## Plymouth Masons to Visit Buffalo

Officers and members of the degree team of Plymouth Lodge No. 47 F & AM will make a trip to Buffalo, New York on April 17 to confer the Third degree under the Michigan Ritual in Emulation Lodge No. 1022 F & AM.

Two special coaches have been reserved for the exclusive use of the group, and they will leave Detroit that morning. A banquet will be served at 6:30 following the degree work. The group will return Sunday.

This trip is similar to one taken to Chicago last year which 112 members made. At that time the degree team was highly praised for their efficient work in exemplifying the Michigan Third Degree ritual.

Reservations are open for the Buffalo trip, and any Masons in this vicinity interested in making the trip should contact Worshipful Master Manley Smith, LeRoy Hartman, or secretary Oscar E. Alsbro.

Always use low temperatures for cooking cheese. High temperatures toughen cheese and tend to make it rather stringy.

## Volunteers to Aid in Cancer Drive Are Announced

(Continued from page 1)

will supervise the canvass in Precinct No. 2, Mrs. Cecil D. Packard in Precinct No. 3 and Mrs. Donald Burleson, Precinct No. 4.

An advisory committee consisting of the following has also been named by the chairman: Mayor Jack Taylor, City Manager Harold Cheek, Dr. Walter Hammond, Jr., Dr. Harold Brisbois, Dr. Luther Peck, and Dr. A. C. Williams.

An honorary advisory board of past chairmen which serves the society throughout the year is composed of Mrs. Cass Hough, Plymouth's first chairman, Mrs. Harold Brisbois, Mrs. Sidney Strong and Mrs. John Wimsatt, Mrs. Stecker revealed. She stated that they can be consulted any time during the year on information pertaining to the Cancer Society.

The first meeting of the volunteer workers took place Wednesday for the formation of plans and instruction. It was held in room 14 of the high school at 8 p.m.

A special assembly is planned for the junior and senior high school students Monday, April 5. It will consist of a motion picture which has been prepared by the Cancer Society, the chairman announced.

Mrs. Stecker emphasizes that the workers can aid in making the local campaign a success, only if they have the wholehearted cooperation of residents of the city. "Cancer is a personal problem," she added, "and that is why we are appealing to every person in this community to help during our April drive."

"One out of every two homes in this city eventually will be struck by cancer unless we are successful in checking the growing death rate, and this can be done only by contributions which will finance the furthering of the Society's present work and research."

## Speaker Chooses Famed Question

Today, Friday's, Woman's club speaker, Dr. Margaret Sterne, was born in Frankfort, Germany, coming to this country in 1925.

As she speaks at today's meeting, which is slated for the Veterans' Community Center, she will discuss the question, "Can Europe Learn Democracy?"

At the present time Dr. Sterne is affiliated with the history department of Wayne University. Business of the club will be discussed at the regular 2 p.m. meeting preceding the program, with Mrs. Paul Christensen presiding.

Mrs. Miller Ross is chairman in charge of the day's program, and Mrs. Harold Finlan, Mrs. James Gallimore, Mrs. Harold Jolliffe, and Mrs. Henry Penhale will act as hostesses.

## Large Numbers Attend Plymouth Holy Week Rites

(Continued from page 1) church, First Presbyterian church, Church of God, Rosedale Gardens Presbyterian church, and Church of the Nazarene.

The Penniman Allen theater was also completely filled by those attending the hour service of St. Peter's Lutheran church. Special music was furnished at this service by the Dr. Martin Luther College Concert Choir from Newlum, Minnesota.

Easter morning worshippers were equally as zealous in their observance of Christ's resurrection on Easter morning, during sunrise, special, and regular church services.

You can call me an isolationist if you want to, but I'm not going to wreck America to save any country. — Representative Robert F. Rich.

## Driver Training Program Begins

Eddie J. Bender (center) is shown above with Howard E. Parr of South Lyon, who is receiving his diploma following the completion of the Driver-Training Institute held in Jackson March 22-26. The presentation is being made by Norman Borgerson, institute director, while Trooper J. Chapute of the Redford State Police Post, watches.

Actual organization of Plymouth High school's driver training program got underway this week.

It moved from the planning stage to actuality following the delivery of the dual control equipped Chevrolet, which is being donated for use by Allison Motor Sales, and Eddie J. Bender's completion of a Driver-Training Institute program qualifying him to head the course.

The announcement was made by Helmar Nelson, superintendent of Plymouth schools, who stated that a regular class for driver training is being included on the school's curriculum. It will consist of both lecture or classroom work, as well as actual behind the wheel training, he remarked, with Eddie Bender, head coach, in charge of setting up the program.

Coach Bender completed the five day training program last Friday, March 26. He attended the Institute along with 79 other Michigan high school teachers and police officers who will set up driver-training courses in their respective cities. The program is sponsored jointly by the State Department of Public Instruction and the Automobile Club of Michigan.

It has been emphasized by Norman Borgerson, institute director, that "A great number of high school graduates spend more time in business in driving than in any other pursuit. If you're a million-mile driver, and many of us are, it means you'll spend the equivalent of 10 hours a day for nine years driving. Not much that high schools teach occupies more of our lives," he added.

## Speaker Tells of Ineligibility

(Continued from page 1) boys and girls committee, which is headed by Donald Bovee.

Other than the usual medals and awards given for such events, which cannot by law exceed \$2 in cost, no presentations can be made without making the athlete involved ineligible, he stated.

Mr. Schmidt told of two cases which came to light this week, where two high school athletes accepted awards last summer in excess of this specified amount. These boys, he stated, cannot take part in school sports for another year because of this.

He urged the businessmen, in case there is any doubt concerning contemplated awards, to check with either the coaches or school administrators. Should Plymouth allow students to play on their teams who are considered disqualified because of an unlawful award, the school would be deemed by the state as also ineligible, and would be denied the privilege of taking part in any sporting events, he continued.

Phone news items to 1755.

## Army Day Will be Observed April 6; Exhibit Planned

(Continued from page 1) free as though the flag were staffed. If displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right; that is, to the observer's left. When displayed in a window of a home or a place of business, the flag should be displayed in the same way.

If used on a speaker's platform displayed flat, it should be placed above and behind the speaker. If staffed on a stage, speaker's platform or chancel of a church, it should occupy the position of honor and be placed at the clergyman or speaker's right, as he faces the congregation or audience. If used elsewhere than in the chancel or on the platform, it should be placed in the position of honor at the right of the congregation or audience as they face the platform.

The flag should not be flown during inclement weather. It should not ever be allowed to touch anything beneath it, such as the ground, floor, water, or merchandise. It should never be used as a drapery of any sort whatsoever, never fastooned, drawn back nor up in fold, but always allowed to fall free.

## Plymouth PTA to Play Host During District Program

(Continued from page 1) groups meeting for the purpose of discussing various phases of the PTA program, have been planned. A summary of the discussions will be revealed during the 2 to 3 p.m. portion of the program. A model PTA meeting and parliamentary procedure demonstration will also be presented during this portion of the conference.

Lunch will be served by women of the Methodist and Episcopal churches, Mrs. Taylor announces.

Mrs. Taylor is being assisted with arrangements by Mrs. Katherine Bock of Rosedale Gardens.

Stealing 78 comic books and 35 different love, movie, and detective magazines, a thief at Green Bay, Wis., remembered to take along some things to make him comfortable while reading. Also stolen were four packages of nuts, some penny candy, and four pipes.

Mrs. Alfred Swauger, of Blackhorse, O., is recovering from injuries received when a sweet potato she was baking in her stove exploded and hit her in the face.

An attachment that converts an electric iron into a steam one is now available.

In Olcott, N. Y., a Mr. Ten Brook, who was christened in 1876 (the year of the Philadelphia Centennial) for one Judge Hodge (owner of the opera house, manufacturer of gargling oil and supporter of Samuel J. Tilden for President), gave his name as John Hodge Opera House Centennial Gargling Oil Samuel J. Tilden Ten Brook.

To clean copper pans, rub them with a lemon rind which has been sprinkled with salt.

## C. A. Fisher Dies Aboard Train

Word has been received that C. A. Fisher, head of the University of Michigan Extension department, died in Ann Arbor Wednesday, aboard a train bound for Detroit.

Death is believed to have been caused by a heart attack.

Mr. Fisher was well known to many in Plymouth, and during the past few months had made appearances before the Rotary and Hi-12 clubs in the capacity of guest speaker.

## Farmers to be Warned of Plant Diseases

Michigan farmers this summer will be warned of crop diseases the moment they attack, says J. R. Vaughn, plant disease specialist at Michigan State college.

A nationwide crop disease forecasting service has been worked out by the U. S. Department of Agriculture and cooperative state colleges. Forecasting service in Michigan will apply particularly to the late blight diseases on potatoes and tomatoes. But it will also be concerned with such small grain diseases as blights, rusts, and smuts. As soon as any of these diseases appear in Michigan, farmers of the state will be notified at once.

There's ACCURACY Combined with LONG LIFE in a McCORMICK-DEERING GRAIN DRILL

The word "accuracy" applied to a McCormick-Deering Grain Drill means just this: exact metering of your seed to furnish a uniform supply in the quantity you want. And that feature stands out in both fluted and double-run feeds. There's a wide variety of furrow openers, too—the right type for your soil conditions so that seed will always be placed at a uniform depth. Talk about rugged construction and durability! All-steel hoppers and bridge-type main frames with reinforced corners take care of that... and hold feeding mechanisms in perfect alignment. But don't just take our word for it. Come in and find out about the McCormick-Deering model with the seeding and fertilizing equipment you want.

**Official Proceedings  
Board of Education**

A meeting of the Plymouth Township School Board was held at 12:30 p.m., March 13, 1948.  
Present: Eaton, Hulsing, Strong and Williams.  
Absent: Sutherland.  
Williams moved and Hulsing seconded the motion that the Student Council be given permission to make necessary improvements on the Athletic Field using the money they have earned for that purpose.  
Ayes: Eaton, Hulsing, Strong and Williams.  
Naves: None.  
Williams moved and Strong seconded the motion that the use of the field back of Mrs. Burden's home at Adams and Blanch be discontinued until a suitable back stop can be set up.  
Ayes: Eaton, Hulsing, Strong and Williams.  
Naves: None.  
The new salary schedule which had been tentatively set up by Mr. Latture of the Teacher's Finance committee, Mrs. Strong of the Board and Mr. Nelson, was presented at this time. The various provisions were discussed, but the final decision was left until Tuesday, March 16, at which time the entire Board could be present.  
On motion, the meeting adjourned at 3 o'clock p.m.  
Respectfully submitted,  
Alice V. Strong, secretary

A meeting of the Plymouth Township School Board was held at 7 p.m., March 16, 1948.  
Present: Eaton, Hulsing, Strong, Sutherland and Williams.  
Absent: None.  
The minutes of the meeting of March 13, 1948 were read and approved as read.  
The discussion of the Salary Schedule begun on March 13, was continued. Three possible schedules were discussed by which the base for an A.B. could be raised to \$2,400 from \$2,200, thus conforming to the salaries in comparable schools in this area. This makes the maximum for a M. A. \$3,900 and \$4,000.  
Sutherland moved and Hulsing seconded the motion to adopt the second plan by which the base becomes \$2,300 for 1948-49 and \$2,400 for 1949-50.  
Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.  
Naves: None.  
Hulsing moved and Williams seconded the motion that the list of teachers recommended by the Superintendent by approved for contracts.  
Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.  
Naves: None.  
Strong moved and Hulsing seconded the motion that the salary schedule increments apply only to those teachers, who have completed or will earn credits during the summer according to the provision in the salary schedule or will present a definite plan for the same to be carried out in the school year of 1948-1949.  
Ayes: Eaton, Hulsing, Strong, Sutherland and Williams.  
Naves: None.  
The meeting adjourned at 10:30 p.m.  
Respectfully submitted  
Alice V. Strong, secretary

**Rebekah News**

On March 18 several of our sisters had the privilege of visiting the Women's Division of the Detroit House of Correction. After lunch they made a tour of the grounds.

Sisters Margaret Bunyea, Marguerite McKenna, Mabel Hunter, Hazel Roach, Dora Wagenschutz, and Dorothy Finney attended the afternoon session of the district meeting held in Detroit on Monday, March 29. Several more of our sisters and two of our brothers attended the evening session.

Our memorial service was beautiful and impressive. Our captain is to be complimented for her splendid work, also the girls who carried out her wishes.

Degree Staff will meet Thursday, April 8, at the hall for lunch pot luck.

Past Noble Grands will meet with Sister Mildred Collins Thursday, April 15.

The bazaar and chop suey supper is Friday, April 2. Supper will be served from 5:30 until 7:30 p.m.

We extend our heartfelt sympathy to Sister Taylor and her family in their recent loss. Brother Ed Taylor who had been a member of our order for several years and who passed from our ranks after a long illness.

We are pleased to hear that Sister Irene Broegman has returned home from the hospital and is recovering nicely, also Sister Ethel Bulson is still confined in the hospital but is improving and expects to return to her home the first of the week.

Mental depression is often caused by fatigue. A sufficient amount of calm restful sleep will usually result in a healthier and more cheerful outlook on life.

ELTON R. EATON

**A WASTE OF MAN-HOURS.**

Some ex-local office holder over in the city of Pontiac has announced himself as a candidate for the Republican nomination for congress against George A. Dondero. We figure that if he stays in the race he is going to waste a lot of man-hours that could be put to better use.

The writer has not always agreed with Congressman Dondero, but on the whole he has been an excellent congressman, one of the hardest workers in the entire legislative branch of the government. He has by his attention to business climbed to the chairmanship of one of the most important committees in congress, now occupying a position where he can do a world of good for his own state as well as the nation. In fact, he occupies a position within the congress that it would take any one else years to gain.

No! We are decidedly against any change at this time. Congressman Dondero has had the courage to tell rotten, selfish, greedy pressure groups to go jump right in the middle of the lake. And we're for him, too, because of his courage to tell the grab-bag boys where to head in.

It is our prediction that he will not only win the nomination by an overwhelming vote, but that his victory in the final election will see him getting the largest vote he ever received—and that will be something.

**IT IS NOT A POLITICAL PARTY.**

We heard the discussion arranged by Editor George Cushing of WJR recently on the question of Communism, those taking part in it being the presidents of Michigan's three great Universities and Governor Sigler.

It was one of the most intelligent discussions we have heard in sometime of this subject, but frequently during the discussion Communism was referred to as "a political party."

It is nothing of the sort and never has been. Communism is a gigantic CONSPIRACY, made up chiefly of potential arsonists, thieves, murderers, bums and nit-wits.

They propose to steal what you have worked to gain, murder you if you do not consent to the theft of your property, and burn your houses and barns if they cannot gain possession of them. They possess no regard for law, their morals are of the lowest. Their purpose is to take from you all that you possess and then put you into slavery to live as they direct.

Would you call a band of plotting thieves, murderers and arsonists a political party?

Of course you wouldn't.

Then why do we keep referring constantly to the Communist mob of highly trained gangsters as a political party? It's high time to put an end to this fraud in terminology.

**Dairy Store Opens One of State's Best**

(Continued from page 1)

with glazed tile throughout on the interior.

In addition to the store the building contains a bottle washing room, a milk processing room capable of bottling 4,000 quarts of milk daily, and an ice cream processing room that has equipment capable of making 1,000 gallons of ice cream daily. There are also cold storage rooms to properly store the dairy products.

The refrigeration equipment in the building is of the same capacity that was used in the old ice plant that formerly operated in Plymouth and could produce 20 tons of ice per day.

An investment totaling nearly \$55,000.00 brings to this city one of the most complete and modern plants of this kind in the state. Local residents are invited by Mr. Bakhaus to visit the plant and inspect the new equipment that has been installed to provide them with better service and dairy products. The store which is now open will operate from 9 a.m. to midnight seven days a week.

In Montrose, Pa., Farmer Elmer Greene was fined \$9.13 for "neglect" when he admitted that he had bought his sick horse a "special medicine" but had drunk most of it himself.

**Women Aid With Club's Service**

Thirteen members of Plymouth's Business and Professional Women's club attended an officer installation service for the newly formed Northville club Monday evening, March 22.

Plymouth club members, who are sponsoring the Northville group, aided in the conducting of the ceremony in the latter city's Methodist church.

Officers of the local club taking part in the installation were: Herma Taylor, president; Ada Watson, vice president; Florence Gabelman, treasurer; Jean Peet, corresponding secretary; and Ruth Whipple, legislation chairman.

Others attending were: Beulah Wagenschutz, Dorothy Ritchie, Neva Lovewell, Mrs. Norma Casady, Mrs. Jennie Mills, Dora Bruebner, Evelyn Bryan, and Mildred Barnes.

Mrs. Beatrice Carlson was installed as president of the Northville club, while Nellie Barry assumed the office of vice president. Mary Alexander officially became the recording secretary, Ida Blucher was installed as treasurer, and Ruth Knapp, corresponding secretary.

State president of the Business and Professional Women's club, Mae K. Burke, was present and acted as installing officer. Elizabeth Crozier of Mt. Clemens, first district chairman, was also present and spoke briefly to the group. Esther Lang of Detroit was the evening's soloist.

The Northville club presented the Plymouth members with corsages.

A woman will smile in the face of death, and sit down and weep her eyes out because a new frock wrinkles in the back.

**Thomas Edwin Taylor**

Funeral services were held Monday, March 29, from the Schrader Funeral home at 2 p.m. for Thomas Edwin Taylor, who passed away suddenly Thursday afternoon, March 25, at the age of 62 years. Mr. Taylor resided at 353 Starkweather avenue. Surviving are his widow, Mrs. Isabelle M. Taylor; his brother, Guy E. Taylor of Plymouth; also surviving are three nephews and two nieces, Jack E. Taylor of Plymouth, Robert R. Taylor of Detroit, Mrs. Marion Hamilton of Garden City, William Amrhein of Gregory and Mrs. Patricia Mecklenburg of Plymouth; other relatives and a host of friends. Mr. Taylor has been a resident of Plymouth for the past 35 years; a member of the Plymouth Methodist Episcopal church and the Tonquish Lodge I.O.O.F. The Rev. Joseph Dutton of Ann Arbor officiated. Two hymns were rendered by Mrs. Frank Dicks, accompanied at the organ by Mrs. M. J. O'Conner. The active pallbearers were Messrs. Bert Amrhein, Glenn Amrhein, John Amrhein, Irving Geer, W. Cheer, and T. Lenover. Interment was made in Riverside cemetery.

**Frank J. Nowotarski**

Funeral services will be held Saturday, April 3, at 2 p.m. from the Schrader Funeral Home for Frank J. Nowotarski, who passed away Wednesday evening, March 31, at the age of 57 years. Mr. Nowotarski resided at 41700 Wilcox road. He is survived by his widow, Mrs. Pauline Nowotarski, three daughters, Miss Agnes Nowotarski, Mrs. Rose Lovas and Mrs. Frances Spencer, all of Plymouth; also surviving are one grand-child, three brothers and one sister, Walter of Detroit, Albert and Anthony Nowotarski, and Mrs. Mary Witos, all of Poland. Mr. Nowotarski came to Plymouth in 1912 and purchased the home where he now lives. Rev. P. M. McPherson will officiate. Entombment will be made in Riverside mausoleum.

**Women Aid With Club's Service**

Mrs. William Blunk of Williams street will spend the weekend at the home of her daughter and son-in-law, Mr. and Mrs. E. H. Banks of Ypsilanti.

Mr. and Mrs. Elmer Austin and daughters, and Mr. and Mrs. E. J. Brown visited Mr. and Mrs. Paul Harmon in Atlanta last weekend.

Mr. and Mrs. B. W. Tuttle of Adrian, Dr. and Mrs. E. I. Crawford and Mr. and Mrs. O. E. Sleight of Oxford and Mrs. Marjorie Posseberger of Detroit were Sunday guests of Mr. and Mrs. J. C. Weed of Williams street.

The Rainbow girls of Plymouth Assembly No. 33 will be the guests of the First Methodist church this Sunday, April 4.

Mr. and Mrs. William O. Reilly of General drive were the Easter Sunday dinner guests of Mrs. Reilly's son and his wife, Mr. and Mrs. Harold Young of South Harvey.

### Harvey Whipple is in Who's Who

Believed to be the first in this vicinity to be included in "Who's Who in America," the name of Harvey Whipple appears in the new addition of the publication. Mr. Whipple resides on Reservoir road, just north of the city. When commenting on the honorous inclusion of his name among the great men of this country, Mr. Whipple stated, "I don't know just why I got into 'Who's Who in America.' I suspect that it is much less a recognition of any personal achieve-

ment, than the fact that since 1919 I have headed the staff of the American Concrete Institute headquarters in Detroit, an engineering society in a highly specialized field." ACI is a non-profit organization serving not the ultimate consumer of concrete and house holder directly, but the engineers who serve them. Mr. Whipple was named as secretary of the Institute in 1919, and in 1929 also became editor of the Journal of the American Concrete Institute.

### Main Street Was in the Dark Monday Evening

Street lights in main street were out Monday evening, the cause of which has been attributed to an underground cable which was dug up at Mill and Main street, by the Detroit Edison company. The digging of the cable was done by a construction company during excavation. The report also reveals that it occurred late in the afternoon, making it impossible to remedy the situation at that time.

You grow up the day you have your first real laugh—at yourself—Ethel Barrymore.

**SOUL-SAVER AT SEVEN . . .** Renee Martz is seven years old and an established evangelist who divides her time between the Bible and her dolls. Renee has been preaching since she was four, and has traveled 30,000 miles and led 6,000 souls to the altar "to confess their sins," she says. Once you're saved all you have to do is "just keep on the Lord's side," is her lesson.

### Daisy History Recalled by Letter Written Over Half Century Ago

History pages of the Daisy Manufacturing company were turned back more than half a century the other day when Charles H. Bennett visited a descendant of Mrs. Cora Rhead, one of the original stockholders of the company, at her home over in Hudson, near Adrian. A letter written by E. C. Hough, who was then serving as a part-time employee of the Daisy company as its secretary, advised Mrs. Rhead that the annual meeting of The Daisy Manufacturing company, (successors to The Plymouth Iron Windmill Company) would be held in the L. C. Hough & Son elevator office on the 31st day of December, 1895 at 10 o'clock in the forenoon. Mr. Hough, now treasurer of the company and long active in its direct management, was at that time associated with his father in the elevator business, buying and selling the grain crops of farmers in this vicinity. He devoted only a small part of his time to the affairs of the Daisy company, which for years has been the chief industry of this city and is now the largest manufacturer in the world of air guns. Mr. Bennett, who has been president of the company for years, read the old letter with more than ordinary interest, because it carried him back to the days when he was hiking across plowed fields, traveling here, there, and everywhere in his efforts to find markets for the "New Daisy Air Rifle."

### Early Pasturing Highly Recommended for Pigs

Early pasture for sows and their litters as well as ewes and lambs is the key to good health, feeding economy, and profitable livestock management. This recommendation is made by L. H. Blakeslee, Michigan State college animal husbandry specialist. Clean, parasite and disease-free early pasture can be provided before new seedlings of alfalfa or rape are available by using small areas of rye, wheat, alfalfa, or June grass not pastured by swine the previous year. Young litters with their mothers should be put on pasture as early as possible to prevent anemia and other baby pig ailments. The use of temporary 36-inch hog fence makes possible adjustment of areas to needs. A suitable shelter should be provided for the sow and litter. Heavy fall growth of wheat or rye also furnishes good early pasture for ewes and their young lambs. Limited or controlled grazing of suitable areas also makes harvesting of a crop possible.

Quill pens used by men and women in colonial days required frequent sharpening, so people made small knives which could easily be carried in their pockets and used to sharpen the quills. They called such knives "pen knives" and today small knives are still known by that name. Many people think that the words "climate" and "weather" have the same meanings. But each word means something different. "Weather" means the general atmosphere conditions such as rain, wind, or heat at a particular time. "Climate" means the usual type of weather in a certain area over a long period of time.

Mr. Bennett and Mr. Hough have been associated in this most successful business for more than half a century—creating a great industry from an idea born in the office of a grain elevator and the workshop of a windmill factory. The officers of the company 53 years ago were H. W. Baker, president; F. C. Sherwood, vice president; L. C. Hough, (father of E. C. Hough) treasurer and manager; C. J. Hamilton, superintendent; E. C. Hough, secretary.

Mr. Sherwood a few years after this letter was written to the stockholders, became banking commissioner of Michigan and served in that capacity for a number of years.

Mr. Sherwood a few years after this letter was written to the stockholders, became banking commissioner of Michigan and served in that capacity for a number of years.

He would not live more than three days, Isom Smith, 77, of Weleetka, Okla., declared immediately after the death of his wife. An hour before her funeral he was taken ill; a few hours later he was dead. Double services were held for the couple.

The Department of Agriculture reports that although grass-fed beef is less tender and less marbled with fat, it contains more protein than beef of a higher grade.

Festival Concert will be Sunday

Sunday, April 4, at 4:15 p.m. the Michigan Massed Orchestra Festival concert, in which 14 members of the Plymouth Symphony orchestra will participate, will be broadcast over WPAG, the Ann Arbor station.

The concert will take place in Ann Arbor's Hill auditorium and is open to the public. Those planning on attending are urged by the local Symphony Society members to arrive early, as a large audience is expected, coming from all parts of the state.

The guest conductor for the concert will be Rudolf Ganz of the Chicago Musical college. Plymouth's orchestra joined the Michigan Civic Orchestra Association, the organization sponsoring the concert, this year. In spite of this short tenure of membership, they were asked to send an outstanding number to take part in the massed orchestra. The entire orchestra will consist of 190 musicians, representing 20 communities.

**Reception Honors the Rev. and Mrs. Miller**

The vestry of St. John's Episcopal church honored the Rev. and Mrs. Alexander Miller at a reception held in the church Monday evening, March 29.

The couple stood in a receiving line with the vestry, meeting the many Plymouth residents attending.

Mrs. Garnett Baker and Mrs. Robert D. Willoughby were in charge of the affair, and Mrs. Albert Dryton, Mrs. Kenneth Hulsing, Mrs. Herbert Culver, and Mrs. Paul Ware served.

It's your Army. Honor it on Army Day—April 6.

Real Estate

**Maplecroft Sub.**

Modern 5 room brick. 3 lovely bed rooms. Living room, kitchen that is a knock out, tiled bath. Full basement with hot air heat, hot water heater, tubs. Built in 1944. Surely, this will be on your HOMES OF THE MONTH TOUR.

**7 Rooms, \$7000. WOW**

You are seeing right when you read about this home. Features are numerous, so I'll name a few. Open porch, living room, french doors, dinette, 1 bedroom, bath, and kitchen on the 1st floor, 3 bedrooms on the 2nd. Attached garage. The house needs decorating so if YOU do it the price is lower. If you wish room with a bargain attached, don't tarry, call Jerry.

**Printed by Popular Request**

A suburban beauty surpassed by none. Spotless from head to foot. Everything is so shipshape that you start living immediately. No fooling nor fussing. Living room, dinette, kitchen, 1 or 2 bedrooms, or else you could have a modern den. Full basement with painted walls, automatic hot water heater, tubs, hot air heat, and again I must say, "spotless". Clean living is healthy (and I have never seen occupants more healthy).

**Home for \$5500?**

We have just what the doctor ordered. A 4 room home that is complete for comfortable living. Living room, 2 bedrooms, kitchen, bath and least but not last, there are trees and trees. Double lot. If you can not afford an expensive home (as most of us can't) take a look at this. Honest it has the NEW LOOK.

**Business Opportunity.**

A new building for you to start making money for yourself. Some may need courage, some money, and some a location. If you have the first two I can assist you with the last. Suitable for any sort of business. Lot size is 20 by 100. Foundation 20 by 60. Price is \$8500.

New Cadillac Dealer for Plymouth and Vicinity

We take pleasure in making this dual announcement. It marks the introduction of the new 1948 Cadillac in Plymouth and, at the same time, assures the highest type of Cadillac sales and service facilities to motorists in this area.

With the introduction of the 1948 model, Cadillac has taken a great step forward—one of the greatest, perhaps, in its entire history of automotive pioneering. In exterior appearance, this car is wholly new and represents the soundest principles developed in years of research. Interior design is completely new, adding immeasurably to comfort, beauty and convenience. Performance is finer in every way, for the Cadillac chassis and engine have been thoroughly refined. Regardless of the price class from which you expect to select your next car, you are cordially invited to view the new Cadillac—now on display in the showroom of Beglinger Oldsmobile. You are also invited to get acquainted with this new organization, operated under the able management of Mr. Walter Beglinger, and to inspect their facilities for serving you. They are modern and complete. Genuine Cadillac parts installed by factory-trained mechanics will insure prompt and efficient handling of all service work entrusted to them. They will cordially welcome your visit.

### Plymouthites to Attend CAR State Convention

Among the delegates attending the CAR convention to be held in Grand Rapids tomorrow, Saturday, will be three members of the Plymouth organization.

Mrs. Earl Mastick, who is CAR state registrar, will drive her daughter, Nancy, Margaret Jean Willoughby, and Betty Lou Baker to the meetings. Margaret Jean is junior president of the Plymouth Corners society, and Betty Lou Baker, state recording secretary.

### Men's Group to Meet Thursday

Men of the Presbyterian church and their friends were reminded this week of the forthcoming Men's Brotherhood meeting on Thursday, April 8.

This event, slated for the church dining room at 6:30 p.m., will mark the third meeting of the new Brotherhood group. As always, all details are to be handled by the men themselves.

The committee in charge of the meeting is composed of Edward Dobbs, chairman, Robert Lidgard, Lewis Goddard, Marvin Sackett, Lawrence Lyons, Eugene Crosby, Harvey Vetal, Irving Franklin, Ted Box, and William Clark.

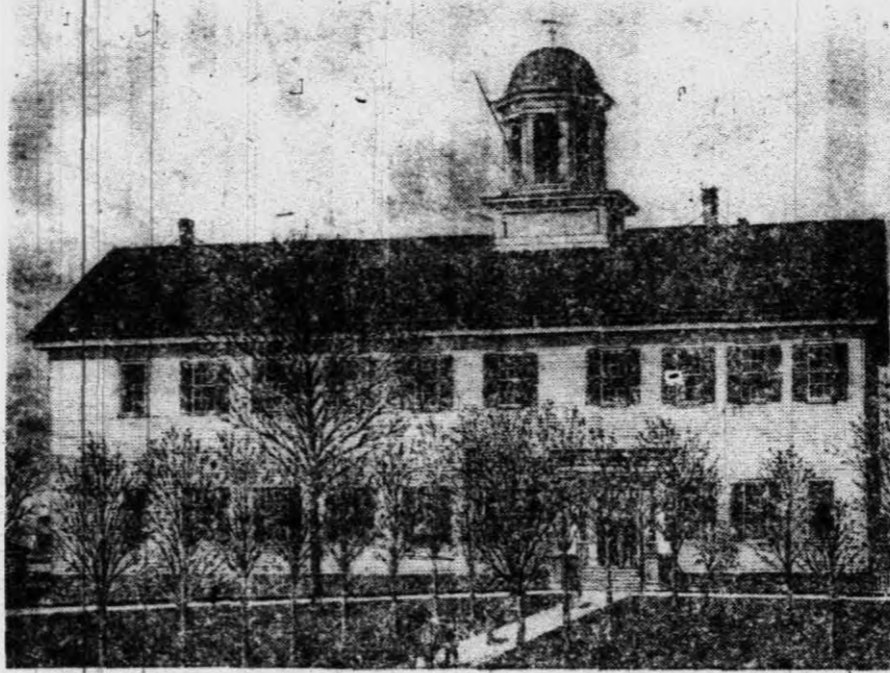

A business meeting will follow the 6:30 dinner. The evening's program includes the appearance of Dr. Jay J. Sherman, professor of political science at Wayne University, who will speak to the group.

Two motion pictures of the 1947 baseball world series have also been obtained and will be shown at that time.

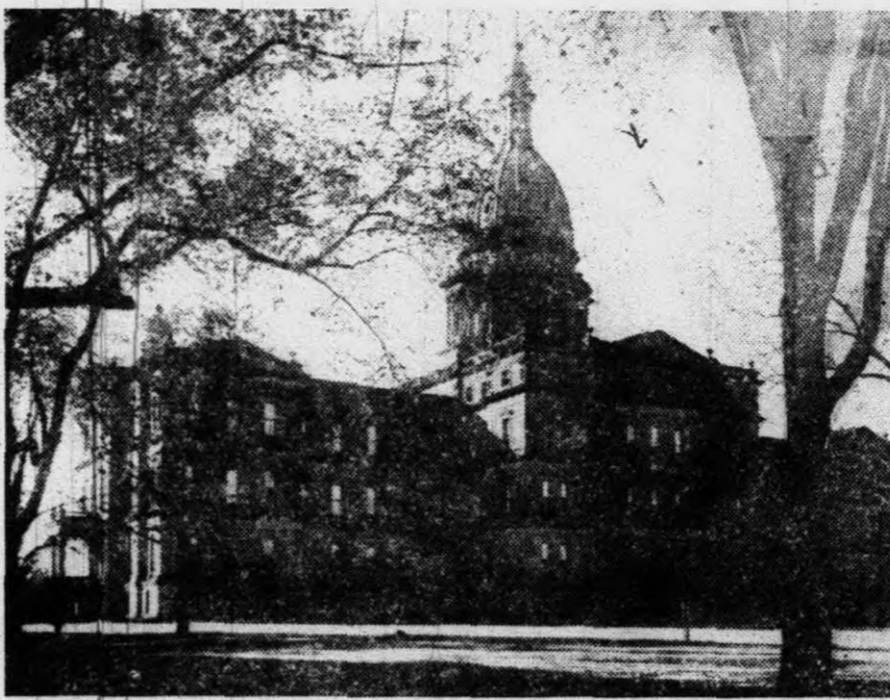

Reservations may be made with any of the committeemen or by calling the chairman at 783-R.

If you have a social item you desire published in The Mail phone 1758.

### Legislature Met in Lansing for First Time Just 100 Years Ago

Michigan's first Capitol Building erected in Lansing. It was entirely of wood construction. It was occupied and used by the legislature in 1848.

Michigan's present capitol, erected "on a hay field at the edge of the woods", was completed and occupied in 1879.

Just one hundred years ago this year, the Michigan legislature held its first session in the village of Lansing in the "new" capitol building that had been erected in that place.

It was in 1877 when the state moved its capitol from Capitol square in Detroit to the "swamps" up in Lansing township.

The new capitol was finished in the fall of 1847 and used for the legislative session of 1848. Total cost of the structure was \$25,952.01.

Lumber used in its construction was hauled from Flint in wagons.

Its location in Lansing was at the southwest corner of Allegan street and Washington avenue. The building was 60 x 100 feet. No marker has ever been erected to designate the site.

There were 22 members of the senate and 66 in the house at that time. During the first session of the legislature in the capitol 295 new laws were passed and 52 joint and concurrent resolutions were enacted.

The first Governor to take the oath of office in the "new" capitol

### League's Book Review Series is Underway

All reports indicate that Mrs. J. G. Clemmons presented a highly interesting review of "Hope of Earth" at the first in a series of three book reviews sponsored by the St. John's Episcopal league.

This first review took place in the parish house Tuesday evening, March 23.

The next program is planned for April 12, with Miss Edna Allen reporting on "Proper Bostonian." Neva Lovewell's review on April 26 will conclude the series.

All of the programs are to be held in the parish house, beginning at 8 p.m. Tickets may be obtained from members of the league.

In San Francisco, Night City Editor Larry McManus of the Chronicle got a call from a country correspondent about a traffic policeman injured in a fall from his motorcycle, asked where the cop had been going, got the reply: "Oh, to some airplane crash."

Social items can be phoned to 1755.

**"NEVER AGAIN!"**  
... said BENJAMIN FRANKLIN

Benjamin Franklin's experiment with a kite to prove that lightning and electricity is one and the same could well have been his last!

And if old Ben were here today he would warn our youngsters not to try his foolhardy stunt.

"Fly your kites away from electric wires," he would say . . . "and don't run into busy streets on the take off."

"Never use kites with metal ribs or metallic wound strings. Even damp cotton strings may be dangerous if your kite hits a high tension wire."

**THE DETROIT EDISON CO.**

Reddy Kilowatt says: "Ben's right kids! Fly kites all you want but watch out for autos and don't tangle with electric wires!"

### Plymouth's Bowlers Enter ABC's Underway at State Fair Grounds

With the 45th Annual Bowling Congress championship well underway, several Plymouth teams have already journeyed to the Coliseum building at the Michigan State Fair grounds to take part in the events.

When the Burroughs Adding Machine company took part in the March 18 five man event, Henry Laichalk rolled the first triplicate to be scored for this season's competition. He scored three 169 consecutive games.

Tuesday, March 23, two more teams took part in the five man events. Plymouth teams participating were those of Pilgrim Drayon Steel, which is captained by Patrick McGuire, and the West Impellent team, headed by Earl Chappel.

The next date on which local teams are slated to appear is May 26. At that time the teams of Plymouth Strohs, Daisy Air Rifles and Cloverdale Creamery will enter the five man events. The Strohs team is headed by Clarence Levandowski, while Lee Butler is captain of the Daisy team, and William Choffin of Cloverdale.

Two man events planned for May 27 will include the following Plymouth bowlers: Martin Strassen and William Choffin, Robert Johnson and Ray Danol, Nelson Ahenbernt and Roy Williams, Harvey Shaw and Doyle Rowland, Lorne Archer and Lee Butler; Peter Kotch and Barney Laskey, Thomas Levandowski and Clarence Levandowski, and Neil Suddendorf and Don Lightfoot.

VISIT ARMY DAY EXHIBITS APRIL 6

Army and Air Force Recruiting Station, Plymouth City Hall every Tues., Wed., Fri. & Sat.

### "Understand Rivalry and you understand America?"

by Ed Thorgersen

I guess each of you fans has his favorite story about Knute Rockne, the great football coach who steered Notre Dame once a little-known mid-western team, to the pinnacle of gridiron success.

I think you'll agree that if ever a man captured the imagination of the sports public it was this vivid, human figure who was so prominent in American football from 1918 to 1931. And I think the picture that comes to the minds of most football fans when the name Rockne is mentioned is the old maestro with his squad before a big game. The crowds in the stands could well imagine what was going on down there in the locker room. You could almost feel his personality pulsating like some giant electric motor sending charge after charge of "fight" through the N. D. squad.

"We are going to get that ball," Rock would be saying, "and we are going to get it! Get it!" As he spoke in a raspy, vibrant voice, he emphasized each word by pounding his fist into his other hand. And "go, go, Go, GO," they did.

No wonder so many of Rockne's teams were labeled "Great"! What player could fail to do his best when directed by a coach so filled with the great spirit of competition?

You fans benefit from such competition on the gridiron. It means thrilling, more exciting football. And you benefit from the competition of more than 34,000 individual oil companies in America who constantly compete with rivals. For every day, these companies and their 1,250,000 employees are competing to bring you the best in petroleum products and services. Individual companies are constantly trying to be first with improved fuels, finer lubricants, or the latest advances in oil research, or better transportation.

That's why we Americans enjoy the world's best oil products—at prices the rest of the world finds impossible to match.

Remember this rivalry, this competition in oil. See the results in the improved petroleum products you use. You'll agree—there's a plus for you in Petroleum's Progress.

### Rogan Plans Saturday Baseball League

An announcement was received this week directed to teams interested in playing in a Saturday baseball league.

Mike Rogan asks that any teams interested in taking part in such a league contact him. He is located at 2858 Parker, Dearborn.

### Chess Club Wins "Brain Brawl"

Plymouth's Chess club triumphed in a close decision from the Ford Chess club of Dearborn, in a five-board match staged Friday evening, March 26, in the Veterans' Community Center.

The match was sponsored by the city recreation department. Strong play by both teams tied the score at two wins apiece, leaving the game between G. Housewirth (Ford) and L. Morgan (Plymouth) as the deciding issue.

After battling against odds for several hours, Morgan uncovered a combination of tricky moves that caught his opponent off guard and resulted in an individual triumph and a victory for the Plymouth team.

Results of the match were as follows: Plymouth's B. Marcus, M. O'Neil and L. Morgan won from Ford's G. Kockrich, E. Polic and G. Housewirth, respectively; while J. Haefner and H. Cash of Plymouth lost to A. March and J. Lay of the opposing team.

Of special interest to Plymouth chess devotees is the award of a silver cup consolation prize to L. Morgan for being one of the finalists who battled it out recently for the chess championship of the Industrial Recreational Association of Detroit. Morgan's opponent was J. Roberts, of the United States Rubber company of Detroit.

Since the formation of the Plymouth Chess club last fall, considerable interest in the game has been manifested by a group of players who meet every Friday evening in the city hall, Joe Haefner, president, reveals.

All persons interested in participating in weekly playing sessions at the city hall are welcome to attend, he states. Detailed information may be obtained from him or Steve Veresh, secretary-treasurer.

### Plymouth Woman Wins Awards in Contests

A trio of Detroit reators entertained Mrs. Velda Kelly, Friday, March 26, in honor of the recent first place award which she received in a "clever ad" contest.

The contest was sponsored by a group of Detroit businessmen, Mrs. Kelly states.

She also received word that a jingle submitted by her in her young daughter, Nancy's, name for a current contest has won a bicycle which should be delivered at any time.

Here's the News of all the

### Navy Mothers

The Navy Mothers are planning a card party for the near future. Watch for the date next week.

Mrs. Mable Donohue, who has been at the University hospital for treatment, returned home Sunday.

Mrs. Winifred Hartling, who has been confined to her home the past winter months, reports improvement with the onset of spring.

Read the classified pages.

### County Fairs Get Northville Cash

Plymouth residents who witnessed some of the contests at the racing meet in Northville last year will be interested in knowing where the state revenues from the meet will go.

The new state tax on the race meet exceeded \$200,000, a much higher total than had been estimated.

About half of this amount will go into the state's general fund, but in compliance with a provision written into the state law, 34 county and district fairs in Michigan are planning to have harness horse racing during their fairs this year. Requests for allocations from the harness horse race fund provided from the tax on Pari-Mutuel betting at Northville Downs Harness Track, total \$104,100, reports Clarence Bolander in charge of Fair Division of the Michigan Department of Agriculture. This money will be used to double the purses offered. Allocations were made according to the racing purses offered this season, with the following fairs participating:

Allegan County Fair, Allegan, \$5,000; Arenac County Fair, Standish, \$1,200; Barry County Fair, Hastings, \$2,700; Calhoun County Fair, Marshall, \$4,800; Cass Coun-

ty Fair, Cassopolis, \$4,000; Charlevoix County Fair, East Jordan, \$1,500; Clare County Fair, Harrison, \$1,200; Eaton County Fair, Charlotte, \$3,600; Emmet County Fair, Petoskey, \$1,200; Gogebic County Fair, Ironwood, \$500; Gratiot County Fair, Ithaca, \$3,600.

Hillsdale County Fair, Hillsdale, \$6,850; Ingham County Fair, Mason, \$5,900; Jackson County Fair, Jackson, \$4,200; Kalamazoo County Fair, Kalamazoo, \$4,500; Lapeer County Fair, Imlay City, \$1,000; Lenawee County Fair, Adrian, \$5,350; Mecosta County Fair, Big Rapids, \$1,800; Oceana County Fair, Hart, \$2,700; Ogemaw County Fair, West Branch, \$1,000; St. Joseph County Fair, Centerville, \$4,800; Tuscola County Fair, Caro, \$3,700; Van Buren County Fair, Hartford, \$3,600; Berlin Fair, Marne, \$3,200; Northern District Fair, Cadillac, \$1,200; Northern Michigan Fair, Cheboygan, \$2,300; Pickford District Fair, Pickford, \$800; Northwestern Michigan Fair, Traverse City, \$3,200; Western Michigan Fair, Ludington, \$2,100; Crosswell Fair, Crosswell, \$2,350; Fowler Fair, Fowler, \$4,500; Ionia Free Fair, Ionia, \$5,300; Lake Odessa Fair, Lake Odessa, \$750; North Branch Fair, \$4,000.

Airplane warm - food ovens, with a capacity of six food trays, are electrically operated to maintain temperature of the food at 140 to 200 degrees.

## Another Ford Ideal to Help Mankind Crumbles to Earth With Closing of the Phoenix Plant

**Only Women with Dependents Hired to Operate Closed Factory Which is Located in a Beautiful Flower Garden**

These are not very happy days out around the Phoenix plant of the Ford Motor company. As a Ford industry, its doors have been closed for all time.

There is a bit of gloom and anxiety, too, in the homes of more than one widowed mother. Worry over what the future holds for them has come into the lives of daughters whose Ford earnings have been the chief support of aged, ailing parents.

Why? When the waterwheel stopped turning the other day out at the Phoenix plant and its equipment was removed and the doors locked securely, there passed into oblivion a truly remarkable humane ideal of the late Henry Ford—an ideal born with the object in view of creating for distracted widowed mothers a living of high standards and an income sufficiently large to bring up a family of fatherless children.

During his early days in the manufacturing business the late Mr. Ford discovered that there were hundreds of intelligent and highly competent women who were forced to become the bread winners of a family, often through the untimely death of a husband.

Why couldn't the Ford organization find a way to provide employment for these women—women who had to support children—women who had to support parents—women who had been called upon to carry the burdens that usually fall upon the shoulders of "the man of the house."

It was 26 years ago when Mr. Ford built a dam in the Rouge River a mile or so north of Plymouth on the Northville road. He built a factory there that year and named it the Phoenix plant of the Ford Motor company.

He equipped it with machinery for the making of a minor part of the Ford car. Then he directed that only family-supporting women be employed. A few men were engaged to do the "heavy" work around the plant.

He sent to Phoenix from his Highland Park plant Ivor Evans to act as superintendent of the new Phoenix factory. With Mr. Evans came Miss Frances Sullivan, another pioneer employe of Mr. Ford in his original plant at Highland Park.

Miss Sullivan was placed in direct charge of all of the activities of the 175 women who were employed.

A lover of flowers, she quickly transformed the grounds surrounding the building into a flower garden that would put to shame the Detroit flower show. The hills, factory windows, the walls that guarded the driveways, were covered with flowers and vines that blossomed from early spring until late fall. There was not a more beautiful spot in all Michigan than the grounds that surrounded the Phoenix plant.

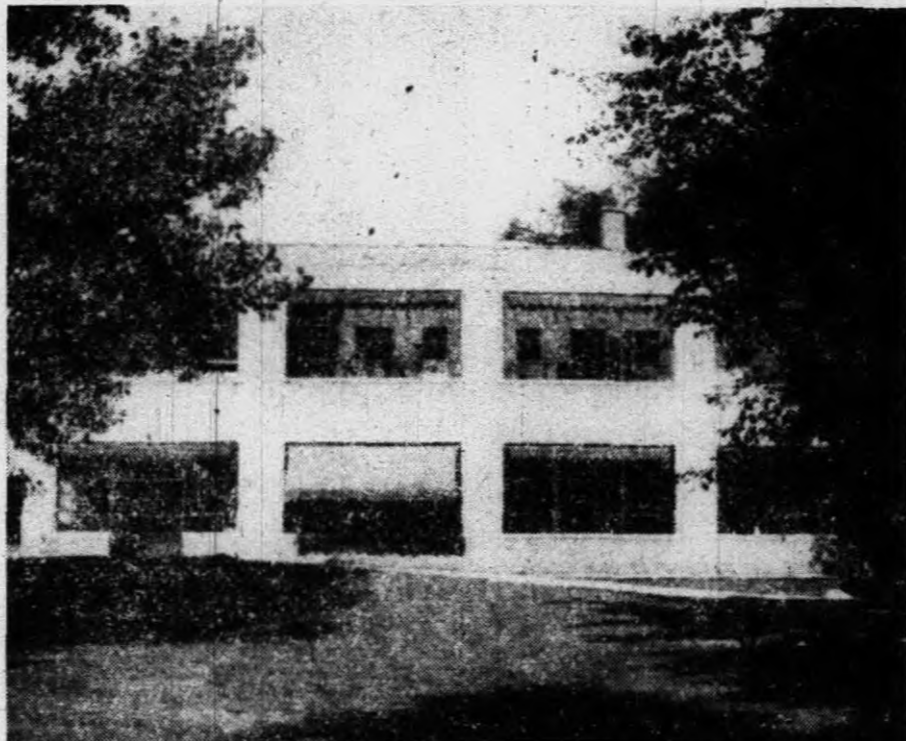

This required the services of gardeners who did nothing towards producing Ford parts. But it pleased the workers and Henry Ford, who loved nature and its beauties, so what difference did it make if it cost something extra to create such surroundings for one of his dream-factories a beautiful place?

The Phoenix dam, just east of the highway that runs directly in front of the plant, the steep hillsides that led down to the parking lot, the swift running Rouge river that circled the building after it drops 20 feet from the lake over a dam, were all made a part of the remarkable landscaping that made Phoenix one of Michigan's loveliest sights. Mr. Ford always thought that the surroundings should be something of this type in view of the fact that only women were employed in the plant. The big windows were nothing more than "picture windows", shaded during the summers by big maple, elm and willow trees.

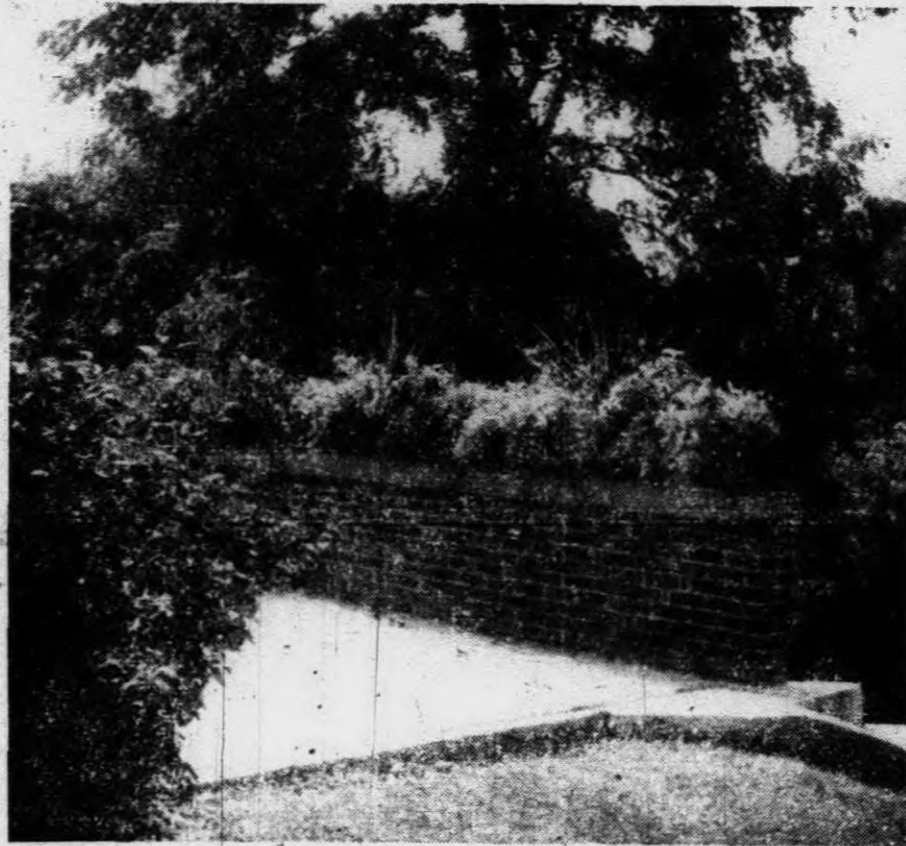

Hundreds of thousands of dol-

The Phoenix falls as viewed from below the Phoenix bridge on the Northville road.

Some of the big "picture" windows that permitted Phoenix women workers to gaze on beautiful flower gardens while working. View shows only part of west side of the plant.

One of the flower-decked walls along the north side of the Phoenix plant as it looked in 'the years gone by'.

lars through the years were poured into the homes of women who found it necessary to support aged parents or fatherless children. These women were paid the same high wage rate as were the men.

During a long period of years there was a highly organized system of selective employment in operation at the Phoenix plant which had for its object the allotment of positions to women in greatest need of employment.

But as time went on and Mr. Ford delegated large responsibilities to his son and others, this practice to a very considerable extent was relaxed and employment of women at Phoenix became only a routine matter.

Then came the New Deal with its goon squads and its labor troubles. Goons invaded the Phoenix plant, told the workers if they didn't like their bosses to "throw them out." The workers were ordered to pay "dues", much of the money finding its way into the New Deal political slush fund.

Henry Ford saw his dreams crumbling to earth—a different order had arrived in America. Soon after he died.

A new day had arrived in Ford history. Competition had to be faced—and the new type of competition meant greater output at less expense.

So the little Ford factories along

## Little Dog Strays, But Not for Long

If Dr. Luther Peck's daughter, Rhea Watts, suffered any apprehensions concerning the retrieval of her shepherd puppy, which she lost while making a Plymouth visit to see her father, it was all in vain.

Her father not only found her dog, but three others as well, plus a deluge of about 25 phone calls concerning the strayed pet.

Following his daughter's return to Adrian after her Sunday, March 14 visit, the doctor was a little bewildered as to how to go about finding the pet, since both the arrival had disappearance of the puppy had occurred while he was out on a call.

He inserted an item telling of the situation in The Mail's lost column of the classified advertising section. Then he began having his hands full.

Not being able to identify his daughters' dog, Dr. Peck had to keep all four dogs until her arrival. The dog which proved to be hers was found Sunday morning on Five Mile road and she picked him up Monday.

All of which points a moral to the story—Plymouth Mail want ads really do bring results.

Soil erosion is washing more groceries down our rivers each year in the form of good rich topsoil than all the food we export.

**Paves its own way!**

**Come in—learn the secrets of the famous Packard ride!**

Scientific tests have proved it. Reports from delighted owners have confirmed it . . . built system, with an ingenious, built-in ability to compensate for variations in load and road.

Packard's luxurious comfort is out of this world! And to top it off—Packard adds to riding ease with heavier coachwork, styled for distinctive roominess as well as beauty. Scientifically sound-proofed. Luxuriously fitted out.

Why? Because the new '48 Packards have a suspension system all their own. A system that provides just the right softness for rough-pavement travel . . . just the right firmness for restful country cruising.

Come in—see for yourself! ASK THE MAN WHO OWNS ONE

For it's an advanced, precision-

*New proof of*  
**PONTIAC**  
*Leadership!...*

*A Product of General Motors*

**Lowest-priced car with GM Hydra-Matic Drive\***

Over the years, Pontiac has consistently proved a leader in bringing finer and finer quality to buyers of lower-priced cars. More than a hundred engineering "firsts" have been credited to the Pontiac engineering division. And now comes the crowning achievement in Pontiac's efforts to bring the finest available quality to buyers in the lower-price fields. For the 1948 Pontiac offers, as optional\* equipment on all models, the GM Hydra-Matic Drive. Never before has a car priced so low been made available with this phenomenal contribution to driving ease and safety! Obviously, you should now drive a Pontiac for every reason. You should drive it for beauty—for comfort—for safety—for economy—and for dependability . . . you should drive it for luxury of performance that is unsurpassed! For with General Motors Hydra-Matic, you just relax and drive. The clutch pedal is gone—and the gears shift themselves. New 1948 models are now on display in our showrooms and among them is a car precisely suited to your needs. You are cordially invited to inspect them today. \*GM Hydra-Matic Drive, Bumper Guards and White Sidewall Tires optional at additional cost. **A FINE CAR MADE EVEN FINER!**

# The PLYMOUTH MAIL

## THE WOMEN'S PAGE

Third Section

By Charlotte Winterhalter and Kay Knowlton

A successfully planned interior decorating job in a home depends, to a large extent, on the accessories you choose. Regardless of the period of furniture you have, Syroco Wood Giftware will enrich your home because of the variety of wood coloring and designs. Among the many pieces available are bookends, cigarette sets, mirrors, wall brackets, console sets, and sconces. Wood colorings include mahogany, Florentine gold and white, and walnut. Nice too, is the piece—\$2.00 and up. These fine pieces can be found at the Robert Simmons Company, Jewelers.

From our "Did you know" department comes news that Culligan Soft Water is softer even than rain water. We know that you know how it saves soap, AND time, AND work, AND plumbing repair bills, AND water heating bills, AND does a lot of wonderful other near-miracles in your home. But, when Culligan Soft Water is soft as only mother nature can make it—100% softer—then that is really big news. Call Mr. Clarke at 707, or stop in at 1376 S. Main street for particulars.

April showers and balmy spring weather means it's time to get out in the yard or garden and start digging. But, to make sure your lawn, berry and rose bushes (in fact, all your gardening) will be the envy of your neighbors, drive over to Specialty Feed Co., Inc., 13919 Haggerty Highway, and get some of that wonderful peat moss. It comes in either

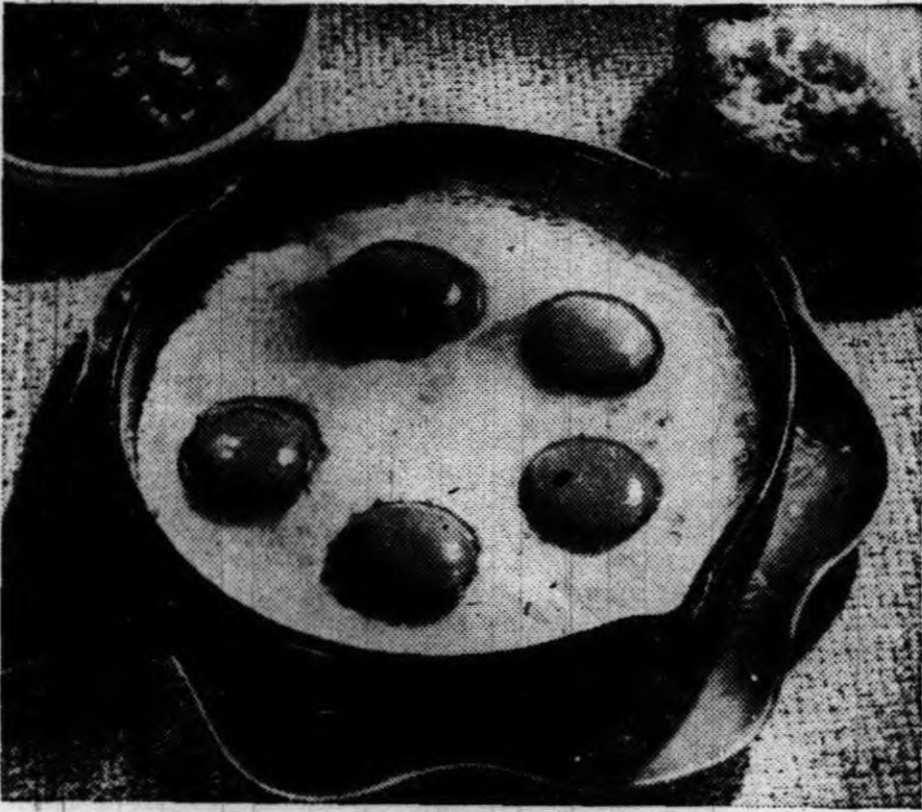

German or Canadian variety, and its purpose is to hold the moisture. Make sure while you're planning your spring planting that you include peat moss.

Spring is the time to give your car a lift, and at Jarskey Brothers Mobilgas Station, 402 N. Main street, you will find accessories and specialties to do just that. Right now they are offering some wonderful savings—for example — Parfax, that grand gasoline booster, is reduced from 85 cents to 50 cents a pint, Flo-Co auto enamel is now \$2.00 instead of its regular \$3.00, vacuum defroster fans from \$5.25 to \$4.50, and tire refiners, in all sizes, previously \$5.50—now \$4.00. Ask about other specialties and accessories.

Listening to those robins chirping every morning is convincing evidence that we must call Gould's Cleaners—770—to come and pick up our spring clothes for cleaning and pressing. With one of the most modern plants in Michigan, 24 hour service, and good workmanship, one can't go wrong. In case you don't already know, their address is 212 S. Main street. And, don't forget—they also do all types of repair and alterations on both men's and women's garments.

Fashion decrees that we must cut our hair to be in style. Not that it isn't a good idea with summer coming on and the new hair-styles ever so flattering. Phila's Beauty Salon, 614 Deer—phone 1530—is offering machine permanents, regularly priced at \$12, for \$9 during the month of April. This special includes shampoo, set, and hair cut. And, while you're having this marvelous permanent, ask Phila about hair tinting and bleaching for dull or graying hair. This is a specialty of the shop.

President Truman, according to Southern Democrats, has committed political hari-kari. Democrat Chairman McGrath's big worry these days is "Just what states can Harry-garry?"

Eggs à la Suisse Glamorizes an Old Standby (See Recipes Below)

### Perk Up the Menu

The final days of Lent will test your ingenuity as a cook. Meet the challenge in high style by adding today's cookery tricks to your recipe collection. Retain them, too, for use when depleted meat supplies necessitate your substituting some other main dish for an appetizing menu.

We're glamorizing vegetables, doing new things with eggs, perking up the menu with cheese and trying some new seasoning treatments with fish. This will be a good time to see just what you can do with foods you usually take for granted, and your results will be happy ones if you add a dash of imagination to old favorites.

Heed the cooking of both eggs and cheese. Be gentle with them both, as high heat toughens the protein of eggs and makes cheese stringy.

**Chinese Omelet.** (Serves 6)  
 ½ cup uncooked rice  
 4 tablespoons butter  
 4 tablespoons flour  
 2 cups milk  
 3 eggs, separated  
 ¼ teaspoon paprika  
 1½ teaspoons salt  
 ½ teaspoon dry mustard  
 4 tablespoons grated cheese

Cook rice until tender. Rinse with hot and cold water. Make a sauce by melting butter, adding flour and stirring in the milk slowly. Cook until thickened. Beat egg yolks, add rice, sauce, seasonings and cheese. Fold in stiffly beaten egg whites. Pour into a greased, shallow casserole. Bake in a moderate (350 degree) oven for 35 minutes.

**Eggs à la Suisse.** (Serves 2)  
 4 eggs  
 1 tablespoon fat for frying  
 ½ cup light cream  
 2 tablespoons cracker or bread crumbs  
 Salt, pepper, cayenne  
 Buttered toast

Melt fat in pan. Add cream and heat to bubbling. Slip in eggs, one at a time; cook gently. When whites are almost firm, sprinkle crumbs over top and continue cooking to desired doneness. Transfer eggs to toast. Pour the pan cream over all. Season with salt, pepper and cayenne.

**Fried Rice with Mushrooms.** (Serves 4)  
 3 tablespoons oil or fat  
 1 teaspoon salt  
 Dash of pepper  
 2 eggs  
 ½ pound mushrooms  
 2 tablespoons minced onion  
 4 cups cold, cooked rice  
 2 tablespoons soy sauce  
 ½ teaspoon sugar

Place oil or fat, salt, pepper and eggs into heavy skillet. Fry eggs until firm, then cut them in shreds. Slice and add mushrooms, then add onion and cook for five minutes, stirring constantly. Add rice and soy sauce mixed with sugar. Cook over a moderate flame, stirring occasionally until rice is hot. Serve immediately.

If a child is trying to save money for a particular toy or entertainment that is rather expensive, help him with his saving. For every amount he saves, give him an equal sum. This will encourage him to save more money and will not be very expensive for you.

### LYNN CHAMBERS' MENU

Tomato Juice  
 Spaghetti Deluxe  
 Buttered Green Beans  
 Waldorf Salad  
 Beverage French Bread  
 Lemon Cream Pie  
 \*Recipe given.

**Noodles Romanoff.** (Serves 4 to 6)  
 1 5- or 6-ounce package noodles  
 3 quarts boiling, salted water  
 1 cup cottage cheese  
 1 cup sour cream  
 ¼ cup chopped onion  
 1 to 2 teaspoons Worcestershire sauce  
 Dash of tobaccob sauce  
 ½ teaspoon salt

Cook noodles in boiling salted water until tender. Drain, then add remaining ingredients in order given. Place into a greased casserole, then sprinkle with ¼ cup sharp grated cheese if desired. Bake 40 minutes in a moderate oven.

**Spaghetti Deluxe.** (Serves 8)  
 2 cups spaghetti  
 1 tablespoon butter  
 1 onion, finely chopped  
 1 green pepper, finely cut  
 ¼ cup stuffed olives, sliced  
 ¼ cup mushrooms  
 1 No. 1 can tomato soup  
 2 cups American cheese, grated

Cook spaghetti in boiling salted water until tender; drain. Melt butter in pan, add onion, pepper, olives, mushrooms and soup; heat. Add cheese and stir until melted. Pour over spaghetti. Bake in a buttered casserole in a moderate (350 degree) oven for 30 minutes.

If you want to serve vegetables as a main dinner dish, it would be a good idea to add a cream sauce, cheese or eggs to them in some form so there will be protein in the food. This trick also will make them more substantial and satisfying as a main course.

**Cauliflower Souffle.** (Serves 6)  
 3 tablespoons butter  
 3 tablespoons flour  
 1 cup milk  
 ½ teaspoon salt  
 3 egg yolks, beaten  
 ½ cup American cheese, grated  
 1 cup cauliflower, cooked and coarsely chopped  
 3 egg whites

Make white sauce with butter, flour, milk and salt. Add egg yolks and cheese and stir until cheese is melted. Add cauliflower. Fold in beaten egg whites. Pour into buttered casserole. Sprinkle top with remaining cheese. Set in hot water. Bake in a moderate (350 degree) oven for 50 to 60 minutes.

**Corn, Swiss Style.** (Serves 6)  
 2 cups kernel corn  
 2 tablespoons flour  
 ¼ teaspoon salt  
 ¼ teaspoon pepper  
 ¼ teaspoon celery salt  
 ¼ teaspoon onion, minced  
 ½ cup milk  
 ½ cup American cheese, grated

Combine all ingredients except cheese. Pour into buttered, shallow baking dish, sprinkling with the cheese. Bake in a moderate (350 degree) oven for 20 minutes. Released by WNU Features.

### Engagement of Neva Burnette is Revealed

Mr. and Mrs. Newman Burnette of Schoolcraft road announce the engagement of their daughter, Neva Jean, to Merle T. Parsons, son of Mr. and Mrs. T. M. Parsons of Northville.

Miss Burnette is a student at the Bible Institute in Highland Park. Mr. Parsons is employed at the Daisy Manufacturing company. No date has been set for the wedding.

### Newly-Weds to Reside in Anchorage, Alaska

Mr. and Mrs. William C. Smith of South Hatvey street announce the marriage of their son, Forbes, to Mary Moore of Anchorage, Alaska.

The ceremony took place on March 3 at Vancouver, Washington at the Presbyterian church. The Reverend Paul L. Kunzman officiated. They were attended by the bride's brother and sister. The couple will make their home in Anchorage where Mr. Smith is stationed at the Ladd Air Field and Mrs. Smith is connected with the Bliss Construction company.

### Couple Repeat Nuptial Vows in Saturday Rites

Jean Eleanor Spencer and Robert Lynn Wilson were united in marriage on Saturday, March 27, in the chapel of the Oak Park Methodist church in Flint.

The bride is the daughter of Mr. and Mrs. Harold Spencer of Flint and the bridegroom is the son of Mrs. Pearl Wilson of this city. The ceremony took place in the presence of the immediate families.

Miss Spencer chose a spring suit of royal blue with pink accessories. She was attended by Winifred Jolliffe. Marvin Wilson was his brother's best man.

Following the ceremony, a wedding dinner for 12 guests was served. A reception for 60 was held at the Marble home in Flint. Mr. and Mrs. Robert Lynn Wilson will make their home in Plymouth.

### Elizabeth Sockow and Alfred Trahan Spoke Nuptial Vows Saturday

The home of Mr. and Mrs. Clifton Sockow, 115 South Mill street, was the scene of the marriage ceremony Saturday, March 27, which united Elizabeth Sockow and Alfred Trahan.

The bride is the daughter of Edith Sockow, 678 North Harvey street, and Albert Sockow of Howell. Mr. Trahan is the son of Mrs. Cora Trahan of Saginaw.

The ceremony was performed by the Rev. Henry Walsh in the presence of the immediate families. Given in marriage by her father, the bride wore a suit of gray gabardine with brown accessories and an orchid corsage. She was attended by Mrs. Virginia Sockow, who chose a faun colored suit with brown accessories for the ceremony. The latter's corsage was of pink carnations.

Melvin Sockow, brother of the bride, acted as best man. Preceding the ceremony Mrs. Ardis Curtis Long sang "Oh Promise Me." She was accompanied by her sister, Mrs. Inez Curtis Lock.

The bride's mother was gowned in a silk print, wearing a white carnation corsage. The mother of the groom wore a blue dress, with a corsage similar to Mrs. Sockow's.

The couple will make their home in Saginaw.

### Choose New Wall Paper With an Eye to the Purpose it Should Fulfill

brilliant paper than one where you will be reading, relaxing and spending a great deal of time. If the other articles in the room are plain, the paper can be more decorative. The size of the room will affect your choice and so will the amount of light in it.

After you have considered the use of the room, think about the room as a personality. The floors, walls, woodwork, doors and the

ceiling are so closely related that they should harmonize in color and texture. If it's furnished with a particular period or a special scheme, consider that, too.

If you can, get several different kinds of paper and hold them up on the wall that's going to be papered. Then compare them. It's still better if you can experiment with several strips of one kind for your idea of how it will look. For background paper the less conspicuous the better it will be.

If you have a social item you desire published in The Mail phone 1755.

## Jetter Tells When Applicants for MUC are Considered Disqualified

Perhaps the one section of the new MUC law, which became effective January 1, which will create the most disturbance in the local office is the section relating to disqualification of applicants, Clarence Jetter, branch manager of the Michigan Unemployment Compensation Commission pointed out, in his overall discussion of the act.

"When is a claimant disqualified?"

The answers to this question fall in three general groups. When he quits his job voluntarily without good cause attributable to the employer, has been discharged for misconduct in connection with his work, or for intoxication while at work, or has failed to apply for available, suitable work; or to accept it when offered to him; or to return to customary self-employment when so directed by the commission.

To become eligible for benefits after a worker is disqualified for the duration of his unemployment he has to take a full-time permanent job and later become unemployed through no fault of his own.

However, if the claimant left one job to take a better one, and later is unemployed through no fault of his own, he may again become eligible for benefits, in proportion to the number of credit weeks he establishes with the new employer.

When he quit the first employer he is automatically disqualified, but his credit weeks are reinstated, with the first employer, up to the maximum, as he stays on the new job. Should he earn 15 credit weeks with the new employer, he could pick up credit weeks with the previous employer, week of week, and be eligible for maximum benefits.

When a claimant refuses an offer of suitable work from the most recent employer, all credit weeks earned with that employer are automatically cancelled as of the date of refusal.

A claimant is automatically disqualified when his plant is shut down by a labor dispute in any of its departments.

He is also disqualified for any week in which he receives vacation with pay, or pay in lieu of notice (severance pay).

Woman claimants are disqualified for duration of unemployment when unemployment is caused by pregnancy.

A claimant is utterly disqualified and all credit weeks are cancelled if he makes a false statement, misrepresentation or conceals important information to establish benefits. He is also required to make restitution of illegally obtained benefits.

An employer, too may be penalized for making false or misleading statements or withholds information for the purpose of avoiding payment of benefits to a claimant. He may be penalized the amount of the total benefits involved.

What does "able, available and seeking work" mean?

Seeking work means in short, that an unemployed worker must

make a reasonably diligent search for suitable work. He should apply to employers, should peruse the want ads in the newspapers, for openings which he might be able to fill. Able to work means that he must be able to work full-time at his job. Available means that he must be ready to take full time work offered him by the employment service or an employer.

What is suitable work?

An offer of employment in the individual's customary occupation, under conditions of employment and remuneration substantially equivalent to those under which the individual has been customarily employed in such occupation, shall be deemed suitable work.

How do I request a redetermination?

Claimants whose claims have been denied, or who have been disqualified or declared ineligible may within 15 days ask the Principal Claims Examiner for a redetermination upon one or more of the following grounds: new facts submitted by an interested party, a question of interpretation of the law, a question of appropriate application of the law, or an administrative error by the commission.

How can I appeal?  
In the event either claimant or employer is dissatisfied, the appeal to the referee may be taken within 15 days after the mailing date of the redetermination, through any local office of the commission. Referees' decisions may be taken to the appeal board, and thence to the circuit court.

### Clean-up Urged to Cut Fire Loss

A neat, clean farm usually is a farm that is safe from fire. This observation is made by farm safety specialists at Michigan State college in conjunction with Spring Clean-up Week, April 4-10.

Most of the approximate 600,000 fires which needlessly attack U. S. buildings each year can be laid at the doorstep of the "poor housekeeper," they point out.

You'll Like The  
Friendly Atmosphere

Prevention association show that spring is a season when the danger from fires is great. Ninety percent of all home and farm fires could be prevented by cleaning out rubbish and unnecessary combustible materials and by correcting other obvious fire hazards. The safety specialists urge farmers to remember: a clean farm seldom burns. Spring Clean-up Week is the time to do a thorough house-cleaning job.

## It's NO. 1 on the "It" Parade

It's much the same way with cars as with people. Some "have it" — some don't.

Some you go for, all out — without quite being able to lay a finger on why. And those — well, they usually become your firmest friends.

What is it that makes so many good folks say this trim honey's "got it"? Good looks? One has to admit it's nice to ride in a car that is unmistakably itself and not just a slightly modified version of something else.

Size, weight? Well, the polls tell us it's a pretty important factor since, if you like an automobile that does things, there just is no substitute for brawn and solid substance.

Power? Naturally. You can't sit long behind this big Fireball straight-eight without falling for it plenty hard.

Handling? Ride? Room? They all have their avid fans among Buick owners. Especially now with a completely new kind of engine mounting ironing out vibration build-up as never before, and in this Convertible model, with automatic top, door-window and front-seat adjustment.

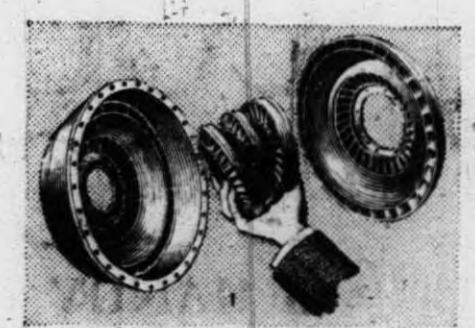

Is it the wonderful new Dynaflo Drive\* that's causing so much talk?

In ROADMASTER models that is certainly a big factor. You'll never know how silky smooth a drive can be — what fluent new ease there is to all your going — till you drive the car where liquid

replaces both the clutch and first, second and high gears.

But as nearly as we can find out — and we talk to a lot of people — it isn't any one thing that puts Buick at the top of the "it" parade. It's the over-all richness of this honey in all the things you've dreamed of finding wrapped in an automobile.

Ask any friend who drives a Buick — then see your dealer and get a firm order in, with or without a car to trade.

### WHAT'S DIFFERENT ABOUT DYNAFLOW DRIVE\*?

To an efficient new pump (left above), Buick engineers have added a true turbine (right) and an ingenious new supercharging assembly (in hand) which produce a torque-boasting action in starting and accelerating. The result is the first device on any American passenger car which employs liquid to fill the function of both the clutch and the usual low, second and high gears. The clutch pedal is eliminated and a simple control gives you manual selection of power ranges and direction.

\*Optional at extra cost on Roadmaster models only.

### BUICK alone has all these features

- \* DYNAFLOW DRIVE (Optional, Roadmaster Series)
- \* TAPER-THRU STYLING

**My MICHIGAN**

BY • ELTON R. EATON

Al Weber, who for more than half a century has been one of Michigan's most influential and far-sighted conservation leaders—and who during that long period has done more than any other individual in the northlands to keep the good name of Cheboygan everlasting before the public, has a new campaign on his hands. The first president of the East Michigan Tourist Association and one of its organizations, Editor Weber, right now is directing his straight shooting irons against some alleged sportsmen who are seeking a change in conservation regulations which permit the use of dogs in chasing down bears.

The Conservation department has always been against this low-brow type of sport, but Editor Weber charges that there are now some "powerful" influences at work in an effort to get the Conservation department to change its order.

The energetic Conservation leader of Cheboygan declares that the use of dogs in hunting down bears would be the first step in letting dogs into the north woods to hunt down deer.

He points out that up in Canada where the use of dogs has been permitted in the woods, deer are rapidly disappearing.

Not only that, but Editor Weber says that Michigan bears are just as much of a tourist attraction as the bears out in Yellowstone National park.

"When a tourist sees a bear on

the road up in this part of the state, its worth pages of good advertising. Tourists talk about it wherever they go. But what do these fellows care about the tourist business and the people who try to make a living by providing accommodations for those who like to come to northern Michigan during the warm summer months? If the Conservation department should accede to this request, it would be doing Michigan a mighty serious dis-service," declares Mr. Weber. In that, we agree with him one hundred percent.

"The continental population of wild ducks and geese has apparently hit the bottom of the decline and leveled off," Albert M. Day, Director of the Fish and Wildlife Service recently told Secretary of the Interior J. A. Krug in presenting his report on the results of the annual waterfowl inventory conducted by the Service in January.

"After analyzing all the data turned in by our observers, it looks as though we have about the same number of birds this year as we had last year. We have been unable to detect any appreciable change either upward or downward in the number of waterfowl."

In certain areas, particularly in the Mississippi flyway, the Atlantic flyway, and the Pacific coast states of the Pacific flyway, some encouraging increases were reported, Mr. Day said. These were offset by a decrease for the Central flyway—the bright spot in last year's inventory—and decided decreases for Mexico and Canada with the exception of the Maritime Provinces.

Director Day gave credit for the halting of the decline of the past three years principally to the rigid hunting regulations of 1947 and to the fact that the hunting season was generally poor throughout the country due to the type of weather that prevailed. In addition the director cited the value of the Service's wildlife refuges which provide resting and feeding places for the birds on their annual migrations.

In concluding his report, Mr. Day said, "Although the situation this year is encouraging compared to what it has been for the past

three years, it holds little hope in the way of relaxation of the waterfowl hunting regulations for 1948. Sportsmen and conservationists will agree that we would be too optimistic if we let the bars down before we are certain that the duck population trend definitely points upward. We must still continue to hold the line."

Big game animals in the United States increased their numbers by 25 percent in the three-year period from 1943 to 1946, the Fish and Wildlife Service has announced.

According to a recently completed tabulation of figures received from Federal, State, and private agencies, the estimated populations of all animals classified as big game totaled 8,240,400 in 1946, compared with 6,598,422 animals in 1943.

As an aid to the conservation of the Nation's living resources, the Fish and Wildlife Service began compiling the populations of big-game animals in 1937 and continued it on an annual basis through 1941. During the war years only one compilation was made, in 1943. With the exception of the refuges of the Fish and Wildlife Service, all the data for these inventories are supplied by the various organizations under which they are listed. The Service does not make an independent survey.

Estimates or counts are made while the animals are on their winter range, as near to the last day of the calendar year as possible, although for a few species it has been found better to wait until early spring. The estimates given cannot be considered as exact counts because, as the Service points out, wild animals are difficult to count even under ideal conditions and on small areas.

Of the total big game, 67 percent was on state and private lands, 28 percent in National Forests, 3 percent in Grazing Districts, 1 percent in National Parks, 1 percent in Indian Reservations, and less than 1 percent in Fish and Wildlife Service refuges. The latter are managed largely for waterfowl, not big game.

The state with the largest big-game population in 1946 was Michigan, with 880,600 animals, nearly all of which were deer. Wisconsin ranked next with 795,600, followed by Pennsylvania with 679,600; Texas, 631,900; Minnesota, 622,600; California, 591,300; Colorado, 463,900; Wyoming, 343,600; Maine, 328,300; New York, 301,100; and Oregon, 299,200. Kansas is the only state that has no big game. Delaware has only 135 and Rhode Island 500—all white-tailed deer.

Deer greatly outnumber all other big-game animals, the white-tailed, mule and black-tailed deer together accounting for 7,375,200 of the total of all animals. Populations of deer in the United States reached their lowest point about 1915 when there were only three million of these animals in the country. Although the present distribution of deer is less than a quarter of their ancestral range, the general trend of the population has been upward during the period covered by the surveys.

The white-tailed deer, the most numerous and most widely distributed species, totaled 4,965,000 individuals in 1946. In 1943 the number was 3,649,739. Mule deer and the Columbian black-tailed deer, both of which had recorded slight declines from 1941 to 1943, were tabulated at 2,007,900 and 402,500 respectively, in 1946. In 1943 there were 1,756,801 mule deer and 309,090 Columbian black-tailed deer. The latter species is found only in the three Pacific Coast States where the 1946 total is divided as follows: California, 220,100; Oregon, 86,000; Washington, 96,200.

In addition to the deer, big-game animals found in the United States in numbers exceeding 100 thousand are elk, prong-horned antelope, peccary and black bear. Relatively scarce animals with populations ranging from one up to 24,000 are the moose, Rocky Mountain bighorn sheep, European wild boar, grizzly bear, buffalo, and woodland caribou. There are reports of a few caribou straggling across the Canadian border into Minnesota, Idaho, and Washington.

When stitching heavy material such as cretonne or canvas, first rub the seams with hard soap. You will find the needle will go through the material very easily after this treatment.

WORLD'S "SAVINGEST" WASHER!**

**THEY KNOW THE BENDIX SAVES TIME AND WORK!**

Just put your clothes in the Bendix, set the dial, add soap . . . and you're through! All by itself the Bendix washes, rinses three times and damp-dries the clothes . . . cleans itself, then shuts off automatically! You don't even have to be there.

**THEY KNOW THE BENDIX SAVES HOT WATER!**

The *thriftest* way to get clothes cleanest is to tumble them, hundreds of times, in and out of a *small* amount of hot suds . . . and rinse them thoroughly. That's how the Bendix works.

**THEY KNOW THE BENDIX SAVES CLOTHES!**

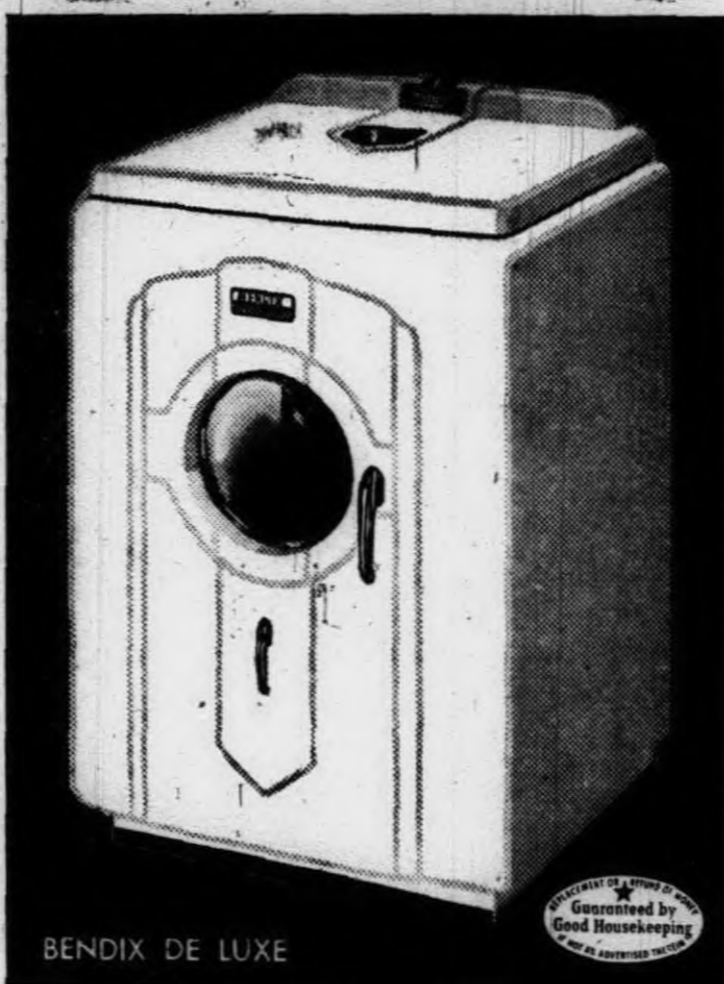

The Bendix "Tumble-Action" is *gentle* action . . . safe with the daintiest fabrics. No agitator wear and tear . . . no rubbing, scrubbing and twisting.

**THEY KNOW THE BENDIX SAVES SOAP!**

The average Bendix owner spends about \$1 a month less on soap than she would with an ordinary washer. That's because the Bendix gets a whole load of clothes sparkling clean on just a few tablespoons of soap.

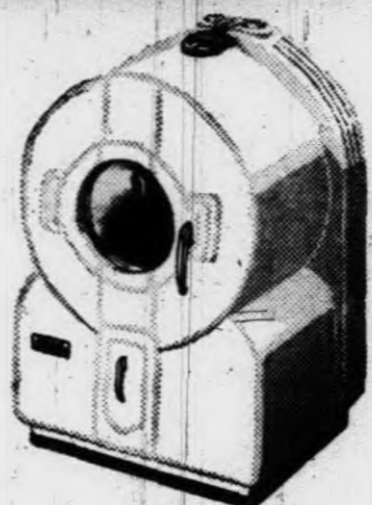

**IS IT REALLY AS GOOD AS ALL THAT?**

Among the first million Bendix owners is one who lives near you. So don't take our word for it . . . have a chat with *her*, just to make *sure* the Bendix is the best buy for you. She'll tell all . . . as you know.

**TAKE ADVANTAGE  
OF OUR EASY  
PAYMENT PLAN!**

Why not start enjoying washday freedom with a Bendix Washer now and take your time to pay for it? You make a low down payment—and pay a small amount each month while the Bendix is saving you money and work. Ask your neighborhood Bendix Dealer.

*For peace—be*

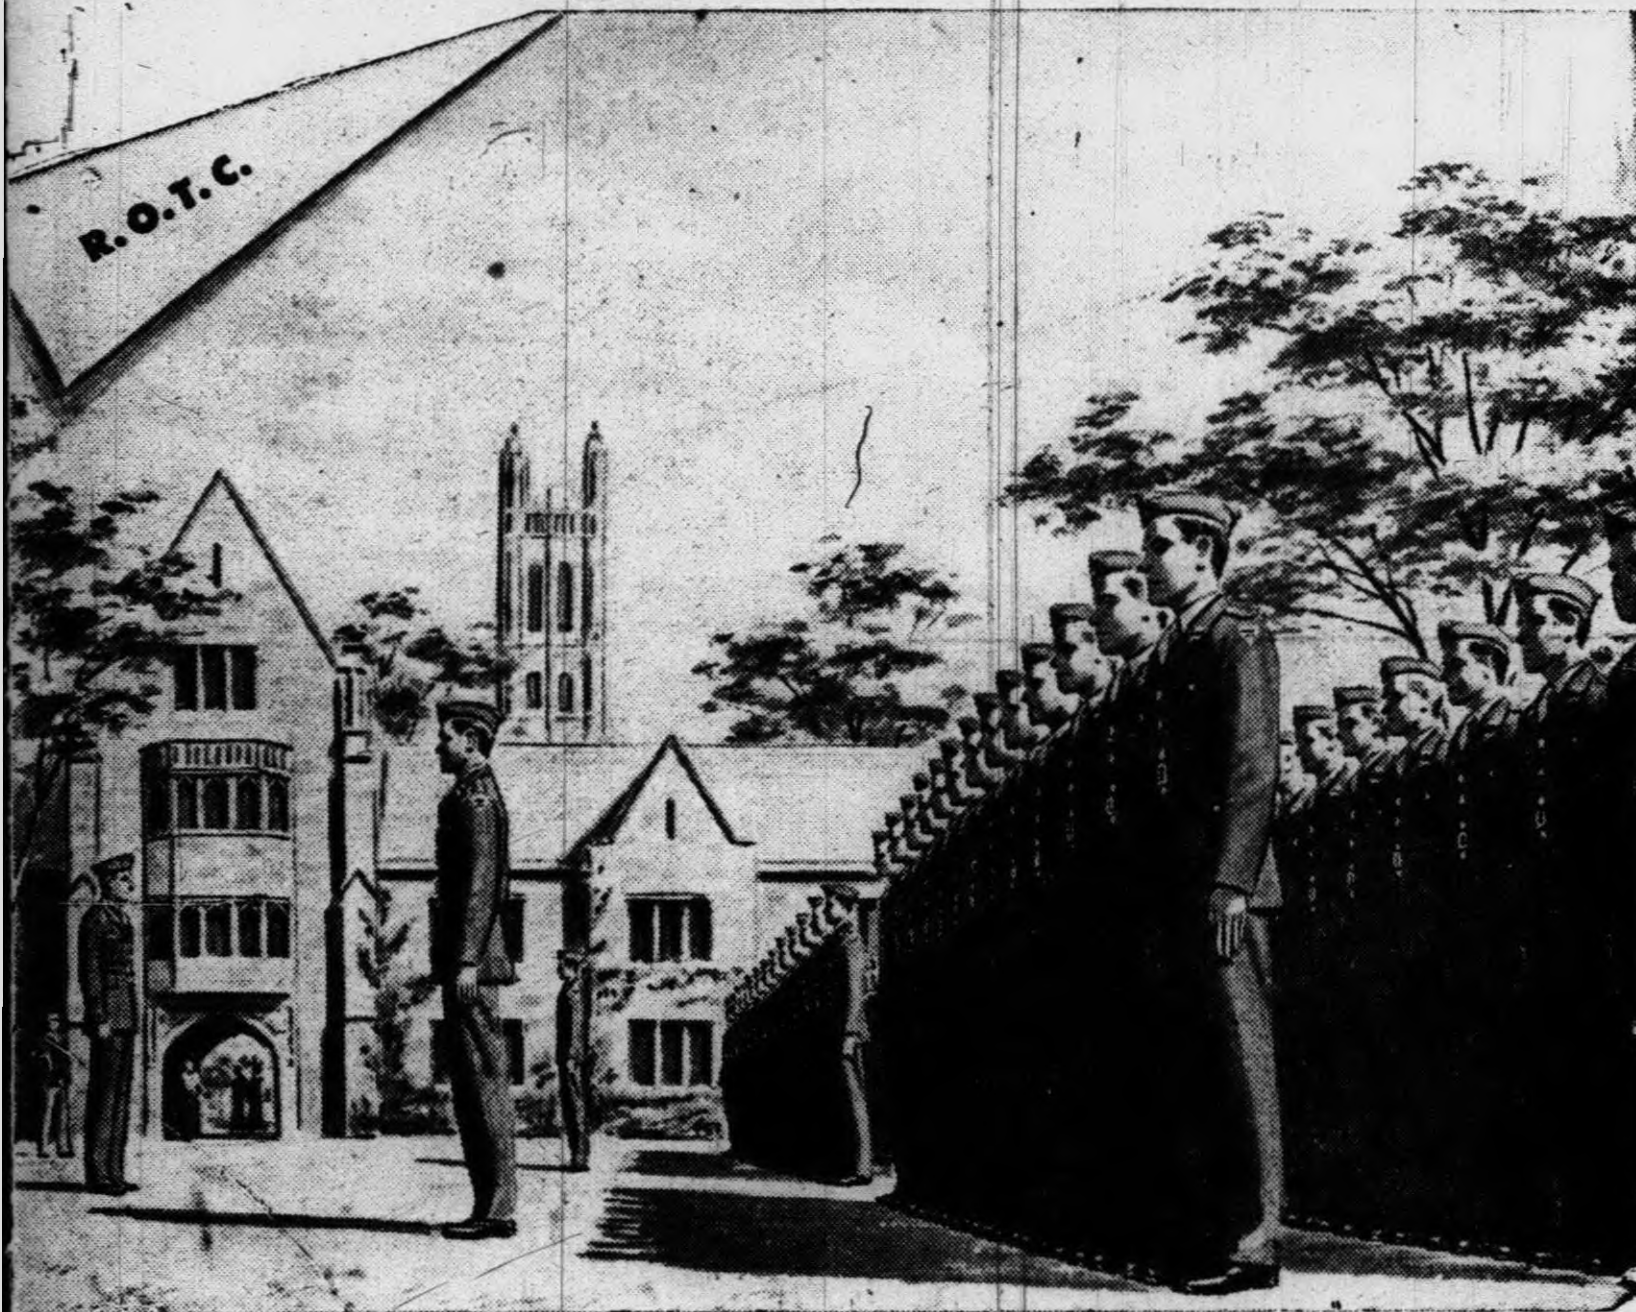

This Army Day finds your new Regular Army charged with the task of helping to build a lasting world peace.

No other nation ever has dared face such an assignment on a 100% volunteer basis—a traditional American policy in peacetime.

You have today the largest volunteer army that any nation has ever successfully recruited in peacetime. But this army is still short of the minimum strength required to do the job that you, through your Congress, have given it.

The strength of your new Army is not in numbers alone. It is also found in the intelligence, training and physical fitness of individual soldier—and in his clear conviction that only a strong America can be a strong America.

Shoulder to shoulder with this soldier are the volunteers who are helping with the giant task of peace. The National Guard of the United States, the Organized Reserve Corps and the R.O.T.C. also deserve your active interest.

**A**pril 6 is Army Day! It serves as a  
**R**eminder that strong forces are needed to  
**M**ake America a power for lasting peace.  
**Y**ou can share in this vital program by:

**D**isplaying your American flag,  
**A**ttending Army Day events and giving  
**Y**our support to our men in uniform.

**Lamb Care is Needed to Obtain Top Returns**  
Prices for lambs to be marketed during the coming summer and fall will be determined largely by the management practices followed in the farm flock now, advises Graydon Blank, Michigan State college animal husbandry specialist.  
Two practices which are especially important are docking and castrating. Ram lambs more than three of four months of age sell at a discount of one dollar per hundredweight. During the fall season, they lose flesh and retard the gains of other lambs. Long tailed lambs are discriminated against on the market. Feeders do not want ram lambs and those with long tails. Lambs should be docked and castrated between one and three weeks of age.

Details of profitable sheep management as well as instructions for docking and castrating will be found in extension bulletin 242, "Selection and Care of the Farm Sheep Flock." The bulletin can be obtained from county agricultural agents' offices or by writing to the Bulletin Office, Department of Public Relations, Michigan State college, East Lansing, Michigan.

The hunt for that fuse that just blew out is eliminated by one of those simple twists of electrical science. A tiny incandescent lamp has been added to the fuse. Now, when the fuse goes out, the lamp goes on.

Plymouth Mail Want Ads will get you fast results.

**John Dunn, 62, Loses Life in Fire**

John Dunn, 62, a recluse wood-chopper, burned to death Sunday a.m. in his house trailer, located at the corner of Louise and Cathedral, Livonia Township.

This was the finding at his autopsy held at the County morgue.

Wayne County Sheriff's officers spent several hours after the charred body was found investigating the mysterious circumstances of his death. The autopsy indicated that Dunn's skull fracture was caused by the heat. It did not however reveal what had happened to the gold watch and Saturdays' pay.

Allen Clark, 15880 Littlefield, Dunn's employer, stated that he had paid him \$50 Saturday.

The Livonia Fire Department thought that an over heated stove caused the fire.

**Demand Growing for White Skinned Spuds**

Although there's a switch away from the Russet Rural potato in Michigan, Henry C. Moore, Michigan State college potato specialist, thinks even more producers should consider other varieties. "Chippewa, Sebago and Katahdin varieties are bringing about ten percent higher market prices than the Russets. That's because consumers show a preference to the white-skinned potatoes.

The supply of certified seed for these varieties is limited, Moore reports, because there has not been such a great demand in past years. Six years ago, however, 85 percent of the potatoes certified for seed were Russet Rurals. This year Russets accounted for only 60 percent of the total certified.

A few cultural practices are different in growing white-skinned varieties. Care must be taken to plant them in soil which has not grown potatoes for four or

five years. Seed must be well-treated to eliminate scab infection before planting. The use of organic matter, such as green manure, is recommended. Sebago potatoes need to be planted earlier than Russets. Katahdins must be planted deeper and closer together to prevent sunburn or hollow heart.

Farmers who plan to grow certified seed should consider the increasing demand for these varieties. From 80, to 100 cars for seed are now being shipped into Michigan each year to satisfy the demand.

Moore also believes certified seed growers should also consider the heavy demand for Pontiac. This red-skinned variety is in great demand in the south where they grow no seed potatoes. Certified seed growers of this variety are finding an excellent market soon after digging in late summer or early fall. Southern growers plant potatoes in mid-winter for the early crop.

**HERE'S THE STORY OF A BIG TELEPHONE YEAR**

More telephones and more service for customers! More jobs and more money for employees! But earnings for investors continued their downward trend because the rise in costs far exceeded the rise in revenues. That's how 1947 stacked up for Michigan Bell.

**CUSTOMERS**

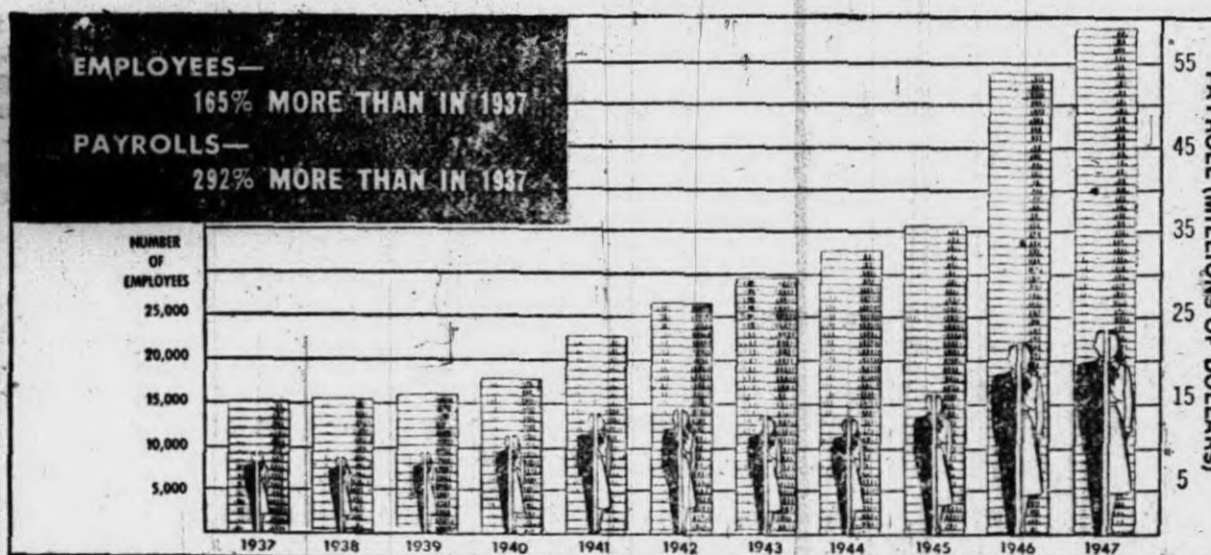

At the end of 1947, there were 133,000 more telephones in service than in 1946, including 16,000 more in rural areas. In the territory we serve, 73 of every 100 families had a telephone. But 51,000 families were still waiting for service.

Service was better. Customers could call more people than ever before, and did. With the average customer making between 5 and 6 calls a day, total calls averaged 8,022,000 a day.

We added more switchboard "positions," switching equipment to connect 87,000 more dial telephones, and 350,000 miles of wire. We enlarged the capacity of 196 central offices and built 11 new ones.

Forty-eight million dollars were spent for expansion and improvement. But Michigan Bell's plant is still not big enough to serve everyone the way we would like.

**EMPLOYEES**

Michigan Bell's expanding business created 1,900 more telephone jobs during 1947. This required more supervisory jobs which were filled by promotion from within the ranks.

There were nearly 3 times as many employees at the end of 1947 as 10 years ago. Payrolls were nearly 4 times as high. Wage adjustments last Spring increased costs about \$5,864,000 annually. One out of every 11 employees received benefits because of illness or injury.

By purchasing A. T. & T. stock under a payroll deduction plan, 7,400 Michigan Bell employees were on their way to becoming part owners of the business.

**INVESTORS**

HOW WE DID FINANCIALLY

	1947	Change from 1946
GROSS REVENUES	\$87,490,000	UP \$ 5,783,000
minus COSTS	\$89,776,000	UP \$10,399,000
leaves EARNINGS	\$ 7,722,000	DOWN \$ 4,616,000
EARNINGS PER INVESTOR'S DOLLAR	3 1/2%	DOWN 3 1/2%

Money received from customers for service was 6% more than in 1946. But costs of providing service—wages, taxes, goods and services from others, etc.—rose 13%. Earnings per investor's dollar dropped to about half of what they were in the previous year.

730,000 investors in Bell System securities supply the money to build Michigan Bell's plant. Millions more have invested indirectly through savings accounts or insurance policies with institutions owning Bell securities.

1947 QUARTERLY EARNINGS ON INVESTOR'S DOLLAR

Month	Earnings
JANUARY	3 1/2%
FEBRUARY	3 1/2%
MARCH	3 1/2%
AT ANNUAL RATE OF	6%
APRIL	3 1/2%
MAY	3 1/2%
JUNE	3 1/2%
AT ANNUAL RATE OF	3 1/2%
JULY	3 1/2%
AUGUST	3 1/2%
SEPTEMBER	3 1/2%
AT ANNUAL RATE OF	3 1/2%
OCTOBER	3 1/2%
NOVEMBER	3 1/2%
DECEMBER	3 1/2%
AT ANNUAL RATE OF	3%

Even with the telephone system operating at capacity, because of rising costs only 3 3/10 cents were earned on each dollar invested. This is not an adequate return. So the Michigan Public Service Commission is now considering our application for an increase in telephone rates.

**ALL THREE GROUPS**—customers, employees and investors—have a stake in the business. Looking to the future, Michigan Bell fully expects to supply a continually improving service to the public... good jobs for thousands of employees, with plenty of opportunity for advancement in a growing business... and a reasonable return to those whose savings are invested in the business.

BABSON

Babson Discusses 'Shall I Build Now?'

Now York City, Apr. 2. There are many factors connected with new building today which should hold up costs for some time. Most of the increase is due to two main causes:

Why Building Costs Are High (1) The increased powers of labor unions causing higher wages, shorter hours, and poorer work. This is partly due to the higher cost of living, restrictions as to apprentices, and the increased demand for houses.

This labor cost applies from the cutting of the timber in the forests through every step of transportation, marketing, etc. up to the real estate man who sells the house. Moreover, this costly situation is encouraged by Federal and State labor laws, municipal codes, social security deductions and a dozen more additions.

(2) Another factor is the taxes which must be paid by those who cut the tree, mill the timber, sell the lumber and other building material—as well as the taxes which the contractor must pay. These all snowball up one upon another with this result: The house which ten years ago cost \$6,000 now costs \$12,000; but 50 per cent of this increase is due to the increased taxes which our present Administration at Washington collects.

Houses Recently Built In view of the above, I seriously doubt if the cost of building new houses will decline much for some years. It is true that the quality of building materials should improve and that labor may give more value for a dollar of wages because nonunion labor competition will become more plentiful.

Ultimately, there will be a decline in building costs to a point about halfway between the cost of ten years ago and the cost today. Even such a decline, however, is some time away. So much for new construction.

Now as to the price during the next few years of houses already built. There is no building boom ahead. Residential building in 1948 may be less than in 1947; while 1949 may be less than 1948.

owing to war preparation restrictions.

When Universal Training and the Draft take effect, contractors may begin to unload. They may be glad to get out even and some will be forced to take losses. It's all a question of supply and demand influenced by war-preparations. Thus far more people have been moving into most cities—especially returning veterans—than there were houses.

Now some of these people will wish to leave, and to sell their houses. At first, this may be easy; but after the supply of such houses exceeds the present demand—prices could crumble fast. So much for houses built during the past three years.

What About Old Houses? The most attractive thing in real estate—outside of properly located subsistence farms—are old well-built-houses in the best sections of small cities. These can still be bought for half what they would today cost new;—and in many cases are better than they could be built today at any price. As people become more war-conscious and as the draft takes young men, they will gradually sell their homes in large cities and move into safe communities.

Hence, while big city property is going down in price, these small city properties may be going up in price. If you own such a house, continue to hold it. If you live in a good section, buy a house next to you as an investment.

Many of these old houses will double in price while the new houses built for veterans during the past few years may sell at perhaps one half what is now being asked for them. Unless you want one of these now, then wait for distress sales.

What About War Outlook? A great question is whether a war boom honeymoon is again ahead of us? If so, houses, ranches, and most city property could hold up awhile longer. There will be no war this year; but the very preparation for war should stimulate certain buying and retard other buying. One thing that looks good are certain large houses—now on the market at very low prices—which can be made over into apartments. There will always be a demand for well-located apartments. Even these you should live in or near and attend to. There now is no easy way to make money in real estate.

Thespians Select Name for Group

Plymouth's newly formed drama group will henceforth be known as the Theater Guild, it was decided at the meeting held Friday, March 19, according to Ralph Johnson.

Plans made at the same meeting dealt with the annual meeting and election of a board of governors which will take place at the meeting planned for Monday, April 5, at 7:30 p.m. in the Veterans' Memorial Center, Mr. Johnson reported.

The board will act as the governing body and will consist of nine members elected from the active members at large. At the next meeting four governors will be elected to serve for a period of two years, and five governors will be elected for a one-year period. Governors chosen after this election will serve for a period of two years.

In addition to deciding on a name for the organization, a set of by-laws were accepted at the Friday meeting under which the organization will function. Concerning dues, it was decided that the first 75 to submit their dues will be classified as charter members and will pay three dollars for the year from April 5 to the next annual meeting. All active members joining after the 75 will pay five dollars for a membership. Inactive membership will be six dollars and fifty cents. An inactive member is classed as one who wishes to be part of the organization, see the plays, but not take an active part in the producing of the plays. This class of member does not have a vote. Junior memberships are for girls and boys between the ages of 15 and 18, and their dues will be one dollar.

All check or money orders are to be made out to the Plymouth Theater Guild and mailed to Mrs. Charlotte Winterhalter, 354 North Main street, Mr. Johnson stated.

Following the election at the next meeting, Russell Mills, first president of the Dearborn Theater Guild, will address the group on purposes and aims of the theater guild and pitfalls to avoid and anticipate.

The social committee, consisting of Mrs. Emily Moser, Mrs. Doris Lewis, and Mrs. Virginia Schuster, urges members to bring their husbands and wives to the meeting, as refreshments and a few games are planned for the later part of the evening.

Observance of Arbor Day Urged by Forester

Arbor Day will be celebrated on April 23 in Michigan's lower peninsula and on May 7 in the upper peninsula.

John Fields, Michigan State college forester, calls attention to the importance of tree planting for all purposes. Not only will it help to conserve our natural resources but will also add beauty to the countryside.

The forester urges Plymouth residents to plan now for tree planting during the Arbor Day observance.

A total of \$75,000,000 and 45,000 employees are being used annually by federal agencies in "publicity and propaganda activities," is an estimate advanced by Congressman Forest A. Harness, Fifth District of Indiana.

25 YEARS AGO FROM THE PLYMOUTH MAIL FILES

S. T. Corbett, who has conducted the business known as the Corbett Electric company here for several years, has discontinued the business and has accepted a position with McNaughton & McKay, wholesale electrical goods dealers of Detroit, as traveling salesman. Mr. Corbett has made many friends during the years he has been engaged in business here, who will wish him abundant success in his new work.

Elizabeth and Marion Beyer spent Wednesday with friends in Wayne.

Mr. and Mrs. Burt Waters and children of Ann Arbor were guests of their niece, Mrs. Roy Lyke, Sunday.

Mrs. C. H. Buzzard and daughters, Margaret and Doris, are spending the week with the former's mother in Bay City.

Doris and Esther Field of Detroit, are spending part of their vacation with Mrs. Frederick Thomas on Harvey street.

Mrs. M. M. Willett and son, Chase, are spending a few days this week in Milford.

Auctioneer H. C. Robinson conducted a large live stock sale at Oxford, Tuesday.

Mr. and Mrs. William T. Pettin-gill and Mrs. Ida M. Dunn were dinner guests on Sunday of Mr. and Mrs. S. E. Cranson of Northville.

Mrs. Fred Rhead was taken to Harper hospital, last Friday morning, where she underwent an operation for appendicitis. She is slowly improving.

Robert B. Tefft of Saginaw is the guest of his brother, L. I. Tefft and family.

Mrs. Nellie Bird and two daughters spent a few days this week with the former's mother, Mrs. Jennie Smith at Salem.

Miss Auda Gill of East Lansing and Miss Eva Tilson of Sault Ste. Marie are spending the week with Mrs. Raymond Hills.

You've gotta be fair to the Truman Administration! Under the last G. O. P. regime you could do without a pound of butter and a pound of steak and you'd only save about 98 cents. Today you can do without 'em and save \$1.46.

Plymouthite Has Position in Paris

April in Paris, as well as many following months, will be viewed by Belva Jane Barnes, daughter of Mrs. Mildred Barnes of Harvey street.

Miss Barnes arrived in Paris March 10, crossing the Atlantic aboard the SS America, to assume a position with the A. T. Bat architectural firm.

In a letter to her mother, she told that it is spring in Paris and flowers are in full bloom. Living is cheap in terms of American dollars, Miss Barnes reported, but high to the French people. The people appear happy and healthy, she has noted.

Miss Barnes, who was graduated from Plymouth High school in 1939 and the University of Michigan school of architecture in 1943, was formerly employed by the Skidmore, Owings & Merrill company of New York, largest architectural concern in the world. She was loaned by this company to work on designs for the New York United Nations Buildings, where she came in contact with Le Corbusier, the eminent architect who is president of the French company by which she is now employed.

The oldest symbol representing a word is "&" known as the ampersand. Originally, it was one of the 5000 signs in the world's first shorthand system which was invented by Marcus Tiro in Rome in 63 B. C. and used for 1000 years. Not only is "&" the only one of these signs to have survived, but it is used today as the symbol for the word "and" in several hundred languages.

After-dinner speakers are always after dinner.
