## NO BLA-BLA OVER IN WAYNE.

Plymouth's progressive little neighbor over to the southeast of us, not so long ago decided that something must be done in the immediate future to provide off-street parking for the thousands of people who do business in Wayne.

The Wayne Dispatch in its last issue states that the new parking area will be one of the largest in the state and the estimated cost of \$70,000 will be financed on a special assessment basis.

As a result of this action Wayne will soon have a parking lot that will accommodate some 600 or 700 automobiles.

Some other cities have in the last year or so constructed off-street parking areas, using parking meter money to pay for the improvements.

While the city of Plymouth has given out no figures recently pertaining to the income from our parking meters, the revenue must be of a considerable amount and should run into, not several, but many thousands of dollars each year.

Why should not Plymouth use this parking meter money to provide additional parking facilities—and why shouldn't meters be installed in the municipal parking lot that the city created back of the Main street and Penniman avenue stores to help pay for badly needed new parking areas?

Every one was surprised at the matter-of-fact way visitors to the city accepted the parking meters when they were installed. The predictions of those who said that the parking meters would cause people to go to nearby communities to trade proved to be quite in error. In fact it has been demonstrated that parking meters have brought about increased trade, as people can now find parking spaces available when some two years ago cars stood in one spot from early morning until late at night—thereby occupying parking space that is now available to shoppers.

We congratulate Wayne upon its progressive action. It will be of far greater value to that growing community than its officials dare anticipate.

## BRIGHTER SKIES.

It is quite amazing to note the change that has taken place in public sentiment since the Republican national convention was held. There seems to be a new hope, a feeling of greater security, a confidence in the future that has not prevailed in more than 16 years.

The United States News points out that Governor Dewey when he becomes president can be expected to do most things that the public believes necessary to make this country even a better place in which to live than it is at present—and today it's the best place in the whole world in which to live.

The United States News says in a question and answer editorial that the public can expect these things under the new administration:

More social security? Dewey will favor it. Housing subsidy? He'll be in favor of it. Public power? He believes in it for the West.

Pump priming? It will be favored if deflation should set in.

Higher interest rates? Probably not to any marked degree.

Planning? No. Dewey isn't an economic-planning advocate. How about controls? They will not be revived. No price control. No rationing.

Anti-trust enforcement? Yes. It will go on with more or less zeal.

War under Dewey? It's improbable, as it is under Truman.

War before Dewey, over Berlin? Improbable. U. S. is backing a new setup in Western Germany; is not likely to fight to stay in a part of Germany that is going pretty much to Russia. Germany is being divided.

Peace, then? No. Peace of a real sort doesn't seem near either.

It's to be neither war nor real peace, just more instability. Maybe at some point Russia will tire of the game and will be ready to talk peace.

Then, too, the platform adopted by the Republican convention is one that will meet the approval of the general public, and if carried out, will bring about a solution to most of the important problems now facing our country. Surely there are better days ahead—and we do know, too, that there's plenty of trouble in store for the New Deal plunder-bands.

## Eye Test Device Demonstrated

Kiwanis club Child Welfare committeemen are shown with the eye test device they recently obtained for students of Plymouth schools. They are, left to right, seated: Albert Glassford, Ray Williams, committee chairman. Standing, representative of the Keystone Television company, R. W. MacLaughlin, Elmer Austin, Dr. A. E. Van Ornum, Louis Schmidt, James Gallimore, Kiwanis President Robyn Merriam.

Members serving on the Kiwanis club's Child Welfare committee staged a demonstration of their current project before the entire organization at last week's Tuesday meeting.

At that time the workings of an eye testing device were shown by the manufacturing representative, R. W. MacLaughlin of the Grand Rapids Keystone Television company. The committee, on behalf of the entire Kiwanis club, purchased the mechanism for use by Plymouth schools.

MacLaughlin explained the

(Continued on page 6)

## Ken and Ork's Install Air Conditioning Unit

The first air conditioned restaurant in Plymouth is Ken and Ork's, where a new unit was recently installed.

Ken Groth, owner, stated that it is a Chrysler Airtemp mechanism, devised to circulate cool air during the summer months and warm air during the winter. It was purchased from Harold E. Stevens, distributor, and is now in operation.

## Frostguard Makes Early Tomato Crop Possible

John Grimes, left, shows a sample of his early tomato crop to R. B. Evans, Jr., right.

John Grimes, Plymouth farmer of 42201 Schoolcraft road, expects his tomato crop to be ready for picking about July 20, two weeks ahead of the usual season.

Not only will he have an early crop, but he hopes to plant tomatoes on August 1 and August 15, in an attempt to carry the harvest crop into November.

Mr. Grimes may have a green thumb, but that isn't the reason he dares deviate so far from the usual planting procedure. Rather, these unusual farming methods are made possible by use of a mechanism called the Frostguard which protects plants from drops in temperature by infra red rays.

The units are manufactured by Evans Products company, which is located adjacent to the experimental tomato fields. The company is working with Mr. Grimes in his current experiments.

Two Frostguards have been installed on Mr. Grimes' field, since over an acre is involved and each mechanism protects only that radius, Mr. Grimes explains that he did his planting May 11, between nine to 14 days ahead of season! Although two or three frosts followed the planting, not one of the tomatoes was damaged. Those plants out of the range of the Frostguard, however, were killed at the first drop in temperature.

Evans Products company officials have been watching with interest this and further experi-

## Sheriff Warns of Imposters in Area

A warning has been issued to residents of Plymouth township by Sheriff Edward Behrendt, asking them not to pay money to two men who are posing as agents of the Milford Sanitation service and offering to clean septic tanks for \$30 each.

Word was received about the activities of these men from Mrs. Carl Blach, 40870 Joy road, who called the sheriff's road patrol saying that she paid money to the imposters who professed to be affiliated with the concern. Ten minutes later they drove away in the truck that served as part of their ruse.

When notified by the authorities, the company officials stated that they had no employees answering the description given by Mrs. Blach.

## Northville Editor Dies Saturday

The death of William H. Cansfield, editor and publisher of the Northville Record, has both shocked and grieved residents of not only Northville, but Plymouth and the entire surrounding area.

Mr. Cansfield died early Saturday morning, July 3, at the age of 55, following an illness of approximately one month. Funeral services were held Monday at the Casterline Funeral Home, and he was taken to Howell, his former home, for burial.

During the nine years Mr. Cansfield held the editor-publisher position on the Northville newspaper, he extended untold service to the entire community. He was at one time president of the Northville school board, a trustee of the Methodist church, member of the Northville Rotary and Exchange club, Knight Templar and Masonic organizations.

## New Taxi Cab Stand Locates in Plymouth

A second cab stand is now located in Plymouth, owned by Bernard Carroll.

It is situated at the corner of Ann Arbor trail and Main street, adjacent to the park. Mr. Carroll has two cabs in operation here, in addition to one located in Livonia. He invites Plymouth residents to patronize his service.

ments carried on throughout the country with the Frostguard; experiments which bear out their contention that it is a big step forward in the field of agriculture. It not only gives the farmer greater crop insurance, but allows him to forward his planting dates and extend the harvesting.

The Frostguard was developed by Michigan State college specialists, and Evans engineers are continuing to work with the school in the refining process.

Although not the first such mechanism to be developed it is

(Continued on page 6)

## Chief Runs Into Trouble and Car

When some unknown motorist nicks another, it isn't unusual. When the chief of police has a slight collision with another car, however, that is news.

This was enacted in Plymouth last week, with Police Chief Lee Sackett taking the leading role. It made his second accident since he has been with the department, both of them minor.

Seeing a motorist run a red light, the chief, in line with duty, took out after him. Before the race had barely gotten started, he came to the next intersection where a red light was blazing away. Continuing his pursuit however, he attempted to run it, but someone else had gotten there first. While trying to pass, Chief Sackett made a beautiful nick in the car driven by Arnold Barnes, employed in the Kroger store.

What happened to the driver he was chasing? He got away, as Chief Sackett was forced to discontinue the chase. The latter reports that the car carried an out of town license.

## One Way Traffic Will Be Tried In City Parking Lot

One way traffic will be enforced in the alleys entering and leaving Plymouth's municipal parking lot in the downtown area for a 30 day trial period beginning July 27.

The decision for such action was taken by the city commissioners Tuesday evening, to alleviate present congested conditions. While trucks are unloading, it was pointed out, it is impossible for cars traveling in opposite directions to pass.

Under the new plan, entrance will be made by the alley located on Ann Arbor trail, and cars will leave from the Harvey street alley. The date of the trial enforcement is being postponed until delivery of the proper signs can be made.

Plymouth's police department will keep close watch on the new setup to check any bottlenecks that may occur.

## Ordination Will be Held Tomorrow

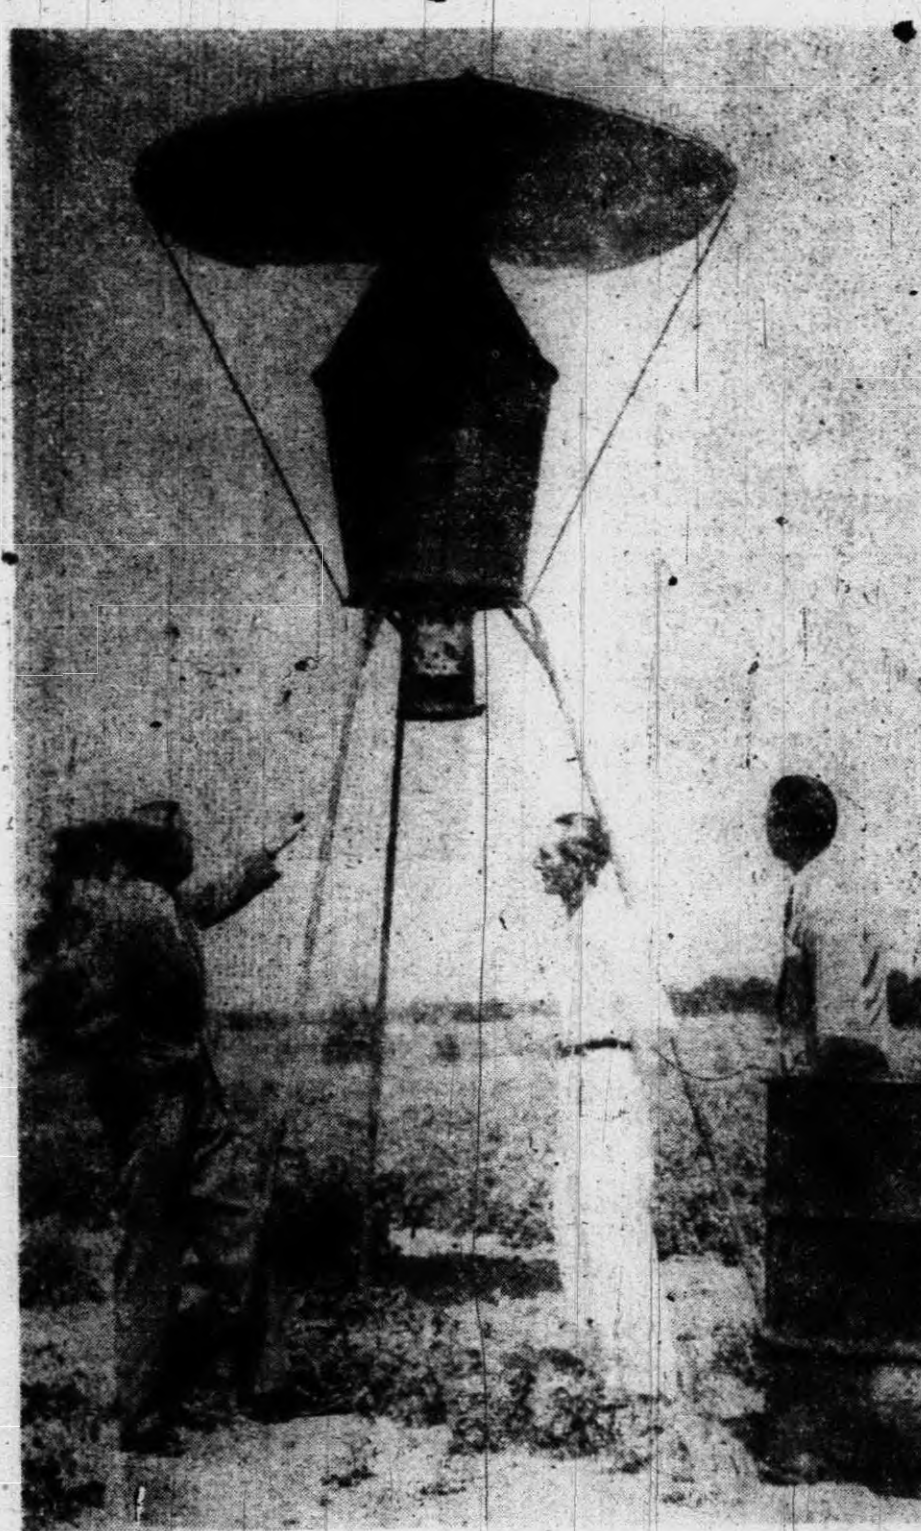

Ordination of the Rev. Alexander Miller to the Order of Priests will take place tomorrow morning at 10:30 during a special service in St. John's Episcopal church.

The Rt. Rev. Richard S. Emrich, S. T. D., Bishop of the diocese of Michigan, will ordain the Rev. Miller, rector of St. John's.

During the service the Rev. Henry Lewis from St. Andrew's church in Ann Arbor will present Mr. Miller for ordination, and will also preach the sermon. The Rev. Richard T. S. Brown of St. Augustine's Mission in Detroit will conduct the Litany, and the Rev. Hugh White of St. Luke's church in Ypsilanti will read the epistle.

Mr. Miller was ordained to the Diaconate on January 8 of this

(Continued on page 6)

R. B. Evans, Jr., left, vice president of Evans Products company, discusses the functioning of the Frostguard with John Grimes, center, Plymouth farmer who is using the mechanism on his tomato field, and Robert Gass, right, Evans sales promotion manager.

## Frank Arquillo Buys Plymouth Bus Line; Promises New Coaches

Purchase of the Plymouth Coach company by Frank Arquillo of Detroit was disclosed in a special announcement yesterday.

Mr. Arquillo, owner of the Deluxe Motor Stages, a bus line routed from Detroit to Chicago, located at 1505 Cass avenue, made the purchase from Floyd Bradford who has owned the concern for one year.

The bus service will be known in the future as the Deluxe Motor Stage, Plymouth Coach division, and will be under the management of Vern Emmett. Mr. Arquillo states, Both men have 30 years experience in the bus business.

New coaches will be purchased immediately as the first step in an improvement in the service.

## Eaton to Run for House Re-election

Representative Elton R. Eaton has announced that he will run as a candidate for re-election to the state legislature in the fall election.

Petitions are now in circulation, and will be filed next week.

During the past year he has served as general chairman of the House tax committee, opposing, on the whole, all forms of additional taxation.

## Area Has Safe Fourth Weekend

Plymouth was quieter during the July Fourth weekend than the police department had hoped.

No reports of accidents or injuries were received, the department discloses, as well as no disturbances.

Sheriff Edward Behrendt, of the county road patrol, described a safe weekend for the out-county area as a whole, with no fatal accidents occurring as a result of the heavy traffic. The traffic, he pointed out, was the heaviest ever known to congest the highways of the out-county area.

(Continued on page 6)

## Daisy Drafts \$250,000 Expansion Program

Plans for an expansion program, estimated to cost a minimum of \$250,000 and expected to be inaugurated at Daisy Manufacturing company next week, have been described by Cass S. Hough, vice president-secretary.

The project will include a 15,000 square foot BB shot building and a 10,000 square foot warehouse for finished goods. A sum of \$100,000 has been earmarked for the building program with the remaining \$150,000 allotted for the relocation of present equipment and for additional machinery throughout both the new and present plants.

Location of the BB shot building will be southeast of the present plant and adjacent to the PM track siding. The warehouse will be attached to this structure.

Expansion is being undertaken at the present time, Mr. Hough announces, to allow for an increase in production. The BB shot output will be increased approximately 40 percent, and the manufacturing of guns about 25 percent. At the present time 5,000 guns a day are turned out, and a total of 20,000,000 BB's. Officials hope that completion of the first phase and the beginning of production can be reached by October 1.

Both units will be prefabricated, Mr. Hough explained. He remarked that the original warehouse to be replaced was one of the first prefabricated structures to be installed in this vicinity. It was erected at the conclusion of the first World War in 1918, designed as a temporary affair. Although new expansion plans call for the razing of the warehouse, it will be reassembled east of the present plant for use as an auxiliary warehouse.

Both the new structures will be of Stran-Steel construction, made specifically for factory use. New equipment will include presses, spot welders and automatic drilling and tapping machines. Mr. Hough enumerated. Conveyors will be installed, he continued, to carry the packaged shot into the warehouse, and a spiral conveyor extending from the present plant to the warehouse. The BB shot packaging process will undergo a drastic change also, becoming completely mechanized.

This expansion, contemplated for several years, is occasioned by an increasing demand for the company's products. However, local tax trends, and the rapid westward movement of the city of Detroit have postponed the decision to go ahead until now. The new buildings are of a type that can be taken down and moved easily if the company should later decide to remove its operations to another locality.

Birth statistics indicate that there are now approximately 15 percent more boys in the "BB Gun" age group than there were pre-war. Indications are that this rate will continue to increase, perhaps another 10 percent within the next five or six years—providing a healthy market for Daisy products.

## Measles, Mumps Subside in City

Epidemics of measles and mumps have practically subsided in Plymouth; Dr. Harold Brisbois, health officer, announced this week.

He described cases of measles as only "occasional," and mumps cases as "rare."

Although no incidents of rabies have been reported in the city, the health officer continued, precaution should be taken against an outbreak. All dogs should be vaccinated against rabies, and stray pets should be left alone, he emphasized.

## County's Oldest Living Buick Dealer

Carl Shear, who holds the distinction of owning a Buick dealership longer than any living man in Wayne county, is pictured with one of the newest Buicks.

No other living person in Wayne county can equal Carl Shear's total of years as a car dealer. His Buick agency in Plymouth dates back to November of 1920.

While explaining how he got started in this line, Mr. Shear disclosed that he was first told of the availability of the local concern by John Coy. Their acquaintance dated back to Mr. Shear's youth when Coy was a salesman who frequently called on his father at their farm im-

plement store in Beech.

William and Roy Shaw incorporated with Mr. Shear in February of 1921 as the Plymouth Buick Sales company. Within a short time, however, the two sold out, making Shear the exclusive owner.

Describing the business conditions of those first years, he related that competition at that time was supplied by Frank Rambo who headed the Dort dealership, William Beyer who sold Ford cars, and Fred Schrader, Studebaker dealer. That first year in the business, however, Mr. Shear sold 45 cars, with his books showing a total of \$60,000 worth of business. Today, he remarked, the same number of cars would come to a total of \$100,000.

Cars were easy to sell in those first days, Mr. Shear assures, as they were just coming into style and everyone was a prospect.

Now, he states, he receives a total of approximately ten cars a month but could deliver 50 if he had them.

During the first years of the dealership Mr. Shear was the only Buick dealer in 11 townships. The same territory is now covered by five. Those covered were Green-

## Collins Saves Six From Drowning

Fourth of July fatalities for Michigan might have been six higher, had it not been for alert, quick thinking on the part of Alvin "Rip" Collins of Plymouth.

The lives of three children, two men, and a woman, were saved by Mr. Collins Sunday afternoon, when their row boat filled with water and sank in Strawberry lake, one of a chain of lakes just east of Plymouth.

While out on the lake with a party of 15 in his 26 foot cabin cruiser, Collins noticed the passengers of the small boat were having trouble. Water was filling the craft from the front end. When the boat began to sink, Mr.

(Continued on page 6)

## Sign Establishes Dunning Library

A decorative iron grill-work sign bearing the words "Dunning Library" was placed outside of the public library of Plymouth last week.

In the main hall of the building a bronze plaque was affixed to the wall commemorating the gift of the building to the city by Margaret and Bessie Dunning. The building was presented by them to the city in February, 1947, for use as a library.

New Seats Installed in Commission Chamber

Cushioned comfort awaits future audiences in the city commission chamber of the city hall. Seats, formerly used in the Penniman Allen theater, were

purchased by the city during the theater's recent redecoration. They are now installed in the commissioner's meeting room.

Brake Takes Top M.E.A. Position

Outstanding Michigan educator, Charles E. Brake of Plymouth, took office as president of the Michigan Education association last week, succeeding Miss Mary Ellen Lewis of Ann Arbor.

Mr. Brake is affiliated with the Wayne County school system as deputy superintendent.

In a statement made on assuming office, Mr. Brake emphasized the need of more and better school buildings in Michigan. He charged that persons who give mere lip service to public school education are really challenging the right of all the children to equal educational opportunities.

Thousands of Michigan children, said Mr. Brake, are attending school in buildings that are outmoded, crumbling, unsanitary and unsafe, and thousands of other pupils, right here in Michigan, are being deprived of a full day's education because of the shortage of proper accommodations. He said some pupils in the state, though they have attended school for years, have never known what it is to be on a full-day educational schedule. They have been on a half-day schedule for years because the schools they go to are overcrowded. Some pupils have had nine years of elementary schooling without once getting off the half-day schedule. Under the half-day schedule, said Mr. Brake, no pupil is getting a square deal.

Equal opportunity for all children will not be a reality in Michigan, he said, until the state's shortage of school buildings has been remedied, unsanitary and unsafe buildings repaired, and enough room provided so that every boy and girl can have a full-day schedule.

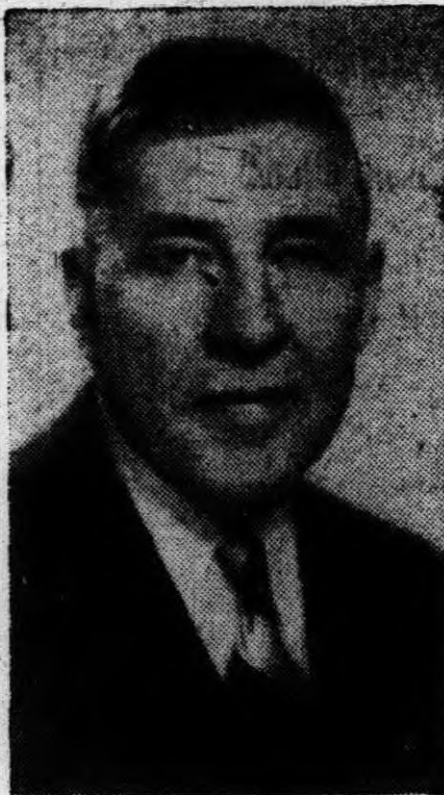

"The passive enemies of our public school system," said Mr. Brake, "are those citizens who are not taking the energetic, active part in the movement to provide, as soon as possible, suitable and adequate school buildings and equipment throughout the state."

"Some citizens," he said, "try to soothe their troubled consciences by recalling the story of Mark Hopkins and the student in deep concentration on opposite ends of a log. In all sincerity," said the new president of the M.E.A., "Mark Hopkins might have done better if he had had that log and a lot of others cut up into lumber for new school buildings instead of using that one log as a reserved seat for one pupil."

Mr. Brake has been deputy superintendent of Wayne County schools since 1935. He is a native of Michigan. His birthplace is Paris township, Kent county. He is the son of a blacksmith, and got his elementary education in a one-room school in Paris township. Later, he was graduated from South Grand Rapids High school.

At Kalamazoo college he earned the degree of Bachelor of Arts magna cum laude. He was a college debater and orator. In 1930 he became a Master of Arts at the University of Michigan. He has practically completed his academic work for the degree of Doctor of Education at Wayne university.

Mr. Brake began his career in school in Paris township for one year; he then taught for three years in Summit township, Mason county. Then he taught two years in the Hudson school, Detroit

Charles E. Brake

Y.M.C.A. from which he was called to the principalship of Mt. Pleasant High school. After two years he became superintendent of schools in Grosse Ile; there he served 11 years before becoming deputy superintendent of Wayne County schools.

Mr. Brake was president of the Michigan Rural Teachers Association from 1943 to 1945, president of the Detroit Schoolmasters club (1944-45), vice president of the Michigan Schoolmasters club (1937-39), president of the Plymouth Rotary club (1946-47), president of the Wayne County Child Guidance clinic (1947-48), he was the chairman of Region One of the Michigan Education association in 1942, and during the past year has been vice-president of the M.E.A. He is a member of the American and Michigan Association of School Administrators, and the National Education association.

He is chairman of the State Department of Public Instruction's committee on school buildings, which he has headed for two years chairman of the State Department of Public Instruction's committee on special education.

From 1939 to this year he was president of the Out-County (Wayne) chapter of the Michigan Society for Crippled Children. From 1945 to 1946 he was president of Zeta Field chapter of Phi Delta Kappa. He saw military service in World War I, and is a member of the American Legion. He is chairman of the American Legion committee on the evaluation of textbooks, and for two years has been chairman of Plymouth recreation commission. He is the author of short articles in the Michigan Education Journal, in Public Health Nursing, and other publications. He is married, and has two children, Betty Jane, 23 years old, and Jon Michael, 12.

In colonial days a small hand mirror was used by bashful swains to help them propose. The young man would place the mirror face up on a table before the girl of his choice. The young lady would answer yes by smiling at his image in the mirror. If the answer were "no," she would turn the mirror.

Picnic Concludes Hi-12'ers Season

Hi-12'ers concluded their fiscal year with a picnic at Riverside park Wednesday evening, June 30, which attracted close to 200 members and their guests. Edwin Schrader, president, discloses that the next meet will be held in September.

Numerous races and contests were held during the evening, with awards presented to the winning contestants. Contests and winners were as follows: three legged race, boys 16 years of age; Jimmy Tomlinson, Evert Smith; three legged race for girls 16 years of age; Bonny Wickens; Barbara Goodale took first, and Virginia Gerst and Joyce Smith came in/second.

Twenty five yard dash for boys aged five and six; Ronald Hubbs, Greg Robinson; 25 yard dash for girls aged five and six; Judy Campbell, Gale Coldan; 25 yard dash boys aged seven and eight; Billy Fallin, Jerry Campbell; 25 yard dash, girls aged seven and eight; Jean McCreadie, Marlene Bassett.

Fifty yard dash for girls aged nine and ten; Jeanett Wickens, Beverly Kratt; 50 yard dash for boys aged nine and ten; Robert Laible, Loren Goodale; candy scramble, Ronnie Hubbs, Lucy Smith; penny scramble, Jackie Kratt, Linda Gerst, Sandy Morrison; 75 yard dash for boys aged 16; Jimmy Tomlinson, Evert Smith; 75 yard dash for girls aged 16; Barbara Goodale, Dorothy Curtis; 75 yard dash for boys 14 and 15; Richard Huebler and Robert Arlen.

Seventy five yard dash for girls aged 14 and 15; Joyce Smith; 50 yard dash for boys aged 11 and 13; Billy Fallin, John Campbell; 50 yard dash for girls aged 11 and 13; Mary Sparks, Susan Burris; men's three legged race, John Schroeder, Fred Wilson. The award for the oldest couple present went to Mr. and Mrs. E. J. Allison and the youngest couple award went to Mr. and Mrs. Richard Daniels. Other prizes were won by E. J. Allison, Jane Thrasher, Joyce Smith, Mrs. Charles Huebler, John Campbell, E. Wickens, Barbara Schmidt, Milton Laible, Pauline Peck, Bruce Deyo, Fay Grimm, T. Kay Buzzard, Robert Bachelder, Mildred Johnson Mrs. William Michaels, B. Grimes, T. Schmidt, D. Schroeder, L. Brocklehurst, Wesley Thompson, Alice Rensel, and C. V. Sparks.

OBITUARIES

William John Henning, Jr., William John Henning, Jr., the four year old son of Mr. and Mrs. William J. Henning who resided at 15533 Portis drive, passed away Tuesday morning, July 6, after a short illness. Besides his parents he is survived by his brother, Delbert Patrick and his sister, Lucille Faith, his grandparents Mr. and Mrs. D. V. White of Belleville and Mr. and Mrs. George Henning of Plymouth; other relatives and a host of friends. William was brought to the Schrader Funeral Home, from which place funeral services will be held this Friday, July 9, at 10 a. m. with Father William P. Mooney officiating. The pallbearers will be Gilbert White, Jerry White, Jimmy Downey and Carl Russ. Interment will be made in Oakland Hills Memorial Gardens, Novi.

Alana Lynn Ross, infant daughter of Mr. and Mrs. Wilbur Ross of 200 South Mill street, passed away Monday, July 5. Besides her parents she is survived by her grandparents, Mr. and Mrs. Arthur Waldecker and Mr. Frank Tonray, all of Plymouth. The infant was brought to the Schrader Funeral Home and later taken to Rural Hill cemetery, Northville, where interment was made Tuesday, July 6.

Never leave a campfire until it is completely out. Michigan State college foresters advise putting the fire out by stirring the coals while soaking them with water. Then wet the ground around the fire. If you can't get water, stir in moist earth and tread it down until it is packed tight over and around the fire.

Certified seed gives a firm foundation for good crop production.

**A FEELING TO REMEMBER**, is that strange feeling of surging down the highway in this sporty 1946 Mercury tudor. Undoubtedly you recall many moments of longing touched, perhaps, by a bit of envy as you have observed a young fellow enjoying the luxuries of motoring pleasure. Undoubtedly you recall that at the time you wished you could do the same. Well you can! you can! Joe Stadnik offers you an exceptional value in '46 Mercury. An exceptional feature of this car is that it can be mistaken for brand new, such is its remarkable cleanliness of interior and exterior appointments. You will find hidden surprises that come with high power and high speed performance. This is to say the least, the last work in perfection. A high Fidelity multi-tone radio that gives you that sweetest music at your finger tip command, windshield washers offer you that x-tra ounce of protection and convenience combined with diamond luster chrome wheel rims that makes an ideal setting for perfection. Easiest terms in town, of course. Joe Stadnik 203 So. Main. 1tp

**IT IS SUMMER, GENTLEMEN!** Summer is the most thrilling season of the year and you can only enjoy the glorious pleasures found only in the summertime by owning a dependable, comfortable and beautiful automobile. Avail yourself of this unusual opportunity to own this lovely 1946 Ford sedan. Soft pearl gray finish highlighted in superb elegance by gleaming twin fog lights, a dual electronic controlled high fidelity radio, interior appointments include soft tone custom made seat covers that defy detection from new. Dual summer controlled air conditioned gas heat provides comfort on chilly evenings. High wheel chrome and white wheel rims touch off the complete appointments of this perfect, harmonious picture of motoring at its finest. Don't just wish about that drive through the glorious and stimulating countryside, fit it into your budget now and enjoy the mysteries of nature. Joe Stadnik 203 So. Main. 1tp

**Eye Test Device Demonstrated**

(Continued from page 1) necessity of eye care for school children, by stating that as high as 85 per cent of what the child

learns in school is taken in by the eyes. Between 25 and 30 per cent of the children, he continued, have reading difficulties. The purpose of the new mechanism is to test the eyes for defects, and is not diagnostic in nature, MacLaughlin emphasized. It will indicate color blindness and test depth perception and visual acuity. In any case where the device reveals a defect, the student will be referred for a professional examination. Testing will take between three and three and a half minutes per student, the demonstrator reported, and should be given to each student annually for best results.

**County's Oldest Living Buick Dealer**

(Continued from page 1) field, Redford, Livonia, part of Southfield, Canton, Salem, Superior, Farmington, Northville, Plymouth, and Nankin. In addition to being known as the oldest car dealer in the county, Mr. Shear is known locally as extremely active in civic affairs. He spent eight years on the city commission, two in the capacity of mayor and another four as supervisor. During the war he was chairman for the area gas rationing board, and has been a director of the Hotel Mayflower since its inception, and secretary and treasurer for a total of 15 years. Organizations to which he belongs include the Masons and Rotary club.

When questioned about the current supply and demand of automobiles, Mr. Shear replied that he has 396 unfilled orders and receives two additional orders for every cancellation and release. He estimates this to be a two year demand if production goes up.

**Frostguard Makes Early Tomato Crop Possible**

(Continued from page 1) reported to be the first guard against frost financially within the reach of most farmers. As it is set up and manufactured today, the farmer turns the Frostguard on in the early hours of the morning, letting it function during the prevalent frost hours. R. B. Evans, vice-president of the company, voiced his hope that eventually the Frostguard will be so designed as to automatically go on when the temperature drops.

The Frostguard projects infrared rays directly upon the vegetation, heating plants rather than the surrounding atmosphere. It is constructed with a pagoda-like reflector surrounding a radiation chamber fired by fuel oil or kerosene under pressure. Infrared rays are reflected from the sides of the radiation chamber to the area to be protected. Rays which would ordinarily be lost into the upper atmosphere are redirected back to the ground by a reflector on top. It uses ten gallons of kerosene an hour, and costs approximately \$1.40 per hour per machine.

Mr. Evans disclosed that the company has produced 150 for field testing throughout the country and that exceptional reports have been received on its saving of crops. The refining and production of this Frostguard is in line with Evans objective of constantly developing new projects.

**Collins Saves Six From Drowning**

(Continued from page 1) Collins navigated past the group, throwing out life preservers and cushions. Choppy water added difficulty to the rescue work, necessitating several tries before all were safe. Only one could swim, it was learned.

Assistance was later given by Dean Paulsdorfer also in a cruiser, who hauled the capsized boat back. Both Collins and Paulsdorfer had come from Base lake, connected to Strawberry lake by a channel.

The boat which was used by Collins in the rescue work, was the one he was working on last year when a flash fire broke out, severely burning him. He has named the craft "Mis-Hap."

**Ordination Will be Held Tomorrow**

(Continued from page 1) year, and has only recently become eligible for the promotion to the priesthood.

A resident of Ann Arbor for 25 years, Mr. Miller attended public school there, as well as the University of Michigan from which he graduated in 1941. He took his degree in speech and radio production, later working as a radio announcer at WJLB in Detroit and WELL in Battle Creek.

Following his induction into the army in February of 1942, Mr. Miller spent 32 months in Iceland where he was connected with the Counter Intelligence corps. Upon his discharge from the service late in 1945, he took two years in Berkeley Divinity school in New Haven, Connecticut, finishing with the degree of Bachelor of Sacred Theology in December of 1947. He has been with St. John's since that time in the capacity of a deacon.

Mr. Miller lives here with his wife and 14 month old son in the rectory at 185 Blunk avenue.

The service tomorrow morning is open to the public. A luncheon for the parishioners and invited guests is planned by the women of the parish following the service. Arrangements are under the direction of Mrs. Harry Christensen.

At the service Miss Margaret Jean Willoughby will sing a solo, and the Messrs. Albert Myers, John Sumner, Robert Willoughby and David Dayton will act as acolytes.

Mrs. Martha Hinz who has been visiting her sister, Mrs. William Blunk of Williams street for the past two weeks, has returned to her home in Ann Arbor.

**Kiwanians Told Story of Shoes**

Kiwanis club's series of programs on members' professions was augmented Tuesday evening with a description of the shoe trade, coupled with the "Story of Shoes", told by James Houk.

The making of shoes was described by Houk as the oldest art in existence. He displayed a chart showing trends in footwear from the earliest to the present day.

The first shoemaker to step foot on American soil arrived in 1629 with the second boat load of colonists, Houk told Kiwanians. From that date all shoes were hand made until the beginning of modern manufacturing which occurred in 1900 with the development of the sole stitcher and Goodyear last. Manufacture and merchandising have today advanced to the point where a total of 515 steps are necessary in making and selling one pair of shoes.

Robert Jolliffe disclosed at the meeting the proceeds from the annual variety show which the club sponsored this spring. They totaled, he announced, \$1857.38.

The meeting of July 27 will be a box social, it was also revealed at Tuesday's meeting. It will take place in Plymouth Riverside park.

**Northville Editor Dies Saturday**

(Continued from page 1) and the Lloyd H. Green post of the American Legion.

He was a graduate of both Howell High school and Albion college. In 1924 he was appointed as postmaster of Howell, then believed to be the youngest person ever to hold the post. Mr. Cansfield later became editor and co-owner of the Livingston County Press, and held the first Howell Rotary club presidency.

He is survived by his wife, Louise; daughter, Helen Ann; and son, William B.

**What I Think and Have A Right To Say**

**HAROLD ICKES IS NOW TELLING 'EM.**

It has been interesting reading—these memoirs of members of the Franklin DeLano Roosevelt cult who served in high places over a long period of years and, as a result, so badly wrecked this country that it will be generations before it can be dragged out of the political mire in which it was sunk nearly out of sight. Jim Farley first told 'em—Cordell Hull did likewise—and now comes Harold Ickes with his pen sketches of the skullduggery that went on in the Roosevelt cabinet. It is all interesting—intensely so to those who during the days when it was near treason to criticize the great political faker and his crowd, did so irrespective of the threats, retaliation and criticism that came from the vast throngs that reaped financial rewards for which they did not toil. These confessions are not only good for the souls of those who are writing them, but they are good for the country, too, as they confirm the beliefs of many citizens who refused to be hoodwinked.

**NOT MICHIGAN'S FIRST FUMBLE.**

Both Life magazine and The United States News in recent issues went out of their way to taunt Michigan because of the failure of its delegation to the Republican National Convention to support Native Son Tom Dewey for the Republican nomination for the Presidency. Governor Dewey failed to get a single vote from Michigan on either ballot for his nomination. Neither did Abraham Lincoln. Michigan fumbled around in that famous 1860 convention just as badly as did its delegation in the Republican convention of 1948, which will be regarded by future historians as important as was the convention which nominated Abraham Lincoln. Fortunately Governor Dewey knows that the action of the Michigan delegation did not reflect the views of the vast majority of the people of this state. Neither did it reflect the wishes of many of the delegates who strove to break away from the unit rule demanded by the delegation chairman. It can be said, however, that the Michigan delegation of 1860, did not turn thumbs down on a presidential candidate from this state. Abraham Lincoln was born in Kentucky.

**Building? Remodeling?**

**... Find Out About BRICKOTE First!**

**BRICKOTE** is now available in Plymouth. And whether you're building from the ground up, or remodeling your present structure—business, industrial, or residential—it will pay you to look into this patented masonry treatment that gives you all of brick's advantages at a fraction of its cost.

**ON NEW CONSTRUCTION, BRICKOTE** gives you not only the appearance of brick, but the fireproofing, moistureproofing, and insulating effect, as well as lasting freedom from maintenance expense. You get all this at a cost far lower than that of brick, and in a fraction of the time required for bricklaying. **BRICKOTE** goes on over concrete block or cinder block, either old or new. Seals the surface forever. Never requires paint.

**ON REMODELING JOBS, BRICKOTE** dresses up unsightly old surfaces—rough blocks, weathered brick, or wood. It is a rock-like coat of solid masonry, permanently bonded to the building, and indistinguishable from brick.

**Important Note**

**BRICKOTE** is not to be confused with nailed-on imitation brick siding. **BRICKOTE** is troweled on in three coats. The base coat forms an everlasting bond with the wall to which it is applied. The second coat is permanently bonded to the first. The third is the color of the finished brick. Brick and mortar lines are cut through this final coat with patented tools, allowing the intermediate coat to show through as pointing. **BRICKOTE** is available in a wide range of colors. FHA approved.

**BRICKOTE** pays for itself on offices, stores and service stations not only by attracting more business but by saving real money in upkeep over the years. We will be glad to show you some of our many nearby **BRICKOTE** applications, and figure your job, without obligating you in any way.

Hours of Services and Notices of Church Organization Meetings

## METHODIST - PRESBYTERIAN CHURCH SERVICES

**Dr. Frederick G. Poole, Dr. Henry J. Walsh, Ministers**  
 Union Summer Services begin in the Presbyterian church on Sunday, at 11 a. m., with the Reverend Frederick Poole, D. D., minister of the Methodist church preaching and leading the worship. Services will be held in the Presbyterian church each Sunday during July, and the first Sunday in August, with Dr. Poole in charge. All calls for pastoral services during July should be referred to Dr. Poole at the Methodist Parsonage. Church School at the regular hour in the Methodist church. All notices for the paper or bulletin should be in Dr. Poole's hands by Monday of each week.

## CHURCH OF CHRIST, CHURCH

### Teen-Age Dance is Scheduled For Wednesday, July 14, Under Lights

Get on the beam, kids; one of the highlights of the summer recreation program is scheduled for Wednesday, July 14 in the form of a dance.

It is a teen-age dance on the tennis courts by the Central Grade school from 8 to 11 p. m., under the lights. Fellows wear your best overalls and girls wear your jeans.

For this first dance, records will be used. If the attendance is deemed large enough, an orchestra will be provided for the next dance. At this moment Miss Delores Loewe, assistant athletic director, plans square dancing plus regular dancing. Admission to the teen-age dance is 25 cents. Remember, this dance is for only teen-agers.

If you have any items of interest about your family or friends please call 16.

### Daisy and Allen At Home Sunday

The Daisy Class A team will be trying to clinch a playoff position this Sunday when E&L Transport visits Daisy field.

The game starting at 3 p. m. is the only Class A tilt in the area Sunday. In Class B contests, Utilities is at Garden City at 3 p. m. and Trenton plays Allen at Riverside at the same time.

Last Sunday afternoon Utilities stopped Allen 7-2 with Sheridan on the mound. At Cass Benton Park, Daisy took the measure of Northville by the score of 6-3. Epps pitched a six hitter for Daisy.

Deadline for classified ads. Wednesday 5:00 p.m.

Joe Miller  
sports reporter  
Phone 521-J

### First National Loses Sunday, Wins Monday

One bad day of baseball dropped the First National Bank team out of first place in the Inter-County League. Although the Bankers trounced Selgreen Buick 14-7 on Monday afternoon, they skidded to second place Sunday when they absorbed an 11-3 beating at the hands of Local 142.

George Molnar started in Sunday's game and was relieved by Jim Miller, and Martin Smith was behind the plate.

On Monday the bank team won their game. Don McSweeney left hand pitcher did the hurling and Duncan Bone and Martin Smith were behind the plate.

The highlights of Sunday's game were two home runs, one hit by pitcher McSweeney with bases loaded. Arnold Werschin proved to be the leading hitter over the holiday weekend getting eight hits out of nine times at bat. Arnold Werschin got the second home run in Monday's game.

With only three weeks of regular play remaining before the playoffs, the Bankers will be trying hard to pull out a victory against Eddie's this Sunday at Recreation Park in Ypsilanti. The encounter between the two top teams in the league will start at 3 p. m.

### Joe's Jottings

by Joe Miller

Sports aren't all dead seriousness as the Twin Pines-Cloverdale game attests to. A Twin Pines runner was stealing third base when Dolores Lee, Cloverdale catcher, misplaced the ball. The spheroid rolled to the side of the bewildered catcher, who thought the ball was in the umpire's pocket. A ball was in the arbiter's pocket, but it was a spare ball. Dolores kept on fishing for the ball while laughter set in. Maybe the ump should have told Dolores where the ball was and stopped the confusion.

Another humorous incident occurred in a Daisy boys game a couple of years ago. An opposing runner slid into third base the same time the ball arrived and a close decision followed. The manager of the opposing club, who was acting as the umpire, called the runner safe and then consulted C. B. Levering, manager of the Daisy team. Mr. Levering didn't see the play, but he voiced his opinion on the play. "Well, I didn't see it, but I think he was out." Yes sir, Mr. Levering is quite a fellow.

The Wiedman Cardinals in Class D have been utilizing the squeeze play to perfection. It is a play which several major league teams could do well to follow. The teams of Ty Cobb's day used it continually and nowadays only the St. Louis Cardinals perform the important art in an acceptable style. Against the Livonia Firemen the Wiedman Cardinals scored three or four runs via the squeeze play.

Gil Wasalaski, popular third baseman of the Wiedman Cardinals, was passing out Hershey bars at the Cardinal-Daisy game last Tuesday. The day before Mrs. Wasalaski gave birth to an eight pound boy. The little fellow will probably be a star ball player like his dad in a few years. Who knows, maybe he will play for the Cardinals.

### Daisy Girls Far Ahead in League

Yet to be defeated in league play, the Daisy girls team has won seven games. The closest team is the Rosedale Gardens Beauty Shop squad that has won four and lost two.

Daisy and DeHoCo played one of the most exciting games of the season at DeHoCo on July 1. DeHoCo was leading 10-8 in the sixth when Betty Ross hit a home run with two on base to give Daisy the lead and the ball game. Marge Sowa, Daisy pitcher, struck out 11, walked one, and allowed five hits for a fine pitching performance. Daisy made five errors behind Marge to account for most of the ten runs.

A casualty occurred in this tilt when Jo Rogers fractured her ankle sliding into third base. She will probably be out for the remainder of the season.

**GIRLS SOFTBALL STANDINGS**

Team	W	L	Pct.
Daisy	7	0	1.000
Rosedale Bty. Shop	4	2	.667
DeHoCo	2	3	.400
Cloverdale Dairy	1	5	.167
Twin Pines	1	5	.167

Do not store silver salt shakers with the salt in them. Salt corrodes silver.

Cards vs. Wayne Wayne Flats  
Daisy vs. Red Sox Riverside  
Livonia Rec. vs. Liv. Firemen Nankin Mills

All games start at 6:30 p.m.

### City's Assistant Athletic Director Reports on Recreation Program

The playgrounds and the swimming programs are now in full swing and should improve," states Miss Delores Loewe, assistant athletic director. At the playgrounds the children are busy doing craft, leather, and lanyard work. They are making bracelets of lanyard material.

At the lot-lot at Sutherland and Forest new equipment is being put up. Several teen-agers are at the playgrounds supervising the activities. Those working at the playgrounds are Phil Bosman, Sally Gustafson, Betty Richwine, Beverly Baisley, Hillis Cash, Bob Brunner and Bill Farwell. Dick Crocker and Beverly Brown are substitute instructors.

The swimming program will be in action again this week on Tuesday and Thursday after a halt of one week due to the Olympic try-outs held at the pools. The first week of the program saw 141 taking advantage of the swimming program on Tuesday and 102 on Thursday.

The beginners in swimming will leave from the school at 8:45 a. m. and return at 11 a. m. There will be two buses for this first group. A second group will leave at 10 a. m. in one bus to the pools. This free swimming group will leave for home at 12:30 p.m. Every child that goes to the pools on the bus must re-

### Softball Leagues Have New Rules

The following rules and regulations are now in effect in the Plymouth softball leagues as established by Herb Woolweaver, recreation director.

As of this date rule ten for the Men's Open League, rule seven for the Old Timer's league, and rule nine for the Girl's league is changed to read as follows:

The scheduled game times shall be 7 p. m., 8:20 p. m. and 9:40 p. m. unless otherwise noted on the schedule for make-up games. Each game must start their last full inning, if the end of one hour and ten minutes has elapsed, unless five full innings have been played and one team is seven runs ahead, that team shall be declared the winner.

### NEW RULES

1. If a game be a tie at the end of seven innings, play shall be continued until one side has scored more runs than the other in an equal number of innings up to the tenth, provided that if the side last at bat scored the winning run before the third man is out in any inning between the seventh and the tenth, the game shall be legally declared over. If still a tie at the end of nine innings, the game must be played off at a later date.

2. The line ups must be in the hands of the home team score keeper ten minutes before the game starting time.

3. Warm-ups for the second and third games should not exceed five minutes, and game may be called to start at the discretion of the umpire.

4. All questions of rules concerning the game must be discussed only by the manager or captain with the umpire. Unsportsman-like abuse of umpires from players will immediately subject them to suspension from their team; the time will be so designated by your recreation director and the amount will depend on the nature of the offensive act.

### Riverside Places Few In National Championships

At the recent United States Roller Skating Championships held in Washington, D. C., a few members of the Riverside Figure and Dance club placed in different divisions.

The Riverside club sent 25 entries to the championships which took place in the new National Arena from June 28 to July 3. Four hundred and twenty men, women and children from all over the United States qualified for races by placing high in the state meets.

The following from the Riverside club placed in the national meet: Charlotte Roeder won the speed skating midget division and Judy Laury took second place. Charlotte teamed with Wayne Smith to capture a second in the juvenile dance. In the junior mixed pairs Loretta Ruehlic and Doug Milne won third place. Doug also came in second in the novice men singles division. Joan Tate of Riverside and Dean Busch of Ann Arbor just missed third place in the novice mixed pairs. In the national championships the first three places are the only ones counted.

Wallace Laury, president of the Riverside Figure and Dance club, was appointed to the Executive Commission of the United States National Roller Skating Championships.

### Contractors Trim Bud Wilson to Remain in First

In the battle for first place in the Old Timer's league, Contractors edged Bud Wilson 9-7.

Contractors scored four times in the initial inning, while Bud Wilson tallied one run. Wilson took the lead in the third by scoring six runs.

However, Contractors came back in the sixth to tally three times, thus tying the game. They scored two more runs in the seventh to win.

Bud Curtiss went the route for the winners. Contractors now lead Bud Wilson by a game and half.

**OLD TIMERS STANDINGS**

Team	W	L	Pct.
Contractors	5	0	1.000
Bud Wilson	4	2	.667
Dunn Steel	3	2	.600
Liberty Hardware	2	4	.333
Allen Industries	1	3	.250
Plymouth Grill	0	4	.000

### Benefit Games To Be Played

Two benefit softball games will be played Friday, July 16, for Josephine Rogers, Daisy girls third baseman, who fractured her ankle in the recent DeHoCo-Daisy game.

Beglinger Oldsmobile will play the Ann Arbor Frankenthums and either the Daisy men's team or the Daisy girls' team will play another contest. The games will start at 7:30 p. m. The money taken in this night will be given to Josephine.

### Hilltop Reports Hole-In-One Shot

A "once in a lifetime" perfect shot was made by George Alexander, Sunday, as heaced the 145 yard sixth hole of Hilltop Golf club.

Alexander, who lives at 752 Spring road, Northville, reports that he used a six iron for the shot. Accompanying him, and bearing witness to the miraculous feat, were Lincoln Lantz of Plymouth and Walter Hill of Detroit.

For a total score, Alexander completed a 77, five above par.

Max Todd, pro-manager of Hilltop, discloses that this is the second hole-in-one to be shot on the course this year, the first being delivered by E. K. "Pappy" Patrick early this season. Patrick aced the fourth hole. Todd remarked that this marked the first time in eleven years that a hole-in-one had been made on the sixth hole, possibly because it is a "blind hole" with the green tricky and fast. Earl Markham holed out his tee shot there in 1937.

### Street Showers to Start Monday

For the younger children of Plymouth, street showers will start Monday at the Central playground.

Tuesday the showers will be at Forest and Sutherland, Wednesday at the Starkweather playground and Thursday at Farmer and Arthur. The showers will run from 2 to 3 p. m.

A shuffle board tournament will begin Monday, July 12, at the Central Grade school. The tournament for children 12 and under will be underway at 10:30 p. m.

### Harold Dietrich Paces Class D

Heading into the second round of play, the Western Wayne league for boys 18 and under is paced by the Harold Dietrich club of Wayne.

Wayne has won the two games they have played. Two other contests were rained out. The Wiedman Cardinals are in second place with the Plymouth Red Sox. The cards have won two and lost one while the Red Sox have a two and two record.

On Tuesday, June 29, the Cards were leading Wayne 8-2 in the fourth inning when rain intervened. The contest would not have counted if it had lasted the necessary distance, for there wasn't a regular umpire.

Thursday, July 1, the Cards trounced the Livonia Firemen 9-4 with Gil Wasalaski doing yeoman work on the mound. Dick Farwell, Cardinal second

sacker, kept up his sensational hitting by collecting three hits in four times at the plate.

The Red Sox crushed Daisy 12-2 Tuesday evening and lost 14-5 to Wayne on Thursday. The Daisy club lost all three games they contested. They lost to the Firemen, the Red Sox, and the Livonia Recreation team. However, Daisy has some excuse for their defeats. At the beginning of the season Daisy was scheduled to be in Class E, but since no other teams entered that class the club had to move into Class D.

A new United States stamp, which went on sale May 29, commemorates the heroic wartime sacrifice of four army chaplains, who gave their life jackets to others aboard the sinking troop transport Dorchester and then went down with the ship. Above the central figure, which depicts the sinking ship, are depicted the four chaplains—George L. Fox, Clark V. Poling, John P. Washington and Alexander D. Goode.

**Builders Watch Development of Masonry Process**

Builders, and owners of buildings, both business and residential, are watching with interest a new development in the construction field which has made its appearance in Plymouth within the past few weeks, and which promises to be an important factor in reducing building costs.

This development, known as Brickote, is a patented masonry process, which not only resembles brick closely in appearance but provides most of the physical advantages of brick as well. Yet it can be applied in a fraction of the time required for bricklaying, and a fraction of its cost.

The first installation of Brickote in the immediate vicinity of Plymouth was the frozen custard stand at the northwest corner of South Main street and the Ann Arbor road. Brickote was applied here over cinder block, with results which even close scrutiny has failed to distinguish from brick. A similar installation now about one year old, is Radio Station WHRV on the Packard road west of Ypsilanti. Several gasoline stations in and near Ypsilanti have also been Brickoted within the past few months.

Brickote differs from the other surfaces designed to look like brick in that it is not a nailed-on sheeting, but is applied with trowel. It is put on in three coats. The first forms a close, permanent bond with the surface underneath. The second bonds to the first before the latter is dry. Finally, the third coat, dyed to produce the desired finish color, is troweled on over the second. Before this coat has hardened, skilled workers using straight-edges and patented cutting tools cut the brick lines in. The cuts penetrate through the outer coat, which shows through as the pointing between the bricks.

Brickote may be applied on new work or old. When applied over blocks in new construction, it is said to save its cost by making possible the use of thinner blocks which cost less to lay. It is also widely used in remodeling old buildings, either over wood, stone, or brick.

**Vets Reinstate Lapsed Insurance by July 31**

Veterans administration today reminded Plymouth World War II veterans that the deadline for liberal reinstatement of lapsed G. I. insurance is July 31.

Until the deadline, veterans may reinstate lapsed insurance without necessarily taking a physical examination. Under the liberal provisions now in effect, a veteran generally needs only to certify that his health is as good as it was on date of lapse and pay two monthly premiums to reinstate term insurance or all back premiums with interest on permanent types of insurance.

**League Will Hold Ice Cream Social Today**

This afternoon, Friday, St. John's Episcopal league will hold its annual ice cream social at the home of Mr. and Mrs. Walter Sumner, 1078 West Ann Arbor trail, from 2 until 9:30 p. m.

Homemade cakes and sauces will be served with the icecream, and, to please the children, there will be cones. Card games will take place on the lawn.

**Cooties Picnic to Aid Veterans at Maybury**

A hospital benefit picnic, sponsored by Pup Tent No. 44 of the Military Order of the Cooties, will begin at 12 noon Sunday, July 11, at 42635 Schoolcraft road.

The gathering, which will be highlighted by contests and games, as well as refreshments, will provide aid for the veterans at Maybury sanitarium. The Cooties are the only local group aiding in the sponsorship of these veterans.

**What I Think and Have a Right to Say**  
 ELTON R. EATON

**THE TIMES IS RIGHT.**

Once in a great while the Detroit Times says something editorially that is highly important as well as timely. In discussing the admission into this country of hundreds of thousands of displaced Europeans, The Times points out that we have many hundreds of thousands of displaced persons in our own country we have never done anything about.

These are the Indians we have crowded from the fertile fields of the east to the barren plains of the west.

What have we done to help the people we have displaced by our own selfishness and greed?

Nothing—not one thing. Ask Rev. Edgar Hoenecke of this city who has labored long and diligently to see to it that these **DISPLACED AMERICANS** are rightly treated. He can tell you plenty about our deplorable treatment of our own **DISPLACED AMERICANS**. Yes, it is time we should be giving some consideration to our own backyard before searching the world to find other backyards to clean up.

**AGAIN WE DISAGREE.**

We do not agree in the slightest way with the statement of Robert H. Dunn, legal counsel of the Michigan Civil Service Commission, that the Commission cannot deny state jobs to members of the Communist party. Mr. Dunn says that until the Commission has evidence that an applicant for a state job is not a Communist, he must be hired, providing he has qualified otherwise under the civil service examinations.

It is our belief that the Commission CAN withhold approval of an applicant for a state position if there is doubt as to his loyalty to this country.

The powers of the Commission are broad—and it seems a queer thing to me that rulings are made which seemingly always favor these disloyal, cheating and no-good pests.

If new legislation is needed to tighten up on this problem, there is no question but what the legislature will do it, and do it quickly. But meanwhile there isn't the slightest reason why the Civil Service Commission should permit a single state position to be filled by any one even suspected of being a Communist. There is no place in public life for these filthy human beings.

**THE POINT OF DIFFERENCE.**

Senator Elwood Bonine of the Cass-Berrien senatorial district who spoke before members of the Plymouth Kiwanis club recently, is one of the hard working, studious, and always-on-the-job members of the state senate. Whatever he does is done with the belief that it is for the good of Michigan. He doesn't play politics with his senate position.

During the course of his interesting remarks here, he said among other things, that the newly created state department of administration **TOOK AWAY** from the Governor many of his present responsibilities.

Senator Bonine supported the bill which created this new department. The writer of this editorial did not, and Senator Bonine pointed out the very reason for our opposition to it.

We believe that the Governor, who is the highest elected executive official of Michigan, **SHOULD** be directly responsible for every act that pertains to the state government. He is, by virtue of his office, the chairman of the state administrative board. He has, under both the constitution and state law, exceptionally wide authority—and to my way of thinking, the Governor **SHOULD BE** responsible for whatever takes place in the state government.

WHY should the responsibility for many, very many, of his executive duties be transferred to some **APPOINTED** official who is beyond the reach of the voters? After all, this is a government of, by and for **ALL** the people.

**Cause of Eagle Attacks Gussed**

An amateur falconer—possibly an imitator of the internationally known lecturers who talked in Michigan in recent months on the ancient art of training hawks for hunting—is believed responsible for the genuine eagle attacks on humans at Riverdale in Gratiot county.

The bird, described as half-grown, first tried to attack Julius DeMeyer as he was driving his tractor in a field. DeMeyer got off the tractor and ran for cover.

A short while later when Sam Alexander was driving his truck in a pasture the bird flew straight at the truck, alighted on Alexander's arm and rested on an open window, closed its claws on his hand. He had to pry the bird loose, and captured it alive.

The bird's behavior suggests it was partly trained for falconry, and was alighting in normal fashion to be fed. Falconers, of course, wear an arm guard to protect them from the sharp talons.

Conservation department game men accustomed to find stories of eagle attacks on humans as hard to pin down as those of man eating wolves are following the Riverdale incident with keen interest. Dr. G. W. Bradt of the department's Rose Lake wildlife experiment station who investigated still is looking for the attacking bird, reported given by Alexander to a traveler. Federal laws protecting the national emblem bird are strict, and strictly enforced.

**CARRY YOUR KITCHEN WITH YOU!**  
**An Electric Roaster Oven Cooks Everything... Plugs in Anywhere**

Wonderful in town... perfect in country! The new electric roaster-oven cooks a complete meal for from three to six, bakes a pie or cake—roasts a 20-pound turkey, can even be used for canning fruit. Take it with you anywhere—it will broil, toast, grill or fry to perfection wherever there's A-C current. You'll find portable electric roaster-ovens in your favorite appliance store now—see your dealer today!

**ROUGH IT... IN STYLE!**  
 Practical, versatile, foolproof, these family-size roaster-ovens come equipped with accurate thermostats and automatic timers. Ideal for touring!

**USE IT ALL YEAR ROUND!**  
 Summer or winter, it's perfect for keeping food warm. Use one for backyard picnics—as an auxiliary oven in the kitchen—or for hot dishes at buffet meals.

**LIKE HAVING A PART-TIME COOK!**  
 Weighing only about 20 pounds, constructed of durable steel, aluminum and enamel, your roaster is easily carried, easily cleaned. Priced from \$56.95.

Hours of Services and Notices of Church Organization Meetings

**METHODIST - PRESBYTERIAN CHURCH SERVICES**  
 Dr. Frederick G. Poole, Dr. Henry J. Welch, Ministers  
 Union Summer Services begin in the Presbyterian church on Sunday, at 11 a. m., with the Reverend Frederick Poole, D. D., minister of the Methodist church preaching and leading the worship. Services will be held in the Presbyterian church each Sunday during July, and the first Sunday in August, with Dr. Poole in charge. All calls for pastoral services during July should be referred to Dr. Poole at the Methodist Parsonage, Church School at the regular hour in the Methodist church. All notices for the paper or bulletin should be in Dr. Poole's hands by Monday of each week.

**CHURCH OF CHRIST, CHURCH**

 The Sunday school, 10 a. m. Harold Compton, superintendent. Worship Service, 11:10 a. m. Subject: "The Unsearchable Riches of Christ". The Palmer Bible class meets on Tuesday, 6:30 p. m. The Mid-Week service for Bible Study and Prayer, 7:30 p. m., Wednesday. A hearty welcome awaits you here.

**FIRST CHURCH OF CHRIST SCIENTIST**  
 Sunday Morning Service, 10:30 a. m. Sunday School, 10:30 a. m. for pupils up to 24 years. Wednesday evening testimony, 8 p. m. "Sacrament" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, July 11. The Golden Text (John 4:23) is: "The hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth: for the Father seeketh such to worship him." Among the Bible citations is this passage, (Psalms 51:2,10): "Wash me thoroughly from mine iniquity, and cleanse me from my sin. Create in me a clean heart, O God; and renew a right spirit within me."

**SALEM FEDERATED CHURCH**  
 C. M. Pennell, pastor  
 Sunday morning worship, 10:30 p. m. Bible school 11:45 a. m. Cottage prayer meeting, Wednesday evening 7:30 p. m.

### Teen-Age Dance is Scheduled For Wednesday, July 14, Under Lights

Get on the beam, kids: one of the highlights of the summer recreation program is scheduled for Wednesday, July 14 in the form of a dance.

It is a teen-age dance on the tennis courts by the Central Grade school from 8 to 11 p. m. under the lights. Fellows wear your best overalls and girls wear your jeans.

For this first dance, records will be used. If the attendance is deemed large enough, an orchestra will be provided for the next dance. At this moment Miss Delores Loewe, assistant athletic director, plans square dancing plus regular dancing. Admission to the teen-age dance is 25 cents. Remember, this dance is for only teen-agers.

If you have any items of interest about your family or friends please call 16.

### Daisy and Allen At Home Sunday

The Daisy Class A team will be trying to clinch a playoff position this Sunday when E&L Transport visits Daisy field.

The game starting at 3 p. m. is the only Class A tilt in the area Sunday. In Class B contests, Utilities is at Garden City at 3 p. m. and Trenton plays Allen at Riverside at the same time.

Last Sunday afternoon Utilities stopped Allen 7-2 with Sheridan on the mound. At Cass Benton Park, Daisy took the measure of Northville by the score of 6-3. Epps pitched a six hitter for Daisy.

Deadline for classified ads, Wednesday 5:00 p.m.

Joe Miller sports reporter Phone 521-J

### First National Loses Sunday, Wins Monday

One bad day of baseball dropped the First National Bank team out of first place in the Inter-County League. Although the Bankers trounced Selgren Buick 14-7 on Monday afternoon, they skidded to second place Sunday when they absorbed an 11-3 beating at the hands of Local 142.

George Molnar started in Sunday's game and was relieved by Jim Miller, and Martin Smith was behind the plate.

On Monday the bank team won their game. Don McSweeney left hand pitcher did the hurling and Duncan Bone and Martin Smith were behind the plate.

The highlights of Sunday's game were two home runs, one hit by pitcher McSweeney with bases loaded. Arnold Werschin proved to be the leading hitter over the holiday weekend getting eight hits out of nine times at bat. Arnold Werschin got the second home run in Monday's game.

With only three weeks of regular play remaining before the playoffs, the Bankers will be trying hard to pull out a victory against Eddie's this Sunday at Recreation Park in Ypsilanti. The encounter between the two top teams in the league will start at 3 p. m.

### Joe's Jottings

Sports aren't all dead seriousness as the Twin Pines-Cloverdale game attests to. A Twin Pines runner was stealing third base when Dolores Lee, Cloverdale catcher, misplaced the ball. The spheroid rolled to the side of the bewildered catcher, who thought the ball was in the umpire's pocket. A ball was in the arbiter's pocket, but it was a spare ball. Dolores kept on fishing for the ball while laughter set in. Maybe the ump should have told Dolores where the ball was and stopped the confusion.

Another humorous incident occurred in a Daisy boys game a couple of years ago. An opposing runner slid into third base the same time the ball arrived and a close decision followed. The manager of the opposing club, who was acting as the umpire, called the runner safe and then consulted C. B. Levering, manager of the Daisy team. Mr. Levering didn't see the play, but he voiced his opinion on the play. "Well, I didn't see it, but I think he was out." Yes sir, Mr. Levering is quite a fellow.

The Wiedman Cardinals in Class D have been utilizing the squeeze play to perfection. It is a play which several major league teams could do well to follow. The teams of Ty Cobb's day used it continually and nowadays only the St. Louis Cardinals perform the important art in an acceptable style. Against the Livonia Firemen the Wiedman Cardinals scored three or four runs via the squeeze play.

Gil Wasalaski, popular third baseman of the Wiedman Cardinals, was passing out Hershey bars at the Cardinal-Daisy game last Tuesday. The day before Mrs. Wasalaski gave birth to an eight pound boy. The little fellow will probably be a star ball player like his dad in a few years. Who knows, maybe he will play for the Cardinals.

### Daisy Girls Far Ahead in League

Yet to be defeated in league play, the Daisy girls team has won seven games. The closest team is the Rosedale Gardens Beauty Shop squad that has won four and lost two.

Daisy and DeHoCo played one of the most exciting games of the season at DeHoCo on July 1. DeHoCo was leading 10-8 in the sixth when Betty Ross hit a home run with two on base to give Daisy the lead and the ball game. Marge Sowa, Daisy pitcher, struck out 11, walked one, and allowed five hits for a fine pitching performance. Daisy made five errors behind Marge to account for most of the ten runs.

A casualty occurred in this tilt when Jo Rogers fractured her ankle sliding into third base. She will probably be out for the remainder of the season.

### City's Assistant Athletic Director Reports on Recreation Program

The playground and the swimming programs are now in full swing and should improve, states Miss Delores Loewe, assistant athletic director. At the playgrounds the children are busy doing craft, leather, and lanyard work. They are making bracelets of lanyard material.

At the lot-put at Sutherland and Forest new equipment is being put up. Several teen-agers are at the playgrounds supervising the activities. Those working at the playgrounds are Phil Bosman, Sally Gustafson, Betty Richwine, Beverly Baisley, Hillis Cash, Bob Brunner and Bill Farwell. Dick Crocker and Beverly Brown are substitute instructors.

The swimming program will be in action again this week on Tuesday and Thursday after a half of one week due to the Olympic try-outs held at the pools. The first week of the program saw 141 taking advantage of the swimming program on Tuesday and 102 on Thursday.

The beginners in swimming will leave from the school at 8:45 a. m. and return at 11 a. m. There will be two buses for this first group. A second group will leave at 10 a. m. in one bus to the pools. This free swimming group will leave for home at 12:30 p. m. Every child that goes to the pools on the bus must re-

### Softball Leagues Have New Rules

The following rules and regulations are now in effect in the Plymouth softball leagues as established by Herb Woolweaver, recreation director.

As of this date rule ten for the Men's Open League, rule seven for the Old Timer's league, and rule nine for the Girls' league is changed to read as follows: The scheduled game times shall be 7 p. m., 8:20 p. m. and 9:40 p. m. unless otherwise noted on the schedule for make-up games. Each game must start their last full inning, if the end of one hour and ten minutes has elapsed, unless five full innings have been played and one team is seven runs ahead, that team shall be declared the winner.

### NEW RULES

1. If a game be a tie at the end of seven innings, play shall be continued until one side has scored more runs than the other in an equal number of innings up to the tenth, provided that if the side last at bat scored the winning run before the third man is out in any inning between the seventh and the tenth, the game shall be legally declared over. If still a tie at the end of nine innings, the game must be played off at a later date.

2. The line ups must be in the hands of the home team score keeper ten minutes before the game starting time.

3. Warm-ups for the second and third games should not exceed five minutes, and game may be called to start at the discretion of the umpire.

4. All questions of rules concerning the game must be discussed only by the manager or captain with the umpire. Unsportsman-like abuse of umpires from players will immediately subject them to suspension from his team; the time will be so designated by your recreation director and the amount will depend on the nature of the offensive act.

### Riverside Places Few In National Championships

At the recent United States Roller Skating Championships held in Washington, D. C., a few members of the Riverside Figure and Dance club placed in different divisions.

The Riverside club sent 25 entries to the championships which took place in the new National Arena from June 28 to July 3. Four hundred and twenty men, women and children from all over the United States qualified for races by placing high in the state meets.

The following from the Riverside club placed in the national meet: Charlotte Roeder won the speed skating midget division and Judy Laury took second place. Charlotte teamed with Wayne Smith to capture a second in the juvenile dance. In the junior mixed pairs Loretta Ruehle and Doug Milne won third place. Doug also came in second in the novice men singles division. Joan Tate of Riverside and Dean Busch of Ann Arbor just missed third place in the novice mixed pairs. In the national championships the first three places are the only ones counted.

Wallace Laury, president of the Riverside Figure and Dance club, was appointed to the Executive Commission of the United States National Roller Skating Championships.

### Contractors Trim Bud Wilson to Remain in First

In the battle for first place in the Old Timers League, Contractors edged Bud Wilson 9-7.

Contractors scored four times in the initial inning, while Bud Wilson tallied one run. Wilson took the lead in the third by scoring six runs.

However, Contractors came back in the sixth to tally three times, thus tying the game. They scored two more runs in the seventh to win.

Bud Curtiss went the route for the winners. Contractors now lead Bud Wilson by a game and half. OLD TIMERS STANDINGS

OLD TIMERS STANDINGS table with columns for Team, W, L, Pct.

### Benefit Games To Be Played

Two benefit softball games will be played Friday, July 16, for Josephine Rogers, Daisy girls third baseman, who fractured her ankle in the recent DeHoCo-Daisy game.

Beglinger Oldsmobile will play the Ann Arbor Frankenthums and either the Daisy men's team or the Daisy girls' team will play another contest. The games will start at 7:50 p. m. The money taken in this night will be given to Josephine.

### Hilltop Reports Hole-In-One Shot

A "once in a lifetime" perfect shot was made by George Alexander, Sunday, as he caddied the 145 yard sixth hole of Hilltop Golf club.

Alexander, who lives at 752 Spring road, Northville, reports that he used a six iron for the shot. Accompanying him, and bearing witness to the miraculous feat, were Lincoln Lantz of Plymouth and Walter Hill of Detroit.

For a total score, Alexander compiled a 77, five above par.

Max Todd, pro-manager of Hilltop, discloses that this is the second hole-in-one to be shot on the course this year, the first being delivered by E. K. "Pappy" Patrick early this season. Patrick aced the fourth hole. Todd remarked that this marked the first time in eleven years that a hole-in-one had been made on the sixth hole, possibly because it is a "blind hole" with the green tricky and fast. Earl Markham holed out his tee shot there in 1937.

### Street Showers to Start Monday

For the younger children of Plymouth, street showers will start Monday at the Central playground.

Tuesday the showers will be at Forest and Sutherland. Wednesday at the Starkweather playground and Thursday at Farmer and Arthur. The showers will run from 2 to 3 p. m.

A shuffle board tournament will begin Monday, July 12, at the Central Grade school. The tournament for children 12 and under will be underway at 10:30 p. m.

### Harold Dietrich Paces Class D

Heading into the second round of play, the Western Wayne league for boys 18 and under is paced by the Harold Dietrich club of Wayne.

Wayne has won the two games they have played. Two other contests were rained out. The Wiedman Cardinals are in second place with the Plymouth Red Sox. The cards have won two and lost one while the Red Sox have a two and two record.

On Tuesday, June 29, the Cards were leading Wayne 8-2 in the fourth inning when rain intervened. The contest would not have counted if it had lasted the necessary distance, for there wasn't a regular umpire.

Thursday, July 1, the Cards trounced the Livonia Firemen 9-4 with Gil Wasalaski doing yeoman work on the mound. Dick Farwell, Cardinal second

sacker, kept up his sensational hitting by collecting three hits in four times at the plate. The Red Sox crushed Daisy 12-2 Tuesday evening and lost 14-5 to Wayne on Thursday. The Daisy club lost all three games they contested. They lost to the Firemen, the Red Sox, and the Livonia Recreation team. However, Daisy has some excuse for their defeats. At the beginning of the season Daisy was scheduled to be in Class E, but since no other teams entered that class the club had to move into Class D.

A new United States stamp, which went on sale May 29, commemorates the heroic wartime sacrifice of four army chaplains, who gave their life jackets to others aboard the sinking troop transport Dorchester and then went down with the ship. Above the central figure, which depicts the sinking ship, are depicted the four chaplains—George L. Fox, Clark V. Poling, John P. Washington and Alexander D. Goode.

### Builders Watch Development of Masonry Process

Builders, and owners of buildings, both business and residential, are watching with interest a new development in the construction field which has made its appearance in Plymouth within the past few weeks, and which promises to be an important factor in reducing building costs.

This development, known as Brickote, is a patented masonry process, which not only resembles brick closely in appearance but provides most of the physical advantages of brick as well. Yet it can be applied in a fraction of the time required for bricklaying, and a fraction of its cost.

The first installation of Brickote in the immediate vicinity of Plymouth was the frozen custard stand at the northwest corner of South Main street and the Ann Arbor road. Brickote was applied here over cinder block, with results which even close scrutiny has failed to distinguish from brick. A similar installation now about one year old, is Radio Station WHRV on the Packard road west of Ypsilanti. Several gasoline stations in and near Ypsilanti have also been Brickoted within the past few months.

Brickote differs from the other surfaces designed to look like brick in that it is not a nailed-on sheathing, but is applied with trowel. It is put on in three coats. The first forms a close, permanent bond with the surface underneath. The second bonds to the first before the latter is dry. Finally, the third coat, dyed to produce the desired finish color, is trowelled on over the second. Before this coat has hardened, skilled workers using straight-edges and patented cutting tools cut the brick lines in. The cuts penetrate through the outer coat, which shows through as the pointing between the bricks.

Brickote may be applied on new work or old. When applied over blocks in new construction, it is said to save its cost by making possible the use of thinner blocks which cost less to lay. It is also widely used in remodeling old buildings, either over wood, stone, or brick.

### Vets Reinstate Lapsed Insurance by July 31

Veterans administration today reminded Plymouth World War II veterans that the deadline for liberal reinstatement of lapsed G. I. insurance is July 31.

Until the deadline, veterans may reinstate lapsed insurance without necessarily taking a physical examination. Under the liberal provisions now in effect, a veteran generally needs only to certify that his health is as good as it was on date of lapse and pay two monthly premiums to reinstate term insurance or all back premiums with interest on permanent types of insurance.

### League Will Hold Ice Cream Social Today

This afternoon, Friday St. John's Episcopal league will hold its annual ice cream social at the home of Mr. and Mrs. Walter Sumner, 1078 West Ann Arbor trail, from 2 until 9:30 p. m.

Homemade cakes and sauces will be served with the ice cream, and, to please the children, there will be cones. Card games will take place on the lawn.

### Cooties Picnic to Aid Veterans at Maybury

A hospital benefit picnic, sponsored by Pup Tent No. 44 of the Military Order of the Cooties, will begin at 12 noon Sunday, July 11, at 42635 Schoolcraft road.

The gathering, which will be highlighted by contests and games, as well as refreshments, will provide aid for the veterans at Maybury sanatorium. The Cooties are the only local group aiding in the sponsorship of these veterans.

### THE TIMES IS RIGHT.

Once in a great while the Detroit Times says something editorially that is highly important as well as timely. In discussing the admission into this country of hundreds of thousands of displaced Europeans, The Times points out that we have many hundreds of thousands of displaced persons in our own country we have never done anything about.

These are the Indians we have crowded from the fertile fields of the east to the barren plains of the west.

What have we done to help the people we have displaced by our own selfishness and greed?

Nothing—not one thing. Ask Rev. Edgar Hoenecke of this city who has labored long and diligently to see to it that these DISPLACED AMERICANS are rightly treated. He can tell you plenty about our deplorable treatment of our own DISPLACED Americans. Yes, it is time we should be giving some consideration to our own backyard before searching the world to find other backyards to clean up.

### AGAIN, WE DISAGREE.

We do not agree in the slightest way with the statement of Robert H. Dunn, legal counsel of the Michigan Civil Service Commission, that the Commission cannot deny state jobs to members of the Communist party. Mr. Dunn says that until the Commission has evidence that an applicant for a state job is not a Communist, he must be hired, providing he has qualified otherwise under the civil service examinations.

It is our belief that the Commission CAN withhold approval of an applicant for a state position if there is doubt as to his loyalty to this country.

The powers of the Commission are broad—and it seems a queer thing to me that rulings are made which seemingly always favor these disloyal, cheating and no-good pests.

If new legislation is needed to tighten up on this problem, there is no question but what the legislature will do it, and do it quickly. But meanwhile there isn't the slightest reason why the Civil Service Commission should permit a single state position to be filled by any one even suspected of being a Communist. There is no place in public life for these filthy human beings.

### THE POINT OF DIFFERENCE.

Senator Elwood Bonine of the Cass-Berrien senatorial district who spoke before members of the Plymouth Kiwanis club recently, is one of the hard working, studious, and always-on-the-job members of the state senate. Whatever he does is done with the belief that it is for the good of Michigan. He doesn't play politics with his senate position.

During the course of his interesting remarks here, he said among other things, that the newly created state department of administration TOOK AWAY from the Governor many of his present responsibilities.

Senator Bonine supported the bill which created this new department. The writer of this editorial did not, and Senator Bonine pointed out the very reason for our opposition to it.

We believe that the Governor, who is the highest elected executive official of Michigan, SHOULD be directly responsible for every act that pertains to the state government. He is, by virtue of his office, the chairman of the state administrative board. He has, under both the constitution and state law, exceptionally wide authority—and to my way of thinking, the Governor SHOULD BE responsible for whatever takes place in the state government.

WHY should the responsibility for many, very many, of his executive duties be transferred to some APPOINTED official who is beyond the reach of the voters? After all, this is a government of, by and for ALL the people.

### Cause of Eagle Attacks Gussed

An amateur falconer—possibly an imitator of the internationally known lecturers who talked in Michigan in recent months on the ancient art of training hawks for hunting—is believed responsible for the genuine eagle attacks on humans at Riverdale in Gratiot county.

The bird, described as half-grown, first tried to attack Julius DeMeyer as he was driving his tractor in a field. DeMeyer got off the tractor and ran for cover.

A short while later when Sam Alexander was driving his truck in a pasture the bird flew straight at the truck, alighted on Alexander's arm and rested on an open window, closed its claws on his hand. He had to pry the bird loose, and captured it alive.

The bird's behavior suggests it was partly trained for falconry, and was alighting in normal fashion to be fed. Falconers, of course, wear an arm guard to protect them from the sharp talons.

Conservation department game men accustomed to find stries of eagle attacks on humans as hard to pin down as those of man eating wolves are following the Riverdale incident with keen interest. Dr. G. W. Bradt of the department's Rose Lake wildlife experiment station who investigated still is looking for the attacking bird, reported given by Alexander to a traveler. Federal laws protecting the national emblem bird are strict, and strictly enforced.

An Electric Roaster Oven Cooks Everything... Plugs in Anywhere

Wonderful in town... perfect in country! The new electric roaster-oven cooks a complete meal for from three to six, bakes a pie or cake—roasts a 20-pound turkey, can even be used for canning fruit. Take it with you anywhere—it will broil, roast, grill or fry to perfection wherever there's A-C current. You'll find portable electric roaster-ovens in your favorite appliance store now—see your dealer today!

**ROUGH IT... IN STYLE!**

Practical, versatile, foolproof, these family-size roaster-ovens come equipped with accurate thermostat and automatic timers. Ideal for touring!

**USE IT ALL YEAR ROUND!**

Summer or winter, it's perfect for keeping food warm. Use one for backyard picnics—as an auxiliary oven in the kitchen—or for hot dishes at buffet meals.

**LIKE HAVING A PART-TIME COOK!**

Weighing only about 20 pounds, constructed of durable steel, aluminum and enamel, your roaster is easily carried, easily cleaned. Priced from \$36.95.
