups.

As we analyze political trends, the Nov. 5 "mandate" was more of a protest against the federal administration in power than a clear-cut directive to victorious Republicans. We were weary of restrictions, tired of shortages, disgusted with bureaucracy.

It is easy to move toward the right when your pocketbook is full. It is another matter to do so when your pocketbook is empty.

Following a survey by the Michigan Public Service Commission together with Plymouth and Pere Marquette officials, the state body has approved removal of the present type of warning signals at the Mill street grade crossing.

City Manager Harold R. Check said the city and the railroad company were agreed that the present type of warning signal at that crossing was outmoded and a traffic hazard, especially after dark.

It may be weeks or months, however, before a change in warning signals is effected. City Manager Check pointed out, first of all the city commission must approve the expenditure of funds for underwriting half the cost of installing new signals.

The commission has considered requesting the Pere Marquette for automatic gates, or overhanging flasher signals set at the side of the highway and extending out over the road. The actual type of signal with which the present flashers will be replaced is yet undetermined, Mr. Check said.

He pointed out that no serious train-car crashes had occurred at the Mill street crossing but the present lights on the huge concrete abutments in the center of the road were definitely a hazard to automobile traffic.

Mr. Check emphasized that Plymouth should not anticipate any immediate change in the type of signals at that crossing. The process will be slow but a change is certain to be approved by the removal of the present signals by the public service commission, a stated.

Steel wages have outstripped the Cost of living

Everybody's battling the high cost of living these days. On the average, steel workers' wages have kept ahead of the advance in the cost of necessities.

Since January 1939, weekly earnings of steelworkers have increased by 63% per cent. Meanwhile, according to government figures,* consumers' prices (cost of living) have gone up 45 per cent.

This means that there has been a substantial increase since 1939 in the buying power of the average weekly wage of steelworkers.

It's wise all ways to shop where you live —
 because it's friendlier to do business with your
 neighbors : The cash for what you buy goes
 to pay wages and stays in circulation right in
 your town : and you enjoy the further
 advantages of time saved, money saved, and
 truly considerate service.
