

NEWS THAT IS ALARMING.

Congressman Paul Shafer the other day said in a speech over in western Michigan that "I can't help from believing that there has been treachery in high places in our government"—and—"The nation must begin at once building firmer frontiers against an onrushing communistic tide."

Like probably every other loyal American, there is a constant fear lurking in the writer's mind that the betrayal of our nation has been much more serious than most of the country realizes—and that as the result of this betrayal Russia may at any moment strike a deadly blow at a nation which seeks only peace and progress.

Why do we let men who tell our enemies of our weaknesses and of our strength, live in peace and plenty? Why not exterminate them as they would have us exterminated?

WHAT FOOLS WE ARE.

Remember back in 1933 when Roosevelt and his political spoilers talked much about the hunger of people? Remember how bitterly The Plymouth Mail fought a scheme of Michigan new dealers to destroy hundreds of thousands of good Michigan potatoes while Roosevelt was telling about millions of people going without food?

Well it seems as though the Washington nit-wits are right back where they were in 1933. Now they have fifty millions of bushels of good potatoes in storage they say must be destroyed in order to hold potato prices up where the poor suckers who voted for the Fair Deal can't buy them. What logic is there in such fool policies?

MICHIGAN'S GREATEST GADABOUT.

Michigan can lay claim to many "firsts." Some can be challenged and some cannot. There's one "first" we can now claim and feel sure that it will not be disputed by any one.

Our Governor who told the voters before election that he was going to stay in Lansing on the job if he were elected, has proven to be the greatest gadabout to ever fill the office.

Maybe yesterday he was in the Upper Peninsula. Today he may be in Kalamazoo, tomorrow he may be in Podunk. Next week he will be willing to trot up to any mink festival, peanut eating contest, or a hoe-down at Toad Hollow, providing he thinks he might pick up a vote or two by being present. Meanwhile things drift along in Lansing as they have for the past dozen years or more.

When will the voters of Michigan wake up to the needs of the day and elect some one Governor who will really work at the job? Sorry, but we can't give you the answer.

THE HYDROGEN BOMB.

President Truman has decided to have our armed forces build the hydrogen bomb. For this every loyal American will applaud the President's decision.

We hope it is much nearer completion than any of us know and hope it will be the most effective instrument of war ever created by man. We hope, too, that we will never have to use it.

But if we do—may the Good Lord direct the first bombs right on top of the Kremlin where it will blow to Kingdom come Stalin and all of his henchmen. If that is done, maybe the world will again enjoy a period of peace and happiness.

DON'T GET DISCOURAGED.

No matter whether you are twenty, thirty, forty, fifty or sixty; no matter whether you have succeeded or failed, or just muddled along—each morning is the open door to a new world, new vision, new aims and new tryings. If yesterday was a dismal failure, then turn that failure into success today. Josh Billings once said, "It ain't no disgrace to make a mistake. The disgrace comes in making the same mistake twice."—Exchange.

ABOUT THIS TAX CRAZE.

Although Foxy Roosevelt told the voters if they defeated Herbert Hoover for re-election and elected him, he would cut government spending and taxes by nearly a third, the tax burden in these United States has gone up steadily since that fateful election.

War time taxes imposed for the war period only are still with us—and now comes President Truman whooping it up for more taxes.

But what about Mr. Truman's tax burden? Does he pay as you and the rest of us? Not on your life. Like Foxy Roosevelt he is out to get every penny he can grab—and pay as little in taxes as he can. You see he didn't like Hoover any too well, because Hoover did make an effort to keep taxes down. In fact he is the only president these United States ever had who turned back into the federal treasury all of his pay checks.

But back to Mr. Truman and his income. After the voters had elected Mr. Truman for a full term as president, he had congress pass a law which became effective two or three days before he was sworn in for his present term which gives him a salary of \$100,000 per year, plus \$90,000 per year for expenses, which is not taxable and for which he has to make no accounting. In addition to this congress appropriated an additional \$1,375,000 for "travel and official entertainment" which is accounted for solely on Mr. Truman's own certificate, without detail.

These are the things which makes the average citizen who looks upon tax paying as a duty, boil over when he reads about Truman's additional demands for more and more taxes.

THE MOTIVE? GREEDY POLITICS, OF COURSE.

In all sections of the country, newspapers of diverse economic and political faiths have been strongly questioning the motives which lie back of the government's anti-trust investigation of the American Medical Association.

The Cincinnati Enquirer, which has often been critical of the AMA, said that the investigation "looks like deliberate persecution. Certainly it is not a bona-fide use of the anti-trust laws, which were never intended as a club against the medical profession."

In an editorial entitled "Dirty Pool," the Akron Beacon Journal said, "The general public can't help believing that the administration is trying to swing a club over the doctors because of their opposition to socialized medicine."

The New London Day observed, "It is almost standard practice of the government these days to 'turn the heat' on any group or individual who has been annoyingly effective in opposing some pet administration scheme."

The San Antonio Express charged that the investigation "looks like a purely political maneuver."

The Wall Street Journal said, "The same administration whose trust-busters charged medical societies with monopoly ways to create an absolute and unbustable medical monopoly."

Pages could be filled with similar comment. Some responsible editors have gone so far as to say that the methods used in this particular investigation smell of the police state. The press is not particularly interested in defending doctors—but it is vitally interested in defending basic rights and liberties, and in speaking up for any group which is politically persecuted. If the medical profession is being put on the spot as part of the plan to fasten some form of socialized medicine on the country, the public ought to know it.

Livonia Becomes Second Largest City in Michigan

Livonia township became Michigan's second largest city on an area basis Monday. By a vote of 2,511 to 1,741 the citizens of the township made Livonia an incorporated city.

The new city has 20,000 residents in an area of 36 square miles. The election came about after a bitterly fought battle between the City of Livonia committee and the Livonia Citizens' League, also known as the Elm Group.

Members of the charter commission were also elected. They include Harry S. Wolfe, Raymond Grimm, Daniel McKinney, Carl Wagenschutz, Wilson W. Edgar, Leo J. Nye, Fred C. Weinert, Rudolf R. Kleinert and William Brashear. The commission will set up a charter on which the city will be operated.

As a city, Livonia is now eligible for a sizable amount of the taxes from revenue of the new Michigan Racing association track to be opened this year within the city limits. Besides this race track assessment, Livonia might also receive a portion of the taxes paid by the General Motors Hydra-matic Transmission plant, located in the city. This revenue would otherwise go to the state.

County officials, with an eye on the race track "plum," launched a move to channel the track revenue to the county. Mayor Cobo of Detroit and Wayne and Oakland county supervisors formally requested Gov. Williams to include the move on the agenda of the special session of the legislature. The governor said he would take the proposal under consideration.

Rotarians Host Traffic Experts

Better drivers emerged from the February 3 luncheon meeting of the Plymouth Rotary club, following the meeting's program on traffic safety.

State Police Patrolman Ray Whalen showed a film entitled "Driving with the Devil," and spoke briefly on driving precautions. Additional traffic information was offered by two youthful experts on the subject, Jimmy Jones, safety patrol boys' captain, and Allisande Cutler, safety patrol girls' captain. Both elaborated on the importance of the work of school safety patrols.

On tomorrow's program of the Rotary luncheon meeting, two leading debaters from Plymouth High school will give talks. Ronald Witt will give a speech on Lincoln, and Roger Kidston will speak on Washington. Both boys have been Junior Rotarians, and are seniors at the high school. Cyrus Pierce, high school principal, is chairman of the day's program.

Mustangs Break Rocks' Record

Losing their first game since December, the Plymouth Rocks' six game winning streak ended Tuesday night as they bowed to Northville 32-30 in an encounter that was close all the way, on the locals home court.

The Rocks' winning streak started with a two point victory over Northville, 45-43, and ended with a two point loss to the Mustangs. Jerry Heaton dropped in 15 points for the victors and Dick Fenton pushed 11 through for Plymouth.

Scoring 30 points, an unofficial school record, Dave Travis led the Plymouth reserves to a 57-24 win over the Mustangs reserves. Travis netted 14 points in the initial period.

U of M Club to Sponsor Banquet

The 10th annual All College banquet sponsored by the University of Michigan club of Plymouth will be held February 23 in the dining room of the First Presbyterian church at 6:30 p.m.

Charles G. Oakman, Detroit city councilman, will be the guest speaker at the banquet, it was announced by Kenneth L. Hulsing, program chairman for the evening. Tickets for the affair will be sent to members by the ticket chairman, George Conover. Following sales to members, tickets will go on sale to the general public. Lawrence Mack is president of the club.

Prepare for Fifties Frolic Saturday . . .

City manager Al Glassford left, and Horton Booth drive the first nails that will start construction on booths for the Central Grade school P.T.A. carnival. Helping with the framing is Douglas Hammial, lower right, while left to right Mrs. Kenneth Hulsing, Mrs. Booth, Mrs. Glassford and Mrs. Hammial give moral support. The carnival is an annual event and will be held on Saturday, February 11 this year.

Debate Team Wins Way To State Quarter Finals

Plymouth High school's capable debate team again defeated last Thursday at the regional elimination tournament held at the high school. Ronald Witt and Roger Kidston were the debaters on the winning team.

Plymouth's team won the decision from teams from Marshall High school, Saginaw High school and Lansing Eastern High school. Witt and Kidston are now both eligible for the \$2,500 Detroit Free Press debate scholarship, along with the winners of other regional tournaments in the state. They will vie for this award in May.

Other schools competing in last Thursday's tournament were Central High school, Bay City; Bentley High school, Warren High school and Utica High school.

The debaters well deserve the

A. A. Sinclair to Lecture Feb. 13 at Garden Club

Arthur A. Sinclair

As a fitting prelude to Valentine's Day, members of the Plymouth branch of the National Farm and Garden association will entertain their husbands at the meeting on the eve of the holiday, February 13 in the First Methodist church hall at 8 p.m.

Speaker for the evening's program is Arthur A. Sinclair, artist-lecturer. Mr. Sinclair will give one of his interesting chalk talks. Using chalks of many colors and silver gray paper on his specially built easel, he rapidly sketches large, brilliant pictures to illustrate his themes, while he talks.

Mr. Sinclair's early training at the Chicago Art Institute and many years of platform experience enable him to create new pictures before his audience. A wide experience in other fields of art has provided a rich background for his work. He has given

winning decisions as a reward for the many after-school hours they have devoted to the preparation of their presentations. They have defeated contestants from much larger high schools, and will compete in the quarter finals held later this month. James Latture is the school debate coach responsible for guiding his teams to victory.

Hi-12 Views Film on Delinquency

Pictorial data on juvenile delinquency was provided by the film "Glass Houses," shown at last night's meeting of the Plymouth Hi-12 club.

Ray Williams of the Plymouth United Savings bank ran the film and gave a commentary on delinquency at the meeting held in the Masonic Temple.

The complaint department had a chance to talk back as Russell Kirkpatrick of the Claims department of the C. & O. railroad spoke to members of Hi-12 at the meeting February 1. All kinds of claims are filed with the railroad, Kirkpatrick said, from broken fingernails to torn nylons. One of the most amusing and frequent claims is filed by the owners of cars hit by trains. "Drivers won't believe that the train can't swerve to avoid hitting a car on the tracks," Kirkpatrick said.

Habitual claim seekers are soon spotted by railroads, Kirkpatrick stated, and their names are passed on to other railroads who might be bothered with such claimants.

Players, Chorus on Club Program

Husbands will get a real opportunity to laugh at women's hats as they see the Plymouth Woman's club production of "The Bird in Nellie's Hat," to be presented tonight at the club's annual Husbands' Night program in the First Presbyterian church hall at 8 p.m.

The cast of the play includes Mrs. David Wood, Mrs. Hugh Law, Mrs. Charles Baker, Mrs. David Gates, Mrs. Cass Kershaw, Mrs. O. H. Williams, Mrs. Philip Barney and Mrs. Lance Wright. All are members of the Woman's Club Players whose president, Mrs. John S. Wimsatt, will direct the production.

Entertainment for the evening's program also includes a group of selections by the Glee Club, with a solo by Mrs. Harold W. Kellogg, Mrs. Gerald Hondorp is director and Mrs. Helmer-Nelson, accompanist.

A buffet supper will be served members and their husbands by Mrs. Robert Minock and her committee. Mrs. John Henderson is general chairman for the evening.

Will Observe Legal Holidays

February 13 and 22 will be observed as legal holidays by the banks in the city, and no business will be transacted on these days. The Michigan Unemployment office on Ann Arbor trail will be closed on both days.

Carnival Set For Saturday Night

It's carnival night in Plymouth Saturday when the Central Grade school P.T.A. presents the "Fifties Frolic" in the school building. All sorts of carnival attractions are planned for the evening, according to Mr. and Mrs. Douglas Hammial, general chairmen.

Three performances of the puppet show will be given, the first at 7 p.m.; the second, 7:45; and the third at 8:30 p.m. The movies in the gymnasium will begin at 7 p.m. and will be shown every half hour thereafter. Prizes will be awarded at 9:15 p.m. in the gymnasium.

Parents are requested to send all articles for the carnival except baked goods to the school tomorrow. Baked goods should be brought to the school Saturday afternoon or evening. Refreshments will be served in the lunch room during the evening. Proceeds from the affair will supplement funds for various projects carried on by the P.T.A., such as the milk program. The south entrance to the grade school should be used by those attending the carnival.

McAllisters Remodel Store

Patrons of McAllister Brothers' store at 147 1/2 Northville road are pleasantly surprised these days by the complete job of remodeling that the store owners have just completed on the store's interior.

The owners, William and John McAllister, have replaced all of the shelving in the store with the newest in self serve display and sales counters and have done everything to make the interior more convenient for their customers.

Arrange Club Entertainment . . .

Mrs. John Wimsatt (left) and Mrs. Gerald Hondorp meet to put the finishing touches on the entertainment for the Plymouth Woman's club Husbands' Night program to be given tonight at the First Presbyterian church hall at 8 p.m. Mrs. Wimsatt is director of the comedy, "The Bird in Nellie's Hat," to be presented tonight. The Glee Club, which will give several selections, is directed by Mrs. Hondorp.

Charter Changes Approved By Officials at Lansing

Governor G. Mennen Williams has approved all six proposed amendments to the city charter, according to a letter sent the city manager. The governor's action followed a recommendation by the Attorney General that he do so.

The proposed amendments were examined by Graydon G. Withey, deputy attorney general, and he found all six to be legal and worthy of the governor's approval. The proposed amendments were sent to the governor with a letter stating the report of Harry Deyo, city attorney, after he had studied the charter changes. Deyo maintained in his letter that there were certain

discrepancies in the proposed amendments, and that if only some of the amendments were adopted, and not all, there would be a conflict in the city charter.

Withey's reply to this follows: "Even if certain proposals are not adopted and others are, causing discrepancies in the charter as amended, it is my opinion that it is the concern of the city's governing body and the city attorney, rather than the Governor's, if each proposed amendment is legal and proper for the Governor's approval."

He also stated that in case of conflict in the charter, should the proposed amendments be adopted, the latest amendment would prevail. According to Mr. Withey, if certain proposals are defeated, conditions in sections of the present charter regarding that proposal, would be in effect.

The six proposed amendments will be voted on at the election on April 3.

X-Rays Given Until Feb. 17th

Here's Where to Get X-ray
Friday, February 10—Standard Oil Service Station-1 to 5 p.m. and 6 to 8 p.m.—Ann Arbor trail and South Main.
Monday, February 13—Standard Oil Service Station-10 to noon and 1 to 5 p.m.—Ann Arbor trail and South Main.
Tuesday, February 14—Wall Wire Products-noon to 3 p.m. open to the public, 1133 General Drive.
Wednesday, February 15—Lidgard's Market-1 to 5 p.m. and 6 to 8 p.m.—Liberty and Starkweather streets.
Thursday, February 16—Evans Products—for employees only.
Friday, February 17—Whitman and Barnes—for employees only.

The above schedule is for the benefit of those who have not yet taken advantage of the free chest X-rays being given by the state health department's Mobile X-ray unit. The service is sponsored by the Wayne County Medical society, Wayne County Health department and the TB and Health society.

These organizations urge that every citizen be X-rayed. The Plymouth Chamber of Commerce gives its wholehearted endorsement to this community project which has as its objective, the discovery of tuberculosis and other chest conditions in their early stages when the chances for cure are greatest.

A report from the TB and Health society states: "A great many people hesitate to have a chest X-ray because they are afraid of what it may show. Anybody can understand this fear and sympathize with it. But look at the whole thing from the right angle, think of all the facts. If the X-rays show that you have tuberculosis in its early stages, it can be cured—with the least loss of time from your work."

Kiwians Show Wyoming Color Films

Members of the Kiwanis club viewed color films of Wyoming at the dinner meeting February 7 at the Mayflower Hotel. The movies were shown by William Hartmann who took them on trips out west.

Future programs on the agenda for the Kiwanians include the 4-H club program and a tour of the Burroughs plant.

Explains Work of State Auto Club to Optimists

Bavard A. Clark, head of the traffic safety division of the Michigan Automobile club, was guest speaker at the meeting of the Plymouth Optimist club on February 6.

Clark spoke on three phases of his work, including traffic engineering of our highways, police enforcement of safe driving laws, and education in our high schools and in adult driving classes.

Two other guests introduced to the club were Gerald Hosier, of the Daisy Manufacturing company, and Lloyd Clark, of the Louis Rose company. Next week's meeting will have as guest speakers the Rev. Frederick G. Roole of the First Methodist church and the Rev. Alex Miller of St. John's Episcopal church. The two pastors will give their reaction to the teen-age dances sponsored by the club.

The next teen-age dance given by the Optimists will be this Saturday, February 11, in the First Presbyterian church hall. Last week some youngsters had to be turned away as the capacity crowd of over 200 filled the St. John's Episcopal church hall.

City Offered New Parking Area

The city commission considered a proposal for a public parking lot at the commission meeting February 6. The proposed parking area consists of the vacant lot next to the Plymouth hospital on Main street and two vacant lots on Fralick avenue.

All three lots are adjoined and would furnish a large parking area close to the business district. The lots are offered on a rental basis by Mrs. Florence Neale, owner of the Main street lot, and Edwin Schrader, owner of the Fralick avenue lots. According to Stan Basso, city engineer, the lots would require improvements before they could be used for parking. He stated that they need grading and graveling, fences would have to be built, and regular maintenance would be necessary. The commission tabled the proposal for further consideration.

Celebrates His Third Anniversary

I. E. Kades of Kades department store is celebrating his third anniversary of being in business in Plymouth this week. The store which is located next to the A & P grocery on Ann Arbor trail is featuring a special sales event in celebration of the anniversary.

State Unable to Meet Tax Claims

City Treasurer Charles Garlett has been notified by the state auditor general that the funds for reimbursing the city for veterans' tax exemptions are depleted. Veterans of early wars, disabled veterans of World War I and II, and widows of veterans who died in service are entitled to a property tax exemption amounting to \$2,000 on home-steads. The state is required to reimburse cities for the exemptions claimed. According to the auditor general, the needed funds may be made available during the sessions of the state legislature in March.

Group Tours Ann Arbor Libraries

Thirty members of the Plymouth High Library club, accompanied by Mrs. Esther Ham, librarian, recently toured libraries in Ann Arbor. The group first visited the Ann Arbor High school library and the University General library. Here they toured the rare book room and the University bindery. Following this tour the students went through the University High school and elementary school libraries.

An hour was spent in the William Clements library, which is a library of American history containing ancient books and documents. Winding up the trip was a tour of the University broadcasting station and the audio-visual department.

Church Sponsors Valentine Dance

A St. Valentine's dance will be held in Our Lady of Good Counsel church hall tomorrow night at 9 p.m. Fred Sarchet and his orchestra will play. The dance is sponsored by the ladies of the parish as one of the monthly church projects. Co-chairmen for the dance are Mrs. William Resch, Mrs. Joseph Neault and Mrs. Earl O'Hara.

Singer Joins Air Force Reserve

Fred Kendall (left) of Plymouth, and singer on WJR's "Anything Goes" program, is shown being sworn into the United States Air Corps Reserve by Captain Richard Nelson (center) of the USAF at Selfridge Field and Ron Gamble (right) who is master of ceremonies on the program and who doubles in brass as an Auxiliary Recruiter for the Army and Air Force recruiting.

Kendall Sworn Into Air Reserve

Fred H. Kendall of 253 Blanche street, the featured tenor on radio station WJR, was sworn in last week to the United States Air Force Reserve. The ceremony took place on the "Anything Goes" program on which Mr. Kendall is the featured singer each weekday afternoon. Capt. Richard Nelson of the USAF at Selfridge Field administered the oath of office.

Kendall who now becomes Sergeant Kendall in the Air Force Reserve has been assigned to the Special Service Section of the 439th Troop Carrier Wing stationed at Selfridge. He will take his place with some 1,100 other citizen soldiers who train one weekend each month with this Reserve unit, learning new skills and maintaining their proficiency in their old ones.

Victim Gives to March of Dimes

Little Marie Bolen, 7, a victim of polio since last fall, contributed two dollars to the Plymouth March of Dimes drive. Marie, wanting to help other boys and girls having polio, saved her pennies and nickels and then sent the total to Miss Neva Lovewell, local drive chairman. Marie is suffering from paralysis of throat muscles, and is recovering at home since her return from the hospital in December. Her very proud parents are Mr. and Mrs. Clarence E. Bolen of 958 Starkweather avenue.

Twice a person's minimum daily requirement of ascorbic acid is supplied by a single cup of canned grapefruit.

County Agent Lectures at Garden Meeting

A program of interest to gardeners will be presented to members of the Home Gardeners' club of Livonia at the meeting February 22 at 8 p.m. in Livonia city hall. The Wayne County agricultural agent, Philip R. Biebesheimer, will speak on soil preparation and the latest gardening techniques. The public is invited to the meeting.

Architects Form New Partnership

Thomas W. Moss, local architect, has entered into partnership with Nathaniel O. Gould, architect and engineer, formerly of Detroit. They will begin practice together as architects and engineers in their new offices in the Dibble building, 320 South Main street, along with a branch office in Clinton.

Gould has designed and supervised many buildings in Wayne county, including hospital buildings at Eloise, Wayne County Training school, Wayne county jail, the morgue and juvenile court buildings in Detroit, and numerous schools.

The partners are now preparing drawings or supervising construction for new schools at Romulus, Sumpter, Clinton, Monroe county and Plymouth, along with industrial buildings in Lenawee county. They are now obtaining bids for an addition to the Daisy Manufacturing company in this city.

Represents Club at State Meeting

Mrs. Carl Shear, president of the Plymouth Garden club, attended a district meeting of the State Presidents and Conservation Chairmen of the National Farm and Garden association on February 3 in Ann Arbor. The meeting was held to plan for a state meeting to be held later in the year.

Discuss English Schools at PTA

A discussion on school life in England will be included in the program of the meeting of the Starkweather PTA February 16 at 8 p.m. The discussion will be given by Mr. and Mrs. Arthur Myers of London, England, who will also show pictures of English schools.

Also on the program are Craig Robinson and David Thrasher, who will give a tap dance, and Jan Ponto and Marcia Staple, who will toe dance. Music will be furnished by the boys' glee club of the high school. Members of the refreshment committee include Mrs. George Caldwell, Mrs. Glen Steele and Mrs. Walter Griffiths. The public is invited to the meeting.

LAFF OF THE WEEK

this week's patterns... BY AUDREY LANE

Here's Message to Bartlett School Dads

Dear Valentines: Have big news for you! We're both going to have a gala time next Saturday night. Where and how? Well, let us tell you.

We generally supervise three parties each year for our children, and now we are planning a special evening for all you fathers. We're going to play cards, have prizes, and hold one of our special auction sales. Then refreshments and a social hour, so all you fathers can get acquainted.

Sounds like loads of fun, doesn't it? So let's get a sitter, or ask grandma to come over for the evening. You know, we haven't taken you out for a long time, and what could be more appropriate when next week is Valentine's Day?

That's right. Everyone in the district is welcome. See you at 8 p.m. Saturday, February 11 at the Bartlett school, Canton Center.

Funeral Held For Ernest Housman

Funeral services for Ernest A. Housman were held yesterday at 2 p.m. at the Schrader Funeral home. Mr. Housman passed away suddenly last Sunday at the age of 74. He lived at 413 Ann street and has been a resident of Plymouth for the past 25 years, having moved here from Redford township.

Mr. Housman has been an employee of the Pere Marquette railroad until his retirement in 1939. Surviving are his sons, Maynard and Dallas Housman, and a daughter, Mrs. Margaret Rimer, all of Plymouth. Also surviving are four grandchildren, Mrs. June Woolsley, Paul Rimer, Nancy Housman and Gary Housman. His wife, Mrs. Christine E. Housman, preceded him in death in June, 1947.

Rev. Lucia Stroh officiated at the services. Services were also given by the Tonquist Lodge No. 32, I.O.O.F., of which Mr. Housman had been a member for 24 years. At the time of his death he was outside guardian of the lodge and held the rank of Past Grand of the Odd Fellows.

Pallbearers included Earl Gray, Fred Wagenschutz, George Mott, William Roach, Lloyd Kennedy and Harry Hunter. Hymns were sung by Mrs. Frank Dicks, accompanied at the organ by Mrs. Alta Woodworth. Interment was in Grand Lawn cemetery.

While Washington bureaucrats have put forth an effort to claim that it was the federal government which started the soil conservation program, Michigan can rightly lay claim to this distinction.

Michigan still produces more salt than any other state in the Union.

Detroit's first municipal government was set up in Chillicothe, Ohio. It was a territorial legislative act passed January 18, 1802 which authorized Detroit's first election on May 3 of that year following its incorporation as a municipality.

W W J, the first commercial radio station ever established will be 30 years old next August 20.

Michigan's first sawmill was built on the banks of the Saginaw river in 1835.

Twenty-two rivers and lakes that spread across the border of Michigan and Wisconsin now have uniform regulations and fishermen will no longer be required to guess as to which regulations may apply on any given area.

Conservation commissions of Michigan and Wisconsin have agreed to a uniform set of regulations for these waters and these have now gone into effect by orders of the commissions of the two states.

The waters will have no closed seasons on bullheads, sunfish, bluegills, rock bass and perch. The waters affected by the new regulations are the Mehomine river, Brule river, Smoky lake, Wood lake (Boat), Lac Vieux Desert, Eleanor or Birch lake, Crystal lake, Big Bateau lake (Big Bass), Lake Mamie, Crooked lake, West Bay lake, Big lake, Crampton lake, Plum lake, Tenderfoot lake, Roach lake, Little Presque Isle lake, Kunsche lake, Basin lake, State Line lake, Line lake or Moraine lake, and the Montreal river.

The average life of a Michigan fox squirrel is not much over two years. It is interesting to note that the fox squirrel which for a number of years was a fast disappearing game animal in Michigan, has in recent years increased to such an extent that Michigan's fox squirrel population is one of the largest of any state.

A bill (H. R. 5039) introduced in the House of Representatives last June by Congressman Byrnes of Wisconsin, merits support by all who are interested in seeing the streams and rivers of America restored as recreational assets.

Now awaiting action in the House Committee on Ways and Means, this bill has as its stated purpose encouraging "the prevention of water pollution by allowing amounts paid for industrial waste treatment works to be amortized at an accelerated rate for income-tax purposes."

The importance of this bill goes further than improving recreational facilities. Pollution is a menace to health and property values and directly affects, in one way or another, every person in the nation, regardless of his interests or financial standing.

Sportsmen, property owners, and civic leaders should make their views on this bill known to their congressmen. It is an urgently needed piece of legislation which will do much toward improving the future health and happiness of American citizens.

Michigan rivers in the early days of settlement of the state played an important part in the transportation problems the pioneers faced.

More than 30,000 meals per day are served under the direction of the University of Michigan. So vast have become the food needs of the University hospital, the Michigan League, Health service and University residence halls, that the University has found it advisable to establish the first University food service department in the country.

It was in 1838 when Cornelius Vanderbilt, who controlled the fur trade of Northern Michigan, said: "We need a bridge across the Straits of Mackinac."

Oklahoma has a way of getting things done in a hurry when they set their minds to a task. The Oklahoma County Sportsmen's Club of Okemah recently made plans for a new lake.

On Sunday, spurred by the donation, the club committee met and made final plans for the impoundment, presenting them on Monday to the city council.

This is not the only project which this progressive group has tackled. A series of low-water dams are planned for a stream near Okemah, and the first already has been completed at a cost from the club treasury of \$165.

New use of an existing chemical compound now rid's drinking water of disagreeable tastes and odors, according to Dr. Gerald M. Ridenour, associate professor of public health engineering, in the University of Michigan School of Public Health.

Chlorine dioxide, a strong oxidizing agent with the chemical symbol of ClO2, was first used about two years ago by industrial companies to rid water of tastes and odors due to factory waste products, he said.

He added that at present chlorine is still the main sanitation agent in water supply systems. It is used as a disinfectant after chlorine dioxide has been applied to rid the water of taste and odor.

Will Weather Turn Plymouth Winters Into Balmy Summer Days?

What about the weather? Is it changing or isn't it? Old timers think it is. They recall the days years ago when folks used to talk about 102, yes, sometimes 120 days of sleighing around Plymouth in the winter.

But who remembers a recent winter when there could have been over three or four days of sleighing at any one time if folks used sleighs instead of automobiles? Weather experts, who rarely register surprise at the whims of the elements, admit they are amazed at the persistence which have cloaked the eastern United States since March 1948.

They are saying too that there's a definite 50-year trend toward slightly warmer weather, not just in the East but over many areas of the whole northern hemisphere. That includes all of Michigan, too.

Wilson H. Ahlmann, a noted Swedish glaciologist, says we are in a period of "climatic amelioration," with average temperatures slowly inching upwards. One piece of supporting evidence he offers is the retreat of many glaciers in Scandinavia and Iceland.

In this country, Jerome Namiass, head of the weather bureau's extended forecast section, says "no one can know for sure whether it will continue getting warmer as it has for the past 50 years."

"Excesses of temperature over the East," he agrees, "have been tremendous for the past year, but maybe it's strictly temporary."

He says two theories have been advanced to support the contentions of those who say it's getting hotter: G. S. Callendar, an English meteorologist, claims there has been a slight increase in carbon dioxide in the air.

Something in the atmosphere has acted to bring steadily increasing amounts of "maritime air," warmer air, overlying oceans, into and over the continents. Namiass says that possibly the quality of the sun's radiation could provoke this.

Here are the facts, as produced by Namiass and Lilburn H. Seamon, of the weather bureau's climatology section. The entire northeastern United States had its third warmest winter on record last year.

He added that at present chlorine is still the main sanitation agent in water supply systems. It is used as a disinfectant after chlorine dioxide has been applied to rid the water of taste and odor.

He has started a radio show on Mutual, he is the subject of a new syndicated comic strip, he was given more attention than Santa Claus in Hollywood's annual Christmas parade and to top it all off—he was seriously suggested as California's next governor. All this on the strength of his tremendous TV appeal.

Girl Scouts List Service Projects

Girl Scouts in Plymouth have always done a great deal of service work. At the Leaders' meeting Monday evening, a number of service projects were reported.

Intermediate Troop No. 3, under the leadership of E. J. Readman and Mrs. Charles Sawyer, have made 20 stocking dolls for the children at Maybury sanatorium.

Troops No. 4 and 6 put out 127 TB posters, and Troop 4 is also working on oil cloth dolls for the nursery at Maybury sanatorium.

Troop No. 1, with their leaders, Mrs. Earl West and Mrs. Hugh Law, visited the Presbyterian Home on Six Mile road, taking cookies and entertaining with a program. The girls in Troop 1 each have a "pal" at the home, whom they remember on birthdays and holidays.

In Harlan, Kentucky, Elmer Howard was arrested for breaking into the city jail.

TV's Problem

Barely mentioned is television's problem of new scenery for each week's show, but already it has given Hollywood a new headache.

The Gospel Moves Westward
Lesson for February 12: Acts 13: 4-5; 14: 1-5, 19-23

Memory Selections Acts 14:27
IN THE FIRST missionary journey, Barnabas and Paul went first to Cyprus, of which Barnabas was a native. Leaving the island, they crossed to the coast of Asia Minor and went to Antioch in Pisidia. The influence of the synagogue rulers had them driven out, and they left for Iconium.

Many, both Jews and Greeks, in Iconium believed, and the disciples remained there some time. At length opposition stirred up against them, they fled to Lystra. In that city the people, believing the disciples were gods, would have sacrificed unto them, but were prevented from doing so. Soon Jews from Antioch and Iconium stirred the multitude to stone Paul and drag him from the city and leave him as one dead. But in time Paul arose and he and his friends returned into the city.

The next day Barnabas and Paul went to Derbe and made many disciples. Then they retraced their steps and visited the cities where they had made disciples, confirming the souls of the converts, and ordaining elders in every church. In this work they were seemingly not molested.

Reaching the coast, they took ship and returned to Antioch in Syria, and their report brought rejoicing to the church that had sent them forth.

Let us find in the first missionary journey a stirring example unto our churches today — to strengthen them in their efforts against the many evils that confront Christian work.

FIRST CHURCH OF CHRIST SCIENTIST, Sunday services at 10:30 a.m. Sunday school, 10:30 a.m. for pupils up to 20 years.

"Soul" will be the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, February 12. The Golden Text (Psalms 66:8,9) is: "O bless our God, ye people, and make the voice of his praise to be heard; which holdeth our soul in life, and suffereth not our feet to be moved." Among the Bible citations is this passage, (Job 22:21): "Acquaint now thyself with him, and be at peace; thereby good shall come unto thee." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 355): "Soul and Spirit being one, God and Soul are one, and this one never included in a limited mind or a limited body. Spirit is eternal, divine. Nothing but Spirit, Soul, can evolve Life, for, Spirit is more than all else. Because Soul is immortal, it does not exist in mortality. Soul must be incorporated to be Spirit, for Spirit is not finite. Only by losing the false sense of Soul can we gain the eternal unfolding of Life as immortality brought to light."

Church to Show Boy Scout Movie
"World Jamboree," a movie taken at the World Jamboree of Scouts in France in 1948, will be shown at 6:30 p.m. Sunday, February 12 at the Methodist church.

A guest soloist from China will bring the music in song and Arthur Henry will speak. Also announcements will be made about the MYF contest. Team captains are urging all Youth Fellowship members to be on hand and will welcome visitors and friends.

Last Sunday the Methodist Youth Fellowship of Plymouth attended two of the many rallies held in the Detroit Protestant churches, celebrating Youth Week. About 28 met at the church to go to the first service at the Ebenezer African Methodist Episcopal church where Dr. Verner S. Mambalo spoke on "God Designs." After this service they went to Bushnell Congregational church where they had the lunch they had brought. At the service later in the evening, Rev. Emil Kontz of the Baptist church in Birmingham spoke on "Youth Builds."

Galvin Attends Lansing Parley
David Galvin, owner of the Locker Plant on Pennington avenue, met February 2 with the directors of the Michigan Frozen Food Locker association at Lansing to complete plans for the spring meeting at Michigan State college of the state's locker operators.

At the spring meeting, the college will demonstrate all of the recent research found for the benefit of the locker industry. All plants will then be able to put into operation the latest methods of food preservation.

DALE CARNEGIE

AUTHOR OF "HOW TO STOP WORRYING AND START LIVING"

Interest In Others' Work Pays

A LETTER from far-off Australia lies on my desk with a story of how the writer, Lewis E. White, North Carlton, Melbourne, Australia, won in what he felt was a severe overcharge by the library authority in his town.

He borrowed a book from the library that was not procurable at that time in any book store in the vicinity. He read the book more than once, and read it at intervals. Result, he kept it much longer than the allotted time. He had even taken the book with him on his vacation and didn't realize that so much time had passed since he took the book out of the library.

When he returned the book, the officer informed him curtly that it was much overdue and that he would have to pay a high penalty rate. Then he mentioned the amount of the fine which seemed unwarranted to Mr. White. It was certainly more than Mr. White felt like paying. Naturally, he didn't like to say this to the librarian so he fumbled for his wallet.

More to cover his embarrassment than for any other reason he remarked that he noticed they were taking a stock inventory there at the library. The librarian agreed. Then Mr. White said that it was amazing that they could undertake such a colossal task of checking every book in the library, with books going in and out all the time. He asked how they managed to accomplish it.

Well, that librarian warmed up to the subject. Here was someone who understood the difficulties they encountered and who appreciated the work necessary to make a library run. He explained at great length. Finally, when the librarian had apparently covered all the points, Mr. White asked, "How much did you say my fine amounts to?"

But that librarian just smiled and said, "Your book is back just in time."

Your Police Department Speaks

Written by members of Plymouth's Police department

During January there were 11 accidents in the city as compared to 22 in January, 1949. Of those 11 there was only one personal injury which occurred when a young boy, lawfully within the crosswalk, was struck by a car making a left turn. Fortunately the lad suffered only minor bruises.

Are you bothered with rats or mice? Upon request, the Police Department will give you a quantity of very efficient rat poison together, with instructions on how to use same for the best results. Let's reduce the rat population.

Saturday, around 2 o'clock, young boys, many, many of them, thronged to the city hall for the regular meeting of the Junior Police. A special treat was in store for them; they were shown movies from the U. S. Army and Air Force Recruiting Service Library, Sgt. W. D. Long in charge. From the sounds of things that was the best meeting yet for the boys.

A word of wisdom to cyclists, etc. Persons riding motorcycles, bicycles, motor bicycles and motor scooters must observe the same traffic laws as drivers of

Trojans Lose to Plymouth Rocks in Final Quarter

A thrill-packed final three minutes climaxed a defensive struggle between Plymouth and Trenton, which Plymouth won 25-23.

The battle for second place which was played at Trenton last Friday night was hotly contested throughout. With three minutes left in the clash Plymouth held a 20-16 margin. Charlie Stark then missed a free shot for the Rocks, but Wally Dzurus took the ball off the backboard and swished in a short shot giving the Rocks a 22-16 lead. Trenton's Seneski tallied two field goals within a minute and a half reducing the Rocks lead to two points 22-20. With a minute and five seconds to go Wally Dzurus netted a charity toss sending the Plymouth fans into a frenzy of delight as the local lads now led 23-20.

As Trenton brought the ball toward the Plymouth basket Dave Reitzel stole the ball and dribbled almost the length of the floor to net another two pointer for the Rocks. Brown made up for that a moment later with a long shot to make the score 25-22 with 20 seconds remaining. At the seven second mark Charlie Stark committed his fifth foul as he bumped Cline, Trenton center. Bud Young replaced Stark. Then Cline sent home the shot reducing Plymouth's lead to two points. Trenton tried a couple of shots in those last seven seconds, but they couldn't hit with the result that Plymouth took a well deserved victory, 25-23.

The contest could well have been billed "The game for the missing stars," for Trenton was lacking Don Mexicotte, the down rivers guiding light throughout the season. Mexicotte suffered a sprained ankle prior to the Wayne game, which Trenton lost 41-27. Plymouth didn't have Eckler or Ebersole, for the first time this season. For this reason the scoring punch of the teams was not present.

Plymouth led at the quarter 9-6 and at the half 13-11 as Dick Fenton and Al Finney each hooped three field goals. In the first half the Rocks took 24 shots from the floor hitting on six, while Trenton made three out of 22 for a .136 percentage. The pace became slower in the third stanza as neither team could hit the net with any degree of accuracy. As the final period began the Rocks and Trenton were in a 16-16 deadlock.

Dick Fenton hit the mark with a long shot and Dave Reitzel rattled home two free shots to give the Rocks 23 points to Trenton's 16. The Trojans played a control type of ball game in the last quarter as they waited for a chance to take a short shot. However, that opportunity didn't present itself. The score remained 20-16 until the final three minutes.

Now for some facts and figures. In 32 minutes of play the Rocks took 44 shots from the floor while Trenton took 43. The Rocks connected on ten to the Trojans eight. Pacing the Rocks to this important victory were Al Finney with nine counters and Dick Fenton with eight. Dave Reitzel had four scores, Wally Dzurus three, and Charlie Stark one. Seneski led Trenton with eight points.

Start Play-Offs in Class F League

Five teams out of eight to make the play-offs this year in Class F include: Firemen 7-3, Great Americans 5-2, Wolverines 5-2, Junior Firemen 3-4 and the Optimists 2-4.

The Firemen by virtue of ending the season in first place standing draw the first bye. The other teams are matched as follows:

Saturday, February 11-10:30 a.m. at W.C.T.S.—Great Americans vs. Optimists.

Saturday, February 18-9:45 a.m. at W.C.T.S.—Wolverines vs. Junior Firemen.

Saturday, February 18-10:30 a.m. at W.C.T.S.—Firemen vs. the winner of the February 11 game.

The winners of the play-offs this year will have the privilege of representing Plymouth in the state tournament at Hamtramck the week of March 13.

The Firemen, who have labeled themselves as league champions by winning all of their regular season games, will be the participants of the individual awards given in each competitive sport by the Plymouth recreation commission.

Three Red Birds Top "D" Scoring

The top three scorers in the Class D league all hail from the Red Birds at the Training school, which explains why they have won seven straight games and rest in first place.

Cook leads with 73 points in seven tilts for a 10 point average followed by Turner with 49 and Thompson with 48, giving them both a seven point average per game.

Carl Deace from Gould's has netted 47 points in five games giving him a nine point average which is second to Cook's in average points scored.

Bud Carson has dropped in 44 for the Panthers in six games and Jack Kroph 43 for the Eneics in seven encounters for a six point average.

Harry Blessing of the Bulldogs rounds out the boys with 40 points or more, dropping in 41 in six games for a seven point average. Ed Klinske has 39 counters for the Panthers, Cal Becker 38 for Gould's and Lou Vargha 38 for the Eneics.

Between 1940 and 1948, the United States produced nearly 5 billion tons of coal, the Bureau of Mines reveals.

Panthers Down Wayne to Retain First Place Lead

Downing Wayne 44-30 Friday, the Redford Union Panthers remained in undisputed possession of first place in the Suburban 6-B league with the Plymouth Starkweather close behind in second. Dick Karp hooped 10 points for the Panthers in their triumph over the Wayne Zebras, which was a very decisive victory. Plymouth beat Trenton 25-23.

The local cagers, after getting off to a bad start at the first of the season, have now won five straight league victories and are after Redford Union tomorrow night to tie with the Panthers for first place in the league. Plymouth is the only team in the league to beat Redford Union.

Ypsilanti won another game, defeating the Belleville Tigers 49-33 with Fritz Kessler racking up 26 points for the victors, the most scored in the league this season by one player. Al Finney of Plymouth held the previous high with 23, against Wayne.

Atchinson-Chrysler Downs 1st National, Takes League Lead

Atchinson-Chrysler took over undisputed possession of first place in the men's basketball league by downing First National, who had been tied with Atchinson for first place, 45-43, Tuesday, January 31 at DeHoCo.

First National jumped to a quick 16-9 lead in the first quarter but could not hold it as Atchinson climbed on them and tied the score at 21 all at half time.

Keith Ebersole netted two free throws with but a few seconds left in the game to give Atchinson-Chrysler their 10th victory of the season.

Bill Perkins chalked up 21 points for the Bank boys with nine field goals and three free throws. Bob Norman counted 13 for Atchinson.

On the following Thursday Tait's Cleaners smothered the Daisy Air Rifle squad 64-22 as they are attempting to get into the league playoffs.

Leading all the way Tait's was never threatened by Daisy, taking a 15-1 lead at the end of the initial period and a 29-8 lead at the half. Tait's scored at least 12 points in every period and latched onto 23 counters in the final

Red Birds Trounce Ecneics For Seventh Consecutive Victory
Winning their seventh consecutive victory of the season, the Wayne County Training school Red Birds trounced the Ecneics 33-14 last Thursday night.
The Red Birds will have only to win one more game to be assured of finishing first in the league standings, as they have won seven games now.
Turner netted 10 and Cook nine for the Training school and Kroph dropped in six for the Ecneics, who will have to win two of their next three games to get into the playoffs, which will start March 2.
Gould's Cleaners won their third game of the season, defeating the Bulldogs 25-20 in the second game of the evening. Paced by Jim Bloomhuff, Gould's took a quick 12-0 lead at the end of the initial quarter and a 20-5 margin at halftime.
In the second half the Bulldogs furiously fought back, outscoring Gould's 15-5, but could not pass the victors up. The Bulldogs scored 11 points to Gould's three in the final period and six in the last three minutes. Jim Bloomhuff tossed in 12 counters for Gould's, mostly on hook shots, and Bob Erwin accounted for seven in the losing cause.
The Panthers virtually clinched a playoff berth by downing the Rock Crushers 38-29 at the Training school gym the same evening in an extremely exciting encounter.
The Rock Crushers, previously a high fouling team, were held

Panthers, Rocks Fight For First
One of the best games in the Suburban area will be played in the Plymouth High school gym tomorrow night when the Redford Union Panthers journey to town and play the local cage quintet in a battle for first place in the Suburban 6-B league.
Redford Union is currently leading the league with six victories and one defeat while Plymouth is holding down a firm grip on second with five wins and two losses. Plymouth is the only team to beat Redford Union in league play this season, downing them 46-41, which was the Rock's first victory in the loop.
The Panthers have lost Jim Stites through graduation and Plymouth has lost Dwight Eckler and Keith Ebersole, which will change the set-up since the 1st time these two cage squads met.
Both teams have defeated the once powerful Trenton quintet. Redford Union by one point and Plymouth by two, giving the locals a one point favorite. When the Panthers upset Trenton they had Stites, while Plymouth lost to Trenton with Eckler and Ebersole, and beat them without the two cagers.
Game time is approximately 8:15 p.m. as the Rock reserve five will play the Panthers junior varsity at 7 p.m.

Slough Continues to Lead League
Sammy Slough didn't have to score a point or play a single game all week to keep his lead in the scoring in the men's basketball league with 202 points in 12 games for a very high average of 17 per game. Playing for DeHoCo, Sammy has led his team to six victories.
Bob Norman kept hold on second in scoring as he popped in 13 for Atchinson-Chrysler, giving him a total of 152 in 12 encounters for an average of 13 per game. Bob is Sammy's closest rival scorer but he is exactly 50 points behind Slough.
Don Huebler, having played in 11 tilts has netted a total of 136 points for a 12 point average with the First National Bank. Clare Ebersole, playing with Atchinson Chrysler and Dwayne Becker with Tait's have both sank 119 counters in 11 games for an 11 point average.

All-Star Teams Opposed March 2
On Thursday, March 2, the Plymouth High school gym will be the scene of something that you have all been hoping to see in basketball games. Plymouth's great stars of yester-year (the '30s) will play the younger sprites (the '40s) in the preliminary starting at 7:30 p.m.
These teams were selected by the managers in a meeting held last Monday in the Plymouth recreation office.
The "supposed to be" better game of the evening will start at 8:30 and will feature the Plymouth Men's league All-Stars vs. the Plymouth Alumni All-Stars. A small charge will be made and the entire proceeds will go to our two men's teams for expenses in representing Plymouth in the state and inter-city tournament to be held in March.
The inter-city tournament will be held at Highland Park the week of March 13, the State Class B tournament district the week of March 13 at Pontiac and the finals at Marshall, March 24 and 25.
The Great Americans defeated the Optimists in a Class F tilt, 9-12, in the last game of the morning as they won their fifth victory of the season, earning a second place position. Tyler Caplin racked up 11 points for the victors while Art Secord pumped eight points through the hoop in a losing cause.

Official Proceedings of Your City Commission

The special meeting of the City Commission was held in the Commission Chamber of the City Hall on Thursday, January 26, 1950 at 8:45 p.m.

Present: Mayor Richwine and Commissioners Fisher, Hammond and Tibbitts.

Absent: Commissioner Hough. This was the night set for the discussion of the Carroll Cab license.

The following resolution was offered by Commissioner Fisher and supported by Commissioner Tibbitts:

WHEREAS, the City Manager has reported that the Carroll Cab Company has been operating a motor vehicle on the streets of Plymouth as a taxicab and does not have a license so to do, and has not deposited an insurance policy, as required by the City Ordinance,

THEREFORE BE IT RESOLVED, that the City Manager advise Mr. Carroll that a meeting will be held on Monday, February 6, 1950 at 7:30 p.m., in the City Hall in the City of Plymouth, for the purpose of showing cause why Mr. Carroll's license to operate taxicabs on the streets of Plymouth should not be revoked.

Yes: Mayor Richwine, Commissioners Fisher, Hammond and Tibbitts.

No: None.

It was moved by Commissioner Fisher and supported by Commissioner Tibbitts that the meeting be adjourned. Time of adjournment was 9:30 p.m.

Carried

Signed Perry W. Richwine, Mayor Albert Glassford, Clerk

The regular meeting of the City Commission was held in the Commission Chamber of the City Hall on Monday, January 16, 1950 at 7:30 p.m.

Present: Mayor Richwine and Commissioners Fisher, Hammond and Tibbitts.

Absent: Commissioner Hough. The minutes of the regular meeting of January 3 and the special meeting of January 12, 1950 were approved as read.

The clerk presented the following reports: Police Department Report, Wayne County Supervisor's report, Municipal Court report, Veterans Information Center report and the Fire Department report for December 1949.

It was moved by Commissioner Hammond and supported by Commissioner Tibbitts that the above reports be accepted and placed on file.

Since all the information requested by the Commission was not available concerning the taxicab business, the Commission decided that the matter should be held over until the next meeting at which all Commissioners will be present.

The clerk read a letter from the Plymouth Firemen's Association, Lee Gaek, Chairman, expressing their thanks and appreciation for the letter sent to all City Employees from the Commission at Christmas time.

It was moved by Commissioner Tibbitts and supported by Commissioner Fisher that the letter from the Plymouth Firemen's Association, Lee Gaek, Chairman, be accepted and placed on file.

Carried. After stating that Dr. John Olmsaver did not wish to be on the Board of Appeals, the Mayor appointed Dr. S. N. Thams to fill the vacancy on the Board of Appeals until December 1, 1950.

It was moved by Commissioner Hammond and supported by Commissioner Tibbitts that the appointment of Dr. S. N. Thams, as a member of the Board of Appeals to fill the vacancy until December 1, 1950 be approved.

Carried. The clerk presented the following certification of the petitions for the Charter Amendments:

City Commissioners City of Plymouth

Madam and Gentlemen:

This will certify that the Plymouth Citizens' League filed with me on January 3, 1950, six petitions for Charter amendments, as follows:

1. Petition for Charter amendment defining who shall be administrative officers or employees of the City and providing for certain matters relative to administrative officers.

2. Petition for Charter amendments to make the City Manager the general administrative officer of the City and to separate the offices of City Manager and City Clerk.

3. Petition for Charter amendments to exclude administrative officers from the appointive and removal power of the City Manager.

4. Petition for Charter amendment creating a Trial Board to hear charges against employees and authorizing the City Manager to initiate proceedings for the removal by the City Commission of administrative officers serving under his direction.

5. Petition for Charter amendment to increase from \$300.00 to \$500.00, the amount of any purchase or sale without competition.

6. Petition for Charter amendment to elect rather than appoint the City's representative or representatives on the County Board of Supervisors.

Each petition contained approximately 350 signatures. On each petition, I have determined at least 250 to be the signatures of qualified electors of the City of Plymouth. The petitions conform and have been filed in accordance with the provisions of Act. No. 279 of the Public Acts of

1909, as amended, and the Charter of the City of Plymouth.

A. F. Glassford City Clerk

The City Attorney presented a report concerning his finding regarding the petitions.

It was moved by Commissioner Hammond and supported by Commissioner Tibbitts that copies of the petitions for Charter amendments be forwarded to the Governor for his study and decisions.

Carried. It was moved by Commissioner Fisher and supported by Commissioner Hammond that Proposed Ordinance No. 157, known as the Nuisance Ordinance, be tabled until Commissioner Hough is present.

City of Plymouth Electrical Ordinance No. 157

AN ORDINANCE for safeguarding life and property by regulating and providing for the inspection of the installation and maintenance of electric wiring, electric devices and electric material; to provide for the licensing and registration of Electrical Contractors and the licensing of Journeyman electricians in the City of Plymouth; to provide a reciprocal arrangement for the recognition of examinations and licenses issued by other municipalities in the State of Michigan; to provide a penalty for violations thereof; and to repeal Ordinance No. 98 (As amended by Ordinance No. 109) and all other ordinances and sections of ordinances in conflict herewith of the City of Plymouth, Michigan.

THE CITY OF PLYMOUTH ORDINANCES:

Section 1. From and after the effective date of this ordinance it shall be unlawful for any person, firm or corporation to install, alter or repair any equipment used to transmit electrical power other than in pursuance of the provisions of this ordinance.

Section 2. Inspector.—The City Manager, hereinafter called the Manager, is hereby authorized and empowered to inspect and approve or disapprove all electrical installations and changes, repairs and additions thereto hereafter to be made within the City of Plymouth involving or for connection to an electricity supply system having a voltage of thirty volts or over. This authority may be delegated to an Electrical Inspector, hereinafter called the Inspector, appointed by the Manager.

Section 3. Fees for Inspection.—A schedule of fees shall be established by resolution of the City Commission. Fees shall be charged for inspection of electrical installation, devices, apparatus and equipment in the City of Plymouth. The money so received shall be paid into the Treasury as part of the general receipts of the municipality, and such part as may be necessary used to pay the expenses of the inspections herein authorized.

Section 4. Right of Access to Buildings.—The Manager and/or the Inspector shall have the right during reasonable hours to enter any building in the discharge of his official duties or for the purpose of making any inspection or test of the installation of electric wiring, electric devices and/or electrical material contained therein and shall have the authority to cause the turning off of all electrical supply and cut or disconnect, in cases of emergency, any wire where such electrical currents are dangerous to life or property or may interfere with the work of the Fire Department.

Section 5. Permits.—No alterations of additions shall be made in the existing wiring of any building, nor shall any building be wired for the placing of any electric lights, motors, heating devices, or any apparatus requiring the use of electrical current at a potential over 30 volts, nor shall any alterations be made in the wiring in any building after inspection without first notifying the Manager and securing a permit therefor. Applications for such permit shall describe in detail the work to be done, and such other pertinent information as the Manager may require, and shall be signed by the person, firm or corporation by whom the installation is to be made.

Section 6. Inspection.—Upon completion of the wiring of any building or the installation of any electrical apparatus, it shall be the duty of the person, firm

or corporation installing the same to notify the Manager of such completion and it shall be the duty of the Manager or Inspector forthwith to make an inspection thereof and if the same be found to fully comply with the provisions of this ordinance, he shall issue to licensee a certificate authorizing connection to the electrical service. All wires which are to be hidden from view shall be inspected before concealment and it shall be the duty of the licensee to afford the Manager or Inspector sufficient time to make the inspection thereof before such wires are concealed.

Section 7. Re-Inspection.—The Manager or the Inspector shall make periodically a thorough re-inspection of the installation in buildings of all electric wiring, electric devices, and electrical material now installed or that may hereafter be installed, within the City of Plymouth, and when the installation of any such wiring devices and/or material is found to be in a dangerous or unsafe condition the person, firm or corporation owning, using or operating the same shall be notified and shall make the necessary repairs or changes required to place such wiring, devices and material in a safe condition and have such work completed within fifteen days, or any longer period specified by the Manager or Inspector in said notice. The Manager or the Inspector is hereby empowered to disconnect or order the discontinuance of electrical service to such wiring, devices and/or material found to be defectively installed until the installation of such wiring, devices and material has been made as directed by the Manager or the Inspector.

Section 8. Construction Requirements.—No certificate of inspection shall be issued unless the electrical installation is in strict conformity with the provisions of this ordinance, the statutes of the State of Michigan, the rules and regulations issued by the Michigan Public Utilities Commission under authority of the state statutes, and unless they are in conformity with approved methods of construction for safety to person and property. The National Electrical Code with the uniform rules shall be adopted as a part of this Electrical Ordinance.

Section 9. Approved Materials.—It shall be unlawful to install or use any electrical device, apparatus or equipment designed for attachment to, or installation on any electrical circuit, or system for heat, light or power that is not of good design and construction, and safe and adequate for its intended use. The Manager or Inspector shall have power to disapprove the use or installation of devices not fulfilling these requirements. It shall be the duty of the Manager or the Inspector, from time to time, to inspect devices, apparatus and equipment offered to the public for use in installation to see that such items conform to the foregoing requirements.

Section 10. Records.—The Manager shall keep complete records of all permits issued and inspections made and other official work performed under the provisions of this ordinance.

Section 11. Review.—When the Manager or the Inspector condemns all or part of any electrical installation the owner or contractor may, within five days after receiving written notice from the electrical inspector, file a petition in writing for review of said action with the Board of Examiners. Upon receipt of such petition, the Board of Examiners

shall at once proceed to determine whether said electrical installation complies with this Ordinance and within three days shall make its decision in accordance with its findings.

Section 12. Board of Examiners.—A Board of Examiners is hereby created which shall consist of the Manager or Inspector, a representative of the Company furnishing the electricity supply and a licensed electrical contractor. The two latter members of this Board shall be appointed by the City Commission for a term of one year and shall hold office without receipt of remuneration from the City of Plymouth.

Section 13. Powers of the Board of Examiners.—The Board of Examiners is hereby authorized to make determinations as to compliance with this Ordinance pursuant to the provisions of Section 11. The said Board of Examiners is further authorized to provide for the examination of applicants for licenses under this Ordinance, to grant such licenses to qualified applicants who have paid the prescribed fee, to revoke or suspend such licenses for sufficient cause. The Board of Examiners shall examine each applicant for a license requested pursuant to this Ordinance, at such time, place and in such manner as it may designate. The examination shall be practical and elementary in character, but sufficient to determine the qualifications of the applicant. Approval shall be by majority vote of the Board, who shall thereupon issue to applicant such license. The Board of Examiners is hereby empowered and it shall be their duty to make such rules and regulations concerning electrical work in the City of Plymouth as may be required to properly provide for the situation therein. The rules and regulations shall become effective when approved by the City Commission of the City of Plymouth.

Section 14. License.—No person, partnership or corporation shall provide for or engage in the installation, alteration, repair or maintenance of electrical equipment, wiring or apparatus in the City of Plymouth, Michigan, without first having obtained from the Board of Examiners an Electrical Contractor's or Journeyman's license (except helpers and apprentices permitted by the rules of the Board of Examiners), except that no license shall be required in order to execute or perform any of the classes of electrical work specified in the following paragraphs.

1. **Minor repair or maintenance,** including minor repairs of flush and snap switches, replacement of fuses, changing of lamp sockets and receptacles, taping a bare joint or repair of drop cords, or the connection of approved portable devices.

2. **Installation, alteration or repair of electrical equipment** installed on the premises of consumers by public utilities companies supplying the electrical energy for the use of such utility company.

3. **Any installation of electrical equipment** in a single family dwelling and accompanying outbuildings owned and occupied by the person performing the installation, alteration or repair of such electrical equipment where provision is made for inspection of the completed installation of electrical equipment by an inspector having jurisdiction.

4. **Installation, alteration or repair of electrical equipment** in factories or other establishments regularly employing qualified electricians for that purpose.

5. **Installing of radio receiving sets and equipment.** (The installation of convenience out-

lets for power supply to a radio set shall be subject to such rules and regulations.)

Reciprocity.—The City of Plymouth shall permit Electrical Contractors lawfully licensed by other municipalities of the State of Michigan to install, alter or repair electrical wiring, equipment, apparatus or fixtures for light, heat or power purposes within the corporate limits of the City of Plymouth upon payment of a one dollar registration fee, provided that such municipalities reciprocate in recognizing Electrical Contractors who are duly licensed under the provisions of this ordinance by granting them the same uniform license and registration fees, and provided further, that their licensing ordinances are substantially equal to the requirements of this ordinance. Journeyman electricians duly licensed by any municipality cooperating in the reciprocal arrangement shall be permitted to work in the City of Plymouth without payment of a registration fee, provided, however, that any journeyman electrician doing work within the City of Plymouth and holding a license from a cooperating municipality, shall register with the City Board of Examiners. No Electrical Contractors' licenses shall be recognized for the purpose of registration by the City of Plymouth of applicants who maintain their principal place of business in a municipality which fails to approve, by affirmative action of its Legislative Body the reciprocal and mutually interchangeable licensing arrangements covered by this ordinance.

Application for License.—Each application for a license pursuant to this ordinance shall be made in writing to the Manager and by him referred to the Board of Examiners, on a form prescribed by the Board of Examiners. Application for a Contractor's license shall include the name of the licensed electrician representing the applicant who will act as supervisor for all work to be done under the license. The license fee shall accompany the application.

Qualification for Licenses.—The designated representative of each applicant for a contractor's or journeyman's license shall be examined to determine his knowledge of the required standard for electrical equipment and its installation and to determine the general qualifications and fitness of the applicant for executing work to be done under the class of license applied for. The Board of Examiners shall conduct such examination or authorize the applicant to be examined by the examining board of another municipality cooperating in the reciprocal arrangement set forth in this Section, and in this event at least one member of the Board of Examiners shall be present at the examination. To be eligible for an Electrical Contractor's license, the person, firm or corporation applying for the same must have at least one individual duly qualified as a competent electrician in its employ at all times. To be eligible for a journeyman license the applicant shall be twenty-one years of age or over and shall have had practical, trade or technical school experience acceptable to the Board. Examinations for such licenses may be oral, written or such practical tests as the Board of Examiners shall determine. A complete record of every examination shall be kept on file for at least three years.

License Fees.—Before a license is granted to any applicant, the applicant shall pay to the Treasurer of the City of Plymouth a fee of \$25.00 for a Contractor's license, \$1.00 for a Journeyman's license and \$1.00 for license registration of reciprocal contractor's license. Each license shall expire on December 31 following the date of its issuance and shall be renewed by the Board of Examiners without examination upon application of the holder of the license and payment of the required fee at any time before the date of expiration or within 60 days thereafter.

Revocation or Suspension.—Any Electrical Contractor's or Journeyman's license may, after a hearing, be suspended or revoked by the Board of Examiners upon evidence presented that false statements have been made in the application for license, or upon evidence presented that the holder of such license willfully or by reason of incompetence has violated the rules and regulations relating to inspection, alteration, maintenance and repair.

Section 15. Penalty.—Any person, firm or corporation who shall fail to comply with any of the provisions hereof, shall upon conviction thereof, be punished by a fine, of not more than One Hundred Dollars (\$100.00), together with the costs or by imprisonment or not more than 90 days, or both, at the discretion of the court.

Section 16. Repeal of Conflicting Ordinances.—Ordinances No. 98 and 109 and any other ordinance or parts of ordinances conflicting with the provisions of this ordinance are hereby repealed.

Section 17. Liability.—This Ordinance shall not be construed to relieve from or lessen the responsibility of any party owning, operating, controlling or installing any electric wiring, electric devices and/or electric material for damages to person or property caused by any defect therein nor shall the City of Plymouth be held as assuming any such liability by reason of the inspection authorized herein, or certificate of inspection issued as herein provided.

Section 18. If any section of this ordinance be declared void by legal actions for any reason, all other sections shall continue to be in force, until specifically declared void through action of court.

This ordinance shall take effect twenty-one (21) days after its passage.

Made and passed by the City Commission of the City of Plymouth, Michigan, this 6th day of February A.D. 1950.

Three Hundred Guests at Brisbois and Walsh Wedding

A reception at the Warren Valley Golf club Saturday afternoon feted H. Joseph Brisbois, son of Dr. and Mrs. Harold J. Brisbois, and his bride, the former Joanne Lois Walsh. The couple was married in an impressive ceremony at 10 a.m. Saturday, February 4, at Our Lady of Good Counsel church.

Altar vases of white gladioli and white carnations decorated the church for the morning wedding at which the bridegroom's cousin, Father Norman Von Poppelen of Vassar, officiated. The response to the nuptial mass was chanted. Organ accompaniment was Mrs. F. Cylk, and soloist, Mary Ann Cylk, sang "Ave Marie." As the bride placed her bouquet at the feet of the Virgin Mary, Miss Cylk sang "Mother At Thy Feet."

Daughter of Mr. and Mrs. Francis J. Walsh of South Main street, the bride wore a gown of white satin designed with fitted bodice, full skirt and long circular train. Seed pearls accented the scalloped neckline, and the full sleeves tapered to points at the wrists. Her fingertip veil of illusion fell from a crown of seed pearls. In the bridal bouquet were white roses and gardenias.

Serving as maid of honor was the bride's sister, Marilyn Walsh. The honor attendant's gown of rose taffeta was styled along colonial lines with fitted bodice, shadow neckline of illusion, and full skirt with bustle in the back. Miss Walsh wore a picture hat of taffeta in the same shade of rose as her gown, and she carried a colonial bouquet of aqua carnations.

The dresses of aqua taffeta which the bridesmaids wore were fashioned in the same style as the maid of honor's. The aqua picture hats the bridesmaids wore matched their gowns. They carried colonial bouquets of rose carnations.

Chosen to act as bridesmaids were Elise Bellair, the bride's cousin of Detroit, Lois Haneman of Columbus, Ohio and Donna Spanier of Plymouth.

For her junior attendants, the bride asked her two younger sisters, Judy and Sharon Walsh. They were gowned in aqua taffeta. Aqua and rose carnations were in the bouquets they carried.

F. J. Van Poppelen of Lynn, Massachusetts, served as best man. Ushering duties were performed by Stanley Inley of Detroit; Gerald Walsh, the bride's brother; and Edward Curmi of Plymouth.

A wedding breakfast for 25 guests at the Warren Valley Golf club followed the ceremony. From 1 to 4 p.m. 300 guests were received at the club for the reception in honor of the newly weds. The guests were from Grasse Pointe, Columbus, Ohio; New York, Detroit, Grand Rapids and Plymouth.

When she greeted her guests at the reception Mrs. Walsh wore a formal gown of aqua crepe with matching accessories and an orchid corsage. The choice of Mrs. Brisbois for her son's wedding was a formal gown of rose crepe with matching accessories and an orchid corsage.

After graduating from Plymouth High school, Mrs. Brisbois attended Madonna college. Mr. Brisbois studied at Notre Dame and is now working on his master's degree in biology at the University of Michigan. He is a veteran of World War II having been in the service for two years.

Mr. and Mrs. Brisbois will be at home to their friends on Wing street after returning from a wedding trip to Marine City.

Newly-Weds Move to Home on Ravine Drive

Among the newest residents of Plymouth are newly-weds Mr. and Mrs. Arthur Raymond Hatch, who recently completed their home at 6249 Ravine drive.

The Hatches were married January 29 at the First Methodist church in West Dearborn. Mrs. Hatch is the former Mrs. Susana Wood of Dearborn. Following the ceremony, performed by the Rev. Davies, the couple and their guests attended the wedding breakfast held at the Dearborn Inn. Mr. Hatch formerly lived in Detroit.

BIRTHS

Mr. and Mrs. Stanley Hough of 40106 Gilbert street announce the arrival of Charlotte Joan at Sessions hospital, Northville, on Saturday, February 4. The baby weighed eight pounds.

It's a boy at the Paul Alberts home on Corrine street. He was born on January 30 and weighs seven pounds, eight ounces. His name is Sheldon LaVern. Mrs. Alberts and Sheldon returned to their home last Saturday.

Mr. and Mrs. Hoyt Mills of Ross street announce the birth of a baby girl, born January 25 in Sessions hospital. The baby weighing seven pounds, three ounces is named Mary Beth.

Cherry Hill News

Mr. and Mrs. Walter Wilkie spent last Sunday with Mr. and Mrs. Oliver Wilkie.

Mrs. Annie Dunstan called on friends in Northville last Saturday.

Mr. and Mrs. George Dunstan and Caroline spent Saturday afternoon with her sister at Walled Lake.

Donald Gill underwent surgery at Beyer hospital.

Mr. and Mrs. Walter Wilkie will spend Sunday with his sister in Detroit and help celebrate his mother's birthday.

Mrs. Henry Hawk underwent surgery at Beyer hospital.

Mr. and Mrs. George Dunstan and Mrs. Annie Dunstan will motor to Vernon Saturday to attend the wedding of Donald Combelleck.

Mrs. Edna Dickworth, Guy Martin and Mrs. William Duckworth and son, Bill of Detroit were Wednesday evening dinner guests of Mr. and Mrs. Lloyd England of Sunset avenue.

LAWYER TO SEE YOU

The Grange held a most interesting meeting on Thursday evening of last week. After a pot luck supper a business meeting and evening of entertainment was conducted by John Oldenburg who acted for Master Chas. McConnell who was ill. The County Agricultural agent, Mr. Beibesheimer, was present and gave a very helpful talk after which he showed colored movies of wild life in America. Two girls from Salem sang, accompanied by Mrs. Harris who also played two piano selections. Molly Groth and Lois Hunter sang accompanied by Mrs. Edna O'Connor. Mrs. Ernest Vealey gave two readings. Matt Swegles and Sam Spicer each made a few remarks. John Root and Matt Swegles were in charge of the evening's program.

Lois Thomas to Be June Bride

The engagement of Lois B. Thomas, to Ralph A. Davila, son of Mr. and Mrs. Ralph Davila of Yabucoa, Puerto Rico, was announced recently by her mother, Mrs. Bernice Thomas.

Miss Thomas was graduated from Plymouth High school and is now employed with the commercial department of the Michigan Bell Telephone company.

Her fiance attended Wentworth Military academy and is now attending the University of Michigan where he will graduate in June. He is a member of the Phi Iota Alpha and the Tau Kappa Epsilon fraternities.

The couple plan to be married in June.

Arthur Sargent of Olympia, Washington, grandson of Mr. and Mrs. Harvey Segnitz of Rosedale Gardens, was recently installed as Master Counsellor of the Olympia DeMolay. Arthur was formerly a Plymouth resident and his many friends here will be pleased to hear of his recent high appointment.

Saturday Nuptials Unite Miss Schryer and Mr. O'Neill

Candles lighted the First Baptist church for the wedding in which George Elmer O'Neill claimed Miss Phyllis Joan Schryer as his bride on Saturday, February 4. The double ring rites were read at 5:30 p.m. by the Rev. Benjamin L. Eicher.

Baskets of white gladioli and snapdragons, palms and lighted tapers were the altar decorations for the early evening ceremony. Preceding the nuptials June Boyd of Northville sang "A-ways" and "Because." "The Lord's Prayer" was presented by Miss Boyd at the close of the wedding.

White satin styled the colonial gown worn by the bride. The fitted bodice of the bridal gown was detailed with a V-shaped neckline, buttons to the waist in the back and long fitted sleeves. The hooped skirt featured a bustle in the back. Securing in place the bride's fingertip veil of illusion was a tiara of seed pearls. White roses topped a prayer book for the bride's bouquet.

Presenting the bride in marriage was her father, Wilson Clark.

Chosen to perform the duties of matron of honor was the bride's sister, Mrs. George Wrenn of Northville. She was gowned in American beauty, satin and carried a bouquet of yellow roses. Matching yellow rosebuds made up her headpiece.

Large bouquets of pink roses complemented the ice blue gowns worn by the bridesmaids, Betty Arnold and Mary Helen Swanson of Plymouth. Their headpieces were coronets of pink rosebuds.

The bride asked her sister, Pamela, to act as flower girl. She was gowned in yellow satin and carried a nosegay of American beauty roses.

The best man was Howard Eads, and the guests were seated by ushers, Dick Swanson and

George Wrenn. The bride's mother selected a blue dress with silver beaded trim and black accessories for her daughter's wedding. Her flowers were yellow carnations. Mrs. Berry chose a blue dress, also, and a corsage of yellow carnations.

The grandmothers of both the bride and bridegroom attended the ceremony. Mrs. Schryer, the bride's grandmother, wore a cocoa brown dress with black accessories. Pink carnations were in her corsage. Mrs. Shepard, the grandmother of the bridegroom, chose a black dress and a corsage of pink carnations for the wedding.

A reception for 250 guests followed the ceremony in the church parlors. Among the out of town guests were Mr. and Mrs. Leonard Rickard of Norwalk, Ohio; Mr. and Mrs. Roy Schryer and family of Willard, Ohio; Mrs. Shepard, Howard and Bernard Shepard of Indianapolis, Indiana.

Before her marriage, the bride made her home with her grandparents, Mr. and Mrs. George Schryer of Union street. Mr. and Mrs. Cecil Berry of Camden road, Plymouth are the bridegroom's parents.

Mr. and Mrs. O'Neill will make their future home in Northville.

Try These Suggestions for Using Crackers in Recipes

Back in the days when you bought crackers out of a barrel at the grocery store, their freshness was unpredictable and their variety limited. Today, they come snugly packaged, fresh and flavorful. You use them "as is" — but have you ever tried using them in recipes? Here are some suggestions:

CHOCOLATE GRAHAM PUDDING

1 1/2 cups graham cracker crumbs, rolled fine, about 2/3
1/4 teaspoon salt
1/3 cup brown sugar, firmly packed
1 cup milk
2 egg yolks, beaten
1/4 cup butter or margarine
1 cup semi-sweet chocolate
2 egg whites, beaten stiff
Heat oven to 325 F. (moderate). Combine crumbs and next 4 ingredients. Melt butter and chocolate together over hot water. Add to cracker mixture. Fold in egg whites. Pour into 6 greased custard cups. Bake at 325 F. 45 minutes, or until cake tester inserted in center comes out clean. Serve warm, with cream or ice cream. Makes 6 servings.

ground beef and next 5 ingredients, and mix thoroughly. Spread on saltines, completely covering each. Broil 2 minutes or until brown. Serve immediately, with tossed salad or hot soup, or as an appetizer. Makes 5 servings.

APPLE QUICKIE

2 cups graham-cracker crumbs, rolled fine, about 2/3
3 tablespoons butter or margarine
1 No. 2 can applesauce
1/2 teaspoon cinnamon
1/4 cup chopped walnuts
1/2 cup heavy cream
Combine cracker crumbs and butter; mix until crumbly. Mix applesauce, cinnamon, and nuts thoroughly. Arrange 4 layers crumbs and 3 layers applesauce in 9x5x3 inch loaf pan, beginning and ending with crumb layer. Chill thoroughly. Serve with sweetened whipped cream. Makes 4 to 5 servings.

Trend Toward Pre-packaged Food Continues

The trend toward more pre-packaging of foods will continue in future years, since the advantages of modern packaging far outweigh the disadvantages.

So-called nonperishable or staple groceries such as flour, sugar, coffee and cereals were the first to be sold in convenient containers. It saved time for the shopper as well as the grocer when flour was sold in varying sized sacks rather than from a barrel as it was a generation ago.

Perishable foods, like fruits, vegetables and meat are more recent additions to the pre-packaged food roster.

Sterile foods are usually packaged by the manufacturer. Such items as citrus fruits, apples, onions and potatoes can be packed at the shipping point. More perishable foods are often pre-packaged by wholesalers or the grocers themselves. Meat, for example, is usually pre-packaged at the store.

Modern packaging systems reduce the amount of clerical work needed in the store, allow the shopper to make a choice without delay, and often add extra eye appeal when products are displayed in transparent packages.

Glass, cellophane or plastic containers permit the shopper to inspect the product. Other benefits from recent packaging improvements include more information on the container and less expensive containers. Processors are including more information about ingredients, weight, and how to make the best use of the product. Shoppers are reminded to read all labels carefully.

Saving in labor in the departments, plus savings which often result from less spoilage as in the case of fruits and vegetables, offsets the extra costs of pre-packaging in most cases. When prices are not increased as a result of the packaging, the time saved for both grocers and shoppers becomes a decided advantage.

But pre-packaging has not always been fully satisfactory to consumers. To be accepted by the shopper, the pre-packaging method must offer only quality foods. Grocers can take advantage of pre-packaging by displaying the best side of the meat, for example. While such a practice is not common, it does happen.

RECIPE OF THE WEEK

Barbecued Veal Breast

(Serves 4)
2 pounds breast of veal
2/3 cup sliced onion
1 clove garlic, crushed
2 tablespoons worcestershire sauce
2 teaspoons salt
1/2 cup catsup
1 tablespoon prepared mustard
1/4 teaspoon cayenne
1 cup water
Cut veal into eight pieces. Place in a covered casserole. Combine remaining ingredients in a sauce pan; bring to a boil and pour over meat. Cover and bake in a moderately hot (375°) oven for 1 1/2 hours. Uncover and bake for 1/2 hour longer, turning twice during this period.

proportion for a cleaning solution for linoleum-covered floors. The floors should be rinsed, waxed and polished after the soapy cleaning.

Plaster of Paris articles, when they become soiled, yield readily to cleaning if they are covered with wet starch. Let dry, then brush off the starch. Dirt goes along with the starch.

If window glass gets pained on it, rub with a coin. Quarters or half dollars are a convenient size to use.

Waxed, artificial flowers may be cleaned by dipping several times in cleaning fluid set in a bowl, away from fire or flame.

When you add blueing to water in which glassware is washed, the glasses attain brilliance and luster.

QUICK CASSEROLE

For an easy casserole arrange sliced potatoes in the bottom of a greased baking dish. Top the potatoes with ground cooked pork or ham. Over this pour a thin cream sauce, seasoned with grated onion and cheese. Cover the casserole and let it bake in a slow oven (300° F.) for 45 minutes.

MEAT COOKERY

The most important guide to follow in all meat cookery is the use of low cooking temperatures advises, Jeanette Lee, Michigan State college home economist. This keeps the savour and juices in the meat, cuts shrinkage, produces more tender, palatable meat, and clear, flavorful meat drippings.

List Uses for Cooking Fats

With lard unusually plentiful and at the lowest price in many years, Plymouth's budget-minded homemakers cannot afford to overlook its value. With so many fats and oils now available for cooking, fitting them to needs and budgets is often puzzling.

The three main uses of fats and oils are as a cooking medium such as deep fat frying, making dressings like mayonnaise, and as a shortening to make baked products tender, flavorful and tasty. The oils are used mainly for dressing mixtures.

Of the fats, lard is the best buy today. It is selling at about one-third of the price of the hydrogenated vegetable compounds—and has more shortening power than the vegetable products.

Several types of lard are available, all of which are now practically neutral in odor and flavor. Leaf lard is the best. It is made from layers of fat or leaves of lard in the hog's abdomen. Neutral lard, usually from the leaves of fat, has been rendered at low temperatures and is practically free of flavor and odor.

Kettle-rendered lard, rendered in open, steam-jacketed kettles, is light colored and has good flavor. Steam-rendered lard has been bleached and deodorized. It comes from fats of the hog which have dark color and strong odor. All of these lards, which vary in price according to quality, can be bought by name.

In using any fat for cooking, the neutral flavor and odor is desirable. For deep fat frying, use any fat with a high-smoking point so it does not break down during the cooking process. This break down gives undesirable products which are hard to digest and gives "off flavors" to the food.

Baking requires a fat with high shortening power and a low melting point. With these qualities the fat will blend well with other ingredients and produce a tender product.

The common fats for home use differ widely in these cooking qualities. Butter, for example, melts at a low temperature, but also has a low smoking point and will burn easily. Lard, in addition to having the best shortening power, has both low melting point and a relatively high smoking point. It makes a good fat for deep frying, as well as for baking.

Vegetable compounds rank about the same as lard in melting and smoking qualities.

Give Instructions for Making Slipcovers

The adult sewing classes, sponsored by the Plymouth recreation program, will instruct students in the difficult art of making slipcovers. Here is an outline of the procedure the class will use for the cutting and sewing of the slipcovers.

Decide on the type of cover you wish to make and list all the style details, then measure the chair and estimate yardage. Plot your fabric or cut a muslin pattern. Cut the fabric or pattern on the chair.

Fit the cover to the chair, one piece at a time—covering the back and seat first, then the front edge below seat and sides. Pin and fit the long seams. Gather and fit all round-shaped edges and bands. Set trimmings into seams, and pin all joinings. Prepare the skirt or lower bandings. Press the skirt and apply it, or join lower bandings. Finish side opening and cover cushions.

Adjust Wringer to Clothes Load

Study your washing machine wringer so you understand how it operates, advises Emma Durbord, Wayne county home demonstration agent. Too heavy a load may lock the rolls and even strip the gears in your wringer.

If you want it to give good service it's a good idea to measure the load. Wringers on some machines have self-adjusting rollers that automatically set to the right pressure. Others need to be set according to the thickness of the clothes.

Too much pressure strains the clothes, wringer and motor. On the other hand, too little pressure does not wring the clothes dry enough. Run the clothes through the wringer in smooth folds instead of lumps, and fold buttons, buckles and zippers inside the cloth. This procedure not only will protect the wringer and clothes, but will speed ironing and save mending time.

Before every washing, test the safety pressure release on the wringer to be sure it is working. Keep your hands away from the rollers as the clothes are going through. Flip an end of the piece onto the moving roller and let the wringer carry it through. Watch the wringer as each piece starts through to be sure it does not wrap around the roll.

Serve Hearty Valentine Day Party Dinner

Valentine's Day merits a very special meal—one for all the family or perhaps a get-together for the younger members of the family.

Naturally, hearts will be the theme of the dinner, and why not carry this through out the entire meal?

The main course can be planned around clever heart shaped meat loaves. Filled with a tangy stuffing, they will be all the more interesting.

To prepare the loaves, roll or pat seasoned ground beef to a thickness of 1/4 inch. Use a heart-shaped cookie cutter as an outline to follow in shaping the ground meat. Top half the patties with a mild cheese or a bread stuffing. Place a second patty over the filling, then press the edges together firmly to seal the stuffing inside.

For cooking, place the stuffed Valentine loaves on a rack in an open roasting pan. Let them cook in a 300° F. oven for 40 to 50 minutes or until done.

With the patties, include asparagus tips and a tomato aspic salad molded in heart shaped pans. Also a tray of assorted crisp relishes and hot biscuits—which may be heart shaped.

Cherry upside down cake will be an attractive climax to the Valentine's dinner. Or perhaps a red and white marble cake frosted with fluffy white icing. Cinnamon candies may be used to form a big red heart on top of the cake. Serve the cake with peppermint ice cream.

POTATO FLAGS

It's potato flags for February's patriotic dinners. Peel and slice large potatoes lengthwise. Cut the flags out with a cookie cutter, then fry them in deep hot lard until well browned. These flags are especially clever as a garnish for a roast meat platter.

The Third Time The Anti-Trust Lawyers Were Wrong!

What Has Gone Before

Today's ad is the third in a series telling about times the anti-trust lawyers made serious and damaging charges against A&P that the courts decided were not true.

In the first ad in this series we told you about the time the anti-trust lawyers charged that A&P, and other good American citizens, conspired to fix the price of bread in Washington.

These charges were false.

That was the time Federal Judge T. Alan Goldsborough instructed the jury to bring in a verdict of "not guilty".

It was the time he said to the anti-trust lawyers:

"If you were to show this record to any experienced trial lawyer in the world, he would tell you that there was not any evidence at all.

'Honestly, I have never in my over forty years' experience seen tried a case that was as absolutely devoid of evidence as this. That is the honest truth. I have never seen one like it.'

But that was not the only time the anti-trust lawyers made such serious "allegations" against A&P which were false.

In our second ad we told you about the time in Wilson, North Carolina, they charged A&P's fresh fruit and vegetable buying subsidiary, and other good American citizens, with conspiring to fix and depress prices paid farmers for potatoes in North Carolina, Virginia and Maryland.

Here again, as in the Washington bread case, the charges were false.

This was the time Federal Judge C. C. Wyche directed the jury to bring in a verdict of "not guilty".

It was the time he said to the anti-trust lawyers:

"I have studied this case from the very outset. In my opinion there is no testimony produced from which it can reasonably be inferred that the defendants entered into a combination to depress or lower the price of potatoes.

"I might say that I never tried a case in my life where a greater effort, more work, more investigation had been done, combing almost with a fine-tooth comb to gather evidence, as was done in this case.

"But, as was said a long time ago, you can't make brick without straw, and you can't make a case without facts."

So here were two cases in which the anti-trust lawyers made seriously damaging charges against A&P, in which the judge decided that there were no facts to support those charges.

Today, we want to tell you about the third time—this time in Dallas, Texas—the court decided against the anti-trust lawyers.

Is it a crime to give people more good food for their money?

For 90 years A&P has devoted all its energies to this end.

For many months now the anti-trust lawyers from Washington have been giving stories to the newspapers, making speeches and talking over the radio about this company.

They have been making serious and damaging allegations about the methods that enable A&P to give its customers better food values.

We have already told you about other times the anti-trust lawyers made charges against us that were proved utterly false in court.

In the left-hand column on this page you can read what the federal judges had to say about those two cases.

Now we are going to tell you about the third time a federal judge decided against the anti-trust lawyers.

The Dallas Anti-Trust Suit

In 1942 the anti-trust lawyers went out to Dallas, Texas, 1,400 miles from the homes of most of the defendants, and instigated criminal charges against A&P.

About this case one thing was sure.

Their previous experience did not deter the anti-trust lawyers from making more inflammatory and damaging allegations, just as they had done before.

They made practically the same allegations they are making today.

Federal Judge W. H. Atwell ruled that the case should not even be tried. He said that the indictment contained inflammatory statements that he would not permit to be presented to a jury.

Judge Atwell said to the anti-trust lawyers:

"If I thought I was presiding over a court and that I might have to sentence some person because he was a great big fellow, or because he was a Lilliputian, I would feel like resigning. God knows we don't want it ever to occur in America that the size is going to determine whether a man is guilty or innocent."

Judge Atwell also said to the anti-trust lawyers:

"If the indictment is not good then it is better to find out before an expensive trial than it is after an expensive trial. I do not think it is good, and thinking that, it is my duty to sustain the demurrers and motion to quash."

In short, Federal Judge Atwell threw the anti-trust lawyers and their case right out of his court.

So that makes three times that the anti-trust lawyers made damaging allegations against A&P. In two of these cases federal judges said they were all wrong. In the third case a federal judge said the indictment was inflammatory and he would not even permit the case to be tried.

The anti-trust lawyers were not satisfied with the Dallas decision.

Neither were they satisfied with the two other decisions in which federal courts administered stinging rebukes to them.

They were still determined to destroy A&P.

In our next ad we will tell you how they continued their campaign in this case in the Circuit Court of Appeals and subsequent proceedings.

We will show you how, once again, they disagreed with the courts.

Everything that has happened since this suit was filed proves that the American people don't want A&P destroyed.

A deluge of letters from people in all walks of life and thousands of editorials in newspapers and magazines convince us that the public has faith in A&P.

The housewives of this nation, whose patronage has made this company big, are buying from us in increasing numbers and increasing volume.

Our suppliers, whom the anti-trust lawyers allege we have exploited, are rushing to our support.

Labor leaders, mindful of the fact that A&P employees enjoy the best wages, hours and working conditions, are taking a stand against the suit.

Even many of our good competitors, who the anti-trust lawyers allege are hurt by our competition, have taken ads to tell the public that they don't like this attack on A&P.

All this indicates that the American people realize that the suit to destroy A&P is really a suit against efficiency, against low prices and against real competition.

Apparently most Americans do not want to let the anti-trust lawyers in Washington blow the whistle on any businessman who does a better and more efficient job and grows big in the process.

No one can make them believe it is a crime to try to sell the best quality food at the lowest possible price.

Columbia Dean of Social Science Talks at Madonna

"Cultural Factors in Behavior" was the topic discussed by Miss Mary E. Hurlbutt, dean of the New York School of Social Work, Columbia university, at Madonna college on February 1 at 7:30 p.m.

Dean Hurlbutt stressed the importance of knowing and enjoying the different cultures that make up the American scene. This is vital, Miss Hurlbutt said, if we are to live together peacefully, side by side. "We don't need better bombs, but more and better human relations," she said.

The speaker deplored the fact that general opinion forces the immigrant to throw off his native culture and become thoroughly "Americanized" as soon as possible. Juvenile delinquency, insanity and maladjustment come as a result of this social pressure and appear mainly among the second-generation Americans, who are drawn between two cultures.

Dean Hurlbutt advocates making America an "orchestration of cultures," finding a middle ground, harmonizing the old with the new. A strong, deep family life, the kernel of American society, cannot exist if we put aside the old deep-rooted cultures to adopt a new shallow culture, "skimmed off the present."

The speaker was introduced by Miss Clara Jastroch, Ph.D., director of St. Anne's Community house.

Dean Hurlbutt conducted an institute in Detroit for social workers from January 26 to February 9 at the Rackham Memorial building. She has also given courses at the Smith College school for social work and has conducted short institutes in California.

Here's where Thrift and Glamor meet

Recognize this sprightly traveler? Yes, it's the Buick SPECIAL 6-passenger Sedan that has caught the public fancy not only on its sleek lines, but on its easily-reachable price. But notice anything new on it? That's right — gleaming trim and the name plate "SPECIAL" brightening up the fenders. Brightwork around the windshield and windows, too. And when you swing the door open you'll see still other touches of added luxury—side armrests, front and rear, a robe rail, an extra ash tray. It's all still mighty thrifty, because this strapping straight-eight sells for less than many sixes. Frugal in other ways too — gas mileage, for instance, is surprising so many people they are writing us in delight about it. But here we've added extra glamor. Stepped up, at small step-up in price, the luxury look and surroundings of cars that would normally be much higher.

Why not drop in and see for yourself, both how these added touches dress up this SPECIAL and how close it is in price to cars of much less room, riding comfort, standing and performance. Your dealer will be glad to see you — glad to show you how this traveler handles—glad to sign you up for prompt delivery.

Advice For Baby Sitters Given by Training Class

Members of the Occupational Training class, realizing the necessity of a code for baby sitters, came up with the following suggestions for their consideration.

1. Be on time and stay with children until parents return.
 2. Be prepared for any emergency. Be sure you know where to call if the baby should get sick or if there should be a fire.
 3. Keep door locked and admit no strangers unless previously instructed.
 4. Treat the children as you should want to be treated.
 5. Do not use telephone unless necessary.
 6. Do not raid the ice box or cookie jar.
 7. Pay close attention when the mother is giving instructions on what she wants done.
 8. Check babies frequently to be sure they are covered correctly and be sure to watch room temperature.
 9. Be sure the way the diapers are changed agrees with method used by the mother.
 10. If given permission to have lunch be sure to clean everything when you are finished; and, also, the babies' toys could be picked up.
 11. Be sure to get the permission of the mother before inviting friends to sit with you, because most mothers will object to such things.
- A baby sitter has a tremendous responsibility, therefore it is important that a baby sitter use best judgment at all times in order to do a good job.

Canfield Named Member of NVGA

George Canfield, boys' counselor of Plymouth High, has been accepted as a professional member of the National Vocational Guidance association. Mr. Canfield first joined this association in 1939 and was elected as a delegate to the assembly at the national convention in Chicago last March. In 1949, he also became a member of the program committee of the Detroit branch of the N.V.G.A. Nationally known, the N.V.G.A. boasts that 10 percent of its entire membership are professional members.

Besides being a member of the N.V.G.A., Mr. Canfield has accepted chairmanship of the fall conference of the Michigan Counselors' association to be held in November at Michigan State college. The other members of Mr. Canfield's committee are as follows: W. A. Christopherson of Howell, Miss Rosabelle Snorhr of Lansing, and Professor Raymond N. Hatch, Institute of Counseling, Testing, and Guidance, Michigan State college.

Down Under The Florida Palm Trees With The Mail's Roving Wolverine

Had to come way down to Florida to find out that Mrs. Dave Nichol who is in Berlin with her famed newspaper husband, was the correspondent of the New York Sun until that century old newspaper was sold and discontinued about a month ago.

Whether Mrs. Nichol has been retained by the New York World-Telegram, purchasers of the name, good will and circulation of the Sun, was not stated in the article we read about Dave and his wife.

Dave Nichol, well known to nearly every one in Plymouth, has for years been a foreign correspondent of the Chicago News and its syndicate. He was stationed in Berlin before the war and remained there until Hitler chased all foreign newspaper correspondents out of the country.

After a brief stay in Washington he was sent to Moscow where he served during the final two years of the war. When victory came, he was again returned to Berlin where he has been for the past five years. Dave has become one of the best known and most popular of foreign correspondents. He is a son of Mrs. Walter Nichol of Church street.

When reading of the hurricane that swept a portion of Florida last August, one gained the idea that its fruit and other crops were badly damaged that the loss would go into the millions.

Maybe it did—but more likely it didn't. Took a brief trip the other day up into the fruit country. Never before have we ever seen trees laden with more fruit. A tremendously big crop of oranges and grapefruit is being harvested—and the fruit has every indication of being top grade.

Down through the Lake Okeechobee farming section, there are thousands and thousands of acres of vegetables being harvested for northern markets. Unless one has driven through the rich farmlands that surround this great inland Florida lake, it is difficult to imagine the immense size of the fields.

Cabbage, string beans, lettuce, turnips and numerous other vegetables are being shipped out both by rail and truck. Sugar cane is also being harvested, with the big cane sugar mills in full operation.

Down in the "Redlands country" around Homestead south of Miami there is being harvested one of the best tomato crops Florida has ever produced. The tomatoes are of excellent quality. When reaching the workers in a big packing plant prepare the tomatoes or shipping, there wasn't a single ripe one put in the boxes as they were made ready for the express cars and trucks.

There's a gas war on down here around Miami. Dealers have slashed prices of both regular and ethyl gas from two or three cents a gallon. Rumors are to the effect that this is just the beginning of a price slump in the price of gasoline.

While music lovers in the Detroit metropolitan area are enjoying the Civic Light Operas being presented in the Masonic Temple in Detroit, residents of Miami and the winter visitors here are enjoying something equally as good—and more interesting in many ways.

It's called the "Music Circus." Nightly under a big canvas tent located not so far from the downtown area the same operas as presented in Detroit are being staged here. The musical talent is of top rank.

Night after night the tent is packed with hundreds and hundreds of tourists who are enjoying something entirely different in the amusement world. Not only is it different, but it is of the highest quality.

It is interesting, too, because of the way the light operas have to be staged. The platform on which the productions are presented is directly in the middle of the big circus tent.

So that members of the audience on all sides of the stage can see the opera as it proceeds, the singers face in all directions. At no time does any one in the audience feel as though he is seeing the production from a seat in back of the stage, and there is no back to the stage.

What little scenery is used is carried through the aisles to the stage. It is made in such a way that the view of no one in the audience is obstructed. The informality of the whole production—the seemingly mixing of the actors and actresses with the audience gives one a feeling that he is really a part of the show.

When the "Music Circus" was first suggested as a winter attraction down here, the local newspapers said there was considerable doubt as to whether it would be a success. It has proved anything but a failure. If one desires to attend, so popular has the attractions become, that it is necessary to buy seats days in advance.

Over the years we have attended many, many of the Civic Light Operas in Detroit—but never have these Detroit musical events presented better musical talent than is appearing in the "Music Circus" caste here in Miami.

Florida right now is in a big gambling war. There is a war between gamblers. There is a war between the state and bookmakers and there is a war between police and gambling racketeers, as well as a war between newspapers and so-called news papers. Some papers here say that there has been a new tabloid morning paper started in Miami Beach that is being published by an ex-convict who is being backed by gambling interests.

A grand jury has been summoned to investigate the gambling racket. A member of the grand jury has been found to be a fellow with a long police record, but they say they can't kick him out of the jury. A Miami paper has the following to say about it:

A Negro "gardener" on the Dade county grand jury was identified Thursday as a bolita pick-up man with officially suspected delinquencies ranging from carrying concealed weapons to highway robbery.

He is Lonnie Thomas, whom police recalled as a pick-up man at Clubhouse and formerly connected with the operation of the KY house.

Circuit Judge Charles A. Carroll, who organized the jury Wednesday, said Thomas is not disqualified to serve because of his police record. That record, incidentally, shows:

In 1926, he was charged with highway robbery.

In 1936 he was fined \$50 and \$25 with costs in two cases of possessing bolita tickets.

In 1937 he was fined \$25 and costs for carrying concealed weapons.

In 1937 a charge of murder, growing out of the death of Morey Long, outside a Liberty City bar, was dismissed as justifiable homicide. Long was beaten on the head during a fight after he criticized Thomas for blowing an automobile horn to attract friends in the bar.

Judge Carroll said that the duty of selecting prospective jurors rests with the Dade county jury commissioners.

Thomas, who listed gardening as his occupation, told the judge after he was sworn in that he had not been working as a gardener because of illness, and that his stomach was beginning to trouble him again. Judge Carroll told him that a juror cannot be removed once sworn into office.

Thomas is not disqualified to serve because the law excludes only persons who have been convicted of felony in Florida state courts, Judge Carroll said.

Here's Warning to Ice Fishermen

Plymouth probably has the largest number of ice fishermen in proportion to its population than any other place in Michigan.

That's why a warning just issued by the Conservation department is of special local interest. The department advises that the crust of ice which separates fish from fishermen has formed on some of the state's more shallow lakes and first shanties are cropping up, heralding the return of the winter angling season.

To keep the dunkings and more serious mishaps to a minimum, the conservation department warns the winter fishermen to thoroughly test the ice before venturing on it. Alternate freezing and melting of lake crusts, especially evident in southern Michigan locations during the early and late portions of the winter period, can provide anglers with a few thrills not relished. The department also cautions that lakes with spring-fed streams can trap the unwary fisherman.

Ice anglers can take muskellunge, northern and walleyed pike on inland lakes through March 15. Special seasons on the Great Lakes and connecting waters and on certain inland lakes can be checked in the 1950 fish law digest.

In southern lower peninsula lakes, below highway M-46, the season on bluegills and sunfish has been lengthened to end on March 31. This conforms with the closing date on these lakes to all fishing including the taking of such other pan fish as yellow perch, crappies, rock bass and warmouth bass.

Above highway M-46, in the northern lower and upper peninsulas, the bluegill and sunfish season also ends on March 31, but there is no closed season on the other pan fish mentioned.

Large- and smallmouth bass may not be caught in any part of the state after December 31. Designated trout streams and lakes are off limits for any type of fishing.

There is no creel limit on muskellunge. The limit on northern, walleyed, and large- and smallmouth bass in inland waters is five, singly or in the aggregate. Pan fish limit is 25 except that any combination may not include more than 15 bluegills.

This season any size pan fish may be taken. Legal size limits on other species are muskellunge, 30 inches; northern pike, 14; walleyed pike, 18; and large- and smallmouth bass, 10 inches.

Fords won it again!
The New York Fashion Academy
Gold Medal Award for the Fashion Car of the Year

WHAT sterling is to silver, the Fashion Academy of New York is to the world of fashion—the last word! And again for 1950, as for 1949, it has selected the Ford Car to receive its distinguished gold medal award as "Fashion Car of the Year." There is, we believe, no greater proof of the beauty of the '50 Ford. And there's no greater proof of its fine performance than a 10-minute "test drive." Your Ford Dealer will be glad to arrange it.

Roger Babson Says...

Babson Discusses Selling
The forecasts for 1950 recently issued by leading industrialists, economists and government officials all agree that 1950 will be a very competitive year.

Why More Competition?
Production has been greatly increased during the past ten years. Farmers are raising 225 per cent more products. Manufacturers are making 45 per cent more goods; there has been a large increase in the number of "service" jobs, from hairdressers to dry cleaners, while advertising has increased about 65 per cent. Yet, since 1940 our population has increased only 14 per cent. Hence, 1950 will see far greater domestic competition.

But in 1950, for the first time since 1940, the U.S. will face foreign competition. (Among Christmas gifts received by me was a five-pound box of candy made in Paris and flown to this country by airplane!) The only hope for Europe and World Peace is for us to buy more goods from abroad. This buying from abroad will need to increase in order to stave off World War III. This means more competition for U.S. manufacturers.

Advantages of Merchandising
The one industry which need not fear this competition is well organized merchandising, perhaps best represented by the top chain store organizations. These are always looking for the best goods for the least money, wherever they are made or raised. They do not have money in farms, factories, banks or real estate investments. They are free lances with only one goal—namely to best serve consumers.

The Selling Industry is not tied down to any one location; is not dependent upon any definite styles; and is not governed by bureaucratic regulations. Stores which do not pay can be quickly moved; while stores are so distributed through the U.S. that poor conditions in one locality, or industry, will not harm the group as a whole. With a turnover of five or more times a year, there need be no loss on inventories. Good merchants always are well hedged against inflation.

Selling As A Profession
If I were a young person today, a graduate of High School or College, I would become a salesman. Most of my successful business friends—whether in business for themselves or heads of large corporations with thousands of stockholders—came up through the Sales Department. Today, there are many engineers, accountants and personnel managers looking for jobs; but no successful salesmen are out of work. Moreover, men who can organize and operate a profitable selling force are in great demand. It is not important what you sell, so long as it is something which honestly serves people. If you can get on your knees every morning and ask God to help you sell your products, you are sure to succeed. Selling opportunities

exist in every honest industry, "from cradles to coffins." But after deciding what you are to sell, make sure that you know more about that product than anyone else on the sales force. Visit the plants from which come the raw materials; work in the factories where your product is made; and visit the consumers who use it.

Importance of Selling to The National Prosperity
My family for 200 years has been in the fish business. As a statistician, I never understood why good fresh fish when landed from the boats should sell at only five cents a pound; while the same fish, when frozen, should retail months later for forty cents a pound. It seems unfair to the fishermen who are daily risking their lives to catch the fish; and unfair to housewives who buy the fish.

When coming to Florida, a half grapefruit was priced in the dining car at 35 cents. Yet, the day after my arrival here I had to hire a man to pick up from the ground, under my trees, equally good or better grapefruit and cart them away! Certainly, there is a great opportunity for Christian service for any young man who will help reduce this spread which applies to most everything we eat or wear.

THE STARS

By LYN CONNELLY

THE PAST YEAR loomed mighty big in the entertainment world for it was undoubtedly this year that television graduated from short to long pants.

Looking at the video picture from this corner it would appear that NBC and CBS have the edge in programming, with NBC getting the nod as having the most original shows... Surprisingly enough, it seems the best shows emanate from Chicago rather than from the Great White Way. One of the best shows on TV today is the Wayne King program... King, long a band favorite, has one of the most charming half-hours for viewing one could possibly spend... His Nancy Evans and Billy Leach have freshness and youth and their songs are sung delightfully with original continuity tying them together... Then there's Dave Garraway and Kukla, Fran and Ollie... All Chicago productions and all NBC productions... CBS has Arthur Godfrey but slows down after that... ABC has one good Chicago show in "Super Circus," and two good New York shows in the Paul Whiteman programs... Then it, too, rests on its laurels... So far, NBC is well on its way to being the big wheel in television that it has always been in radio.

PLATTER CHATTER

VICTOR: Sammy Kaye has a fine rendition of the beautiful "Lily and My Rose"... The flip has "It Isn't Fair"... Spike Jones hits again with "Morphous" and "Wild Bill Hiccup," a clever satire... And Tony Martin keeps up his perfect strikes with another honey, "Have I Told You Lately That I Love You" and "I Said My Pajamas"... He's aided this time by lovely Fran Warren.
COLUMBIA: Frankie Carle's arrangement of "Blossoms on the Bough" is sweetly sentimental... The reverse has "My Rose Garden"... Dinah Shore's latest is pretty "Sitting By the Window" with the unusual "Scarlet Ribbons" as its coupling.

Fred and Don Foster and Billy of Ann Arbor were recent visitors at the Herbert Culver home on Palmer avenue.

The Lily club will meet Monday, February 13 at the Grange hall with the Gardners and the Grammels as hosts. Bring sandwiches or cake and your card table.

Mr. and Mrs. Andrew Vargha of Gold Arbor road attended the performance of "No No Nanette," in Detroit on Friday evening.

Mr. and Mrs. Horace Truesdell of Boston Post road entertained at euchre Saturday evening for Mr. and Mrs. Albert Knorrskke of Garden City, Mr. and Mrs. Elmer McKee and Mr. and Mrs. Frank Ehrhardt, both of Wayne. Refreshments were served by the hosts during the evening.

Mr. and Mrs. Ernest Eberlin of Wayne and Mr. and Mrs. Kenneth Thorpe of Plymouth were Saturday evening dinner guests of Mr. and Mrs. Howard Salisbury of North Mill street.

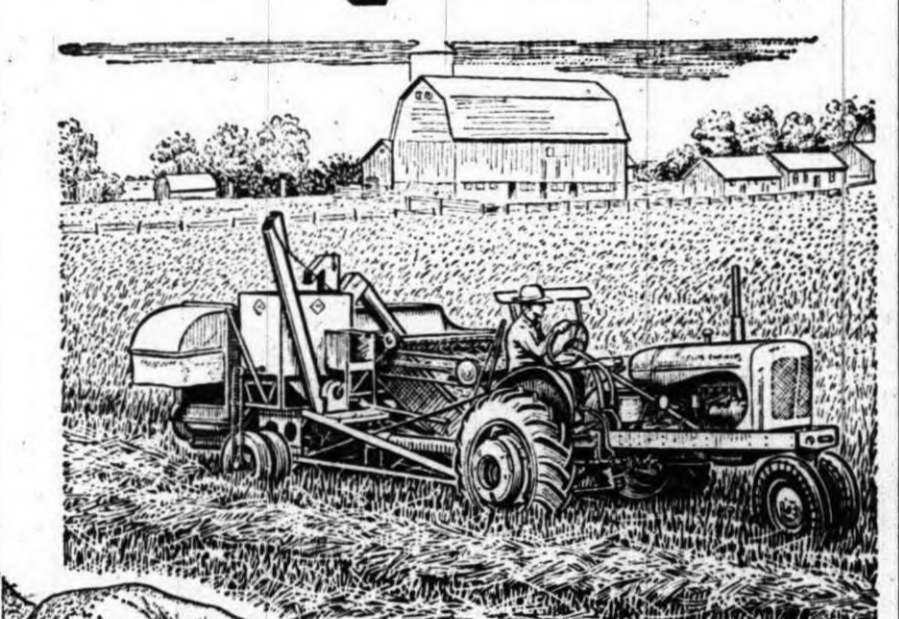

Mrs. Charles Mather has returned to her home after a siege of pneumonia at the home of her daughter, Mrs. Irving Blunk.

Charles McConnell has been ill at his home on North Harvey street for the past week.

Mr. and Mrs. John Root were Saturday evening guests of Mr. and Mrs. Ernest Vealey for euchre and 500.

The Women's International League for Peace and Freedom will meet at the home of Mrs. Frederick G. Poole on Thursday, February 16 at 7:45 p.m. A report on studies of UNESCO will be given members. easy THRESHES IT

Rubber-against-rubber shelling contacts in the ALL-CROP Harvester give a natural shelling action, just as you rub out a head of grain in the palm of your hand.

The crop falls on a wide, rubberized draper and rides straight to the full-width, spiral-bar cylinder in a thin stream just as it grew in the field. Rubber-cushioned cylinder bars rub out the grain or seeds against rubber concaves.

This same gentle handling of over 100 grains, seeds and beans makes the All-Crop what is... truly an ALL-CROP Harvester. Stop in and talk to us about an All-Crop for your farm.
