

Mr. and Mrs. Jacob Hanna Jr.

Nancy Beegle Weds Jacob Hanna In Recent Candlelight Service

Shimmering candelabra and large baskets of white peonies and stock formed the setting for the impressive candlelight ceremony on Saturday evening, May 22, uniting Nancy Jayne Beegle and Jacob C. Hanna.

Nancy is the daughter of Mr. and Mrs. Charles E. Beegle of North Harvey street and Jacob's parents are the Walter Essicks of Adams street.

The Reverend Henry Walch officiated at the eight o'clock ceremony. "Because," "Through The Years" and "The Lord's Prayer" were sung by Nat Sibbold accompanied by organist, Fred C. Nelson.

Nancy, given in marriage by her father, was radiant in a gown of nylon tulle and Chantilly lace over satin. The lace bodice featured a deep scalloped neckline and long sleeves. The floor-length skirt had wide panels of the lace extending down both sides from the waistline to the hem. She wore a headband of seedpearls from which her veil of illusion with embroidered lace fell gracefully to her fingertips. Her bouquet was of lily-of-the-valley, rosebuds and ivy centered with a white orchid.

Nancy asked Iva Lou Kahrl to be her maid of honor. Iva Lou wore a pale green nylon net waltz-length gown with matching hat and she carried a colonial bouquet of pink rosebuds and

pink daisies. The bridesmaid, Branda Covell, wore a pale pink nylon net dress in waltz length with which she wore a matching hat and carried a colonial bouquet of pink rosebuds and blue daisies.

Douglas Blunk assisted Jacob as best man and seating the guests were David Beegle, brother of the bride, Ted Campbell and Sidney Davidson.

Mrs. Beegle selected a pale grey silk organza dress with white accessories for her daughter's wedding. Mrs. Essick wore a navy lace dress with pink accessories. Both mothers wore corsages of pink rosebuds.

Following the ceremony a reception was held in the church dining room with over 180 guests attending from Detroit and Plymouth.

The young newlyweds are honeymooning in the Smokey Mountains and will visit the bridegroom's grandparents in North Carolina before returning to Plymouth.

For traveling the new Mrs. Hanna wore a pink wool suit with brown accessories and the orchid from her bridal bouquet.

Both Nancy and Jacob were graduated from Plymouth High school. Nancy attended Michigan State college for one year.

The Hannas will be "at home" to their many friends at 350 South Harvey street, Plymouth.

Miss Rhoda Beck Castleberry

Castleberry - Hoheisel Wedding In Chattanooga in Early June

Announcement was made recently in Chattanooga, Tennessee, of the engagement and approaching marriage of Rhoda Beck Castleberry of that city to Charles Richard Hoheisel of Plymouth.

Rhoda is the daughter of Mrs. Haskell LeVan Castleberry and the late Mr. Castleberry of Chattanooga, and Charles' parents are the Felix R. Hoheisels of Blunk avenue, Plymouth.

The wedding will take place on June 22 at the home of the bride-elect's grandmother, Mrs. Ben W. Beck in Chattanooga.

Miss Castleberry received her B. A. degree from Bob Jones University and her M. A. degree from Peabody College. She is, at present, a teacher in the Stark-weather school in Plymouth.

Charles received his B. S. degree from the University of Michigan, where he is affiliated with Sigma Gamma Epsilon fraternity. At present he is attending the University of Michigan Graduate School of Geology.

She said she felt like a young colt, but she looked more like an old .45.—The Seminole.

Grange Cleanings

Our Grange meeting of May 20 was a very pleasant affair with a fairly good attendance. We were very happy to have Dr. Rice with us who showed us some of his beautiful colored slides of northern Michigan, especially of Tahquamenon Falls. We enjoyed the pictures very much and feel that Michigan ranks high in scenic beauty. We hope to have Dr. Rice with us again. Our sick members remain about the same as at our last report. Mr. Hodge is in Atchinson hospital and Joe Tracy at home. It was voted to attend Church all together on some Sunday in June, date to be announced later. We have followed that custom for several years. Also the subject of a trip to see "Show Boat" was talked of.

Those who care to go may call Mrs. Paul Nash who has charge of reservations.

Mr. and Mrs. Sam Toles of Ypsilanti have gone to California for a visit with Mrs. Toles' brother at San Jose.

Mr. and Mrs. Spicer, Louise Tritton, Mrs. Tiffin, Mr. and Mrs. Lunn, Mr. and Mrs. Reinas, Loretta Wilson, Mrs. Wilson and Mrs. Hutton attended the 80th anniversary of Groveland Grange near Ortonville last Saturday night.

Mrs. Ernest Vealey was hostess to the Library Book club on Tuesday afternoon.

Our next meeting, June 3, is pot luck supper as usual. Come on and join us. You'll have a good supper and a good time.

Captain Crisp and Bride Visit Here

Captain and Mrs. Harold N. Crisp, Jr., have been the guests, for the past week, of Captain Crisp's parents, the Harold N. Crisp Sr. of Rosedale Gardens, Livonia.

Captain and Mrs. Crisp were married on May 15 in the Fort George Wright Chapel at Spokane, Washington. Mrs. Crisp is the former Marilyn Roggach, daughter of Mr. and Mrs. Arthur Roggach of Rose, Nebraska.

Following their marriage, a reception was held at the Officer's Club, Fairchild Air Force Base.

On Sunday, May 23, Mr. and Mrs. Crisp Sr. held a reception and open house in their Rosedale Garden's home honoring the newlyweds. The young couple left Tuesday morning for New York City where they will visit and sight-see before going to Nebraska for a visit with relatives and then return to Spokane, Washington, where they will make their home.

Democratic Club Hears Candidates At Hillside Lunch

Candidates for Congress and the Michigan legislature were presented to a large crowd at a luncheon given in Hillside Inn by the Plymouth Democratic club on Saturday, May 22.

While dessert was being served club President Larry Money was presented with a birthday cake. Following this, he presented George Bowles, chairman of the Michigan Labor Mediation Board, who in turn introduced the candidates for nomination on the Democratic ticket.

First to be presented was John Swainson, World War II veteran who lost both legs at Metz and who will enter the race in the seventeenth district for state senator at Lansing. Also presented were two rival candidates in the primary election for the House of Representatives of the United States: former judge and member of the Michigan State House of Representatives Martha Griffiths and Tom Poindexter, who has educated Democrats in business circles.

Candidate for the United States Senate, Pat MacNamara, was not able to be present so he was represented by Pat Zimmerman who informed the luncheon group of the work of MacNamara in Detroit as Federal Housing Administrator.

Final speaker and candidate for the United States Senate was Blair Moody, former U. S. Senator.

Suggests Ways to Keep Discarded Iceboxes Safe

How to let air in or keep children out of discarded iceboxes is the subject of a recent publication by the National Safety Council.

The publication is being distributed to schools before the summer vacation period, and a stepped-up information campaign is underway to warn parents of the greater danger during the summer months.

Citing an unofficial count of 79 child deaths in the last five years, the Council details several methods for preventing suffocation in iceboxes, refrigerators, freezers and other airtight cabinets.

A worn-out refrigerator should be disposed of to a junk dealer, but if that can't be done immediately, then—

1. Remove the door. This is the safest way, since a chest especially may have a door or lid so heavy that a child could not open it even if unlatched.

2. Remove the latch stop. This usually can be done easily by removing the screws from the plate.

3. Drill rows of holes in the cabinet sides and pry off the rubber gasket around the door. These methods, used together, will reduce the danger of suffocation in a refrigerator kept in use as a storage cabinet.

If refrigerators are temporarily out of use while the owners wait to move them to another location, sell them, or pass them on to relatives, then—

1. Remove the latch stop, which can be easily replaced.

2. Turn the box with the door against the wall. Most boxes are too heavy for children to move.

3. Bind the door shut with wire or stout rope.

4. Padlock the door when the handle is so constructed.

The Council points out that the hazard apparently is increasing as more and more outmoded refrigerators are being replaced. Twice as many deaths occurred in 1953 as in 1952. The average age

of victims is five years, with the range from two to 12.

While urging legislation to impose penalties for careless disposal of airtight cabinets, the Council believes that only informed adults can give positive protection to youngsters.

Mr. and Mrs. Sam Spicer, Mrs. Jesse Trittin, Mr. and Mrs. Lunn, Mr. and Mrs. Charles Rianas, Mrs. Rose Wilson, Miss Loretta Wilson and Mrs. Louise Hutton attended a Grange anniversary party at Ortonville on last Saturday evening.

Due to the death of Robert Wilson, a life-long resident of Salem, the Federated Ladies Aid Society of Salem will be postponed until next week, Thursday, June 3, at the home of Mrs. Myrlan Lyke in Salem.

PRETTY MISS MICHIGAN attracted throngs of girls, and women too, to Dunning's last Friday and Saturday as she gave visitors autographed photos and also some tips on figure beauty. As a representative of the Gossard Foundation company, Miss Michigan (Velda Robbins of Dowagiac) also spoke to high school students in home economics classes at a special assembly last Friday.

OBITUARY

James Edward Kissire
Funeral services were held Wednesday, May 26 at two p.m. for James Edward Kissire who passed away Monday, May 24 at 28 years of age. Mr. Kissire lived at 31601 Schoolcraft road in Livonia where his residence has been for nearly two years. He moved to Livonia from Detroit. Although never of robust health the illness which preceded death was of only three weeks duration. He was taken to Mt. Carmel Mercy hospital Saturday May 22.

Surviving are his mother, Mrs. Annie Kissire with whom James lived, two brothers and three sisters, Mrs. Mabel Baskins of Plymouth, William and James Kissire of Livonia, Mrs. Annette Gilmore and Mrs. Atholene Dass, both of Livonia, other relatives and many friends.

Elder Frank Ridgeway officiated at the services which were held at the Schrader Funeral home. Hymns were sung by Mrs. Viva Simpson, soloist and the Bethel Missionary Baptist church quartette, accompanied at the chapel organ by Mrs. Edna O'Conner. The pallbearers were Ernest Ridgeway, Corbin Hallford, Elmer Brady, Paul Ridgeway, Vinton Mathews and Delbert Riddick. Interment was made in Riverside cemetery.

Lizana Jane Craven
Mrs. Lizana Jane Craven who resided at 9820 Horton road in Livonia, passed away Sunday, May 23, at the age of 83. Her death occurred at University hospital in Ann Arbor where she was taken about a month ago. Her home had been in Livonia since 1941.

Surviving Mrs. Craven are her granddaughter, Mrs. Jean Killham of Gregory, Michigan, two great grandchildren, Robert and Linda Killham, one niece, Mrs. Alice Gothro of Detroit, other relatives and many friends. Her husband, George Craven, preceded her in death in 1948.

Funeral services were held Wednesday, May 26, at 8 p.m. from the Schrader Funeral home, Plymouth, with the Reverend Melbourne I. Johnson officiating. Hymns were rendered on the chapel organ by Mrs. Edna O'Conner. Interment was made in Springport cemetery Harrisville, Michigan.

Ford is the only car in the low-price field that offers a V-8. And the 130-h.p. Y-block V-8 is the most modern V-8 in the entire automobile industry.

Ball-Joint Front Suspension is the greatest advance in chassis design in 20 years. It makes all riding and handling easier. Only Ford in its field has it!

Ford's modern styling has set the trend for the industry! It's the kind of styling that will keep your Ford young and attractive looking... this year and in years to come.

Analysis of used car prices show Fords return a greater portion of their original cost than any other car. And today, more than ever, your best buy is a car that will have best value when it comes time to sell.

See us before you buy ANY car. We're sure you'll agree that FORD is your soundest investment!

Mrs. Agnes Pauline and Miss Florence Gabelman, of the Plymouth Business and Professional Women's club attended the installation meeting of the Milan club on Monday evening in the Milan Presbyterian church. Mrs. Pauline, District 2 chairman, was the installing officer.

Sunday guests of Mr. and Mrs. Mark Joy, in their home on Plymouth road, were Mrs. Mary Pekins and Mrs. Carl Renn and daughters, Carol and Iris, of Perry.

Mrs. William Martin of Blunk street spent Wednesday of last week with her daughter, Mrs. William Walton in Franklin Hills.

Veterans

who platted the village of Plymouth, and a Mr. Schoolcraft reported seeing an Indian chief conducting secret ritual before the Great Spirit.

It was not the original burial place, but a repository of bones because the spot was supposedly sacred. Other sacred repositories were located at the mouth of the Rouge river and near Flint.

The cemetery contains graves of soldiers who fought in the Black Hawk War, members of the military company established in Plymouth and soldiers who fought in the Civil War. Nine Civil War veterans are listed. Markers were placed over the graves of these veterans.

It was on June 19, 1845 that citizens of the village and vicinity met at the school to form a cemetery society. The society purchased about an acre from Bethel Noyes, first village president, and Noyes deeded the land over for \$75. Lowest price set for lots was \$3. When the first lots went on sale on July 28, there were 20 lots reserved on the east side for transients.

At the second meeting of the society a year later, it was reported there were 15 burials in the cemetery—eight males and seven females—Average age of the deceased was 12 years old.

In 1867, permission was granted the Detroit and Howell railroad to run their road on the section line south of the cemetery. In records of the cemetery society, now preserved at city hall, the last entry was made on June 20, 1891. It was moved and approved that the Plymouth Village Cemetery society disband "since the society can no longer maintain itself."

First persons to be buried in the cemetery was Asenath Delia Lyon, nine years old, who died on April 24, 1845; Alfred Hudson, 3 year-old baby who died of convulsions and was buried July 31, and Barbary Peterhans, 33, who the record says died of brain fever.

The cemeteries' inhabitants include many sur-names famous in Plymouth history which are found attached to streets and landmarks. Perhaps one of the most interesting and amusing columns in the society's record book is that showing causes of death.

In addition to brain fever, consumption, croup, whooping cough and old age, one case is labeled "opium and fits," while another was killed by a pitchfork and a third drank lye. In one case the cause is a fall down cellar and another just "bleeding."

The stories that the tombstones told (and a few are still readable) were of all descriptions.

Today, the village cemetery is still a peaceful and beautiful place. Its grass is perhaps not cut as often as necessary and its headstones are no longer erect. But it is still an interesting place to visit—a place where a visitor can stand and envision many things about the people who lived in Plymouth village 100 years ago.

ficatate at Western Michigan College of Education in Kalamazoo. She also graduated from Michigan State Normal college in Ypsilanti with a Bachelor of Arts degree. During recent summers she has been working on her Master's degree at the University of Michigan.

Before coming to Plymouth five years ago, Miss Makel taught school in Kalkaska, Utica and rural Antrim county. In Plymouth she taught at Central Grade school and Bird Elementary school before transferring to Allen school. Teaching was her life work. She would have completed her 25th year in the profession this June and had signed a contract to return here next fall.

Miss Makel had many extracurricular activities including membership in the Plymouth Business and Professional Women's club.

Surviving are her mother, Mrs. Christine Makel; a brother, George Makel of Detroit; three sisters, Mrs. Augusta Peterson of Mancelona, Michigan, Mrs. Marye Turcott of Plymouth and Mrs. Mildred Shinn of Toledo. Preceding her in death were her father, Daniel Makel, in 1947, and her brother, August, in 1924.

Services were held at 2 p.m. Monday from the Schrader Funeral home with Reverend Henry J. Walsh, D.D., officiating. Music on the chapel organ was played by Mrs. Edna O'Conner. Additional services were conducted Wednesday at the Miller Funeral home in Mancelona. Interment was in Fairview cemetery in Mancelona.

obtainable. Zoners set June 17 as the date to hear arguments for or against a zoning change.

Another hearing will be held during the June 17 session for re-zoning of lot 620 on Stark-weather avenue near the Rouge river bridge. Leonard Millross, manager of the Railroad Express agency here, asked to have the lot re-zoned so that a new express office can be constructed.

Malley Farm

Continued from Page 1

Not as fortunate was the O.K. West drilling organization whose well on the McDonald-Taft property just east of the Malley farm was "bottomed out dry" in the Trenton formation at 4,667 feet. There were no signs of oil, gas or water logged.

On the Charles Nerretter farm where a large natural gas deposit was discovered two weeks ago, attempts are being made to deepen the well in quest of the more valuable oil. Tests had showed a potential gas output of 11,000,000 cubic feet a day and estimates placed the potential up to 20,000,000 cubic feet.

A complicated process of "killing" the gas well was undertaken and a report last week told of a plug being blown from the well. Meanwhile, one of the area's largest oil deals is now taking shape. The Detroit city council is taking bids for an oil and gas lease on the Maybury Sanatorium property which lies in the middle of the Northville oil drillings. After months of discussions, the Detroit council decided to secure leases on the 905 acres which lie in the extreme northwest corner of Wayne county. Bids will be opened June 9.

The addition of another oil well in the area still does not rate the

Northville area as an oil field. The Taggart well on the LeMaster farm and the Ferguson & Ferguson well on the Malley farm are several miles apart, making each one a potential oil field should another well or two be discovered near them.

branch manager nine months later.

In September of last year, a cut in personnel in the Employment Security Commission across the state again resulted in the transfer of Mr. Jetter. He was sent to Ypsilanti as an employer contact man. Mr. Jetter appealed the transfer to the civil service commission, claiming that he had not been given credit toward "seniority" for the nine months in 1951 that he had been away from the job.

The civil service committee again upheld the appeal and Jetter's seniority was increased enough to regain him the local managerial position. Miss Robinson said that Mr. Jetter will take over the Plymouth office when the Employment Security Commission issues the transfer.

This service has been overlooked by too many churches too long. It is the day which commemorates the Completion of the Lord Jesus' work upon earth in His public ministry and it marks the great Beginning of the mighty evangelizing and world-conquering power that has gone forth from His Great Commission to His disciples on that Day of Ascension: "All power is given unto Me in heaven and on earth; Go ye, therefore, and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Ghost, teaching them to observe all things whatsoever I have commanded you; And, lo, I will be with you always, even unto the end of the world."

St. Peter's Lutheran Church invites all Lutherans of every synod to come and worship with us! If you have no church home in this area, you are welcome to talk with the pastor to arrange for your transfer to the Lutheran Church of Plymouth! All people of every race, color and creed are always most heartily welcomed to our hours of worship! Come, we are here to serve you in the name of Jesus Christ!

Classes for pupils up to 20 years of age.
That evil cannot withstand spiritual understanding of God's goodness and all power will be brought out at the Christian Science service on Sunday.
The subject of the Lesson-Sermon is "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, Denounced." Biblical selections include Christ Jesus' warning about the mental nature of evil: "For out of the heart proceed evil thoughts, murders, adulteries, fornications, thefts, false witness, blasphemies: These are the things which defile a man." (Matthew 15:19,20 to 21).
The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Passions, selfishness, false appetites, hatred, fear, all sensuality, yield to spirituality, and the superabundance of being is on the side of God, good" (201:9).
The Golden Text is from Romans: "Be not overcome of evil, but overcome evil with good" (12:21).

THE REVEREND EDGAR HOENECKE looks over the plans for the new St. Peter's Lutheran church on the site where the church will be built. The minister, who will celebrate his 25th anniversary with the local church on May 30, can look ahead to the time the new church will be crowded with the Lutheran congregation. The building will be but another step in the chain of progress Reverend Hoenecke has seen while serving his pastorate here.

Reverend Hoenecke Marks 25th Year With St. Peter's Lutheran Church

Twenty-five years as minister of the St. Peter's Lutheran church will be celebrated by the Reverend Edgar Hoenecke this Sunday, May 30, the past quarter century for the local church has been marked by considerable progress, a great part of which was due to the efforts of Reverend Hoenecke.
A graduate of Northwestern university and the theological seminary in Milwaukee, Reverend Hoenecke first served as minister of a Marathon, Wisconsin church for three years. He received the Plymouth pastorate in 1929 and came here to live.
The congregation that greeted the new pastor numbered 137 communicants. During the 25 years he has been here that number has grown to 554.
Three years after his arrival here Reverend Hoenecke saw the church remodeled. That was in 1932. The relocation and expansion program for the church was begun in 1942, and this will be culminated with the building of the new St. Peter's Lutheran church on the Penniman avenue site. Ground breaking for the new church will be held toward the end of June.
During Reverend Hoenecke's period as minister he has also seen the building of the Lutheran school from 1945 to 1947. The school was opened in 1947 and

has since taught many local children. The church will be constructed next to the school.
A minister always has close touch with the lives of the members of his congregation, officiating at their baptisms, marriages and eventually funerals. During the 25 years here Reverend Hoenecke has baptized 456 children and 42 adults, has confirmed 255 children and 164 adults, and has officiated at 182 marriages and at 131 funerals.
As for the Hoenecke family life, Reverend and Mrs. Hoenecke have seen their five children either graduated from or now attending college. In order to make it possible for them to receive their college educations, Mrs. Hoenecke returned to her old profession of nursing, working with the Wayne County Health Department. Latest to graduate are Heinz with his M. D. degree and Karl with a Bachelor's degree.
Through the 25 years, Reverend Hoenecke said, Mrs. Hoenecke has been the greatest help possible. "Her loyal going-to-bat" has been so evident throughout the whole time, he said.
In summing up his first 25 years with the St. Peter's Lutheran church Reverend Hoenecke has found them very full. Reverend Hoenecke, with his congregation, now awaits the comple-

tion of the new church as an indication of even greater progress.
Plans are now being made by the church to commemorate the 25th anniversary with a service in June. Definite plans have not yet been announced.

MAYOR McGUP By John Jarvis

YOU'RE NEW IN TOWN?
 YES, AND I DON'T LIKE THE WAY CITY OFFICIALS HAFTA HAVE TWO JOBS T'MAKE A LIVING!
 THE CITY CLERK HAS A PAPER ROUTE, THE STREET SUPERINTENDENT DOES BABY SITTING, THE CITY TREASURER PICKS CHICKEN FEATHERS AT THE MARKET SATURDAYS. WONDER WHAT TH' MAYOR DOES?
 DO YOU KNOW WHO YOU'RE TALKING TO?
 SURE - YOU'RE THE HEAD USHER AT THE THEATER!

Mighty Mites Are Growing Fat On Evergreens

Mites might be munching mightily on your evergreens! And if they are now's the time to get rid of them. These tiny but destructive pests, also known as red spiders, have eight legs and are so microscopic they are difficult to detect while indulging in their favorite pastime of sucking juice from leaves.

One way of finding out if they're around is to shake the evergreen tree while holding a large piece of paper under one of the branches. The mites will tumble out and can be seen moving on the paper if the tree is infested.

up later in the flecked, rusty appearance of leaves or needles. Their favorite dining establishments would be too many to list. Red spiders feed on herbaceous plants and evergreens as well as on deciduous trees.

Dormant or summer oil is effective against them. There are also several special chemical sprays designed for mite control. Number of applications depends somewhat on the weather. If it is hot and dry, more sprays are needed than otherwise.

Mites are not so often found on large healthy trees which have been sprayed for protection against other pests. But weaker trees, especially foundation plantings, can be severely harmed if the red spider isn't checked.

Walled Lake To Have Big Fireworks Display

A program of thrilling and spectacular fireworks will be featured on the nights of Sunday (Decoration Day), May 30 and Monday, May 31, at Walled Lake Park. The colorful set pieces will consist of Kimberly Diamond, Mighty Cataract of Niagara, Cuban Dragon, Squirrels At Play, The Flying Dragon, Star of the East, Crazy Wheel, and a succession of exploding bombs in all colors of the rainbow.

Fireworks for public entertainment originated in the Far East. For the past 100 years, they have been a dedication featured at the openings of famous expositions, fairs, buildings, and public institutions. They have long been a highlight at holiday time and on special occasions at many of the country's amusement parks.

One trouble with this world is that modern houses are too small to live in and modern salaries are too small to live on.

Memorial Holiday Traffic to Mean Greater Danger

With Memorial weekend travel expected to reach an all time high for that holiday, State Police Commissioner Joseph A. Childs has issued a warning that the increase in highway accidents since the first of the year indicates what drivers may expect unless they observe every safety precaution.

He also reminded that pass days of all State Police officers, including detectives and others on special assignment, have been canceled from Friday to Monday, inclusive, to use the full strength of the department on traffic law enforcement. It will be the equivalent of a 20 per cent addition in officers assigned to patrol activity.

"Accidents during the first three months of this year increased 14 per cent over the same period in 1953," Childs said. "There has also been an increase in travel which, given good weather, indicates that Memorial holiday traffic will be the heaviest on record for that weekend. This means a much greater exposure to accidents.

"We are going to do everything possible to assure the safety of careful drivers by canceling pass days and using every available man on traffic law enforcement to apprehend those who are or may endanger others by their recklessness. And we are following a policy of strict and rigid enforcement. But police can't do it all. The primary responsibility is the driver's to use common sense and avoid bloodshed and tragedy. We hope that they do."

37 Students to Receive Degrees In Commencement at Madonna

The most Reverend Alexander M. Zaleski, Auxiliary Bishop of Detroit, will officiate at Madonna college graduation exercises to be held June 3 at 2 p.m. in De Sales auditorium.

Among the 37 graduates, 35 will receive the bachelor of arts degree and the remaining 2 will receive the bachelor of science degree.

The Reverend James T. Shannon, head of the Division of Theology and Philosophy at Madonna, will present the candidates for degrees.

The speaker will be the Reverend Francis X. Canfield, Ph.D., of Sacred Heart Seminary.

Top awards will be conferred on seniors at the graduation exercises: membership in the Kappa Gamma Pi, national Catholic Honor Society for women, and an award for scholastic excellence throughout the four years of College.

The graduation program will be the tribute of Madonna college to the Madonna for the Marian Year. The choral group will present the following numbers: "The Angelus," composed by Sister M. Paulette, music instructor and choral director at Madonna; "Tota Pulchra Es," a hymn in honor of the Immaculate Conception; and "Te Matrem," the Franciscan hymn of thanksgiving to the Blessed Mother, composed by the Seraphic Doctor, St. Bonaventure.

Dorothy Lapczynski, one of the graduates, will render a vocal solo.

Baccalaureate services will take place the morning of the same day, June 3. The Baccalaureate Mass will be celebrated by the Reverend Bernard Roguszka, pastor of St. Joseph parish, Manistee. Delphine Pieczynski, of the senior class, will be the first member of his parish to graduate from Madonna. The graduates will be invested with their collegiate hoods before Mass.

The Right Reverend Monsignor John C. Ryan, M. A., Director of the Confraternity of Christian Doctrine, in Detroit, will deliver the Baccalaureate address.

Following the Baccalaureate services, a brunch will be served at the college for the graduates and their guests.

New Officers to Be Installed by Vivians

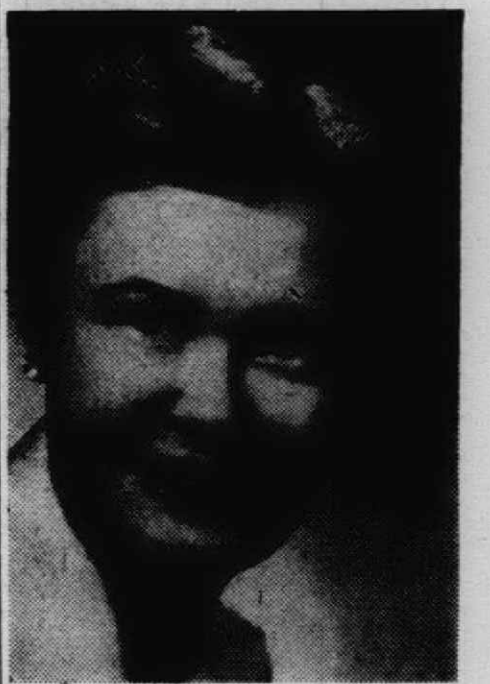

Installation of the new officers of the Vivians will be held on Thursday, May 27, at 8:30 p.m. in the Elks temple. Officers to be installed at the meeting are Mrs. Merle Atchinson, president; Mrs. Margaret Walsh, vice-president; Mrs. Corrine Clark, secretary; Mrs. H. Phillip Barney, treasurer; Mrs. Lydia Argo, sergeant-at-arms; and Mrs. Marion Creith, chaplain. Members-at-large to be installed are Mrs. Mildred Muselman, Mrs. Agnes Tillin and Mrs. Shirley McAllister.

The girls' sextette from Plymouth high school will provide entertainment for the evening. Refreshments will be served. Members are invited to bring guests.

Award Dean Palmer Harvard Scholarship

Congratulations go to Dean Palmer, a Plymouth high school senior, for receiving admission and a tuition scholarship to Harvard university in Cambridge, Massachusetts. This is an especially high award because of almost 2000 high school and college applications. Dean was one of the 300 chosen. Upon entrance at the university Dean plans to study medicine.

Dean has been an honor student throughout his high school years and has been engaged in many activities which merit this honor. He served on the Student Council and is this year the vice president of the senior class and the editor of the Pilgrim Prints, the school bi-weekly newspaper. He recently received first place in

an on-the-spot news reporting contest at the Michigan International Press Association Convention for high school students in Ann Arbor. Approximately fifty other contestants were in this competition.

He also recently received an honor award from the University of Michigan but declined it because of the Harvard scholarship. Dean is the son of Mr. and Mrs. Theron Palmer of Beck road.

Name Majorettes For High School Band Events

Pat Johnson, Linda Warner, Marilyn Wilkinson, Sonja Bench, Shirley Andrews, and Bernette Lazor are the new majorettes for the 1954-55 school year.

Lawrence Livingston, high school band director, was the principal judge for the tryouts which were held Thursday afternoon at 3:30 on the football field. Besides selecting the six regular majorettes, Livingston and some of the retired majorettes for this past school year chose Louise Diedrick and Pat Gronowick as substitutes.

The girls were selected for their appearance, poise, and strutting as well as for their twirling ability. During the year they will be expected to participate in all the marching band's activities as well as several activities of the concert band.

Students Register For Coming Year

Monday, May 17, the students of Plymouth high registered for the coming year. First the students went to their homerooms where they were given a schedule for the next year and their four year plans. The students then made up their schedule for the next year and changed their four year plans to agree with it.

After the homeroom meetings the students went into the auditorium where Miss Ruth Butts and Carvel Bentley, with the aid of homeroom teachers, helped the students line up their schedules to equalize the size of the classes.

This system is designed to meet the needs of the individual student and get them thinking about their next year's schedule. Later on the students may confer with Miss Butts and make any changes necessary.

Girls' Athletic Group Plays Team Softball

Every Monday and Tuesday after school one can hear "batter up" or "strike out" from the Girls Athletic Association members playing softball. Six teams participate in this sport with these captains: Dawn Huebler, Sally Gyde, Kay Porter, Jane Nully, Margaret Duty and Barbara Smith. Each team must have 9-12 members to be able to play. Seventy-five points are given toward a letter.

Twenty-five girls from Southfield high school and their instructor, Mrs. Jennie Goerke, who is a college chum of Mrs. Louise Cigile, will be at Plymouth May 25 for a softball-swimming playday. Carol Schaufele

will be head of the committee planning the playday.

Sally Gyde, Ardith Bassett and Judy VanWagoner are now in first, second and third place respectively in the ping-pong tournament, which will have its final playoffs this week.

Leaders club had a picnic at Plymouth park Wednesday, May 19.

If you dry clothes indoors, be sure ample ventilation is provided in the drying area to carry outdoors the moisture given off by the clothes. If the moisture is allowed to stay indoors, serious damage to furniture, such as warping, can result.

How TCP unlocks the Captive Power in your engine

Shell Premium Gasoline with TCP*, the greatest gasoline development in 31 years, overcomes pre-ignition and spark plug misfiring caused by the steady accumulation of lead deposits in the combustion chamber.

You'll get up to 15% more power before you've finished your second tankful.

Did you know there's up to 15% more power in your engine that you're not getting?

Think of it—all this power held captive—needlessly!

It's like this:

Every mile you drive puts more deposits in your engine. In the combustion chamber—on the tips of your spark plugs.

In the combustion chamber these deposits glow "red hot", especially when

*The unique gasoline additive discovered by Shell Research. Trademark owned and patent applied for by Shell Oil Company.

you step on the gas or climb a hill. This "sets off" the fuel charge before the piston reaches its proper firing position. Power works against you—not for you!

On the spark plugs these same deposits cause short circuits. "Missing" follows—especially when your engine is "under load."

Shell Premium Gasoline with TCP additive changes all that—before you've used even two tankfuls!

What happens is this:

Shell Premium with TCP stops that wasteful pre-ignition by "fireproofing" the deposits. Power works for you!

And, because TCP additive makes the deposits non-conductors of electricity, your plugs fire every time!

The net to you is more power—up to 15% more! Power that is waiting to be used—not wasted! And spark plugs that live more than twice as long!

Shell Premium with TCP goes to work unlocking that captive power with the very first gallon. By the time you've finished your second tankful you'll feel your engine's had a tune-up.

There's nothing like Shell Premium with TCP—it's a Shell discovery and the only place you can get it is at Shell dealers.

Zero hour for Buddy Poppies! Let's not forget our Buddy Poppy sale. Since the V.F.W. Buddy Poppy is the officially recognized memorial flower of our organization, and the sale of these flowers helps to maintain our V.F.W. National home for orphans and widows of deceased or totally disabled war veterans, our national president and commander-in-chief call upon each and every one of us to assist in the purchase and the sale of these Buddy Poppies. Let's pay this important tribute to our nation's honored war dead!

One last reminder of the Memorial church services to be held May 30 at 10:45 a.m. at the Church of the Nazarene. First prize, \$5.00 to the first member procuring six new members; second prize, \$3.00 for five new members; third prize, \$2.00 for four new members; fourth and fifth prizes will be shampoos and fingerwaves at Sarah's Beauty shop and LovLee Beauty salon to the first girls procuring three new members.

Let's all pitch in and back Sister Archer in this new membership drive and earn ourselves one of these prizes!

The election of delegates to the department encampment to be held at Grand Rapids took place during our regular meeting on Tuesday, May 18, with the following members elected: delegates, Virginia Bartel, Eleanor Gust, Marion Dickie and Gertrude Danol; alternates, Loretta Young, Bernice Kopenski, Betty Neale and Marlyn Wiltsie.

Tell Importance Of State Industry For Dairy Month

Just how important is the dairy business to Michigan? Will dairymen have something to be proud of during June, Dairy Month?

The 846,000 dairy cows on 101,000 Michigan farms produce nearly six billion pounds of milk a year. The value is nearly 150 million dollars. The sale of veal and beef from dairy herds totals another 50 million dollars.

That brings the total cash dairy income to approximately 200 million dollars, the largest source of farm income in Michigan. And it helps maintain business in every Michigan city.

There are more than 600 dairy plants in Michigan which process the state's milk supply into various dairy products—bottled milk, butter, evaporated and condensed milk, ice cream, cheese and others.

Michigan ranks high among states in the dairy business. The Wolverine state is eighth in total milk production, seventh in the amount of milk bottled, fourth in the processing of non-fat dry milk solids, ninth in cottage cheese making, sixth in butter, sixth in ice cream and second in sherbet production.

Recent excavations south of Cairo, Egypt, unearthed a wooden coffin at least 3,800 years old entombed in a pyramid said to be 6,000 years old.

Hollows May Be Hills In Garden Language

Planting bush squash in hills

Beginners are sometimes puzzled by garden talk, but soon learn that this hobby, like others, has its own vocabulary. To sow seed in hills, for example, does not mean to cover them with a mound elevated above the surrounding surface.

Except in localities where rainfall is heavy and drainage is poor, it means a point, as distinguished from a "drill," which is a row. Seeds sown in a drill are dropped continuously while hills are spaced some distance apart.

Among seeds sown in hills are cucumbers, melons, pumpkins and squash, which all produce vines that spread over the ground in all directions, also bush pumpkins and squash, which make fairly large bushes and require ample space to develop. Sweet corn is sometimes sown in hills, three plants to a hill, though the practice of growing this crop in drills is spreading.

Hills are lined up in a straight row, and spaced at equal distances apart in the row. The usual practice is to dig a shallow hole with a trowel, mix plant food with the soil in the bottom, fill soil on top of this, and then place the seeds, using a few more than plants are to be grown. This is to make sure that enough plants come up; if more grow than are wanted, the surplus ones are thinned out.

In sections of extremely heavy rainfall, or where land is poorly drained, hills may be elevated, so that the seeds are held above the average surface level, and drainage is thus improved. But in well drained gardens, it may be advisable to leave a slight depression above the seeds, since most of the varieties sown in hills are tender, and are sown late when warm weather dries the soil and rains have become less frequent than in the early spring. A depression will concentrate the moisture from light rains and heavy dews, to speed up germination of the seed.

To facilitate cultivation, each hill should be marked by a stake until the seeds begin to grow. When the hills are accurately lined cultivation between rows may be carried out with the same ease as between drills; and a hand-hoe can be used to keep down weeds in the row.

Loss to Belleville Nine Sinks Rocks' Title Hopes

The high school baseball nine failed to retain the 6-B League championship it won last year as they dropped out of contention with a 6 to 1 loss to league-leading Belleville last Friday afternoon. Belleville is tied with Allen Park each having won 7 and lost 2 games.

Sport Glances

by "Professor" Edgar Brown

The state high school track finals this year had some of the finest athletes I have ever seen at this annual event. Some records were broken, and all were nearly equaled.

Flint Northern's Art Johnson ran the 220 in 21.8—a tenth of a second off the record, but was topped by Pierce of Saginaw High in the 100.

Plymouth's Jerry Kelly and Earl Fulton ran good races in the 220, 100, and 440, but Fulton was shut out of placing, while Kelly earned a third in the 220, and barely missed qualifying for the finals in the 100.

The day was perfect for a meet, which was one of the most enjoyable I have ever seen. It seems athletes are getting better and better each year. Flint Northern was deprived of successfully defending the Class A crown won last year when Saginaw tied in the last event, the pole vault, to beat out the former state champs by three points.

The Detroit Tigers have been playing exceptionally good baseball the first six weeks of the campaign. If they could only break even when they play New York and Chicago I would say that they have a good chance of ending up in the first division.

These youngsters they have playing this year have given a new spark to the Tigers. The zeal displayed by the kids is something to see. Whenever a club gets a lot of high salaried players on a team, and particularly when the player knows that his salary cannot be cut more than 25%, he does not go all out like a youngster fighting to make a name for himself.

Those Tigers will be up in the pennant fight in two or three years if they keep on coming like they are at the present time. Given a little confidence in themselves—such as Frank House has gotten by playing regularly—and they will be hard to beat.

The 6-B League track meet on the high school athletic field should provide plenty of competition for local fans. The field is evenly divided this year with Bentley and Plymouth rated about even to win the trophy. Plymouth is the defending champion.

Plymouth should rate first in both hurdles, and the half-mile relay should emerge victorious, but the team with the best balance will win this meet. It will be one of the most interesting meets in recent years, and one that you should not miss if you are interested in track.

Hundreds of people from this section of Wayne county are already taking advantage of these nice, warm days by having an outing in beautiful Riverside Park. Last Sunday many hundreds were in the park with their picnic baskets, balls and bats, even though the season supposedly opens Memorial Day.

Memorial Day exercises are next Monday. Some of the youngsters, and grownups, do not seem to understand the true meaning of this holiday to judge by their actions in past years. During the services, many are seen talking, laughing and making fun. To some it is just another holiday to when they get off from work and out of school. If everyone would just think during the service of the real significance of Memorial Day—a day set aside in memory of the soldiers who gave their lives that we might enjoy freedom. Surely most people have some relatives, or friends, or acquaintances who did not come

Kelly Takes Third Place In State 220

In one of the star-studded state track meets ever held in Michigan, Saginaw high edged out defending champion Flint Northern by three points to become the new Class A champion at the state meet held at Ann Arbor last Saturday afternoon. The Saginaw Valley league, long a power in all branches of athletics, easily proved the class of the meet with Saginaw, Flint Northern and Saginaw Arthur Hill coming in one, two, three—Ypsilanti Central was a distant fourth.

Plymouth ranked 22nd out of a field of 50 Class A teams. Jerry Kelly came in third in the 220-yard dash finals behind Johnson of Flint Northern and Pierce of Saginaw. The winner's time was 21.8 seconds, only a tenth of a second of the state record. Jerry just missed qualifying in the 100-yard dash. Earl Fulton also missed placing in the 440-yard dash even though he ran a creditable race. Kelly placed fourth in the 100 and fifth in the 220 at last year's state meet.

Competition was keen this year, and two records were set in Class A, and most all the others were nearly equaled. Joel Boyden of Muskegon, a 6-foot 6-inch, 265 lb., first in the 100, and a single, two walks and an error scored two for the Panthers in the sixth inning.

The Rocks had chances to score but just couldn't push the runners around. Two singles were wasted in the first inning, the locals had the bases loaded in the sixth inning, and two on in the last inning but couldn't score. Plymouth made 7 singles off the offerings of Hunt, Luker, Clifford, Day, Middleton, Blomberg, Gothard and Wilhelm getting one each.

The Rocks defeated Bentley for the second time this season when they scored a 6 to 1 victory on the local diamond. Dick Day chucked for the local nine and struck out 10, walked 5 in allowing only 3 hits. Bentley scored the one run in the third inning on a single, a walk and an error.

Plymouth counted 5 runs in the third on an error, three walks, another error and two singles. The last one was counted in the sixth inning on a walk and two singles.

Two hits were made by Danny Clifford and Dick Day, and one each by John Agnew, Henry Bonga and Gary Gothard.

The Rocks have one game remaining with Trenton and two with Northville to complete the 1954 schedule.

Merchants Drub Local 49 15-2 In Inter-County Contest

It was the Plymouth Merchants bats, balls, etc., and fees, according to team manager John Schwartz.

The local merchants who provide Plymouth fans with this high-type Sunday entertainment are as follows: Tait's Cleaners, Burley's Service, United Dairies, Gorhams Market, Plymouth Garage, Marcus Scrap Metal, Johnson Farm Service, Trendwell's Shoe Repair, Saxton's Farm Supply, Beglinger Olds, Cloverdale Dairy, Molnar Electric Motor Shop, McAllister Brothers Grocery, Lature Real Estate, Hubbs & Gilles, Box Bar, Olds Grocery, Burger & Dobbs Construction, Davis & Lent, Schrader Funeral Home, Hoffman & Holdsworth Implement Company, Clover TV Service and Plymouth Lumber & Coal Company.

Ed Hock hurled the entire game for Plymouth. Local 49 scored the two runs in the third and seventh innings. The losers might have counted more in the third had not an unique double play retired the side. With two on, the batter socked a ball over Ritter's head in centerfield; one run scored but the runner on first tried to get to third—the batter, a fast runner, also came to third base—Ritter retrieved the ball quickly and a good throw to third cut down the first runner going into the bag, and a relay to second nailed the second trying to scamper back.

Other Inter-County league scores were as follows: Taylor 10 Grandale 6; Food Fair 3 Dietrick 0; Wayne 10 Northville 4; River Rouge 16 Teamsters 11; Wyandotte 10 Cubs 1; and Auto Club defeated Farris Furniture. Sunday Plymouth play Food Fair at Bell Creek on Inker Rd. and Five Mile at 3:30, and Monday Farris at home at 1.

Behind the Plymouth Merchants team is a group of local merchants who sponsor the local nine. These 24 business places provide the necessary money to field a team in the Inter-County league. This year that amount runs around \$500, which goes for umpires, new equipment such as

Northville Downs Opens June 17

Northville Downs will open 39 nights of harness racing Thursday, June 17.

It will be the eleventh year for Michigan's Pioneer harness track. The meet which will continue through July 31 will be the shortest in Northville's history because of the assignment by the state racing commissioner of 39 nights to each of the other two harness tracks.

At first Northville had a 60 night schedule. This later was changed to 54, dropped to 48 last year, and then to 39 this year.

John Carlo, executive manager, has announced the \$10,000 Governor's Cup Trot will be held July 9 and the \$10,000 Michigan Pacing Derby will be up for decision on July 23.

John Jenuine, who succeeded Bill Connors last year, is again the racing secretary this year.

Girl Scout News

Good news, Girl Scouts! Camping equipment is on its way and will be ready for use at day camp. Equipment in the form of pup tents and other essentials for an outdoor program has been ordered by the local council. Leaders have been sent to Camp Holley for advanced training in outdoor camping. The sessions which were most enjoyable were under the direction of Kit Ham-mell, nationally known authority on camping. Leaders attending were: Mrs. Thomas Thorpe; Mrs. Price Clear; Mrs. Sheldon Baker and Mrs. Wayne Rubey. For more advanced training in nature and out-of-door programs, Mrs. Wil-liam Edgar, Mrs. Hugo Russell and Mrs. Sheldon Baker will at-tend a session at Elkhorn, Wis-consin in June.

Members of Intermediate Troop 8 enjoyed a trip to Heide's Greenhouse at their May 18 meeting. They learned about transplanting tomato and pepper plants, also how to start and transplant potted plants. The girls are fulfilling requirements for their second class badge. Mrs. Price Clear is the leader.

An overnight trip to the Girl Scout Cabin on Friday, May 21 was a feature of the spring pro-gram of Troop 4. Ten Scouts with their leaders, Mrs. Warren Worth and Mrs. K. S. Hulsing cooked their dinner over open fires on Friday night. They re-turned home following breakfast Saturday.

Brownies in Troop 18 held a highly successful Brownie Holi-day on May 15. A full day of game and Brownie activities in the park was followed by an overnight at the Scout Cabin. The girls returned home on Sunday morning. The troop entertained their mothers at a tea on May 23. Leaders are Mrs. William Edgar and Mrs. Thomas Adams.

Spring activities of Troop 1 in-clude a project in ceramics. Mrs. Lance Wright acted as program consultant and assisted the girls with the glazing and firing of their pieces. Work on the Bicy-cling Badge brought a visit from Police Captain Fisher who talked on safety and the start of a safety project which will soon be an-nounced. On Saturday May 22, the troop together with the lead-ers, Mrs. Sheldon Baker and Mrs. Hugo Russell completed a ten-mile bike hike and cook-out.

JV's Win Three Close Ball Games

The JV team, getting stronger as the season progresses, won three baseball games recently as they downed Redford Union 4 to 2, Ann Arbor 1 to 0, and Belleville 7 to 2.

In the first game the Rocks scored one run in the first inning on a walk and an error, and three more in the fourth on two-singles, two walks and an error. The Panthers counted one in the third on a home run by Tengel and another in the sixth on two doubles.

Bob Jenkins hurled for Plym-outh and allowed 5 hits in striking out 10 and walking 6 men. Plym-outh made three hits, all singles, one each by Christensen, Tait and Norgrove.

In the close Ann Arbor victory, the Rock JV's scored the lone run of the game in the second inning on two errors and a single. The winners had a total of only three hits, one each by Tait, Tait and Calhoun. Struck tossed the entire game and clock out 6, walked 2, in allowing 3 hits.

Last Friday the local JV's won over Belleville 7 to 2 by scoring twice in the first inning on two walks, two singles and three errors. Two more runs came across the platter in the fifth on two singles and two fielder's choices, and the final three runs were counted in the sixth on three singles, an error and a fielder's choice. Belleville scored one run in the first on a walk and an error, and the other in the last inning on an error and a single.

Jerry Drews pitched for Plym-outh and allowed three hits, struck out 10 men and walked three.

Hits were made by Tait, who had three, Cummings with two, and Christensen and Calhoun with one each.

Golfers Divide Two Close Meets

The Plymouth golf squad com-plete the 1954 season with a match against Ypsilanti at the Plymouth Country Club this week. The local linksmen divided in two meets last week as they were edged out by Dearborn 319 to 331, but defeated Northville 189 to 200.

In the 18-hole meet with Dear-born, Fred Benson shot a 75, Tyler Caplin a 77, David Beegle a 96 and Carmichael an 82. Willis of Dearborn was medalist with a 74.

In the meet with the Mustangs, Caplin had a 40, Benson a 42, Carmichael a 48 and Kolak a 59. Season averages released by Coach John Sandman find Co-captain Fred Benson with the best individual performance with an average of 40 even for nine holes; Co-captain Tyler Caplin has a 40.6 average; Tom Carmichael a 44.6; David Beegle a 46.2; Wally Rush a 48 and Alvin Kolak a 54.5 average.

6-B Track Meet Held Here Today

Close competition in all events is expected today in the 6-B League track meet which is being held on the local athletic field with the preliminaries beginning at one o'clock this afternoon. All coaches agree that this year the teams are more equal in strength than any time since the league was formed.

Plymouth the defending cham-pion, Bentley, Redford Union all have strong squads, and any one

of them could cop the first-place trophy. Bentley was the only team to defeat the Rocks in a duel meet this year, turning the trick by one point in an early meet this year.

The Rocks should garner five first places since neither Jerry Kelly or Jerry Swain have been beaten in the dashes or hurdles in duel meets this spring. The Rock relay team might come through with a win also.

The team with the depth and balance will win this meet; the one who can pick up those vital seconds, thirds and fourths. Bentley and Plymouth have the best balanced squads, and these two are expected to battle it out for the crown. It is highly probable that the relay, the last event, may decide the meet.

This will end track competi-tion for all 6-B League schools.

SPORTS FLASHES

The Sporting News by J. G. Taylor Spink

"WHO'S ON FIRST BASE?"

The Cleveland Indians switched Al Rosen from third base to first base. Eddie Stanky, St. Louis Cards' manager, instructs Ray Jablonski, not a star at third, to learn first base for protection. Casey Stengel winds up a tough game for the New York Yankees with an outfielder, Irv Noren, at first.

It would seem as if anybody can play first, or so the managers indicate. This is rather disturbing to Charlie Grimm, Milwaukee manager and a top first baseman, himself back when a first baseman was a first baseman and not anybody with a nodding acquaintance with the guy who ran the team.

"When I played," Grimm reminisced, "we had first class regulars at first base in both leagues, and we were loaded with them. Now not any Joe seems to get a chance at first. Well, I know it is not any old man's home out there at first, and I think the tipoff on all these experiments is how many of those first basemen stick at the job."

Let's look back to 1921, when Grimm was getting set on the job. He hit .274, and was coming strong. In the National League, the Giants had George Kelly (.308), the Cards Jack Fournier (.343), the Reds Jake Daubert (.306), the Cubs Ray Grimes (.321), the Dodgers Ray Schmandt (.305), the Phils Ed Konetchy (.298) and the Braves the weak man with the stick that year in Walter Holke (.261).

The American League array went with the ineffable and greatest-of-them-all George Sisler (.371) with the Browns, George Burns (.361) and Doc Johnston (.297) with the Indians, Lu Blue (.308) with the Tigers, Stuffie Mc-Innis (.307) with the Red Sox, Earl Sheely (.304) with the White Sox, Honey Walker (.304) with the Athletics, Joe Judge (.301) with the Senators and Wally Pipp (.296) with the Yankees.

The Sporting News story says that many of the current first base guardians are not first basemen — they're merely playing there. They catch the throw and then, blindly poke to foot the bag. Branch Rickey recently appraised the important parts of a ball club, and then ended slurringly with the seeming afterthought, "and then there is first base."

There is no truth to the report toupees are to be stocked for the benefit of those players, managers, coaches, umpires and reporters who duck out of sight when the National Anthem is being played, rather than bare their shamelessly bald heads to the crowds.

Larry Gilbert, operating the Nashville club of the Southern Association, had his eye on a rookie early this year and wanted to find out what kind of a hitter the lad was... He finally asked one of the rookie's 1953 teammates... "Well, he hits three ways," answered the teammate. "Right hand, left hand and seldom."

Rube Walker of the Dodgers is probably top galloper for slowness of foot in the majors. But he holds the all-time Nashville record for three stolen bases in an inning.

Billy Herman gets a chuckle out of relating this story on Stan Hack. Burleigh Grimes was pitching for the Cubs with Stan playing third. Hack made a boo-boo on a grounder and snapped his fingers in disgust. Grimes might have gotten out of the inning except for another error by Hack, who again snapped his fingers to show his chagrin. Charlie Grimm, managing the Cubs, yanked Grimes. But Burleigh, boiling, snarled: "Why take me out? Why not the guy who is only snapping his fingers at the ball?"

If nothing else, the Pirates can claim players who are members of the two largest families in the major leagues. Pitcher George O'Donnell comes from a healthy group of eight girls and five boys, while Outfielder Jerry Lynch is one of 12 children.

Gabe Paul of the Cincinnati Redlegs comes up with this bit of wisdom: "The hard part of making good is that you have to do it every day."

The St. Louis Cardinals might not be leading the National League, but can anybody beat the time it takes them to play the game?

Through their first 23 contests the Redbirds had an average playing time of two hours and 58 minutes.

Chips from the ROCK

So elated at the growth of the local branch of the First Federal Savings and Loan Association was Perry Richwine, local manager, that when deposits reached the \$2,000,000 mark one day last week to set an all time high, he bought huge T-bone steaks for all of his employees and cooked them personally for their lunch. Incidentally, in the basement of the First Federal office is one of the most complete little kitchens you would ever want to see.

Veterinarian E. B. Cavell of Northville has practiced in this area for 48 years and in two days last week he encountered experiences which he hadn't seen in his half century of practice. He found the first dog he couldn't put to sleep for an operation with ether and had to give up the job after he had used the only two cans he had in his medicine cabinet. His second unusual experience was the removal of an arrow from the front leg of a Plymouth owned Collie which had apparently crossed the path of some archer and was wounded accidentally.

On July 9th of last year this column was devoted to Plymouth's proposed zoning ordinance. Two important sections of the ordinance were specifically called to the attention of local residents in the hopes some action might be taken which would eliminate them from the ordinance before it was passed.

One paragraph read as follows: "However, the required parking spaces, as enumerated in the ordinance are restrictive and in many cases are and would be impossible to provide. Because alterations, additions and other building projects may only be undertaken, under the new ordinance, by providing the approved amount of parking spaces, in many cases downtown improvement would be at a standstill in the years ahead."

It is interesting to note at this writing that members of the Presbyterian Church, sorely needing an addition to their present church structure, to house additional Sunday School facilities, now find themselves stymied with their enlargement program because they are not able to provide the necessary additional parking space which the ordinance demands.

Members of the Church building committee say that the only possibility they can see to get out of their dilemma, is to move the Manse from its present location, but even so that wouldn't provide all of the space needed to conform to the ordinance.

★ THINKING OUT LOUD ★

One question, sometimes controversial, sometimes personal, is asked each week by The Mail of four pedestrians along Plymouth's downtown streets. This week's guests are "thinking out loud" on the question:

"Do you think war with Russia is inevitable?"

JACK HELMER, 15812 Cadillac: "I believe there will be a war. I don't know when. Russia keeps this thing going all over the world; if it isn't Korea, then its Indo-China. It just keeps growing."

MRS. ARDELLA PROCHNOW, 11667 Russell: "We will always be in war. If it isn't with Russia it will be with someone else. Read your Bible; it tells that there will always be wars. They used to come every 20 years, now it's much more often."

Helmer Mrs. Prochnow Miss Mulhern Jenkins

MISS NANCY MULHERN, 400 Beck: "I don't think we will have war with Russia. For one thing, I believe we have better men than they have."

DEAN JENKINS, 405 Irvin: "The way it looks now, we're going to have trouble sooner or later. Russia keeps building up its armies and they are more powerful than we are. They keep their agents working in this country. They sure aren't looking for peace."

HUMOR CROPS UP in most election campaigns.

Funny little incidents make for a laugh when they happen. They provide material for yarns that are told over and over as years pass. Most of the newsmen who cover the Capitol can go on for hours with jokes and stories based on uncommon, unexpected and peculiar happenings.

This year's race, it seems, will be no exception.

The "attempted drowning" of Gov. Williams at the Holland Tulip Festival is a good example of an incident that will become such an anecdote.

Both the Governor and State Senator George F. Higgins, who hopes to win the Republican nomination and run against him this fall, were part of the Holland celebration. Both were dressed in Dutch costumes to take part in the traditional street washing. Williams carried a broom; Higgins goes pails of water.

When photographers showed up to picture the pair, Higgins managed to jump in front of the Governor whenever cameras were brought into play. This was considered to be quite an accomplishment, for Williams has a long-earned reputation for "scene stealing" himself.

The one time Williams succeeded in getting in front of Higgins, the wiry little Senator "accidentally" doused him with water under the pretense of flooding the streets. Since the costumes included wooden shoes, the Governor enjoyed the unique experience of wading with his shoes dry on the outer side.

Higgins was heard to mutter, it is reported, "For once the Governor did not steal the show."

Considerably more startling and less funny to candidate at least, was the unhappy discovery that nominating petitions of State Treasurer D. Hale Brake might be considered illegal because of a printing technicality.

Defect amounting to only one 36th inch, but that small difference was enough to cause Brake to submit the question to the Attorney General. The law provides that a paragraph warning signers that it is a violation to sign more than one petition for one candidate must appear on each form. It specifies that 12 point type be used.

Brake's petitions, it was discovered about three days before he intended to file the 30,000 names, contained the paragraph in slightly smaller 10 point type! (A printers point is about a 72th inch.)

After initial shock wore off, even Brake was able to view the matter with amusement. Checking showed that his petitions had been approved by election authorities before they were circulated; they were the same in type size as had been accepted in other years for other candidates. Further checking showed that minor variations existed in most petitions: some were an eighth inch shorter or longer; a trifle

narrower or wider than the code specifies.

The Attorney General office ventured a verbal opinion that the election code was directory rather than mandatory. The absence of intent to defraud, they thought, would permit the petitions to be accepted as legal.

How the error occurred was traced to a printer with an eye for design rather than legal technicalities. The petitions when ordered called for 12 point type. But the man who set the type found that 12 point was just unhandy size for the wording. It carried over only a few letters to an additional line. He decided that 10 point would look much nicer, since it filled out the final line. Without checking with anyone, he reduced the size.

Next Year's License plate can be seen at the State Capitol. It is a deep but pronounced shade of green with white numerals and will bear the Michigan slogan: "Water Wonderland."

The green and white combination also happens to be the colors of Michigan State College which is celebrating its centennial anniversary in 1955.

This year, the first in many that colors other than silver and black were used, blue and gold were selected for auto license plates. These are the official colors of the state and of the University of Michigan.

How about 1956? No decision has yet been reached—maybe it will be gold and brown, the combination representing Western Michigan College of Education at Kalamazoo. Nobody knows.

YOUR LIFE'S AT STAKE!

by Sterling Eaton

The tragic death of the 13 year old newsboy of Northville who was hit by an automobile and the close call two local youths had here last week in an auto collision should be fair warning to all local residents to use extreme care when driving their cars.

This is the time of year when traffic becomes more intense. Sunshiny days bring more cars on the roads and the approach of the vacation season makes it imperative that more caution be observed. It is also the responsibility of parents to inform their children of the increasing dangers they will encounter with their bicycles during the weeks ahead.

Teachers in all of our schools should depart from their regular routine and devote several minutes each day reminding their children to be careful when crossing the streets and point out the dangers of playing on or crossing the streets during the summer.

Traffic deaths for 1953 totaled 38,500 - an increase of 900 over 1952. The injury count reached 2,140,000 - an increase of 50,000 over 1952.

An insurance company analysis shows that excessive speed was the major cause of accidents and actually accounted for the death of 13,870 people and the injury of more than 600,000. Drivers under 25 were involved in almost 25% of the fatalities and yet they constitute only 15% of the total drivers.

It is also interesting to note that 41% of the deaths and 36% of the injuries occurred on Saturdays and Sundays.

We suggest every local driver adopt for themselves the seven points of the courtesy code which are:

1. Share the road by driving in the proper lane.
2. Allow ample clearance when passing.
3. Yield the right of way to other drivers and pedestrians.
4. Give proper signals for turns and stops.
5. Dim his headlights when meeting or following vehicles.
6. Respect traffic laws, signs, signals and road markings.
7. Adjust his driving to road, traffic and weather conditions.

THE LIFE YOU SAVE MAY BE YOUR OWN!

ROGER BABSON SAYS:

BABSON DISCUSSES VACANT LAND

Babson Park, Massachusetts. Old houses may now be a sale. Women have gone crazy both over one-story houses (ranch type) and over ultra-wide skirts. There is a style in houses, like styles in dresses. Well-built and well-located large houses are now out of style. How long it will be before women get sensible and buy such houses again is anyone's guess.

FEAR OF WORLD WAR III

But one thing will always be in style, and that is vacant land—whether small city lots that can be used for parking, or fringe acreage just outside cities and towns. Thus far people have not taken seriously the fear of World War III, but now, with these "Evacuation Days," they are beginning to give up their rented city houses and buy in the suburbs.

If World War III should really look threatening, you will see a big boom in suburban property twenty miles out. Unless the price of land is frozen, it could double in value in a few weeks. Well-drained and well-located vacant land should not now be sold.

SOME THINGS BEING OVERDONE

If World War III threatens, farms outside big cities which cannot now be sold at a fair price may again come into demand. I, however, am not bullish on all commercial farm land. This especially applies to many citrus groves, apple, peach, and other fruit orchards.

With the new big Federal power and irrigation projects, there may be a surplus of high-priced irrigated lands. Irrigation can be overdone, the same as the building of motels and the manufacturing of automobiles. We may be approaching a time when there will be too many filling stations and automobile agencies. More consolidations will be witnessed.

WHAT ABOUT INFLATION?

In view of what is happening in Indo-China, it now seems as if more inflation is inevitable. This may be hard on the housewife and those with fixed incomes, but it should help well-located vacant land and certain other real estate. In view of the preferred treatment received during World War II by the owners of business property, some vacant business property may now be a good purchase.

Inflation should also help farm crop prices and aid merchants. I am especially bullish on the market prices of the securities of the drug and variety chains. Many of these stocks now yield from 5% to 10% and should benefit from mild inflation. Too much inflation can harm everybody except the stock brokers, who are foolishly urging inflation along.

TAFT-HARTLEY AND INFLATION

I forecast that the proposed legislation to amend the Taft-Hartley Bill will remain buried until after the November elections. If it had passed amended as certain labor leaders wanted, it would have made your dollar worth less. As any action has now been delayed, its present effect on inflation will be nil.

Considering all other Congressional legislation to date, I forecast the net result will be mildly inflationary. This should help most land values and all producers. The ultimate consumer, however, will suffer from higher prices. Good mining properties should benefit. Hence, if you are selling vacant land, retain the mineral and oil rights.

Favorite Recipes From Plymouth's Kitchens

Bill Thams cuts celery for his shrimp recipe.

Shrimp A La Texas

This week's favorite recipe by W. H. (Bill) Thams of Midland, Texas was given out when he was visiting his parents, Dr. and Mrs. S. N. Thams of 475 Jener place last month. The recipe for shrimp "a la Texas" is particularly excellent for a snack when you have the bunch in for cards. This is the way Bill prepares his shrimp which they say "are really good." Into a large kettle three-fourths filled with water, place a couple dozen pepper corns, one dried pod of hot pepper and a half dozen bay leaves. Cut up several of the outside stalks of celery, including the leaves. Add the celery, two medium sized onions cut up, and the juice of one lemon. Bring to a boil for a few minutes.

Add a pound or more of shrimp. Do not remove the shells. Boil until done (approximately 10 to 20 minutes.) Remove from fire and let stand until fairly cool. Remove the shells and veins from the shrimp, place the cleaned shrimp in a fruit jar and store in the refrigerator until ready to serve. Add horseradish to cocktail sauce when serving.

Keeping Sick Child Busy Is Important to Recovery

Sick children get well faster when they are kept busy and happy, but although this is easy to say, all parents know how hard it is to do. Mothers and fathers who find themselves in this predicament can obtain practical help in a new booklet entitled "Have Fun...Get Well" which is being distributed in Michigan by the Michigan Heart Association.

The booklet is directed primarily to young people and to parents whose children are ill with rheumatic fever or rheumatic heart disease, but forty pages of specific suggestions can be helpful to all parents and convalescents, including those faced with no more pressing problem than a bad cold.

For youngsters convalescing from serious illness, keeping cheerfully occupied is an important phase of therapy. J. G. Fred Hiss, M. D., Chairman of the American Heart Association's Council on Rheumatic Fever and Congenital Heart Disease, notes in a foreword, "Time stretches out like a great desert for the patient who must spend a long convalescence in bed." The purpose of the pamphlet, he adds, is "to help parent and patient make this time of physical repair a period that is also mentally and spiritually constructive."

"Have Fun...Get Well" is actually two booklets in one. The first section, addressed to teenagers, was written by Maryelle Dodds, occupational therapist, who has worked extensively with young rheumatic fever patients at Los Angeles County General Hospital. The second section, for parents of four-to-ten-year olds, was prepared by the American Heart Association. The Association is responsible also for the comprehensive bibliography, listing sources of additional information and working materials which is one of the pamphlet's most useful features. It should prove particularly valuable to those who do not have ready access to big-city resources such as craft shops.

while confined to bed, provided the doctor approves. Carving, finger weaving, fly tying, paper sculpture, learning to touch type, are just a few examples. Emphasis is placed also on a number of "jobs" for the convalescent, such as putting the recipe file in order or pasting up the picture album. Chores like these give the youngsters the satisfaction of sharing family responsibilities, says the booklet, adding: "Just try working and see if you don't feel better!"

Simpler projects — including some like catching sunbeams in a mirror to make "just looking" interesting for the child whose activity must be kept at a minimum — are detailed in the section for younger children. The pamphlet stresses that parents should not expect too much either of themselves or of a sick child. "Most mothers cannot — and should not — devote full time to entertaining the patient," it states. Although the suggested activities will take some adult attention at the beginning, most are designed to help the child continue on his own. They require only materials readily available at home or the dime store.

Sprightly drawings on almost every page do much to make the pamphlet attractive to the youngster who will use it.

Annual Band Picnic To Be Held in Park

The annual band picnic has been planned for Thursday, June 3, at the Breakfast Nook in the park. This is at the corner of Edward Hines drive and Haggarty highway. This is the same location as last year's picnic. The group will meet at 8 p.m. with dinner beginning around 8:30 p.m. The public is urged to bring picnic dinners and join in the festivities in the park. Special recreation will be provided for the entertainment of the children.

Give Music Recital At Madonna College

A music recital of piano and voice students is scheduled for May 31 at 7:30 p.m. at Madonna college.

Participating in the recital will be three freshmen music majors, Agnes Schettenhelm, Marjorie Krist and Mary Ann Barczak, and another music student, Arlene Kielpinski. Their repertoire consists of selections from Bach, Chopin, Beethoven, Schubert, Brahms and Mendelssohn.

Two vocal soloists, Dorothy Lapezynski, a senior, and Joyce Kubick, a junior, will also participate in the program. Included in Dorothy's numbers are Voices of Spring by Johann Strauss and Moses by S. de Lange. Joyce will sing "If I Could Tell You" by Idabelle Firestone, and "Mighty Lak' A Rose" by Ethelbert Nevin.

TOUGH FINISH FOR TRACTORS
Tractors, which need to be able to take rugged treatment, are given an especially durable coating. To some, heated enamel is applied with a spray gun. The lasting, weather-resistant finish is then baked on at the factory.

Honor Mrs. A. Pino At AAUW Meeting

Retiring president, Mrs. A. L. Pino, was honored at the May meeting of the Plymouth Branch of the American Association of University Women when Miss Ruth Butts presented her with a leather portfolio from the members. Mrs. Pino has performed an appreciated accomplishment in directing the newly formed educational organization in its first two years.

Following the brief business meeting, Mrs. R. E. Houston and Mrs. Ray Collins reported on their trip to Indianapolis where they represented the Plymouth Branch at the Regional Convention. Miss Ruth Butts presented a resume of the topics discussed during the convention of the National Association of Deans of Women and Counselors which she attended in Washington.

The Achievement Day reports of the study group chairmen were made during the annual meeting. Mrs. N. Atchinson will be the chairman of the television and radio group and Mrs. R. L. Nulty chairman of the arts division, the two new study programs added to next year's activities.

Mrs. R. C. Gracey of Homer road entertained the membership in her home. Mrs. Ray Collins and Mrs. Warren Worth assisted the hostess. Tea or coffee and daintily decorated cakes and mints were served from a table arranged with spring flowers. Mrs. A. L. Pino poured.

New members presented to the group are Mrs. M. R. Troyer and Mrs. J. W. Sponseller.

PRESIDING OVER FESTIVITIES of Alma college's Campus Day on Wednesday, May 19, was Queen Mary Lou Hartwick, daughter of Mr. and Mrs. Carl Hartwick of 14345 Northville road. Mary Lou is a freshman student at the college majoring in social work and music education. She graduated from Plymouth high school with the class of 1953. During intermission the queen and her court were showered with gifts financed by the Student Council.

Dry Shampoo Brightens Up Your Winter - Dirty Carpets

Thinking of including that rug or carpet in your spring cleaning campaign? If you are, here is some how-to-do-it advice.

"Surface-brightening" can be done with a dry suds shampoo on Axminster and Wilton-type rugs and also on rayon and cotton rugs with a cut pile.

However, if your rug or carpet has an uncut pile or fringed pile, the specialists advise testing the shampoo on an inconspicuous spot to see how it affects the pile.

Choose a nice, clear day for the treatment. And before shampooing the rug, give it a thorough vacuum cleaning.

Prepare dry suds made with a soapless detergent. This shampoo is easily prepared and leaves no sediment or scum.

To make dry suds, dissolve 1/4 cup of mild soapless detergent in 1 cup of hot water in a large mixing bowl. Whip to a dry suds with a rotary egg beater or

electric mixer. It will be necessary to beat them up several times during the shampoo process to keep them dry.

Apply the suds liberally to a small area of the rug surface with a soft scrubbing brush, using a circular motion. Excess suds may be scraped off the surface with the straight edge of a spatula. Wring a soft cloth or a sponge out of warm clean water and rinse the shampooed area.

First, wipe with a circular motion; then against the nap; and lastly, with the nap. Finish off by brushing with the nap, using a clean brush. Be sure to overlap adjoining areas slightly in order to prevent rings, or light and dark spots in the rug.

Allow the rug to dry thoroughly before using. Usually 24 hours is sufficient. You may want to place an electric fan so that it will circulate the air and speed drying.

Here's Good Advice To Fishing Widows

"Only the gamefish swims upstream, but the seagull fish swims down." Ogden Nash.

So goes the wisdom of one of the nation's most popular poet humorists. And it might provide the answer that thousands of American housewives are looking for.

It's just about this time of year that the call of the trout stream, the lake and the surf, sends many an American male scurrying for the tackle box. With it in hand, the head of the house sets off in pursuit of the wary bass and those other piscatorial quarry.

Made a "widow" by the rod and reel, Mrs. Housewife can do one of two things. She can either turn to other matters or fret and fume and develop a definite distaste for the art and interests of her own personal Isaac Walton.

Why not take a lesson from the sensible fish and swim down stream? After all, this thing is bigger than both of them. It can be done, even if the little woman doesn't know a reel from a reel, or would die before she would bait a hook.

Where does the man go when he goes fishing? Outdoors. What happens a couple of hours after he's been there? He gets hungry. Here's where everybody in the family can get into the act—make a picnic of it.

The idea might not go over so big on every one of the head of the household's fishing expeditions, but there are many times when it would.

While pop, and perhaps the younger male member of the family go after the game, the rest of the family can enjoy being outdoors.

Who, knows but what with modern developments, even the fairer sex may become adept at the ancient art of angling. Modern fishing tackle, utilizing lightweight plastics and other material, makes fishing a sport for every one.

One of the latest and most popular developments is that of "spinning." Spin-fishing calls for a new type reel which lets the line flow smoothly off the end of a spool. Made of modern plastics, the reels weigh about 4 1/2 ounces. A rod weighs something like 3 1/2

ounces and lures weight between 1/12 and 1/4 of an ounce. The spinning line, of course is very light, yet with this sort of outfit, the fisherman, or fisherwoman, can cast for larger fish, and do so with greater ease and accuracy.

After this modern fishing, what could be more enjoyable than a real old fashioned picnic. No man would object to sitting down to an outdoor meal of hearty, delicious sandwiches, or perhaps a hot dish or two which will stay hot for hours in a thermo-bag. Even hot rolls or cold drinks are simple with these modern devices.

So like the sensible fish, why not swim with the tide and make that fishing trip the excuse for more and more picnics where every member of the family enjoys the pleasures of the outdoors.

Boneless Beef Cubes Make Tempting Dish

With spring most everything takes on a new look. Why not extend this look into your kitchen and meal planning? Here's an idea using plentiful beef to pull out of your bag of food tricks. Prepare boneless beef cubes, the meat you use for tempting stew, in a different way—by braising.

For instance, barbecue the beef cubes. This gives you a wonderful blend of flavors and may be served on a bed of white rice. Or cook the beef cubes in sour cream. Add a little grated cheese and 1/2 cup of sour cream mixed with a small amount of water for this Hungarian dish.

Or for a completely different serving, slip the beef cubes on metal or wooden skewers, alternating with small new potatoes and white onions. Mushroom soup or tomato soup are two other possible cooking liquids.

In preparing all of these variations you follow the principles of braising, that is, brown the meat thoroughly in lard or drippings, then add the seasonings and liquid. The amount of liquid makes the difference between braising and cooking as a stew. In the latter, the meat is completely covered with liquid, whereas in braising you start with from 1/4 to 1/2 cup, adding more as the meat cooks, if necessary.

With the small amount of liquid added, closely cover the meat and let it slowly simmer until tender. This will be from 1 to 1 1/2 hours. If you want to use your oven, heat it to 300° F.

Carousel Cake Adds Fun at Kiddies' Party

If you want to make a novel cake for the youngsters' party, take a large piece of cardboard, and cut it in a circle with a small hole in the center. Then place an angel food cake on the cardboard circle and frost it.

The next step is to press peppermint stick candy into the top of the cake in a circle, and place an animal cookie beside each peppermint stick. Finally place the cake on a record player, set at low speed. The children will have a lot of fun watching the party-cake going around like a merry-go-round as well as having fun eating it.

Stainless steel flatware for the table is durable and practical. They recommend buying stainless steel that is simple in design, with rounded edges and light in color.

Triple-Treat Seafood Platter

The warmer the day the bigger the welcome for cool molded salmon loaf on a quivering layer of tangy gelatine. Flank it with tuna and cream cheese stuffed pepper rings, and already-prepared canned shrimp, nestling in crisp salad greens for the main course of the meal.

- Jellied Salmon Loaf**
- 1 envelope unflavored gelatine
 - 1 7 1/2-oz. can salmon
 - 3/4 cup cold water
 - 1 tablespoon grated onion
 - 1 cup hot water
 - 1/2 cup sharp mayonnaise
 - 1 cup diced celery
- Soften gelatine in cold water for 5 minutes. Add hot water and stir until gelatine is dissolved. Add rest of ingredients and mix well. Add salt if needed. Pour into a loaf pan and chill. When almost firm, begin preparing the consommé layer as follows:
- 1 envelope unflavored gelatine
 - 2 tablespoons lemon juice
 - 1/2 cup cold water
 - Dash Tabasco
 - 1 can condensed consommé
- Soften gelatine in cold water for 5 minutes. Add hot consommé and stir until gelatine is dissolved. Add lemon juice and Tabasco. Cool until it begins to thicken. Pour over the salmon mixture. Chill until firm. Unmold on platter. Six to eight servings.
- Tuna Stuffed Pepper Slices**
- 2 green peppers
 - 1 6 1/2-oz. can flaked tuna
 - 1 3-oz. pkg. cream cheese
 - 2 tablespoons finely diced onion
- Wash and remove centers of green peppers. Mix softened cheese, tuna and onion together. Fill peppers with the mixture. Chill thoroughly and slice. Makes eight to ten slices.

Include Broccoli Vinaigrette on Menu

Here's a glorious sophisticated salad for a very special occasion. Something you can prepare ahead of time and be sure of mighty fine praises from all! It's chilled broccoli spears served with a tart vinaigrette dressing and garnished with strips of pimento. Try this with curried chicken, fluffy rice and chutney!

1 package frozen broccoli spears
1/2 cup olive oil
1/4 cup vinegar
salt, pepper and paprika
2 tablespoons chopped India relish or chopped pickles, pimento strips.

Drop solidly frozen broccoli in 1 cup boiling water with 1 teaspoon salt. Bring to second boil, separating stalks gently to hasten thawing. Cover. Turn down heat, cook gently 2 to 4 minutes, until thickest stalks are tender. Lift carefully and drain. Serve either hot or cold with a tart vinaigrette dressing made by mixing together 1/2 cup olive oil, 1/4 cup vinegar, seasoned well with salt, pepper and paprika. Add 2 tablespoons chopped India relish or chopped pickles. Garnish with strips of pimento. Serves 3 to 4.

Helpful Hints Concerning Building, Remodeling, Repairing & Redecorating

TWO ACRES OF LAWN with a stream flowing through is the setting for this three-level home of the E. P. Light family, 234 Sheldon. The home was designed and decorated by Mr. Light. Outside construction is of redwood siding and brick. A variety of bushes, hedges and trees surround the home. A wall of Tennessee ledge rock is being constructed at the right of the picture.

Look Over Design Details Before Buying That House

Little design details can make or break a house. Fortunately, this is an era of straightforward design in home exteriors, with the emphasis on good, clean lines. Probably you couldn't get a builder to build you a house covered with mid-Victorian scrolls and ornaments even if you tried. Just the same, there are a number of design pitfalls to beware of when you are buying one of today's new homes. For instance:

Mixture of too many exterior materials. Stone, brick and wood are fine materials, but if they are combined badly they will cut up the appearance of a house and make it seem small.

Frills. Scallops may look just ducky at first glance, but they get mighty boring to come home to night after night. Ask yourself whether such details are really needed, or just stuck on.

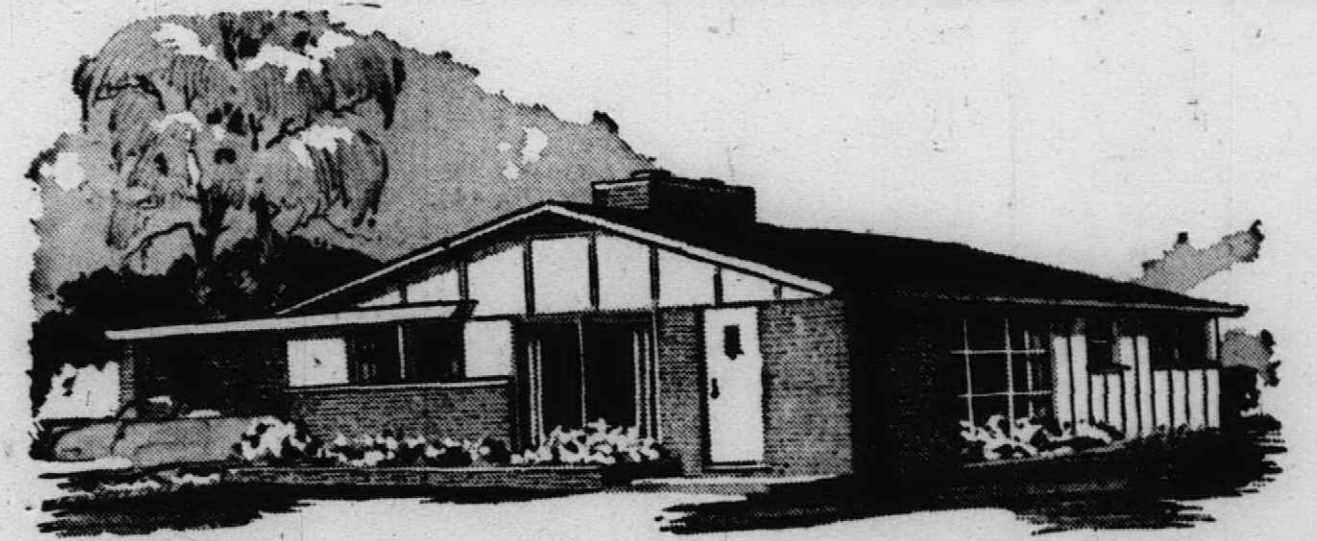

No terrace. Today's emphasis is on outdoor living at home. A terrace of a durable material such as quarry tile will be frost-proof and its color blend well with grass. Bald spots won't develop on a lawn with a suitable tiled terrace.

High foundation walls. Foundation walls that project well above the ground are unattractive, and a good deal of money has to be spent in plantings to conceal them.

A tiny entrance. Guests like a home that seems to invite them, but a tiny entrance does not do that. Also, the entrance should always offer some protection from the weather, while callers are waiting for you to answer the bell.

A winding entrance walk. Unless you have a mansion set far back from the road, a winding entrance walk will look ridiculous. People like to take a direct course to a house, unless there is good reason for doing otherwise.

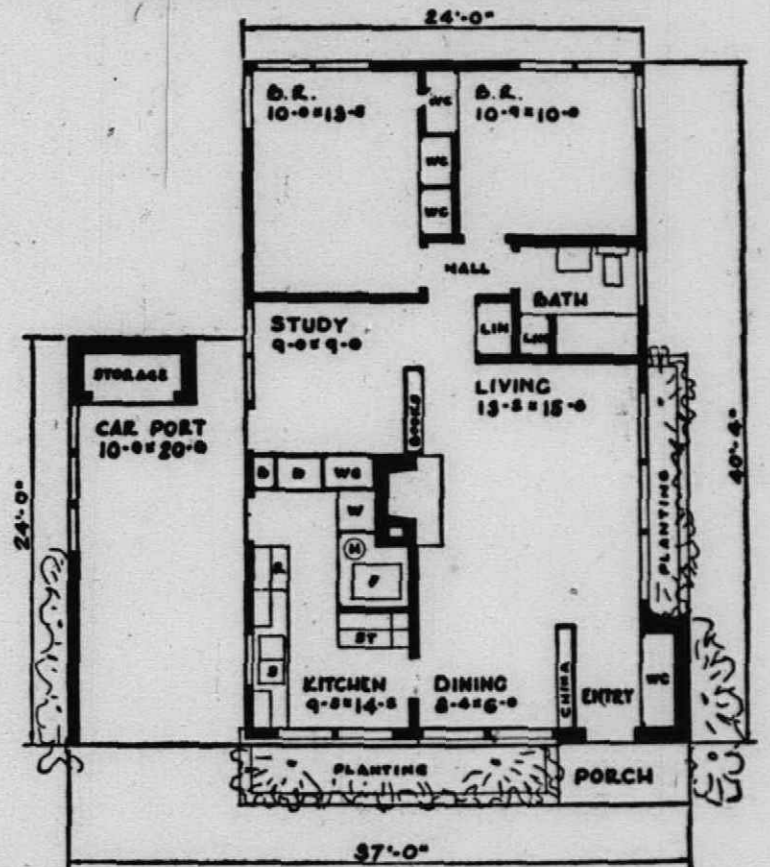

Materials that spot near the foundation line. Any material or finish just above the foundation line will look spic and span when a house is new. But how will mud splattered against it by heavy rains affect it? Can the material be cleaned easily, or will it need frequent refinishing?

DESIGN H-205

FOR A NARROW LOT

Architecturally attractive, this modern type ranch home is especially suited to a narrow lot. From the entry, one's view is momentarily cut off from the dining area adjacent to the living room by the built-in china cabinet siding the entry hall. This touch provides the necessary partition between the living and dining areas. The ceiling-high fireplace, two bedrooms and study that can be used as a guest or third bedroom, and the large L-shaped kitchen are outstanding in this design. The modern carport features storage space and the planting boxes in front and on the side will provide necessary color.

For further information about blueprints, etc., write the Building Editor, The Plymouth Mail.

BONUS EXTRAS
Little extras in a kitchen win some buyers, realtors have learned. Among the inexpensive "bonus" items is the clay-tiled back bar, either hinged to the wall, built-in permanently as a narrow table along the wall or as an island, or put on wheels to touble as a work surface.

Dressing Up Your Home Adds To Value, Aids in Selling

If you want to sell your home, put it in party dress first. A house for sale should put its best foot forward and, like a new acquaintance, make as good a first impression as possible. A good rule is to try to look at your home as a prospective buyer would. Get extra furniture out of the way—it clutters up rooms and makes them look smaller. If you have pieces that need discarding, get rid of them now, not after they have helped create a bad impression on prospects.

If the bathroom is shabby, remodeling it with clay tile will make it waterproof and attractive. The cost of the clay tile installation, real estate men have found, will usually be more than repaid by the added value it gives the house.

Have furniture slip covers and window curtains washed or cleaned. They are the extras that make your home pleasant and therefore more attractive to prospects.

Go through clothes closets and re-arrange them. Every prospect will want to inspect them, and they won't make a good impression if boxes, umbrellas and playthings come tumbling out.

When you can't make a major repair yourself, at least find out what it will cost. Then you can point out to prospects that they are getting a good buy, even with the cost of the needed repair added in.

Don't let a gloomy room unsell your prospects. If it is dark, redo it in light colors and light it well so that it will not be depressing.

Clean up your grounds. There too you need to think of how they will appear to prospects, rather than how they look to you.

Finally, don't hover over prospects. They don't want to feel that you are crowding them to buy, so let them make a leisurely inspection with as little interference as necessary.

Many Institutions Ready to Lend Money For Modernizing Projects

A wide variety of institutions are ready to help American families modernize their homes by supplying the necessary financing. The current edition of Home Modernizing presents the chart below as a guide to sources of modernizing money:

Some suggestions for really beautiful kitchens can be offered over at the Roe Lumber Company. The kitchen used to be merely a functional room in the house, with little thought given to the use of color and decoration. Now, however, with the increasing use of different woods and steel cabinets your kitchen can be one of the most attractive rooms in your house.

For example you might install an attractive mixing corner, with a round lazy-Susan revolving cupboard. That way the back of the storage area can be brought

These Events Were News

50 Years Ago

June 3, 1904

Grace Nelson and Claude Bridger received their diplomas on Saturday. Their many friends are glad to know that they so successfully passed their eighth grade examination.

Mrs. McDonald, an old lady, who came from Springwells to attend the Missionary Convention at the M. E. church, fell into the ditch on Church street Tuesday night about ten o'clock while going from the church in the darkness to C. G. Draper's, where she was stopping, and sprained her hip. She was unable to help herself and but for the opportune arrival of other ladies, who assisted her to the home of Mr. Draper, might have remained out all night. She was able to return to her home the next morning. This ditch has been left open for a month or more and for which there appears to be no reason. A wonder other persons have not fallen into it in the darkness of night and sustained even more dangerous injuries than Mrs. McDonald.

Mr. Rose will occupy the new house that is being built by the Plymouth Improvement company.

Will Arthur is walking about this week with a decided limp. A good portion of his right toe was removed last Sunday, the effect of an ingrown toe nail.

The pupils of Miss Clara Moll, the Detroit music teacher who has a large class here, will give a musicale in the M. E. church this evening at 8:15 p.m. Miss Moll will be assisted by Miss Angeline Meade, of Detroit, violinist.

Charles J. Bennett has been appointed census enumerator for Plymouth township by Secretary of State Fred Warner. He began his duties last Wednesday and expects to be fully busy until the last day of the month. Every facility should be given him for an accurate report from Plymouth.

J. R. Shaw has torn down a portion of the old Maccabee shed that he purchased recently and is building an addition on his barn with the lumber.

Mr. and Mrs. Jay Bliss of Northern avenue have been notified by the war department that their son, Milo, who died from wounds received in action in Italy, had been awarded the purple heart. It will be presented to his parents at some future time, probably at Selfridge Field.

In appreciation of the splendid work that the Plymouth rationing board members have been doing, there hangs in the office of Chairman William Wood, a certificate of award issued by the Office of Price Administration.

Miss Dorothy Fisher was the honored guest at a dinner at Hillside Tuesday evening, given by 20 young ladies, employees of the pay office of the Kelsey Hayes plant. Miss Fisher will become the bride of Robert Fisher, son of Blake Fisher on Saturday evening.

Mrs. William A. Otwell was hostess at a breakfast bridge Wednesday, given for eight friends from Ann Arbor. A centerpiece of spring flowers, decorated the table and antique caramel slag glassware and wooden plates were used for the breakfast.

Staff Sergeant William West, brother of Ralph West, has recently returned to the States, following a 31 month stay in Trinidad. Sergeant West has been a member of the regular Army for 26 years.

Mr. and Mrs. John MacLachlan were in Grand Rapids last week, where Mr. MacLachlan was a representative to the Jaycee state war conference. From Grand Rapids they went to Chicago, where they spent a few days.

Hundreds and hundreds of people from Plymouth and vicinity Friday and Saturday visited the opening of the new Cassidy Dress Shop at the corner of Main street and Penniman avenue. They lingered longer than the usual time spent at a store opening—they waited frequently for many, many minutes in order to tell Mrs. Cassidy what a wonderful job she had done in transforming a store where bucksaws, hammers and nails had been sold into a beautiful woman's dress shop.

Lieutenant Colonel Harry Deyo, arrived Tuesday, to spend a few days with his family on Church street.

HEALTH AND BEAUTY

The Glands

"I'm constantly hearing about glands; I don't know what they are, or what they do. Is a tonsil gland and why are they so often removed?" writes an inquiring mother.

There are many varieties of glands, all of which are important. They are located in different parts of the body, but are still connected under one great system. The ductless glands pour their secretions directly into the blood, which carries it where it is needed.

The liver is a gland which manufactures bile, a very useful fluid which flows into a duct or tube, that conducts it into the intestines. If this tube gets stopped up, the person becomes jaundiced, because the bile is absorbed into the blood and distributed throughout the system.

The tonsils are glands that you have heard much about, because they are so often removed. They are located in the throat. They can be seen sticking out like soft, fleshy tissue. We do not know the exact functions of the tonsils, but they were created for a useful purpose which they serve as long as they are healthy.

Children are born with sound tonsils, but great numbers of them become diseased in a few years. Probably colds cause many of the inflammations that leave the tonsils crippled. There are other factors. Adenoids drop poisonous infectious material on the tonsils and break them down.

When the tonsils become permeated with pus, which is absorbed into the system, the body resistance is broken down. Bright's disease, rheumatism, diseases of the heart or infectious diseases of many kinds can be contracted.

Attention to the general rules of hygiene, proper diet, a clean mouth and general physical well-being, are the greatest preventatives against diseased tonsils that we know. If a tonsil becomes thoroughly diseased, there seems to be no method of cure. It continues its devastating work of sending pus and poisons into the blood stream. Not only does it damage the body in this way, but the pus is frequently swallowed causing the development of stomach trouble.

Diseased tonsils often produce abscesses in the tissues surrounding them. The name for this is Quinzy. The only cure is removal of the tonsils. You have seen that diseased tonsils are a "focus of infection," suppose that they have caused, say rheumatism in the knee or a diseased heart, will the removal of the tonsils cause the disappearance of the troubles? No, it will not. You have waited too long.

The "focus of infection" was the tonsils, but they continue pouring pus and germs into the blood stream until it became lodged in some other part of the body, where it set up a diseased condition, which remains after their removal. The disease may get better after the tonsils are out, but if a rheumatic heart, or Bright's disease has developed; you cannot expect a cure by taking out the tonsils though the condition will be improved.

Normal tonsils should not be removed. Diseased tonsils should always be taken out, for they are a constant menace to health and age even life itself.

The operation for removing tonsils has been perfected in the last few years, so that it is now quite safe. But this operation, like most others, went through many stages of development before it reached its present perfection of technique.

Diamonds Are Many Other Things Besides A Girl's Best Friend

Besides being a girl's best friend, diamonds are among Michigan's most important industrial tools.

One of the hardest substances known, diamonds are used to shape metal tools which in turn are used to cut other metals. They are also the best material for the cutting edges of oil-well drills.

While gem stones and tool diamonds differ considerably in price, they are essentially the same substance, and both are close cousins to a lump of common coal. Lamp-black, graphite and diamonds are all pure carbon. But their molecules are arranged differently. Those of diamonds being the most compact.

Gems of the highest values are clear and colorless. Minute impurities however, tint many stones yellow, brown, green, gray or black. Some few are red or blue. They may be either clear, milky or opaque.

They differ slightly in their hardness, and even a single-stone will have different hardness in different directions, as tool-makers know. Price is affected also by the size of the stone, a large one being worth more per carat than a small one. Value depends too on how well a given stone takes a fine and uniform polish.

Diamonds are found in old volcanic cores where they were formed under great pressure and intense heat. Since these conditions are almost impossible to duplicate in a laboratory, artificial diamonds as hard as those occurring in nature have not yet been successfully made.

About 20 diamonds have been found in the glacial gravels of the Great Lakes States, including some in Michigan, but the source of these stones, probably somewhere in Canada, remains undiscovered.

The largest and purest diamonds usually occur in Africa. A 5-carat stone (one carat is 1/140 of an ounce) has been recently donated by an African mine to Cranbrook Institute of

Science, Bloomfield Hills, where it can be seen as one of many natural science exhibits available to the public daily from 2 to 5 without charge.

This stone, equal to ten ring gems of average size, was given to the Institute by the Premier Diamond Mine, Transvaal, South Africa. It came from the same pits that yielded the famous Cullinan Diamond, discovered in 1905, and weighing 3,106 carats, three times larger than any other gem diamond ever found.

The Premier Mine is an elliptical pit, eighty acres in extent, in the neck of a prehistoric and eroded volcanic cone. Here tons of rock are crushed daily and washed in a moving water column containing ferro silicon. The diamonds, being heavier, settle downward and are recovered

at the base, while the lighter rock in which the diamonds were formed floats off the top of the separator.

On the average, 45 tons of rock would have to be mined, crushed and treated in a recovery plant to obtain 5 carats of separate diamonds. And many times this tonnage would be required to yield a single 5-carat stone.

The Cranbrook stone, which is of industrial quality, is of value only as a natural science exhibit. Not being a gem, it has not been cut, faceted and polished, as a gem stone would be, and has been left imbedded in its original rock matrix to show its natural setting.

Eclipse of Sun To Be Discussed In U-M Lecture
The Michigan area's last total eclipse of this century will be previewed Friday, May 28, at the University of Michigan by William Liller, U-M astronomy instructor.
The illustrated public lecture, "Michigan's Total Eclipse of Sun, June 30, 1954," will be presented at 8 p.m. in Auditorium B, Angell hall. Following the talk, the astronomy department will open its observatory on the fifth floor so visitors may use the telescopes to view Jupiter and Saturn.
Children attending the event must be accompanied by adults.
Liller explains that the sun will actually be blocked by the moon for a duration of one minute, 20 seconds. But, he adds, two hours will elapse between the time the moon first starts to pass the sun and completion of the event. The eclipse will begin at sunrise.
Ann Arborites will see only 87 per cent of the sun covered by the eclipse, according to the astronomer, but Upper Peninsula vacationers will observe the total eclipse if the weather is good. The ideal site of observing the astronomical event will be on the Keweenaw Peninsula, Dr. Liller states.

Cousino Completes Instructors Course
Anthony J. Cousino, 1011 Penniman, Plymouth, successfully completed the water safety instructor's course conducted by the Detroit Chapter, American Red Cross, at the Henry Ford School, Dearborn. W. George Wibby, director of water safety, who personally taught the course advises that Cousino is now qualified to conduct swimming and life saving programs of the American Red Cross.
A total of eight persons from five different county branches completed the work, which included 10 weekly meetings involving 30 hours of instruction, concluding on May 7. With the continued need for practicing and observing rules for aquatic safety, paramount with the approach of another summer season, these trained instructors will be able to apply their training to needs in their respective communities.

keeping in touch

THE MID-YEAR conference of the Michigan State Shoe Retailers Association was addressed Tuesday evening in Grand Rapids by James Houk of Plymouth's Fisher's shoe store. Houk is immediate past president of the association. He spoke on "Personnel Management."

FROM LAKE PLACID, Florida comes word from Mrs. Grace Gettleson, recently of Plymouth. Mrs. Gettleson says she misses Plymouth very much and enjoys receiving The Mail so that she may "keep-in-touch."

THE DRAMA SEASON continues at the University of Michigan this week with "The Crucible," Arthur Miller's Pulitzer prize-winner. It's being presented at the Lydia Mendelssohn theatre through this Saturday with evening performances at 8:30 and matinees today and Saturday at 2:30.

NANCY MORROW, daughter of Mr. and Mrs. John Morrow, formerly of Plymouth, was awarded the Theta pansy pin by her sorority — Kappa Alpha Theta — as the senior who contributed the most to her sorority during her four years at Cornell university. Nancy graduated in 1950 from Plymouth high school. Her parents now reside in Royal Oak.

NEW TREASURER of the Le Cercle Francais club at Western Michigan college in Kalamazoo is J. Lynn Osen, son of Mr. and Mrs. John K. Osen of 42475 Parkhurst.

INITIATED INTO the Delta Sigma Phi fraternity at Michigan College of Mining and Technology at Houghton recently was Jim Blanton, freshman son of Mr. and Mrs. Winford Blanton of Newburg Road.

A THOUGHT FOR THIS WEEK: There is much greatness of mind in acknowledging a good turn, as in doing it.—Seneca.

OUTDOOR NOTES

From The MICHIGAN DEPARTMENT OF CONSERVATION

A new experiment in Michigan fish culture is getting under way at Drayton Plains state hatchery, conservation department workers report.

About a quarter of a million muskellunge eggs have been started through normal processing at the hatchery.

When—and if—the eggs hatch and grow to plantable size, Michigan will embark on its first attempt to stock the big saw-toothed fighters.

Also being cultivated at Drayton Plains are more than half a million northern pike eggs.

All the eggs were taken from several fish netted in three Gogebic county lakes. The Wisconsin conservation department graciously provided nets and personnel to help trap the fish out of the border waters.

The musky has long been a favorite game fish throughout much of the Great Lakes region. Michigan, however, has never provided more than spotty catches, though the fish is present in a number of lakes.

It is still an open question whether or not the eggs will provide enough young muskies to make a sizeable planting. One big problem is food. At present, nearly two million sucker eggs are being hatched to provide musky food, but fish workers say several million more are needed.

No plans for planting have been made as yet. Certain waters will be selected, based on proper environment, and depending on how many young become available from the eggs.

The northern pike eggs are only the latest Michigan attempt to grow pike; attempts have been made during a number of recent years, but generally only small numbers of plantable fish resulted from the cultivations.

The big problem in the cultivation of fish such as muskies and pike is cannibalism. The young fry have a taste for their brothers and sisters. The problem is so difficult that fisheries workers say it is not unusual to start with a million eggs and end up with only 100-200 plantable fish.

A dozen types of new shrubs, most of them imported from northeastern and central Asia, are being grown on an experimental one-acre test plot at Rose Lake wildlife station northeast of here, conservation department workers report.

The plants are all rugged varieties chosen in the hope that some will fit Michigan's soil and climatic conditions.

They will be tested for several years to find out how much food and cover they can provide for small game. Those that pan out will be used for habitat development throughout the state.

The plants were given to Michigan by the Plant Introduction Division of the U. S. Department of Agriculture, an organization that for many years has sent botanists to gather foreign plants for study and use in the United States.

Dr. C. T. Black, biologist in charge of the station, says there are now 22 plant types growing on the Rose Lake test plot. Included are the newly planted exotics, a number from the Soil Conservation Service nurseries and several from private nurseries.

All are aimed at improving the stock types used in the habitat program.

By the end of the year, Black hopes to have 50-100 types growing on the experimental area.

Also, at the present time, a number of plant types are being tested on state game areas. Some of these have been grown experimentally at the station for a number of years and now are being given extensive "field trials."

Habitat work includes planting on northern state-owned lands, southern game areas and the southern Michigan habitat improvement program. Such plants provide hedgerows, erosion-stoppers and windbreaks and also give wildlife wintering food and protection.

Warm, dry weather reached the northern lower peninsula last week and 55 reported forest fires burned 281 acres in the area.

Three fires burned 18 acres in the upper peninsula and six burned 136 acres in the southern lower peninsula.

The 435 acres of damaged lands swelled the total loss for the year about 25 percent; to date, about 2000 acres have been damaged.

Michigan will receive a three-day look from a Pennsylvania game expert this week to determine its potential as a wild turkey producing area, conservation department workers report.

Roger Latham, in charge of game research in the Keystone state and nationally known for his work on wild turkeys, will tour several wild areas in southern Michigan at the invitation of state conservationists to deter-

mine the possibilities of planting more turkeys here.

Fifty of the big birds were released in Allegan state forest in March; to date, two have been found dead but game workers-report seeing some of the others, apparently in good health.

Latham will be accompanied during his tour by H. D. Ruhl, chief of Michigan's game division, and by Dr. S. C. Whitlock, in charge of state game research.

Some of the areas to be viewed include the Flat River, Barry and

Gratiot-Saginaw game areas and Ogemaw state forest.

The Pennsylvania game expert was in Wisconsin early this week, conferring with officials about suitable turkey habitat in that state.

OLD ENOUGH

A biologist says an egg can remember. If so, a restaurant served us a government egg the other morning that was old enough to reminisce. — Cincinnati Enquirer.

Live wire that really looks it

(One reason why Buick is such a big success this year!)

ITS sports-car lines tell you there's lift and spirit here enough for any man.

Even standing still this glamor car looks alive.

And that look-of-tomorrow styling that's part and parcel of every new Buick — that sweeping panoramic windshield with the dream-car slant — all that says there's action here, and plenty of it.

But just note the name "CENTURY" emblazoned on its rear fender, and you can take it as gospel that this is a performance car of the very first water.

It's the livest of the live wires—the highest-voltage Buick in the line.

It is instant on getaway, a joy in cruising, a breeze on hills — and a honey of a friend in the added safety of its plenty reserve power always on hand for sudden needs.

It is, in fact, a 200-horsepower performance car, and priced far below it — the highest-powered car at its price in the land.

With this great-powered good-

looker setting the pace — and with equally impressive SPECIALS, SUPERS and ROADMASTERS adding to the excitement — is it any wonder Buick today is outselling every other car in America except two of the so-called "low-price three"?

Come in and try one of these gorgeous new Buicks. With the prices we're quoting, you can make the buy of the year this very week.
