(Continued from page 1)  
use it was and how greatly it was appreciated.  
"By having such equipment as chairs and beds for use in times of sickness and convalescence the Ex-Servicemen's Club of Plymouth is rendering a service that cannot be too highly praised. This note is to add my hearty thanks to those you must have from others who have had the use of your equipment when they needed it."

**24 Contestants In Derby Now**

(Continued from page 1)  
prederby race course committee. Donald Lightfoot chairman, Sanford Knapp, James Winterhauler, parade committee, Jack Marsh, chairman, Wayne Marzoff, Henry Lorenz, C. Koch; Award committee, Ralph Taylor, chairman, Cecil Owens, Al McGlow, Fred Warr; inspection committee, Chas. Wolfe, chairman, Rusling Culter, Marvin Terry; starting

ramp committee. Lee Turcott, chairman, William Otwell, Gordon Moe, J. Vincent Herter, Chas. Beagle; programs and concessions, John Palmer, chairman, Gerald Shoemaker, Howard Sharpley, WenWdell Lent, Robert McAllister, eBn Starkley, Dewar Taylor, James Houk, Walter Roberts, Joe Hudson, Raymond Danol, Marvin Kleinschmidt, bleachers committee, Frank Dely, chairman, Rockwell Smith, Harry Shoemaker, Don Rank, James Singleton, Don Blessing, Joseph Ribar, William Fisher.

There are still four boys who have entered the contest who do not as yet have sponsors. Merchants of Plymouth are urged to sponsor entries in the Derby. The greater the list of entrants, the greater will be the success. Any merchant who is interested in sponsoring a racer may do so by contacting any member of the Junior Chamber of Commerce or any committee member.

**OBITUARIES**

**John Alverveno Mintonye**  
Funeral services were held Monday, May 19 at 2 p. m. at the Schrader Funeral Home for Mr. John Alverveno Mintonye who passed away Friday, May 16 at the age of eighty-five years. Mr. Mintonye was a former resident of Plymouth. He was the husband of the late Mary Mintonye. Surviving are his granddaughter, Mrs. Dorothy Mae Richardson of Detroit, his grandson, John A. Gilbert of Chicago, Illinois; and his great-grandson, James L. Richardson of Detroit, other relatives and friends. Rev. Verle Carson of Newburg officiated.

**School District Election On Monday, June 9**

(Continued from page 1)  
to provide the best possible educational set-up for the children of Plymouth. He also feels that some provision should be made to expand present school facilities and to anticipate the future needs of this community.  
Dr. Cavell, who has maintained a residence at 930 E. Ann Arbor road for the past seven years, is a well known veterinarian. Born in Northville, Dr. Cavell studied at Michigan State College for four years before coming to Plymouth. He has both a boy and a girl attending Plymouth schools.  
When interviewed, Dr. Cavell said, "I will endeavor to do the very best concerning any problem that might arise." Due to the fact that Dr. Cavell's father was a member of the Northville school board for many years, he feels that he has a good idea of some of the problems which may confront the Plymouth school board.  
Kenneth Hulsing has resided at 1610 Church street for five years and had previously lived in Chicago. He attended the University of Chicago and graduated from the University of Michigan with a Bachelor of Science degree in Chemical Engineering. He is now chief design analyst at the General Motors Diesel Plant in Detroit. He has one child attending Plymouth schools at this time and two more children who will be enrolling next year.  
Mr. Hulsing said, "I am particularly interested in teachers' salaries and advancement of teachers on a merit basis this, in addition to the general school welfare."  
Harry Fischer is employed in the engineering department of the Chrysler Corporation. Born and raised in Plymouth, he attended Plymouth grade schools and graduated from the Plymouth High school. He attended the University of Michigan College of Engineering and graduated with a Bachelor of Science degree in Chemical Engineering and a Bachelor of Science degree in Metallurgical Engineering. He is the father of four sons, one of which is attending school in Plymouth now.  
Mr. Fischer, whose father was a member and past president of the Plymouth School Board said, "An extremely crowded condition is coming in the schools and I would try to see to it that the enviable reputation of Plymouth schools, won't suffer with the increase."  
Stephen Tallian, a former resident of Patton, Pennsylvania, has resided at 9305 Corrine street, Plymouth since April 1941. Mr. Tallian attended public schools in Patton and upon graduation from high school entered the University of Pittsburgh. At the present time, he is employed as a pharmacist and chemist at the Daisy Manufacturing Company. He has two children in Plymouth schools and one more who will enter this fall.  
Mr. Tallian has stated that he wished, "to have more money appropriated for our school district whereby it will pay dividends—not in money—but in the welfare of our future American citizens and co-operate in every way possible to attain a better understanding between the parents and teachers of our schools."  
All residents of Plymouth who have an interest in the advancement and improvement of the Plymouth school system should register for the election before June 9th. Since this election is in no way connected with that of the city, registration must be made in the superintendent of school's office in the Plymouth High school. All parents who have children attending Plymouth schools now or who will be attending in the future should be interested in this vital phase of community welfare.

**Police Chief Praises Driving Of Car Owners**  
(Continued from page 1)  
period a year ago when there were 57 reported. It is felt that this is due to the greater number of wet days we have had this year.  
Chief Sackett wishes to issue a warning against the practice of following fire trucks in the city. He said, "We are having a good deal of trouble with people following fire trucks and police cars too close."  
The law states that no motorist shall follow any emergency vehicle closer than 500 feet nor park within a block of this equipment. It is hoped that the motorists of Plymouth will co-operate in this matter, he stated.

In Peoria, Ill., when the official clock got stuck during the final seconds of a basketball game, Bradley Polytechnic Institute (noted for horology—the study of clocks) sportingly admitted defeat, despite the winning point it had scored when time stood still.

### Herma Taylor New President

The installation dinner of the Business and Professional Women's Club of Plymouth was held Monday evening at St. John's Parish House. Hazel Diack was the installing officer and the new officers who will serve for the coming year are: Mrs. Herma Taylor, president; Belle Young, vice-president; Ada Wilson, recording secretary; Jane Peet, corresponding secretary; and Florence Gableman, treasurer. Two new members, Helen Darbee and Mary Elizabeth Kenyon, were welcomed into the organization. In charge of the arrangements were Gertrude Danol and Doris Johnson of the program coordination committee.

In Boston, Benedetto Pelozotto, 35, reprimanded his wife, 33, with a hatchet when she objected to his attentions to a younger woman, 30. In Santa Monica, Calif., rowdy Seprano Chavez, 102, was put on probation for two years by a judge who thought he was old enough to know about the evils of drink.

In Cleveland, a theatrical costumer's store called in police to aid in the search for 221 missing yards of expensive blue-and-white satin, described as "constructed specially to give the illusion of not existing."

Mr. and Mrs. Holmer Nelson entertained the members of the school board at a dinner at the Stockholm in Detroit Thursday evening.

*Prepared by MICHIGAN TRAVEL SERVICE*

**Today Is Poppy Day In Plymouth**  
(Continued from page 1)  
...on H. Beals post, the Ex-Servicemen's Club and the V. F. W. Volunteer workers from the organizations will be on the streets at 10:00 a.m., distributing the poppies and receiving the contributions.  
"Although the second World War is slipping rapidly into the past we believe that the memory of the young men who gave their lives in that conflict is still fresh in the minds and hearts of all of us," said Paul Keller of the Passage-Gayde post. "The dead of the first World War have been gone for 29 years, yet we remember their service and sacrifice. The poppies which we will put on today will show that we have not forgotten and are grateful for their defense of our country."  
"We must not forget, either, those who live in suffering and hardship because of war wounds and illness, the disabled veterans, or their children and the children of those who have died. The contributions we make for the poppies go for their welfare, for help which can come to them only through this means."  
The poppies to be distributed here have been made by disabled veterans at Percy Jones General Hospital, Battle Creek. All workers will be unpaid volunteers, permitting the full amount of all contributions to go into the Legion's rehabilitation and child welfare work.

**Sliding Door On Truck**

Ed and Jim Long, of St. Johns, Mich., can unload grain in record time. A sliding door in one side of the truck box does the trick. Farm labor specialists of the Michigan State college extension service recommend the sliding door or a hinged door to save the time and effort required to bend and lift the grain over the side of the truck. With an opening in the side even with the floor of the truck, unloading a truckload of grain is a mere matter of pushing the grain, instead of lifting.

**Motorcycle Owners Warned By Police**  
The Plymouth police department have received several complaints regarding motorcycles speeding and making excessive noise in the city.  
Since motorcycles are classed as motor vehicles it is necessary for them to be equipped with a muffler.  
Motorcycle and motor-bike operators must procure a license to drive their vehicles. Those under fourteen years of age must test and must familiarize themselves with the rules of the road. Once these requirements have been met they will be issued a restricted driver's license.  
Police chief Lee Sackett has called attention to bicyclists. They are not to park their bicycles on the sidewalks nor shall bicycles be ridden on the sidewalks in the business section of Plymouth.

**Jack Van Coevering Made President Michigan Outdoor Writers Group**  
(Continued from page 1)  
subjects in The Detroit Free Press is one of the most widely read in Michigan, has for years been active in conservation work not only in Michigan, but throughout the country. Many of his articles appear in national publications.  
Plymouth residents will be especially interested in a new series of articles written by him pertaining to stream pollution problems in Michigan which will begin in the forthcoming Sunday issue of The Free Press. Mr. Van Coevering has for a number of years been active in an effort to turn many Michigan streams from open sewers back into streams of clean water.  
The importance of the eyes, the labyrinths of the ears and the sense organs of the muscles in maintaining equilibrium and awareness of body position is shown by a hypothetical case. Should a man with defective labyrinths be blindfolded and placed in a tank of water to equalize the pressure on all parts of his body, he would be unable to tell whether he was right side up or upside down.

**Potato Top-Soil**  
Rather striking news is that a few inches of topsoil can mean the difference of as much as 25 bushels of potatoes over yields obtained from eroded land. The findings of O. R. Neal of Rutgers university were that soils with six inches of topsoil or less averaged 124 bushels of potatoes per acre, while those with more than six inches of topsoil averaged 212 bushels. Last year, a drought year, the eroded soils averaged 135 bushels, while uneroded areas yielded 184 bushels, with 157 bushels of No. 1 grade. Neal points out that one reason is that deep surface soils are better able to absorb and hold more moisture.

**Eyesight Priceless**  
Eyesight is priceless — so think twice and then think some more about the all-important question of the kind of light for the kind of place. Properly placed lights as well as adequate amounts of light may well be called important safeguards of health and happiness.

**Self-Locking Latch**  
To hold a swing door or window open, a self-locking latch can be made easily by screwing a wooden knob to the sash or door and setting a wire broom clamp where it will engage it.

**Freezing Tenderizes**  
Formation of ice crystals within the fibers of meat that is frozen, resulting in splitting of the fibers, is believed to be the explanation of the "tenderizing" effect of sharp freezing of meat.

**Sour Milk**  
Sour milk can be utilized to good advantage in making muffins, biscuits, gingerbread, cookies, and most other quick breads and butter cakes.

**Oxygen Valve**  
A valve which automatically mixes oxygen with air in proportion to altitudes from ground level to 30,000 feet, is molded in one piece, in one operation, of plastic material. This complicated mechanism gives flyers the correct breathing mixture in response to the various air pressures without tinkering on the part of the wearer.

**Old Story**  
Plant diseases have been occurring for centuries. Fire blight was first discovered on wild crabapples in 1780 in the Hudson valley. Grape mildew which broke out before the Civil war resulted in the abandonment of thousands of acres in southern Ohio in 1839.

**Speed of Sound**  
The speed of sound in air is affected by temperature and pressure. At 20 degrees Centigrade (normal temperature), pressure 1 atmosphere, the speed of sound is 1,129 feet per second. At zero degree Centigrade and pressure 1 atmosphere, sound travels at 1,039 feet per second. When pressure is increased to 25 atmosphere and temperature remains at zero degree Centigrade, the speed of sound is 1,029 feet per second, proving that the change in pressure does not affect the speed of sound as much as the change in temperature.

**Mother-of-Pearl**  
Mother-of-pearl can be cleaned with powdered whiting mixed to a paste with cold water. Hot water destroys the brilliance of the nacre.

**Salt on Juice**  
If juice from an apple pie runs out over the oven, shake salt on it. The salty mixture will burn crisp and may be removed with ease.

**Mashed Potatoes**  
Making mashed potatoes hot milk is better than cold because it helps soften lumps, adds to lightness and keeps the potatoes hot.

**Clean Metal**  
To clean copper, brass or pewter, apply a paste made of equal quantities of flour, vinegar and salt. Let paste stay on metal for an hour, rub off and wash article with water, then polish.

**Teaching Experience**  
Sixty per cent of teachers in rural elementary schools having one or two teachers have had less than two years of education beyond high school, as compared with 10 per cent in cities over 2,500.

**Plated Bearings**  
Tons of silver are used weekly as plating on airplane motor bearings. By using potassium cyanide the rate of plating has been trebled. Before the war virtually all the potassium cyanide used in the U. S. came from Germany. However, potassium salts are now being recrystallized from the vast Searles lake salt deposits in the California desert country. Some authorities say air speeds would be reduced 75 miles per hour and loads cut substantially if silverplated bearings were not available.

**Flour Milling**  
Soon after the Civil war, flour milling was revolutionized with the high-speed roller process. The new method produced the whitest white flour that had ever been seen—a flour of great strength and fine texture that made a bold, large-volume, well-risen loaf of bread. The taste was delicious, the "sales appeal" tremendous. This flour could be transported for long distances, stored indefinitely, and its bread-making strength remained as good as ever.

**Plastic Latex**  
A new development in vinyl resins is a water dispersed colloid accurately described as latex. Material forms thin tough film and can be applied by all coating methods to paper, fabric, etc.

**Discovered Barite**  
More than 300 years ago an Italian alchemist first observed a luminescent material, white barite rock that absorbed daylight and emitted a feeble blue light at night.

**Sanitary Habits**  
Children may be taught that saliva contains germs of infectious diseases—such as colds, flu, scarlet fever, diphtheria, whooping cough—and that they should never drink after anyone else. They may be taught to turn away from the table or food when sneezing, to cover the mouth with a handkerchief when coughing, and never to eat food which has fallen upon the floor.

**Milk Popular**  
Surveys of war plant workers show that better than 25 per cent of all beverage consumption is milk, which leads in popularity.

**Lens Projects Beam 22 Miles**  
A \$20,000 lens in use at the Navesink, N. J., lighthouse permits the projection of a light beam 22 miles.

**Preserve Painted Sills**  
To keep painted plants from damaging paint or varnish on window sills, use any scrap piece of glass and have it cut to fit the window sills.

**Let Children Help**  
Let the children prepare salads and simple desserts. While they are having fun, mother is giving a simple lesson in nutrition.

**Mending Art**  
Mending is one of the humbler arts. The type and thickness of thread to be used is related, of course, to the fabric on which the mending is to be done. This fabric should be stretched taut and the hole filled in with a well spaced weaving. The weaving should extend into the fabric on all sides, so that the mended spot will have strength.

**Work Table**  
A kitchen work table is the right height if you can place your hands flat on the top without stooping.

**Semaphore System Utilized**  
Block signal systems on railways today are a modification of the early semaphore.

**Save Poinsettias**  
Poinsettias can be saved over and brought into bloom again. All that is necessary is to cut off the top shoots to about six inches and store the plant in a cool place in the basement or fruit room where the temperature ranges from 49 to 60 degrees.

**Feed Lawn**  
Feed the lawn with a complete balanced plant food to provide nourishment for a sturdy top growth and extensive root development that will send your lawn into its winter dormant period more resistant to winter killing.

**Mowing Lawn**  
Mow the lawn until cold weather arrives, but gauge the last cutting so that the grass will go into the winter with a height of at least three inches. If allowed to go into the winter taller than that, the grass may mat under the snow and the turf will be injured.

**Tighten Shade**  
For a very simple way to tighten a window shade, pull the shade down to the window sill, then take it off and roll it up by hand. If this process is repeated a time or two the shade can be easily raised in the usual manner.

**Repairing Leaky Brick Walls**  
When a brick wall admits rain or moisture due to deterioration of the mortar, the defective mortar joints should be repointed. The entire wall then can be painted with waterproof paint for added security, plus appearance.

**NOTICE**  
**Dog Owners**  
**Ordinance No. 127**  
THE CITY OF PLYMOUTH ORDAINS:  
Section 1. Section three of said ordinance is hereby amended to read as follows: At the time of issuing such license, the City Clerk shall deliver to the licensee a tag made of some durable material, containing the number of the license duly stamped thereon, the words "Licensed, Plymouth, Michigan" and the date of expiration. The shape and style of said tag shall be changed on June 1st of each year. For such license the City Clerk shall at the time of issuing same, collect from each applicant and pay into the City Treasury, the sum of three dollars (\$3.00) for each female dog and one dollar (\$1.00) for each male dog. The license fee for a de-sexed dog shall be the same as for a male dog. If a certificate of vaccination for rabies, signed by a licensed veterinary surgeon, certifying that the dog to be licensed has been immunized against rabies, shall be presented, and such certificate shall not be dated more than two years prior to the expiration date of the license, said City Clerk shall issue a license with the word "Vaccinated" thereon. Provided further that the licensing provision of this ordinance shall not apply to any dog under the age of six months. Provided further that for each license issued after June 1st of each year, except on dogs which have become six months subsequent thereto, but not more than thirty (30) days prior to filing applications with the City Clerk for such license, the City Clerk shall charge fifty cents (50c) in addition to the regular fee. With each license tag issued the City Clerk shall furnish a certificate showing a description and age of the dog, name and address of the owner, the fee paid and on which certificate shall appear a summary of this ordinance.  
Section 2. Made and passed by the Commission of the City of Plymouth, Michigan, this 17th day of September, A.D. 1945.

**LATTER DAY SAINTS.** Carl Heaviland, pastor. Church School, 9:45. Morning Worship, 11 a. m.

**Swift Executive Kiwanis Speaker** (Continued from page 1) meat by-products go into the production of animal food. Swift alone sold 300,000 tons of plant food in Michigan last year making it by far the best year in history. A reason for this is that application has been greatly speeded and improved. Machinery manufacturers have co-operated in this respect and it is expected that when production again reaches its peak sales will increase to an even greater volume. Members of the Kiwanis Club enjoyed the talk a great deal and received Mr. Smith's address with interest.

## MICHIGAN Motoring

The war taught us many lessons about automobiles, their care, and driving that we should never forget.

But many of us have forgotten. It taught us that even at 35 miles an hour we will cover a reasonable distance in a surprisingly short period of time. It taught us too, that at this speed, our gasoline and oil went farther and lasted longer and that there was less wear and tear on the car. The war also taught us that driving slower was easier on the nerves—that we were not under the tension that comes with high speed driving.

Yes, and it taught us a lesson in safety. There were far fewer accidents and the percentage of fatalities in accidents have occurred at speeds of 35 miles per hour much less than the percentage of deaths in accidents occurring at 60.

But now, State Police records tell us, too many of us are forgetting these war-time lessons and up goes the traffic toll—on our Michigan highways alone—109,330 accidents with 1,429 deaths and 33,819 injured in 1946! Today, the number of cars is increasing and so is the mileage. Will there be hundreds more dead, thousands more injured and millions more dollars in property damage?

It's really up to you. You can reduce this toll by renewing your war-learned safe-driving practices.

(© Automobile Insurer's Safety Association)

## Softball League Will Organize

Ralph Johnson, recreation director for the City of Plymouth, is desirous of interviewing men interested in umpiring softball games this summer. Those who may be interested are to appear at the City Hall, Monday, at 7:30 p. m. Organization and election of officers of the Plymouth Umpires association will be followed by a discussion of softball rules by Hubert Johnson, official rules interpreter for the Joint Rules committee. It is further requested that all persons desiring employment as playground leaders for the Department of Recreation, reports to room 204, City Hall on May 26 and 27, between 3:30 and 6:30 p. m. Anyone who may have any ability in teaching arts and crafts, folk and tap dancing, and dramatics are asked to appear also.

## Northville Woman D.A.R. President

Sarah Ann Cochrane Chapter of the Daughters of the American Revolution held its annual meeting Monday, May 19, at the home of Mrs. Harold E. Stevens on Church street. The annual meeting and reports were followed by the election of officers. The officers elected to serve for the ensuing year are: Mrs. John Burkman, regent; Mrs. Maxwell Moon, first vice-regent; Mrs. Harry Deyo, second vice-regent; Miss Mabel Spicer, corresponding secretary; Mrs. Rhea Shave, recording secretary; Mrs. Blanche Daniel, historian; Mrs. Sherwin Hill, treasurer. The senior C.A.R. president is Mrs. Kenneth Hulsing and the directors are Mrs. Sidney Strong, Mrs. Earl Mastick and Mrs. Irving Blunk.

## State Skating Championships Here This Weekend

(Continued from page 1) events will be held and medals will be presented to the champions. At the conclusion of this ceremony there will be an exhibition given by the winners. The first, second and third place winners in the Michigan state championship will journey to Richmond, Virginia to take part in the national event.

The admission covering both days is 50 cents and a complete and exciting show has been promised for those who attend.

In Tulsa, a woman driver put out her hand, tied up traffic for three blocks, eventually explained to a cop: "Oh, I'm not going to turn; I'm just drying my nail polish."

## Rodeo-Concert Stage Coach Rides Planned by JCC

(Continued from page 1) Junior Chamber of Commerce. While ticket sales have been moving briskly the proceeds to date are far short of the amount needed.

Plymouth residents have always taken pride in the high school bands appearance and the new uniforms will lend an even snappier and eye-catching appeal to spectators. An event of this kind provides a twofold dividend. An afternoon of fine, first class entertainment and a practical and pleasing addition to the Plymouth High School band.

"One way to trim the budget would be to trim off some of the trimmings." — The Indianapolis Star.

In Philadelphia, internal reviewers totted up a taxpayer's 18 withholding receipts for jobs he had held in 1946, concluded that the Government owed him \$3. In Chicago, a taxpayer deducted \$600 for medical expenses, explained that he was traveling for his wife's health.

In Detroit, tireless Douglas John Fabian, after creeping through seven floors of hotel corridors in search of an unlocked door, finally found one on the 210th try, walked straight into a darkened room and the clutches of its three wakeful occupants: an FBI agent and two cops.

# NOTICE OF REGISTRATION OF PLYMOUTH TOWNSHIP SCHOOL DISTRICT

Notice is hereby given that registrations will be accepted from the qualified school electors of the Plymouth Township School District daily from 8:30 a.m. to 4 p.m. at the school office Monday through Friday & Saturdays 8:30 to 12 noon. Registrations will also be accepted Monday through Friday 8:30 a.m. to 4 p.m. at the Starkweather School or at the home of the secretary of the Board of Education, Mrs. Alice Strong at 1274 Williams Street, Plymouth.

## THE LAST DAY FOR REGISTRATION IS SATURDAY, MAY 31, 1947

On this day the school office will be open for registration from 8:30 a.m. to 8 o'clock p.m.

THIS NOTICE GIVEN BY ORDER OF THE BOARD OF EDUCATION  
Plymouth Township Schools  
Sterling Eaton, president

## YOU MUST BE REGISTERED TO VOTE AT THE SCHOOL ELECTION MONDAY, JUNE 9, 1947

### WHO MAY REGISTER: A SCHOOL ELECTOR MUST BE:

1. A citizen of the United States
2. 21 years of age
3. A resident of the State for 6 months and of the school district for 20 days prior to the date of the registration.

Due to the formation of a township unit all former registrations were cancelled by law — unless you have re-registered at the school office within the past year, you are not eligible to vote at the annual school election.

**BY SEVENTH GRADERS "7 UP" DANCE GIVEN**

Music for waltzing, jitter-buging and modern dancing was provided on records at the "7 Up Dance" sponsored by the seventh grade last Friday night, May 16. The general chairman for the dance was Sally Rupp who also headed the decorations committee. The other committees and their chairmen were: refreshments, Donald Kennedy; publicity, Eleanor Rutherford; and entertainment, Sara McConnell. The money made from the dance went in to the seventh grade treasury.

**PHS MAKES AGREEMENT WITH MICHIGAN COLLEGES**

According to an agreement made between certain accredited high schools, among which is Plymouth, and the Michigan College Association, a large number of Michigan colleges and universities are willing to disregard the pattern of subjects in consideration for admission those members of the graduating class who are able students. However, there is no given rule stating that students be enrolled in college courses for which he cannot give evidence of full preparation.

High Schools that intend to follow the agreement are required to assume responsibility for, and furnish evidence that they are mitigating and continuing such procedures as the following:

1. A program involving the building of an adequate personal file about each student, including testing data of various kinds, anecdotal records, personality inventories, achievement samples, etc. The high school staff must assume responsibility for developing a summary of these personnel data for submission to the college.
2. A basic curriculum study and evaluation of the purposes and program of the secondary school.
3. Procedures for continuous follow-up of former students.
4. A continuous program of information and orientation throughout the high school course regarding the nature and requirements of certain occupations and specialized courses. During the senior year, special emphasis on the occupation or college of the student's choice.

Some of these colleges and universities willing to follow the agreement are: Albion College, Alma College, Adrian College, Bay City Junior College, Calvin College, Central Michigan College of Education, University of Detroit, Flint Junior College, Jackson Junior College, Marygrove College, Ferris Institute, Grand Rapids Junior College, Hillsdale College, Hope College, Michigan State College, Michigan State Normal College, University of Michigan, Nazareth College, Northern Michigan College, Port Huron Junior College, Sienna Heights College, Wayne University, and Western Michigan College.

**HOME ECONOMICS DEPT. HOLDS ACHIEVEMENT DAY**

The Home Economics Department of Plymouth High School will hold an Achievement Day program, May 28 in the high school auditorium. Co-general chairmen are Phyllis Clinansmith and Ruth Nagel with Edna Newton and commentator, Wilma Smith and Mary O'Neil are in charge of models; Dorothy Young and Betty Ree Norgrove, makeup; Sally Macintosh and Shirley Plant, tea; Marion Lacey, music; Catherine Eads, stage manager; Levita Hudson, ushers; and Barbara Brown is hostess. William Campbell has charge of the lighting and sound. Betty Van Tursburger, as director and Mary Lou Gargner, in charge of stage properties, are helping to prepare a skit. "Fashions Around the Clock" includes the modeling of some of the garments made by the Home Economic classes.

**D. FAILING STUDENTS DO THEIR BEST**

Another Failure! It could be your son or daughter. Have you ever thought of this? A great effort is being made by Mr. Matulis and Mrs. D. Reincke, of the Guidance Department to curb these failures as much as possible. In many cases, a failing student is doing his utmost, but often laziness, lack of interest, or various other reasons are the contributing causes.

Below are some of the questions a teacher must fill in when he fails a student: *Term test Grade:* 1—Didn't hand in test paper; 2—Mark in lowest quartile; 3—Mark in lowest 10%; 4—Hasn't taken test to date. *Term test Grade:* 1—Didn't hand in test paper; 2—Mark in lowest quartile; 3—Mark in lowest 10%; 4—Hasn't taken test to date.

*Rapid Unit Quizzes:* 1—Grades in lowest quartile; 2—Marks in lowest 10%; 3—Show lack of preparation; 4—A frequent absentee on quiz days; 5—Fails to make up tests missed; 6—Frequently fails to hand in test papers. *Written Assignments:* 1—Never prepared; 2—Prepared about 50% of the time; 3—Prepared less than 50 per cent of the time; 4—Untidy; 5—When prepared, handed in late frequently; 6—Reveal careless preparation and study; 7—Fails to make up work missed; 8—Weak in English, spelling, word choice; 9—Weak in fundamentals. *Recitations:* 1—Never recites; 2—Participates less than 50 per cent of the time; 3—Inferior participation; 4—Bluffs; 5—Frequently a shirker; 6—Class contributions valueless; 7—English an abomination; 8—Inability of expression. *Attendance:* 1—A frequent absentee; 2—Unnecessary absences; 3—Much tardiness; 4—Late enrollment; 5—Absent due to sickness, work, hooky. *Class Attitude:* 1—Lazy; 2—Wastes time; 3—Lack of interest; 4—Not serious; 5—Indolent; 6—Non-cooperative; 7—Passive; 8—Inattentive; 9—Creates disturbance; 10—Blurts out. *Ability:* 1—Lacking; 2—Lacks background for subject; 3—Slow worker; 4—Can't concentrate; 5—Inability of expression; 6—Lack of comprehension; 7—Finds subject "hard"; 8—Retention span limited; 9—Poor coordination; 10—Possibility for improvements.

**ROCKS DOWN BELLEVILLE; COLLECT ELEVEN HITS**

Following a 7-2 defeat by Redford Union on Tuesday, Plymouth conquered the Belleville nine in a hit seeing game by a score of 11-7 on Friday, May 17.

At the end of the game, Belleville lead by a score of 3-1 but then the Rocks showed ten runs over in the last three innings. Plymouth collected three doubles and one triple and Belleville's Garya clouted a home run for their only extra base hit.

The totals for the game were 11-14-4 for Plymouth and 7-10-1 for Belleville.

**"A DATE WITH JUDY" PRESENTED BY SCHOOL**

The all school play "A Date With Judy" was presented in the High School Auditorium, Wednesday and Thursday evening, May 21, and 22. Unusual advertising furnished by art class consisted of the caricatures of the cast displayed in the lower hall. Those pictured were: Nancy Procter, Judy; Gerry Moffitt, Mrs. Foster; David Mossman, Oogie; Sally Gustafson, Mrs. Hotchkiss; Jean Debut, Eloise; Alline Burns, Barbara; Gerry Sheer, Hannah; Ray Highfield, Rex O'Carner; Jerry Walsh, Randolph.

**PLYMOUTH PLACES SIX IN STATE TRACK MEET**

Plymouth collected twelve places and qualified six athletes for the state meet while placing fifth in their section of the regionals at Ypsilanti last Saturday. Frequent rains made the track muddy, thus slowing the times.

George Buddy took Plymouth's only first by conquering the half mile.

**Steel is keeping prices down**

**PRICE CHANGES 1939-1947**  
 WHOLESALE PRICE AVERAGE UP 94%  
 STEEL PRICES UP ONLY 33%  
 (Figures from U. S. Bureau of Labor Statistics)

**AT LESS** than three pennies a pound, published steel prices are almost as cheap today as they were before the war.

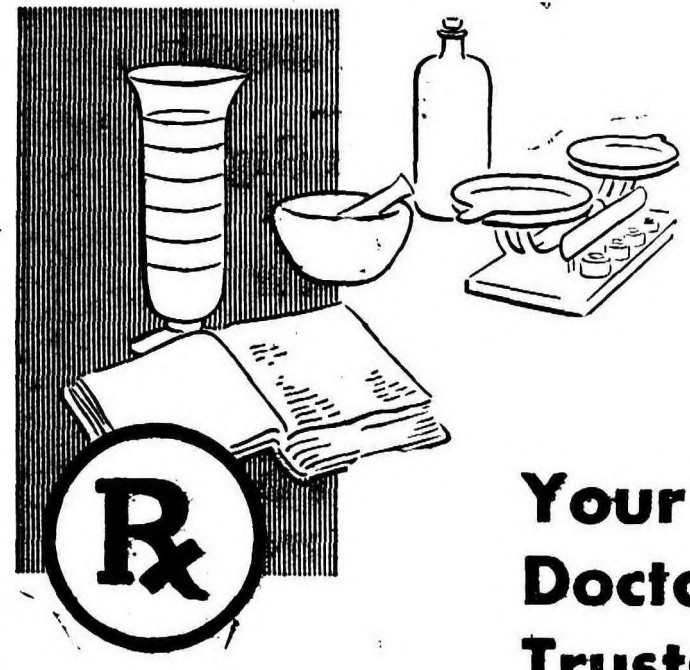

While other wholesale prices have risen 94 per cent since 1939 on the average, steel prices have risen only 33 per cent. Yet steel wage rates have gone up 74 per cent.

While low prices have kept steel the cheapest metal in the world, steel quality has been steadily improving—making stronger, better and longer lasting things for you to buy.

**Chest Survey to Be Made In Livonia**

The schedule for the free chest X-ray survey in Livonia has been announced by the Wayne County Health Department. All adults over 15 years of age in the area of Livonia will be able to obtain this service according to the following program: Monday, May 26—Clarenceville high school, Middlebelt and Eight Mile—1:00 p. m. to 8:00 p. m.; Tuesday, May 27—Livonia Center school, Farmington and Five Mile—1:00 p. m. to 7:30 p. m.; Wednesday, May 28—St. Michael school, Plymouth road and Hubbard—3:00 p. m. to 9:00 p. m.; and Thursday, May 29—St. Michael—9:00 a. m. to 12:30 p. m.

This service is being sponsored by the State and Wayne County Health Departments, and the TB and Health Society of Wayne County.

All veterans are urged by the Veterans' Administration to have

chest X-rays within one year or at the most two years, of discharge when the mobile X-ray unit visits their communities to establish whether or not any chest condition may have arisen since discharge. Many chronic diseases are considered directly due to service if they existed to a 10 per cent degree within one year, and in some cases two years, from date of discharge.

It will only take a minute or two for each individual to register and have the X-ray made. Actually, the machine can take four X-ray pictures a minute and it is not necessary to undress.

The procedure is easy. First a clerk will register you. Then you remove your coat and any metal object in a shirt pocket or any jewelry on the chest. You next step up to the machine. The technician will help you take your position and tell you to take a deep breath and hold it. That is all. After X-ray readings have been made you will receive a confidential report. Approximately 99 out of 100 will receive the encouraging news that there is no TB.

**Water Main Bond Issue Approved**

**Construction to Start This Summer in Livonia**

The \$1,200,000 revenue bond issue was approved last week by the Wayne County Board of Supervisors to finance extensions and improvements to the County water supply.

These new water mains will benefit Livonia, Northville, Taylor, Huron, Redford and Ecorse townships, the County highway engineer, Leroy C. Smith stated.

Proposed construction for Livonia was approved and will consist of the following mains:

- A. 16-inch main in Six Mile road from Five Points to Middlebelt road.
- B. 12-inch main in Middlebelt road from Five Mile to Schoolcraft roads.
- C. 12-inch main in Middlebelt road from Six to Seven Mile roads.
- D. 12-inch main in Merriman road from Five Mile to Six Mile.
- E. A booster station on 16-inch main at the corner of Inkster and Six Mile roads.

A 500,000 gallon elevated tank at Plymouth and Merriman roads.

Sufficient 12-inch pipe is now in stock for two of the above mentioned mains and the County Road Commission anticipate starting this summer and the remaining work will start in six to eight months.

When completed Livonia Township will buy its water from the County Road Commission who in turn will purchase it from the City of Detroit to sell to all out-county municipalities.

According to the County officials the bond issue would be paid off in thirty years and the expansion program will require approximately one year.

**Will Celebrate 50th Anniversary**

Mr. and Mrs. Jesse Thomas, who have lived in Plymouth for the past fifty years, will celebrate their golden wedding anniversary May 25th. Mr. and Mrs. Thomas are holding an open house at the Newburg Church Hall from 1:00 p. m. to 11:00 p. m. The couple were married in Detroit and have made their home in Plymouth since that time.

Mr. Thomas is employed by the Newburg school. Mrs. Thomas as been a willing and faithful worker for the Newburg church for 30 years. Five children, eight grandchildren and two great grand children will help them celebrate the occasion.

In the last five months of 1946, Britain used \$600,000,000 of her American loan, spending \$230,000,000 of it for tobacco and motion pictures imported from the United States.

**Free Chest X-Ray Survey To Visit Livonia**

Dr. Stephen K. Molnar of the Wayne County Health Department announced that the Free Chest X-Ray Survey being conducted throughout Wayne County will visit Livonia May 26 through 29.

Over 17,000 people have received free chest X-Rays during the past three months in this case-finding survey which is being conducted by the State and Wayne County Health Department and the TB and Health Society of Wayne County.

"Finding tuberculosis in its early stages, when the victim is

more likely to respond to treatment and before he has opportunity to infect others is the aim of this survey," explained Dr. Molnar.

In a recent report Dr. Molnar pointed out that the findings from the survey which began late in January, show that tuberculosis increases with age.

Men and women 40 and 70 years old are more likely to have tuberculosis and it is more prevalent in men in almost all age groups.

"That is why we are urging all adults to have an X-Ray to make sure their lungs are healthy," said Dr. Molnar. "In this way you can best protect your children against tuberculosis."

Getting a chest X-Ray is as simple as having a snapshot made. With the modern 70 mm. equipment to be used here it is not necessary to strip to the waist.

In other Wayne County surveys significant TB findings have been reported in one per cent of the folks x-rayed. Seventy-three per cent of the active cases discovered by this means have proved to be early symptomatic TB.

The schedule for the Livonia survey will be announced at an early date.

In Reading, England, Captain G. F. Darling, demonstrating a safety apparatus he had invented for mine shafts, leaped from a 20-foot platform, broke his safety belt and dangled, nearly strangled before he was hauled down.

**Now Is Time To Kill Lawn Weeds**

The months of May and June are good months to begin the control of weeds in lawns with 2,4-D, says E. I. Besemer, county agricultural agent for Wayne County. All 2,4-D weed killers are most effective when soils are moist. Directions for use are included on the package and manufacturers recommendation should be followed closely. The quantity of solution to be used on a unit area depends upon the amount of weed growth that must be covered. The leaves of all weed plants should be wet by the spray solution. Three to four quarts per square rod will usually give a satisfactory control of most lawn weeds. The action of 2,4-D is slow and results should not be expected overnight, warns agent Besemer. Generally a period of two to four weeks is required for the killing action of 2,4-D. Retreatment should not be made until new growth is observed on sprayed plants.

Rain that comes right after an application of 2,4-D may reduce the effectiveness of the treatment. Spray applications should not be made on a freshly mowed lawn nor should the lawn be mowed within 24 hours after treatment. While lawn grasses are not usually injured by the standard solution of 2,4-D, broadleaf shrubs and flowering plants may be damaged by small amounts of the chemical. Spraying should be done when the air is still and it may be advisable to cover valuable plants with newspapers or thick muslin while spraying is in progress. Sprayers used for 2,4-D should not be used for other spray materials unless thoroughly cleaned.

**Carolyn Kirk Wins MSC Honors**

Miss Carolyn Kirk, who graduated from Plymouth High School four years ago, was one of 52 Michigan State College seniors invited to membership in Phi Kappa Phi. This is the highest ranking scholarship honorary on the campus.

All students on the list averaged well over "B" during their four years of college studies. Carolyn Kirk is now a resident of Mecosta.

In Salem, Mass., a purposeful young mother confessed to a police that she had set fire to a neighbor's house (\$500 damage), hoping to drive the tenants out so that she could buy the place.

### Plan Clinic For Little Cripples

Volunteer personnel from Wayne County health guilds and parent-teacher groups with Mrs. R. A. Snodgrass, of Plymouth, as chairman, will participate in the crippled children clinic to be held June 10 and 11.

The Michigan Crippled Children Commission in cooperation with the Wayne County Health Department and the Wayne Out-County chapter of the Michigan Society for Crippled Children and Disabled Adults, Inc., has scheduled a county wide clinic for crippled children. The clinic will be held all day Tuesday and Wednesday, June 10 and 11, at the Wayne County General Hospital (formerly Eloise Hospital), "B" building, second floor.

Orthopaedic surgeons will be in charge of the physical examinations. All crippled children, who are not under medical care at the present time and between the ages of birth and 21 years, are invited. Parents may desire to have a check-up on a child who

### War Prisoner Church Speaker

Miss Mary Scott

#### Brownie Leader To Attend School

Mrs. Arthur Donnelly, leader of Brownie Group XIII, will fly to Milwaukee June 4 to attend the two week training course given girl scout day camp directors. "It will be a great help to our scout movement here in Plymouth to have our own day camp director," declares Mrs. Dobbs, Girl Scout Director. "Because it will be so much to our advantage, the girl scout council has voted to send Mrs. Donnelly with all expenses paid."

The training course is given at a camp at Troy, Wisconsin, out of Milwaukee. Mrs. Donnelly will receive a "diploma" at the end of her training course which will enable her to act as a certified day camp director in the Plymouth area or any other girl scout camp area. She will return to Plymouth just in time to organize and direct the Girl Scout Camp here to be held at the Conservation area the last of June. Assisting Mrs. Donnelly will be Mrs. Dobbs, Mrs. Finney and Mrs. Foley.

The Plymouth Church of the Nazarene will present a talk by Miss Mary Scott, who was a prisoner of the Japanese for 3 1/2 years.

According to Rev. Welton, pastor of the local congregation, Miss Scott will speak Sunday, May 25, at 11 a. m.

Miss Scott sailed for China September 16, 1940, as a missionary under appointment by the Church of the Nazarene, with headquarters at Kansas City, Missouri. When war came on December 8, 1941, she was taken inside the city of Taining Fu and interned with other missionaries and nationals.

An invitation is cordially extended to all those who wish to hear this interesting missionary address.

### College Proves Old Theory Wrong

That old idea of the bone giving the meat its flavor can now be tucked away with that long list of age-old theories that have been proven wrong.

Tests conducted by the sections of animal husbandry and home economics of the Michigan State College Experiment Station have shown that removal of bones from meat prior to cooking does not impair the flavor.

Dr. Pauline Paul, assistant professor of animal husbandry, co-operated in conducting experiments during the past year.

The experiments were made to determine the necessity of leaving the bone in meat when wrapping for frozen food storage. Eliminating the bones from the meat prior to wrapping will save up to 15 percent of the frozen storage space.

Paul said the tests revealed that boning the meat has absolutely nothing to do with the taste or juiciness. Experienced taste-testing committees could detect no differences in the flavor of retail cuts of good grade beef cooked either with the bones or without the bones.

Not only does packaging without the bones allow more frozen storage space, but boned meat is easier to store and does less damage to the wrappers while in storage. Excellent soup stock can be made from the bone taken out of the meat.

### Inter-County Class A Results

Plymouth Sport Shop:

	AB	H	O	A
C. Dobozy	4	1	3	2
L. Shedd	4	2	1	0
D. Hobbs	4	3	0	0
B. Shedd	4	2	3	1
D. Mon	2	1	2	0
N. Dobozy	4	2	0	2
G. Kobitsky	3	2	3	1
T. Carrico	4	2	7	3

The Sport Shop team came through with another victory, downing Inkster-Linderman by the score 11-5. Donald Hobbs, Bud Shedd, Tom Dobozy came through nicely in the clutches.

CONSUMERS POWER COMPANY

Honest Work Can Make Prices Drop

By Gene Alleman Lansing—this is "Anti-Inflation week" in Michigan. Sellers of merchandise are asked by the state legislature to reduce prices.

Source of the idea: The so-called Newburyport (Mass.) plan whereby merchants agreed to cut prices 10 per cent. An unpublished "catch": Fair trade law requires retailers to sell a majority of merchandise at prices set by the manufacturer.

and a dividend return to people who have invested money in the business. Since the retail price cannot be cut unless other prices are lowered—wholesale and manufacturer—the fallacy of the Newburyport plan is quite obvious.

President Truman has asked business and industry to take the leadership in cutting prices.

Simultaneously while the White House is prodding business men to lower the cost of living the federal government through its labor conciliation service is prodding business men to grant new wage increases.

But how about the same dollar in the hands of an investor—the widow who puts a life savings into ownership of corporation stock?

The Chrysler Corporation's "high" profits during the first quarter of 1947 become "low" profits when the CIO yardstick is applied.

Land Prices Are Still Advancing

Land values continue to rise in Michigan and throughout the United States, according to data from the Bureau of Agricultural Economics, Washington, D. C.

Evidently this increase in land values is influenced by the high prices of farm products. Such farm products as dry edible beans, hogs, beef cattle, dairy cows, soy beans are 271 to 274 per cent of the prewar prices, 1935 to 1939.

As one of the results of this land purchase movement, there has been a steadily growing percentage of owner-operated farms. In Michigan, owner-operators increased from 71 per cent of the farms in 1934 to 76 per cent in 1944.

The prosperity of farmers in the next decade will likely be determined by the extent to which they resist the temptation to substantially increase their debts under the urge of current high prices for farm products.

The upward trend in land prices is still continuing, but the price is not now climbing quite so fast as it has in the past 2 or 3 years.

A fact of some interest in this connection is that 2 years after the end of the 1st World War land prices had reached their peak and begun the descent that ended in disaster.

**Interesting Facts About This State and Some of Its Events**

By Gene Aleman  
 Lansing—Jottings from a columnist's notebook:  
 That 169 farm people were accidentally killed in Michigan during 1946. Agriculture has more major accidental work deaths than any major industry. That's why Farm Safety Week will be observed July 20 to 26.  
 That Governor Kim Sigler will relate his cowboy experiences over Michigan State College's radio station WKAR at 12:30 p. m. Tuesday, June 3, as a feature for June Dairy Month. . . . That the Sigler family is moving to the governor's summer residence on Mackinac Island, adjoining the old fort, about the middle of June. The governor will fly up for weekends.  
 That 540 American Legion posts and 370 auxiliaries will offer poppies for sale May 22-24; that each red poppy is made by a hospitalized war veteran who sells the poppy to the Legion; that the funds raised will assist worthy veterans.

That the spring growing season in Michigan is already 12 days behind schedule; that Holland had to import blooming tulips for its Tulip Festival last week; that Charles Figy (Michigan Agricultural

commission) believes the 1947 peach crop will be just peachy—it may even top the 1946 record yield of 4,536,000 bushels.  
 That the average woman who complains about the price of clothes or fruit almost never sews her own clothes or cans her own fruit. Taint funny, either.  
 That Senator Arthur Vandenberg is advocating the St. Lawrence seaway to the Great Lakes whereby cost of the same would be paid out of tolls paid by boats.

That Michigan has forest tracts owned by 370 school and 125 cities under terms of a state law enacted in 1931.

That Michigan's newest member of the state conservation commission—Dick Fletcher of Bay City—is one of the grandest hosts on the AuSable. We still glow at the memory of the sight of two trout fishermen returning their live creel to the AuSable after a day's float. That is real sportsmanship.

That the U.S. Health Service estimates a million of us Americans become infected each year with tuberculosis germs and that 100,000 of us develop an active disease and take ill. The X-Ray film is still the best preventive.

That the city of Detroit made \$45,000 profit last year out of a city-owned restaurant which sells beer.

That it pays to be feeble-minded, at least in Elba township in Lapeer county. This township is receiving a windfall of \$12,000 from Lansing as a result of the sales tax diversion amendment. Why? Because 60 per cent of the folks who live in Elba township are residents of the state home for feeble-minded in Lapeer.

That the Gwinn's hardware store gets results from newspaper advertising such as this: "What could be nicer than a home complete; where you go to the privy without wetting your feet." Could it be that Mr. Gwinn has heard "Oklahoma"?

That the betting at the state capitol is ten to one that the state treasury will have a red-ink deficit by the end of the coming fiscal year. Legislators are not tax-minded; rural vs. city antagonism is at the root of the differences.

That the Hastings Manufacturing Company, makers of piston rings, is now operating only four days a week due to lack of orders. About 100 workers have been laid off. Another recession sign: The Dew Chemical Company at Midland also has a top-heavy inventory and is slowing production.

That both General Electric and Packard, which recently granted wage boosts, are now increasing prices once more.

That the Royal trailer coach factory at Hastings, founded in 1940, is now turning out 12 to 14 hand-made trailers each week that the trailer, 21 or 24 feet in length, is virtually a custom-made cabin on two wheels; that the price for the 21-foot model (which we inspected at Hastings the other day) is \$1,995 including an electric refrigerator, license plates and taxes; that two-door trailers are best for safety; that we're going to stick to an old-fashioned tent for a while—heavy inventory and is slowing production.

That the state legislature is really going to adjourn soon. We are told, June 6.

That there is real slump in the liquor business; that 500 bartenders are out of work in old Chicago and 600 of the city's 6,000 saloons are reported ready to fold up; that folks are just not buying fancy, high priced wine any more.

That Michigan ranked second last year in work time lost due to strikes; fifth in number of labor disputes before the NLRB. No, we're not bragging.

That the guzzling of canned fruit juice is 27 per cent over pre-war. Aint statistics wonderful!

That the fair employment practice commission bill, now shelved by the senate labor committee, was rejected by the Illinois legislature for the second time in two years. Instead of solving the problem of racial prejudice, the anti-discrimination scheme would stir up trouble, so Illinois legislators are convinced.

That federal government economists insist a bond bought today will be worth 10 to 20 per cent more a year from now—that is in buying power. Buy a bond!  
 That Harvey Campbell, the Motor City's ace toastmaster, thinks Mackinac Island is missing a good bet by not dramatizing its blacksmith shop. "Millions of kids have never seen a practical, working smithy", says Harvey.

That the lobbyists have never been more influential with legislators than during the 1947 Sigler session at Lansing, the governor even called in Wilfred F. "Bill" Doyle for advice the other day. Honest!

That if you glimpse someone on the street with a full-fledged beard, chances are 160 to 1 that he is from Traverse City. The cherryland capital is celebrating its centennial in July. And if you don't have a Gay Nineties beard, you're in the doghouse.

That 30,000 fewer farmers in Michigan, plus 40,000 tractors, produce 25 per cent more food between 1940 and 1945. The value of Michigan dairy products jumped from \$51.5 to \$121 millions in the same time; poultry, 16.7 to 38.5 millions.

That 8 per cent of the cost of building a home is due to labor; that wage costs in the building business have gone up 78 per cent since 1940.

That 20 per cent of families in these prosperous U.S.A. earn less than \$1,000 a year; 40 per cent do not have an automobile; 50 per cent of all farm homes lack electricity.  
 That the climate in Michigan stimulates physical energy and hence accounts for a lot of our pep. And by the way, what in the world happened to our spring this year? Summer will be here in another 30 days.

If you have any items of interest about your family or friends please call 16.

**Expect Fertilizer Shortage This Year**  
 Fertilizer prospects for 1947 are about the same as for 1946. Careful planning and wise use of fertilizers will help stretch short supplies, says J. F. Davis, extension specialist in soils at Michigan State college.  
 More efficient placing methods will stretch limited fertilizer supplies. Experimental results show that for beans and sugar beets, fertilizer is most efficiently applied in a band approximately one inch to the side of and one and one-half inches below the seed level.  
 Certain crops used in rotation respond more to fertilizer than others. Fertilizer intended for the corn crop will be more effective if applied to sugar beets, legume seedings, tomatoes, or small grains. Fertilization is particularly important when seedlings are to be made with the small grains.  
 If substitute grades of fertilizer low in potash or nitrogen are used, row crops can be side-dressed with these materials later in the season. Manure should be conserved and used carefully. Minor elements should sometimes be used in addition to regular fertilizer. County agricultural agents or the Michigan State college soils science department can make recommendations for their use.

**PONTIAC**  
 A fine car made finer

A Product of General Motors

**When in doubt - choose a Pontiac!**

If there is any doubt in your mind about which motor car would best meet your requirements — we respectfully suggest that you choose a Pontiac. Practically everyone who owns a Pontiac would tell you that it is the ideal car for the average family.

Pontiac offers a full measure of all the important things you want, and need, in an automobile. It is big, beautiful, safe and comfortable. It is a constant joy to own and drive. It is remarkably dependable and long-lived. Yet—despite all this fine-car quality—Pontiac is extremely economical—just about as economical as any car you could buy.

These things are always true of Pontiac—year after year. So regardless of when you expect to get your next car, choose a Pontiac. We are certain it will make you happy, from every standpoint.

TWO POINTS TO REMEMBER: (1) The sooner you place your order for a new Pontiac, the earlier you will get it. (2) You will get more for your present car if you keep it in tip-top shape.

Tune in HENRY J. TAYLOR on the air twice weekly

**Clean-Up Day Can Save Lives**

Spring clean-up days may save your life or limb, or those of your child.

Pointing out this fact, Dr. William DeKleine, State Health Commissioner today advised, "Check up, clean up and repair for health's sake and to prevent home accidents."

The annual spring housecleaning and lawn clean up offers every householder an opportunity to eliminate health hazards and causes of preventable home accidents and deaths. Rats, houseflies and mosquitos are known health hazards; they should be killed and their habitats removed. "Accidents do not just occur; they are caused. To prevent accidents it is necessary to recognize when and how they occur. A check up can then reveal remedial hazards which may save life and limbs."

Rats, we are told, have killed more people than all the wars of history. They carry deadly fleas which transport disease into pantry, kitchen, dairy, cellar or granary. The rat thrives on open garbage and uncovered food or vegetables. Homes should be rat-proofed. This includes eliminating small holes around pipes, durable screening for basement windows, and gratings for ventilators and sewer openings. Metal bins should be used for fruits and vegetables. The rat must be kept outside and his food supply eliminated.

The housefly thrives on open garbage and outdoor toilets, and exposed animal and vegetable refuse. The fly carries diarrhea, typhoid and, some authorities believe, poliomyelitis. Removal of its food supply and the use of DDT insecticide is effective in the fly's elimination.

The mosquito which carries malaria and yellow fever in Michigan can be kept out of the home by fine screens and insecticides. Marshes and open stagnant water, his breeding places, should be eliminated, or the water surface should be treated with oil or DDT to kill his "Wigler."

Fresh paint on household surfaces makes them less hospitable to filth and easier to keep clean. Home accidents in Michigan cause practically as many deaths as all motor vehicle accidents combined.

Home accidents took 1385 Michigan lives in 1946. More than half of these deaths, 751, died as the result of falls; 252 died from fires, burns and explosions; and 109 died from mechanical suffocation. Of those who died from falls, 609 were over 65 years of age and 103 were from 45 to 65 years of age. Deaths from fires, burns and explosions were distributed through all ages with the fewest occurring between 15 and 25 years of age. Of the deaths from mechanical suffocation, 85 were among children under five years of age.

Firearms accidents took 38 lives of which 13 were between 5 and 14 years of age. Poisons killed 35 people in their homes. Twelve of these were under five years of age. Poison gas caused 34 deaths of which 23 were of persons over 45 years of age. All other home accidents took 92 lives. Thirty-eight of these were children under five years of age.

"During the coming year many hundreds of people will suffer injuries or lose their lives while at home. Whether your house will contribute to this number depends on your own action, now. A room by room check during clean up

days can uncover remedial hazards and save life and limb", Commissioner DeKleine said. The kitchen is the most dangerous room in the house. Gas stoves and electrical appliances should have their annual inspection. Drawers for sharp cutlery should be out of reach of small children. Insecticides, ammonia, cleaning fluids, silver polish, lye and bleaches should be put on a shelf out of reach of small children. Cleaning with gasoline or inflammable material in the kitchen or enclosed area should be avoided. Care should be used that pails or tubs of hot water are not left unguarded, and that handles or pans containing hot fluids are turned away from the edge of the stove. Care should be used in selecting wax for the floor, and the linoleum should lie flat. It goes without saying that no gasoline or kerosene should be used to start a range fire. Insecticides should not be used near uncovered food.

Bathrooms are also hazardous. No electrical appliances should be used in the bathroom, because of danger of shock. Contact with electrical fixtures while hands are wet or any part of the body is in water should be avoided. This goes for turning on bathroom lights, electric sweepers or electric razors. A rubber mat for the bathtub and a solid metal wall grip will prevent painful falls in the bathtub. A convenient soap container should be attached to the tub. Faucets should be properly marked. All poison should be out of reach of the child standing on a chair. They should be marked so that they can not be mistaken in the dark. All medicines should be thrown out when they are no longer needed for the patient for whom they were prescribed. Used razor blades should be put in a closed container.

Stairways are dangerous. All stairways should have sufficient light. They should have wide treads, an easy slope and handrails whether they go to the basement, living room or out of doors. Every loose board should be nailed tight. Scatter rugs should not be used at the head or foot of stairs. Care should be employed that no object, how-

ever small or large is ever left or stored on the staircase. This is true of brooms as of children's toys, the washing or marbles. Gates can be placed at top and bottom of stairs to protect small children but, better still, they should be taught how to use the stairs, Dr. DeKleine said.

**How to Rid Your Home of Moth Pest**

Many new preparations are on the market today to rid your home of moths, but your first method of attack should be good housekeeping.

Ray L. James, Michigan State college entomologist, believes that regular and thorough cleaning of carpets, carpeted floors and places where lint collects is very important. Wall to wall carpeting is very likely to become infested with moths.

On sunny days hang clothing, carpets and rugs out-of-doors. Beating rugs is another way to control moths because it kills them in different stages of development. Frequent brushing is helpful for clothing.

After you have taken all the clothing from your closets to air and sun it, apply a five percent DDT refined kerosene solution to the walls and ceiling. Use a coarse spray and don't run the liquid from the walls.

Clothes which are stored between seasons should be given chemical protection. Alternate layers of clothing with layers of PDB (paradichlorobenzene). Separate the chemical from the clothing with layers of paper.

Repair cracks in floors, baseboards and near the quarter-boards with crack filler. Vacuum and sweep rugs, especially at the edges. Use sodium fluosilicate, 10 percent DDT powder, or PDB under the carpets.

Remember that for clothing your best protection is brushing, sunning and dry cleaning. Clothing that you wear regularly out in the air and sunshine is not apt to attract moths. Well-lighted and ventilated closets discourage moths.

HERE you see — in one sleek and tidy package — all the things it takes to make the style-setter and the standout performer of the year.

One eye-filling glance will tell you that here's the clean-lined beauty and hint-of-tomorrow look that will cue the trend of car design for many seasons to come.

But just wait till you get this beauty in motion, and you'll know why folks are saying there's nothing on wheels to match it.

That bonnet's not broad and haughty for looks alone; it's brim-filled with power — the satin-smooth power of Buick's big Fireball straight-eight engine.

Go where you will, its two solid tons and soft coil springs on all four wheels make byroad and highroad equally smooth.

You get this in any Buick. But you get something more in the one pictured here.

Its snug top shelters you at the touch of a finger. Its door windows and even its front seat are power-operated by push-button control.

And thanks to the magic of Buick's new Silent Zone mounted bodies, you ride in a solid and road-steady silence such as Convertibles have never known before.

In other words, here's style and size, power and room, convenience and comfort all wrapped up in one of the most exciting

models of the year's most wanted car.

That means, of course, that it takes a bit of waiting before one can be yours. But the best way to shorten that wait is to take the all-important step — and get your order in now. We'll take it with or without a trade-in.

A FINGER TOUCH—and the door window runs up or down automatically. Other handy controls raise or lower the top and adjust the front seat.

**Inmates Help To Grow Own Food**

A report just compiled covering the calendar year of 1946 for the fifteen State Institution farms shows the production of food products valued at \$1,786,991.93. Charles E. Figg, Director, State Department of Agriculture.

Of the total amount produced, dairy products represented \$662,733.17. Cattle sold for breeding purposes, \$87,686.04; swine, \$210,205.57; poultry products, \$87,052; beans and potatoes, \$120,569.60; fruits, \$70,237.19; vegetables (including canner products), \$201,936.23; and farm crops produced and consumed by institutions, \$276,541.82.

During the year, in terms of pounds, the products were produced as follows: Milk, 16,218,379 pounds; poultry, 279,983 pounds; swine, 1,415,062 pounds; fruit, 1,216,879 pounds; field crops, 45,018,275 pounds; and garden crops, 8,431,943 pounds.

Production by the various institutions, in terms of dollars, is as follows: City Training School, Adrian, \$14,847.56; Caro State Hospital, \$64,334.21; Coldwater State Home and Training School, \$2,725.86; Michigan State Sanatorium, Howell, \$43,977.53; Ionia State Hospital, \$53,093.94; Michigan Reformatory, Ionia, \$79,691.41; State Prison of Southern Michigan, Jackson, \$476,925.91; Kalamazoo State Hospital, \$150,723.82; State Home and Training School, Lapeer, \$171,906.65; State House of Correction and Branch Prison, Marquette, \$81,974.79; State Home and Training School, Mt. Pleasant, \$51,411.59; Newberry State Hospital, \$93,547.74; Pontiac State Hospital, \$117,603.20; Traverse City State Hospital, \$140,499.98; and Ypsilanti State Hospital, \$111,551.15.

Alton B. Clark, Coordinator, State Institution Farms, reports that both the gross poundage and value increased in 1946 over 1945. The increase in dollar value was \$298,658.91. Production of pork, increased 123,174 pounds, valued at \$283,714.17. Reports show that pork production last year was sufficient to take care of all requirements for the institutions.

**Livonia Unit To Meet Next Week**

On May 28 at 8:00 p. m. the May meeting of the Livonia Unit of the Michigan Horticultural Society will hold its regular meeting at the Township Hall on Five road.

Everyone is to bring an arrangement and these will be judged by the point system. It is planned to also show colored slides of spring flowers at this meeting. All members are urged to attend this interesting meeting.

**LEGALS**

**OFFICIAL MINUTES OF THE BOARD OF EDUCATION**

The regular meeting of the Plymouth Township school board met on May 12th at 7:30 p. m. Present: Eaton, Brisbois, Stark, Strong and Sutherland.

Absent: None.

The minutes of the meeting of April 14th were read.

Sutherland moved and Brisbois seconded the motion that Sohio-Fleetwing be given the renewal agreement for fuel oil for the reason of 1947-48.

Ayes: Eaton, Brisbois, Stark, Strong and Sutherland.

Nays: None.

According to the State Law the regular June meeting of Plymouth Township School District must be held on Saturday preceding the Annual Meeting. Therefore Saturday June 7 at 1 p. m. was set as the time of this meeting.

Strong moved and Sutherland seconded the motion that the Plymouth School Board join the

Wayne County School Board Association and pay the \$15 annual fee.

Ayes: Eaton, Brisbois, Stark, Strong and Sutherland.

Nays: None.

Brisbois moved and Stark seconded the motion that the Annual District election be held in the High School and the annual meeting in the gym.

Ayes: Eaton, Brisbois, Stark, Strong and Sutherland.

Nays: None.

The Board suggested a list of persons to act on the Election Board — these people to be contacted by the Superintendent.

The following five candidates filed petitions for the vacancies on the school board and qualified:

Dr. E. B. Cavell, Jr., 930 Ann Arbor road; Harry C. Fischer, 42461 Clemons road; Kenneth Hulsing, 1010 Church street; Stephen E. Tallian, 9305 Corinne street; Dr. A. C. William, M.D., 405 Irvin street.

Stark moved and Strong seconded the motion to pay bills in the amount of \$5,397 in addition to the payroll of \$39,199.75.

Ayes: Eaton, Brisbois, Stark, Strong and Sutherland.

Nays: None.

Brisbois moved and Sutherland seconded the motion to adjourn. The motion carried and the meeting adjourned at 9:20 p. m.

Alice V. Strong, Sec'y.

The first state law imposing a personal income tax was passed in 1911 in Wisconsin. In 1919, such laws were in effect in three states having 16 per cent of our population. In 1932 in 15 states having 34 per cent, and today in 29 states having 56 per cent.

BABSON SAYS

Babson Discusses Shipping Stocks New York City, May 23.—Aid and loans abroad are bound to expand U.S. trade with most of the nations of the world.

Let us look upon our maritime fleet before and after World War II. In 1939 we had about 14% of world shipping, today we have about 40%.

Although U.S. ships were carrying about half of the world trade after World War I, they had lost 30% of that trade up to World War II.

From the end of World War II to the present day the U.S. Merchant fleet has been reduced in tonnage close to 55%. When this program has been completed it is doubtful if we have more than 1500 ships in use.

Liberty Ships Unsatisfactory Victories, the second class, have fair speed; their detriment is stowage factor. Thirdly are older vessels and Liberties forming the bulk of our dry cargo fleet.

Now we come to ships building throughout the world. The U.S. has practically ceased construction. We are in need of fast medium sized passenger ships as well as some refrigerator ships.

We do not know that Russia is building but my guess is that

Russia's program will fall between Britain and the others. With one exception only, under the present set up, are we likely to hold our own in post-war shipping.

Subsidies Necessary Loading constitutes one of the largest shipping costs. At present high priced labor makes loading and unloading expensive heavy.

In view of the above I cannot now recommend readers to buy shipping securities as an investment, but I do believe the Federal Government is justified in increasing subsidies to U. S. shipping.

Bell Grants 25% Discount

The Michigan Bell Telephone Company is granting its Livonia customers a 25 per cent discount in their local service charges for the duration of the strike.

John R. Saxton, manager for the company here, in making the announcement, pointed out that the rate tariff at Livonia provides no charge for calls to Plymouth. The latter is a manual exchange, however, and service at such exchanges is restricted during the strike to emergency calls.

The greatest wave of church construction in history occurred in France in the 12th and 13th centuries. Although having only 10,000,000 inhabitants, France, between 1170 and 1270 alone, built 80 cathedrals and nearly 500 cathedral-class churches.

In Bremerton, Wash., Oren B. Relyea forfeited \$50 bail on a charge of negligent driving, resumed his job teaching a "driver education" class.

25 YEARS AGO FROM THE PLYMOUTH MAIL FILES

About one hundred Toledo business men arrived in Plymouth last week Thursday afternoon and were met at the train with autos by members of the Plymouth Chamber of Commerce and conveyed to the business districts of the village where members of the party called upon our business men.

A very popular and entertaining home talent play, "An Old Fashioned Mother", will be given at the Salem Town Hall, Friday evening, for the benefit of the Young People's Class of the Second Congregational church of Salem.

Mr. and Mrs. Grove have rented the Sanderson house on Holbrook avenue, which is now occupied by Mr. and Mrs. Glenmore Pasage.

A supper will be given at M. E. church, Friday at 6 p. m. Menu: baked beans, baked hash, salad, cake, sauce and coffee. Price 25c.

William Sutherland of south Main street has purchased a Nash touring car from Crumbe and Chambers of the Plymouth Nash Sales Co.

In Denver, a spring-fevered columnist tested an old metaphor, concluded that it takes a roll of exactly 158 one-dollar bills to choke a horse.

Heavy Winter Loss of Bees

Reports coming into the apiary office, State Department of Agriculture, from honey producers and Department Field Inspectors indicate a much heavier winter loss in bees than normal, especially in the north and northeast part of the state.

Director Charles Figy states that, while this loss will probably be made up to a certain extent by package bees from the South, conditions indicate that the supply of bees for pollination would be somewhat less than last year.

Don P. Barratt, State Apiarist, says, while applications for permits for moving bees into orchards are not as heavy as last year, because of lateness of the season, there is no reason to believe that the demand will not be equal or possibly more.

Therefore, it is suggested that orchardists make immediate arrangements for the necessary bees in order to insure adequate pollination for their needs.

Mr. and Mrs. William Shaw are spending the week at their cottages at Black Lake having made the trip by motor the first of the week.
