# New Charter Eliminates Curb on Special Assessments

## Take Away 25 Percent Limit and Need for Waivers from Residents

One of the most significant and far reaching changes in the new proposed city charter is the provision which takes away the 25 percent limitation on special assessments a city may levy against the residents for the cost of public improvements.

As it now stands in the old city charter adopted in 1932, the city can not levy a special assessment over 25 percent of the assessed valuation of property.

But if residents wish to have public improvements such as sidewalks, paved streets, storm and sanitary sewers, curb and gutter, and water, the cost of these improvements must be defrayed by special assessments.

However, under the old charter, if residents wish to have public improvements on their street — one property owner can stymie the whole program.

Waivers must be obtained from every property owner and person having an interest in the property in the event that 25 percent of the assessed valuation is less than the cost of the improvement and outstanding special assessments of the property.

"Let us take one example of a Plymouth resident who owns a home valued at \$8,000; the assessed valuation of that home would come to \$4,000, which is 50 to 60 percent of the home's actual value. The city can only levy a 25 percent special assessment of the assessed valuation of the property which would come to \$1,000."

"If a typical Plymouth homeowner wanted installation of a sidewalk, curb and gutter, street pavement, water, storm and sanitary sewer the special assessment would total \$850."

The special assessment of \$850 would come under the 25 percent or \$1,000 limitation. However on many of the streets there are vacant lots owned by out-of-town people who do not wish to be assessed for public improvements. These out-of-town people will not sign waivers and the Plymouth homeowners can not have their public improvements, said City Manager Glassford.

With the 25 percent limitation of special assessments, the owner of a vacant lot valued at \$400 can not be assessed for a public improvement over \$100.

Under the special assessment provision in the old charter — one individual can hold up the paving of a street, installation of sidewalks, curb and gutter, water and sanitary and storm sewers. The city commission could not assess this individual for any of these improvements because of the 25 percent limitation on special assessments.

The provision in the new charter does not contain references to the need for waivers. "The charter commission believes the new provision will facilitate the construction of public improvements with greater ease and efficiency," stated City Manager Glassford.

In the new charter, before the commission considers making a public improvement, the proposal is referred to the City Manager who must submit a complete, factual report on the proposed public improvement.

The report includes the necessary plans, profiles, specifications, estimates of cost and estimated life of the improvement, description of the recommended assessment, the amount of the special assessment and payment plans. The City Commission would then review the report and pass a resolution designating the necessary improvement and the part of the cost to be paid by special assessment. Both the resolution and report would then remain in the clerk's office for seven days where the interested residents could examine it.

A public hearing would then be held after the notice of the hearing has been published at least 10 days before the hearing's date. If over 50 percent of the owners of privately owned real property

## Major League Signs Dzurus For Next Year

Star Plymouth athlete, Wally Dzurus, 17 of 1317 Sheridan avenue, signed with the Cleveland Indians as was announced Friday. The terms of the contract were not disclosed, but according to his father, Walter Dzurus Sr., "the bonus is most substantial, more than sufficient to cover Wally's college expenses."

It is believed Wally is the first local baseball prospect directly signed by a big league club. Entering University of Michigan this fall, Wally is scheduled to report to Cleveland's Florida training camp March 5. He will be probably assigned to the Havana New York club of the Pony League for a year's seasoning.

Wally attracted a flurry of major league attention last year when he pitched the local Daisy Manufacturing club to the Detroit Times "Class D" tournament title at Briggs Stadium. Pitching for the Plymouth High school rocks this year, he fanned

## Norman Marquis Heads Fund Drive

Announcement was made this week by Robert Stewart, president of the Plymouth Community fund that Norman Marquis has been appointed General Chairman for this year's community fund campaign. Mr. Marquis who is serving his second year as a member of the Board of Directors, will immediately begin plans for the organizing and conducting of the annual drive.

Mr. Stewart further stated that increased budgets of all agencies served by the community request a proportionate increase in funds that must be reached by this campaign. The health, welfare and recreation needs of the community are constantly changing and the support given them is dependent upon the dollars each person contributes. It is not too early, even now, to start making plans for your contribution to this year's Red-Cross-Campaign.

Announcement was also made that Rex McKay was elected by the board of directors to succeed the late Mr. Clarence Moore, who recently resigned his position as member of the Board.

## Nazarene Church Retains Pastor

A new year has begun in the local Church of the Nazarene and they have invited Rev. Wm. O. Welton to remain for another year.

Mr. Welton and family came to Plymouth in 1945 and soon began the enlargement of their building to care for the fast growing Sunday school and church congregation. Their new building was dedicated in March, 1947.

Since dedication day the Sunday school has grown until every class room is overflowing. Other departments of the church are increasing proportionately. Due to the increasing population of Plymouth and the surrounding area, the church board saw the need of planning for the future care of many who will be reached by their church.

Plans were made and a three acre plot of ground on East Ann Arbor trail has been purchased on which a new church will be constructed some time in the future.

The present building at Holbrook and Pearl streets will be sold as soon as arrangements can be made to construct new buildings.

A grim reminder to Plymouth motorists who are planning to travel on highways on July 4th is the totally wrecked automobile parked today on Main street at Kellogg Park. The automobile is displayed under the auspices of the Chamber of Commerce and will be exhibited through July 4th.

Police Chief Carl Greenlee urges Plymouth motorists to exercise extreme caution on the highways which will be crowded with July 4th celebrants. "The police department advises all Plymouth residents to stay home on this gay holiday which is often marred by tragedy for many families, who are victims of careless drivers," said Police Chief Greenlee.

Chamber of Commerce members point out that Plymouth residents will have many activities right in their own city, safe and assure an enjoyable, safe, and sane July 4th celebration.

## Paul Wagner Resigns From City's Schools

Plymouth music lovers received a sad shock Monday when they learned of the resignation from Plymouth schools of Paul Wagner, musical and band director here since 1946.

Accepting a similar position with the high school in Pekin, Illinois Mr. Wagner stated that he was reluctant to leave Plymouth since he had enjoyed his musical affiliations in the city so much but that the Illinois offer couldn't afford to turn it down.

Since coming to Plymouth he has been credited with developing one of the finest high school bands in the country here and his enthusiasm in the field of music has been the underlying cause of the unusual development of Plymouth's symphony orchestra which has become nationally known.

Mr. and Mrs. Wagner and their two children will move shortly to Pekin.

Brought to the club by Rotarian William Wood the two Ford executives told of the plans for development of the huge tank arsenal in a question and answer session that covered everything from manufacturing to employee housing.

Mr. Lane is manager of industrial relations at the plant and Mr. Heric is administrative assistant to the general purchasing agent. The talk brought to light the fact that most of the parts used in the tank assembly will be purchased by Ford and the Plymouth road plant will be used mainly for assembly purposes.

## Daisy Passes Out Profit Sharing

Daisy employees enjoyed their annual picnic and profit sharing payment last Friday afternoon in Riverside Park. There were 800 members of the Daisy family in attendance for an afternoon of fun that culminated with a brief talk by executive vice president Cass S. Hough and the presentation of profit sharing checks.

Slightly over \$153,000.00, which amounted to the first 1951 payment, was the amount of the profit sharing. One half was paid in cash to the employees and the other half placed in their retirement fund. The maximum cash payment before taxes was \$208.00. Although the company did 25 percent less business during the first six months it was able to show 91 percent of last year's profit in its distribution during the same period.

## Former Manager Accepts New Post

The appointment of Clarence Elliott as city manager of Kalamazoo was announced Tuesday by the city council of the paper city of Michigan. Mr. Elliott served as city manager in Plymouth from 1936 to 1946 and left here to accept a similar position in Jackson, Michigan where he has served since.

The announcement stated that Mr. Elliott's salary would be \$14,000 per year.

Everything is in readiness for Plymouth's big Fourth of July celebration according to general chairman Ralph G. Lorenz. Action will start late on the afternoon of July 3rd when local automobile and farm equipment dealers will assemble their late models for the second Annual automobile show on the grounds back of the high school. This feature of last year's celebration proved most successful and it is hoped all of the holiday celebrants will visit this interesting display.

A giant midway is being erected also back of the school where various entertainments can be found and there will be rides for children, both young and old. One of the special features on the midway will be the St. John's Episcopal Church booth where old fashioned beef barbecue sandwiches will be available all during the festivities.

The Tuesday night program includes such events as the bathing beauty contest and the crowning of Miss Plymouth as queen of the celebration. According to Ralph Rostow, chairman of this section, everything is in readiness and Governor G. Mennen Williams will be on hand to help choose the queen and call some of the square dance numbers to be held on the school's tennis courts on Adams street.

Also on the Tuesday night program is the amateur show which will be under the direction of Roy Rew. Many entries are already booked for this event and it will prove an interesting part of the Tuesday night program.

Wednesday will be a busy day too starting with the parade at 10 a.m. Competitive games will be held Wednesday afternoon near the midway under the direction of the Recreation department and a huge display of fireworks in the evening will wind up the two day affair.

Things are all in shape for the kiddie section of the big parade according to chairman Mrs. Edwin Schrader. Registrations will be taken from 10 to 6 on Friday at the D and C store. Saturday registrations can be made at Davis and Lent from 9 to 6 and all of the children's prizes will be on display at the latter store for the two days. The children's section of the parade will only march from Forest street to the city hall where they will be diverted directly into the school grounds.

Registering the children on Friday and Saturday will be Mrs. Jack Selle, Mrs. Robert Beyer, Mrs. Marvin Sackett, Mrs. William Herbold, Miss Cynthia Eaton, Miss Susan Wesley, Miss Susan Goddard, Mrs. Ray Williams, Mrs. Al McGuire, Mrs. Robert Minock, Mrs. J. M. Robison, Mrs. Frank Allison, and Mrs. Joseph West.

Everything from popular singers to players of musical or unusual instruments will perform in the entertaining amateur show which is slated for Tuesday evening at 7 p.m. on the high school grounds. Magician Roy C. Rew will act as Master of Ceremonies. All of the talent in Plymouth and in the area will appear in the show. Prizes will be awarded to winners in the amateur show. The show will feature singing by a junior and senior chorus. Everyone is invited to watch the show and help select the winners.

Two ponies, three bicycles, week-end for two at a Northern resort, a deep freeze filled with food and many other valuable gifts will be given away by the Chamber of Commerce and local merchants at the celebration.

Plymouth's beauties will be on parade in the Popularity Contest which will take place Tuesday evening at approximately 9 p.m. Among the many lovely contestants, one young lady will be chosen by the audience to reign as Miss Plymouth on July 3rd and July 4th. Governor G. Mennen Williams will help read the applause meter and will present the \$100 war bond and corsage to the queen.

A gay time is planned for the kiddie section of the big parade. Competitive contests will be held from 1:15 to 2:20 near the midway on the high school grounds. At 2:30 contests will be held for the 16 to 21 age group. Directing the girls' contests will be Jennie Donnelly, Helen Stermick, and Beth Douglas. The boys' contests will be conducted by Beth Holschel, Rose Mary Dowsy, Mrs. Gladstone and Herb Woolweaver.

Shuffle board and golf chipping will be available for men and women at 1:15 and 1:30 p.m. The traditional 4th of July softball and baseball games will be played from 2:30 to 5 p.m. at No. 1 softball diamond at the high school. In the first game, the Lutheran Longhorns will vie against the Starkweather team. The players are in the mid-level league. In the second game at 3:45 p.m. Twin Pines will play the V.F.W. of Northville in another mid-level league game.

## Church To Hold Barbecue on 4th

An old-fashioned beef barbecue will be staged by St. John's Episcopal church on the evening of July 3rd and on July 4th for Plymouth's Independence Day celebrants. The ox-roast will be available in one of the booths on the gay midway in the high school grounds.

Lying back of this project is the desire on the part of the church vestry and men's club to pay off the mortgage on the rectory. Barbecued beef sandwiches will be sold from a booth on the school grounds. Tickets will be sold before hand and around the high school grounds by church members.

Harry Draper is general chairman of arrangements; Walter Breed, construction chief; Harry Christiansen in charge of ticket sales; E. B. Williams, Bob Wiloughby and Ken Hulsing, barbecue committee; John Sumner, transportation; Sidney D. Strom, publicity chairman; and Walter Sumner and Dean Saxton, officers of the day, respectively for the 3rd and 4th. Ernest Henry, well and widely known for his culinary abilities will be chief barbecuer. Mrs. Dean Saxton made the posters in store windows.

## Chamber Secretary Making Recovery

Friends of George A. Smith will be pleased to know that he is making a swift recovery from a Tuesday morning operation on the bottom of his foot at St. Joseph hospital, Ann Arbor. The operation altho a serious one was most successful and it is hoped that within a few short weeks Mr. Smith will again resume his duties at the Chamber of Commerce office.

Plymouth residents are asked by the City Manager to call the police department if they see stray dogs. Mothers are cautioned to warn their children against playing with stray dogs.

### "I REMEMBER" BY THE OLD TIMERS

From Mrs. R. E. Thomas, Clarkton, N. C.: I remember the doctor would ask for a piece of corn bread, a plate and a knife. He would turn plate bottom up and with knife he would work some beaten-up drugs and bread together into rolls, cut rolls into little bits and with fingers he would roll bits into little pills. One time my small sister brought him some ham with the plate and corn bread, and to humor her he ate the ham.

From Mrs. Melvin McLenore, Decatur, Ill.: I remember being in St. Louis when a ten cent soup bone and a fifteen cent soup "bunch" made a meal. It would include an onion, two or three potatoes, parsley, turnips or anything in the vegetable line. When we bought it, the butcher would give us a piece of lunch meat or a wiener to eat.

From Mrs. H. C. Fullerton, San Antonio, Texas: I remember when we had our "Sunday" best clothes. These were taken off as soon as we got home from Sunday school and church. Then we had our school clothes which we changed after getting home from school, to our everyday clothes. This went for shoes and hats too.

From Zaida Jones Blaine, Tuscumbia, Ill.: I remember when Grandma had pretty white pillow shams embroidered in red which we children thought very lovely. One was embroidered with poppies and said, "I slept and dreamed that life was beauty." The other was embroidered with morning glories and said, "I woke and found that life is duty."

From E. E. Meredith, Fairmont, W. Va.: I remember when an ivory and lace fan was a favorite gift for the girl graduate; when mother's first job in the morning was to clean the oil lamps and the lantern; when a kerosene lantern was tied to the rear axle of a farmer's wagon if he was out late at night.

**Urges Care in Rayon Storage**

Pack away your winter rayons with care if you want them to be in good wearing condition next fall, advises Lola Belle Green of the Michigan State college of home economics.

Rayon garments require some extra care if they are to carry well through the summer storage period.

Be sure the garments are clean before storing, Miss Green advises. Spots are harder to remove if they have become "set". Perspiration, if left, may affect colors. Rayon itself is immune to moths, but you will need to give garments made of rayon and wool moth protection.

Guard against silverfish damage by airing and brushing stored rayons frequently. If you find any of these tiny gray insects with long feelers in your closet, remove the garments and spray with a liquid insecticide. Follow this with a dusting of pyrethrum powder.

Do not store your acetate rayons in or near paper. It has been found that paper tends to speed up the gas fading (color change) that occurs in many acetate rayons. Wrap acetate rayons in old sheets, hang them in cloth bags or store them in wooden or metal containers.

Since felt and wool also tend to increase gas fading, it is important to keep stored acetate rayons away from these materials, Miss Green advises.

**Several Methods Open to Farming**

What are the ways to get started in farming? Many people are interested in this question these days says Warren Vincent, farm management specialist at Michigan State college.

Because most of the land in Michigan that is suitable for farming is already in farms, opportunities for starting a limited largely to making the start on established farms, he points out. There remains practically no agricultural frontier in the state.

Too often the prospective farmer believes that the road of complete ownership is the only way to go into farming. However, farm prices continue high and few can afford to take this step. What remains? Vincent points out that many roads to farming are still open. For a person with little or no experience, work as a farm hand will provide an opportunity to learn the complex job of farming. It gives a chance to establish a reputation as a good farmer, thereby leading to the opportunity to move onto a good farm as a tenant or owner when ready for that step.

The best move for some farm boys may be in a father-and-son partnership on the home farm if conditions are right for such a venture. The son gains experience and the father can eventually retire. Renting a farm offers a variety of ways to set up the farm operation. Several leasing arrangements are in common use, varying in the amount of capital required to go into farming.

Vincent suggests that prospective farmers talk with their local county agricultural agent. He will be able to give good suggestions on what to look for in a farm as to soils, buildings and values.

**Mrs. Duane Parks Leaves School**

While Mrs. Parks served in Plymouth's schools, she was the sponsor of the Home Economics club in Plymouth High school, and she has been well liked by all the girls in the organization all in her classes. Mrs. Parks, who has been residing at 190 W. Liberty street, is the wife of Duane Parks owner of Parkes Real Estate & Insurance.

Teachers throughout the United States are using the educational material on coal that is made available by Bituminous Coal Institute in Washington, D. C.

Bituminous coal operators have assured that steel mills, public utilities, rubber industry and the thousands of American manufacturers that they can count on the coal they need to arm American.

In 1950 fifty-two million tons of bituminous coal were loaded at Lake Erie ports.

From time to time we hear of someone facing a tremendous problem with faith and courage that shows the depth of the human spirit. It makes us regret our own complaints over minor difficulties. Like the Canadian, John Marton, whose 4-year-old son suffered from a brain affliction. Many doctors said there was no longer hope, but Marton carried the sick child in his arms on a 3000 mile bus trip, seeking help from a So. Calif. minister, and a brain surgeon. Longfellow wrote, "Our faith triumphs over fears." Now, as never before, we all need the kind of faith Marton has shown.

# New Charter Eliminates Curb on Special Assessments

## New Charter Eliminates Curb on Special Assessments

(Continued from Page 1)  
erty object to the public improvement and the special assessment, an affirmative vote of five out of seven city commissioners could over-ride the objection.  
Although this may not sound fair, City Manager Glassford pointed out that when something such as the construction of a sanitary sewer which affects the welfare and health of Plymouth residents is objected to because of the assessment, the city commission may have to over-ride the objections.  
"This provision dealing with special assessments has been a knotty problem to the charter commission. The nine persons elected by the Plymouth voters have worked hours and many nights on this one provision," said City Manager Glassford.  
"The entire public improve-

ments program has been held up," said Mr. Glassford, "by this 25 percent limitation and the necessity for waivers from every property owner on the street affected by the special assessment."  
"Without this limitation on special assessments the city would be able to really carry on a program of public improvements and give people the things that they want on their streets. But our hands have been tied," said the City Manager.  
Another important change in the new city charter deals with the municipal borrowing power. At present a three-fifths affirmative vote by the people is required when the city wishes to borrow money. This in another way, the City Manager pointed out, the municipal government is prevented from making public improvements.  
Under the new charter, the city would be subject to state law provisions which declare that a city can only borrow five percent of the total assessed valuation of

the city's taxable property, nor can they borrow in excess of 3 percent in any calendar year without a vote by the people.  
A safeguard against excessive borrowing is included in the new charter. A provision states that the "net bonded indebtedness incurred for all public purposes shall not at any time exceed 10 percent of the assessed value of all real and personal property in the city."  
"If the new charter is adopted," declared City Manager Glassford, "the way would be opened for the city to put in public improvements. For we could go along with our improvements program at a greater speed and with more ease."  
For example, if the city could

borrow money more freely when public improvements are put in, deferred payments could be arranged for the residents and the city could pay off the contractors so that the work could be carried on, cited the City Manager.  
In conclusion, the provisions dealing with special assessments in the old and new charters are printed below so that Plymouth residents may read them and compare the two provisions.  
The old charter states:  
"The aggregate amount of all special assessments which may be levied against any one parcel of land and be at any time outstanding, and not delinquent shall not exceed 25 percent of the value of such parcel of land, as shown by the city assessment roll."  
The provision in the new charter states: "The commission shall have the power to determine the necessity of any local or public improvement, and to determine that the whole or any part of the expense shall be defrayed by special assessment upon the property, especially benefited. The commission shall not be limited in the making of local or public improvements to those, for which petitions have been filed."  
The fate of the new charter will be decided on Monday, October 1 when the election will be held. The polls will be open from 7 a. m. to 8 p. m. If the charter is adopted it will go into effect on November 1 at 12:01 a. m.

## Aids Schools in Obtaining Beams

(Continued from Page 1)  
The federal government seized them.  
"It is now necessary," said Mr. Nelson, "to obtain a direct order from the Federal Security Administration in order that De-Croupet Iron Works can deliver the beams to us."  
Work on the new addition to the high school is progressing rapidly, said Mr. Nelson, and the only thing that is holding up construction is the need for the four beams. "We are ahead of schedule now," said Mr. Nelson.  
Mr. Nelson stressed the tremendous need for the new addition to the high school because of the increased number of school children in the area and the necessity for more facilities.

"The aggregate amount of all special assessments which may be levied against any one parcel of land and be at any time outstanding, and not delinquent shall not exceed 25 percent of the value of such parcel of land, as shown by the city assessment roll."  
The provision in the new charter states: "The commission shall have the power to determine the necessity of any local or public improvement, and to determine that the whole or any part of the expense shall be defrayed by special assessment upon the property, especially benefited. The commission shall not be limited in the making of local or public improvements to those, for which petitions have been filed."  
The fate of the new charter will be decided on Monday, October 1 when the election will be held. The polls will be open from 7 a. m. to 8 p. m. If the charter is adopted it will go into effect on November 1 at 12:01 a. m.

## Major League Signs Dzurus for Cleveland

(Continued from Page 1)  
64 batters in 37 innings. Cleveland's metropolitan Detroit scout, Nap Ross says the 6' 4" left-hander has a natural knuckleball, a variety even among veteran major league pitchers.

Captain of the Rocks' baseball team last year, Wally posted a new individual scoring record with a 243 mark, beating Duane Becker's previous 208 high. Team-mates honored him as their most valuable player.  
Any story about Wally would be incomplete without a word about his father. A onetime pitcher member of the St. Louis Cardinal chain, the elder Dzurus has managed and coached baseball for 20 years. He has managed the Daisy Class "D" entry for the past five years.

Wally indicated an active interest in baseball almost as soon as he could walk, he says, adding that he gave the youngster every encouragement but did not exert undue pressure upon the lad.

"Incidentally, I have been appointed Cleveland scout for this area and will certainly give any interested youngster all the opportunities at my command to make good with the Indians. I hope Wally's success will spur local lads to take baseball more seriously. . . . It is a wonderful character and moral builder," he adds.  
Mr. and Mrs. Dzurus have a second son, Jimmy, 10, already showing marked ability. Quite a baseball family!

## English Teacher Moves Out West

One teacher who will be absent from Plymouth High's faculty next fall is Mrs. Helen McPherson, who will reside in Roswell, New Mexico, where her husband is stationed at an Air Force Base, stated Helmer Nelson, superintendent of schools.  
Mrs. McPherson taught English and she has been in Plymouth's school system for four years. She will return to her home in Rosedale Gardens after her husband's term of service expires.

### To Issue Stamps in Detroit's Honor

Plymouth's post office will soon receive a supply of new 3-cent stamps in honor of Detroit's 250th anniversary. The stamps will be issued on July 24. The stamp will be blue and will depict in the upper portion the skyline of Detroit as it appears today and the lower portion will show the landing of Cadillac on Detroit's shores. Stamp collectors who would like first-day cancellations of Detroit's 250th birthday stamp, may send a limited amount of addressed envelopes, not over 10, to the Postmaster, Detroit, with a money order to cover the cost of the stamps. Postage stamps and personal checks will not be accepted. Other directions include that the envelope should be of medium size and "First Day Covers" should be written upon the envelopes. The Post Office states that collectors should not request hand cancellations for covers if a machine cancelled. Also orders for first-day covers must not include requests for uncanceled stamps. Stamp collectors who would like stamps of selected quality for philatelic use, requests may be addressed to the Philatelic Agency, Post Office Department, Washington 25, D.C. on and after July 25. This agency does not service first-day covers. For prompt shipment, mail orders to the agency should not include other stamp issues.

Milk toast may seem a little old-fashioned, but it's still a good breakfast or supper dish. Hot buttered toast, cut in pieces and covered with hot milk has lots of appetite appeal and provides good nourishment. Added to the B-vitamins, iron, and food energy of enriched bread is the calcium, phosphorus and vitamin A of whole milk. Try milk toast tomorrow for breakfast, with an orange cup as an eye-opener.

# Hints For Plymouth Homemakers

## Milady's Hair Needs Special Care for Summer

You might thrive on the outdoor life of the good old summer time, but your hair needs special pampering when it comes face to face with that happy old sun.

So, before your tresses become a hot weather casualty, heed these hints but easy precautions to protect your beauty's best friend.

An all-over permanent gives your hair much more body and makes it easier to manage. Then, too, it will last through many more trimmings.

The new Spin Curlers make it easy to roll curls right up to the scalp. And now Midget Spin Curlers help you catch and curl those wispy neckline hairs that can be so difficult. These little curlers were especially designed to fit into the curling mechanism, and give you a good strong curl where it is most needed.

Make a gay scarf or sun hat part of your beach, gardening and picnic equipment. Don't let too much sun make your hair dry and brittle and streaked with bleached strands.

Rinse your hair thoroughly with clear water after a swim in salt water or a chlorinated pool. Don't let these minerals be "sunbaked" on your hair to leave it stiff and "gummy."

Give your hair a "dry cleaning" between shampoos. Don't let excess oil and surface dirt take away from natural hair highlights. A piece of cotton saturated in your favorite cologne will do a very fine job on your hair. Separate small strands of hair and wipe them carefully from the scalp to the ends with the cologne-saturated cotton. Hot, humid days and "hatlessness" call for more frequent shampoos.

Roll up a few strategically placed pins at the beach if you need them, but don't make a public place your private beauty parlor! You can be attractive while your curls are drying. Wrap up a special set of pins by anchoring daisies (or whatever suits your fancy) to floppy pins with a bit of florist wire or strong thread. After your swim, roll the curls and secure them with the flower pins.

Remember, hair must be sparkling clean, brushed to a gleam and neatly curled to be really lovely. It may be more work in the summer, but when you slip into one of your pretty dresses, you'll be glad your hair is pretty too!

## PICNIC FOOD A-PLENTY

It's Fourth of July time! Warm picnic weather calls for good food that is reasonable in cost and easy to prepare. Picnic crowds are hungry!

### COME AND GET IT!

If this is a filling salad that will fit into your picnic menu.

### Picnic Salmon Salad

- 1 pound can salmon
- 1/2 cup of 1 lemon
- 1 cup diced elbow macaroni
- 1 medium cucumber, diced
- 1 cup diced celery
- 1 medium green pepper, diced
- 1/2 teaspoon salt
- 1 cup salad dressing
- 4 hard cooked eggs

Drain and flake salmon, removing bones and skin, sprinkle with lemon juice. Cook macaroni in boiling water as directed on the package. Drain and cool.

Combine salmon, macaroni and remaining ingredients in bowl suitable for carcase. Garnish with sliced eggs. Cover and chill for about one hour.

### Yield: 12 servings.

Any good picnic menu includes baked beans. Use two cans of baked beans (1 pound 7 ounces each). Place in a heavy casserole. Add one tablespoon prepared mustard, one-half cup brown sugar, one-half cup molasses, one teaspoon salt and one-half cup catsup. Stir to combine. Partially fry six or eight strips of bacon and arrange on the top of the beans. Bake in a moderate oven (350° F.) one hour.

Remove from the oven and cover. Wrap the casserole in several thicknesses of newspaper to keep it piping hot until you get to the picnic. This makes it easier to handle, too.

### Yield: 12 servings.

Lemonade may be made without so much as squeezing a lemon if you use frozen concentrated lemonade.

Chill tomatoes and take them off to the picnic to be sliced or eaten whole out of the hand. Tuck in a shaker of salt to add flavor.

Faithfully,

## Suggest Salads for Picnics

Murphy, F. R. Holsel, Perry Hix, George Davis, Mr. Edmond Robert Waldeck, and Milton Wagner. Refreshments were served by Mrs. Russell Magraw and Mrs. William J. Squires. The next meeting will be held at Plymouth Township Hall in September.

Soups and salads make tempting main dishes for luncheon, but your family will be hungry by mid-afternoon unless satisfying "side-dishes" and "munching" desserts are included in the menu. That's why for piping hot Brown 'n' Serve rolls, these prebaked rolls that take a short trip in the oven to turn them to a golden brown. Buy them plain or fancy, and serve with butter, margarine, or preserves.

## PLAIN AND FANCY FRANKS

### Double-Feature Picnics

By Marie Gifford

Nothing else tastes quite as good as frankfurters at a picnic—and franks taste twice as good as usual when you fix 'em two different ways. One look at the stars of this treat-packed double-feature will coax hearty appetites from even the most finicky eaters.

There's no need to wait for perfect weather. Any spot—river bank, backyard, kitchen, porch or game room becomes a picnic spot when you serve picnic food with all the fixings in typical picnic style.

For your next picnic why not serve franks both plain and fancy and double up the enjoyment. Just heat some of these juicy, tender franks plain—there's no real need to add anything to the wonderful natural flavor of star quality franks. If your picnic's outdoors, roast the franks on forks over coals or grill them. Indoors, pop them into a kettle of boiling water, remove the pan from the heat, cover and let stand for 7-8 minutes. They're already cooked, so they need only to be reheated.

For variety, serve some of them a delicious new way—stuffed with cheese and bundled up in tender-smoked bacon. Just split the franks and stuff with strips of cheddar cheese. Then wrap the bacon around the franks, pin it with toothpicks and heat over the outdoor grill or in the broiler until the bacon's cooked.

And here's the red-hot bill of fare for that double feature: Plain and bundled franks and buns, mustard, pickles, onions, baked beans, cookies, fresh fruit, and your favorite beverage. You'll find this he-man meal is easy on that all-important food budget, too. Pick up a couple of the pound packages of frankfurters when you're at the store today. Then surprise dad and the youngsters with a picnic tonight.

## Storing Hints for Woolens

A good wool coat is an important investment these days and deserves the best of care in the summer. The same thing goes for gloves, and other garments made of wool.

To protect such articles from the ever-present "clothes" moth, entomologists of the Department of Agriculture offer the following suggestions to those who are storing clothes at home:

If you are storing wollen garments in an ordinary closet which will be in frequent use, spray a commercial 5-percent DDT solution on closet walls, baseboards, on the floor, or on other surfaces where insects may be developing, or where they will come in contact with the DDT deposit that is left after the liquid has evaporated. It won't be necessary to spray the closet very often, as the DDT solution is effective for several weeks to several months.

When closet walls have been sprayed, moth adults or larvae crawling over the clothing surfaces will be killed. Since DDT has no fumigating effect, larvae in untreated clothing will not be killed.

To treat clothing, spray lightly over all the fabric on both sides with 5 percent DDT solution. Some products are made especially for fabrics, and of course do not cause stains. Keep away from fire when using an oil spray.

Articles stored in a trunk, chest, or wooden box that is reasonably tight can be protected perfectly during the summer by scattering the powder of either di-naphthalene or paradichlorobenzene between the folds of clothing, or preferably between sheets of thin clean paper.

Keep all covers tightly closed. Four ounces will give protection under ideal conditions. These chemicals are cheap, the entomologist point out, so it pays to overdose and be safe.

Packard Patrician '400'—most advanced motor car in America. Car details as shown subject to change without notice.

## Close-up...of an American Tradition!

Sooner or later, every quality-conscious family falls in love with a Packard. That's an American tradition.

And never has the pride of Packard ownership been so completely practical, because here you're getting not only the newest new car of the year... but the car most likely to stay that way for many a year to come! Just consider points like these:

You get the efficiency, and the incredible smoothness, of new Packard Thunderbolt engines—America's highest-compression engines. Plus: the service-free simplicity of a design with up to 25% fewer working parts than in engines of comparable power.

You get the amazing smoothness of Packard's exclusive Ultramatic Drive. And with it: the extra efficiency of no gas-wasting slippage when cruising.

You get the famed Packard Limousine Ride, with all its new refinements—a ride that's unequalled anywhere for gentle smoothness and enduringly firm roadability.

The deeper you look, the better you'll know why Packard has chalked up the most illustrious durability record in automotive history. For it's a fact that of all the Packards built—in the last 52 years—over 50% are still in service!

It's more than a car—it's a **PACKARD**

**Director Tells of Recreation's Role in Defense**

Plymouth will be represented in the National Roster of Recreation of Park Personnel for the emergency period by Herb Woolweaver, recreation director, who registered with the Roster recently.

The national Roster, being set up by the National Recreation Association involves the registration of all full-time professional workers in the recreation and park fields. The result will be a complete listing of trained and qualified workers ready to assist in maintaining essential morale services in all parts of the country.

"The problem for Plymouth, if a third World War comes," Mr. Woolweaver said, "is not one of disaster in the sense of being bombed or put out of business by enemy action. It could happen, of course, but the most likely difficulty in case of emergency would be quite different.

"In case of any serious emergency in the area, Plymouth would be a place where families and displaced persons would gather, either as a result of official action, or through a natural scattering to locations known to be relatively safe. Our problem would be to reduce the inevitable strain on broken families, evacuated children, and on the community itself. We would have to alter some of our activities to share this burden," he added.

"Emergency work under such conditions will be required by many people and they will work

harder if they know that their children and parents are as happy and comfortable as possible, and that they are not simply sitting and worrying," said Mr. Woolweaver.

"For a time, it would mean that our town would grow and its problems would grow too. One of these problems, for our community and others like it, would be the recreation and morale of our own native citizens and our temporary residents. While plans can and are being made to meet such a situation, our department cannot do all the things needed alone.

"The National Roster of Recreation and Park Personnel will make it possible for us to obtain quickly exactly the kinds of help we would need to expand our services. It means that our families in Plymouth would not go without recreation services, but that these would be supplemented if needed, to take care of our new people," stated Mr. Woolweaver.

"Voluntary registration for this emergency would also mean that I might be called on to give temporary assistance elsewhere—probably nearby—in case of an emergency in the locality. The value is, however, that all communities would share the load, that no village or city would be overwhelmed with work to be done and that no area would be left on all its professional recreation workers."

Mr. Woolweaver explained that the National Roster will also aid communities in preventing the disruption of recreation programs in time of total mobilization and will help locate, on short notice, persons best able to train volunteers for armed forces and defense industry recreation, emergency teen-age programs and camp communities.

In short, a National Roster of Recreation and Park Personnel will provide a pool of capable, experienced professional workers classified for immediate call according to region, occupation and special skills. National authorities can then easily locate those trained and available persons who are not now known to any central agency, but who might respond to a call for special service in time of special need.

Mr. Woolweaver also explained that the emergency project is being coordinated and administered by the National Recreation Association which is a permanent service organization in the recreation and park field supported by voluntary contribution.

The Association also provides assistance to communities through publications, correspondence and consultation and personnel service, as well as field service. The field representative for this state is John J. Coe, with offices in Toledo, Ohio.

Let us say, just for the sake of emphasizing a truth, that we are talking about you. All your life, since you were old enough to see and understand, you have known that Cadillac represents unquestioned supremacy in the motor car world. And you have said that—"when the time arrived"—you would own a Cadillac. Now, "the time has arrived." You have reached the point in your endeavors where you feel you are entitled to a Cadillac—and all the things it represents. But you hear that some delay in delivery has become unavoidable. "Maybe," you think, "there is a substitute. Perhaps some other car, which I can get more quickly, would do."

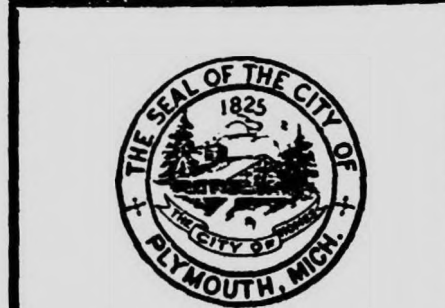

For the sake of your own welfare—please listen to this: There is only one car which is recognized wherever highways lead as the "Standard of the World." There is only one car which is held in the highest respect by newsmen and millionaires alike. There is only one car which is the hope and the ideal of motorists everywhere. And there is only one car which you, yourself, really and truly want. So stand firm in your convictions! Be patient! For patience will bring you the richest reward in the motor car world. It will bring you—a Cadillac! See your Cadillac dealer today—and get your name on his order list.

**Moms Co-operate to Begin Tot Lot**

Something new in recreation here in Plymouth will be the Tot Lot. Organized as a cooperative venture by Plymouth mothers, aided by the Department of Recreation, the Tot Lot is an experiment in the recreation department.

It is designed primarily to help children who do not have playmates to become better adjusted toward their fellow playmates. The Tot Lot is to be run on a supervised play basis, with two mothers and one intermediate scout at each session. It is hoped that the Tot Lot will be the forerunner of a co-operative nursery school next Fall.

Rainy day sessions will be held in the kindergarten room of the central school. Other days will be spent in Riverside Park, near Wilcox avenue, at a location that is thought to be most desirable in every way.

The following are members of the board: chairman, Mrs. L. Vabulas, Joy road; secretary, Mrs. W. Lyons, 349 W. Adams; treasurer, Mrs. F. De Mott; and publication and orientation, Mrs. John R. Kaiser, 9116 Hix road. The term began June 25 and will last until August 17, Monday, Wednesday, and Friday mornings, from 9 until 11. All children participating must be from five years of age.

A small fee per day payable once a week is to be charged. This money will be used to purchase necessary toys, fruit juice, crackers, etc. Each mother must be prepared to stay with her child from one to three days, depending on the child's reaction to the Tot Lot.

Each child must bring a com-

plete change of clothing in a paper sack, which is clearly marked with his name, each day. The adult in charge, may refuse to accept a child at any signs of illness, upon arrival at any session.

It is agreed that any child who becomes unmanageable and upsetting to the group, will be kindly but firmly removed from the group, until he feels he would like to join in again, on a more friendly basis. Each child must bring one pair of blunt scissors, and one of Daddy's old shirts, with the sleeves cut off, on his first day. These articles will be kept for the use of the child, by Mrs. Lyons. Each child should wear his name the first day.

Each mother will be assigned her morning to assist with the Tot Lot and she must be there without fail. In case of any emergency, please call Mrs. John R. Kaiser at Plymouth 1845-XJ as soon as possible, so that another mother may be called to fill in.

All mothers are urged to attend meetings, which will be held at 8 p.m. at the City Hall, on Thursday. Mothers will be notified well in advance of the designated Thursday. The next meeting will be June 28.

**Urge Motorists to Drive Carefully**

"Too many reckless motorists wreck their own and other people's lives on the Fourth of July," Police Chief Greenlee said today.

"Blanche street and Junction avenue.

Moved by Comm. Bauer supported by Comm. Fisher that the low bid of the Detroit Concrete Products as recommended by the Manager be accepted for the blacktopping of Arthur street between Blanche and Junction avenue at a price of \$1.90 per sq. yd. prime and \$1.65 per sq. yd. retread; and that the low bid of William Kloote be accepted for the curb and gutter at a price of \$1.90 per foot.

**YES:** Commissioners Bauer, Fisher, Hammond, Henry, and Mayor Tibbitts.

**NO:** None.

Moved by Comm. Hammond supported by Comm. Henry that the City Manager be authorized to employ Donald Sutherland to make the annual audit of the books of the City of Plymouth for the fiscal year 1950-51.

**YES:** Commissioners Bauer, Fisher, Hammond, Henry, and Mayor Tibbitts.

**NO:** None.

Moved by Comm. Bauer supported by Comm. Henry that the meeting be adjourned. Carried. Time of adjournment 9:45 p.m.

Pointing out that 491 persons died in traffic accidents over the Fourth last year, Chief Greenlee urged the city's residents to drive with extra care and caution. "Holidays always bring a heavy traffic and extra hazards," he said.

He pledged his department's wholehearted support to the nationwide Fourth of July safety campaign being co-ordinated by the National Safety Council.

Chief Greenlee advised motorists to start early if they plan an all day trip, so there will be no need to hurry.

"Slow down at sundown," he added, "and be patient in heavy traffic. Don't let annoyance make you take chances with your own or someone else's life. Avoid abrupt stops and turns, and be careful in passing another vehicle. Drive sensibly and obey legal speed limits. They are for your protection."

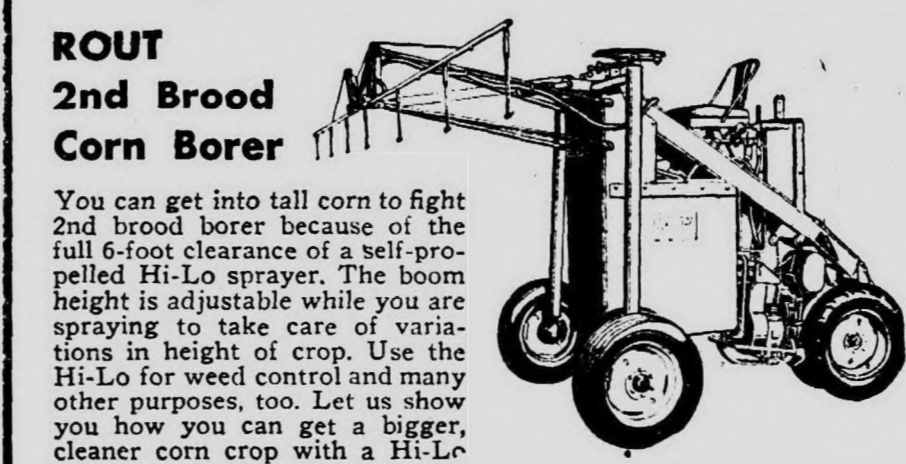

Excessive speed is involved in one out of every three fatal traffic accidents, Chief Greenlee pointed out.

**Decorative Tile Also Practical**

Home owners will be interested in a newly designed wall tile made of the plastic Styron (Dow polystyrene) in 16 exquisite decorator colors for planning kitchen and bathroom and nursery walls.

One new feature of this tile is an interlocking device which makes it self-aligning when being installed and brings the tile so firmly together that it is unnecessary to employ the old method of using a filler between the tile.

Another feature attraction is the deep bevel edge of this tile which gives a rich and handsome appearance. A ridge on the back of the tile holds a rich and handsome appearance. A ridge on the back of the tile holds the adhesive and provides a better wall grip, the manufacturer says.

Called "Pittsburgh Interlock Plastic Wall Tile," they are light weight, easy to clean and may be highly polished, if desired. Many complementary colors are available for trims. The product carries the Good Housekeeping Seal and is manufactured in accordance with standards set up by the Bureau of Standards, U. S. Department of Commerce, in cooperation with the Society of the Plastics Industry, Inc.

Plymouth residents can obtain the wall tile at Blunk's, Inc., Eger-Jackson, and Johns Hardware.

Styron wall tiles represent a major application of plastics in the building trade. They introduce to the market a new wall covering, which produces a hardy, permanent wall covering, and also an attractive, harmonious addition to the home.

The tiles do not require constructed walls for special installation. The wall tile resists stain, abrasion, and discoloration.

Other features of the Styron wall tiles are that the tiles are suitable for application on plaster, wood, tone and plywood.

Recently a spokesman for Dow said that the success of the product depends almost entirely upon the proper application. Careless installation of Styron wall tile can undo all the excellent technical work which has been done in the interest of manufacturing a good product.

If you want to eradicate marks in the carpet left by heavy pieces of furniture, lay a damp cloth over the spot and hold a hot iron over it, just touching. The steam will raise the nap.

**Where Have You Been all its Life ?**

**T**HIS ad is addressed to the fellow known as "the man on the street." From that vantage point, you must have noticed that a lot of folks are driving 1951 Buicks.

You must have noted that you can spot one of these beauties—by its sparkling forefront—its gleaming fender ports—(three for the SPECIAL and SUPER, four for the ROADMASTER)—and by its fluent grace of lines and contours.

You've probably noticed, also, that these Buicks give a good account of themselves in traffic—ease to a gentle stop—get away to a nimble start when the light says, "Go."

You may even have noticed that these cars have a level-gaited stride that traces, as we've said before, to the fact that each wheel rides beneath its own coil spring.

But what we'd like to know is—when are you going to try one?

It's about time you climbed in the driver's seat.

It's about time that you sensed for yourself the thrill that comes from feeling your shoulders sink back in the cushions, when your toe gives the gas treadle a gentle nudge.

It's about time for you to be on the receiving end of those admiring

glances which are the due of folks smart enough to pick the smart buy of the year.

What's holding you back? It can't be prices—for as you can see for yourself, you can own a SPECIAL for less than the price of some sixes—and SUPERS or ROADMASTERS are just as smart a buy in their fields.

So why not end the suspense? The welcome mat is out at our showrooms. We hope to greet you soon.

# Roger Babson Says --

**Babson Discusses Salaries of Teachers and Preachers**  
New Boston, N. H., June 28. With the national average yearly salary for experienced public school teachers, supervisors, and principals slightly over \$2,500 per year, it is little wonder that more than half a million of our best teachers have left our public schools since 1940. But whether our schools will be less well run, the instruction become slipshod, and the end product poorly prepared is another question. It, however, does seem shortsighted for we Americans to spend annually eight billion on liquor, five billion for schools and only one billion to all ministers, priests and rabbis combined.

teachers, and an average of only \$2,250 for their religious instructors. California, the District of Columbia, Illinois, Michigan, New Jersey, and Massachusetts follow close behind. Mississippi pays the poorest for both secular and religious instruction, while Arkansas, South Carolina, Alabama, and Tennessee do but little better. The Washington-Oregon-California area has an annual sectional average per teacher of \$3,065. New York, New Jersey, and Pennsylvania come next with \$2,856 and New England follows in third place with a sectional average per teacher of \$2,537. The same comparison applies generally to what the churches pay to their preachers. Yet, a bricklayer who is working on a Babson Institute dormitory told me that his "take home" pay is about \$5,000 per year.

**Typical Examples**  
One teaching couple whom I met on a recent trip and who live in a tiny three-room apartment told me, "We would like to have children of our own, but simply cannot afford it." Yet, such people would make the best of parents. Another husband, a science teacher, said, "If my wife gave up her part-time teaching job, we couldn't pay our rent on my salary. It's a question of how much longer I can afford to remain a teacher." Another school teacher who has a sick wife says he must do all the housework, including cooking the meals, after his school work.

**NOTICE TO BIDDERS**  
Sealed proposals will be received by the City Clerk in his office in the City Hall, Plymouth, Michigan, up to 3:00 o'clock P.M., E.S.T., on July 2, 1951 for the construction of Sunset Street curb and gutter, between Blanche and Farmer Streets.

The work will consist of approximately 840 feet of concrete curb and gutter and will include the excavation, backfill and final trim.

The drawings and specifications under which the work is to be done are on file and may be examined at the office of the City Engineer.

A certified check or bidder's bond for a sum not less than five per cent (5%) of the amount of the proposal will be required with each proposal.

The right is reserved by the City to accept any proposal, to reject any proposal and to waive irregularities in proposals.

No bid may be withdrawn after the above date and time for receiving bids for a period of thirty (30) days.

Albert F. Glassford, City Clerk
