August 22 will be a big day for many Plymouth youngsters according to Robert Minock, chairman of the annual Optimist Fish Derby. Any boy or girl under the age of 14 who registers has a chance of winning a complete fishing outfit merely by catching the largest game fish in the contest to be held at Kent lake Wednesday, August 22. There will be other prizes, too.

The boys and girls will leave from the Plymouth High school at 12 noon next Wednesday by bus and will be supervised by members of the Optimist club.

The winners will receive their prizes when they return from Kent lake. Floyd Tibbitts, mayor of Plymouth, will make the presentations.

Some of the important rules are:

1. All winners must hook and land their own prize-winning fish without physical assistance from an adult.
2. Contestants must fish from shores or piers, on boats allowed.
3. Each contestant must furnish his, or her, own fishing equipment.

Other rules will be given at the time of the contest. Any boy or girl under 14 who is interested in participating in the contest may register at the City Recreation office on the second floor of the City Hall, or with Robert Minock at Wiedman's Ford garage before Monday noon, August 20. Better register right now! Remember it all takes place next Wednesday.

## Muskmelon Crop a Blinger!

Plymouth home-grown muskmelons — the best and sweetest muskmelon grown anywhere in the country — are now on the market in Plymouth. They are the best and sweetest, if grown by melon raisers who know how to grow them properly, and it seems that every melon grower in the Plymouth area knows just how to grow these delightful tasting melons.

"They say" — meaning the melon growers — that there is going to be a good crop if rains continue to fall at the right time. There are some melon growers, however, who do not depend on the rain. They produce their own showers via overhead irrigation systems, with showers in just the right amount and just at the right time, falling from these sprays. Best apostles of the overhead irrigating system are the Grimm brothers, corner Ann Arbor Trail and Wayne road.

Indications are that their melon crop this year will be by far the biggest ever produced. So far prices remain about the average of a year ago—but wait until the bureaucrats in Washington hear about this.

## Plymouth Township Valuation Far Exceeds That of the City

If present building trends continue, the valuation of Plymouth township will exceed that of the City of Plymouth by many millions of dollars by the end of another year.

Already the township valuation is far in excess of that of the city, but the erection of another big Burroughs plant addition, the completion of the new plant of Barnes-Gibson-Raymond on Plymouth road, in addition to the erection of scores of new homes in the township, will add several millions of dollars to the township tax rolls.

The present valuation standing around \$16,000,000, may go as high as \$20,000,000 if industrial expansion in the township continues. While Charles R. Ratham does not care to make any positive statement just at this time, he is most optimistic as to the future development of the township.

The recent assessed valuation of the city of Plymouth stands at \$12,147,530, nearly \$4,000,000 less than that of the township.

## Red Cross Reveals Fact That Daisy Gives Aid to Help Flood Sufferers

The Detroit office of the Red Cross announces that one of the largest gifts received for the special flood relief fund came from the Daisy Manufacturing company of Plymouth. Mr. Damon, of the Red Cross, says the \$1300 contributed by Daisy was one of the earliest received.

The Red Cross is carrying on a mail campaign in raising funds to rehabilitate the thousands of people who lost everything in the recent mid-west floods. Thus far, the relief fund committee have received \$75,000 toward the Detroit and Wayne County goal of \$192,000. President Truman recently asked the nation for \$5,000,000 to ease the plight of the victims.

Before he accepted the chairmanship of the Detroit and Wayne County drive, John A. Greene, president of the Michigan Bell Telephone company, flew by plane over the stricken area and got some first-hand information on the disastrous results of the flood.

## Local Residents Entertain State Pony Club Here

The Michigan Pony club was entertained at the home of Mr. and Mrs. Roy Jewell of 39859 E. Ann Arbor trail Sunday, August 12. About 60 guests were present.

The Pony club was originally founded four years ago, for the "betterment of the Pony Kingdom." It has a membership of 35 persons scattered over the lower peninsula of Michigan and in northern Ohio. These 35 own between 400 and 500 ponies. Some of the members raise ponies for commercial reasons and some for a hobby. Mrs. Kerr of Rochester has the largest breeding farm with 45 ponies.

This year the Club will show all its ponies at the Jackson county fair, and some will show at the Hillsdale fair. Mr. Jewell and his granddaughter, Connie, are the only local members, but there are many potential members in this area they would like to see join. If anyone desires any information about this Club he may contact Mr. Jewell at his home or call 369.

## Community Chest Plans Progress

The organization for the Plymouth Community Chest campaign is progressing rapidly and most of the early groundwork has been completed, states Norman Marquis, Chest general chairman.

As soon as all the agencies receiving aid from the Plymouth Community fund have submitted their budgets for the year 1951, the directors of the Fund will set up the goal that must be attained this year.

Dean Saxton will be chairman of the business unit. It is expected that the local service men's clubs will again give the assistance to this phase of the drive as they have so capably done in the past.

Dora Gruebner and Betty Brake will jointly canvass the local school participation.

Mrs. Dan Mills will be in charge of the general residential units.

## Wisteria Plant Blooms 3 Months Out of Season

You've heard of June in January, but did you ever hear of May in August. A local Wisteria vine has. The plant, owned by Mr. Fred Geng, 378 Joy street, is now blooming forth about 25 blossoms. Mrs. Geng says the plant has blossomed only in May for the past 15 years and she cannot understand why it is blooming now. She also says that the blossoms, usually white, are now an orchid tinge.

## Golf Tournament Enters 2nd Week

Playing the consistently steady golf that has earned him three city golf championships, Tom Locke, who is defending amateur champion, again proved his mettle by taking low medal honors with a one over par round of 71 during the qualifying rounds last Saturday at the Hilltop Golf Club. Two strokes back, at 73, to take second place was Larry Bentley of Rosedale Gardens, with third place honors going to Gordon Moe with a 74.

Hole-in-one awards for the closest shots to the pin on the 4th hole were won by Larry Bentley, Tom Locke, and George Todd. Bentley's shot was 6 feet 8 inches from the staff, Locke's was 10 feet four inches and Todd's was third closest at 15 feet.

Low qualifiers who scored in the seventies were: Tom Locke 71, Larry Bentley 73, Gordon Moe 75, Bill Petchauer 75, Bob Johnson 77, Lee Card 77, George Todd 77, William Woods 78, Al Richards 78, Harper Stevens 78, Bud Archer 79 and Elwood Russell 79.

Results of the match play rounds which started Sunday during which the low 32 scorers played 18 hole matches to determine which 16 players would remain in the championship flight and which would drop into the first flight netted the following results: Bud Archer def. Don Steele 3-2; Herb Burley def. James Meyers 6-5; William McAllister def. Mark Baughman 5-4; William Woods def. Harry Bowers 2-1; Tom Locke def. Walter Patrick 2-1; Sam Coffee def. Norm Priehs 1 up; Al Owens def. Elwood Russell 6-4; Bruce Turnbull drew a bye on Larry Bentley; Bob Johnson drew a bye on Chris Burghardt; Rocky Smith

## Survey Reveals Plymouth Water Consumption Up

Records show that consumption of water in Plymouth has jumped to an all time high. The city is now using almost a million gallons a week more than it did four years ago.

The city water supply, subject of a law suit now awaiting judgment in Wayne county circuit court, has been improved and strengthened until now it is one of the most efficient for its size in the state.

Some years ago, before new pumps were added, the water supply fell short each summer and pressure fell to dangerous lows. In 1947, the city used an average of 684,000 gallons per day. August was the peak month of that year with an average of 911,000 gallons per day with a peak day of 1,291,000 gallons.

In the first six months of 1951, the city has used an average of 808,000 gallons per day, with the peak day, in June, running 1,380,000 gallons. City officials estimate that the well field pumps could produce over 2,000,000 gallons per day. However, as the pumps have never been called upon to produce so much, it is not known what effect such a demand would have on the water table.

The city is still awaiting judgment on the suit brought by the Northville Sand and Gravel company to allow them to perform sand and gravel operations in a field next to the supply field. All briefs have been filed in the case, and City Attorney Harry Devo is waiting for the judge's decision. Should the decision be unfavorable, the water supply would be greatly endangered.

The water supply system has faithfully served the community for many years. Until 1942 the entire supply was obtained from the Beck Road Well Field near Seven Mile road and was brought into the city through a 10-inch supply main built in 1904. In 1942 a new well was drilled to the Mill street Booster Station in the northeast corner of the city. While this well produces water in sufficient quantity, the water contains an obnoxious odor and a salty taste which render it objectionable to consumers.

Water from all wells in the vicinity of Plymouth is very hard and most consumers have water softeners in their home.

A \$525,000 bond issue in 1948 made possible a new 16-inch main to carry water into the city over a new route. Other improvements have been made with Water Department funds, until now the city has an even pressure at all times.

## Building Permits Show Increase Over Last Year

New home building in Plymouth has somewhat increased over the same period last year. Building permits issued for new homes in June and July, 1950, totaled ten. Permits for the same period this year total 13. In addition there have been many permits issued for home remodeling and enlarging.

The 13 permits issued in June and July of this year are for: a \$3000 home for Oscar Hicks at 662 Armada; a \$23,000 brick veneer home for Robert Stewart at 1368 Elm; a \$9500 frame home at 741 Ann street by Daniel Mills; a \$15,000 brick veneer home at 849 S. Main by Daniel Mills; a \$7620 frame home at 1064 Carol for Forrest Olson; a \$7500 brick veneer home at 989 Ross street; a \$7500 home at 433 Sunset by Garling Construction Co.; a \$7500 home at 340 Irwin by Garling; a \$7500 home at 283 Evergreen by Garling; a \$7500 frame at 647 Kellogg by Garling; a \$7500 frame at 680 Kellogg by Garling; a \$4900 cinder block building at 232 S. Main; and a \$27000 R. R. yard office on Junction street by Thomas Wilson, of Detroit.

## City Has No Plans for Jail Problem

The city jail problem, discussed in the Mail two weeks ago, is still under consideration by the city with no definite solution in sight. City officials are thinking of moving the jail to the main floor of the city hall, because of the state law forbidding jails to be on any lower floor.

Lack of funds prevents any possibility of a new jail. The city has other things of more importance to take care of first. At present they are working on the Library extension fund and hope to start work within another year.

The recent sidewalk construction and repair has cost the city a considerable sum as has the work on the new city charter. Something will be done about the jail problem as the money becomes available.

PRINCIPALS OF THE GROUND-BREAKING CEREMONY of the new Salvation Army citadel, expected to be completed in three months. Frank Henderson, left, has just turned over the first spade of dirt in the ground-breaking ceremonies. The others, left to right, are: Mrs. Henderson, Daniel Mills, Mrs. Mills, Mrs. William Forney, Claude Buzzard, William Forney, Charles Brake, Lt. Col. Larsen, Rev. P. M. McPherson, Captain Roberts, Mrs. Roberts and Major Cox.

## Successful Tot Carnival Closes Playground Year

The Recreation playground season came to a climax Tuesday evening with a well-organized Kiddie Carnival. The happy expressions on the faces of our tiny tots told the success of the event much better than words can do. Many comments from adults are like this, "This should become an annual event." A crowd of around 300 attended the carnival and remained to see the talent show, which was staged in the Central Grade school gymnasium immediately following the outdoor program.

Small feet were strolling from one attraction to another. The fish pond, bowling game, dart-bingo game, penny toss, put the ball through the hoop, and bingo game were the main features in the eyes of the kiddies. Many worthwhile prizes were given away as door prizes in the gymnasium. These prizes, along with all those used at the carnival, were generously donated by the merchants of Plymouth. A list of these contributing merchants was published in last week's edition of the Mail. Three merchants, through an error, were omitted from that list—Wimsatt's Electrical Appliances, D & C ten cent store, and Plymouth Men's Wear.

Much credit must be given the Recreational staff, the playground leaders, the Plymouth merchants and the children for making this carnival a huge success.

## Wiener Roast for German Students

The five local students who are spending a year in Plymouth from their homes in Germany were guests Sunday afternoon and evening of Mr. and Mrs. Edward B. Gardiner at their home on Phoenix road. Also present were the "German sons" of Mayor and Mrs. Conrad Langfield and Mr. and Mrs. Thomas Carlington of Northville. Miss Thelma Livingston arranged for the get-together.

After a tour through both the men's and women's division of the House of Correction the group enjoyed a good old-fashioned American game of baseball. None of them had ever had a baseball in their hands before.

This delightful game was followed by a wiener roast around a huge log fire—another first in Plymouth.

## Unusual Sunflower Has 36 Flowers Started

We have a report of an unusual sunflower growing in the garden of Mr. and Mrs. Peter Munster of 183 Amelia street.

The sunflower appears to be like any other except it has 36 flowers started—16 of them in bloom now. It is about 9 feet tall, and the tremendous weight of the flowers has made it necessary for Mr. Munster to prop it up.

## Superintendent Moves into New A.A. Road Home

Plymouth's new superintendent of schools, Russel Isbister, and his family have moved into their new home at 50005 W. Ann Arbor road.

The Isbisters moved here from Centerline, where Mr. Isbister had been superintendent of schools before transferring to Plymouth.

## Self-Employed? Social Security Now Covers You

Recent amendments to the National Social Security Act bring self-employed persons under the provisions of the act. The self-employed must make one report a year on their net income from self-employment. The report for the year 1951 will be due on or before March 15, 1952. A self-employed person is defined as any person in business for himself, but not a part of any company or corporation.

In order to insure that all self-employed persons in the Plymouth area understand the new amendments regarding social security protection for the self-employed, the Plymouth United Savings Bank is considering having a government representative spend a day at the bank to explain the act to any interested persons.

According to Harry Mohrmann, who is vice president of the bank, a representative could be present at the bank during banking hours, for one day, to give information and answer any questions on self-employment coverage which might be raised. If sufficient interest is shown the bank will be pleased to arrange for a visit of a representative of the Federal Security Agency at some future date.

## Kiwanis Visit Research Farm

One hundred Kiwanis Club members and their farmer friends visited General Mills Larro Research Farm Tuesday night, according to Dean Saxton, Kiwanis member and Plymouth's Larro dealer.

Mr. Saxton reported that the club members and their guests were taken on a conducted tour of the livestock and poultry experimental farm by farm members of the Larro Research Staff, who explained many of the latest developments in animal and poultry nutrition.

Dinner at 6:30 was sponsored jointly by the Kiwanis Club and General Mills. The main speaker at the dinner was Dr. H. Ernest Bechtel, Director of Larro Research. The group also heard from Mr. L. P. Emmerick, Farm Manager.

The Research Farm, at North-western Highway and 10 1/2 Mile road, is a 200 acre farm devoted entirely to animal and poultry nutrition and management research.

## Church Robbed for Second Time in Two Years

The First Presbyterian church on Church street was broken into Saturday night or Sunday morning for the second time in two years. Although considerable damage was done, the burglars received but little for their trouble. According to Mrs. Henry J. Walsh, wife of the church's pastor, only the contents of a piggy bank were taken. The exact amount it contained is not known.

The thieves entered through a rear door, removing a glass pane through which they reached to unlock the door. Once inside they broke windows in two other doors, jimmied a metal file case out of shape and marred another door trying to force it open.

Mrs. Walsh is at a loss to understand why anyone wants to break into their church. There is never any amount of money kept there. In the first robbery two years ago, the thieves escaped with ninety cents.

## Last Three Days for 4-H Club Fair

The Wayne county 4-H Club Fair, just off the expressway at Quirk road a mile north of Belleville, is in full swing. Members of the 4-H club from both rural and urban portions of Wayne county are exhibiting their workmanship and produce in livestock and handicrafts until this Saturday.

The livestock exhibits include dairy and beef cattle, swine, poultry and rabbits. Other exhibits include clothing, canning, foods, flowers, gardening, handicraft and electrical projects. A thousand or more boys and girls will compete for first prize ribbons and premiums.

Afternoon and evening programs will include judging and demonstration exhibits, tractor handling, plow and horse-pulling contests and acts from the recent 4-H fun festival. The fair will end Saturday night with a big fireworks display.

The county home demonstrator agent will operate the restaurant with a different staff of cooks for each meal, each group trying to put on the most tasty and wholesome meal of the fair. Mr. A. R.

## Last Concert By Band Friday Eve

The last of the weekly summer band concerts will be presented Friday evening, August 19, at 9 o'clock in Kellogg park. Director Robert L. Snyder wishes to take this opportunity to thank the many Plymouth music lovers who have made these concerts a success.

This last program will include S. I. B. A. march by Hall, Bitter Sweet overture by Coward, Shenandoah march by Buehish, Jalousie tango by Gade, Shrine of St. Cecilia by Braun, Men of Might march by Meretta; When Day Is Done by Katschwin; The Man I Love by Gershwin; Emblem of Unity march by Richards.

## Freight Cars Derailed as Steel Load Shifts

Two freight cars were derailed early Tuesday morning on the C. & O. track near the Beck road crossing. According to railroad officials, a load of steel in one of the cars had shifted, tipping the car over on its sidebearings. The car went off the rails, pulling another car with it. Railroad workers labored most of the day to get the track cleared and the two cars back on.

## City Collecting Delinquent Fees on Cemetery Lots

If you are one of the many who have relatives buried in Riverside cemetery, and if the lot is not paid for, you'd better pay for it or else the city will take it back and sell to some one else the unused portion of your family lot.

More than a year ago the City Commission and the Cemetery Board of Trustees discussed the matter of the many delinquent accounts on lots in the city cemetery, and what could be done about collecting them.

Many lots had been bought and never paid for, and a few dated back 25 years or more. The delinquent accounts totaled more than \$4000.

City Manager Glassford, through legal advice, found that it is possible to reclaim the unused portion of a cemetery lot. This is what the Board plans on doing if the back accounts are not paid in the immediate future.

Manager Glassford assigned his assistant, Nat Sibold, to check all these accounts. Mr. Sibold has contacted many "old timers" and, in this way, has located several relatives of the deceased.

Most relatives have been very cooperative, and a number were surprised to find that the lot had not been paid for. \$1300 has been collected to date.

The Board of Trustees has authorized Mr. Glassford to publish 1000 booklets in connection

## Business Women Go To Mackinac

The 1951 Regional Conference of the Michigan Business Women's Clubs will be held in the Grand Hotel, Mackinac Island, September 7, 8, and 9. States Mrs. Agnes Pauline, president of the local Business and Professional Women's club.

Mrs. Pauline says this is an especially important conference as it is the first one under the new re-dividing of Regions.

The new Region now includes West Virginia, Kentucky, Indiana, Ohio and Michigan, whereas, the old Regional division included North Dakota, South Dakota, Minnesota, Wisconsin, Iowa and Michigan.

## Salvation Army Breaks Ground for New Building

Ground breaking ceremonies were held Sunday afternoon at the corner of Fairground and Maple, site of the new Salvation Army citadel. The building, which will cost an estimated \$20,000, is expected to be completed in three months. Much of the work is to be volunteered by members.

The ceremonies were begun with an invocation by Reverend P. M. McPherson, who was introduced by Captain William Roberts, head of the local branch of the Salvation Army. Frank Henderson, chairman of the advisory board then introduced Lt. Colonel T. M. Larsen, head of the Eastern Michigan Division. After a short talk by Colonel Larsen, Mr. Henderson turned over the first spade of dirt.

Following the ceremony, Marion Donahue sang a solo and Major Clyde Cox, of Detroit, gave the benediction. Over 50 members of the local branch attended the ceremonies.

The advisory board members present in addition to Mr. Henderson as chairman, consists of Mrs. Daniel Mills, treasurer; Mrs. William Forney, secretary; and Claude Buzzard and Charles Brake. Captain William Roberts has been in charge of the Plymouth branch of the Salvation Army for four years.

The new building, which will be the local headquarters for the Salvation Army, is to be used also as headquarters for their youth recreation program. Local people, desirous of aiding in the building of the church, are asked to contact Captain Roberts.

## B-G-R Will Make Varied Products at New Factory

The new Barnes-Gibson-Raymond spring plant which will begin operations in their new Plymouth road plant on September 4, will make a variety of products that it is impossible to describe them all. The company makes thousands of different products for thousands of different purposes.

Orders vary from one spring to millions, and with the exception of die springs, all are made special for each customer. They have made springs weighing more than 300 pounds each, and they have made tiny wire parts weighing 100,000 to the pound. One type may have a load capacity of several thousand pounds, while another may specify a working pressure of one gram. Some springs work only a few times an hour while others require continuous operation as high as several hundred times a second.

Many springs must perform extra duty, such as resisting corrosion, dampening vibration working at high or low temperatures. Close tolerances and exacting specifications also present their problems in intricate design. It is easy to see why spring-making is a job for specialists dependent on the close teamwork of engineers, tool-makers and production men.

Exact and modern methods, have made B-G-R a symbol of spring craftsmanship at its best. Plymouth is proud to welcome Barnes-Gibson-Raymond to its industrial scene.

## Guidance Leader Resigns at P. H. S.

George W. Canfield, guidance director at the Plymouth High school for the past three years, has resigned to accept a position as principal of the Central Grade school at Ypsilanti.

This school, which has 18 teachers, is a combination of a grade school and a junior high school, and students remain there until they have completed the seventh grade.

Mr. Canfield felt this to be such a lucrative offer, and an opportunity for advancement, that he could not pass it up.

The Canfields were fortunate in obtaining a large house in Ypsilanti the day after he accepted the position.

## Good Fruit Crop Expected for Area

Local fruit growers predict a good crop of fruit this year, however it is expected to fall considerably short of last year's output. Severe freezes last November and this February incurred considerable damage to local fruit.

Ralph Foreman, fruit grower of 50050 W. 7 Mile road, says that quality should be good this year. Plums are coming already, he says, and peaches and early apples will be ready by the end of the month.

Prospects are for a good crop in Michigan, especially in this

Mrs. Cooley has had charge of the children's department at Dunings for several years past. They will be accompanied by Mrs. Cooley's parents, Mr. and Mrs. William J. Cox.

Sanford Bure Weds Milan Girl

At an impressive wedding last Saturday afternoon in the First Methodist church in Ypsilanti, Miss Ruth Alice Holowell repeated her nuptial vows to Sanford Paul Burr. The bride, who was given in marriage by her father, is the daughter of Mr. and Mrs. Robert J. Holowell of Willis road, Milan. Sanford's parents are Mr. and Mrs. George S. Burr of Sheridan avenue, Plymouth.

Ruth Alice Holowell

Palms and tall baskets of white gladioli formed the background for the four o'clock rites with the Reverend Harold Dehl of the Stoney Creek Methodist Church and the Reverend Melbourne I. Johnson of the First Methodist church of Plymouth officiating. Mr. Charles Bertsch of Grand Rapids and a friend of both young people was the organist. He played traditional wedding music and accompanied the soloist, Miss Marilyn Chisholm of Detroit, a friend of the bride, who sang "At Dawning," "O Perfect Love" and "The Lord's Prayer."

Ruth chose for her wedding, a gown of lace-like organza which was made by her mother and fashioned with a portrait neckline with scalloped yolk, low waistline and long tapered sleeves. The full skirt extended into a medium train. Her fingertip length veil was held in place by a coronet of orange blossoms which were worn by her mother at her wedding. She carried a cascade of white orchids, roses, stephanotis and ivy.

Mrs. Carl Sattelberg of Chicago, Illinois, matron of honor, wore a floor length gown of lavender frosted organza over matching taffeta with scoop neckline, scalloped yolk and waistline, short sleeves and a very full skirt. She wore matching organza mitts and head band and carried yellow daisy mums.

Ruth asked Margaret Ann Burr, sister of the bridegroom, Miss Alice Behnke of Pontiac and Miss Jacqueline Miller of Detroit to be her bridesmaids. Their gowns were in shades of pink, green and yellow and fashioned like that of the honor matron. They carried arm bouquets of lavender daisy mums.

Assisting the bridegroom as best man was Max Toy of Lansing and seating the guests were Andrew Morrow of Plymouth, cousin of the bridegroom, Carl Sattelberg of Chicago, Illinois, Niel Bintz of Jonesville, Roger Nielson of Ionia, and Duane Taylor of Milan, a cousin of the bride.

Mrs. Holowell chose for her daughter's wedding a pink crepe and lace afternoon gown with white accessories and an orchid corsage. The bridegroom's mother, Mr. Burr wore navy taffeta with matching accessories. She too wore an orchid corsage.

Immediately following the ceremony a reception for 300 guests was held in the church parlor.

Mrs. Gust Nastor of Ypsilanti presided at the guest book and cutting the five-tiered wedding cake were two aunts of the bride, Mrs. Roland Taylor of Milan and Mrs. Ralph Holowell of Ann Arbor. At the punch bowls were two cousins of the bride, Miss Lois Huey of Paw Paw and Miss Nancy Taylor of Milan. Others assisting at the reception were the Misses Ellen and Delores Dixon of Milan, Miss Ann Morrow, a cousin of the bridegroom, of Plymouth, the Misses Ruth Ann and Kathryn Clark of Middleville, cousins of the bride, Joan Clark of Petoskey and Marion Huey of Paw Paw. Guests were present from Pennsylvania, Chicago, Illinois, Petoskey, Roscommon, Flint, Davison, Pontiac, Royal Oak, Detroit, Grand Rapids, Paw Paw, Kalamazoo, Middleville, Milan, Stoney Creek, Ypsilanti, and Jonesville.

Following a honeymoon into northern Michigan the young couple will be at home at 828 Gairfield Place in Evanston, Illinois. Both young people are graduates of Albion college. Sanford is preparing for the Methodist Ministry at Garrett Bible Institute in Evanston and will be Assistant Pastor and Youth Director at Central Methodist church in Skokie, Illinois. Mrs. Burr will teach in the Skokie public schools.

**Two Plymouth Boys Enjoy Life in Pup Tents Way Back in the Woods**

Two Plymouth boys, Richard Rose and Arlen Ottensman, like the life of early Michigan woodsmen who lived among the big trees of the northlands and saw little of what modern man had done to civilization. These youngsters have been camping way back in the woods near Barton City, where they have lived on supplies they carried into the woods with them and on fish they caught and wild berries they picked about their pup tents. William Rose the other day drove up north to provide the youngsters with transportation to another camp site over near Elk Rapids on the northwest corner of the state. Have these youngsters enjoyed this vacation in the wilds of the northland? Just ask them.

**School Librarian and Students Tour Canada**

Plymouth High School librarian, Mrs. Esther Ham and son James, Patricia Wilkins, Joyce Kubick, and Gwendolyn Phillips are leaving Thursday, August 16, on a camping trip to the Gaspé peninsula north of Quebec, Canada. They plan on going by way of Port Huron by car to Ottawa, following the St. Lawrence river to Quebec, with a side trip to the Thousand Islands, and then tour the Gaspé peninsula. The party plan on coming back by way of New England where they will visit friends in Boston and Webster, Massachusetts. They will then proceed to New York by way of Watkins Glen and Finger Lake, down to Niagara Falls where they will cross into Canada for their trip home.

In Atlanta, Ernest Emmett admitted gyping the Government of \$186.25 in income-tax refunds, by faking returns on tax forms he picked up in the printing shop of Tattal State Prison, where he is serving 170 years for armed robbery.

**City Bids Goodbye to Paul Wagner**

"Music I heard with you was more than music" . . . strange how these words of a poem by Conrad Aiken come to mind after many years. With the leaving of Paul T. Wagner as director of the Plymouth Symphony Orchestra for a similar position in Pekin, Illinois, one cannot help but mull over the events of the past five years. . . the music that has filled the air. . . the friendships that have been made through the expression of this universal language. . . the cultural and social life encouraged in the community. Many a violin, viola and cello was dusted because of the organizational abilities of one Paul T. Wagner. The musicians, who hailed from various walks in life found a new hobby. Many of these persons had studied at one time for the concert stage. They found relaxation and enjoyment in bringing to life the intricate musical passages of the great masters, for not only concert music was played—but whole symphonies, quite an undertaking for a group now entering upon its sixth season. The coffee hour following the rehearsals was a welcome feature and the tea hour after the concerts was a similar opportunity to meet and talk "shop".

Not satisfied with just weekly rehearsals, groups of musicians met and played Mozart quartets and attended the seasonal appearances of name quartets in Detroit last winter. Some of them even resumed their practice and brushed up on technique by taking lessons again from well-known teachers. The Plymouth Symphony Society attracted a large membership of persons interested in perpetuating the cultural aims and ambitions of the orchestra. In the meantime, Detroit was bereft of an orchestra and Plymouth had reason to be proud of its achievement in this field. One cannot help but feel a sense of pride in the fact that the orchestra has progressed to a stage where it would attract the musicianship and directorship of Wayne Dunlap. The sixth season is eagerly anticipated by the orchestra as well as the society. We are jealously proud of this community accomplishment.

These symphony notes, therefore, are not in a minor key. . . but they are swelling with a profound sense of harmony. . . a dedication to continue the good work and to rejoice in the opportunity for musical expression. May good luck follow Mr. Wagner in his new position.

**Rose Raising Funds to Buy Uniforms for Plymouth DeMolay Boys**  
Excellent progress is being made by the committee of which William Rose is chairman in raising funds to buy proper uniforms for the degree team of the newly organized Order of DeMolay, a fraternal group for young boys only. This group since organization in Plymouth has enjoyed a most remarkable growth but under present day conditions it is almost an impossibility for boys to earn enough to buy their uniforms. So Mr. Rose consented to give the boys a "lift," and he too, needs a lift, says reports, if the total amount is to be raised. "The contributions have been coming in good, but we need several hundred dollars more" he says. He was encouraged by a letter received a few days ago from Judge Clyde Webster of Detroit. Judge Webster who has long been active in promoting DeMolay affairs, writes that this organization emphasizes seven things which are important and worthwhile. "They are," says Judge Webster, "Filial love, reverence for sacred things, courtesy, comradeship, fidelity, cleanness and patriotism. At each meeting a prayer is given for the mothers of the members. I can not speak too highly of this organization. It cannot help but do good in every community in which it has a Charter. It merits support."

**Children Playing With Matches Start Fire — Barn Destroyed**

Because some children were playing with matches in his barn, E. J. Youman of Minehart drive, just off Schoolcraft road, late Tuesday afternoon suffered the complete loss of the barn and all of its contents, including one new tractor. The Plymouth township fire department quickly answered the call, but the fire had made such rapid progress little could be saved. The loss runs into several thousands of dollars.

**Plymouth Rotarians Hear How They Can Live 100 Years or More**

Whether David Mather, president of the Plymouth Rotary club, is worried about the expanding waist lines of a number of members of the club or whether he hopes to see each member live to be 100 years old or older, isn't just known. But there was evidence at the last meeting of the club that he is greatly concerned over the future health conditions of Plymouth Rotarians.

It appears that President Mather is not alone in his worry about the future welfare of club members, because it was Chairman Frank Henderson of the program committee who presented Paul O. Sampson as speaker of the day—and it was Mr. Sampson who told Rotarians that if they ate the right foods and lived as they should there wasn't a reason in the world why they couldn't live to be 100 years old or older.

"Never think of eating potatoes without eating the skins of the potatoes, too. No matter how they are cooked, they're good. The real food values are really found in the skins of the potatoes," said Speaker Sampson.

"Records show that 25 percent of the ills of the day are caused by faulty eating. The refined

sugar you get these days is not a good food. It is the refined foods that are raising havoc" he said.

His subject was "The Joy of Eating"—eating strawberries with honey for sweetening instead of sugar, cleanly washed carrots with the skins still on, and peaches from which the fuzz on the skins had not been removed.

"Vinegar is worse than gin for you. Always use lemon juice instead of vinegar" he insisted. Judging from the number of questions asked at the close of the talk, there may be a decided change in the eating habits of a lot of Rotarians from now on.

If plastic material sticks, it may help to put some talcum powder along the edge you are stitching. This tends to ease the material through the machine. If the material is stiff, brush a drop of oil along the edge, Michigan State college clothing specialists advise.

Add a small amount of glycerine to the last rinsing water when washing pigskin or other leather gloves for fall wear. That will keep them from becoming stiff.

Frank Bradfoll Dies After Long Illness Funeral services were held Monday, August 13 at 1:00 p.m. from the Schrader Funeral home for Frank Holden Bradfoll who passed away Thursday evening, August 9 after a long illness at the age of 68 years. Mr. Bradfoll has resided at 47334 Joy road in Plymouth township for the past 30 years. He was employed at the Industrial Wire Cloth Corporation at Wayne for 14 years.

Surviving are his widow, Mrs. Ruth M. Bradfoll and his daughter, Miss Marion Bradfoll of Plymouth, other relatives and a host of friends.

Rev. Robert D. Richards of Newburg officiated. Hymns were rendered on the organ by Mrs. Edna O'Conner. The active pallbearers were Kenneth Bost, Otto Thom, Alex Johnson, Dale Heist, Alex Vakares and Walter Vloch. Interment was in Grand Lawn cemetery.

Good Fruit Crop Expected for Area (Continued from Page 1) area and the southwestern part of the state in general. The national average is said to be about the same as the last ten year average. Fruit in the west is expected to fall off, especially in Oregon, but good crops in the east and midwest will bring up the national average.

Mr. Foreman warns against buying unsprayed fruit, for, he says, worms and fungus have taken a large toll of such fruit this year. Some damage from hail had been suffered in this area, chiefly in a strip running from northwest to southeast, but not extensively.

Local growers are striving for quality and consumers in the area can expect good fruit in the months to come. Michigan has been favored this year, especially in its peach crop.

Detroit Bums Help to Harvest Big Crops Out on DeHoCo Farms Detroit police and judges didn't know that they were doing two "good turns" some-time ago when they began to clean Detroit bums off the streets of that city and send them out to the Detroit House of Correction west of Plymouth.

Their chief reason for the summer "clean-up" of Detroit bums was to rid the city of their presence during the celebration of the 250th anniversary of the founding of the city.

Detroit officialdom didn't want any of the hundreds of thousands of visitors to know that Michigan's biggest city as well as the nation's busiest city had a population of many hundreds of gents who think its a sort of a sin to do any work of any kind for anybody at any place.

So when the celebration started several weeks ago, the police began rounding these bums up and the judges gave them longer terms in which to enjoy farm life out west of Plymouth. The judges at the time they were cleaning the bums out of Detroit were unaware that the rich farms out west of Plymouth operated by the Detroit House of Correction were growing bumper crops this year, and that prison authorities were glad to get the help needed to harvest these crops—even though a dozen bums sometimes do not do as much work in a day as one good old-fashioned farm hand.

At any rate prison officials say these Detroit "residents" who were deprived of an opportunity to enjoy the anniversary celebration have been of considerable help in cultivating and harvesting the prison farm crops.

City Collecting Delinquent Fees in Cemetery Lots (Continued from Page 1) with a campaign sale of cemetery lots.

New sections have been opened up with many attractive lots and roads. In one section, the Detroit Edison company has taken down some power lines, and many trees have been removed.

Mr. Glassford also states there are still many beautiful spots in the older developed area.

Cemetery Sexton Meyers deserves much credit for the appearance of our burial place as he has done a wonderful job of beautifying the cemetery.

OES Past Grand Matron Reunion Guest of Honor Masten-Lane Club consisting of Junior Past Matrons and Junior Past Patrons of Wayne county and their families held their third annual reunion Sunday at the home of Mr. and Mrs. Charles Huebner on Berry road.

Mrs. Greta Masten, of Clare, Junior Past Grand Matron of the O.E.S. of Michigan, was the honored guest of the day, since the reunion is always planned to fall on the Sunday nearest her birthday.

A large birthday cake centered the table. Sixty-five guests were present to welcome her. All enjoyed the afternoon and evening and decided to again accept the hospitality of the Hueblers next year.

David Minthorn Dies Suddenly David Alfonse Minthorn, 44 years of age, died suddenly Saturday morning, August 12, following major surgery on Friday at University hospital, Ann Arbor.

David Minthorn was born September 3, 1906. He was preceded in death by his mother, Mrs. Matilda Anna Minthorn and his sister, Mrs. Alvera Yoc.

David was a veteran of the battle of Nicaragua after World War I. He was with the Marines. He is survived by his wife Minyon and five children, Richard with the army in Panama, David, Jr., Lynn, Roger and Janet; his father, Harry Minthorn and a brother, Ralph, all of Plymouth.

Mrs. Minthorn is in a hospital in Buffalo, New York, recovering from a nervous breakdown, suffered while visiting her father.

Funeral services were held from the Sonderegger Funeral Home Tuesday, August 14, with Rev. Patrick Clifford officiating.

Interment was in Riverside cemetery.

Kenneth Kohler Dies Suddenly Funeral services were held Tuesday, August 14 at 1 p.m. from the Schrader Funeral home for Kenneth Edward Kohler who died suddenly Friday evening, August 10 at the age of 25 years. He resided at 815 Fairground avenue.

Surviving are his widow, Mrs. Loretta J. Kohler; his two infant daughters, Kathleen and Kay; his parents, Mr. and Mrs. Frederick J. Kohler of Plymouth, other relatives and a host of friends.

Mr. Kohler was a life time resident of Plymouth. He was a veteran of World War II; his title was T 5, Medical Dept. 5th Central Postal Directory of the Army of the United States. He was employed at the Allen Industries.

Rev. Patrick J. Clifford officiated. Hymns were rendered on the organ by Mrs. Edna O'Conner. The active pallbearers were Eugene Shipley, Ronald Hesse, Kenneth Brown, Gerald Olson, Wilfred Cody, Jr., and Willard Olson. Interment was in Riverside cemetery.

UNCORKING THE NEWS By Carl Peterson Yugoslavia's Tito may not be all the way on our side, but he's sure not reducing the aspirin consumption in Russia. Ever since he broke with Stalin he's been giving the Muscovites a rougher time than a masseur wearing brass knuckles. In a recent speech he treated the Poles to get rid of the Russians and set up an independent state the way the Yugoslavs did. That would make him about as popular in Moscow as a Wall Street banker. He even invited Molotov to debate Russia's attitude. There is a program that could find a quick sponsor. They could call it "Grand Old Uproar."

### Wonder Horse at Calvary Baptist

Beginning Monday morning, August 20, and continuing through Friday, August 24, the annual Vacation Bible school of Calvary Baptist church will be held. Daily program begins at 9:30 and will last for two hours. Rev. Earl Gilmore of the Rural Bible Mission will be directing, assisted by Rev. and Mrs. Clifford, and a staff of able teachers. A special feature of the School this year will be the appearance of Mr. William Schneider with his trained horse, Ranger. Each morning for fifteen minutes Mr. Schneider and Roger will entertain the boys and girls of our school on the church lawn. Ranger has been trained to answer questions from the Bible and Mr. Schneider often challenges anyone in the community to answer as many questions as Ranger answers. Each boy and girl attending the school will receive an autographed picture of Mr. Schneider and his beautiful horse, Ranger. Children attending the school for five days will receive a diploma and special awards will be given to pupils with highest number of points at the end of the week. Transportation will be provided for children of fruiting communities during the summer for our school at Saginaw and for the Deaf Institute at Detroit. Enrollments for the fall term of our Lutheran Day school ought to be made as soon as possible to avoid disappointment. Announcement will be made as to the opening date as well as of a parent round-up before the fall session.

**ST. PETER'S EVANGELICAL LUTHERAN CHURCH**, 261 Spring St. Edgar Hoenecke, pastor. Sunday school sessions will be suspended until September 9. In London, charging his wife with desertion, Francis Brooks presented as evidence a letter she had written from Ireland: "It's no use trying to get me and the kids to come over to England to share your semi-starvation. It's bad enough coming to a place you loathe without being half-starved as well. We are staying where the food is."

Brief items of interest about your sons or husbands in the services are welcomed in this column providing the information does not conflict with press security policies.

Marine Private First Class H. Fred Dethloff, son of Mr. and Mrs. Harvey Dethloff of 6385 Lilley road, is home on a 15 day furlough from Camp Lejeune, North Carolina.

Pvt. Richard Burden recently enjoyed a 15-day furlough with his parents Mr. and Mrs. Lester Burden of 143 Union.

Pvt. Burden entered the service last January and has been at Fort Mac Arthur, California. He expects to leave soon for overseas duty.

Mrs. Burden relates that Dick was one of the boys who painted the big 1950 on the water tower back of the Presbyterian church which caused quite a stir here a year ago. He graduated from Plymouth high in 1950.

Richard is in an Engineer outfit and his address is RA 163631-23, Co. E, 370th EASR, Ft. Mac Arthur, California.

Pvt. Raymond L. Michaels, son of Mr. and Mrs. William Michaels of 696 Ann, left Luke AFB, recently to take a 12-week clerk-typist course at Central State college, Edmond, Oklahoma.

Pvt. Michaels entered the service February 1951 and came to Luke with the Federalized Michigan Air National Guard.

Pvt. Michaels graduated from Plymouth High school.

Dale L. Renwick, aviation machinist's mate, first class, USN, son of Mr. and Mrs. Dale Renwick of 1225 Ann Arbor road, visited Izmir, Turkey, recently when the aircraft carrier USS Oriskany anchored at that Asia Minor port for a five-day call.

Izmir is one of the earliest homes of the Christian church. Tours of the city enabled the crew of the ship to see many Roman ruins.

The USS Oriskany is attached to the Sixth Fleet in the Mediterranean.

James H. Manning, quartermaster, second class, USN, son of Mr. and Mrs. Willis Manning of Plymouth, is serving aboard the amphibious force flagship USS Eldorado, command ship for naval forces supporting the UN delegation at the peace conference in Kaesong, Korea.

The Eldorado's crew had a ring-side seat watching war correspondents in action when the pictures of the peace meeting were dropped on the after deck of the Eldorado and radio-photodirect from the ship to San Francisco.

## First National Win Over Wyandotte

What began as a closely played contest, turned into a rout, when First National Bank scored nine runs in the 7th and 8th innings to win over Wyandotte last Sunday in Riverside Park by a score of 10 to 3.

The two Inter-County teams had hooked up in a one-to-one ball game for six innings when the real drama of that perfect Sunday afternoon began to unfold itself. Wyandotte had scored in their half of the seventh to lead ahead 3 to 1. The First National boys roared back to score five runs on five hits—one of the hits was a fluke 2-run homerun by Bosman, when the left fielder tried for a shoestring catch and missed it, the ball rolling to the

hill while Bosman steamed around the bases.

In the 8th inning the locals again struck for four more runs to put the game on ice.

Dobbs led the way with four hits, Bosman had three, Bridge and Mahaley had two each. All the Bank boys played brilliantly in the field, and the large crowd saw two fast times engage in a good game of ball.

Wyandotte had a diminutive second baseman who could really cover ground and along with the shortstop made several sparkling fielding plays.

Hitt pitched beautiful ball during the seven innings he worked allowing only three scattered hits. George Molnar had the last two innings and allowed one single and struck out two.

This was the last regularly scheduled game in the Inter-County league this season. Next Sunday the playoffs begin with the leading four teams in each division entered on a two defeat knockout basis.

## Thibodeau Loses No-Hit Ball Game

Thibodeau, star softball pitcher for Cavalcade in the Open league, wonders just what one has to do to win a game. Monday night he pitched a no-hit game, struck out 7 and walked 6, but lost the game to Begingers 4 to 0.

The "break" for Olds came in the first inning of this very close contest. Wilkie, the first man up, walked. Schultz popped to catcher for the first out, after which Dobbs was safe on an error by Gadwa. Wilkie scored and when the catcher threw the ball into centerfield trying to get Dobbs going to second, Dobbs scored. Beginger scored two more insurance runs in the last inning on no hits.

Cavalcade had three hits—one each by Beutel, Leggett, and Leland.

"Gabby" Street pitched a grand game also as he struck out 8 and walked only two.

A crowd of 150 watched this thrilling struggle. These two teams played again last night, and if Cavalcade wins, they will play the final game tonight at 7:30 at the high school diamond.

Four tavern owners in Sanger, Calm., protested to the city council that a church being built in their neighborhood would undermine the value of their property.

## Three Victories Apiece For Olds And Cavalcade

The open league wound up its schedule last week with two games. In the first game Beginger Olds nine jumped on the offerings of LaRue and LeTourneau, twirlers for Cavalcade, to defeat the Inn team 9 to 2 last August 6. This win evened the season's standing between the two teams to three wins each.

This week these arch rivals meet to decide the playoff champion. Olds scored three times in the second inning on three hits, two walks and a fielder's choice, and three again in the sixth on two hits, two walks and an error.

Street, who hasn't pitched in a few weeks, demonstrated that he has lost none of his old stuff, as he limited the Cavalcade batters to two safeties, both coming in the first inning when the losers scored one of their runs. He struck out seven and walked three.

Wilkie and Gilles had two hits apiece for the winners.

In the second game of the week Begingers scored four runs in the first inning, which actually won the contest with Penn by the final score of 6 to 1.

In the first inning the four markers were scored on two hits, three walks and a fielder's choice.

Street proved that he is ready for the playoffs by hurling another low-hit game, allowing only four scattered hits. Dobbs had two hits for the winners. Brighton was the losing pitcher.

**Twin Pines Bow to Northville VFW**

Northville VFW team in the Boys' Class E league carried off the honors in the league playoffs by edging Twin Pines twice with identical scores of 6 to 4. Twin Pines had won the league honors, but lost to a determined Northville outfit that would not quit in the playoffs.

In the first game played Tuesday, August 6, Northville scored five runs in the second and third innings and another in the fourth. Howarth pitched a steady game, allowing four scattered hits, striking out six and walking three. Shock, Nalley, and Girardin had two hits apiece for Northville.

In the second game played August 8, Northville really came from behind by scoring five runs in the last inning to defeat Twin Pines 6 to 4. Twin Pines went into the last inning enjoying a 4 to 1 lead but then two hits, three walks and an error meant curtains for the local entry even though they rallied for one run on three hits in their last turn at bat.

Twin Pines lost a heartbreaker as they had played good hard ball up until the last inning. Kisa-beth had pitched a grand game, even though he walked 13 men, but was tough with men on bases. He had only allowed two hits until the last inning. Danol had three hits for the losers.

By virtue of their win, the Northville lads go to the district tournament at Ann Arbor where they play Ypsilanti this week.

## Sports Glances

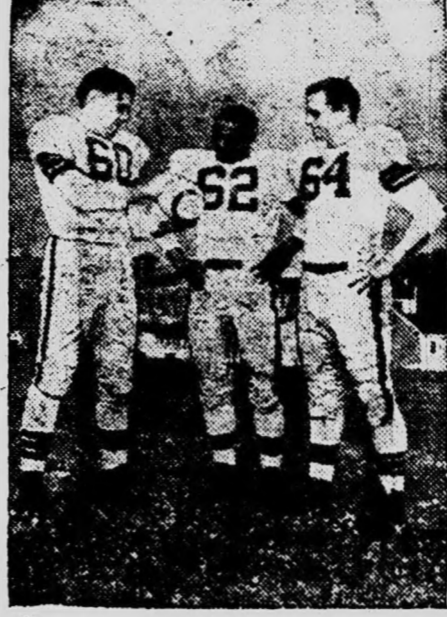

It was with much pleasure that we read the announcement of the appointment of Charley Gehringer as the new general manager of the Detroit Tigers. It is altogether fitting that the name of Gehringer, who had long been associated with the Tigers, once again will share in the destinies of the Detroit ball club.

Charley has much work cut out for him before spring training begins next February. Much of the deadwood must be cut and that may present quite a problem. Detroit must acquire new and experienced players. The Detroit club must be willing to sacrifice a few good players to get the players they need. It has been said that many of the Tiger players are getting high salaries and other clubs are reluctant to obtain them for that reason.

Much has also been written about the second division Tigers of this year. Last year nearly all of them had their best year in baseball, and as a result they reared the pennant. This year they have merely returned to their normal play, with the exception of Floot Evers, and as a result are just another ball club. Evers has had a disastrous season, but the odds are that he will come back next season to his capable playing.

The loss of Houtteman hurt, and all season the hurlers have been plagued with sore arms or other complications. Newhouse hasn't pitched many games since June. Trucks and Gray are undependable, and they have no top-notch relief pitcher.

Yes, Charley Gehringer has his work cut out for him, and about the only help, as we see it, is in trades as there seems to be little help coming up through the farm system.

## Football Begins Monday Aug. 27

Plymouth High school's new football coach, Charley Ketterer, sends word that he is eagerly looking forward to the opening of football practice Monday, August 27, and wishes the following information passed on to all candidates who plan on trying out for this year's football team.

Physical examinations will be given on Thursday, August 23, at 9 a.m. at the high school.

Candidates should bring \$2.50 for insurance and \$1 for the towel fee.

After the above has been taken care of, uniforms will be issued.

Football practice will begin on Monday, August 27, at 9 a.m. in grades 10 through 12.

Mr. Ketterer expects a large turnout for the initial practices.

## Contractors Win First Two Games

The Contractors' team has labeled itself the team to beat after completion of the first round in the Old Timers' league. They defeated both the V.F.W. team 25 to 7, and Dunn Steel 17 to 16. Dunn Steel, the league winner, lost its first game of the year when the Contractors came from behind in the late innings to take out the win.

In the first game Contractors scored at least once in each frame in gathering their 25 runs. Dickenson, B. Curtis and Gilles had four hits apiece, with Stevens and Norman having three. Home runs were socked by Schoman and Dickenson. Epps also whacked one for the losers. Art Jenkins hurled a good brand of ball for the winners.

In the feature game played August 9 the Contractors scored 9 runs in the last two innings to nip the Dunn men 17 to 16. The payoff blow was Schoman's three-run homerun in the last inning to break up the ball game.

This was Schoman's second homerun of the contest, and his third of the playoffs. B. Norman had four hits for the winners and scored five runs. Schoman also had four hits—two homeruns and two triples. Curtis and Stevens had three each. Kopenski, Levy, and Simons had three each for the losers. Play is continuing this week.

## Playoff Facts

The first round playoffs are over and some of the second round have also been played. Up to Monday of this week the playoff standings shape up like this: In the Industrial league, Local 111 is leading with two victories and no defeats. Daisy and Whitman-Barnes have each won one and lost one. The big upset was the elimination of Evans, the league champion, when they lost their first two games.

In the games of August 6, Whitman-Barnes defeated Evans 10 to 3, and Local 111 won over Daisy 19 to 9. Evans matched Whitman-Barnes in hits, each having 12, but could not get them with men on bases. WB scored four runs in each the first and third inning, and were never headed after the third. Mueller led the winners at bat with three hits, while Nagy pitched a great game in the clutches and scattered 12 hits. Four Evans players had two hits apiece.

The box score of the second game was not available but Local 111 edged Daisy in this one 10 to 9 with Laskowski and Punguill hitting homeruns for the winners, and Newton smashing one for Daisy.

In the second round, August 8, Daisy eliminated Evans by handing them their second loss 4 to 1. Daisy fanned 7 of their 8 hits in two innings, the third and sixth. In the previous ball game, Gilles had Evans to four hits. Smith led the Daisy lads with two hits in three outs at bat.

The second game in round two saw Local 111 establish themselves as playoff favorites by moving down Whitman-Barnes 8 to 5. The Union men scored five big runs in the fifth inning to put the game on ice.

Tanner, Taylor and Dizeck had two hits each for the winners. Loskokowski and Austin divided the pitching chores for Local 111, and Nagy was the loser.

The Sutherland senior softball team, composed of boys in the 15 to 16 age group, defeated the Northville players and team 11 to 10 in a very thrilling game last Thursday, August 9, on the high school diamond.

The local team has been defeated this season.

## Hints For Plymouth Homemakers

### Preserve Snap Beans, Cucumbers, Carrots While They're Abundant

Many of the great variety of vegetables grown in Michigan are now coming in season for consumers to enjoy from now up until frost.

During this period the homemaker who wants to get the most for her money will be considering both her daily purchases and her vegetable canning needs for winter supply.

Three favorite vegetables now coming into peak supply that have a variety of uses for both summer and winter are snap beans, cucumbers and carrots.

Although many homemakers doubt the economy of canning or freezing snap beans, this year snap beans are a good vegetable to can because of the possible shortage of tin cans for commercial canning and increased food costs.

A bushel of snap or wax beans that weighs 30 pounds will make 17 to 20 quarts of canned beans, canned either as whole, cut or French style beans. Remember a pound of snap beans will give 3 1/2 cups of cut beans and serve 4 people. If canned they must be processed in a pressure canner because they are a non-acid vegetable.

The smart homemaker buying beans by the bushel will select beans bright in color, crisp enough to snap and carrying few blemishes. She will keep them in the refrigerator unwashed until she's ready to use them because moisture from washing encourages mold.

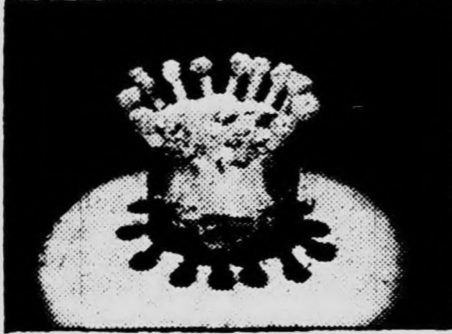

Cucumbers are purchased by the homemaker for slicing or pickling. During the summer

season is the time to use slices to live up summer salads. The homemaker can certainly save money by making her own pickles in a wide variety of flavors—mustard, sweet, sour, dill, kosher, bread and butter, and the like. A few points in selecting cucumbers for slicing, by law, must be 5 inches in length and usually run 7 to 9 inches. They should be firm, bright in color and smooth in shape. Keep them in the refrigerator until used. Remember too cold a temperature will cause them to develop undesirable black spots.

Pickling cucumbers are usually sized running 1 to 5 inches in length and are sold by the pound, peck, half bushel or bushel. They also should be firm and bright in color. The quantity the homemaker buys will depend on the kind of pickle to be made.

One of the nicest summer vegetables for consistent summer use because of their color and food value, is carrots. Their wide variety of uses in salads, soups, stews and as a vegetable make them a year round favorite. Later in the season those who have available cellar storage may want to buy them in quantities. They are not usually canned, because they store well and are available in the markets fresh the year around.

In Glasgow, Mont., Wesley Finmoon smashed through a roadside railing in broad daylight, explained, "I dimmed mine, but that other fellow didn't dim his." was booked for drunken driving.

**Q. What is the name of this cut of meat?**

**A. Pork crown roast.**

**Q. Where does it come from and how is it identified?**

**A. It is prepared from two or more rib sections. Ribs are frenched, backbone removed, then rib sections shaped and tied into a crown.**

**Q. How is it prepared?**

**A. By roasting. The first hour the roast is placed bone side down in an open roasting pan. At the end of this time, the roast is turned over and stuffed if desired, then roasting completed. Cooking time is from 35 to 40 minutes per pound in a 350° F. oven.**

### Suggest Menus for Camping

There's a call to the great outdoors these days, and often that means a camping trip. With that call, Mother must have minute-notice food supplies handy—sufficient for the mounting appetites that open air life encourages.

For breakfast "chow" time, Mom knows that the menu should include such hearty and good eating foods as bacon and eggs and fried potatoes. They call for little equipment other than the frying-pan and spatula. She can have some fruit and a pot of coffee along to complete the camping breakfast.

Supper around the wood fire is an event the youngsters will remember. Mom can make it an easy meal for her by taking along several cans of luncheon meat. She can cut the canned loaf into half inch slices and heat them in the frying-pan. Roasting ears still in their shucks are perfect cooked right in the coals of the fire. There can always be a can of easy to carry potato chips. If there's a way to chill, watermelon wedges eaten fork-free can be the dessert. If not, carefully wrapped chocolate fudge cup cakes can be the dessert to go with plenty of the season's fruits.

### CHICKEN CASSEROLE WITH CHEESE SHORTCAKE TOP

By Marguerite Nickelsen

The tangy flavor of rich cheese can add zip to many casserole dishes—and extra nutrition value, as well. Here is a new twist to try on chicken casserole. It is topped with a delectable cheese shortcake.

#### CHICKEN CASSEROLE

1/2 cup butter or fortified margarine salt  
4 tablespoons flour pepper  
2 cups chicken stock or milk 1 hard cooked egg  
3/4 cups cooked chicken cheese biscuit dough

Melt the butter, add flour, and mix well. Cook without browning. Add chicken stock or milk or a mixture of the two. Cook over low heat stirring to prevent lumping. Add salt and pepper to taste. Arrange chicken meat, sauce, and sliced hard cooked egg in a suitable casserole or individual ramekins. Top with cheese biscuits.

#### CHEESE BISCUIT

2 cups flour 4 tablespoons shortening  
3 teaspoons baking powder 1 1/2 cups grated cheese  
1 teaspoon salt 1/2 cup milk

Sift flour and measure; add baking powder and salt. Sift a second time. Cut in the shortening and one cup of the grated cheese. Add milk to make a soft dough. Place on board and knead very lightly. Roll to one-half inch thickness. Brush with melted or softened butter or margarine. Cut with a biscuit cutter. Arrange on top of the casserole. Prick with a fork. Bake in a hot oven (400 to 425° F.) 20 to 30 minutes. The remainder of the cheese may be sprinkled over the top a short time before removing from the oven.

### Try Applesauce with Frozen Dessert Dishes

Canned applesauce can bring to frozen desserts the flavor of the apple, which has been less often featured in refrigerator dishes than many other fruits. Here are two recipes for chilled creams particularly suitable for summer servings:

#### Frozen Applesauce Cream

Ingredients: 1 cup applesauce; 1 cup thin cream; 1/2 cup sugar; 1/4 cup lemon juice.

To make: Combine ingredients, stirring until sugar is dissolved. Pour into freezing tray and freeze at the coldest refrigerator temperature until firm. Turn into chilled bowl and beat smooth. Return quickly to tray; freeze. Four servings.

#### Applesauce Bavarian Cream

Ingredients: 1 tablespoon gelatin; 1/4 cup cold water; 3/4 cup applesauce; 2 tablespoons lemon juice; 1/2 teaspoon grated lemon rind; 1/4 cup sugar; 1/4 teaspoon each cinnamon, ginger, nutmeg; 1/4 teaspoon salt; 1 egg white; 1/2 cup heavy cream, whipped; 1/2 cup crushed ginger snaps.

To make: Sprinkle gelatin on water; soak a few minutes. Heat applesauce, lemon juice, and lemon rind with half the sugar. Dissolve gelatin in hot applesauce. Add spices. Chill until partly set.

Add salt to egg white and beat until stiff. Add rest of sugar slowly, beating until glossy. Fold egg white mixture, cream, and half of the crumbs into gelatin mixture. Pour into mold; chill until firm.

Before serving, sprinkle with rest of crumbs. Four servings.

**Friendly Challenge**

Drive at least two new cars, this time, before you buy—and be sure one of them is a new 1951 Packard!

And why do we issue this challenge? The two best reasons in the world:

- 1 Until you drive a new 1951 Packard, you just don't know what's been happening in the automotive world.
- 2 The best advertising is "word-of-mouth" advertising. It's to our advantage to start you talking about the advancements that make Packard the newest, new car of the year.

P.S. Today's most thoughtful buyers will gladly accept this challenge.

Some "eye-openers" that await you on your Packard "Challenge Drive":

- Top-compression power:** New Packard Thunderbolt Engines give you the efficiency of America's highest-compression eight. Plus: service-free simplicity—up to 25% fewer working parts than in engines of comparable power.
- Ultramatic Drive—**a Packard exclusive combining the smoothness of no gear-changing during acceleration with the efficiency of no slippage when cruising.
- New steering magic:** New ideas in steering design and weight distribution let you maneuver a Packard with as little effort as it takes to turn a door knob!
- New everything:** All backed by motordom's greatest durability record. Fact: Of all the Packards built, in the last 52 years, over 50% are still in service!

A regular meeting of the City Commission was held in the Commission Chamber of the City Hall on Monday evening, July 16, 1951 at 7:30 p.m.

PRESENT: Commissioners Bauer, Fisher, Hammond, Henry, and Mayor Tibbitts.  
ABSENT: None.

The minutes of the regular meeting held July 2 were read by the Clerk and approved.

The clerk presented the bills in the amount of \$10,999.29. Moved by Comm. Fisher, supported by Comm. Bauer, that the bills be read and approved as presented by the Clerk and approved by the Auditing Committee be allowed and paid.

YES: Comm. Bauer, Fisher, Hammond, Henry, and Mayor Tibbitts.  
NO: None.

The following reports were presented by the Clerk: Health, Police, Fire Dept. for the month of June, and the Dept. of Public Works report ending July 15.

Moved by Comm. Bauer supported by Comm. Fisher that the reports be accepted and placed on file. Carried.

The City Clerk presented a request from the Guild Baptist Church of W. Fort St., Detroit, for permission to distribute advertising matter from an airplane over the City of Plymouth. Moved by Comm. Henry and supported by Comm. Hammond that permission be denied. Carried.

Moved by Comm. Henry supported by Comm. Bauer that permission be extended to the Avery Bakery for a one parallel parking space for loading and unloading three or four times a day, in front of Stop & Shop unless or until revoked. Carried.

A communication was received from the Fire Chief relative to the International Association of Fire Chiefs annual conference in Grand Rapids to be held August 13-17. Moved by Comm. Hammond supported by Comm. Henry that permission be granted the Fire Chief to attend meetings in Grand Rapids from August 13 through 17 with the necessary expenses paid.

YES: Commissioners Bauer, Fisher, Hammond, Henry, and Mayor Tibbitts.  
NO: None.

This was the time set for a public hearing on the construction of a sidewalk on the east side of Sheldon road between Penniman avenue and Sheridan avenue. After those citizens present were heard and discussion held it was moved by Comm. Bauer that the public hearing on the construction of a sidewalk on the east side of Sheldon road between Penniman avenue and Sheridan avenue be adjourned until August 6, 1951 at 7:30 p.m., at which time a report would be expected from a joint meeting of interested officials of the Township of Plymouth, Wayne County Road Commission, Plymouth School Board, and City of Plymouth. Carried.

The City Clerk read a communication from the Chief of Police relative to the Mill street track traffic problem. This matter was postponed until the City Attorney has opportunity to draft an amendment to the present Ordinance for the purpose of limiting truck traffic to 15 miles per hour in the City of Plymouth.

The plat of Fred Garling's No. 1 Subdivision was submitted for approval by the City Clerk.

The following resolution was offered by Comm. Hammond supported by Comm. Bauer:

RESOLVED, that in order to secure the installation of im-

provements as required by Subdivision Ordinance No. 159, in connection with Fred Garling's No. 1 Subdivision in the City of Plymouth, the Commission hereby approves the plan for said Subdivision, subject however to the deposit of \$20,000 in escrow to be released in part from time to time up to 80 percent of the cost of the improvements as installed, upon the approval by the City Engineer and the Garling Const. Co., releases to be made not more often than at 15 day intervals after commencement of the installation of improvements. The balance of funds remaining in said escrow deposit to be released upon completion of the improvements to the Garling Construction Co. Such escrow deposit to be made with the City Treasurer of the City of Plymouth.

YES: Comm. Bauer, Fisher, Hammond, and Mayor Tibbitts.  
NO: Comm. Henry.

The City Clerk read a communication from Russell M. Daane tendering resignation as Civil Defense Director.

Moved by Comm. Hammond, supported by Comm. Bauer that the resignation of Mr. R. M. Daane as Civil Defense Director be accepted with thanks for his past excellent service to the City. Carried.

**They Like it a Million!**

Last week Buick set a proud record. The millionth Dynaflow Drive\* was delivered to a happy owner. That's a new peak in popularity for modern drives which take you from a standing start to any cruising speed desired with a smooth, unfaltering swoop of power.

"The biggest advance since the self-starter" is what the motor-wise press called this Buick development back in 1948—and now a million owners can tell you how right that proved to be. Here, they found, was a basically different way of delivering power. It was the first drive to get completely away from any gears which function in a series of fixed stages—the first to apply supercharging principles that did new tricks with spinning oil. And how folks loved it! They loved the freedom from strain in traffic. And the new "sweetness" of ride which every passenger could enjoy.

They loved the command it gives them of every traffic situation—and the relaxation it contributes to a long day's drive. They loved its extra safety in slippery going, and the improved control in mud and snow. As they had a chance to pile up experience, they loved the unexpected savings of rear tire wear and reduced strain on all driving parts, from engine to differential. And finally—they loved what it does for the value of a Buick, as reflected in the extra dollars that Dynaflow\* adds to the resale price of a car.

Have you sampled this driving sensation? There's no time like the present for discovering the thrills that more than a million Buick owners already know.

Equipment, accessories, trim and models are subject to change without notice. \*Standard on ROADMASTER, optional at extra cost on other Series.

## Donald W. Tryon Buried Here

Donald W. Tryon, a retired horseman residing near Northville, passed away August 3, at 3 p.m. in the Atchinson Memorial hospital in Northville. Mr. Tryon was born at Priceville, Ontario and came to Michigan as a young man. He settled in Detroit and engaged in the cartage business. At the close of World War I he bought a farm two miles east of Plymouth and was engaged in the buying and selling of stock. His hobby was horses and he owned many fine ones. His greatest pleasure was in training them for the track. In 1941 he sold his farm and bought the property on Ridge road near Northville where he resided at the time of his death. Burial was at Plymouth's Riverside cemetery.

Plymouth deer hunters who have been laboring under the impression that the deer herd of the state is down because of the losses from the hard winter that the northern part of the state experienced, had better change their minds. That is, they should, if suggestions just sent out by the Michigan department of conservation are correct.

The department says that in some localities up north there are too many deer that should be killed off. It also announces that in order to better determine the portion of Michigan's estimated one million deer which should be harvested each fall, the conservation department is going to fence in two natural northern study areas of about 700 acres each.

Game men say there is no question that the present herd needs considerable cropping in certain parts of the state, to get it down to a size more consistent with the available deer range. However, research biologists are looking for a better means of studying annual productivity and survival, with the facts regularly gathered serving as a guide in setting fall hunting regulations for future years as well.

One fenced area will be near Casino wildlife experiment station in the upper peninsula. The other will be at an undetermined northern lower peninsula location in the vicinity of the recently established Houghton Lake experiment station. Extreme care is being taken in selecting the two approximately 700-acre study areas in order that they may be representative of typical deer range in the upper peninsula as well as in the northern lower peninsula where the winter food shortage is more acute.

Plan is to live-trap and liberate a number of deer, comparable to local upper peninsula populations on the same size range, late next winter or early spring. The sex and age composition will be duplicated as near as possible. Houghton Lake station plans are not as far advanced.

The studies, under controlled but near natural conditions, will determine the proportion of breeding adults, number of fawns produced, factors affecting fawn survival, number of fawns reaching maturity by hunting season, and most important, the huntable surplus. Censuses will be taken at intervals to determine the number of whitetails which should be removed in order to keep the enclosed herd at fixed level. Removal will be by hunting and/or winter live-trapping.

Fence openings are planned which permit passage of predators such as coyotes and bobcats, but arranged so that it would be difficult for small deer to leave the enclosure. Coyotes are relatively common in the Casino area and predators should be able to enter the enclosure, in attempting to duplicate natural conditions.

Project funds will come from the existing federal tax on sporting arms and ammunition and partly from state hunting license fees.

The writer had an idea that Michigan has been doing pretty well in planting new forests. But from information sent out by the Wisconsin Conservation department it looks as though we are lagging a bit. Wisconsin's distribution of state-produced forest trees amounted to 21,000,000 this year, 3,000,000 more than last year, and state tree nurseries are geared to seed another increase of 3,000,000 trees next year. C. L. Harrington, state superintendent of forest and parks for the conservation department, announced today.

Trees sent out for forest planting are largely four-year-old transplants and three-year-old seedlings. The Wisconsin state tree nurseries handled a total of more than 26,000,000 trees this year, including the trees that were received from federal nurseries and elsewhere and those moved for transplant stock.

The most popular trees for forest planting continued to be the Norway pine and jack pine with more than 8,000,000 of each handled. Other trees that figured in the distribution were white pine, Norway spruce, white spruce, black locust, American elm, white ash, white cedar and balsam fir. In addition to the forest tree stock, the Wisconsin conservation department distributed nearly a million trees and shrubs for game food planting.

The largest number of the year's output of trees went to private land, nearly 9,000,000. County forests took more than 6,000,000 trees and more than 1,350,000 trees were planted on state forests.

Douglas was the largest county user of trees, nearly 5,000,000.

Counties that used more than a million of the trees each were Bayfield, Sawyer, Vilas, and Wood.

A group of Michigan weekly newspaper editors for years and years urged that the Tahquamenon Falls area in the Upper Peninsula be made into a state park and a highway constructed to the Falls so that the general public could see one of the most beautiful sights in America. It was NOT the editors or writers of metropolitan papers who kept up this constant fight which finally led to the designation of the Falls as a state park. Such determined conservationists as Al Weber, former publisher of the Cheboygan Observer; Claude Riley of the Ontonagon Herald; Joe Sturgeon, former editor of The Gladstone Reporter; "Bill" Fritz, late editor of the Newberry News, first promoted the opening of the Falls areas as a state public park. They were assisted by other groups of southern Michigan weekly editors. They kept up their fight over a long period of years.

This bit of "ancient" Michigan history comes to mind when we read in a recent Conservation department news release that this comparatively new state park leads all over Upper Peninsula state parks in counting more than 25 percent more visitors so far this year than visited the Falls last year.

Drawing more southern Michigan and out-of-state tourists, the conservation department reports the 11 upper peninsula locations have tallied 438,300 visitors as compared to 352,300 before.

Leading is Tahquamenon Falls with 62,315 visitors in contrast to the 39,390 through the same 1950 period. An improved road is a major reason for the attendance climb in the park with the largest falls in the midwest except for Niagara. State prisoners presently are building a headquarters building with a public information center and are making other improvements. The wilderness atmosphere of the park will not be affected by the development work. The park was formally dedicated less than four years ago.

Close behind Tahquamenon is the Fort Wilkins park, the usual upper peninsula attendance leader, with 62,659 as against 58,530 visitors before. Only two locations have pulled fewer vacationists than last year. The Porcupine Mountains tally is 47,045, only 155 less than last year, and the Straits, 19,900, or 130 fewer.

The other parks and attendance to date: J. W. Wells, 49,190; Indian Lake, 38,829; Baraga, 35,895; McLain, 32,871; Gogebic Lake, 31,921; Palms Bock, 30,610; and Brimley, 26,730.

## Expect Nearly All Farms to be Closed to Fall Hunting

To prepare for the excessive demand that will be made by farmers living in the Plymouth area and in nearby Washtenaw and Livingston counties, The Plymouth Mail will this year plant 25,000 NO HUNTING signs instead of 5,000 as had been planned.

This decision has been made following reports from the rural areas that nearly every farmer in this part of Michigan plans to close his farm to hunters because of the decision of the Michigan Conservation Commission to allow the use of high powered rifles for deer hunting in the thickly settled sections of southeastern Michigan.

Not only, according to reports received at The Plymouth Mail office, do farmers expect to close their lands to all deer hunting, but some indicate that lands which have in former years been open to pheasant hunting will also be closed.

While in the immediate vicinity of Plymouth there have been only a few deer seen, the story is entirely different a dozen or so miles to the west, where deer in places have become a bother to some farmers.

This unpopular and anti-public

decision by the commission means practically an end to all hunting in southeastern Michigan.

Farmers in this area have for years complained about the depredations of hunters from the city of Detroit. Not only have fences been damaged, gates left open for cattle to get out on the highways, but in many cases live stock has been shot and killed. The granting of a right to use rifles appears to be the signal for a general ban on all hunting in this locality unless some modifications can be brought about.

In Racine, Wis., Theodore W. Niesen bought an old sewing machine for \$9, could not make it work, took it apart and spotted the trouble, returned to the machine's former owner the \$4.65 in old bills which had jammed the works.

In Washington, D.C., the Otis Elevator Co. opened new offices in a one-story building.

## New Law Eases Credit Buying

Plymouth merchants believe that new credit regulations for some household appliances, recently signed by President Truman will help overcome the money shortage and enable more persons to purchase certain articles. The regulation, which went into effect this month, allows a down payment of only 15 percent, as against the former minimum down payment of 25 percent. In addition the length of time over which payments can be spread has been lengthened to 18 months from the former 15 months.

Another portion of the regulation provides that the trade-in allowance can be used as part or all of the downpayment. Formerly the trade-in allowance could be deducted only from the total cost. Under the new law, little or no down payment will be required. These new regulations apply only to certain classifications of goods, but in general include most household appliances, radio and television sets.

## Roger Babson Says --

### Babson Discusses Working Hours

Gloucester, Mass., August 16. I was asked by a Boston friend to help him find a cottage in Gloucester which he could rent for the summer.

Why Merchants Lack Customers Upon inquiring the reason, I learned that, in view of the recent raise in wages and the 40-hour week law, the real estate and insurance offices tried to "make both ends meet" by closing on Saturdays.

Why Living Costs Are High Whether our sympathies are with these office employers or the clerks, the fact is that everyone involved loses by such nonsense. The clerks have no money

to take home; the real estate offices lose commissions; the cottage owners lose rents and the merchants lose customers. Higher wages may be deserved; but they should not be followed by shorter or fewer working hours which result in less business and higher prices. Certainly, this inflation balloon is bound to collapse sometime.

The plan of keeping an office or store open fewer hours in order to keep costs down is bad for the nation as a whole. Merchants are the bottleneck of business. The fewer hours an office or store is open, the less it sells; the less it sells, the less it buys from the factories.

What Is The Remedy? If prosperity is to continue more sales and more production are essential. This requires more work by all of us. "Money-wages" mean nothing until we turn them into "goods."

What we can get for our weekly pay, in food, clothing and shelter are our REAL wages. This can be increased only through increased sales and increased production which requires longer hours, better work and more new inventions.

Should we destroy Unions? No! Shall we abolish collective bargaining? No! Shall we enact Anti-labor legislation? No! Consumers want satisfied labor with the highest REAL wages possible. But both employers and wage-workers must co-operate.

sumer's only hope; and the wage-workers make up 80 percent of the consumers.

What About Strikes? Then finished costs would go down, causing lower prices to be paid by consumers; while both real wages and real profits would increase likewise.

Another thought: Returning to my reference to the cottage, the owner of the vacant cottage had some idle money which he planned to use in building another cottage next door.

### Shipping Record Crop of Wheat From This City

Nearly 70,000 bushels of wheat and one entire carload of rye as well as several thousand bushels of oats have been shipped out of Plymouth since the beginning of the recent harvesting season.

Farmers are getting an average of about \$2.16 a bushel for wheat. While the wheat harvest is over with, it is the practice of many growers to store their wheat until early winter before shipping.

It was barely two years ago when Mr. Wickens started the Plymouth wheat market, never realizing that he would enjoy the business that has resulted from his venture into this business activity that some 50 years ago meant so much to Plymouth.
