

### WONDER IF HE WILL.

Since Less Pressman's confession that he was an active member of the Communist party during the early years of the Roosevelt administration, we wonder how many more of Truman's speeches and messages he has written for the Missouri "statesman"? We wonder, too, how much of the stuff to be used in the forthcoming campaign he will prepare for the Phony dealers to use in their election effort?

### WILL IT BE DONE?

Sometime ago Michigan newspapers gave considerable space to the will of John M. Munson, late president of Michigan State Normal College of Ypsilanti in which he set aside \$100,000 for the accomplishment of two objects—one, a history of Michigan for use in the schools, and the other, a history of education in Michigan to be employed in teacher training.

So far we have heard of no effort being put forth to produce the type of Michigan histories Dr. Munson realized the state needed so badly.

It is doubtful if there are many states so devoid of well prepared histories as Michigan. During the early days of the New Deal squandering there was prepared a "Guide to The Wolverine State", a Michigan Writers' Project. It was set forth as being a complete history of the state.

Not until a year or so ago did we take the time to read it. Our only recommendation of the book is that it be removed from all public libraries as speedily as possible. It is anything but a history of the state and its general tone in no way reflects the spirit and the will of the people who helped to make Michigan what it is today. Michigan DOES need a good history.

### THIS BEER BUSINESS.

That order in the army which prohibits soldiers from getting a glass of beer to drink over in Korea is still causing a lot of talk. We don't drink beer because we don't like beer. But a lot of people do like beer. Because I don't like beer, what right have I got to tell the fellow who does like beer that he can't drink beer?

Maybe it is better that soldiers should not have beer—and maybe it is not for the best. But here's a non-beer drinker, who thinks that that order is another one of the 2 or 3 actions of those who have been bungling things up in this war business.

The boys fighting the Korean war are going through terrible experiences. They are fighting in one of the most terrible wars, even though not the biggest, this country ever faced.

So, if these dog-tired soldiers, these youthful fighters who face death on every side, can find a bit of relief in drinking a glass of beer, here's one non-beer drinker who is all for it.

### WILL THEY DARE DO IT?

Now that General MacArthur has won a smashing victory in Korea against odds that looked overwhelming in the beginning, we wonder if the Truman-Acheson-Hiss crowd in Washington will dare remove the famed General? It is known that they have longed to do so and even now are trying to pass the buck to him upon the unpreparedness of our land forces before the outbreak of the Korean war.

Senator George Malone of Nevada charges again that "the same State Department officials who made the stupid blunders that invited the Korean war are cowardly attempting to smear General MacArthur by placing the blame on him." The serious charge was made in a statement issued by the Nevada Senator's Washington office, which demanded public exposure of "this new trickery on the part of the Communist-loving clique in the State Department."

Continuing, Senator Malone said: "These Left-Wingers have been after General MacArthur's scalp for some time because he stood firm against their scheme, first made evident at Yalta, to turn Asia over to the Communists. Now, since the stupidity, or deliberate treachery, of the Asia policy makers, Hiss, Latimore and Acheson, cannot be denied, the followers of this group have the unmitigated gall to spread the lying whisper that General MacArthur was responsible for the surprise attack on South Korea."

"The person who was responsible, who made the wrong decisions, who mothered the stupid notions, who put into force the ill-conceived ideas of the Communist lovers, who in fact never deviated from any of their principles, is Mr. Dean Acheson, Secretary of State."

"At a closed meeting of the Senate Foreign Relations Committee, Mr. Acheson was asked whether he had sought the views of General MacArthur on the strategic importance of Formosa. He answered that he was not reporting on MacArthur's views, that he did not necessarily know them."

"He also said he had not talked to the Joint Chiefs and did not know their views. Three days later, Mr. Acheson made the announcement that America's military defense line in the Pacific ran from the Aleutians to the Philippines, including Japan and Okinawa but skipping Korea and Formosa."

"General MacArthur, far from shaping any of that policy, was not even consulted."

"Is it General MacArthur who determined to withdraw our forces from Korea and leave an ill equipped constabulary in their place? Is it he who ignored repeated reports of armed raids by Communists across the 38th parallel, and the urgent warnings from Korean Government officials that heavier attacks were imminent? The answers to these questions are as obvious as the whispered charges against MacArthur are ridiculous."

### JOBS FOR PRESS AGENTS.

It seems from what some Washington newspaper correspondents are writing, that the Civilian Defense program, from the Washington end of it, is loaded down to the hilt with press agents who are supposed to tell us what to do when Russia drops an atomic bomb on us.

But political press agents are supposed to do something else, too. They are supposed to work into their propaganda as much praise as they can for the politicians who helped them get on a public payroll that comes out of the pockets of the taxpayers. It's anything to get the votes, no matter what the cost, just as long as the taxpayer can take it and the voters permit themselves to keep on being fooled.

### WE'RE FOR THIS BOND ISSUE.

There will be on the November 7 election a special ballot to be voted. It is a ballot on which we will say yes or no to a proposal to authorize the state to borrow \$64,000,000 for the purpose of constructing hospitals for mental and tuberculosis patients. It is one bond issue that we are one hundred percent for.

### BAN ON JOBS FOR THE ELDERLY.

A Lansing senator wants to have that restriction removed which prohibits elderly people from working if they get that miserly pension from the state. Up in Lansing, he says, he knew of an old fellow who was getting a \$34 a month pension and he had a job on the side which paid him \$15 per month. Some silly welfare worker came along and told him he would have to give up his \$15 a month job if he wanted to keep on getting his pension. Funny, isn't it, what a lot of brainless nincompoops can get into positions where they can issue such orders!

## Rotary Collects Funds for Seeds For Philippines

Hundreds of Filipino farm families will derive benefit from a new project launched this week by the Rotary club's international service committee. Dave Galin, committee chairman, announces that during the coming week Rotary will conduct a campaign to collect funds for vegetable seeds for Filipino farmers.

The project is similar to those now being planned all over the country. Sending the badly needed vegetable seeds has been cited as a positive means of fighting Communism. U. S. Farm specialists working in the Philippines are convinced that seeds sent to the ordinary Filipino farmer would convince him that someone else besides the Communists are interested in him. Farm extension agents will have charge of seed distribution when they arrive. The vegetables will supplement the inadequate Filipino diet of rice and fish.

Mr. Galin's committee has arranged for contributions for the seeds to be left at the Willoughby Shoe store, The Plymouth Mill, Galin and Son, Plymouth Lumber and Coal, Beyer's Pharmacy and the McLaren company. The deadline for donations is Saturday, October 21. Since November and December is planting time in the Philippines, the seeds must be purchased and delivered by that time.

Mr. Galin has arranged with the Ferry-Morse Seed company of Detroit to purchase the seed packages with a 25 percent discount. The company stated that for such a commendable project they would make an exception and sell the seeds at wholesale rates.

Frank C. Piedad, of the Filipino Council of Michigan, states, "Each vegetable seed planted in the Philippines is another seed for democracy. In recent months we have received reports of Communist organizers trying to work their way into the confidence of the farmers. Our small packages will contain for them the message that the U. S. is interested in them."

## Optimists Hear Bond Director

A thought-provoking talk by R. R. Penhale, deputy director, Savings Bond division of the U. S. Treasury department, highlighted the weekly meeting of the Plymouth Optimist club last Monday evening, at the Hotel Mayflower.

Mr. Penhale outlined the work of the three Michigan field deputies in the Thrift Education program, among school-age young people, and the Payroll Savings plan for adults. Mr. Penhale pointed out that a sound American economy is essential to maintaining the peace of the world and furthering the progress of men everywhere. He indicated how the U. S. Savings Bond program helps to keep our economy sound by building individual and collective security through thrift, and the advancement of men's dignity by creating an actual partnership in government through bond ownership.

The meeting was closed with a discussion of tentative plans for a young people's Halloween dance, the details to be announced at a later date.

## Garden Club to Honor Mrs. Ford

In fitting tribute to the late Mrs. Henry Ford, members of the Plymouth branch of the National Farm and Garden association voted to donate a book on roses to the Dunning public library.

The book will be placed in memoriam to Mrs. Ford on the garden club shelf in the library. Mrs. Ford was the first president of the Michigan branch of the National Farm and Garden association. She was intensely interested in gardening and had raised all varieties of roses in her gardens.

The action was taken at the garden club meeting Monday. Another resolution passed at the meeting stated that the garden club will cooperate with Plymouth schools on an education and conservation program.

## Merchants Give 18 Prizes For Halloween Event

Plymouth merchants have donated 18 prizes that will really spark up competition in the Halloween costume parade, according to Mrs. Marvin Partridge, who is chairman of awards for the festivities.

First, second and third prizes for both boys and girls will be given in three divisions—most original costumes, most attractive and the most wierd.

Plans for window decorations are also underway. Mrs. Frances Overton, art teacher at Plymouth High school, asks that anyone who would like to paint window decorations contact her at the high school. She will assign decorators to groups responsible for each merchant's window in town who has volunteered display space.

Fifty-four ribbons will be awarded for the best windows. They will be judged first, second and third for the most gruesome, most comic, and for the best Halloween atmosphere. Judges are Robert O. Wesley, Mrs. Gerald Hondorp and Mrs. Marjorie Becker.

Awards will also be given to squads of six workers who plan the best designed and most original windows. First place only will be given in this judging division.

Herbert Woolweaver is general chairman of the Chamber of Commerce's Halloween program, assisted by members of the local service clubs.

## Sales Director Speaks at C of C Training Course

Local merchants and their salespeople convened last night for the third meeting of the Sales Training Course sponsored by the Chamber of Commerce. Over 75 persons were in attendance, a substantial increase over last week's good turnout.

Guest speaker for the last two meetings was Mrs. Opal Cunningham, director of sales training for Crowley, Milner and Company and a well known figure in the field of retail sales training and personnel management. Mrs. Cunningham spoke last night on selecting and displaying merchandise and meeting customer objections.

At the October 4 class she discussed choosing an approach to customers and determining their needs and desires, with particular emphasis on a friendly greeting, and winning the customer's confidence.

A sound film, "The Things People Want," pointed out six basic customer buying motives—appearance, comfort, durability, economy, performance and safety—and how the salesman can adapt his presentation to these motives.

Classes meet from 7:30 to 9:30 p.m. each Wednesday in the Plymouth High school library. Tickets may be secured from Carl Caplin, George A. Smith and at Davis and Lent Men's store.

A crowd of approximately 500 visitors attended the Grand Opening last week of the newly enlarged Plymouth Men's Wear store on Pennington avenue. During the five days the store celebrated the opening of its new shoe department, managed by Ed Houghtaling.

Shortly after the Seminary opened last year an open house was held and the crowds were so large that parking facilities couldn't begin to provide enough space to accommodate all of the visitors. This year special precautions are being taken to see to it that every visitor is able to visit the beautiful school and local residents will be especially welcome.

## Begin Rehearsal For "Messiah"

Preparation for the 4th annual performance of "The Messiah" will begin next Monday night, October 16, when the first rehearsal of the Plymouth Civic Chorus will be held. Fred C. Nelson, music instructor at Plymouth High school and director of the program, announces that membership in the group is still open and anyone interested in singing in the chorus may come to the rehearsals scheduled each Monday at 8 p.m. in the high school.

Two performances of this popular oratorio are to be given on Sunday, December 17—one at 4 p.m. and the other at 8 p.m. The chorus is sponsored by the Plymouth Symphony society. Participating in the program besides the chorus, are soloists and the Plymouth Symphony orchestra.

Each year the chorus grows and improves in quality and each year more parts of the Messiah are added to the program. Last year the public attendance was so great that, for the first time, two performances on the same day were necessary.

## Celebration is Successful For 25th Anniversary

Over 200 Kiwanians and their guests were on hand Tuesday night to celebrate the Plymouth Kiwanis club's 25th anniversary. The dinner and anniversary program were held in the Masonic Temple.

Especially honored at the event were the four members of the club given Legion of Honor awards for 25 years of service. They were E. J. Allison, Robert Jolliffe, Henry Fisher and Edson Huston. Jolliffe and Allison were also given certificates for 24 years of perfect attendance and for serving as lieutenant governors.

The Rev. Alexander Miller gave the invocation preceding the dinner. Toastmaster Edwin A. Schrader introduced the entertainers for the evening which included Russell Kloetzel who provided music and Jimmy Hunt and his dancing school students. The Blackstone Quartet were also on the program.

Professor J. G. Hays, extension dairyman from Michigan State college, was the guest speaker who addressed the group on Boyvine Architecture. Benediction closing the program was given by the Rev. Erwin Britton, lieutenant governor of Kiwanis.

Prior to the dinner, dedication ceremonies were held at the Kiwanis Girl Scout cabin which is now completed. The cabin has been financed and constructed by the club and will be used for meetings and camping by the local Girl Scout groups. Past Governor Clarence M. Loeselle and Kiwanis President Byron Becker officiated at the ceremonies.

Past presidents of the Kiwanis club include: James L. Johnson, Dr. F. B. Hoyer, Robert J. Jolliffe, Dr. Luther Peck, Dr. F. B. Lendrum, Ernest J. Allison, Percy W. Richwine, Sterling Eaton, Dr. Harold Brisbois, Edwin A. Schrader, Earl Mastick, Claude Dykhouse, James Gallimore, George Burr, Warren J. Worth, Carvel Bentley, John Blyton, Kenneth Corey, Ernest Henry, Paul Ramsdell, Russell A. Roy, Roy A. Fisher, Frank Terry, Robby Merriam and Clarence E. Moore.

With over 28,000 students Dean Folley stated that Wayne classes run from eight in the morning until 10 at night and that from his standpoint actually about the only real difference between these two great universities of learning is a football team.

He pointed out that in his own particular branch of the school the students totaled 5,000 ranging in age from 18 to 71 and that over 90 percent of his students were self supporting while gaining further education.

In all cases the members of the teaching staff were experts in their own lines of endeavor and spent many hours of their time during the day as paid consultants to the major industries in and around Detroit. He further stated that Wayne university had become internationally famous for its teaching and that during the recent years it had received requests from every recognized nation in the world for outlines of its procedures and methods of teaching.

His talk was most informative and when Rotarians left the meeting they had an entirely new conception of the fast growing neighboring institution.

The archers returned immediately with the deer because of the warm, damp weather. The doe was dressed and placed in a locker.

Folley, head of the school of business administration of Wayne provided those in attendance with a most revealing story about a nearby university that in attendance is only a few hundred under the University of Michigan.

For her bridal gown Barbara chose white satin trimmed in steel pearls and a crown of rhinestones and pearls. Her only jewelry was a necklace, a gift of the bridegroom. She carried a bouquet of white roses.

Three boys, driving on the trail, heard Mrs. Pankow scream and chased Patton. Mrs. Phyllis Searles of Livonia, was driving past and stopped to give first aid to Mrs. Pankow who was badly beaten.

Patton was later caught and turned over to the sheriff's office. He is being held for a hearing.

**Guard Nurse Here From Escapee**

Miss Sarah McLellan of 917 Simpson street was given extraordinary police protection last weekend after being warned that Carl Schrader, 19, had escaped from the Michigan Reformatory for Boys at Ionia and had planned to come to Detroit to kill a woman.

The youth was captured Sunday in Detroit. Reformatory officials had alerted Plymouth police to guard Miss McLellan's home after Schrader's escape.

Miss McLellan, who is a nurse at the Wayne County Training school, was forced at gun point to help Schrader aid the escape from the school of a friend who was an inmate there in 1948.

Schrader's attempt to free the inmate was unsuccessful. During the incident, Schrader fired wildly and wounded another inmate. Schrader then forced Miss McLellan to drive him to a point 20 miles from the school. He took her auto, smashed it up and was captured.

Schrader was sentenced to the Reformatory in December, 1949.

Police felt Schrader, who was serving two to four years for felonious assault, might try to harm a woman who he thought was instrumental in his conviction.

Schrader's arrest resulted from an anonymous tip.

The ordinance further states that no shotgun may be discharged within 600 feet of any occupied building. Livonia city limits run from Eckles to Inkster roads and from Joy to Eight Mile roads.

### Plan to Solve Water Problem

While many cities in the area are confronted with the problem of not enough water, Plymouth has its troubles trying to chlorinate its water. The city has a more than adequate supply but has been unable thus far to find a machine that will chlorinate the water being used.

Over a year ago a chlorinator was purchased from the Wallace and Porter company in Pennsylvania. But due to the fairly small volume of water used in the city, the mechanism has not been working properly and citizens have complained of the strong taste of chlorine in drinking water.

Some months ago the Pennsylvania company installed a new machine but still with no success. A number of service men from the company have come to Plymouth to try to adjust the machine so that the chlorine will be automatically put into the water in the correct proportion to the amount used, but with no permanent success.

Last week the city commission authorized City Manager Al Glassford to try to purchase a new machine if nothing can be done to improve the present machine.

### Tom's Hardware Builds Addition

Tommy Braccina, owner of Tommy's Hardware, 40674 East Ann Arbor trail, two blocks east of Haggerty, announced this week that a new addition to the store would soon be completed. The new building will contain 3,200 square feet of additional floor space, making a total of 4,400 square feet of floor space in both buildings.

The new addition will house a large selection of sporting goods, electrical supplies, household necessities, toys and general hardware. Tommy expects to open the new store about November 15, the exact date of the formal grand opening to be announced later.

## From Pills to Penicillin

During the last two years, behind our counters we've sold many kinds of accepted medicines and we've filled hundreds of prescriptions for people of this community. We've helped measure out a lot of medical progress. We've seen new treatments and new drugs turn illness into health, despair into hope.

**This progress is more than statistics—it's people! And the people we know don't want it tampered with!**

Free America has no place for a bureaucracy that stands between people and progress, between doctor and patient between physician and pharmacist.

**UNCORKING THE NEWS**  
By **CARL PETERSON**

No matter what happens in Europe or Asia right now, the word from Washington is that U. S. Defense won't lag. We were doing off a bit just before the Korean war sounded an alarm... but we don't have to do it again. We were short on everything but editorials... and it we haven't learned our lesson, then we'd better switch courses. Defense plans are going to be a little expensive... but it's kind of a choice of having a little less or having nothing. We know now that we can't sit back and hope that everything will work out all right. We've just got to see that it does.

Congratulations are in order this week for our good friend and former employee, Bill Staman. Bill opened his own drug store this week in Walled Lake, Mich. Good luck, Bill! We and the people of Plymouth will miss you!

An English barber who was looking for an apartment offered a reward... free haircuts for life. Looks like somebody's going to get a trimming. Nothing takes a triumph here except high prices. We like to keep 'em down because we don't like 'em any better than you do. Just a reminder to shop right away for Christmas gifts for over-seas servicemen. The deadline for mailing falls soon. So get in under it. We have a fine selection of gifts at

When you need a sitter, don't be bitter

There's the lady in blue in the visiting nurse's uniform . . . and the Captain of the Salvation Army . . . the secretary of the Plymouth Recreation Commission . . . a representative of the allied council of veteran's organizations . . . a mother and her baby from the Well Baby Clinic and a Boy and Girl Scout . . . and of course there are others, too . . .

Certainly you would ask them in your living room even though they filled it to over-flowing. . . And then, one by one, YOU WOULD Hear Their Stories.

One would tell you about the fight his organization is waging against disease and crippling illness. Another would tell you how their services are curbing juvenile delinquency. . . . Another would touch your heart with the story of a homeless child or a lonely old man . . . Each would separately ask your help.

And you'd want to help everyone! But you'd wonder . . . "How much should I give to this? . . . How much to that?" And that is exactly why in Plymouth we have a Community Fund Campaign. The needs of each service have been studied and considered by a group of our leading citizens.

To save your time, only one volunteer solicitor will call on you. When that call comes, open your heart and your pocketbook. Remember that you are giving for all Community Fund services. So give enough for all. And give enough for a full year. THANKS.

*The Plymouth Community Fund*

The Plymouth Community Fund Campaign includes the above named agencies as well as the 18 agencies covered by the Torch Drive in greater Detroit. When you give for one — remember — you give for all.

#### Methodist Men Do Paint Job on Parsonage

As their first project of the year, and in the spirit of true brotherhood, a dozen enthusiastic volunteer members of the newly-formed Methodist Men's organization of the First Methodist church, assembled at the parsonage last Saturday with paint brushes and extension ladders, to work together on their self-appointed project of improving the appearance of the church property.

During the afternoon, while a portable radio reported the Dartmouth-Michigan football game, play by play, members of the Women's Society of Christian Service, through their executive committee headed by Mrs. Bernard Curtis, provided the hard working volunteer painters with an ample supply of sandwiches, hot coffee and doughnuts.

Following the approval by the house committee of the official board, headed by Hoyt Mills, the painting project was given immediate encouragement by Harold Fisher, treasurer of the Methodist Men, who personally donated the paint for the job at no expense to the church. George Rimer supplied ladders, Loren Goodale loaned paint brushes, and other volunteers helped to scrape and prepare the buildings. Those who painted Saturday were Austin Pino, George Bauer, Kenneth Bisbee, Bernard Curtis, Paul Simmons, William Elzerman, Richard Elzerman (substituting for Ernest Elzerman), Ernest Wilson, Thomas Bateman, Howard Bowden, George Conder, Bruce Hunting and Willis Hunting.

Members and friends of the Methodist Men's organization who were prevented from assisting in the project thus far, will have an opportunity to share this Saturday, October 14, when volunteers will apply the second coat of paint to the parsonage and garage. Those wishing to offer their services for either Friday or Saturday, or who desire further information are requested to phone Bernard Curtis, or George Bowles, secretary of the Methodist Men.

**A COMPLETE SERVICE DEPARTMENT IS AN IMPORTANT PART  
OF A MODERN GARAGE!**

We Are Particularly Aware Of  
This . . . And . . . Here Is Positive  
Proof Our Service Department Is  
Better Than Average . . . In Fact - It  
Was Our Service That Sold This  
Brand New 1950 Ford.

Perhaps you don't recognize the buyer of this new Ford pictured above on the right. Usually when you see him on the streets of Plymouth he is behind the wheel of that big Jones Transfer truck that visits almost every store and factory in Plymouth at least once each week. That's right, it's Bill Gambotto, one of Jones' most trusted drivers who carries more tons of freight to and from Plymouth each week than you would ever guess. Bill makes no bones about the fact that he had enough of the kind of service where his car wasn't done when promised and then many times he found the work only half done after he went many miles out of his way in Detroit to pick up his car. One day last year he brought his car to us for service and became so satisfied with the way we did things here that when he was in the market for a 1950 Ford he just drove out and said, "Your service has pleased me and I need a new car. If I buy it here I'll know I'll get the kind of service I should have." So above you see Bill with his new car getting a minor motor adjustment from one of our skilled mechanics. Bill is only one of many of our satisfied service customers.

# Rocks Beat Trenton 39-6 In Upset

## Hunter, Runge Lead Team To Second League Victory

The Plymouth varsity football squad won their second league game Friday as they trounced highly favored Trenton 39-6. George Hunter and Bill Runge were the main leaders in the Rocks assault with Hunter heaving some beautiful passes to Runge resulting in two of the touchdowns.

Coach Ponto elected to start Charlie Stark and Bill Runge at ends, Gary Soekow and Jack Daggett at tackles, Bob Keeny and Jack Robinson at guards, Bob Gow at center, and Travis, Hunter, Jacobus and Davis in the backfield.

Bob Gow got things rolling as he kicked off to the 18 yard line with Trenton bringing the pigskin back to the 30. Trenton's first play was a long pass which was just out of the reach of the intended receiver. The Trojans then picked up a first down as they hit the line several times. Dick Cramb then broke in from his own end position and gave Trenton a 4 yard loss. Trenton then kicked to the Rock's 30 yard line. Here the Rocks executed a

very beautiful play as Bill Runge went out on a sleeper play and caught a long and very accurate pass from George Hunter. Runge then showed his speed as he left the Trojan backfield in his tracks and raced over for a six pointer. Gow's extra point kick was blocked holding the Rocks to six points.

Gow then kicked off to the Trenton 25 with the runner being smeared on the 27. The Rocks held Trenton and made them kick to the Rock 30. Trenton then received a 25 yard penalty only to be off set as the Rocks picked up a 15 yard one. Ron Davis got it back, however, as he raced through the line for 14 yards. Plymouth picked up a first down before being stopped with Lamphear kicking to the 20. Here Trenton received another 5 yard penalty. They tried to gain it back as they tried a pass which, on a beautiful interception, Travis raced from the 25 down to the 1 foot line. Travis then carried the ball over with Gow making good on the conversion.

Gow again kicked off for Plymouth this time sending the ball down to the 5 yard line where Trenton came back to the 20. Trenton then moved on to the 34 collecting a first down. This ended the first quarter.

The Trojans started the second quarter off with a 5 yard penalty before they took to the air and moved down to the Plymouth 37 on five straight passes, two of them complete. Daggett saved the day for Plymouth as he recovered a fumble and stalled the Trojans' drive.

Hunter then took over and came around end for 9 yards. Another Trojan penalty gave the Rocks a first down. Here again the Hunter to Runge team worked as Runge made another swell catch and raced to the 4 yard line. Hunter then powered over for another Rock touchdown. Bob Gow made it two out of three by adding a conversion.

Gow kicked off again to the 20 with Trenton coming back to a first down to the 45 before having to punt with the ball going out of bounds on the Plymouth 42. Hunter then picked up a first down. Here the Rocks were victims of two 15 yard penalties. Trenton then moved on to the 13 yard line where they scored their only touchdown on a pass. This ended the first half.

Trenton kicked out of bounds starting the second half and the Rocks took over on the 40. Plymouth then picked up two first downs before being stopped on the Trenton 31. The Rock line showed its power and stopped Trenton and then moved in to

block a punt on the 20. However, the Rocks were moved back 15 yards on another penalty. Hunter then passed to Runge again where Runge was knocked down by a Trojan player and the refs ruled interference. Plymouth was then set back with another 5 yard penalty. This didn't bother the Rocks as Hunter passed to Runge for another touch down. Bob Gow added another extra point making the score 27-6.

After Gow's kick off Trenton took to the air again and moved down field before Travis made another neat interception on the Plymouth 30 and raced back to midfield. Plymouth then picked up three first downs and were on the 10 yard line when the quarter ended.

Plymouth was penalized 5 yards then and was unable to pick up a first down. Trenton took over and made a first down on the 26. Trenton passed again and as usual Dave Travis came in to intercept and raced down to the 6. Jacobus then carried the ball over for another 6 points. Gow's conversion was good but Plymouth was handed a penalty so the point did not count.

Gow kicked off again and after two penalties Trenton punted to the 50. Hunter then passed to McKinley who went to the 12. Several plays later McKinley plowed over but Plymouth was handed another 15 yard penalty and Trenton took over but after three plays kicked to their own 40. Plymouth's second team was then playing and they also proceeded to knock Trenton all over as Lamphear plunged over for the final score.

Plymouth plays Redford Union next week and this game will decide just where Plymouth will finish up.

## Rocks Trounce Trenton 15 to 47 in Cross Country

The Rock cross country squad won their meet with Trenton Friday by the lopsided score of 15-47. The Plymouth team took the first five places for the lowest possible score. John Balogh was again the first man to cross the line with the time of 9:33. Bob Davis, the mile champ from Missouri, came in second with third spot going to the upcoming Ron Beaver. This gives Plymouth a better chance for the league meet at Ypsi which will determine the 6B champ.

BY AL FINNEY

The Plymouth Rock football squad seems to have snapped out of their losing streak and have won two league games over Belleville and Trenton while losing to powerful Ypsilanti. This puts the Rock gridders in a second place tie with Wayne. Tomorrow the Rocks will play Redford Union at the Plymouth High school athletic field. Redford Union was beaten by Wayne 7-6 last Friday so this game should decide where Plymouth will finish up in the league standings.

A very nice fact about the game last Friday was the filling up of the weak spot by Dick Cramb and Bill Runge. Cramb played very good ball on defense while Runge was the offensive player making some very nice pass receptions. This was the line's weakest spot and with this filled up the Rocks have a well balanced line.

George Hunter showed his passing ability in the Trenton game as he passed to Bill Runge for two touch downs and set up two others.

The Rock cross country squad won their meet from Trenton Friday and now have three wins and no losses. This doesn't decide the league winner and serves only as practice. The league winner will be decided in the league meet to be held in Ypsilanti.

Plymouth really showed their ability as they captured the first five places in the Trenton meet resulting in the low score of 15. Coach Moiso stated, "The Rock team had a good chance for the league meet but Ypsilanti will be the team to beat." The Rocks beat Ypsi in the dual meet so they have a good chance to beat them in the league meet.

## Grange Cleanings

### Elizabeth Stone Becomes Bride of Lawrence Mason in Afternoon Rites

A gown of ivory velvet with a three-quarter length veil of illusion was Elizabeth Ann Stone's choice for her wedding to Lawrence Eric Mason on Saturday afternoon, October 7, at three o'clock in the First Presbyterian church. Dr. Henry J. Walch read the rites in the presence of about 150 guests before an altar banked with fern and baskets of white mums and gladioli flanked by large candelabra.

Elizabeth Ann, who is the daughter of Mr. and Mrs. Garrett Stone of Canton Center road, was given in marriage by her father. Eric is the son of Mr. and Mrs. R. Warren Mason of Arden avenue, Rosedale Gardens.

Wedding music was furnished by Fred Nelson at the organ and Barbara Johnson sang, "The Lord's Prayer," "I Love Thee"

and "We Together." The bride carried a white prayer book centered with a white orchid. For her maid of honor, Elizabeth Ann asked her sister, Joan, who wore a gown of yellow faille, carrying a bouquet of bronze mums and wearing a crown of the same flowers in her hair. The bridesmaids, Avis Zander and Jean Zander, chose gowns identical to that of the maid of honor, Avis wearing diaphanet while Jean wore electric blue. Both girls carried bouquets of yellow baby mums and crowns of the same flowers in their hair. Little Patsy Stone assisted her sister as flower girl and wore a gown of ivory faille with matching bonnet and carried a basket of gladioli and fern.

Duties of the best man were performed by the bridegroom's brother, Warren Mason, and the ushers were Bruce MacGregor and Douglas Phillips. For her daughter's wedding Mrs. Stone chose a dress of soldier blue with matching accessories and a corsage of orchids. Mrs. Mason, mother of the bridegroom, was attired in wine with rose accessories and an orchid corsage.

Following the ceremony a reception for 150 guests was held in the church parlors. Guests were present from Chicago, Illinois, Cleveland, Ohio, Detroit, Plymouth and Livonia.

For her honeymoon in northern Michigan Mrs. Mason wore a grey dress with matching accessories and the orchid from her prayer book. Following their trip of a week they will return to Plymouth and will reside on Wing street. Both young people are graduates of Plymouth High school.

# Hints For Plymouth Homemakers

## Here's Three Ways to Serve Sweet Potatoes With Fall Menus

It's time to give sweet potatoes a good play in early fall menus. Those coming into market now are fresh from the fields so the prices are lower than ones which appear later because no processing is necessary for those not put into storage. There's quite a difference in the flavor and texture of different varieties of sweet potatoes. Homemakers whose families like them dry and mealy should choose those light yellow in color. The ones whose skin are dark yellow to orange are moist, and usually quite sweet.

The presence of dark spots on the sweet potatoes and wrinkled ends warn thrifty shoppers of poor quality. Even when the obviously bad spots are removed an "off" flavor is more than likely to remain.

These early sweet potatoes are poor keepers so it's wise to buy only as many as you can use within a few days. One pound of the vegetable will make three or four servings. Be sure to allow for second helpings when you figure the quantity needed for dinner.

Because cooking in the skins is usually the first step in the preparation of almost all sweet potato dishes, it's best to pick out those of approximately the same size so they'll cook evenly. Medium size ones are preferred by most experienced cooks because they become tender all through before getting mushy on the outside.

Sweet potatoes are as rich in food value as they are in flavor,

offering far more than just energy-giving starch. Like all deep yellow vegetables they're tops for vitamin A which helps to build resistance to infections, keeps the skin and glands in healthy condition and helps our eyes adjust properly to change from light to dark.

One small sweet potato supplies about one-fourth of the amount of vitamin C required daily; that is, providing it is cooked as quickly, as possible in a minimum amount of water, unpeeled. Add to their credit small amounts of the important B-vitamins as well as calcium and iron, and they make a respectable showing among the foods important to good health.

And best of all they'll be eaten with relish, whether they're served as a vegetable, a main dish, or a dessert. The recipes below suggest varied uses for them.

### SCALLOPED SWEET POTATOES AND HAM

Place alternate layers of sliced, cooked sweet potatoes and diced, cooked ham on a greased baking dish, ending with sweet potatoes. Sprinkle the sweet potatoes with a little salt and dot with butter or fortified margarine. Add just enough hot water to cover bottom of the dish. Cover casserole. Bake in moderately hot oven, 375 degrees F., for about 25 minutes, removing cover from the dish for the last 10 minutes to brown.

### SWEET POTATO PUFFS

Four medium-size sweet potatoes (1 1/2 lb.), 1/4 teaspoon cinnamon (optional), 2 tablespoons milk, 2 tablespoons salad oil or melted shortening, 1 teaspoon salt, 1 medium-size tart apple (1/2 cup chopped), 1 egg white, beaten to soft peaks, 1 cup corn flakes, salad oil or shortening for deep-frying.

Scrub sweet potatoes, barely cover with boiling water, cover, boil until tender. Drain, peel and mash. Makes about 2 cups. Stir in cinnamon and milk, then add oil or melted shortening, salt and apple; mix thoroughly. Drop by tablespoonfuls onto corn flakes and roll lightly to cover surface. Lower puffs into fat heated to 375 degrees F. (hot enough to brown a 1/4 inch cube of day-old bread in 30 seconds). Fry about 1 minute until golden brown. Drain on absorbent paper, keep warm. Makes 20 puffs.

### SWEET POTATO PONE

Four cups uncooked sweet potato, 1 cup brown sugar, 1 cup molasses, 1/2 cup butter, 1 teaspoon ginger, 1/2 teaspoon cinnamon, 1/2 teaspoon allspice, 1/2 teaspoon salt, 1/4 teaspoon cloves, 1 teaspoon grated orange rind. Combine ingredients and mix thoroughly, transfer to greased, shallow pans or skillets and bake in a slow oven (300 degrees F.) for about 2 hours. Serve hot with Hard Sauce or cold with whipped cream. Serves 6 to 8.

**SMART HOMEMAKERS** will be serving soups on cold days when appetites are hard to satisfy unless you have something hot and substantial to serve like soup. Make them the easy way for best results:

Cooking soup at high temperature is wasteful since it causes the soup to evaporate and also causes the protein in the meat to coagulate and come to the top in the form of brownish scum which must be skimmed off.

Soup stock can spoil very quickly unless it is cooled rapidly and

**RECIPE OF THE WEEK**  
**Pear-Apple Jam**  
2 cups diced pears  
2 cups diced tart apples  
1/4 cup lemon juice  
3 1/2 cups sugar  
Grated rind of 1/2 lemon  
Wash, peel and dice pears and apples. Mix all ingredients together. Boil mixture until it is thick and clear, about 25 minutes, stirring frequently. Pour into hot, sterile jars and seal.

stored in a cool place. On a cold day, an ideal way to cool it is to set it out on the back porch.

If you want to remove the fat from the stock, it's easier to wait until the soup cools, and the fat forms in a solid layer on top.

To clarify soup stock, let it cool first. Then mix with beaten egg white and the crumbled shell. Heat slowly to boiling point, stirring constantly. As egg white coagulates, it will collect fine particles. Strain the soup through cheesecloth.

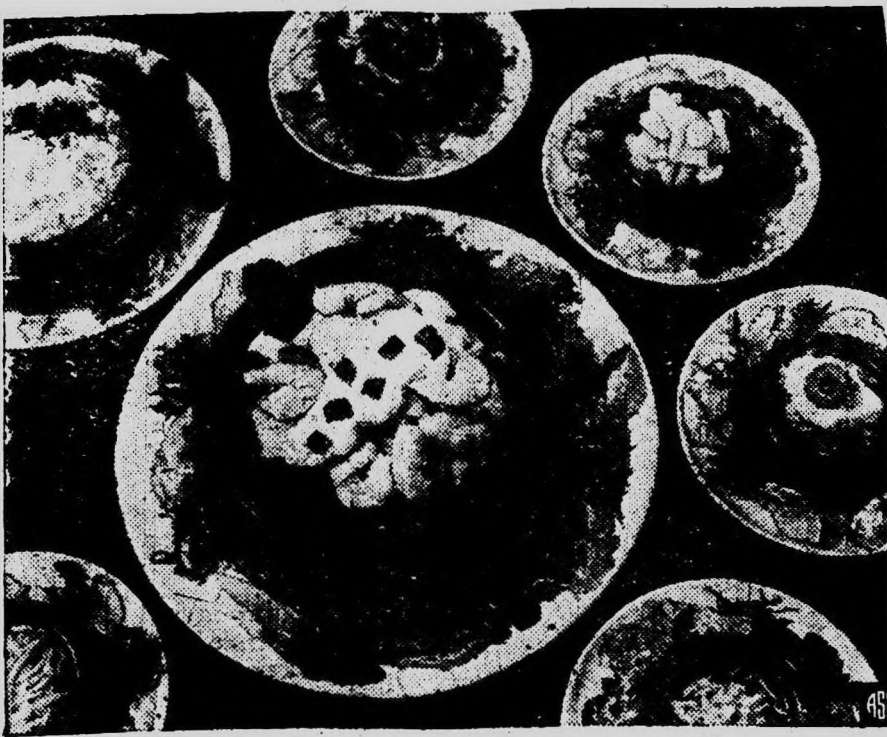

Even after soup is cooked, nutrient remains in the meat on the soup bone. This meat is fine to use in making hash, croquettes, scalloped dishes, in stuffed green peppers or sandwich spreads.

White soup stock is made from knuckle of veal. Cook this with salt and water and add small amounts of diced onion, celery, a bay leaf and a bit of sliced lemon. These foods may be chopped and sprinkled on top to garnish cream soups: parsley, watercress, cooked bacon, cooked egg white, cooked egg yolk or cubed toast pieces.

Eggs taken out of the refrigerator and warmed to room temperature will give better volume when beaten. If whites and yolks are to be separated, do that when the eggs are still chilled because they will separate more easily. Do not beat until you are ready to add the eggs to the recipe, says Lois Jackson, Michigan State college home economist.

## Ever Try Tomato Aspic?

Party-looking but one of the simplest of all main dishes to make is **EASY TOMATO ASPIC**, a delicious result of gel-cookery. Two major ingredients—unflavored gelatine and tomato juice—with spices are all that's needed for these thrifty yet glamorous rings made and varied with this master recipe:

**Easy Tomato Aspic**  
1 envelope unflavored gelatine  
1/2 cup cold tomato juice  
1 1/4 cups hot tomato juice  
1 tablespoon lemon juice  
1 teaspoon grated onion  
1/4 teaspoon salt  
Soften gelatine in cold tomato juice. Add hot tomato juice and stir until gelatine is dissolved. Stir in lemon juice, onion and salt. Pour into 4 individual ring molds or in 1 pint mold. ## Deep Crowns, Soft Felts are Featured in Hats for Fall

The excitement in fall millinery headlines is all on the surface, as rich-looking textured felts and fabrics are artfully manipulated in new silhouettes. Imported velours, melusines and velvets vie with soleil-finished felts, lacquered top-hat plush and ingenious combinations of chenille, wool, ribbon and strip felt. Combinations of smooth and rough or matte-and-mirrored surfaces are effective in a single tone or in contrasting colors.

Deep-fitting crowns are manipulated in softly curving folds, for a suggestion of height, in both brimmed and brimless silhouettes. Straight-forward pillboxes, tricorne, bicorne, toques, turbans and berets, devoid of brims, have a clean, uncluttered look. Bonnets and bretons with gently rolling or puffy, cushioned brims have simple, fitted crowns.

blending smoothly into the brim in an unbroken curve. Swagger "walking hats," with soft crowns and dipping brims, are newly important with town and country tweeds.

Fresh mildew stains may be removed from washable clothing by washing at once with soap and water, then rinsing and drying in the sun.

## New Materials Used for Rugs

Because of their inexpensiveness, other types of floor coverings are being purchased instead of wool rugs.

Soaring costs of carpetwool are given as the reason for the higher prices of wool carpeting. If this upward spiral in raw material continues, and the demand for wool floor coverings remains high, there appears to be little chance that retail prices will drop.

Serviceability, beauty and warmth of wool rugs have kept them on the preferred list but now cotton, linen, rayon and hard surface coverings are becoming popular with many homemakers. Linoleum is being designed with a textured look to look less "kitcheny" than in the past.

Cotton rugs did not disappear with the war but have gained popularity because their lovely colors and textures harmonize with today's casual rooms. Linen rugs in excellent colors are also available in room sizes. These rugs have a flat weave and present a simpler cleaning problem than the shaggy pile of the cottons. Firmly constructed flax rugs are serviceable, too, and the plain or slightly flecked appearance makes them tasteful backgrounds for informal furniture and draperies.

Rayons are being used with other fibers to produce unusual color effects in rug yarns. Nylon carpets are very high at present but are luxurious as the finest wool and very elegant. Nylon has the advantage of not attracting moths.

What the wearing qualities of the new carpets will be in actual use, it is too soon to say. They will have to be tested under ordinary living conditions before the final answer will be known.

**STYLE IN CAKE MAKING**  
Endless creaming of shortening and sugar in making a cake is as out-of-date as the buggy whip.

There is a modern way to mix a cake that is in keeping with the improved ingredients that go into it. Here is a new egg cake recipe using the quick method of mixing.

**Golden Quick Mix Cake**  
Sift together into bowl:  
2 1/4 cups sifted cake flour  
1-1/3 cups sugar  
3 teaspoons baking powder  
1 teaspoon salt  
Add:  
1/2 cup shortening  
1/4 cup milk

Beat with electric beater on medium speed 2 minutes or 300 strokes by hand.  
Add:  
1/4 cup milk  
1 teaspoon vanilla  
2 whole eggs

Beat 2 minutes on medium speed or 300 strokes by hand. Bake in two greased and floured 8" x 1 1/2" round layer pans. Tap the pans vigorously several times after filling with batter to work out air bubbles. Bake in moderately hot oven (375° F.) for 30 to 35 minutes. Allow the cake to cool about five minutes before removing it from the pan.

An overhanging edge or a "sad streak" through the center of a cake may be caused by pans that are too shallow. It is important to use a pan one and one-half inches deep for this cake.

**Orange Icing**  
Use a quick uncooked icing flavored with fresh orange juice for the finishing touch to this delicious easy to make cake.

## DALE CARNEGIE

AUTHOR OF "HOW TO STOP WORRYING AND START LIVING"

"Do Unto Others . . ."

THE FOLLOWING STORY originated a number of years ago, and Oliver Simms, New York City, says he has had ample time to prove the benefit of what he learned.

He had been given the responsibility of directing the work of several men and women. The nature of the work was very exacting; even a small mistake could cause considerable trouble and be the means of creating a good deal of expense for the employer.

Carnegie

He was rather young and, as he says, possibly a bit over-zealous, and since he himself was a conscientious worker, more or less of a "perfectionist," he soon developed into a rather strict man. Everything had to be done just the right way, and invariably the right way was the way he wanted it done. He allowed no leeway. When a mistake occurred, he didn't hesitate to let the perpetrator know how he felt about it and how the company officials would feel about it. He always ended his remarks with "and we don't want it to occur again." Then he went about his own duties with no thought of how it affected the employe.

It wasn't long before he was recognized as a very unpopular person. Naturally!

But, fortunately, it wasn't long either before Oliver Simms realized his lack of popularity. He didn't feel he had a real friend in the place. He was an intelligent man, he knew that no one can work long among a group of people if they are not his friends. He began to take stock of himself. Then he recalled the golden rule. Remember it? In case you don't, here it is: "Do Unto Others as You Would Have Others Do Unto You."

Was he treating his fellow workers the way he would want to be treated? He, too, had made mistakes; he, too, no doubt, would make others, no matter how conscientious he was.

It took a little time to correct the situation he had created but not so long as maybe you would think, for people are quick to respond to kindness, understanding and sympathetic interest.

If you do any driving today, the chances are you will see a new Pontiac before you have gone very far—for more people are driving Pontiacs than ever before.

Take a good long look at the next new Pontiac you see. Some of the reasons why its owner is so proud of his car will be quickly apparent. You can see that Pontiac stands out above all other cars for rare beauty. You can see that Pontiac is a big, luxurious automobile. You can see that Pontiac glides away in traffic and strides smoothly along the open road.

Some things you can't see, but they are there nevertheless. Things like Pontiac's dependability year after year—things like the deep pride and satisfaction of owning and driving this immensely respected automobile—things like Pontiac's real economy. One look is very convincing, but a few miles behind the wheel is the surest way to know that dollar for dollar you can't beat a Pontiac!

### Earns Rifleman's Highest Award

Lawrence R. Mack, 17, of 1157 Penniman avenue won the Distinguished Rifleman's medal it was announced Monday by the National Rifle association, governing body of competitive rifle and pistol shooting for the United States.

Young Mack first took up the target sport five years ago. After a steady climb through the 14 lower rankings, he finally reached the top drawer of the junior shooters—the Distinguished Rifleman's Medal.

Lawrence is the son of Lawrence E. Mack. He is a freshman at the University of Michigan.

In Seattle, the Central Lutheran church bulletin said that while the pastor was on vacation Assistant Pastor Luther Jansen would be "in complete charge of services and pastoral duties."

### Goose Decoys For His "Flock"

Honk! Honk! Honk!!! Honk!!! Honk!!!

Be careful about "honking" when you meet Don Lightfoot in his truck when he is running around town.

One of those goose decoys might jump out and bite you! It seems that Don is one of those kind of hunters who knows what he wants, when he wants it and where he can get it.

The duck season opens Sunday—and Don is a confirmed duck hunter. But he is going after geese this year—the big Canadian fellows that came near landing amid his duck decoys up on Saginaw bay last year.

"If I had five or six geese decoys out there, I surely would have brought home a couple of Canadian honkers but they made up their minds that they didn't want to associate with just some ordinary decoys, so I sent away and got six big goose decoys," explained Don to a couple of questioning duck hunters the other day.

They're beauties—he sent down a few for them, but Mr. Lightfoot isn't the only one who will sail forth on Saginaw bay with something "new" this year.

Russell Powell has outfitted a new fishing boat he had built during the summer that is big enough to be made into a floating island. In addition to a row of cat-tails around the edge, he expects to plant some full grown trees on his new "duck" boat, and made the ducks think it's just a floating island.

Jack Selle has also figured out that he can make the dash between Plymouth and Sebawaing in 72 minutes flat. That will give him 48 minutes more to hunt ducks—he's one of those fellows who does duck hunting by the minutes, it seems.

Floyd Reddeman and his associates don't need any decoys or lures where they hunt up on Thunder Bay river, there's a blind growing right where the ducks land. At any rate it's all "duck" talk from now until deer season time. Then it will be alibi time—(explanations as to why I didn't get my deer).

### "I REMEMBER" BY THE OLD TIMERS

From J. Risor Camryn of Seattle, Wash.: "I remember when we went to the woods for nuts in the fall—mostly black walnuts—and how we prepared them for winter. By removing the hull and pounding them through the proper-sized knot hole or one bored through a plank. Then nailing a cleat on the sloping barn roof, and placing them one by one behind it to dry and cure. And the stained hands we had for a long time afterward. Most of the boys in school had 'em."

From Marie J. Chubb of Chicago: "I remember the good sponge candy we used to buy as children at candy kitchens or in school stores. We paid a penny for a bag. I sure wish I had some now!"

From the Rev. Robert E. Oughton of Kirkwood, Mo.: "I'm not much of an old-timer, but I remember when women used to raise children instead of poodle dogs."

From Mary Stewart of Chicago to Mrs. Minnie Cox: Do you remember: "Won't You Come Over in My Yard," "She's Only a Bird in a Gilded Cage," "Molly, I and the Baby" or "Down Went McGinty to the Bottom of the Sea"? Or the song that began, "Satan is a dandy, he'll feed you on Nick's candy, climbing up the golden stairs?"

Who Runs America? the Congress? the President? OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today —keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- General Federation of Women's Clubs, American Legion, American National Association of Small Business Men, American Farm Bureau Federation, United States Chamber of Commerce, National Grange, Veterans of Foreign Wars, National Association of Retail Grocers, National Conference of Catholic Charities, National Retail Dry Goods Association, American Protestant Hospital Association, American Bar Association

Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudest security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY! Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor.

## Plymouth's Rail Line Junks All Old Fashioned Sleepers

There are no contortionist dressing acts behind green curtains now in the sleeping cars of the Chesapeake and Ohio Railway, Plymouth's east-west, north and south top-rate rail service system.

The Chesapeake and Ohio said today it has replaced all old-style, open-section sleepers in its regular sleeping car lines with brand-new, streamlined all-room sleeping cars. The gentleman traveler who has attempted to tuck his shirt tails into his trousers while lying with his body arched between heels and head in an upper berth and the lady traveler who has wrestled with the problem of getting a girdle lowered in a lower will be glad to hear this.

The Chesapeake and Ohio is believed to be the first railroad in the country, except for two roads with more limited passenger service, the Nickel Plate Road and the Kansas City Southern Railway, to banish the open-section sleepers, sometimes termed "rolling tenements," from its regular sleeping car lines.

Elimination of the open sections on the Chesapeake and Ohio follows delivery of the last of an order of 132 new cars, including coaches and lounges as well as sleepers, built by the Pullman-Standard Car Manufacturing company. The first cars of the order were received six months ago. The new passenger equipment completes a fleet modernization program started by the Chesapeake and Ohio in November, 1946, when the cars were ordered.

In the cars the C & O's own engineers have incorporated features that make travel a voyage of discovery for even veteran rail travelers. All car end doors slide open pneumatically at the touch of a finger instead of the

shove of a shoulder. Occupants of roomettes can stand in the room to wash and dress while the bed is down, and there are no curtains on roomette doors. Each bedroom has its own enclosed toilet and there is a three-panel mirror to make shaving or hairdressing a pleasure. A foot pedal controls the flow of water into wash basins.

In the coaches a mid-car partition eliminates the traditional bowling alley vista of the railroad coach, dividing the car into cozier rooms. The cars are heated by radiant wall panels, and the ride is smoothed out by a variety of shock absorbers designed to smother jolts in any direction.

Although the Chesapeake and Ohio now operates a car fleet second to none, the railroad said operation of its passenger service is now costing considerably less than in recent years, mainly because of savings made through elimination of unused, uneconomical branch-line and secondary trains.

# Roger Babson Says...

**Babson Discusses Our Cities**  
It is an old saying that "every cloud has a silver lining." Certainly, this applies to the bomb scares through which certain big cities are now passing. These scares offer great opportunities to wide-awake small cities.

**What Statistics Show**  
The figures which have come out show clearly that the largest cities have passed the zenith of population growth within their corporate limits. The indications are that many of the cities have had a distinct decline in rate of increase since 1945, while the suburbs are the greatest winners.

**Importance of Decentralization**  
Perhaps the most important factor against the big city and in favor of the small city are the official statements of our government that the best protection against atomic bombs is decentralization. Those placing government orders for vital supplies are giving preference to manufacturers who have several decentralized plants. They strongly recommend to those with only one large city plant, that a supplemental plant be built in some small community a reasonable distance away.

Only a few weeks ago a bill was prepared for submission to Congress for an appropriation of \$150,000,000 to build a temporary "Capitol" about sixty miles from Washington in the hills of Maryland. The plan was tabled by two groups: (1) Senators from the Central West believe that—in an emergency—the Federal Departments now in Washington should be distributed amongst the safe capital cities of the Central Western States which already have the facilities for housing these Departments. (2) The real estate boards of the big cities—especially Washington—strongly oppose any such move for fear of it starting a real estate panic in these big cities.

**What Your City Should Do**  
Certainly, this offers a great opportunity to the Chamber of Commerce of every small city. Don't be content with forming a "Defense Committee." Also form a "Decentralization Committee" to systematically canvass manufacturers with plants in nearby big cities to consider moving to your city, giving them its advantages and opportunities. There are several ways to do this but the most practical is as follows:

Hold a meeting of your business men and ask each firm to supply the secretary of your new "Decentralization Committee" with the names of concerns in large vulnerable cities from which they buy goods. Then have these big city firms allotted to different local businessmen who will be asked to write on their own letterheads to certain big city firms urging them—first to protect their customers by having a plant in some safe small city; and secondly to consider

"our city" for such a plant.

IT IS WELL FOR BIG CITIES TO FORM DEFENSE COMMITTEES; BUT NO SUCH COMMITTEE WILL ADVISE ITS BUSINESS CONCERNS TO MOVE OUT. TRUE DEFENSE DEPENDS UPON THE ACTIVITY OF DECENTRALIZATION COMMITTEES OF THE SMALL AND SAFE CITIES TO URGE SUCH MOVING.

## 4-H Clubs Plan Fire Prevention Study Program

Michigan 4-H club members are inaugurating a forest fire study and prevention program for 1950-51 calculated to rip the seams off the time-worn phrase, "there is a lot of talk but no action."

Aware of the existence of a forest fire problem in Michigan, members have shown an "action" interest in learning the who, why, when, what, where and how. To meet their needs, 4-H club leaders, Michigan State college extension service and the conservation department field administration and forestry divisions have created a two-year project outline.

Specific objectives are to acquaint and give 4-H club members actual experience with the state's forest fire detection system; familiarize them with personnel, organization and purpose of their local conservation district headquarters; acquaint them with over-all conservation department organization; acquaint them with system of public land surveying; aid fire prevention by making and posting fire signs; and brief new members on the forest-fire menace.

Boys from 12 to 20 are eligible to take part in local projects and are required to adhere to rules and regulations set up.

Organization of each group will be along the lines of a regular conservation department field administration district.

## FRANTIC EFFORTS TO SAVE THE DIKE

## Catches State's Biggest Perch

That's right! The biggest perch caught in Michigan this year was landed by a former Plymouth resident, Mrs. Elmer Wieland, who in company with her husband, operates "Elmer's Place" up at Brimley, Michigan on the south shore of Whitefish bay.

The fish was entered in the Detroit Free Press contest. It was caught early in the summer just a short ways off shore from the fishing dock at the Wieland tourist resort.

It weighed two and one fourth pounds, and was 15 and one fourth inches long. The girth of the perch was 13 and three eighths of an inch—plainly a big one. The biggest perch ever caught in Michigan previous to this perch weighed two pounds!

The second prize in the perch class went to a Wyandotte resident, who landed his prize perch in the same place that was fished by Mrs. Wieland.

## Eight Plymouth Students at Alma

Eight students from Plymouth have enrolled at Alma college for the 1950-51 academic school year. They are: seniors—Clarence Hoffman, son of Mr. and Mrs. C. M. Hoffman of 11729 Merriman; sophomores—Richard E. Wylie, son of Mr. and Mrs. Ellis Wylie of 9815 Berwick; freshmen—John Kinner, son of Mr. and Mrs. Ralph Kinner of 9923 Berwick; Nancy Leese, daughter of Mr. and Mrs. Arthur Leese of 11400 Aiden; Worden Worden, son of Mr. and Mrs. Earl Worden of 98841 Merriman; James Whyatt, son of Mr. and Mrs. W. L. Whyatt of 11040 Berwick; John Bachelder, son of Mr. and Mrs. Raymond Bachelder of 157 South Main street and Douglas Phillips of Plymouth.

Canning powders or other chemical preservatives should not be used for home canning because some of them may be harmful. Sterilization by heat is safer and more certain, advise Michigan State college home economists.

## THE STARS

By LYN CONNELLY

WELL, DON McNEILL's popular "Breakfast Club" is on television... We can't help but be a bit disappointed by the results... For years, the attraction of the radio show seemed to lie in the illusion it managed to build in a listener's mind... For that reason it was only natural to assume that here was a show that would be better on TV because it was visual and would satisfy the curiosity of fans... But the marching, the interviews, the impromptu acts seemed to suffer before the cameras...

McNEILL

We're sure that with just a few deft strokes in the right direction the show will become as popular on TV as it was in radio... Certainly it's good, clean, homespun material in the best of taste, but it needs a little more Cowling and is sadly missing wonderful Aunt Fanny... Don is still stiff and unsure of himself but will undoubtedly grow with the show... The one outstanding performer was Johnny Desmond, possibly because he is a television veteran by now... Patsy Lee is pretty and talented but looks uncomfortable, too.

**Comic Frank Fontaine, discovered by Jack Benny last season, now is being wooed by both NBC and CBS for his own show... Al Johnson was the first big-name showbiz personality to tour the Korea area to entertain troops... Many others will follow shortly, among them Bob Hope and possibly Curt Massey and his CBS musical show... Ann Sothern has signed to do 26 more "Nurse" air shows... Willard Waterman, the new "Great Gildersleeve," turned down the role of Walt in "Gasoline Alley."**

## Joe Graydon, Hollywood baritone star, has been offered a dramatic role, no singing, by one of the major film companies... He's listening with interested ears... Hedy Hopper will kick off her new air show shortly... Advance word has it that it's a fine program.
