Congress Shall Make No Laws Abridging the Freedom of The Press

What I Think and Have A Right to Say

By ELTON R. EATON

MAY WE SUGGEST THE NEXT STEP.

We were pleased to read last week of the recommendations that had been made by the parking committee of the Chamber of Commerce to the city commission, which set forth the excellent ideas of a group of business men who have given much of their time and effort to bring about a solution of the parking problem.

We were ELATED when advised that the city commission without one single objecting vote, approved of the parking committee recommendation that a parking area fund be set up in the city budget and that parking meter money hereafter go into that fund. That's GOOD SENSE — and a long, long step in the right direction.

May The Plymouth Mail now suggest that the city take immediate steps to enlarge our central parking area by purchasing ALL the property lying between the western boundary of the parking lot right up to Harvey street—and all the land lying south of the alley now being used as an outlet for the present parking area. We do not suggest the purchase of property facing either Penniman avenue or Ann Arbor trail, but we do suggest that the purchase include the Bronson property as well as the three or four houses along the east side of Harvey street.

This step, if taken, will more than double the present capacity of the Central parking area. It will give parking relief to other parts of the city, for the present at least.

It was the suggestion of The Plymouth Mail way back years ago that the vacant lots back of the stores on Main street and Penniman avenue be converted into a parking area. It was through the untiring effort of Charles Bennett who successfully induced some hesitant property owners to sign off bits of their property which extended across the alleyway and into the proposed parking space.

That wasn't an easy job back some 18 or 20 years ago, but it was accomplished—and it WAS the Chamber of Commerce with Mr. Bennett's help that gave unlimited support to the effort.

The proposal of The Plymouth Mail for the doubling of the size of this central parking area is as important as was the first step taken in the creation of this area—but as we see it the stumbling blocks will be no where near as difficult to surmount as they were in the beginning.

Let's get busy — NOW!

It means additional parking area for at least 150 or 200 more automobiles.

THE DETROIT NEWS DOESN'T FOOL.

In recent years we have come to regard The Detroit News as a sort of great Michigan institution. The newspaper is owned in Michigan. Its editors, writers and most of its other employees are good Michigan folks, with no outside ties of any kind.

The other day when we read in the newspapers that an artist employed on The News had been caught in the Congressional red dragnet we were amazed to know that any one associated with such a progressive, loyal publication as The News could fall so low as to even have a hint made that he might be a Communist or Fellow-Traveler.

Then the fellow was called as a witness—and he followed the usual Communist line of refusing to answer questions.

The next day after this had happened we read that Managing Editor Fred W. Gaertner of The News hadn't wasted many seconds in giving the executive boot to this stubborn witness — and from reports, he did it with considerable emphasis.

Hats off to Editor Gaertner and The News! This newspaper, which is OF and FOR Michigan at all times—and therefore high in American patriotism, knows what to do and HOW to do it under any circumstances that might arise, no matter what they are. Remember, too, kind reader, that The News doesn't insult its readers by printing any of Drew Pearson's bunk.

THEY BURNED THEIR OWN BRAND DEEP.

"I refuse to answer that question!" — "I invoke my privilege under the Fifth amendment, and refuse to answer." — "I stand on my constitutional rights and refuse to incriminate myself."

How many hundreds of times has the Congressional committee on Un-American Activities investigating the traitorous Communist movement in Detroit and Michigan heard that answer to their questions during the past week or so by whimpering, snarling, witnesses who were called before the committee.

These alleged Americans, by their evasive answers, have burned the brand of Communism deep into their own hides. To be summoned as a witness before a congressional committee, or into any court room, criminal or civil, doesn't mean that any witness is guilty of anything. It simply provides a witness an opportunity to reveal to the public the truth. If his hands are clean, it doesn't take an intelligent person long to find out the truth through the straight-forward, clear-cut statements made by the witness.

But when a witness refuses to reveal information, which might help him, if true, his guilt is pretty evident.

The guilt shows in the faces, in the snarling attitude and their contemptuous conduct. No brand of a cow-hand is ever so conspicuous as the brand evasive, defiant witnesses burn into their own skins.

There is one fact every American should always keep clear in his mind—a Communist is a person who would burn your home, kill you and your children, steal your property, make you a slave if it served his purposes better than would your death, he would destroy and kill everything and every one who stood in the way of his accomplishment of his criminal purposes.

Registration Ends Mar. 10

Registrations for the annual spring elections to be April 7 will close on March 10 at 8 p.m. The office of the city clerk will remain open until 8 p.m. on March 8 and 10.

of the state for six months. Properly registered electors need not re-register.

Board Member Named

David Mather was appointed to the Board of Zoning Appeals for the term ending December 1954. Mr. Mather replaces Clarence E. Moore.

THE CHAMBER OF COMMERCE membership drive started off with a bang last weekend when drive chairman, Carl Caplin passed out prospect cards to the members of his drive committee. Pictured at the "kick-off" meeting at the Mayflower, are: committee members, left to right, Harry Bottomley, Mr. Caplin, Chamber president Harry Roberts, Chamber secretary Helmer Nelson, Robert Marsdon and Dean Saxton. It is the hope of the committee that every local business and industrial firm will participate in a membership this year on the cost schedule adopted by the group at so much per employee.

New Church Altar To be Dedicated By Methodists

Sunday morning, March 16 is going to be an important date for members and friends of the First Methodist church of Plymouth.

At that time Rev. Melbourne Johnson will see the formal dedication of the new altar and all of its furnishings as well as the improvements in the entire church sanctuary that have been made during recent months.

Coming to Plymouth for this outstanding service will be Dr. Frank L. Fitch, the district superintendent, who will preside at the dedicatory services.

Not only has the sanctuary of the church been entirely rebuilt and refurnished, but other badly needed improvements have been made in the church.

These improvements include a new lighting system, new light fixtures, new carpeting for the floors of the church pulpit and auditorium, new draperies and a new dorsal curtain for the large auditorium window.

Rev. Johnson is highly elated over these improvements, and the entire church membership has expressed complete satisfaction in the improvement work that has been accomplished during recent months.

It is expected that there will be an especially large attendance for these unusual dedicatory services.

Soroptimists Organize Here

The Plymouth chapter of Soroptimist club held its first meeting Tuesday evening at Arbor-Lil. The chapter is being sponsored by the Berkley Soroptimists.

Mrs. Katherine Henderson was elected charter president of the group. Mrs. John Wimsatt and Mrs. Harold Stevens were named vice-presidents.

Recording secretary is Mrs. J. H. Todd and corresponding secretary, Joan Karner. Mrs. Karl Sonderegger was named treasurer. Directors of the group are Neva Lovewell and Mrs. Gerald Pease.

Soroptimist is an international women's classified service club. The first Soroptimist club was organized in California 30 years ago. There are chapters in Alaska, Hawaii, all over Europe, South America, and in Canada.

Plymouth chapter will have an installation banquet March 20 in the Mayflower Hotel.

After completing its organization the group will decide on a service project.

To Use Meter Cash For Parking Areas

First steps which may lead directly to some solution of Plymouth's all - important parking problem were taken by the city commission Monday night when it was decided to accept a portion of the recommendations made by the Plymouth Chamber of Commerce parking committee.

The commission approved of the recommendation that henceforth all parking meter money go into a special fund which shall be used for the purpose of developing badly needed parking areas.

While that was the original intention of the citizens of Plymouth when approval was first given to the installation of parking meters, parking meter funds have been generally used for other purposes.

In round figures there has been an average of something like \$15,000 taken in each year from parking meters since their installation.

This total, it is believed, will jump to over \$20,000 in the next

Mobile Unit X-Rayed 2,800

"Plymouth residents have come through again in making the 1952 chest X-ray campaign a success," said Dr. R. R. Barber, City Health Officer, today in expressing his thanks to the many volunteers who worked on the project.

With reports for the Daisy Manufacturing Company still outstanding, the total number of chest X-rays given by the Wayne County Health Department and the Tuberculosis and Health Society stood at 2800 on Tuesday, Dr. Barber announced.

When all reports are in, approximately 3300 Plymouth residents will have checked their chests with an X-ray. This is better than 400 for each day that the chestmobile was in Plymouth.

"a record we can justly be proud of," the doctor emphasized.

Chest X-ray films will be read by Dr. James S. Busby, Tuberculosis Officer of the Wayne County Health Department. It is expected that reports of the findings will be issued within the next three weeks.

Tomorrow, Friday, March 7 residents of Canton Township will have an opportunity to compete with the record established by Plymouth. The chest X-ray bus will be at the Canton Township Hall from 2 to 5 p.m. and 6 to 8:30 p.m. Since it will be at the Township Hall only for the one day, Cantonites will have to work fast to come near the record attendance established in Plymouth last Friday where nearly 600 people turned out for their free chest X-ray at the Standard Oil Service Station.

Otwell Heating Holds Open House

The Otwell Heating and Supply company will have an open house from March 10 to 15 at 265 West Ann Arbor road featuring a complete line of Winkler automatic heating equipment for the 1952 season.

Mr. Otwell invites everyone to be his guest during this open house. There will be free gifts for all including the children.

The Otwells recently returned from a National Winkler convention in Indianapolis. Over 800 dealers and their wives were present. Those attending were welcomed by Governor Stricker

(Continued on Page 7)

"Two Blind Mice" Next Guild Show

"Two Blind Mice", the three-act comedy which the Plymouth Theatre Guild will stage on March 25, 26 and 27 for the Plymouth Kiwanis Club's Girl Scout Cabin project has entered its third week of rehearsals.

Directing the production with its cast of 26 is Martha Craig Merrill, who is assistant to her husband, William W. Merrill, at Will-o-Way Playhouse, Bloomfield Hills.

This hilarious play by Samuel Spewack was one of the outstanding successes of the 1949 Broadway season and featured Melvyn Douglas and Jan Sterling in the original production. It is even more timely in 1952 because it concerns some zany doings in the nation's capitol.

"Two Blind Mice" will mark the third play which the Plymouth Theatre Guild has produced for the Kiwanis Club, having previously staged "Blithe Spirit" and "John Loves Mary".

The play will be presented in Plymouth High school auditorium, and tickets may be obtained from members of the Kiwanis Club, the Theatre Guild and Girl Scouts.

Mystery Veils Big Ford Fire

Although investigators and inspectors have spent days climbing about the twisted steel and ruins of that portion of the giant Ford tank plant on Plymouth road partially destroyed by fire last Friday night, it is stated that no definite information has been uncovered as to how the fire originated.

The blaze, which followed an explosion, caused more than a million dollars worth of damages and delayed probably by six months or more the production of tanks for the United States army.

Every fireman in this part of Wayne county was called to help fight the fire. While they have no more idea of how the fire started than apparently do the investigators working on the case, they frankly express the prevailing sentiment that it is impossible for them to understand how the fire started so suddenly unless it was set.

While the Ford company maintains a close watch of the property both night and day, it is stated that the incompleting buildings are not yet lighted and that after nightfall, the intense darkness within the buildings would prevent any one from seeing another person even though they might be but a few feet apart.

The Livonia fire department received the first call to the blazing building. That was just a few minutes before 9 o'clock Friday night. Almost instantly it was realized that all the help possible to get would be needed. It was then that the Plymouth city fire department, the Plymouth township, DeHoCo, and Redford township firemen were called to help battle the flames.

Immediately following the explosion seemingly the entire building that was nearly completed on the southwest section, was in flames. By midnight these small fire fighting units had checked the advance of the flames, using hand fire extinguishers and two hose lines. There

(Continued on Page 8)

City Vacates Alley Approves Projects

The city commission decided by a vote of 5 to 2 to vacate the nine foot alley in Nash subdivision, T. E. Ford of 1222 West Ann Arbor trail filed a written protest of vacating. This written protest made five affirmative votes necessary for the vacating.

Public utility companies will have access to the nine foot strip. The city also voted a 15 inch storm sewer on Fairground avenue between Ann Arbor trail and Fair street and curb and gutter for the same area.

Sidewalk was approved on the south side of Fralick avenue. Fralick avenue will also be paved where it was not previously paved and recapped where the paving is old.

Blacktop will be applied to Sunset avenue between Farmer and Junction.

Grand Opening of Drapery Fair

A new addition to Plymouth's array of retail stores is celebrating its grand opening this week end. Drapery Fair, located at 842 Penniman avenue, is owned by Joseph A. and Irving Shane of Dearborn and will be managed locally by Fledra Wolff.

The Shane brothers have had 25 years experience as interior decorators and during that time have been operating Shane Interiors in Dearborn. Drapery Fair offers a complete selection of draperies, curtains, linen and bedding. As has been the practice in their Dearborn store where Virginia Hines is in charge of interior decorating, the local store will offer custom tailoring of draperies.

Drapery Fair's grand opening event will be in progress throughout next week.

Merchants Ready For Biggest Selling Event

"Who says the Dollar isn't worth much anymore"? Skeptics will have the surprise of their lives this weekend when some 50 Plymouth stores are banding together to offer one of the greatest selling events the town has ever known.

This Friday and Saturday, March 7 and 8, regardless of weather conditions, will be Dollar Days in Plymouth. Stores participating in the city wide sale event

will display gray, red and black Dollar Day banners in their windows and each will be a special invitation for thrifty shoppers to enter the store and carry home money-saving merchandise items.

Residents of all the surrounding areas are invited to participate in the great sale and it is expected that Plymouth's stores will be packed to overflowing during the two day event.

According to Wendell Lent, retail merchants' committee chairman, local merchants have been planning for this event for many weeks and most of the stores are actually offering merchandise specials that are truly remarkable. Combination offers and other single merchandise items offered in the box special on pages four and five of section four of this issue of The Mail are at cost to the merchant and some below cost.

Savings can be totaled into many dollars if shoppers will make notes of the outstanding items listed in the ads in this issue and will visit the stores and make purchases of these items. In addition to the regularly advertised items almost every store has marked down the rest of the regular merchandise on their shelves to make this a really great sale.

Yes, its a fact, the dollar is truly worth a dollar in Plymouth this weekend. Better plan to shop early to get your full share of the savings you can make Friday and Saturday.

All License Plate Records Broken

A total of over 10,200 automobile license plates were issued by the Plymouth branch office of Secretary of State Fred Alger for the first quarter period which ended Friday, February 29.

That total is nearly 1,000 more than it was for the same three-month period of last year, a true indication of the tremendous growth of Plymouth and vicinity during the past year.

Manager Frank Rambo declares that the big totals were even a surprise to him as well as the assistants he had working with him during the rush.

This total does not include possibly a few hundred licenses that were issued last Saturday and during the early part of the present week.

"Never saw anything like it. Where all the people came from I don't know. Seemingly everybody had to have license plates," said Mr. Rambo.

"We have had the biggest rush this year that we ever had before in all the 12 or 14 years I've been issuing license plates," he added.

In addition to the tremendous personal requests for plates, hundreds of telegrams were received, advising of lost titles or containing other information for Mr. Rambo. These telegrams literally swamped the Western Union office for a number of days.

During most of the time during the rush period there were four or five extra employees engaged to help with the work. Possibly one of the reasons for the high number of license plates issued in the Plymouth office is due to the tip-top service given in this City.

Wild Lifers Plan Celebration When They Burn Club Mortgage

Within the next few days President Gar Evans and a committee composed of members of the Western Wayne County Conservation Association along with Dr. Brick Champe, who served as the chief executive during both fat and lean years, plan to announce details for the biggest and most important event ever held by the organization.

Sometime during the early part of April will take place the annual spring fish dinner of the club. In conjunction with this meeting there will take place the burning of the mortgage on the 40 acre club grounds and club house.

For the club to reach a financial position where it can now wipe off its debt and begin to think of accumulating funds for future expansion is sufficient reason for a big "blow-out" and that is just what the members of the organization propose to have.

The clubhouse, which is 35x55 feet in size, with basement under the entire structure, has never been completed as the club first planned. Members feel that after the mortgage has been cleared within the next month or so, something can be done to make the clubhouse just what was originally planned.

Former President Brick Champe, who is given credit by old-timer members of the organization for engineering the big task of getting the land and building for conservation club purposes, insisted that he thought the entire attention of the members should be given to paying off the debt—and then after the debt was paid, the club could do the many little things necessary to make it into one of the best club houses in the state. The policy he laid down has been followed with the most satisfactory result that is going to be the basis for the big April celebration.

President Evans will announce the program in more detail in the immediate future. One thing is sure, there will be a big turnout for the event, when it happens.

West Bros. Inc. Named by Reo

West Bros. Inc. announced this week that it has been awarded the distributorship for Reo Power Mowers district parts and service. In making the announcement Bill West stated that a warranty service and complete stock of

parts will be handled by West Bros.

NEW LEAP YEAR BABY
Plymouth has another leap year baby. Little Miss Elizabeth Anne Donnelly was born on Friday, February 29 in Beyer Memorial hospital, Ypsilanti. The young lady who is the daughter of Mr. and Mrs. Mac J. Donnelly of 550 Sunset avenue weighed 7 pounds 10 ounces at birth.

Local News

J. T. Enterline of Haggerty Highway has returned to Plymouth after spending some time in Kansas City, Missouri.

Mr. and Mrs. Hugh Quee returned from a winter's vacation at Orlando, Florida.

Miss Lois Austin, daughter of Mr. and Mrs. Elmer Austin is confined to her home on Rose street this week because of illness.

June Truesdell Weds in Anderson, Indiana

In a gown of shimmering candlelight satin and Chantilly lace, Miss June Lucille Truesdell repeated her nuptial vows to James L. Robinson of Anderson, Indiana. A sheer yoke accented by lace appliqued floral motifs across the bodice top and around the shoulders and short puffed sleeves with matching lace mitts highlighted her bridal gown. The skirt was bouffant with a lace overdrapage that dipped low in the back and over her cathedral train. Her fingertip length veil of illusion was held in place by a tiara of orange blossoms.

June is the daughter of Mrs. Dema Truesdell of Ford road, Wayne, and James is the son of Mrs. Daisy Thomason of Anderson, Indiana. June was given in marriage by her grandfather, Grover Funk of Plymouth.

The impressive ceremony was read in the Evangelical United Brethren church in Anderson on Saturday, March 1 at seven o'clock in the evening.

Immediately following the rites a reception was held in the home of the bridegroom's parents. June is a graduate of Plymouth High School and has attended Anderson College for two years. The young couple will make their home in Anderson.

Attending the wedding from Plymouth were the bride's mother, Mrs. Dema Truesdell and her brother, Philip and her grandparents, Mr. and Mrs. Grover Funk.

Wednesday evening March 12 the regular monthly meeting of the Bartlett School Mother's club will be held at 8 o'clock. The business meeting will be followed by entertainment planned by the March committee. A friendly hour and refreshments will conclude the evening's program. All mothers of Bartlett School District are welcome and urged to attend.

Mr. and Mrs. Robert Shepard and three children of Royal Oak visited Sunday with Mr. and Mrs. Melvin Michaels of Holbrook avenue.

Mrs. Elmore Carney was hostess to the members of her contract bridge club Tuesday evening in her home on Penniman avenue.

Symphony Board to Hold Dinner

The last meeting of the Plymouth Symphony Board for this season will be a dinner in the Mayflower Hotel, Saturday, March 22.

Members and friends are invited to this dinner. The Symphony orchestra will provide the entertainment which will include a preview of "Down in the Valley."

Mrs. H. C. Balfour, chairman of the event, says that more information will be available soon.

Civic chorus rehearsals of "Down in the Valley" continue every Monday evening at 7:30 in the high school. "Down in the Valley" an operetta will be presented April 6.

Better see Beglinger for better deal. New and used cars.

City Approves Carnival

Permission was granted by the city commission for a carnival sponsored jointly by the Passage Gayde Post of the American Legion and the Myron H. Beals post of the V.F.W. The carnival will be from June 15 through June 21.

Eight Inducted

Eight men from Plymouth and three from Northville were inducted into the armed forces on March 3.

Those from Plymouth are Leonard G. Paquin, David H. Schultz, Freddie E. Busch, Richard Simmons, Edward F. Thorne, John Junior Ausmus, William F. Steen, and Calvin L. Becker.

Leaving from Northville were James F. Thompson, Harry E. Earshart and Terry Carter Campbell.

FROM THE MEN AND WOMEN IN THE ARMED FORCES.

Brief items of interest about your sons or husbands in the services are welcomed in this column providing the information does not conflict with press security policies.

Private Arthur R. Bartel of the 471st Quartermaster Salvage company has left for overseas. Pvt. Bartel is the son of Mr. and Mrs. Lawrence Bartel of Canton Center road. His address is Pvt. A. R. Bartel, R. A. 16223123; 471 Quartermaster Salvage Company, APO 743, New York.

Carl Richard (Dick) Groth of Rosedale Gardens left March 3 for Fort Custer. Dick enlisted in the regular army. He is a graduate of Plymouth high school and of the University of Michigan.

Bill Burger of the U. S. Navy is now serving on an oil tanker between Japan and Korea. Bill is the son of Mr. and Mrs. Ernest Burger of East Ann Arbor road. He would enjoy hearing from his old friends.

His new address is William E. Burger MMFA 433-32-49 U SS Platte A. O. 24, c/o FPO, San Francisco, California.

Carl W. Morris, seaman, USN, of 38150 Warren, recently participated in the Navy's cold weather exercise aboard the destroyer USS John R. Pierce, with the Atlantic Fleet.

The exercise is maintained to increase combat readiness and familiarize ships' crews with operating conditions in frigid climatic condition, and also to test the latest cold weather weapons and equipment.

Grand Opening March 8

Livonia Floor and Wall Coverings store, formerly Livonia Tile will have its grand opening on March 8. The new store owned by Earl Kline is located at 33543 Five Mile road.

The expanded store will specialize in custom colored paint and accessories.

Suggestions for Landscaping

How Trees Can Be Used With Relation to the Garden

By Harlow O. Whittemore Professor of Landscape Architecture University of Michigan

Trees for light and shade in a small garden.

Making your garden is essentially a problem in the treatment of open space. It goes without saying that the relationship between the size of this open space and the size of the trees is very important. In addition to that, it is well to remember that the trees in your garden can be used to provide a frame for the view of the garden either from the house or from the rear of the property. They can provide a background for the garden as a mass of foliage of proper density and color. The shadows cast by the trees can be employed by the careful gardener as a most effective background for color.

One of the most important uses of trees is to provide a contrast of light and shadow. The open sunny areas where flowers can be grown should be balanced against and contrasted with the shaded areas under the trees, as well as under arbors. The beauty of the Italian gardens, famous as they are, is due mainly to this ingenious balance of light and shadow. Trees in the garden can be also used to provide shady nooks, usually at one side, or at the end. This shaded nook, usually paved with flagstones if the grass will not grow, can serve as your outdoor sitting room or dining room, or simply as a place to which you can retire to be out of sight of the house. One large

tree might serve this purpose or a group of three or four small trees.

In a small garden the open space might extend almost to the edge of the property and the shade be provided by one tree at right angle to the garden at the end, giving an added sense of extra space as well as mystery to the design.

Flowering trees add color to the garden. You can make your garden a composition of flowers and flowering trees, with the bloom of the trees fitting into the color scheme along with perennials and bulbs.

One of the best effects can be had by a row of flowering fruit trees, such as pears, back of the sunny border and back of that a hedge or wall, also shaded by the trees. The background of shadow thus secured is by far the finest you can contrive for your flowering herbs.

(This is the fifth of a series of ten articles. When trees should be planted as specimens or grouped in masses will be the subject of the sixth article.)

Skating Review to be March 16-17

The Riverside Figure and Dance Club is very happy to announce that Nat Sibbold of Plymouth, will again be the Master of Ceremonies of its new show, "Skating Varieties of '52."

The club has produced a two hour show featuring its large group of competitive skaters. They are respected everywhere for their fine skating.

In the Sailor number National Intermediate Fours Champions Barbara Kempaenen, Lee DeWolf, Nan Massine and Jimmy Mazzi Jr. will be featured.

A mixed pairs number by Billy Ferraro and Barbara Searles, will be presented. Billy and Barbara won the Intermediate Mixed Pairs Championship of Michigan in 1951.

Mrs. Barbara Daney, formerly Barbara Shoemaker, resident of Plymouth is featured in the winter number skating a solo Junior Ladies routine. Barbara is a veteran of eight years of skating and has won many National honors in competition.

All in all there will be a cast of 92 members in the show. The professional staff is headed by John Daney, Miss Pat Angers of Plymouth, Clayton LaMay of Livonia, Miss Vivian Heard and Mr. Williams of Detroit.

Kiwanians Hear Of Manufacturing

The problems confronting the manufacturing industry of the United States were brought to light Tuesday evening by Frank Wilson representing the American Society of Tool Engineers. Mr. Wilson spoke before the weekly meeting of the Plymouth Kiwanis club at the Mayflower hotel.

He pointed out that the advance in productivity of machinery has been tremendous in the past decade and that engineers are constantly striving to gain even greater efficiency. Thinner margins of profit make it necessary to sell twice as many of a given product today to gain the same net profit as in past years, he said. Wilson was introduced by Program Chairman Jams Houk.

Two-year perfect attendance awards were given Duane Parkes and Carroll Porter.

In Mobile, Ala., a highway cop spotted two cars racing at 80 m.p.h. pinched drivers Johnnie Gamble and Noble Hurry.

In Memphis, after the judge advised him that if he wanted to fight he ought to go to Korea, Charles McGowen, booked for disorderly conduct replied: "I'm just back from Korea, judge. I got into a fight arguing about the fighting in Korea."

Entrance Closed

The main entrance to the high school is temporarily closed, stated Fred Coverdill, construction foreman. All persons are requested to enter the building by the gym entrance facing Main street. The main entrance will be open again as soon as the new doors are completed.

Services Held For Former Resident

Funeral services were held Wednesday, March 5 at 2 p.m. from the Schrader Funeral home for Mrs. Augusta Widmaier, 77, who passed away Monday evening, March 3 at the home of her daughter, Mrs. Marie Eddings at 513 North River street, Ypsilanti. Her husband, Henry Widmaier preceded her in death on July 31, 1943. Surviving are her two daughters, Mrs. Eddings and Mrs. Erwin Stierle, both of Ypsilanti and one grandchild, other relatives and many friends.

Mrs. Widmaier had been a resident of Plymouth for 28 years until last September when she moved to Ypsilanti to live with her daughter.

Rev. Henry J. Walsh, D.D. officiated. Hymns were rendered on the organ by Mrs. Edna O'Connell. Entombment was in Riverside Mausoleum.

In Fairfield, Calif., Rancher Ralph Fong explained to the sheriff why he had tried to hire two men to kill his wife so that he could collect her \$10,000 life insurance: "I loved her so much I couldn't shoot her myself."

Garden Coloring Subject of Talk

The Plymouth Branch of the Women's National Farm and Garden Association will meet Monday, March 10, at two o'clock at the home of Mrs. George Chute, 546 Garfield avenue.

Mrs. Herbert Dyer, a member of the Detroit Garden Center at Belle Isle, will speak on combinations and arrangements of colors in gardens, with color slides to illustrate. Mrs. Dyer, a graduate of Wellesley College, is a well known speaker at garden clubs and members may remember her appearance here a few years ago. A question period will follow. Tea will be served with Mrs. Hugh Means acting as Tea chairman.

The Michigan Flower and Garden Exhibition, sponsored by the Michigan Horticultural Society, will be held at the State Fairgrounds, March 29 thru April 6. Local residents are fortunate to be able to purchase tickets at a reduced rate through March 28 by arrangements made through the Plymouth Branch of the National Farm and Garden Association. Those desiring tickets at this reduced price may purchase them at either the Beyer Pharmacy on Forest Avenue, or at the Beyer Liberty street store.

In Los Angeles, the junior chamber of commerce received five battered umbrellas from the Miami junior chamber of commerce to aid its fight against "torrential rains," declined to use them because "the umbrellas went through a Florida hurricane prior to shipment."

Legal Notices

STATE OF MICHIGAN, THE PROBATE COURT FOR THE COUNTY OF WAYNE.

In the Matter of the Estate of FLORENCE L. WEBBER, Deceased.

Notice is hereby given that all creditors of said deceased are required to present their claims, in writing and under oath, to said Court at the Probate Office in the City of Detroit, in said County, and to serve a copy thereof upon CARL F. JANUARY, EXECUTOR of said estate, at Plymouth, Michigan, on or before the 7th day of May, A.D. 1952, and that such claims will be heard by said court, before Judge James H. Sexton, in Court Room No. 527, Wayne County Building in the City of Detroit, in said County, on the 7th day of May, A.D. 1952, at 2:30 o'clock in the afternoon.

Dated February 25, 1952.

JAMES H. SEXTON, Judge of Probate.

Otwell Heating Holds Open House

(Continued from Page 1) and were entertained by Herman Hickman who told several of his football anecdotes. Mr. Otwell states that according to current purchases this will be a busy season. He is happy with the rapid growth of perimeter heating which he promotes under the slogan "Barefoot Comfort." Perimeter heating properly installed will keep floors and basementless homes warm whether wood or concrete floors are used. Mr. Otwell estimates that 50 percent of his business is perimeter heating. National figures show 64 percent of the homes now built are the ranch type. Balance of the work done by Mr. Otwell is in installing the Winkler low pressure oil burner. He is equipped to make an actual "Live-Fire" demonstration in the shop to illustrate the performance

of the new low pressure principle as compared to the older high pressure burners. Mr. Otwell will arrange evening demonstrations during the open house week if those interested will call him.

Scouts Celebrate 40th Birthday

Plymouth Girl Scouts will celebrate the 40th Birthday of Girl Scouting in the Smith School gymnasium at 7:30 p.m. March 7. Birthday cake will be served to all attending. Two films on Girl Scouting will be shown, "The Growing Years" and "Girl Scouting returns to Japan." There will also be the usual candlelighting ceremonies. Mrs. E. J. Readman is chairman of the affair. Mr. and Mrs. Dewey Stamper and son, Donnie spent from Saturday through Tuesday in Vada-ville, Kentucky.

College Holds Commemoration

The students of Madonna College will make the annual commemoration of the feast of St. Thomas Aquinas on March 6 and 7. The two day program will begin with procession, rosary and benediction in the college chapel. Rev. James T. Shannon, director of the philosophy department, will conduct the services. Friday morning at 10:00 a.m., students of the Philosophy class will conduct a symposium dealing with the life and works of St. Thomas. The main topic of discussion will be the four problems of philosophy— Knowledge, Being, Nature and Values. Following the symposium, Father Shannon will bless and present the college rings to the respective members of the graduating class. During the two days, students will recite the rosary and say various prayers to the Patron of Catholic Schools, in periods of adoration. The Sodality is undertaking the project of encouraging prayers to St. Thomas before and after class. Mimeographed copies of prayers will be distributed to all teachers and students. Mrs. Carrie Hillmer who fell during the winter breaking her hip is now making her residence at the Masonic Home in Alma. In Idana, Kans., a stranger stuck up Basil Rankin's law office, found no money, drove away after Rankin reminded him that the premises were no longer occupied by a bank. Firemen have a saying, "A clean building seldom burns."

Symphony Notes

By Grace Von Bergen The Brahms Concerto in A Minor for violin and violoncello was dedicated to the memory of Arthur Waite, business manager of the Redford Union School District No. 1 in Redford Township who died early last Sunday morning. President Elsmere Pearson of the Redford Township Symphony Society made the announcement at the beginning of the performance given by the Plymouth Symphony Orchestra on Sunday night at Redford Union High School. Mr. Waite had been a staunch supporter of the Symphony in its Redford appearances and had intended to be present at the concert. It was made known to the writer following the performance. Josef Lazaroff, concertmaster and Douglas Marsh, cellist, duplicated the fine solo work they had given the previous week in Plymouth. Edward Werner, president of the Detroit Federation of Musicians sent his best wishes to the soloists and Wayne Dunlap, the director, for a successful performance. He was unable to be present as he had planned due to an extremely heavy schedule. He still plans to take in one of the Plymouth concerts, if possible. Reverend Victor Halboth of the Grace Lutheran Church who has been the minister on the Lutheran Lenten Good Friday Services over television during the past two years, appeared in the capacity of intermission speaker. Rev. Halboth has had to turn down many opportunities due to a devout congregation that protests any change. His wife, who directs the church choir has raised the musical standing of the community through her activities. Rev. Halboth hopes for the continuation of the programs in Redford Township which the Plymouth Symphony has started through its appearances sponsored by the High School Parent-Teachers' Association. Doris Gaither, school librarian and Mrs. Harold Von Bergen presided at the tea table during the social hour which followed. Wayne Dunlap is the proud father of a daughter who arrived on February 27. Great people are born in February— including Ered Nelson, who celebrated his birthday on February 25. A musician's tragedy occurred when a violinist caught her heel when descending from the stage following last Sunday's concert. Her violin fell to the floor making a cracking sound that only a violin or similar instrument might make. A feeling of terror and anguish gripped the musicians nearby. The violinist, a lovely young woman, was nearly overcome with shock to the extent of being momentarily speechless and paralyzed with the realization of the terrible accident. To a violinist— it is such a personal loss, as if the instrument caressed beneath the chin and delighting one with its harmony— was a part of the person. That terrible noise of the shattered violin stays with one. That violin is a living thing, it seems, and still possesses a soul, as the pieces are tenderly gathered together and solace is expressed to the violinist in the knowledge that there are skilled violin makers and repairmen who will be able to repair the damage. Will it respond the same again in tonal quality— that is something for time to tell. In Lexington, Ky., after a swindled merchant set tops on the trail of a forger wearing a ragged coat fastened with an eight-penny nail. Suspect Brice Young protested: "It couldn't be me. My coat is fastened with a ten-penny nail." Put a water-soaked sponge at the base of your house plant to keep it moist while you are away from the house for a few days.

BULLET OPERATES... In Dallas, ex-convict Charles Green was shot over right eye in brawl. Bullet ripped through brain, performing a prefrontal lobotomy, an operation often performed upon criminals.

Better Gobblers Aim of Growers

"Only one half of the turkeys eaten in the state of Michigan were raised in the state during 1951," stated William Aho, poultry expert from Michigan State College. Mr. Aho was one of the main speakers at the annual "Turkey roundup" held at the Mayflower hotel on Tuesday, February 28. "The number of turkeys produced in Michigan during 1952 should increase nine percent. This increase still will not care for the needs of the residents of Michigan," he continued. The main problem of Michigan turkey raisers is marketing the birds. Many raisers delay taking the turkeys to market hoping that the price will go up if they wait a day or so. Instead of increasing the price he receives, the raiser overfinishes his turkey and the result is a loss of money, Mr. Aho said. Ralph Dower, manager of the poultry department of Kasco Mills, Inc., listed the main points for turkey growers to remember in order to raise better turkeys at less cost to themselves. Among the items listed were good poult, proper feeding, good sanitation, protection from disease, and early marketable birds. Both Mr. Dower and Mr. Aho stressed the fact that too many growers were relying on drugs to keep the turkeys healthy and not following the necessary sanitation and cleanliness proceedings. They also remarked upon the fact that most birds sold in the stores now were packed oven ready. A film showing turkey broiler raising in the Shenandoah Valley was presented. These broilers are the smaller turkeys, commonly called oven birds. There are not many broilers raised in Michigan. W. F. Bronson of Kasco Mills, Inc., arranged the program. Turkey growers from the area within 100 miles of Detroit attended. In Baltimore, after his wife was hauled into court for drunken driving, unwilling witness Loring Stevenson told the judge why he was following her at 3 a.m. in another car without headlights: "I had some mail I wanted to give her."

Local News

Don't forget about the pillow case party being held on Friday evening, March 14 at the Odd Fellow hall on Elizabeth street under the sponsorship of the Rebe-kah Lodge. Party will begin at 8 o'clock. Mr. and Mrs. Donald Drews and family were Sunday dinner guests in the Kahlr Drews home on Boston Post road. Chinese Reds' money campaigns multiply taxes.

Miss Marcia Woodworth, daughter of Mr. and Mrs. Maurice Woodworth of Church street, has passed her third Cecchetti test in classical ballet at the Sylvia Studios in Ann Arbor on Sunday. Marcia Staples and Jan Ponto passed their first tests. These tests are given by the Cecchetti Council of America, a national organization of ballet teachers. Miss Woodworth was recently initiated as a junior member.

Mystery Veils Big Ford Fire

(Continued from Page 1)

is but one fire hydrant near the plant. The other located at Newburg nearly a mile away provided some water. But firemen used well the water tank supplies that they carry with them when called to areas where there are few hydrants.

From statements made by local firemen there was nothing within the vicinity of where the paint and oil was stored which would cause a fire. Salamanders were used about the building to provide some heat for the working men, but these were located so far away from anything inflammable that firemen say there wasn't the slightest chance for the fire to be started from one of these temporary heating units.

While no definite conclusions have been reached some say it is possible that the fire may have started from a tar kettle that had been left in the building where the paint and oil was stored. Workmen say it was turned off when they left, but it is reported investigators are quite sure that the fire started from the explosion of this tar kettle some five or six hours after the workmen had left. How and why it was burning long after workmen had left and how and why it was near the stored oil and paints are said to be questions to be answered. It is possible either stupid or intended carelessness may be responsible for the fire.

Ford Company officials estimated after the fire that about 20 percent of the steel work of the plant will have to be replaced and that about 35 percent of the roof was so badly burned that it will be necessary to rebuild it.

The tank plant, when completed, will be the largest factory building in the world. When the work was first started on the building, it was announced that the company hoped to have the plant in operation by June of this year.

Present indications are that as a result of the fire it will be at least another year before the factory will be in production.

Both Saturday and Sunday hundreds of people from Detroit, Canada and elsewhere drove out the Plymouth road to view the damage that had been done by the fire.

FARMERS AND ANIMAL owners in this section will be surprised to learn that they soon will be losing the services of Dr. Edwin B. Cavell, Jr. After practicing in this area for 12 years, the well known veterinarian has announced that he is building a small animal hospital at East Tawas, Michigan, where he will make his home in the future. One of the reasons given by Dr. Cavell for making the move is the fact that large animal farms in this area are fast diminishing, and he hopes to move into an area that is expanding more in that line. He and his family expect to leave Plymouth after the first of April.

Service Station Sold

Matthew Krump of Gold Arbor road has purchased Ed's Friendly Service station located at the corner of East Ann Arbor trail and Brownell. Mr. Krump took over the station on March 3.

The station was formerly owned by Ed Schwandt who is moving to Ontario, California because of ill health.

Mr. Krump was employed at Jones Standard station before buying the service station which will be called Matt's Friendly Service.

Lion Didn't Roar But Residents Who Didn't Like The Weather Did

Plymouth residents didn't hear any roaring on the part of the lion when it came sweeping into Plymouth on March first, but there was plenty of roaring on the part of residents hereabouts.

They "roared" about the slippery roads last Saturday morning, the first day of March. Then they roared about the snow, they roared again when it rained—and on Sunday morning they were roaring some more when a fog along with the rain made automobile driving a bit more hazardous than it had been for four or five days. They let out another roar Tuesday when the weatherman said the rain was going to turn to snow.

But they did smile a bit later when another weather report said it might clear up a bit for the week-end and provide Plymouth merchants with pleasing weather for their big Dollar Day sales.

It has been typical March weather—as disagreeable as all March weather usually is during most of the month. Maybe by the end of another week the snow banks along the sides of the streets will have entirely disappeared.

The weather man was not a bit kind Wednesday morning. The mercury skidded from a high of 40 late Tuesday to only 18 above Wednesday morning. Predictions are made that Thursday morning the mercury will drop to a low of only possible 12 above zero. But after that cold drop, he said the weather is going to get warmer and be nice and clear over the weekend.

In Dallas, Horace Coleman reloaded a pistol duel between two pals, caught a slug in each leg.

City to Advertise For Project Bids

City Commission authorized the advertising for bids for the construction of 17 projects.

The city will advertise for bids to construct 8,000 square feet of new sidewalk and repair work, sanitary sewers on Jener from Brush to Maple and East Side Drive diversion chamber and water main on Jener from Brush to Maple.

Curb and gutter on Sunset between Penniman and Blanche; Wing between Pine and Joy; Elizabeth from Roe to West Ann Arbor trail; Evergreen from Penniman to Blanche; and Fairground from West Ann Arbor trail to Fair.

Storm sewer bids for Forest avenue alley; Fairground, from Ann Arbor trail to Fair; and Holbrook from Plymouth road to Union street will be taken.

Completing the list of advertisements is paving for Forest avenue alley; Wing street from Pine to Joy; Evergreen from Penniman to Blanche; Sunset from Penniman to Junction; driveways on the city parking lot, and Fraleigh street.

BIRTHS

Mr. and Mrs. William J. McMillan of 970 Sutherland avenue announce the birth of a son, William James born on February 22 in Session's hospital, Northville.

It's a boy for Mr. and Mrs. Edward Veresh of Eckles road. He has been named David Edward and weighed in at 9 1/2 pounds on February 25 at the Garden City hospital. Mrs. Veresh is the former Irene Matthews.

Mr. and Mrs. Clarence Bellefeuille of Walled Lake are announcing the arrival of a daughter, Linda Carol born on February 28 in Session's hospital, Northville. Mrs. Bellefeuille is the former Arbutus Allen. Linda Carol weighed 7 pounds when born.

In Cordova, Md., after both high school basketball teams ran out of substitutes, Cordova, with borrowed spectators, beat St. Michaels, with a drafted cheerleader, 45-43.

Society Holds Panel Discussion, Dinner

Ways and Means of helping the handicapped were discussed by a panel at the seventh annual dinner meeting of the Michigan Society for Crippled Children and Adults Inc., Wayne out county chapter. The meeting was held at St. Paul's Evangelical and Reformed Church.

John W. Tenny was moderator of the panel.

Officers were elected at this meeting. Charles Brake, of Ann street, was a member of the nominating committee.

Nester Sibbold sang the groups' theme song.

Mrs. Mary Jack Dies at Age 60

Mrs. Mary R. Jack, a resident of Versailles, Pennsylvania passed away early Thursday morning, February 28 at the home of her son, Robert Jack at 11404 Ingram, Rosedale Gardens, Livonia. She was 60 year of age.

Mrs. Jack was brought to the Schaefer funeral home, Plymouth, and later taken to the William Faasal home at McKeesport, Pennsylvania where funeral services were held. Interment was in Mt. Vernon cemetery at Elizabeth, Pennsylvania.

In Chilliwack, B. C., Mrs. Edna Fenton walked into police headquarters and asked the desk attendant how she might get herself jailed to escape her angry husband, was advised to hit a cop, did, was.

Detroiters Are Buying up Farm Lands About Here

Not in years have there been as many transfers of titles to farm property as during the present period declared Bert Giles, one of the best known real estate dealers in this locality.

It is not because farmers are quitting the farms, he says, but it is due to the apparent desire of successful business men of Detroit and other large cities to invest their funds in farm lands.

"They seem to feel as though the one safe investment they can make these days is in real estate," said Mr. Giles.

"Prices can go up and down, but farm prices, if they go down, always come back. These buyers make it quite clear that they believe money invested in real estate is the one sure way of protecting what they have accumulated from the inflation that is now sweeping the country," he added.

Mr. Giles stated that many of the new farm buyers have arranged to permit the farmers who live on the property to remain and keep up their farming operations. Surprising as it may seem, a very large portion of Wayne county west of the Telegraph road is still farming country, there being some several thousands of farms in this thickly populated section of Michigan.

Better see Beglinger for better deal. New and used cars.

Dr. and Mrs. Fred Foust and Mr. and Mrs. Robert Minock attended the Ice show at Olympia on Wednesday evening of last week.

"OLD McDONALD HAD A FARM" . . . Wouldn't you know that the farmer was the subject of the above conservation. Wayne County Agricultural Agent, P. R. Biebelshimer, on the right, was found in the middle of a discussion with Plymouth's popular implement dealers one day last week talking about spring activities on the farms in this area. Left to right in the group are, Ted Johnson, local John Deere dealer; Bill and Joe West, local McCormick-Deering dealers; and Earl S. Mastick, local Allis-Chalmers dealer. Few people know it, but these three dealers service an area of some 20 miles in each direction from the city, and represent the major farm implement supplies in southeastern Michigan. Their total sales will probably be as great as any implement group in the entire United States in an area of this size. Didn't realize, did you, that this was so great a farming country?

Dr. and Mrs. Harry C. Balfour of Penniman avenue were Sunday dinner guests of Mr. and Mrs. Ben Thoman in Detroit.

Edgar Nash spent a few days the past week with his parents, Mr. and Mrs. Paul Nash of Jenner Place.

Mr. and Mrs. Oscar Ford and daughters of Detroit were Sunday visitors in the George Howell home on Gold Arbor road.

Mr. and Mrs. Perry Hix spent Saturday evening with Mr. and Mrs. Irving Tillotson in Milford.

The Women's Society for Christian Service of the Newburg Methodist church are sponsoring a bake sale in the Beyer Drug Store on Forest avenue this Saturday, March 8.

The Get-to-Gether club met Saturday, February 23 at the home of Mr. and Mrs. Howard Hunt where 22 members and seven guests were entertained by Mr. and Mrs. Archie Herrick. The next meeting will be on Saturday, March 8 at the home of Mr. and Mrs. U. R. Suttin of Maple street when Mrs. Rosa Rheiner will act as hostess. Kate and Ella Waterman will be on committee.

Jesse Tritten of West Ann Arbor trail has been spending the past several days at St. Joseph's hospital, Ann Arbor undergoing treatment and for observation.

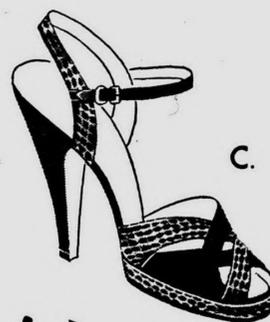

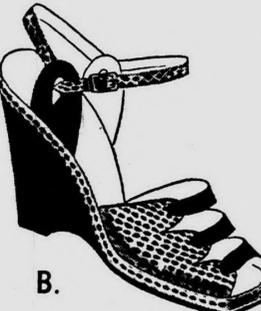

Gae Ponto, daughter of Mr. and Mrs. Hilton Ponto, celebrated her 12th birthday which falls on Leap Year with a treat for all the children in her class at the Lutheran Day school. Gae has really only had three birthdays.

Mr. and Mrs. Walter Ebert of Farmer street and Mr. and Mrs. Edward Ebert of North Mill street were Sunday dinner guests of Mr. and Mrs. Walter Sipple in Ferndale.

Miss Marilyn Jones of Adrian with Miss Jane Pierce spent the weekend with Jane's parents, Mr. and Mrs. Frank Pierce on Northville road. Both young ladies are students at Michigan State Normal in Ypsilanti. Marilyn, with her parents at one time resided in Plymouth.

Mr. and Mrs. Lisle Alexander, Mrs. Florence Alexander, Miss Amelia Gayde and Miss Sarah Gayde were Sunday dinner guests of Mr. and Mrs. William Krause in Detroit.

The Lutheran Ladies Aid Society of St. Peters church met on Wednesday, March 5 for their regular monthly meeting in the home of Mrs. William Kreeger on Brownell street.

Alma College President Speaks

President John Stanley Harker of Alma College will preach in the Rosedale Gardens Presbyterian Church, Hubbard at West Chicago, Sunday, March 9 at the worship service at 11 a.m.

Dr. Harker is a native of New Jersey, a graduate of Grove City College, Grove City, Pennsylvania, and McCormick Theological Seminary. He holds his Master of Arts and Doctor of Philosophy degrees from the University of Pittsburgh. In 1941, Grove City College conferred upon him the degree of Doctor of Divinity. Dr. Harker is an ordained minister in the Presbyterian church. He was pastor of the Hamilton Presbyterian Church of Hamilton, Ohio, for 13 years. During that time the membership of his church grew from 500 to 1,600.

In his previous pastorate at Sillsburgh, Pennsylvania, Dr. Harker was minister of the Presbyterian church and chaplain of Kiskimettas Springs School, one of the nation's leading prep schools for boys.

During his Hamilton pastorate he was active in many phases of community life as a member of the Chamber of Commerce, as a trustee of Mercy Hospital, a member of both Boy and Girl Scout Councils, and a member of the Adult Council. He is a Mason and a Rotarian.

Dr. Harker became President of Alma College in January 1951.

Alma College was founded by and is under the control of the Presbyterian Church of Michigan. It is a fully accredited college of liberal arts which some 4,000 citizens of Michigan have attended. It is a co-educational college with a limited enrollment of 600.

NEWBURG METHODIST CHURCH, 9614 Newburg road, Phone 761-J, Robert D. Richards, Services at 10 a.m. Pastor will preach the second in a series of sermons for Lent on: "The Conflicts and Triumphs of Jesus' Last Day." Sunday's sermon will be on the topic, "His Conflict with Self." Sunday School at 11 a.m. The Sunday School has classes for every age including a nursery for little ones. Evening services at 7 p.m. The evening service will feature an Old Fashioned Singing. Guests speakers and a Fellowship Coffee Hour at the close. The public is cordially invited to attend.

FIRST CHURCH OF CHRIST SCIENTIST, Sunday Morning Services, 10:30 a.m. Sunday Evening Services, 7:30 p.m., every fourth Sunday of the month, Sunday School 10:30 a.m. for pupils up to twenty years of age. That the real man is God's spiritual image and likeness is brought out in the Lesson-Sermon entitled "Man" which will be read in all Christian Science churches on Sunday, March 9. The Golden Text is from Daniel (10:19): "O man greatly beloved, fear not: peace be unto thee, be strong, yea, be strong." Among the Bible citations in this passage, (Ps. 149:4): "For the Lord taketh pleasure in his people; he will beautify the meek with salvation." Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Immortal man is not and never was material, but always spiritual and eternal." (p.336)

'Christ Our Hope' Topic of Service

"Many are saying Christ is our hope, but we fail to place it there. Along with hope goes love and faith as a little," stated Mrs. Elton Stringer, at the world day of prayer services held Friday, February 29.

Mrs. Stringer, past president of the Ann Arbor Council of Church Women said that many have centered hope in such things as armies and money spent for protection of the country rather than in Christ.

The service was held in the First Presbyterian church. The other participating churches were First Baptist, First Methodist, Plymouth Assembly of God, First Presbyterian, St. John's Episcopal, Salvation Army, Latter Day Saints, and the Church of the Nazarene.

FIRST BAPTIST CHURCH, North Mill at Spring, Rev. David L. Rider, Pastor, Phone 1586, Wm. Foley, Sunday School Supt. Morning Services: 10 a.m. Sunday School, Last Sunday we sort of fell down on our attendance. We lost in our contest with the Halcyon church by just one point. Were you the one who should have been in our class? Come next Sunday. Won't you? 11:00 Morning Worship Service. Sermon topic will be "The Wreath". Evening services, Young People's Prayer Time at 6:00 at the church, 6:30 to 7:30 —Baptist Youth Fellowship Meetings at the church. Both Junior and Senior groups will meet. Young people! You are cordially invited to attend these meetings every Sunday, 7:30 The "Happy Evening Hour". This coming Sunday we are to be favored with a very special speaker, Dr. Petzoldt. He will have a challenging message that no one will want to miss. We are looking for a great host of friends to attend this service. Won't you come and bring along your friends and neighbors, that they too might share in this blessing? Tuesday, March 11. The Women's Missionary Society will hold their regular meeting at the church at 12 noon. It will be a potluck dinner. You are to bring your table service and a dish to pass. The ladies are to be favored by being able to hear Dr. Petzoldt once more, as he speaks to them at this meeting.

Tuesday, March 11, The Palm Bible Class will meet at the church at 6:30 p.m. for their regular monthly class meeting. Wednesday, 7:30 p.m. "Hour of Power". Our midweek service of prayer and Bible study. Come and join us for this time of spiritual blessing. The church choir rehearsal is at 8:30. If you like to sing, you should be singing in our choir.

Indian Missionary to Speak Here

Rev. W. A. Petzoldt, D.D.

Dr. William Petzoldt, pioneer missionary to the Crow Indians, with a half century of experience in Christian service to his credit, will visit Plymouth this week to climax the current series on Missions being conducted at the First Baptist church.

He will be heard Sunday evening at 7:30 Happy Evening Hour at the church and will speak to the Ladies groups Tuesday afternoon at 1:45.

He is also scheduled to address the Plymouth Kiwanis Club, Tuesday evening at 6:00.

Dr. Petzoldt was born in Lowell, New York. He received his early education in the schools of Rochester, New York. At the age of 15 he went to Creston, Iowa and there his interest in Christian living and work began. He was graduated in 1893 from Marion Collegiate Institute, Marion, New York. He continued his studies at Rochester University.

Precious to his missionary service he held the pastorate of the Baptist Church in Carroll, Iowa for three years (1894-1897). During the next three years he served as evangelistic work in Sheldon, Iowa. The three years from 1900 to 1903 he was pastor of the First Baptist Church at Sheridan, Wyoming.

WEEKLY SERMONETTE

Throng of people had gathered by the sea of Galilee, coming to see the Savior work His mighty miracles. After three days the disciples confronted the Son of God with this question, "From whence can a man satisfy these men with bread here in this wilderness?" Mark 8:4. Jesus demonstrated that it could be done by miraculously multiplying the loaves and fishes; so we read, "They did eat, and were filled; and they that had eaten were about four thousand."

Through this miracle Jesus was showing that He could satisfy man even under the most adverse circumstances. As He satisfied the multitude with bread for the body, He can satisfy the soul with the Living Bread from Heaven. "For the bread of God is He which came down from heaven and giveth Life unto the world. And Jesus said unto them "I am the bread of Life: he that cometh to Me shall never hunger; and he that believeth on Me shall never thirst." John 6:33,35. The Psalmist knew this truth by experience for he said, "Oh, that men would praise the Lord for His goodness. And for His wonderful works to the children of men! For He satisfieth the longing soul, and filleth the hungry soul with goodness." Psalm 107:8,9.

To become the satisfying Savior to mankind today the Son of God came from heavens' glory, and died for our sins, and rose again for our justification. Therefore He is able to save and satisfy to the uttermost all that come unto God by Him.

The question may arise in the minds of many, how does the Savior do this work in the soul? We believe God gives the answer in His word. To that soul who comes believing with all his heart, a new life is imparted; that life which Jesus said He came to give, even life more abundant. "For if any man be in Christ, he is a new creation: old things are passed away; behold, all things are become new." II Corinthians 5:17. The person with this life has a new path in which to walk, the path of righteousness, Paul said, concerning the people of Ephesus, before they received this new life they walked in the course of this world. This course is not a satisfying way, for the things of this world soon pass away. But by the Grace of God through Faith these people were quickened and began to walk in the way of righteousness. To those souls who come believing there is given unto them also a new principle by which they live, that is the Love of God which is shed abroad in our

hearts by the Holy Spirit. This principle working in the life of the Apostle Paul caused him to say, "For the love of Christ constraineth us; because we thus judge, that if one died for all, then were all dead; and that He died for all, that they which live should not henceforth live unto themselves, but unto Him which died for them and rose again." II Corinthians 5:14, 15. Here we see the cure for a selfish life. A selfish soul is never a satisfied soul. The love of Christ shed abroad in our hearts causes us to begin living by a new principle. But someone may say, this is too high a standard, we cannot attain to it. The Savior knowing this provides a new power in the person of the Holy Spirit, who will enable us to live the more excellent way showing forth the love of Christ in our lives; first to God, and then to our fellowman. This Spirit Jesus said the world could not receive. "Even the Spirit of truth, whom the world cannot receive, because it seeth Him not, neither knoweth Him: but ye know Him; for He dwelleth with you, and shall be in you." John 14:17. The Holy Spirit indwells all who come to Christ in Faith. He is the power which enables us to live a satisfied life in the wilderness of sin and selfishness.

The Comforter, which is the Holy Spirit, which Jesus promised to all who believe in Him, is also called the earnest of our inheritance. This inheritance is our possession in heaven thus assuring us satisfaction throughout eternity. This inheritance is a dwelling place provided by the Savior for every believing soul. This place Jesus said He was going to prepare. In this eternal home the Psalmist said, "He would be fully satisfied."

With such provision for time and eternity, Jesus the Bread of Life can assure soul satisfaction to all who come and believe. Multitudes are still in need of this satisfaction.

The writer of this message at the age of 18 found the Son of God to be the Satisfying Savior, and recommends Him to you. The words of an old hymn express clearly the experience of those who come to Christ in Faith Believing.

O Christ, in Thee my soul hath found, And found in Thee alone, The peace, the joy I sought so long. The bliss till now unknown, Now none by Christ can satisfy. None other name for me! There's love and life and lasting joy, Lord Jesus found in Thee.

Reverend Patrick J. Clifford

Complete Steel Work For Plant

Workmen have completed the erection of all the steel frame work for the new plant of the Plymouth Stamping company, which is being erected on Ann Arbor road, about a block east of Main street, on the south side of the highway.

Some of the brick work has also been started, but unfavorable weather conditions during recent weeks have somewhat delayed work of the structure, which, when completed, will house the present plant now located on North Main streets in the old King factory building.

In El Paso, Bartender Rafael Rutz asked cops to look for a man who came into the tavern, asked for a \$10 bill in exchange for ten \$1 bills, then gave Rutz back the \$10 bill and the ten \$1 bills in exchange for a \$20 bill.

DALE CARNEGIE

AUTHOR OF "HOW TO STOP WORRYING AND START LIVING"

Most Fears Ungrounded

JAMES DRISCOLL, Bronx, N.Y., while in the navy, had something to worry about: he believed he was going blind. Naturally, he visited a navy doctor, who listened to his symptoms sympathetically and examined his eyes with all the complicated instruments the navy had to offer. At the end of the examination, the doctor told him quite firmly that there was absolutely nothing wrong with his eyes. But he did not believe the doctor. After all, he knew his own eyes.

Carnegie

Shortly after, he was transferred to Chicago, where fear and worry followed him. While there, he went to see a navy doctor. As fate would have it, it was the very same doctor who examined him in Norfolk. After seeing his records, the doctor said, 'Young man, I told you in Norfolk that there was nothing wrong with your eyes, and I do not want you chasing me all over the country with your assinine ideas.'

Now his fears were doubled. He knew his sight was failing, and on top of this, he could get no reliable medical aid.

Around this time, he happened to run across an article in a magazine which told of a man who was almost totally blind. He devised several eye exercises whereby his vision was restored to normal. He immediately tried these exercises and soon forgot all about his eye troubles.

He realizes now the doctor was right, that there was nothing wrong with his eyes. (Aldous Huxley gives excellent advice on eye exercises in his book "The Art of Seeing".)

Northville May Expand to East

Plymouth residents are watching with more than ordinary interest the discussions taking place in its friendly, neighboring community, Northville, pertaining to the possible adoption of a city form of government as well as an expansion of its village limits.

It is the latter point that Plymouth residents are interested in. There have been some proposals made in Northville that if and when Northville becomes a city it should include all of Northville township.

Another group suggests that only that section lying east of Northville, to the Haggerty road be taken within the proposed city. This expansion would include the new Northville State hospital, which will be open to more patients within the next few weeks. It has become known that eventually the hospital will have a population with doctors, assistants, workers and patients of some 3,500 people.

In other cities in Michigan where similar state institutions are located within the city limits, these cities get the benefit in sales tax refunds upon the population count of these institutions as well as of the city itself. If Northville should expand to include the hospital, then its additional income of state refunds would amount to something like \$35,000 or more per year. That, with its division of race track money that now goes entirely to the state, would give Northville an income of something like \$100,000 a year from the state—and that, say advocates of the proposed city expansion program, is something to talk about.

Grange Cleanings

The card party at the hall last Saturday night was a very successful affair. A fine crowd and every one enjoyed themselves. There were 27 tables which is very good. Mrs. Grammel and Mrs. Tracy made fried cakes enough for the crowd which was no small matter and they were good too.

Our meeting tonight is the usual pot luck or fellowship supper with a special table for those whose birthdays occur this month. We hope the program will please you.

Mr. and Mrs. Paul Nash are enjoying a visit with their son, Edgar who is at home for a few days.

Also Douglas Blunk is at home for this week but will be leaving for Korea in a few days.

O.E.S. NEWS

The annual Spring Luncheon of the O.E.S. will be held April 29.

We are happy to report that so many of our shut-ins are improving.

Our first four officers have made many visits to other chapters the past month.

Wayne Discusses Annexation

According to the Wayne Dispatch there are seven possible areas of annexation to Wayne, which were outlined and discussed by the Wayne Area Study Committee at its last meeting. These areas with their potential revenues were outlined by Duncan Millar, chairman of the study group.

1. The area bounded by Hamnan Rd., Van Born Rd., Glenwood Rd. and the Chesapeake and Ohio Railroad with a potential assessed value of \$12,400,000.

2. The area bounded by Fourth St., Glenwood Rd., Henry Ruff Rd. and the north limits of the Village of Wayne with an assessed value of \$1,500,000.

3. The area bounded by the east and west limits of the township exclusive of Inkster and Glenwood and Palmer Rds. with an assessed value of \$4,100,000.

4. The area between Palmer and Cherry Hill Rds. from Hamnan Rd. east to the Inkster Village line with an assessed value of \$2,000,000.

5. The area bounded by Cherry Hill and Ford Rds. from Hamnan Rd. east to the limits of Garden City with an assessed value of \$1,300,000.

6. The area bounded by Ford and Warren Rds. from Hamnan Rd. east to the limits of Garden City with an assessed value of \$1,000,000.

7. The area bounded by Warren Rd. and Joy Rd. from Hamnan Rd. east to Farmington Rd. with an assessed value of \$300,000.

Mr. Miller also pointed out that a proposed budget for all seven areas as well as could be estimated would be \$430,000 for public works, \$230,000 for police protection and \$100,000 for the fire department.

He stated that the present assessed value of the village is \$13,300,000.

On the central front, Korea, a captured Chinese soldier who wore several layers of underwear, two quilted uniforms, a double-breasted overcoat, new boots and winter cap, explained: "I'm a supply sergeant."

BUSTED . . . P.F.C. Linwood Smith, Fredericksburg, Va., member of General Ridgway's honor guard in Tokyo, was busted from corporal to private when he ate some of the general's candy.

'Plymouth Day' is Started in St. Pete

Plymouth residents can add another important date among the many important events that fall during the month of February—that is, Plymouth residents who go south to worship the sun, while their neighbors skid about on ice and shovel snow the rest of the time.

Members of the "Plymouth Tourist Colony" can henceforth look forward to February 21 as just as important a day in February as is Groundhog day, Valentine's day, Lincoln's birthday, Washington's birthday and the anniversary of the formation of the Southern Confederacy.

"Plymouth Day", let it be known, is strictly for Plymouth residents who are in or around St. Petersburg, Florida on or about February 21.

The day was "born" this year when Mr. and Mrs. Robert Jolliffe and some 20 other residents of Plymouth joined in a sumptuous pot luck dinner followed by an all-day picnic on the Municipal Pier in St. Petersburg.

Those present to enjoy Plymouth Day were the following from "The Plymouth Tourist Colony": Mr. and Mrs. Charles R. Mason and Mrs. Mason's sister, Mrs. McKay, Mr. and Mrs. Harry McClumphia of Tribes Hill, New York, Mr. and Mrs. Calton Lewis and daughter Celia and husband, Mr. and Mrs. Arlo Soth, Mr. and Mrs. Irving Blunk, Mrs. Charles Mather, Mrs. Mabel Blunk, Dr. and Mrs. J. J. Travis of Ann Arbor and Mr. and Mrs. Jolliffe. Mr. Lewis was appointed official photographer of the group.

In Bowling Green, Ohio, FBI men found Private Albert Furukawa, four months AWOL, living in an apartment over the office of Draft Board 126.

In Springfield, Mass., Patrolman John Bigby, commended three times for tracking down robbers, drew 30 months in jail for robbery.

Varsity Upsets Redford Union in Season Finale

Playing on the local court last Friday, February 29, the varsity cagers triumphed over the Redford Union quintet in a smashing 50 to 37 upset victory in their season's finale.

The Rocks starting lineup was composed of Dave Finney and Casey Cavell at guards, Jerry Kelly and Bud Lanphear at forwards, and Al Williams at center. Plymouth dominated the play throughout the whole encounter and by halftime had rolled up a 24 to 15 lead.

During the third and fourth stanzas the Rocks drew even further away from the Panthers as guard Dave Finney scored on his set shots. The Panthers tried desperately to get back in the game but the locals were not to be stopped and when the final whistle blew the scoreboard showed the Rocks the victors 50 to 37.

Dave Finney led in the scoring department with 6 field goals and 5 charity shots for a total of 17 points. He was followed by Al Williams and Jerry Kelly who dumped in 9 and 7 points respectively.

The Rocks finally found their range in their free shots, hitting for 12 out of 23 while Redford Union sank 7 of their 19 charity shots.

Taits Clinch Men's BB Title

Taits won two games this past week to clinch the title in the Men's Basketball League. Taits completed the season with a 14-2 record. Runner up was La Fountaine with a record of 11 wins and 5 losses.

On February 26, Taits defeated La Fountaine by a score of 30-25. High scorer for the winning team was Brodie who dropped eight field goals and one free shot through the hoops for a grand total of 17 points. Hacc scored 12 points and was top man for the losers.

Taits downed DeHoCo by a score of 95 to 55 on Friday. At the half Taits led by a score of 48 to 26. Brodie led the Taits attack again with 25 points for a two game total of 42 points. Gregory paced the defeated team with nine field goals.

Phone news items to 1600

ONE OF THE MOST promising candidates on the Michigan State track squad is sprinter Lou Vargha, Plymouth sophomore. He has shown great potential in early season performances in the 440-yard dash and is improving rapidly. Head Coach Karl Schlademmer of the Spartans has praised Vargha's work thus far and has indicated that Lou may develop into the top dashman for the Green and White this season. Vargha is 19 years old and majors in agriculture at MSC. He is the son of Mr. and Mrs. Andrew Vargha of 11420 Gold Arbor road.

Reserve Five Win 13, Loses One

The Plymouth reserves wound up a most spectacular season Friday, by dumping Redford Union 63-45. Plymouth jumped into a 19-14 lead at the end of the first quarter but Redford Union started fighting back and tied it up 21-21 midway in the second quarter. Plymouth outscored Redford Union in the last half of the second quarter and led at the half time 33-27.

In the second half Plymouth caught fire by scoring 21 points and held Redford to 4, thus leading 54-31 at the end of third quarter. Plymouth had no trouble after this and led the remainder of the game.

Ken Kisabeth led the reserves' attack with 17 points followed by Gordon Champion with 12.

Read the classified pages.

Frosh Win Over Zebras, Panthers

Plymouth's Frosh Basketeers ended their season in good fashion by winning their last two games of the year, downing Redford Union 33-29 and squeezing past Wayne 33-31.

The Frosh downed Redford Union last Friday at Redford Union in a last half spurt. The score at the half showed the Frosh behind 17-13. With determination, they proceeded to pull away from the Panthers and outscored them 20 to 12 to win going away 33-29. John Agnew and Leslie Ferenzi each scored 8 points with Larry Wilhelm and Bob Middleton scoring 7 points to lead the young Rocks.

In a game a week prior to the Redford Union game the Wayne Zebras fell easy victim to the Frosh Cagers 33-31. The score at the half stood 16-13 with the Frosh out ahead. In the second half Plymouth led at one time 33 to 23. Then Wayne got hot, but the sizable frosh lead prevailed. Leslie Ferenzi led his teammates in scoring with 15 points. In this tilt everyone on the team saw action.

SPORTS CORNER

BANNED... Cornel Pajor, former world champion speed skater from Hungary, who left his homeland to escape Communism and became a citizen of Sweden, has been banned from winter Olympics because he was not from Hungary.

All in the Game:

AN ODD FACT is that in the U.S., where males have adopted so many sports involving balls and sticks, field hockey still is primarily a game for college girls... Harness horse racing involves horses with two gait—the pacer who thrusts out the right front and right rear legs at the same time and the trotter who uses the right fore leg and the rear left leg at once... The Irish originated handball in the 10th century... The greatest golfing family was that of Mike Turnesa, whose famous golfing sons were Mike, Jr., Frank Joe, Phil, Douglas, Jimmy and Willie... "Bogey" was the first international term used in golf and was originally known as "Colonel Bogey"... Far is affixed by the architects of golf courses... Ancient Chinese poets referred to a game somewhat like our football... Tom Molineaux, a negro, was the first American ever to fight for a world's heavyweight title (1810)... Bowling is America's number one indoor sport.

Register Now For Swimming Classes

Wednesday night, March 5, two women's swimming classes started an eight weeks course at the Wayne County Training School. One class convenes at 8:30 p.m. and the other at 9:30 p.m. Registrations are being taken at the Recreation office for the May and June classes.

The two Swedish gymnastics classes which meet on Tuesday morning and Thursday evening will continue on for four more weeks. New classes will start in the fall.

Bank Defeats DeHoCo 30-25

An inspiring Plymouth United Savings bank team defeated DeHoCo 30 to 25, February 26 at DeHoCo. Plymouth led during the entire game. At the half the score stood at 25-16. Thompson paced the winners with a total of 17 points. Shingleton was runnerup with 16. Krider and Gregory led the losing team with 14 points apiece. Daisy trounced Plymouth on Friday by the lopsided score of 82 to 27. Leading pointmakers for Daisy were Dzurus and Levering with 20 points each. Rhoda with a total of eight points led the losing team.

Main Street Paving Project Caused Many Arguments, Fist Fight

How An Alert Village President of Years Ago Tested a Paving Brick That Has Lasted for More Than 44 Years

By Charles H. Bennett

Charles H. Bennett

While there were many arguments and some bitterness felt over the waterworks question, as it was called back in 1892 or thereabouts, it was but a minor exchange of pleasantries as compared with the most controversial and highly charged battle of words, opinions, and in one case of actual fist-cliffs that all but tore our fair city of today apart back in the year of 1908.

All of this bitterness and excitement was over the laying of the present brick pavement on Main street. This pavement was laid from the corner of Ann Arbor Trail to the east side of Mill street, a distance of six or seven blocks.

My younger brother, Fred F. Bennett, happened to have been our village president when this paving question came up. Just as my father was strongly in favor of the so-called waterworks project, just so was brother Fred in favor of paving Main street. And why not? It certainly needed to be paved.

Let me say here that I have witnessed a sea of mud directly in front of what is in this year of 1952 known as the Veterans Memorial building at 173 North Main street, so deep that a span of large horses drawing an empty high-box farm wagon were stalled in the mud and were unable to move until the driver received help from another pair of horses hitched onto the wagon's pole in front of the team that was stuck in the mud.

This scene was not an unusual one in the old days. A similar scene could have been witnessed in another sea of mud that for years was to be found directly in front of Mr. Conner's store, now occupied by the Norma Cassidy Dress Shop. These scenes usually occurred twice each year, due to the spring and fall rains.

The spring rains never failed to carry away the wooden bridge that spanned Tonquish creek, which ran directly in front of where Peterson's drug store on Ann Arbor Trail is now located. I have known the very few residents who at that time, lived on Ann Arbor trail, to be compelled to take a long roundabout way to reach their homes after one of these spring rains. It usually required two or three days, and four times that number of horses, to haul that wooden bridge back into the place from which the stream had carried it. The bridge usually landed up about where the creek goes under South Main street next to the Pursell store.

This annual hunt for the Ann Arbor trail bridge should not be confused or compared with the bridge games as now played by the ladies of our fair city. The difference is quite obvious. The first was a test of strength of those who participated. The latter—so I have been advised—is purely a test of tempers. Enough advertising for Ann Arbor trail—let's return to Main street.

It is my understanding that the hue and cry that went up from many residents of Main street when the paving contract was really signed, was not so much on account of an assessment or an increase of taxes, but it was because Main street had to be level, and to level the street meant cutting down on its high spots, which in doing, meant an unusually steep grade on the northwest side of the street, from the Plymouth high school corner, with a few exceptions, to Mill street.

In many cases this made it very hard and disagreeable for some residents to navigate automobiles up these grades to their driveways. In fact it was found impossible to do so for the entire distance from the Ernest Allison Chevrolet garage to Mill street. If you think all of the residents living on Main street in 1908 were happy over the prospect of having the street paved you have another guess coming.

The greatest objector to the paving project was one Seneca Everett, well known to his fellow townsmen as "Sin." Whether or not this nickname was deserved is not for me to judge, but on the paving of Main street, he certainly acted the part. At the time he lived in a large house on the northwest corner of Starkweather and Main street and the cutting down of Main street left "Sin's" house so high that a tractor would hardly have been able to pull an automobile up a driveway to his door.

This fact might have stirred sin in a milder citizen but in Mr. Everett, it reached his "top" and boiled over. While he was the "chief boiler" he was far from being the only one. Those who refrained from "boiling" did not fail to do a pretty good job of "simmering" almost constantly.

Brother Fred was, without a doubt, the most unpopular man in Plymouth during his regime as president of the village. All of this disturbance kept Fred on his toes and he became determined that at least a pavement would be paved with which the village—including the "boiling citizens"—could find no fault.

At this period in our history F. F. Bennett was acting as the plant superintendent of the Daisy Manufacturing Company. And in this same year William ("Bill" to his friends) Taylor, now head of the Taylor & Blyton store, was also an employee of the Daisy Manufacturing Company.

The following words are Mr. Taylor's own as regards to the care taken by F. F. Bennett to secure the best of materials on the market at that time in order to be certain that a least he would not be burned at the stake for putting down an inferior pavement. Mr. Taylor says:

"They wanted to buy the best brick available for the purpose and Mr. Bennett, the village president, had several brick manufacturers put in their proposals with samples of the brick.

"Village President Bennett came into the Daisy Manufacturing Company's engine room carrying six galvanized pails and the samples of the brick, all numbered. He had each pail numbered as well. Then he left instructions to fill the pails with water of 70 degrees temperature, and weigh each brick to the exact ounce and then put the bricks in the pails of water—keeping a record of the time and weight. Each brick was left in the water exactly 24 hours, and then taken out and weighed again, with a record of the weight being kept the same as before they were placed in the pails. After doing this test for several times, the village purchased the brick that absorbed the least amount of water. When a car load of brick was delivered, samples were again taken from the car and the same test was made again to make sure that the brick were like the sample that came with the proposal. Several car loads were returned."

"With the exception of the patching of the Main street paving, which was done with cement instead of brick when the street car tracks were removed, our paving is not too bad considering the fact that it has been down for 44 years and carries about as heavy traffic as any thoroughfare in the state of Michigan.

Appetizing accompaniments for mid-morning coffee or afternoon tea are cinnamon toast sticks. To make them, remove crusts from slices of enriched bread and brush both sides of the slices with melted butter or margarine. Cut each slice into six equal size strips, and roll them in a mixture of cinnamon and sugar. Arrange the strips on a cookie sheet and bake

at 350° F. until crisp. These crunchy cinnamon toast sticks also add texture and flavor contrast to fruit salads.

In Corpus Christi, Texas, Policeman Tom Goates emptied his pistol at a fugitive, missed, irritably threw the weapon and felled his man with a direct hit.

Many Students Finish MAC Work

A total of 291 students took part in the short course graduation at Michigan State College, including 13 young people from Wayne county, according to P. R. Biebesheimer, county agricultural agent.

The short course graduating class represented 14 states, three foreign countries and most of the countries in Michigan. Representing this county were: Joann Van-Aken, 6643 Salen Rd., Plymouth, Pa.; Floriculture; Neal Akerlind, 11229 Haggerty, Plymouth, N.Y.; Nursery & Landscaping; M.L. George Campau, 9832 Berwick Ave., Plymouth, Nursery & Landscaping; Dean Duncan, 19792 Prairie, Detroit, Nursery & Landscaping; M.L. William Oestrike, 28335 Allen Rd., Trenton, Commercial Floriculture; Robert Royst, 946 Washington Rd., Grosse Pte., Nursery & Landscaping; Frank Schwagle, 30041 Elmwood, Garden City, Commercial Floriculture; Lewis Stange, 4815 Fullerton, Detroit, Commercial Floriculture; Steve Losonsky,

8609 Mt. Elliot, Detroit, Horse-shoeing; Elley Rouster, Lenmoore Rd., Belleville, Gen. Ag. 1st term; Robert Boss, 11329 Mayfield, Plymouth, Gen. Ag. 4th term; Rosemary Hunter, 21101 Vreeland Rd., Trenton, Home Economics.

Wayne County had the largest number from any one county.

Paul Bagwell, head of the department of written and spoken English, gave the principal address, speaking on the topic, "Elements of Our Faith." Following the graduation ceremony and presentation of certificates, the graduates attended a special banquet in their honor.

The bison is the largest of American mammals, and at one time was the most important game mammal as well.

The forest products industries in the United States directly or indirectly provide 3 million jobs.

Plymouth D.A.R. Members Warned of Threat to American Citizenship

The Executive Secretary of the National Defense Committee, Daughters of the American Revolution, Mrs. James C. Lucas has informed Mrs. E. J. Cutler, Regent of Sarah Ann Cochran Chapter, D.A.R. that an emergency exists which requires prompt action by members and others who are interested in the preservation of their own individual rights granted to them under the Constitution of the United States.

To quote Mrs. Lucas, "The Genocide Convention treaty has been favorably acted upon by the Subcommittee of the Senate Foreign Relations Committee and may come before the Senate for ratification at an early date."

"The Genocide Convention treaty, if ratified, nullifies the Constitution of the United States of America and the Bill of Rights. This Treaty means World Government and to you individually the loss of your Constitutional rights."

There is a great deal of confusion in regard to the Genocide Treaty. It is comparable to an International FEPC, Fair Employment Practices Commission. If a citizen of the U. S. or any other country were to designate a person as a "Communist" even if he were in fact a member of that organization, and he considered that the name "Communist" caused him mental harm" (words in that treaty) he could ask for the citizens' trail before this International Court which would have precedence over our United States Courts in its decisions. This is true of any other "name" such as Indian, Negro, Chinese, etc.

The ratification of the Genocide Convention and the establishment of an international court or tribunal would allow citizens of the United States to be sent outside of the United States for trial, to any place where the tribunal might be in session, for offenses committed in their own homes but claimed by an enemy to be an act of genocide.

Only two-thirds of the members of the U. S. Senate present—not two thirds of the entire membership of the Senate—may ratify a treaty and Article VI of the U. S. Constitution provides that "shall be the supreme Law of the Land, and the Judges in every State shall be bound thereby, anything in the Constitution or Laws of any state to the contrary notwithstanding". This point of the treaty becoming the supreme law of the land has been established by certain decisions rendered by the U. S. Supreme Court, notably the Migratory Bird Treaty.

If American citizens think it is unlikely to happen to their State laws they should stop and consider that it has already happened in California, where a District Court of Appeal declared the Alien Land Law invalid because the United States was a signer of the U. N. Charter and the universal declaration of human rights. Regardless of the opinions on the ownership of land by aliens, it was a California law which the Court held was superseded by the U. N. Charter and its Declaration of Human Rights. In this way the American people will be slipped into World

Government before they realize it and that is exactly what will happen by the ratification of the Genocide Convention treaty by the U. S. Senate. Immigration Laws and other Federal and State laws will be nullified, taking a long step towards World Government.

Do you want it? If not, write immediately to Senator Ferguson, Congressman Dondero and the members of the Foreign Relations Committee.

Combat Commies By "War of Truth"

The Central Michigan area has been selected for a leading role in the "war of truth" to combat Communist propaganda.

Work already has begun on five film strips for the American Council on Education, under the auspices of the U. S. Department of State. The five are part of a 12-film project being done all over the nation by the ACE and state department to show the practical workings of democracy.

Featured in the film strips will be youth agencies of Lansing, Michigan State College and Lansing high school adult education programs, teacher-training at Central Michigan College of Education, and other phases of work at Michigan State.

Director of the work in this area is Sonia K. Williams of Creative Arts Studio, Washington, D. C., a private concern which does many projects for the U. S. Department of State.

Upon completion, the films will be shown chiefly in so-called Marshall Plan countries. The first showing will be held in Germany sometime in June, Miss Williams, estimated.

Titles of the five film strips are "Citizen of Tomorrow," largely devoted to Lansing youth agencies; "Student Assistance," a feature about such services at M.S.C. and C.M.C.E.; "Learning Goes on," which discusses adult education program at M.S.C. and Lansing high schools; "Preparing to Teach," a sketch of C.M.C.E.; and "Helping the Handicapped," a feature about the programs of Lansing public schools and M.S.C. to aid the physically handicapped.

Farmers to Meet With Rotarians at Cherry Hill Thursday Night

Thursday night of this week is going to be an important one for some 70 or 80 farmers of western Wayne county who are going to be guests of the Plymouth Rotary club at a meeting to be held in the Cherry Hill church dining room.

Sometime ago President David Mather named Robert Waldecker, the hybrid corn grower of the club, as chairman of rural-urban club meeting suggested for March.

As a result of the efforts of Chairman Waldecker, it is expected that some 125 or 150 people will be at Thursday night's meeting to hear James Hayes of the dairy department of Michigan State College give his popular address entitled "The Cow".

V.F.W. News

Attendance is mandatory at our meetings this month. March is the month set aside for nomination and election of officers. This is our chance to express our opinions by electing those officers who we feel will do the best job. Staying home may put the wrong one in command.

March will also be a busy month for social events for the Post and Auxiliary. March 25, members and their friends are invited to a technicolor movie about our Eaton Rapids Home and a panel discussion by the German students staying in Plymouth. Refreshments will be served afterwards. There will be no charge for this event. The Auxiliary is also having a social evening for members and friends on Saturday, March 15 at the Veteran's Memorial Center.

House for sale? Use a classified ad. Call 1600. Deadline is Tuesday at 5:00.

Local News

Mrs. William McAllister has returned to her home on Northville road after spending last week with her son, Roy McAllister and family in Saginaw and getting acquainted with her new grandson.

550,000 LEGS! . . . In Hollywood, Sharon Baird, child dancer who had her contract with Eddie Cantor approved in superior court recently, had her legs insured by the comedian for \$50,000. Nine-year-old Sharon who appears with Cantor on television is the youngest dancer ever to be "under pinned" with such insurance. Policy was issued by local representatives of Lloyd's of London.

Save time sorting clothes on washday. Put a plywood partition in your hamper for colored and white clothes.

Plymouth High School News

Scholarship Open To PHS Seniors

For the second consecutive year a Madonna College scholarship is being offered to Plymouth High School's graduating seniors. The scholarship is available for one year in any field and is renewable annually upon maintenance of high scholastic standards and good conduct. The scholarship is a four year liberal arts scholarship offered to women. It was approved by the Board of Education and the State of Michigan accredited by the Michigan Commission on college accreditation and affiliated with the Catholic University of America.

Scholarships are open to high school graduates ranking in the upper half of their class. Selections are based on the competitive examinations. Competitive scholarship tests were administered to the applicants at the examinations centers.

The nearest center is Madonna College on Schoolcraft road, Felician Academy in Detroit, Mt. Carmel High School in Wyandotte.

For more information write to The Dean, Madonna College, 36800 Schoolcraft, Livonia, Michigan.

PHS Biology Students Study Human Differences

Did you ever know that not one of your friends is exactly like you in either physical or mental characteristics?

Ross Hedrick's biology classes do, since they have been studying a week on this subject of heredity and plan to continue for about two weeks more. Many different things were learned such as how living things differ from one another, what the early stages of living things are, what the laws of heredity are, plus many other things.

One thing they are to remember, is that even a person who has a native gift for music will never become a first-class musician unless he works hard and persistently to develop his potential ability.

If your cakes fall perhaps you are not using the right sized pan. When pans are too small the cake batter will run over the edges and burn. When the pans are too large the cake tends to be thin and overbaked.

If you have a social item, or any other local news, phone 1600.

PHS Students Present Assembly

A talent assembly was presented to the ninth and tenth grade students of Plymouth High school Monday, February 25, during the fifth hour class. The assembly was the same as that shown to the students of Bentley High school on January 14 and 15, when Plymouth and Bentley exchanged talent assemblies.

Students participating in the talent assembly were Jon Brake who played two piano solos, Marcia Woodworth who did tap and ballet dancing, a trio consisting of Betty Salmon, Terry Carney, and Ellen Daoust who sang "The Desert Song," and a clarinet quartet consisting of Freda Killingsworth, Eric Eklund, Wayne Smith, and Arlene French.

A skit put on by some students of Carl Kranish's Public Speaking classes with Bill Moore, Ralph Wagenschutz, Chuck McKenna, Larry Davis, Bob Danol, Anita Mosher, Elaine Rich, Caryl Kienbaum, Larry Tillotson, and Jim Isbister taking part in the skit, and a skit presented by some members of the Library Club were presented. Don Lightfoot, Alex Pakovich, Pat Oaks, Mary Ann Mathe, Tony Worth, Jimmy Foreman, Alice Miller, Laura Hatch, and Louella Caron took part.

Brian Kidston was master of ceremonies for the assembly which was just shown to the ninth and tenth graders.

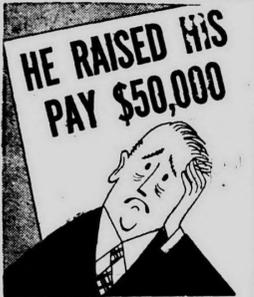

5 New Books Added to High School Library

Five new books have been added to the Plymouth High school library this week. They are "Album of Horses", by Marguerite Henry, a story that contains information on the most familiar breeds of horses; "The Right Job for Judith", by Enid Johnson, about a girl that came from a small town to the city to sing and thought she knew all the answers, a girl who knew where she was going until she tripped over her own unwieldy ambitions; "Pasteur, Knight of the Laboratory", by Francis E. Benz, which tells of Pasteur's experiences as a boy, as a man, and a doctor; "Fiddling Cowboy in Search of Gold", by Adolph Regle, a story of a 17 year old boy that takes part in a gold rush in Dakota in 1874 and the boy's adventures in fighting the Indians and weather; "The Santa Fe Trail", by Samuel Hopkins Adams, relating the adventures of Captain William Becknell, a wagon train leader, and his troubles in traveling on the Santa Fe Trail.

Y-Teen Blue Chapter Accepts New Members

Y-Teens Blue Chapter accepted 14 new members who are as follows: Beverly Buchanan, Shirley Zimmerman, Janice Gustin, Carolyn Hill, Pat Keeler, Jackie Pomeroy, Judy Lockhart, Kay Zarn, Nancy Travis, Cheri Ritter, Betty Simmons, Jean Rowe, Nancy West, and Marilee Watson.

Recognition will be February 28 at 7:30 in room 21, when mothers and council members will be guests. The program will be given by the old members and refreshments will be served.

PHS Students-Faculty X-Rayed

The fight against T.B. buzzed through Plymouth last week as a mobile unit for taking chest X-Rays stopped at different places throughout the week to offer its free services.

On Monday and Tuesday the unit was at the back door of the high school to take X-Rays of the students and faculty alike. On Wednesday, February 27, the X-Ray trailer was located and giving its services at Berry & Atchinson Pontiac Sales. During Thursday, February 28, the machine on wheels was at South Food Lockers and on February 29 it was at the Standard Oil Gas Station on the corner of South Main and Ann Arbor trail.

It is estimated that about 665 of the students were X-Rayed over the two day period that the Mobile Unit was at the high school.

Early discovery of T.B. is important so that cases may be given early help in making an easier recovery. The X-Ray is absolutely painless.

Band Participates in Many Activities

In store for the PHS band within the next several weeks is an honor assembly in March at which the band will play.

Coming sometime in the spring will be the spring concert "Parade of Bands" in which the elementary band, the junior high band and the senior high band with Burt Zander, student director will participate. Soloists will be: Lynn Osen, cornet and Burt Zander, saxophone.

Included in the past activities was the clarinet quartet, consisting of Frida Killingsworth, Eric Eklund, Arlene French, and Wayne Smith, which played for the Wayne county parent-teachers meeting on Monday, February 25.

Mr. Lawrence Livingston, Plymouth band director, states there is hope that the new band room will be in use around March 1.

PHS Students to Attend Mock U.N. Assembly

Plymouth High school students will represent New Zealand in the United Nations Mock Assembly sponsored by the Rotary at Hillsdale College, April 24 and 25.

All high schools within a one hundred mile radius of Hillsdale received an invitation to attend the assembly with schools first accepting the invitation being entered. The largest number ever attending is the 60 schools to be in it this year.

Plymouth has taken part in these mock assemblies for the three years they have been sponsored by the Rotary.

Inexpensive, waterproof water cement paints, properly applied and cured, will help to keep the interior of your basement walls dry.

OLYMPIC FIGURE SKATERS LINE UP... The 1952 U.S. Olympic figure skating team lines up in Rockefeller Plaza rink in New York City.

Livonia - Redford Cab Co. Interested in Expanding

Two parties interested in supplying transportation for the residents of Livonia appeared before the Livonia Council recently, one to ask for an extension of present routes and the other to bring in cab service.

Robert Richart, Livonia-Redford Cab company, stated his company was in a position to offer much more extensive service for the city. This even included bus service along Plymouth road for the major plants. Just how great the demand will be in the future no one would predict. But the Council asked Richart to return in several weeks with his plan in writing.

Allen Hooper, a taxi cab driver, asked for permission to operate taxis in Livonia. No action was taken on Hooper's request at this time.

A committee to again look into the matter was appointed. It will consist of three council members, William Taylor, Raymond Grimm and W. W. Edgar, Mayor Ziegler, City Engineer Herald Hamill, D. P. W. Commissioner Lester French and Hal Hultquist, D.P.W. superintendent.

WANTS PROTECTION
A recent asked for some form of protection should his concern in Livonia more completely. It was pointed out, "a franchise must come from the people at a special election."

The Council approved \$500 each for the office of Justice of the Peace and Director of Civil Defense for office equipment in the new court building on Seven Mile road.

QUESTIONS COUNCIL
Robert L. Green, representative from Greenbrier Subdivision asked the membership to "do something about the drainage in Greenbrier." An association letter asked the city to purchase a piece of ditching equipment. It also stated the presently owned DPW equipment was inadequate to take care of the community.

Green, when he addressed the Council wondered if the buying of heavy equipment was "a tabu subject" and why it "dodged that

The Greenbrier spokesman asked about garbage collections. Councilman Grimm stated, "We want to move slowly, the money is not there for that service."

A supplementary statement was made by President Wolfe, "Once undertaken, the load is ours. The city is not certain about its income and until it gets on its feet, we do not feel we should take on such a project."

HOLDS UP BID
It was recommended by City Engineer Hamill the low bid for water contract be awarded to

George Tripp for \$296,118.49. Action was tabled for a week, however, until a bond sale technically is straightened out.

In reply to a letter from the Business and Professional Men's Association asking consideration for a heating code, the council authorized City Attorney Brashcar to notify the organization, "A heating code is now in the process of being drawn up along

with a new plumbing and electrical code." Actually it consists of two, a working code and licensing code.

Health Guild to Hear Mrs. Fowler

"Out of the Darkness into the Light" will be the subject discussed by Mrs. Bessie Fowler at the meeting of the Livonia Health Guild. The guild will meet March 13 at St. Paul's Presbyterian church at 12:30 p.m.

Mrs. Fowler lost her eyesight in 1934. Since that time she has devoted her efforts to teaching the sighted persons that the blind can do almost anything if they are given the opportunity. For her civic activities Mrs. Fowler has received the Decoration of Chivalry from Grand Rapids.

Reservations for the luncheon may be made by calling Mrs. Joseph Blaharski, 1626-W1 before March 11.

Woman's Club Meets Tomorrow

Mrs. Neil E. Warren of Pleasant Ridge will address the members of the Plymouth Woman's club tomorrow, Friday, at 1 p.m. in St. John's Episcopal church. Mrs. Warren will speak on the United Nations.

She is a member of the Michigan Council of the United Nations Economic, Social and Cultural organization.

Guests are invited to this meeting.

CHRIST PAINTING . . . This closeup of Jesus with three disciples is one of 75 water colors on the life of Christ painted by Jacques Barosin, New York artist.

Closely woven material is better for slip covers because it gives greater protection against dust, holds its shape better, wears longer and tailors more easily. I find the great thing in this world is not so much where we stand, as in what direction we are moving. —Oliver Wendell Holmes.

These Events Were News

25 Years Ago

Building of new telephone toll cable to carry the circuits between Plymouth and Northville will be started at once by the district plant construction crews of the Michigan Bell Telephone company, according to an announcement made this week by R. E. Crowe, telephone manager for the Plymouth and Northville area. Delivery of the cable already has been made.

The Board of Education of School District No. 1 Fr. opened the bids for the construction of the new Starkweather school, to be erected in north village, last Monday afternoon at a meeting of the board at 1:00 o'clock. There were 32 bidders in all.

The Plymouth High school basketball team looks better this year than it has ever looked in the past. Last Friday night, they went out and added another to their list by defeating Dearborn 25 to 19. It was a hard fought

and close game from start to finish.

The General Machine & Iron Works, Inc. has moved its offices from what was formerly known as the Park house on Main street, to its plant in East Lawn subdivision. It is now nicely settled in their new quarters, which being at the plant, will greatly facilitate the work of the office.

Thirty relatives and friends from Chelsea, Salem, Northville, and Plymouth, gathered at the home of Mrs. Archie Herrick, last Wednesday, to honor her birthday anniversary. The potluck dinner was fine, and everyone enjoyed a pleasant time.

Born to Mr. and Mrs. Joe Campbell, 210 Main street, a daughter, Rose Mary, Sunday, February 23. Mr. Campbell is manager of the Donovan Accessories Store.

The work of the remodeling the Penniman Allen auditorium was commenced Monday. The work will be rushed to an early completion.

Quite a good many from Plymouth attended the Eastern Star dancing party at Northville, last Friday evening.

Miss Ruth Hamilton was hostess to 14 of her girl friends at her home on Hamilton street last Friday evening at a dinner party.

10 Years Ago

Air raid wardens were appointed this week by Floyd Eckles, chief air raid warden, for the entire city and the immediate subdivisions outside the city limits. The group held its first organization meeting Wednesday night in preparation for training classes for all volunteer wardens.

Plymouth's second home robbery within a month occurred Monday evening when the home of Mr. and Mrs. Ered Ballen on Burroughs street was broken into and robbed. Police believe there is a link between this week's case and the robbery of the Edwin Schrader residence a month ago. The burglars gained entrance to the Ballen home in the same manner and stole the same type of valuable goods.

Mrs. Martyna Yeas, a refugee from the Baltic states and Germany, will be the guest speaker at a membership tea of the League of Women Voters in the Presbyterian church parlors next Friday afternoon. The membership tea replaces the club's annual spring luncheon this year, due to the national emergency.

William P. Lovett, executive secretary of the Detroit Citizens League Tuesday night told members of the Plymouth Kiwanis club, city and school board officials and Rotarian guests of Kiwanis, that the time had arrived for citizens to take steps to eliminate as far as possible graft, inefficiency and waste of tax dollars in the conduct of the country's business.

Dave Nichol, son of Rev. and Mrs. Walter Nichol of this city,

who is employed as a special war correspondent of the Chicago News, has just been assigned to the Washington staff of The News.

Ralph Honsinger left Wednesday of last week, for Miami, and other southern points for a few weeks' vacation.

Mr. and Mrs. Norman Marquis entertained 14 guests at dinner Sunday evening.

A silver tea will be given by Mrs. Robert Willoughby from 3 to 5 o'clock on Wednesday afternoon, in her home on Ball street, for all members of the Plymouth Woman's club. The proceeds will be used in sending a girl to Girl's State at Jordan hall in Ann Arbor for a week.

Medical squads have been organized for emergency medical service in civilian defense by Dr. Luther Peck, chairman of the council's committee for medical service. These field units for emergency care of civilians in the city and township in the event of an air raid attacks consist of three squads with a physician appointed to command each squad in assigned districts.

Story hour will be resumed for the spring season at the Plymouth branch library Saturday morning. The group is open to all children from pre-school age through the fifth grade of school.

Clothes Hamper Constructed Of Lumber and Hardboard

IN MOST homes, a clothes hamper is a "must," while in some, two are needed. A clothes hamper is one of the easiest projects imaginable for the home workshop. The only materials needed are 1 by 2-inch lumber and one-eighth-inch Masonite tempered hardboard. Ordinary carpentry tools will do the job. The hamper pictured is 30 inches high, 13 1/2 inches deep and 19 1/4 inches wide.

Construction of the framework is the first operation. The hardboard then is attached with nails, or screws may be

applied through drilled holes. Hand grips may be cut-out with a coping saw and the edges of the openings beveled lightly with a file. The hinged lid is formed of 1 by 2-inch lumber covered with a piece of hardboard. Attach a wooden or plastic handle.

To finish this attractive hamper, apply a good quality primer and follow with one or two finish coats. A dealomania on the front will look nice.

For working drawings to follow in making the hamper, write to Home Service Bureau, Suite 2039, 111 West Washington Street, Chicago 2, Ill., and request free plan AE-173.

Michigan Ranks High in Nation In Production of Salt, Gypsum

Because of Plymouth and The Daisy air rifle, Michigan leads the nation in the production of air guns. But that is not all. According to reports just issued by the state, Michigan also leads all states in the Union in the production of salt and gypsum.

It stands in second place in the production of iron ore and ranks second in the nation also in the production of sand and gravel. It jumped from fourth to third place last year in the production of stone.

These additional facts became known a few days ago when the partially incomplete mineral report was issued by the geological division of the state conservation department.

The state's mineral production increased in most categories. Known exceptions at this time are petroleum, dropping from over 16,517,000 barrels in 1949 to about 15,826,000 barrels in 1950 and natural gas, declining from 14,660,000 M cubic feet to 12,514,000 M cubic feet.

Iron ore production climbed from 10,737,000 long tons in 1949 to 12,926,000 long tons in 1950. Portland cement was up slightly from 12,748,000 to 12,854,000 barrels. Salt increased from 4,064,000 short tons to 4,446,000 short tons.

Sand and gravel production was 24,557,000 short tons, about 4,000,000 short tons better, and stone was up to 19,096,000 short tons. 16,546,000 short tons previously. Copper was 51,788,000

pounds as compared to 38,498,000 pounds before. Gypsum take, preliminary estimate, was 1,474,000 short tons as compared to 1,265,000 short tons before.

Better reporting on marl for 1950 showed production of 218,429 short tons as compared to only 1,500 short tons actually reported to the survey division in 1949. Marl is used in agricultural liming.

Other mineral products produced in quantity were bromine and bromine compounds, raw clay and natural gasoline.

Vegetable Growers of This Area Invited to Hear Soil Discussion

Wayne county vegetable growers will have an opportunity next Tuesday, March 11, to hear S. H. Wittwer, one of the country's outstanding research workers in the field of vegetable production. Dr. Wittwer is scheduled as the speaker in the last meeting of a ten-meeting series on vegetable soil management.

During the ten-meeting series, all phases of soil management for maximum vegetable production have been discussed. Wittwer will describe how the various steps in soil management actually affect the plant and the corresponding crop yield.

The educational series has been sponsored by the Wayne County Vegetable Growers Association and Wayne County Cooperative Extension Service. During the series, authorities on various phases of soil development and management from the departments of Soil Science, Geology, and Horticulture at Michigan State College have taken part. Indicative of the interest in the series is shown by the steady increase in attendance from a handful at the first meeting to a full house of 85 at the meeting several weeks ago.

John Potts, assistant Wayne county agricultural agent, who has worked closely with the series, urges all Wayne County vegetable growers and gardeners to attend this last meeting of the series at 8 p.m., Tuesday, March 11 in the Conference room 3930 Newberry Street, Wayne.

Don't Know How to Cook Fish, Then Go to Sports Show

When hundreds of residents of Plymouth and vicinity visit the annual Detroit Congress Sportsmen's show and The Detroit News Travel show at the state fair ground just off Woodward avenue which opens Saturday afternoon, March 15 for a nine day run, they will have the opportunity of greeting Jim Thorpe, famous Indian all-American athlete and outdoorsman.

Not only that but according to announcements recently made, this year's show will provide a constant round of sports and travel exhibits, demonstrations, tank shows and colorful films on travel and sports plus demonstrations of game and fish cookery on the stage of International Theater.

Jim Thorpe, once Olympics champion, will be one of the feature attractions throughout the show, March 15 through 23. Thorpe won the decathlon and pentathlon at Stockholm in 1912 and was acclaimed the greatest athlete in the world by Sweden's King Gustav V.

The famous Tank Shows in the Coliseum, comprising ten outstanding acts, will be presented twice daily, Saturdays and Sundays at 2:30 and 8:30. Monday through Friday 3:30 and 8:30.

Jane Palmer, vocalist on the Jim DeLand Show over WWJ-TV, and strolling musicians, Bob Turner, guitar, and Don Van De Ven, accordion, will entertain daily in the Agricultural Building where visitors may plan their vacations with the aid of travel exhibits and their agents, and from there visit International Theater, on the balcony, where they may enjoy beautiful color films on all parts of the world.

At 7:30 p.m. Tuesday, on the stage of the theater, American Youth Hostels will exhibit bikes and equipment used on their local, national and international trips. Wednesday at 7:30 Jean McBride, WWJ-TV home economist, will cook various species of wild game, and Thursday, at the same time, Joseph Smith, well known Detroit chef, will demonstrate fish cookery.

Steps to Perfect Pie-Making

Good fruit pie boasting a flaky crust—that's what every home-maker dreams of making. It's the dessert that has appeal any time of the year, too.

To prepare the finest of pies, the first point to remember is that a pie crust is more easily made and better if all ingredients are cool. These ingredients include 1 teaspoon salt, 2 3/4 cup lard, 2 cups flour, and cold water.

The steps to follow in pie-making are: (1) Sift the flour and salt. (2) Cut the lard into the dry mixture until the crumbs are coarse and granular. You may do this with either a fork or a regular pastry blender. (3) Add cold water a little at a time. This should be from 3 to 6 table spoons. Mix the water quickly through the lard-flour mixture until the dough just

holds in a ball. (4) Divide the dough in half and roll one half to about 1/8 inch in thickness. (5) Line the pie pan, allowing 1/2 inch of the crust to extend over the edge. (6) Add the fruit filling, then roll the dough for the upper crust, making a design with a fork to allow the steam to escape during baking. (7) Overlap the top crust over the lower, then fold the top crust under the lower and crimp the edges. Bake according to the directions in your recipe.

Seaway Advocate Is Relative of Local Resident

Harry M. Robins, well-known Detroit exporter, who recently wrote a letter to Senator Tom Connally of Texas, strong opponent of the St. Lawrence seaway project, that has been widely quoted, is a cousin of Edward J. Joliffe of this city.

Mr. Robins has frequently visited this city. So important was Mr. Robins' letter that The Detroit News made considerable

favorable editorial comment about it.

The letter in part follows: "For over 25 years," wrote Mr. Robins, "I have made a business of selling American goods abroad. In this business there are many complicated problems, one of which is the job of getting goods I sell from the manufacturer to the overseas customer safely,

quickly and at reasonable cost. "Assume, for example, a small shipment with a value of, say \$500, originating in the Detroit area. It must be packed specially at extra expense for shipment by sea. It must be sent by freight to some port of exit, which, in 99 cases out of 100, would be New York.

"It arrives in New York by rail, is turned over to a trucker who takes it to a warehouse. There is a charge for trucking to a warehouse, for storage while in the warehouse, for redelivery to another truck and transportation to the ship. Responsibility for this service is undertaken by one of the forwarding companies.

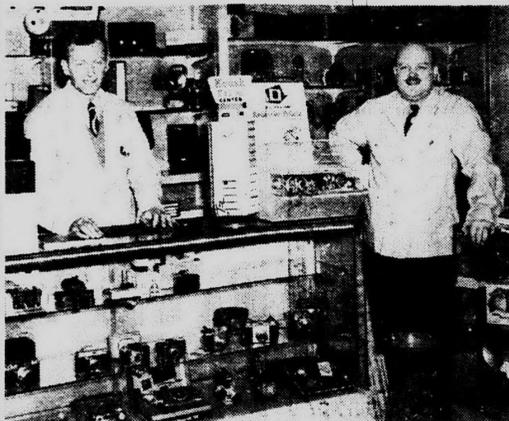

"The forwarder, in addition to his general service charge of \$12.50 to \$15, adds a charge for contact with the foreign consul, another charge for contact with the customs office, another for the certificate from the Chamber of Commerce, another for contact with the bank, another for air-mail and other postage and another for port dues. Taking it all together the cost of getting the \$500 shipment from the railway car in New York to ship will run about \$25.

"For the same service 20 years ago we paid \$2.50 to \$3.50. This increase is not due solely to inflation or generally rising costs. It doesn't rise through overcharges of the forwarders for their services.

"It is mostly due to conditions in the port of New York where, because the port has practically a monopoly on exports from the Middle West, abuses have grown up which levy an exorbitant charge on all Middle West shipments."

★

If one lives rightly, every effort to hurt one will only help that one; for God will give the ability to overcome whatever tends to impede progress. —Mary Baker Eddy

THE NEW PHOTOGRAPHIC CENTER won much acclaim by local residents last weekend on the event of the opening of their new store in the Hotel Mayflower building. Pictured above on the left is Howard Marriott and proprietor Lester Wilson, right, who brought a complete line of cameras and camera equipment to the store for local camera fans. The larger quarters enables the store to carry everything there is in the photographic line for residents of this area.

4-H Clubs Renew Two Objectives

Busy days are ahead for the members of 4-H clubs not only in this part of Wayne county but in every county in the state. With spring just "around the corner" high officials of this organization have announced there will be renewed activities in two 4-H programs.

They are the Garden and Home Improvement awards programs, designed for both boys and girls.

In 1951, more than 350,000 club members raised 120,000 acres of garden vegetables and small fruits, according to State Club leaders, thereby providing essential and nutritious foods for use throughout the year, and increasing individual and family incomes by reducing the amount of food purchased. About 200,000 members taking part in the 4-H Home Improvement program performed 550,000 tasks, such as making uppers and curtains, upholstering and refinishing furniture, and painting or papering rooms to make their homes more comfortable and attractive.

Incentives for outstanding records of achievement in both programs remain the same as last year. Every club member taking part in either program has the opportunity to win one of four county medals of honor. Also a "life" award of an all-expense trip to the National 4-H Club Congress in Chicago next November, and a chance to become a candidate for one of the eight national awards—\$300 college scholarship, Allis-Chalmers provides the Garden program awards, and the Sears-Roebuck Foundation those for Home Improvement.

Last year, 270 4-H'ers in 73 of this State's counties received medals for their Garden records, and 122 members in 47 counties won similar recognition for home improvement achievements.

All 4-H programs are supervised by the Cooperative Extension Service.

Electric brooders are simple inexpensive and safe, and they are effective in saving more pigs from the litter.

Winter is machinery check-up time. Don't wait to repair machines until the rush of spring season.

It's funny how some people denounce financial aid to the British and, at the same time, denounce our failure to give more dollars to Chiang Kai-shek.

Glenn Smith to do Some Reseaching About Ways to Smoke Fish

No, that studious looking, short, stubby individual you may see some day walking from the Plymouth library with a big stack of books under his arm, will not be a professor of verbal expression or some dean of a college department devoted to the study of the paleozoic era of this old world. That individual will be none other than Glenn Smith, well known retired Plymouth pop corn dealer and originator of the hot dog era of the present century.

And why all the books? Always an intense student of anything that seems a bit different, "Prof." Smith, (if he might be termed that during the present period of his studious days), believes that he can devote a good share of his time during the forthcoming summer to the long lost art of properly smoking fish.

Not that there are plenty of smoke fish on the market at the present time—but "Prof." Smith has come to the conclusion that those who are smoking fish these days have never made a real study of the "art" and therefore as a result they have overlooked many of the fine points of smoking fish as it was developed during the period when the inhabitants of this old world devoted more time to the catching and preparation of their food than to what they drank.

He has asked or will ask the library to provide him with all the information that can be found pertaining to proper ways to smoke fish that have just been caught in Pettibone lake. Not only does he plan to know all about the best ways to do the smoking, but he wants additional information as to just how a smoke house should be constructed. So don't be surprised when you see him with that pile of books and drawing plans as he leaves the library.

It is one thing to support universal military training and another matter to prevent the development of a militaristic spirit in a democracy.

New Motels Going Up on Plymouth Road East of City

Anticipating that there will be increasingly thousands of people each year who will desire to visit the vast new industrial expansion taking place along Plymouth road

between this city and Detroit, several well-financed Detroit concerns and business men have started the erection of a number of motels along Plymouth road.

One is nearing completion on the south side of Plymouth road directly across from the new transmission plant of General Motors.

Another motel that looks as though plans provide for some 40 or more units is being started and may be completed within another five or six weeks. Reports say that another, possibly two more, will be started within the next few weeks.

The motel directly across from the General Motors plant has been named "Plymouth Motel." Residents of this city will be interested in knowing that Arthur Frost, former manager of the

Mayflower hotel, has been selected as the manager of this new motel, which has every appearance of being strictly up-to-date in every way. It has 12 units and doubtless will be ready for use in the immediate future, probably as soon as parking facilities can be provided.

While no definite information can be secured at this time, it is also reported that there are prospects for another new motel being erected on Plymouth road near the Telegraph intersection.

Edison Co. Builds Big Sub-Station Near This City

One of the biggest sub-stations in the entire metropolitan area is being erected at the corner of Eckles and Schoolcraft roads by the Detroit Edison company to provide increased power demands for this area.

Not only is it being built chiefly to provide power for the new Ford tank plant and the recently completed additions to the General Motors plant on Plymouth road east of Middlebelt, but all of the other big industrial plants in that vicinity will have power available from this new sub-station.

The new sub-station, which at the present time looks more like the canvas enclosed skeleton of the frame work of a four or five story building, also gives the city of Plymouth additional power reserve to use in case of emergency.

It is stated that sometime during the present summer the Detroit Edison also plans to erect another sub-station about half the size of the present new one in the Newburg area, which will provide that section a constant flow of power at all times.

The erection of these two vast power sub-stations ahead of the completion of several of the industries it will serve in keeping with the usual Edison policy of always being ready to serve industries and residents in a locality even before the demand for power has been made.

Roger Babson Says---

Babson Discusses Recent Stock Market Braks

Babson Park, Florida, March 6. The 1951 dollar is worth only 38 cents when compared with the 1913 dollar of 100 cents. World War I inflation brought the 1913 dollar down to 50 cents in 1920. Post-World War I deflation took it back to 59 cents, while the depression of the thirties raised the value to 79 cents in 1933. Today's dollar is worth only 33 cents when compared with the 1939 dollar. What caused these changes is beginning to bother Wall Street.

The Cheapening Dollar

The present downward cycle of the dollar started in 1933 when President Roosevelt depreciated the dollar by lowering its gold content, in order to try to drive prices up in the depression. The Gold Reserve Act of 1934 cheapened the dollar by 41 percent. At that time the dollar was worth approximately 75 cents when compared with the 100 cent dollar of 1913. World War II accelerated inflation through high wages, strong demand for goods and services, and the shortage of such goods and services. Furthermore, the post-World War II era, characterized by its shortages of goods and buying scares, continued the spiral.

Two major contributing factors undermining the post-war dollar are labor unions and price sup-

port. Through contained pressure labor leaders have been making wage demands in excess of an increase in the work output per man-hour. Price supports have been such that in 1950, when we were in the midst of a boom, only six out of seventeen support crops were selling above parity. These supports are undermining the dollar because they strike at food prices. Wall Street is realizing that this kind of prosperity is one of "make-believe."

Wall Street Getting Scared

A little inflation may seem like a good idea to some of our economic planners. It is more of an opiate than good economic sense. Cheap money at first deceives people into thinking they are better off than they really are. The more of it they use, the harder it is to stop; and once you try to stop, the after effects are disastrous. Recognition of this is a primary cause of the recent break in stock prices. Although Wall Street wanted inflation two years ago, it now is frightened of it.

The various kinds of security that have been hardest hit are old age pension plans (both private and government), schools and colleges, hospitals, churches and the like. Investors at last have come to believe that inflation creates more tragedies than deflation. This is evidenced by the increased demands made each year by the various Community Funds.

Cheap Dollars and Totalitarianism

Communists resort to the cheap money-inflation philosophy. They find it effective dope. The great Englishman, Lord Maynard Keynes, wrote shortly after World War I, "Lenin said that the best way to destroy the capitalistic system is to debase the currency. By a continuing process of inflation, governments can confiscate, secretly and unobserved, an important part of the wealth of their citizens."

"This attack against savings

strikes not only at security but at confidence in the equity of all existing corporations. Those to whom the system brings windfalls— become profiteers; who are the object of hatred by the masses whom the inflationism has impoverished. As the inflation proceeds, the real value of the currency fluctuates wildly from month to month—and all permanent relations between debtors and creditors become utterly disordered so that legitimate business degenerates into a scandal and a lottery."

Fake Prosperity

Present dollar business profits, plus fictitious inventory gains, plus inadequate depreciation charges, plus the huge dollar salaries and consequent illusion of prosperity have already drugged too many investors into thinking they are really prosperous. Wall Street is beginning to shudder when it thinks of the ultimate outcome!

How Most Forest Fires Started

Debris burners tied smokers for the dishonor of starting the most forest fires last year, the conservation department's forest fire service discloses.

Department recently reported a record low 4,495 acres damaged by 669 fires in 1951.

Over 200 of the fires were in the Gladwin and Baldwin districts, but most acres were blackened in the more southern Plainwell and Inlay City districts. Completed summary also shows 246 debris burners and a like number of careless smokers were responsible for nearly 75 percent of the fires which did get started. Smokers alone headed the dishonor roll in the past years. Other causes were miscellaneous, 55; railroads, 32; unknown, 29; incendiary, 24; camp fires, 21; lightning, nine; and lumbering, seven.

With about 1,000 less acres burned in 1951 than in 1950, timber damage dropped, from \$40,691 to \$23,856. Actual suppression costs increased some, from \$24,200 to \$27,167.

Fire hazard period started in mid-March and continued through early November, with department fire fighters putting out 384 fires in the under 10-acre size class and 78 from 10- to 100-acre size. Seven were over 100-acre size but there were no deaths due to forest fires for the fourth consecutive year.

Salem Schools May Consolidate

Committees were appointed at the meeting of Salem township district school boards by Chairman John Hoban to study the feasibility of a combined township school system.

Six boards reported holding meetings with school electors. Five of them favored a study of township schools and one district, Wash-Oak, turned the proposal down.

Four other districts did not hold discussion meetings, and Thayer school, a fractional district, reported it will vote on consolidation with Northville, with the reservation that the portion of the district in Salem township could stay in any proposed Salem township school setup.

Two one-man committees appointed include William I. Scheel, on school population statistics; and Russell Knight on building costs.

The Worden school board, composed of DeForrest Thompson, Edwin M. Hamilton and Frank Geiger, was appointed to canvass opinion on the question of building either a high school or grade school or both.

Salem Union school board, with Joseph Cutter, Robert Wilson, Arthur Dahl, Garnet Hawes and Glenn C. Burnham, was named to

explore possible building sites. South Salem Stone school board, with Paul C. Scholbe, Mrs. M. DiPonio, and Arthur Clinansmith, was chosen to study school operating costs.

The above named committees are study committees only, Mr. Hoban pointed out. He asked reports at the next meeting, which is set for March 10 at 8 o'clock at the Salem town hall. —South Lyon Herald.

Hints for Plymouth Homemakers

Navy Beans Plentiful This Year Are Ideal Baked or in Soups

Navy beans, sometimes referred to as pea beans are plentiful this year and can be used baked, in soups, and a variety of other ways. Freezing the base for bean soup is a good idea. It saves time and money.

Baked Beans
To a quart of the beans, which have been cooked tender in water with a 4-ounce piece of salt pork, add 4 tablespoons of molasses or brown sugar and salt. Place the beans in a shallow pan with enough of the bean liquid to moisten them well. Slice the salt pork over the top and brown in the oven.

Hearty Bean Soup
Soak one cup of dried beans overnight in a quart of water. In the morning add another quart of water, 1/4 pound of salt pork, an onion, and a few stalks of celery. Simmer the mixture until the beans are tender. Remove the salt pork and run the rest through a strainer if a smooth soup is wanted. Cut the salt pork into small pieces and return it to the soup. Add a tablespoon of flour mixed with a little water to keep the bean pulp from settling to the bottom. Stir, reheat and season with salt and pepper. "Dress up" the soup by serving a slice of lemon and crisp bits of salt pork or bacon over the top.

Base For Bean Soup ... for the Freezer

Boon to the busy cook and the budget is a smooth, concentrated base for bean soup stored in the home freezer. Many home-makers have time at this season to take advantage of these thrifty buys and make a puree of beans for the freezer. Because it is concentrated it is economical of freezer space. All it needs is thawing, thinning with liquid, and seasoning for serving.

About 2 cups of dry lima beans will make 4 cups of puree—enough for 8 half-cup servings of sturdy soup. The size of the freezer-container should suit the size of the family to be served because once the puree is thawed it should be used soon and not be refrozen. Sort and wash 2 cups of beans. Boil them 2 minutes in 5 cups of water. Remove from heat and let stand for an hour.

Add 2 teaspoons salt, cover the pan and boil beans gently in the same water until tender—about one hour for lima beans; 1 1/2 to 2 hours for other kinds. Put through a food mill, or colander, or press to remove skins, using all the cooking liquid. For freezing, cool quickly by setting the bowl of puree in a sauceman of ice water. Pack in rigid moisture-vapor-resistant freezer containers—glass, metal or plastic. Leave 1/2 inch of head-space for pint containers with wide top openings.

When ready to make up into soup, remove the puree from the container, thaw in a sauceman over low heat, constantly stirring, or thaw in double boiler. Season as desired. A Cream of Bean Soup may be made by adding milk and a little fat and flour. Or add meat stock as the liquid instead of milk. Chopped onion, is a good addition for flavor.

Q. What is this method of meat cookery?

A. Panbroiling.

Q. How should meat be panbroiled?

A. Thinner cuts of meat which also may be broiled, including: Beef—rib, club, sirloin, porterhouse steak; ground meat patties. Lamb—lamb shoulder, rib, loin chops; ground lamb patties. Smoked pork—ham slice, bacon, Canadian-style bacon.

Let Fritters Brighten a Plain Meal

Dress up a plain meal with crispy fritters. Make them with meat for a main dish, with vegetables or fruits to accompany the meat course.

Leftover meat such as a roast or pot-roast, or fresh meat cubed or sliced or ready-to-serve meat may be used for fritters. Just add the meat to fritter batter and deep fat fry. Vegetable fritters, ideal for serving with a roast or many other meat dishes, may be prepared with carrots, sweet potatoes or whole kernel corn. Main dish or dessert fruit fritters include pineapple, apple and banana.

The important point to remember in deep frying fritters is that you keep the fat at a 360 F. temperature. Cooked at this degree, you know the fritters will be done inside by the time the outside surface is crisp.

Mankind never loses any good thing, physical, intellectual, or moral, till it finds a better and then the loss is a gain. No steps backward is the rule of human history. —Theodore Parker

Ground Meat Patties Can be Prepared With Unusual Flavor Blends

Meat patties—they draw youngsters to the table in a hurry. For a new blend of flavors, why not introduce different ingredients into your ground meat mixture. Here are some suggestions.

For instance, you might add grated raw apple to ground beef. Season this mixture with a little Worcestershire sauce or nutmeg in addition to the usual salt and pepper.

Other additions to beef, veal, pork or smoked pork patty mixtures (and this stands for meatloaves too) may be grated raw potato, carrot, cracker or bread crumbs, rolled oats or rice.

Seasonings are important when adding these additional ingredients to your ground meat mixture. For each pound of meat use approximately 1 teaspoon of salt, 1/4 teaspoon of pepper and two or three tablespoons of grated onion. Use enough liquid to moisten in the form of milk, canned or cooked tomatoes, catchup or soup stock. Use an egg to bind the ingredients.

Better see Beglinger for better deal. New and used cars.

Recipe of The Week Steamed Sweet Potato Pudding

- 1 1/2 cups dry crumbs (bread or zwieback)
- 1 tablespoon shortening
- 1/4 teaspoon salt
- 1/2 teaspoon soda
- 1/4 teaspoon pumpkin pie sauce
- 1 cup mashed sweet potatoes
- 1/4 cup molasses
- 1 egg slightly beaten
- 1/2 cup raisins
- 1/2 cup chopped nuts

1. Combine crumbs, shortening, salt, soda and spice. Mix thoroughly.

2. Combine sweet potatoes, molasses and egg. Add to crumb mixture. Lastly, fold in raisins and nuts.

3. Spoon mixture into greased and lightly floured individual molds or a 1 1/2 quart mold. Cover well with aluminum foil or heavy waxed paper.

4. Steam individual molds 45 minutes to 1 hour; steam 1 1/2 quart mold 2 hours.

Serve hot with favorite hard sauce or Peach Sauce. Yield: 6-8 servings.

Multi-Lakes Facilities Available for Youth

Walter H. Raven has been elected chairman of the Junior Conservation club of the Multi-Lakes association. Youth groups, such as the Boy Scouts, are invited to use the Multi-Lakes facilities, Raven states.

The group has 69 acres, which includes a club house, rifle range, archery range and bait casting facilities. The premises may be used for over-nights and camp-outs. Raven may be contacted at Livonia 2614.

NEW POWER IN TUNE WITH THE TIMES—Inspired by aviation power, Lincoln's completely new 160-horsepower V-8 engine incorporates such features as silent, hydraulically operated, overhead valves; a five-bearing micro-balanced crankshaft, and exclusive "Hi-Swirl" combustion chambers. More power than you may ever need—pride of the world's most seasoned builders of V-8 engines. Teamed with HYDRA-MATIC Transmission, now standard equipment.

NEW—the one fine car deliberately designed for modern living

Lincoln for 1952

Don't miss the big television hit, "TOAST OF THE TOWN" with Ed Sullivan. Sunday Evening, 8:00 to 9:00 p.m. Station WJBK-TV, Channel 2.

In two incomparable series...

—the Cosmopolitan—the Capri

Standard equipment, accessories, and trim illustrated are subject to change without notice. White side-wall tires, when available, optional at extra cost.

OUR showroom is a magnificently new idea in motoring for the American Road. It is remarkably different; it has a daring spirit that has never been approached in motoring. It is Lincoln for 1952.

Here is a new kind of fine car—eminently functional, breath-takingly beautiful but honest and sensible in design, created to fit every motoring need of modern living.

Here is a new kind of design—clean, uncluttered from stem to stern. A sizable but maneuverable masterpiece.

And here is a new kind of power—superbly responsive and efficient power—from a completely new overhead valve, high-compression engine. It delivers 160 horsepower and is the pride of the men who have built more V-8s than all other makers combined.

The Lincoln Cosmopolitan and the Lincoln Capri await you in our showroom. We invite you to see their new lines, discover their supreme performance, experience this new and modern concept of the fine car.

Fair in the Light of Memory Shines

My MICHIGAN

BY • ELTON R. EATON

There are increasing signs and hopes that sometime within the next half dozen years or so residents of Plymouth and vicinity when making a tour of the northern part of Michigan will be able to cross the Straits of Mackinac on a bridge instead of on the ferry boats.

For years and years there has been talk of a bridge between Mackinac City and St. Ignace over the Straits, and right now it is beginning to look as though the talk is going to develop into action, possibly not this year or next, but probably within the next half dozen years or so.

There was a recent informal meeting of both houses of the Michigan state legislature a few days ago up in Lansing. At this meeting the Straits of Mackinac Bridge Authority made a formal report that gave much indication of progress in the completion of a plan that will bring additional millions of tourists to this state each year.

The meeting was presided by Speaker of the House Victor A. Knox. He presented Prentiss M. Brown, Chairman of the Bridge Authority, who in turn introduced the Authority's board of consulting engineers.

"The bridge is entirely practicable both physically and economically," said O. H. Ammann, New York, Chief Consultant for the N. Y. Port Authority and designer of some of the nation's largest long span bridges.

"We have gone into every phase of the problem and there is nothing at the Straits of Mackinac, including ice, wind, current and the combination of all three that we have not encountered before and for which we have not been able to design. The cost estimates are conservative and were the bridge to be built today or in the near future it would still be within the 76 million dollars we estimated a year ago," he said.

David B. Steinman, New York, internationally famous bridge designer especially known for the beauty of his bridges, pointed out that the bridge was economically feasible and would pay for itself out of revenue bonds based on tolls the same as those now charged on the ferries.

"The people of Michigan will build themselves and future generations a great and beautiful structure which will serve them for 'centuries.' As the second longest span in the world it will be a magnet for people all over the nation to come to Michigan, and you will be proud of what you have done," said Steinman.

The third member of the board of consultants, Glenn B. Woodruff, San Francisco designer of the Trans-Bay Bridge between Oakland and San Francisco, and expert in bridge foundations, discussed the geology of the Straits and emphasized the fact that there was no question about the floor of the Straits being able to hold the bridge piers and foundations.

"We would be going into bed rock at about 190 feet at the Straits," said Woodruff, "but this is not unusual. The piers I designed for the Trans-Bay Bridge go down to 240 feet and rest on gravel. Last December winds of more than 100 miles per hour were registered in the area and the bridge was not the least bit disturbed. The highest wind recorded at the Straits is 73 miles per hour," said the expert.

weir there has failed to collar any large number of walleyes. The fish seemed to sense the trap and steered around the partial stream obstruction.

"Although the two-year test with the weir has been unsuccessful," Fred Westerman, department fish division chief, says "we will continue to look for a more economical and simple method of getting the walleyes into upper Michigan fishing centers. Among other devices we plan to investigate the possibility of utilizing an electronic screen similar to the one now being tested in sea lamprey control work."

Consumers Power company, which owns and operates a series of dams on the river, will share the putting labor costs with the department. When the spawning run starts usually in early April, walleyes will be netted for about 15 days. The department hopes to get as many as 10,000, although that many has not been caught since 1943. Walleye numbers are not believed to be as large in recent years.

Netting success permitting, walleyes will be released at the following upstream locations below the Newaygo, Croton, Hardy, Rogers and Big Rapids dams and in the "Newaygo chain" lakes.

"Absolutely not," said Brown. The first bill has already been introduced, and the second one is being prepared. Since both bills involve appropriations they can be introduced at any time. Senator William A. Ellsworth, (R) St. Ignace is sponsor of both measures.

Plymouth fishermen will be interested in knowing that the Conservation department goal is to transfer as many as 10,000 walleyes to upper Muskegon river impoundments when spawning runs start up from Lake Michigan in about early April.

Dipnets will be used below the Newaygo dam as in previous years because the experimental

Three from This City U of M Grads

Fourteen schools and colleges of the University of Michigan have granted degrees to 1,138 students at the close of the fall semester February 9.

The new graduates bring the total of degrees conferred since the University's founding to 135,976. At the close of the fall semester in February of last year 1,457 degrees were conferred.

Degrees granted this term were by the Colleges of Architecture and Design, Engineering, Pharmacy, and Literature, Science and the Arts, and by the Schools of Business Administration, Dentistry, Education, Music, Natural Resources, Public Health, Social Work, and the Law School, the Medical School, and the Horace H. Rackham School of Graduate Studies.

Graduates from Plymouth are: Charles Douglas Huebler, 3945 Berry, Bachelor of Design; Gerald Thomas Joyce, 197 S. Union, Bachelor of Science in Engineering; Donald Craig MacGregor, 11329 Melrose, Bachelor of Science in Engineering.

Spring to Arrive Ahead of Time

While February skidded out of Plymouth on wet roads due to a steady but light snowfall over most of the last week-end residents of this part of the world can take some pleasure in knowing that spring is due for an official arrival earlier than last year regardless of what the weather man may dish up in the way of snow, rain or sunshine.

The official date and time will be 11:14 a.m. on Thursday, March 20, according to Hazel M. Losh, assistant professor of astronomy at the University of Michigan.

This is nearly three-fourths of a day earlier than in 1951 when Spring arrived at 5:26 a.m. on March 21. The earlier date is due to the insertion of the extra leap year day in February, Professor Losh explains.

"Days and nights will be equal on March 20 since the sun crosses the equator on that date and will rise and set at the exact east and west points," she declares. "After March 20, the sun will be moving north on the horizon and our hours of daylight will increase until late in June."

The effect of more daylight will be more noticeable in the evening rather than in the early morning. This is because our clocks are on Eastern Standard Time and are actually ahead of the daily motion of the sun across the sky. At twelve noon on our clocks, the sun hasn't actually reached the meridian. This gives us longer afternoons than would be true if our clocks were more in tune with the sun, Professor Losh says.

Along with Spring, March will feature three bright planets, as well as an early evening opportunity to check up on two stars, Arcturus and Spica.

Mercury will be in its most favorable position for observation by the middle of the month, she reports, but will still remain quite low in the western sky. It will reach its highest point on the evening of March 18, just after sunset, when it should be visible about 16 degrees above the true west point.

Almost directly opposite in the eastern sky, Saturn will be rising after sunset and will remain visible all night. A little to the north and left of Saturn, but rising almost at the same hour, is the bright orange star, Arcturus. Rising a little later than Saturn, but directly below it, will be the bright, white star, Spica. Midnight will bring with it the planet Mars, red in color, and brighter than any of the other objects in the March skies. Mars will rise a bit south of the east point.

Town Hall Series to Be Featured by Hedda Hopper Appearance

Detroit Town Hall will close its current season with Hedda Hopper, noted Hollywood columnist and radio commentator. The nationally known scribe will tell what goes on behind the scenes in filmdom at Fisher Theater, Wednesday morning, March 12, at 11 o'clock.

Hedda's column deals not only with people and personalities of the movies, but with public events and national affairs. The author's friendships throughout the world have enabled her to reveal the news, days before it happens.

Before starting her career as a journalist, Hedda was one of Hollywood's leading film stars. She started as a chorus girl in the legitimate theatre, and married De Wolf Hopper, reigning stage favorite of the day. Hedda has been named as one of the country's best dressed women, and her exotic hats have become a legend.

Advance reservations are at Grinnell's, Wo. 2-1124.

**Smoking Survey
Now in Progress**

"How old were you when you first started to smoke?" This question will provoke some head-scratching and memory-prodding among Plymouth male residents when volunteers of the American Cancer Society begin a unique health survey.

The smoking habits of men between the ages of 50 and 69 are being studied as part of a national survey aimed at finding whether smoking is a contributing factor in the development of lung cancer.

Many men here will be asked to fill out a four-page questionnaire. Both smokers and non-smokers will be interviewed. They will be asked whether they have ever smoked in their lifetime more than five to ten packs of cigarettes, 50 to 75 cigars or three to five packages of pipe tobacco. If the answer is "yes", they will be asked how much they smoke each day and the number of years they have smoked or when they stopped.

At the end of every one-year period the volunteer researchers will report whether or not the men are alive. A medical committee will check all deaths and send the causes to ACS statisticians in New York.

When accurate data is available on at least 100,000 cases, the statisticians will analyze the lung cancer deaths among smokers and non-smokers. In this manner they will be able to assess the relationship, if any, of smoking to lung cancer.

Because of the importance of the annual follow-up report, the volunteer researchers are interviewing only relatives, close friends and neighbors.

The study is confined to white men between 50 and 69 because the highest death rates from cancer of the lung occur in this group. Women are not included because lung cancer is far less common in women than in men.

GENE ROCZNIAK (left) and Florence Leads are shown working at two different models of a dictaphone in the commercial department at Madonna College. Gene is at the secretary model while Florence operates the executive model.

Secretarial Training at Madonna College Intricate and Advanced

Because it shelters the many intricate machines found in a business office, the Commercial Department of Madonna College has become a hallowed haven for those who are interested in secretarial science.

The future secretaries point with pride to the instruments which aid them in the accounting, office management and practice, and economics courses which are being offered this semester. It doesn't take long to learn that an office isn't completely equipped when it has only a typewriter.

A high-speed adding machine does addition, subtraction, multiplication, and division simply and accurately.

Adding and subtracting, book-keeping, payrolls, and inventories are done at time-saving rates on the newly-installed Sensimatic Accounting Machine. Journalizing, accounts payable, and accounts receivable become easy operations with this combination machine.

Ediphones, of the executive and

secretarial models, are also available in this department. The later models operate by a plastic media while the older one is equipped with wax cylinders and a shaver. Both instruments enable the secretary to type correspondence directly from the dictator's voice.

Features of the modern mimeograph machine include an electrically operated or hand-operated feeding arm, a speed regulator and a front paper gauge which guides the paper into the machine. The mimeograph may be so regulated that it can automatically produce as many as 90 duplications per minute.

Further equipment of the Commercial department includes several comptometers, an addressograph, a Vari-type and a mimeoscope.

Besides regular classes, the first semester included a tour of the Burroughs company. Accompanied by Sister Mary Chester, M. Ed., the commercial students

witnessed demonstrations of various machines and were also permitted to try them.

The Commercial Department of Madonna College offers a Bachelor of Science Degree with a major in secretarial science. Courses which are offered include typewriting, stenography I and II, office management and practices, accounting, principles of marketing and advertising, retail management, business law and methods in commercial education.

**Call out the Reserves
with a touch of your toe!**

Most cars lead a double life. A good part of the time, they're running errands, taking children to school, taking women to stores, taking men to work, taking family and friends to clubs and social functions. It doesn't call for a very great output of horsepower for duties like these. But there are times when you want a car that can do vastly more, and these are the times when you'll want what this year's ROADMASTER has to offer. Beneath its proud hood, there's a Fireball 8 Engine—a valve-in-head that can let loose 170 lively horsepower when needed. And—alongside this engine—there's also an Airpower carburetor which thriftily feeds fuel and air through two smaller-than-usual barrels for normal

driving—which means that you now use less gas at 40 than you'd formerly use at 30. But there are two barrels in reserve—waiting for you to call them into action—and they let loose a soaring rush of power that sinks your shoulders back into the seat cushion, swoops you past a truck—out of a tight spot—up a hill—sets your speedometer needle to registering added miles more than twice as fast as your watch can tick off the seconds. This is an experience you certainly should know firsthand. You should also know how Buick's Power Steering* provides a helping hand in slow-motion maneuvers—lets you keep the "feel" of the car in straightaway driving.

And just for good measure, this '52 ROADMASTER also has the biggest brakes of any postwar Buick—the greatest trunk space since spare tires moved off the front fenders—a warning light that glows when the parking brake is set—and to top it all, the smartest interior fabrics that Buick has ever offered. When are you coming in to look this distinguished performer over? We urge you to make it soon. Equipment, accessories, trim and models are subject to change without notice. *Optional at extra cost on ROADMASTER only.

"Crime Costs Michigan Residents Over \$11 A Year" Speaker Says

What every individual should know about crime and criminal statistics was brought to light by Rotary speaker Marvin G. Lane, who was a guest of the Livonia Club a few days ago. Many Plymouth Rotarians were present to hear the talk.

Lane, Deputy Chief of Detectives, City of Detroit, sounded his audience with some of the facts and figures he presented. According to the speaker, "Major crimes cost the United States al-

most two billion dollars a year. A major crime is committed every 13 seconds."

"In Detroit alone, there were 129 murders last year," said Lane. "There were in the neighborhood of 2,500 robberies, 9,213 burglaries and all told the police department answered 51,457 crime calls during the past 12 months."

Statewide, it costs more than \$77 million dollars a year, or \$11.65 per person for crime alone.

He pointed out that the narcotic menace has become of increasing importance. In the past six years the narcotics force has jumped from four men to 20 men. They are working with Federal and State men, the speaker stated.

"In order to combat any kind of crime, we must arouse the general public by means of radio, television and newspapers," he declared.

Another high point of his talk was concerned with "bogus

checks." We now have them by the baleful. "Why some of the businessmen and merchants cash them is more than we can figure out."

"Bogus check passers," he remarked, "come into a community and set up what looks like a legitimate business, such as a tool shop. They establish a certain amount of goodwill and confidence before flooding the area with bad checks."

Then overnight, they swamp

the district with bad checks, generally a weekend, and then move on. Sometimes hundreds are involved in this enterprise.

Lane was of the opinion that the hearings now being conducted with the communist menace in Detroit were a good thing. "It will help wake up the people and make them aware of what is going on here."

The speaker emphasized his point with, "The communist strength in the United States, one

in every 1,800, is stronger than the one in 2,000 that took over Russia during the revolution."

His list of causes of crimes included, population trends, composition of population (race, color and creed), economic status of the area, climate, and religious, educational and recreational facilities all have an important bearing on the problem.

Besides these five points, "the policies of the courts, qualifications of law enforcement agencies and attitude of the public determine the amount of crime in a given community or state."

Match This Burner - IF You Can!

YOU CAN NOW HAVE BETTER HEATING FOR LESS MONEY

WITH THIS SENSATIONAL TESTED - AND - PROVED OIL BURNER

the WINKLER LP* LOW PRESSURE OIL BURNER

SAVE UP TO 50%

If you're a victim of high heating costs, scrap your old oil burner now—replace it with a Winkler LP*.

A new development in the science of oil combustion enables this revolutionary burner to make astonishing economy records. The Winkler LP* Burner perfects low pressure operation — eliminates costly service troubles and the extravagant waste of fuel so common with conventional type oil burners. Never before such care-free heating for so little!

Read the letters from actual users at the left. Could you want better proof that the Winkler LP* is a sensational money-saver?

The reasons why

The Winkler LP* is a radical departure from previous oil burner engineering. It's a low pressure burner — a new principle proved tremendously successful. Its clog-proof nozzle permits sizing the burner to the exact heat requirements of your home — prevents heat waste up the chimney—cuts service costs. The Winkler burns

any kind of domestic fuel oil — even the "hard-cracked" oils now so prevalent.

Quickly installed

In a few hours time either new or old heating plants, whether steam, hot water or warm air, can be equipped with a Winkler LP* Oil Burner. No fuss or muss.

Easy to Buy

F.H.A. terms enable you to install your Winkler LP* at once and pay for it on such liberal terms that your pocketbook will never be strained. Fuel savings will actually pay for your Winkler in short order.

Delighted Owners Tell How The Winkler LP* Cuts Heating Costs!

SAVES 660 GALLONS!

"From Feb. 2, 1950, to Feb. 7, 1951, we used 1333 gallons of oil to heat our home. This fall was much colder, yet our Winkler low pressure burner saved us 660 gallons over our previous high pressure burner average of 2000 gallons. The 660 gallons means we have saved \$89.10, which will pay for our new Winkler burner in less than 4 years."

Glenn Truesdell
Haggerty Road, Wayne

30 CENTS PER DAY OIL COSTS!!

"You may be interested to know that our Winkler low-pressure oil burner heats our home for less than the cost of coal. Last year we burned 704 gallons of No. 2 fuel oil for a total cost of \$33.53. This gives an average of 23 gallons per day, or 30 CENTS per day for automatic oil heat."

Louis J. Westfall
Plymouth

OIL CHEAPER THAN COAL

"We have finished our first year with our low-pressure Winkler oil burner. We like it and have actually saved money with oil over stoker coal. In addition, we don't have to run up and down the cellar stairs, nor shovel coal and dig out chimneys."

Horace Barney
Plymouth

3 YEARS — NO SERVICE CALLS

"We have heated our 10 room house to 75 F for the last year and consumed 1149 gallons of oil at a cost of \$149.82. Should anyone doubt this statement, please have them call me. No service calls since burner was installed in July, 1949."

L. B. Rice, Manager
Automobile Club of Michigan, Plymouth

CONVERSION WORKS FINE

"I am enclosing the name of our next-door neighbor as a prospect for a Winkler. In checking our costs, we find that it has cost us about \$218 to heat with our Winkler low-pressure oil burner, as against \$256 last year with anthracite coal. We are happy that you could convert our large Holland furnace, because it was only a few years old."

Helen T. Mack
Plymouth

CUT OIL BILLS 40%

"At last I am completely satisfied with oil heat. The way my old burner went to pieces, I felt quite badly, but now I can say it was really a lucky day. No more clogged nozzles, smudgy walls, oil fumes in the house. Besides, we saved nearly 40% over last year's oil bills, so count on us as satisfied Winkler people."

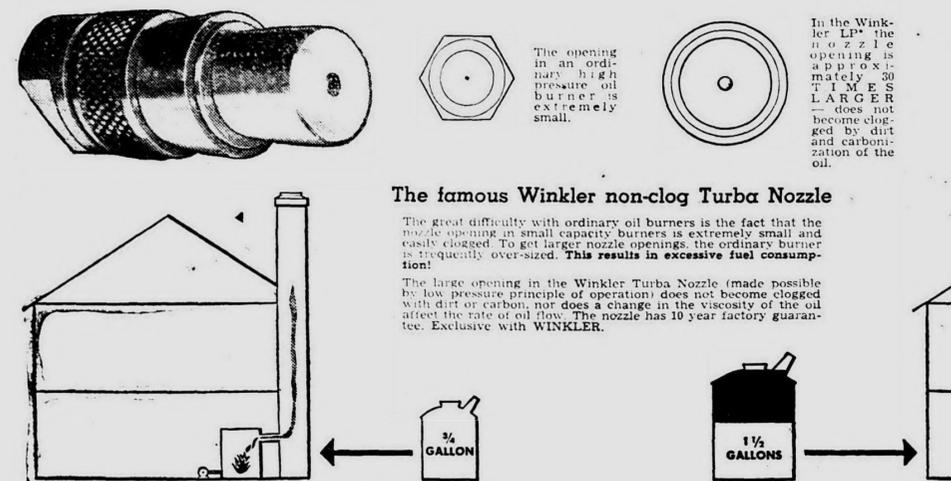

David L. Ingall
Plymouth

ENJOY THESE BENEFITS OF AUTOMATIC HEATING AT LOWEST COST!

- Thermostatic control**
With a Winkler LP* in your basement, you'll forget Winter as a season of slavery to your heating plant. You'll have more comfort—with no work—and for less money. The Winkler LP* is automatically controlled—all you have to do is set the Thermostat for whatever temperature you prefer and your Winkler does the rest. Your comfort is no longer dependent upon how energetical—and often you shovel coal and shake the grates.
- More sleep**
Start the day right—with a full quota of refreshing sleep! You don't have to leap from bed at crack of dawn to shake up and feed the fire — a special clock thermostat will turn on your Winkler automatically at whatever time you wish. When you rise, the house is warm... for shiverless shaving... for a breakfast in satisfying comfort. You begin the day with full energy for either work or play.
- An extra room**
Trying to keep the basement neat and clean with a coal-fired heating plant is a hopeless job. But what a difference in the Winkler LP* heated home. Its clean, soot and dirt-free operation gives you full use of your basement. You can rip out the coal bin—throw away ash cans—and use the saved space for a recreation room or hobby shop. Why not have the satisfaction of modern living—with a Winkler LP*.
- Cleaner heat**
Coal dust and sooty smoke are ruinous to draperies, walls and ceilings! No wonder your cleaning bills are outrageous! Consider the difference when you install a Winkler LP* Oil Burner. There's no dirty fuel to store in open bins—no flying ashes. The Winkler LP* burns oil most efficiently—with a clean, bright flame. No smudgy smoke when your heating is done with a Winkler.
- Lower fuel bills**
The Winkler LP* has set a most astonishing record for low-cost operation. Owners everywhere report substantial reductions in heating cost... frequently as great as 50%... after installing this marvel of efficiency. So isn't it foolish to actually pay more money for old-fashioned, laborious hand-firing? Don't delay—install a Winkler LP* Oil Burner now and really begin to enjoy life.

WHY THE WINKLER LP* MAKES YOUR FUEL DOLLAR GO TWICE AS FAR

Correct sizing possible with the Winkler LP* brings big fuel savings! Many homes need only about 70,000 heat units per hour to keep them warm. This amount of heat can be easily supplied by a burner with a capacity of 3/4 gallon per hour. The boiler or furnace is sized to efficiently absorb and release that amount of heat.

BUT...

To prevent nozzle clogging, the ordinary burner may be oversized to as much as 1 1/2 gallons per hour... releasing about 200,000 heat units per hour. This is much more heat than the smaller heating plant can absorb, and as a result, stack temperatures are extremely high. Heat thus pouring up the chimney means wasted oil—low efficiency.

See this amazing proof!
Come in today and discover why the Winkler LP* is the trouble-free, money-saving oil burner. You'll see the heavy, unrefined oil, mixed oil and water, hard-to-burn "hard-cracked" oils. All without smoke or soot—we give this sensational, proof of superiority, demonstration right on our show-room floor.

DON'T DELAY PHONE TODAY

Pick up your phone now and make an appointment to see the Winkler LP* demonstrated. Every moment you put up with an old-fashioned burner is costing you real money. Phone 1701-J day or night.
