What I Think and Have A Right to Say

By ELTON R. EATON

"RING THE THANKSGIVING BELLS"

By: Rev. M. I. Johnson

Minister First Methodist Church

Perhaps there will not be that spiritual eagerness to celebrate Thanksgiving in this year—we had better retain the word—"grace," as we were stimulated in more peaceful and prosperous years to do. High prices and high taxes may have a tendency to keep us away from the belfry where the bells of God wait for us to ring out praise and joy and trust.

As some of us see things these days the tyrants of war, economic uncertainties and shattered hopes stalk at our gates and by our doors and would have us wholly come to their humiliating terms and uncomfortable level of servitude. But if we have the spirit of Christ we shall think of the bells there are yet for us to ring to inspire and restore, so that there be no failing spirit and no capitulation to the dark forces, sinister and pitiless, of a trying day.

Surely the bells to ring are the bells of thanksgiving and worship. There are always many things to be thankful for. Blessings crowd us round. The very one-time popular song, "The Bells of St. Mary's," tells us that when red leaves are falling with suggestion of decay, decline and gloom, the bells shall ring out—bells that discourse triumphant music of love's truth, union, fellowship, joy and praise. Thanksgiving bells ring out, in the belfry of the country's soul, and in the towers of our own spirits! Provide for us a garland in exchange for ashes, the oil of joy for mourning and the garment of praise for the spirit of heaviness!

"AS PURE AS ANGELS" — WHAT A HAW HAW!

Blabbing Blair Moody a few days ago mailed out on dignified senatorial stationery a nicely worded alibi for all the stealing, grafting and mishandling of tax dollars that have been going on down in Washington. He painted good old Harry Truman, the world's most successful ward heeler, as an angel with the whitest of wings who is busy cleaning up the "soft spots."

He paints as a "slanderbund" those who have raised their voices against the rottenness of the Washington grafters and that all allegations pertaining to the "easy-money" pickings of New Dealers, Fair Dealers, Crooked Dealers or what have you, "smell like smear."

Little Windy Blair will have a lot of trouble in convincing people of Michigan that the political mob to which he owes allegiance and with which he has become one of its most diligent "white wings" following in the wake of the ward-healers as they march down the street, is as pure and as righteous as he would have people believe.

Any politician out of the sewers of Kansas City doesn't become an angel just the minute folks begin to firt out about all the stealing and grafting going on wherever the Fair Dealers have been able to get their hands anywhere near the hard-earned tax dollars of the American people.

MORE ABOUT WELFARE GRAFT.

A report was submitted to the Detroit Welfare Commission a few days ago which revealed the fact that the Relief department had given some 3,000 persons relief money to which they were not entitled.

In other words, these "clients" of the department drew hundreds of thousands of our tax dollars because it helps to keep a lot of relief workers on the jobs, it provides more tax dollars for "relievers" to use in beer gardens and spend at the races—in fact to live in ease and without want or worry.

You see this relief business serves two purposes, as long as they can keep the racket going. It provides jobs for welfare workers who have nice easy snaps in doling out your tax dollars to these chislers. The other purpose keeps a lot of lazy, indolent folks voting "right" when election time rolls around, as well as providing them sufficient funds to buy the luxuries of life that you—the fellow who puts up the cash—just naturally deprives yourself of in these trying times.

HERE IS THE RIGHT TYPE CANDIDATE.

There is some talk that youthful Congressman Potter of Cheboygan may become a candidate for the Republican nomination for United States senator. Our prediction is this—if he does become a candidate, this Republican soldier lad who left both of his legs over in Europe fighting in the war that Roosevelt wanted so he would win a third term, will be nominated hands down. Not only will he win the nomination but he will make Blabbing Blair Moody look like the last rose of summer before the campaign is over.

Young Congressman Potter is the right kind of a candidate for the Republicans to put into the senatorial contest. If he becomes a candidate, to my way of thinking, the Republican State Central Committee should put up the jack that he'll need to win a place on the ticket.

Oh yes, we know that such a thing is not according to Hoyle, but the Republicans are justified in doing the unusual things this year in order to drive the grafting, double-crossing, and lying bunch of political crooks that now infest Washington, back into their rat holes.

GRAFT AND WASTE—THEY MUST BE PAID FOR.

When you tore off the October sheet from your calendar and turned to November, you marked the day that you began to pay MORE for everything—more because included in what you buy are dollars and dollars that are hidden taxes.

In addition to the hidden taxes in what you buy, when you come to pay your next income tax, you will do some more howling, because the grafters associated with Harry Truman and his wasters have got to have more of your dollars to steal and to squander. It seems that Uncle Sam's treasury is running a bit low and the boys down on the Potomac have got to begin building up the "kitty," again.

Maybe they are beginning to realize that the taxpayers back home will get tired of the rackets and throw the whole mess out at the next election, so they are anxious to get what they can while the "getting" is good. Again we say, the folks voted for it, so why kick about it?

HOW POPULATION IS SHIFTING.

Figures released by the census bureau in Washington reveal the fact that Michigan now has a larger colored population than Missouri, Kentucky and Arkansas.

While our colored population has increased by 55 percent, the white population of the south has increased 16 percent. The white population in Michigan and other northern industrial states increased only 14 percent.

There is nothing like liberal welfare laws to help increase our population. It's working out to perfection.

Chest Drive Nears Quota

According to Community Chest officials nearly \$15,000.00 can now be accounted for as the \$17,000.00 goal looms as a possibility when the drive closes on Friday of this week. A new tabulation puts the chances of the drive going over the top within the sights of the committee who are hopeful that this week will bring in enough more money to fill the quota.

Co-chairman Norman Marquis and Tom Kent expressed their appreciation to local businessmen and local manufacturers for the splendid cooperation they gave in helping the Chest near its quota. The postal solicitation, used this year for the first time, proved disappointing due to the small response of local residents. However, those that did send in their checks did more than their share to help the drive climb to completion.

If you haven't mailed your contribution, remember Friday is the last day of the drive.

One hundred new children's books are on display in the library of the Plymouth high school. This display is part of the library's observance of the 33rd National Book week.

"New Horizons with Books" is the theme of book week this year. A variety of titles ranging from atoms to art, and from outer space travel to glamour are on display," said Mrs. Esther Ham, librarian. "These books are excellent gift suggestions," she continued.

"Displays are graded from senior high pupils," she said, "down to the pre-school level." Miss Ham invites all interested parents to visit the library on the second floor of the high school.

"Among the new titles are children's picture books, teen age novels, sports stories, historical and vocational fiction, current non-fiction of science, world problems, and biography," she concluded.

Edward Potthoff Tells of 6 Months in Puerto Rico

Edward Potthoff, city clerk and assessor, returned to Plymouth November 9 after a six months leave of absence. Mr. Potthoff spent the six months in Puerto Rico working with the Public Administration Society in re-assessing the area and revising the property taxation system. "It was the largest complete re-assessing job of which I have ever heard," he said. "The job is still not complete."

"I arrived in Puerto Rico after most of the surveying and platting were completed," he continued. "Most of the work which I did was with the appeal board." Mr. Potthoff described the system thusly, after the property was re-assessed at 80 percent of value (Plymouth is assessed at about 30 percent of value) the bills were distributed. At this time the new system was explained to the taxpayer. Persons who did not understand after this explanation, or who had a complaint about the size of the bill appeared before the appeal board.

"There is a great deal of poverty in Puerto Rico," he said, "but after awhile one becomes hardened to this. Across from a beautiful mansion would be a hut built of old packing boxes," he remarked. "In this country, there are the very wealthy, and the very poor."

"The biggest problem," he continued, "is the overpopulation of the country." The only arable location is a coastal plain. "The interior of the country is mountainous and not arable," he said.

The largest export of the country is sugar. Mr. Potthoff said that this stands head and shoulders above the rest of the products. The by-products of sugar, molasses and rum, are also exported.

Living in Puerto Rico for the average person is much more expensive than it is here, he stated. "Eggs sell for \$1.00 per dozen and steak is \$1.95 a pound. The staple foods are rice and beans because they keep in the hot humid climate. Both of these foods must be imported."

"Puerto Rico has excellent technicians," he said, "but they have no administrative skill. The officials work about three and a

This year's double-barred cross Seal features Santa Claus himself. Buy Christmas Seals — use them generously.

Athletic Banquet is Huge Success

Around 200 persons attended the athletic potluck in the high school gymnasium staged by the parents of athletes who participated in fall sports this year. Honored guests were members of the football squad, cross-country squad, and the cheerleaders. A delicious turkey dinner with all the trimmings was served by the mothers and fathers of the boys and girls.

After the feast, toastmaster Dr. Ted Cavell introduced the coaches, who in turn introduced the members of their teams. Dr. Cavell then introduced the guest speaker, Jack Breslin, a representative of the Michigan State college alumnae association, and a former star halfback for the Spartans. Mr. Breslin presented a film of the Michigan State-Michigan football game.

The new football captain for next year was introduced—the honor of leading the 1952 Rock football team went to Ron Nyhus, star tackle and line backer of this year's team.

Many parents are responsible for the success of the first potluck athletic banquet. It is later than you think. If you will look at the calendar you will find that Christmas is actually just around the corner. Although there are still quite a few shopping days before Christmas according to the calendar, the time for selecting Christmas merchandise is right now.

A survey of local stores shows that Christmas merchandise has been coming in for the past few weeks and most of it is on the shelves for sale now. Christmas cards, toys, candy, household articles, toilet articles, clothing, and many other items are now on display for the customers to inspect and buy. The wise buyer will do his shopping early and take advantage of the many shopping specials being offered by local merchants to induce early season buying.

If you have a boy or a friend in the service overseas you had better get his box fixed and sent right away for the postoffice authorities urge persons sending Christmas packages in the mail to do so by November 15 to insure being delivered by Christmas.

One of the major problems that this community faces during the holiday season is parking facilities, and Plymouth merchants are encouraging women in this area to do as much of their shopping as possible before the rush season begins, and to do it in the morning to avoid the afternoon traffic congestions.

From all indications holiday buying will set a new high in Plymouth and the merchants report already customers are making holiday purchases. The shoppers will have a bigger variety and a larger quantity of merchandise to select from than ever before in the history of Plymouth. Local residents will find almost anything in Plymouth that they can find in the larger cities, and at the same time, shop in a more convenient district than one that is very congested with shoppers.

Constant vigilance of Plymouth Mail advertising columns from now until Christmas will save shoppers many dollars if they will take advantage of the holiday items offered in the local stores.

Local merchants are urging the Plymouth Chamber of Commerce to get the Christmas lights and decorations up by Thanksgiving Day this year as other progressive cities have been doing for several years.

Special groups are already working with the Chamber of Commerce to get these Christmas decorations up. Plans are for an elaborate decoration scheme this year, and one that will be appropriate for a fast-growing, public-spirited community such as we have grown to be.

Xmas Club Checks Mailed by Bank

Checks amounting to \$115,406.25 have been mailed to 1139 members of the 1951 Christmas Club of the First National Bank of Plymouth and Livonia.

Bank officials state this is the largest Christmas Club the bank has ever had and it represents an increase of 15 percent over last year's Christmas Club.

The First National paid interest on Club savings at the same rate as paid on savings accounts.

The Club members receiving these checks will have this additional amount of money to use for taxes, savings, purchases, or whatever need they may have.

The new 1952 Christmas Club is now open at either office and the bank officials extend an invitation to anyone to join.

Vote Union Out at Bathey Plant

Employees of the Bathey Manufacturing Company voted against having a union in their plant by a 60 to 40 majority on November 6. The election was conducted by the National Labor Relations Board and all of the employees of the plant participated in the election.

A well baby clinic will be held in the health room at the high school from 10-12 noon, Wednesday, November 21.

"I REMEMBER" BY THE OLD TIMERS

From Mrs. Bonnie B. Thompson, Ottawa, Kans.: I remember when on winter evenings father would go to the orchard where apples were buried—first covered with straw, then with earth, making a huge mound—and bring apples back. These were the best apples I ever ate. These, added to popcorn or popcorn balls in a family of five children, made for a very merry evening.

From E. D. Bonar, Churubusco, Ind.: I remember when I was a small boy we lived near the Arkansas river and often we would go and sit on the river bank and watch the boat houses go by. These houses were built on a raft of logs, when they reached a point where they planned to debark, the houses were torn down and taken out into the country to a ranch and rebuilt. It was a cheap and safe transportation.

From Emille Hrabec, Chicago: I remember the days when we had to wear long underwear—and, oh, what a job it was to get it smooth around the ankles under the cotton stockings we wore. And we were as happy as colts let out to pasture in the spring when we could take off the cumbersome things and run barelegged and barefooted all summer.

From Nile Clote, Chicago: I remember how proud I was to be the first youngster in my village to finish my Saturday bath. I would sit all slicked up out on the front porch and wait for some of my friends to finish their baths and come out on the porch too. I am 97 years old and a lot of water has gone under the bridgework since then.

CRANBERRY-APPLE BREAD STUFFING

To the traditional good-eating, old-fashioned bread stuffing added flavor and texture contrast is contributed by cranberries and apples. The stuffing catches and holds the succulent juices of the bird and increases eating pleasure.

FRESH CRANBERRY-APPLE BREAD STUFFING
1 quart fresh cranberries, chopped
1 quart peeled, chopped apples
2 teaspoons lemon juice
2 cups sugar
1 cup finely chopped celery
2 teaspoons salt
1 gallon 1/2" bread cubes
1 cup water or broth
Combine chopped cranberries, apples, lemon juice, sugar, celery, salt and bread cubes. Add water and mix well. Yield: 1 gallon Fresh Cranberry-Bread Stuffing (sufficient for 16 lb. turkey).

"I REMEMBER" BY THE OLD TIMERS

From C. E. Pleas, ChIPLEY, Fla.: I remember the days of the dip candles and how we had to keep the wicks pulled tight in pouring the tallow or they would not burn evenly, and the tallow would run down one side and waste.

From Ronald Albright, Chicago: To heck with the joys of the 1880's. I remember "the good old days" weren't so convenient—dripping and smelly candles and lamps, smokey fireplaces and wood-burning ranges, water way down at the well, the cream and butter a bitter cold walk away at the spring house, and a slow old horse to carry you to town on a trip that took all day. Now I hop into my gas buggy whenever I need a loaf of bread or a little pipe tobacco and am downtown in 15 minutes. I have many happy memories of the old days, because I knew no better then, but I would hate to return to old times again—because then I would be haunted by the memories of modern day electricity, radios, television, autos, airplanes, and above all, medical science that keeps my rheumatism under control.

From Joe Mains, Cleveland: I remember when a farmer bought a sulky plow he was accused of being lazy and wanting to sit down at his work. Bankers sometimes refused credit to a man who owned a sulky plow, using it as evidence against his character.

From Mrs. Elizabeth Olney, Kalamazoo: I remember the hitching posts that used to line the streets. They were the parking meters of their day, except you didn't have to put a penny in. When automobiles began to come in, we used to give them the dickens if they parked in front of the hitching posts and kept the horse and buggies away.

(Mail your memories to THE OLD TIMERS, Box 340, Frankfort, Ky.)

We wish to point a blunt thumb at the calendar and remind our readers that you can save yourself a peck of problems by doing your Christmas shopping early. By touring the shops now you may celebrate a white Christmas instead of a black and blue one. Jingle bells are dandy, but if you try to do all your shopping on Christmas Eve they remind you of Siberian travelers racing across the snow half a jump ahead of a pack of howling wolves. Not that sales clerks are wolves, although they probably feel like taking a few nips out of some of the customers on those last whirlwind days.
You'll be ahead in your Christmas shopping if you drop in and browse around here. We have a top stock of gifts... almost to the ceiling. And you'll be sure to get just what you're looking for. Shop for those last minute gifts first... and save time, trouble and money... at PETERSON DRUG, 840 W. Ann Arbor Trail, Phone: 2080.
The general president of the Associated Master Barbers says that haircuts may go to \$1.50. That's certainly bringing inflation to a head.

Co-op Nursery to Receive License

There has been much interest aroused in the community about the plans of the newly-formed Plymouth Cooperative Nursery. This nursery is open to Plymouth and neighboring areas. The sessions are held in the First Methodist Church on Monday, Tuesday, and Wednesday mornings. The Michigan State Department of Social Welfare will issue the license which is necessary for the functioning of the nursery. This license denotes full approval of the teacher, the location, and the health standards maintained. Through this department, the nursery will also receive much valuable information about training methods, new equipment, and literature for parent instruction.

One of the unique features of a cooperative nursery is the opportunity for parents to participate with their children. Each mother acts as the teacher's assistant for a few days every term. In this way, the young pre-school child can have the benefits of purposeful activity with the mother being fully aware of her child's development. The mothers attend lecture series which give suggestions and advice about child development. The Plymouth group also holds regular meetings of its own to discuss business matters and any questions concerning individual or group problems.

Another singular feature of this nursery is the financial basis on which it is operated. Since it is strictly non-profit all funds are used for the operation of the nursery, and the tuition fees can be held at a minimum amount. Mrs. Willis Hunting, chairman of the membership committee, will give information about enrollment to any interested parents. She can be contacted by telephoning Plymouth 1332-M.

Hungarian Partridge Experiment About Here Proves a Failure

Following a careful check a trial of raising Hungarian partridge in this area. It was thought that because of the somewhat milder winters this part of Michigan experiences than most other sections and because, too, of the fact that there are many orchards in this area which are usually excellent areas in which to raise Hungarian partridges that they might do well about here.

MAYOR McGUP By John Jarvis

The department, with former President Brick Champe of the Wildlife Association, released some 230 Hungarian partridges some two miles west of the city. The next year after their release, a few were seen by hunters. Last year officials of the department and hunters reported seeing three or four a few miles north of Ann Arbor. Up to the present time this year there has not been a single report of any one seeing one of the Hungarian partridges in this area. If these birds would thrive in this area they would be somewhat plentiful by this time in view of the liberal planting that was made a few years ago. But the fact that not one has been seen this year, indicates that they will not live in this area and that the original birds have entirely disappeared.

**Rotary Club's Annual Party
Held - But There was no 'Bingoing'**

Did you ever hear about such a thing as a Thanksgiving keno party without the keno?

Well, that's just what happened in Plymouth last weekend. Members of the Rotary club who for nearly a quarter of a century have once each year devoted one evening to a bit of fun devoid of all serious Rotary business about crippled children and other aids to this or that, some weeks ago planned for their annual evening of fun—the usual Thanksgiving keno party for club members, their wives and guests.

Lawrence Lyons, Dave Galin and other Rotarian dignitaries went ahead to make the usual arrangements for the event. They bought dressed turks, chicks and ducks and lots of other things that the Rotarians and guests play keno once each year for themselves instead of giving the prizes to others. The Plymouth Rotary club of Plymouth is especially noted for its gifts to charity and others in need of help.

All of these arrangements were made weeks ago. Then one day Manager Ralph Lorenz of the Mayflower hotel where the Rotary club holds its meetings and its annual keno party stopped President David Mather of the club, who is also a pillar of the Presbyterian church, and said to Dave: "I've got some bad news for you. There is a liquor store in the Mayflower building and the high up officials over in Lansing have ruled that no keno or bingo game can be played in any building in which is located a bottle goods store. Sorry, Dave, but you will have to make other arrangements. There can be no keno played in the Mayflower."

President Mather conveyed the sad news to the members of the Thanksgiving party committee. Having read in the newspapers how the Fair Dealers crack down on Republicans (and all members of the committee being Re-

publicans) the committee members decided that they would have to throw keno out through the window or some Republican might go to jail.

Of course if President Mather had been a New Dealer or a Fair Dealer or some of the other leading lights of the Plymouth Rotary club had the "right" political connection, everything might have been O.K. but no one wanted to take a chance—and that is why the annual Rotary club Thanksgiving keno party didn't have a single keno or bingo.

Now some of the Rotarian big wigs are beginning to worry about their annual Christmas party auction sale whereby hundreds of dollars are raised each year for little boys and girls who might not get any presents from Santa Claus, if it was not for this big auction sale conducted just before Christmas by the Rotarians.

(That foul minded Plymouth Mail editorial writer has suggested that some one get a hook-up with General Vaughan and then everything will be hunkey-dory. But no Rotarian has fallen for it.)

But back to that kenoless keno party. Master Mind "Larry" Lyons discovered that the tickets that had been sold for the keno party had been numbered. Why not write similar numbers upon cards and follow some such system as sewing societies use in offering door prizes or something like that?

"Then we will draw numbers from a hat and everybody will get a prize just the same as though they had played keno," he said, "and nobody will go to jail."

That worked out pretty good and everybody was happy about everything except the weather.

Although present, former Rotary President Charles Bennett was unable to give the brief opening address. He was suffering from laryngitis. His interesting remarks were read by Robert Marsden.

Mr. Bennett recalled the fact that it was just 24 years ago on the very same date that he had made a brief talk to some hundreds of Plymouth Mayflower hotel stockholders in the then Crystal dining room, commending them for their public spirit in making such a fine hotel possible for the little village of Plymouth that since has become one of Michigan's most thriving industrial municipalities.

It was an interesting fact, too, that the Rotary Thanksgiving party was the first public event held in the new Mayflower dining room, which has been converted into one of the most beautiful dining places in Michigan or any other state.

Pleasing musical numbers were provided by Hanna Strasen and Ciro Sealing of the Daisy. The dinner served by the Mayflower was declared "top."

**Fire Chief Speaks
at Lions Meeting**

Plymouth Fire Chief, Robert McAllister, spoke at the last regular meeting of the Plymouth Lions club two weeks ago.

The fire chief gave a fine talk on fire prevention in the home, small store and factory. He explained to the group some good housekeeping rules in the home.

Mr. McAllister brought home a good point for all to remember when he stated that no one can afford a fire as most everyone, whether it be home or business, is under-insured.

Tonight the Lions club will meet in the Mayflower hotel at 8:30 p.m. for their regular meeting.

As in past years, WHRV, Ann Arbor, will broadcast the dance and interviews with the teenagers attending the dance. The dance will begin at 9 p.m. and end promptly at midnight every Saturday throughout the fall and winter months.

These dances are broadcast through the courtesy of local merchants and the radio station. A direct telephone line is established from the ballroom to the station throughout the entire dance. This is a change from last year when only a part of the dance was broadcast.

The recorded dance music is played by a disc jockey from WHRV.

half to four days a week." The rest of the week is holiday, a saint's day, a special national holiday, or one of the sick days allotted to each employee. The P.A.S. is trying to train the technicians to become administrators.

"When this is accomplished, the country of Puerto Rico will advance rapidly," he stated.

While in Puerto Rico, Mr. Potthoff went deep sea fishing and underwater fishing. Once during a deep sea fishing expedition, a fish took the bait, and dived toward the bottom. The force of the dive broke a 110 pound leader. The fisherman never did find out the type of fish it was.

Mr. Potthoff related his experiences in under water fishing. Before going fishing, the fisherman dons a mask which covers his eyes and nose, and special fins which allow him to walk on the coral reefs and dive more deeply. He then walks along looking down into the water. When a fish is spotted, the fisherman dives, shoots the harpoon, and if his aim is good spears the fish.

Puerto Rico is a beautiful country, and makes an ideal vacation spot, he said.

"I liked Puerto Rico," the newly appointed city clerk said, "but it is good to be back in Plymouth again."

Some people argue over religion as stubbornly as though they had it.

Church to Hold Special Service Thanksgiving

As is customary in all Christian Science churches, a special Thanksgiving service will be held on Thanksgiving day in First Church of Christ, Scientist, corner of Main and Dodge streets at 10:30 a.m.

Following the usual order of service there will be a brief period in which members of the congregation may express their gratitude for healings and other help which they have received during the past year.

The Golden Text from Psalms (92:1) is appropriate for the occasion and reads: "It is a good thing to give thanks unto the Lord, and to sing praises unto thy name, O most High."

The Bible citations include Psalms (100:5): "For the Lord is good; his mercy is everlasting; and his truth endureth to all generations."

Among the citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, (Pref. vii) will be the following: "To those leaning on the sustaining infinite, to-day is big with blessings."

Official Picks All-Touch Team

The first season of touch football has come to a successful close and from all indications these games provided some interesting football this year. A number of fans turned out to watch these midget grid players in action. The young boys displayed much enthusiasm and the department of recreation officials, coaches, players and fans deserve much credit for making the first year the success that it has been. The coaches for the five teams in the league were: William Foster, Starkweather; Harold Howard, Bird Seniors; Lee Turcott, Bird Juniors; Mike Spitz, Catholics; Tyler Caplin, Smith.

A number of boys were outstanding runners, passers, kickers, etc. According to Ken Kisabeth, who witnessed all these games and helped officiate in them—the best passer was Bernard Forwald of the Catholic Tigers, who threw most of the touchdown passes. The best run-

ners were: Otto Bufe of Bird, who led the league in scoring, and Dave Walasky who was the leading scorer for the champion Jets. The best kickers were Joe Barraco and Otto Bufe. Kisabeth picked his all-league team, which is as follows:

Hoopsters Begin Season Practice

The first basketball practice of the season was held last week with a large number of boys trying out for positions on the squad. More will be out this week as the football boys have completed their season.

The squad, under the direction of Coach John Sandmann, began limbering up with a few calisthenics and then participated in a few light scrimmages.

The squad will be cut to a workable size this week as only a limited number can be carried on the varsity squad.

Weather Closes Football Season

Because of the deep snow on the playing field and the unseasonal weather last Friday evening, the football game with Garden City was cancelled. As a result of this the season ended with Plymouth winning 2 games, losing 4, and tying one.

The locals showed some class and spirit this year and despite the record on paper, the team was a hard-hitting, high-spirited outfit. All the losses were close ones, with the exception of the Wayne game, and could have been on the win side with a few more breaks.

The statistics reveal the following information for the seven games played:

Plymouth scored 91 points to their opponents 109. The Rocks completed 20 passes out of 44 attempts—McKinley had the best percentage with 7 completions out of 14 attempts while Beaver had

The first game of the season is Friday, November 30, when the Rocks open the season over at Farmington. Plymouth won the first game last year against Farmington by a score of 42 to 33, but last year's team has graduated, and an inexperienced team will take the floor this year. This non-league tilt will give Coach Sandmann an opportunity to evaluate the members out for the team this year.

The schedule for the basketball season will be in next week's paper.

6 out of 13 attempts. All opponents completed 27 passes out of 67 attempts.

Bud Lamphear punted 31 times for an average of 32 yards per punt.

In rushing Dave Travis was the work horse of the backfield as he carried the ball 105 times for a total of 533 yards or 5 yards per carry. Ron Ritter had the best average of 8 yards per try, but he only carried 35 times. Don Beaver and Ronald Finney averaged 4 per carry.

Dave Travis headed the point scorers with 30 points. Beaver and Ritter had 13 each. Al Williams 7, Kelly, Daggett and Lamphear 6 each and 2 points were scored on a safety. Williams converted 7 times out of 12 attempts. Vette 9 out of 2.

Dick Huebler caught 11 passes and Kelly 4—Travis had 3 and Ritter 1.

Jets Win Touch Football Crown

A stubborn and determined Catholic Tiger team upset the highly favored Spartans of the Bird school 7 to 6 last week, and helped clinch the championship for the Starkweather Jets. The Tigers scored first when Bernard Forwald passed to David Conrad. Conrad grabbed the ball and scampered 30 yards for the TD. On the try for the extra point, the same pass play from Forwald to Conrad, clicked and put the Tigers ahead 7 to 0.

A few minutes later Otto Bufe took the ball on a reverse and romped 20 yards for 6 points for the Spartans. They failed to make the extra point, thus ending the scoring for the day and knocking the Spartans out of the championship.

On Monday, November 5, the Jets clinched the championship by romping over the Bird Jr. Spartans 13 to 0. David Walasky scored all 13 points for the Jets on runs of 15 and 25 yards and scored one extra point on an end run.

On Tuesday, November 6, snow cancelled the last game of the year, thus ending the first season of touch football.

Jr. High Boys Use 5 Unit Workshop

In the workshop of the seventh and eighth grade boys are five different units: wood working, metal work, electricity, household mechanics which is repair jobs or fixit, and crafts (whittling).

CONSUMERS POWER COMPANY

Low-Down on a high-powered Performer

Let us tell you this: The Buick pictured here packs more power than you find in any other car of its size and room and price.

That's the power of Buick's newest high-compression valve-in-head eight—the F-263 Fireball Engine, that really gets miles from a gallon of gas.

Add to this the fact that it tips the scales at 3817 pounds curb-side—and you begin to see why this big-powered beauty is such a nimble-footed number out on the road.

But that's only Chapter I of the performance story.

There's a big-car feel to the way this trim traveler covers the ground—hugs the curves—holds its course on the straightaway—smothers the bumps with its big soft coil springs on all four wheels.

There's big-car room inside—six-passenger room—headroom, hiproom, shoulderroom, kneeroom, front and back.

Come in, look it over, and we think you'll agree—it's big in everything but price.

And that's where it really shines. If you've shopped around you'll know what we mean when you read the price tags, and what they include in the way of standard equipment that shows up as "extras" on so many others. Such things as an oil filter, air cleaner, vacuum booster, built-in summer ventilation are all yours at no extra charge.

It's hard to believe but it's true. If you can afford a new car, you can afford this Buick at the prices we're quoting today.

Better come in and look this smart buy over.

Optional equipment, accessories, extra and local taxes, if any, additional. Prices may vary. Always read the complete Buick literature. A Buick is a Buick. Change without notice.

Hints For Plymouth Homemakers

Serve Apples as Snack, Desert, or Salad

Apples, which are so abundant this year, can be served in an almost endless number of ways. They're delightful in the main course, served as salad or dessert, or as a crunchy between meal snack.

Not all varieties of apples are equally well suited to all purposes, according to the Food and Nutrition Service of the American Red Cross. A few kinds are known as general purpose apples, however, because they're tart enough for cooking, but not too acid to eat out of hand and to use in salads.

If you're not sure of the best apples to choose, check this list before you go to market:

FOR EATING (that is for eating raw as dessert or in salads): Delicious, Grimes Golden, Jonathan, McIntosh, Northern Spy, Stayman Winesap, and Steele Red.

FOR BAKING (because they're tart in flavor and hold their shape): Baldwin, Northern Spy, Rome Beauty, Stark, Stayman Winesap, Steele Red.

FOR COOKING (tasty enough for all cooking purposes): Baldwin, Rhode Island Greening, Rome Beauty, Stark, Steele Red, and Wealthy.

Pork and apples are a favorite combination and at the present time make a tempting main course at a reasonable price. Try them together, using the apples in a stuffing.

Apple Stuffing
One-fourth cup diced salt pork, 1/2 cup chopped onion, 1/4 cup

chopped parsley, 5 medium sized cooking apples, diced, 1/2 cup sugar and 2 cups soft bread crumbs.

Cook salt pork in skillet until crisp and remove from fat in pan. Add onions and parsley to fat and cook gently until onions are clear. Add apples and sprinkle with sugar. Cover pan and cook for about 12 to 15 minutes or until apples are tender. Remove lid and continue cooking until apples are lightly browned. Add salt pork and bread crumbs and stir gently over heat until mixture is hot throughout. Makes 3 cups stuffing.

Place stuffing between 2 sections of spareribs which have been seasoned with salt and pepper, skewer them together and place on rack in shallow pan. Bake in moderate oven, 350 degrees F., for 1 1/2 hours.

Make half of the apple stuffing recipe and use part of it to stuff pockets cut in 4 large pork chops. Sprinkle with seasoned flour and brown on both sides in hot skillet. Place in casserole and top with remaining stuffing mixture. Add small amount of water. Cover dish and bake chops for about 45 minutes in a moderate oven, or until tender. Remove cover from dish and bake another 10 to 15 minutes to brown stuffing.

Unless your home has storage space that is really cold—just above freezing—it may be best to store apple bargains in a processed state, such as a spread or pie. Chutney is a sweet-sour combination that adds pleasant contrast to many meat dishes.

Apple-Tomato Chutney
Three quarts chopped fresh tomatoes, 3 quarts chopped apples, 1 cup chopped green pepper, 3 cups chopped onion, 2 cups seedless raisins, 4 teaspoons salt, 4 cups brown sugar, firmly packed, 1 quart vinegar, 1 1/2 cup whole mixed pickling spices.

Tie the spices loosely in cheesecloth or any thin, clean white cloth. Combine all ingredients in large kettle. Bring to boiling point, then lower heat to keep at simmering temperature and simmer for 1 1/2 hours, stirring frequently to prevent sticking. Remove spice bag. Pour mixture into hot, sterilized jars and seal at once. Makes about 3 quarts of chutney.

Apple sauce gives a new slant to our old friend bread pudding.

Apple Sauce
4 cups apples, 1/2 cup sugar, 1/2 cup water, 1/2 cup raisins, 1/2 cup cinnamon, 1/2 cup cloves, 1/2 cup chopped nuts, 1/2 cup applesauce.

To make: Cream together fat and sugar. Stir in the egg. Sift together flour, soda, salt, cinnamon and cloves. Mix in nuts. Add to creamed mixture in three portions alternately with the applesauce in two portions.

Form dough into rolls. Wrap in waxed paper and chill in refrigerator.

When ready to bake, slice thin. Bake on greased baking sheets at 375 F. (moderate oven) 10 to 15 minutes. Yield: About 5 dozen cookies.

This is the true nature of home—it is the place of Peace, the shelter not only from all injury, but from terror, doubt, and division.

Applesauce Puff
Four slices bread, 2 tablespoons soft butter or fortified margarine, 1 1/2 cups applesauce, 1 teaspoon cinnamon, 1 1/2 cup sugar, either white or brown, 1 egg, 1 cup milk, 1/4 teaspoon salt.

Trim crusts from bread (optional) and spread slices with soft table fat. Place in bottom of greased baking dish. Cover with applesauce and sprinkle with cinnamon.

Beat egg just until well mixed and add sugar, salt and milk to it. Mix well. Pour over applesauce. Set dish in pan containing about 1 inch of hot water. Bake in moderate oven, 350 degrees F., for about 40 minutes or until firm. Makes 4 servings.

Apples in Cookies
A piece of cut apple in the cookie jar is a familiar device to keep cookies from drying out. But these applesauce cookies have the moisture and flavor built in.

Applesauce Drop Cookies
1/2 cup fat, 1 cup sugar, 1 egg, 1 1/2 cups sifted flour, 1/2 teaspoon baking powder, 1 teaspoon soda, 1/2 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon cloves, 1/2 teaspoon nutmeg, 1/2 cup seedless raisins, 1 cup quick cooking rolled oats, 1 cup applesauce.

To make: Cream together fat and sugar. Stir in the egg. Sift together flour, baking powder, soda, salt, cinnamon, cloves and nutmeg. Mix in raisins and rolled oats. Add to creamed mixture in three portions alternately with applesauce in two portions. Beat well. Drop dough by teaspoonfuls onto greased baking sheets. Bake at 375 degrees F. (Moderate oven) 10 to 15 minutes. Yield: About 3 dozen cookies.

Applesauce Refrigerator Cookies
1/4 cup fat, 1 cup sugar, 1 egg, 2 1/2 cups sifted flour, 1/2 teaspoon soda, 1/2 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon cloves, 1/2 cup chopped nuts, 1/2 cup applesauce.

To make: Cream together fat and sugar. Stir in the egg. Sift together flour, soda, salt, cinnamon and cloves. Mix in nuts. Add to creamed mixture in three portions alternately with the applesauce in two portions.

Form dough into rolls. Wrap in waxed paper and chill in refrigerator.

When ready to bake, slice thin. Bake on greased baking sheets at 375 F. (moderate oven) 10 to 15 minutes. Yield: About 5 dozen cookies.

Coffee Is In This Dessert

The fine flavor of coffee and the wonderful texture of coconut cream pie—there's a combination that adds up to a pie that is a pie! It is sure to be a top favorite with everyone who enjoys a downright good dessert.

After you've made this excellent pie, here's an easy way to add a party touch to it. Whip a small amount of cream and, using a teaspoon, arrange small whipped cream rosettes around the edge of the filling. Then sprinkle a few shreds of toasted coconut on the cream. There you are—a lovely-to-look-at dessert that's mighty easy eating.

There'll be coffee in the dessert, and you'll want coffee in the cup, too. Just be sure that the coffee you serve is fresh, full of flavor and piping hot. And don't forget to make enough to take care of those leisurely seconds all the way around the table.

Coffee Coconut Cream Pie
1 3/4 cup enriched flour, 1/4 cup sugar, 1/8 teaspoon salt, 1 cup coffee, 1 cup evaporated milk, 3 egg yolks, 2 table-spoons butter or margarine.

1 teaspoon vanilla, 1 cup shredded coconut, 1 9-inch baked pastry shell.

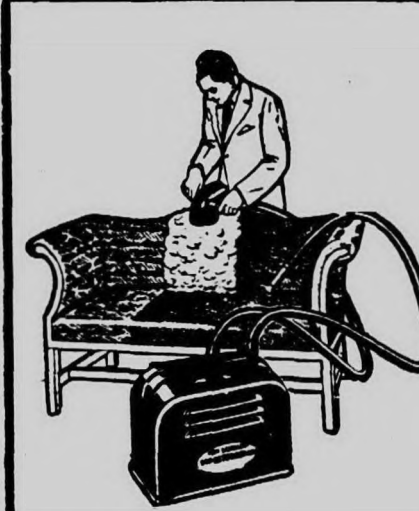

Combine flour, sugar and salt in top of double boiler. Add coffee and evaporated milk gradually. Cook over hot water, stirring constantly, until thickened. Blend a little hot mixture into egg yolks; return to double boiler. Cook two minutes, stirring constantly; remove from heat. Add butter, vanilla and coconut; cool. Pour into pastry shell. Garnish with whipped cream and 1/2 cup toasted coconut.

Use Your Deep Well Cooker

Idle on the back of many kitchen range stands one of its most economical, useful and convenient parts—the deep well cooker. Household equipment specialists of the U.S. Department of Agriculture suggest that the many families who need to save on the cost of food and also the electricity or gas for cooking would be wise to make more use of that covered kettle fitted into an insulated well. As a start, they suggest reading about it in the booklet of directions that comes with the range.

When heating rolls or baking potatoes in the cooker, set them on a rack on the bottom and away from the sides of the kettle to prevent scorching.

Phone news items to 1600

This thrift cooker is ideal for such budget items as the less tender cuts of meat, dry beans or whole-grain cereals, for example, which need long, slow cooking. In the insulated well these foods can cook to delicious tenderness with the minimum of fuel and without the need for frequent watching to prevent scorching.

The well can save fuel by cooking a whole meal together, or by pinch-hitting for the oven when baking a few potatoes or heating up a few rolls. It is ideal for simmering soup or for steaming puddings, brown bread or custard. The depth of the kettle makes it convenient for steaming bulky vegetables like corn on the cob or kale or other leafy greens.

Other uses: Popping corn, sterilizing baby bottles or canning jars, overnight slow cooking of breakfast cereals.

As long as a steady stream of steam rises from the kettle, several different foods may cook in it together without mixing flavors. Thus a pot roast or stew with vegetables may simmer in the lower half of the kettle while above—on a trivet or rack—a pudding may steam-cook. To

Early November Blizzard Cuts Down Size of Deer Hunting Army

The terrific early November blizzard which swept Plymouth and all of Michigan for four days last week, cut by an estimated nearly one half of the number of deer hunters who had planned to spend a week or so hunting in northern Michigan.

Only those who had cabins or hunting lodges available near main highways ventured into the northlands.

Reports that snow had made impassable most of the trail roads which are used by hunters to get back into hunting areas away from the paved highways caused many of the hunters to change their minds and not venture into their favorite hunting areas.

As a result of the severe storm, Michigan's conservation department predicted a lighter deer kill this year than had been expected.

The largest deer starvation in state history last winter and spring has also slowed the expansion of the herd, particularly in the northern lower peninsula. In spite of an estimated loss of 15-20,000 animals, the total Michigan herd, estimated at 800,000-1,000,000 head, still is too large for the size of its range.

There is only one regulation change in the Nov. 15-30 season. Big game hunters will observe regular shooting hours for the

first time, 7 a.m. - 6 p.m. Deer seekers in the southern third of the state again will be restricted to shotguns, with buckshot, ball or slug loads.

Resident deer and bear license is \$3.50, nonresident fee is \$35 and a camp permit is \$3.50. Not less than four persons must comprise a hunter-camping group in order to take a buck for camp purposes.

Persons who hunted in the bow season but failed to get a deer, may hunt with bow and arrow or gun in the general season providing they purchase a general season license.

Those who want to set up a camp on state-owned land must obtain a camp registration card from a hunting license agent, or a conservation department office. Rifleman away from home and who have killed their deer may avoid spoilage in case of warm weather by obtaining a special no-cost permit from department

district offices. Permit authorizes a hunter to have deer processed and stored at a locker plant for later transportation home.

Deer hunters again may register at any state police post or conservation headquarters so they might be contacted in case of an emergency. Those planning to register should be sure to advise those at home of the registering post or headquarters.

Of the 83 counties—all of which have at least some deer including Wayne county—Roscommon county had the largest bag of nearly 6,000 deer, as well as the greatest hunting pressure last fall, 20,675 hunters. Others with over 4,000 deer shot were Montmorency, Ontonagon, Lake Alcona, Crawford and Ogemaw counties. At least 1,000 were bagged in all except 10 of the northern lower and upper peninsula counties.

Registration Drive to be Started by Women Republicans

If every woman who is eligible to vote in Plymouth or Plymouth township is not registered for the next regular election in this state, it will not be the fault of the Republican Woman's Club of Plymouth.

President Katherine Henderson stated yesterday that within the next few days she plans to announce the names of committees which will be formed in both the city of Plymouth and Plymouth township who plan to see to it that every woman residing in either place who is entitled to a vote, has her name on the registration lists.

Quite by accident the officials of this organization during the past year or so discovered the fact that there are several hundreds of women living in both the city of Plymouth as well as the township whose names are not on the registration lists.

"We hope not only to get them properly registered, but we have in mind a plan whereby after they are registered we see to it that they get out to vote. Not only do we plan to take care of these details, but we also have in mind another purpose, we want them to become party workers" stated Mrs. Henderson.

Election observers of this area who have over the years followed voting contests, predict that there will be several hundreds of additional votes in the totals of future election results in both the city and township of Plymouth.

Albert Duston is Now at Camp McCoy—Likes His New Assignment

Plymouth friends of Albert Duston will be interested in knowing that he has been transferred from the tank corps to the field artillery and that he has been transferred from a Colorado camp to Camp McCoy in Wisconsin.

In a letter to Mr. and Mrs. Ben F. Reafnyder of Northville road, where he lived many years during his school days, he states that he likes his new military assignment much better than his previous one and that he is also pleased to be located nearer home than he was previously.

"It has been cold here and it came to rain or snow most of the time," he said in his letter. He expects to be able to get a brief leave of absence at Christmas time and if he does he plans to come to Plymouth to see his old friends.

He declares that the one big question in the army is—"Why are we fighting in Korea?" All the boys in the army are hoping that their military careers will not extend over many years.

Prominent Woman Civic Leader Removes to Neighboring State

Plymouth last week lost by removal to another state one of its most prominent and best known women residents, Miss Mabel Spicer having retired from all local activities, sold her home and removed to her new home near Indianapolis, Indiana.

During the past few months she has built for herself a new home on a country estate owned by Dr. and Mrs. H. W. Mason of Indianapolis. Mrs. Mason is a sister of Miss Spicer. The beautiful site is located ten miles directly west of Indianapolis. Miss Spicer recently sold her home at 369 West Ann Arbor trail to Mr. and Mrs. Joseph Archer. The Archers recently sold their residence on Ford road near Lilley, to Dr. and Mrs. Harold Brisbois.

For years Miss Spicer has been active in school and Methodist church work of Plymouth, as well as in the D. A. R. organization and the Plymouth Woman's club. She has served in official capacities in numerous Plymouth women's groups.

She has been a resident of Plymouth most of her life, except for the time spent when teaching home economics in other cities. She organized and was for ten years head of the economics department of the Youngstown, Ohio, public schools. For years she served as a member of the Plymouth city election board in precinct No. 1.

The Spicer family came to Plymouth in the early days from Marshall, which is the birthplace of Miss Spicer, Sam Spicer, a well known farmer and real estate dealer and one of the organizers of the Michigan Grange in which he served as an officer for years, is a brother. He has been township clerk of Plymouth township for nearly a quarter of a century.

Back From Florida, Attorney Says Winter Rush Already Started

"It was amazing to us to see how many northern residents have already gone to Florida to spend the winter," stated Attorney Claude Buzzard a few days ago after his return from a brief business and pleasure trip to Florida with Mrs. Buzzard.

While in the south they visited with relatives in Fort Lauderdale and on their way home took time also to visit some of the interesting places in the central and northern part of the state.

"There are so many people in Fort Lauderdale already that it was difficult to find a place to park. Eating places were crowded, although I presume that this was partly due to the fact that some were not yet open for the winter season," he said.

"The weather was delightful all the time we were down there. It is easy to see why Florida is growing so fast," he added.

Hunting Inside City Illegal

Hunting in the City of Plymouth will be illegal after November 26. The city commission passed an ordinance Monday, November 5, which says, "No person shall hunt with a revolver, pistol, rifle, shot gun or other firearm within the boundaries of the city of Plymouth."

This ordinance was passed as a result of a number of complaints of hunters within the city limits doing damage to private property.

The ordinance goes into effect 21 days after it is passed by the commission. Violations may be punished by a fine of \$100 and costs or imprisonment for not more than 30 days or fine and imprisonment and costs at the discretion of the court.

Here's a tip on brooding pork chops. Brood the chops several hours before cooking time, then store in your refrigerator. Chilled, you'll find the chops hold the crumbs securely.

Tip to motorists: Keep your tires up and your speed down. Opportunity is a fine thing—so fine in fact that many of us miss it.

Ask Cooperation on Holiday Mail

"It is highly essential that the public cooperate with the postal service in the preparation of Christmas greeting cards and gift parcels in order to facilitate their expeditious handling and avoid unnecessary delay and disappointment," stated Dr. George Timpona, postmaster.

Packages should be packed carefully and tightly in durable containers. They should not be sealed unless they bear the name and address of the sender and the inscription "Contents. Merchandise—Postmaster: This parcel may be opened for postal inspection if necessary," he continued.

Parcels sent as fourth-class matter are limited to a maximum of 100 inches of length and girth combined. First and fourth class matter, including air parcel post is limited to 70 pounds.

Unsealed greeting cards may be sent as third-class mail if there is no unauthorized writing enclosed, said Beatrice Schultz, assistant postmistress. She advised that the cards be mailed first class because of the many advantages afforded by this service. These advantages are: they may contain written messages, are forwarded, or returned if undeliverable.

Mrs. Schultz requests that patrons who have a large number of greeting cards to deposit tie them in bundles with the addresses facing the same way so as to facilitate handling. Greeting cards bearing particles of glass, metal, mica, tinseil, or similar substances for decorative purpose must be enclosed in a sealed envelope with postage prepaid at the first class rate, she said.

All perishable matter must be so marked. It will help to purchase an adequate supply of stamps in advance of the rush, she continued.

Salutations such as "Merry Christmas", "Happy New Year", and "Best Wishes" may be enclosed with parcel post mail. A simple dedicatory inscription not a personal nature may be written in books. "Other unauthorized written additions subject the parcel to the letter rate of postage, Dr. Timpona concluded.

Eggs taken out of the refrigerator and warmed to room temperature will give better volume when beaten. If whites and yolks are to be separated, do that when the eggs still are chilled because the job is easier then. Don't beat until you are ready to add the eggs to the recipe, say M.S.C. foods and nutrition specialists.

Youthful Plymouth Bow and Arrow Hunter Shows Them How to Do It

Here's a "hunting story" that will make some of Plymouth's so-called crack archers sit up and take a second look. And it is all about a youthful eight year old lad who can use a bow and arrow just like an old veteran.

The other day (before the big blizzard) David Fehlig of Adams street was up near Mio with his father, William Fehlig. He decided to do a little hunting near their cabin with his bow and arrow.

It wasn't long before he returned to the cabin and announced that "Here's the meat for dinner" and at the same time displaying a chipmunk that he had clipped right back of one of its ears with an arrow that had traveled straight to its mark.

Maybe if some of the well known Plymouth archers who spend a week or so up north hunting deer with bows and arrows and didn't return home with anything to show for their efforts, will ask young David to show 'em how, they'll have better luck next fall.

Roger Babson Says---
Babson Discusses Investments and Patience
 Babson Park, Mass., Nov. 16. A friend of the Babson Institute recently presented it a beautiful indoor heated swimming pool costing \$235,000. When he was thanked he replied: "Don't thank me. Thank those who taught me PATIENCE. This gift of \$235,000 cost me nothing."
No Fairy Story!
 The explanation of the above is that many years ago he bought stock around \$2.50 a share in the American Investment Securities Company which controlled the Columbian National Life Insurance Company of Boston. For years, the stock didn't act well, and no profit was in sight, but all at once the American Investment Securities Company was liquidated.
 For each 100 shares of this A. I. S. stock costing \$2.50 a share, he received Columbian Life Insurance stock worth \$3,600. In addition, he received other securities which more than repaid his original investment. Hence, his insurance company stock, used to pay for him absolutely nothing. But this took 24 years and required great patience.
Texas and Pacific Land
 When I was ill many years ago with tuberculosis, I was sent to New Mexico. With time holding heavily, I became interested in the stocks of two companies. These were the New Mexico & Arizona Land Company, and the Texas & Pacific Land Trust. I bought the former in 1916 at \$1.75 a share and finally became a director of the company. This stock recently sold for 35 times what I paid for it.
 I bought Texas & Pacific Land Trust another time when I was sick at \$5.25 a share and urged others to buy it likewise, telling them that some day it would sell for \$1,000 a share. They laughed at me, but it recently sold at \$150 a share, or at 30 times cost. Holding these stocks many years required tremendous PATIENCE. Few persons have such patience. I believe that there are now similar opportunities for those who have the patience to hold them for 20 years.
Bargains Near Home
 Thirty years ago, I bought land in Wellesley for \$800 an acre, which is now selling for \$10,000 an acre. When I bought this, I urged my readers to buy suburban acreage adjacent to their communities. These opportunities

Society Hears of Early Days Here
 "Entertainment, News papers and Folklore of the Early Days in Plymouth" was the topic of a paper read to the Plymouth Historical society at its November meeting. Mrs. R. E. Cooper who wrote the paper read it.
 Mr. and Mrs. Roderick Cassidy were hosts to the group at their home on North Territorial road.
 Mrs. Cooper stated that "get-togethers" in 1835-40 usually meant house or barn "raisings" for the men of the community. The women held quilting bees, inviting in their neighbors for the occasion.
 A description of Amity hall (built in 1869), stories of plays given there and of the first amateur show produced at the Town Hall in 1894, were related by Mrs. Cooper. She also told of the inception of the Plymouth Mail in 1887 by J. M. Steers.
 The paper ended with bits of folk-lore in which the laughable situations made the persons of long ago live again.
 Group singing was led by Austin Whipple accompanied by Mrs. Cassidy on a spinet.
 Doranne Wilton provided entertainment, by playing three numbers on the piano.
 Mrs. Ethel Clark and Mrs. Ada Watson were added to the society's membership list.
 Mr. and Mrs. Cassidy served cider and doughnuts to the members.
 The next meeting will be at the home of Mr. and Mrs. Roy Fisher on December 13.
What About Jobs?
 Finally let me say a closing word to graduates of colleges and high schools. I beg of you to be PATIENT for promotions. Don't let anyone beat you in waiting. Forget salary, but take the job for which you are best fitted and in which you can render the most service for Mankind, and have patience.
 Financial Independence comes from having a praying life-partner and good children, who will help you save a little money each month for insurance, for a home, and certain growth stocks. But you must have PATIENCE. Being in too much of a hurry will prevent you from making large profits.—yes, being in a hurry will be responsible for most of your losses.
Cadet Edwin Kimbrough Elected to Honor Guard
 Cadet Edwin Kimbrough, son of Mr. and Mrs. R. L. Kimbrough of 607 South Main street, was tapped for membership in the Honor Guard at the Wentworth Military academy, Lexington, Missouri according to Col. J. M. Sellers, Superintendent.
 Membership in this Guard is restricted to upperclassmen who excel in military studies and who display qualities of leadership. The Guard performs at many off-campus affairs, specializing in a silent drill. The intricate movements in this drill are executed with rifles.
Grange Gleanings
 Tonight is Grange meeting as usual and we hope there will be a good attendance. It will be Young People's Night. We have some of the young students from Germany coming also Mary Lou and Mollie who are going to sing.
 There will be installation of officers.
 Mr. and Mrs. George Huebler have gone up to their farm near Charlevoix for a few days hunting.
 Menu thoughts are turning to cool day favorites—including chili. For a different dish combine chili with corn bread. Split the corn bread squares, toast and serve with hot chili between and over the layers.

All But Impossible to Believe!

 Standard equipment, accessories and trim illustrated are subject to change without notice.

It is very difficult to believe—but, each month, there are literally thousands of people who pay as much for their motor cars as it would cost them to buy Cadillacs... and, yet, they don't get Cadillacs.
 As we said, this is very hard to believe—but the reasons for it make it more or less understandable.
 In the first place, a great many people simply don't know what a Cadillac costs. They don't understand that the lowest-priced Cadillac actually costs less than certain models produced by numerous other manufacturers.
 They only know that Cadillac is the world's most renowned motor car—and they assume, from this, that it must also be *exclusively priced*.
 Too, some people get discouraged because they can't walk in and order a Cadillac and get immediate delivery—as they can with so many other makes of cars.
 This, too, is largely due to a failure to get all the facts and think them through to the inevitable conclusion.
 You have to wait a while for a Cadillac because so many people want one—and want it so badly that they are willing to wait for it. And that, in turn, is because Cadillac is recognized everywhere as the Standard of the World.
 So if you want a Cadillac—and research indicates that a vast percentage of motorists do—come in and talk with us about it.
 We'll give you the facts concerning comparative costs. And we will also talk frankly with you about delivery dates, so you may know about what to anticipate.
 You really owe it to yourself to do this. For, surely, you don't want to pay the price of a Cadillac—and still not get one!
