

## A GREAT CHURCHMAN PASSES.

It was with surprise and regret that we heard the news a few days ago of the death of Dr. John Wirt Dunning in Chicago. It was during the period of his greatest activities that we came to know him well. He was then serving as pastor of one of the great churches of Kalamazoo.

Later he became president of Alma college, retiring a few years ago to devote his time to writing religious publications. He made his home during recent years at Gull Lake, in Kalamazoo county. It is possible that some of the Presbyterians of this locality also knew him, as he served twice as a moderator in that religious organization.

He was the friendly type of pastor, the everyday sort of a citizen who can do so much for a church. But he never confined his activities to strictly church work. In the years ago he could be found active in any effort which had for its purpose a betterment of individual as well as community life. If every person put forth the same effort to help mankind that Dr. Dunning did, this old world would not be facing the problems it does today.

## ADDING TO CONFUSION.

There is only one subject any one hears discussed these days—no matter where you go or what you are doing.

That subject is Washington—and what they are doing in that city. To find a person, Republican or Democrat, who will speak a good word for any of the administration leaders, is just an impossibility.

And to our way of thinking, this is a most deplorable situation. Truman's budget message seemed to add fuel to the fire. The demand to draft teen age boys not yet out of high school for armed services overseas, was like waving a red flag in the face of a fighting bull.

Maybe Truman is right. Maybe Marshall and Mrs. Rosenberg are right. But they've got to do a lot of "selling" to convince the vast majority of people that they are right.

Every one seems anxious and willing to do all they can—willing to make any sacrifice necessary—and how deplorable the situation is when they have not the slightest confidence in what our leaders say and do.

Certainly we have got to change our way of thinking, if we are going to get any place. It would help if some of our so-called leaders in Washington would quit their jobs. It would help if Truman would stop playing cheap ward politics at a time when thousands of American boys are being killed by Asiatic savages. Maybe it would help much more if congress would set up its own control group to take charge of this fearful emergency. Something should be done immediately to create faith in our leadership.

## WHAT THEY DO?

Pity the poor housewife! What will she do now that Arthur Godfrey is going off the air? We praise him for his decision to do what he can for our nation's security. Maybe we had better say, too, he is doing something for the poor husbands of this country. It seems that some two or three hours of the forenoon during five days of the week which were formerly dedicated to housework, have been spent by "busy" housewives listening to Arthur Godfrey. Maybe there will be more and better housework done for a while at least since Godfrey has gone "off the air."

## GRAND RIVER AGAIN.

For the hundreds and hundreds of Plymouth residents who find it necessary to use Grand River in going to downtown Detroit, there is soon to be made another "experiment" by Detroit traffic officers in hopes of cutting driving time down to the heart of the city. They figure out, under the new system to be tried out, that as much as six minutes of driving time can be saved. We hope so.

We hope, too, that sometime in some way Detroit traffic experts will be able to find a solution to the Grand River traffic problem which will last at least 60 days or more. Probably no busy thoroughfare in the country has experienced more "experimenting" than has Grand River.

We, the folks who live in the suburbs of Detroit, are the "guinea pigs" in this experimenting and it is getting rather tiresome to be constantly on the alert watching for some new traffic rules on Grand River. We hope that some day in some way the answer will be found.

## WHAT A TRAGIC THING.

There has been some comment in Detroit newspapers about the abject failure of that city to provide any sort of a place where the young boys of Michigan who have been recruited into the armed forces, can stay or go, while waiting for the train that will take them to a training camp.

A high official of the Michigan Military District, declared the other day: "I wonder how many realize that every day from Fort Wayne, 200 young men leave this big city to join the armed forces."

"Most of them are very young. They come not only from Detroit but from all over Michigan. Sometimes there is a wait for their train. They wander around town uncertainly. There is no place to go. They leave here on their way perhaps to the other side of the earth."

"There are no facilities for them, not even for a cup of coffee. Most of them have never been away from home before. Some of them are taking their first train ride."

That is a pretty heartless way for a great city like Detroit with its vast resources to treat the youngsters who are offering their lives to protect this country from Communism.

## SHOE ON OTHER FOOT FOR DREW PEARSON.

It appears that the "curtain" is near for Drew Pearson, Washington loud-mouth who has slandered people he didn't like right and left. That fearless and highly patriotic newspaper columnist, Westbrook Pegler, has announced that he is out to uncover the real Pearson to the American public—and when Pegler says that, you can make up your mind that there is some tough going ahead for the "radio commentator" who has been so eager to "expose" someone he didn't like or who didn't agree with him.

From what has so far been printed, it would appear that Pegler has the "goods" on Pearson—and that maybe after all this fellow who has used the radio and the newspapers to advance his own ideas of things and at the same time question the honesty of any one who didn't agree with him is about at the end of his rope.

There is one thing about Pegler—when he writes anything, he is dead sure that his statements are facts. And what he will say about Pearson you can make sure will be facts that cannot be disputed.

If Pegler can succeed in driving Pearson off the air and out of the newspapers, he will have performed for the American public one of the greatest services of recent years. We wish him success—and we wish it because we believe that Pearson has over the years rendered to our country a most damaging dis-service.

It just seems that so many folks in Washington say Drew Pearson is a liar, it must be so, judging from the constant flow of accusations. We would use another term for him, however. We'd call it newspaper faking. How under the sun such papers as the Detroit Free Press keep on insulting their readers by publishing his column of personal hates and dislikes we just can't figure out. Ah well, maybe some day they will wake up.

The bonds were authorized by the electors of the district at a special election held December 11.

## Former UAW Head Warns Lions of Red Infiltration

Speaking about the spread of Communism throughout the United States and the entire world, and the infiltration of their agents in our every phase of living, Homer Martin, former UAW president, sounded a grim note of warning to the members of the local Lions club in his address to them last Thursday evening at the Hotel Mayflower.

Mr. Martin stated that the successful placement of agents into positions of influence in our government have been responsible for "traitorous" decisions affecting our country's future that are daily being made in accordance with and by the direction of the Soviet government.

Asserting that he left the UAW 13 years ago rather than become a tool of the Communists, Martin further said that it would be difficult today to find a place of influence in our daily living that was free of Communist prejudice. Quoting Mr. Martin: "They are in our churches and civic organizations, our schools, in radio and newspapers, in our armed forces, and predominantly in our government." He believes the situation is so grave that it may become necessary in the not too distant future, to form an underground movement within this country to combat the Red forces already established here in force.

Joseph Cornfeder, a co-worker of Mr. Martin's, was also present and addressed the club briefly. Mr. Cornfeder professed to be a former member and educator in the Soviet ranks but was forced to flee from Russia when he lost sympathy with their beliefs. He lost a son in his flight whom he has never heard of since. Since coming to this country he has devoted his time and energy to help fight against Communism, and has spent considerable time addressing public groups all over the country.

After talking to the Lions, both Mr. Martin and Mr. Cornfeder devoted some time to answering questions directed them by the members of the club. Comparisons of the mode of living of American and Russian families, were discussed freely during which the club learned that the average Russian family lives a deprived and fearsome existence in contrast to the average family here.

Chairman for the 4th Charter anniversary party, George Todd, announced that the annual affair would be held at the Hillside Inn on Saturday evening, February 10. The party will be a dinner-dance honoring Lions wives and members of the State Lions organization as guests. President Al McCloy who succeeded Max Todd last July will preside. Ward Jones and Norman Marquis were also former presidents.

## James Q. du Pont To Address Chamber of Commerce February 1

James Q. du Pont, a great-grandson of the founder of the du Pont company, will speak before the Plymouth Chamber of Commerce at a dinner on Thursday, February 1, at the Hotel Mayflower at 6:30 p.m. His topic, "Pattern for Success," will show that there is no secret for success in business.

Frank Arlen, member of the Chamber of Commerce, has made arrangements for Mr. du Pont's visit to Plymouth. Robert Marsden will introduce the speaker at the dinner.

In advance of his appearance here, Mr. du Pont said that he will explain the "elements which lie at the very core of Du Pont's business philosophy."

Mr. du Pont will develop ten basic points on the "business compass" that has guided Du Pont from a little one-man operation in 1802 to the large enterprise it is today. Nine other elements which contribute to business success will be discussed, with illustrations derived from the 148-year experience of the Du Pont company.

A native of Johnstown, Pennsylvania, and a graduate of the

James Q. du Pont

Massachusetts Institute of Technology, Mr. du Pont has been associated with the Du Pont company for the past 10 years. Although a trained engineer, he has been devoting his entire time since 1946 speaking to groups of employees as well as to organizations and clubs in various parts of the country.

Mr. du Pont now lives in Wilmington, Del., "home" for most of the Du Pont family. He is a son of the late Evan Morgan du Pont and Helen Quinn du Pont, and a nephew of the late T. Coleman du Pont, president of the Du Pont company from 1902 to 1915.

## Goldstein's to Close Out Store

"After the closing-out sale beginning January 25, Mrs. Goldstein and I plan to live in South Haven, Michigan, where we have a branch store," Mr. Goldstein stated, "but after 20 years in Plymouth, I sincerely regret leaving the city."

No announcement was forthcoming on the new occupants of the premises as final details are not completed.

## Primary Set For Feb. 19

Primary elections will be held February 19 for the purpose of nominating a county auditor, it was announced by City Manager Albert Glassford.

The office of three city commissioners, Perry Richwine, Cass S. Hough and Henry Fisher, will expire in April and nominating petitions for these three vacancies are now being circulated. Deadline for filing petitions is 12 noon, January 27.

Hough is ineligible to run for a third term under the recent charter amendment. He was appointed to his first term in the fall of 1949 and was elected to serve a short term last April. Richwine has declined to run again and Fisher was unavailable for comment.

If more than six petitions are filed for the three offices, commission nominees will be voted upon at the primary. Five petitions are now known to be in circulation.

Mrs. Walter Hammond's appointive term as Wayne county supervisor also expires in April and she has indicated that she will run for the office in the coming election. A charter amendment voted in last year makes the supervisor's post an elective one, and not appointive as it has been in previous years. This is the first time a supervisor will be elected. If no more than two nominating petitions are filed Saturday, the nominees will not be put on a primary ballot.

A city constable is also to be elected this spring. The office is now vacant and petitions for the office are available at city hall.

All residents who are not as yet registered must do so by January 30.

## Truck Accident Knocks Out Power

Modern conveniences are seldom appreciated fully until they are withdrawn from us.

This fact was clearly illustrated last Thursday when Plymouth was hit by a partial and temporary power shortage between 10:16 a.m. and 12:30 p.m.

According to Edison company officials, the failure occurred after a truck backing accidentally into a 4800 transmission line pole knocked down a transformer at Ann Arbor trail and Hamilton street. A complete failure was avoided as company linemen hooked up a subsidiary feeder line to serve the city.

City hall fluorescent lights remained glowing although the power radio and volunteer fire siren were paralyzed during the time. Plymouth Mail's production came to a dead halt as all power driven machinery stalled completely. Restaurant customers had to be satisfied with cold coffee as heating equipment cooled. Lights flickered in the Main street business area.

## Local Dentist Leaves for Army

Dr. H. M. Oren, 1398 Penniman avenue, will be working on GI teeth after February 3.

Ordered to San Antonio, Texas, for active duty, Captain Oren is probably the first local dentist affected by the army's present doctor-dentist draft law.

Born and educated in Ewart, Michigan, the 28 year old dentist was trained at the University of Michigan dental school under the army's ASTP program during the last war. After graduation in 1945, Dr. Oren practiced for a time in Grand Rapids and instructed at Michigan's dental school before moving to Plymouth three years ago.

In addition to his practice in the David Whitney building, Detroit, he is a Detroit District Dental society member, director of the porcelain section of the Detroit Clinic club and secretary-treasurer of the Xi Psi Phi dental fraternity Michigan alumni.

After a month of army orientation at San Antonio and subsequent assignment, Captain Oren will be joined by his wife, Mrs. Ruth Oren and nine month old daughter, Nancy Anne.

## Local Agencies Share K-F Funds

Plymouth welfare agencies will benefit to the extent of \$1,160 a year from the \$81,266 pledged to the United Foundation during 1951 by the Kaiser-Frazer corporation and its employees.

The sum accruing to Plymouth represents pledges earmarked for use in the donor's home community. Swelling the figure was a donation by K-F of \$1 for each of the 370 Plymouth residents employed by the corporation.

Of the 61 communities in the Willow Run area sharing in the K-F fund, Detroit received the highest total—\$21,797.50 from contributions by 1570 Detroit employees and the corporation.

Board President Robert O. Wesley stated in welcoming guests, "We of a smaller community have the opportunity of taking part in all community affairs, including our school system. That is why we have invited members of local industry here to learn of the educational advantages offered our children."

The program was planned following the first Business-Indus-

A program of complete athletics including basketball, baseball, softball, badminton and golf is offered to all ages. There are 125 children from ages 5-12 enrolled in the tap, ballet and ballroom classes which are taught one day each week at the school.

### They were equally interested in the congenial and cooperative atmosphere of Plymouth Recreation commission which includes a representative of the city government, board of education and the people of Plymouth.

### Educator Speaks at Woman's Club

Rev. Bathgate is director of religious education for the Presbytery of Detroit. He will speak on life in India and show colored films.

Serving as a background for his talk is Rev. Bathgate's three years of service on the staff of the Allahabad university in India. He was in India at the time of Gandhi's death and witnessed the scattering of his ashes on the Ganges river.

Mrs. Elvin Taylor is program chairman for the day and music will be furnished by Miss Shirley Plant. Hostesses for the meeting are Mrs. Warren Worth, Mrs. Norman Atchison, Mrs. Garnet Baker, Mrs. John Birchall, Mrs. C. H. Buzzard, Mrs. William Clarke, Mrs. Frank Dunn, Mrs. Kenneth Gust, Mrs. Cass Hough and Mrs. Burton Johnson.

### Clothing Burns

### Ann Arbor Road Motors Displays DeSoto.....

The new 1951 DeSoto will be on display Saturday, January 27, at Ann Arbor Road Motors Inc., Plymouth-DeSoto dealers. A multitude of changes have completely transformed the new DeSoto line and brought distinctive exterior and interior styling, more riding comfort and convenience, safety features and increased power from a larger engine.

Raymond Highfield, son of Mrs. Stanford Bess, was awarded eight free flying lessons in the Winged Spartans contest at Michigan State college. The Winged Spartans is a fraternal organization for the advanced R.O.T.C. students. Allyn Williams of Adams street was also awarded a prize in the contest.

### Stamp Project Aids Veterans

Want to make a hospitalized GI happy? Then send your stamps, any variety of stamps — American stamps, foreign stamps, revenue stamps, stamps from old legal papers, Red Cross seals, Christmas seals, hunting license stamps, in fact just any old kind at all will do — to Mrs. Bruce Woodbury, 1462 Sheridan, Plymouth. Mrs. Woodbury is a member of the Veterans Stamp committee which will forward them to veterans hospitals.

This national clearing house system for GI stamp collectors began several years ago. Frank Ruhl, a collector for 40 years, decided to assist hospitalized veterans with their collections after visiting a wounded friend. So he wrote various corporations imploring their aid in his project. The response was immediate. Everything from office equipment to bundles of stamps flooded Ruhl's home. Twenty friends were added to his voluntary staff. Soon the organization assumed national scope backed by the American Legion, the VFW and the Veterans administration. Today the committee handles 200,000 stamps monthly.

Sole compensation for Ruhl and the committee is the knowledge they are contributing to the happiness of hospitalized vets. Mrs. Woodbury asks that Plymouth residents send her any and all kinds of stamps. She will package them and forward them to the committee's central office in St. Clair Shores and they will then be sent to veterans hospitals needing them.

### Here's Where Your Tax Money Goes

Taxes — where do they come from, where do they go? These and many other Plymouth tax questions are fully answered in the annual statement issued by the city manager's office and distributed to city residents over the weekend.

For instance in 1950 Plymouth received \$293,122 in taxes. Of this total, city taxes furnished 59 per cent or \$165,441.00. In other words about 42 cents of each dollar spent on municipal services comes from sources other than property taxes. Out of every dollar received, the city treasurer distributes 18 cents to the county, 42 cents to the school district with the remaining 40 cents used for city operations.

Public services as police and fire protection, street and lighting maintenance, garbage collection and disposal, pensions, parks, to mention a few cost the average Plymouth home owner \$3.62 a month or 12 cents daily.

### Appoint Dept. Heads at Burroughs Plant

### Hold Funeral for Clyde Metsger

Clyde Logan Metsger, a resident of Livonia for the past 23 years, passed away suddenly early Monday morning, January 22, at the age of 66 years at his home, 9809 Blackburn in Rosedale Gardens. Mr. Metsger was a member of the Immanuel Presbyterian church of Detroit for 30 years and acted on the Board of Elders for over 20 years. He was also a member of St. John's Lodge No. 25 F. & A. M. of Omaha, Neb., and member of the Monroe Chapter of Detroit. Mr. Metsger was formerly employed by the Detroit Edison company and Holcraft and company of Detroit.

Surviving are his widow, Mrs. Lena Metsger; his daughter, Mrs. Dorothy Naas of Carlton, Mich.; his son, Dean S. Metsger of Detroit; one brother, Byron Metsger of Clairton, Pa.; also three grandchildren, Nancy and Nina Naas and Scott Metsger, and other relatives.

Mr. Metsger was brought to the Schrader Funeral home and later taken to the Immanuel Presbyterian church in Detroit where funeral services were held Wednesday, January 24, at 1:30 p.m. with the Rev. Henry H. Heerschap officiating. Interment was in Acacia Park cemetery, Birmingham, Michigan.

Uncorking the News

A joint Congressional committee has been established to study cloud nucleation and to keep every Tom, Dick and Eggbert from making rain. This is bound to be a cloudy issue. Ever since it was discovered that man could stimulate the umbrella business by seeding a skyful of cumulus, rainmakers have been keeping old Jupiter Pluvius busier than a chaparral at a week-end house party. The Congressmen are afraid that the drizzle business is getting out of hand like a bar of soap in the shower. They want to control it so that into each life a little rain may fall on regular schedule.

Teenager Gets Appetite Back; Thanks Hadacol

HADACOL Supplies Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron Which Her System Lacked.

According to Sara Loraine Beck, Box 253, Coker, Alabama, when a person is only 15 years old and feels terrible, can't eat or sleep the way they should, it's mighty bad. That is the way Loraine says she used to feel, but that was, of course, before she started taking HADACOL. Loraine found that taking HADACOL helped her system overcome deficiencies in Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, which HADACOL contains.

Here is Loraine Beck's own statement: "I was run-down, sick and skinny, and weighed only 90 pounds before I used HADACOL. I would not eat because I had no appetite. Now I weigh 123 pounds and have an appetite. I feel a lot better. I have been taking HADACOL 10 months and am still taking it. I am 15 years old. HADACOL has done me lots of good."

# Hints For Plymouth Homemakers

## Nylon Fabrics Prominent In New Draperies And Upholstery

They make fabric, nylon, has entered your home to become an exciting part of your modern-day life.

Inherently strong and durable, nylon yarn provides home decorators with a fabric that withstands heat, treatment and drastically reduces the need for costly replacements.

Nylon can be utilized for almost everything in your living room. Draperies, window curtains, upholstery, carpeting and lampshades, all available in a wide variety of color-matching nylon weaves.

Nylon goes with off as an interesting feature for draperies. Made with a mixture of spun and continuous filament yarns, this nylon weaves has a soft, fuzzy surface, somewhat similar to antique satin and is available in a variety of scenic and floral prints.

There are also draperies of nylon and organdy drapes to be had for drapery use.

Design patterns in bold, rounded, relief and plain have sounds and now on hand in nylon carpeting. Sheer in color, a line of nylon, blending with a variety of colors, blue, green and blue.

A nylon revolution in upholstery.

combines practical qualities with a luxurious appearance. It has superior resistance to wrinkling and crushing, and tests show that water runs off its surface.

Also new for upholstery fabrics is a spun nylon fringe weave in a plain gros point effect for sectional modern sofa units and the same fabric with a patterned scroll in self color for traditional sofas.

Extensive use is also being made. Decorators report, of nylon slipcovers. Homemakers find the slipcovers simple to wash, for example, even after young boys smudge them.

Nylon taffeta used for lampshades and drapery linings is still another way to promise extra long wear to your living room furnishings.

**Wood Replaced Steel in Last War**

World War II placed big demands on the lumber industry. Metals were in critical supply; they had to be replaced by wood wherever it could be adapted.

From the kitchen to the antenna, from the airplane fuselage to the automobile, other items were manufactured from wood.

### HOW TO PAN-BROIL STEAK

There is a difference between frying and pan-broiling. Pan-broiling means to cook in a skillet without adding fat. It is a special way to cook tender steaks without using the oven broiler.

The pan may be greased very lightly if the meat has little or no fat such as cubed beef steak.

**Pan-broiled Cube Steaks**

Put a heavy skillet, grease lightly. Cook cubed steak 10 minutes, turning often to brown

each side. Season with salt and pepper and serve at once.

A quick tasty sauce served over the cubed steaks adds glamour to your meal.

**Mustard sauce:** Mix together 4 tablespoons prepared mustard and 5 tablespoons salad dressings. Top pan-broiled cubed steaks and serve at once.

**Easy mushroom gravy:** Remove pan-broiled steaks from skillet and pour 1/2 cup water into pan. Scrape brown from bottom of pan. Add one can cream of mushroom soup. Stir well. Heat and serve over steak.

**Horseradish butter:** Combine three tablespoons prepared horseradish with one-half cup softened butter or margarine. Cream together.

**Sirloin Steak**

Sirloin and porterhouse steak cut less than one-inch thick should be pan-broiled rather than oven-broiled.

Sprinkle the pan rather generously with salt before pan-broiling porterhouse or sirloin steak. The salt keeps the steak from sticking to the pan so that no fat is needed.

**Steak Sauce for Sirloin**

1/4 pound butter  
1/2 teaspoon dry mustard  
1 teaspoon paprika  
1 teaspoon catsup  
1 teaspoon Worcestershire sauce  
2 teaspoons vinegar

Melt butter in saucepan and blend in remaining ingredients. Stir and heat until smooth.

Plymouth hopes to earn the necessary number of points in 1951 to get on the honor roll.

She is still receiving mail from the boys and phone calls from their families in appreciation of the work the auxiliary is doing. A committee of four and five members will be appointed to be on duty at Marquis restaurant on North Main street the mornings that draftees from Plymouth leave for camp. They will serve hot coffee and doughnuts to the boys. Thanks to Norman and Betty Marquis for donating the coffee and the use of their building and also thanks to the volunteers who donate their time to this worthy project.

**FORK SAUSAGE, THE FEATURED STAR**  
By Marie Gifford

No longer the "plain-Jane" of yore, fresh pork sausage emerges in party dress, escorted by a delicious corn casserole to grace mid-winter dinner menus. Let a tempting pork sausage corn casserole add the festive note to late suppers to tempt the winter sport set from their sleds and skates.

Fresh pork sausage is a star attraction any time, any day. A favorite of long standing for breakfasts, its delightful flavor makes it a natural to combine with vegetables and fruits when it's featured at lunch or dinner.

The aroma and appearance of brown, juicy, sizzling sausage make it a natural for perking up jaded appetites. Good to eat and good nutritionally—that's the story of fresh pork sausage. Fresh pork is one of the richest sources of thiamine, or B1, the vitamin so essential to steady nerves, good appetites, and all-around top health. And it's rich in the minerals, phosphorus and iron too.

Choose pork sausage with care. Ask for it by brand, so you'll know you're getting 100% pure pork with only carefully selected spices and seasonings added, guaranteed absolutely fresh. It can be purchased in link style, 16 links to the pound, or in one pound cellophane rolls. The cellophane rolls are convenient for slicing into the number of portions you wish to serve. Your patties are ready to cook when you remove the cellophane from the slices. In some communities you may be able to buy it "country style," in one piece that you can cut off in lengths as long as you want. No matter how you buy it, fresh pork sausage is an easy-to-prepare meat full of succulent goodness.

**PORK SAUSAGE CORN CASSEROLE**

Stir until thickened and add corn and green pepper. Put half of crumbs in bottom of baking dish or casserole, add creamed mixture, then most of sausages more creamed mixture, then top with remaining crumbs mixed with 2 tablespoons of the sausage drippings. Add last 4 or 5 sausages to top and bake in 350° oven for 25-30 minutes. 4-5 servings.

## I.O.O.F. News

Tuesday evening, January 16 a goodly number of Brothers turned out for Lodge P. G. Gray gave an interesting talk on the progress made to date on the building. Those of you who haven't been to lodge for some time are urged to come so that you too can appreciate what your building committee, with the help of several of your enthusiastic brothers, have accomplished so far.

Friday, January 19 the concrete floor was poured in the kitchen and ante-room and the cabinet bottoms to the cupboards are nearly all installed. The steel beams and walls of our lodge hall are nearly all painted. The flock petition to the ladies' rest room and regalia room is all laid up.

Brothers your help is badly needed so that faster progress can be made in completing our building also your contributions are needed to help finance this new building. Your pledges may be left at the B. E. Giles real estate office on Fralick avenue.

You are urged to attend lodge as often as possible and help make Tonquish Lodge grow in our fast growing community. All brothers who can please remember to call on Brother P. G. Albert Trunkaus, who is our oldest living member of Tonquish Lodge.

On Monday evening, January 15 the members of the installation team went to Lakeside Lodge at Novi and installed their officers.

Down South With the Ducks and Black Birds  
(And Plymouth Sun Worshipers)

Sure signs of spring are in the air way down south in Florida. While driving along a highway near the Everglades National park the other day, we saw a great big flock of red-winged blackbirds just like you see in Michigan during early October. Black birds, like ducks, geese and some other kinds of birds usually flock together in the early fall just before starting their flights southward. It is apparent they do the same thing down south before starting their flights back to the north. But it will probably be several weeks before they take off for the northlands.

Wrote something a while back pertaining to the infiltration of hoodlums, racketeers and gamblers into legitimate business. What was written was based upon statements made by Senator Kellogg, chairman of the senate crime investigation committee. A few days ago the president of the Miami Crime Commission was a speaker before the Rotary club. He gave names, addresses and crime records of big-time crooks who own and operate legitimate business concerns in Miami. A well-known Detroit hoodlum, he said, is now the owner of a Miami wholesale produce house that provides meats, fruits and other produce to retail merchants in Miami. From the list he revealed to the club these fellows in an effort to establish respectability have entered into almost every line of business. The Miami Rotary club was one of the original sponsors of the Crime Commission of that city.

Speaking of hoodlums, it seems that some of Florida's hick-town officials are not of a much higher-type citizen than are the racketeers now proving to be a real threat to the decent citizenship of this country. These penny-ante money grabbers find some little incorporated four corners along some main trunk line highway and set up a speed trap, where they prey like a lot of vultures on passing motorists. How many thousands of dollars are taken from the pockets of motorists by this speed-trap racket, no one knows, but it must run into the thousands of dollars. Motorists who are not alert to this racket in many parts of Florida are the usual victims. So badly does this thing "smell" that there is a plan under way to get the legislature to revoke the charter of these hick-towns that permit the operations of this legalized racket. Newspapers in Florida openly admit that their state is probably the worst offender in the country in the speed racket business.

Like a ray of sun out of a cold, cloudy sky, Roy Row of Plymouth breezed in and out of town the other day. He landed down here at a time when this part of the country was shivering in one of its cold spells—when the wind sweeps in from the north and you haven't much with you to prevent the goose-pimples from popping out. He said he was so busy back in Plymouth that he would not be able to spend more than 24 hours over on Miami Beach. Then, too, he declared he thought it might not be the best thing for his health to undergo such sudden changes of climate.

Once in a while I drive down to one of the bridges on the Florida Keys to do some fishing. A week or so ago I discovered on my return that the Immigration department apparently deems our national situation so serious that it has set up a road block. Any one traveling the road from the south to the north must stop and provide the alert officers with proper identification as to his citizenship. It is the same procedure you go through when returning from a trip to Canada. It is such an easy matter for some alien to cross over from Cuba to one of the many islands connected by the Key highway that the department has apparently come to the conclusion the time has arrived for more watchfulness than has prevailed in the past. It is only some 50 or 60 miles from some parts of Cuba to the Florida Keys and during most of the time the trip can be safely made even in a small fishing boat.

The immigration blockade has been set up at a point on the road near the mainland and where it would be impossible for one to get by except on the highway. The road in the area of the blockade runs for miles through a snake-infested jungle of reeds and brush that would be almost an impossibility to get through. It is about time that some precautions of this nature were taken.

The more I see and learn about other parts of our country, the more proud I become of our beloved Michigan. While talking with the superintendent of one of Florida's largest hospitals a while ago, I discovered the somewhat surprising fact that Florida does not have a medical school for the education and training of one desiring to enter the medical profession. Florida medical students must go to Georgia or some other state to gain a medical education—and Georgia can accept only seven or eight students each year from Florida. Here is one Michigan taxpayer who has never begrudged paying a tax to help support and develop our famed University of Michigan, or any of its other highly successful institutions of learning. As we see Florida's plight it has had too many public officials of the Claude Penner and Governor Fuller Warren type. But notwithstanding its hardships, Florida apparently is making up to the remarkable nature that can come to the state through a higher type and more honest administration of public affairs by its public officials.

Go See It.. For an Inspiration!

You ought to go see the new Cadillac. You ought to walk all around it and look at it from every angle—and you ought to open the door and get in and sit down.

You ought to slide over behind the wheel and look out over that jewel-like dash into the exciting beyond.

And you ought to do this, whatever the car you own today—and whatever the car you expect to own.

For it will lift up your spirits and add to your faith in America's industrial enterprise and productive ingenuity.

You look at those beautiful, flowing lines—and you can't escape the conviction that America's industrial artistry in metals is unsurpassed in all the world.

You look at the fabrics that tailor the seats and cushions—and you realize that America's manufacturing genius is unapproached for bringing luxury into everyday life.

You look at the flawless execution of every structural detail—and you have the comforting feeling that America's industrial craft-man-ship is in a class by itself.

But your greatest inspiration is yet to come.

You ask the price of the lowest priced Cadillac model—and you find that it's easily within the means of hundreds of thousands of American families.

Where else, in all the world—you ask yourself—could there be such a blending of luxury and practicality?

And the answer, of course, is—"nowhere." It's strictly an American "monopoly."

Yes, here is the new standard for the automotive world. It is new in beauty, in comfort, in luxury and in performance.

So come see it soon—and come with your hopes high.

**Roger Babson Says --**

**Babson Discusses Stocks**  
 Babson Park, Mass., January 26.—Have just telephoned an important brokerage house in New York City to ask its opinion on the stock market. The reply was: "We guess the market is finally getting high enough for the public to buy."  
**Look at the Record**  
 The Dow-Jones Industrial Averages struck a high of 381 in 1929; they fell to 41 in 1932; they rose to 194 in 1937; fell again to 93 in 1942; rose again to 212 in 1946, from which they declined until a few months ago. They are now around 245, the high for 20 years; but this statement applies to only 30 stocks out of over 1,000 stocks. Many good stocks are now selling for less than they did in 1946, or earlier. Many people say: "All stocks have gone up except those which I hold. What is the reason?" The truth is just the reverse of this. Only a very few stocks are selling at their "20-year highs."  
 All the above causes the wisest investors to be neither bullish nor bearish just now. They believe stocks are good for income, but not for speculation. The stock market is very selective and the war outlook is very uncertain—either way. We are now doing right to prepare actively for World War III. But it may not come for years. Our hurried preparations may be useless.  
**What Mr. Hoover Believes**  
 Mr. Hoover apparently believes that, unless there is a revolution in Russia, all of Europe—war or no war—may, for a period of years, try communism and that no War III can prevent it. He also thinks that the Russians now have no intention of striking North or South America unless we attack Russia. He believes we should now avoid war and concentrate on strengthening the United States militarily, economically and spiritually until the Europeans unite and show an enthusiasm to fight communism. Under this Hoover Policy our markets should hold up.

If we should get into war with Russia and one or more of our cities are bombed, the Stock Exchange would be closed to prevent financial panic. Everything—securities, commodities, rents, banks and wages—would be frozen. We would be ruled by a dictator and stocks would go down. Those who expect war should not buy stocks—certainly not unless they are very carefully selected by experts. Inflation, however, should help a few stocks.  
**Stocks vs. Homes**  
 Certainly, anyone who does not own a house and an acre of land in a safe country village, should make such his first investment—war or no war. Many such places—well located, with water, fuel and neighbors—can be purchased today for one-third what it would cost to build them. I'm not advising their purchase for immediate occupancy; but for insurance and security.  
 Next, keep healthy, have a good bank account and a job which will give you a living. If you are dependent partly on investment income, then buy a very broad list of 30 stocks which have paid dividends for many years and which should give you about 5 percent. If your local bank is unable to supply you with such a list, the bank can send to me at 270 Washington Street, Wellesley Hills, Massachusetts, and I will freely send such a list to the bank for you.

 On the same evening instruction will be given in ceramics, stressing principles of clay modeling, glazing and kiln firing as applied to ceramic jewelry, figurines and pottery.

**You can pay more... but you can't buy better**

... than the '51 Ford  
 with new FORDOMATIC\* DRIVE  
 and 43 "Look Ahead" features

Built with an eye to the future, this '51 Ford is the buy for the future... with 43 new "Look Ahead" features that will keep it looking, acting, and feeling young for years ahead. A few of those long-life features are explained at right.

**FORDOMATIC DRIVE**

- The newest automatic drive
- The smoothest and most flexible
- Cuts 92% of your driving motions!
- Takes off "like a jet"
- You're always boss!

**AUTOMATIC MILEAGE MAKER**  
 It's a magic brain that gives you high compression performance with regular gas, better mileage with any gas. New Waterproof Ignition System.

**NEW DOUBLE-SEAL KING-SIZE BRAKES**  
 A touch of your toe, and you stop straight and sure. They're double sealed against the weather to prevent moisture-binding, too.

**NEW AUTOMATIC POSTURE CONTROL**  
 Front seat moves forward automatically at the touch of a lever. At the same time height and angle are adjusted for correct posture.

**NEW "MAGIC LIFT" DECK LID**  
 Just turn the key and the rear deck springs open. No effort required to lift it or close it. And for room, no other low-priced car can match Ford's deep-deck luggage locker.
