Police Will Quiet "Wolf Whistles"

Police Department members are going to enforce a law expected to quiet the "wolf whistle" horns which have been howling around the city recently.

Judge J. Rusling Cutler reports on the issue and tells it is unlawful for anyone to use a horn other than as a reasonable warning device. He further states that it is against the law to make unnecessary or unreasonably loud or harsh sounds with such.

Young motorists with these "wolf" horns have been reported to go back and forth through town showing off the whistle. The whole situation has been deemed as "very disturbing" and numerous complaints have been received.

Log Fire Occurs at Incinerator Plant

Plymouth's Fire department was called Saturday, May 1, to assisting in extinguishing a fire at the Wayne County Incinerator plant on Edward Hines drive. A log pile had caught fire, but no damage was reported.

WHAT I THINK

(Continued from page 1)
If the Governor really wants to do something worthwhile for the people, why doesn't he propose a measure to take the lieutenant governor off the state administrative board? This official was put on the board a few years ago for political reasons only. He is not an administrative official and does not belong on a strictly administrative board.

The Governor should present to the legislature information, too, as to the benefits of a one-house legislature. There is no question but what there is much more merit in such a proposal than the one which would permit the Governor to appoint high state administrative officials.

Most members of the legislature are just as interested in good government as any Governor the state ever had, sometimes we think that lawmakers are much more concerned about this question than are the Governors, who always seem to have a weathereye on other political fields.

Good governmental reforms always originate among the people, the common people, the kind you meet as you walk up and down Main street.

Special privilege "reforms" originate with lawyers who make big fees serving special interests, and people of vast wealth.

These are generally the kind of people who would like very much to have in office an attorney general of the kind who could NOT be elected by a popular vote of the people.

Would it be possible that the group of "reformers" now sponsoring these amendments and looking into the years ahead, see SPECIAL reasons why it would be to their advantage to have an attorney general serving this state who would do the bidding of the man who appointed him to office, rather than to have an attorney general who is ELECTED and RESPONSIBLE to all the people?

Maybe this is one of the little "niggers in the woodpile." Maybe.

THE GOOD OLD FREE PRESS SHOULD BE COMMENDING THE LEGISLATURE FOR ITS ALERTNESS RATHER THAN CONDEMNING IT.

And for the information of The Free Press we would like to say that this editorial is written by the ONLY member of the state legislature who two years ago strongly supported Governor Sigler for the Republican nomination for Governor. We believed at that time, as you did, that he would bring an enthusiastic vigor into Lansing; that he would sweep out the cob-webs of ancient tradition and introduce modern methods, that he would be a Governor OF the people.

We still believe that if the Governor will settle down to work, forget national political aspirations, go back to his common-folk friends for advice, consult with various state department heads and important state boards and commissions about state problems (which he has NOT done) and forego the glamorous part of his job, he may yet live up to our expectations of two years ago.

Tuesday's Roof Fire Causes no Damage

Alertness and quick thinking on the part of George McCurdy, 557 Blunk street, averted what might have developed into a destructive fire Tuesday afternoon, May 4.

Sparks from a chimney of the home of Ray Harrison set the highly inflammable wooden roof ablaze. Mr. McCurdy, noticing the burning, not only informed residents immediately of the situation, but was instrumental in extinguishing the fire. No damage was reported as incurred.

Frank Arlen is Named to Assessment Board

Mayor Frank Henderson's appointment of Frank Arlen to the Board of Assessment and Review was approved by City Commissioners Monday evening, May 3.

Mr. Arlen will serve in this capacity until April 18, 1949. Carl Shear was named as a temporary board member until a permanent one is appointed at the next meeting of the Commission. The additional member of the three man board is Warren Smith.

Tomorrow is Date of Magician Show

(Continued from page 1)

One of the Hall Magic company, located in Detroit, Karrell Fox, "King of Korn," will present comedy magic and Mr. Row is slated to present his version of levitation during the evening's program.

The roster of performers further includes Gary Gilbert, the Paper King and Mchey Oroski and his company. The latter is regarded as the world's worst juggler. Dr. Zina D. Bennett, who plays with ants, will be included as will Clay Cummings, teacher of magic. Al Zink, president of the Detroit Society of Magicians, and Mandel and Mitt are also listed as performers slated for the evening.

An extra added attraction will be the lovely Mary Lee who will give her specialty, "Zentho," the floating ball.

Speaker Believer Communism Still Hovers Threat to Italian People

(Continued from page 1)

Communism in the United States is based on the rights and desires of the people. Russian communism is controlled by a handful of people whose doctrine are founded on fear. It is a system designed to produce results desired by only a few men.

It is the only country coming out of the war with a great capacity to produce — to house — to feed and clothe. In fact, we can take care of the world.

If we cannot help the rest of the world to get on its own feet, when the next wave comes, we'll have to go it alone. We cannot do it alone if we do not get on our feet.

It is explained that in the history of communism, it has never moved into a country with great resources.

Communism is a very good commodity, he is in a good economic state. This means the prosperity of the country, there is of being a victim of communistic propaganda.

In many ways we can help the non-people on countries by a winning communism from getting hold there, he said. We must try to win these countries where we can. We must provide a temporary economic relief through the European Relief Program.

It is possible we should help have a check of initiative to work and any apparent deliberate stalling means done is through communistic influences. What these countries need is materials.

for their laborers to work with. "If we want a free world, let's grow up to the responsibility of leading that world. We have the political, economical and spiritual resources with which to lead a free world. This, in time, will be our salvation.

"We must give these people tools with which to work so they may create their own purchasing power and raise their own economies... increase their own prosperity.

In closing, Price declared, "Let us cram all the world economic progress we can into this generation so that coming generations will have a better world in which to live."

Nils Ekland, Plymouth Lion and final assembly superintendent, was program chairman. Max Todd introduced the speaker.

Also attending the meeting was Julius Michaux, of Brussels, Belgium, who is Kaiser-Frazer distributor there. In a few remarks he said since coming to this country he was amazed with the unselfish attitude of the Americans. "The United States, long considered a 'young country', is growing up and a great impression has been made on the Belgian people."

Jackson Likes Its City Manager

The many Plymouth friends of former City Manager Clarence Elliott will be highly pleased to know that he is making a splendid record as city manager of Jackson.

Numerous prominent citizens of that city have stated that it has been years since Jackson has had such an efficient and cooperative official as Mr. Elliott has proven to be in the nearly two years he has been in charge of the municipal affairs of the progressive city.

During the years he served Plymouth he put forth a real effort to do a good job, in spite of the hectic conditions under which he was forced to work.

Mr. Elliott recently stated that he had rejected an offer from a large eastern city to become city manager of that metropolitan center.

Cancer is not a female disorder. More Michigan men than women died of cancer last year.—Michigan Department of Health.

Chief Issues Fire Disease Warning

Many people expose their children to death by fire and disease every day, Fire Chief Robert McAllister warned Plymouth residents in a Spring Clean-Up announcement made this week.

"Fire kills more children in the home than any other single cause of accidental death," he pointed out in an appeal to every citizen to join this year's community clean-up in an effort to rid the city of fire hazards.

The chief cited figures of The National Board of Fire Underwriters which showed that out of 6,000 children who die from home accidents every year, more than 2,000 or 33 per cent are burned or scalded. Thousands more are crippled by burns.

Yet many of these tragedies could have been prevented by a little care, the chief continued. He suggested that parents spend a little more time in cleaning out home fire hazards, and protect their children's lives.

He called for wholehearted co-operation from every parent, every householder and every group to check homes and community for possible fire dangers, and to clean up disease-harboring rubbish in vacant lots where children play.

Specifically, he listed recommendations of The National Board of Fire Underwriters to be used as a fire prevention guide by parents.

Never leave children alone in the home. Be sure your sitters are mature and responsible enough for the care of young children.

Make certain your sitters know how to call the fire department.

Be positive—that matches, hot liquids, lighted candles and lamps

are out of children's reach. Don't permit children to play with bonfires or fireworks. Fans for marshmallow toasting and popcorn roasts should be held in fireplaces only, and always under adult supervision.

Don't dress your children in highly flammable clothing, such as fluffy net dresses, brushed cotton or brushed rayon suits.

In case of fire, get the children out of the house first, then call the fire department.

Turkeys and Chickens Must Be Kept Separate

Charles Reel, extension poultryman at Michigan State college, has a tip for Michigan poultry raisers. It's this: turkeys and chickens cannot be raised together successfully under farm conditions. Poultry must not be allowed to mingle with chickens or other poultry.

The reason for the warning is that other poultry, especially chickens, harbor parasites and organisms that cause blackhead, exocoelosis, and other turkey diseases.

If there are chickens on the farm, Reel says, don't care for the chickens and then track to the brooder house unless shoes have been thoroughly cleaned or disinfected before entering the brooder house.

About 93 per cent of all persons killed by fires are under the age of 25, a 5-year survey of fire casualties shows. According to the National Board of Fire Underwriters this shows the great need for more effective fire prevention education among the children and young persons.

Officers Chosen for Central P T A

Election and installation of officers was held during the Tuesday evening, April 27, meeting of the Central Grade school Parent-Teacher association, in addition to the discussion of school problems led by local authorities.

Mrs. Jack Taylor was re-elected and installed as the presiding officer for the coming year. Mrs. Kenneth Hulsing was again chosen as first vice president, Mrs. William Rambo as second, and Warren Smith, third. The only newly elected officer of the group was Mrs. Lee Gaeke, voted to succeed Mrs. John Morrow, whose term of secretary had expired.

Mrs. Grace Jarvis was renamed as treasurer.

The president, Mrs. Taylor, explained that all officers of the PTA usually hold that post for two years. Installing officer was Clifford Wood, president of the Starkweather PTA.

The panel discussing school problems and answering questions was composed of Superintendent Helmar Nelson, Kenneth Hulsing of the school board, and Warren Smith, representing the PTA. Topics they discussed included taxes, management of the school, present overcrowded condition, and the importance of getting school voters to turn out for elections. The latter was emphasized as, it was stated, in the last school election the number of voters taking part in the balloting numbered less than the combined

membership of the two PTA organizations.

Mrs. Taylor announces that the next regularly scheduled meeting has been eliminated, and will be replaced by the May Festival May 28 in the high school auditorium. Members of the kindergarten, first, second, and third grades will take part in the program at that time.

George's Pantry is Now French's Food Market

Coming from Pontiac where he was employed in the food business, H. J. French purchased the concern formerly known as George's Pantry from George Kunkel.

The new owner reveals a change of name to French's Food Market. The location of the mar-

ket is at 614 South Main street at Wing.

Mr. French announces he will be open every day from 8:30 a.m. to 10 p.m., including Sunday. He carries a complete line of fresh vegetables, meats and groceries, and offers a free delivery service.

Mr. and Mrs. French are residing in Plymouth at the present time, and as soon as housing is available their two children will join them.

Plymouth Rocks Downed by Ypsi Braves in First Game of Season

By Al Larson

A last inning spree does not win a ball game, as the Plymouth Rocks discovered Friday, April 30, when the Ypsilanti Braves downed the Blue and White squad in the first baseball game of the season by a score of 8-5.

Going into Plymouth's half of the last inning the Rocks were trailing by eight runs when aided by errors and walks, Plymouth was able to score six times. Bob

Shely, almost hero of the day, pinch-hitting for Mickey Brown in the seventh inning, knocked out a single bringing one run in and then scoring himself on Brave errors.

Mickey Brown, Rock hurler, struck out ten men while giving up five hits. The Rock Squad was held to four hits by Charley Derry Berry of Ypsi as he threw the third strike past six men.

Plymouth Takes Track Meet Win

Plymouth Chapter No. 115 will hold its May Special, Tuesday, May 18. The chapter will be opened at 5:30 p.m. Our birthday dinner will be served at 6:30 in the dining room at which time our Past Matrons and Past Patrons of Plymouth will be the guests of honor. Chapter will be resumed at 7:45 and the exemplification of degrees will be presented by the Past Matrons and Past Patrons. Call Clara Todd, phone 75, for reservations to the dinner. Reservations will be accepted until May 16.

Mary Kershaw, W. M., was a guest of Trinity chapter on Wednesday, April 28, and exemplified the degrees of Esther. Two other members of Plymouth chapter who were guests of Trinity chapter were Erma Hughes, A. M., who presented the Matrons second lecture, and Gertrude Thorpe who was a guest of the treasurer.

Arnold Williams, A. P., was a guest of Cedar Lebanon on Monday, May 3, and presented the scripture reading.

Radio tubes that have a metal cover may be quickly checked by placing the hand over them to see if they are hot. But the best and surest method of checking tubes is to employ the scientifically designed instruments which are in the hands of every repairman.

Tea Will Replace Annual Banquet

Replacing the annual Mother-Daughter banquet will be the tea planned for this evening, Friday, in the Methodist church at 7:30 p.m.

Entitled the "Hour of Charm," the program will consist mainly of music. Present arrangements reveal the Junior choir will open the program under the direction of Mrs. Arthur Donnelly. Mrs. Harry Fisher has been obtained as soloist, and instrumental duets will be played by Caroline Hill and Betty Bowden.

Mrs. Donald Sutherland has been slated to speak briefly on "Mother Meditations." The program will be concluded with a group of songs, states Mrs. James Latture, chairman.

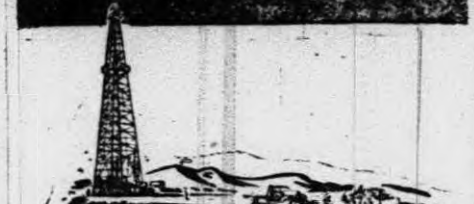

Light refreshments will be served at the close of the program. Mrs. Latture announces that all Methodist women and girls are cordially invited to attend.

To make thread loops for covered buttons, first measure the size of the button. Then sew several strands of thread on the edge of the fabric. Finish by working the blanket stitch over the strands.

On March 17, 1948 President Truman called attention to Russia's "abuse of the veto," having "vetoed 21 proposals for action in a little over two years." The President should know—during that same period he used his veto 43 times.

New York's Communist controlled American Labor Party cast 400,000 votes in 1944—all of them for Roosevelt, yet Roosevelt only carried the state by 317,000. This year, the ALP which has already sent two members to the House of Representatives, is supporting Wallace. It doesn't take an expert to figure out Truman's chances in New York, the indispensable electoral state.

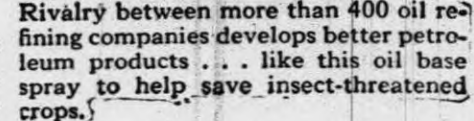

UNDERSTAND RIVALRY AND YOU UNDERSTAND AMERICA

World's deepest producing oil well—more than 13,800 feet—exemplifies the competitive spirit with which 13,475 production companies seek to help maintain America's all-important oil reserves.

Typical of rivalry in the oil business: Local retailers who are among 225,000 service stations in America compete with rivals to give you better products and services.

Rivalry between more than 400 oil refining companies develops better petroleum products... like this oil base spray to help save insect-threatened crops.

Constant competition throughout the American Oil Industry brings you constantly better gasoline, lubricants, fuels... helps improve thousands of other every-day products... means constantly better living for YOU.

WHEN THE HOT WATER SUDDENLY RUNS ICE-COLD IT'S TIME TO SWITCH TO AN ELECTRIC WATER HEATER

Thousands of Edison customers prefer electricity for heating their water. Electricity, they rave, is so much more dependable . . . all the hot water you want whenever you want it! An electric water heater, you'll find, is spotlessly clean—quiet as falling snow. It's completely automatic—and it's absolutely safe . . . no flame . . . no fumes . . . no soot.

See electric water heaters today at your nearest Edison office, your plumber's or at your favorite appliance dealer's.

Auxiliary to Give Annual Program

All mothers and daughters of the Presbyterian church are invited by members of the Women's auxiliary to attend the meeting planned for Wednesday, May 12, at 7:30 in the church.

This will mark the annual mother-daughter program which the auxiliary presents, states Mrs. Marvin Terry, chairman of Circle IV, the sponsoring group.

Following a word of welcome to the guests by Mrs. Richard Olin, president of the auxiliary, the meeting will be turned over to the chairman of the evening, Mrs. Harry Balfour.

Devotionals will be presented by Mrs. Terry, after which a series of tableaux will be shown. Music will be furnished by a quartet composed of Mrs. Donald Rank, Mrs. Charles Wolfe, Mrs. John Palmer, and Mrs. Harry Balfour.

Mrs. Charles Smyth will be the narrator and will first present Mrs. Charles Wolfe in "Lullaby Time." Mrs. Anthony Matulis will present the pre-schoolers in "Play Time." Taking part in this will be Pamela Turbett, Kathy Smyth, Karen Rank, Helen Margaret Thams, Jinx Goddard, Kathy Kellogg, Margaret Sue Terry, Meribeth Matulis, and Sandra Glassford.

"School Time" will be directed by Mrs. Byron Becker, assisted by Joan Becker, Jill Clark, and Cynthia Balfour. "Brownie Days" will be directed by Mrs. James Latture, and will include Sandra Binns, Susan Schreur, Marilyn Fry, George Ann Bauer, Deanna Wahn, Sally Williams, Celia Bal-

Doctor Warns of Scarlet Fever

A scarlet fever outbreak may occur in Plymouth and Northville, Dr. David Littlejohn, director of the Wayne County Health department, stated today when he issued the following warning: "Scarlet fever and 'strep infec-

Doctor Warns of Scarlet Fever

tions" have recently appeared in Plymouth and Northville. During the last ten days there has been reported five cases of scarlet in the city of Plymouth, two in Plymouth township and one in Northville.

"For each case of recognized scarlet fever, where there is a rash present and a physician has been called, there are probably quite a few other cases or persons

with a 'strep throat'. Scarlet fever with a rash, and 'strep throat' with or without a rash are actually all one and the same disease. An exposure to a case of 'strep throat', either severe or mild, may result in a severe case which will be called scarlet because it has a rash.

Any person with a sore throat should do everything possible to avoid exposing others. Any sore

throat could be a 'strep infection.' "The Michigan Department of Health regulations require a minimum of two weeks isolation for all cases of scarlet fever. Also isolation until recovery is required of all cases of streptococcal sore throat.

"The cooperation of the public is needed to control the spread of 'strep' infections."

Drawers and closet doors should always be closed, especially when there are little children in the home. Such hazards often cause serious injuries when youngsters unwittingly bump into them.

A good idea is to keep one refrigerator shelf reserved for leftovers. This way you won't be likely to forget odds and ends of food.

Orchestra Gives Redford Concert

Many from Plymouth attended the Redford concert presented last Sunday afternoon, May 2, by the Plymouth Symphony orchestra, under the sponsorship of the Redford High school PTA.

It was a repeat performance of the concert presented in the Plymouth High school auditorium the preceding Sunday, and comments from those attending both reveal that the orchestra played even more brilliantly during the second concert. Josef L. Lazaroff, concertmaster of the orchestra and guest artist in the Mendelssohn Concerto, was applauded to return for an encore.

This appearance at Redford marked the first time the Plymouth orchestra has played for a neighboring community since its organization a little over a year ago, and establishes a precedent for the future.

"Redford has asked that we return next year," states Paul Wagner, director. "Next season we expect to schedule repeat performances of all the concerts in neighboring communities. This will mean a season of eight concerts for the orchestra, with a concert in which the Plymouth Orchestra society will sponsor a visiting group, just as they sponsored the Baldwin-Wallace college choir concert here this year."

Suing for a divorce, Mrs. Eleanor Espe, of Chicago, charged before a county judge that her husband threw a clock into her face when she asked him what time it was.

Closed seams are often used on loosely woven fabrics to prevent them from fraying. They are made by trimming one edge of the seam and then creasing and hemming the second edge over the edge that has been trimmed.

After oiling your sewing machine, sew through a blotter or heavy absorbent paper with the machine needle unthreaded. This will prevent the oil from staining your material when you begin to sew.

Pronunciation of State Cities Given

A handy guide to 150 most often mispronounced Michigan place names appears in the current issue of the conservation department's monthly magazine, for benefit of tourists, radio announcers and even residents who stumble over Indian titles of vacation towns.

Many seem to think, for instance, that the second "g" in Gogebic is a soft "g" as in garm rather than a hard "g" as in gear; visitors speak of Ontonagon instead of Ontonogon. Radio announcers reading election returns particularly offend local communities with distortions of the locally accepted sound of town and county names.

No known guide to such names was available, so the department prepared its own from prevailing local usage, of tongue twisters like Kitchitiki and names like Seul Choix (SISH wah) that defy any standard pronunciation rules.

The first 150 different names are only a start on what the department hopes will grow into a comprehensive guide to the proper pronunciation of Michigan names. Corrections to the original list are being solicited from the communities concerned. And every other community in Michigan whose towns, rivers and lakes have been wronged by the twist of out-of-state tongues is invited to add to the list the accepted local way of speaking their important place names.

Wild Lifers Liked Fish He Cooked

Members of the Western Wayne County Conservation association who attended the annual fish dinner last week gained considerable first hand knowledge of the game situation in Michigan.

L. A. Davenport, biologist of the game division of the Conservation department in Lansing, was the well-informed speaker who declared that sportsmen can expect a decided improvement in pheasant hunting this fall, providing there isn't too much wet weather from now on.

"In addition to the planting contemplated by the state more than 150,000 eggs have been provided various sportsmen's organizations throughout the state. They will raise the pheasants and release them as soon as they are old enough," said the speaker.

The severe winter proved more disastrous to the deer herd than had been anticipated, he declared. In Kalkaska county the department found more than a thousand deer that had died from starvation. The loss throughout the state, he said, was around the 5,000 figure.

The fish dinner was one of the most delicious ever served. City Commissioner James Latture, one of the charter members of the Conservation club, donned his chef's hat and apron and fried the fish just right... in fact they were so good that everybody wanted more.

**Mother - Daughter
Banquet Planned**

Newburg's Methodist church, located at Newburg and Ann Arbor trail, will be the scene of the annual Mother-Daughter banquet on Thursday, May 13.

The program is sponsored by the Fidelis class members.

Members of the class will serve the dinner, which will be followed by a banquet program featuring a home talent show. Mrs. David Thompson will act as mistress of ceremonies.

Mrs. Thompson, president of the sponsoring organization, extends an invitation to all mothers and daughters of the community to attend. Tickets are available from the ticket chairman, Mrs. Clyde Smith, phone 658-W1, she announces.

Take the edge off that appetite. If the meal seems skimpy, the time has come to open that can of soup.

Pvt. Gordon McMann is departing with his unit, the 456 Airborne FA BN of the famed 82D Airborne division, Ft. Bragg, North Carolina for the Third Army Ninth Air Force maneuver which will take place in the Kentucky-Tennessee border region during the month of May.

He is the son of Mrs. D. McMann of 11696 Russell street.

Army and air force personnel from posts and bases throughout the seven southeastern states will assemble at Camp Campbell, Kentucky. The exercise will open with the 82D Airborne division paratroopers "hitting the silk" to establish and hold an airhead.

**Witt, Kidston Are
Eligible to Debate**

Roger Kidston and Ronald Witt are qualified to take part in the Free Press Debate contest to be held Wednesday and Thursday, May 12 and 13, at the University of Michigan, Plymouth coach James Latture announces.

Debaters from all schools which reached the state quarter finals are eligible, he announces. There will be a total of 16 competing for the \$2,500 debating scholarship which is offered by the sponsoring organization.

**P T A to Consider
Convention Ideas**

Numerous suggestions made at the annual PTA convention held in Bay City April 28-30 will be considered by the Central Grade organization next year, in an attempt to carry out the theme of "World Understanding" on which the three day meeting was based, states Mrs. Jack Taylor, president.

Attending the Thursday and Friday sessions with Mrs. Taylor were: Mrs. John P. Morrow, Mrs. Kenneth Hulsing, Mrs. James Scott, Mrs. William Rambo, Mr. and Mrs. Howard Carson, and Mrs. Durward Jewell.

Mrs. Taylor announces that the various convention speakers attempted to show what the PTA organizations can do within their own groups, as well as in helping their children to acquire world understanding.

One of the suggestions made, she states, is obtaining people with backgrounds in different countries to speak at the meetings; describing and explaining that nation, the customs, and a summary of its contemporary history. The idea was also put forth that costumes and refreshments from that country might also be included on the program.

Another idea was that the group could adopt a school in another country. Here it was pointed out that there are PTA organization in many of the ravaged countries. Both moral and financial help could be given these people, those attending the meetings were told.

Still another suggestion was joining the "save a child" campaign, corresponding with children in another country, and it was told that many in this country could also be helped by the groups.

Mrs. Taylor stated that she believes the local group has fallen short of their duty by failing to look outside of the community for those in need of help.

Mrs. Morrow and Mr. and Mrs. Carson attended the high school and junior high group meetings to find out how such PTA groups might be set up in Plymouth, in addition to the grade school organizations, Mrs. Taylor stated.

Most of the trouble with septic tanks is due to poor drainage areas, and this can be avoided if at the beginning some study is given to the ground around where the tank is to be installed.

**Teachers Choose
Officers for Club**

New officers were chosen for Plymouth's Teachers club at the organization's meeting held Monday afternoon, May 3, according to a report from president-elect, James Latture.

Mr. Latture succeeds Mrs. Nancy Tanger in office, Walter Goodwin fills the office of vice president, Betty Brake, chosen as recording secretary, will perform the duties previously done by Elizabeth McDonald, and Louise Spence was chosen to replace Mrs. Beulah Krieg as corresponding secretary. Don Rank was elected treasurer, succeeding Gerritt Kramer.

This organization serves both a social and professional purpose. The members stage about two social meetings a year, and the remainder of the time is devoted to the study of professional problems. The latter covers such topics as finance, tenure, retirement; all pertinent to the field of teaching and education.

A picnic is planned for the next meeting of the group. It will take place June 2.

Candy proved the downfall of Raymond Bobbitt, in Los Angeles. Eighteen months ago he went to prison for stealing a box of candy. The day he was released he went back to the same store, stole another box of candy, and was arrested by the same officer who caught him the first time. He now is awaiting trial.

**Patchen PTA Officers
Installed This Evening**

Officer installation services will be held during the meeting of Patchen PTA this evening, Friday, at 8 p.m. in the school.

Mrs. Karl Weihman will be installed as president at that time, and Mrs. George Kemnitz, vice president. Mrs. Kenneth Sorenson will receive the duties of secretary, and Norman Kock, those of treasurer.

Mrs. Sorenson and Mrs. Kemnitz will report to the group on the PTA convention held in Bay City April 28-30. Refreshments will be served following the program.

The Dry Lake, six miles west of Wilcox, Ariz., provides one of the world's few permanent mirages. On a clear day a great body of "dry water" may be seen from the highway, extending far back into, and sometimes on top of, distant hills.

Ad-Libbing.....

with "Ginny" by Virginia Schuster

WE applaud the Gift Hit of the year—you've been able to close your eyes—and see it. Now you're going to be able to "open" your eyes and see it! Mr. and Mrs. Martin of Martin's Gift Shop on U. S. 12 at McClumpha proudly present their collection of Milk Glass that merits the appreciation of discriminating tastes. Nationally advertised, lovely to look at, skillfully styled by leading artists and carefully crafted by expert artisans, each piece may become a treasured heirloom. Westmoreland Milk Glass has that authentic "deep white glow" which distinguishes it from ordinary reproduction. Their reproductions are second to none in either design or material. I haven't stopped "Oh-ing and Ah-ing." My head still spins, and so will yours when you see the over 65 different pieces that are truly collectors' items. You'll want all of them! In various designs and shapes and so individual are the beautiful vases, the cupped bowls, the cake salvers, the banana bowls. There are other gifts galore throughout the store, ever-welcome gifts with many purposes. You'll simply have to see for yourself.

Every mother gets awfully tired of standing and cooking over that hot stove day after day, so take that nicest and bestest date, "MOM," dining at the Mayflower. A special de luxe menu has been planned that would tickle the palate of any gourmet. Too, Mr. Lofy assures us that the usual wonderful assortment of fine baked goods and pastries will garnish every table top, so call 250 and make your reservation now.

To make Mom's fashion picture a portrait of complete harmony, the Robert Simmons Jewelers has the ideal gifts—VANITIES—Vanities for streetwear, for dressier daytimes, for evening. Because they're lovely they should be Mom's. You'll also find exquisite jewelry that adds the piece de resistance to any ensemble. Select a thinstone necklace, a choker of simulated pearls (both echoing the neckline) or an important-looking pin to wear on the lapel of a new suit. Incidentally, their Easy Purchase Plan is wonderful too!

"Remember Mother for she always remembers you" is just what Mr. Purcell is helping us to do. There are lovely gifts that would please anyone's mom. Never would I have thought of underarm Music Carrying Cases or those lovely fluorescent piano lamps which are a gracious touch to charming living. Would you? And what mother couldn't use dainty stationary printed with her name and address—for only \$1.50 a box. Purcell's Office Supplies on South Main has all these items and MORE, TOO!

To mom, with love: Mothers are very special people and they deserve very special tokens of your thoughtfulness. How thrilled she'll be on HER DAY when she receives lush blossoms in a beautiful bouquet, in combination boxes or pots OR an exquisite corsage bearing your signature. Simply call 209 or take a run down to Heide's Greenhouses on Mill St. Mr. Ruchr is very affluent with his floral arrangements and it's fun watching him whip up his creations.

Four-quart Pressure cooker—Reg. value \$12.95 for only \$8.95! Nine-inch Dutch ovens—Reg. value \$5.95 for only \$2.95! Take advantage of this Special Limited Offer of Regal Quality Aluminum Ware that rates the "Who's Who" in pots and pans with every American Housewife. (Extra heavy, waterless cooking, too.) Lidgard's Market on Liberty street will give you one ticket for every 25 cent purchase—When you have 40 tickets you may order either of the above or three other items not listed here. Try for the set of Five—Simple, huh?

Mom's own particular way of life may change several times in future days, but wherever she lives she's sure her solid silver pattern will go on being beautiful and correct, so trot down to Hericks' Jewelers and see the distinctive patterns on hand, rang-

ing in cost from \$22.50 up to 6-piece place settings. Sterling in International, Towle, Gorham or Heirloom would be her proudest possession, your finest investment—A supreme compliment to that Beloved Mother would be something in watches or other jewelry found here in the store.

Plymouth will always be thankful for Bill Clarke. It was his foresight that brought and continues to bring joy to many a home. Treating Hard Water and Pleasing Customers has been his aim for his years in business. Think of it—nothing to buy, no maintenance problems!! Simply call 707, the Soft Water Service and have that nationally advertised Culligan Water Softener installed—Again I say, Hat's Off to Mr. Bill Clarke . . .

If you want to remain friends with Fido and if you really want to keep him in top form, Specialty Feeds Company on 13919 Haggerly has just the thing. It's Pet Ration dog food!! Every can contains all "dog health" vitamins PLUS vital minerals dogs need daily for sound bone and teeth, a thick, glossy coat, and ABOVE ALL, a happy disposition. To the Man's Best Friend, whether a mongrel, mutt or pedigree, feed him Pet's Ration . . .

How would you like to be \$400 richer? That's what Parkview Recreation is giving away, so don't put your bowling equipment in moth balls yet for the pins are really toppling during the Mixed Doubles and Men's Doubles tournaments. (Your \$150 plus your Boss Man's \$250 guaranteed 1st prize money—Vacation ohh la la —PLUS additional cash prizes and trophies. If the 7-10 conversion fails.) Call 9168 for your reservation. "Mike" Schuster will give you all information. Hurry, time's a-wasting . . .

LETTER TO THE MOTHLET:

Now that you are hatched from an egg, we know that you know woollens and furs are very nutritious, and "chock" full of vitamins. SO to prevent you from growing to a big strong moth with wings and being very destructive, we're calling Heraldt Tri Cleaners—No. 110, TODAY. They will clean and glaze your fur coat, your winter garments too—Be safe with their moth proofing and storage, and eliminate that one Big worry, the MOTH.

25 to 50% OFF—until all sales items are sold! Here is your opportunity to save for here are prices that simply shout "SAVINGS." As space is needed for hardware merchandise and appliances, Plymouth Hardware is liquidating its entire stock of gift items, as vases and planters, all their stainless steel kitchen ware and items too numerous to mention. i. e. large Ecco kitchen fork and 6-inch strainer with plastic ivory handle, listed at 89 cents, now 29 and 39 cents—Sonora radios listed at \$39.95 now \$24.95. No one and nowhere will you get such Bargains . . .

Go to McAllister's Grocery! See their all concrete frontage (for parking and driveway)! See their ANNEX which is housed all Soft Drinks and all Beer, local and imported. "Packy and Pod" have come through again for the tired or busy man and woman. Simply drive through the annex, while you remain in your car a full case will be substituted for the empty. Too for your convenience all party snacks are sold from a counter at the left as you drive through the annex. ZOWIE!

Yep—it's spring! Time to shake off those winter blues! Tucked away in most every man's heart is the wish for an outdoor motor. Built by Goodyear, this 5 H. P. twin is the modern sportsman's favorite, outstanding for its streamlined power and efficiency of operation and maintenance. (Ladies, please note: lightweight and easy handling.) These SEA-BEE outdoor motors can be found at Hines & Owens Motor Sales for \$129.50 complete. Say merry outboarding with a Sea-Bee!

To the sports-minded—Every Thursday is Woman's day at the Plymouth Country Club; so bring out your clubs and join us for luncheon at 1 p. m. 9 holes of golf and for those not in a hurry—a game or two of gin rummy. (ahem). . . Whether you shoot Par or ??? you will have fun for there will be "4 flights" of golfing and prizes after each game. Everyone can win! Those interested may contact Lou Cavell, Jane Todd or Isobel Partidge. Incidentally, the only way to get rid of temptation is to yield to it, so I'm a yielding—Psst. the working girl may play her game in the evening.

HOUSEHOLD MEMOS... by Lynn Chambers

It's Easy to Make Strawberry Shortcake

(See recipes below)

Strawberry Time

For those of you who like strawberries, the season is too short! But we aim to do our best by them this season, so let's have them several times each week as long as we can. Perfect strawberries are just plain good served au naturel. And if you like them sweeter, dip each in a mound of powdered sugar, before tasting its deliciousness. Some like them for breakfast with a sprinkling of sugar and a quaint pitcher of thick country cream.

Strawberries in shortcake make a dream of a dessert. Some prefer old fashioned biscuit type of shortcake, split and covered with sweetened crushed berries and cream. Others prefer a more cake-like type of accompaniment to the berries.

***Strawberry Shortcake (Serves 6)**

- 2 cups sifted flour
- 3 teaspoons baking powder
- 1/2 teaspoon salt
- 2 tablespoons sugar
- 5 tablespoons shortening
- 1 egg, well beaten
- 1/2 cup milk
- 2 teaspoons grated orange peel
- 1 tablespoon soft butter
- 1 quart strawberries, sliced and sugared

Sift flour, baking powder, salt and sugar together; cut shortening into mixture with two knives or pastry blender until mixture is the consistency of corn meal.

Combine egg and milk; add to dry ingredients, mixing quickly to form a soft dough.

Drop the dough by spoonfuls into a well greased two quart heat resistant glass utility dish. Sprinkle each biscuit with grated orange peel. Bake in a hot (450 degree) oven for 12 minutes. Split hot biscuits and spread with soft butter. Place the sweetened strawberries between and on top of each biscuit. Serve a pitcher of cream with the shortcake if desired.

Fresh Strawberry Pie

- 1 baked 9-inch pie shell
- 1 quart strawberries
- 1 cup sugar
- 3 tablespoons cornstarch or flour

Sweetened whipped cream

Crush half the berries and bring to boiling point. Stir in sugar combined with flour or cornstarch and salt. Cook, stirring constantly, until thickened and well cooked. Spread other half of berries (whole) in baked pie shell. Pour hot cooked filling over top, cool, top with sweetened whipped cream and serve. Meringue may be used instead of whipped cream and pie browned in a moderate (350 degree) oven.

Special Strawberry Shortcake

- 2 cups sifted all-purpose enriched flour
- 3 teaspoons baking powder
- 1 teaspoon salt
- 1 tablespoon sugar
- 4 tablespoons shortening
- 2 eggs
- 1/2 cup orange juice
- 1/4 teaspoon lemon extract

Sift flour, baking powder, salt and sugar together. Cut in shortening. Beat one whole egg and one egg yolk, reserving one white for the tops. Add orange juice and flavoring to beaten eggs, then add to dry ingredients. Stir only enough to make dough hold together. Turn out on lightly floured board and knead a half minute. Roll out 1/2 inch thick. Cut. Brush tops with

Special Strawberry Shortcake

Luncheon Dish De Luxe

Scrambled eggs with shrimp make a delicious and satisfying luncheon dish. To prepare, saute one chopped green onion and one slice mushroom in two tablespoons margarine or butter. Let cook over a low heat three or four minutes. Add one-half cup shrimp which has been broken into small pieces, and one canned tomato. Again cook over a low heat one or two minutes. Add four eggs which have been beaten with two tablespoons cream, salt and pepper. Stir slowly over a low heat until of desired doneness. Serve on toast or crisp wafers. Sprinkle with grated spicy cheese.

If the flue is too small for the fireplace opening there is almost certain to be excessive smoking. And if you are planning to put in a hearth, be sure of your dimensions. Under most conditions the area of the fireplace opening should not be more than 12 or 13 times the opening of the flue.

white of egg and sprinkle with sugar. Bake on ungreased baking sheet for 12 minutes in 425 degree preheated oven. Split hot shortcakes, butter and fill with sliced sweetened berries. Replace top and pour berries over top. Serve with cream if desired.

Strawberry Meringue Pie

- 1 pint fresh strawberries
- 3 egg whites
- 1/4 teaspoon salt
- 1/3 cup sugar
- Few drops vanilla
- Honey
- Baked pie crust

Beat egg whites with salt until stiff. Beat in sugar and flavor with few drops of vanilla. Drain berries carefully; sweeten with honey and fold into meringue. Turn into pie crust and brown in moderate (350 degree) oven about 30 minutes. Serve as soon as cool. (Other fresh, carefully drained fruits may be used.)

Standish Pudding (Makes 1 quart)

- 1 quart strawberries
- 1 cup granulated sugar
- 1 cup water
- Lemon juice
- 1/2 pint whipping cream
- 1/4 cup powdered sugar
- 1/2 teaspoon vanilla
- 2/3 cup rolled dried macaroons

Pick over strawberries, sprinkle with sugar and let stand for two hours. Mash, squeeze through a double thickness of cheesecloth and add water and lemon juice to taste. Turn mixture into a one quart brick mold or place in freezing tray. Beat cream until stiff and add powdered sugar, vanilla and rolled macaroons. Pour over fruit mixture to overflow mold. Cover with buttered paper and freeze in a mixture of ice and salt, or let freeze in refrigerator compartment.

Raspberry or Strawberry Whip (Serves 4)

- 1 1/4 cup berries
- 1 cup powdered sugar
- 1 egg white

Beat ingredients together with wire whip or electric whip until stiff enough to hold shape. Serve over pieces of sponge or angel cake or pile lightly in a dish, chill, surround with lady fingers and serve with soft custard sauce.

Saturday Rites Unite Nichol-Fradenburgh

At a beautiful afternoon wedding on Saturday, May 1, Margaret Jean Nichol, daughter of Mrs. Walter Nichol and the late Rev. Nichol was joined in marriage to Evan Fradenburgh of Cleveland, Ohio, son of Mr. and Mrs. Glenn O. Fradenburgh of Rochester, N. Y.

The double-ring ceremony took place in the First Presbyterian church before an altar decorated with palms, lighted candles in tall candelabras, and vases of white flowers. The Rev. Henry J. Walsh, D. D. performed the service.

The bride, who was given in marriage by her brother-in-law, David W. Mather, wore a floor length gown of white batiste with fitted bodice, embroidered bertha and a full skirt intricately embroidered and tucked by hand for the wedding of her great grandmother. A small shirred cap held the fingertip veil of illusion which had been worn by her mother. She carried a colonial bouquet of white roses and gardenias.

Margaret Jean's maid of honor, Dorothea Mountz, of Saginaw, who has been her roommate at the University of Michigan, wore a gown of flame organza with gold accessories. Her bridesmaid, Frances Fradenburgh, sister of the bridegroom, wore a similar gown of blue organza with gold lace mitts and slippers. Each carried a colonial bouquet with matching roses in her hair.

The little flower girls, Susan Mather and Mary Randall, nieces of the bride, were dressed in blue organza and carried colonial nose-gays.

Eugene Dangle, of Cleveland, was best man, and seating the guests were John Randall, brother in law of the bride, and Malcolm Lowther, both of Detroit.

Mrs. Nichol wore a spring green crepe dress with white accessories and orchid corsage. Mrs. Fradenburgh, mother of the bridegroom, chose a pastel blue crepe dress with navy accessories and orchid corsage.

A reception for members of the two families and a few close friends of the young couple was held in the church parlor, following the ceremony.

The young couple visited the Smoky mountains on their honeymoon, after which they will reside in Lakewood, Ohio. For traveling, Miss Nichol chose a navy blue dressmaker suit with white accessories and corsage of pink roses. Both the bride and bridegroom are graduates of the University of Michigan. He is a member of Sigma Phi Epsilon.

Plymouth Couple Wed at Candlelight Service

Mary Jane Davis, daughter of Mr. and Mrs. J. W. Davis of Main street became the bride of Edwin C. Good, son of Mr. and Mrs. Clarion Good of Ann Arbor road, at a candlelight service at 8 o'clock Saturday evening, May 1, in the First Presbyterian church. The service was read by the Rev. Henry Walsh.

The bride wore a white satin gown with a high net yoke and scalloped satin trim. The scalloped design was used in the skirt, which extended into a train. Her veil of illusion fell from a halo of orange blossoms. She carried gardenias, white roses and snapdragons.

The maid of honor, Ruth Pringle, was dressed in pink satin and net with matching headdress. Barbara and Mary Wilson, the bridesmaids, wore blue satin and net fashioned after that of the maid of honor. They carried bouquets of pink carnations.

Sandra Williams and Sandra Harper, cousins of the bride, wore the flower girls wearing yellow marquisette colonial gowns and carrying colonial bouquets of yellow roses.

William Swan, Jr., was best man and the ushers were Charles Harper and Billy Davis, cousin and brothe of the bride, respectively.

A reception followed the ceremony in the Newburg hall with 200 guests present from Pittsburg, Pennsylvania, Toledo, Ohio, Detroit and other nearby cities.

Mr. and Mrs. Good will be at home in Plymouth after a short wedding trip. They are graduates of the Plymouth high school and employed in Plymouth, Mrs. Good at the Michigan Bell Telephone company and Mr. Good at the Railway Express company.

Lutheran Church Scene of Teacher's Wedding

St. Peter's Lutheran church of Plymouth was the scene Saturday afternoon of the wedding of Alice Gribble, daughter of Mr. and Mrs. Oscar Alstro, of Penniman avenue, and Paul Blasey, son of Mr. and Mrs. Erwin Blasey of Ypsilanti. The Rev. Edgar Hoencke performed the service at 5:30 o'clock in the presence of the immediate families and a few friends.

The young couple was attended by June Cravens of Detroit and Emerson Wollung of Ypsilanti.

A reception followed in the home of the bride's parents.

Newly Wed Couple to Make Home in Wayne

At a home ceremony last Saturday afternoon, Mary Jane Moore, daughter of Mr. and Mrs. Earl B. Moore of Pacific avenue was united in marriage to Edwin Burd, son of Frank Burd and the late Mrs. Burd.

The bride was given in marriage by her father. The double ring service was performed by the Rev. Henry C. Walsh.

An Aqua crepe dress was chosen by Miss Moore for her wedding with a pale gray flower trimmed hat and black accessories. Her flowers were white carnations.

Clarice Kuster, the bride's only attendant wore a navy blue dress and carried pink carnations. Harold Stevens, cousin of the bride, assisted Mr. Burd as best man.

Following the ceremony a reception for 50 guests took place at the home of the bride's parents.

Miss Moore is a graduate of the Plymouth high school and is employed at Kaiser Frazer. Mr. Burd is with the Wall Wire Products company. The couple plan to make their home in Wayne.

Frostguard Sales Planned by Evans

It has been announced by Evans Products company, Plymouth, that distributors are now being franchised for nation-wide sale of the "Evans Frostguard".

This new product, using infra-red rays, was developed by Michigan State college, the Agricultural and Industrial Foundation of the Detroit Board of Commerce and Evans engineers, for the protection of crops from frost hazards.

"The Evans Frostguard" is an answer to agriculture's old problem of frost damage to crops", E. S. Evans, Jr., president of the company stated. "More than one hundred Frostguards have been installed this spring for extensive testing in orchards, fruit, flower and vegetable growing areas. These tests, now being completed, have already shown the widespread success and applications of the unit."

Two installations recently made in an acre block of currants at Chester, West Virginia, protected it from frost in a temperature of 25 degrees. Two flats of tomatoes, placed inside the protected area, were also free from frost, while a pan of water placed alongside, froze solid.

Using principles of infra-red energy radiation, which heats the plants rather than the surrounding air, the Evans Frostguard protects crops from low temperature conditions. It incorporates a radiation chamber fired by fuel oil under pressure. Infra-red rays are reflected from the sides of the radiation chamber to the area to be protected. Rays which would ordinarily be lost into the upper atmosphere are re-directed back to the ground by a reflector on top of the radiation chamber.

A cooperative newspaper advertising campaign is now being prepared to provide distributors and their outlets with support in advertising Evans Frostguards.

Evans Frostguards installed in orchards, fruit, flower and vegetable growing areas, will make possible a potential saving to American agriculture of many millions of dollars per year, and could make available thousands of tons of foodstuffs for hard-pressed European countries.

It is estimated that more than a half a million dollars is lost through frost damage in the United States alone each year.

Michigan early this month received the kind of publicity throughout the nation that Michigan appreciates. Some several hundred thousands of readers of Sports Affield, which is acclaimed the world's largest sportsman's magazine, devoted the first pages of the May issue entirely to Michigan and its wildlife.

Interesting, too, is the fact that Jack Van Coevering, conservation editor of The Detroit Free Press and until recently a resident of Rosedale Gardens, is the author of the article which so rightly proclaims some of the glories and advantages of this state.

Writing an assignment from Sports Affield, Van Coevering covers all of Michigan's outdoor opportunities in a special sportsman's review of this state which appears in the current issue of that national sports magazine. This feature includes several pages of both full color and black-and-white photographs by Van Coevering.

A graduate of the University of Michigan, Van Coevering has been wildlife editor of the Detroit Free Press since 1931. But hunting and fishing and taking pictures are only a part of his sportsman's activities. He is especially interested in wildlife research and in interpreting new findings for the average sportsman.

He has helped start and counseled many sportsmen's clubs, and is active in fostering the interest of youngsters in conservation and wildlife. He is author of two

nature-study books for children.

Van Coevering was brought up along the shores of Lake Michigan and began taking pictures while still in grade school. Taking color motion pictures is his hobby, and several of his films have been sound-tracked and are much in demand for educational purposes.

Editor Larry Towe of the Charlevoix Courier, a former University of Michigan publicity bureau director, writing in a recent issue of the Michigan Outdoor Writers' Bulletin, declares that he is convinced the fox bounty is badly needed in this state.

While most people believe that Charlevoix is in strictly a resort county, they may be surprised to know that there is much valuable farming and fruit growing areas in that part of the state.

Editor Towe says: "Does Michigan have need for the professional fox and coyote trapper?"

"The record of Arthur Stoel, who lives four miles south of Charlevoix, indicates there may be."

"At the February meeting of the Michigan Outdoor Writers, Harry D. Ruhl presented the Department of Conservation's opinion that the state bounty should cease, that \$200,000 was too high a price to pay for an extra 5,000 fox, especially when cats, owls, skunks and other predators may be equally destructive of game."

"Considering only small game such as pheasants and rabbits, that view may be and possibly is all right for the southern counties. But in the north there is another aspect to the predator situation. Up there farms have large areas of wooded land nearby, and farmers go in for turkey and sheep raising. With them it often is a question of who will eat well—they or the fox."

"And it is this section where the professional trapper serves a real need. Charlevoix is one of the top turkey producing counties of the state—and fox tend to be plentiful. Alcona according to Stoel raises lots of sheep, and coyote, left to themselves, would increase rapidly while the sheep would decrease."

"Every winter, and sometimes during the rest of the year, Stoel gets calls from farmers for help. Usually two or three days are enough for him to clean out the particular bunch of predators who are causing the damage. He keeps the pelts, collects the bounty and usually gets something extra from the farmer."

"Stoel is regarded as the best trapper in this northwest corner of the state. He has trapped over all the upper part of the lower and all the upper peninsulas."

"Poison, he says, is far inferior to traps except in rare instances, besides being dangerous for other wild life. Trapping is nine-tenths attention to details. He forecasts accurately how many he will catch on any setting of traps and usually what animals they will be. Stoel is willing to show just how he makes his sets. But he adds that he likely does a lot of unnoticed little things so automatically that it makes the difference between his success and a lot of empty traps."

"He says frankly that the state bounty is the only thing now which makes trapping profitable. Long furs are out of style and hardly bring enough to make them worth-while."

"All this brings up the question of who should pay the bounty. Stoel's work is not primarily aimed at saving wild life. Rather it is aimed at the same object sought by the Department of Agriculture — more farm income through reduced losses."

"So the question is whether other funds should not be sought to further such work, or whether the northern farmer, who directly benefits, should not pay for his own protection."

How an Ex-Mayor Spends the First Two Days Away From Office

It Got Away. Suppers Ready. A Water Job.

What does an ex-mayor do during the first two or three days he is no longer mayor?

That's the leading question the inquiring reporter asked ex-Mayor Jack Taylor the other day.

Apparently tickled to death to get away from the constant chatter he's heard about this, that and the other thing during the time he was a member of the city commission, he declared that the

first thing he did was to go on a day's fishing trip—and of course the big fish got away.

But there's nothing like a fishing trip to quiet the nerves of a conscientious official who tries to do a good job for the people of the city of which he is mayor.

There's one good thing about fish," said the mayor. "They can't talk."

Calm and refreshed, he returned home, and to get away from making excuses as to why he didn't bring back the big ones, he hiked out to that lot in the country just north of Territorial road where the Taylors are digging a basement for a new house they are going to build this summer.

"I know what I'm going to do—I'm going to dig a well the very first thing. I've heard so much about water for two years that I'm going to have plenty of water, lots of water—water everywhere," declared the ex-Mayor as he stood viewing the hillside.

It became supper time—and there was no ex-Mayor sitting at the head of the table. So wife and son hied out to the Taylor-country-estate-in-the-making to look for the ex-Mayor.

Knowing of his water mania, wife and son went directly to the hole for the well. There they found him digging for water, more water, water, pure water, non-smelling water.

Homeward the family tramped over hills and dales, with the water-seeking ex-Mayor carrying pick and shovel over his shoulders.

"There's a water job at home awaiting you," said wife.

"There's a leak in the plumbing."

Thus endeth the story of the first two days that ex-Mayor Jack Taylor spent as an ex-mayor.

A good age to acquire a puppy is eight weeks. Usually it is better to obtain the dog in the spring because it will make the house-breaking problem a little easier. In fine weather you can keep the little fellow outdoors most of the time.

If you have both a dog and a cat it is well to remember that a medicine that is good for Fido might kill Tabby. This includes ointments and salves as well as liquids or pills taken into the stomach. Better see your veterinarian.

Bishop to Confirm Class of 13 Here

The Rt. Rev. Richard S. Emrich, Ph.D. Bishop of Michigan

Sacred rites of confirmation will be administered at St. John's Episcopal church Wednesday evening, May 12, by the Bishop of Michigan, the Rt. Rev. Richard S. Emrich. He will be assisted by the Rev. Alexander Miller, vicar of St. John's.

Those to be admitted to full membership in the church at that time are: Mrs. Olrich Lycka, the Messers. Clifford McClumpha, Robert Norgren, Robert Wiloughby, Franklin Dudley; and the Misses Patricia Johnson, Carol Jean Henry, Janice Henry, Mary Lou Passmore, Dolly Clark and Maxine Clark.

Services will begin at 8 p.m. and the sermon will be delivered by the bishop. This service, as are all at St. John's church, is open to anyone who cares to attend.

At the time of confirmation the confirmer, having reached "a competent age" and having been "sufficiently instructed", takes upon himself the promises and vows made in his name at the time of his baptism, the Rev. Miller states. It is the assumption of full citizenship in Christ's church, he continued.

The Rt. Rev. Emrich, Bishop of Michigan, was recently installed to that office in a special service in St. Paul's Cathedral in Detroit. Prior to his call to be Suffragan Bishop, assisting Bishop Creighton, who retired March 31, Bishop Emrich had been instructor of moral theology at the Episcopal Theological school—in

Cambridge, Mass. Since his arrival in the diocese he has reportedly gained the wholehearted gratitude and respect of both the clergy and the laity of the Episcopal church in Michigan. A young man, Bishop Emrich is married and has two children. Energetic, sensitive, and capable, he is proving a wonderful leader and person most worthy of his high position, Plymouth's Rev. Miller reports.

Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employees reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15 1/2 cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15 1/2 cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employees have accepted. They have called a strike to get more!

Unions refuse rules discussion

Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.

Greater wage increase not justified
Engineers and firemen are among the highest paid of all employees in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board

after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these recommendations.

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15 1/2 cents per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.

 THE PHOTOGRAPHIC CENTER
 Cameras PHOTOGRAPHIC SUPPLIES FILMS
 PLYMAIL PHOTO

Left to right: C. E. O'Brien, Harold Enterline, Harold Evans, and Lester Wilson.
 What might be termed as mass production in picture printing is achieved by Plymouth's Photographic Center where between 5,000 and 6,000 prints are finished daily.
 This unusually high number includes not only reproductions of images reflected in the lenses of local camera owners, but from those of a comparatively large locale. Undeveloped films are sent from drug stores of Farmington, Northville, South Lyon, Brighton, Howell, Milford, Detroit, and of course Plymouth.
 The co-owners, Harold Enterline and Lester Wilson, operate one of the few concerns of its kind in this vicinity, making it necessary for the area covered to be so inclusive.
 The two have owned the Center since 1945 when they purchased it from the late Fred Stocken. The latter had been in business for 27 years previous.
 Business in the concern is not confined to this sole channel, however. In addition to this, they carry photographic supplies and dark room equipment. Camera repair is performed, and they state they are willing to help anyone they can in the camera lines.
 The Plymouth Mail staff has come in close contact with the firm recently, following the purchase of camera equipment which is making a better coverage of local events possible. Through prompt and efficient service on the part of the Center's staff, extensive use of the pictures is made possible.

Dog Quarantine Affects Plymouth
 The State Veterinarian has at the request of local health authorities placed a dog quarantine on all of Wayne county which is effective until September 1 of this year.
 This was considered necessary because of the number of rabid dogs so far discovered in the county. The Wayne County Health Department has a record of 19 rabid dogs since the first of the year. In support of the quarantine, Dr. David Littlejohn, Director of the Wayne County Health department, released the following statement:
 "The outbreak of rabies appears to have centered in Canton township but is now spreading to other areas. The cooperation of the public and especially of all dog owners is necessary if the disease is to be stopped, dogs protected and human lives safeguarded.
 Already there has been a death of a child from a rabid dog in an adjoining county. We do not want any cases of human rabies to occur in Wayne county. It is also to the interest of all dog lovers and their pets or hunting dogs to have them protected against rabies. We ask the public to give careful consideration to the following:
 1. The vaccination of all dogs against rabies. Any dog owner should do this once each year, not only for the protection of his dog but also to safeguard his family.
 2. The elimination of all stray dogs and those without owners. In many communities in the county, the police officials do not have adequate facilities to accomplish this. The support of the public is needed to bring this about.
 3. The cooperation of all dog owners in promptly securing a license for their dog and making certain that the license plate is on the dog at all times.
 4. The strict observance of the quarantine by all dog owners. This means confining all dogs to the premises of the owner unless the dog is on a leash and in the control of a responsible person.
 These measures will protect not only people but also the dog that is valued by his owner for such dogs, even though closely confined and watched, may be bitten by a stray, rabid dog that gains entrance to the premises."

Reverse Suggested for Washing Painted Walls
 Washing painted walls is a current dread of housewives in the throes of house cleaning. More efficient cleaning is suggested by Emma DuBord, home demonstration agent, who recommends a reverse of the time-worn method of washing from the top down. Her advice is to start washing from the bottom and work up. Reason for this is that when you wash from the top, streams of the washing solution run down over the dirty wall and make streaks which are almost impossible to remove. Streaks can be prevented by washing walls from the bottom up towards the top. Water which runs down over the clean surface can be removed easily without danger of leaving permanent streaks. Wash side walls first and then the ceiling. For a good washing solution use 1 tablespoon of tri-sodium phosphate and 1 tablespoon of linseed oil soap to 1 gallon of warm water. The phosphate and soap are available at any drug store and the solution is effective and inexpensive. Rinse the walls thoroughly with warm water. Old terry cloth towels make excellent washing cloths. They are very absorbent and the rough texture acts like a soft brush to help remove the dirt. It's a good idea to try washing a small area of the wall in a place that doesn't show to make certain that the paint is washable. Be sure to place step ladders so that they are steady and there will be no danger of falling.

We can hardly believe our Engine Ears

Illustrated is the Buick Super with 115 hp. Hi-Poised Fireball straight-eight. White sidewall tires, as shown, available at extra cost.

WE don't mind admitting we've been pretty proud of our big Fireball straight-eight engine. A lot of brain-sweat went into making it lively — and as for smoothness, we don't know of any power plant that gets the loving care lavished on this Micropoised* beauty.
 So we thought we knew the song and the feel of an engine as smooth as automobile engines could be.
 Then — well, then our engineers came up with Hi-Poised mountings and really opened our eyes — and ears.
 At idling speed, you have to shush all conversation and cock an alert ear to make sure the engine's running.
 Rolling along the road, the whisper of your tires rises higher than this smoothie's contented murmur.
 More, than that, you find that the whole ride seems smoother, quieter, more restful and easy in these tidy '48 Buicks.
 You soon discover that it's unnecessary to ease yourself over rough spots where ordinarily you would engage in a little extra clutch work, while many a little shudder that used to pass for clutch chatter has been wiped away.
 In short, as one owner has put it, "Now it seems that Fireball power is wearing velvet gloves!"
 Add all this to other things — to steady-going size and weight, to gentle coil springing, to big, cushiony low-pressure tires on the widest rims in the industry — and you've got something too good to miss.
 So we suggest — get your hands on a '48 Buick, any '48 Buick, and see just what we mean.
 You'll meet a ride story so sweetly convincing, you'll want to get an order in — but quick! And you can do that, you know, with or without a car to trade.

BUICK alone has all these features
 * DYNAFLOW DRIVE (Optional, Roadmaster Series)
 * TAPER-THRU STYLING (Super and Roadmaster)
 * RIGID TORQUE-TUBE * ROAD-RITE BALANCE
 * DUOMATIC SPARK ADVANCE * SAFETY-RIDE RIMS
 * QUADRU-LEX COIL SPRING * VIBRA-SHIELDED RIDE
 * FLEX-FIT OIL RINGS * HI-POISED FIREBALL POWER

BABSON

Babson More Optimistic
Babson Park, Mass., May 7. I have today returned from a trip throughout the great Central West—the "Magic Circle" of America. During the winter in Florida, I was rather blue due to the waste and indifference that I saw there. On Saint Patrick's Day, however, I heard a message of courage and decision broadcast to the world by our Chief Executive and Commander-in-Chief of our armed forces. If this has aroused the U.S.A. to new purpose and productivity as it aroused me, good times for the next few years are "possible".—Provided: We can match our new-found faith with a proportionate output of goodwill,—and goods!

Good Times "Possible"
Readers of this column will recall that repeatedly I have stressed, if production fails to keep pace with demand, all of us could be caught up in a tornado of inflation—the vicious "boom-and-bust" spiral. Furthermore, the threat of communism and other storm-clouds had also darkened our outlook for the nearby nineteen-fifties. Therefore, I had been distressed for sometime by the "take-it-easy" attitude of our people.

My trip of the past few weeks has changed my attitude and strengthened my faith. I found that President Truman—with that speech—pepped up the entire nation. I found farmers, ranchers, merchants, manufacturers and even hard-boiled bankers in a new and better mood. They—like myself—are more hopeful than for two years.

Need of More Capital
I am heartily in accord with the growing conviction that a great demand of the period next ahead will be a universal desire and need for capital. Not even the impenetrable Iron Curtain can conceal the fact that Russians, Americans and all other divisions of the globe are subject to the same Iron Law! Namely: People cannot keep on forever consuming and/or exporting more than they produce. It is the old axiom of "Root, hog, or die". It matters little in what part of the world

you set the pig trough. Yet capital cannot be manufactured by your local banker. It must be saved by you and me.

Hence, in this old-new world of ours today, we have the ironic situation that the UNITED STATES, the UNITED Kingdom and the U.S.S.R., tomorrow will be united in their common need for capital. How on earth is humanity—whether East or West—to get this capital, this life-blood of the world's economic future? Only by all of us producing more than we consume, and allowing the surplus to accumulate. Everyone in business these days is in the same boat, eager to get more capital, in one form or another. It is the common story, from wholesaler to retailer, from Maine to California; from Moscow U.S.S.R. to Washington, D.C.

Who Among Us Are "Producers"
Another thing: We must accept the economic truth that in a period of prosperity people will not be content with a mere "something to eat". Alert and informed families will ask more about the nutritional values of the soils where their goods are grown. Hence, I predict that housewives of the "fifties" will become students of the principle that good foods originate in good soils. The agriculture of the fifties will tend toward a combine of engineering and organic chemistry. Then there are hundreds of important new inventions ready to come on the market.

The day is dawning when we shall classify as "producers" not only farmers, manufacturers and miners,—but all who apply integrity and ability to the betterment of the country. "Producers" are those who unite to produce superior goods and/or services at efficient costs. They, with the help of the teachers and preachers are the hope of America.

Price of Prosperity? Product.
Yes, I now feel that more good years are possible, but like so many other good things, they are to be had only if we are willing to pay the price. Looking forward to the potential prosperity of the nineteen-fifties, the price-tag is marked in bold letters for all to read. It says: We all must produce more and save more. Here, then is the neighborly advice which I am giving,—and trying to take myself.

Do not look backward upon things—as they were, however precious the memories, nor struggle to keep things-as-they-are. Rather, let's all unite to create new highs in living standards, including standards both material and spiritual. Work and faith are the first and final securities. If we put those first things first, the nineteen-fifties can be good to us all and we can forget "boom and bust" for awhile at least.

25 YEARS AGO
FROM THE PLYMOUTH MAIL FILES

Last Sunday evening, while Mr. and Mrs. Jesse Hake were away from home, thieves entered the house and ransacked it from top to bottom. Bureau drawers were pulled open and the contents scattered about the floor. The thieves took all of Mr. Hake's clothes that were in the house, and forty dollars in money and a gold watch were also stolen.

The first step toward commuter train service for Detroiters is in prospect, it developed today, with the announcement by Frank H. Alfred, president of the Pere Marquette Railway, that that road will cooperate with the developers of 3,000 acres of land along the right of way between Detroit and Plymouth. It is said the trains to serve the district probably will be gasoline driven four coach trains.

"The Charm School," the graduation play, is to be presented next Thursday evening, May 10, in the high school auditorium. The cast is as follows: Olivias Williams, Donald Sutherland, Herbert Miller, Jack Taylor, William Staman, Elbert Seger, Gladys Schrader, Avis Blackmore, Wilma Briggs, Dorothy Hinshaw, Genevieve Butler, Fannie Grainger, Carol Pierce.

This (Friday) evening, May 4, Miss Ruth Huston is at Albion college, attending the annual banquet of Delta Sigma Rho, as the guest of Lyman Judson.

Mrs. Nellie Bird of Plymouth, was a recent guest of her sister, Mrs. Cora Gale.

Monday, men began graveling Sutton road from Penniman avenue, extending west to the county line.

Mr. and Mrs. Frank Terry and family of Rochester, and Hugh Archer and wife of Pontiac, spent Sunday at the home of the former's sister, Mrs. Wilber Gould on Mill street.

Plymouth Lodge, No. 238, Knights of Pythias, will take several candidates to Ypsilanti, Monday, where they will receive the Rank of Page.

Harry Terry has disposed of his barber shop here, and accepted a position in Pontiac.

Mr. and Mrs. Henry Steinmetz were Sunday guests of their niece, Mrs. R. A. Durfee in Ann Arbor.

Mr. and Mrs. Ezra Rotnour visited relatives in Milford, Sunday.

Manager Strong and his force of men have completed the work of setting out the shrubbery in Kellogg park, and the work has been very well done indeed, and in a short time is going to make an improvement that will attract the attention of every passer by. Mrs. E. C. Lauffer and Miss Verne Rowley generously contributed some fine shrubs for the park, that will add greatly to its beauty.

The Kiwanis club of Ypsilanti entered over 200 rural school teachers at a dinner at the country club, Tuesday, April 24. Miss Alta Fisher, teacher of the Dixboro school, was one of the speakers on the program.

Miss Marion Beyer spent the weekend with friends at Walled Lake.

Mr. and Mrs. Edward Egloff and sons and Mrs. John Higgins attended the wedding of their niece, Miss Bernice Johnson, Wednesday evening of last week, in Detroit.

Mr. and Mrs. T. P. Stowe and daughters, Marion and Genevieve, of Ann Arbor, and Miss Grace Stowe of Detroit were Sunday guests of Mr. and Mrs. George A. Smith on Union street.

Chief Executives Laud Friendships

Pointing out to the world that the United States and Canada have lived as peaceful neighbors for more than 150 years, President Truman and Prime Minister King jointly declared that the unfortified boundary between the two countries serves as an outstanding example of international good will.

The two chief executives, in letters to Dr. Charles W. Armstrong, president of Kiwanis International, lauded the friendship of their countries as Kiwanis clubs in nearly 3,000 communities observed United States-Canada Good Will Week from April 25 to May 2.

President Truman said that "Americans and Canadians are proud, not of the fact that they have never had a difference, but that their friendship has survived differences and has remained strong." He expressed the opinion that observances such as United States-Canada Good Will Week have greater significance today than ever before.

Citing the "long-standing and increasingly close friendship between Canada and the United States," Prime Minister King declared "it is an example of international good will which, in these days, should afford the highest possible inspiration to all nations of the world which seek peace by negotiation and conciliation."

Dr. Armstrong said that Kiwanis in the United States and Canada observed the week "as a period for strengthening the ties that bind our two countries." Kiwanis clubs across the border exchanged speakers and messages of good will, he added.
