

Plymouth Stores Offer School Opening Necessities

What I Think and Have A Right to Say By ELTON R. EATON

The Plymouth Mail wishes to publicly thank the hundreds of its readers and friends who have called to inquire after Elton R. Eaton...

While this columnist is recuperating his column will probably be absent from its regular place in the paper...

Banker Jack Taylor who is usually too busy to read the Detroit papers when home, sent the following article by Robert Ruark...

"Lew Hershey has been fiddling around with this draft business ever since I can remember, and he still doesn't seem to have it licked..."

If you will cast your tired little brain backward you may recall that the true status of a class of eligibles for distinction has not been sharply defined in your memory...

We inducted fathers and we did not. We took marrieds and we did not. We played a sliding scale with ages, with educational deferments...

You cannot sit there and tell me that a father must cast off his family and go away to fight a political war while shiny-chinned college boys are exempt from service...

Another is that people who have been once should not have to go twice, so long as there are eligibles around who haven't been once...

Second column contributor is Elmer S. Anderson, well known Whitman & Barnes executive who sends a clipping from the News-Messenger of Hamlet, South Carolina...

Although a comparative unknown, there is evidence that he is a man of deep thought, and that he is an able administrator...

Between now and November, Mr. Stevenson will have much opportunity to become better known among the common citizens of the land...

He is handicapped by the fact that he is comparatively unknown just as he is handicapped by the fact that he would step into the shoes of a man whose name has become synonymous with mismanagement and corruption...

Mr. Stevenson showed himself to be a man of humility, calling upon his God for guidance (But this is not necessarily a recommendation...

Thus we are heartened to some extent by the Democratic Party's nomination of Governor Stevenson, even though he was Truman's choice...

For parents who are uncertain as to just what elementary school their offspring will attend, school officials list tentative boundary lines of the five grade schools...

Starkweather and Smith schools. Optional boundaries will Phoenix or Five Mile road, and be used pending enrollment-loads at both schools...

The boundaries are: Ann Arbor trail on the South, by C & O RR tracks on West from its intersection with Ann Arbor trail, north to its intersection with Phoenix or Five Mile road, and by district boundaries on North and East.

Several members of the Plymouth club will go to London, Ontario, this Friday for an inter-club all-day golf tournament.

Local police authorities are investigating the illegal entry.

IT'S BACK TO SCHOOL WEEK and The Plymouth Mail sets the theme by presenting the Stanley Good family of 15833 Cadillac road who, according to school authorities, have the largest number of children entering school from any one local family...

active duty on the school front, starting fourth from left, are: Stanley, 14, Sebby, 14, Lila, 13, Nancy, 10, Theola, 8, Phyllis, 6, and Blair, 5. Stanley Good, 43, is employed at Burroughs Adding Machine company as a janitor...

Commission Has Varied Agenda These are the headlines from the City Commission's bi-weekly meeting: Neva Lovewell, Plymouth High School teacher...

Nearly 2,800 School Children Will Set Record Registration

The Plymouth area today has more children than at any time in its entire history. Though its geographic size (1.9 miles) and population (7,300) is small and crowded (3,750 people per square mile), the number of school children is rapidly increasing...

Parochial Schools Open

School Bells will ring Wednesday, September 3rd at the Lutheran school at 8:30 in the morning says principal Gerhard Mueller when some 103 Lutheran students will report for work...

Nursery School Opens Sept. 2nd

On September 2 the Joliffe Nursery school, located at 620 Penniman avenue, will open for its fifth successive year.

Collect \$1.3 Per Cent of City's Yearly Tax Levy

Summer tax monies have been pouring into City coffers by the thousands of dollars, reveals City Treasurer Charles 'Garlett, who says that 94.3 per cent of the \$203,119 yearly tax levy due August 10 has been collected.

Approval Seen of Bank Merger

Announcement of the proposed merger of Plymouth's two banks with the National Bank of Detroit met with general favor throughout the community last weekend.

Harvest Show to be August 23

The Livonia Home Gardeners' club and the Rosedale Gardens branch of the Women's National Farm and Garden association are sponsoring the annual Harvest Show August 23, in the 'Little Red Barn' at 32415 Seven Mile road.

Kiwanis Host to Detroit Club

Thirty members of the College Park Kiwanis club were guests of the Plymouth club Tuesday night at its weekly meeting at the Hubflower hotel.

Set Boundaries of 5 Grade Schools

For parents who are uncertain as to just what elementary school their offspring will attend, school officials list tentative boundary lines of the five grade schools...

Latture Realty Sells House to Dr. Herbold

Latture Real Estate, 630 South Main street, announced the sale this week of a 1376 West Ann Arbor trail house to Dr. and Mrs. William C. Herbold, 644 Adams.

Award Garbage Rubbish Contract to Cotter Firm

An earlier promise of garbage collecting with "dignity" and at "one-third less cost to the City" led to the City's garbage and rubbish collecting contract for James T. Cotter, Farmington.

Sunflower 15 Feet Tall and Still Growing

A sunflower which is now 15 feet tall and still growing can be seen in the garden at the Marvin Kubic residence, 6644 Merriman road, Garden City.

Loot Gas Station

Enterprising thieves broke into the Strasen and Diederick Service Station, 798 Ann Arbor road, last week and smashed open a cigarette and soft drink machine taking between \$20 and \$25 in change.

Auxiliary Holds Fashion Show

A fashion show presenting the new fall styles will take place September 10 in the Bird School. The show is being sponsored by the Mayflower Auxiliary of the Veterans of Foreign Wars.

Commission Has Varied Agenda

These are the headlines from the City Commission's bi-weekly meeting: Neva Lovewell, Plymouth High School teacher...

Parochial Schools Open

School Bells will ring Wednesday, September 3rd at the Lutheran school at 8:30 in the morning says principal Gerhard Mueller when some 103 Lutheran students will report for work...

Nursery School Opens Sept. 2nd

On September 2 the Joliffe Nursery school, located at 620 Penniman avenue, will open for its fifth successive year.

But from school figures and a national population study for the years 1950 to 1960, the number of school children will continue to grow to unprecedented heights for at least six years.

In the Plymouth school district, the student population was slightly over 2,000. In 1950, it had increased to nearly 2,300, and in June, 1952, that figure zoomed to about 2,600 school children.

**Commission Has Varied Agenda**

(Continued from Page 1)  
by 16 property owners, who protest what they call "illegal assessment levies."

Devo indicated that he would move to have the Circuit court case "dismissed."

It was in a July 7 meeting that Mayor Daane charged that those seeking an injunction against the deferred assessment levies failed to meet Charter regulations in filing their complaints.

"Charter regulations stipulate that a complaint against assessment rolls must be filed with the City no longer than 15 days after the rolls are made up," he said.

"No representatives of the property owners," he concluded, "appeared within the specified time." Mayor Daane then informed the commissioners that the May 20 objection deadline was not protested until June 7.

Working slowly through a 19-point agenda, City Commissioners paved the way for a \$43,000 bond issue to be bid upon within the next few weeks.

Made up of 43 one-thousand dollar certificates, the bonds, to be used for pavement, sewer and curb and gutter improvement, the special assessment bonds will be retired at a staggered rate—up to 15 years.

It puts into the hands of the city officials another means of sprucing up, cleaning up the City—just another step in the direction of the "city of residences" theme.

Mayor Daane indicated that the bond issue was such a small one "that I have no doubt that it can be sold locally if we want it to."

The members of the Plymouth MOMS club are spending today, Thursday at Upper Straits lake as the guests of Mr. and Mrs. Lee Sackett.

**Fred J. Lemm Passes Away**

Fred J. Lemm, 71, passed away August 11, at St. Joseph hospital in Ann Arbor.

He was born in Conway, Arkansas, June 28, 1881, and moved to Plymouth from Detroit. For a while he was employed by the Daisy Air Rifle company. At the time of his death he resided at 456 North Holbrook.

He is survived by his brother Jake; a half-brother, Gottfried Muell; and a half-sister Kathren Herze all of Conway, Arkansas.

Funeral services were held Monday, August 18, at 4 p.m. from the Sonderregger funeral home. Reverend William O. Weltman officiated. Interment was in Riverside cemetery.

**Sign Permit Denied by City**

The request of the Socony Vacuum oil company to erect a sign at street level at its station at 406 North Main street was denied by the city commission at its regular meeting Monday evening.

The request was denied on the grounds that the sign extended onto city property by 18 inches. This extension is not permitted under the city ordinance.

It takes 20 minutes for a trained mathematician, with pencil and paper, to multiply two 14-digit numbers and come out with the answer. Electronic calculators now flash through 40 such multiplications in one second—50,000 times as fast.

Social items can be phoned to 1600.

**Set Boundaries of Five Grade Schools**

(Continued from Page 1)  
on east and south.

Bird School. Bounded by Ann Arbor trail on south from intersection with C & O RR tracks to Main street, then to Elm avenue to Sheldon road. West on Ann Arbor trail and Powell road to Napier road by the district boundary on west and north and by C & O RR tracks on east.

Bird, Smith school. Optional boundaries to be used pending outcome of enrollment at both schools. Optional boundaries are: McClumpha and Beck roads on east, by district boundaries on south and west and Powell road on the north.

Smith school. Boundaries are: C & O RR tracks on the east, Ann Arbor trail on the north from its intersection with C & O RR tracks west to Main street, then west on Elm avenue to Sheldon road and Ann Arbor trail to McClumpha. Bounded on west by McClumpha road and on the south by Joy road.

Bartlett School. Grades from kindergarten thru second will attend Bartlett. Grades three through 12 will attend Plymouth schools.

Hough School. Grades five through 12 will attend Plymouth schools. Grades kindergarten through four will attend Hough.

Transportation will be provided for all children living more than one mile from school.

**Last Rites For Clarence E. Pelley**

Clarence E. Pelley, 73, of 1083 Starkweather avenue passed away Monday, August 18. He has been a resident of Plymouth for the past 50 years.

Mr. Pelley was employed as a mechanic at the Allen and Locke garage at Northville.

Surviving are his wife, Lillian; two brothers, William of Vista, California, and Guy Weaver of Fresno, California; two sisters, Mrs. E. L. Watson of Brookings, South Dakota, and Mrs. A. A. Cross of Marathon, Iowa; two daughters in law, Mrs. Harry Burlison of Plymouth and Mrs. Leila Pelley of Northville, three grandchildren, other relatives and friends. Mr. Pelley was the father of the late Vern and Percy Pelley.

Funeral services will be held today from the Schrader Funeral home at 1 p.m. Reverend Melbourne I. Johnson will officiate. Hymns will be sung by Nestor Sibbold accompanied at the organ by Mrs. Edna O'Conner. Active pallbearers will be Lee Sowles, William Groff, Francis Johnson, William Edmond, Harold Fritz, and Francis Sowles. Interment will be in Riverside cemetery.

**Nearly 2,800 School Children Will Set Record Registration**

(Continued from Page 1)  
men and women to go into elementary teaching. Teachers in those grades are being overwhelmed with classes too big to teach."

For parents, businessmen and industrial leaders. Hecht adds a four-point program of advice and caution.

"1. New school construction is beginning to get underway. But many communities lack the funds to build new schools. We must work to see that state aid comes to the help of communities finding themselves in such a situation. Otherwise, American education faces a worse crisis than it has ever known, and your child and mine will suffer."

"2. Because of the high cost of living many mothers are seeking employment outside the home. Plans for day-care centers for the children of working mothers should be made if children are to be saved from neglect."

"3. Be aware of the need, and do all you can to see that adequate health services are available for children. Young women should be encouraged to go into nursing. Increase your efforts to secure support for school health services. And stand by the National School Lunch Program which for the last 17 years has been doing an outstanding job in providing adequate meals for school children."

"4. Since play is essential to the mental health, happiness and sound development of children, see that provision for play and healthful recreation is expanded with special provision for centers for teen-age boys and girls."

Mr. and Mrs. Vere Griffen and son, Albert of Cass City were Sunday dinner guests of Mr. and Mrs. Roy Wheeler of West Ann Arbor trail. Mr. and Mrs. Adelbert Griffen returned to Cass City with them where they will visit for a week. Mr. and Mrs. Carl Lampton were also Sunday dinner guests of the Wheelers.

Mr. and Mrs. Kenneth McPherson returned the past week from a two weeks vacation trip to the north. While there they spent a day at Mackinac Island with Vaughn D. Taylor and together they enjoyed a cruise to the "Snow Islands."

**Dwight Randall Interred Here**

Services will be held today, Thursday, at 2:30 p.m. for Dwight T. Randall, 83, who passed away Tuesday, August 19, following an illness of two months.

Mr. Randall was born May 1, 1869. He and his wife moved to Plymouth in 1919 and two of their three sons were born here. The family moved to Detroit in 1932 and for the past several winters Mr. and Mrs. Randall have lived in Tucson, Arizona, returning to Michigan during the summers.

He is survived by his wife, Myrtle, and two sons, Robert and John.

Services will be held from the William R. Hamilton Funeral home, Detroit, with burial in Riverside cemetery.

The Michigan Tourist Council provides free vacation information services at offices in Chicago, Detroit, Cleveland and Lansing.

Phone news items to 1600

**THIS IS STRICTLY A LADIES' EVENT** as the picture clearly shows. In fact it is a typical crowd assembled in front of the Norma Cassady store on the event of one of the store's sale events. This picture records the crowd of women waiting for the doors to open last Thursday so that they might enter the store and carry off arm loads of sale merchandise. In fact Plymouth merchants as a whole are becoming famous for their tremendous sale events and this scene has been duplicated in many places throughout the shopping area during the last several months.

**Services Held For 10 Year Old Girl**

Patricia Ann Thompson, 10, daughter of Mr. and Mrs. James D. Thompson of 9610 Blackburn, Rosedale Gardens, died Sunday following a short illness.

Besides her parents, she is survived by her brother, Mark, her grandmothers, Mrs. Mary E. Thompson of Grand Rapids and Mrs. Minka Hofstra of Cadillac.

Patricia attended the Rosedale Gardens school, and was a member of the Rosedale Gardens Presbyterian church Sunday school.

Reverend Donald Zimmerman of Dearborn officiated at the services held from the Schrader Funeral home Tuesday at 2 p.m. Hymns were played on the organ by Mrs. William Koenig. Interment was Wednesday at 2 p.m. in Cadillac Maple Hill cemetery, Cadillac.

**By Carl Peterson**  
A Lieutenant Colonel at the Army's Fort Ord hospital has written a report claiming that Army marching injures the feet of trainees. The way he sees it, all this hot-footing over hill and dale and back again is rougher than Monday morning and does more harm than good. In actual combat infantrymen seldom make long marches without a let-up... so the Doc says, why waste time on practice? The story appeared in the Armed Forces Medical Journal... and "the opinions expressed in this publication are not necessarily those of the Army, Navy, Air Force or Department of Defense." But it touches a lot of old dough foots in a tender spot.

Now that TV is playing such a big part in political conventions we can expect to see the candidates replacing their brief cases with make-up kits. Be sure you get your green stamps at PETERSON DRUG, 840 W. Ann Arbor Trail, Phone: 2080.

## Calls For Building Program to Offset Housing Shortage

One really agent—Sam J. Gettleston—sees Plymouth's already acute housing shortage becoming more critical as the weeks go by.

Gettleston, also a representative for a construction firm, says that the short supply of rental units here can be laid to an industrial expansion along Ann Arbor road.

Increasingly, he declares, Plymouth is becoming the "hub of Wayne county. To compensate for the surging industrial growth here an extensive home-building program must be undertaken," he continues, stating that "we can't afford to sell Plymouth short."

Realtors and real estate people throughout the City and township are giving the green light to Detroit housing contractors, Gettleston indicated.

Two things that have kept many builders out of this area (City and Plymouth township), he contends, are "inadequate water and sewage lines—the city hasn't considered this to any great extent or done too much about it."

Gettleston advises men with money or bonds just lying in the bank "to put their excess funds to work building what he calls "multiple units."

"Multiple two-story dwellings," he asserts, "are excellent investments. They utilize land to its fullest extent and provide twice as much housing at noticeably reduced costs over single units."

COTTON PLAIDS RESPOND well to the school bell for class room wear. They're washable and durable and attractive.

## Medical, Dental Students Chances Good in Face of Personnel Shortage

Plymouth students interested in medical science have a rare opportunity and a bright future ahead of them looking after the health of the nation's people.

In a statement released to the Associated Press, the President's Commission on Health Needs of the Nation declared last week that thousands more dentists, nurses and medical assistants are needed to care for the American people.

Panel discussion summaries by 21 medical, military and lay experts concluded the exact shortage of trained medical people, including physicians and surgeons.

The panel summaries, held during the last two months, detailed the "medical man" shortage as depending upon exactly how U.S. medical care is "organized."

This has been one of the objectives of the panel appointed by President Truman last December. They will submit their final report towards the end of the year.

Tentative figures released, however, estimated that yearly 3,400 dentists are needed to maintain an adequate ratio of dentists per capita of population. Yearly, about 3,000 dentists walk out college doors to take up practice, leaving an ever growing shortage.

The panel also disclosed a nursing shortage. Thousands of more nurses are needed each year than are trained, they asserted, reporting that the American Hospital Association has 47,000 job vacancies in such fields as laboratory technicians, occupational therapy, X-ray technicians and hospital administration.

Striking out for a solution, the Health Commission was instructed by President Truman to study the facts and present a program for "safeguarding and improving the health of the nation."

This is seen as a move in accordance with Truman's national compulsory health insurance

HORSESHOES AS SLED RUNNERS . . . Discarded horseshoes, attached to a sled by means of small lag screws, make good runners for a small sled that is used about farm buildings for simple chores. Holes in shoes are enlarged to receive the screws.

### 24 New Teachers Take up Duties at 5 Local Schools

The soul of any school system is its teaching staff. And Superintendent of Schools Russell Isbister will tell you it was a tough job screening and replacing 24 teachers who resigned last year.

Nevertheless, top school officials say they have "top flight" replacements who have a combined total of nearly 100 years of college preparatory work in education.

Much of the 25 per cent teacher-staff turnover was laid to marriage or job promotions. It was pointed out that young school "mams" just out of college make ideal elementary instructors but were generally the "marrying kind" who left school teaching behind after three or four years to raise their own families.

Of the 24 new teaching staff, 13 instructors are 22 years old or younger. These, and 11 other teachers, whose ages average about 27, have, on an average, B.A. or B.S. degrees. The majority of the Alumni is either from the University of Michigan or Michigan State Normal college.

Two of the new staff are former graduates from Plymouth high school. Elizabeth Baker, 21, received her B.S. from MSC and returns to teach women students physical education. Barbara A. Daniel, 22, comes back as a high

school social studies teacher. She is a 1952 graduate of Miami University, Oxford, Ohio, and has a B. A. degree.

Patrick Butler, 28, M.A. from the University of Michigan, A. B. from WMTC, is a library science major. He will take charge of the high school library.

Two new art instructors, experts in the business, come to Plymouth schools to carry on students in the business of artistic expression via the paint brush. They are Heinz Dittmar, 23, elementary art, B. S. from MSNC, and Violet Wassel, 24, junior high art, B. S. University of Michigan.

Teaching the very important elementary grades are 12 instructors. They are: Mrs. Madeline Fry, 22, Smith school, B. A. from MSNC; Wanda Hutchison, 26, Smith school, B. S. Arkansas State college; Earl Lucas, 29, Bird school, B. A. from University of Michigan.

The list continues with: Mrs. Emma Pine, Bird school; Mrs. Marguerite Roder, 24, Starkweather school, B.A. at MSC; Marguerite Ross, 35, Smith school, B. S. at MSNC; Dorothy J. Rowe, 23, Starkweather school, B. A. at University of Michigan.

Also included in this listing are: Lorelei B. Seifon, 21, Bird school, B.A. at University of Michigan; Mary J. Smithling, Starkweather school, B. A. at MSNC; Mrs. Carol A. Stirton, Starkweather school, B. A. from University of Michigan; Vivian Thorson, 22, Starkweather school, B. S. from Minot State Teachers College, North Dakota.

Junior high school instructors are: William Harding, 25, social studies, B. S. from WSTC; Mary J. Pellowe, 22, B. A. from MSNC; William Prewitt; and Francis Sullivan, 25, B.S. at MSNC. Also Charles Kipp, 33, B.A. from University of Michigan.

Supervising the "small fry" in kindergarten grades are specially trained instructors whose college programs have included extensive course work in sociology and psychology.

They are: Mrs. Lorraine Hurtik, 28, Starkweather, B. A. from MSNC; Bernice A. Ischy, 22, B.S. degree from MSNC.

Assistant in kindergarten grades at Bird and Smith schools is Mrs. Lillian Thompson. She has a life teaching certificate from MSNC.

### Versatile Custodian Crew Readies 8 Schools For Nearly 2,800 Students

Master mechanic, steamfitter, carpenter, mural painter or just plain genie—whatever you need in the way of mechanical or electrical experts you're likely to find them among the school's custodian crew.

Right now the 14 full-time maintenance employees are winding up a summer of painting, sanding desks, building a press box on the football field and getting Plymouth's eight schools in tip-top shape.

So far, says Custodian Leo Kowalek who heads the 14-man crew, 13 rooms in the high school have completely finished, including the installation of 450 adjustable armchair desks. About 300 more of the modernistic, scientifically designed desks, taking place of 35-year-old equipment, will be installed in within two weeks, Kowalek says.

He indicates that each complete room in the high school and seven other units has been checked from floor to ceiling. In many of them green paint has taken place of drab colors. Floors have been sanded, varnished and caulked.

In addition, the 14 maintenance men have repaired, cleaned and adjusted every light fixture, used hundreds of pounds of soap and cleaning compound giving the schools that clean, well-kept look.

Not to be slowed by some of these more "menial" tasks, plumbing experts among the crew have installed hot and cold water taps and a gas feed line in the junior high school science room.

And putting their carpentry and designing talents to work, some of the maintenance crew helped erect a press box that is now in its latter stages of completion.

When finished, the press box will provide facilities for broadcasters, a press man and motion picture photography. A 10 by 20 foot structure being built atop the comfort station, it will be glassed in completely on the field side. Football coaches, spotters, scoreboard operator and public address operator will also share in this plush addition as football gets underway this fall.

Kowalek, 46, who has been a maintenance chief in public schools for 15 years, recalls that when he first came here he walked the "floors for seven years before getting an office."

"I got to know the teachers and students," he says, "and saw to many of their needs."

He indicated that his versatile crew has built desks, painted murals, put on roofs, down to sewing on buttons and replacing a heel on one of the youngster's shoes.

Kowalek speaks fondly of the many "small fry" and older students he has helped extricate from some difficulty.

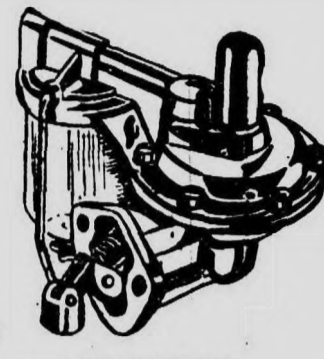

"Around here," he declares, "we have to be mediators, child psychologists and that kind of thing. It is amazing, what one can do with just a bobby pin."

During the coming semesters Kowalek and his crew will daily mop and sweep over 18,000 square feet of floor space. They will use thousands of pounds of soap and cleaning compound on Plymouth's eight schools.

They will keep the football field and baseball diamonds groomed, keep plastering, painting, cleaning, answer emergency calls of teachers and students, beside doing a thousand other tasks that call for mechanical ingenuity beyond the "call of duty."

The most important point in fish preparation is, to prevent over cooking. When the fish flesh flakes easily from the bone it has reached its most moist, tender stage.

Highest quality upholstered furniture has springs that are tied eight ways. Fine quality upholstery also has closely interlaced jute webbing as a base for the springs.

### Health Check Prescribed Before School

The best way to insure a child's progress and well-being in school is to give him a dental and medical checkup before the school term. While many schools conduct health checkups, parents should not consider these substitutes for the semi-annual visit to the family doctor and dentist.

Regular examinations will make a child feel responsible for his own health. He will listen with keen interest to the doctor's reasons for reading in good light or for eating certain foods.

Best of all, the doctor becomes a friend. When sickness comes, this child will respond with less fear than one who sees the doctor only in an emergency.

In a routine health examination, the doctor will check height and weight, eyes, ears, lungs, heart, and abdomen. He will also give the child a blood test to check for anemia or possible infections, and immunizations as protection against communicable diseases if the child needs them, or booster doses to renew immunity.

One of ten school children has something wrong with his eyes, the doctor finds. But the prompt use of corrective glasses or exercises can prevent more serious defects later on.

Parents see their children so much that they may not recognize the signs of possible trouble which the doctor is quick to spot and treat.

For example, temporary deafness from a low-grade ear infection can be cleared up with antibiotics. But if this condition is allowed to continue, it may cause the child trouble in school and lead to permanent deafness.

In his examination the doctor will also inspect tonsils and adenoids. Tonsillectomies are no longer recommended as a routine procedure, but the doctor may advise removal of adenoids if they cause trouble.

An enterprising appliance company which sent out a fancy questionnaire to Iowa housewives was disappointed by some of the replies. Asked, "What make of garbage disposal unit do you use?" one woman answered happily: "Four hogs."

### Mackinaw Straits Bridge Seen as Reality in 2 Years

The Mackinaw Straits bridge—a project supported editorially by The Plymouth Mail—is moving closer to reality, say members of the Mackinaw Bridge Authority. "Barring an all-out war this much needed bridge will become a reality within a couple of years."

Keynoting this optimism, Chairman Prentiss M. Brown of the Authority, rose after a luncheon conference in Detroit last week (reported by the Associated Press) to make this statement. Details of the \$85,000,000 needed support were clarified by the Authority to Reconstruction Finance corporation officials headed by Harry F. McDonald. Both sides rose to term the luncheon meet as an exploratory session at which the Authority went into details to support its bid for the long dreamt-of bridge.

The RFC told the state Authority following luncheon discussion to "get all the economic data you can, including a new traffic survey, and we will try to arrive at a decision soon." This decision followed after RFC officials agreed all engineering problems involved in the project had been solved.

### PHS to Offer Arc, Acetylene Welding Course

Industrial arts majors are being offered something new in vocational training when school doors open in just two weeks—a complete workshop course in welding. Keynoting the urgent demand for welders, welding shop Supervisor W. L. Campbell and Instructor Keith Baughman said Ford Motor company alone has a current need for 400 welders. Other industrial manufacturers—Kaiser-Frazer and General Motors—also have acute welder shortages.

Two types of welding, arc and acetylene, will be taught to about 36 students this semester, Campbell discloses, stating that two one-hour class periods each day will accommodate 18 students each period. Located on the ground floor in the rear west-end of the PHS building, the two-floor workshop and classroom will give practical workshop training as well as metallurgical theory.

Eight arc welding and eight acetylene booths have been set up as well as two stations using portable acetylene cutting units. As the welding course progresses through the semester, fabrication and airplane type welding will be taught by the instructors.

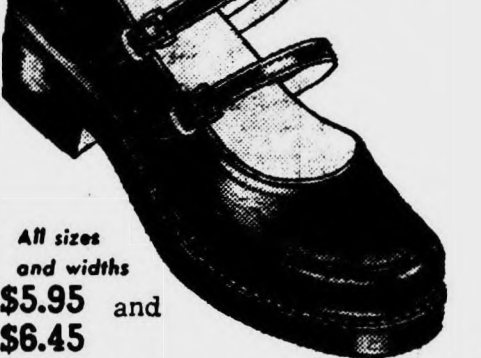

A stone monument in a little park on the main street of St. Ignace marks the grave of Father Jacques Marquette.

Mrs. Walter Aston and son, Tommy of Cleveland, Ohio are visiting in the home of Clarence Smith on Wilcox road. Mary Lou Smith, who has been visiting for the past two weeks with her aunt in Cleveland, returned home with them.

Sunday dinner guests of Mrs. Lila Humphries in her home on Pacific avenue were Mr. and Mrs. Milton Laible and Mrs. Robert Gardiner of Plymouth, and Mr. and Mrs. Milton Humphries and daughter, Faye of Wayne.

**STOP!**  
**THINK!**

**DRIVE CAREFULLY!**

"The little fellow ran right in front of the car," says this horror stricken driver. But the fact is, his car was going too fast to stop at the time!

Mr. Motorist, now that another school year is soon to begin, and more children will be crossing traffic lanes, it might be wise to adopt the following safe driving rules.

First.... drive slowly wherever children may be playing or crossing the road.

Second.. be alert. Children are quick to act, but sometimes act before they think.

Third.... keep your car in tip-top condition, and by all means be insured to be safe in any case!

**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS**

**TO SHAREHOLDERS OF PLYMOUTH UNITED SAVINGS BANK,** of Plymouth, Michigan

You are hereby notified that, on September 12, 1952, at 3:00 o'clock P.M., Eastern Standard Time, pursuant to action of the Board of Directors, a special meeting of the shareholders of this Bank will be held at its banking office at 306 S. Main Street, Plymouth, Michigan, to consider and vote upon the following proposals, and matters incidental thereto which properly may come before that meeting:

- To ratify, confirm and adopt the Agreement of Merger heretofore entered into on behalf of this Bank (pursuant to authorization of its Board of Directors) with National Bank of Detroit, dated August 11, 1952, whereby this Bank will merge into National Bank of Detroit pursuant to and in accordance with Sections 4 and 5 of an Act of Congress of the United States entitled "An Act to Provide for the Consolidation of National Banking Associations," approved November 7, 1918, as amended, and Sections 108 and 109 of Act No. 341 of the Public Acts of Michigan for 1937, known as "The Michigan Financial Institutions Act," as amended.
- To authorize the Board of Directors of this Bank to take such action and give such authorization to the officers of this Bank as said Board of Directors may deem necessary or advisable in order to carry out the provisions of such Agreement of Merger.

By order of the Board of Directors,

### Hit-Run Crash Severely Injures So. Lyon Woman

A South Lyon woman was injured severely last week in a hit and run accident at an Ann Arbor street intersection.

Injured was Mary Jane Simpson, 27, of South Lyon, a passenger in a car driven by Russell P. Hostler, Ann Arbor. She was admitted to St. Joseph's Mercy hospital suffering abdominal and arm injuries.

Arrested and lodged in the Washtenaw County Jail was Joseph Haney, 81, Ann Arbor resident charged with leaving the scene of a personal injury accident.

Haney, who was arrested several hours following the two-car crash, demanded examination in the Ann Arbor municipal court. He was confined to the county jail when he failed to post a \$1,000 cash or \$2,000 property bond asked for his release.

Police reports indicated the crash came when Haney's car sped through a stop street at a high rate of speed. It crashed broadside into the Hostler vehicle.

Two hours after the accident Haney, who had sped away leaving Murphy Lloyd, 47, Ann Arbor, a passenger in his car, at the scene, gave himself up at the county jail. He admitted that he had "just hit a woman" but failed to clarify his remark.

Three Ann Arborites received minor injuries in the hit-run crash that hospitalized Miss Simpson.

### NOTICE OF FORECLOSURE SALE

Default having been made in the performance of the conditions of a mortgage made by NICHOLAS G. KARAGAS and MELANTHÉE B. KARAGAS, his wife, also known as MELANTHÉE KARAGAS, to PLYMOUTH UNITED SAVINGS BANK, a Michigan banking corporation, of Plymouth, Michigan, dated October 4, 1950, recorded October 13, 1950, in Liber 10827, page 684, Wayne County, Michigan, Records, on which mortgage there is claimed to be due at the date of this notice the sum of Three Thousand One Hundred and forty-eight dollars and 88 cents (\$3,148.88), and the attorney's fee provided by law.

Notice is hereby given, that by virtue of the power of sale contained in said mortgage and the statute in such case made and provided on Friday, October 3, 1952, at 12:00 o'clock noon, Eastern Standard Time, the undersigned will, at the southerly end of Congress Street, entrance to the County Building, Detroit, Michigan, that being the place where the Circuit Court for the County of Wayne is held, cause to be sold at public auction to the highest bidder the premises described as follows: Land in the City of Livonia, County of Wayne and State of Michigan, described as part of the west 1/2 of the east 1/2 of the southwest 1/4 of Section 25, Livonia Township, Wayne County, Michigan, more particularly described as beginning at a point, said point being south 87° 13' east 1327.93 feet to the south line of said section 25, also being along the center line of Plymouth Road, so called, and north 2° 47' east 402 feet to the southwest corner of said Section 25; thence north 2° 47' east 40 feet to a point; thence south 87° 13' east 220 feet along a line parallel to the south line of said section 25 to a point; thence south 2° 47' west 220 feet along a line parallel to the south line of said Section 25 to the point of beginning; Parcel 2119 of survey made by J. E. Bressler, Registered Civil Engineer, November 4, 1935, the east 20 feet to be reserved for street purposes.

Dated: June 27, 1952.

**PLYMOUTH UNITED SAVINGS BANK,** Mortgagee and MORTGAGEE and MCNAIR, Attorneys for Mortgage  
July 3 to Sept. 25, 1952

### NOTICE OF SPECIAL MEETING OF SHAREHOLDERS

**TO THE SHAREHOLDERS:**

You are hereby notified that, on Friday, September 12, 1952, at 12 o'clock Noon, Eastern Standard Time, pursuant to action of the Board of Directors, a special meeting of the shareholders of this Bank will be held in the Conference Room on the 9th Floor of the National Bank Building, at the corner of Woodward Avenue and Cadillac Square, Detroit, Michigan, to consider and vote upon the following proposals, and matters incidental thereto which properly may come before that meeting:

- To ratify, confirm and adopt the Agreement of Merger heretofore entered into on behalf of this Bank (pursuant to authorization of its Board of Directors) with The Wayne State Bank, dated July 11, 1952, whereby this Bank will merge into The Wayne State Bank pursuant to and in accordance with Sections 4 and 5 of an Act of Congress of the United States entitled "An Act to Provide for the Consolidation of National Banking Associations," approved November 7, 1918, as amended.
- To ratify, confirm and adopt the Agreement of Merger heretofore entered into on behalf of this Bank (pursuant to authorization of its Board of Directors) with National Bank of Detroit, dated August 11, 1952, whereby this Bank will merge into National Bank of Detroit pursuant to and in accordance with Sections 4 and 5 of an Act of Congress of the United States entitled "An Act to Provide for the Consolidation of National Banking Associations," approved November 7, 1918, as amended.
- To authorize the Board of Directors of this Bank to take such action and give such authorization to the officers of this Bank as said Board of Directors may deem necessary or advisable in order to carry out the provisions of such Agreement of Merger.
- To authorize the Board of Directors of this Bank to take such action and give such authorization to the officers of this Bank as said Board of Directors may deem necessary or advisable in order to carry out the provisions of such Agreement of Merger.
- With the approval of the Comptroller of the Currency, to authorize the Board of Directors of this Bank to take such action and give such authorization to the officers of this Bank as said Board of Directors may deem necessary or advisable in order to carry out the provisions of such Agreement of Merger as the same is ratified, confirmed and adopted by the shareholders of this Bank and of the other Bank which is a party thereto and allocated to the holders of the shares of common stock of each other Bank; and, in order to enable such increase to be effected and the shares required for such purpose to be issued, to amend the Articles of Association of this Bank as heretofore amended, by amending Article Fifth thereof to provide that the amount of capital stock thereof shall be a total par value of common stock divided into shares of the par value of \$10 each equal to the sum of the \$15,000,000 par value presently outstanding plus the amount of such increase.

### Sweaters Galore, The Teen's Best Pals for School

She ensembles them with skirts and suits. She wears them beneath jumpers and weskits. She teams them with dresses. And she even features them with her favorite formal skirts at proms through the year.

They're sweaters, of course, the focus for collection by most every teen-ager, and the mainstay of her high school wardrobe.

There are pleated sweaters. And there are sweaters made with the look of blouses. Retaining their easy comfort and

warmth, they have details like contrasting collar and cuffs or embroidery lending a pretty new air.

Evening sweaters, either cardigan or slipover styles come dressed up with gay splashes of braid, embroidery, bangles and pearls.

The classics, the long and short sleeve cardigans and slipovers, offer a new outlook with such innovations as ribbing and collars that can be worn up or down.

And even yarns present a new

and exciting picture. Many all wools are specially treated for extra easy washability. Other sweaters are woven in one or a combination of the new synthetics that seldom require re-shaping after laundering.

**VITAMIN BOOSTER**

Save the vitamin-rich juices from cooked vegetables to add to soup stock. They also add zest to after-school snacks when mixed with tomato juice and served with crackers.

### Child's Feet Require Perfect Fit

That new shoes are basic requirements of the Back to School wardrobe, with no pun intended, is something few parents would deny, though not all of them clearly understand why.

Their instinctive concern about footwear needs of the children at this time of the year, however, is very fortunate, because with the youngsters fresh from the freedom of active summer holidays, and an entirely new set of circumstances confronting them, refitting them with shoes becomes more than a matter of replacing something that has been worn out.

The fact is, as has been determined by foot specialists, and as is well known to every reliable shoe retailer, children up to the age of twelve, actually outgrow their shoes every three or four months.

Recent surveys have revealed that many, many children, quite unbeknownst to their parents, are wearing shoes that are too short or too narrow for them. Children seldom mention discomforts of this nature, in fact do not very often recognize them during their absorption with other things.

Yet from such problems grow ailments very difficult to correct later in life. Properly fitted footwear is far more important than protective covering for young feet.

Good shoes act as supports for the growing foot. They furnish the correct foundation for the development of an erect posture. These things are very important to the growing child's health and his eventual stature.

Thus there is good reason why having the children fitted with new shoes becomes a major back to school project.

Proper fit involves something more than size, however. It involves choosing the proper last, which is basic to correct fit. The last is, in a sense, the "invisible" part of the shoe, by means of which footwear is made to conform with the foot.

The wooden lasts over which shoes are shaped, are literally sculptured from human foot models. Very cheap shoes are made without lasting; that is, without shaping on wood. Correct lasting means every detail in contour in the shoe is correct, and thus it plays an important role in the quality and lasting value of the shoe.

As for size itself, there are fully 300 different sizes required to fit children from five to 14 years of age. The shoe retailer must keep a careful record of his size and style ranges to maintain the proper range of style selection in various lasts.

This suggests that wise parents who want to shop with ease and be sure of proper fits in the styles they want for their youngsters, will take Junior or Sister downtown for their back to school fittings well in advance of the opening of classes.

This is the way to avoid the confusion and rush and disappointments of the last minute. And under no circumstances attempt to buy shoes for your children without a fitting.

Reliable shoe dealers will insist on this.

**CARING FOR SWEATERS**

The care of wool sweaters begins the day they join a coed's wardrobe. This is the time, while they are still unstretched by wear, when she can outline them on paper and cut out a pattern for use as a shaping guide later. From then on after their lukewarm sudsing, they need only be speed dried by kneading in a Turkish towel and then eased into place on the prepared pattern.

### Smart New Footwear Favors Youth in Every Class

THESE TWO STRAPPERS for little girls are of popular red calf and have gleaming gold buckles to brighten the school outlook.

ROCKETS AND SPACE SHIPS furnish the latest novelty touch for boys' shoes, as indicated by the rugged monk strapped pair above.

MINIATURE ADAPTATIONS OF ADULT FOOTWEAR are handsomely executed to the great glee of the children this season, as clearly illustrated by the popular shell silhouette in two tones of kid, worn by the little girl above; and the slip-ons with elastic gore worn by the little boy.

STEPPING UPWARD this school term, she will be pleased by new dark buck oxfords with cushion crepe sole. He will like the same type of sole on a comfortable slip-on with elasticized gore.

WITH CLEAT SOLES of red rubber this sturdy calf oxford, decorated by brass eyelets, will be popular among lads for school wear this season.

SMART BACK TO SCHOOL WEAR for her is navy suede with fringed tongue, red wedge heel and mudguards for him the new U wing smooth calf oxford just like Dad's.

**CHILD SIZE STRINGS**

Keep an extra pair or so of shoe strings on hand for your child's shoes. Never use adult shoe strings in his shoes. They are too long and may trip him.

**BULLETIN BOARD USEFUL**

A bulletin board for the art work children bring home from school, for the special reports, the gold stars, and the collection of snapshots too, will encourage his interest in his school work.

### Children Need to be Taught How to Care For Their Feet

Teaching school children proper care and respect for their feet will go a long way toward helping them develop into healthy, sturdy children with erect postures.

The average school child puts a heavy strain on his feet which have not as yet achieved their full development.

Seeing to it that they have new well fitting shoes to wear back to school is not enough. The training starts by making sure the youngsters have enough shoes in their wardrobes to change frequently from one pair to another.

They should, in fact, never wear the same shoes two days in succession. This rule applies likewise to their stockings. Stockings, too, should be changed anew every time the child bathes his feet.

Twice a day is not too often for children to bathe their feet. And they should never be permitted to put on socks that are still damp with perspiration. Neither should they be allowed to

wear socks with holes in them. Repairs should be made before they are allowed to wear them.

Care of toenails, which smart parents will insist on inspecting occasionally, is very important. Condition of the toenails will indicate, frequently when little feet have outgrown shoes. Plenty of toe room is essential to the health of growing feet. Toenails should be trimmed straight across and not shorter than the flesh.

Teach children to avoid getting their feet needlessly wet. Be sure they are provided with rubbers or galoshes for damp weather. Insist that they change from wet shoes and stockings to fresh dry ones, immediately, bathing their feet when the change is made.

Remind them that feet should be carefully dried, especially between the toes, after the bath, and encourage them to use powder for further protection.

Social items can be phoned to 1600.

Some Smart New Clothes for First Timers

HIS FIRST DAY at school and the many more to come call for clothes that promise comfort and lasting wear. Here, a 2-piece set that includes a shirt and trousers, both in sturdy, washable corduroy, that is easy to launder.

RECESS FOR A BEGINNER so she can show off her fresh white blouse and grown-up tweedy denim jumper dress that so readily combines with other blouses, thus affording countless changes for school. Sanforized.

FOR A HAPPY KINDERGARTENER and a healthy one, too, mother selects a snug, designed-for-action snowsuit. This one keeps out the cold with hidden wristlets at the sleeves and elastic at the ankles. Zelan treated to be water resistant.

Cotton Also Miracle Fabric . . . . .

Cotton is as much of a miracle fabric as the new man-made fibers such as nylon and orlon. The versatility of cotton, makes it a good year-round fabric. And you can begin looking for "winterized" cottons now as fall clothes appear on store racks. Many cotton dresses will be seen that are suitable for fall when light summer cottons are not appropriate. Look for dark, plain colors and for cotton prints that have dark backgrounds. Gingham plaids and checks that

often remind us of woolen fabrics will be available in rich, fall-leaf colors. Prints with a non-cotton look of rayon, silk or wool can be found in long-sleeved styles, and stripes with shaded or shadowed treatment will seem almost like wool. In back-to-school clothes, tweedy cotton plaids for dresses will be serviceable investments. Taffetized cottons—so good for summer—will be in dressier styles. Satin-strippes cottons and printed cotton corduroys and

velvetens for young styles are in the fall fashion picture. A word of caution, though—look for a label to indicate washability of these new winter cottons. A label should tell whether the new, special finishes require dry cleaning or not. And check the shrinkage. If the garment is sanforized the shrinkage will not exceed one per cent, which would be satisfactory. But two or three per cent shrinkage will make a big difference in the fit of the garment.

Shoe Quotas Cited as Helping Growing Children to Health

Healthy school children up to eight years of age need from four to six pairs of shoes a year, in order to meet their growth requirements, say the foot health authorities. As they grow older, up to the age of 12, they may be able to get along with four or five pair a year. After that they will require

a minimum of four pairs each year, but usually not more than five, if quality shoes well fitted, are chosen, up to the time they are sixteen. After sixteen, size does not change radically, but full bone and tissue development is not reached until they are 19 or so. Three pairs of shoes is cited as a minimum per person per year. Less would not make way for recommended daily changes. SANDWICH HINT Raw chopped spinach adds color and valuable nutrition to egg salad sandwiches.

Bobby Sox Back With Heavier Cuffs . . . . .

Teen agers are becoming bobby sox conscious again. That's the latest word from high schools around the country. This time the accent is on heavy double and triple roll tops, to provide as bulky a cuff as possible. The heavier the cuff, the more stylish the miss who wears it.

Many high school girls favor sox that are almost knee high, but roll them down until the cuff is built up to the required imposing proportions. Dissatisfied with even this effect, other girls are resorting to padding their ankle cuffs with cotton in order to

create the desired bulk. Quick to fall in line with the trend, manufacturers are now offering, a whole array of heavy-weight bobby sox with novel cuff constructions and heavier yarns, such as spun nylon, in the cuff only.

# Proper Tools for Learning Give Child a Better Start Give Him Fresh Start Toward Practical, Balanced Wardrobe

From the moment your youngsters step out of the house on their way to school, the equipment they carry will influence the pride they take in their classroom work, and the eagerness with which they learn and execute their school assignments.

That's why such things as brief cases and school bags and all the tools of learning, such as pencils and pens and rulers and notebooks tucked away in them,

should be chosen with care. Just as dad is completely equipped for his own work with "tools" in which he takes pride, so should the school child be equipped.

The school bag comes first, for it is the container, and it is carried out in the open where everyone can see. Let the child share in choosing it, for, if he likes it, then you can be sure that he will begin to learn orderliness in ar-

angement of personal possessions. School bags are available in a vast variety of designs and fine materials, in handsome leathers and colorful plastics, some with outside pockets for carrying lunch, many with inside compartments in which everything will find a place.

Popular designs range from the duplicate of the diplomat's brief case to the bags that look like

camera cases. And for the girls who love plaids and stripes and striking colors, the variety is endless.

Look for the sturdy features that mark today's school bags, such as corner re-inforcements, metal buttons on the bottom to provide a safe resting place, double stitched seams, and extra-heavy zippers.

Once the roomy well balanced bag is chosen, then comes the

selection of the "tools" that are to go in it. Pens and pencils come in matching sets that also are a good match for those dad uses. They are frequently available in cases of their own, sometimes equipped with clips for attachment to a belt or an inside pocket. Care should be taken to select reputable makes of pens and mechanical pencils, to insure against leakage and jamming.

Notebooks can be purchased in handsome leathers or brightly colored plastics in a variety of long-wearing finishes. These, as well as almost all other school supplies, can be monogrammed or inscribed with the child's name to encourage a feeling of personal pride.

Social items can be phoned to 1600.

In the spirit and letter of the newest idea introduced into the realm of men's wear this year, will be found the perfect formula for furnishing Junior with the clothes he needs for the new fall term.

The idea, first introduced for grown-up men, is concerned with the selection of the right clothes at the right time, for wear on the right occasion. And it is as applicable to the younger generations, including the first termers, grade schoolers, teen agers and college lads—as it is to Dad and Uncle George.

Basically, it projects the idea of the balanced wardrobe selected and used on a rotating basis. Happily for parents interested in encouraging Junior to be more attentive to his own personal appearance, the plan stimulates more frequent change of clothes. And this in turn is a wonderful road to economy for his clothing budget, because it means giving suits and slacks and jackets a chance to "rest," and "hang out," which greatly lengthens their life.

What better occasion than the beginning of a new school term, to bring Junior's wardrobe planning into harmony with dad's. A careful checkup of his requirements now, and early shopping to insure most desirable selections and perfect fit, are urged.

The check should cover everything the lad wears, from the top of head to the tip of his toes. Hats and especially caps, with much approval from mother, are happily back in favor. Shoes—good sturdy ones—are musts for the active lad, who will have a broad selection of styles, heavily influenced by grown-up he-man fashions, to choose from.

Though separate jackets and slacks plus colorful sweaters, furnish the highly variable basis for

the traditional school boy wear the trim new all wool suit is a must.

Better yet, at least two suits, one of a sturdy tweed and the other of a somewhat more dressy flannel. He will need a highly presentable one for special occasions, to give him that "man of distinction" air, just as much as he will need more rugged attire fitted for rough and tumble playground activity.

Similarly, every boy should have two overcoats at least, one for dress, one for everyday wear. The trim top-coats with the zip-in linings can well serve for all weather wear on both dress and school occasion.

The new and shorter jacket-like overcoat of durable water repellent material, best in all wool, will delight his masculine sense of correct wear. Some come with leather lined pockets strong enough to carry all his treasures.

Plenty of shirts of both dress and sports types are earnestly advised as part of the right clothes at the right time principle, to encourage neatness. The same goes for socks which he should never be allowed to wear more than once without washing.

The most desirable objective parents can aim for as the new school term approaches this year is to give Junior a fresh start that will make him as ready for a public appearance with the debating team, as for the more exacting rough and tumble of daily activity.

With a fresh start on his wardrobe, making way for frequent changes, chances are you'll be reversing his normal trend, which is to wear out his clothes before he outgrows them.

Fill in purchases then become necessary less frequently and this is always a help to the growing boy's clothes budget.

### Stock Home Medicine Chest For Coming School Season

No home where there are school children can have its medicine chest anything less than 100 per cent efficient. In addition to the toiletries in daily use, your medicine cabinet should contain articles that can be used in minor accidents and medications that "sick patients" may require.

For small cuts, burns, and bumps keep the following on hand: antiseptic, gauze, adhesive tape, adhesive bandage, absorbent cotton, applicators, tweezers, burn remedy, eye wash and eye cup, lotion for insect bites and stings, aromatic spirits of ammonia, green soap.

If you have to call a doctor for

a sick child, it will help him to advise you if you can tell him whether the patient has a temperature and what his symptoms are. If the illness is slight, the doctor may advise simple medication.

Keep the following in the medicine chest: fever thermometer, aspirin, bicarbonate of soda, laxative (do not use for stomachache), rubbing alcohol, cough remedy, chest rub, petroleum jelly, drinking tube.

Too large to be kept in the medicine chest are the following supplies which should be available in case of need: enema bag, hot water bag, ice cap and ice collar, heating pad, disinfectant, bed pan.

### Grade School Girl Chooses Major Wardrobe Items First

First choice on the grammar grader's back to school shopping list are her major wardrobe items like skirts, jumper dresses and classic plaid cotton dresses. Then come the smaller fashions. This order insures choices that promise a good blend or contrast in color with clothes already selected, and so, a maximum of ensemble possibilities for school-days ahead.

and sweaters, for example, are most important in her "smaller" wardrobe item choices. They serve as the basis for mixing and matching. The same pretty Gibson Girl style or middie blouse can be teamed with either a skirt or a jumper dress.

A twin sweater set, selected in one shade, or, perhaps a different color for each sweater, can be worn together with skirts, separated and worn individually over

blouses or beneath jackets and jumper dresses.

One jacket, like a tiny above-waist boxy jacket in a sturdy warm fabric, can be chosen in a color that blends or contrasts most effectively with other clothing in her classroom wardrobe. It then can be worn with skirts to achieve a suit look or ensemble over jumpers and even dresses to keep her snug and attractive.

Vestees are snug and com-

fortable additions to every grammar school girl's wardrobe. And, when selected to meet the color demands of skirts and blouses, already on hand, can be used to offer a completely new appearance to her outfits.

There are the new fill-in bibs, that are offered in washable fabrics and colors to contrast prettily with other classroom ensembles.

### Colorful Kerchiefs, Dickies, Hankies Other Accents Dress up Her Costume

Helping to add up to a pretty back to high school total are the many accessories a teen ager can use to lend fresh and appealing touches to her classroom separates and dresses.

Take gaily colored kerchiefs or hankies, for instances. They can be tucked into belts, peep out in a neat criss-cross effect from under blouse collars, or be tied around her horse's tail hair-do.

Teen agers, this year, will look

more than ever to little dickies, in a variety of colors and fabrics, to lend a fresh and well groomed air to jackets, jumpers and open neck blouses and dresses.

Weskits, too, promise to take their place as an important part of high school wardrobes. They can be had in all the newest colors and fabrics, including reversible and quilted types, for wear over blouses, sweaters or even alone.

### Seek Help on Campus Togs

Young men going to college for the first time this fall will be wise to take their favorite clothing merchants and haberdashers into their confidence when they go to the stores to be outfitted for the campus.

While basic wardrobes are fundamentally the same in all institutions of higher learning, there are two points freshman should take into consideration if they want to be accepted quickly by their new pals.

First, college men are the most fashion conscious of all males, and actually originate many new male styles. Second, they are fastidious. The clothes you chose may be right for one campus, but frowned upon in another.

Better retailers and haberdashers are equipped with information on what is right for the college you've chosen. Let them know where you are going and they will be better able to guide you.

The complete basic wardrobe for the college man this year calls for neatness and trimness. But it also makes way for the rugged wear so much favored by all college men.

It's not quantity, but quality and careful selection of clothes that can be mixed and matched, that will make the college man's wardrobe both practical and fashionable for the campus on which he will wear them.

**HER STARTING WARDROBE** includes a coat as neat and nice for a gala outing as it is for class. This Princess style coat, has snug matching leggings (not shown). In wool broadcloth. Kiddie Coat style.

**WRAP THEM**

When preparing school lunches, wrap sandwiches, cookies, fruit and raw vegetables in separate pieces of wax paper for freshness and a "surprise package" look.

**OVERSIZE HANDKERCHIEF**

High school girls will enjoy the novelty of using an over-sized handkerchief to carry pencil and pen, eraser and notes and other odds and ends.

*It is with pride that the Board of Education announces plans for the opening of the Plymouth Public Schools. Students will report on Thursday, September 4 and teachers on Tuesday, September 2. The two day pre-school planning conference for teachers is set aside to prepare for the opening of school.*

*Members of the Board of Education, the staff and the parents have been working together on a school improvement program. This past year the School Community Planning Group, serving in an advisory capacity to the Board, made recommendations which resulted in approval by the citizens of a bond issue and an additional tax levy to cover operating costs. Money from the bond issue is to be used to build an elementary school and modernize the high school. This program is under way and will be completed in 1953. It is hoped that the Planning Group will continue to study the school needs and make recommendations to the Board.*

*Good schools are made through constant interest, participation and support on the part of citizens. Plymouth can point with pride to the new modern elementary schools, spacious gymnasium, the beautiful swimming pool and the attractive music room as evidence of an active and alert citizenry.*

*As we look forward to the coming year we are mindful of our responsibilities in directing the community school system. We hope to merit the confidence you have placed in us.*

*We extend, to each and every resident of this area, a welcome to visit with us, examine the curriculum, discuss our mutual problems and inspect the fine school facilities which belong to you, the people.*

**Our School is Your School ... and Your School is what it is Today Because of  
The Faith You Have in Our Work and in the Future of Plymouth!**

### Choose Useful College Gifts

Gifts for college bound youngsters about to enter a busy and varied life away from home, should be good as well as practical and inexpensive.

And they can be all three when chosen thoughtfully for long use. Take for example the alarm clock which is a must.

Why not choose one of the distinctive new travel clocks, which fold into their own neat case, are able to ring loud enough to awaken anyone, and lend an air of distinction to the students' fittings.

There are other gifts for both girls and boys to be found in jewelry stores where gifts of distinction that will be treasured a long, long time will be found.

Handsome initialed belt buckles, cuff links, and tie clasps are

suggested for the boys. Fine pen and pencil sets and rings are perfect for both boys and girls as is the traveling alarm clock. So are identification bracelets.

The girls will like fine compact and bags for use at college parties, too, as well as special occasion costume jewelry.

Surprisingly, to some, college boys welcome traveling electric irons, which the girls all want. The boys say these save them pressing bills.

The list of going away gifts for either or both includes small radios and record players, and also the records.

The life of a school child may depend on how carefully you drive.

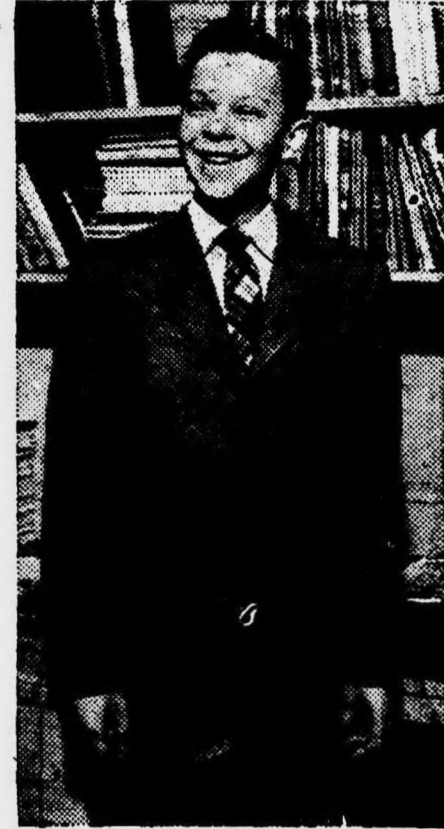

### SCHOOL CALENDAR 1952-1953 Plymouth Township School District

September 1	Monday — Labor Day
September 2	Tuesday—Pre-School Planning Conference
September 3	Wed'day—Pre-School Planning Conference

### Junior Models Right Clothes for Going Back to School

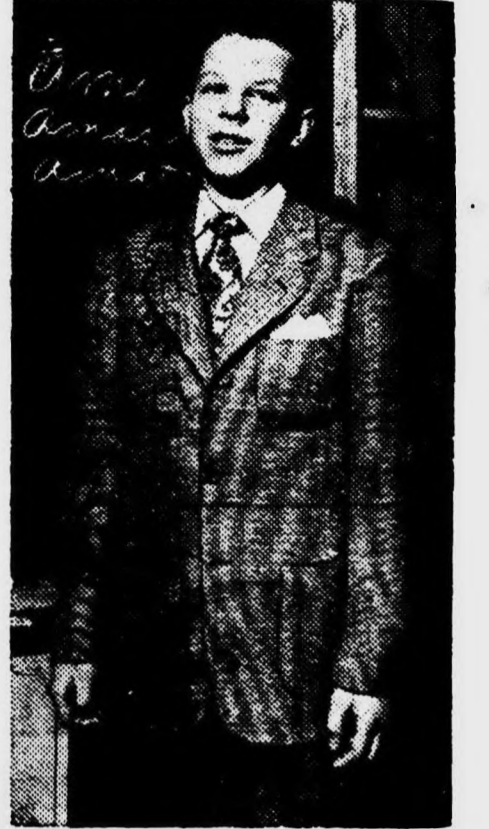

**GOOD ALL AROUND** top coat for young men of all school ages is this Venetian covert, lined with all wool plaid in bright colors. Often available with zip-in lining.

**FUTURE CAREER MEN** go in for training before teachers and school mates by making a good impression on the right occasion, with trim business like all wool suits.

**MADE TO TAKE IT** is this jacket of durable melton, warmly lined with quilting, and also water repellent. It has button-on back belt, side shirring and horsehide lined pockets.

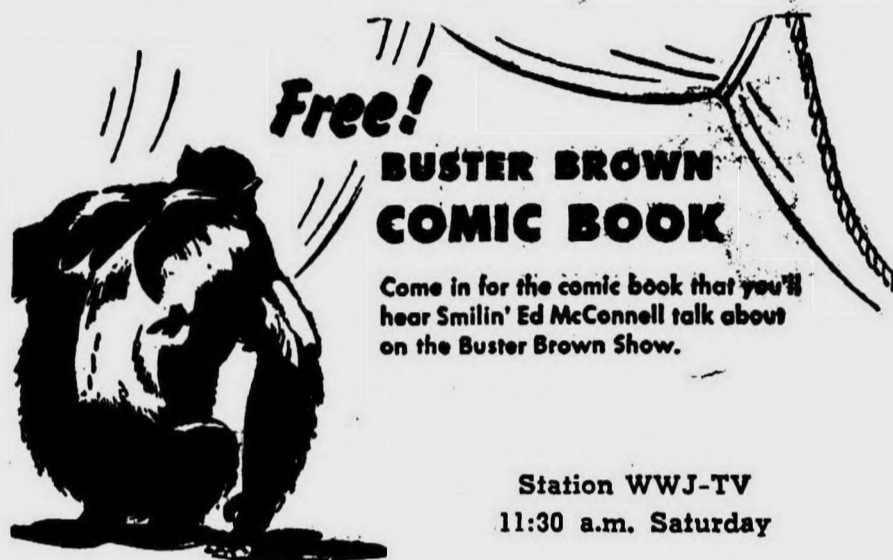

**THE SEPARATE JACKET** is a must in his wardrobe. This all wool tweed three button model presents a modern facade and an opportunity for variety with different slacks.

### coming soon!

And in plenty of time for the school season—DAVIS & LENT'S new, modern & complete store for men & boys (6 to 18).

Watch for our GRAND OPENING with Plymouth's largest selection of the season's newest apparel for DAD & LAD.

To Be Located at 336 S. Main St.

### Free! BUSTER BROWN COMIC BOOK

Come in for the comic book that you'll hear Smilin' Ed McConnell talk about on the Buster Brown Show.

Station WWJ-TV 11:30 a.m. Saturday

**Fisher's** Your Family Shoe Store 290 So. Main St., Plymouth

**PLASTIC SMOCKS**  
Practical and pretty too for the kindergarten set, are plastic smocks. Fine for painting, modeling and floor play, these smocks can be wiped clean with a damp rag and they require little care. Choose floral prints, bold stripes or transparent plastic fabric.

**LEARN THIS EARLY**  
The earlier high school girls learn that a quick splash at the face and throat just isn't enough to remove grime and make-up, the happier they're bound to be about their complexions. It takes deep pore cleansing with plenty of soapsuds and warm water to produce a healthy glow.

**THE BRUSH-OFF**  
Initialed military brushes "just like Dad's" will make the youngster proud of his good grooming tools, and he'll use them often.

### For College

### CORDUROY IN VARIETY

Corduroy, classic fabric for back to school togs, will appear with a variety of new faces this year. It will assume the look of yarn-dye flannel with a special print. It will look like herringbone or two-tone tweed. And a tie print will give it the characteristics of silk.

### RELAXED MEALS

Don't force Junior to eat lunch or supper right after play time. The excitement and tension of active games should be followed with a short rest period before meals. This will also give him time to wash up and comb his hair before sitting down to the table.

**EXCLUSIVE in PLYMOUTH!**

**\$1 CASCADE Thin Lead MECHANICAL PENCIL**

This lead movement, de luxe streamlined model. Black, green, coral or maroon. Nickel-plated tip and clip. Cash Value 1/10 of 1 Cent. A **Rexall** EXCLUSIVE

**AMONG COLLEGE MEN** the finger tip length surcoat with flapped pockets is destined to be a favorite this season while the top coat, right, is a wardrobe necessity. The former in Donegal tweed, latter with convertible collar. The trouser worn high to reveal red sox and collegiate cordovans.

**STUDY IN COMFORT** is preferred by college men and assured by smart selection of pajamas and robes, and they'll like the new sport ease wool pattern sox with attached sponge rubber soles.

**TOO LARGE IS BAD**  
Do not buy shoes too large in order for children to get more wear from them. A shoe which is too large is just as uncomfortable as one that is too small.

Avoid painful chapping and rough hands by encouraging youngsters to wash and dry their hands thoroughly and use a protective cream or lotion after each scrub.

### Roger Babson Says---

Babson Discusses Salesmen  
 Babson Park, Mass., August 21. I am bothered by the very unfortunate attitude we have developed recently toward sales and salesmen. Successful selling is the keystone of free enterprise and the selling profession must be revitalized for the good of our economy as a whole.

**Negative Attitude Toward Selling**  
 A recent FORTUNE magazine poll of mothers' attitudes toward selling as a career indicated that most mothers want their sons to become anything but salesmen! These mothers have the idea that a product should sell itself on its own merits; that there is something degrading about selling. In short, the idea of selling is revolting to many of them. I believe FORTUNE is wrong.

I wonder how many persons were unfavorably influenced by the movie "Death of a Salesman". It is tragic that Willy Loman, the leading character of the play, was ever tagged a salesman. One critic in discussing the film has had this to say: "The salesman, not as a commercial group, but as a social type engaged in many different careers, is a man who produces nothing, has creative contact with no object, and is in

**For Zipper Repairs**  
 CALL  
**Tait's Cleaners**  
 Phone 234 or 231

truth the epitome of the taker—" This charge that salesmen are parasites is a pretty serious accusation.

**Why Have Salesmen Lost Ground?**  
 Immediately following the war years, many over-age sales personnel retired. The young men taken on were given a bad start. They didn't have to sell because they didn't have anything to sell. The competition was among the buyers, not the sellers; so they never really learned to sell. It wasn't their fault; they were simply products of the times. Unfortunately, the few opportunists among them gave the profession a black eye. Too many families, desperate for a roof over their heads, were fleeced by over-zealous real estate salesmen. Too many are fed up with the attention they never got from certain salesmen of automobiles, electrical appliances, televisions, furniture, and the like during the post-war era of shortages. Too many people have had to do the salesman's job for themselves for so long that they have become wrongly prejudiced against selling as a career.

**Selling Important to Free Enterprise**  
 People haven't been buying. Reports of more than 500 companies for the first quarter of 1952, compared with 1951, showed profits off anywhere from 61 per cent in textiles, to 30 per cent in paper, to 17 per cent in electrical equipment. Obviously, some of this loss is due to increased taxation. But the real reason is that people aren't buying. And they're not buying because they are not being properly sold.

Seasoned management should have learned out of these two hectic years since June, 1950, that our country has the phenomenal ability to produce both war material and consumer goods simultaneously and in abundance. Obviously, this is good for people because once again this means sharp competition. Competition means more efficiency and lower prices. Lower prices mean a higher standard of living for more people.

**Good Salesmen Have a Great Future**  
 In order for free enterprise to remain healthy, it must have not only the ability to produce, but also the ability to sell what it produces. Business remains good only when there is a demand for goods and services. It is up to the newspapers and salesmen to create the demand and provide the stimulus for sales. Good advertising and good salesmanship are basic to our prosperity and to our way of life.

The advertising and selling professions hold a great future for usefulness, satisfaction, and unlimited opportunity for the youth

of our land. Those entering the advertising profession should, however, remember that they will never get far by merely writing "good copy"—they must sell it and get some prospective advertiser to use it. Advertising needs good salesmen as well as real estate, automobiles and refrigerators.

**Schedule Health Tests For Students, New Instructors**  
 New students and teachers are in for a thorough health exam set up as a preventive measure from both a health and scholastic standpoint.

The instructors may choose their own physicians for the health exam. Costs of the necessary tests will be paid by the school.

Students will get their exam direct from the school's Health Clinic, located in the high school, or will be visited by the health examining team in the school they are attending. Schedule of health examinations is not yet available.

In addition to physical exams, the school health service is sponsoring a teeth fluoridation program that costs the students just 50 cents a treatment. There are four such treatments that add up to less tooth decay and a big savings to parents. Fluoridation generally costs about \$15 for the complete treatment.

Also on the school exam schedule throughout the year, are hearing and sight examinations aimed at corrective diagnosis of sight and hearing ills.

The school Health Clinic is not authorized to administer medical treatment.

**JUNIOR GROOMING**  
 If you would have Junior look as well-groomed all through the school day as he does when he leaves the house, give him a pocket comb with its own leather case as an incentive to all-day neatness.

## VACATION

Everybody's doing it, and don't you agree it's the right thing if it may be later than we think and we can't take it with us. We hope to be Coming Around The Mountain, heading for home about Sept. 1.

**"All my life I've wanted to own a Buick"**

**POWER STEERING**  
 on the Roadmaster and Super

IT seems that owning a Buick is something that a lot of folks dream about—plan for—and finally do. We say that because, so many times, they say so in words like those above. Those words make us happy, of course—happy to know we sell a car which means so much to those who own it. But they make us feel just a little bit sad as well—sad to realize all the years of fun such folks have been missing for no good reason at all. For the fact is this: If you can afford any new car, you can afford a Buick. You can afford the thrill of bossing around that big Fireball 8 Engine that purrs forth a mighty flow of power. You can afford the gas bills—as any owner of a 1952 Buick will tell you—because that high-compression, valve-in-head marvel gets a lot of miles from a gallon of fuel. You can afford the extra luxury of a real million dollar ride—the silken smoothness of Dynaflo Drive\*—the extra room and comfort and style that have put Buick popularity right up at the top of the list, next to the "low-priced three."

So if you want to own a Buick—there's just one thing to do: Come in—pick the one of your choice—

and let us show you how close the figure that goes on the bill of sale comes to what you'd pay elsewhere. As we've said before, your first car can be a Buick. Why not take the Big Step right away—today?

Equipment, accessories, trim and models are subject to change without notice. \*Standard on Roadmaster, optional at extra cost on other Series.

**Sure is true for '52**

When better automobiles are built **BUICK** will build them

### ZEPHYR VENTILATED AWNINGS

There is a Zephyr Patented\* Awning to Protect and Beautify Every Home and Business Building

 Concave Window Awning (8-11) suitable for most Homes and Office Buildings.

 Convex Window Awning especially adapted for casement windows.

 Concave Door Hood (8-6) designed for both Home and Business entrances.

 Convex Door Hood (C-3V) particularly suited to doorways facing West.

 One of many Zephyr Awnings for street-level windows and store fronts.

 Zephyr Concave Canopy (8-8) for Porches and Patios.

Let us show you how little it costs to install permanent, trouble-free Zephyr Awnings on your Home or Business Building. Call or write for free literature, estimate, and consultation.

**FIRST CHURCH OF CHRIST SCIENTIST**, Sunday Morning Services, 10:30 a.m. Sunday Evening Services, 7:30 p.m., every fourth Sunday of the month. Sunday School 10:30 a.m., for pupils up to twenty years of age. Everyone desires to have what is called a keen mind. In the Lesson-Sermon under the subject "Mind", to be read in all Christian Science churches on Sunday, August 24th, it will be shown how one may have a true understanding of Mind. The Golden Text is from Psalms (67:3,4): "Let the people praise thee, O God; let all the people praise thee. O let the nations be glad and sing for joy; for thou shalt judge the people righteously, and govern the nations upon earth." Among the Bible citations is this passage. (Isa. 40:28): "Hast thou not known? Hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, neither is weary? there is no searching of his understanding." Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "A limitless Mind cannot proceed from physical limitations. Finiteness cannot present the idea or the vastness of infinity." (p. 256)

# Hints for Plymouth Homemakers

## Chicken, a Good Buy in Michigan Now And For Next Few Months

"Chicken Every Sunday" is fast becoming "Chicken Any Day" in Michigan.

Chicken has been a good buy compared with the red meats this spring and summer and economists look for it among the good meat buys during the next couple of months. In fact, chicken has been a year-round good buy for Michigan families.

Of the three ways chicken is sold—fresh, fresh frozen and canned—the canned form is usually the most expensive. If properly frozen and handled, the frozen product is exactly like the fresh. Both frozen and fresh chickens are reasonable in price and of good quality.

The most common kinds of chickens homemakers can select from the store this month are fryers and stewing fowl.

Fryers weigh from 1 1/2 to 3 pounds ready to cook. One fryer will usually serve 4 to 5 persons, depending on the size of the pieces. Many families have found cut-up fryers, sold by the piece, to be most desirable and economical for them—particularly if their family has definite preferences for certain pieces of chicken.

Stewing fowl are mature birds. They weigh from 3 pounds up and will serve four to eight people, depending on size and what is added to them. Stewing fowl can often be made tender and tasty if it is simmered for an hour, then baked in a covered baking dish until it is steamed tender.

Preparing chicken successfully is a matter of using low temperature. For frying, the temperature is turned low to medium after browning. For stewing, the birds will tenderize more quickly if they are allowed to simmer rather than boil rapidly.

Regardless of the type you buy, or how it is prepared, when including chicken in the menu you can count on feeding your family a good protein food, a tasty menu and at reasonable cost.

Ever hear of combining chicken and fresh fruits in a salad? They add up to a bit of good eating, just right for a hot weather luncheon or a late summer supper.

**Westchester Chicken Salad**  
3 cups diced cooked or canned chicken  
1 cup diced, unpared red apples  
1 cup pineapple tidbits, drained  
1 cup diced grapefruit sections, drained  
Mayonnaise  
Water Dressing

Combine chicken with apples, well-drained pineapple tidbits and grapefruit sections. Mix well. Add enough mayonnaise to hold ingredients together. Serve on water dress with additional mayonnaise if desired.

Yield 8 servings

**BETTER EARING**  
by Jean Allen

**BEGINNER'S CANNING CORNER**

A cupboard full of luscious summer fruits canned during the peak of the season will give you a well-satisfied feeling.

**OH BOY—FRESH FRUIT WHEN THE SNOW FLIES!**

Make the job easy by doing a few jars at a time until you get acquainted with the equipment and timing.

**Let's Begin**

Get down everything you will need before you go to the store to shop. Having the right canning equipment is as important as buying the best fruit.

You will need a sharp paring knife, a wooden spoon, measuring cup, large bowl, four to six quart kettle, a water bath canner with a rack or a large metal can, fruit jars, and jar caps.

Tongs for lifting the jars and a wide-mouthed funnel are handy to have but not absolutely necessary.

**Buying Jars?**

Wide-mouthed fruit jars are easily filled without danger of breaking fruit such as halves of pears and peaches. The jars usually come complete with lids in half-pint, pint and quart sizes.

**A Choice of Caps**

The metal screw bands and self-sealing metal lids are becoming more and more popular because of the ease in sealing. The screw bands may be re-used but the self-sealing lids must be new with each use.

The zinc cap with a white porcelain liner is used with a rubber ring for sealing. These rings should not be re-used.

**How Many Jars?**

One-half bushel (25 pounds) of pears or peaches will yield eight to twelve quarts of canned fruit. One twenty pound crate of plums will fill eight quarts. Fruit that is pretty enough to use on a fresh fruit plate is right for canning. Quality is preserved, not improved.

Direction for packing the fruit into the jars and processing it in a hot water bath will be found in the carton of new jars and lids. Follow the directions to the last comma and period to be sure of fine canned fruit for winter meals.

**Swiss Decker Sandwiches**

12 slices toast  
Mayonnaise  
6 slices boiled ham

Spread the toast with mayonnaise. For each sandwich place a slice of ham on a slice of toast, cover it with coleslaw, a slice of cheese and another slice of toast.

**Butter Sponge Cake**  
Easy to Prepare Dessert

Light as a summer cloud, golden as summer sunshine—that's new Butter Sponge Cake! Best of all, it comes with a baked-in icing that's perfect for these easy-does-it days.

**Butter Sponge Cake**  
2 eggs  
1/4 teaspoon salt  
1 cup sugar  
1 teaspoon vanilla  
1/2 cup milk  
1 tablespoon butter  
1 cup sifted, enriched flour  
1 teaspoon baking powder  
1 tablespoon grated orange rind  
3 tablespoons sugar

Beat eggs very light. Beat in salt, sugar, vanilla. Heat milk and butter to boiling point; add sifted flour and baking powder; beat. Bake in greased, 8-inch square cake pan in moderate oven, 350 F.; 25 to 30 minutes. When cake is done, sprinkle top with orange rind and sugar, mixed; turn off oven heat; return cake to oven for 5 minutes.

**Glaze Hams for Taste Variety**

Thirty minutes before the end of baking time, remove the ham or picnic from the oven, score fat (cut in shallow crisscross gashes), stick with cloves, spread with a glaze and return to oven (325 F.).

1. Brown Sugar Glaze—Mix together 1 cup brown sugar, 1 teaspoon dry mustard and enough orange juice or pineapple juice to moisten. Or combine 3/4 cup brown sugar with 3/4 cup crushed pineapple.
2. Honey Glaze—Mix 1 cup honey with 1/2 cup orange marmalade; or use honey alone.
3. Molasses Glaze—Spread ham with 1 cup molasses.
4. Jelly Glaze—Mix together 1 cup red jelly with 4 tablespoons horse-radish.
5. Cranberry Glaze—Mix together 1 can whole or jellied cranberry sauce, mashed with a fork, and 1/2 cup light corn syrup; or use cranberry sauce alone.

## Season Sandwiches With Dressing

Choosing seasoning for a sandwich is as important as choosing the filling itself. Salad dressing or mayonnaise does for a sandwich just what a fruit sauce does for a steamed pudding, or chocolate sauce does for ice cream—turns a "plain Jane" into a luscious creation. Give salad dressing an opportunity to glorify all of your favorite sandwiches. Swiss Decker Sandwiches, a meal-in-one-type, please with their spread of mayonnaise and filling of boiled or baked ham, coleslaw and mellow Swiss cheese.

## Apricot-Berry Cobbler Has Taste Appeal

An easy cesser that's downright good eating! Made of fresh fruits with a one-bowl baked-on topping.

**Filling:**  
1 lb. (10 medium sized) apricots  
2 cups whole raspberries  
1 cup sugar  
2 tablespoons cornstarch  
1/4 teaspoon salt  
1/4 cup orange juice (fresh or frozen)

**Topping:**  
1 cup sifted all-purpose flour  
1 teaspoon baking powder  
1/4 teaspoon salt  
1/2 cup sugar  
1 egg  
4 tablespoons melted butter or margarine  
2 tablespoons milk

Wash and drain fruits. Pit unpeeled apricots; quarter. Layer apricot and raspberries in a 1 1/2 quart casserole. Sprinkle on mixture of sugar, cornstarch and salt. Drizzle on orange juice. Bake, uncovered, in a moderate oven (350 F.) 15 minutes. During baking, make the Topping: Stir dry ingredients into a bowl. Stir in, all at once, egg, melted butter or margarine and milk; beat until smooth. Bring casserole out of the oven, drop tablespoonsfuls of the topping over fruit, quickly, leaving space between so juices can bubble through. Return to the same moderate (350 F.) oven to bake about 20 minutes longer or until topping is a golden brown. Serve warm or cold with its own juices or pour cream. Serves 4 to 6.

## Keep Soda Near For Burn Relief

Ouch! A burn! A nasty household accident that couldn't be helped. Lucky you to know an inexpensive and safe way to quick relief—U.S.P. baking soda does the job.

Soak sterile gauze in baking soda solution (three tablespoons to a quart of warm water), apply to the burn immediately, and keep moist with more soda solution. If it's a serious burn, call a doctor immediately, but the above treatment will help reduce the pain.

An emergency treatment for large scale burns is complete immersion in a tub of warm water to which a pound of baking soda has been added.

Baking soda can also come to the rescue when sunburn is the problem. Small area burns are usually the most painful, and especially when they are on the backs of knees or wrists, where the skin is frequently touched or stretched. Such burns are quickly eased; make a thick paste of baking soda and cooled, boiled water. Spread this soothing mixture on the area, and cover with sterile gauze. Keep the gauze moist with more cooled boiled water.

And after a day spent swimming, take the all-over treatment. Lower your aching body into a cool soda bath—one half pound to the tubful—and feel the instant relief. While you let the baking soda go to work to soothe that tingle, why not promise to be more careful in the future?

## These Events Were News

### 25 Years Ago

A rare occasion was celebrated at the comfortable farm home of Mr. and Mrs. John Mott in Canton township, on Thursday evening, when their family and other relatives gathered there to remind them of the fifty years of happy wedded life that have passed by. Guests were present from Detroit, Wayne, Carleton, West Sumpter, Sheldon, Northville, Redford and Plymouth.

All plans have been completed for the celebration in honor of the 100th anniversary of the beginning of Northville and the home-coming of its former residents next week Friday and Saturday. The nearby community has extended a general invitation for everyone in this part of the state to come and enjoy the special features that have been arranged.

Dr. Clarence Baker, who has his Plymouth office at 217 North Main street, will leave August 28, for a trip to Montreal, Quebec, Ottawa, Canada and points in the state of Maine. He will be absent until September 15.

The Globe Furniture Company of Northville has just received an order from a large Jewish temple in Chicago for new pews for the entire church. The shipment will fill two big freight cars. It will be made in September.

Mrs. Byron Wilkin and daughters, Ruth and Viola, spent the week-end at Niagara Falls.

Mr. and Mrs. Harold Joffe are making a motor trip to Washington, D.C., Atlanta City and other points.

Miss Marie Johnson was maid of honor at the wedding of Miss Eva Webber, of Detroit, and Mr. Harvey Orr, of Cheboygan, Tuesday.

The Central Public Service Company of which the Plymouth branch of the Michigan Federated Utilities is a part, has an advertisement in today's Mail, in which they are offering preferred stock, \$7.00 dividend series, of that company to the citizens of Plymouth and vicinity.

The Ross greenhouses believe in signs, having had a large one erected on top of the boiler room and one at the entrance of the driveway.

Mr. and Mrs. Carl Wagenschutz are the proud parents of a son, born August 7.

## 10 Years Ago

Unusual honors were conferred Monday afternoon by the United States Army and Navy upon the management and employees of the Plymouth plant of Kelsey-Hayes Wheel company for the spectacular record that is being made at the plant in the production of machine guns.

From 75 to 100 tons of scrap iron from the old King plant on Main street will soon be made into tanks, shells and battle-ships for Uncle Sam's fighting forces. It became known yesterday that Manager Edward C. Hough had ordered Daisy workmen to cut up into scrap iron the two big boilers that for years made the wheels go round in the old King plant. Not only are these two big boilers, that will probably produce somewhere near a hundred tons of scrap for the government, being cut up, but every machine in the Daisy factory is being discarded so that they can be made into bullets and battle-ships.

Members of the Plymouth Rotary club last Friday heard Jack Anderson, son of Mr. and Mrs. Harold Anderson, tell in a most interesting way of his experiences at the Boys' State at East Lansing during the past month. The young lad, with a number of other Plymouth boys, was sent to the Boys' State, where the youngsters set up their own state, county and city government.

Although reported by the war department as missing in action in the engagement fought by American troops on Bataan Peninsula with Jap troops late last winter, indirect information seeping through from various sources indicates that Joe Merritt, son of Mr. and Mrs. C. V. Merritt, may still be alive and with American troops somewhere in the Pacific.

## New "Early Red" raspberry lengthens season, boosts yield

A new red raspberry variety, named "Early Red," has been developed at Michigan State College's South Haven Experiment Station, after 20 years of breeding and testing. The "Early Red" starts producing berries early in the season when the crop is small and prices are usually higher. Plants are upright, tall, vigorous, hardy and very productive. The berries have good flavor and a long ripening season. They withstand canning without crumbling and freeze as well as Latham raspberries. For more information, call your County Agricultural Agent.

**"Daddy Longlegs" guards the nation**

This curious-looking device is a "thermistor." It's a speck of metallic oxide imbedded in a glass bead half the size of a grain of rice (or smaller!). The bead thermistor controls and measures the flow of electric current in radar sets used to guard the nation's defenses. It's also used in telephone equipment. Developed by Bell Telephone Laboratories and made by Western Electric Company, the bead thermistor is an example of the precision accuracy which has helped give America the finest telephone service in the world.

## New Outlook

TEEN'S CHOICE, the classroom dress that can have a different outlook every day with a change of accessories.

Local ration board No. 82-19 which serves the Plymouth and Livonia area announces that extra sugar allotments for institutional and industrial users will be granted for the four months of July, August, September and October. Additional sugar quotas for the four-month period may be secured now upon application at the ration board office at the Plymouth city hall.

Mr. and Mrs. Henry Fisher left Wednesday morning for a week's visit with relatives in Standish and Petoskey.

Kathleen Bloxson celebrated her twelfth birthday, Wednesday afternoon, with a garden party when seven girl friends joined her in out-of-door games and refreshments. Those present were Barbara Weed, Luella Chappell, Patsy Packard, Sally Gustafson, Nancy Lou Proctor, Clara Simonetti and Barbara Daniel.

Mr. and Mrs. Wayne Roe (Elizabeth Vealey) announce the birth of a son, Robert Paul, on August 12, in the Plymouth hospital. Weight six pounds and 11 ounces.

## Grueling Stock-Car Competition Proves

# HUDSON

## BEST BY FAR!

**AS YOU** know, it is impossible for a prospective buyer to accurately judge the relative merits of various cars through a casual examination or on the basis of claims.

Therefore, smart buyers are taking advantage of the record established in stock-car racing which affords an impartial test of the important features of competitive makes—features which largely determine owner satisfaction. In this rough, tough competition between cars just like you can buy from dealers, every make of car is compared for power, durability and safety—vital qualities in your daily driving.

With 30 victories in 34 starts already this year, Hudson proves it has these great qualities in measures no other car can match!

Hudson's rugged high-compression engines are famous for terrific power and performance. But more important, only Hudson has "step-down" design with America's lowest center of gravity. A Hudson hugs the road like it loves it and almost steers itself. Monobilt body-and-frame\* is the most durable, safest known!

Visit us and try a Hudson, or if more convenient, phone and a Hudson will come to your door.

\*Trade-mark. Patents pending.

## Textbooks to Cost PHS Students \$10

Education—at least the textbook way—will cost high school students from the ninth grade on between \$10 and \$12, according to estimate figures released by school book store officials.

Those estimates, they report, take into consideration wholesale costs of books with a minimum 10 per cent markup.

The way the book store operates is explained this way: The school orders needed textbooks and general school supplies direct from manufacturers at wholesale prices. To this is added a 10 per cent fee used to pay book store expenses, exclusive of any profit.

The book store will open its doors September 2 and from 8:30 to 11:30 a.m. and from 1:00 to 4:00 p.m. Its regular hours after these dates will be 8:00 to 8:30 a.m. and 12:00 to 12:30 p.m.

During the coming semester it is estimated the book store will serve over 3,000 customers and do a gross business in excess of \$10,000.

Beside school book costs, students participating in vocational programs will buy a vocational activities card. This dollar fee will be returned at the end of the semester if no material or breakage charges are levied against the student.

In the making for high school students is a Board of Education ruling that would make it possible for the high school to furnish ninth to twelfth graders textbooks "free of charge."

The measure first introduced during a school board meeting last June will run the gauntlet of Board of Education discussion and action sometime this fall.

If the measure is greeted with a favorable nod, upper and lower classmen alike will receive their textbooks from school stocks on a loan and return basis.

Currently, elementary and junior high students—through the eighth grade—are receiving their books without cost.

Much of the food value of carrots is directly beneath the skin, so prepare for the table by washing in warm water and scrubbing with a brush, rather than paring.

## Try Pork-Noodle Casserole Soon

Here's a budget main dish designed for an indoor "buffet" picnic—pork and noodle casserole. If you have a chafing dish, by all means use it for this serving.

It might be featured with a tossed garden salad, relish tray of spiced crabapples, olives and pickles, french bread and cantaloupe a la mode.

**Pork and Noodle Casserole**  
2 pounds ground pork  
1 8-ounce package medium noodles, cooked  
1 cup diced celery  
1 small onion, diced  
1/2 cup water  
2 teaspoons salt  
1 can condensed tomato soup  
1 cup grated cheddar cheese  
1/4 cup buttered bread crumbs

Cook celery and onion in 1/2 cup water until tender, about 8 minutes. Brown pork and add undrained celery and onions, salt, noodles and soup. Place in a 3-quart casserole. Cover with grated cheese. Sprinkle with buttered crumbs. Bake in a moderate oven (350° F.) for 25 minutes. 6 to 8 servings.

**PLACE OF HIS OWN**  
Unpainted wall shelves and bookshelf units can convert an ordinary table into a student's "study corner." Be sure the table is of correct height for writing and that the light is properly directed.
