Seven-Year-Old Uses Head to Fix Faulty Faucet

Hot water was gushing out of the kitchen faucet! Seven-year-old Douglas J. Balfour was home alone. What could a little boy in that predicament do?

The little boy could have done quite a few different things. He could have sat down and cried, or gone screaming over to a neighbor's house. Or Douglas might have tried to "fix" the plumbing himself—and perhaps make the situation worse.

Another course of action would have been just to let the faucet alone and wait for mother to come home from a conference at school. But Douglas didn't do any of these things. He couldn't read the telephone book, so he called information.

First he tried to reach his mother, but the line was busy. Then Douglas called information for a list of plumber's telephone numbers. He went down the line and the third man on the list came over.

The plumber brought his tools and was very amazed to discover a seven-year-old had called him. But Douglas's mother was more surprised to find a plumber busily at work in the kitchen with her tiny son supervising and the situation well in hand.

Douglas worriedly asked his mother, Mrs. H. C. Balfour, "Do you think it will cost over \$10?" You see he thought it was all his fault. "If it is over \$10, Daddy can take it out of my allowance," the boy continued.

Mrs. Balfour assured her little boy that it was not his fault and commended him for his quick thinking and resourceful action. Praises also came from Dr. Balfour who showed his son how to turn the water off down in the basement.

Military leaders have made greater decisions and government officials must decide upon difficult and complicated problems, but no one could have used clearer thinking and quick action than seven-year-old Douglas Balfour.

BIRTHS

Mr. and Mrs. Harold Schultz of Starkweather avenue announce the birth of a 6 pound, 4 ounce baby girl on April 29 at Mt. Carmel hospital in Detroit. The new arrival has been named Debra Lynn.

Mr. and Mrs. Raymond Daniel of Elmhurst street announce the birth of a baby boy, Wesley Leo, on Saturday, April 21 at Sessions hospital. He weighed 7 pounds, 12 ounces.

by Carl Peterson

As the feller sez: "There's a time for talkin' and a time for actin'." Today we're going to do some serious talkin' in the hope that we can promote a little action on a problem that affects us all — every man, woman and child of us in Plymouth. Yep... we're mighty serious about the need for a hospital in Plymouth. And we think the proposed project deserves EVERYBODY'S support.

As City Health Officer, Dr. Ray R. Barber pointed out... the population of Plymouth has increased greatly in the past few years... and from all indications it's going to go on in an upward direction. As the population increases... the need for a hospital of our own... in or near Plymouth... also increases. Right now it's necessary to go as far as 20 miles for hospital care. That's too far... and it might lead to a tragedy all of us will regret some of these days.

It's your problem... and everybody's problem. So don't let somebody else take care of it. If you belong to an organization... talk up the problem... get people interested in it. And if you're an individual with no organization backing... get in touch with the hospital committee of the Chamber of Commerce. Tell 'em you want to help. Let's all get together on this important issue. And what's more important... let's DO SOMETHING ABOUT IT. I'll be glad to talk it over with you anytime... at PETERSON DRUG, 840 W. Ann Arbor Trail. Phone: 2080.

We heard of a Parent-Teachers organization that is planning a series of courses for parents. The theory in back of it is that just bringing children into the world doesn't make you a good parent. That makes as much sense as an adding machine. Too many parents feel the schools and churches ought to carry the load when it comes to turning out good citizens... but nothing takes the place of family training. The PTA wants to help parents to know how to handle their end of the job. If we ever needed good citizens, now's the time... and the place to start is right at home.

Our forefathers licked the Redskins and redcoats to give us our America. We won't let the Reds destroy it.

The other day the government in Washington ordered the rationing of sulphuric acid. Now, if we could only ration a few of the acid speeches, it might help. We can help you with your Mother's Day gift problems. Yep... we're stocked to the ceiling with fine cosmetics, toiletries and sundries that Mom will go for. Come in now and make your selections. We can fit the gift to the budget and really please at PETERSON DRUG, 840 W. Ann Arbor Trail. Phone 2080.

WHAT I THINK AND HAVE A RIGHT TO SAY

(Continued from page 1)

convictions about the proper location of any public institution. The first and most important point involves the accessibility to the place. Next come a safe and good water supply — then availability of additional medical assistance and advice. Kalamazoo possesses all of these.

We commend the state officials for their good judgment on finally deciding that the new tuberculosis hospital should be constructed in the vicinity of Kalamazoo. It is the right location for such an institution in that part of the state.

GRASS ROOTS RESPONSIBILITY.

In a recent issue of the Christian Science Monitor, one of the great newspapers of this country, there recently appeared an editorial pertaining to the investigations conducted by two senate committees. It suggested that the public should not permit these startling revelations to go without some further action—that the public should insist upon drastic and proper action.

It continues: "The investigations should be continued and criminal prosecution should be based on all evidence turned up by them."

"We can understand why such able and upright men as Senators Fulbright and Aiken believe the Fulbright committee could not get far with an inquiry into the 'ethics and morals' of congressmen. Quite possibly a non-partisan, non-congressional commission would be in a better position to uncover questionable activities by congressmen. But we don't understand a second objection attributed to Senator Aiken: 'It also would cast a reflection upon the Congress and more so on the people who elect them.'"

"The Boston Herald's headline over the Associated Press report contained a wry editorial comment: 'After All, You've Got to Stop Somewhere.' True, you can't investigate the citizenry at large. However, for Congress to put businessmen and administrative officials on the grill but let the fire go out as soon as it turns toward themselves leaves an ugly impression. If reflections would be cast, there must be something to cast them—something that should be shown up. And we don't see why congressmen should be immune—or the people who elect them."

"As a matter of fact, the people who elect them might well take the whole business to heart. For only if they do is there much hope of thoroughgoing reform. The leadership should come from the President and Congress. President Truman could change the whole moral atmosphere of Washington by showing himself more loyal to the general welfare than to personal cronies. But he displays no disposition to do it."

"Congress has taken useful steps with the Fulbright and Kefauver investigations. But as soon as the RFC lines began to run toward Congress that hunt cooled off. Apparently only if the people insist will either the President or Congress follow through."

"Senator Aiken's recognition that reflections for wrongdoing in Washington ultimately fall on the people merits our attention. It is an axiom of political science that a nation 'gets the kind of government it deserves.' Laxity and corruption may flower in national or state capitals. But they start back among the grass roots. Most of the crime the Kefauver committee has uncovered is protected by local politicians—and the 'people who elected them.'"

"Let's keep the spotlight on Washington. Let's demand reform from the top. But let us not forget the bottom—the grass roots, which are close to us and which we can most effectively reach. Most of the trouble in Washington has a direct connection with local politics or business. The clean up we want in Washington can start right at the grass roots—with a moral awakening of all citizens to demand high standards for themselves and their government."

WORTH THINKING ABOUT.

Have been quite surprised by the favorable comment pertaining to the editorial paragraph published last week in which the suggestion was made in half jest that Plymouth township annex the city of Plymouth. We assume that this surprisingly favorable comment is due to the fact that Plymouth township over a long period of years has been most fortunate in having as its officials some high type, substantial and clear thinking citizens who have done an amazingly good job in conducting the affairs of the township. While the city of Plymouth has had many good men on its commission during the years, they faced a most unfortunate and an almost impossible situation which made harmonious action on almost any question unattainable. But that fortunately, is all in the past. There is however the important question of proper expansion for the city. It is a question that requires much consideration in reaching a solution.

A LESSON IN SOCIALISM.

There has come to the attention of the writer a letter written sometime ago by a teacher of economics and history in the Yonkers, New York high school. There is so much common sense in it that the letter is being republished in full, as follows:

"As a teacher in the public school, I find that the socialist-communist idea of taking 'from each according to his ability, and giving to each according to his need' is now generally accepted without question by most of our pupils. In an effort to explain the fallacy in this theory, I sometimes try this approach with my pupils:

"When one of the brighter or harder-working pupils makes a grade of 95 on a test, I suggest that I take away 20 points and give them to a student who has made only 55 points on his test. Thus each would contribute according to his ability and—since both would have a passing mark—each would receive according to his need. After I have juggled the grades of all the other pupils in this fashion, the result is usually a 'common ownership' grade of between 75 and 80—the minimum needed for passing, or for survival. Then I speculate with the pupils as to the probable results if I actually used the socialistic theory for grading papers.

"First, the highly productive pupils—and they are always a minority in school as well as in life—would soon lose all incentive for producing. Why strive to make a high grade if part of it is taken from you by 'authority' and given to someone else?

"Second, the less productive pupils—a majority in school as elsewhere—would, for a time, be relieved of the necessity to study or to produce. This socialist-communist system would continue until the high producers had sunk—or had been driven down—to the level of the low producers. At that point, in order for anyone to survive, the 'authority' would have no alternative but to begin a system of compulsory labor and punishments against even the low producers. They, of course, would then complain bitterly, but without understanding.

"Finally I return the discussion to the ideas of freedom and enterprise—the market economy—where each person has freedom of choice, and is responsible for his own decisions and welfare.

"Gratifyingly enough, most of my pupils then understand what I mean when I explain that socialism—even in a democracy—will eventually result in a living-death for all except the 'authorities' and a few of their favorite lackeys."

Letters Continue to Urge Action on Proposed Hospital

(Continued from page 1)

In reply to the circular letter regarding the hospital facilities in Plymouth, may I say that the need for improvement is so obvious as to make comment unnecessary.

The present hospital is not large enough to adequately serve the city proper. The tremendous industrial development now taking place in and around Plymouth is certain to further increase the need for a modern hospital. If a 50 bed hospital was started now, we might find upon its completion that it to would be inadequate.

In view of the fact that Plymouth does not have enough doctors, let me point out that it is time consuming for them to take most of their patients to hospitals elsewhere. With a modern hospital here they could serve the community better.

(Signed: Peter Christensen)

It was recently Sergeant Harry E. Donohue's turn for a five day leave in Japan from the Korean battle front. Sergeant Donohue is with the 17th Infantry Regiment, or the Buffaloes as the unit is known.

Every man in the unit is given a leave to rest and relax in Japan.

Sergeant Donohue, 29, is the husband of Mrs. Anita Donohue, 719 Kollong street, and his parents, Mr. and Mrs. Ernest Donohue reside at 683 Kollong street.

The Buffaloes led the United Nations advance to the Manchurian Border after making an amphibious landing at Iwon. Pushing forward on the East Central front recently, the 17th Infantry

Regiment wiped out numerous enemy strong points.

Pfc. Bruce Willard of Arlington, Virginia has been spending a ten day leave with his parents, Mr. and Mrs. Frank Willard on Junction avenue.

Edward Klinski, Jr., son of Mr. and Mrs. Edward Klinski of Joy road is now attending the U.S. Fleet Sonar school in Key West, Florida.

Pvt. James M. Bell, 22, son of Mr. and Mrs. James Bell, 1308 S. Main street, recently was graduated from the Army Supply school conducted by the 3rd Armored Division.

During the eight-week course, Pvt. Bell received intensive training in all levels of Army supply procedures. Instruction in company and station supply methods was coupled with classes in higher echelon supply problems handled by area depots and theater of operations supply centers. Special stress was laid on forms, catalogues and nomenclature with which every Army supply clerk must be familiar.

A graduate of Mackenzie High school, Detroit, Pvt. Bell was employed by the Burroughs Co. He was inducted into the Army last December.

The AF recruits are being prepared for assignment in specialized work.

Howard Ebersole, who flew a big bomber during World War II is now back in the air service and according to information sent to The Plymouth Mail is at present stationed at the Luke Air Force Base near Phoenix, Arizona.

It will be recalled that it was Officer Ebersole who honored The Plymouth Mail by giving the name of this newspaper to one of the last bombers he flew during the raids on Germany.

"The Plymouth Mail" bomber had a spectacular but brief career in the war. It was so badly crippled on one of its raids over Germany that it failed to make its home base in England, and crashed into the English channel. Fortunately members of the crew were able to bail out in time to save their lives.

For Ebersole writes from Luke field that there are several Plymouth boys stationed at that place.

"So far the weather has been wonderful. We are all getting turned up. Doing lots of flying. We hope that they let us stay here as this is a nice assignment and a wonderful place to be," he writes.

Jackson Races Start May 11

"Action at Jackson" will be the theme and the promise of the harness racing meeting at Jackson Raceway again this year, according to Leon A. Slavin, president of Jackson Trotting Association. 26 exciting nights of racing with pari-mutuel wagering will get under way with the inaugural program of eight races going to the post at 8:15 p.m., Friday, May 11. The Jackson Raceway meeting, which will be conducted under the supervision of the Michigan Racing Commission and the United States Trotting Association, will open the 1951 racing season at the track.

"I REMEMBER" BY THE OLDTIMERS

From Mrs. Bert Rizer, Barberton, Ohio: I remember how the pupils in the county school which I attended visited other schools to attend a "literary." We would ride in a bob sled with straw on the floor and kept warm with lap robes. The school house was lighted by kerosene lamps in brackets on the walls with reflectors behind them. The program consisted of dialogues, recitations, and it usually ended with a "spell-down" between the two schools.

From James Black, Ada, Ohio: I remember 60 years ago when father would take me and get my leather boots long about last of November. How sore my feet would be, and not just that, they had to last until April or May. Never got any socks, but boy, was I proud! Could go out to Grass Run and skate. Don't know how many times would break through. Never got a cold, never sick. Dr. Walters gave father quinine powder once awhile.

From Mrs. Henry Adamson, Ishpeming, Mich.: I remember not so long ago in 1900, cream was five cents a pint. No one was fined for speeding. Nobody was ashamed to walk. Vitamin gauges were unknown. Only small boys wore short pants. Nobody was told, "The line is busy." Nobody cared for the price of gasoline. Farmers came to town for their mail. No one had to look for parking place.

From Mrs. Ed Beach, Sparta, Wis.: I remember when Barnum and Bailey's circus headquarters were in Baraboo, Wis. They had taken the big elephant to the portage in the Wisconsin river for a bath. What a time trying to get them out! They just made the big parade which was soon to start.

PERPLEXITY... What's this they're telling me—that monkeys sprang from men?

Iodine in the form of IN-FLAM-GO

a proven wonder product

3 Minutes of Educational Reading

IN-FLAM-GO is iodine with all the poisons and caustics removed. Therefore it can be used in enough quantity to do the good which it has been noted for, without causing irritating and other distressing effects.

Herewith we submit a statement by the Central Laboratories, 312 David Whitney Building, Detroit, Michigan: IN-FLAM-GO contains no artificial coloring assuming the color from the iodine itself. Toxicity—NONE.

IN-FLAM-GO after being rubbed on both humans and white rats showed complete absorption, with no irritating or distressing effects. It also showed no discoloration.

A 12% solution was made with standard Iodine and neutral mineral oils which showed no chemical absorption. Some irritation developed and a yellowish appearance of the skin developed.

WE found IN-FLAM-GO far superior in absorption quality than any other tested. Signed J. A. Wolfe, B. S. Ph. D. Dr. Wm. A. Lane called the world's greatest medical authority on medicine states: "Iodine is an element absolutely necessary for life."

Dr. Carl Ramus M. D., U. S. Public Health Surgeon, states "The Physiological and chemical reasons for the known effects of Iodine are: (1) that it makes the blood more fluid and (2) it tends to dissolve out masses of abnormal deposits left by certain diseases. The greater fluidity imparted to the blood by Iodine, gives better and quicker circulation through the minute blood vessels supplying all tissues with nutrition, and carrying away waste products which, when there is stagnation in the microscopic vessels, tend to irritate tissues and to leave insoluble deposits in their surfaces."

Because of the absorption quality of IN-FLAM-GO we are able to get results through EXTERNAL APPLICATION.

ARTHRITIS, GOUT, VARICOSE VEINS, HARDENING OF THE ARTERIES, RHEUMATISM, ETC., are all related diseases as they are caused by deposits of insoluble organic matter within the system.

It is generally known that Iodine is of help in the relief of these diseases. In the Great Lakes region we lack Iodine in the soil as well as in our drinking water. For that reason these diseases are more prevalent in this territory.

Iodine is also known as a great healer in cases of infection and a killer of viruses. For that reason IN-FLAM-GO is of great help in INFLAMMATION, TONSILLITIS, BURNS, SCALDS, SORE THROAT, IMPETIGO, RING WORM, ECZEMA, SINUS, SPRAINS, BRUISES, GLAND SWELLING, ETC.

For further information and a list of local and Michigan users that are grateful for having been told about this truly remarkable product, see your druggist.

DALE CARNEGIE

AUTHOR OF "HOW TO STOP WORRYING AND START LIVING"

Help Others By Showing Interest

LUCILE NELSON, Atlanta, Georgia, had in her classroom a boy named Owen who openly and avowedly hated school, hated to come among his contemporaries. Lucile was the new third grade teacher who arrived in the middle of the term. She found that Owen stayed home one or two days out of every week. He was eight years old.

Carnegie

Lucile considered him the most important pupil there; he needed her the most. She accepted as a challenge the opportunity to change his point of view. She knew she had to get close to him in order to win, and it's not always easy to get close to an eight year old boy who avoids society. She waited for the opportune moment.

"Owen," she said, "tell me why you dislike school?"

Not looking at her he replied sullenly, "Nobody likes me; nobody plays with me."

"I like you," answered Lucile, "I like you very much, and I am very hurt on the days you stay away. I miss you terribly."

Owen unbent a little; not too much. The habit of many months was not to be broken. But during the rest of the day, he seemed less sullen, less obstinate.

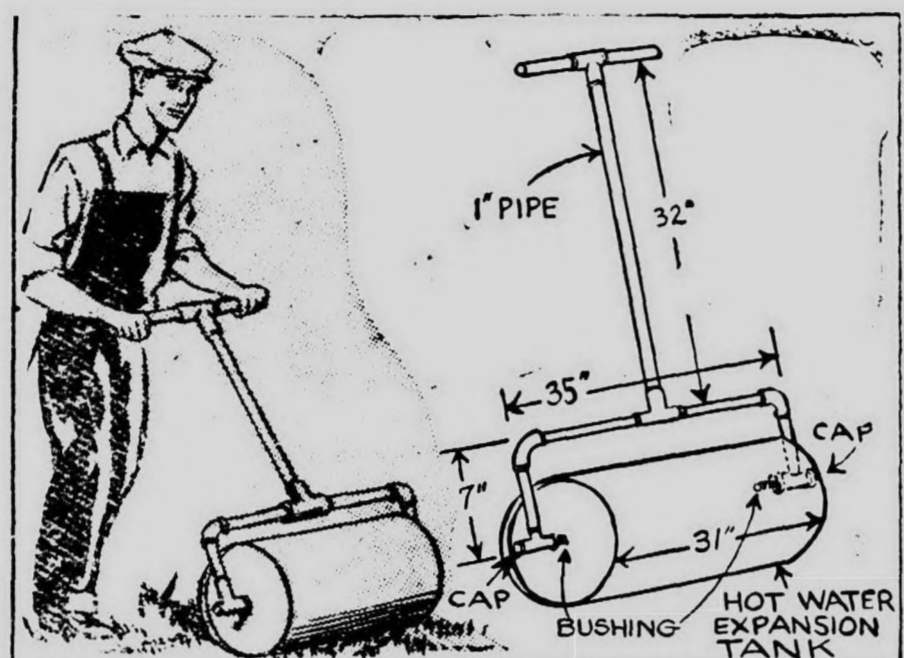

That afternoon, Lucile went home with Owen. She talked to him about everything else than school work, learned his interests. Gradually he unbent, like a flower opening to the sun.

He came from a home where there was little of the good things of life. While talking with his mother it became clear that Owen was suffering from an inferiority complex due to his poverty. He was embarrassed when with children who had more of this world's goods. Now Lucile had something to say to him. There must be a way to see that he took his turn in life. When the small jobs children love to work at in the classroom, she saw to it that he had his turn as captain of the ball team. She herself learned the soft ball rules and became the umpire of their games.

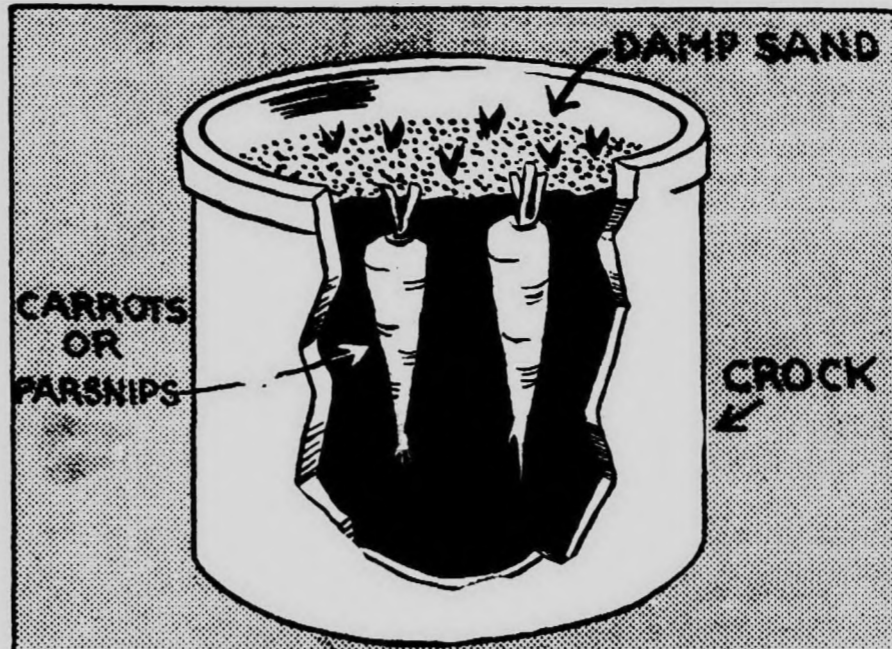

By and by, the principal said, "Since you came, Owen's attendance has been better than it was for two years." Owen would have been reward enough, but it was a bigger reward when Owen's happy young face. Yet she had done nothing more than to show him that she loved him and was interested in him.

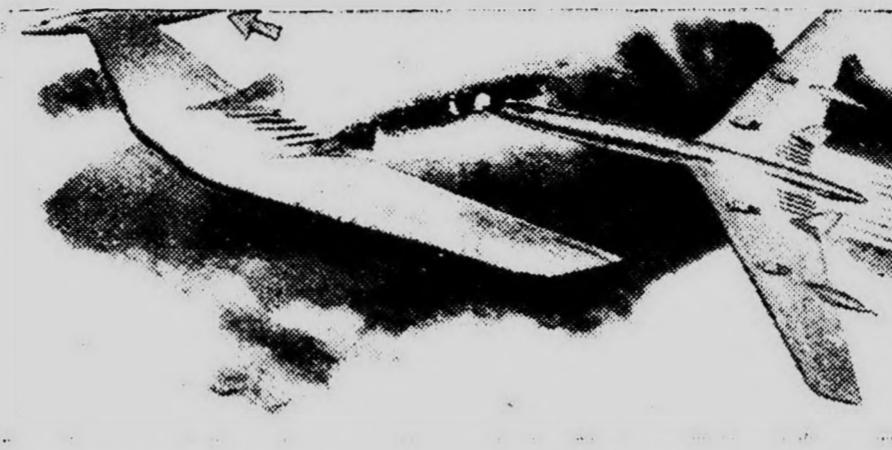

TAKE INFLATION FIGHT TO CONGRESS . . . This is the way Republican congresswomen took the fight against inflation to the floor of the House of Representatives.

With some 1" pipe, four tees and an old hot water tank, you can make a good lawn roller. Screw bushings turned into each end of tank prevent leaking. Tees slipped over bushings act as bearings for handle.

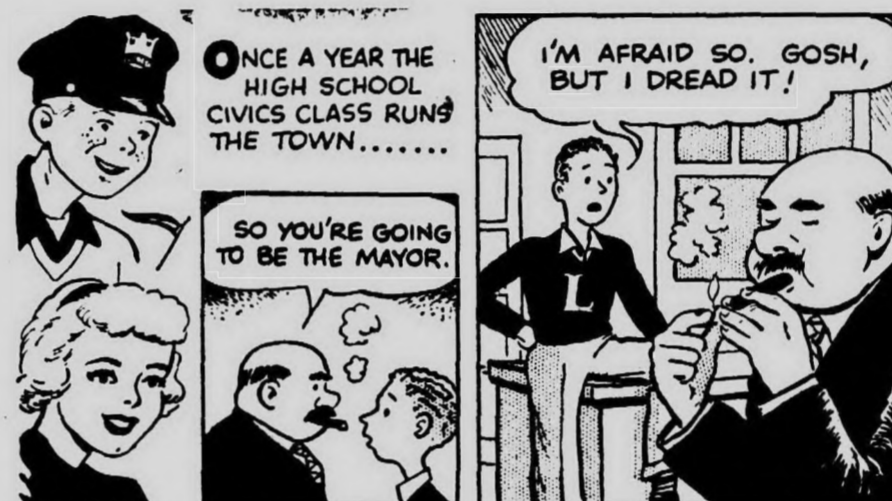

Keep carrots or parsnips fresh in a crock of clean damp sand. Leave part of the tops uncovered so you may pull them out.

ATOMIC POWERED PLANES . . . Drawing board pictures of proposed atomic planes for U.S. air forces show how far crew compartments must be from power plant. Arrow at left indicates crew's quarters. In plane at right, crew rides in nose.

TV Poll Puts Alan Young On Top

Another television award went to Alan Young, star of the Kroger-sponsored "Alan Young Show" recently when Lyle Rooks, West Coast editor of Radio-Television Mirror magazine, presented him with a scroll as "America's favorite TV comedian." The award resulted from an audience poll conducted by the magazine. Previous honors received by Young include selection by the Television Academy of Arts and Sciences as "best actor-comedian" of the year and designation of the "Alan Young Show" as the "best variety show."

WEE DOGGIES IN WEEHAWKEN . . . Firehouse No. 1, Weehawken, N.J., is well staffed with mascots since "Boots," pet Dalmatian gave birth.

SUBWAY SHELTER . . . This is an artist's conception of how the 2nd Avenue subway line in New York City could be used as an air raid shelter in case of emergency.

Oddfellows Hold Potluck Supper

A lovely night was held on Tuesday, April 24, by Tonquish Lodge of the I.O.O.F. About 45 members and their families and guests enjoyed a potluck supper. A hot time was being followed by the supper.

Bring to Firemen Burning Box Car

The fire was brought to the station Wednesday instead of the usual fire fighting procedure where the men go directly to the flames.

Communications

Dear Editor: I had been writing to you for some time but just read an article in the Plymouth Mail I had forgotten to mention—the article concerning Walter Fuller's plan to bring a night and a day school to Plymouth. I like that because the people will find they can get an education themselves.

The article also mentions in his article that you would do more to assist the little people all over the country. It was brought to my attention that any account of hours committed by the little people are included in the newspaper. I am thinking on business for the men. The small things are what arouse them.

Really, if the United Nations can be included on an issue like that, is there much doubt they can be included on larger ones.

That's a fact I did not know and you can be very sure there are millions of God-fearing Americans who do not know that little fact.

You can also be sure if you and others like you brought it to their attention it would arouse them equally as much as it did me and others I've discussed it with. That's a little issue millions of little people like me will concern themselves about. Let Russia sit out in the hall instead, or let the big boys be afraid of Russia.

In producing more than half a billion tons of coal in 1950, the bituminous coal industry had the best accident-prevention record of all times.

PROCLAMATION WHITE CANE WEEK

The white cane, more than a dozen years ago, was made by legislative act the passport which gives blind persons the right of way in traffic.

It is most appropriate, therefore, that the Lions Clubs of Michigan should give the name "White Cane Week" to the period which, each year, they sponsor for the purpose of reminding our citizens whose vision is unimpaired of their special duties to their less fortunate fellows who walk in darkness.

This year the Lions Clubs have chosen the second week in May for their annual observance and ask that all who enjoy good sight consider ways in which they can help the blind and the partially blind to become self-supporting, useful and happy members of society.

Therefore, I, Floyd Tibbitts, Mayor of the City of Plymouth, do hereby proclaim the week of May 6 through May 12, 1951 as WHITE CANE WEEK in Plymouth and urge our citizens, during this period, to become more familiar with the meaning and purpose of the white cane and lend every support to the worthy movement it symbolizes.

Given under my hand and seal of the City of Plymouth this 28 day of April, in the Year of Our Lord, One Thousand Nine Hundred Fifty-One.

(Signed: Floyd Tibbitts)

The indulgence in sin brings its own punishment but true reformation brings forgiveness is emphasized in the Lesson-Sermon to be read Sunday, May 6 in all Christian Science churches. The topic is "Everlasting Punishment." The Golden Text is from Matthew (18:30): "Repent, and turn yourselves from all your iniquities; so iniquity shall not be your ruin." Among the illustrations is this passage, (18:32-33): "Have I any pleasure at all that the wicked should die with the Lord God, and not that he should return from his way and live?" Correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 497): "We acknowledge God's largeness of sin in the definition of sin and the spiritual understanding that casts out evil as unreal."

Golfers Defeated Twice Last Week

Plymouth's revamped Varsity Golf squad began the new campaign last week when it bowed in defeat two days in succession. PHS was stomped by Walled Lake, Wednesday, April 25, and by Ann Arbor High school, Thursday, April 26.

Playing against Walled Lake on the nine-hole Hickory Hills Golf Course, the Rocks ran up a total of 201 strokes as to the 195 collected by their opponents. Medalist on the PHS team was Ralph Walsh with a 37 for the par 35 course.

The following afternoon in the Ann Arbor High tilt, the Rocks finished the 18-hole, par 72 U.M. Golf Course with a total of 531, which was 92 strokes above Ann Arbor's sum of 439.

Medalists in the Plymouth-Kecny with 94 and Ann Arbor's Ca-e with 39. PHS had two other inverters since then, one with Redford Union, Monday, and another with Ypsilanti, Tuesday, but the results are not yet available.

WOMEN'S GOLF CLASSES
 Hill Top Golf Course will be the location of three women's golf classes, which will begin today. The first class will start at 9:00 a.m. and two more will follow in the evening, one at 5:30 and one at 6:30.

If it is raining the club members will meet in the clubhouse. There is still time to register at the Recreation office, phone 2075, for the 5:30 evening class.

WOMEN'S SWIMMING CLASS
 Two women's swimming classes meet Wednesday night, May 2, at the Wayne County Training school pool. Sixty women have registered for these classes, which are held every Wednesday evening. Miss Harold Shurey is the instructor and Bill Del Camp is the Life Guard.

TYPING CLASS
 Next Tuesday night, May 8 will be the last meeting of the series of typing classes taught by Miss Freda Olsen in the typing room at the high school.

Wild Lifers Build Archery Range
 President Gar Evans of the Western Wayne County Conservation Association states that the club membership has in recent weeks been increased by more than 30 members. These new members have joined because the club provides an excellent site for a roving archery range on the grounds near the clubhouse.

The new archery members are now busy building an ideal place for them to try out their skill with bow and arrows.

It is also hoped to have the rifle range completed within the next few weeks. Norman Wilkinson is in charge of this development. Announcement is also made that John Reiser, former president of the association, is now chairman of the street and trap field committee.

Coal is the basic fuel for supplying the nation's heat, light, and power.

Baseball Season Gets Underway as Teams Organize

Four recreation baseball leagues have been formed in and around Plymouth. Three of these leagues are softball and the other is hardball.

The hardball league is titled the Western Wayne "D" League, which, after being sponsored by Plymouth for eight years, will now be given to Wayne, who will handle the sponsorship throughout the current season.

Thus far six teams have entered this league: two from Inkster, two from Plymouth, and one each from Wayne and Ypsilanti. Managing the two Inkster ball clubs are C. A. Hamlin and Gus Christ.

The two Plymouth squads are the EKS, managed by Bill Darnell, and the Daisy nine, piloted by Walter Darius. Wayne's team is to be headed by C. Schlaufman, and the Ypsi team by R. Kessler.

In the Softball league the greatest problem to date is the need of another lighted soft ball diamond other than the present one behind the high school. Without another one, the teams may go elsewhere to play instead of competing in Plymouth.

The probable teams and their managers in the three softball leagues are as follows:

Open Leagues:
 Berlingers, Doug Egloff
 Penn Theatre, Roy Behner
 Dehaco, no manager yet
 Lincoln Mercury, Robert Wilson
 Twin Gables (old Cavalade 9), Fred Thompson
 South Side Merchants, Bob Schaufele

Industrial League:
 Daisy, Leon Schroder
 Whitman and Barnes, Chet Kolbaso

Allen Industries, Bob Sparkman
 Ship and Shop, Dick Nelson
 Wall Wire, Hugh Rovave
 Burroughs, Paul Macklevane
 Evans, Chester Lesnar and John Harlow

Oldtimers League:
 Dunn Steel, Les Herten
 Penn Industries, Lee Tinkett
 VFW, no manager yet
 Contractors, Bud Curtis
 Rosedale Gardens, no manager
 Twin Pines, no manager yet
 Joy Bar, Jack Richards

States Recreational Director
 Herb Woolweaver. "The separate leagues look the best they have in years and the teams are going to be great, too."

No-Hit Pitching, Comedy of Errors in Baseball Tilt

Despite the no-hit pitching of Wally Dzuris, the Rock's still lost their first encounter of the new baseball season to the Belleville Tigers diamond.

The Belleville Tigers were scored with the aid of six PHS errors, two by catcher McKinley, three by short-pitch Finnegan and one by third-baseman Sockow.

Dzuris went to town in the strike-out department, flogging the third strike past 15 of the opposing batters. He also did the better-than-most feat of fanning four men in one inning.

This happened when Wally fanned the man at the bat for the third out but catcher McKinley dropped the ball. The Belleville batter ran toward first base. McKinley's toss there was high and the runner was safe, so pitcher Dzuris proceeded to strike-out a fourth man in that inning.

A controversy arose when the Belleville scorer gave the Tiger nine three hits and then the PHS scorer marked the hits as errors.

The opposing pitcher was also very difficult as he gave up only two hits. Both were singles; a clean slice to centerfield by Lamphair and a fluke single by Ron Ritter.

The Trenton nine played host to PHS last Tuesday, but the results are not yet available. This Friday Plymouth meets Wayne here.

VICTORY IS SWEET! Thus found the Stroh's Brewery team, who came out tops in the Women's League at Plymouth Recreation. The team was treated to a victory banquet by their sponsors M. Powell and Son at Pen Mar last Thursday evening. Left to right are Onetta Thorpe, Gertrude Danol, Captain; Russell Powell, Madison Powell, Belle Butler, Carl F. Peters, public relations director of Stroh's Brewery in Detroit; Bertha Kisabeth, Louise Dahl, and Mary Gray.

Wayne Thin Clads Whip Local Rocks

With a chill wind blowing and the temperature somewhere in the low 40s, Plymouth High's Varsity track team competed in its second dual meet of the '51 track campaign. Last Thursday the Rock's opponent was a very versatile Wayne squad, that rallied over the PHS team to an easy 70-38 1/2 win.

In the track events the two thin clad teams were fairly even as far as points are concerned. Plymouth grabbed 32 markers as to the 41 snagged by Wayne. But in the field events the Rocks faltered and took only 6 1/2 counters, whereas the Zebras collected 22 1/2.

First on the list in field events came the shot put. With a tremendous toss of 47 1/2, Wayne's Tammann settled into first place with his team mate McKenzie following. Al Williams placed third for Plymouth.

Arlen Ottensman scored only nine feet in the pole vault to capture first. Following him were Flakes of Wayne in second and Plymouthite Grosjean and Wiley of Wayne in a third spot deadlock.

The high jump event was dominated by a trio of Wayne athletes. Five feet was the top jump made by Putnam, followed by Fant and Howard. Wayne also swept the medal jump when Fant leapt 12' 9" into first, ahead of Howard and Timmerman. This one completed the field events.

The 120-yard hurdles was won by Timmerman of Wayne. Second was Dean, another Zebra, and third was Speers of PHS. Wayne's Medley relay team won that event in 2:50.3. Putnam seized the 100-yard dash in 1:18 seconds. Rick Bowyer and Wascowich finished in second and third spots with times of just over 11 seconds.

John Balogh raced through the 400-yard dash in 1:42.3 ahead of Wascowich of Wayne and Bob Davis of Plymouth. Dick Joachim and Al Williams placed first and third respectively in the 400-yard dash. They were separated by Wayne's Hottel and Joachim's winning time was 57.9 seconds.

The Wayne sprinters grabbed all three places in the 180-yard low hurdles. First came Putnam in 2:21 seconds, then came Hendwood and Dean. Plymouth then turned about to sweep the field in the 220-yard dash. Winner was Bowyer in 2:19 seconds, and next was Todd in second and Hugh Kelly in third.

Diek Rucinski won the 850-yard dash in 2:11.8. Runner-up was Shaffer from Wayne. The Meet ended with the 880-yard relay won by the Zebra team in 1:30.7.

"Fairway Fables" High School Nine Lose by One Run

IF the golf bug seems to have bitten you, now that spring has finally arrived, take heed of one of the classic stories we've recently heard.

A man watching a passing funeral was amazed to see a golf bag, complete with clubs, inside the hearse and on top of the coffin.

"That poor chap must have been real keen on golf," he exclaimed.

"He was and still is," declared another observer. "He has an important match this afternoon. That's his wife's funeral."

GUY'S N GALS LEAGUE . . . starts official play on Monday, May 7th. This popular feature at Hilltop gives the gals a chance to play in a competitive league with their golfing buddies once each week. Two couples form a team, all players are handicapped, and points awarded to team play. A great incentive to improve your golf game and meet old and new friends. It's open to all, call the club and get details. Entries must be in by Sunday, May 6th.

HILLTOP'S CITY GOLF LEAGUE . . . begins its eighth year of enthusiastic play on Wednesday, May 9th. If you're new to our city and want to join this league, call or buzz out and see us. This league features stag play, four-man teams that are merchant sponsored, handicaps established by an eighteen-hole card and revised after each week's nine-hole score. There are several prizes, too, but entries will close on May 8th.

A TIMELY TIP . . . on improving your golf game, comes from one of golf's ablest teachers, Mr. Morrison. Draw an imaginary line from the ball to your chin, then concentrate on keeping the chin in that exact position while executing the shot. The secret of the good swing is to hold the position of the head, consequently the shoulders, while starting the backswing. Fifty percent of all golf ills can be cured with this one remedy, and it's one of the easiest lessons to apply.

LADIES DAY . . . as usual every Thursday, special rate of 50 cents for all day play. Make it a party, golf and cards, a day away from household chores!

GOLF BALLS AND CLUBS . . . while quite plentiful throughout the winter and early spring, now begin to show the effects of government restrictions. Invoices against orders now begin to arrive with the words, "back order," and salesmen have begun to shrug their shoulders about writing orders on some items. We're happy to report that our supply of clubs and balls should be enough to take care of our customers. We will advise though, that the best selection is available now, and if you're thinking about buying you'd best take a look. They're all on display at Hilltop, a small deposit will reserve the set of your choice, trade-ins will be welcome. In addition to new clubs, we've a fine selection of used and re-finished clubs in beautiful condition at bargain prices.

MAKE HILLTOP A HABIT . . . a three-minute ride from town will bring you here. Nine-hole and eighteen-hole rates over a sporty well-kept course make Hilltop a favorite meeting spot. Non-golfers can enjoy the "nineteenth" hole for their favorite bottle of beer or sandwich, while watching their golfing friends tee off.

Thin Clads Romp Over Belleville

Plymouth's Varsity track team played host to the Belleville Tigers and overpowered them by the score of 75-5-2-24 1/6 last Thursday. It was the squad's second victory in three dual meets.

The Rocks romped away with nine points in the 120-yard high hurdle, when Robinson, Speers, and Pernie placed one, two, and three respectively. Winning time was 1:6.9 seconds.

Plymouth's Medley team seized that event in 2:50 and PHS also captured the 660-yard relay in 1:42.5. Doughterty of Belleville raced through the 100-yard dash in 10.7 seconds, with Bowyer and Kelly of PHS running second and third.

In 4:55 John Balogh won the mile ahead of Plymouthite Bob Davis and Mattson of Belleville. Belleville's Gregg was sandwiched in between Dick Joachim and Al Williams, both of Plymouth, in the 449-yard dash. Joachim's winning time was 37.4 seconds.

First and second were grabbed in the 180-yard low hurdles by PHS when Robinson and Speers

Netters Win One Lose Two Matches

After a decisive victory over the Bentley netters, the Plymouth tennis squad was then routed in one of one meet and edged out in another.

In the first meet of that week, the Bentley Bulldogs were shut out, 7-0, by the PHS team. Monday, April 23, when the Rocks scored victories in all the doubles and singles matches.

The next afternoon, Tuesday, April 24, the meet with Ann Arbor's University High school was cancelled because of rain.

Against Ypsilanti, Thursday, April 26, the squad was deadlocked at 2-3 with the fourth singles match remaining. PHS bowled 1-3, 6-4, 5-7, in this deciding game and lost the meet.

The tennis team's standing at the present is one win, two losses for a percent of .667. Today the Rocks battle Rosevelt High there.

Netters Win One Lose Two Matches

Diek Rucinski again triumphed in the half-mile race, with a time of 2:15.1. Second and third were Plymouth's Young and Belleville's Larsen. That completed the track events.

In the shot put a toss of 44' put Belleville's Glen in first, ahead of Eric's Williams and Tiger Groz-z. Plymouth's Ottensman pole vaulted 9'6" in that event ahead of Mattson of Belleville. Howard Pernie of PHS won the high jump when he topped the bar at 5'3". Belleville's Wilkins leaped 17'5" into first place in the road jump ahead of Plymouth's Pernie.

The Rock squad racked up 16-5-6 points in the field events compared to the 17-1-6 scored by the Tigers and in the track events PHS grabbed 57 markers as to the 17 counters collected by Belleville. The Rocks had a meet with Redford Union on Tuesday, May 1, but the results are not yet available.

How accurate can you be?
In some manufacturing businesses, for instance, they have to allow for a slight margin of error.
But when it comes to weighing a customer's purchase or adding up her bill we aren't satisfied to be "almost accurate" at A&P.
Our skilled clerks know that they must give you full weight, full measure and charge the correct price.
That is why we can mark the price plainly on every item as well as on your cash register receipt.
You will help the men and women of A&P maintain their well-earned reputation for accuracy by promptly reporting any time we might be in error. Please write:

Well Known Salem Resident Dies at 88

Clinton Main Dix, 88 years of age and well known in this city, died at his home in Salem last Wednesday after an illness of several months. He had been a patient in the University of Michigan Hospital for sometime but during recent weeks he had been cared for at his home by his wife and son Oliver.

He was born in Van Wert, Ohio, March 16, 1863. In 1934 he was married to Martha Maudax also of Van Wert, and for 30 years they farmed in Ohio and Michigan. They were the parents of eight children. For ten years Mr. Dix was with the Ford Motor Co. and at one time he dealt in real estate. His wife preceded him in death in 1942 and later he married Clara Louise Carpenter, who survives him. They have resided in Salem for the past six years. He leaves four sons, Oliver of Salem, Harley of Farmington, Ernest and Frederick, both of Kewadin. Two daughters, Mrs. Clio Wilkie of South Pasadena, California and Mrs. Pauline O'Brien of Flat Rock, Michigan. Also grandchildren and great grandchildren. Funeral services were held Friday afternoon, Rev. Loren M. Stroh of the Congregational church officiated. Interment was in Pleasant cemetery at 12 Mile road and Woodward avenue.

Girl Scouts May Sign up For Camp

It isn't too early for Plymouth Girl Scouts to begin thinking and planning of a camp life. The local Girl Scout Council is now accepting registration from local scouts for one or two week sessions at the Girl Scout Camp by Cedar Lake near Chelsea. The Girl Scout Council will provide the registration fee for all Plymouth Girl Scouts.

The 100 acre camp is sponsored by eleven communities which are Plymouth, Wayne, Ypsilanti, Ann Arbor, Chelsea, Dexter, Northville, Brighton, Howell, Belleville, Lincoln school (Willis), and Milan.

Camp life begins on June 24 and will continue through August 12. Girl Scouts 10 years old and over and entering the fifth grade next Fall are eligible.

What do the girls do at camp? The activities include swimming, out door arts and crafts, archery, boating, camp craft, dramatics, treasure hunts, wood-working, hay rides, nature lore, leather working, life saving, over night hikes, singing, and out door cooking, plus many more doings. The three units at Cedar Lake are composed of the beginning group, Juniper, Knoll; older girls, Oak Ridge; and the most advanced group, Greenwood. The National Girl Scout organization will give its approval of the director, who is Mrs. Wayne Hagan. A resident nurse is always on duty, and she supervises the medical situation.

The camp staff also includes a chef, a nurse, a first aid class instructor, and a variety of waterfront activities, and unit leaders, who must be 21 years old and experienced in several phases of camp life. Leaders for the Scouts are also organized and must be 18 years old.

Registration and sign-up in the city will take care of 160 girls, and all girls in Plymouth Girl Scout Council are encouraged to sign up to take advantage of the privilege of the camp. If you are unable to sign up in person, you may write to Mrs. John Dalton, treasurer of the council.

Registration will be accepted by Mrs. John Dalton, treasurer of the local Girl Scout Council, The Pleasant Hotel only till and the sign-up is a simple folder and present it to Mrs. Dalton.

Kiwanians Hear All About Bees

Perhaps Plymouth Kiwanians didn't learn about the bees, but they did learn something about bees at their meeting Tuesday evening at the Hotel Mayflower.

An expert on bees, Harold Mott of Detroit addressed the Kiwanis club on raising bees and he also brought his equipment to show the men how it is done. Leo Schultz was in charge of the program.

Recently elected delegates to the International Convention in St. Louis in June were Dean Saxton, vice president, and Dr. Van Ornum.

A Ladies Night is scheduled for Tuesday, May 8 at the Presbyterian church.

Events that are on the calendar are the annual Mother's Day flower sale and an inter-club meeting with Strathmoor Kiwanians May 22 at Strathmoor. The Kiwanis club will sell and deliver plants which will be in full swing the second week of May.

Hints For Plymouth Homemakers

POACHED EGG ON HAM TOAST

For any meal of the day, this would be a welcome dish. With a new emphasis on the necessity of more adequate breakfasts, this will be a variant of the ham and eggs; at luncheon time, a busy homemaker will find it quick and easy to prepare for the children coming in from school; at dinner, served with vegetables, beverage and dessert, it will form a nourishing main dish.

- 2 tablespoons shortening or margarine
- 1 1/2 teaspoons flour
- 1 teaspoon dry mustard
- 1 1/2 teaspoons prepared horse-radish
- 1/2 cup milk
- 1 cup ground, cooked ham
- 6 slices enriched bread
- 6 poached eggs

Melt shortening in a saucepan. Blend in flour, mustard and horse-radish. Add milk and cook until thick, stirring constantly. Add ham and cook for an additional two minutes. Toast one slice of bread under a preheated broiler (375° F.). Spread untoasted side with ham mixture. Return to broiler for two minutes. To serve: top each slice of Ham Toast with a poached egg.

To Poach Eggs: Break each egg into a cup. Slip into a skillet or shallow pan two-thirds full of simmering salted water. Add 1/2 teaspoon of salt for each 2 cups of water used. Be sure eggs are not crowded in the pan and that there is enough water to cover. Cover and cook gently to the desired degree of firmness. For soft poached eggs, cook for three to five minutes. Lift eggs from water with a draining spoon and place immediately on hot Ham Toast. (Note: If egg whites appear thin and runny, 1/4 teaspoon of vinegar or lemon juice added to each cup of water used will keep them from spreading.) Yield: 6 Poached Eggs on Ham Toast.

Prepare Good and Inexpensive Meals with Broilers and Fryers

Broilers and fryers are included in the U. S. Department of Agriculture's list of plentiful protein foods this month. Here is an opportunity to turn out "company good" meals at reasonable prices if you know how to go about it.

A review of the following tested and easy to use tips on chicken preparation is especially timely now, but worthwhile at any time of the year.

To prepare broilers, break the

major joints and place pieces flat on the broiling rack with the range set for broiling at 350° F. Place rack so the chicken is about 4 inches below the heat unit. Turn pieces about every 10 minutes and brush with melted fat. Cook until brown and tender, 35 to 60 minutes depending on the weight of the bird. Season and serve hot.

Try this cooking method for a fryer treat. Melt fat to one-half inch depth in a heavy skillet over a moderate fire. Coat the pieces in flour and seasoning. Place meaty pieces in the skillet first and fit the others around them.

When browning begins, reduce heat to low, cover and cook slowly until tender. Turn pieces for even browning. Serve hot or cold.

In preparing a roaster, rinse the drawn bird with cold water and rub with salt. Fill the neck cavity with dressing and fasten the neck skin to the back with a skewer. Stuff the body cavity loosely and truss with skewers and string.

Place the bird breast down on a rack in a shallow pan. Brush occasionally with melted fat while cooking about 35 minutes per pound at not over 325° degrees. Turn breast side up when about half done. Do not sear, add water, or cover while roasting.

For tasty and tender stewing fowl place the drawn chicken, whole or cut up, in a large kettle and barely cover with water. Add 1 1/2 teaspoons salt, carrot, onion and stalk of celery. Cover and simmer over a low flame until tender, which may require 2 to 4 hours depending on bird weight and age.

Stewing fowl can also be made into a very good baked chicken by first stewing partly done, and then baking it in a covered pan so it will steam or braise.

More than 200,000 products have their origin in coal.

New Cookie Recipes For Homemakers

In keeping with beautiful Spring days and the dressing up of the neighborhoods with green grass, flower beds that are beginning to bloom, leaves that are bursting forth and lightened spirits of everyone who is glad that Spring has finally sprung are these new recipes.

Try them and surprise your family with these flavorful, delicious cookies.

CHOCOLATE CRISPIES
 Sit together and set aside—2 cups sifted flour, 1/2 tsp. soda, 1 tsp. cinnamon, 1/2 tsp. salt. Mix together—1 cup shortening, 1 cup sugar, 2 eggs. Stir in—1 cup sour milk alternately with flour mixture.

Fold in—3 cups dry cereal flakes, 1 pkg. Semi-Sweet Chocolate Morsels. Drop by teaspoonsful on lightly greased cookie sheet. Bake at 400° F. 10-12 minutes. Yields 5 dozen.

CARTWHEELS
 Blend—1/2 cup shortening, 1/2 cup brown sugar. Add—1 egg and beat well. Blend and stir in—2 cups sifted flour, 1/2 tsp. baking soda, 1/2 tsp. salt. Knead well and chill thoroughly.

CHOCOLATE-FRUIT MIXTURE
 Mix together in saucepan—1/2 lb. dates, 2 tbs. gran. sugar, 1/3 cup water. Cook—stirring until thick (approx. 5-5 minutes). Cool slightly. Stir in—1 pkg. Semi-Sweet Chocolate Morsels, 1/4 cup finely chopped nuts.

Divide the chilled dough in half. Roll out 1/8 inch thick on slightly floured board or waxed paper to a rectangle approx. 8" x 12". Spread half of chocolate-fruit mixture over surface. Roll lengthwise by hand as for jelly roll. Repeat with other half. Wrap in waxed paper and chill for several hours or overnight. Slice into 1/8 inch slices and bake on slightly greased baking sheet. Bake at 375° F. for 10-12 minutes. Yield: 6 dozen.

Old Fashioned Dusters Serve Many Purposes

For added glamour and luster—wear a duster!

This is the advice of the majority of fashion designers and writers in the fashion world. Plymouth ladies need not think that dusters can only be worn by models parading down city boulevards or only at cocktail parties.

Dusters are practical! Made in a variety of textiles and colors, there are dusters for all occasions. Dress departments are showing dusters in sheers, tafeta, brocade, silk, and linen fabrics to match frilly dresses.

But dusters are also being made out of sturdy denims, cotton, twills, and butcher rayon. The old fashioned duster is an ideal covering for dust, chilly breezes, and rain.

Designers have assembled duster and dress costumes that match and are smart. One costume seen in one of the leading fashion magazines consists of a pale yellow linen skirt and bolero outfit with added touches of gay lining and to top off the suit, a yellow linen duster with matching lining and cuffs.

Dusters are also all-purpose costumes. Loose fitting, the duster can be worn as a coat, and with a belt, the duster can be changed into a coat dress.

The duster can be worn for occasions ranging from shopping expeditions, parties, and cleaning house. Remember the advice of fashion designers and take advantage of the all-purpose duster.

LESS COST WITH FISH
 Seafood should top every grocery list this spring. Low prices and high quality make it a deluxe budget balancer. Cod, haddock, whitefish, perch and whiting are among the price-wise fish purchases.

Seafood Goodness
 Fish have other reasons to be proud of themselves. Complete protein foods, they are also good sources of minerals and vitamins. And they are easy to prepare in a variety of ways.

Fresh Cod Cocktail
 1 pound frozen cod filets
 1/4 cup chili sauce
 1/4 cup catsup
 1 teaspoon Worcestershire sauce
 1/4 cup vinegar
 2 tablespoons horseradish
 1/2 cup finely chopped celery
 1/2 teaspoon salt
 Few grains red pepper

Place cod filets in wire basket or tie in cheesecloth and lower in 2 quarts water to which 1 table-

spoon salt, 1 tablespoon vinegar and a small onion have been added. Cook until tender—10 to 20 minutes.

Combine other ingredients and chill. Mix well with cooked fish and chilled cod. Serve in cocktail glasses lined with lettuce. Yield: 6 servings.

Frozen fish filets need not be thawed before cooking. Just allow a little extra time and let it thaw as it cooks.

Creole Baked Perch
 Arrange one pound of frozen perch filets on a well-greased baking dish. Cook two tablespoons each minced onion, green pepper and celery, in three tablespoons butter; add one and one-half cups tomatoes, one teaspoon salt, one-eighth teaspoon pepper and one-half teaspoon Worcestershire sauce. Boil five minutes and pour over fish. Bake uncovered in a moderate oven (350° F.) for one-half hour or until it flakes easily. Yield: 4 to 6 servings.

Faithfully,

The ladies of our auxiliary are welcoming two new members. Mrs. Roy Williams and Mrs. Eugene Armstrong.

May 22 is the date chosen by Mrs. Gerald Krumm, chairman, for an evening of fun and relaxation for the members of the auxiliary and their friends. We hope as many as possible will attend.

Buddy Poppy Day is approaching—the day set aside as a living memorial to the slain and the wounded in battle. Let each member who can, get out and help distribute our poppies so that we can "honor the dead by helping the living."

This year the Buddy Poppy chairmen are Joseph Elliot for the V. F. W. and Mrs. Kenneth Gust for the auxiliary.

This week is "Boys and Girls Week" under the sponsorship of Rotary International. Their theme this year is "Looking forward with youth." This serves as a reminder to us all that we have a responsibility for providing adequate programs and facilities for the young people in our city.

AN AFTERNOON DIP and dive in the lake is enjoyed at Cedar Lake west of Chelsea. The camp will open for action June 24 and local Girl Scouts may register now with Mrs. John Dalton, treasurer of the local Girl Scout Council.

My MICHIGAN

BY • ELTON R. EATON

One gets an exceptionally pleasant surprise now and then—the kind of a surprise you are not looking for, but thoroughly enjoy. Years ago, way back when the writer was spending some years in newspaper work in Lansing as well as serving as executive secretary to the Governor who did more for Michigan's advancement than any two dozen of all other governors combined, we used to do some fishing up on the north end of Burt lake.

At the termination of our work in the executive office at the Capitol and during the period we published The Northville Record, these Burt lake fishing trips continued for many years.

Burt lake is the second largest inland lake in Michigan. One to thoroughly enjoy a day of fishing on the lake, needs some one to operate the fishing boat for him. It is a lake that can get pretty rough at times—and that is generally when the fishing is at its best.

On the northern tip of Burt lake is located one of the few Indian settlements left in Michigan. The little community is known as "Indiantown", where a few surviving members of the Chippewa tribe reside.

Before the NRA came into existence and destroyed all initiative

in people it sought to aid, these Indians were able to support themselves by making baskets, snow shoes, picking huckleberries and wild blackberries in season and "guiding" sportsmen during fishing and hunting seasons.

During the winter the men would cut the ash trees from which the baskets were made, pound the wood down so it could be "peeled" and then the women folks after the wood had properly seasoned, color it and work the strips into beautiful baskets.

But that all ended with the phony New Deal came along and destroyed any future desire the Indians might have had to try and aid themselves.

It was previous to the corrupt New Deal and Fair Deal days when we first met Charles Martel, a descendant of Chippewa and French-Canadian families. He was the son-in-law of Jonas Chippewaquette, a full-blooded Chippewa who was our first fishing companion on Burt lake and who knew just when and where to land the beautiful rainbows and big walleyes that predominated in that amazingly good fishing lake.

But Jonas was along in years and he thought his more active son-in-law should see to it that when the writer went out fishing on Burt lake, he'd get back to shore without mishap. So it was that Charles Martel served as our Burt lake fishing guide for more than a quarter of a century.

"Charles" was one of those "steady" Indians, always dependable, always careful, always a good sportsman and a good citizen. His wife graduated from the old Indian school that Michigan maintained for many years at Mt. Pleasant.

He is one of those likeable individuals who doesn't hate anybody or anything. Always good natured, he likes to talk about hunting and fishing, the outdoors, to recall and discuss in detail some of the exciting times when "that big one got away." The only "sin" we ever discovered that he possessed was a liking for "Copenhagen."

Well, to bring you up to the point of the story, the most welcome caller we had the other day was Charley Martel, who drove down to Plymouth with Mrs. Martel and their youngest daughter, Roseanna, now a junior in the Lansing high school.

It seems that in recent years most of the residents of Indiantown move out early in the fall, many of them going to Lansing to work in the automobile factories until spring, when they return to the woods, lakes and beautiful scenery of northern Michigan. The young lady inquired the statement that she liked the Lansing schools ever so much. The father said that they would come back to Lansing for one more winter and remain there until Roseanna graduates—then we are going back to that Burt lake country where life is really worth living, not only for Indians but white men, too."

While talking about fishing on Burt lake, the writer was not the only enthusiastic fisherman who likes to troll a line in its deep and churning waters.

One day out in mid-lake we met the late Judge Keenesaw Mountain Landis, who for years was the nation's baseball czar. During our brief conversation he told the writer that he had had a cabin on the southern end of Burt lake for years and that most of his fishing was confined to Burt lake.

But Judge Landis was not the only Judge we met out on Burt. During another season as the waves tossed our boat around with Charley Martel along it on an even keel even though sometimes one could barely look over the top of the waves, another fishing boat came alongside.

In it sat good-natured Judge Emerson Boyles of the Michigan supreme court, with Editor Muri DeFoe of Charlotte dragging a line along with a fish on it he didn't know he had caught. Since then Judge Boyles, seeking a bit more of the real wilderness for his fishing, has purchased a section of land out on Manitowish Island in Lake Michigan, where he spends every spare minute he can get away from his highly important duties up in Lansing.

Yes, the visit we had with that fine, upright good citizen of Michigan the other day, was a most delightful one—and don't be surprised if some day this summer you hear about another long delayed fishing trip with Charley Martel up on Burt lake.

But it wouldn't be just fair to end this brief story without some comment Charley made pertaining to Al Weber, the retired publisher of The Cheboygan Observer.

You see Cheboygan is only 17 miles from Indiantown and what little trade Indiantown produces is divided between Petoskey to the west and Cheboygan to the northeast. For years the Indians preferred to trade in Cheboygan—and some of them would now and then get into some minor trouble with the drinking law while the good ladies were doing such shopping and trading of baskets and snowshoes as they found necessary.

"There was one fellow in Cheboygan the Indians could always depend on to get them out of trouble, no matter what difficulties they might have in doing so," said Charley. "That fellow was Al Weber. Al would never let an Indian sleep in jail overnight if he could possibly get him out by bail or paying fines. Yes sir, Al saw to it that the Indians were always treated right when they went to Cheboygan. He was a real friend and we could always depend on him," said Charley.

the 48-State Economy Run points the way to **more miles per dollar** with the **Ford POWER PILOT!**

YOUR kind of truck job was represented in the big, nationwide Ford Truck Economy Run!

Some 5000 drivers in the 6-month Run hauled every kind of load from ice cream to pig iron—in every kind of Ford Truck from F-1 Pickups to mammoth F-8 Big Job tractor-trailers! They bucked city traffic, highballed cross-country, pushed through off-the-road mud. . . . They kept daily records of every penny spent for gas, oil, maintenance and repairs.

The result: overwhelming new evidence that Ford Trucks with the **POWER PILOT** save you money every mile! The **POWER PILOT** gives you the most power from the least gas!

FORD trucking costs less because . . . **FORD TRUCKS LAST LONGER!**

Using latest registration data on 7,318,000 trucks, life insurance experts prove Ford Trucks last longer!

Stockman Alex Forshage (address on request) drove his Ford F-5 Stake equipped with **POWER PILOT** in the Economy Run. He reports: "I drove 5778 miles in 6 months, with average load of 3200 lbs., made 1444 stops. Total cost of gas, oil and maintenance with no repairs was \$135.68—or only 2.34 cents a mile!"

"3200-lb. loads . . . 2.3c a mile!"

LUMBER and all building materials were hustled in the Economy Run—at low ton-mile cost! F-6 gives choice of three great truck engines!

CATTLE went on wheels for less per mile in the Economy Run. F-6, like all Fords, has new Free-Turn valves, other advancements, V-8's or Sixes!

LOGS moved to mills at lower cost, more profit in Economy Run. 145-h.p. engines power these F-8 Big Jobs. Ford offers over 180 truck models!

I'll match my Dodge with any car on the road for Value and Dependability

—says MICHAEL OPPENHEIM

"Sure, I've owned and driven other make cars," says Michael Oppenheim, Bellerose, N.Y. "But since 1941 my cars have all been Dodges. I know how dependable Dodge cars are, how little they cost to run. In fact, my new 1951 car is another dependable Dodge!"

GOOD DRIVERS DRIVE SAFE CARS... CHECK YOUR CAR... CHECK ACCIDENTS

You could pay up to \$1,000 more and not get all the extra room, comfort and rugged dependability of Dodge

Compare what Dodge gives you... with what other cars offer. You'll understand why Dodge owners say they'll match Dodge with any car on the road.

Take riding comfort for example. You could pay far more for a car and still not get the almost unbelievable smoothness of the new Oriflow ride. Even on roughest roads there's no wheel "hop" or bounce... wheels stay on ground providing a smooth, level ride for all passengers.

You get the relaxing comfort of extra head room, leg room and shoulder room. You never feel cramped or crowded. And Dodge gives you the priceless safety of "Watchtower" visibility... of big Safe-Guard Hydraulic Brakes with larger braking surface for smooth, sure stops.

Dodge Gyro-Matic is the lowest priced automatic transmission on the market. It lets you drive without shifting... yet it is simpler, safer—gives you full control of your car under all driving conditions. Come in—see and drive today's big Dodge.

Roger Babson Says --

Babson Discusses MacArthur Babson Park, Mass., May 3. Unless the leaders of our country can rejuvenate the common spiritual values which give meaning and purpose to the New World, America is headed as the leader of free nations.

America Adrift
I get lots of letters these days asking me, "What can a man believe, anyway?" They come from business managers and production line workers alike. One man is as confused as the next. One doesn't like labor unions. Another doesn't want the United States fighting wars in Korea. But all have a good word to say for General MacArthur.

MacArthur reports that Japanese intellectuals have been shocked by the inability of even our military officers to tell the Japanese what we believe in as a nation and what our long-term objectives are. We don't want the tyrannies of Hitler or Mussolini or Stalin. We don't want British Socialism. We don't want Communism; but, for the moment, we want MacArthur! We are fed up with the political mumbo-jumbo out of Washington. We are relieved and encouraged to find someone who has a policy, even if we don't agree with it.

What Americans Want
I think most Americans want

something substantial they can grab hold of—something to believe in, an ideology, a creed, a way of life. Something with more substance than a 50-cent "dollar bill." There was a time when the Church gave a meaning of life to people. Apparently this isn't fashionable any more. Our neglect of the spiritual has brought about a great cultural lag in Western civilization.

What was it that satisfied so successfully the wants of our forefathers? Certainly, it wasn't fast automobiles, television, the 40-hour week or a soft life. I believe the happiness and success of our ancestors in this country was the result of their spiritual and courageous approach to problems. The roots of our vitality are not economic. They go deep into the ethical and spiritual soil. Today the trouble is that a startling lack of religion has crept into our national economic thinking. Ask the average person what has made America great and he will probably reply, "Our vast resources and our unparalleled production system." People who think this way have the cart before the horse.

Spiritual Rejuvenation
I am not a social scientist. Anthropologists tell me, however, that in order for any society, primitive or highly civilized, to hang together, it must have a courageous, but simple, rational creed, a set of spiritual values with strong emotional appeal which give meaning to life. This, I believe, is what we have lacked in the Western World since the disillusionment of World War I. This is what most Americans today long for—a vital, creative, forward-looking creed. We would like more brave leaders to help implement our beliefs for us. Many Americans do not like forthrightness appeals to everyone.

Perhaps it is a defect that too many of us voters are waiting for someone else to come up with a real creed. This isn't the way our forefathers operated! They thought their policies out for themselves. I think more of our political, labor and business leaders need to take time to think, pray, meditate, and see if they can't rediscover life's essentials.

A Practical Suggestion
Did you ever stop to think what might happen if your neighborhood turned off the TV or forgot the corner music for a night a week, and instead met one night each week in some house to discuss ways to save our Union? The idea is explosive! Think of the force which such grass-roots thinking of this kind could exert on the electorate—on the nation and the world.

Ever have peas growing out of your walls?

Safety Patrol Leaders Going to Visit Washington

Two safety patrol leaders from the Plymouth-area will go to Washington, D. C. with 100 outstanding Michigan young men Thursday, May 10. They'll be guests of Automobile Club of Michigan on a four-day all-expense trip to the 15th AAA National Safety Patrol Rally.

They are: Carl J. Bauer, 766 York, age 12, of Starkweather school in Plymouth and Ronald P. Johnson, 1907 Westmore, age 11, of Pierson school in Livonia.

Bauer and Johnson were chosen by local school authorities and Club safety men after their schools were cited for their superior 1950-51 safety patrols.

Highlights of this year's trip will include participation by Bauer and Johnson in a mile-long parade down Constitution Avenue with 25,000 patrolers from all over the nation, led by William "Hopalong Cassidy" Boyd and Don Gehmann, fastest mile-runner in the world.

All expenses of the 100 Michigan boys will be borne by Auto Club as tribute to the motorist public for the 200 hours per year which each of 41,500 Michigan safety patrol boys and girls spend guarding school corners.

Winning safety patrol leaders will gather in Detroit Thursday afternoon for registration and physical checkup. With adult supervisors and registered nurses, they'll board special Pullmans on the Baltimore and Ohio Ambassador at 5:45 p.m. for the overnight trip to Washington. A magician will entertain them after dinner until bedtime.

Friday morning they'll see downtown Washington and the Capitol building on their way to the Willard Hotel, a short distance from the White House. Friday and Saturday afternoon they'll go sightseeing to Arlington Cemetery, Mt. Vernon, Tomb of the Unknown Soldier, the first U. S. public school, Lincoln and Washington Memorials and other historic spots.

Michigan's 17 heroes who have received medals for saving lives while on safety patrol duty will have places of honor in the reviewing stand along with Washington dignitaries for the Saturday morning parade.

After buying souvenirs, the patrolers will leave Washington Saturday at 5:50 p.m. EST and arrive in Detroit Sunday, stopping at historic Harpers Ferry enroute. They will be conducted to their homes by members of the Club safety staff.

A woman in Chicago got into serious trouble by opening her mouth. The lady, a bad check artist, was standing in a police lineup and was identified by a dentist who recognized her as the lady who gave him a bad check for \$5. The dentist's patient had come to his office to have a bridge made. The doctor made an impression and slipped it into the lady's mouth.
