

Good Resolutions

Contributed by Murray O'Neil, First Reader of First Church of Christ, Scientist, Plymouth, Michigan.

The beginning of a new year is considered the time for starting over again, the time to make resolutions to be kinder, to be happier, to help others more, to overcome bad habits, to trust God more. Every day, every moment, we can cast out false concepts, or thoughts, and accept only the true. Our health and harmony depend on how thoroughly this is done.

Every day is a new beginning. Each morning we can start afresh and resolve to live the day according to our highest sense of right, with renewed perseverance, purified motives, and honest purposes. However, it takes more than human resolutions to rise above difficulties, no matter how noble these resolutions may be. The Scriptures declare (1 John 1:5), "God is light, and in him is no darkness at all." When we seek God first, above all else, then we shall assuredly find Him, and in finding Him we shall find the highest good, good that overcomes evil, good that endures.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, says in the Christian Science textbook, "Science and Health with Key to the Scriptures" (p. 15), "We must resolve to take up the cross, and go forth with honest hearts to work and watch for wisdom, Truth, and Love." God gives the wisdom and courage to meet any situation that may arise, and to prove that God, good, is the only power. Sickness, poverty, sin, war, are not God sent, but are errors caused by wrong thinking; and the understanding of God will overcome them. God is the loving Father of all, and does not send affliction. He sends only good. We need to become receptive to the good that He is constantly showering upon us.

We can begin today to claim our birthright of dominion over evil, and our inheritance of health, harmony, happiness, goodness. Christ Jesus, in telling the people how to overcome lack of good in their lives, said (Matthew 6:33), "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you." What and where is this kingdom that we must seek if we want good? It is within spiritual thinking. The Master also said that the only way to enter this kingdom or attain this consciousness of heavenly harmony so that good may be added to us, is to become as little children. Surely he must have meant that we must keep our thoughts free from envy, anger, pride, passion, and egotism, and learn to reflect the attributes of Love, in kindness, humility, purity, and selflessness. We can watch our thoughts more closely each moment and know that man, God's idea, reflects God, good. As we do this, we shall find that good will be added unto us in all our ways.

Today, when the world so greatly needs peace, needs to accept the Christ, Truth, "which taketh away the sin of the world" (John 1:29), we can do much wherever we are to help dissolve the world's discord by knowing that God is omnipotent and omnipresent, and that this ever-present and all-powerful good will be made manifest as we do our part in our own thinking to establish peace and righteousness. We can forget the mistakes and heartaches and errors of the past, and reach out and grasp God's hand, resolving to "go forth with honest hearts to work and watch for wisdom, Truth, and Love," and to reflect these qualities to all around us.

Religious Observances, Parties to Welcome New Year Tonight

Gaiety and solemnity will highlight observances of the New Year's arrival tonight, Friday.

Four religious groups have services planned to accompany the entry of 1949, and three other churches have a New Year's Eve party slated for the First Methodist church. The groups sponsoring the latter observance are: First Presbyterian church, St. John's Episcopal church and the First Methodist church.

Members of the Plymouth Assembly of God will attend a watch night service in the home of Mrs. O. N. Puckett on Haggerty Highway, announces the Rev. John Walasky.

The service at the First Baptist church will begin at 9 p. m., and include religious sound motion pictures, followed with a social hour and closing devotional candlelight communion service. It will be conducted by the Rev. Benjamin Eicher.

The watch night party for members of the Salem Federated church will take place at the home of Mr. and Mrs. Frank Biers this evening, states the Rev. C. M. Pennell.

New Year's Eve observances

for the Salvation Army will begin at 10 p. m. Members will gather at a watch night service, scheduled to open with a film, "Simon Peter."

The church sponsored dance slated for the Methodist church will open at 9 p. m., with mixed games and modern and old time dancing. At 11:15 p. m. a worship service will be held in the church auditorium, followed with the New Year's celebration at 11:50. A grand march, dancing, and refreshments are planned for that time.

Horton Booth, general chairman, asks that anyone wishing further information on the party contact him at 243-W.

City's Community Orchestra Wins Acclaim, Praise

Plymouth's Symphony orchestra was awarded a two page story in the rotogravure section of last Sunday's Detroit News.

Entitled "Orchestra for Everybody," it pictures 13 of the members at their respective stations in the musical group, giving also the profession of each.

Pictured were: Mrs. Christian Haller, first violin; Dorothy Zander, oboe; Paul Wagner, conductor; Andrew Luttinen, second violin; Ruth Campbell, soloist; Mrs. Marcie Woolweaver, cello; William Weichlein, bassoon; Ernie Wooster, flute; Mrs. Virginia Fischer, French horn; Arthur Baker, cellist; Julian Corey, trumpet; Mrs. Ardis Long, first violin; Carl Groschke, bass; Carl Carlson, second violin.

The story showed how "Plymouth offers all a chance to play." It further read:

"Where other communities might be overwhelmingly proud of their athletic teams, school enterprises or some other joint undertaking, Plymouth puts its trust in its symphony orchestra. The orchestra is now in its third year and is, anyway you want to measure it, a community undertaking. Even the rehearsals, which are conducted on Monday night, have a community social air about them with refreshments by groups which are rotated.

"The orchestra is the result of the enthusiasm of Paul T. Wag-

Earl S. Masticks Buy Old Family Home at Milford

After a period of approximately 40 years in other ownership, an ancestral home and farm has returned to descendants of the original settlers who took up the land from the government more than a century ago.

The farm is the place on Lone Tree road recently known as Schaack Farms and purchased from the Schaack brothers by the Earl S. Masticks of Plymouth. The deal, which has been pending over a number of months, was completed last Thursday when possession was taken by the new owners.

Mr. Mastick is the owner and manager of a farm implement and automobile business at Plymouth and Mrs. Mastick is the former Margaret Rowe. Both Mr. and Mrs. Mastick are former Milford people. They plan to eventually make the farm their permanent home and plan some changes and improvements. Mrs. Mastick is also the great granddaughter of Squire W. Rowe, who built the commodious field stone residence on the property, and her direct line of descent is through her paternal grandfather, James Rowe, and father, Grant S. Rowe. The Masticks have three children, Mrs. Betty Gauss, Nancy and Thomas Mastick.

The land includes 120 acres of meadow and wood lot and the farm group includes two large barns and numerous smaller buildings.

The land was taken up from the government by Daniel Rowe

(Continued on page 2)

Estimate of Xmas Mailing is Made

Estimates of the amount of mail handled by Plymouth's post office during this, the busiest month in its history, were made this week.

Mrs. Beatrice Schultz, assistant post master, discloses that the amount of out-going mail was 25 percent greater this month than it was a year ago. In actual figures it reads a total of 286,000 letters for last year, as against 385,000 for the same period this year. This number was based on the number of cancellations, Mrs. Schultz explained, and therefore does not include packages.

The exact number of packages mailed by Plymouth residents to points both throughout the country and world was not available, but all estimates place

New Mayflower Hotel Bar to Open Tonight

The new Hotel Mayflower bar will open tonight, Friday, announces Ralph Lorenz, hotel manager.

The recently completed new addition measures 30 feet by 80 and has a capacity of 80.

Both the interior of the building and the furnishings are of modern design.

Norwegian Woman Visiting City Wins Fame for "Word Blind" Work

Speaking in English sparked with an accent of her native Norwegian tongue, Miss Peten Ytterboe explained her quest for more knowledge on the subject of "word blindness," a quest which has brought her to the United States for further study.

Miss Ytterboe has won fame in her native country for work in the field, and was awarded a scholarship to Columbia university.

At the present time she is visiting with her sister and brother-in-law on Gold Arbor road, Mr. and Mrs. Oscar Davidson.

Explaining what the words "word blindness" mean, Miss Ytterboe stated it is also known as dyslexia, or "an inability to read, caused by a functional dis-

turbance in the left side of the brain where reading and writing centers are placed."

This discovery has been a joy not only to persons throughout the world afflicted with this disorder, but to their families as well. It means that a child who reads slowly or cannot read at all, or who gets letters of reading or written words misplaced, are not stupid or lazy.

These children just do not see words as those not afflicted with the disturbance. When they look at a word, they may only see a letter or part of the word, or may attempt to read from right to left.

Discovery of the existence of hereditary "word blindness" in between two and four percent of the people in the world was made by Miss Ytterboe while she was teaching elementary school in Norway. She instructed one group of students for a series of seven grades, "getting to know them all well," she added.

Community Fund Goes Over Top

Since announcement comes during the current holiday season that the total of receipts now on hand, together with promises of contributions, takes the Community Fund total over its goal, the achievement could easily be considered as a Christmas present for the entire city, states Richard Arlen, Community Chest president.

The total set for the drive was \$10,000.

Six Plymouth service groups receive funds from the annual campaign, Mr. Arlen reminded. They are, together with the names of persons in charge of their respective programs: Visiting Nurse association, Mrs. Cass Hough; Boy Scouts, Sidney Strong; Girl Scouts, Mrs. Edward Dobbs; Recreation commission, Herbert Woolweaver; Veterans Community Center, Jack Taylor; and Salvation Army, Captain William Roberts.

The local drive opened with breakfast in October which was

(Continued on page 6)

Library Closes Today; Staff to Attend Meeting

The Plymouth branch of the Wayne County library will be closed today, Friday, Mrs. Ada Murray, librarian, announces.

Branches of the library throughout the entire county will do likewise, she adds. A general meeting of the county library staff will be held on that day, at which all members of the local branch will attend.

EVANS NOT INJURED

The "Mr. Evans" who was injured in a collision with a bus at 7 Mile Road near Middlebelt on Christmas Eve was not Mr. E. S. Evans, Jr., President of Evans Products Company near Plymouth as had been erroneously reported in Detroit. The injured man was Mr. E. A. Evans of 15710 Ashton Road, Detroit, Michigan.

England Sends Greetings Here

The Lord Mayor's stamp headed the Christmas and New Year greetings which Mayor Frank Henderson received from the head official of Plymouth, England.

Sent to the chairman of the council, Plymouth, Michigan, it read, "On behalf of the citizens of 'Mother Plymouth' I send cordial Christmas Greetings to yourself and to your people. We wish you all happiness and prosperity in the New Year."

The message was signed, Alderman H. J. Perry, Lord Mayor Wednesday. Mayor Henderson cabled a reply, which stated: "For the citizens of Plymouth, Michigan, I respectfully wish to acknowledge with our sincere thanks your kind thoughts as expressed in your letter of the 16th.

"Our communications of the past have been most pleasant and we greatly desire they may continue."

"We of this city sincerely hope that the year 1949 will hold for you the greatest in peace and prosperity."

Salvation Army Aids 26 Families

Enumerating the Christmas-time services rendered by the Salvation Army, Captain William Roberts disclosed that 26 families were presented with a complete dinner.

A further breakdown of this number shows that it consisted of a total of 114 individuals. Gifts and toys distributed numbered 145, and 700 issues of the "War Cry," Salvation Army publication, were distributed to the patients at Maybury Sanatorium.

In addition to these services, the Salvation Army gave a Christmas party for 800 inmates at the Detroit House of Correction on Tuesday. They presented a program for the inmates and gave each a gift of candy and fruit.

New City Parking Area is Secured by City Officials

Development of a parking lot will be undertaken the latter part of January by the city on the property owned by Doctor A. C. Williams on the corner of Harvey street and Ann Arbor trail.

Civic officials recently completed negotiations for a two year lease on the property. The city will pay a nominal fee for use of the area.

A building on the property at the present time will have to be moved before work can start.

Upon completion it is expected that there will be parking spaces for 40 cars.

This is one of several plans for development of the parking area in the business district on which city officials are currently working.

Closely Guarded Plymouth War Secret, No Secret

Remember back to the days just after the end of the war—when it became known that the government had been making right here in Plymouth the highly secretive and effective Norden bombsights?

You will recall that this instrument attached to a bomber enabled the crew of the bomber to drop bombs almost directly on their targets. It was one of the highly successful air instruments used during the war.

Not a person in the Burroughs plant where they were being made ever revealed to any one outside the plant what was being made for the armed forces.

In fact not many within the plant knew what the instruments they were making in the plant were being used for.

They were shipped out in the greatest of secrecy. At night time an express car would be backed by local railway employees right inside the Burroughs plant.

Agent Leonard Millross of the Railway Express company saw to it that two armed guards were locked in each express car before the cars were attached to outgoing night trains.

These guards remained within the cars until they were unlocked in Chicago and the bomb sights turned over directly to army air officials who were waiting to take possession of them.

The manufacture of these Norden bombsights in Plymouth was without doubt one of the most closely guarded secrets of the government in the making of war supplies.

Now comes forth the startling report that all of this secretiveness was of no avail—that some spy up in New Deal circles in Washington had given all of the information about these bombsights to the Russians.

This information came out from Washington the other day when it was hinted that the congressional committee investigating un-American activities had secured a lead which indicated that the Russians were given

(Continued on page 6)

Total for TB Seal Sale Not Yet In

"It will be two or three weeks before Plymouth's response to the sale of double barred Christmas Seals by the TB and Health Society can be computed in terms of dollars and cents," Mrs. Joseph Witwer and Mrs. Horton Booth, co-chairmen of the local drive, announce.

This announcement was accompanied by the explanation that many business and industrial concerns have not as yet been heard from.

At the same time the chairmen expressed their appreciation of those who volunteered their services to help with the seal sale, and of those who contributed.

The mailing of the personal letters of solicitation was handled by Mrs. Neal Bowen and members of the Methodist Youth Fellowship, while Robert Wesley supervised the mailing to business and industry, and Edgar Brown was in charge of the typing and mimeographing of the letters. Further cooperation was given by Mrs. Mary Strasen who distributed canisters to all school rooms, and to Superintendent Helmer Nelson and Cyrus Pierce, principal of the high school.

Children Talk to Santa

Three year old Chris Gaffield, son of Mr. and Mrs. John Gaffield, takes advantage of the Junior Chamber of Commerce sponsored Santa Claus program, and enumerates the various items on his Christmas list. Santa set up headquarters in Kellogg park last Wednesday, December 22. Close to 1,000 children paid their respects to him at that time.

Mr. and Mrs. Arthur Sprague and son, Laverne, of Detroit spent Christmas day with Mr. and Mrs. Leonard Larkin of Ann Arbor road.

Marlee Smith Returns Home

Miss Neva Lovewell entertained at a luncheon at Botsford Inn on Tuesday on honor of Mrs. Phillip Hodsell, the former Emory Lou Hough. Those attending were Mrs. Cass Hough, Mrs. Emily Reid, and the remainder of the guests, who were former students of Miss Lovewell's; Mary Jane Christensen, Jacquelyn Dalton, Jean Murray, Nancy Goff, Natalie Reitzel, Marion Price, and Marion Kirkpatrick.

Although her condition is regarded as serious, Marlee Smith was brought home to spend the holiday season with her parents, Mr. and Mrs. Robert Smith. The couple's daughter has been confined to the University hospital since early fall with infantile paralysis. Marlee arrived home on Sunday, the day after Christmas.

Four Fires Are Reported Here

Four fire runs have been made by Plymouth's fire department since last Friday.

The first was received early Friday morning when a gasoline salamander exploded at Whiteman-Barnes. Damage was reported as slight.

That same day the department was called to extinguish the blaze in the car driven by Mrs. Harold MacKinder. The fire occurred on the corner of Starkweather and Spring street, and was caused by a short in the wiring. The damage was \$100.

One hundred dollars worth of damage was also reported in the house owned by Lee McConnell at 446 Starkweather when sparks from a chimney caused a roof fire on Monday morning.

The next day a grass fire was reported on the corner of Beck and Five Mile roads.

OBITUARIES

Mrs. Bertha M. Kingsley
Mrs. Bertha Kingsley who resided at 435 Starkweather avenue passed away suddenly Tuesday evening, December 28, at the age of 77 years. Her husband, Walter R. Kingsley, preceded her in death on September 26, 1947. Mrs. Kingsley has resided in this community for the past 39 years. Surviving are several cousins, other relatives and a host of friends. She was a member of St. Peter's Evangelical Lutheran church. Mrs. Kingsley was brought to the Schrader Funeral Home and later taken to her home. Funeral services will be held this Friday, December 31, at 2 p. m. from St. Peter's Evangelical Lutheran church with Rev. Edgar Hoenecke officiating. Interment will be made in Livonia cemetery.

If you have a social item or any other local news, phone 1755.

Earl S. Masticks Buy Old Family Home at Milford

(Continued from page 1) and his son, Squire W. Rowe, and they with their wives were among the early settlers of Highland township. They emigrated from New York state and settled on their land in 1835. The original farm included what is now the Henry Murdock place with a portion of Rowe lake included in their holdings. The earliest homestead was in log cabins overlooking the lake and after the highway was laid out, Squire Rowe built the present stone house using field stone and rough lumber from the place. Family tradition says that for the finish woodwork and trim he made a number of trips to Saginaw which was then a great lumbering and planing mill center. The cornerstone of the house bears the date of 1855 and the name of the builder.

Here the children of Squire W. and Dolly Rowe were reared and much family tradition and lore centers around the "Old Stone House" as it came to be known in the Rowe family. From this home the sons, James and Josiah, went out to fight in the Civil War and during this war period Squire W. Rowe was active in raising a company of men from Highland township for service in the Union army.

Following the death of Squire W. Rowe the farm was broken up in settlement of the estate, James Rowe acquiring the land on the south side of the road and S. Lowell Rowe taking the north 120 acres and the old stone house. S. L. Rowe sold his farm to the McIntyres about 1909 and it has passed through a number of hands in the intervening years. One of the best known owners hereabouts, was the late Maurice Fitzgerald, Detroit lawyer, who purchased the place in the 1920's and occupied it until the time of his death. Fitzgerald made a number of notable changes which included a huge stone fireplace in the living room, a portico over the drive, two matching closed porches on the front and a stone wall enclosing the shaded lawn. Generally, however, the room arrangement is much as it was originally.

Cassady's Takes First in Contest

(Continued from page 1) the company that he had won a General Electric combination radio-alarm clock for the outstanding window display.

A total of 130 stores participated in the promotion program. Within each store a prize of a blue leatherette velvet lined box filled with three pairs of the hose was awarded to the person with the largest number of sales. At Norma Cassady's, it went to Leatha Kempton.

STRONG ARMS FOR TELEPHONE POLES— Ever stop to think how much extra weight an ice storm can add to telephone wires? Cross-arms on telephone poles must be strong enough to stand up under the strain. Here you see a Bell Laboratories hydraulic testing machine bending a crossarm to the breaking point. Southern pine and Douglas fir crossarms can carry nearly 2 tons weight.

ONE UP ON NATURE— During the war Bell Laboratories scientists found a way to grow synthetic crystals better in some ways than natural quartz. A "seed" crystal is produced by evaporating chemical salts, then rotated in a chemical solution which causes deposits to build it up to many times its original size. Crystals vibrate at exact frequencies, separate the many telephone messages travelling over a long distance line.

BETTER AND BETTER— In the 72 years since the telephone was invented, there have been more than 18,000 additional inventions — an average of 260 a year — that have contributed to its development. Many recent ones are playing a part in Michigan Bell's big service improvement program — rural areas.

LEGALS
Petitioner: Mary G. Sackett
Plymouth, Michigan
No. 364,881
At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the Sixth day of December, in the year one thousand nine hundred and forty-eight.
Present James H. Sexton, Judge of Probate.
In the Matter of the Estate of MARGARET GUST EVANICH, Deceased.
On reading and filing the petition of Mary G. Sackett praying that administration of said estate be granted to Kenneth A. Gust or some other suitable person:
It is Ordered, That the Tenth day of January, next, at two o'clock in the afternoon at said Court Room be appointed for hearing said petition.
And it is further Ordered, That a copy of this order be published once in each week for three weeks consecutively previous to said time of hearing, in the Plymouth Mail, a newspaper printed and circulating in said County of Wayne.
JAMES H. SEXTON, Judge of Probate.
(A true copy)
THOMAS F. McMILLAN
Deputy Probate Register.
Dec. 17-24-31, 1948
Attorney: Nandino Perlongo
Penniman Building
Plymouth, Michigan
No. 364,959
At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the Ninth day of December, in the year one thousand nine hundred and forty-eight.
Present James H. Sexton, Judge of Probate.
In the Matter of the Estate of HARRY C. ROBINSON, Deceased.
On reading and filing the petition of the last will and testament of said deceased having been delivered into this Court for probate:
It is ordered, That the Eleventh day of January, next, at ten o'clock in the forenoon at said Court Room be appointed for proving said instrument.
And it is further Ordered, That a copy of this order be published once in each week for three weeks consecutively previous to said time of hearing, in the Plymouth Mail, a newspaper printed and circulating in said County of Wayne.
JAMES H. SEXTON, Judge of Probate.
(A true copy)
THOMAS F. McMILLAN
Deputy Probate Register.
Dec. 17-24-31, 1948
Attorney: J. Rustling Cutler
193 N. Main St.
Plymouth, Michigan
At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the eighth day of December, in the year one thousand nine hundred and forty-eight.
Present James H. Sexton, Judge of Probate.
In the Matter of the Estate of MARY E. INGRAHAM, Deceased.
On reading and filing the petition of Ralph G. Lorenz, Executor of the last will and testament of said deceased, having rendered to this Court his first and final account in said matter and filed therewith his petition praying that this Court construe paragraph third of said last will, that he be instructed as to the payment of legacies and in event that James Kontner shall take the legacy under said paragraph third a trustee be appointed to take same:
It is ordered, That the Thirteenth

THIS WEEK IN Washington

WHAT WILL THIS NEW YEAR BRING FOR ME?

For a comparative few the deliberations of this new congress which convened this week may mean little, but for the great majority of the American people in the home towns and rural communities of the nation the answer to the 64-dollar question is to be determined largely by how this congress carries out the platform pledges of the Democratic party and the campaign promises of President Harry S. Truman.

Unfortunately the answer cannot come soon. Likely it will be five to seven months into the new year before much of the proposed new legislation gets onto the statute books. For gathered here in Washington today are powerful interests representing the forces of many opposing factors determined to stage a last ditch stand to defeat many of the Truman proposals, particularly where federal government regulation is involved.

The powerful pressure lobby groups have already started the propaganda mills rolling in the fields of economics, education, health, extension of social security legislation, the arm program, housing, labor, public power, and reclamation. During the next few months you will hear much of "socialism" and "socialistic trends." Already the charge has come that the government is seeking to destroy the profit system and private enterprise. From the opposite source comes the charge that corporations are hoarding money, piling up surpluses and reducing mass purchasing power to create an artificial depression.

Hearings have been underway for weeks seeking to determine whether corporate profits are too high. Facts are that profits have quintupled since pre-war when they ran almost four billion dollars. During the years of the war when there was a measure of government control, profits leaped to 10 billions. In 1946 they were almost 13 billions; in 1947 they were about 18 billions, and this year more than 20 billions... some sources say as high as 29 billions.

For the same period, however, wages have only doubled and in many of the non-union fields, have not even doubled. In the hearings before the senate committee the corporation heads pleaded that their profit dollars were only 60-cent dollars this year. But, so are the wage dollars only 60-cent dollars and the money in the pay envelope will buy less than right after the war before OPA was liquidated. There is some evidence to back up the charge that corporations are hoarding money. During pre-war years corporations normally paid about 70 percent of profits in dividends. In 1947 they only paid 40 percent, and this year only 35 percent, or just half of pre-war dividends... and only about 6 percent went into plant extensions and improvements.

In the meantime, average farm prices are sliding down the toboggan. Corn was down to the lowest point in two years and a further slide of all farm prices during the coming months appears in the picture, with the farmers' producing costs still holding the highest in history, about 7 per cent over 1947. So what this congress does about farm prices and other prices, what it does about corporate profits, what it does about wages, is highly important to the economic picture of what happens to the folks in the home towns of the country.

This reporter predicts that the congress will boost the minimum wage to at least 75 cents an hour; enact a rigid instead of a sliding farm price support program, and pass an excess profits or increased corporation tax in higher brackets to slash corporate profits. Further move to hold profits in line will likely come from strengthening of the anti-monopoly laws.

Six of the first 12 states having the highest per capita income are western states and believe it or not the highest is Nevada with a per capita income of \$1,842. Other western states in the group are California, Colorado, Montana, North Dakota and Wyoming. Five of the top 12 are northeastern states and include New York, Connecticut, Delaware, New Jersey and Rhode Island. Only one mid-west state, Illinois, is in the first dozen. Number 48 on the list is Mississippi with \$659 and next lowest is Arkansas with \$710 per capital income.

On the subject by an eye specialist at Copenhagen, but she was unable to visit him until after the war. When she did they compared notes and found that the method of treatment she had instigated was similar to his.

Miss Ytterboe studied under him, and he instructed her to go back to her country and start a movement of education there. The idea seemed like a big undertaking to her at the time, but on her return she began having stories published in the teacher's newspaper and interest began to grow in large proportions.

With a knowledge of the existing disorder, teachers are much better prepared to work with students afflicted, she contends. She also believes that the best way to tackle the problem is not to take the student out of class permanently, but to take him or her out for short instructions each day, rejoining the group in a couple of months.

Common in both this country and where adequate knowledge and procedure of instruction are not available, these students are commonly placed in a class with students who are mentally retarded. "This is the worst possible thing that can happen to students who have not only normal,

but sometimes high I. Q.'s. Miss Ytterboe helped organized a Word Blind association, the first of its kind, in Norway. To date they have sent funds to the government to finance the teaching of the "word blind" problem to all future teachers. Other funds they appropriated also made a special class available last summer for teachers.

While in this country Miss Ytterboe has been visiting numerous schools to further carry on her study of the presence of the disorder. In addition to this, she has attended a two week lecture series at the University of Michigan where a group of veterans are enrolled in a speech clinic. They received wounds during the war which resulted in speech difficulties, many of which brain injuries resulting in "word blindness."

While on the subject of the injured veterans, she stated that those acquiring "word blindness" through an accident after birth, are much more difficult to treat than those acquiring it through heredity.

While at Columbia she will study with a professor who has done considerable work on the subject of speech difficulties, in an attempt to better equip herself to carry on her crusading work in the field.

In June Miss Ytterboe will return to her own land and help students there overcome a handicap which might otherwise go through life with a feeling of inferiority over their inability to read and write.

Check the Price — check the Policy —
"Buick's the Buy!"

EVER since this '49 Buick made its bow, we've been telling you it's a buy.

We've invited you to match it—feature by feature and dollar for dollar—with anything else offered to you. You can start with the delivered prices shown here.

But don't stop with that. Check the policy under which Buicks are sold—and see for yourself that Buick means a better deal as well as a better buy!

Briefly, our Four-Square sales policy is this:

1. **NO PRICE PADDING!** We guarantee our prices to contain nothing but charges that were standard practice in figuring prewar delivered prices. You receive an itemized bill of

sale showing all charges. And we display our prices in our showroom.

2. **NO "LOADING" OF UNWANTED ACCESSORIES.** All cars are delivered with accessories as ordered. We pledge ourselves to add no "extras" you do not want.

3. **NO COMPULSORY TRADE-INS.** Selling used cars is part of our business. Naturally we like to take cars in trade. But you do not have to sell your car to us! We will take your order, and deliver your car, without requiring a car in trade!

4. **NO COLLUSION WITH "GRAY MARKETERS."** We will not knowingly be party to a sale of Buick cars to any individual who operates in the "gray market." Our interest

is entirely in delivering cars to bona fide customers.

In other words—you know exactly where you stand when you buy a Buick. What you get—what you pay—all the details of the deal open and aboveboard.

So we repeat: Check the price. Check the policy. Buick's the buy any way you want to look at it.

TODAY'S DELIVERED PRICES

Mother and Sister Arrive From England in Time for Christmas

The best Christmas present of all for Arthur Lock was the presence of his mother and sister as he and his family gathered for observance of the holiday season.

Both arrived from England a short while ago. His mother had been here 15 years ago, but this is the first time he has ever seen his sister.

Forty years ago Mr. Lock came to this country. His father had come before him, settling near Alpena where he went into lumbering. He built a home, but had to go back to England, never to return.

He incensed his son with a desire to come to this country, convincing him that it was here where his opportunity lay.

Making the journey alone, the young boy finally settled in Plymouth. He got work at Daisy Manufacturing company where he was employed for 22 years. At the present time he is a member of the Wayne County Training school staff.

His mother and sister, Mrs. Florence Lock and Mrs. Kathleen Ennis, will be here for six months. Accompanying them was Mrs. Ennis' son, Tony. Another

remained in England where he is apprenticed in watch making.

Questioned about conditions in England, the two described them as "picking up". What they went on to describe, however, were conditions completely foreign to present day life in this country.

Bananas are available now only for children, and one can purchase one pound every three months. One shilling worth of meat is available once a week, and flour and bread are now off the ration list. Persons are limited to two and a half pints of milk a week, their description of conditions continued.

Once a month each person is entitled to half a bar of soap in England, and one small packet of powder. A half pound of sugar is apportioned a week, one ounce of vegetable fat, and two

Community Fund Goes Over Top

(Continued from page 1)

attended by volunteers who later that day covered the business district. Present were, co-chairmen Captain William Roberts and James Houk, and Mrs. George Bauer, Mrs. Edward Dobbs, Mrs. Eleanor Johnson, Mrs. Thelma Cushman, Mrs. C. D. Packard, Mrs. Leo Kowalcik, Mrs. Adrienne Gates, Mrs. Ann Chappel, Mrs. L. B. Rice, Mrs. Myra Benson, Mrs. Florine Smith, Herbert Wolweaver, Patrick McGuire, Frank Arlen, Cass S. Hough, Mrs. James Scott, Jean Tucker, Mrs. Mildred Barnes, Mrs. Walter Sumner, Mrs. Eleanor Gust, Mrs. Edna Lantz, Mrs. Walter Hammond, Mrs. Frank Arlen, Lincoln Lantz, and Mrs. F. R. Hoheisel.

The afternoon a tea was held in the Veterans Community Center for volunteers who made the house to house canvass of the city.

Those workers were: Mrs. H. A. Means, Mrs. W. B. Ransel, Mrs. C. W. Schuler, Mildren Hewer, Mrs. Jane Carmichael, Mrs. F. R. Hoheisel, Mrs. Lester Hoef, Mrs. Ivah Thrasher, Mrs. Belle Young, Mrs. Richard Daniel, Mrs. O. M. Valliquette, Mrs. C. C. VanWagoner, Mrs. Cecile Packard, Mrs. John Henderson, Mrs. Dora Hon-dorp, Mrs. L. P. McGuire, Mrs. E. Bridge, Mrs. E. J. Mulry, Mrs. Mina Williams, Mrs. Vivian Campion, Mrs. Lillian Burden, Mrs. Carol Tait, Mrs. M. C. Litchow, Miss Shirley Keel, Miss Dora Gruebner, Mrs. Emily Mosher, Mrs. Margaret V. Saxton, Mrs. Lucille Keefer, Mrs. Walter Sumner, Mrs. Frank Arlen, Mrs. Austin Stecker.

Mrs. Arlen stated that the credit for the success of the campaign goes to all these persons who helped with the drive, and to those local residents who contributed and answered the appeal for funds.

Stock market rule of a cynic: The time to sell is when you're thinking of buying.

Estimate of Xmas Mail is Made

(Continued from page 1)

the increase between 20 and 25 percent.

Incoming mail, however, far surpassed all local outgoing mail, and is believed to be at least 50 percent greater than the amount handled by the local post office last year.

Mrs. Schultz has described it as a "good Christmas season at the post office", and expressed appreciation of the cooperation given by local residents.

Everything that arrived in the Plymouth office Friday morning was delivered in time for Christmas, she adds. In addition to this, delivery of perishables and special deliveries were made on Christmas morning. Although this held true only in the city, postal officials called many families living outside the city limits to tell them that such mail had arrived in their name. In many cases, the people drove in and picked it up, Mrs. Schultz said.

Closely Guarded Plymouth War Secret, No Secret

(Continued from page 1)

complete knowledge about the Norden bombsight even before the government started making them in Plymouth. But the hundreds of loyal American workers who were employed at the Burroughs plant during the war, as well as the railway and express employees of Plymouth can always be proud of the fact that not one word ever got out about the manufacturing of these bombsights in Plymouth until after the war ended.

"may I ask just one question please?"

What do YOU want most when you travel?"

- "Who, me? I want lots of schedules... and prompt arrivals..."
Then Greyhound's for you. There are many departures daily, timed at most convenient hours—and they will save you a lot of time, when you travel!
- "Everything's so high these days—I want to save money!"
Lady, you'll save real money on every Greyhound trip. Fares are lower than any other form of transportation—costs much less than driving your own car.
- "I'm interested in getting home from school on week-ends."
Then go Greyhound! It serves hundreds of schools and colleges in all 48 states—very often stops right at campus gates, and quite near your own door at home.
- "I like to see things... meet interesting people... have a good time."
It's truly more fun traveling Greyhound—you meet so many congenial people—see America's beauty spots close-up, as you can see them only by highway.
- "I'm a salesman... I have to stop at all the little towns!"
Well sir, Greyhound's going your way! Its Super-Coaches serve all the big cities—stop at thousands of small towns and communities in between.
- "I'm way past 50—just give me comfort, relaxation."
There's real riding ease in deeply-cushioned chairs that recline to any desired angle. Greyhound drivers are world-famed for safe operation, courtesy.
- "If your reply is like any of those above, you can save money, yet have a better time—on most any out-of-town trip! That's Greyhound, where you travel in sleek Super-Coaches built for long-ride, all-weather travel ease. Yes, your best travel bet is to see or phone your local Greyhound agent, next time you plan a trip anywhere in America!"

GREYHOUND TERMINAL

Washington Blvd. and Grand River Ave. Cadillac 9000

GREYHOUND

By REV. ROBERT H. HARPER
The World in Which Jesus Lived.

Lesson for January 2: Galatians 4:4; Luke 2:1-7; Matthew 22:15-16; 23ab.

Memory Selection: Galatians 4:4.

DURING six months of 1948 we shall have studies in the life of Jesus—in the first quarter events in the Galilean ministry. Passages of today's lesson are so grouped as to give a picture of the world in which Jesus lived.

These passages show that the world of Jesus was that of the Roman Empire, his province was Judea, and his native city Bethlehem. Augustus was emperor when Jesus was born; Tiberius when Jesus was crucified.

The temple was still the center of Jewish religion. When Jesus was twelve, Joseph and Mary went with him to the passover in Jerusalem. Shortly before Jesus entered upon his ministry, John the Baptist, his great forerunner, came preaching in the wilderness of Judea.

Several sects were rivals for influence among the people, chiefly the Pharisees and the Sadducees. They were bitter opponents of Jesus and his work.

It was indeed the fulness of time when Jesus came. The wide conquests of Rome had brought enforced peace to the greater part of mankind. The Greek language was understood by all cultured men. Lines of travel had been extended by land and sea. And there was a growing expectancy of some great event for mankind. It was an opportune time when Jesus came. Let us find in the conditions of the present an opportune time for the wider spread of our Lord's kingdom.

FIRST CHURCH OF CHRIST SCIENTIST

Sunday Morning Service, 10:30 a. m. Sunday School, 10:30 a. m. for pupils up to 20 years. Wednesday evening testimony, 8 p. m. "God" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, January 2. The Golden Text (IISamuel 22:31,32) is: "As for God, his way is perfect: the word of the Lord is tried: he is a buckler to all they that trust in him. For who is God, save the Lord? and who is a rock, save our God?" Among the Bible citations in this passage, (I Chron. 29:11): "Thine O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty: for all that is in heaven and in the earth is thine; thine is the kingdom, O Lord, and thou art exalted as head above all."

Sunday school for pre-school, kindergarten, first and second grade pupils; 11 a. m., Holy Communion and sermon. 5 p. m. Adult Confirmation class. Monday, 7:30 p. m., Scout meeting, Troop P-2. Tuesday, 7:30 p. m., Ceramics class sponsored by St. John's League. Wednesday, 7:15 a. m., Midweek celebration of Holy Communion. 1 p. m., afternoon League meeting at the home of Mrs. J. P. Morrow. 8 p. m., Evening League meeting at the home of Mrs. Albert Dayton. 7:30 p. m. Choir rehearsal at the church. Thursday, the Feast of the Epiphany; celebration of the Holy Communion at 10 a. m. The St. John's Guild will meet in the church at 1 p. m. At 7:00 p. m. there will be a presentation of the Feast of Lights Pageant, open to the public. Friday, 4 p. m., Y.P. Confirmation class. In the Church Year the Feast of the Epiphany is celebrated twelve days after Christmas. This is the time when the three Wise Men from the east came to visit the Christ Child in the manger at Bethlehem. It was Christ's first contact with the outside world, and from this showing forth of Christ to the gentiles the day gets its name, Epiphany. It has become traditional in many Churches to celebrate this showing forth of Christ with a pageant, called the "Feast of Lights." Such a pageant will be enacted at St. John's Episcopal church on Thursday evening, January 6. It will begin at 7:30 and is open to the public of course. The rich symbolism of the (spread of light) from the one light on the altar which represents Christ makes this a impressive and beautiful service which all will enjoy, both young and old. Under the direction of Mrs. Nelson Alles, the cast of characters will include: the three shepherds, the three wise men, the twelve apostles and several of the early saints of the church. Special music is being arranged by Mrs. Roland Bonamico, organist at St. John's church.

STARK GOSPEL MISSION
Rev. Orville Wendell, pastor
One Block South of Plymouth Rd. West of Stark Road

Sunday school, 2 p. m. Sunday service, 3 p. m. Mid-Week Prayer on Wednesday at 8 p. m. Ladies' Cottage Prayer meeting, 2:30 p. m. Thursday.

Sports Director Reveals Girls' League Status

The following is a letter from Herb Woolweaver, city recreation director, to the sponsors of the girls league teams.

Gentlemen:

Due to the inadequacy of gym space in Plymouth for girls basketball, I have found it necessary to curtail the program that I had originally planned for them. I had hoped that they would get to play as many games as the men, but the girls will be limited to nine games each and the men 15 (not counting the playoffs).

With this unbalanced ratio as it is, I feel that the entry fee for the girls should be reduced to \$30.00. Sponsors of the girls teams will find a check for \$5.00 inclosed as a refund in order to come a little closer in balancing the two leagues.

You might be interested in a brief financial budget of our basketball program. Following is a resume including estimated expenditures.

Receipts entry fees for six teams \$240.00

Estimated expenditures

Officials	202.00
Gym Rentals	85.00
Balls and Awards	102.00
	\$389.00

To break even-\$389-\$240-\$149 possible gate receipts

Receipts entry fees for four teams \$120.00

Estimated expenditures

Officials	81.00
Gym Rentals	105.00
Balls and Awards	66.00
	\$252.00

To break even-\$252-\$132 possible gate receipts.

I haven't charged admission or taken up a collection as yet, but I plan to start out with the donation method, try that for a while and if that doesn't prove as it should then I'll make a set charge at the high school games and continue with the donation policy at DeHoCo (on the visitors side only).

Sincerely,
Herb Woolweaver

Skating Halted at Nearby Lakes

After one day's ice skating at Wilcox lake, old man weather intervened with a warm rain which halted the proceedings. Last winter Wilcox and Newburg lakes had approximately 11 days of skating in December, but that is not going to happen this year.

Wilcox had one day and Newburg none. Winter is having a tough time as far as winter sports enthusiasts are concerned. Thus far snow has covered the ground only two days and the thickness of the ice has allowed but one day of skating as mentioned above.

When there is ice skating at Wilcox, a sign signifying such will be posted in front of the city hall. Also when sufficient snow arrives sledding will be available on Pacific avenue from 3 p. m. on every day of the week.

Joe's Jottings

by Joe Miller

One of the greatest years in the history of sports will be flying out the window in a few hours. Before the old year goes we should all recollect what a grand year it was for sports. In addition to the nation at large having a successful year, Plymouth had a few notable achievements itself in the world of sports. First of all on the evening of January 23 the Plymouth Rocks cage squad rolled over a hapless Trenton five 45-27. What a sweet victory that was for the local lads and John Klingeberger. For the latter it was his first game at Plymouth.

Next in chronological order was the Plymouth track team finishing second to Ypsi in the league. Plymouth sent nine fellows to the state track meet. From that list George Buddy finished third in the half mile and Jim Wagenschutz tied for first in the pole vault with a jump of eleven feet five and one half inches.

In the late summer the state softball Class B tournament was held on the high school athletic field. Most of these games were under the lights. The winner of the tourney was the crack Detroit House of Correction squad, representing Plymouth. This spectacle was brought to the city fans through the efforts of Ralph Johnson, Ypsi recreation director, and Herb Woolweaver, Plymouth recreation head.

We hope 1949 will be as successful as 1948 in sports. The next year would be something to look forward to if the following items were secured. Coach Klingeberger would be satisfied with a six foot ten inch center something on the order of George Mikan. The Rocks cage team would be happy with a new gym. Then some day the squad could practice. A new gym would also satisfy Herb Woolweaver's needs for the recreation basketball program.

All John Sandmann, Rocks baseball mentor, needs is another pitcher to go along with Jack Scheel and Mickey Brown. Another George Buddy would make Coach Kon Moiso leap up with joy in track season. Eddie Bender could settle back if he had two bone-bruising linemen and a speedy back. A prosperous season such as the past one would be all right with Earl Gray of the Inter-County baseball league. Wouldn't it be marvelous if half of these things came about.

After attending "The Babe Ruth Story" one can readily see why Hollywood is going to the "dogs". The movie about baseball's greatest hero could have been made into a fine picture. It could have been, but it wasn't. The directors thought that they had to put gamblers into the picture. In every sport picture the gambling element is evident. It isn't that way with sports. For the most part sports are free of big time gambling. Another thing which made the movie poor was the fact that almost every other scene was sad. The directors actually made a supposed "tear jerker" from the life of a man, who was so full of spirit and fun. Someday Hollywood might turn out a decent sports movie.

Nobody cares how low the price of a stock goes so long as he doesn't own any of it.

If an attractive woman gives a man too much encouragement he regrets it eventually.

Riverside Figure and Dance Club Prepares for Annual Roller Revue

The Riverside Figure and Dance club is presenting its seventh annual roller revue on February 27-28. Everyone is preparing for the big event at the Plymouth road roller rink. All club members are to take part.

The committees are as follows: costumes, chairman, Mrs. Jack Barnes, Mrs. James Snider, Mrs. Scano, and Mrs. Stammnitz; program committee, Mike Zelyi, chairman, Doug Milne, Earl French, and Mrs. L. J. Sowle; property committee, Mr. Rhuele, chairman, Richard Ryan, Mrs. L. J. Sowle, Mr. Jack Barnes, Mr. J. Snider, Mr. McMillin; publicity and advertising committee; Mrs. L. J. Sowle, chairman, Mike Zelyi, Pat Bowe, Paul Rorie, Joanne Tate, and Joan Stammnitz.

This evening a big new year's party will be held from 8 p. m. on through the night.

Class D League Starts Wednesday

Although too much interest wasn't shown, a Class D league will finally begin Wednesday evening at the high school.

First team, Hoots, Heeses, Rockets, and Shamrocks are now entered. The winner of the league will not be allowed to enter the state D championships, because several of the boys are over the age limit of 18.

The boys will have their games at the high school and at the Detroit House of Correction. Two rounds will be played and the league will conclude on March 2.

All City Boxing Matches To Be Held in January

Plans are now being made by Mike Spitz, boxing impresario of Plymouth, to hold all city boxing matches sometime in January.

Also a district golden gloves tournament will be held in Adrian in February.

The regular boxing schedule in room 204 in the city hall is: Tuesdays, Thursdays, and Fridays, boys between the ages of 7-12 work out from 4:30 to 6:30 p. m. Those 13-21 inclusive work out from 6:30 to 9:30 p. m. the same evenings. Boys and visitors should use the back stairs at all times.

True gentleness is founded on a sense of what we owe to Him who made us, and to the common nature which we shall share.

—Blair

LOCAL NEWS

The Grange will meet on Thursday evening, January 6, with the usual pot luck supper at 7 p. m. in the Grange hall.

The Townsend club will meet Tuesday, January 4, at the Grange hall. Pot luck supper will be served at 6:30 p. m.

City Cagers Resume Monday

After enjoying a two weeks vacation the city basketball leagues will resume action on Monday, January 3 at the high school. Fourteen games including those of the men's, women's, Classes D, E, and F, will be played from Monday to Saturday.

On Monday in the men's league a thrilling game is in store for the fans as second place Northville hooks up with Tait's Cleaners on the high school floor at 8:30 p. m. Tait's and Northville each have suffered a close defeat at the hands of the league leaders, First National Bank. The former lost by two points and the latter lost by four. The game may well turn out to be a battle between two high school coaches, Ketter and John Sandmann. Ketter is Northville High's cage coach while Sandmann is an assistant basketball coach at Plymouth. This game is the feature of the week on the city league card.

First National Bank plays once this week meeting Sport Shop at 8:30 on Thursday at the high school. Thursday evening will also see the girls' leaders, Oldsmobile, playing the Plymouth Mail quintet.

The kids leagues will also see action on Saturday morning, January 8 at the high school. The Class D slate will begin Wednesday evening on the school court.

Graham's Still Holds Ladies' Bowling League

A three game lead is held by the Graham's quintet over Stroh's in the ladies recreation classic league. Graham's has had possession of the first place berth for the past several weeks.

After the leaders come Box and Dunning's tied at 36 wins and 28 losses. The remainder of the squads are spread out with Daisy Air Rifles on the bottom with only 17 wins.

Barbara Kane is Bride of Recruit Jarold Jarsky

Decorations following a Christmas theme were used in the home of Barbara Keating Kane on Canton Center road, Wednesday, December 29, when the ceremony was performed by Judge R. Rusing Cutler which united her and Rct. Jarold J. Jarsky in marriage.

The bride is the daughter of Mr. and Mrs. Wilfred E. Cann of New York City, and Rct. Jarsky is the son of Edward Jarsky and Mrs. Julia Hoffman.

The bride's father gave her in marriage at the 6:30 p. m. ceremony. For the occasion she wore a floor length shell pink chiffon gown, and a string of pearls which were a gift of her father. The bride's flowers were gardenias.

Geraldine Card, niece of the bride, attended her, wearing a dress of ivory moire. John Burke of South Lyons acted as best man.

Mrs. Cann chose a dress of dark blue net and a white rose corsage for her daughter's wedding.

The bridegroom's mother wore a blue and white southern print dress. Her corsage was of pink roses.

A reception at the bride's home followed the ceremony. Among the out of town guests attending was Mrs. W. J. Zwick of San Francisco.

Rct. Jarsky is a graduate of Plymouth High school, and Mrs. Jarsky was graduated from Grove Park school in Ashville, North Carolina.

A brown suit and accessories was worn by the bride as the couple left on their wedding trip east.

Caryll Cushman Annabelle Hall Betrothal is Told

Miss Annabelle Hall

Newly Arrived...

Mr. and Mrs. Roy W. McAllister of Saginaw, former residents of Plymouth, announce the birth of a daughter who was born December 10 at Saginaw General hospital. They have named their daughter Nancy Gay.

A son was born to Mr. and Mrs. Donald Schroeder on December 24, at Beyer hospital in Ypsilanti. Mrs. Schroeder is the former Louise Edwards.

Mr. and Mrs. Daniel Perkins are the parents of a baby girl. Mrs. Perkins was formerly Dorothy Schroeder.

The baby girl born to Mr. and Mrs. Charles A. Burden of South Union street has been named Sandra Lorraine. Born on December 22 in Sessions hospital, her weight was registered as six pounds.

December 20 was the birthday of Larry Alvin Walton, the new son of Mr. and Mrs. Wesley A. Walton of South Main street. Sessions hospital officials report his weight as eight pounds and twelve ounces.

Mr. and Mrs. William Lucas of Ann street announce the birth of a seven pound, fourteen ounce son, Gary William, on December 20. The mother is the former Evelyn Wolff of Livonia Center.

If there lives a woman who wouldn't rather dine with a man than another woman. We don't know her and don't want to meet her.

Cooking Aspirants Given Last Chance

Those people desiring to enter a cooking class are asked to get their entry fees in before January 3, the deadline for the class. The first 20 people will make up the group.

The proposed class will be under the direction of Miss Claudess Bradley and Rolfe Smith. Miss Bradley is head of the home service department of the Consumer Power company.

The \$2.50 fee is scheduled to be charged for a six week course which will include meals. Checks are payable to the city recreation department.

Women to Hear Story of Linen

Hugh H. McNeill

On Tuesday evening, December 22, Dr. and Mrs. Harry S. Hall of 1937 Ninth avenue, west, Seattle, Washington, announced the engagement of their daughter, Annabelle, to Charles Caryll Cushman, son of Mrs. Charles C. Cushman and the late Mr. Cushman of Plymouth.

An open house was held at which approximately 50 friends and relatives attended, and tiny parchment scrolls announced the betrothal of the young couple. The tea table was decorated with holly and red candles carrying out the Christmas theme. Mrs. Walter C. Dibrell of Ketchikan, Alaska, and Mrs. Stanton J. Hall of Everett, Washington, aunts of the bride-to-be, poured.

Mr. Cushman is spending the Christmas holidays with Miss Hall and her parents in their Seattle home, after which they will both return to Michigan.

Miss Hall attended Whitman college, Walla Walla, Washington and is a graduate of the University of Washington, Seattle, and The Business Institute, Detroit. Mr. Cushman served with the United States Navy and is at present attending Michigan State college in East Lansing.

No definite date has been set for the wedding.

Eastern Star News

There will be a practice Monday at 7:30 p. m. for all officers.

The regular business meeting of Plymouth chapter O.E.S. No. 115 will be held Tuesday afternoon, and will open promptly at 7:30 p. m.

A pot luck dinner will be served at 6:30. All members are asked to bring a dish to pass.

The annual school of instruction will be held Tuesday evening at 7:30 in the Plymouth Masonic Temple, in conjunction with members of Orient chapter of Northville, who will be the guests for dinner.

The school will be conducted by Etha Jeffrey, worthy grand matron of the Grand Chapter of Michigan Order of the Eastern Star. All members are urged to attend.

The annual Masonic-Eastern Star Christmas party was well attended with over 200 present.

A pot luck dinner was served at 6:30 p. m. after which a short program was given by Edward Coughell, who later led the group in the singing of Christmas carols.

The high point of the evening was reached when Santa Claus

With "A Home is a Creation of the Heart" chosen as the theme of the Woman's club meeting for Friday, January 7, Hugh H. McNeill has been selected as the day's speaker.

Mr. McNeill, who is counselor on fine linens for the J. L. Hudson company, will tell "The Story of Linen", announces Mrs. Joseph Witwer, program chairman.

The chairman further disclosed that the January meeting will be guest day.

Giving a brief summary of the featured speaker's topic, Mrs. Witwer stated that Mr. McNeill will trace the history of fine linens from the kings and princes of ancient Egypt up to the present day.

He was educated in Ireland, and attended the Institute of Technology in Belfast where he majored in linen manufacturing. He has had 30 years experience in household and decorative linens.

Members of the club who will act as hostesses for the day are: Mrs. Wyman Bartlett, Mrs. Frank Dunn, Mrs. Robert Ingram, Mrs. George Burr, Mrs. Floyd Burgett, Mrs. Jess Hines, Mrs. Ralph Lorenz, Mrs. Thomas Bateman and Mrs. Frederick Poole.

When angels visit us, we do not hear the rustle of wings, nor feel the feathery touch of the breast of a dove; but we know their presence by the love they create in our hearts.

—Mary Baker Eddy

made his appearance and distributed gifts to all the children. Pop corn balls, animal crackers and candy canes were also given to all those in attendance.

Happy New Year SHINGLETON'S

Muriel Woods, John Henderson Engaged

Miss Muriel Woods

On Christmas day Mr. and Mrs. Edward George Woods of Detroit announced the engagement of their daughter, Muriel Morgan, to John Frederick Henderson.

Mr. Henderson is the son of Mr. and Mrs. John Henderson of Auburn street in Plymouth.

Miss Woods was graduated from McKenzie High school in Detroit. Her fiancé was graduated from Plymouth High school and since July has been a member of the National Guard, 127th Command.

Plans are being made for a wedding in the early fall.

God blesses still the generous thought.

And still the fitting word He speeds, And Truth, at His requiring taught.

He quickens into deeds. —Whittier

Smith - Heidenrich Engagement Told

Mr. and Mrs. Clifford Smith of Hix road in Wayne announce the engagement of their daughter, Wilma May, to Frederick Clare Heidenrich, son of Mr. and Mrs. Fred Heidenrich of 463 Parent street, Wayne.

Miss Smith is a graduate of Plymouth High school. Mr. Heidenrich was graduated from Wayne High school, and is now attending Valparaiso university in Valparaiso, Indiana.

Lucille Zielasko's Betrothal Revealed

The engagement of Lucille J. Zielasko to Robert J. Stremich was announced by her parents Mr. and Mrs. Anthony F. Zielasko, at a buffet supper in their home for the immediate family on Christmas Eve.

Mr. Stremich is the son of Mr. and Mrs. Samuel Stremich of Northville.

Miss Zielasko was graduated from Plymouth High school, and her fiancé from Northville High school.

The couple has not set the date for their wedding as yet.

Maccabee News

The Maccabees will hold a general business meeting at 8 p. m. on Wednesday, January 12, in the Episcopal church. It is important that all members be present.

The Hives extend their appreciation to Doris Curtis, who entertained the group at a chop suey supper. It was a Christmas party and gifts were exchanged.

Precepts are the rules by which we ought to square our lives. —Seneca

By JESSIE WEST

AMY looked out at the bright day and was about to decide it was the loveliest New Year's Eve she'd seen in years when she saw Clarabelle Carter crossing the street; and then she thought the day wasn't lovely at all.

She could hear Clarabelle talking to Mille as she had that day in the store when she'd been standing behind shelves lined with groceries deliberately eavesdropping.

"I do declare, it does look like Amy Wells could get someone," Clarabelle had said. "I suppose she'll die an old maid."

Clarabelle hadn't said anything degrading of course. But from that moment forward, Amy had wondered if people generally didn't assume that old maids just couldn't find any takers.

She took her eyes from the window and Clarabelle going down the street to look at her reflection in the dresser mirror. At almost forty-five, she didn't think she was being egotistical in appraising herself as actually looking thirty-five. She had very little gray in her dark hair, and the faint lines on her face were unnoticeable against the startling blue of her eyes and general prettiness of her features.

There'd been a time when she reigned as the most popular girl at Obane; she'd been pictured in the college year-book as "the girl all men want but only one, can have."

Of course Clarabelle and the populace of Donovan, a little town of three thousand, didn't know these things.

Amy looked out the window again, and not seeing Clarabelle on the street now, the day resumed some

She was startled when someone stood at her shoulder suddenly.

of the brightness that Clarabelle's presence had blighted, and she got to thinking about a trip that 20 years ago had been scheduled for tomorrow. Memory of the tryst had come to her with the approach of another New Year, but she had not planned to enact a promise that years of separation had cast into youth's frivolous dreaming, disappointments and temperamental pride. Yet, seeing Clarabelle and remembering what she'd said about her somehow filled her with unexpected sentiment.

She had nowhere to go on New Year's day, and thought of the trip suddenly became entrancing. It would be emotionally uplifting to go back to the old haunts, and no one would know of her foolish living just for a day without memories of a past that through her own foolhardy pride, had led her into her present state of lonely maidenhood.

"If anything ever separates us," Lance had said that night long ago. "It'd be fun just to meet again, sort of a tryst affair, 20 years hence. Maybe in Park Rendezvous where we first met."

They'd talked like that often, then laughed—because they knew they'd never separate. Someday they'd marry. But they didn't marry. Too soon a trivial misunderstanding had risen between them, and she'd had too much pride to admit that she'd been a little wrong, too.

It was almost noon when Amy reached the Park Rendezvous at Obane on New Year's day. She'd have lunch, she decided, then visit about town. But already she was sensing regret for having made the trip. You couldn't live in the past even for a day without returning to the present with greater pain. How well she knew it now!

She was startled when someone stood at her shoulder suddenly.

"Hello," he said.

Amy's heart fluttered in recognizing his voice. She looked up.

"Why, Lance—!" It was all she could manage.

He sat by her at the table and covered her hand with his.

"Looks like we both remembered," he said, chuckling happily.

"But, you married, Lance, I heard." She couldn't help saying it.

"That was false news, dear," he said. "Do you think—but you surely know now! I tried to find you, Amy, but I lost all trace of you."

Amy laughed and her cheeks colored. "I wouldn't have come today," she said wistfully, "but for a person named Clarabelle..."

"Clarabelle?" Amy nodded. "It's a queer little story, Lance," she said, and then she wondered with a little gloating, what Clarabelle, and all of Donovan for that matter, would think when they heard!

MICHIGAN

BY • ELTON R. EATON

With 50 "Tree Farm" program applications received to date, the conservation department's foresters have started inspecting owners' woodlots and commercial forests. Nearly a dozen private timber tracts have been examined by the foresters in company with the owners.

Following the inspection, the foresters submit a survey report to a technical reviewing committee composed of private and public foresters. This committee determines whether the property meets the "standards" required for certification.

The "Tree Farm" program was jointly launched in November by the conservation department and the Michigan Forest Industries with the approval of the Governor and conservation director P. J. Hoffmaster.

The two sponsoring organizations will present a certificate and a free 18 inch by 26 inch farm sign to owners of woodlots or forests of more than six acres which meet the standards set up in the program.

Park managers found "business as usual" the general rule throughout the deer season in up-state Michigan.

A dozen parks, normally frequented by picnickers and others during the summer months, proved to be convenient stopping points for pitching an overnight camp in some instances and as regular camping headquarters in others.

Wilson state park near Harrison was used extensively by north-bound hunters as a stopover point. The new Porcupine Mountains and Tahquamenon state parks in the upper peninsula received the heaviest concentration of sportsmen who discovered these areas to be ideal regular camping headquarters.

Park managers supplied hunting information and travel directions in addition to their regular duties.

The planting of over 2,000 shade trees, part of a long range park improvement program by the conservation department, has been completed at the Pontiac Lake, Rochester-Utica and Island Lake state recreation areas.

Close to 1,000 well developed maple and elm trees, measuring 1 1/2 to 2 inches in diameter, will provide future shade for picnickers at the Rochester-Utica grounds. Another 800 trees will beautify the Pontiac Lake recreation area in the years to come. A hardwood assortment including maple and elm has been planted at the Island Lake center.

Supervised prison labor was used, in part, to set out the trees which were purchased from private nurseries.

A one-house state legislature, a strong governor, and home rule for cities and counties are essentials of efficient state government, believes Dr. Arthur W. Bromage, professor of political science at the University of Michigan.

Prof. Bromage was a member of the committee which prepared the 1948 version of the Model State Constitution of the National Municipal League, first published in 1921. The 1948 revision has just been issued.

"The Model State Constitution continues to emphasize certain fundamentals: (1) the unicameral state legislature; (2) the strong governor; and (3) home rule for cities and counties," Prof. Bromage commented. "It cannot be said that the model constitution is only a theoretical document, for it is founded on practical examples of progress."

The Michigan professor pointed out that Nebraska has had a unicameral legislature since 1937. New York, he said, is illustrative of states which have eliminated the long ballot and strengthened the office of governor. About one-third of the states have developed home rule for cities, and California has demonstrated that home rule can be successfully applied to counties.

Michigan's recently created Department of Administration headed by the Controller is an example of the principle of an administrative manager under the governor, as recommended by the Model Constitution.

Asked to comment on the relationship between the Model Constitution and Michigan's fundamental law, Prof. Bromage said that "everyone knows that Michigan has a bicameral state legislature and is not likely to achieve a unicameral legislature in our time. Michigan continues to have the long ballot for the election of certain state administrative officers, such as secretary of state, treasurer, attorney-general, and auditor general."

Judged by the standards of the Model State Constitution, Michigan does not have a strong governor's office directing a coordinated and limited number of departments, he continued. Department heads are not subject to the governor's unqualified power to appoint and remove. Neither does Michigan have county home rule, although the state can take pride in a workable system of municipal home rule, Prof. Bromage said.

Prof. Bromage expressed doubt that Michigan would ever approach the standards of the Model State Constitution by a process of limited, piecemeal amendment. For a comprehensive review of where Michigan stands constitutionally in relation to progress as exemplified in the Model Constitution, he asserted that nothing less than a state constitutional convention could do the job.

Sea Lamprey is Growing Menace

The parasitic sea lamprey, menace to Great Lakes food fishes and to the game fish in Michigan's inland lakes and streams, will be on the move in great numbers during the spawning runs next spring.

This prediction is based on experiments conducted at the mouth of the Osqueoc river on Lake Huron near Rogers City by Vernon Applegate, head of lamprey investigation for the conservation department.

The U. S. Fish and Wildlife Service recently built an 80-foot weir there to trap adult lampreys on their way upstream to spawn in the spring and immature lampreys that come downstream in the fall.

Latest observations indicate that when water temperatures drop around 45 degrees, a run of maturing lampreys will begin. A further drop in temperature to 35 degrees causes the run to cease.

Research work at this weir also indicates that the larval lamprey remains buried in the river bed silt for as long as three and a half years. At the larval stage of development the lamprey is non-parasitic. Incomplete studies indicate the lamprey eats the microscopic organisms that are brought to it by the current. As soon as the lamprey reaches the stage where the eyes begin to function, it leaves the silt bed and permits the current to carry it downstream. During the trip downstream, the lamprey reaches the adult stage and turns into a parasitic organism which attaches itself to any number of fish during its lifetime span. Once attached, the lamprey sustains itself by sucking blood from a fish until hunger is satisfied. It is believed that frequent attacks by lampreys kill fish.

Other weir traps have been placed in the Carp creek, Presque Isle county, and in the Carp river of Emmet county. Investigation will continue in the spring.

In preparation for the resumption of state forest plantings in 1949, five acres were added to the Higgins Lake nursery where the inventory of pine stock is now 30,000,000 trees.

We are indebted to Christianity for gentleness, especially toward woman. —Charles Simmons

Railway Express Agency Agent Leonard Millross

Former Plymouth Pastor Receives Royal Acknowledgement for Poem

Words of thanks from the royal house of England were recently sent to the former pastor of Plymouth's First Presbyterian church, the Rev. S. Conger Hathaway, for the poem he wrote on the birth of a son to Princess Elizabeth.

The Rev. Hathaway, who now makes his home in Battle Creek, was pastor of the local church from 1920 to 1925. This week he related that he received a card from the lady in waiting to the princess. It read: "Buckingham Palace—The lady in waiting is desired by the Princess Elizabeth to express to you Her Royal Highness' sincere thanks for your congratulations and for the good wishes which you send."

The ode reads as follows: Our pliant hearts go out with yours.

To HIM whom all the world adores.

In gratitude for what He sends—This LITTLE TREASURE which HE lends—

To make your home a place divine.

And all domestic joys refine!

Another tiny BABY FACE.

Another added to the race.

Another LIFE to keep from harm.

Another SOUL to love and charm—

May blessings manifold attend.

The pathway of OUR LITTLE FRIEND!

May HE the home-ties closer bind.

Help you abiding joys to find.

Crown every day with rich content.

And make you live the life HE meant—

With father-love and mother-love.

And daily favors from ABOVE!

Let no foreboding cast a shade

Upon your hearts so happy made.

But rather let FAITH add to them

Her richly jeweled diadem—

So shall both sad and happy moods,

Prove fruitful in beatitudes!

All welcome to thee, BABY DEAR.

WEE GEM set in domestic cheer!

The future holds no shade so sad

But YOU can help to make it glad—

Our words of greeting we'll no mince,

Thrice welcome, DARLING BABY PRINCE!

Be gentle and of good countenance even in bitter quarrels, win through experience and never let it harm that inward treasure.

ORDINANCE No. 153 AN ORDINANCE REGULATING AND LICENSING THE SELLING OF FOOD

An Ordinance to regulate, control and license the sale, storage, delivery and distribution of food, both wholesale and retail, within the City of Plymouth, and to provide for the inspection of restaurants, lunch stands, fraternal, religious and social organizations, hospitals, dormitories, clubs and boarding houses, groceries, meat markets, bakeries, cafes, dining rooms, ice cream parlors, public or private markets, stalls, shops, stores, storehouses, cold storage plants, or where fish, oysters, birds, fowl, vegetables, fruits, milk, ices, beverages, meat, meat food products, bake goods, or any other provision or food, intended for consumption by human beings, is manufactured, held, kept, stored, or offered for sale or position, or other distribution as food for human beings.

THE CITY OF PLYMOUTH ORDAINS:

Section 1. No person, firm or corporation shall engage in the business of conducting a food establishment in the City of Plymouth, or of selling food, either at wholesale or retail, without a license therefor, as hereinafter provided. For the purpose of this ordinance, the words "food establishment" shall include restaurants, lunch stands, school lunch rooms, fraternal, religious and social organizations, hospitals, dormitories, clubs, and boarding houses, groceries, meat markets, bakeries, cafes, dining rooms, ice cream parlors, public or private markets, stalls, shops, stores, storehouses, or any other place or places in or from which meat, milk, ices, beverages, or any provision intended for human consumption is kept, handled or stored.

Provided, however, that nothing herein contained shall apply to creameries or milk plants.

Section 2. Any person, firm or corporation desiring to conduct a food establishment or to sell food or beverages as hereinafter defined, within the City of Plymouth, shall make application in writing for permission to do so to the City Clerk of said City, upon blanks to be provided by the City Clerk, who shall refer all such applications to the Department of Health for investigation and approval. The City Clerk shall require such applicant to state, in writing, upon said blanks:

First: The applicant's full name, residence and post office address, and whether such applicant is an individual, firm or corporation. If a partnership exists, the names of the partners, together with their addresses. If the application is made by a corporation, the names and addresses of the officers must be given.

Second: The location of applicant's place of business, and a statement as to the kind of business, i.e., whether it is a grocery store, meat market, restaurant, etc.

Third: An agreement that said applicant will permit the Health Officer, or his authorized representative, to inspect his establishment and everything in connection therewith at any time desired.

Fourth: The manner in which applicant intends to dispose of his goods, i.e., whether at wholesale or retail, or both, and any other information desired by the Health Officer.

Section 3. Upon the signing of such application by the applicant or someone duly authorized by him, the Health Officer shall make or cause to be made an investigation to ascertain whether such applicant is in a position to observe, and is willing to observe, the terms and conditions of this ordinance, and the Health Officer, after such investigation, that said applicant is in a position to maintain a sanitary food establishment, and furnish clean, pure, wholesome and unadulterated food to his customers, and is willing to observe the terms and conditions of this ordinance, and the regulations of the Health Officer, if the application is approved, then the Health Officer shall endorse upon such application a favorable report, and transmit the application to the City Clerk of the City of Plymouth, who shall issue a license to the applicant, granting permission to conduct the business designated in said application, and no other, upon payment of the following fees:

For engaging in the business of conducting a wholesale or retail food establishment after June 30, 1949, the sum of \$10.00 per year or any part thereof for each separate place of business, except the sum of \$2.00 per year shall be fee charged to fraternal, religious and social organizations, and boarding houses; provided that the fee shall be one half of this amount, if the application is made and the establishment opened during the last half of the license year from January 1st to June 30th. The license fee for a "Transient Restaurant" shall be the sum of five (\$5) dollars for a temporary period of not to exceed thirty (30) days. All licenses shall expire on the last day of June following their issuance, unless sooner revoked, and shall not be transferable or assignable. All applications for renewal of license shall be made at least thirty (30) days before license expires.

An applicant who has obtained a license to operate a certain kind of food establishment, and who is desirous of adding another type of food business to his establishment, shall make an additional application, in writing to the City Clerk, which shall be handled the same as the original application, except that the

fee for each additional application shall be \$2.00 per year or any part thereof.

If it shall be found by representatives of the Department of Health, after investigation, that said applicant is not maintaining, or cannot maintain, a sanitary food establishment, or is not furnishing clean, pure, wholesome and legally adulterated food to his customers, or that he is unwilling to observe the terms and conditions of this ordinance and the regulations of the Health Officer, then said Health Officer shall endorse upon such application an unfavorable report, together with a recommendation that said applicant be denied a City license by the City Commission. The City Clerk shall, upon receipt of such a report, forward the matter to the City Commission at its first regular meeting following receipt of said application. The City Commission shall act upon such application; and, in the event that license is denied, the City Clerk shall promptly notify the Health Officer, in writing, of such action. Upon receipt of such notice, the Health Officer shall immediately order the establishment closed; and, in the event the applicant shall not comply with said order, he shall be promptly prosecuted.

The Health Officer or any of his duly authorized agents, shall have authority to revoke or suspend any license issued hereunder, for the violation of any of the terms of this ordinance or the violation of the health and/or food laws of the State of Michigan.

Such revocation shall be accomplished by giving written notice to the licensee, provided that in the event of suspension of any license as above provided, the licensee shall be entitled to a hearing before the City Commission, if such hearing is demanded by him in writing, and presented to the City Clerk within ten days from the date of revocation or suspension of license. Such hearing shall be commenced at the following regular meeting of the City Commission, and the City Commission, after hearing both sides of the question, shall act as sole judge as to whether the revocation or suspension shall stand.

Section 4. That every person, firm or corporation, who, as owner or manager keeps, maintains or operates a food establishment in the City of Plymouth shall keep the same in a clean, sanitary and healthful condition at all times.

Section 5. That it shall be unlawful for either the owner or proprietor of any firm or corporation maintaining, operating, or managing any food establishment in the City of Plymouth, to suffer, permit or allow any employee, officer or agent employed therein or thereabout in the handling of any food product intended for human consumption to be or remain in an unsanitary, filthy or dirty condition, either as to person or clothing while so employed or engaged in the handling of such products intended for human consumption.

Section 6. That it shall be unlawful to expose for sale in open receptacles or broken packages, vegetables, fruits or farm products, unless such products are kept not less than two feet above the floor of the building, shop, booth, stall or other place where the same is exposed for sale.

Section 7. That it shall be unlawful to sell, expose for sale, or have for other disposition any prepared food, for human consumption, or bread, cakes, pies, dates, prunes, raisins, mince-meat, fresh or smoked meats, fish or other food, except fruits and vegetables in broken packages, unless the same shall be kept or stored in closed glass cases or other suitable containers, and protected from dust, dirt, flies, insects and other contaminating materials.

Section 8. That it shall be unlawful to sell, expose for sale, to dispose of, or deliver any sugar, honey, pickles, olives, sauerkraut, jelly, peanut butter, apple sauce, lard, bread, bake goods, or any like products intended for human consumption, unless the receptacles in which such product is contained shall be dust proof and kept covered.

Section 9. That it shall be unlawful for any person, firm or corporation to display or expose any food stuff, candy, vegetables, fruits, or farm products of any kind or any other merchandise ordinarily sold in grocery stores or food establishments, in the open space in front of any building or in or near any open window or doorway or in any street, private way or public place in the City of Plymouth.

Section 10. That it shall be unlawful to sell or offer for sale any contaminated, adulterated or unfit food intended for human consumption or any food which has been exposed to dust, flies, contamination by the public, vermin or other contaminating material in violation of the terms of this ordinance.

Section 11. That it shall be the duty of the Health Officer, or his authorized agent, to seize, condemn or exclude from sale, delivery or distribution in the City of Plymouth any spoiled, contaminated or adulterated food or any food unfit for human consumption or any food which has been unnecessarily exposed to dust, flies, contamination by the public, vermin or other contaminating material in violation of the terms of this ordinance. It

shall further be the duty of the Health Officer to destroy or denature all food condemned as unfit for human consumption and issue an order by permit to the owner, of such food, stating the reason therefor.

Section 12. That it shall be unlawful to keep, maintain, operate or conduct any food establishment in the City of Plymouth, unless all the doors, windows, or other openings shall be fitted with proper screens, covered with wire not coarser than 12-mesh wire gauze, between May 1st and November 1st of each year and all such screen doors shall be so hinged as to open outwardly and close tightly by means of self-closing devices; Provided, however, that such screens may be omitted if electric fans are used and provided such electric fans shall effectively prevent air from coming into such place of business.

Section 13. That it shall be unlawful to cause, permit or suffer any decayed food or meat or vegetable matter of any kind to remain in any receptacle, ice box or other compartment wherein any fruits, meats, vegetables or other food intended for human consumption is kept for sale or other disposition.

Section 14. That after the necessity for a sanitary toilet in a food establishment shall have been determined by the Department of Health, it shall be unlawful to operate, maintain or conduct any food establishment in the City of Plymouth unless the person so owning, conducting, managing or operating such business shall provide or cause to be provided a sanitary toilet approved by the Department of Health which shall be located in a separate room partitioned off from the rest of the establishment by a tight self-closing door and shall have an electric light in each toilet room, and such room shall be ventilated directly to the outside air by means of a window or other form of ventilator approved by the Department of Health; Provided that where both sexes are employed, separate toilets shall be provided for each sex, except where all of the people who work in the establishment are members of one family.

Section 15. That it shall be unlawful for any person, firm or corporation to operate, maintain or conduct any business where food intended for human consumption is prepared, manufactured, canned, or sold, or otherwise disposed of, unless there shall be provided in such building or rooms with ample supply of running water and soap and a suitable lavatory and individual paper or linen towels, and unless the operative clerks and employees and all persons who handle material from which food is prepared, or handle the finished product, shall be required to keep their selves and their persons and clothing in a thoroughly clean condition.

Section 16. That no cellar, basement or room wholly or partly underground shall be used as a bakery or in the preparation of serving of food for sale or other disposition, unless floor, ceiling and walls shall be constructed of tile, cement or other material impervious to dampness or water, and unless such room or rooms or basement or cellar shall be provided with openings to the outer air and with proper ventilation, and unless the plumbing shall be maintained in a sanitary condition.

Section 17. No person who is affected with infectious disease or with any venereal disease in a communicable form, shall work or be permitted to work in any food establishment. All persons employed in any food establishment shall submit to a physical examination by the Health Officer, or by some physician approved by the Health Officer, at least once each year. All persons successfully passing such examination shall carry on their person a card to be known as "Food Handlers Responsibility Agreement" which shall be issued by the Health Department. If, as a result of such examination, such person shall be found to be affected with any infectious disease, or with any venereal disease in a communicable form, such employment shall immediately cease and such person shall not be permitted to work in any such establishment. Further any person suspected of having an infectious, contagious or venereal disease shall submit to any additional examinations ordered by the Health Officer. The Health Officer may, in his discretion, waive compliance with the second sentence of Section 17 in the case of persons handling foods for religious, fraternal and social organizations. In lieu of such compliance, such persons shall observe and obey rules and regulations as posted by the Health Officer. Some one person of each such organization shall be made responsible for enforcement of such rules and regulations. All persons handling food for said organizations, who fail to observe such rules and regulations, may be required to submit to a physical examination.

Section 18. That it shall be unlawful for any person, firm or corporation to permit, suffer or allow any person, including the owner, proprietor, servant, agent, or employee, to live or sleep in any food establishment, or in any room above or adjacent thereto, unless separated by solid partitions or floors with no doors, windows or openings therein.

Section 19. That it shall be unlawful to keep live chickens, ducks, turkeys, or other fowl in any cellar or basement underneath any grocery store, market or other place where food or food stuffs are kept, prepared, offered for sale, or otherwise disposed of, or in any other room adjacent thereto except in a place and under such conditions as shall be prescribed and approved by the Health Officer.

Section 20. That it shall be unlawful to use any machinery or utensils in and about the preparation or handling of food or beverages intended for human consumption, unless the same shall be thoroughly cleaned and sterilized daily and shall be maintained in a sanitary condition and properly covered and protected while not in use.

Section 21. It shall be unlawful for any person, firm or corporation operating any food establishment in the City of Plymouth to furnish, provide, place or expose for use any plate, cup, saucer, glass, knife, fork, spoon, or any other receptacle or utensil which has been served to any other individual until such receptacle or utensil has been washed in a solution of hot water and disinfectant, and then rinsed and sterilized by immersion in hot water at a temperature of 180 degrees for at least two minutes, or has been washed and sterilized by mechanical means which have been approved by the Health Officer. Provided that sodium hypochloride may be used for sterilizing utensils and dishes, if used in a manner prescribed and recommended by the Health Officer, but in no case shall the use of such sterilizing agent be construed as eliminating the necessity of a thorough washing of all utensils and dishes, in a hot water solution, containing a proper amount of alkaline washing powder. Provided that paper cups or paper tumblers with individual spoons will be allowed for individual use only, provided they are kept in dust proof dispensers until served.

Section 22. That the power to enforce the provisions of this ordinance shall be vested in and exercised by the Health Officer of the City of Plymouth and his deputies, and it shall be the duty of such persons to visit and inspect at frequent intervals every place where food, beverages, or confection intended for consumption by human beings are manufactured, kept, stored, prepared or offered for sale or other disposition.

Section 23. That the Health Officer of the City of Plymouth shall have full power during business hours to enter every building, room, basement, or cellar occupied or used, or which they have reasonable cause to believe is being used for the production, manufacture, storage, sale or distribution of food, for the purpose of inspecting the premises and the utensils, fixtures, furniture and machinery used therein as aforesaid, and if, upon inspection any food producing or distributing establishment, conveyance, employee, operative, employer, clerk, driver or other person is found to be violating any of the provisions of this ordinance or if the production, preparation, manufacture, packing, storing, sale, distribution, or transportation of such food products is being conducted in a manner detrimental to the health of the employees and operatives or injurious to the quality and food value of such food therein being produced, manufactured, packed, stored, sold or distributed, the officer or inspector making such examination or inspection shall thereupon issue an order or rule to the person or persons in authority or in charge or control of such place, directing that the condition or conditions be corrected within such reasonable time as in his discretion he deems proper, and unless such person, firm or corporation shall make such improvements as required by such order within the time so limited, it shall be the duty of the Health Officer to institute proceedings against the person for the violation of this ordinance, and close the business of such person until such improvements are made and approved by the Department of Health. Provided, that should the unsanitary condition found warrant such action, the establishment may be immediately closed by the Inspector making the inspection, in which case he shall notify the person in charge of the establishment at the time of inspection, in writing, stating his reasons for closing the place and a continuance to operate after receiving such a notice shall constitute a violation of this ordinance.

Section 24. Whenever a bar is used in any place for the sale of beverages, the same shall be located so as to be in plain view at all times from the street or sidewalk. It shall be unlawful to have in any place for which a license has been granted under the provisions of this ordinance any curtains, window shades, screens, partitions or other things that shall obstruct the view, from the sidewalk, of the bar or interior of the place used for the sale, giving notice of or bartending of any beverages.

Section 25. No person, firm, or corporation operating a food establishment shall sell, expose, or offer for sale milk or cream, except it be in closed bottles which have been filled and capped at a dairy, and all milk sold in the City of Plymouth shall comply with the standards and requirements of City Ordinance No. 91 as amended. All restaurants, lunch stands, soda fountains and any other food establishments serving milk to be consumed on the premises shall serve said milk in the original bottle as received from a dairy without removing the cap for any reason. Provided, that the cap may be removed and milk poured into a

glass if the same is done in the presence of the customer.

Section 26. No person, firm, or corporation operating a food establishment shall permit any dogs, cats, or other animals to be in the establishment, except a dog that is used by a blind person.

Section 27. All persons operating soda fountains or other places where malted milk or other drinks are prepared shall provide all such drinks from individual one half (1/2) pint bottles of whole milk as received from a dairy, or in other sized containers if approved by the Health Officer.

Section 28. All milk bottles and milk containers shall be given a thorough rinsing with water immediately after emptying and before the same is returned to the Dairy.

Section 29. No fish market shall be operated in connection with a meat market, unless the same complies with the rules and regulations made from time to time by the Health Officer.

Section 30. All places where meat is kept or offered for sale shall provide suitable ice boxes or coolers, meat blocks, saws, knives, cleavers and other utensils and dishes, if used in a manner prescribed and recommended by the Health Officer, but in no case shall the use of such sterilizing agent be construed as eliminating the necessity of a thorough washing of all utensils and dishes, in a hot water solution, containing a proper amount of alkaline washing powder. Provided that paper cups or paper tumblers with individual spoons will be allowed for individual use only, provided they are kept in dust proof dispensers until served.

Section 31. The dressed carcass of any animal, or any part thereof which is to be used or sold as human food, shall not be carried or conveyed through the streets unless covered so as to protect it from dust, dirt, or flies, by means of clean canvas or other covering approved by the Health Officer, and every article and vehicle used in the transportation of meats shall be kept in a clean and sanitary condition.

Section 32. No person, firm or corporation shall bring or cause to be brought into, or keep or offer for sale in any public or private market of this City, any meat or dead animal, the flesh of which is intended to be used for human food, until such meat or such dead animal shall have been fully and properly cooled, and until all properly shall have been completely dried, frozen, impure or unwholesome meat, fish, bird, or fowl shall be held bought, or sold or offered for sale for human food in the City of Plymouth.

Section 33. No chicken or other fowl shall be kept or killed in an abattoir or meat market unless the fowl are kept or killed in a separate place where the odor from the same does not come in contact with other food products, provided, however, that dressed chickens or other fowl may be kept with other food products. Poultry must be kept in clean, sanitary, well ventilated, painted, or white washed places all under the approval of the Health Officer or any of his representatives. All places where chickens are killed shall at all times be kept in accordance with the rules and regulations made from time to time by the Health Officer.

Section 34. It shall be unlawful for any person, firm or corporation to misbrand, mislabel or in any way misrepresent any article of food to the customer or to make, publish, disseminate, circulate, or place before the public, and advertisement relating to the sale of "any article of food intended for human consumption," so advertised, which advertisement contains any assertion, representation or statement which is untrue, deceptive or misleading, or which falsely represents the quality, classification, grade or quality of "any article of food intended for human consumption" so advertised for sale.

Section 35. That for the purpose and within the meaning of this ordinance:

(a) A food establishment is a place where foods or beverages intended for human consumption are prepared, kept, handled, stored or offered for sale.

(b) A grocery store is a food establishment where staple articles of food commonly called groceries are handled for sale or delivered.

(c) A meat market is a food establishment where meats and their by products are handled for sale or delivery.

(d) A restaurant is any food establishment which is advertised or held out to the public as a place where meals or lunches may be procured. "Transient Restaurant" shall mean one operating for a temporary period in connection with a fair, carnival, circus, public exhibition or other similar gatherings.

(e) A boarding house is an eating place, not open to the general public, where persons are fed for remuneration.

(f) A bakery is a food establishment where bread, baked goods, pastries, etc., are prepared for sale or delivery.

(g) A confectionery store is a food establishment where ice cream, carbonated beverages, candy, popcorn and like commodities are sold or are prepared for sale or delivery.

(h) A fish market is a food establishment where fish are handled for sale or delivery.

(i) A fruit and vegetable market is a food establishment where fruits and vegetables are handled for sale or delivery.

(j) A wholesale food merchant shall mean any person, firm or corporation selling food or beverages of any kind intended for human consumption, to another person, firm or corporation for the purpose of resale.

Section 36. The following shall be and are hereby designated as the minimum building and equipment requirements for food establishments which are operating in or selling food in the City of Plymouth:

Building and Equipment requirements applying to all food and beverage establishments.

1. Smooth and easily cleaned walls, ceilings and floors.

2. Walls and ceilings painted

with a light colored gloss paint at least once each year or otherwise redecorated or cleaned in a manner satisfactory to the Health Officer.

3. Adequate toilet facilities as required in Section 14 of this ordinance, conveniently located in connection with the establishment.

4. Suitable lavatory or sink in addition to dishwashing sink, located in or near the toilet room and an adequate supply of soap and paper or individual linen towels.

5. Running water of suitable quality for drinking purpose.

6. Properly trapped sewer connections with City sewer for all toilets, sinks, lavatories, ice box drains, etc.

7. Adequate ventilation by windows, transoms, flues or exhaust fans as may be approved by the Health Officer.

8. Adequate natural or artificial lighting.

9. Screening on all outside openings of buildings between May 1st and November 1st. All screen doors to swing outward and be equipped with self-closing devices. Provided electric fans may be used in place of screening if it is possible to keep the establishment free of flies by such means.

10. All Equipment including counters, cases, tables, refrigerators, blocks, stoves, ventilating hoods, fans, steam tables, meat grinders, beaters, dish washing and sterilizing equipment, dishes, pots, pans, and kettles and all other food establishment equipment shall be such that they will meet the approval of the Health Officer.

11. Sufficient pumber of 10 and 20 gallon metal galvanized garbage cans with tight fitting metal lids to hold all garbage, tin cans, papers and other refuse. Such cans shall be free from leaks and shall be thoroughly cleaned and scalded each time they are emptied.

12. That there be no connection between living or sleeping rooms and food establishment rooms as required by section 18 of this ordinance.

Additional minimum building and equipment requirements for various kinds of food establishments are specified below:

Restaurants and lunch stands, bakeries, candy manufacturers and other food manufacturing

1. Two Compartment rust-proof metal sink with metal drain boards with running hot and cold water to both compartments and properly trapped sewer connections to both compartments; except where mechanical methods approved by the Health Officer are used for washing and sterilizing dishes and utensils.

2. Metal hood suspended over all cooking stoves at a convenient height and properly connected with an exhaust fan or ventilating flue sufficient to carry off all cooking odors and vapors.

3. An adequate supply of running hot water at a temperature of 180 degrees piped to all sinks. Where storage tank is used, the minimum capacity shall be 30 gallons.

4. Work tables shall be of one solid piece of wood, or shall be covered with rust-proof metal or shall have center board removable to facilitate cleaning.

5. Every restaurant shall be provided with adequate and conveniently located toilet facilities conforming with the local and State Plumbing Codes. Toilet rooms shall not open directly into any food processing room. The doors on all toilet rooms shall be self closing. Sanitary toilet paper shall be provided.

Soda fountains, places selling ice cream, except in sealed packages only, and places selling beverages.

1. Adequate refrigeration to keep milk at a temperature of 50 degrees F. or below at all times. All refrigerator boxes shall be provided with accurate thermometers.

2. Refrigeration: All fish shall be kept properly chilled or refrigerated at all times.

3. Protection of fish when displayed for sale: All fish and shell fish displayed for sale shall be kept within closed refrigerated display cases so as to prevent unwarranted human handling and contamination by dust, dirt and flies.

4. Hot water and deodorants: An adequate supply of running hot water at a temperature of 180 degrees F. shall be provided and all equipment, garbage containers, etc., shall be thoroughly washed from time to time with a solution of washing powder and acidized with chlorinated lime.

Section 37. The Department of Health shall prepare and issue a card indicating that such establishment has satisfactorily passed the inspection provided by the Health Department. Such card shall indicate the date of issue and shall be posted in each establishment by the Department of Health. Such card shall be posted in a conspicuous place in each establishment, and shall not be changed or altered by any one except the Health Officer.

Section 38. The Department of Health may from time to time adopt such reasonable rules and regulations not inconsistent with the provisions of this ordinance, as it may deem necessary to govern the sale of food and the inspection of food establishments.

Section 39. Any person violating any of the provisions of this ordinance or any of the rules or regulations adopted by the Department of Health to govern the sale of food and the inspection of food establishments in pursuance thereof shall, upon conviction, be punished by a fine not exceeding one hundred (\$100.00) dollars or by imprisonment for a period not to exceed ninety days, or both such fine and imprisonment in the discretion of the court.

Section 40. That if any section of this ordinance shall be declared unconstitutional the same shall not affect any other section and shall not affect the validity of the ordinance as a whole.

Section 41. This ordinance shall take effect twenty-one days from and after the date of its passage.

Made, passed and adopted by the City Commission of the City of Plymouth, Michigan, this 20th day of December, A.D. 1948.

Frank Henderson, Mayor
Harold R. Chick, City Clerk.

Babson Forecast

Business and Financial Outlook for 1949

By: Roger W. Babson

1949 IN A NUTSHELL

General Business:	Off 5%	Building and Construction:	Off 20%
National Income:	Off 5%	Lumber:	Off 5%
Farm Income:	Off 15%	Foreign Trade:	Up 5%
Bituminous Coal:	Off 5%	Airline Pass Gr Miles:	Up 10%
Anthracite:	Off 10%	Military Activities:	Up 50%
Crude Oil Production:	Up 3%	Including Aircraft:	Up 50%
Steel Output:	Up 5%	Retail Trade:	Off 5% to 10%
Automobiles:	Up 10%		

1. Total volume of business for 1949 will be less than that of 1948. There surely will be many soft spots.

General Business
2. Most industries will show smaller net profits. This means that, in many cases dividends will be less in 1949.

3. Military preparedness will be a new and powerful industry which this country never heretofore experienced in peace times. It is destined to bolster employment for some years ahead, but not the standard-of-living.

4. Inventories quoted both at their dollar values and in volume will increase during 1949. Both raw material piles and manufactured goods will be in greater supply during 1949.

Commodity Prices
5. Some rationing or priorities may be attempted in 1949. The public will make demands for price controls in the case of certain products. Beware of installment purchases in 1949.

6. We expect the peak in wholesale commodity prices has been reached for this cycle. We, therefore, advise going easy on inventories. 1949 is a time to get out of debt and stay out of debt.

7. The retail price of some goods, other than food products, may be higher during 1949, but we believe that the Cost-of-Living Index has turned downward.

8. Retail price changes lag after wholesale price changes. This explains why we expect many retail prices on good quality merchandise to hold up for awhile after wholesale prices decline.

Farm Outlook
9. The total farm income for 1949 should be less than that of 1948, due to lower prices for wheat, corn, pork, poultry, eggs and certain dairy products. Farmers should diversify more in 1949, get out of debt, putting surplus money into savings and prepare for real trouble some day.

10. The supply of certain vegetables and fruits should increase during 1949. The price of these should fall off, barring some weather, insect or blight catastrophe.

11. Poultry and dairy products will also increase in volume during 1949, prices averaging less than 1948 prices.

12. Farmers will continue to work for extensions of subsidies. The above four Farm Forecasts assume normal weather. A drought could upset these.

Taxes
13. The Federal Budget will not be decreased during 1949.

14. Federal taxes will not be decreased during 1949, but there may be some readjustments to encourage venture capital and to ease the tax burden on wages.

15. We forecast that an attempt will be made by some cities to put ceilings upon real estate taxes or enact local sales taxes.

16. The long-term capital gains tax of 25 per cent will remain unchanged.

Retail Trade
17. Goods on counters will be of better grade in 1949.

18. There will be many "mark-down sales" of inferior quality goods. Curb on installment buying will continue.

19. The dollar value of all retail sales in 1949 should about equal that of 1948, perhaps off 5 per cent.

20. The unit volume of retail sales will be less in 1949 than in 1948.

Foreign Trade
21. Our foreign trade will remain about the same. We shall continue to help Europe; but it will be on a more efficient basis.
22. More foreign credits will be granted during 1949; but these mostly will be direct to business concerns.

23. There will be greater competition from other countries in legitimate foreign trade where the credit is good.

24. Throughout 1949 war talk will continue; but no real World War III will start in 1949. WAR PREPARATIONS WILL CONTINUE.

Labor Outlook
25. Good business depends upon two things: (1) reasonable wages and (2) reasonable prices. When both of these factors are in balance there is good business; but when they get out of balance, look for trouble. Low prices are of little help when people have insufficient wages with which to buy; but it is also true that good wages are of little use if prices are too high for people to buy. The Taft-Hartley Law will be repealed or amended to encourage free speech, union protection and increased production.

26. The income of wage-workers must increase before an advance in prices. Contrariwise, too high prices always precede a decline in employment and wages. This downward cycle leading to unemployment may begin in 1949. Much depends upon crops and weather.

27. Labor leaders who get increased wage rates usually get re-elected, while those who do not get wage increases are liable to be defeated. Hence, labor leaders have naturally kept urging higher wages, although they may feel in their hearts that wages are high enough for the time being. We forecast that 1949 will see some change of attitude in this regard and that wise leaders will be more interested in preventing the "bust".

28. If wages are too high, organized labor is the first to be laid off when business declines. Unorganized workers have the steadiest jobs and will go through 1949 without losing their positions.

29. Some labor leaders will, during 1949, work for pension systems and sick benefits. This would be a constructive program for employers who can afford to do it, but many employers cannot afford even these benefits at this time. Both employers and wage-workers will some day unite in urging a program which will give steady work throughout the year. This is the best hope for lower building costs. Bricklayers, painters and carpenters are criticized today for doing such a small amount of work, but we must remember the many days when they are unable to work due to weather and other conditions.

Inflation
30. Inflation (high prices) comes when consumption exceeds production! This means that inflation can be checked only by increasing production or by reducing the money supply. The job of getting prices down today depends, therefore,

upon what management and labor produce per hour. We believe that wage increases during 1949 will be accompanied by a corresponding increase in the per hour production of the wage workers.

31. Some object to the large profits that their employers are getting today compared with the 1930's. It, however, should be remembered that during these depression years most employers had no profits whatsoever. We forecast that profits will continue to be regulated automatically by the law of supply and demand, rather than by the government.

32. At some time during 1949 we forecast that the point will be reached where the nation's inflated money supply will have become fully employed. Hence, emphasis may shift from efforts to stop inflation to efforts to halt deflation.

Stock Market
33. 1949 may not be a better year stock market wise than 1948. Investors will especially get out of stocks of companies which have most of their assets in big "vulnerable in case of war" cities, reinvesting in companies whose assets are well distributed and safe from attack.

34. The Administration will not want the Dow-Jones Industrial Average to go too high on account of the consequent effect upon labor's demands. Commodity speculation will continue to be curbed.

35. The wisest will not try to pick any special "winners" in 1949; but will diversify broadly. Those who have too many stocks will gradually build up good reserves, in cash or Governments, for the big break which will come some day. Careful buyers of stocks will insist on making full payment and avoid borrowing during 1949.

36. Safe dividend paying stocks will be in greatest demand, especially if double taxation on dividends should be eliminated.

Bonds
37. We are definitely bearish on low-coupon-rate, long-term taxable bonds as money rates will gradually increase.

38. If Congress should exempt dividends from double federal taxation, 1949 will see a further falling off in the prices of certain tax-exempt bonds.

39. We forecast no change in the nation's monetary policy relating to credit control and interest rates during 1949.

40. Investors will give much more attention to diversification in 1949 and will try to have their bond maturities either fairly short or staggered.

Real Estate
41. City real estate will continue to hold firm through 1949, due to less available rental space caused by pulling down structures to save taxes, provide parking spaces, etc. There also is a disinclination to build new city property in view of the present high costs.

42. Suburban real estate will continue in fair demand during 1949 although there will be some shading of prices.

43. Big commercial farm acreage will sell for less during 1949; but subsistence farms, located close to established communities, will hold up in price.

44. General building will decrease during 1949 although the cost of building may decline a little. The quality of workmanship will improve.

45. Both office and residential rents will be higher in 1949. Only as property owners are granted higher rentals, will there be enough houses to rent.

46. Mortgage interest rates during 1949 will continue about the same as in 1948. Any changes will be toward increases.

Politics
47. The Administration will encourage legitimate new enterprises and full employment, continuing its loyalty to labor and farmers.

48. Vacancies in the various commissions and government corporations organized since 1932 and which have great powers will be filled by men acquainted with legitimate business but friendly to Mr. Truman.

49. Congress will take our foreign policy out of the hands of the State Department and the Brass Hats.

50. The Administration will be fair both to labor and management or lose the Congressional elections of 1950 by bringing on depression.

NEW YEAR'S MESSAGE

HAPPY-NEW-YEAR

As another New Year gets under way, we wish to express again our greetings and to say to you that our hearts are grateful for the share of fortune it has been our lot to enjoy.

We trust this message to each of you will embody all the sincerity and feeling that is in our thoughts at this season. We are well aware of the fact that without your own generosity we would not have enjoyed such a splendid business during the past year. Therefore, at this, the start of another year, we pause to say,

"Happy New Year."

PEEK at the STARS

By LYN CONNELLY
NWNS Radio-Screen Editor

LET us consider the enigma that is Henry Morgan... There are few people, whether fans or radio columnists, who do not acknowledge that Morgan is one of the best things that has happened to radio in 15 years when the current high-riding comedians such as Bob Hope, Jack Benny and Fred Allen, made their debuts... He is new, refreshing and different—important—requisites, it is agreed, to reach stardom these days.

Despite these qualifications, however, it has been decided that because Morgan showed a low Hooperating, he could not be carried as a sustainer, let alone be sponsored... The fact that it took Hope, Benny and Allen a good many years to attain the enviable positions they hold now doesn't seem to enter into consideration... These days if a comedian doesn't come up with an astounding Hooper in his first full season, he's dropped... It seems hardly fair, especially when there's a comedian in the offing with something new to offer a corn-weary populace.

With Benny leaving NBC for CBS and Bergen retiring, NBC is obliged to find new comedy talent and there isn't a more likely prospect in the field than Henry Morgan... Why he isn't given the break he deserves is beyond comprehension... just as it is inconceivable that a sponsor renounces the slurs Morgan makes about his product... That is the one sure way of getting people to listen to commercials and Arthur Godfrey's success in cutting the sponsor's product around shows some merit to the tactic.

Capitol Chatter: Smokey Rogers has recorded that cutie, "A Little Bird Told Me," in real western style with a vocal-banjo rendition coupling of "Baby Me, Baby"... For lovers of waltzes, Frank DeVol's instrumental arrangements of "Silver Moon" and "I'll See You Again" are an item.

May Dame Fortune smile on you and yours each day of the New Year—may you enjoy the blessings of health and happiness.

Mr. and Mrs. Cleo Curtis entertained 30 relatives at a Christmas party on Wednesday night.

Mrs. Alice Sherman entertained 23 relatives at Christmas dinner on Saturday. Guests arrived from Adrian, Ann Arbor, Ypsilanti, Redford and Detroit.

Mr. and Mrs. Merle Makepeace and family had as Christmas dinner guests, Mr. and Mrs. Gilbert Wasalaski and Terry. Mrs. Wasalaski is the former Melva Makepeace.

Mr. and Mrs. Ralph Cole entertained 14 members of the Cole family at dinner on Sunday.

Worth crowing about the valued patronage you have shown us. May you and yours spend a glorious New Year.

Harold E. Stevens Heating

It is with utmost confidence in the future that we look forward to the New Year. We believe next year will be a good one and we anticipate its approach with every confidence. May you have every success and all prosperity as well as good health and good happiness.

HAPPY NEW YEAR DAVIS & LENT
"Where Your Money's Well Spent"

It's the New Year again!

Hello, World! Young Mr. 1949 once again broadcasts his tidings of a new day aborning to a worn and weary world. Another year; another and much brighter page!

For you and yours, we reiterate his hope that the New Year will prove better and more fruitful than the old. May new faith and new courage be yours as you turn a new page in the journey through life, and may all your wishes be fulfilled!

"EASY DOES IT"
 By HELEN HALE

WHEN you polish wood, rub until all the polish is absorbed or the wood will have a cloudy appearance that will result in its picking up dust readily. When wood is properly polished, a clean, dry finger will leave no trace.

To prevent the discoloring, loosening and rotting of bathroom floors, install a toilet tank tray that fits easily and catches the moisture from the toilet tank. This is piped into the bowl through a small hose. Made of steel with baked-on enamel finish, the installation of the tray is simple and effective.

To remove fingerprints around doorknobs and other painted woodwork without wearing the paint, dip a damp cloth in whitening and rub gently over soiled places. Rinse off with a clean cloth.

RECIPE OF THE WEEK

Almond Bars
 4 eggs, beaten thoroughly
 1 pound brown sugar
 1/4 pound ground almonds
 1/4 pound citron, sliced thin
 1 cup flour
 1 teaspoon baking powder
 1/2 teaspoon cinnamon
 1/2 teaspoon allspice
 Add almonds, citron and brown sugar to eggs and mix thoroughly. Add remaining ingredients and place in a greased oblong pan. Bake in a moderate (375° F.) oven for 25-30 minutes or until light brown. Cool and ice with 1 cup powdered sugar mixed with 1/2 teaspoon vanilla extract and enough milk to moisten. Cut into bars.

Chamois which becomes stiff after use can be partially restored by washing in lukewarm suds and rinsed in lukewarm water to which one teaspoon of olive oil has been added.

Ammonia is a good cleaner for using on kitchen and bathroom floors. It helps loosen the dirt and acts also as a disinfectant.

When using starch on dark fabrics, it's wise to color the starch with bluing or tinting or strong tea so there will be no white film on the material when you finish.

To fix cracks in old plank floors, fill in the cracks with strips of hardwood running the length of the crack. Finish to match the floor.

I can easier teach twenty what were good to be done, than be one of the twenty to follow mine own teaching. — Shakespeare

ABOVE THE HULLABALOO UN-AMERICAN

No one believes that Harry Truman is Joe Stalin's confidential agent in the U. S. A. because he talks about red herrings, nor does any one think Atty. Gen. Tom Clark is the Western representative of the Russian secret police just because he hasn't sent Wm. J. Foster to jail yet. These busy men already have 25 hours work to do in every 24 and maybe they haven't given as much attention to the growing threat of Communism in this country as it deserves. It now seems probable however that public sentiment will compel them to give more of their already scarce time to what Americans are at last beginning to consider a very real danger, namely—Communist infiltration—on a huge scale—in our schools, and in our whole national fabric.

It is difficult for the ordinary citizen to comprehend why the President, and others in high office, are seemingly so opposed to the continuance of the House Un-American activities committee. About the most outstanding reason thus far given the public is that members of this committee are "headline hunters."

This nation is facing the most sinister and the most treacherous enemy that even history has ever known. This enemy has already suborned, and made traitors of, many perfectly good American citizens. The U. A. C. has brought these facts to the public's notice, and has done much to awaken the people to the realization that there exists a cancerous growth which must be destroyed if we wish to preserve our present system.

The very fact that left wing groups all over the country are clamoring for the abolition of this committee; the very fact that Representative Emanuel Celler of New York is reportedly moving to blanket its "destructive tactics"—should be sufficient to arouse the suspicions of a dead man!

Already letters are reported to be pouring in to U. A. C. members, supporting their work. But if we are interested enough in our future to write, we had much better write our own representatives in Congress, and the President, and tell them what we want done. They are our arbiters while they are in office; and they alone can continue or discontinue the U. A. C.

Official Proceedings of The Board of Education

The regular meeting of the Board of Education of Plymouth Public schools was held at the Board of Education office on December 9, 1948 at 7:40 p. m. The meeting was called to order by the President, Mr. Sutherland.

Present: Mr. Hulsing, Mrs. Morrow, Mr. Sutherland, Mr. Wesley and Dr. Williams.
Absent: None.

The minutes of the November meeting were read and approved. Transportation was discussed.

Mrs. Morrow moved, Mr. Hulsing seconded a motion to rescind the motion made by the Board of Education, September 9, 1947, that "the school buses be allowed to pick up parochial school children". Carried.

Ayes: Mr. Hulsing, Mrs. Morrow, Mr. Wesley, Mr. Sutherland and Dr. Williams.
Naves: None.

Curriculum study was discussed.

Motion made by Dr. Williams, seconded by Mr. Hulsing that the Board would reimburse one-half the registration fee of any teacher who enrolls and completes a Curriculum Study Workshop next semester under the direction of Wayne university. Carried.

Ayes: Mr. Hulsing, Mrs. Morrow, Mr. Wesley, Mr. Sutherland and Dr. Williams.
Naves: None.

The following report was presented by Mrs. Marian Morrow: The Board of Education of Canton School District No. 2 met with Mr. Nelson and Mrs. Morrow, December 1, 1948 to turn over records and close out funds to Plymouth School District. The following items were accepted by the Plymouth Board.

1. Insurance Policy on School District No. 2 Canton Township school for \$2,500.
2. Bank Deposit Books.
3. School Records.
4. Check in the amount \$2,720.50 which represents the total General Fund Balance as verified by audit of Mrs. Charles Schaffer, from the office of Wayne County Superintendent of Schools.

The deed to the property is in the hands of Mrs. Fred Fischer according to Mr. Frank Spitzerelli, President and Mrs. Violet Hauk, Secretary, who represented the Board of Canton.

Motion made by Dr. Williams, seconded by Mr. Wesley that Geraldine Krause Mack be granted a diploma from Plymouth so that she will be allowed to graduate in January from River Rouge High school. Carried.

Ayes: Mr. Hulsing, Mrs. Morrow, Mr. Sutherland, Mr. Wesley and Dr. Williams.
Naves: None.

Mr. Sutherland left the meeting at this point.

Discussion of drapings for the stage followed.

Discussion of school plant needs and how to solve them was held. A survey is underway to determine needs in school buildings of the community and will be completed by spring.

Moved by Dr. Williams, seconded by Mr. Wesley that the payroll of \$32,185.55 and unpaid bills to the amount of \$8,302.05 be allowed. Carried.

Ayes: Mr. Hulsing, Mrs. Morrow, Mr. Sutherland, Mr. Wesley and Dr. Williams.
Naves: None.

Motion made by Dr. Williams, seconded by Mr. Wesley for adjournment at 12:20 p. m. Carried.
Marian Morrow, Secretary
Board of Education

Nutrition Aids

from the American Red Cross Nutrition Service

The most careful budgeters are likely to find their funds a bit low after the splurge of holiday spending. If you're in that class you'll find plenty of company among other residents and you'll be looking for some real bargains to cut down on current expenditures.

The total amount of our bill may make us think there is no such thing as a bargain in food, but careful shopping will turn up a number of items that are relatively inexpensive.

During the month of January the United States Department of Agriculture lists the following foods as plentiful, thus offering a good return for the money spent: fresh and canned citrus fruits, cranberries, winter pears, spinach, cabbage, carrots, potatoes, dried beans and peas, cheese, pecans, dried prunes and raisins, canned corn and peas, honey, peanut butter, fresh and frozen fish, oat and corn products.

Most homemakers can think of a variety of ways of including most of these foods in their menus, but cereals seem slated almost exclusively for breakfast. There are few more appealing foods on a chilly winter morning than a bowl of steaming oatmeal topped with a pool of melting brown sugar and cream or top milk.

That's a good starter for the day and a good starting point for using this nourishing food. Give variety to plain oatmeal by adding a cupful of raisins or chopped dried prunes, or half a cupful of sliced dates to the boiling water before stirring in the cereal.

The Nutrition Service of the American Red Cross recommends oatmeal as a meat extender. It's good source of tissue and blood building protein and iron and carries generous amount of the B-vitamins so the resulting dish is not only tasty but highly nourishing.

Try these recipes on the family soon.

GLAZED HAM BALLS
One-half pound smoked ham, ground, 3/4 pound ground pork, 2/3 cup rolled oats, 1 beaten egg, 1/2 cup milk, 1/3 cup brown sugar, 2 tablespoons flour, 1 teaspoon dry mustard, 2/3 cup pineapple or apricot juice, 2 tablespoons vinegar, 6 whole cloves, 1/3 cup dark corn syrup.

Combine meats, rolled oats, egg and milk. Mix until thoroughly blended. Chill. Shape into small balls and place in shallow baking pan. Bake in slow oven, 300 degrees F., for 1 hour. Drain off fat.

Combine remaining ingredients in sauce pan and cook on

top of stove until slightly thickened, pour over ham balls and continue baking for 15 minutes. Makes 6 servings.

Serve the ham balls in a noodle or rice ring bordered with green peas or beans. For crispness add jellied tomato salad with shredded cabbage, celery and green pepper molded in it and finish the dinner with baked apples topped with a bit of ice cream.

LIVER AND VEAL MOLDS

One-half pound beef or pork

liver, 1/2 pound ground veal, 1 medium sized onion, ground, 1 beaten egg, 1/4 cup catsup, 1 teaspoon Worcestershire sauce, 1 teaspoon salt, 1/4 teaspoon pepper, 1 tablespoon minced parsley, 3/4 cup milk, 1 cup rolled oats, 8 slices bacon.

Cover liver with hot water, simmer for 5 minutes and drain. Grind liver and onion, using fine knife. Combine all ingredients, except bacon, mixing until thoroughly blended. Line 8 custard cups or muffin pans with slices

of bacon and fill with meat mixture. Bake in moderate oven, 375 degrees F., for 35 to 40 minutes. Remove from molds and serve at once. Makes 8 small molds.

Tuck potatoes in the oven to bake shortly before putting in the meat molds, and later add a casserole of scalloped tomatoes. An assortment of raw vegetables or a tossed salad go well with this combination. Your favorite apple pie will be fine for dessert.

Oatmeal makes delicious cookies and it's good in other desserts too. This orange torte is low in cost but high in taste appeal.

ORANGE TORTE

One orange, 1 cup raisins, 1 cup sifted enriched flour, 1/2 teaspoon soda, 1 teaspoon baking powder, 1 cup brown sugar, 1/2 cup shortening, 1 egg, 1 cup buttermilk or sour milk, 1 cup rolled oats.

Squeeze orange rind and raisins through medium blade of food chopper. Sift flour, soda, salt and baking powder into bowl. Add sugar, shortening, egg and orange juice. Beat for about 2 minutes or until smooth. Fold in orange rind and raisin mixture, the buttermilk and the rolled oats. Bake in greased 7 x 11 inch pan in a moderate oven, 350 degrees F., for 45 to 50 minutes. Serve warm with a topping of whipped cream or hard sauce. Makes 8 servings. NOTE: The shortening must be at room temperature so it will combine with the other ingredients.

Astrology

Your Weekly Guide by G. Cardinal LeGros

RING OUT, WILD BELLS

Ring out, wild bells, to the wild sky, The flying cloud, the frosty light;

The year is dying in the night; Ring out, wild bells, and let him die.

Ring out the old, ring in the new; Ring, happy bells, across the snow;

The year is going, let him go; Ring out the false, ring in the true.

Ring in the valiant man and free; The larger heart, the kinder hand;

Ring in the dark of the night; Ring in the Christ that is to be. —Tennyson

Happy New Year! Do we ever stop to ask ourselves just what we mean by those three little words? They have become almost as trite and puzzling as three other little words, known as "I love you"—which we will comment upon later.

De we mean that we want the coming 12 months to be filled to the brim with happiness for everyone? If so, do we ever consider what a dull, monotonous business that would be? Did you ever spend two or three days doing exactly everything that you wanted to do, and satisfying every desire that you had? Don't try it. It's awful.

We once heard of a lady who belonged to a cult of perfectionists who taught that you could have all that you wanted just by willing it into being—health, love, happiness and prosperity, everything. But she soon resigned from the cult and went back to ordinary living. When asked why, she replied: "I just got tired of being so blamed happy all the time."

And that's the truth. Personal happiness in the sense of gratifying our selfish desires is not the end and aim of life. Such a course brings only satiety and frustration in the end. True happiness is an inner peace that comes from fulfilling whatever duties we have.

To live one day at a time, faithfully discharging each obligation that is rightfully ours, and learning to love what we do, is the royal road to lasting happiness of inner contentment.

The greatest sages and seers that ever lived have all been in agreement on this cardinal doctrine of philosophy. They have assured us that life can be an unbroken pattern of joy, a journey of continuous gladness. And they have all taught the same method: forget yourself in service to others, in self-dedication to the needs of those about you.

We all have this opportunity to enjoy true happiness. It is ours today, this very hour, in our home, in our circle of friends, or in the wider field of public service. And the degree of real joy that we shall know depends upon the degree of selfishness with which we act.

Therefore, when we wish each other a Happy New Year today, let us be wishing each other greater opportunities for service, for the fulfillment of duty, and for the forgetting of our selfish, personal desires. In this way we shall be contributing something real and worth-while to human progress, and joining hands with all who work for the betterment of mankind.

Question: When should New Year resolutions be made, according to astrology? Answer: There are definite rules that should be followed in starting or stopping anything. These rules are based on the Moon's cycles, or the periods when it is new and when it is old.

Here's a toast from all of us to all of you. Best wishes for the grandest New Year ever.

S. E. Tallian
Distributor
IRA WILSON & SONS
Dairy Products

If your resolution is to stop something that you have been doing—smoking, drinking, staying up late, etc.—make it during the fort-night when the Moon is full, or waning, when the forces of nature are decreasing and things are coming to an end or termination. The next period of the Full Moon—during which you should make your resolutions to stop things—is from January the 14th to the 28th. However, on the 25th of January Mercury turns retrograde—a condition we explained once before. Therefore, make your resolutions to stop things between the 14th and 24th of January this year.

If your resolution is to start some new course of action, or to introduce some new constructive factor into your life, then you should make your resolution during the cycle of the New Moon when the forces of nature are increasing and strong. The New Moon period began on the 30th of December and will last until the 13th of January. Start all new things during this cycle.

These are old time-tested rules that never fail. Everyone should pay attention to them. Never start anything important during the Full Moon fortnight when the forces of nature are at low ebb. See to it that marriage, the launching of new business, the purchase of property, moving, and journeys take place in the New Moon cycle, and you will have a much greater chance of success. These lunar periods are usually marked on the ordinary calendar. Circle the dates with a red pencil.

Question: My husband and I have just returned from our honeymoon, and we are supremely happy. Can you tell me from my horoscope if this happiness will continue, or what I can do to make it last?

Answer: From a study of your chart and his I would say that you have a very good chance for lasting happiness providing you give attention to the following. Remember that during the honeymoon and the first weeks of marriage you are new and wonderful to each other. But as time goes on this newness and wonder wear off and you begin to see each other as you actually are. Your husband, unless he is one in a million (and he isn't), will develop a tendency to take you for granted.

This is where psychology comes in. You must learn to preserve during the coming years of your coming marriage, the newness and mystery that thrills him so now. You can do this by subtly refraining from complete emotional surrender. In other words, hold something of yourself back. Keep your husband wooing and pursuing. Don't give him all that you are because if you do his quest ends. You will cease to be the intoxicating mystery that he fell in love with. And he will take you for granted.

Don't be his abject slave. Be yourself. Remember that you are an individual too. Marriage is partnership, not ownership. Lord Byron—who knew what he was talking about—said: "Man's love is of man's life a thing apart. 'Tis woman's whole existence." Success in marriage depends far more upon a wise course of action followed by the woman than the man. In your case the above rule is the foundation of such a course.

If you have a question or problem, write to the author of this column for confidential help. Be sure to include your hour, day, month, year and place of birth. Also the dates of any important events in your life. G. Cardinal LeGros, 1111 Burlingame avenue, Apartment 405 Detroit 2, Michigan.

Accomplishments

... are measured in many ways, but somehow we like to accept the standard of achievement as evidenced by the number of fine friendships formed in our associations with the people of this area in the past.

Our New Year's wish is that we may continue to merit the goodwill of our friends who have been so loyal to us in the past.

University Sets New Records

New highs in enrollment and number of graduates marked 1948 at the University of Michigan.

Expansion of services within the state and many developments in the field of research also were recorded during the year.

Enrollment of 21,370 students for the Fall Semester, surpassing the 20,915 of the previous fall, was reported at a time when most other large universities and colleges across the nation were reporting a drop in enrollment. Graduates numbered 5,908 with 1,423 at the end of the fall semester in February, 3,258 in June and 1,227 at the end of the summer session.

Eighty-seven new courses or degree programs were offered by the University in the fall as additions and revisions were made to keep the University's educational program in line with current events.

Completion of four new educational buildings also marked the initial move in a program to modernize the University's educational plant which had fallen behind enrollment during a 20 year period in which no State funds were appropriated for construction purposes.

Approximately 360 research projects were in progress in University laboratories as the year ended. Secrecy shrouds important aeronautical research both on the campus and at the Willow Run airport. New weapons against polio, cancer, heart disease, arthritis and the other diseases that afflict mankind are sought in Medical school and University hospital research.

New facilities for research and study are nearly ready as the year ends. A new 300,000 volt synchrotron is about ready for testing. This machine will open the way for University scientists to pursue research beyond the breakdown of the atom.

Under construction about 14 miles northwest of Ann Arbor is a new \$260,000 observatory equipped with a 24-inch Schmidt-type reflecting telescope. The new observatory will be used for research on distant stars and their galaxies, thus permitting a well balanced program in astronomy where the University already has outstanding facilities for solar, double star and stellar spectra research much of which is used by the armed services in the nation's defense program.

The Extension Service expanded services throughout the state. The five off-campus offices at Detroit, Flint, Saginaw, Grand Rapids and Escanaba were designated as "area" offices to give recognition to the fact that University services extended well beyond the limits of each of these cities.

Other noteworthy events in the Extension Service were the initial appointment of some full-time staff members to teach at off-campus points, the loaning of reproductions of great works of art to rural and smaller schools, and the offering of courses in the problems of old age.

The University was a prominent subject in two books published during the year, "Michigan and the Cleveland Era," edited by Earl D. Babst, of New York, and Lewis G. Vander Vel-

de, chairman of the University's Department of History, contained sketches of 13 University alumni and staff members who served the administrations of Grover Cleveland while he was President.

The other book, written by Kent Sagendorph, of Jackson, Michigan, was titled "Michigan, the Story of the University." This 370-page book is an informal history of the rise and development of the University.

Some of the year's important

events, not summarized above,

addition of a new ultracentrifuge to the School of Public Health research weapons in the fight against polio.

Launching of a new postgraduate educational plan to train more family doctors. The Medical school inaugurated a plan in July with two affiliated hospitals, James Decker Munson in Traverse City and Beyer Memorial in Ypsilanti. Addition of more hospitals is planned once

the program has been thoroughly tested.

The Research Center for Group Dynamics transferred to the campus from Massachusetts Institute of Technology. This center seeks to learn more about forces which control human behavior in groups.

The Law school began using films to help student lawyers try practice cases under actual court conditions.

The Bureau of Psychological Services began testing a Faximile Visagraph to discover how the machine may best be used to aid the blind. The visagraph automatically enlarges and embosses printed or written material.

A new Food Service building, constructed on a self-liquidating basis, was opened in April to centralize food purchasing, processing and storage.

The McMath-Hulbert Observatory, famed solar research center, reported that methar existed in the earth's atmosphere.

The Department of Chemical Engineering observed its 50th anniversary on May 8.

The late Crapo Cornell Smith left more than \$1,000,000 to be used as gifts, loans, scholarships and rewards of merits for students.

The William L. Clements Library of American History observed its 25th anniversary on June 10.

A Bureau of School Services was organized to combine services to the schools and develop new programs.

An expedition, sponsored by the University and the American Schools of Oriental Research, completely copied 2,400-year old inscriptions on the walls of Mount Behistun in Iran. These inscriptions, never before completely copied, provided the key to the translation of all cuneiform inscriptions from ancient times.

Dr. William Robinson and Dr. Isadore Lampe reported on June 30 that X-ray treatment effectively relieves pain for many sufferers of rheumatoid arthritis of the spine. On the same day, Dr. Jerome W. Conn announced that diabetes of a temporary nature had been produced experimentally by an injection into muscles, promising progress in the hunt for some way to cure this disease. And on July 1, Dr. William H. Beirwaltes reported that radioactive iodine had been helpful in treating two types of thyroid cases.

Broadcasting of programs over the University's new FM station, WUOM, began on July 5.

Two unique fellowships in journalism were inaugurated by the University and the University Press club. Two European students received the first of the fellowships which provide for a year of graduate study followed by a year of work on daily and weekly newspapers in the state.

The 25th anniversary of the famed Kahn test for syphilis was marked on October 10. The date found Dr. Reuben L. Kahn busy with new research in University hospital laboratories.

Dr. Howard B. Lewis, chairman of the Department of Biological Chemistry, was honored by being named Henry Russel Lecturer for 1948-49.

A new treatment for acute kidney failure, which has reduced a 50 per cent death rate to no fatalities at all, was announced by University hospital.

Dale Carnegie

Author of "HOW TO WIN FRIENDS and INFLUENCE PEOPLE"
TENACITY PAYS OFF

I READ the other day how well Howard Lindsay was paid for the seventeen days of work during which he collaborated with Russell Crouse on Life With Father. The figure given was something like \$250,000. But let's look into this.

I go back some years to the time when I first knew Howard Lindsay. We were both on the stage, going out in road companies, at a pitiful money reward. We didn't think so, at the time, however, for we were both enjoying our work. Money came second. After I found out that acting was not what I wanted, Howard went on, stuck closely to the stage. He went from small acting roles to property man, to assistant stage manager of road companies, to stage manager, to a director of Broadway shows, to writing plays and after awhile getting one produced; then to acting more important roles than he had ever dared to dream he would—or did he? He probably did, at that.

D. Carnegie

Howard's first play was produced by George Tyler for whom Howard had worked faithfully as stage manager, assistant director, and director. His faithfulness to duty created in Mr. Tyler a strong desire to see Howard get ahead. He liked this chap with so much integrity. The play succeeded, and from there Howard in time stepped right on up to the top.

During the years he was climbing, there were times when he didn't know where the money was coming from for next week's meals. I've known him to go through every sort of discouragement, including having others dependent upon him for living expenses—though I never knew him to look upon that responsibility as a discouragement. But during all the years I've known him, I've never known him to waver in what he wanted to do, I've never known him to consider deserting the theatre.

Has it paid off? Well, you know the answer, and you know that it has paid off, even though his close relative, his Uncle Sam, has stood right there looking over his shoulder and reaching out his hand for a large share of Howard's profits in order to finance wars and to meet other responsibilities. But whatever Howard pays to the government, he will always be rich, for he will always be doing the kind of work he loves.

Grandson of H. C. Segnitz Wins Eagle Scout Badge

Out in Olympia, Washington, Arthur Sarjent, grandson of H. C. Segnitz of Rosedale Gardens, was recently awarded the Eagle Scout badge.

Mr. Segnitz's daughter, Mrs. Asher Sarjent, the former Ramona Segnitz, was given the honor of pinning the badge on her 19 year old son. An account of the ritual, which ran below a picture of the ceremony in the city's newspaper, stated that "A large crowd of parents, friends, and Lion club members were present for the ceremony."

Arthur is an Explorer Scout, with the highest rank of ranger.

This is the time old friends meet, so we're in line to wish you well.

We hope the coming year brings fulfillment of your fondest hopes.
