

# Enrollments Halted For Nankin, Patchen

No more students from the Nankin Mills and Patchen school districts will be allowed to enroll in Plymouth high school, according to a decision reached by the board of education of the Plymouth Community School district in a special meeting Monday night. The ruling is effective immediately.

The announcement added that the 111 students from Patchen district and 19 from Nankin Mills currently enrolled will be allowed to remain in school until they graduate.

Their decision ended a series of discussions which included a meeting with the Patchen and Nankin Mills school boards two weeks ago. It was at this meeting that the affected boards were able to present their problems.

Both of the districts furnish elementary schooling but have no high school facilities. Located south of Livonia, the two small districts admitted that they have no idea of what they will do with high school students. It was Patchen schoolmen, however, who asked that students now in school be allowed to graduate. In this way the district may be able to gradually furnish or find facilities elsewhere.

The Plymouth board has been talking about cutting off enrollment from the two districts for several years but no definite action was proposed until late last year when it was learned that huge home developments are planned in the two areas. The local board argued that they cannot financially provide new classrooms even with the maximum tuition now paid for the students to attend here.

It was also argued by the Plymouth board that people living in the two districts are not closely allied with this community anymore and that the Plymouth Community district has already extended its boundaries to become the third largest district in the county.

## Community Picnic Revival Planned

Revival of the old-fashioned "community picnic" is being planned for Plymouth by the Rotary club, it was announced this week.

Community picnics used to be popular affairs a number of years ago but they have faded from the local scene since World War II days. The Plymouth Rotary club is planning a chicken barbecue picnic for Sunday, May 20 on a site for which they hope to furnish playground equipment.

The site is located at the east end of Wing street, at Pine. It was originally designated for a hospital site but is now among the vacant lots being turned into a playground by the city. Service clubs such as Rotary are offering to provide playground equipment.

Tentative plans call for activities to start at 2 p.m. which will be of interest for the entire family. Tickets will be sold for the complete picnic dinner and proceeds used to purchase the equipment. Don Lightfoot, general chairman, said that other plans will be announced at a later date.

## Woman Killed as Car Hits Tree on Schoolcraft

An Allen Park woman died from injuries she received Sunday when her car struck a tree on Schoolcraft road near Haggerty.

Mrs. Mary Nyakas, 45, of 5591 Mackness died shortly after admittance to Wayne County General hospital. She was returning home after visiting her husband, John, a patient at the Maybury Sanatorium west of Northville.

Authorities said that Mrs. Nyakas apparently lost control of her car. It skidded several hundred feet before hitting the tree.

## Gibson Appointed To Principalship Of Sheldon School

Appointment of Earl T. Gibson as principal of the proposed elementary school on Sheldon road was announced this week by the board of education of the Plymouth Community School district.

Gibson was appointed last October as principal of the five outlying schools in Canton township. These schools included Truesdell, Canton Center, Cherry

Earl Gibson

Hill, Bartlett and Hough. It is the intention of the school board to use the principalship of these schools as a "training ground" for principalships in other schools, according to Superintendent Russell Isbister.

Although the Sheldon road school construction has not yet been started, school officials hope to award the contract sometime this spring and have it completed during the next school year.

Gibson, who lives at 240 Parkview drive, is married and has three children. He is president of the Plymouth Education association, being elected by fellow teachers last spring. He has taught six years, all in the Plymouth schools. For the past two and one-half years he was a sixth grade teacher at Allen school.

The principal received his bachelor's degree at the University of Toledo and took graduate studies at Michigan State Normal college and Michigan State university, where he received his master's degree in school supervision and administration.

## Land Transfer Being Placed on August Ballot

There will be at least one local question on the ballot when the state primary election is held August 7 years, all in the Plymouth schools. For the past two and one-half years he was a sixth grade teacher at Allen school.

Although the city commission can usually do what it wants with city property without public consent, the parcel located between the building and Holbrook avenue was donated to the city years ago for park use only. Law requires a public vote be taken if it is to be conveyed to another owner.

Since there are no municipal elections until the spring of 1957, commissioners voted Monday night to put the proposal on the ballot next August. State officials will be nominated at the election.

## Says Customers Get Only Half Of Parking Space

Almost half of the available downtown parking spaces in Plymouth are occupied by cars belonging to merchants and their employees, the city commission was told Monday night by the chairman of the Retail Merchants committee of the Chamber of Commerce.

Chairman James Taylor said that a survey showed that of the 796 parking spaces, 383 are filled by people who work downtown. That leaves 413 spaces for customers.

Taylor, speaking in behalf of his committee, said that although it is up to the merchants to "crack-down" on his own employees to halt use of the choice spaces, the commission should consider a plan for providing a new parking lot for these employees.

Although Taylor did not go into his committee's exact plans for locating this lot, developments along Fralick or Harvey streets are being considered. He stated that the businessmen's group knows that it can attract more business here, but there is little use in trying unless adequate parking is provided.

Commissioners Harold Guenther and Robert Sincock, previously appointed to work with the Chamber in studying parking, were asked to obtain more details of the proposed idea and report to the commission of any progress.

## Township Adopts New Ordinances

Two ordinances, one covering building and plumbing and the other concerning heating, were approved at a meeting of the Plymouth township board last week. Both ordinances appear in full in this issue.

The increasing amount of construction going on in the township has brought about the two new ordinances, according to Supervisor Roy Lindsay. Although the township had a building code, it was considered inadequate to meet modern construction practices.

The 51-page heating ordinance and eight-page building ordinance will go into effect on March 1. The heating ordinance requires that a board of at least five members be appointed to advise on examinations required by the ordinance. Serving on the board will be township residents, two who must represent the heating business, two representing the board and one citizen at large who shall be a mechanical engineer.

Supervisor Lindsay said that the building ordinance is patterned after Wayne county's and the heating ordinance is much like Plymouth's and Detroit's and will be reciprocal.

## Two Township Firemen Receive Promotions

Advancement in rank of two full-time Plymouth township firemen was announced this week by Fire Chief Howard Holmes. Their promotions became effective Monday.

Named to the rank of captain was Barney Maas, who formerly was a lieutenant. Promoted to the lieutenant vacancy from fireman was Paul Albright. The two men started with the department in 1951 but Albright's work was interrupted by two years served in the Army.

The fire department's other officer is Louis Norman who was promoted to captain last year. The office of assistant chief vacated last year will not be filled.

WHILE YOUNGSTERS (and us grown-ups too) exchange our fond greetings on Valentines Day next Tuesday, Karen Marie Goodale is showing how a boy can really make a hit with his ladyfriend. This giant-sized candy box is on display at the George Kennitz Candies. Karen is the daughter of Mr. and Mrs. Howard Goodale, 47941 Powell road.

## Fire Losses Decline in City, Increase Slightly in Township

Fire losses in the township of \$100,57 and in the city of \$8,298 during the past year were listed by chiefs of the two fire departments in their year-end reports filed with the state fire marshal.

Included in the township's report was the loss of two lives due to fire. Fatally burned when their plane crashed in Rocker Subdivision last summer were a Civil Air Patrol pilot and a cadet.

The city's fire loss was almost \$60,000 less than during the previous year. It was at the end of 1954 that fire damaged three stores on Ann Arbor trail.

City firemen answered 52 alarms last year. They were 20 grass fires, 10 automobile fires, 10 dwelling fires, 6 bulk storage plant fires, 1 dry cleaning plant fire, 1 aircraft fire (assisting Canton township in another plane crash there) and 4 fires of other types.

The total loss of dwellings was \$1,332; loss on other buildings, \$2,685; loss on contents of dwellings, \$421; loss on contents of other dwellings, \$3,280. Other types of fire losses totaled \$580.

Looking at the causes, two were started by minors, 19 by careless burning of rubbish, 3 by fuel oil burners, 4 by misuse of petroleum products, 3 each by defective wiring and juveniles (other than malicious acts), 1 each by misuse of appliances, defective heating device, sparks from chimney on roof, and lightning, and four unknown.

The city's largest fire was at the Twin Pines distributing offices on Ann Arbor trail. Damage there amounted to nearly \$6,000.

The Thomas Zak home which had about \$8,000 in damages was the largest township fire. The total loss on dwellings was \$12,836; loss on other buildings, \$2,040; other type losses, \$981. There were 63 fire runs.

There were 26 grass fires, 13 home fires, 12 auto fires, 1 aircraft, 11 other types, and 1 false alarm.

## Lost Segment of Township Population Found at Last

The riddle of what happened to 1,000 more Plymouth township citizens when the state census was taken here last July has been finally solved—they were in the Detroit House of Correction.

Although most folks perhaps were not aware that a large segment of their township population was missing, township officials have been desperately attempting to determine why there was an increase of population from 1950 to 1955 of only 249.

Census takers in the township went over their reports immediately, re-checked some areas and found that their first figures were accurate. It was known, however, that there were at least 370 new dwelling units constructed during those years.

Figuring that an average of three and one-half people moved into each dwelling unit, there should have been an increased population of at least 1,275 instead of 249. In addition, the usually accurate Metropolitan Detroit Regional Planning commission estimated that the township's population should have increased 1,255 during those years. So where were the missing 1,000-plus?

Last week, a Plymouth Mail reporter, Jim Sponseller, recalled that in 1950 the student population of colleges was included in the college town's population. Did the federal government include the Detroit House of Correction population with Plymouth township's? It was known that the Michigan secretary of state's office insisted last summer that

# City Must Build Sewer Or Face Legal Action

## Establish New Voting Precinct, Polling Places

Establishment of a new precinct and a change in the polling place for Precinct 4 was approved by the city commission Monday night.

The new Precinct 5 will include all homes west of the center of Evergreen and Garfield avenues, according to the resolution. The precinct was formed mainly from Precinct 3 and a small portion of Precinct 4.

Voters in the new precinct will have the Bronson building, located in the Central Parking lot, as their polling place. Also changed to the Bronson building was the polling place for Precinct 4. Voters in this precinct have been going to Smith elementary school during recent years.

City Clerk Kenneth Way said that overcrowded conditions at the school have made it necessary to move the polling site. Nearly every spare room in the building is being used for classrooms.

The Bronson building is owned by the city and it will be possible to store the voting machines there the year-round. It will save the city money by not having the heavy machines trucked to the school and back for elections, Way added.

Other polling places will remain the same. Precinct 1 will be at city hall, Precinct 2 at Fire Station No. 2, and Precinct 3 at the high school.

The new precinct was formed, Way said, to conform with state election laws which require that no more than 1,400 voters be located in a precinct where there are voting machines. Two new machines were delivered this week to give the city a total of 12.

## Retail Dinner Planned

Retail merchants of the Plymouth Chamber of Commerce will hold their annual dinner next Wednesday night in the Captain's Room of the Mayflower hotel.

The meeting will start at 6:30 p.m.

## Stream Contamination Found Here, Health Department Says

While there are indications that many residents of the south section of the city are "up in arms" about the proposed \$600,000 sewer system and may circulate petitions opposing it, the Wayne County Department of Health declared this week that if the sewer isn't constructed, legal action will be instigated.

The letter signed by the department's engineering director, Morton S. Hilbert, was read to the city commission Monday night. A few minutes later the commission approved the completed plans for the sanitary sewer submitted by Civil Engineer Herald Hamill.

## City Health Officer Offers Resignation

Dr. R. R. Barber, the city's health officer since February 5, 1951, has submitted his resignation effective April 1.

His letter of resignation was read at Monday night's commission meeting. "Circumstances beyond my control makes it impossible to give the time required to carry out my duties and responsibilities as health officer," his letter states.

The letter continued by thanking the city officials for their assistance and for the opportunity to render a service to the people of Plymouth.

No replacement was suggested. The city manager was instructed to investigate possible replacements.

## Orders Home To Be Razed

A resolution asking that a home be condemned and razed was approved Monday night by the city commission. It is believed the first time the city has taken such action where a home was involved.

Recommendations by the heating and electrical inspector, building inspector and fire department to the board of health asked that the home located at 644 Herald street be declared a public hazard and nuisance. The owner, Joseph Bailey, is to appear before the commission on February 20 if he wants to express a reason why the order should not be enforced. Otherwise, the structure must be removed within eight weeks.

Occupants of the upstairs apartment were removed by the health officer January 9 because of the lack of sanitary facilities. Bailey resides in the downstairs.

The resolution declares that the building lacks proper sewage disposal, has faulty and dangerous electrical wiring, dangerous and unapproved heating units, dilapidated exterior and interior and a collection of rubbish and debris in and upon the premises.

A garage on Penniman avenue was ordered removed several years ago by the commission, which serves as the board of health. Last year a home on Mill street was ordered abandoned until repaired due to unsanitary conditions. It still remains empty.

The commission has indicated that several other sub-standard structures will be investigated in the future.

## Seek 200 Pledges for Bloodmobile Visit at Methodist Church Next Week

With their sights set on obtaining 200 pledges, the Couples club of First Methodist church is making final preparations for the Red Cross Bloodmobile which will arrive in Plymouth on Friday, February 17.

Pledge cards are circulating among industries, organizations, churches and even in a neighborhood where friends are trying to replace blood used by a woman injured in an auto accident.

The blood donation center will be set up in the new Fellowship hall at First Methodist church. Hours will be from 2 to 8 p.m. giving those who work during the day a chance to donate.

Sponsors hope to have at least 200 pledges, according to Max Brillhart, Chairman of the program. Several organizations have taken particular interest in finding pledges in order to build up a blood bank within their membership. Some of the groups obtaining pledges are Consumers Power, Knights of Columbus, Masons Order, of Eastern Star, Daisy Manufacturing, Wayne County Training school, B. P. O. Elks, First Baptist church and several small groups.

Neighbors of Mrs. John Truer, 1096 Harding, are donating eight pints of blood to replace part of the blood she used after being critically injured last month.

Mrs. Truer, who will remain confined to the hospital for many weeks, was hit by a car in Dearborn driven by a hit-skip driver. When donating blood through the Red Cross, the donor has four choices. He can deposit blood into an account that has been established for a group, such as his factory, business or organization. Or he can establish an "account" for himself or his family upon which he can use the blood at any time without charge. The donor can also donate to a patient in any hospital in the United States. The Red Cross notifies the hospital that credit has been established for the patient.

It is also possible to donate to defense or a philanthropic account whereby blood can be used by the Red Cross for any of its many needs.

Appointments can be arranged by calling Mrs. Urey Arnold at the church office between 9 a.m. and noon. The telephone is 1173.

Monday night. A few minutes later the commission approved the completed plans for the sanitary sewer submitted by Civil Engineer Herald Hamill.

But approval of the plans still does not close the door for blocking of the proposal. Still needing approval is a sewer ordinance which has not yet been presented to the commission.

Hilbert revealed in his letter that the health department examined Tonquish Creek at the east end of Edison on February 1 and found indications of raw sewage being discharged from the community in this area. "Other sources of contamination have been found in all parts of Plymouth where septic tanks are in use," he recommended that until sewers are laid, no new subdivisions should be approved.

"We must emphasize the need for remedial action at the earliest possible date," the letter continued, "and trust that the city will proceed with the proposed plans and that it will not be necessary for this department to institute legal action through the State Health Department and the State Water Resources commission to require the correction of the existing hazards to public health."

Commissioners instructed the city manager to write the health department that "we are doing everything possible to rush the construction of the sewers."

Meanwhile, many citizens living in the south portion of the city where the sewers are proposed have been talking about that kind of reputation tagged onto the city of Plymouth. They declare that spending hundreds of more dollars for sewers is not needed. They add that their septic tanks are operating efficiently.

There are others, however, who have reported trouble with septic tanks. The proposed sewer is also to serve as a relief sewer for those who already have sewers but complain that sewerage backs up into their basements during storms.

City Manager Albert Glassford, in commenting on the health department's threat of legal action, said that "We don't want that kind of reputation tagged onto the city of Plymouth. We have always recognized our responsibilities in the past and should in the future."

In opening his lengthy letter, the health department engineer commended the city for proposing the sewer system. The letter, in part, continued as follows: "For a period of approximately seven years we have discussed the problem of sewage disposal in the areas under consideration with you and other city officials. The need for action in correcting existing health hazards has been emphasized and over this period of time we have been repeatedly informed that something would be done in the near future."

"A petition was prepared through the Wayne County Drain Commissioner's office which would provide for the construction of sanitary sewers in the southern portion of the city. It was the opinion of the County Health department that the sewers contemplated in this petition would solve the problem, and we adopted an attitude of cooperation and refrained from taking legal action in view of the apparent interest in the community in solving this problem."

"However, actual processing of the petition was discontinued sometime ago, and we have received considerable discussion concerning the existing septic tank installation in solving the problem of sewerage disposal, but nothing very concrete until the recent plans which we have in this office."

"We wish to re-emphasize the importance of providing adequate relief sewers for the central area of the city to reduce the frequency and eliminate, if possible, the flooding of basements, and to provide adequate capacity for the increased development which is taking place in the city of Plymouth."

"The southern portion of the city, north of Ann Arbor road, both east and west of Main street, needs a sewerage system to replace the existing septic tank installation of this area. Septic tanks, at best, furnish a temporary solution."

## Sponsored by Community Stamp Merchants

# \$10,000 Contest Boasts Array of 202 Prizes

Today it starts! "It" is the gigantic \$10,000 Plymouth Community Stamp contest which last week was reported to be one of the biggest promotions ever undertaken by any community the size of Plymouth.

This week "it" is even bigger! After working to the last minute gathering prizes and ironing out rules and other details of the giant contest officials came up with a list of 202 glamorous prizes that would tantalize anyone short of King Farouk.

Heading the array is the new Rambler "Cross Country" 4-door station wagon. Fully equipped and heralded as the ideal family

car for suburban living, it has been placed on display by West Bros. Nash dealership at Bob's Standard station on South Main street at Ann Arbor trail.

Two outstanding second prizes offer a week-long vacation for two at the Delano hotel on Miami Beach with all expenses paid. The winning couples will fly on Eastern Airlines and have an Avis "rent-a-car" at their disposal throughout their stay. In addition they will be given \$50 spending money.

Prizes three through eleven include: 19-inch Motorola color television set, complete house of carpeting by "Karpel-Squares,"

Keepsake diamond ring with genuine registered gem, Westinghouse Laundromat, Kelvinator electric range, Fedders room air conditioner, Spring-Air matched spring and mattress, Gruen wrist watch and General Electric portable television set.

After this the prizes come in "bunches." There are five 12th place prizes that the children will love. Five deluxe Evans bicycles in either boys' or girls' models will be awarded. Ten \$25 savings accounts at First Federal Savings and Loan association will be given as 13th prizes. Ten complete camera outfits and ten eye-scope mounted Daisy air rifles will follow as 14th and 15th place prizes.

There will also be 50 men's jewelry sets by Flex-Let; 50 cigarette lighters by Colibri; 25 pairs of Sheer Beauty stretch nylons; and 30 sets of eight glass tumblers.

All 39 of the Plymouth Community Stamp stores are sponsoring the contest and will have entry blanks available this weekend. The contest will continue 22 weeks, ending June 16. Contestants merely have to tell why they shop in Plymouth Community Stamp stores in 25 words or less. Complete details of the contest along with the names of the 39 stores having free entry blanks may be found on pages 4 and 5 of section three.

Mr. and Mrs. Thomas Johnson

### Johnson - Ward Ceremony At First Methodist Church

In an impressive late afternoon ceremony in the First Methodist Church on Saturday, January 21, Miss Katherine Ward became the bride of Thomas Johnson.

The Reverend Melbourne Johnson presided at the four o'clock service. Baskets of white gladioli and snapdragons enhanced the chancel.

Katherine is the daughter of Mr. and Mrs. Lavene Ward of Five Mile road and Mr. and Mrs. Roy T. Johnson of South Main street are the bridegroom's parents.

Katherine chose for her wedding, a ballerina length gown of blue iridescent crystalettes which featured a draped torso with flared skirt. She wore a hat of white satin adorned with pearls and face veil, and other white accessories.

### 150 Women Attend Altar Society Event

Rosary Altar society of Our Lady of Good Counsel church held its annual membership reception Wednesday evening, February 1, at the parish hall, with 150 women in attendance.

Father Francis C. Byrne, church pastor, addressed the group regarding ways in which membership in the society could be beneficial to the individual, her associates and the community. Mrs. James F. Hughes and Mrs. James Murphy explained the purpose and work of the organization. Officers were introduced by Mrs. James Hinckley, president. Musical selections at the event were presented by LuAnne Stremick, pianist.

Refreshments were served at the close of the program by Mrs. James Hinckley and Mrs. Hughes. Co-chairman of the entire event were Mrs. Samuel J. Newingham and Miss Ann Pangborn.

### Bride Dons Crystalette Gown For Detroit Church Ceremony

In a gown of white crystalette which terminated in a cathedral-length train, Miss Gwendolyn Phillips of Plymouth approached the altar of the Covenant Baptist church, Detroit, at 7:30 Friday evening, January 27, for her marriage to George Y. Hargreaves, son of Mr. Yates Hargreaves of 2904 Newport, Detroit, and the late Mrs. Hargreaves.

The bride, daughter of Mr. and Mrs. Thomas S. Phillips of 335 Adams, was given in marriage by her father. She wore a headpiece of iridescent sequins and seed pearls which secured a veil of illusion and carried a white Bible graced with two white orchids and streamers of staphanotis.

Dr. Warner Cole performed the candlelight service. The chancel of the Detroit church was decorated with palms while at either side of the altar were two baskets of mums and gladioli. An open Bible and candelabra graced the altar. Jack Ferry sang "Through the Years," "God Bless These Two" and "The Lord's Prayer" at the nuptial service.

Mrs. Richard McMaster, matron of honor, wore a floor-length gown of gold crystalette and carried a bouquet of red roses.

Bridesmaids were Mrs. Dorothy Waltz, Miss Beverly Ross, Mrs. Sue Haas and Miss Beverly Richardson. Their gowns were of turquoise crystalette in floor length. Pink roses composed their bouquets.

Alan Berley assisted the bridegroom as best man. Seating the guests were John Mills, Leslie Koster, Garth Kowland and George Bacalis.

Mrs. Phillips wore a pale blue, floor-length gown of crystalette with pink camellia corsage for her daughter's wedding.

The reception for 350 guests was held in the church parlors. For going-away, the bride chose a green wool suit with brown accessories.

Following a wedding trip to Chicago, the couple will reside in Flint where the bridegroom will teach at General Motors institute. The bridegroom is a graduate of Cass high school in Detroit and Western Michigan college. The bride graduated from Plymouth high school in 1952 and will receive her degree from Western Michigan this June.

Mr. and Mrs. Richard Burden

### St. Michaels Church Scene Of Burden - Riley Nuptials

Lighted tapers and bouquets of white gladioli and mums was the setting for the lovely candlelight ceremony uniting Shirley Ann Riley and Richard Albert Burden. The Reverend Father Conway officiated at the ten o'clock nuptial Mass in St. Michael's Church, Livonia on Saturday January 14.

Shirley Ann is the daughter of Mr. and Mrs. Frank Riley of Schoolcraft road, Livonia and her bridegroom's parents are the Lester Burdens of Union street, Plymouth.

Shirley Ann approached the altar, on the arm of her father, in a gown of white net and lace in ballerina length. The sleeveless bodice and tiered skirt had a lace jacket with long sleeves, Peter Pan collar with tiny buttons down the front and peplum. The skirt had wide panels of the lace down both the back and front. Her tiara of seedpearls and rhinestones held in place her fingertip length veil of illusion and she carried a cascade of white gardenias and rosebuds tied with long satin streamers entwined with ivy.

Maid of honor was Judy Riley, sister of the bride, who wore blue net over taffeta in ballerina length. She carried a colonial bouquet of pink carnations centered with red rosebuds.

Arlene Burden, sister of the bridegroom, was the bridesmaid. She carried a colonial bouquet of pink carnations and red rosebuds and her gown was of ballerina length in yellow net over taffeta.

Serving Richard as best man was George Riley, his brother. Richard Burden, brother of the bridegroom, and Neil Akerlind seated the guests.

Mrs. Riley chose a dress of blue crepe and lace over satin with blue accessories. Mrs. Burden selected navy and white accessories for her navy blue dress. Both mothers completed their ensembles with corsages of pink camellias.

### Area Encampment Scouts Convene Here over Weekend

The first of several weekend camping sessions in preparation for the Senior Roundup, first national encampment of Girl Scouts, will be held this Saturday and Sunday at the Plymouth Kiwanis-Girl Scout lodge for some 32 girls from Plymouth and surrounding areas.

Michigan has the distinction of being chosen as the site for the encampment, which will be held June 29-July 1 at Highland State Recreation area near Pontiac.

The four scouts from Plymouth who have been chosen to attend the Roundup as representatives of the Plymouth Girl Scout Council are Diane Bever of Troop 5, and Christine Baker, Betsy Edgar and Carol North, all of Troop 1. Alternates selected are Susan Campbell, Georgette Graham, Jo Ann Nagy and Ann Taylor, all members of Troop 1.

Local delegates were selected on a point basis for proficiency in outdoor skills, arts, crafts, etc. Nominated by the local Girl Scout council, the candidates were tested on skills by leaders outside their own troops and persons from other communities.

Representative Girl Scouts from Flat Rock, Milan, Waltz, Wayne and Ypsilanti will join the local delegates for this weekend's camping event when patrol equipment will be made for use on the national encampment. The training session starts at 9 Saturday morning. On Sunday, February 12, also observed as Boy Scout Sunday, the campers and their leaders will attend as a group the 9:30 a.m. services at the First Presbyterian church, Plymouth.

Training sessions for the Roundup have been scheduled for at least one weekend each month, closing with a four-day camping trip prior to the opening date of the event on June 29.

This first national encampment at Highland Recreation area will be attended by 5,000 teenagers, and leaders from all parts of the United States and six ranger teams from Europe. Scouts are preparing the American Girl Polka, created by Arthur Murray, which will be featured at the Roundup. In addition they are practicing various folk dances representative of their section of the country to be presented at the event.

Mrs. William Edgar is chairman of local Roundup preparations.

### Specialist Gives Landscape Talk At Garden Club

Professor Harlow Wittemore, head of landscape design at the University of Michigan, will address the Plymouth branch, Michigan division of the Women's National Farm and Garden association, at the organization's meeting at 1 p.m. Monday, February 13. The gathering will be held at the Veterans community center on Main street.

The guest speaker will discuss "Evergreens in the Landscape," illustrating his talk with colored slides. The 10-minute extra preceding the main program will be a flower arrangement of violets given by Mrs. R. G. Lorenz.

Tea chairman for this meeting is Mrs. Walter J. Roberts. She will be assisted by the following committee: Mrs. Wesley Reid, Mrs. Charles B. Latta, Mrs. Earl Russell, Mrs. Russell Roe, Mrs. Bruno Schaefer, Mrs. Edwin Scott and Mrs. Russell Isbister. Program chairman is Mrs. George Scherman.

### Attend Dealers Show

Charles Beegle, Bill Keefe and Ed Wingard, all associated with Davis and Lent men's store, attended the national sporting goods dealers association show held last weekend in Chicago. The three attended the national boat show there at the same time. Keefe, in charge of the sporting goods department at the local store, also was a guest at an Evinrude company dinner.

### Dinner, Dancing Featured

Fortnighters of the First Presbyterian church will meet at the church tomorrow evening, February 10, for a "Guests and Friends" night.

After a potluck supper at 6:30 p.m., round and square dancing will be featured from 8 to 10 p.m. All couples are cordially invited to attend this event.

"Teas for TV" Program At Bowles' Home Saturday

Leaders in the Democratic Party in this area will gather this Saturday afternoon at the home of Attorney and Mrs. George Bowles, 11749 Turkey Run, to help raise funds for the coming political campaign.

Entitled "Teas for TV" the programs are being conducted throughout the state. Featured guest at the Bowles' home will be Mrs. Neil Staebler, wife of the Michigan Democratic state chairman.

AIN'T WE GOT FUN! says the cast in this hilarious rehearsal scene from "George Washington Slept Here." Kiwanis-Theatre Guild play to be presented February 22, 23 and 25 in the high school auditorium. Above, Russ Creel, (center) as the male lead goes over the lines while coaching at left is Director Bill Merrill of Will-O-Way Playhouse, Bloomfield Hills. The amused audience, also principals in the show, are 1. to r. Ruth Barney, Duane Branch, Saxie Holstein and Warren Worth. Besides providing an evening's entertainment for Plymouthites, the play will help equip the school band with new uniforms by its proceeds.

### Seven to Compete For Cash Prizes At Talent Show

Entered on the growing list of contestants for the annual Talent Show sponsored by the Plymouth Corners society, Children of the American Revolution, on Saturday, February 18, were the names of seven Plymouthites who will join a host of others from Northville and surrounding areas in competition for cash prizes at the event.

Local contestants and their featured entertainment acts are: Karen Stevens, piano solo; Hollis Hynes, vocalist; Mary Jane West, cornet solo; Karen McAllister, vocalist; Linda and Nancy Luefing, tap dance; Bob Ramp, vocalist.

Entries are still being accepted for the event, to be held at 8 p.m. in the auditorium of Plymouth junior high school. Prizes will be awarded to winning contestants in two age categories, five to 12 years and those of 12 through 18 years. Those wishing to appear in the show have been asked to contact Miss Janet Willoughby at Plymouth 195 or Miss Gail Lawrence, Northville 2814.

Names of the three judges will be announced next week. General chairman for the talent show is Miss Rebecca Coolman of Northville.

### Resident Bakes Way To County Title

Two Plymouthites, in competition with seven other high school and 4-H club winners, walked away with honors Wednesday afternoon, February 7, at the Wayne County Cherry Pie Baking contest held in the home service department, Michigan Consolidated Gas company, Detroit.

Best baker of the lot proved to be Sharlene Moers of 2915 Canton Center road, 17-year-old Plymouth high school senior, who took first place in the county competition. The Sheldon 4-H club member won third place last year.

Geraldine Love of 33065 Ann Arbor trail, Plymouth high school sophomore and 4-H member, baked her way into fourth spot in the Wayne county finals.

As the county's top pie baker, Miss Moers is entering the state bake-off held in Grand Rapids today, February 9, and tomorrow.

The state winner will receive a \$150 scholarship and expense-paid trip to Chicago to try for national honors February 21. Grand prize winner there will be in line for a \$500 scholarship, trip to New York and the honor of presenting one of her pies to President Eisenhower in Washington.

Miss Moers appeared Tuesday afternoon, February 7, as a guest on Miss Frieda Barth's TV show, "Good Cooking." Miss Barth, home service director for Michigan Consolidated gas company, co-ordinated the county contest.

Runner-up in this year's bake-off was Betty Radisovich, 15, of Belleville, who also placed second last year. She is a Martinsville 4-H club member. Third place honors went to 18-year-old Emily Nehls of Cooley high school, Detroit.

Other Wayne county contestants were Nellie Gall of Carlton, Bobbie Jemison of Detroit Cass Technical high school, Mary Smrcka of Belleville, Anna Aho of Taylor Center high school and Joy Massey of Detroit Western high school.

Each contestant brought her own equipment to the bake-off. Cherries, canned or frozen, were furnished by the state contest sponsors, Michigan Canners and Freezers association and the Michigan Cherry Producers association.

Sharlene's advice to aspiring pie specialists is "lots of practice." Her winning recipe is given below:

#### CHERRY PIE

**FILLING** . . . 3/4 cup cherry juice  
2 cups cherries  
1/2 cup sugar  
2 tbs. cornstarch  
1/4 t. red coloring  
1/4 t. almond extract  
Pour 1/2 cup juice into saucepan. Add sugar. Mix cornstarch in remaining juice. Pour into mixture in saucepan. Add coloring and almond extract. Bring mixture to a rolling boil and boil for 2 minutes, stirring constantly. Add cherries and boil 1 minute. Set mixture aside to cool.

#### PASTRY

1 1/2 cup sifted flour  
1 t. baking powder  
1/2 t. salt  
1/2 cup lard  
2 tbs. milk  
Sift dry ingredients into bowl. Cut in lard with pastry blender. Sprinkle with cold milk, then mix with fork until mixture holds together. Divide dough and roll out bottom crust. Pour in filling and make lattice top. Bake at 425° for 25 minutes.

WAYNE COUNTY'S top baker of cherry pies, Sharlene Moers, samples her winning entry with Geraldine Love, fourth-place winner, following the county bake-off held in Detroit Wednesday afternoon.

## Social Notes

Miss Susan Beyer entertained fourteen little friends at a party Wednesday afternoon in her home on North Mill street in celebration of her sixth birthday. Susan's little guests included Karen McAllister, Jill Pedersen, Terry and Barbara Swartz, Mary and Craig Sincock, Jack and Judy Burgett, Lynn and Andy Raub, Lynn and Nancy Finlan and her little brother, Michael Beyer.

Mrs. Walter Clark of Wyoming, Ontario, Canada, has arrived at the home of her daughter, Mrs. Cora Bourbon on Forest avenue where she will visit for a few weeks.

The wives of the Suburban Bar Association enjoyed dinner at the Hotel Mayflower, Wednesday evening and afterward had a social evening in the home of Mrs. Claire Alandt on Ann Arbor road.

Sally Morgan returned to her studies at Purdue University, Thursday, after spending between semesters with her parents, Mr. and Mrs. William Morgan on Ann street.

The Lapham Extension group will meet at the home of Mrs. Harold Johnson on Territorial road, Tuesday evening, February 14, at 7 o'clock for a planned cooperative dinner. Mrs. William Compton, co-hostess will give the lesson on nutrition and will have illustrative movies.

Mr. and Mrs. William Hartloff will entertain Saturday evening for the following guests at contract bridge in their home on Sunset avenue, Mr. and Mrs. Walter Beglinger, Mr. and Mrs. Phillip Theobald, Mr. and Mrs. Forest Morgeson and Mr. and Mrs. Marvin Terry.

Mr. and Mrs. Herbert Chaiken have as their houseguest this week, Mrs. Chaiken's sister, Miss Tessie Toll of Philadelphia, Pennsylvania.

Mrs. Henry Wollens of Dewey street was hostess Tuesday evening to the following members of her canasta club, Mrs. Raymond Bachelder, Mrs. Ward Jones, Mrs. H. J. Brisbois, Mrs. John L. Olaver, Mrs. Howard Sharpley, Miss Pauline Peck of Plymouth and Mrs. Horace Johnson of Northville.

### Kiwanians Hear Local Boy Scouts

Plymouth Kiwanians learned details of scouting first hand Tuesday night from four members of Troop P-1 in a program designed to salute the Boy Scouts of America, now observing their 46th birthday.

John and Robert Vos, Wayne Jewell and Jim Cutler each described phases of scouting. John gave a brief history of scouting pointing out that the Boy Scouts of America were founded February 8, 1910. "Scouts are taught duty to God and their country and all human beings," John said. He also explained that boys may begin cub scouting at 8 years of age and qualify for boy scouting at 11.

Robert Vos demonstrated knot tying and explained the uses of the various knots. Wayne Jewell explained the use of maps, compasses and how to tell direction without a compass. The equipment used by a boy scout was shown and explained by Jim Cutler. "With all this equipment it really isn't difficult camping out," Jim declared.

The program was arranged and chaired by Kiwanian Sanford Knapp.

Mr. and Mrs. Mortimer Wise of Corunna, Ontario, visited her sister, Mrs. Cora Bourbon of Forest avenue for a few days last week enroute to Tempe, Arizona where they will visit another sister, Mrs. Clarence Lidgard and family.

### Barbara Reid Named Local Contest Winner

Named local winner in the "Homemaker of Tomorrow" contest sponsored by General Mills, was Barbara Reid, student at Plymouth high school. She is the daughter of Mr. and Mrs. William E. Reid of 9375 Beck road.

Miss Reid received the highest score in a written examination which tested homemaking knowledge and attitudes of senior girls in the graduating class. She will be entered in competition to name this state's candidate for the title of All-American Homemaker of Tomorrow and will also be considered for the runnerup award in the state. She will receive a golden award pin designed by Trifari and the school will receive a "Betty Crocker Good and Easy Cook Book."

National winner of the contest will be named April 12 at the American Table banquet in Philadelphia.

More than \$100,000 in scholarships will be awarded in the contest.

Each state winner will receive a \$1,500 scholarship and an educational trip with her school advisor to Washington, D. C., colonial Williamsburg, Va., and Philadelphia. A \$500 scholarship will be awarded the runnerup girl in each state. The school of the state winner will receive a set of the Encyclopedia Britannica.

## BIRTHS

Because there are so many hospitals in the area which are utilized by Plymouth citizens, it is impossible for The Mail to accurately obtain reports of all births. We therefore must rely on parents or relatives to kindly supply us with this information as soon as possible.

Mr. and Mrs. William A. Davison of Marlowe street announce the birth of a son, Richard Allen, on January 21 in Garden City hospital, weight 10 pounds. Mrs. Davison is the former Dorothy Comport.

Mr. and Mrs. Robert J. Kenyon of Brownell street are receiving congratulations on the birth of a daughter, Gay, in Session's hospital, Northville, January 28, weight six pounds two ounces.

Mr. and Mrs. Robert L. Hartnett of Stillwater, Oklahoma, are the proud parents of a daughter, Jill Deniece born January 29 in Stillwell, Mrs. Hartnett is the former Carolyn Green.

Mr. and Mrs. Raymond Finney of 3198 Dover, Garden City, are receiving congratulations on the birth of a son, Dennis Ray, born January 26, in Ridgewood hospital, Ypsilanti, weight seven pounds 11 ounces. Mrs. Finney is the former Lois Minehart.

Mr. and Mrs. Donald Brinks of 7098 Sheldon road are the proud parents of a son, Brian Donald born February 3 in St. Joseph hospital, Ann Arbor, weighing six pounds 12 ounces. Mrs. Brinks is the former Shirley Travis.

### Resident's Mother Dies During Visit Here

Mrs. Barney Platt of Faust avenue, Detroit, was stricken Monday noon near the home of her daughter, Mrs. David Wood of 398 Sheldon road, where she had been visiting. Mrs. Platt was immediately taken to Henry Ford hospital in Detroit where she passed away from a cerebral hemorrhage that evening.

Reverend Henry J. Walsh will conduct the services to be held at 1 p.m. today, February 9, from the Neeley Funeral home, 16540 Meyers road, Detroit, Interment will be in Forest Lawn cemetery, Detroit.

In addition to her daughter, the deceased is survived by her husband, a granddaughter and two brothers.

Mrs. John D. McLaren was hostess, Wednesday evening, to members of her contract bridge group in her home on Roosevelt avenue.

Eldridge Raven, who had a heart attack in December, returned Monday from the Veteran's hospital, Ann Arbor, and is convalescing at his home on South Main street.

Mrs. Harold Todd of Clemons drive and Mr. and Mrs. Carl Hartwick of Northville road were dinner guests last Wednesday evening of Mr. and Mrs. Jack Gage of Clemons drive.

## THE GOOD OLD DAYS... FROM THE PAGES OF THE MAIL

### 5 Years Ago

February 8, 1951  
The appointment of Dr. Roy Barber as health officer was approved by the city commission Monday night.

A total of \$335.38 was collected in the local March of Dimes drive during January, according to Ed Holdsworth, chairman.

Among those from Plymouth attending the Daane-Pryor wedding in Kalamazoo on Saturday were Mrs. Walter Hammond, Mrs. Dow Swope, Mr. and Mrs. Lewis Goddard, Mr. and Mrs. Louis Truesdell, and Mr. and Mrs. Sterling Eaton.

Several neighbors of Mrs. Lee Turbett honored her and her new son, Brian, at a stork shower last Thursday evening in the home of Mrs. John Chanev on Pacific avenue. Present were Mrs. Park Torrence, Mrs. William Resch, Mrs. Martin Jones, Mrs. Herbert Rorabacher, Sr., Mrs. Robert Smith, Mrs. Joseph Pace, Mrs. Harlow Williams, Mrs. Kenneth Groth, Mrs. Jack Skeba and Mrs. Harold Jousma.

Miss Thelma Swan, daughter of Mr. and Mrs. W. O. Swan of North Harvey street, and John C. Wilkie, spoke their wedding vows on Saturday morning, February 5.

Mr. and Mrs. Vincent Pellerito of Marlowe street announce the birth of a son January 28, at Garden City maternity hospital.

Four members of the Plymouth BPW club represented the local group at a district meeting in Ann Arbor February 3. Present were Mrs. Agnes Pauline, Doris Fisher, Doris Johnson and Dorothy Ritchie.

Over \$500 in cash was taken from Hillside Inn on Plymouth road Tuesday night by professional safecrackers.

Mr. and Mrs. Moritz Langendam of Sutherland street recently returned from Alameda, California where they were visiting their three sons for ten weeks. They made the trip by air both ways.

Friday evening Mrs. William Burton of Elmhurst was co-hostess with Mrs. Wilbur Carr of Hicks road at a party at the Carr home in honor of newly-weds Mr. and Mrs. William Nowlan who were married at 5:00 p.m. Friday

in Livonia.

Those from Plymouth who will attend the J-Hop at the University of Michigan Friday will be Barbara Bennet, Robert Holmes, Maxine Martin, William Norman, Donna Campbell, John Merow, Margaret Rusceak and Jerom Lee Skelly.

### 10 Years Ago

February 8, 1946  
Fred Wagenschutz, fire chief here for 17 years, tendered his resignation to the city commission. August Meyers was appointed temporary acting chief by the city manager, Clarence Elliot.

Annabel Heller and William O. Bartel 111 spoke their vows in a double ring ceremony February 2.

Mr. and Mrs. Peter Gray and children were Sunday afternoon guests of Mr. and Mrs. Henry H. Hees of Arthur street.

Mr. and Mrs. Ora Glass of north Holbrook are the proud parents of twins, Carol K. and Carl J. born this week.

Mr. and Mrs. George Hake Jr. (Faith Wolf) of Kellogg street are proud parents of twins (boy and girl) born February 6.

Eleanor Hart became girl's ping-pong champion at Plymouth high school.

Reverend and Mrs. Henry J. Walsh and family were dinner guests of Mr. and Mrs. Leroy Jewell of east Ann Arbor trail, Sunday.

Betty Johnston, daughter of Mr. and Mrs. John Johnston of south Lilley road returned home this week from California.

### 25 Years Ago

February 6, 1931  
Members of the Myron H. Beals Post American Legion, were entertained royally by members of the Auxiliary at the Jewell and Blain hall Friday evening. The meeting was conducted by Donald Ryder.

Annual Father and Son banquet largest and best ever held. Over 200 fathers and sons enjoyed the music furnished by the Blue Serenaders in the high school auditorium. The prayer was given by R. Neale, group singing led by Harold Jolliffe. Jimmie Simpson introduced Superintendent George A. Smith who acted as toastmaster. Milton Moe gave a violin solo and John Randall gave the toast to dads with the response to sons being given by Ernest Allison. Speaker for the evening was Ray Johns Y.M.C.A. secretary.

Lee-Carney wedding a beautiful event. The Fred Lee home was

the scene of the wedding uniting his daughter, Grace to Basil Carney last Friday evening, January 30. Attendants were Miss Winifred Draper and the bridegroom's brother, Elmore Carney.

Boy Scouts to have new local committee. The first meeting of this district was held at the Wayne County Training school Tuesday evening. George A. Smith of the Plymouth high school was made chairman; Cass Hough of Plymouth and Reverend Richards of Northville, LeRoy Snell of Rosedale Gardens were elected to serve on the committee.

An interesting and instructive meeting of the League of Women Voters was held Monday afternoon at the home of Mrs. Paul Wiedman. Mr. Koenig, village manager, led the discussion on the proposed change of Plymouth's organization from a village to a city. Miss Lina Durfee read an excellent report and the violin solo by Miss Doris Hamill accompanied by her sister, Alta Hamill Woodworth was much enjoyed.

The Sheridan avenue bridge club met this week at the home of Mrs. C.J. Dykehouse on Sheridan avenue.

The Friendly Neighbors club was very pleasantly entertained at the LeRoy Jewell home on Ball street, Wednesday.

The Stitch and Chatter club was entertained by Mrs. Carl Shear last week with Mrs. Floyd Hillman as co-hostess.

On the evening of February 24 a play will be given by the men's club of the Episcopal parish at the high school. The play is entitled "A Wild Flower of the Hills."

### 50 Years Ago

February 9, 1906  
Mr. and Mrs. Charles Parrish of Tonquish visited Sunday with Mr. and Mrs. Lewis Kaier of Plymouth.

Mr. and Mrs. Mark Joy and family visited their relatives the Herr family south and east of Newburg Tuesday.

Reports say E. C. Leach has sold his farm.

The Farmers Club was held Wednesday evening in the home of Mr. and Mrs. T. Donovan at Lapham's Corner.

Ernest Roe goes to Ashville, North Carolina, next week to visit his wife.

You must see Albert Gayde as an Irishman at the opera house

next week. Henry Ray will have charge of the coffee and tea wagon that makes the trip to Plymouth and vicinity.

Charles Strebbling and Lydia Stender of Plymouth were married at the Methodist parsonage by Reverend Goldie last Thursday evening.

The annual meeting of the Plymouth Creamery company was held Monday afternoon with the following board of directors being elected: W. C. Connor, D. D. Allen, J. B. Pattison, John Cady, William Henry, Asa Joy and John Henderson.

The council met on last Monday evening for routine business and president Eddy appointed C. H. Rauch, H. H. Passage and Albert Gayde as a board of election commissioners.

The home talent play "All Tangled Up" will be given February 15 at the opera house. Players include Major Halliday, Robert Mimmack, Lester McVey, Monte Wood, Kneeling Plantum, Frank Nickelson, George Rapley, Clyde Bentley, O'Toole, Albert Gayde, Mrs. Halliday, Agnes McKinnon, Clara Halliday, Zaida Briggs, Vernie, Zadia Pinckney.

John Streng sold his Victor Hotel to E. J. Hemmingway of Wayne who took possession on February 1.

Wilcox Brothers began cutting ice near their mill this week. It is now 8 inches thick and they are having a great demand for the ice.

### PEO NEWS

Mrs. Harold Stevens of Church street hosted a meeting of the PEO Sisterhood Friday evening, assisted by Mrs. Harold Fischer and Mrs. Frederick Foust as co-hostesses.

Addressing the gathering as guest speaker was Miss Adelia M. Beeuwkes of Ann Arbor. Her topic was "Foods, Fads and Facts."

### Farmers Slate Meeting

Members of the Canton Center 16689 Warren road. Farm bureau gather tonight, February 9, for their meeting at 8 p.m. in the home of Melvin Korte. Under discussion will be the topic, "The Serious Political Attack on Farmers Cooperative."

**OBITUARY**

**Johanna Bertram Petz**  
Johanna Bertram Petz passed away Wednesday, February 1, in Rogers City, Michigan General hospital after an illness of several months, at the age of eighty-one years.

She is survived by two sons, Wilbert and William, both of Northville and one daughter, Mrs. Velma Galsterer of Frankfort; two sisters, three brothers and 12 grandchildren.

Services were held Saturday, February 4, from the St. John's Lutheran church, the Reverend Robert Weller officiating. Burial was in Memorial Park, Rogers City.

Mrs. Petz was married to the late William B. Petz in Rogers City in 1904. They lived in Detroit later coming to Plymouth where they resided for 23 years until the time of Mr. Petz' death 15 years ago when she returned to Rogers City to make her home.

Mrs. Petz was an honorary member of the St. Peter's Lutheran Ladies Aid Society, Plymouth, where she and her husband both held various responsible offices in the church.

### City Must Build Sewer

Continued from Page 1  
 ary means of sewage disposal in congested areas.  
 The underground sand filters which have been installed are beginning to cause trouble in some areas, and by-passing of the sand filter is being experienced. As time progresses, the contamination of the streams will increase and an extensive health hazard will be created.

"It is the opinion of this department that immediate steps should be taken to provide sanitary sewers for the Birch Estates subdivision, Garling's No. 1 subdivision, Sunshine Acres subdivision, Maplecroft subdivision, Brookview subdivision, the Smith school and for the commercial establishments which are now disposing of sewage into the south branch of the Tonawish creek.

"We do not believe that any additional subdivision should be approved in the city of Plymouth until such time as adequate sanitary sewers can be made available. Experience in the areas surrounding the city of Plymouth, as well as inside the city limits, has shown the hazards involved when subdivisions are developed which depend upon individual septic tanks for disposal of domestic wastes."

The sewer plans presented and approved Monday night must now be submitted to the proper county and state departments for approval.

### WANTED

### Frank Truesdell, Lifetime Resident Succumbs at 72

Frank E. Truesdell, age 72, lifetime resident of this community, succumbed early Thursday morning, February 2, at Wayne County General Hospital after a short illness.

Mr. Truesdell a well driller by trade, resided at 756 Haggerty highway. A life member of the Masonic lodge, he was also a member of the Michigan Well Drillers association and the Farm Bureau. The deceased was born July 11, 1883 in Canton, the son of Cornelius and Harriet Smock Truesdell.

Surviving are his widow, Clara Dicks Truesdell, a daughter and two sons, Mrs. Henry Root and Ellsworth Truesdell, both of Plymouth, and Claude Truesdell of Wayne. Two brothers, Roy of Plainwell and Burt of Wayne; eight grandchildren and two great grandchildren also survive.

He was preceded in death by a sister. The Reverend George Nevin was officiating minister for the services held at 1 p.m. Monday, February 6, from the Schrader Funeral home. Interment was in Cherry Hill cemetery. Pallbearers were Louis Buehler, Sam Hall, Floyd Fulton, George Hurrelbrink, Leon Ballou and Frank Smith.

### Burned-Out Auto Scouting Praised In Proclamation

A 1954 automobile, parked on the shoulder of Beck road a mile North of North Territorial, was totally destroyed by fire last Saturday leaving Plymouth township fire department and Wayne county Sheriff's officials in a quandary.

A passer-by reported at 2:39 p.m. to the Plymouth township fire department that the car, a Pontiac, was ablaze. The township fire unit received the alarm and raced out to extinguish the flames. The auto was completely demolished by the fire.

Lt. Paul Allbright of the township fire department reported that no one was around to claim the auto at the time. He explained that it apparently had been abandoned. It was not determined what was the cause of the fire and the township fire department is still investigating.

The license plates on the car were listed as owned by Leon Brown, 9409 Holmur, Detroit. However, according to Wayne county Sheriff's detectives, Brown had made no attempt to reclaim his auto earlier this week. Sheriff's officers explained that no stolen vehicle report had been made on the car.

The township fire department extinguished the blaze in about five minutes and returned to the fire hall at 3:35 p.m.

### Scouting Praised In Proclamation

A proclamation honoring the Boy Scouts of America during this week-long celebration of their 46th birthday has been issued by Mayor Russell M. Daane.

The proclamation lauds the four year program of "Onward for God and My Country" being launched and points out that the sustained membership enrollment extends services to boys of every race, creed and economic status. It also expressed the public's appreciation to "the devoted and loyal volunteers scout leaders in churches, schools, P. T. A.'s, veteran's posts, fraternal groups, service clubs and other community organizations which sponsor 1,435 cub packs, Scout troops, explorer units of this council with an all-time record membership of 73,655 scouts and leaders."

### Student Recital Slated for Sunday

Madonnities will express their musical talents, February 12, when they will present a musical recital for the general public. Scheduled for 7:30 p.m., the program will include piano selections and vocal numbers.

Among those playing will be juniors, Mary Barzak and Marjorie Krist of Detroit, Arlene Kivinski, Bay City, and Agnes Schettenhelm, Dearborn; sophomore Adele Bossi, Wyandotte; freshman Virginia Palasz, Chicago, who will also render several vocal numbers, and Sisters Mary Anselm and Mary Marleno.

The pianists will play such pieces as, Chopin's "Polonaise," Dohnanyi's "Capriccio," Beethoven's "Sonata," Greig's "Sonata," Schubert's "Papillons," Mozart's "Sonata," Brahms's "Hungarian Dance" and Debussy's "Reverie."

### Name Corrected

The name of Marion Bailey was incorrectly spelled in connection with a story printed last week concerning the Daisy Employees Federal Credit Union. She was elected to the supervisory committee.

Mr. and Mrs. Douglas Price and children, Cindy and Steven, of Saginaw, were visitors, Sunday, in the home of Mr. and Mrs. Arthur Blunk on Haggerty highway.

### Chester Tuck Services Today

Funeral services for Chester Tuck, 33642 Hampshire, Livonia are being held today at 2 p.m. at the Schrader Funeral Home, Rev. George D. Jeffrey officiating.

Mr. Tuck, 69, succumbed from a heart ailment. He had been ill six years.

Surviving the deceased are his wife, Gladys Tuck, five daughters, a son, and a brother. Daughters are Mrs. Dorothy Ward of Livonia, Mrs. Katherine Meier of Livonia, Mrs. Marian Coon, Plymouth, Mrs. Ethel Monacell, Sacramento, Cal.; Mrs. Jeanne Warren, Monroe.

A son, William Tuck of Oak Park, and a brother, Mr. Fred A. Tuck of Detroit also survive the deceased.

Mr. Tuck came to Livonia from Detroit in 1942. He was a heating and plumbing contractor, and was affiliated with the Northwest Kiwanis and Ionic Masonic Lodge. Mr. Tuck was well known in Plymouth for his business and club associations.

Interment is at Grand Lawn Cemetery.

### Symphony Seeks Women Boosters

Women interested in the advancement of Plymouth as a cultural center through support of its symphony orchestra will be given an opportunity to further this cause Monday night, February 13, at a meeting of the Women's committee of the Symphony Society.

At 8 p.m. in the band room of the high school, several projects planned by the committee to benefit the orchestra and its work will be outlined and discussed. Anyone wishing to participate in this activity is urged to attend the meeting, said Mrs. Harold W. Kellogg, chairman of the committee.

Following the program, those attending will join the orchestra members for refreshments.

Mr. and Mrs. Wilbert West were guests of the Detroit Council at Parents and Teachers Association's annual Founders Day banquet held at the Masonic Temple in Detroit Monday evening. Mrs. West formerly served on the Detroit Council.

### To Equip Plant, Trucks With Fire Extinguishers

Plans are being made at the M. Powell and Son Strohs distributor outlet, 110 East Ann Arbor road, to equip 17 distribution trucks with new hand fire extinguishers, it was announced Wednesday, February 1, at a sales meeting. Six new extinguishers will be located in the plant itself

for further fire prevention and precautionary measures. Demonstrating the advantages and uses of these hand extinguishers at the meeting was Plymouth Fire Chief Robert McAllister. He explained that the trucks would best be equipped with pyrene-filled extinguishers

while the plant should be outfitted with dry chemical and pressurized water extinguishers. McAllister demonstrated all of the three types of extinguishers, the uses of each type and methods by which proper safety precautions could be observed.

"My dear, when I said the dealer gives a warranty in writing, I was talking about OK Used Cars!"

You're playing your cards smartly when you choose an OK Used Car. A mighty low bid will bring you high returns in value. That's because volume trading for new Chevrolets means volume savings passed on to you. OK Used Cars are always inspected, re-conditioned, and dealer-warranted in writing.

## FIRST PRESBYTERIAN CHURCH

Reverend Henry J. Welch, D.D., Minister

Reverend Thomas Keefe, Minister of Christian Education

Richard Daniel, Superintendent of Church School

Morning Worship, 9:30 and 11:00 a.m.

Church School, 9:30 and 11:00 a.m.

The Sacrament of Infant Baptism will be celebrated on Sunday, February 12th, in the 11 o'clock service. All who have children to be baptized should contact the church office as soon as possible.

The Board of Deacons will meet on Tuesday evening, February 14th, at 7 p.m. in the parlor.

The Minister's Bible class will meet Sunday evening at 7:15 in the parlor. All are welcome.

The Men's Brotherhood will have a pot luck supper on Wednesday evening, February 15th, at 6:30 in the dining room. For the benefit of fathers and sons "The Botanist," a brief one-act comedy, will be presented by the Theater Guild.

Due to the conflict between the father and son meeting of the Brotherhood and the normal opening of our Lenten series, we shall begin our Lenten series of pot luck suppers and religious discussion on Wednesday, February 22nd, at 6:30 o'clock.

The World Day of Prayer Services, under the auspices of the Plymouth Council of United Church Women, will be held Friday, February 17th, 1:30 p.m. at St. John's Episcopal church. The service with the theme "One Flock, One Shepherd," was written by the Cook Training School for Indian-Christian leaders in Phoenix, Arizona.

The availability of true joy and harmony in spite of seeming discord will be emphasized at Christian Science services this Sunday.

"Soul" is the subject of the Lesson-Sermon, a word which when capitalized is used in Christian Science as one of the synonyms for God.

Scriptural selections will include the following from Romans (8:6): "For they that are after the flesh do mind the things of the flesh, but they that are after the Spirit the things of the Spirit. For to be carnally minded is death; but to be spiritually minded is life and peace."

Among the passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be the following (390:7): "It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony. Truth will at length compel us all to exchange the pleasures and pains of sense for the joys of Soul."

REORGANIZED CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS

10:30 Sunday morning service.

10:30 Sunday school.

Classes for pupils up to 20 years of age.

The availability of true joy and harmony in spite of seeming discord will be emphasized at Christian Science services this Sunday.

"Soul" is the subject of the Lesson-Sermon, a word which when capitalized is used in Christian Science as one of the synonyms for God.

Scriptural selections will include the following from Romans (8:6): "For they that are after the flesh do mind the things of the flesh, but they that are after the Spirit the things of the Spirit. For to be carnally minded is death; but to be spiritually minded is life and peace."

Among the passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be the following (390:7): "It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony. Truth will at length compel us all to exchange the pleasures and pains of sense for the joys of Soul."

## To Address World Prayer Observance

Mrs. Robert Lindsay of Lincoln Park will be guest-speaker for the local observance of World Day of Prayer on Friday, it was announced this week by the Plymouth council of United Church Women, sponsors of the event.

Mrs. Lindsay, whose husband is pastor of the Lincoln Park Presbyterian church, is a graduate of Union Theological seminary, New York City. Prior to her marriage she served as director of religious education at the Drayton avenue Presbyterian church, Detroit. At the present time she is spiritual life secretary for the Detroit Presbyterian.

Taking this year's theme for World Day of Prayer as the subject of her talk, Mrs. Lindsay will speak on "One Flock, One Shepherd," at the local observance. The service will be held at 1:30 p.m. in St. John's Episcopal church. Plans for the event are being made by the eight churches represented on the UCW council.

World Day of Prayer chairman is Mrs. Sidney Strong of the Episcopal church, assisted by Mrs. Gerald Fitch, Reorganized Church of Jesus Christ of Latter Days Saints, as co-chairman.

OFF TO THE SHRINE circus go these happy fourth graders of Allen elementary school. All fourth grade pupils in the school district were given a trip to the circus last week by the Plymouth Shriners, some of whom are shown ready to accompany the youngsters on the trip to the state fairgrounds. This is the second year that the Shrine has provided circus trips to fourth graders.

## Bishop Richard Emrich to Conduct Special Service at St. John's Sunday

The Rt. Reverend Richard S. Emrich, Ph. D., S. T. D. Bishop of the Episcopal Diocese of Michigan will make his annual visitation to St. John's Church, Maple and Harvey Street next Sunday.

At a special service which will take place at 4:00 p.m. the Bishop will administer the Apostolic Rite of The Laying on of Hands to a class which will be presented to him by the Rector, the Reverend David T. Davies.

In a very real sense, this is a service of Lay Ordination which commits each member of the class to bring others to Christ and to work for the extension of His Kingdom. In addition to being a special act administered by the Bishop, it is very necessary that the members of the congregation be on hand to encourage and support the Confirmees with their presence and prayers.

A brief reception will follow the service to honor the Confirmees and to afford an opportunity to our people to greet the Bishop.

The Rt. Rev. Emrich

Robert C. Burger Presents the Following Lecture: "Divine Revelation - God Speaks Today"

SUNDAY, FEBRUARY 1

# IN OUR CHURCHES

## CALVARY BAPTIST CHURCH

Patrick J. Clifford, Pastor  
496 West Ann Arbor Trail  
Church 2244 Residence 1413

Heber Whitford, superintendent.

9:45 a.m. Bible school.

Worship Service, 11:00 a.m. — "Sanctification."

5:45 p.m. Youth Fellowship.

Gospel Service — 7:00 p.m.

Monday, 7:00 p.m. — Home visitation.

Wednesday, 7:00 p.m. — Prayer and Praise Service.

Wednesday, 8:15 p.m. — Choir practice.

Thursday, 7:00 p.m. — Kids Bible Club.

Coming: Round the Round World missionary conference.

All are always welcome at Calvary.

## FIRST PRESBYTERIAN CHURCH

Reverend Henry J. Welch, D.D., Minister

Reverend Thomas Keefe, Minister of Christian Education

Richard Daniel, Superintendent Church School

Morning Worship, 9:30 and 11:00 a.m.

Church School, 9:30 and 11:00 a.m.

The Sacrament of Infant Baptism will be celebrated on Sunday, February 12th, in the 11 o'clock service. All who have children to be baptized should contact the church office as soon as possible.

The Board of Deacons will meet on Tuesday evening, February 14th, at 7 p.m. in the parlor.

The Minister's Bible class will meet Sunday evening at 7:15 in the parlor. All are welcome.

The Men's Brotherhood will have a pot luck supper on Wednesday evening, February 15th, at 6:30 in the dining room. For the benefit of fathers and sons "The Botanist," a brief one-act comedy, will be presented by the Theater Guild.

Due to the conflict between the father and son meeting of the Brotherhood and the normal opening of our Lenten series, we shall begin our Lenten series of pot luck suppers and religious discussion on Wednesday, February 22nd, at 6:30 o'clock.

The World Day of Prayer Services, under the auspices of the Plymouth Council of United Church Women, will be held Friday, February 17th, 1:30 p.m. at St. John's Episcopal church.

At St. John's Episcopal church, the service with the theme "One Flock, One Shepherd," was written by the Cook Training School for Indian-Christian leaders in Phoenix, Arizona.

## JEHOVAH'S WITNESSES

Kingdom Hall  
218 So. Union St.  
Sunday, February 12, 5:30 p.m. "Public discourse" Delinquency, what is the remedy?" by L. Stalard.

6:45 p.m. Bible Study with Watchtower magazine "Exclusive Devotion" Isa. 42:8.

## FIRST CHURCH OF CHRIST SCIENTIST

10:30 Sunday morning service.  
10:30 Sunday school.  
Classes for pupils up to 20 years of age.

The availability of true joy and harmony in spite of seeming discord will be emphasized at Christian Science services this Sunday.

"Soul" is the subject of the Lesson-Sermon, a word which when capitalized is used in Christian Science as one of the synonyms for God.

Scriptural selections will include the following from Romans (8:5,6): "For they that are after the flesh do mind the things of the flesh, but they that are after the Spirit the things of the Spirit. For to be carnally minded is death; but to be spiritually minded is life and peace."

Among the passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be the following (390:7): "It is our ignorance of God, the divine Principle, which produces apparent discord, and the right understanding of Him restores harmony. Truth will at length compel us all to exchange the pleasures and pains of sense for the joys of Soul."

## ST. PETER'S EVANGELICAL LUTHERAN CHURCH

Penniman at Garfield

## To Address World Prayer Observance

Mrs. Robert Lindsay of Lincoln Park will be guest speaker for the local observance of World Day of Prayer on Friday, it was announced this week by the Plymouth council of United Church Women, sponsors of the event.

Mrs. Lindsay, whose husband is pastor of the Lincoln Park Presbyterian church, is a graduate of Union Theological seminary, New York City. Prior to her marriage she served as director of religious education at the Drayton avenue Presbyterian church, Detroit. At the present time she is spiritual life secretary for the Detroit Presbyterian.

Taking this year's theme for World Day of Prayer as the subject of her talk, Mrs. Lindsay will speak on "One Flock, One Shepherd," at the local observance. The service will be held at 1:30 p.m. in St. John's Episcopal church. Plans for the event are being made by the eight churches represented on the UCW council.

World Day of Prayer chairman is Mrs. Sidney Strong of the Episcopal church, assisted by Mrs. Gerald Fitch, Reorganized Church of Jesus Christ of Latter Days Saints, as co-chairman.

OFF TO THE SHRINE circus go these happy fourth graders of Allen elementary school. All fourth grade pupils in the school district were given a trip to the circus last week by the Plymouth Shriners, some of whom are shown ready to accompany the youngsters on the trip to the state fairgrounds. This is the second year that the Shrine has provided circus trips to fourth graders.

## Bishop Richard Emrich to Conduct Special Service at St. John's Sunday

The Rt. Reverend Richard S. Emrich, Ph. D., S. T. D. Bishop of the Episcopal Diocese of Michigan will make his annual visitation to St. John's Church, Maple and Harvey Street next Sunday.

At a special service which will take place at 4:00 p.m. the Bishop will administer the Apostolic Rite of the Laying on of Hands to a class which will be presented to him by the Rector, the Reverend David T. Davies.

In a very real sense, this is a service of Lay Ordination which commits each member of the class to bring others to Christ and to work for the extension of His Kingdom. In addition to being a special act administered by the Bishop, it is very necessary that the members of the congregation be on hand to encourage and support the Confirmations with their presence and prayers.

A brief reception will follow the service to honor the Confirmations and to afford an opportunity to our people to greet the Bishop.

The Rt. Rev. Emrich

## Robert C. Burger Presents the Following Lecture: "Divine Revelation - God Speaks Today"

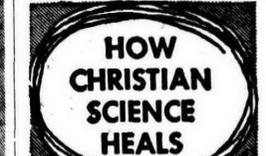

SUNDAY, FEBRUARY 12th 7:30 P.M.

## MASONIC TEMPLE REORGANIZED CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS -

# Letters from Readers Praise Plymouth March of Dimes Drive and Help to Local Polio Victims

Did you—see us standing there, her daddy and I, while doctors examined, bent her legs and arms, questioned, probed?  
Did you—see the look in her eyes, just before I asked, "Honey, you know what the doctors think you have?" She knew before I spoke, "Yes, Mommy, polio."  
Did you—wait with us while we heard her screams as the spinal tap was made? We were hoping, praying, that it wasn't polio.

Did you—have to accept the magnitude of that moment, not knowing how terribly she would be crippled, or if she would ever walk again?  
Did you—hear the doctor say, "She's a very lucky girl," not mentioning the months of faithful service he would perform as she learned to talk again, use her hands? The iron monster was not used. For that we are thankful.  
Did you—ever hear the cries of the children as the hot packs

were applied which turned to whimpering and soon a smile crept across a little face as the heat penetrated, relaxed and made everything seem right again?  
Did you—stand beside me while she so proudly walked for me, her braces so shiny new and polished crutches that soon became heavy? She kidded about going roller skating while I fought back the tears, but it was

wonderful to see our child walking.  
Did you—enjoy seeing your children splashing, climbing trees, skating and doing all the wonderful things children do? We, her parents, want our child to run again and she will.  
Thanks to you for your help in the polio drive.  
A Mother  
(name withheld)

To the Editor  
Plymouth Mail  
To those of us who know first hand what polio means—the initial shock of diagnosis, the subsequent physical suffering, the mental anguish, the fear of permanent disability, the long and uncertain convalescence, the endless routine of exhausting exercise, it is a privilege to help in the March of Dimes.  
Believing that the people in

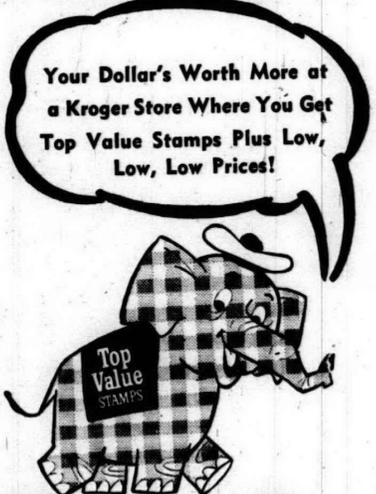

Plymouth are particularly interested in how the National Foundation for Infantile Paralysis has helped their friends and neighbors who have had polio, we have kept our appeal on a strictly local level.  
To those who posed for pictures, and to their families who welcomed the opportunity to say "Thank you" publicly, we are grateful. Our solicitation could not have been the success it was had it not been for the combined

efforts of the Hi-Y boys who took care of the canisters, the Boy Scouts who sold peanuts, the mothers who "marched" and the Girl Scouts who served coffee to the solicitors as they returned from their "march."  
To the Plymouth Mail, and especially to Mr. Sponseller who worked with us, we are indeed grateful for the wonderful publicity.  
All of these people helped us plan and carry out our project—

but it was YOU, the CITIZENS OF OUR COMMUNITY who gave so willingly of your nickles, dimes and dollars, who helped us exceed our goal for 1956! For all of those who will benefit from your generosity, as well as for those of us whose responsibility it was to plan this campaign, we say a most cordial and sincere "Thank you."  
Publicity Chairman  
March of Dimes Campaign

## NOTICE OF PUBLIC HEARING

**CITY PLANNING COMMISSION**  
**CITY OF PLYMOUTH, MICH.**

At a special meeting of the City Planning Commission to be held on February 27, 1956, at 7:30 P.M. in the Commission Chambers of the City Hall, a Public Hearing will be held to consider the following:

The request of David Mather to re-zone the middle portion of Lot 429 of Assessor's Plymouth Plat No. 15 from R-2 (Two-family Residential) to C-2 (Commercial Business).

All interested parties will be given ample opportunity to participate in the hearing; and, at the close of the hearing, the comments and suggestions of those citizens participating will be considered by the Planning Commission before making their decisions.

Kenneth E. Way, City Clerk

## When BUYING or SELLING PROPERTY

**RELY ON YOUR REALTOR**

## USE THE MULTIPLE LISTING SERVICES

offered by 15 Realtor offices

"Realtor" is a professional title given only to members of the National Association of Real Estate Boards and its constituent state and local boards. Adherence to a strict code of ethics in all business dealings with other Realtors and with the public is a fundamental requirement for becoming a Realtor. This high standard of business ethics together with sound judgment, complete knowledge of real estate matters and long experience in handling all types of transactions characterize a Realtor.

The White Buffalo

James Brown's MGM record which was first heard in "Rin Tin Tin and the White Buffalo," sold 7,000 copies its first week in Chicago and has already passed the 100,000 mark in nationwide sales.

Terry Moore will play the wife of a young army officer in World War II in "The Day the Century Ended," by Buddy Adler at Twentieth.

"Doris Day plays to play herself when 'The Story of Doris Day' is made into a movie. The book form is finished and ready for the publishers, Doris, by the way, has two pictures to make before this one: 'The Amazing Nelly Bly,' for Metro and 'The Quality of Mercy'.

"The Wayward Bus," John Steinbeck's novel, will be made into a screen play, Charles Brackett is said to have also been casting an eye at "Desk Set," currently on Broadway.

Cornel Wilde's next production will be "Arrows Into the Sun." It was a best seller of the 1940s, by John Reed Lutz, and is the romance of a part Indian and a Mormon girl in Utah frontier days.

An interesting film in prospect is "The Sons of Katie Elder," for which Alan Ladd will return to Paramount, where he was under contract for so long. The story is about five sons of a pioneer family who gather from all parts of the country to attend the funeral of their mother.

Although Maggie McNamara has had unusual success at Twentieth Century-Fox, with good roles in "Three Coins in the Fountain," and "Moon Is Blue," she has ended her contract with the studio. She prefers to work in New York.

Remember Dorothy and Lillian Gish? Well, after six months of meandering in Europe together, Dorothy is back to star on Broadway in Sean O'Casey's new play, "Red Roses for Me." Lillian has last seen in "Night of the Hunter."

As his first independent production, Marlon Brando has selected "To Have a Lamb." It will be directed by Robert Parrish and distributed by Paramount.

Leslie Caron, Cyd Charisse and Carol Hagen will be featured in "Les Girls," described as a gay romantic story about four show girls in Paris, to be produced by Metro - Goldwyn - Mayer. The fourth girl in the quartette, they hope, will be Jean Simmons, if present negotiations are successful.

Thomas and Dennis Bonilla, the 12-year-old twins who played the sons of Yul Brynner in the stage production of "The King and I" will enact the same roles in Fox's film version of the same musical drama.

Celeste Holm finds that "when it rains it pours." She has two pictures coming up at Metro—the Ruth Hussey role in a remake of "Philadelphia Story," now to be known as "High Society," and "The Opposite Sex." She is also wanted for a play on Broadway and has just turned down another New York play.

For her next picture, Grace Kelly will co-star with Jimmy Stewart in "Designing Woman," with Josh Logan directing. Just how lucky can one girl be?

After completing work on "The View from Pompey's Head," Dana Wynter, British import, has been given the important starring role in "The Sixth of June" by her boss, Darryl Zanuck.

Ernest Hemingway's novel of love in Italy during World War I is to be re-made as a movie by David O. Selznick, who has acquired screen rights and will film the picture in a big-screen process. Gary Cooper and Helen Hayes starred in the original version in 1932.

Back in Hollywood after an absence from the screen of more than two years, Elaine Day has been signed by Universal to co-star with Tim Hovey, the boy actor, and Jeff Chandler in "Toy-Tiger."

## WITH PLYMOUTHITES IN THE SERVICE

**William Ficyk**  
Private First Class William Ficyk, 22, whose wife, Rose Marie, lives at 46625 Saltz road, Plymouth, is a member of the 1st Infantry division at Fort Riley, Kansas.

The division returned to the U. S. in October 1955 after 13 years overseas. Private First Class Ficyk, son of Mr. and Mrs. Stanley Ficyk, 5045 Steadman, Dearborn, is a driver in Service company of the division's 18th regiment. He entered the Army in February 1955 and received basic training at Fort Riley.

Ficyk is a 1951 graduate of Henry Ford Trade school.

**Melvin E. Schultz**  
Melvin E. Schultz, son of Mr. and Mrs. August J. Schultz of 49780 Hanford, Ypsilanti, serving with the service troops at this large Army installation, has been promoted to first lieutenant.

A graduate of Plymouth high school, the lieutenant received his bachelor of arts degree at Michigan State college in East Lansing, where he majored in economics and was a member of the Reserve Officers Training Corps.

He entered the Army in July 1954. Before coming to Fort Dix the following November, he completed the basic officers course at the Infantry School, Fort Benning, Georgia.

**Harold D. Hoppe**  
Army Private Harold D. Hoppe, son of Mr. and Mrs. Harold D. Hoppe, 20409 Inkster road, Livonia, recently was graduated from the 11-week construction drafting course at the Engineers school, Fort Belvoir, Virginia.

The course offered training in drawing plans for various construction projects.

Private Hoppe entered the Army in July 1955 and completed basic training at Fort Leonard Wood, Missouri. He was graduated from Clarenceville High school in 1954.

**David G. Lea**  
Private David G. Lea, son of Mr. and Mrs. Richard Lea, 102 North Holbrook, Plymouth, is a member of the 57th Transportation company at Fort Eustis, Virginia.

Private Lea entered the Army in April 1955 and received basic training at Fort Leonard Wood, Missouri. He is a graduate of Plymouth high school.

**Ralph H. Bakewell**  
Pvt. Ralph H. Bakewell, 21, son of Mr. and Mrs. Chris Bakewell 35483 Warren Road, Plymouth, is taking part in the Army's Alaskan "Exercise Moose Horn" in the Big Delta area, 165 miles from the Arctic circle.

During the four-week maneuver, several thousand troops will receive practical training in tactical operations and cross-country movement under simulated combat conditions. Winter temperatures in the region drop to about 50 degrees below zero.

Also, two methods of arctic supply, airdrop and giant oversnow.

**Starkweather to Address Local Historical Society**  
Early Plymouth, its landmarks and residents will be recalled tonight at a meeting of the Plymouth Historical society at 7:45 in the Veterans Memorial building, Main street.

Featured speaker will be Karl Starkweather, who will tell of life and times in the early days of the city based on recollections of his mother, Mrs. Mary K. Hillmer, a member of one of Plymouth's pioneer families.

Host and hostess for the evening are Mr. and Mrs. Samuel Spicer, assisted by Mrs. Blanche Giles and Mrs. Hattie White.

# Who's New in Plymouth

NEWCOMERS to 11655 Brownell are the Roger W. Geartz family, shown above giving an attentive ear to accordion solos by seven-year-old Roger, Jr. Seated between her parents is Gay Lee, 3. The family moved here in September from North Tonawanda, New York when Mr. Geartz was transferred to the Harvey Container division, of the Robert Gair company. He is head of the production planning department at the local firm.

## Grange Cleanings

We had a very successful and enjoyable Grange meeting on February 2, about 60 were at the dinner which was splendid. As usual, Alvin Collins played several selections on his guitar, which were much enjoyed. Our former Worthy Master, Elbert Hartom, present mayor of Livonia, acted as toast master and introduced the speaker of the evening, Donald Burleson, presi-

dent of Plymouth Chamber of Commerce, who gave a very instructive and interesting talk on investments, stocks, bonds etc. After the program at the table the meeting adjourned to re-assemble upstairs for the business meeting. We were all very happy to have the Hartoms with us for even a part of the evening. The Home Economics committee worked hard to serve the

supper so well and the members extend to them a hearty vote of thanks and appreciation.

There will be no Grange meeting here at our hall on February 16 which is the regular date. The cast of the little play "The Wedding" is invited to come up to Webster hall to present the play there and of course all or any other members of our Grange are welcome to go along. We hope there will be a good crowd.

It is about 25 miles west on Territorial road, and a mile or so south on Webster Church road. The Lily club will hold the usual monthly card party on Monday evening, February 20, with Louise Hutton, Luella Partridge, Loretta Wilson and Mollie Tracy as the entertaining committee. Be sure to come for you will surely have a good time. Pedro and 500 will be played.

Bring sandwiches, cake or Jello for the lunch after the games are over. Bring your neighbors and friends. Also your own dishes. Pomona meeting this month is at Ypsilanti Township hall. Bring your own table service and sandwiches or cake.

### Guild Presents Comedy

For young and old, father and son, "The Botanist," a brief one act comedy will be presented Wednesday evening, February 15 after pot luck by the Theatre Guild for the Mens Brotherhood of the Presbyterian Church.

Come see Pete Aubrey, as Mr. Rimram of Thistlewaite, Rimram & Buckburger, improve the quality of his ulcers with plant food provided by Miss Dorothy Smith—the botanist.

# Social Notes

Mr. and Mrs. Norman Kloenhamer of Haggerty highway entertained Mr. and Mrs. James Altor at the Elmwood in Canada last Friday evening.

Mrs. Doris Wick of Karmada street entertained 10 girls last Saturday at a skating party honoring her daughter, Irene, on her fourteenth birthday. Mrs. Maxine Nicosis of Waukesha, Wisconsin, sister of Irene, was also present.

The Cub Scout Pack 3 committee held their monthly meeting on February 1, at the home of Mr. and Mrs. Roy Mattison, 39861 Six Mile road. The charter was renewed and the officers for the coming year elected. New officers are Cub Master, John T. Parks; committee chairman, Arthur J. Gardner and secretary, H. E. Kendall. The pack meeting this month will be the annual scout birthday banquet on February 22, at 6:30 p.m.

Mrs. Melvin Gutherie of Newburg road and Mrs. Paul Bowman of Farmington spent the past several days in Chicago, Illinois, as the guests of Mrs. Marie Moag. While in Chicago they attended the "Gift Show."

Mr. and Mrs. Lisle Alexander entertained at a family dinner Sunday honoring Mr. Alexander's mother, Mrs. Florence Alexander of Northville, on her eighty-second birthday. Guests included Mr. and Mrs. Earl Alexander and son, Robert of Detroit and Mr. and Mrs. Thomas Davis and daughter, Debra of Northville.

Mr. and Mrs. Frank Henderson of Sunset avenue spent the weekend at Greenbrier, White Sulphur Springs, West Virginia.

The Ex-Servicemen's Auxiliary luncheon will be held at the home of Mrs. Thomas Campbell, 286 Wing Court, Northville, on Friday, February 17, at 12:30 p.m.

S. W. Farmer of Sheldon road was called to Detroit last week by the death of his brother, Charles J. Farmer. Mr. Farmer passed away while on a business trip in South Bend, Indiana. Burial was in Detroit on February 1.

Mrs. John Miller of Irvin street entertained the members of her Priscilla Sewing club Tuesday afternoon in her home.

Mr. and Mrs. Robert Carson entertained 20 members of their beginners Square Dance club after class last Wednesday in their home on South Main street.

Mrs. Joseph Fluery, of the Mayflower Wine Shop, left Saturday to spend two weeks with her sister in Florida.

Michael Schuster, Gordon Moe, Robert Beyer and Herman Bakhaus spent from Thursday until Sunday at Lake Leelenaw ice fishing.

Plymouth friends of Mrs. William Petz, Sr. will regret hearing of her death on last Wednesday evening in Roger City. The Petz family were for many years residents of Plymouth. Burial was in Rogers City on last Saturday.

The Mission Society of St. Peter's Lutheran church will meet on Wednesday, February 15 at 2 o'clock, at the church.

Mr. and Mrs. Olin Martin visited friends in Pontiac last Sunday.

Mrs. John Albertson of Maben road entertained a few relatives Saturday night at a birthday party honoring her husband.

## Article Praises Adult Education Recreation Work

With the headline: "Plymouth Community in Action," the University of Michigan's "Community News Letter" devoted its entire December issue to the Plymouth Adult Education and Recreation department.

The four-page newsletter not only described the adult program in detail, but also has several pictures of class activities. In opening the article, the author describes Plymouth as "a community in action, a town that is really on the move in civic and cultural activities."

The article describes the wide variety of classes offered, the inexpensive fees and the selection of teachers. Instructors work primarily for social rather than financial rewards, the article states.

It also explains the role of the department's director, Herbert Woolweaver. "The cultural center of the area," is a phrase used by Woolweaver in describing the adult education program in Plymouth. But "he does not feel that Plymouth has achieved this goal as yet" . . . but that the town is well on its way toward that goal.

Praised are the Little Theatre Group, the 85-piece Plymouth Symphony and the Creative Arts Festival held in the area each April.

In commenting on attendance, the article states:

"If one is to judge by results, it appears that the director has fully succeeded in communicating his enthusiasm to the public. It must be remembered that participation in such a program is entirely spontaneous and voluntary. Adults attend not because they have to but because they feel the activities offered are worthwhile and profitable; at no time are they a captive audience. The fact that townspeople have built studios in their own homes for the use of adult education classes testifies to the extent of the public's support of, and enthusiasm for, the program."

REHEARSING THE TRIAL scene from "The Remarkable Incident at Carson Corners," all-school play to be presented Thursday and Friday, February 16 and 17, are members of the cast with Director Carl Kranish (far right), speech instructor and debate coach at the high school. From left are Karla Herbold, Larry Sexton, Arlene Kubick, John Logan, Jim Gibson and Staton Lorenz. Kranish is being assisted by Robert Southgate, English teacher, in direction of the show. Curtain time for the murder-mystery is 8 p.m. in the high school auditorium.

## 16 Scouts Honored At Court of Awards

Receiving honors at the recent Court of Awards conducted by Girl Scout Troop 3 at the Presbyterian church were the following 16 members of the troop:

Second class awards: Janet Fair and Marcy Woolweaver; proficiency badges: Kathleen Donnelly, Jody Edgar, Rita Fornwald, Mary Hulsing, Greta Jensen, Karen Kaunisto, Susan Larkin, Gene Ann Light, Karen McGeehan, Helen Otwell, Carolyn Scott, Marlene Sharland, Pamela Stokes, Carol Thorpe and Marcy Woolweaver.

Arrangements for the event, attended by Scout mothers as guests, were made by Caroline Scott's patrol, Mrs. William Edgar is leader of Troop 3. Reporter is Susan Larkin.

Peace of mind and inward happiness are life's greatest rewards, regardless of the wealth obtained.

## Veterans of Foreign Wars

Over 85 members and guests attended our "Luncheon is Served" program Tuesday, January 31, at the Post hall. Our thanks to Kay Coolman and her committee for a delicious luncheon and an interesting program afterwards.

We wish to welcome into our Auxiliary, Mrs. Sheldon Baker, who is also the leader of our sponsored Girl Scout Troop. You missed a good time if you weren't at the Post Valentine dance at the hall on Saturday, February 4. Bill Thomas furnished the music, and everyone enjoyed themselves very much!

Let's not forget to display our flags on Lincoln's birthday February 12!

The Essay contest plans are underway, announces Americanism Chairman, Catherine Cline. Information will be given to the

schools so that the pupils will have a chance to enter the contest. The subject will be "Safety, and What it Means to Me." More details will be announced in a later column!

## Township of Plymouth Ordinance No. VI

**ORDINANCE VI**  
An Ordinance enacted pursuant to Act No. 185, Public Acts of 1943 as amended, to regulate the erection, construction, enlargement, equipment, alteration, repair, moving, removal, demolition, conversion, use, height, area and maintenance of all buildings and structures in the unincorporated portions of the Township of Plymouth; to provide penalties for the violation thereof; declaring and establishing fire limits; defining the scope and authority of the Building Inspector; and repealing all Ordinances and parts of Ordinances in conflict therewith except Ordinance No. 1 known as the Zoning Ordinance of the Township of Plymouth.

### THE TOWNSHIP OF PLYMOUTH ORDINANCES

**Section 1. Adoption of Building Code.** Certain documents, copies of which are on file in the Office of the Clerk of the Township of Plymouth, available for inspection by the distribution to the public at all times, and which are marked and designated as the "Abridged Building Code" and the "Basic Building Code", 1950 Editions respectively, and approved by the Building Official Conference of America, Incorporated, on November 2, 1949, with the additions, insertions, deletions and changes as adopted by the Board of Supervisors of the County of Wayne, October 8, 1951, and known as the County Building Code; and the Plumbing Code of the State of Michigan, as written, are hereby adopted, and are to be used, considered and enforced jointly, with the "Basic Building Code", serving as a supplement to the "Abridged Building Code" with the additions, insertions, deletions and changes, prescribed in Section 3 of the "County Building Code", the "Plumbing Code of the State of Michigan" as written, in regulating the erection, construction, enlargement, equipment, alteration, repair, moving, removal, demolition, conversion, use, height, area and maintenance of all buildings and structures in the unincorporated portions of the Township of Plymouth, and including the penalties for violating the provisions of said Code and establishing the fire limits; and each and all of the regulations, provisions, penalties, conditions and terms of said "Abridged Building Code" and "Basic Building Code", 1950 Editions approved by the Building Official Conference of America, Incorporated, on November 2, 1949, with the additions, insertions, deletions and changes prescribed in Section 3 of the County Building Code as adopted by the Board of Supervisors of the County of Wayne, October 8, 1951, and on file in the Office of the Wayne County Clerk; and the "Plumbing Code of the State of Michigan, as written, are hereby referred to, adopted and made a part hereof, as if fully set out in this Ordinance, except as herein otherwise stated.

**Section 2. Purpose.** The purpose of this Ordinance and Code is to provide minimum standards to safeguard life and limb, health, property and public welfare by regulating and controlling the design, construction, quality of materials, use and occupancy, location and maintenance of all buildings and structures within the Township of Plymouth and certain equipment specifically regulated by this Ordinance.

### Section 3. Additions, Amendments and Clarification of Reference Ordinance.

(1) Wherever, in said Reference Ordinance, a municipality is mentioned and no name is therein given, said municipality shall be construed to mean the Township of Plymouth, and wherever, in said Reference Ordinance, a state is mentioned without giving the name thereof, such state shall be construed to be the State of Michigan.

(2) Wherever, in said Ordinance, the term "Building Official" is used, same shall be deemed to mean such person or persons or organization as may be designated by the Plymouth Board as "Building Inspector."

(3) Wherever, in said Ordinance, reference is made to the Basic Building Code, said reference shall be deemed to refer to the latest amended Basic Building Code, adopted by the Building Official Conference of America, Incorporated.

(4) Wherever, in said Ordinance, there appears to be a requirement that certain documents and papers, including the Abridged Building Code, the Basic Building Code and the State Plumbing Code, shall be kept on file in the office of the Building Official or other person, it shall be deemed sufficient compliance if said documents and papers are on file in the office of the Township Clerk, in the Plymouth Township Hall.

(5) Section 101.0 of the Abridged Building Code is hereby amended by amending the definition of "Minimum habitable room height," to read as follows:

**101.0 MINIMUM HABITABLE ROOM HEIGHT.** A clear height from finished floor to finished ceiling of not less than seven and one-half (7½) feet in the basement, seven and one-half (7½) feet in the first story and of not less than seven and one-third (7 1/3) feet in the second and third stories.

(6) Section 104.13 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 104.13, is hereby amended to read as follows:

**104.13 BOARD OF APPEALS.** The Board of Appeals, as established under the Zoning Ordinance of the Township of Plymouth, shall be the Board of Appeals on matters arising out of the enforcement of the provisions of this Ordinance.

**CHAIRMAN OF THE BOARD.** The Board shall select one of its members to serve as chairman, and the Building Official shall serve as secretary to the Board and shall keep a detailed record of all proceedings on file in the Department of Building Inspection.

**EXEMPTION OF MEMBER.** No member of the Board shall pass on any question in which he is engaged as contractor or material dealer, or in the preparation of plans or specifications or in which he has any personal interest.

**COMPENSATION OF BOARD OF APPEALS.** Compensation of appointed members of the Board shall be determined by the Township Board.

**APPLICATION FOR APPEAL.** In case of dissatisfaction with the decision of the Building Official, the question, in dispute, may be referred to the Board of Appeals; and such Board shall proceed to hear and determine the appeal. Providing, however, that the Building Official shall have the right to order the immediate abatement and correction of any eminently dangerous condition to life or property within the scope of this Ordinance. Application for appeal may also be made when it is claimed that the true intent of this Code or rules legally adopted thereunder have been incorrectly interpreted; the provisions of the Code do not fully apply, or an equally good or better form of construction can be used.

**NOTICE OF MEETING.** The Board shall meet upon notice of the chairman within ten (10) days of the filing of an appeal or at stated periodic meetings if warranted by the volume of work.

**PUBLIC HEARING.** All hearings shall be public; and the appellant, his representative, the official of the municipality and any other person, whose interests may be affected by the matter of appeal, shall be given an opportunity to be heard.

**ADJOURNED MEETING.** Two (2) qualified members shall constitute a quorum; but when three (3) qualified members are not present to consider a specific appeal, either the appellant, the Building Official or their representatives may request a postponement of the hearing.

(7) Section 104.5 of the Abridged Code as amended by the Wayne County Code is hereby amended to provide penalties on conviction of One Hundred Dollars (\$100.00) fine or imprisonment for not more than ninety (90) days or both.

(8) Section 104.6 of the said Ordinance, is hereby completed to provide the following schedule of permit fees:

TABLE 1 SCHEDULE OF PERMIT FEES	
Valuation of Work	Fee
Less than \$100.00	No charge
\$100.00 to \$500.00	\$2.00
\$500.00 to \$1000.00	\$4.00
More than \$1000.00	\$1.00 per each additional \$1000.00 or part thereof.

(9) Section 104.61 of the Abridged Code as amended by the Wayne County Code by the addition of a new section to appear and become Section 104.61, is hereby amended to read as follows:

**104.61 MOVING OF BUILDINGS.** No building shall be moved into, or from one lot to another lot in a district, when such building is not of type permitted in that district. A permit for the moving of a building shall not be issued until a cash deposit, in the amount of Five Hundred Dollars (\$500.00), shall have been deposited with the Township Treasurer to cover any damages suffered or expenses incurred by the Township arising from the moving of the building and to guarantee the removal of all debris from the property and leveling of the lot in a manner satisfactory to the Building Official. The making of such cash deposit shall not prevent the Township from the collection of further damages in excess of the amount deposited in the event further damages are sustained. Such cash deposit shall not be required when a building is to be moved within the limits of the property on which the building is located.

(10) Section 106.1 of the said Ordinance provides for the insertion of the date of adoption. Said date of adoption shall be deemed to be the date of the publication of this Ordinance.

(11) The Fire District Subdivision set forth in Section 107-1, of said Ordinance, shall be deemed to be the business, and/or commercial, and manufacturing districts as established by the Plymouth Township Zoning Ordinance and Zoning Map and amendments thereto.

(12) Section 110.0 of the Abridged Building Code is hereby amended by the addition of a new section to appear and become Section 110.10 to read as follows:

**110.10 BASEMENTLESS HOUSES.** The foundation of all basementless houses, with a crawl space below the first floor, shall be plastered with one-half (½) inch of cement plaster and water proofed. A four (4) inch drain tile shall be laid around the inside of and below the top of the footings. The ground area under the first floor shall be covered with a four (4) inch layer of pea gravel. The tile shall drain into storm sewers or open ditches. If no

sewer or open ditch is available the tile shall drain to a sump, inside of the foundation wall, in which a sump pump is installed to pump the water away from the building.

(13) Section 111.43 of the Abridged Building Code is hereby amended to read as follows:

**111.43 FRAMING OVER OPENINGS.** Lintels over openings in bearing walls or partitions of one and two family dwellings, shall consist of double joists not less than herein specified or trussed construction bearing on jack studs, or other approved construction affording adequate strength:

- Spans less than four (4) feet two 2x4.
- Spans four (4) feet to six (6) feet two 2x6.
- Spans six (6) feet to eight (8) feet two 2x8.
- Spans eight (8) feet to ten (10) feet two 2x10.
- Spans ten (10) feet to twelve (12) feet two 2x12.
- Spans twelve (12) feet to fourteen (14) feet three 2x12.
- Spans fourteen (14) feet and over two 2x12 with a ¼"x11" continuity steel plate placed between 2x12's and bolted together with staggered 3/8 inch bolts eighteen (18) inches apart.

(14) Section 113.23 on Page 51 of the Abridged Code to be deleted from this Ordinance.

(15) Section 113.67 of the Abridged Building Code is hereby amended to change the requirements of Section Number 118.9 in the 6th line to Section 118.7.

(16) Section 115.4 of the Abridged Building Code as amended to read as follows:

**115.4 CRAWL SPACES.** Access spaces under grade floor construction and wherever wood, gypsum, metal or other floor construction subject to corrosion or deterioration is installed, above the ground without basements, shall be provided not less than twenty-four (24) inches in depth. Such spaces shall be vented with screened openings having a clear area of not less than one-half (½) of one (1) per cent of the enclosed building area or shall be provided with other equivalent means of artificial ventilation. The screens shall be corrosion-resistant and rodent-proof complying with Section 118.43. When floating mat foundations are provided in accordance with Section 110.3, the requirement for ventilation shall not apply.

(17) Section 117.1 of the Abridged Building Code as amended by the Wayne County Code, is hereby amended by amending the 4th paragraph to read as follows:

117.1 Private water supplies, hereafter constructed and installed, shall comply with the minimum specifications which are established by the Health Department of the State of Michigan or the Wayne County Health Department.

(18) Section 117.12 of the Abridged Building Code as amended by the Wayne County Code, is hereby amended to read as follows:

117.12 All sewage disposal systems, installed in the Township of Plymouth, shall conform to the Standards and shall be checked and approved by the Building Official of the Township.

(19) Section 117.13 of the Abridged Building Code as amended to read as follows:

117.13 All plumbing, hereafter installed, shall conform to the minimum code requirements of the State of Michigan.

(20) Section 117.0 of the Abridged Building Code, is hereby amended by the addition of a new section to appear and become Section 117.16, to read as follows:

**117.16 Septic Tank and Disposal Fields.** When a sewer is not available the Building Official may grant a permit for the use of a septic tank or other sewage treatment tank, with the required disposal field, provided, such tanks and fields shall be constructed in accordance with the recommendations of the State Department of Health. Percolation tests made by the Wayne County Health Department or other approved agency shall be submitted to the Building Inspector along with the application for a Building Permit. Two such tests shall be made for each tile field. The tank and field shall meet the requirements of the State Department of Health based on the number of bedrooms, persons served and the percolation tests of the absorption area. Whenever a sewer is available use of existing treatment tanks shall be discontinued and connections made to such sewers shall be made within one year.

(21) Section 119.83 of the Abridged Building Code is hereby amended to change the Section 118-7.

(22) Section 123.51 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 123.51, is hereby amended to read as follows:

**123.51 Sale or Rent.** Signs erected to announce the sale or rent of the property, so designated, provided such signs are not more than twelve (12) square feet in area. Subdivision ground signs announcing the name of the subdivision and lots or homes for sale, provided such signs are not over six (6) feet in height nor more than sixty (60) square feet in area.

(23) Section 123.82 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 123.82, is hereby amended to read as follows:

**123.82 Projecting Signs.** A projecting display sign erected to the walls of a building or structure, extending more than eighteen (18) inches beyond the street line, is hereby deemed unlawful. Such signs shall be reconstructed or removed as herein required.

(24) Section 124.31 of the

Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 124.31, is hereby amended to provide an approved bond in the sum of five thousand dollars (\$5,000.00).

(25) Section 125.15 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 125.15, is hereby amended to read as follows:

**125.15 Fire District No. 1.** In Fire District No. 1 structural frames may be erected of wood or other material of similar combustible characteristics covered with metal or other approved non-combustible material, when no more than thirty-five (35) feet in height and seventy-five (75) feet in length.

(26) Section 125.17 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 125.17, is hereby amended to read as follows:

**125.17 Maximum Size.** In all locations, when constructed entirely of noncombustible material, ground signs may be erected to the height as permitted in the Plymouth Township Zoning Ordinance.

(27) Section 126.12 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 126.12, is hereby amended to read as follows:

**126.12 Closed Signs.** A closed roof sign shall not be erected above the roof of any building to exceed the height permitted for the Zoning District in which it is located.

(28) Section 126.13 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 126.13, is hereby amended to read as follows:

**126.13 Open Signs.** An open roof sign shall not be erected above the roof of any building to exceed the height permitted for the Zoning District in which it is located.

(29) Section 126.14 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 126.14, is hereby amended to read as follows:

**126.14 Combustible Supports.** Within Fire District No. 1, no roof sign shall be supported on or braced to wooden beams or other combustible construction of a building or structure unless otherwise approved by the Building Official.

(30) Section 128.11 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 128.11, is hereby amended to read as follows:

**128.11 Maximum Projection.** No such sign shall project over a street or other public space more than eighteen (18) inches. No such sign shall project more than ten (10) feet from the face of the building or structure.

(31) Section 130.1 of the Abridged

Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 130.1, is hereby amended to read as follows:

**130.1 Pole Signs.** Pole signs shall be constructed entirely of noncombustible materials, except as provided in Section 124.46 and shall conform to the requirements for ground and roof signs as the case may be. No part of such sign shall extend more than eighteen (18) inches beyond the street or highway lot line.

(32) Section 132.16 of the Abridged Building Code, as amended by the Wayne County Code by the addition of a new section to appear and become Section 132.16, is hereby amended to read as follows:

**132.16 No person, firm or corporation, or their lessee or agent, shall construct or maintain a barbed wire fence, partially or wholly around any area in any street, avenue, alley, lane or public highway, or in or along any street or in front of any public space or place, or nail, or cause same to be nailed or fastened in any form, shape or manner upon partition fences. Provided, however, this shall not prohibit the use of barbed wire fencing on farms or small farms for the purpose of enclosing cattle or other animals.**

**Section 4. Unlawful Acts.** It shall be unlawful for any person, firm or corporation to erect, construct, enlarge, alter, repair, move, improve, remove, convert or demolish, equip, use, occupy or maintain any building or structure in the Township of Plymouth, or cause the same to be done contrary to or in violation of any of the provisions of this Ordinance and Code.

**Section 5. Petitions.** Any person, firm or corporation violating any of the provisions of this Ordinance and Code shall be deemed guilty of a misdemeanor, and each such person, shall be deemed guilty of a separate offense for each day or portion thereof during which any violation of any of the provisions of this Ordinance and Code is committed, continued or permitted, and upon the conviction of any such violation, such person shall be punishable by a fine of not more than One Hundred Dollars (\$100.00) or imprisonment for not more than Ninety (90) days or by both such fine and imprisonment.

**Section 6. Repeal.** All Ordinances or parts of Ordinances in conflict, herewith, are repealed except where there is conflict between this Ordinance and Ordinance No. \_\_\_\_\_ of the Township Zoning Ordinance, and where said Ordinance No. \_\_\_\_\_ prescribes a more stringent requirement, the said Ordinance No. \_\_\_\_\_ shall prevail.

**Section 7. Effective Date.** The provisions of this Ordinance are hereby declared to be immediately necessary for the preservation of the public peace, health and safety and are hereby ordered to take effect Thirty (30) days after final passage and publication.

(State of Michigan ) SS.  
County of Wayne )  
I, Norman C. Miller, Clerk of the Township of Plymouth, do

hereby certify that the foregoing is a correct copy of an Ordinance as passed by the Township Board of the Township of Plymouth, at its regular meeting held February 1, 1956.

Norman C. Miller  
Township Clerk.

All are lunatics, but he who can analyze his delusion is called a philosopher. —Ambrose Bierce.

## City's Annual Report Going Into Mail Soon

Plymouth's annual report of 1954-55 went into the mails this week, City Manager Albert Glassford announced.

The 32-page booklet is published each year. In pictures and words, the fiscal year's activities for each department is described. A new feature of the booklet

this year is a map of Plymouth and surrounding area. Besides the departmental reports, there is a list of administrative officials and members of the various boards and commissions.

Every household on the water department rolls should receive a copy of the report.

## It's INTERNATIONAL for STYLE!

**All-Truck Built to save you the BIG money!**

We've got the brand new INTERNATIONALS — smart trucks for you from any point of view!

Here are the new trucks with smart, modern style that's practical, built to take the rough going without excessive costs for repair.

Driver-designed for comfort, too, with features that really let you relax while you work. And you get power that relaxes, usable power at low, economical rpm. Power without strain, less wear, longer life.

And every INTERNATIONAL is all-truck built, with no passenger car design compromises, no passenger car engines or components asked to do a truck job. That means a longer, more dependable life that saves you the BIG money — the over-the-years operating and maintenance money.

Come on in first chance you get, and see the truck built to save you the BIG money on your job.

# Cagers' Hopes Shattered by Bentley

Plymouth's hopes of retaining a share of the Suburban Six league basketball crown were rudely shattered last Friday evening by the Bentley Bulldogs, who overcame an eight-point early fourth period deficit to nip the Rocks, 52-51, after the local cagers had seemed on the road to an upset win over the conference leaders.

The defeat was Plymouth's fourth of the current league campaign as against three wins and, coupled with victories by Redford Union and Trenton the same night, apparently doomed the Rocks to a final second division finish. The locals' over-all worst card stands at 4-4.

Again it was Bentley's towering center Ron English who provided the Bulldogs with their individual knock-out punch. English delivered exactly half of the Bentley scoring total with ten field goals and six free throws for 26 points. Earlier this season, when the Bulldogs stopped Plymouth by a 53-49 count in the first round of league play, English pumped in 30 points to squelch the Rocks' hopes then.

The game was decided in the fourth quarter when Plymouth

was unable to continue its fiery brand of play which had included precision scoring maneuvers and a fast-breaking attack. In place of this highly effective offense, which had kept Bentley on the run throughout the first three-quarters, the Rocks submitted only a mild semblance of their earlier battling which had shoved them into leads ranging from six to ten points.

Plymouth entered the fourth period with a six-point 44-38 lead and proceeded to blow it unceremoniously. After tallying 15, 17 and 12 points in the preceding three stanzas, the locals were able to list only seven more in the last frame. In the meantime, Bentley mustered 14 in a final and winning thrust.

The Bulldogs stepped out in front for the first time in the game on a basket by English which brought the scoreboard to 50-49 with three and one-half minutes remaining. Another Bentley basket moments later boosted Plymouth's hosts to a 52-49 lead.

With 90 seconds left, Plymouth's Jerry King dumped in a basket to put the Rocks only one point down. But Bentley immediately adopted a highly effective freeze of the ball which ran out the clock and left the locals out in the cold.

Plymouth opened the contest on a high note, blasting to a 15-5 margin in six minutes only to close the first period with a slender 15-13 bulge yet in its grasp. But in the second frame the Rocks continued their mastery and left the floor at the half in command, 32-28. Further evidence of the Rocks' upset-mindedness was produced in the third

quarter as Plymouth whizzed on to a 43-39 lead, their most substantial margin since the opening minutes. But then came the fourth period!

The Rocks' play was next to perfection in the first half when they committed only one bad pass to lose possession of the ball. But in the final portions, the locals lost their poise and misused ten times to give Bentley sufficient advantage.

In second is Brader's Don McMurray who tallied 23 counters in a pair of contests last week to raise his production to 174. Still in third, despite missing one game last week, is Tait's Bud Nedry with an aggregate of 146 points in 11 games.

The fourth and fifth place scorers exchanged places. Replacing Tripp's Duane Becker in fourth is Bathey's Dick Day, who hit for 19 in two games giving him a total of 141, while Becker, shut out in one tilt and with only 14 more in a second game, fell to fifth with 138.

The other top ten scorers included Tripp's Mac Pierce with 131, Brader's Larry Brennan with 127, Tait's Pat Robinson with 124, Brader's Ed Hock with 119 and Bathey's Bob Houghton with 109.

Additional point-makers are: Tripp's Bud Lanphear (105); Tait's Bob Bruce (102); Bathey's Dwight Eckler (89); Bathey's Bob Arlen (88); Tait's Ron Pagenkopf (87); Bathey's Roger Bogen-schultz (82); Brader's Jerry Heaton (89); and Tait's Russ Brown and Tripp's Jim Bloomhuff (each 58).

High individual scorers last week were Tait's Ron Pagenkopf, Brader's Larry Brennan and Tripp's Don Huebner, all of whom hit for 19 points.

High individual game scoring average is held to date by Brader's Jerry Heaton (69 points in four games) with a 17.2 mark. Bob Lulfs' average per game is 15.5 (202 points in 13 games) leading players who have appeared in at least five battles.

Big men do not necessarily have big thoughts but they can often back them up when they do.

# Rocks Accept Spoiler Role In Cage Race

No longer contenders for top honors in the Suburban Six league basketball race, the Plymouth Rocks still hold cards in the conference's final championship hand. They figure as possible spoilers in the paths of present second place co-holder, Redford Union and Trenton.

Tomorrow evening on their home court, the local cagers face invading Trenton, the team that thus far has had the most decisive loss on the Plymouth quintet in the current campaign. Following the Trenton contest the Rocks will journey to Redford Union February 17 to take on the Panthers, whom Plymouth beat earlier. By defeating either or both of these teams, Plymouth can ease considerably the job that rests with league-leading Bentley.

Bentley, by virtue of its win last Friday over Plymouth, still stands alone at the top of the Suburban Six heap with a league record of six wins, one loss. In second place, deadlocked with each other for the second week in a row, are Trenton and Redford Union. These two teams carry 5-2 cards and are only one game back of pace-setting Bentley.

The Redford Union quintet whipped up an easy decision over hapless Belleville last Friday evening while at the same time Trenton was administering the same rites to Allen Park.

Meanwhile the local basketball camp has sufficient reason to shed tears of wood. With an upset victory over Bentley last Friday practically within its grasp, Plymouth proceeded to get the shakes and wind up a 52-51 loser. Consequently the Rocks are third in the league and boast a 3-4 record in conference play. Bringing up the rear are Belleville and Allen Park, each with one victory and six losses.

Tomorrow evening as Plymouth is attempting to rectify an earlier humbling at the hands of Trenton, Bentley squares off against Belleville and Redford Union will battle Allen Park. The league standings:

TEAM	WON	LOST
Bentley	6	1
Redford Union	5	2
Trenton	5	2
Plymouth	3	4
Belleville	1	6
Allen Park	1	6

# Recreation Scoring Race

The three leading scorers in the local men's recreation basketball league maintained their respective positions after last week's battling with Tripp's Bob Lulfs continuing to pace the conference. Lulfs garnered 25 additional points in two games to boost his total to 202.

In second is Brader's Don McMurray who tallied 23 counters in a pair of contests last week to raise his production to 174. Still in third, despite missing one game last week, is Tait's Bud Nedry with an aggregate of 146 points in 11 games.

The fourth and fifth place scorers exchanged places. Replacing Tripp's Duane Becker in fourth is Bathey's Dick Day, who hit for 19 in two games giving him a total of 141, while Becker, shut out in one tilt and with only 14 more in a second game, fell to fifth with 138.

The other top ten scorers included Tripp's Mac Pierce with 131, Brader's Larry Brennan with 127, Tait's Pat Robinson with 124, Brader's Ed Hock with 119 and Bathey's Bob Houghton with 109.

Additional point-makers are: Tripp's Bud Lanphear (105); Tait's Bob Bruce (102); Bathey's Dwight Eckler (89); Bathey's Bob Arlen (88); Tait's Ron Pagenkopf (87); Bathey's Roger Bogen-schultz (82); Brader's Jerry Heaton (89); and Tait's Russ Brown and Tripp's Jim Bloomhuff (each 58).

High individual scorers last week were Tait's Ron Pagenkopf, Brader's Larry Brennan and Tripp's Don Huebner, all of whom hit for 19 points.

High individual game scoring average is held to date by Brader's Jerry Heaton (69 points in four games) with a 17.2 mark. Bob Lulfs' average per game is 15.5 (202 points in 13 games) leading players who have appeared in at least five battles.

Big men do not necessarily have big thoughts but they can often back them up when they do.

# Tankers Nose Birmingham, 45-42, For Season's Fifth Swim Victory

Competing in one of their closest battles of the current season last Thursday night, the Plymouth varsity tankmen squeezed past a powerful Birmingham crew notching a 45-42 victory in home water. It was the Rocks fifth win against three losses.

During the nip and tuck tilt the locals had a record breaking evening with three new pool and team marks which helped bring refuge from the defeat handed them December 15, by the same opponents. Bill Brandell, the local's captain, set the first of the tankers' new times as he smashed his old pool and team mark with a 2:05.7 in the 200 yard freestyle. Tom Bechtel of the losing team, succeeded Brandell with a second place time of 2:08.3. Following was Dave Cook with the time of 2:15 for third place points.

Setting one of Birmingham's two pool records was Pete Stitz as he opened the meet with a first place in the 50 yard freestyle event. Splashing out the time of 25.4 he finished with one stroke advantage over the Rocks. John Williams who collected second place awards with a 25.8. Third slot point also went to the Plymouth crew as Don Carney trailed Williams by one-tenth of a second when he finished with a 25.9.

The most thrilling event of the evening was the last to be held, the 200 yard freestyle relay. Preceding this event the scoreboard read 38-37 with the locals on the short end, indicating that the last event was a winner-take-all proposition. Boys to support the Plymouth crew in this event were Dennis Baker, Garry Wright, Bill Brandell, and John Williams. And support was promptly supplied as this foursome broke the old pool and team record with a winning time of 1:40.9 to cap the action and convert the scoreboard to a 45-42 reading in favor of the Rocks.

The local's other pool and team record was set by John Gregory, Mike Todd, Dick Showers, and Don Carney as they smashed the previous 200 yard medley relay record with a winning time of 1:59.5. Preceding this event the

locals fell short at the hands of Birmingham's Wayne Geggie and Tom Bechtel who walked off with first and second place awards in the 150 yard individual medley race. Third place was handed to local tanker Ed Stertanskie.

Arthur Losse made a clean sweep of the diving event as the total of 63.5 points gave him a first in the spring-board action. John Hyden (Birm.) took second with 49.1, while the local's John Walker captured third with 48.1. In the closest race of the evening Dennis Baker received first slot points in the 100 yard free style event. In an ever so close race for second Jay Lewis (Birm.) and Garry Wright (Ply.) finished with the identical time of 56.6 as Lewis finishing a hair in front of Wright for second place award.

Tom Hizar of the Birmingham crew wasted little time in swimming the 100 yard breast stroke as he splashed out the time of 1:07, while Frank Mabley (Birm.) took third.

The Plymouth Tankers will clash in their ninth meet of the current season tonight as they pack their trunks and travel to Dearborn to meet the Pioneers for the second time this season.

# Men's Basketball Nears Homestretch

The four basketball squads in the local men's recreation league passed the three-quarter mark of their 36-game slate last week when four games were played. Only eight more battles, over a period of two weeks, remain on the regular schedule.

Results in this most recent action included: Brader's 38-33 conquest of Bentley Mfg., Tripp's squeaky 52-51 edge over Tait's; Tripp's 68-43 mauling of Bathey; and Tait's close 53-52 nod over Brader.

Tait's Cleaners, with one win and one loss, broke out of a tie for second place with Bathey, who lost two games. Meanwhile Tripp with two wins continued for its mastery in the loop and Brader with a win and a loss remained as the cellar-mat in the standings. Brader's defeat on Thursday snipped a two-game winning streak, its longest of the season. At the outset of the current season Brader managed to put together a similar skein.

Biggest thrills of the week were provided by the Tait's vs. Tripp's contest, which was decided in the final 13 seconds. Prior to the closing moments of play, Tait's had totally befuddled high-flying Tripp, who had lost only once before in league competition.

Tait's held a fast-break and close checking aided by Tripp's failure to convert shots, had moved from a 24-22 half-time lead to a 42-33 three-quarter bulge and appeared on the road to an upset decision.

But Tripp, recovering rapidly from its earlier lapse, closed the gap to 51-50 with only seconds left. Then a foul shot awarded Tripp centered Bob Lulfs set the stage for the winning maneuver.

With only 15 seconds remaining on the scoreboard, Lulfs stepped to the free throw line and promptly missed the attempt. However Tripp's Bud Lanphear gathered in the rebound and passed to Lulfs. From 20 feet out Lulfs converted with a one-header to pull out the win.

Only moments earlier Tait's

Ron Pagenkopf had cashed a pair of free throws that had shoved Tait's out in front by a 51-46 count, seemingly sufficient to sink the roaring Trippsters. Tait's Pat Robinson, fiery floor captain and team manager, fouled out at the four-minute mark to further slice the eventual losers' chances. Final score was 52-51.

Don Huebner's 19 points on nine field goals and one free toss paced Tripp's scoring, but it was Lulfs and Lanphear who provided the late-minute knock-out punch. Lulfs totaled 17 points, six in the fourth period, while Lanphear contributed eight points from eleven coming in the final frame. Bob Bruce's 14 were high for the losers as Robinson added 12.

That same evening Brader scored its second win in a row, a 38-33 decision over Bathey, who earlier in the year had upset Tripp. Brader banked on the point-production of Don McMurray and new-comer Jerry Heaton to down the Bathey crew. Heaton contributed 18 points while McMurray pumped in 11. Dick Day was the only player who could hit double figures in the Bathey scoring column. He tallied 13 in a losing cause.

Bathey controlled a 7-4 first period lead and had upped it to 10-4 early in the second period before Brader carried to a 19-14 half-time count and moved out in front by 27-21 at the end of the third period before adding 11 points in the fourth to sink Bathey.

However two nights later, Brader's two-game win string was halted by a determined Tait's squad who managed a 53-52 victory. Once again two free throws by Tait's Pagenkopf figured closely in the final result. Pagenkopf cashed two charity tosses with only 10 seconds remaining in the game. But, contrary to what had happened against Tripp two nights before, the two free shots held up and earned the Tait's players their win.

Brader had come back fast

after trailing by seven points in the opening minutes. Tait's held a slender 26-25 half-time edge and was still in command 39-38 at the end of the third frame. But Brader stepped out in front in the fourth on the strength of Heaton's three field goals, only to have Pagenkopf decide the contest in Tait's favor with seconds remaining.

Pagenkopf paced Tait's in scoring with 19 points on seven field goals and five free tosses. His team-mate, Bud Nedry, added 18 and Pat Robinson posted 10 for the winners. Larry Brennan's 19 were tops for Brader, while Heaton with 14 continued his scoring spree. He now has scored 69 points in the four games he has played for the Brader quintet. Don McMurray added 12 for the losers.

The other game that same evening featured Tripp in a 68-43 run-away victory over Bathey Mfg., perhaps in revenge for an earlier loss to the same team. Tripp scored 18 points in the second period and added 22 in the third to stop Bathey there without including the first and fourth quarter point total.

Enjoying the scoring spurge for Tripp were Lanphear with 15, Becker with 14, Huebner with 13 and Lulfs with eight. Bud Young and Jim Bloomhuff added six apiece and Mac Pierce tallied four.

Dwight Eckler totaled 13 for Bathey while Bob Houghton dumped in 11 and Roger Bogen-schultz helped with eight for the losers.

This evening at the high school gymnasium at 8:00 p.m. Tait's takes on Bathey and at 9:15 Tripp will battle Brader. The league standings:

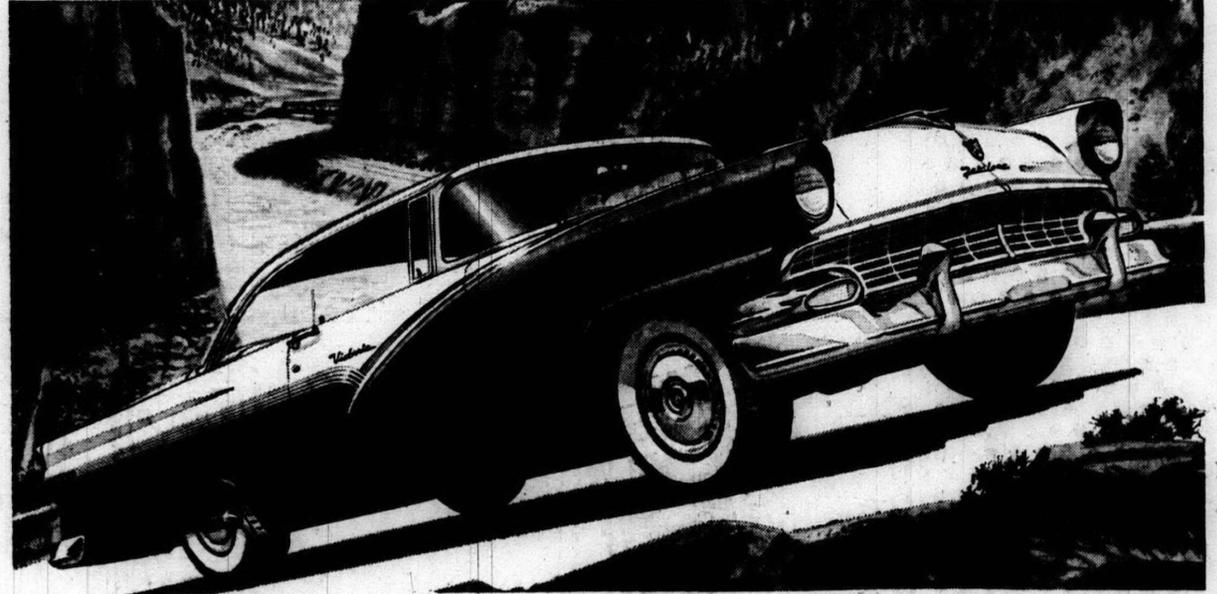

TEAM	WON	LOST
Tripp	13	1
Tait's	6	8
Bathey	5	9
Brader	4	10

## FOLLOW THESE EASY RULES

All you have to do is to complete this sentence in 25 words or less: "I shop in Plymouth Community Stamp stores because" . . .

Enter as many times as you wish, but not more than one prize will be awarded to each contestant. Entry forms are available at any Community Stamp store.

1. This contest is open to anyone in the continental United States, its territories and possessions with the exception of Plymouth Community Stamp corporation members, their employees and members of immediate family.

2. To be eligible to win one of the first 172 prizes you must have five (5) filled Community Stamp saver books. It is not necessary that the saver books be in your possession at the close of the contest as a record of all saver books redeemed during the contest (Feb. 9 thru June 16) will be kept by the stamp company. Be sure to sign all saver books you redeem in the space provided on the last page of the book. Persons being considered for a prize at the close of the contest will be contacted to determine how many books they have saved or redeemed.

3. Entries must be postmarked not later than June 16, 1956. Winners will be announced as soon as possible after that date. Mail all entries to:

Community Stamp Contest  
1095 South Main street  
Plymouth, Michigan

4. Entries will be judged on the basis of aptness of thought, neatness, originality and interest. Judges decisions are final. Entries become the property of The Plymouth Community Stamp Corporation and none will be returned. Contest subject to all federal, state and local regulations.

## Flour Mills Played Big Part in Early Industry

(Editor's Note: This is the third in a series of articles written by a member of the Plymouth Historical Society about early industry in this area. Subsequent articles will concern the sorghum mill, coppershop and ashery.)

### THE FLOUR MILLS

Man does not live by bread alone. But many of our pioneer mothers and grandmothers may have thought otherwise when twice weekly they kneaded the dough for 12 to 20 loaves of delicious, crusty homebaked bread from flour ground in local mills from homegrown wheat.

No chemical additives were needed in this dough to give the bread its bulk or to enrich it. But strangely enough, many generations found it wholesome and as an important item of diet, thrived on it and grew into sturdy men and women.

Several of these water-powered flour mills were strung along "the old mill stream" appropriately spaced for the customers

## State Makes Big Haul on Food Law Convictions

More than 3 million pounds of food totaling in excess of 800 lots was placed under seizure last year in the state by representatives of the Michigan Department of Agriculture, it was disclosed in a recent report.

Most common cause for these seizures were short weight, adulteration and mis-branding. If the products could be brought into compliance with state law by grading or relabeling this was done, and the seizure lifted. Some lots had to be used for other than human consumption.

Short weight in pre-packed merchandise was higher than the year before, running 15 per cent of merchandise checked. The department explained that the high percentage is due to the inspection method. When a package is found to be short weight, every package in the entire lot is checked. This naturally raises the percentage of short weight in relation to the number inspected. Violation of weights and measures laws in general were 50 per cent higher.

Food most often found to be adulterated was ground meat products. This showed a gain of 15 per cent over the previous year.

The number of violations involving labeling of food products disclosed a reduction from the year before.

Sanitation in stores, markets, restaurants, cafes, hotels and food processing plants also is a responsibility of the Department. The number of convictions for unsanitary conditions jumped to 119 from 90 the year before.

The total number of all convictions for that division last year amounted to 711 and ran the gamut from shortweight on a load of coal to improper bottle cleansing in a soft drink bottling works.

### Badger Patrol Captures First Place in "Freeze-Out"

Badger patrol of Troop P-6 was announced first-place winner in the troop's "Freeze-Out" competitive scouting event staged recently.

Leader of the winning patrol is Bill Rucker, with John Stone, Dick Aldrich and Ed Davis as members. Twenty-four of the troop's total membership of 27 were on hand for the event. Scoutmaster Edward T. Miller, Jr. was assisted by 16 of the scouts fathers in executing plans for the various tests and rating the efficiency of the six participating patrols.

Activities ranged from first aid, signalling, rope tying, map reading to compass use and cooking skills.

whose plodding teams took hours to cover the distances now traveled in a matter of minutes by truck. Recollection places the nearby ones at Phoenix lake, Wilcox lake and Nankin Mills. They ground flour and animal feed and took "tythes" of grain from the farmer in payment for the service they rendered.

It may be assumed that the mills disposed of the bulk of their take in the nearby village of Detroit, but locally milled flour was always available at the Plymouth grocery stores. Many country families and not a few town dwellers "laid by" the year's supply by the barrel.

The mill which stood where Henry Ford built his Phoenix plant was at one time known as Shackleton's Mills. Your historian had at one time an old paper flour sack on which was lithographed the legend, "Fine Flour from Shackleton's Mills" together with a picture of the mill itself. The date was 1876, which no doubt was not one of the first.

This mill burned to the ground and the new one erected at the same site was given the name Phoenix, perhaps as a hopeful wish that like that fabled bird which consumed fire from its own act, rose renewed from its ashes to live again for 500 years. The new mill operated for many years successfully but it too burned with the prophesy unfulfilled.

The pond which stored the water for operating this mill was also the place for much ice cutting — when there was much ice to cut. And this too, was an industry of the times. Besides the local ice peddlers with large storage houses, many farmers cut and stored their own in smaller icehouses buried in dank smelling sawdust to preserve it through the summer.

It is said that in those days they drank their "neat." Not many tall drinks were served with ice cubes tinkling in the glasses and this may be why the populace was not decimated by the germ of laden coolant. Or, perhaps the germ killing potency of the ingredients was the reason they lived on. However, ice cutting has gone with the wind stirred up by the fans of mechanical refrigerators.

Another flour mill that is recalled was the one which Henry Ford tore down to make way for his Wilcox small plant which was ably managed by James Gallimore, recent president of the school board. But the flour and feed mill was operated successfully for many years by the Wilcox family whose ownership it passed directly to Ford.

Like the other mills of its kind, it followed the accepted pattern of operation and its wholesome flour was sold from the stores of Plymouth as well as being shipped to other places. Buckwheat pancake flour made a very satisfying item for a hungry boy's breakfast, your historian recalls. In later years, it became necessary to augment the waterpower by standby steam engine which carried on during periods of low water.

A CHECK-OVER of the Plymouth township fire department's new resuscitator is given by Captain Barney Maas. Placed in service two weeks ago, the device is used to revive those suffering respiratory difficulties. It has been placed on a truck which carries other types of emergency equipment.

### 1893 Plymouth Mail Discovered in Barn

A page from the past literally turned up for the Avery Penneys of 44805 Joy road.

While cleaning out a box of old papers in their barn recently, they discovered a copy of the Plymouth Mail dated December 1893. The box and its contents, it seems, belonged to Benjamin Penney, first owner of their homestead which was built nearly 100 years ago. The 1893 Mail sported a masthead of Nettie H. Pelham, editor, and J. H. Steers, publisher at that time.

Within the pages was a poetic tribute to Czar E. Penny, resident of 957 Palmer at the time of his death on January 21, 1956, for his many services to the community. The deceased at one time owned a livery stable which also doubled as a delivery service on the present site of the Wiedman Ford agency. In addition he owned a large parcel of land in the Main, Forest and Wing street area now occupied by various business establishments.

The Avery Penny barn will soon be razed and much of the surrounding acreage torn up for the new residential subdivision to be built there. The Penney homestead, however will remain untouched.

Fools and philosophers were made out of the same metal.

# NEWS FROM OUR NEARBY NEIGHBORS

## Salem News

**Mr. Herbert J. Famuliner**  
Northville 3073-M

Tonight, Thursday, February 9, at 8:30 p.m. the N. E. W. Farm Bureau will meet at the home of Mr. and Mrs. Henry Beck, 7770 Tupper road.

Don't forget the Salem Fire Department dance this Saturday. There'll be fun and prizes for everyone to enjoy. Tickets will be on sale at the door.

The entire Salem Union school went to the Shrine Circus on Friday afternoon. Mothers and teachers enjoyed the show, too. Arthur Dahl arranged for the trip.

Janet Famuliner attended an ice-skating party Saturday night in Plymouth at the home of Mr. and Mrs. Harry Richards.

The 4-H Community club of Salem is having a dance on February 18 at the Salem Town hall. Connie Eichen will be the caller. Tickets are available from any 4-H member, also at the door. Time for the event is 8 to 11:30 p.m. refreshments and prizes will be featured.

Mr. and Mrs. John Whitson of North Carolina are visiting their daughter and son-in-law, Mr. and Mrs. John Peterson of Six Mile road.

Salem 4-H sewing club met at the home of Betty Peterson of Six Mile road last Monday evening.

Mr. and Mrs. Ford Schroeder of Six Mile road spent Saturday evening with the Lawrence Thibos family of Northville.

Mrs. Betty Ruttman and Mrs. Pauline Merritt were co-hostesses in giving a baby shower Saturday afternoon for Mrs. Robert Hoffman in Fowlerville. Guests from Salem were Mrs. Arthur Hoffman, Mrs. Earl Roberts, Mrs. Adolph Trapp, Mrs. Alta Opydycke and Mrs. Willard Thompson of Plymouth.

Mr. and Mrs. Donald Tiffin called at the William Taft home on South Salem road on Sunday evening.

Mr. and Mrs. Knowles Buer visited at the Floyd Northrup home in Ypsilanti.

Mr. and Mrs. Carleton Hardesty spent Tuesday evening with Mr. and Mrs. Ned Hardesty in their new home at Green Oaks.

Mr. and Mrs. O. B. Cook of Battle Creek and Miss Gladys Cook of Howell were Sunday callers at the A. C. Whellar home.

Wallace Bussey and brother Wellington of Detroit were recent callers at the Whellar home.

Tuesday, February 28, at 7:30 p.m. Roland Strolle from the Board of Education in Lansing will be at the Town hall as guest speaker.

## Green Meadows

**Mrs. John Johnson**  
Phone 2525

Friends and neighbors of Mrs. Leslie Hoelt of Brookline recently entertained at the home of Mrs. Richard Holladay of Brookline were: Mrs. Davis Francis, Mr. and Mrs. Orville T. Tugate, Mrs. Charles Austin, Mrs. Gilbert Wasalaski and Mrs. Leslie Hoelt of Brookline, Mrs. Edwin Humphries of Elmhurst and Mrs. Carl Kelly of Wayne. Mrs. Hoelt expects to return to the hospital for a series of treatments the early part of this month.

Mr. and Mrs. Cletus Walker and children were guests in the home of Mr. and Mrs. Richard Holiday of Brookline Sunday, January 29.

Miss Margot Lewis of Garden City spent Sunday, January 29, at the home of her friend, Miss Lois Adams on Corrine street.

Mr. and Mrs. William Ronk of Elmhurst and Mrs. Fred Brown and daughters, Marilyn of Oakview spent Saturday, January 28, in Alma at the home of Mrs. Brown's and Mr. Ronk's parents, Mr. and Mrs. J. E. Ronk.

Mr. and Mrs. Lloyd Robinson of Oakview, who have been visiting in Tennessee for a few days, recently returned home.

Mr. and Mrs. David Francis of Brookline had their son and his family, Mr. and Mrs. David Francis, Jr. from Detroit, as dinner guests Sunday, January 29.

Fred Brown of Oakview, who has been in the hospital and unable to work since last November, has recovered and is now back on the job at the telephone company.

Mr. and Mrs. Charles Sparks of Livonia were dinner guests at the David Francis home on Brookline, Saturday, January 28.

Mr. and Mrs. Charles Sharp of Flint who were the singers at the Nazarene church revived last week, have been staying at the home of Mr. and Mrs. John Johnson on Oakview street.

C. W. Brandell, who is now working in Chicago, spent three days last week with his family at their home on Sheldon road.

Phyllis Love of Ann Arbor, Jerry Emigh of Plymouth, Mary Ann Zukosky of Detroit and Margie Dobbs of Kalamazoo were dinner guests at the home of Mr. and Mrs. William Strautz of Marlowe, Saturday, January 27. The girls were schoolmates of Mrs. Strautz.

Saturday, February 4, Mr. and Mrs. Orville Tugate were guests of Miss Mildred White of Plymouth, who entertained them at the Westwood on Michigan avenue.

Mr. and Mrs. Harold Carson and family of Gilbert street were dinner guests at the home of her parents, Mr. and Mrs. John Johnson of Oakview, Sunday, February 5.

Mr. and Mrs. Dale Johnson of Oakview, Miss Jennie Konazski, of Adams street and Ralph Milson of New York attended "Cine-Holiday" at the Music hall Saturday.

## Northville News

**Mrs. Walter Wagner, Jr.**  
Ply. 1980-R

Mrs. Paul Shulz, president of the Northville Garden club will entertain the membership at a Valentine Tea at her home on Monday, February 13 at 1:30 p.m. There will be a discussion on shrubs, annuals and perennials, by past presidents. Plants will be exchanged by members.

Mrs. W. Leonard Howard of West Eight Mile will entertain approximately 100 guests at a Valentine Tea on Friday, February 10, at her home. Out-of-town guests from Ann Arbor, Royal Oak and Detroit will attend.

Mr. and Mrs. Alex Fournier of Detroit were Sunday guests at the home of Mr. and Mrs. Wagner. Mr. Fournier, who is a Camera Hobbyist, brought a great number of colored slides which had been taken in Montreal, Quebec, Ottawa and Sudbury, Ontario, as well as New York, Ohio, Kentucky and Florida.

Mrs. W. Wagner of Rogers street entertained 17 members of the Winona club, on Friday, February 3, at her home.

Marianne Ratliff and Gerald Heaton, both of Northville will be married on Saturday, February 11, at 9:30 p.m. in Our Lady of Victory church, Northville.

## Cherry Hill

**Mrs. James Burrell,**  
50188 Cherry Hill Rd.

Mr. and Mrs. Arthur J. West are spending a month's vacation in Florida.

Mr. and Mrs. E. L. Brurrell of Detroit were Sunday evening guests of Mr. and Mrs. James Burrell.

Canton Township Fire department reported Wednesday that a motor on a furnace blower burned out at the home of Mrs. Pearl Kessler, 50325 Cherry Hill road. Mrs. Kessler and Mrs. Bushner had attended their pinocle club and on returning to the Kessler home found the house full of smoke and called the department. No other damage was reported.

Harry Goodal of Belleville died Tuesday evening following an extended illness. He spent his entire life in the vicinity and in Belleville.

Surviving are two sisters, Mrs. Nora Hoelt of Ypsilanti and Mrs. Ella Stabeler of Ann Arbor. The services were conducted from the Geer Funeral home, Ypsilanti, with burial in Cherry hill cemetery on Friday afternoon.

Mr. Cook of Belleville died Tuesday, January 29. Services were held at the Sentz Funeral home in Wayne, Tuesday, February 7, at eleven o'clock. Burial was in Cherryhill cemetery.

Unit I of W. S. C. S. will meet with Mrs. Annie Dunstan Thursday, February 9, at 1:45 p.m.

The Youth Fellowship will have a public supper at the church house tonight, February 9, starting at 5:30. The film, "The good Book," will be shown following the supper.

Saturday evening, February 11, Unit II of W. S. C. S. will have their annual Valentine party at the church house, and their husbands will be entertained as guests. The time will be 8 p.m.

John Corwin, who was called home on account of the illness and death of his mother, left to return to Italy Wednesday morning.

Mr. and Mrs. Allen Bordine spent Saturday with Mrs. Mable Bordine of Carelton.

## Robinson Subdivision

**Mrs. Floyd Laycock**  
Phone 1680-R

Mr. and Mrs. Joseph Distler helped serve coffee and doughnuts at the Detroit U. S. O. Saturday evening.

Mr. and Mrs. Charles Carter visited the Conway Walkers in Wayne, Sunday.

Barbara Carter spent Saturday with Sandra Burns on Bradner road.

Mr. and Mrs. Charles Spaulding took Muriel Alband and Peggy Jenkins to see the Shrine Circus Saturday evening.

Mr. and Mrs. Laycock and family visited Mr. and Mrs. John

Fougere Sunday afternoon. Mrs. and Mrs. Fougere have bought a home on Cardwell street in Livonia.

Louis R. Schomberger spent the week-end with his parents, Mr. and Mrs. Martin Schomberger on Ann Arbor trail.

Mrs. Charles Spaulding and children spent Sunday with Mr. and Mrs. Earl Spaulding Sr. in Livonia.

Mr. and Mrs. Gene Priest, formerly of Union City, Tennessee, are visiting Mr. and Mrs. Conrad Olson. Mr. and Mrs. Charles Olson spent Sunday evening with the Conrad Olsons.

Bill Segnitz of Walled Lake was a Saturday luncheon guest at the home of Mr. and Mrs. Charles Spaulding.

## Rosedale Gardens

**Mrs. Joseph R. Talbot, Jr.**  
Garfield 1-5847

St. Andrew's auxiliary held their annual meeting and election of officers for 1956 at the church on Hubbard road.

Newly-elected officers are: President, Mrs. Vic Diefenderfer; vice-president, Mrs. Les Core; treasurer, Mrs. Walter Reeves; recording secretary, Mrs. Walter Evans; corresponding secretary, Mrs. Wilfred Walton.

The program for the year was outlined and light refreshments were served.

Rosedale School PTA held a co-operative Smorgasbord supper last Wednesday in the multi-purpose room. Benton Yates, superintendent of schools and Dr. Eino Michelson, assistant superintendent, were present to acquaint those attending with some of the issues regarding the bond proposal to be voted on at the spring election.

Music and community singing closed the festivities.

We hope Mrs. Bruce Johnston, 3605 Fairfield, recovers real soon. She broke her arm and with three children that can prove a real handicap.

The Sno Ball dance given by St. Michael's at Western Golf club proved a tremendous success. There were 130 couples attending and Mrs. Thomas Gibson and her committee deserves a round of applause for their work in making this dance such a success.

We saw Mr. and Mrs. Hilbert Farmer, and Mr. and Mrs. Joseph Vanzo with a group of friends at one table, Mr. and Mrs. James Biddinger of Ingram were entertaining a group of their friends from Detroit. Mr. and Mrs. Timothy Horgan of Fairfield avenue had at their table Mr. and Mrs. Will Wagner and Mr. and Mrs. William Horgan of Detroit. Some of the others that were enjoying the dancing were Mr. and Mrs. Ray Jares, Mr. and Mrs. Philip Reiger, Mr. and Mrs. William Powell, Mr. and Mrs. Lee White, Mr. and Mrs. Jerry Livernois, Mr. and Mrs. Ray Madigan, Mr. and Mrs. Robert Lorian, Mr. and Mrs. Charles Gamber, Mr. and Mrs. Joe Hadzlik, Mr. and Mrs. William Lloyd, Mr. and Mrs. Anthony Martin, Mr. and Mrs. Jim Sugrue, Mr. and Mrs. Francis Francis, Mr. and Mrs. Anthonie Santick, and many others.

After the dance the Don Espers entertained Mr. and Mrs. Robert Besneatte, Mr. and Mrs. Joseph Foran, Mr. and Mrs. Dick O'Brien, Mr. and Mrs. Tom O'Brien, Mr. and Mrs. Charles Papke, Miss Joan Esper and Gordon Ogden from Dearborn with a delicious lunch and coffee.

We hope this dance will be the first of many because it certainly is fun to join your friends and spend a pleasant evening dancing and talking.

Just a reminder! Regardless of how busy you may be on Monday, February 20, don't forget to find time to stop in at your respective voting booth and cast your ballot in the primary election.

## Newburg News

**Mrs. Emil LaPointe,**  
Garfield 1-2623

Mr. and Mrs. Emil LaPointe and children Bruce, David, Mark and Nan of Joy road were supper guests in the home of Mrs. LaPointe's parents, Mr. and Mrs. E. C. Weiss, Sr. of Detroit, on Saturday, February 4.

The Sarah circle of the Women's Society of Christian Service, Newburg Methodist church, will meet at the home of Mrs. Willard Coole, 1800 Hix road on Monday evening, February 13, at 8.

Mr. and Mrs. Jesse Bennett, son Graham and daughter Donna of Stark road, spent the past week-end visiting in the home of Mrs. Bennett's father in Ridgetown, Ontario, Canada.

The Joy road Canada clan will meet for their regular evening of cards in the home of Mrs. George Simon, 37850 Joy road, on Tuesday, February 14. Please advise your hostess if you cannot be present.

Mr. and Mrs. Raymond Grimm of Wayne road have returned home after vacationing in the state of Arizona.

Guests in the home of Mr. and Mrs. Henry Mende of Newburg road on Sunday, February 5, were Gordon Briggs and Madeline David of Detroit.

The Methodist Youth Fellowship of the Newburg Methodist church met at the church on Sunday, February 5, and went to Cass Benton park for an afternoon of tobogganing. The group, consist-

ing of some 25 young people and their counselors, Mr. and Mrs. Tom Waltz, returned to the church for a talk on "the Bible" given by the pastor, Reverend Robert Richards, a song fest, recreation and refreshments. This same group is planning a valentine party at the close of their meeting this Sunday, February 12. All young people of age 12 and up are cordially invited to attend this activity and all others of a future date.

Cub Pack 270 of the Rosedale Gardens Presbyterian church will hold their annual Blue and Gold banquet on Friday, February 17, in the church basement. Meat and a beverage will be furnished by the Pack and each family attending is advised to bring a dish to pass and their own place setting for each family member. This same pack is also planning a tour of the Ford Motor company steel mill on Friday, February 10. Fathers are expressly asked to go along to help with the transportation.

Supper guests in the home of Mr. and Mrs. Emil LaPointe of Joy road on Sunday, February 5, were Mr. and Mrs. E. C. Weiss, Jr. and son Stephen of Belleville, Michigan.

Monday, February 13, at 6:30 p.m. is the day, date and time of the Father and Son banquet to be held at the Newburg Methodist church hall on Ann Arbor trail and Newburg road. Arthur Sinclair, chalk-talk artist, will be the guest for the evening and it promises to be a fine evening for man and boy alike. There are still a few tickets remaining and can be had by contacting the pastor, Reverend Robert Richards.

In conjunction with Boy Scout week which began February 6 and lasts through February 12, all Cub scouts, Boy scouts and Explorer scouts in the vicinity of the Newburg Methodist church and surrounding territory, are asked to meet at the church on Sunday, February 12, at 8:45 p.m. and attend church services in a body.

On Wednesday, February 1, the Boy Scouts of Thunderbird patrol, Troop 270, who are Paul Overmyer, Bruce LaPointe, Dennis DeCoster, Arnold Heilman and Richard Kennitz, took a four-mile hike with their Patrol Dad, Emil LaPointe, and afterwards returned to the LaPointe home for refreshments.

Mrs. Nancy Waterstripe, organist-choir director of the Newburg Methodist church, is asking for more folks to sing in the church's adult choir. The practice for the group is every Wednesday and starts promptly at 8 p.m. The only requirement for belonging is the desire to sing.

The Patchen Community club will meet at the Patchen school on Thursday, February 16, at 8 p.m. President Mrs. Henry Mende is hoping for a large turn-out for the evening.

Mr. and Mrs. Arthur Gennis and daughters, Kathy and Mary Ellen of Joy road visited at the home of Mrs. Gennis' mother, Mrs. Mary Watt, in Mason, Michigan on Sunday, February 5, and then on to Holt, Michigan for dinner at the home of Mr. and Mrs. Glen Rose. Mrs. Rose and Mrs. Gennis are sisters.

## Card Party Tonight Aids Northville Scout Troops

The annual benefit for the Northville Girl Scouts will take the form of a Valentine Card Party this year.

The event has been scheduled for 8 this evening, February 9, at the Northville Community center. Featured will be a host of prizes in addition to refreshments for the card players. Those attending will be eligible for the grand prize to be awarded during the evening.

Chairman is Mrs. Leona Archer assisted by Mrs. Phillip Brown as co-chairman.

## Monday, Goodwill Pick-Up

Goodwill trucks will be in the Plymouth, Northville and Rosedale Gardens area on Monday, February 13, it was announced by Miss Edith Sorenson, local representative for Goodwill Industries.

She stated that Goodwill is making an emergency call for more discards to insure work for the handicapped during the slow months of February and early March. Arrangements to have the trucks stop by individual homes may be made by calling Miss Sorenson at Northville 571.

# They Torqued it up

for the

# BEST

# TAKE-OFF

# YET

**FIRST THING** you need in a car, of course, is power to spark performance.

And you get that in a 1956 Buick in plenty — from big 322-cubic-inch V8 engines that hit new highs in horsepower and compression.

But the power under the hood must be carried to the rear driving wheels in the form of *twisting force* on the drive shaft.

That's torque—the end-product of your transmission.

And the higher the torque build-up—the greater the "torque multiplication" in starting and accelerating—the better the getaway and response.

So if you want to feel take-off that leaves your breath behind you, come try a '56 Buick with Variable Pitch Dynaflo.\*

For in this airplane-principled transmission, Buick engineers raised the ceiling on torque to give you the best getaway yet.

They did it with something they call "double regeneration"

— a new way to make flowing oil add to its own velocity.

And when you use the full torque of a Buick beauty like the one pictured above, you're using the highest torque multiplication to be had in any standard-production American automobile today.

Come see for yourself what that means in new thrills and new safety.

You'll find brilliant new getaway response in the first inch of pedal travel—plus greater gas mileage to boot.

You'll find an electrifying new safety-surge of full-power acceleration when you floor the pedal and switch the pitch.

And you'll find this spectacular performance blended into the smoothest-traveling, the sweetest-riding, the highest-powered and the easiest-handling Buicks yet built. Drop in on us this week—today, if you can—and judge things firsthand.

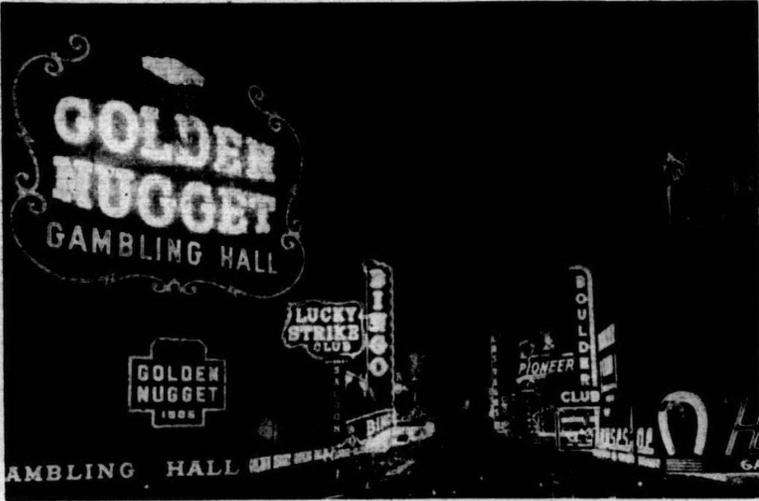

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

# Best Buick yet

— AT A NEW LOW PRICE—4-Door Comfort in your new Buick with FRIGIDAIRE CONDITIONING — WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM —

# JACK SELLE BUICK

200 Ann Arbor Road Plymouth, Michigan

THIS IS the famous downtown gambling section of Las Vegas where the tourist is lured inside by such gimmicks as an actual million dollars in cash to view or a free lunch on the house. This is the section of this fabulous town which draws most of the tourist regular trade especially during the day. Two miles away lays the section called "The Strip" which houses all of the famous hotels where the big floor shows draw the crowds at night to their gambling tables. The multi-million dollar establishments include The Desert Inn, The Sahara, El Rancho Vegas, The Thunderbird, The Sands, The Frontier and the Riviera.

"Welcome, Sucker, to the Land of the Sun, and come as you are" . . . That's an appropriate introduction to famous Las Vegas, in the Sagebrush state . . . a place every western tourist must visit, or at least that's what our friends told us when they talked us into a weekend on the desert.

From our observation I don't know why they feature "Land of the Sun" because most of the weekend visitors never see daylight from the time they arrive Friday night until they leave Sunday. Few leave the gambling rooms with their free drinks and cigarettes, which here are the main lobbies of the fabulous hotels on the strip and which operate on a crowded 24-hour basis. It is almost unbelievable to get up in the morning and go into the coffee shop and see hundreds of men and women hanging over crap, roulette and black jack tables where they have been all night and perhaps all the day before. The "Goddess of Chance" is always at work in Las Vegas, the largest gambling center in America, and accounts for tourists spending well over \$55,000,000 each year in their attempts to make a fortune.

THE LAST OF the "red hot mamas", Sophie Tucker, appearing at the El Rancho Vegas, and truly offering one of the best shows on the strip, gives my travelling secretary (another red hot mama) and I the lowdown on her many charities. To date she has contributed over two million dollars to various charities from the money she earns and her favorite she says is the Sophie Tucker play-ground in New York city which provides play area for thousands of New York's underprivileged. Her show is a "must" for Las Vegas visitors and you'll like the friendly people at El Rancho Vegas, too.

Those who don't spend all of their time gambling spend their evenings rushing from one hotel to the other to view the wonderful floor shows which feature such stars as Frankie Laine, Sophie Tucker, Ken Murray, Peggy Lee, Donald O'Conner, and the like. In two nights you can witness six performances in the various hotels, then retire to bed at dawn to sleep until dusk when the show parade opens again.

You take your choice, gamble or see the shows, or as many do, we were told, do both. Check in your hotel Friday afternoon, take in the shows that night, gamble all day Saturday, repeat the show routine that night, sleep all day Sunday and check out shortly after six p.m. for a Sunday night drive home. That's a real weekend vacation in Las Vegas and truly that's what thousands of people do.

On the other hand Las Vegas does offer some wonder opportunities for a most reasonable weekend holiday and the person who can stay away from the various gambling games can have the cheapest and most entertaining holiday you could dream of. The fantastic multi-million dollar hotels on the strip vie for the evening crowds by providing the most wonderful floor shows and food you can find anywhere in this country and for a pittance of what you would pay for them in Detroit, Chicago, Miami or New York.

You take your choice of the ones you wish to see on arrival, then call and make either early dinner, late supper, or dawn performance reservations. Average dinner cost per couple is about ten dollars,

The right of the people to know is basic to the preservation of our freedom, and fundamental to our American way of life. The infringement of this right, whether by government or by groups, or by individuals, no matter in what small measure it may begin, will lead to tyranny and the death of liberty.

Michigan Mirror

State Parties Start Annual Budget Battle

Michigan Legislators are getting into the shank of the 1956 session with a strange shortage of issues.

Both parties have their eyes on the fall campaign and most major fights in the legislature will have a tinge of partisanship.

As the session wears on, the major battles appear to be shaping up over Gov. Williams' budget and the Republican insistence on chopping it down to size.

Williams, who claims a \$25,000,000 surplus, says state government operations can be expanded by \$60,000,000 with increased tax collections covering the rest of the spending.

Even with the bulge in the budget requests, the governor says there will be a \$1,000,000 surplus at the end of the next fiscal year.

All this is proposed without increases in taxes, on the consumer or others.

Republicans claim the \$25,000,000 surplus is mostly on paper. "Even if it weren't, they say the use of the \$25,000,000 to expand operations would leave the legislature with a top-heavy government to finance without a sizeable surplus next year."

"We would be buying a government now that we couldn't afford to keep next year," said Rep. Rollo G. Conlin (R-Tipton).

So, Republicans threw down a challenge to Williams a week after his budget message, certain their views would bring a reaction among taxpayers.

"If we have such a surplus, let us pass it on to the people who pay—and reduce taxes," said Republican State Chairman John Feikens.

It would be the first time in the memory of oldtimers around the capitol that taxes have been reduced, or the suggestion has even been made.

They're still talking about the sales tax, first enacted in the 1930's as a depression necessity. Promises were made that it would be a temporary measure.

Later, when the expiration date neared, the issue was put on the ballot and the people voted to keep the sales tax—and put it in the constitution.

No one will argue that the tax is not doing a vital job—with two-thirds of the yield going into education and the rest to state government—but it is used as an example.

"A temporary tax is almost always permanent," said one legislator.

Williams has said he would recommend no new tax this year as a means to obtain new revenue, but only as a way to equalize the tax burden.

His idea is to substitute his corporation profits tax for other major Republican-sponsored business taxes to force corporations to pay more without being able

to pass it on in higher prices to buyers.

At a certain rate, he said the corporations would be forced out of the market if they insisted upon passing the tax on. Republicans have the theory that "consumers pay all taxes, anyway."

In daily meetings, finance committees on both the House and Senate sides, are working to cut Williams' budget so all doubt will be erased as to the usefulness of the \$25,000,000 surplus.

Political folk are preparing a national major issue for 1956.

Both parties in Michigan believe the plight of the farmer will be uppermost as a point in the campaign and both are getting ready to meet it.

Democrats are taking pot shots at Republicans after holding eight meetings around the state with farm groups. Republicans held one, at Milan.

The issue takes on momentum with the testimony of experts that farm income is the only major economy that has suffered in the past four years.

Business is booming, manufacturers have ready markets for their products, installment buying is increasing, incomes of working people in the cities and in government are climbing.

Still, the farmer is losing. Democrats are convinced that something on the order of a 90 per cent parity is the answer. Republicans figure maybe the "soil bank" idea of President Eisenhower is best.

Neither can be accomplished on the state level, the seers agree, so the major state issue of 1956 is expected to be tied to the apron strings of national politics.

Quotes

NIKITA KHRUSHCHEV, SOVIET PARTY LEADER:

"We do not want to frighten anybody . . . but we must cool off the more rabid arms race supporters and remind them of the results of the recent tests of the latest Soviet hydrogen bomb."

JAMES HAGERTY, White House press secretary:

"The peaceful liberation of the captive (European) peoples has been, is, and until success is achieved, will continue to be a major goal of United States foreign policy."

NIKOLAI BULGANIN, Soviet Premier, answering questions of an American news agency:

"The people of the world 'want the Geneva spirit' and therefore it will not be 'buried'."

LT. COL. GAMAL ABDUL NASSER, Egypt's Premier:

"True and lasting peace is attainable only when every country, big or small, is entitled to lead its own life . . ."

Roger Babson

Stocks to Go Up if Ike Runs Again

Babson Park, Fla. Since my recent weekly column which favored the nomination of President Eisenhower, I have received letters from publishers stating that my column is supposed to discuss Business and the Stock Market, and not politics.

HISTORY OF MY COLUMN

This column started over 30 years ago after I retired from my position as financial staff writer for the Saturday Evening Post. I began with only 10 newspapers, but with the help of the magazine's wonderful editor, George Horace Lorimer, the column became popular and is now published weekly in over 400 papers.

During the early years of my writing, this column was taken almost exclusively by Northern publishers. As the years advanced, the column began to be used by Southern papers, which are mostly Democratic. I therefore am having the same difficulty that David Lawrence, Robert Ruark, and Drew Pearson are having, as my column spreads to all sections of the country.

GOOD BUSINESS UNDER DEMOCRATS

From the time of the Civil War up to 1932 our country was on the Gold Standard. This gave both a certain "ceiling" and a certain "floor," which it was difficult for business or the stock market to break through. Furthermore, this made it fairly easy for any impartial statistician and economist to make reasonable forecasts, irrespective of party politics. My forecast of the 1929 break was made during the Hoover Republican Administration when his managers were forecasting "two chickens in every pot and two cars in every garage."

Since 1932, however, the country has been on a Political Standard, and the Gold Standard has been discarded. This is no criticism of the Roosevelt Admini-

stration, because I feel that the Gold Standard had outlived its usefulness. We will probably continue on a Political Standard whether in a Republican or a Democratic era. I have not the figures here in Florida which show just what business and the stock market have done in Presidential years; but anyone sending to my Babson Park, Mass., office will be welcome to them.

STOCK MARKETS DO NOT FOLLOW BUSINESS

It is generally assumed that one can forecast business by watching the stock market, but this is not true. In the long run, there is of course a correlation, but it cannot always be depended upon. In other words, we may have a Democratic victory in November and yet have fairly good business through 1957. I go even further and say that if the tide should shift naturally—due to the Law of Action and Reaction—during a Republican Administration, the result could be worse than if the Democrats were in power. This is because the Republicans stand for less interference with business and would not so freely use artificial stimulants.

President Eisenhower, for instance, is determined to have a balanced budget. It would be very hard for him to agree to any inflationary projects, even for the sake of helping business. On the other hand, the Democrats believe the government is entitled to issue more bonds and create greater indebtedness as the country grows in population and assets, just as any large corporation is entitled to do. Therefore, although the Republican party may be more friendly to "Big Business," the Democratic party may try to be more friendly to all business; but please note my use of the word "try."

EISENHOWER AND THE STOCK MARKET

Remember the old saying,

★ THINKING OUT LOUD ★

One question, sometimes controversial, sometimes personal is asked each week by The Mail of four pedestrians along Plymouth's downtown streets. This week's guests are "thinking out loud" on the question:

"What do you think 'going steady' means? Do you approve of it?"

KAY FISHER, 11734 Amhurst Court (sophomore): "I think it means going with one person and nobody else. Usually a ring is given. I don't think high school kids should go steady—no particular reason. No, I don't go steady."

MARILYN PAUL, 33920 Warren road (senior): "Going steady is going with one particular fellow after knowing him a long time. I don't think that giving a ring or bracelet is necessary. I would say that no one should go steady until they are over 17."

JOHN SMALL, 1125 Canton Center (senior): "I don't think that it's right. When going to high school, you should associate with as many students as possible in order to be a more well-rounded person. Going steady is going with one girl and not with any other. I've done it once. Most of your obligation is toward that one person. You must take her to proms and other social events. It's sort of the 'code of the jungle' among other boys that they can't take her out."

RAY SPIGARELLI, 1237 Beck (senior): "Going steady has its good points. It creates more friendly relations between the boy and girl. They can find out if they really like each other. It is the only method of finding these things out without getting married. To go steady the couple should have a good mutual understanding. If it is not present, the idea is no good. Usually a ring is the best symbol."

Washington Quiz

- Q—I am drawing VA disability compensation payments. If I move, is it possible for my checks to be forwarded to my new address?
- A—No. Under the law, VA benefit checks may not be forwarded from one address to another. So if you are planning to move, be sure to notify VA, and give both new and old address, full name and "C" number.
- Q—I am receiving a monthly pension from VA. Recently a relative willed me a small piece of land, undeveloped. Must I consider the value of this land as income?
- A—The land need not be considered as income until it is converted into cash by renting or selling it. And even then, you may deduct whatever money you had to put into the land, for taxes, improvements and the like, in determining the net income.
- Q—Essentially what is the "Gray" plan recently voted on in Virginia?
- A—The "Gray" plan proposes that the Virginia legislature set up the machinery for a constitutional convention, to amend the state constitution so that public money collected in taxes for public schools can be paid for support of private schools. It is a plan to prevent the integration of negroes and whites in public schools for those who prefer not to do so. It does not prevent those who are in favor of integration of the races to send their children to public schools where both races are in attendance. Neither does it contemplate abandonment of public schools, although those who were opposed to the plan contend that that will be the final result in some areas in the state.
- Q—What was Benjamin Franklin's statement with reference to a rising sun at signing of the draft of the constitution?
- A—He arose, pointed to the figure on a half-sun painted on Washington's chair and said: "I have often and often in the course of the session looked at that sun without being able to tell whether it was rising or setting; but now at length, I am happy to know that it is a rising and not a setting sun."

BABY SHOE BRONZING REDUCED 25% FEB. 6 to FEB. 20 ONLY!

To keep their skilled artisans busy between seasons, the folks who do our baby shoe plating are drastically reducing every style in their famed line! Take advantage of this remarkable saving to have your baby's first shoes gorgeously plated in Bronze, Silver or Gold . . . the loveliest and most sentimental gift you can give for Easter, Mother's Day, Father's Day, or any other occasion.

ENGRAVING only 10c per letter  
We suggest baby's name and birthdate, example "EMILY, JUNE 3, 1955"

# Favorite Recipes From Plymouth's Kitchens

Mrs. Leo Arnold, 8975 Beck road, starts preparations for the pineapple chiffon filling which tops this graham-cracker pie shell.

## Treat Guests To Pineapple Chiffon Pie

Recipe this week comes from Mrs. Leo Arnold of 8975 Beck road who recommends Pineapple Chiffon Pie as a delicious luncheon dessert or for that matter a perfect closing note to any repast.

Not too rich, this dessert can be made in a jiffy and guests will love its light, fluffy texture and refreshing flavor. A treat for the cook, too, the dish can be whipped up in advance and stored in the refrigerator until ready to use.

Here's the way it's made:

- Pineapple Chiffon Pie**
- 1 tablespoon unflavored gelatin
  - 1/4 cup cold water
  - 4 eggs, separated
  - 2/3 cup sugar
  - 1/2 cup pineapple juice
  - 1/4 teaspoon salt
  - 1 tablespoon lemon juice
  - 1 cup drained pineapple

Soften gelatin in the water five minutes. Beat the egg yolks and add 1/2 of the sugar, pineapple juice and salt. Cook over boiling water until the consistency of custard.

Remove from heat, add gelatin and stir until dissolved. Add lemon juice, pineapple and the remainder of the sugar and cool until the mixture begins to thicken. Beat the egg whites until stiff and fold into the mixture. Pour into plain pastry or cracker crumb crust and spread with whipped cream.

## Sumner - Pritchard Rites Set for March

Miss Shirley Pritchard

Mrs. Ruth Pritchard of Charlotte, North Carolina, announces the engagement and approaching marriage of her daughter, Shirley to John G. Sumner, son of Mr. and Mrs. Walter K. Sumner of Bradner road, Plymouth.

Ruth and John will wed on March 10, in Charlotte.

## Social Notes

On Thursday evening Mrs. R. L. Hill of Blunk avenue was hostess at contract bridge entertaining Mrs. H. Stratton, Mrs. Walter Hammond, Mrs. Max Trucks, Mrs. Raymond Bachelor, Mrs. David Cameron, Mrs. William Hartmann and Mrs. Walter Gemperline.

Mrs. G. A. Smith and sister, Miss Grace Stowe, of Sheridan avenue, were hostesses, Saturday evening at a dinner party with canasta afterward entertaining Mrs. Nell Curry, Mrs. Lila Humphries, Mrs. Hope Hill, Mrs. Anna Anderson, Mrs. Nina Blunk, Mrs. Zaida Burrows and Mrs. Ruth A. Ward.

Dr. and Mrs. Carl January will be hosts Saturday evening at canasta entertaining four couples in their home on Sheridan avenue.

Mrs. Ted R. Scrimger of Dunn Court honored her daughter-in-law, Mrs. Ted Scrimger Jr. of Northville, at a baby shower, Friday evening, with guests present from East Detroit, Birmingham, Garden City, Pontiac and Plymouth. Following the playing of games the hostess served a buffet lunch. The guest of honor received many beautiful gifts.

Mrs. Floyd J. Tucker and son, Craig, left Sunday for Adrian where they will stay with her sister while her mother, Mrs. Frank Bailey, visits her daughter-in-law and family in Pottstown, Pa.

Mr. and Mrs. Henry Ehrensberger of Joy road entertained Saturday evening at a pot-luck supper honoring Mr. and Mrs. William Weckerle who have returned to their home in North Carolina after spending the past few months with their sister and husband, Mr. and Mrs. Charles McConnell on Harvey street, north.

Mrs. I. O. Hitt spent last week in the home of her daughter, Mrs. Jayson Day and family in East Detroit.

Mrs. Roy Lindsay was the guest Monday of her sister, Mrs. Bessie Korb, of Birmingham, for dinner at Devon Gables.

Mr. and Mrs. William Hoyt and Mr. and Mrs. Jack Strachan of Walled Lake were entertained at dinner, Sunday in the home of Hattie White on Dewey street.

Mr. and Mrs. Graham Laible and daughters of Livonia enjoyed dinner Saturday evening in the home of her parents, Mr. and Mrs. William Hartmann on Blunk avenue.

Mrs. Roy A. Fisher entertained at cards Wednesday evening of last week for Mrs. Henry Wallins, Mrs. Glenn Fraleigh, Mrs. Ralph J. Lorenz and Mrs. Frank Terry in her home on Amherst Court.

Mr. and Mrs. John Hoban and two children spent Sunday in Adrian visiting her parents, Mr. and Mrs. J. Wallace Page.

The following ladies attended the Women's Auxiliary Episcopal convention held in the Masonic auditorium in Detroit Wednesday of last week: Mrs. Kenneth Grier, Mrs. David T. Davies, Mrs. Frank Henderson, Mrs. James Marks, Mrs. Kenneth Hulsing, Mrs. Lawrence Hills, Mrs. Lou Evans, Mrs. Harry D. Pape, Mrs. William Scott, Mrs. O. M. Valliquette and Mrs. Walter K. Sumner.

Mr. and Mrs. Harry Christensen, father and mother of Den 1, Pack 293 Boy Scouts, are taking the following members to the matinee of the Hollywood Ice Revue at the Olympia in Detroit, Saturday with dinner afterward: Victor Buttermore, John Price, Randy Pentecost, Jimmy Honey, Jack Roberts, David Kisabeth, Ray Christensen also Mr. and Mrs. Jack Price, who assist Mr. and Mrs. Christensen.

Marilyn Wick was home from Cleveland, Ohio, over the weekend and celebrated her birthday with her parents, Mr. and Mrs. Neil Wick on Holbrook avenue.

Mr. and Mrs. Merle Rorabacher spent a few days last week in the home of her brother and wife, Mr. and Mrs. Ford Becker in Pittsford and also visited Mr. and Mrs. Rex Hoover, in that city.

Mrs. Ray Rorabacher had the misfortune to fall on the porch of her home on Union street on Monday of last week sustaining a broken arm. She was taken to Sessions hospital in Northville.

## American Legion News

Three members, Hugh Gardner, Donald Kinghorn and Martin Schomberger were initiated at the regular Post meeting on Wednesday, February 2, at the Veterans Community center. The short-form ceremony was conducted by Post Past Commanders with Robert Wilson in charge and assisted by Harry Burleson and Ray Gardner.

The 17th District Association convention, held Friday evening February 3, at 8:30 in Plymouth, was well attended. Department Blood Bank Chairman William Beitner, 2nd District Commander Art Clump and Ben Alber, 2nd District historian, were distinguished guests. Chairman Beitner outlined the Blood Bank program in effect in the second District as basis for forming such a program in the 17th District. A Blood Bank program, details of which will be formulated at a later date, was adopted by delegates. Distinguished guests at the Auxiliary meeting were Mrs. Edna Alber, past department

president, and Mrs. Josephine Beitner, department National Security chairman. Mrs. Beitner spoke on national security. Oscar Hammond of Northville won the prize, a beautiful Valentine cake. Refreshments were served by Passage-Gayde Auxiliaries, President Melva Gardner, Marilyn Moore and Franeceda Beely.

The Michigan Women's National Security council is meeting February 12 at the Hotel Leland in Detroit at 9:30 a.m. Luncheon will be served at 12:30 p.m. Anyone interested in attending this function may secure additional information by contacting Lena Hammond at Northville, 897.

the arrival of their new baby. The regular business meeting of the Auxiliary is this evening at 8 p.m. at the Veterans Community center. Let's have a good turnout!

The next regular meeting of the Junior Activities is Wednesday, February 15, at 3:30 p.m. at the Community center.

The next regular meeting of the Post is on Wednesday, February 15, at 8 p.m. at the Community center.

Bernard Koi, Post Americanism chairman, and Fern Burleson, Auxiliary Americanism chairman, are reminding all members to fly your "Flag" on Lincoln's Birthday.

## Delectable And Different Ham Loaf

Plentiful pork and pork products can help you put more pennies in your "piggy bank" if you include them frequently in your menus now and in the months ahead. Your meals can be varied and interesting while you effect savings in your food budget. Here's an idea for leftover cooked or baked ham—a delectable and different Pickle Stuffed Ham Loaf. Evaporated milk is the binder and moistening agent for the nicely seasoned ham layers, which are stretched with a zesty pickle layer in the middle.

This is a really thrifty meal, and evaporated milk is a valuable ingredient product in this and similar meat loaves. Because it is whole milk concentrated to half its original volume and used here undiluted, evaporated milk is doubly rich, and therefore doubly nutritious. And it is fortified with vitamin D, the "sunshine vitamin" that helps the body make use of calcium and phosphorus which build bones and teeth.

### Pickle Stuffed Ham Loaf

4 cups ground cooked ham, lightly packed  
1 cup fine dry bread crumbs  
1/2 teaspoon black pepper  
1/2 teaspoon powdered thyme  
1/2 cup finely chopped onion  
1 egg  
1 1/2 cups evaporated milk  
1 teaspoon prepared mustard  
1/2 to 3/4 cup pickle relish

Boiled or baked ham can be used. Put ham through medium blade of food chopper. Place ham in large mixing bowl. Add 1/2 cup of the fine dry bread crumbs, the pepper, thyme, onion; mix thoroughly. Beat in the egg and 1 cup of the evaporated milk. Divide ham mixture in half. Pack one half in bottom of a well greased loaf pan, about 2 1/4 x 8 1/2 x 4 3/4 inches. Stir mustard into the remaining 1/2 cup evaporated milk. Add the remaining 1/2 cup crumbs and pickle relish, and blend thoroughly. Spread pickle stuffing evenly and firmly on top of ham layer. Pack remaining half of ham mixture over pickle layer. Bake in moderate oven (375° F.) about 45 minutes.

YIELD: 6 generous servings.

## Here's Trio Of Menu Ideas

Add grated raw apples to sausage patties for a flavor treat. To 1 pound of bulk pork sausage add 1 slice of bread broken into very small pieces, 1 egg and 1/2 cup of grated apple. Shape mixture into 6 patties about 3/4 inch thick. Place on rack in open roasting pan. Bake in a moderate oven, 350° F., for 45 minutes or until done.

Creamed chipped beef is excellent served over curried rice. For 6 servings, brown 1/4 pound of chipped beef in 2 tablespoons of lard or drippings. Add 3 tablespoons of flour and blend well. Slowly stir in 2 cups of milk. Cook until thick, stirring constantly. To make the curried rice, add 1 tablespoon of curry powder to each quart of water used in cooking rice.

For a colorful lamb chop grill brown chops on one side, then turn and arrange pineapple rings and 1-inch banana chunks on the rack with the meat. Brush fruit with melted butter or margarine. Lamb chops cut 1 inch thick require a total of 10-12 minutes cooked at a moderate temperature.

Small machine needles, size 9 or 11, should be used when sewing on sheer or firmly woven fabrics, especially if they are synthetic fabrics.

### FIFTY-TWO NAMED VALENTINE

Valentine's Day, along with many other holidays, is chock full of history.

In ancient Rome, business ceased in February for the pagan festival of Lupercalia. It originally honored Pan and Juno, but was later changed to honor fifty-two saints named Valentine.

### Out They Go

When Rome became Christianized, Pan and Juno were out of the celebration. Still, everyone enjoyed the jolly festivals, so St. Valentine's Day began.

### The New Look

Our modern holiday, with its special sentiment for lovers, still carries some remnants of the ancient pagan tradition, but with a new look. Today, our Valentine celebration is a combination of gaiety and good things to eat, particularly along the dessert line.

If you're having a party near or on this day, this tasty, eye-catching dessert is sure to please your guests.

**Cherry-Pink Sponge**  
1 package (3 ounces) cherry flavored gelatin  
1 1/2 cups hot water  
1 cup cooked rice  
1/4 teaspoon salt  
1/4 cup sugar  
1/2 teaspoon vanilla extract  
1 teaspoon almond extract  
1 cup heavy cream, whipped

Dissolve gelatin in water. Add rice, salt, sugar and flavorings. Chill until partially thickened. Fold in whipped cream.

Turn into quart heart mold. Chill until firm. Unmold. Serve with Cherry Sauce.

To make sauce, place contents of No. 2 can (19 ounces) red tart cherries in saucepan. Add mixture of three-fourths cup sugar and two tablespoons cornstarch.

Cook, stirring constantly, until thickened and clear. Add one-half teaspoon almond extract. Chill. Serve over Cherry-Pink Sponge.

Yield: Eight servings.

If you don't have a quart heart mold, you can use eight individual molds.

## Scientists Study Further Clues In Effort to Halt Heart Disease

"Management is using what you have to get what you want—whether it is in the business world or in the home," says Eleanor Mullikin, Wayne County Home agent. It may be impossible or impractical to increase our income, but perhaps we can make better use of it. Satisfaction out of our way of life is our ultimate goal and now is a good time to start managing our money.

This does not necessarily mean restricting ourselves or "budgeting" in the sense that some of us think of. It means deciding which things are most important to us and eliminating some of the less important so that we may have these desirable ones. Families would vary as to the types of things they consider most important. That is why we no longer try to say that every family in a certain income bracket should spend a stated amount for food, rent, etc. One family may feel that eating out occasionally is important to them. Another family may decide that music lessons for the children are more important.

How then can we determine the distribution of money for our particular family? The first step is to keep a day-by-day account of all expenditures for several months. Then you will be able to sit down and evaluate your spending. When you have these records it is time to make a family money plan.

This should mean a family council so that all members will have a voice in deciding how the money will be spent. The records you have kept will give you an overall view of your probable expenses for a period of time. Some of these expenses you will find are fixed. That is, they cannot be avoided but you can decide whether you are spending too much for rent possibly.

Your family money plan should not be "iron-clad." Adjustments in the original plan should be made with changes in income, unforeseen expenditures or just a change in the family thinking after they have tried the plan.

To help you, Home Management Specialists on the Cooperative Extension Service staff at Michigan State University, have prepared a "Family Living Record Book." This is a simplified account book with columns for food, clothing, health, housing, household operation, etc. Also in-

cluded are suggestions for classifying your family living expenses. These are to be totaled monthly and if you wish carried to an annual summary.

To receive a copy, send 20c to Mrs. Eleanor Mullikin, Cooperative Extension Service, P. O. Box 552, Wayne, Michigan.

## Tots Get Kick Out of Painting With "Spuds"

Potato printing is an interesting indoor activity that will keep your active pre-school child busy for several hours during these cold winter days.

A child development instructor at Michigan State University, explains that the only supplies necessary are a large potato, a saucer, a small sponge, some tempera paint and paper.

First, cut the potato in half. With a paring knife, cut a circle a square or just a few slashes in the flat side of the potato. Then thin some tempera paint to the consistency of coffee cream and put it in the saucer. Set in the sponge and let it absorb the paint. The sponge eliminates splashing that occurs when just a saucer is used, but it is not absolutely necessary.

Before letting your tiny tot go to work with the paints, put an apron on him to protect his clothing. Seat him at a table with the equipment in the basement or the kitchen where any accident can be easily wiped up.

For paper, you can use brown wrapping paper, newsprint or whatever is available. Show your child how to dip the potato into the dish containing the sponge and paint and place it on the paper. Then let him do it alone. He will be thrilled with the pattern that appears on his paper.

The specialist points out that the process of making something by himself is very enjoyable to a child. So, encourage him by making his finished pattern up for the whole family to see.

A cookie sheet should be enough smaller than your oven so there is room for hot air to circulate around it on all sides.

**WANTED! Laundress for 44¢ a week**

Even in the "good old days" you couldn't find a laundress for such a small sum. But today, 44¢ buys enough electricity to wash and dry the week's laundry for the average family. With an electric clothes dryer (to match your electric washer) you do your laundry the modern way—the easy way. Follow the modern trend toward all electric living. See the new electric clothes dryers at your appliance dealer's or Detroit Edison.

# Township of Plymouth Ordinance No. V

TOWNSHIP OF PLYMOUTH WAYNE COUNTY, MICHIGAN ORDINANCE NO. V

An Ordinance to regulate the design, construction, installation, maintenance and use of oil and coal burning heating equipment for use in connection with all types of heating equipment, hot water supply and steam generating equipment and appliances and appurtenances thereof; and of all gas-fired space heating equipment and appurtenances thereof in the Township of Plymouth, Michigan; to provide for the administration and enforcement of this Ordinance; to provide for a Heating Ordinance Board and its powers and duties; to provide for the licensing of contractors; to designate the required fees for licenses and permits; to provide a reciprocal arrangement for the recognition of examinations and licenses issued by other municipalities of the State of Michigan voluntarily cooperating in the enforcement of this Ordinance; to provide a penalty for the violation of the terms thereof and repealing any and all former Ordinances and amendments thereto conflicting therewith.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE TOWNSHIP OF PLYMOUTH, MICHIGAN:

## ARTICLE I SHORT TITLE

Section 1.1 This Ordinance shall be known and shall be designated as the Township of Plymouth Reciprocal Heating Ordinance.

## ARTICLE II DEFINITIONS

For the purpose of this Ordinance certain terms used are hereby defined.

Section 2.1 TOWNSHIP. The word "Township" whenever used in this code shall mean the Township of Plymouth, Michigan.

Section 2.2 ALTERATION. The addition to or renewal of any part of an oil burner or gas burner or its equipment which may change the designed or approved method of functioning.

Section 2.3 APPROVED. That which the Plymouth Township Heating Inspector designates acceptable as a device, apparatus or method which by demonstration and/or test has proven workable or safe for its intended use.

Section 2.4 APPROVED FUEL OIL BURNER, OIL BURNING SPACE HEATER OR OIL BURNING HOT WATER HEATER. The term "Approved Fuel Oil Burner, Oil Burning Space Heater or Oil Burning Hot Water Heater" shall mean an oil-burning unit complete with required safety controls, either electrical or mechanical, which has been tested by a nationally recognized standards laboratory, and have been found to be in compliance with this code and acceptable for installation in the Township of Plymouth, Michigan.

Section 2.5 AUXILIARY TANK. The term "Auxiliary Tank" shall mean a tank between the storage tank and the burner delivering oil by gravity or pressure to the fuel oil burner.

Section 2.6 BOARD. The term "Board" shall mean the Heating Ordinance Board as established herein.

Section 2.7 BUILDING OFFICIAL. The term "Building Official" shall mean the Building Official of the Township of Plymouth.

Section 2.8 DEPARTMENT. The word "Department" shall mean the Building Department of the Township of Plymouth.

Section 2.9 EFFECTIVE CHIMNEY HEIGHT. The effective Chimney Height shall mean the vertical distance from the point of entry of the horizontal vent connection to the top of the chimney.

Section 2.10 FUEL OIL. The term "Fuel Oil" shall mean any liquid used as fuel and having a flash point not less than 110 degrees Fahrenheit as determined by the Pensky-Martins Closed Cup Tester.

Section 2.11 FUEL GAS. The term "Fuel Gas" shall be considered as liquid petroleum gas, manufactured gas, natural gas or mixtures thereof.

Section 2.12 FUEL OIL BURNER. The term "Fuel Oil Burner" shall mean any device including burners, motors, piping, valves, and other equipment designed and arranged for the purpose of burning fuel oil for space heating, generating steam, or hot water supply purposes.

Section 2.13 FUEL OIL DRUM. The term "Fuel Oil Drum" shall mean any container for the storage of fuel oil having a capacity of not more than 55 gallons which is not directly or indirectly connected with the fuel-oil burner or oil-burning space heater.

Section 2.14 GAS BURNER. The term "Gas Burner" shall mean a device for the final conversion of a mixture of gas and air to the combustion zone of a boiler, furnace or other device used in connection with a space heating unit or system.

Section 2.15 GAS-FIRED SPACE HEATING EQUIPMENT AND APPURTENANCES. The term "Gas-Fired Space Heating Equipment and Appurtenances" shall mean the inclusion of gas burners as previously defined and all piping from the meter to the burner, blowers, control devices and accessories connected to or used in conjunction with the burner.

Section 2.16 OIL BURNING SPACE HEATER. The term "Oil Burning Space Heater" shall mean a self-contained space heating device complete with required safety controls, either electrical or mechanical, and having a fuel oil storage tank of not over ten (10) gallons capacity attached to the unit by the manufacturer;

said device shall not be attached to any furnace, boiler or other heating device having duct work, and shall not be connected to auxiliary fuel oil storage tanks unless all provisions of this Ordinance pertaining to fuel oil burners are complied with.

Section 2.17 OIL-FIRED HOT WATER HEATER. The term "Oil-Fired Hot Water Heater" shall mean an oil-fired hot water supply unit.

Section 2.18 PERSON. The word "Person" shall mean an individual, group, partnership, firm, corporation, association or congregation.

Section 2.19 PORTABLE. The word "Portable" shall mean equipment that is not permanently positioned in place by fastening to floors, walls or ceilings with nails, screws, bolts, grout or other recognized means.

Section 2.20 STORAGE TANK. The term "Storage Tank" shall mean any tank for the storage of fuel oil connected through some approved means of suction or gravity feed directly or indirectly to the fuel oil burner or oil-burning space heater.

## ARTICLE III ADMINISTRATIVE

Section 3.1 Except as herein-after provided, this Ordinance shall apply to the installation of all fuel oil burners and gas-fired heating and coal burning equipment provided that existing installations may be continued in use without charge where such existing installations conform to standards of this Ordinance and present no apparent danger to life or property through the methods of installation or operation and provided further that an installation permit has been previously obtained as required by any other Ordinance of the Township of Plymouth.

Section 3.2 PURPOSE. It is the purpose of this Ordinance is to provide for the health, safety and welfare of the people of the Township of Plymouth.

Section 3.3 INSTALLATION, ALTERATION, OR SERVICING WITHOUT A LICENSE. It shall be unlawful in the Township of Plymouth for any person, firm, partnership, association or corporation to engage in the business of installing or contracting to install, alter or service any oil-fired or gas-fired heating equipment covered by this Ordinance, parts or accessories thereof or appurtenances thereto, without first having filed an application with the Department and obtained a license therefor as hereinafter provided.

Section 3.4 APPLICATION FOR LICENSE. Applications for a license shall be made on forms furnished for such purposes by the Department. The application shall contain in addition to other required information, the following:

- Name, age and address (legal and place of business) of applicant.
- Qualification of applicant.
- If applicant is a corporation:
  - Full and accurate corporation name.
  - When and where incorporated.
  - Full name and addresses of officers of corporation.
  - Name of officer or regular employee who is to take the examination and his qualifications.
- If applicant is a partnership:
  - Names and addresses (legal and place of business) of members thereof and the name of the partner or regular employee who is to take the examination and his qualifications.
  - If the applicant conducts business under a trade or assumed name:
    - Complete and full name.
    - The name of the person or persons doing business under such trade or assumed name.
    - The name of the individual or regular employee who is to take the examination and his qualifications.

Section 3.5 BOARD. A Board of Examiners, consisting of at least five (5) members or the number provided for, shall be appointed by the Township to advise the person in charge of the Department on examinations required by this Ordinance. The members shall be citizens of the United States and residents of the Township of Plymouth, and shall be qualified in the knowledge of the mechanics of the business. The five (5) members shall consist of two (2) representing the Board, two (2) representing the heating business, and one (1) citizen at large, who shall be a mechanical engineer. Their terms of office to be set by the Township Board of the Township of Plymouth, and any vacancies shall be filled by said Township Board.

Section 3.6 BOARD'S DUTIES. The duties of the Board of Examiners shall be to determine by examination of such a kind as it may require, the qualifications and ability of applicants for licenses. Such examinations shall consist of oral or written and shall include practical tests, and shall cover the theory and practice of heating construction and engineering and the interpretation of charts, blueprints and plans for heating installations. The Board shall file with the Department a written report of its findings and recommendations in each case.

Section 3.7 BOARD OF APPEALS. There is hereby created a Board of Appeals, hereinafter referred to as the Board, which shall consist of the Board of Examiners, hereinafter referred to, provided, however, that the Inspector shall be disqualified from sitting as a member of the Board or from voting on any and all matters involving the suspension or revocation of any license issued under this code, or on any and all matters that are in the nature of an appeal from any ruling or decision made by said Inspector.

Section 3.8 BOARD'S DUTIES. The Board is hereby authorized and empowered:

- When it is impossible for a licensee under this code or an owner to obtain the material specified for use in the code because of any local Emergency, or when it is undesirable to use the materials specified because of improvements or new discoveries made, or when it is impractical or undesirable for a licensee to follow the method of procedure prescribed by this code, the Board in its discretion may substitute for those mentioned in the code, or may in its discretion approve any method or procedure as a substitute for that herein prescribed, and when such approval is given it shall have the force and effect of law.
- To hear and conduct appeals from rulings or decisions of the Inspector as specified in this code.
- To conduct investigations on any matters pertaining to the effective operation and application of this code, and the various matters covered thereby.
- To make findings that shall be conclusive on all questions of fact, whether arising from such investigations, appeals or otherwise.
- To make rules and regulations for carrying out the provisions of this chapter.

Section 3.9 RIGHT OF APPEAL. In the event that any person desires to appeal to the Board from any decision or ruling of the Inspector on any matter under the code, such appeal shall be made in writing, and filed with the Secretary of the Board and at the same time such person shall pay a filing fee of Ten Dollars (\$10.00) to the Township Treasurer. If the ruling or decision of the Inspector is not affirmed by the Board, the fee of Ten Dollars (\$10.00) shall be returned to the person appealing; if such ruling or decision is affirmed the fee shall be retained by the Township. In the event the proceedings are instituted before the Board of Appeals for any purpose other than an appeal from the ruling or decision of the Inspector, the filing fee as hereinabove provided shall not be revoked except for cause upon proof or charges filed by the Inspector, specifying with reasonable detail the facts showing carelessness or negligence in the performance of the licensee's duties in connection with his work, or showing that such licensee has violated or permitted a violation of this code, or that this code has been violated in connection with work for which the licensee was responsible and of which the licensee was aware, or in the exercise of reasonable diligence, should have been aware that such violation had occurred. Upon the filing of such charges, the Board may forth with suspend the license involved, and shall give to such licensee notice of a hearing in charge, who has submitted to the examination provided that when a license has been issued to an applicant based on the qualifications of such regular employee and the active services of such employee with the applicant have been terminated, it shall be unlawful for the said licensee to engage in any of the operations covered by this Ordinance until the said licensee has again qualified in accordance with the provisions thereof.

Section 3.10 ISSUING OF LICENSES. No licenses shall be issued to an applicant until he has submitted to an examination, or such applicant has a person in his regular employ who is actively in charge, who has submitted to the examination provided that when a license has been issued to an applicant based on the qualifications of such regular employee and the active services of such employee with the applicant have been terminated, it shall be unlawful for the said licensee to engage in any of the operations covered by this Ordinance until the said licensee has again qualified in accordance with the provisions thereof.

Section 3.11 TYPES OF EXAMINATIONS. Examination may be written or oral and may include practical demonstrations. It shall cover the construction engineering and the interpretation of charts, blueprints and plans of heating installations. The examinations shall be held for all reciprocating municipalities.

Section 3.12 EXAMINATION FEE. Every applicant shall upon making application for a license pay an examination fee of Five Dollars (\$5.00). Any applicant failing to appear for examination or failing to secure a passing grade shall again pay the examination fee before being permitted to again take the examination.

Section 3.13 FREQUENCY OF EXAMINATIONS. Examinations for a license under this code shall be held on the first Tuesday of each month, except when such is a holiday, in which case it shall be held on the following day. No sessions of the Board of Examiners need be held unless there is at least one applicant for examination. Special sessions of the Board of Examiners may be called by the Chairman when in his discretion necessity may require it.

Section 3.14 RECIPROCAL CLAUSE. The Township of Plymouth shall permit contractors engaged in the installations of gas-fired, oil-fired, or coal-fired heating equipment legally licensed by other municipalities of the State of Michigan to engage in the business of installing or contracting to install, alter or service gas-fired, oil-fired, or coal-fired heating equipment, parts, accessories, or appurtenances thereto, within the corporate limits of the Township of Plymouth upon registration with the Department and the payment of a registration fee of Ten Dollars (\$10.00), provided that the municipalities in which such contractors are licensed reciprocate recognizing gas-fired, oil-fired, and coal-fired installation contractors duly licensed under the provisions of this Ordinance by granting them the same privilege and charging the same license and registration fees.

To be eligible for a reciprocal license, a heating contractor shall

obtain his license in the municipality wherein the said contractor maintains his principal place of business.

Provided further, that the licensing Ordinance, examinations, and examination procedures of such municipalities are substantially equal to the requirements set forth in this Ordinance. No gas-fired, oil-fired, or coal-fired burner installation contractor's license shall be recognized for the purpose of registration by the Township of Plymouth, which has been issued by a municipality which has failed to approve by affirmative action of its legislative body, the reciprocal licensing provisions contained in this Ordinance. The right of any municipality to participate in the reciprocating section of this Ordinance shall be determined by the Board of Examiners of the reciprocating municipalities and based upon conditions outlined in this Ordinance.

Section 3.15 CLASSIFICATION AND LIMITATIONS. Licenses shall be classified and limited as follows:

- Gas-fired equipment limited to input ratings not exceeding 500,000 B. T. U. per hour, per unit.
- Gas-fired equipment with all input ratings (unlimited).
- Oil-fired equipment limited to units or burners designed for the use of Nos. 1, 2 or 3 distillates as defined in U. S. Department of Commerce, Commercial Standard CS 12-49, having a maximum fire rate of 30 gallons per hour.
- Oil-fired equipment unlimited as to size or capacity of oil burner and designed for any grade of fuel oil.
- Coal-fired equipment limited to input ratings not exceeding 500,000 B. T. U. per hour, per unit.
- Coal-fired equipment with all input ratings (unlimited).
- Combination of any two limited licenses.
- Combination of any two unlimited licenses.
- Combination of all limited licenses.
- Combination of all unlimited licenses.

Section 3.16 ANNUAL LICENSE FEE. The annual license fee, applicable to licensees whose principal place of business is in the Township of Plymouth shall be Twenty-five Dollars (\$25.00) for each year beginning January 1, 1954 for any combination of license classifications.

Section 3.17 REVOCATION OF LICENSE. No license shall be revoked except for cause upon proof or charges filed by the Inspector, specifying with reasonable detail the facts showing carelessness or negligence in the performance of the licensee's duties in connection with his work, or showing that such licensee has violated or permitted a violation of this code, or that this code has been violated in connection with work for which the licensee was responsible and of which the licensee was aware, or in the exercise of reasonable diligence, should have been aware that such violation had occurred. Upon the filing of such charges, the Board may forth with suspend the license involved, and shall give to such licensee notice of a hearing in charge, who has submitted to the examination provided that when a license has been issued to an applicant based on the qualifications of such regular employee and the active services of such employee with the applicant have been terminated, it shall be unlawful for the said licensee to engage in any of the operations covered by this Ordinance until the said licensee has again qualified in accordance with the provisions thereof.

Section 3.18 USE OF NAME. No person having procured a Master's Contractor's license shall permit or allow the use of his name by any other person, directly or indirectly, for the purpose of obtaining a permit to install, installation, alteration, replacement or repair of gas burner, or oil burner equipment in the Township of Plymouth.

Section 3.19 AUTHORITY OF BOARD. The Board is hereby authorized to adopt rules and regulations necessary to make effective the provisions of this Ordinance.

Section 3.20 REVOCATION AND SUSPENSION OF LICENSES. Licenses may be revoked or suspended in accordance with the Ordinance of the Township of Plymouth relative thereto.

Section 3.21 INSTALLATION, OR ALTERATION WITHOUT A PERMIT. It shall be unlawful for any person, firm, partnership, association or corporation to install or alter any oil-fired or gas-fired or coal-burning heating equipment covered by this Ordinance in the Township of Plymouth, except as herein provided, without a permit from the Department. Application for such permit shall be on forms furnished for such purposes by the Department and shall contain sufficient information for a proper description of the burner, equipment and accessories to be installed or altered.

(A) The Department shall issue numbered tags, of a type and material to be destroyed upon removal to licensed oil burner and gas-fired space heating installation contractors and shall keep a record of tags so issued. These tags shall be attached to the fuel oil fill or vent pipe by the contractor upon burner installation or to the fuel line of the gas space heating apparatus at the completion of the gas space heating installation.

burner or gas burner installation permit the Department shall inspect the installation and if found to conform with the provisions of this Ordinance, a permanent metal tag properly numbered shall be affixed by the Inspector.

(C) Tags as required by Paragraphs (A) and (B) shall be attached to coal-fired heating equipment.

Section 3.22 USE OF HEATING EQUIPMENT. It shall be unlawful for any owner, occupant, firm, partnership, association or corporation having control or management of any building or structure, to use or permit to be used therein any fuel oil burner, oil-burning heater, or coal-fired heating equipment which has been installed or altered subsequent to the effective date of the Ordinance without a permit as herein provided. It shall be unlawful for any person, firm, partnership, association or corporation except authorized personnel of the Gas Company to turn on the gas for use in any gas-fired space heating equipment which has been installed or altered in any building or structure subsequent to the effective date of this Ordinance without the said permit. It shall be unlawful for any owner, occupant, firm, partnership, association or corporation having control or management of any building or structure to use or permit to be used therein any coal burning equipment, which has been installed or altered subsequent to the effective date of the Ordinance, without a permit as herein provided.

Section 3.23 SUPPLYING OF FUEL OIL. No person or persons, firm or corporation shall supply with fuel oil any tanks or containers for fuel oil, unless such fuel oil burners and equipment shall have as herein provided, a tag attached to fill or vent pipe of such tank or container.

Section 3.24 PERMIT FEE. Fees for the issuance of installation or alteration permits for inspections required under the provisions of this Ordinance shall cover the cost of inspection and supervision resulting from the enforcement of this Ordinance. The fee to be charged by the Township Board and may be changed from time to time.

Section 3.25 RIGHT OF ENTRY FOR INSPECTION. The Inspector and his authorized assistants shall have the right during reasonable hours to enter any building or premises in the Township of Plymouth for the purpose of making such inspections or tests of any fuel oil burner or oil burner or parts thereof contained therein.

Section 3.26 DUTIES OF INSPECTOR. It shall be the duty of the Inspector or his authorized assistants to inspect all fuel oil and gas burning equipment covered by this Ordinance at the time of its installation and all oil-fired and gas-fired heating equipment installed previously to the enactment of this Ordinance, which due to its construction, installation or condition, may be dangerous to life or property. This section shall also apply to coal-fired heating equipment.

Section 3.27 OTHER INSPECTIONS. The Inspector and his authorized assistants may make such other inspections and tests as are deemed necessary for the purpose of safety and the enforcement of this Ordinance.

Section 3.28 POWER OF CONDEMNATION. Whenever any fuel oil burner, oil-burning or gas-burning space heater or part thereof has been condemned, the Inspector shall place thereon a warning tag listing the cause for the condemnation. It shall be unlawful for any owner, occupant, firm, partnership, association or corporation having control or management of any building or structure, to use or permit to be used such unit or part thereof, until such causes for the condemnation shall have been remedied and the unit or part thereof has been put in safe condition and approved by the Department.

(A) Whenever any fuel oil burner, oil-burning or gas-burning space heater or part thereof has been condemned, the Inspector shall place thereon a warning tag listing the cause for the condemnation. It shall be unlawful for any owner, occupant, firm, partnership, association or corporation having control or management of any building or structure, to use or permit to be used such unit or part thereof, until such causes for the condemnation shall have been remedied and the unit or part thereof has been put in safe condition and approved by the Department.

- Correct the causes of condemnation.
- Notify this Department by phone that the hazardous condition has been corrected.
- Upon receiving permission of the Department, place the equipment in operation.
- Sign the warning tag with the name of the contractor's license, countersigned by the workman responsible for making the corrections, and have the signed warning tag attached.

Section 3.29 AUTHORITY OF OTHER DEPARTMENTS. Nothing in this Ordinance shall be construed as limiting the authority of the Fire Department and the Board of Health of the Township of Plymouth, in making supplementary inspections under their respective safety regulations.

Section 3.30 PLUMBERS LICENSE. The installation, alteration, maintenance, extension, or replacement of any plumbing, including domestic water heating equipment, as defined by the Plumbing Laws of the State of Michigan, in the Township of Plymouth is not permitted to be done by any licensee under this Ordinance, unless such licensee is also licensed as a Master Plumber under the said Plumbing Laws of the

State of Michigan and is registered in accordance with the provisions of the said Plumbing Code of the Township of Plymouth.

Section 3.31 ELECTRIC WIRING. The electric wiring installed in connection with oil-fired or gas-fired or coal-fired space heating equipment shall be installed in accordance with the provisions of the Electrical Ordinance of the Township of Plymouth, Michigan.

(A) Each oil or gas-fired installation shall be provided with a remote control switch capable of disconnecting the electrical supply from the fuel burning equipment. This switch shall be permanently and clearly labeled "BURNER SHUT OFF SWITCH."

## ARTICLE IV OIL BURNERS

Section 4.1 GENERAL. The construction, arrangement and manner of installation of all oil burners and gas burners installed hereafter shall be in accordance with the provisions of this Ordinance, and the alteration or replacement or repair hereafter of all oil burners and gas burners shall conform to the provisions of this Ordinance.

Section 4.2 APPROVED BURNER. The Department may approve any oil burner listed by the Underwriters Laboratory or any other nationally recognized inspection board or laboratory. Oil burners not listed by the Underwriters Laboratory or any other nationally recognized board or laboratory shall not be approved until they have been inspected and tested by some recognized laboratory capable of making such a test and inspection and the certificate showing such inspection and test shall be forwarded to the Department. This inspection and test shall cover arrangement of parts, suitability of material, strength of parts, electrical control, thermostatic arrangement, reliability of auto-closing features, positiveness of ignition and safeguards against flooding.

Section 4.3 INSTALLATION OF USED BURNERS. Any person licensed to install, alter, repair or replace oil burners in the Township of Plymouth, shall install a used burner for use in connection with a heating system only after he shall have furnished the Inspector with a statement that said burner has been put in first class operating condition.

Section 4.4 GRADE OF FUEL OIL. The grade of fuel oil used with any burner shall be one which tests and experience show to be suitable for use with that burner. The oil shall have a flash point not less than 110 degrees F. when tested by the Pensky-Martins Closed Cup Testing Method, shall be free from acid, grit and fibrous or other foreign matter likely to clog or injure the burners or valves.

Section 4.5 CARBONIZATION. The burner shall be designed to prevent excessive carbonization and shall be securely attached and supported.

Section 4.6 GRAVITY FEED. Gravity feed shall be used only with burners equipped with approved automatic devices to prevent abnormal discharge of oil in the burner.

Section 4.7 POSTING INSTRUCTIONS. Complete instructions in regard to care and operation of the oil-burning equipment shall be posted near the apparatus installed. The instruction sheet so posted shall include the specifications for the gravity and limiting flash point of oil suitable for use with that burner. All cards or instructions must be posted at the time of installation.

Section 4.8 FIRE EXTINGUISHER. In single residences, every oil burner installation shall have near the entrance to the furnace room, and readily accessible for convenient use in emergency, a hand fire extinguisher of at least a quart capacity approved by the National Board of Fire Underwriters for extinguishing combustible oil fires; provided, however, that installation of oil burning equipment in multiple dwellings, commercial establishments of any kind or description where the public congregate or persons are permitted to be present, such installation shall have accessible for immediate and convenient use in emergency, a fire extinguisher of at least 2 1/2 gallons capacity, approved by the National Board of Fire Underwriters, and which shall be of foam type or its equivalent; provided further, that in case of great hazard or danger to the public, the Chief of the Fire Department of the Township of Plymouth may, in writing, require further or additional fire extinguishing apparatus in order to safeguard public property and life.

Section 4.9 PILOT LIGHT FUEL. The use of acetylene or any other gas possessing a wider range of explosiveness in admixture with air than coal gas or water gas is prohibited for use in the gas pilot of any fuel oil burner.

Section 4.10 VENTILATION. Ventilation shall be provided to prevent the accumulation of any trapped vapors below the combustion chamber.

(A) Rooms in which oil-burning equipment is located shall be provided with adequate ventilation to assure continuous complete combustion of the oil.

Section 4.11 MANUFACTURER'S NAME PLATE. Name plate designating the trade name of the burner, the model, or size number and the name and address of the burner manufacturer, shall be securely attached to each fuel oil burner and oil-burning space heater.

Section 4.12 DAMPER. No damper shall be permitted in the smoke pipe or chimney from the device heated that may restrict the passage of fumes or gases by more than 40%.

Section 4.13 CHIMNEY FLUE. Each oil-fired heating unit covered by this Ordinance shall be connected to a chimney flue.

Section 4.14 CHIMNEY FLUES AND PIPES IN GENERAL. Chimney flues and flue pipes

shall freely conduct the flue gases to the outer air.

(A) The chimney or flue shall be properly constructed in accordance with the requirements of the Official Building Code of the Township of Plymouth.

Section 4.15 FLOOR PIPE LOCATION. The flue pipe shall not enter the chimney or flue beyond its inner wall and shall be cemented to the chimney as to prevent infiltration of air.

(A) In entering the chimney or flue, the connection shall be made at least six (6) inches above the extreme bottom.

Section 4.16 VENT CONNECTION. The vent connection shall not be smaller than the size indicated by the vent collar of the appliance when same is oil designed.

Section 4.17 HORIZONTAL VENT CONNECTION. The horizontal vent connection shall not be longer than one-half the effective height of the chimney.

Section 4.18 VENT PIPE ANGLE. The vent pipe shall maintain a pitch or rise of 1/4 inch per foot of the horizontal run from the equipment to the flue or chimney.

Section 4.19 VENT PIPE INSTALLATION. The vent pipe shall be so installed as to avoid sharp turns or other constrictive features which would create excessive resistance to flow of the gaseous products of combustion.

Section 4.20 VENT PIPE CONNECTIONS. Vent pipes from one oil-fired space heating appliance may be interconnected provided that the cross sectional area of the manifold shall be equal to the sum of the cross sectional areas of the vent collar connections of the appliances.

(A) No vent from an oil-fired space heating appliance shall be interconnected with a vent pipe from an appliance burning other fuels or designed for other use, except with the specific approval of the Department.

Section 4.21 CHIMNEY CONNECTIONS. A vent pipe from an oil-fired heating appliance and vent pipes from other appliances, burning the same or other fuels, may be connected into the same chimney through separate openings located at different levels, provided that the operation of any of the equipment is not adversely affected.

Section 4.22 VENT PIPE MATERIAL. The material used for vent pipes shall be such as to resist the corrosive action of flue gases and condensate.

Section 4.23 CONVERSION BURNER FUEL DOOR. In the case of conversion burners, the fuel door of the converted appliance shall be so arranged as to relieve pressure due to puffs or back-fire caused by delayed ignition, and shall be provided with an approved self-closing device.

Section 4.24 ELECTRIC WIRING. Electric wiring in connection with oil-burning equipment shall be installed in accordance with the regulations of the National Electric Code and local electrical rules as enforced by the Electrical Department.

Section 4.25 CLEARANCE. The minimum clearance of oil-fired heating units from combustible partitions and materials shall be as set forth in Table No. 1 except in the case of equipment specially designed for burning fuel oil and tested and listed for lesser clearance by a nationally recognized testing laboratory.

(A) The clearance to combustible construction may be reduced as specified in Table No. 2 where the combustible construction is protected in accordance with this table.

TABLE 1  
TABLE OF CLEARANCES  
OIL BURNING SYSTEMS

Inches	Inches	Inches	Inches
Top	Front	Smoke	Back Side
Pipe			
Domestic warm air furnaces with conversion burners	18	48	18
Mechanical warm air furnaces with temperature limit control	6	48	18
Domestic furnace units (furnace and burner)	18	48	18
Domestic hot water and steam boilers with conversion burners	6	48	18
Water heating units	6	48	18
Stove units	36	48	18
Range units	36	48	18
Ceiling type direct fired unit heaters	18	18	18
Restaurant ranges	36	48	18

(F) ACCESS. Provision shall be made for an access door to the floor furnace, general ground level, except that in the lower six (6) inch portion of the floor furnace is sealed by the manufacturer to prevent entrance of water, the clearance may be reduced to not less than two (2) inches. When these clearances are not present, the ground below and to the sides shall be excavated to form a "basin-like" pit under the furnace, so the required clearance shall be protected in accordance with this table.

(G) SLEEPE PAN. Whenever the excavation exceeds twelve (12) inches, water seepage is likely, a pit made of concrete, waterproof, not less than 3/4 inches thick and extending four (4) inches above grade level shall be used. The pit shall be not less than 6 ft. by 6 ft. inside dimension, with at least two and one-half (2 1/2) foot clearance on the control side and clearance on all other sides not less than six (6) inches.

(H) WIND PROTECTION. Floor furnaces shall be protected, where necessary, against severe wind conditions.

(I) UPPER FLOOR INSTALLATIONS. Listed oil floor furnaces may be installed in an upper floor provided the furnace assembly projects below into a utility room, closet, garage, or

similar nonhabitable space. In such installations, the floor furnace shall be enclosed completely (entirely separated from the nonhabitable space) with means for air intake to meet the provisions of Section 4.28 (A), with access facilities for servicing on the control side, with minimum furnace clearances of six (6) inches to all sides and bottom, and with the enclosure constructed of portland cement plaster on metal lath or material of equal fire resistance.

TABLE 2  
CLEARANCES WITH SPECIFIED FORMS OF PROTECTION

Types of Protection Applied as Illustrated Below	Where the Required Clearance With No Protection Is:		
	6 Inches	9 Inches	18 Inches
1/4 in. asbestos millboard spaced out 1 in. with non-combustible spacers	3	6	12
28 gauge sheet metal on 1/4 in. asbestos millboard	2	4	12
28 gauge sheet metal spaced out 1 in. with non-combustible spacers	2	4	9

(Continued on Page 4)

# Ordinance No. V

Continued from Page (3)

(J) Registers shall not be covered with combustible materials and the floor immediately surrounding the furnace shall be reasonably level.

(K) All floor furnaces, including those having single or dual wall-register outlets shall be installed as approved without alterations, except changes of any kind (in the furnace).

## ARTICLE V

### Fuel Oil Storage Tanks, Piping and Fuel Oil Drums.

Section 5.1 PIPE MATERIALS. Standard full weight wrought iron, galvanized iron, steel or brass pipe, or approved brass or copper tubing shall be used throughout. Underground piping shall be galvanized or equivalent.

Section 5.2 PIPE SIZE. Pipe used in the installation of domestic type burners shall not be smaller than three-eighths inch iron pipe size; pipe used in the installation of industrial type burners shall not be smaller than one-half inch iron pipe size. Section lines for equipment burning grades No. 5 and 6 oil shall not be less than one and one-half inch iron pipe size to within thirty (30) inches of the pump or burner. Copper or brass tubing used in the installation of domestic type burners where the diameter of the pipe from the tank to the burners shall not be smaller in size than three-eighths inch outside diameter, forty-nine thousandths inch wall thickness tubing. For other than domestic installations such copper or brass tubing shall not be smaller than three-eighths inch inside diameter, forty-nine thousandths inch wall thickness tubing. For industrial type burners such copper or brass tubing shall not be smaller in size than the equivalent of the iron pipe size mentioned above, with wall thickness not less than forty-nine thousandths inch.

Section 5.3 GENERAL. Piping shall be rigidly secured in place and protected from injury in a workmanlike manner, and where necessary, shall be protected against corrosion. Where practicable, oil piping shall be buried underground or in a concrete floor or placed in a metal-covered pipe trench.

Section 5.4 JOINTS AND UNIONS. Unions shall be ground type conical seating with faces of metal. Flanged or packed joints shall not be used. Compression fittings shall not be permitted for joints made on copper tubing.

Section 5.5 VALVE CONSTRUCTION. Valves shall be constructed so that the stem can be withdrawn by continual operation of hand wheel. The packing gland shall be provided with a separate shouldered unthreaded follower having a beveled contact surface for the compression of the packing.

Section 5.6 JOINTS AND UNIONS. All threaded joints shall be made with lithage and glycerine, shellac or other approved compound, free from leaks and made up so as to form an adequate joint.

Section 5.7 JOINTS AND UNIONS. Paper allowance shall be made for expansion, contraction, jarring and vibration. Pipe lines, other than tubing, connected to underground tanks, except fill lines and test walls, shall be provided with double swing joints arranged to permit the tank to settle without impairing the efficiency of the pipe connections.

Section 5.8 STRAINERS. Oil supply lines to burners shall be provided with approved strainers.

Section 5.9 GAS PILOT SUPPLY. Gas pilot supply piping shall be provided with an approved shut-off valve and with an approved properly vented gas pressure regulator.

Section 5.10 VALVE INSTALLATION. Fused valves of approved type shall be installed in oil supply lines at each tank and within six (6) inches of each burner. In the case of underground tanks, the fused valve shall be located at the highest point visible in the suction line.

Section 5.11 STORAGE TANKS. Oil storage tanks on the inside of any building, shall be located in the lowest story, cellar or basement. Total above-ground storage, either inside or outside of any building, on any premises shall be limited to 550 gallons but not more than 275 gallons shall be permitted in any one storage tank. On multiple tank installations, approved type check valves shall be provided to prevent cross flow between tanks. Design of check valves that are acceptable will include ball check valves, vertical life check valves and swing check valves, that when in a closed position the angle will be no less than forty-five degrees from the vertical. The fill pipe on multiple installations shall be so arranged that both tanks will fill equally and the vent pipe shall extend well above cross connections between tanks to prevent air binding when filling, and shall meet the requirements of Section 5.20.

Section 5.12 TANK CONSTRUCTION. Tanks shall be constructed of galvanized iron or basic open hearth steel. Tanks shall have rigid and incombustible support and shall not be located less than five (5) feet, measured horizontally, from any fire or flame, and shall be placed on an incombustible floor.

Section 5.13 TANK SUPPORT. Tanks shall have rigid and incombustible support and shall not be located less than five (5) feet, measured horizontally, from any fire or flame, and shall be placed on an incombustible floor.

Section 5.14 TANK GAUGE. Each tank shall be provided with an approved type gauging device

so that the fuel oil content of the tank may be determined at all times. Glass gauging devices, or any others, the breaking or derangement of which would permit the escape of oil, shall not be used.

Section 5.15 AIR PRESSURE. Fuel oil shall not be forced from storage tanks by positive air pressure.

Section 5.16 FILLING UNDERGROUND TANKS. Underground tanks and storage tanks inside buildings shall be filled only through fill pipes terminating outside buildings at a point at least two (2) feet from any building opening at the same or lower level. Fill terminals shall be closed tight, when not in use, by a metal cover designed to prevent tampering. The fill pipe for such tank or tanks shall be iron or steel not less than one and one-half (1 1/2) inches in diameter.

Section 5.17 TANK VENT PIPES. All storage tanks for fuel oil shall be provided with a vent pipe not less than one-half the diameter of the fill pipe opening and in no case less than one and one-quarter (1 1/4) inch iron pipe size in diameter.

(A) The vent pipe shall be directly connected into the top of the tank and shall not be interrupted with lines used for other purposes. It shall not extend more than one inch inside the top of the tank.

(B) Vent pipes shall terminate outside of building at least eight (8) feet above grade, securely supported, at least eighteen (18) inches above the tank fill connection, and at least two (2) feet measured horizontally or vertically from any building opening. The vent opening shall be protected by a return bend, hood or other fitting protected with an approved type of screen to minimize the entry of foreign matter. Vent pipes shall maintain a pitch downward toward the tank at least one-quarter (1/4) inch per horizontal foot to prevent pocketing of liquid.

Section 5.18 VENT PIPE CONNECTION. The vent pipe from two (2) 275 gallon tanks may be connected to one (1) upright, provided that they be connected to a point outside of any building in excess of three (3) inches above the lowest horizontal run of fill pipe.

Section 5.19 VENT PIPE CONNECTION. Vent pipes shall not be run through windows or coal chutes unless such openings are totally enclosed, with non-combustible materials.

Section 5.21 LOCATION OF UNDERGROUND TANKS. Except as otherwise permitted in this Ordinance, the storage of fuel oil in excess of 550 gallons shall be outside of any building in underground tanks.

(A) Tanks located underground shall be placed in a position so that the top of the tank is at least two (2) feet below the surface of the ground and below the level of the lowest pipe leading into the building, provided, that tanks under driveways shall be protected by suitable reinforced concrete slabs. Tanks may be placed in a position in excess of six (6) inches below grade, with cover on one (1) foot of earth and a reinforced concrete slab of not less than four (4) inches of thickness. The slab shall be set on a firm, well tamped earth foundation and shall extend at least one (1) foot beyond the tank in all directions.

(B) Tanks may be permitted underneath a building if buried at least two (2) feet below the lowest floor or may be placed sixteen (16) inches below the lowest floor and covered with twelve (12) inches of earth and four (4) inches of reinforced concrete.

(C) Where it is impracticable to bury tanks, the Department may allow them to be installed inside a building when completely encased in six (6) inches of reinforced concrete and six (6) inches of earth. Access openings in the top of such enclosures may be permitted upon specific approval of the Department. Storage in such installations shall not exceed five thousand (5000) gallons for any one premise.

(D) Underground tanks shall not be located within two (2) feet of a private property line or a basement or pit lower than the top of such tanks, unless such tanks are completely encased in six (6) inches of concrete of one, three and five mixture.

(E) Underground tanks shall be set on a firm foundation, supported so that bearing stresses are uniformly distributed and surrounded with clean sand, well tamped into place. Where necessary to prevent floating, they shall be securely anchored or weighted.

(F) Measuring devices on tanks beneath buildings and previously described encased tanks shall be of the approved type gauge type. Gauge stick openings located inside any building are expressly prohibited.

(G) Tanks underground and vaulted tanks shall be provided with a clean-out connection, which shall be not less than three-quarter (3/4) inch pipe, extending within one and one-half (1 1/2) inches from the bottom of the tank to outside the building. This connection shall be properly capped.

Section 5.22 GRAVITY FEED. Gravity feed shall be used only with burners arranged to prevent abnormal discharge of oil at the burner by automatic means specifically approved for the burner with which it is used.

(A) Gravity flow of fuel oil from tank to burner is permitted when each tank does not exceed two hundred seventy-five (275) gallons capacity. Tanks of larger capacity, where permitted, shall discharge oil by suction through top of tank.

Section 5.23 STORAGE AND AUXILIARY TANK SUPPORT. Storage and auxiliary tanks shall be securely supported by substantial incombustible supports to prevent settling or sliding.

Section 5.24 OVERFLOW. Where a pump is installed between the storage tank and an auxiliary tank, means shall be provided so as to return any surplus oil to the storage tank or other approved means shall be provided to prevent overflow of the auxiliary tank.

Section 5.25 DRUMS. Fuel oil drums as hereinbefore defined shall be of metal of not less than eighteen (18) gauge and shall be equipped with a suitable hand pump or approved self-closing faucet. Said fuel oil drums may be stored in any garage, or building on the ground floor only. Fuel oil storage for use with oil-burning space heaters shall be limited to 55 gallon drums outside of any building, or more than one 275 gallon tank outside of any building, where properly vented and provided with a hand pump. The use of faucets on drums or tanks stored inside of buildings is prohibited.

Section 5.26 TANK MATERIAL. The metal used in all tanks shall be of a minimum gauge, U. S. Standard, depending upon the capacity or size as given in the following table:

Capacity	Thickness of Material
1- 285 Gallons	14 Gauge
286- 560 Gallons	12 Gauge
561- 1,100 Gallons	10 Gauge
1,101- 4,000 Gallons	7 Gauge
4,001- 12,000 Gallons	1/2 Inch
12,001- 20,000 Gallons	5/16 Inch
20,001- 30,000 Gallons	3/8 Inch

All such tanks shall be welded or riveted, and shall be heavily coated with asphaltum or other rust-resisting material. All tanks and underground piping attached thereto shall be tested for leakage and shall be tight at five (5) pounds air pressure. All tanks having a capacity in excess of two hundred seventy-five (275) gallons and all tanks for underground installation shall bear the Underwriter's label.

Section 5.27 CONCRETE TANKS. For fuel oil heavier than thirty-five degrees (35°) A.P.I., tanks may be made of concrete, in accordance with the standards of the National Board of Fire Underwriters for the construction of concrete fuel oil storage tanks as recommended by the National Fire Protection Association, with special permission of the Department.

Section 5.28 RETURN LINES. Fuel oil return lines shall be provided with a check valve where the return line extends below the top of the tank.

Section 5.29 OIL PREHEATING. Preheating of oil, where necessary, shall be done by steam, hot water, or approved electric heaters. Heaters shall be substantially constructed with all joints made oil tight. Thermometers shall be installed at suitable locations to indicate the temperature of the heated oil. Heaters shall be by-passed or provided with suitable means to prevent introduction of oil or other liquid harmful to boiler operations into the boiler.

Section 5.30 GENERAL. Oil burners shall be securely installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making such installations.

Section 5.31 CONVERTED FURNACES. Where oil burners are installed in furnaces originally designed for solid fuel, the ash door of the furnace shall be removed or bottom ventilation otherwise provided to prevent the accumulation of vapors in the ash pit, unless the burner is of a type which mechanically purges the ash pit.

Section 5.32 CONVERTED FURNACES AND BOILERS. Boilers and furnaces in which oil burners are installed shall be connected to flues having sufficient draft at all times to assure safe operation of the burner. Smoke pipe dampers, if any, shall be removed or locked in the desired position. All check drafts must be closed at all times.

Section 5.33 POSTED DIAGRAMS. Contractors installing industrial oil burner systems shall post diagrams showing the main oil lines, on controlling valves, one of which shall be posted near the oil burner equipment and another at some point which will be accessible in the case of fire at the burners.

Section 5.34 INSTALLATION NOTICE FOR INSPECTION. Immediately upon the installation of the tanks and concealed piping of an oil burner installation, the installer thereof shall notify the inspector that said tanks and piping are ready for inspection, by registering the number of the permit and the location of the work in the inspection register book kept for that purpose in the office of the Inspector, and it shall be unlawful for any person to cover up any such tanks or piping until the same shall have been inspected and approved by said Inspector.

Section 5.35 ABANDONED TANKS. Abandoned fuel oil tanks shall be removed, except that such tanks may be allowed to remain, provided that all fuel oil is removed from the tank, the gravity draw-off is securely capped or plugged at the tank, the fill pipe is plugged or capped inside the building, with the section extending outside the building removed, and the vent pipe is not altered. Abandoned outside fuel oil tanks shall be completely filled with water.

## ARTICLE VI

### Fuel Oil Burner and Space Heater Controls.

Section 6.1 SHUT-OFF DEVICE. All fuel oil burners subject to automatic ignition, shall be provided with a permanent approved automatic device so designed that oil, upon entering the combustion chamber shall be immediately ignited or the oil supply shall be immediately shut off.

Section 6.2 FLOAT VALVE. Gravity fed space heaters and hot water heaters shall be provided with a constant level safety float valve or other approved device to prevent flooding of burner due to ignition failure or any other cause.

Section 6.3 TEMPERATURE AND PRESSURE CONTROL. All fuel oil burners used with warm air, hot water, or steam heating systems shall be provided with an approved warm-air limit control, hot water limit control, or pressure limit control, and low water cut off, respectively, to automatically shut off the burner when safe limits of temperature and/or pressure are exceeded; except that this requirement shall not be required for warm air space heaters.

Section 6.4 ROOM TEMPERATURES. Room thermostats when required shall be of approved type.

Section 6.5 ELECTRICALLY OPERATED CONTROLS. Electrically operated controls shall be so designed that failure of electric power shall not cause the burner to shut off, in case of pot type burners will place burners on low-flame operation.

## ARTICLE VII

### Gas Burner Installations.

Section 7.1 INSTALLATION. The construction, arrangement and manner of installation of all gas burners and gas burner equipment hereafter installed for use in connection with heating systems, and the alteration and repair hereafter of all gas burners and gas burner equipment used or to be used in connection with heating systems, shall conform to the provisions of this Ordinance.

Section 7.2 APPROVED LISTS. With the enactment of this Ordinance, a list of gas-fired burners and equipment shall be maintained by this Department, which, through the arrangement of parts, suitability of materials, strength of parts, electric or other control, thermostat arrangement, reliability of automatic features, positiveness of ignition and possibility of explosion have been found by test or acceptable proof from the American Gas Association, or other nationally recognized laboratory, to be acceptable under the provisions of this Ordinance.

Section 7.3 USE OF USED GAS EQUIPMENT. It shall be unlawful for any person licensed to install, alter, repair or replace gas burners within the Township of Plymouth, to install any used gas burner or for the Inspector to issue any permit authorizing him to do so, until said licensee has first submitted with his application for such permit a copy of the purchase order, describing the used gas burner to be installed and a statement by the purchaser acknowledging that to be the case, together with a statement by said licensee that said burner has been properly reconditioned and will comply in every way with code requirements for new equipment as to operation, safety standards and adjustments.

Section 8.1 MATERIAL. Standard full weight wrought iron or steel pipe free from defects shall be used in conveying gas inside of buildings. Approved seamless drawn well annealed copper, brass or other approved non-ferrous tubing with approved fittings may be used for permanent connections to stationary gas burners, but no soldered joints shall be used. All fittings for wrought iron or steel pipe (except stop-cocks or valves) shall be of best quality malleable iron or steel. Threads shall be in accordance with the American Pipe Thread Standard.

(A) CORROSION CONDITIONS. Where necessary, due to corrosive conditions, piping shall be suitably coated.

(B) DEFECTIVE PIPING. Defects in pipe or fittings having been located, the defective pipe or fittings shall be removed and replaced with approved material.

(C) USED PIPING. No second hand pipe or fittings shall be used.

Section 8.2 PIPING INSTALLATION. Piping shall be installed so that it is subject to no unnecessary strain and shall be securely and rigidly fastened.

Section 8.3 CROSSING OF JOINTS OR BEAMS. When in running pipe, it is necessary to cross wood joists or beams, the joints or beams shall not be notched, except by special permission of the Department.

Section 8.4 SLOPE OF PIPING. All horizontal piping shall be graded not less than one-quarter (1/4) inch to fifteen (15) feet to prevent trap and shall be graded to the risers and from the risers to the meter unless the framing of the structure prevents such. (However, this does not permit violation of Section 8.3).

Section 8.5 DRIP. A drip, in which liquid condensate may collect and be removed shall be provided at any point in the line of pipe where condensate would collect.

(A) Drips shall not be located where the condensate will be subjected to temperature below thirty-two (32) degrees Fahrenheit.

(B) Drips shall be installed only in such locations that the outlet of the drip will be readily accessible for emptying and cleaning.

(C) The size of any drip used shall be determined by the capacity and exposure of the piping which drains to it.

Section 8.6 CLEAN-OUT OPENING. The lower end of a vertical supply line, if accessible, shall be equipped with a tee (or cross) having a full-sized, plug permit access for removing stoppages.

Section 8.7 BRANK PIPING. All branches shall be taken from the top or side of horizontal piping.

Section 8.8 ELECTRIC WIRING. The installation of piping in relation to electric wiring shall be in accordance with the Electrical Code of the Township of Plymouth.

Section 8.9 OUTLETS. Each outlet shall be securely closed tight with a thread iron plug or cap immediately after installation and shall be left so closed until an appliance is installed thereon.

In no case shall the outlet be closed with lead caps or lead plugs.

(A) When a gas burner is removed from an outlet, the outlet shall be securely closed gas tight with a thread iron plug or cap.

Section 8.10 GAS SUPPLY. Gas for space heating units shall be supplied by an independent gas line of sufficient size, direct from the meter, to furnish adequate supply to the burners without excessive pressure drop.

Section 8.11 CONCEALED PIPING. Gas piping may be concealed in walls, ceilings, or floors only after inspection and approval by the Department (before gas is turned on).

(A) All gas piping which is to be concealed for more than one foot of its length shall be tested in the presence of an inspector with a five (5) pound air pressure, and joints and seams shall be checked with soap and water. Piping shall hold this five (5) pound pressure without dropping pressure for fifteen (15) minutes.

(B) No gas piping shall be installed in chimneys, flues, ventilating shafts or ducts and elevator shafts.

(C) Unions, running threads, right and left couplings, bushings and swing joints made of a combination of fittings shall not be concealed.

(D) Piping in solid floors such as concrete shall be laid in channels to the floor, suitably covered to permit access to the piping with a minimum of damage to the building. Piping in contact with earth or other materials which may corrode shall be protected against corrosion in an approved manner. Piping shall not be laid in cinders.

Section 8.12 UNIONS. Only ground joint unions or other approved fittings shall be used in gas piping.

Section 8.13 VALVES AND COCKS. Valves and cocks used in connection with gas piping shall be of types approved for such use.

(A) Valves and cocks shall be of such design as to clearly indicate the "on" and "off" positions or directions of rotation to "open" and "close".

(B) Valves shall be constructed so that the stems cannot be withdrawn by continuous operation of the hand wheel.

Section 9.1 TESTS BY DEPARTMENT. Gas burners and devices, attachments or accessories to gas burners, which can in any way affect combustion or safety, shall not be installed, until they have been inspected, tested and approved by the Department.

(A) This inspection and test shall cover arrangement of parts, suitability of material, strength of parts, electrical control, thermostat arrangement, reliability of automatic features and positiveness of ignition.

(B) Any combination of gas burners, attachments or devices used together in any manner shall meet the requirements which apply to individual pieces of equipment.

(C) All gas burners, devices, attachments and accessories, covered by this section, shall bear the manufacturer's identification marking.

Section 9.2 DEVICES AND ATTACHMENTS. No devices or attachments shall be installed on any gas burner which may in any way impair the combustion of the gas.

Section 9.3 ELECTRICAL DEVICES. No devices employing or depending upon an electrical current shall be used if of such character that failure of the electrical current could result in the escape of unburned gas or in failure to reduce the supply of gas under conditions which would normally result in its reduction unless other means are provided to prevent the development of dangerous temperatures, pressures or the escape of gas. Only approved devices and controls may be used.

(A) Electrically operated safety devices shall not depend upon the closing of a circuit to shut off the main gas supply. (This requirement shall not be construed as prohibiting the use of electrical regulating devices, provided the required safety devices are also installed.)

(B) All electrical work and equipment of the system shall be in accordance with the requirements of the Electrical Code of the Township of Plymouth, Michigan.

Section 9.4 INSTALLATION. Gas burners shall be rigidly installed and so connected to the piping as not to exert undue strain on connections.

Section 9.5 VENTILATION. No gas burner shall be installed in a room in which the facilities for ventilation do not permit the proper combustion of gas.

Section 9.6 GAS COCK OR SHUT-OFF VALVE. The gas cock or shut-off for a gas burner shall be easily accessible.

(A) On conversion burner installations, the gas supply cock shall be located approximately five (5) feet above the floor, approximately two (2) feet to the rear of the face of the furnace where practicable.

Section 9.7 AIR SUPPLY. When air or oxygen under pressure is used in connection with any gas supply, effective means shall be provided to prevent the air or oxygen from going back into the gas piping.

(A) Power burners (gas-air mixture furnished by a power blower) shall be equipped with an air interlock control that will shut off the gas supply to the burner in the event of failure of the air supply to the burner (controls actuated by failure of power supply to the blower motor do not meet this requirement).

Section 9.8 LOCATION. All gas burners shall be located so that they will be readily accessible for operation, repair and adjustment and for maximum safety.

(A) Gas burners shall be installed so that their continued operation will not raise the temperature of surrounding combustible materials or construction more than ninety (90) degrees Fahrenheit above normal room temperature.

(B) Equipment with closed bases, in which no provision is made for the circulation of air below the burner boxes or combustion chambers shall be properly insulated from combustible floors.

(C) The minimum clearance of gas-fired heating units from combustible partitions and materials shall be as set forth in Table No. 4, except in the case of equipment especially designed for burning gas and tested and listed for lesser clearances by a nationally recognized testing laboratory.

(1) The clearance to combustible construction may be reduced as specified in Table No. 2, where the combustible construction is protected in accordance with this table.

(2) Drilling and tapping the fuel line for the purpose of connecting a pilot gas supply line is prohibited.

(E) INSTALLATION. All gas burners shall consist of factory assembled and tested units.

(1) Gas burner units shall be so installed or attached as to prevent twisting, sliding or dropping out of the intended correct position.

(2) Burners shall be so installed as to be readily accessible for inspection and cleaning and no part of the flames shall impinge so as to cause incomplete combustion. No baffles shall be applied which will interfere with proper combustion.

(3) Air shutters shall be adjusted to produce a good flame at the prevailing gas pressure.

(4) Secondary air openings shall provide sufficient area to supply an adequate amount of air for complete combustion and, if automatically controlled, the construction shall be such that, in case the control fails in any way, either the gas will be shut off or the secondary air door will remain open.

(5) The flames from constant burning pilot and burners shall freely ignite the gas from adjacent burners when operating at prevailing gas pressure and when the main control valve is regulated to deliver about one-third (1/3) the full gas rate.

(6) Burners shall not expose gas through air openings in mixer faces when operating, at prevailing pressures.

(F) COMBUSTION CHAMBER. The combustion chamber and all of its passages shall be gas tight.

(G) FUEL DOOR. The fuel door of a converted appliance shall be arranged to relieve pressure due to puffs or backfire caused by delayed ignition or other causes and shall be provided with an approved self-closing device.

(1) Every gas-fired boiler, furnace or other space heating device shall be effectively vented to the outside atmosphere.

(H) DAMPERS. Where dampers are an integral part of the equipment, they shall be removed or permanently secured in the wide open position, except such dampers as may be used to alter the air passage of flue gases through the equipment, which shall be locked in a position as not to interfere with the safe operation of the burner.

(I) FLUES. Every gas-fired boiler, furnace or other non-portable space heating device shall be connected to a flue.

(1) In case of conversion burners, the section of the vent pipe between the outlet of the equipment and the chimney shall be full size as the flue collar of the appliance and in no case less than one (1) square inch per 6500 B. T. U. hourly input. Where the outlet from the equipment is larger than the above indicated size, an orifice plate or other restricted section may be inserted.

(2) No adjustable dampers in the flue pipe shall be permitted.

(3) A draft hood or diverter of approved design or its approved equivalent shall be placed in and made a part of the flue pipe from the equipment, or in the equipment itself. Such device shall be designed to 1) insure the free escape of the products of combustion in the event of no draft, back draft or stoppage beyond the equipment, 2) prevent a back draft from entering the equipment and 3) neutralize the effect of stack action of the flue upon the operation of the burner and shall otherwise comply with the requirements hereinafter specified for such devices and their installation.

(4) The draft hood or diverter shall be located at a point not lower than the top of the highest flue passage.

(J) UPPER FLOOR INSTALLATIONS. Listed gas furnaces may be installed in an upper floor provided the furnace assembly projects below into a utility room, closet, garage, or similar nonhabitable space. In such installations, the floor furnace shall be enclosed completely, (entirely separated from the non-habitable space) with means for air intake to meet the provision of 9.9 (B), with access facilities for servicing on the control side, with minimum furnace clearances of six (6) inches to all sides and bottom, and with the enclosure constructed of portland cement plaster on metal lath or material of equal fire resistance.

Section 9.10 SAFETY REGULATIONS. No gas-fired boilers, furnaces or other devices for space heating a building or buildings shall be installed and no boiler or furnace designed for other fuels shall be converted to

the use of gas unless the following regulations are complied with.

(A) SAFETY PILOT. Either an automatic safety pilot, so constructed and adjusted that no gas can flow through the main burner unless the pilot is burning, or some other approved type of safety device serving this same shall be employed.

(1) Pilot burners shall be supported in such a manner that their position relative to the main burner or burners shall be fixed.

(2) Pilot burners shall be so positioned as to be safely lighted and readily accessible for inspection, cleaning or replacement.

(3) Automatic safety pilots of gas burners having an hourly input of less than 400,000 B. T. U. shall be so adjusted that the main gas supply will be shut off within three (3) minutes after pilot flame has been extinguished. Gas burners having an hourly input of 400,000 B. T. U. or more shall be provided with a flame rod or other approved instantaneous type safety pilot which will shut off the main gas supply within ten (10) seconds of pilot flame failure; except that gas designed sectional cast iron boilers will be accepted when provided with approved type safety pilot, which shuts off the main gas supply within seventy-five (75) seconds of pilot flame failure.

(4) Pilot flames shall be so adjusted as to effectively ignite the gas from the main burner or burners, shall be adequately protected from drafts and shall not become extinguished when the main burner or burners are turned on or off in normal manner.

(5) All pilots shall be so adjusted as to prevent carbon deposits.

(B) TEMPERATURE LIMIT DEVICES. All warm air furnaces shall be equipped with an approved high temperature limit device and set not to exceed three hundred degrees (300°) for Gravity Air Systems and not to exceed two hundred degrees (200°) Fahrenheit for other air distribution. All hot water boilers shall be equipped with an approved high water temperature limiting device and the steam boilers shall be equipped with approved pressure limiting devices and approved low-water cut-offs. Limiting devices on water and steam boilers shall be set so as not to exceed the limitations as specified by the regulations of the American Society of Engineers. These limiting devices shall be in addition to operating controls.

(C) PRESSURE REGULATORS. An approved gas pressure regulator of sufficient size shall be installed in the gas line leading to the gas burner. An additional approved adjustable gas pressure regulator shall be installed in the gas pilot supply line.

(1) All gas pressure regulators or diaphragm control valves, used with space heating equipment shall be vented to a constant burning pilot so that any gas leaking to the atmospheric side of the regulator or control valves will be carried to and ignited by the pilot or an approved venting device shall be used.

(2) On burners where no constant burning pilot is provided, the gas pressure regulator or diaphragm control valve shall be vented to the smoke pipe on the chimney

control side and clearance on all other sides not less than six (6) inches.

(I) WIND PROTECTION. Floor furnaces shall be protected, where necessary, against severe wind conditions.

(J) UPPER FLOOR INSTALLATIONS. Listed gas furnaces may be installed in an upper floor provided the furnace assembly projects below into a utility room, closet, garage, or similar nonhabitable space. In such installations, the floor furnace shall be enclosed completely, (entirely separated from the non-habitable space) with means for air intake to meet the provision of 9.9 (B), with access facilities for servicing on the control side, with minimum furnace clearances of six (6) inches to all sides and bottom, and with the enclosure constructed of portland cement plaster on metal lath or material of equal fire resistance.

Section

Continued from Page (4)

(5) The draft hood or diverter shall be located at least one (1) foot higher than the top of the highest flue passage for equipment of the reversible (down draft furnace) flue type and all boilers or furnaces of this type not specifically designed for the use of gas fuel shall be so altered or equipped as to prevent accumulation of gas in part thereof. (a) Part 3. Section 5c from A. S. A. Z-21.8 1948.

Section 9.11 CHIMNEY FLUES AND PIPES—GENERAL. Chimney flues and flue pipes shall freely conduct the flue gases to the outside atmosphere.

(A) Before making a vent connection the chimney or flue shall be examined to assure that it is properly constructed in accordance with the requirements of the Official Building Code of the Township of Plymouth, Michigan.

(B) Whenever the type of fuel for heating equipment is changed, the flue shall be cleaned from the base of the chimney to the point the vent enters the chimney, and the remainder of the flue shall be clear so as to properly conduct the products of combustion to the outside atmosphere. Cleanouts or other approved devices shall be provided at the base of all chimneys to enable the flues to be maintained clean.

Section 9.12 TYPE A FLUES—WHERE REQUIRED. Type A flues (lined chimneys of masonry or reinforced concrete or metal smoke stack) are required for (1) all space heating equipment which may be converted to the use of solid or liquid fuel; (2) all boilers and furnaces. The above provisions shall apply except where special approval is granted by the Department for the use of Type B vent piping.

Section 9.13 MARKING OF CHIMNEYS OR FLUES. Chimneys or flues installed for use of gas-fired space heating equipment but which are not suitable for solid or liquid fuels must be plainly and permanently marked "This flue is for the use of gas burning appliances only." Such marking or label shall be placed at a point near where the vent pipe enters the chimney, or with Type B vent piping used in places of a chimney, where the Type B vent piping enters wall, floor or ceiling.

Section 9.14 TYPE B FLUES. Type B flues shall be used only with approved gas-fired equipment which is not required to be vented to Type A flues, and which produces flue gas temperatures not in excess of five hundred (550) degrees Fahrenheit at the outlet of the draft hood when burning gas at the maximum permissible manufacturer's input rating.

Type B flues shall be constructed in accordance with one of the following specifications:

(1) A Type A flue may be constructed by Underwriter's Laboratory, Inc. listed for gas appliances or an equivalent flue tested in a like manner by other nationally recognized testing laboratories.

(2) A Type B flue may be of double construction with at least one (1) inch clearance at all points between the inner lining and the outer casing. The inner lining shall be made of galvanized sheet iron of not less than U. S. 20 gauge or of copper not less than U. S. 24 gauge with tight fitting joints secured with at least two (2) metal screws in each joint. Joints in the inner lining shall be fabricated with the crimped portion extending downward inside the outer casing. The annular space between the lining and casing shall be filled with mineral wool or other non-combustible insulating material and the ends of this space shall be sealed with tight fitting metal washers or collars of the same material as used to construct the inner lining. The washer or collar on the weather end shall be so fitted as to effectively prevent water or moisture from entering the insulation filled space. A vent flue so constructed shall extend at least two (2) inches below the finished ceiling line and sufficient high to provide adequate venting (at least three (3) feet above the finished roof line) and shall be equipped with a suitable weather cap or an approved exhauster. The cross sectional area of the inner lining of such flues shall be at least twenty (20) square inches with no dimension less than five (5) inches except where special approval is given by the Department. A minimum clearance of one (1) inch shall be maintained by the outer casing of such flue and any combustible material. (Note: See detail A).

(3) A Type B flue may be of double construction with at least two (2) inches clearance at all points between the

inner lining and the outer casing. The inner lining shall be made of galvanized sheet metal of not less than U. S. 20 gauge or of copper not less than U. S. 24 gauge with tight fitting joints secured with at least two (2) metal screws in each joint. Joints in the inner lining shall be fabricated with the crimped portion extending downward inside the next lower casing. The annular space between the lining and casing shall be filled with mineral wool or other non-combustible material and the ends of the space shall be sealed with tight-fitting metal washers or collars of the same material as used to construct the inner lining. The washer or collar on the weather end shall be so fitted as to effectively prevent water or moisture from entering the insulated filled space. A flue so constructed shall extend at least two (2) inches below the finished ceiling line and sufficient high to provide adequate venting (at least three (3) feet above the finished roof line), shall be equipped with a suitable weather cap or approved exhauster, and sealed at the bottom and fitted with a suitable condensate trap. The cross sectional area of the inner lining of such flues shall be at least twenty (20) square inches with no dimension less than five (5) inches except where special approval is granted by the Department for the use of Type B vent piping.

Section 9.17 CLEARANCE. Clearance from combustible material to gas-fired space heating unit vent piping shall be such that operation of the equipment will not raise the temperatures of surrounding combustible materials or construction more than ninety (90) degrees Fahrenheit above normal room temperatures.

Section 9.18 CHIMNEYS ENTRANCE. The vent pipe shall enter the chimney or flue lining to its inner face but not beyond and shall be so cemented to the chimney wall.

(A) In entering the chimney or flue the connection shall be made at least six (6) inches above the extreme bottom.

Section 9.19 VENT CONNECTION. The vent connection shall not be smaller than the size indicated by the vent collar on the space heating unit.

Section 9.20 HORIZONTAL VENT CONNECTION. The horizontal vent connection shall not be longer than one-half the effective height of the chimney.

(A) The vent pipe shall maintain a pitch or rise of one-quarter (1/4) inch per foot of the horizontal run from the equipment to the flue or chimney.

(B) The exposed connection between a gas-fired appliance and flue or chimney shall be made with sheet metal or at least U. S. 24 gauge or other approved durable incombustible material. In the case of floor furnaces, such vent shall be constructed of asbestos cement pipe with cemented joints or material of equal insulating value. Such vent pipe shall not pass into or through any floor, ceiling, roof or exterior wall but may pass through interior partitions if properly protected by a metal thimble with a one (1) inch air space on all sides.

(C) Clearances from vent pipe to combustible material shall be in accordance with Table No. 3. The clearances from metal flue or vent connectors to combustible construction material shall be as specified in Table No. 2, where the combustible construction is protected in accordance with this table.

(4) The vent piping may be of double construction with at least two (2) inches clearance at all points between the inner lining and the outer casing. The inner lining shall be made of galvanized sheet iron of not less than U. S. 20 gauge or of copper not less than U. S. 24 gauge with tight fitting joints secured with at least two (2) metal screws in each joint. Joints in the inner lining shall be fabricated with the crimped portion extending downward inside the outer casing. The annular space between the lining and casing shall be filled with mineral wool or other non-combustible insulating material and the ends of this space shall be sealed with tight fitting metal washers or collars of the same material as used to construct the inner lining. The washer or collar on the weather end shall be so fitted as to effectively prevent water or moisture from entering the insulation filled space. A vent flue so constructed shall extend at least two (2) inches below the finished ceiling line and sufficient high to provide adequate venting (at least three (3) feet above the finished roof line) and shall be equipped with a suitable weather cap or an approved exhauster. The cross sectional area of the inner lining of such flues shall be at least twenty (20) square inches with no dimension less than five (5) inches except where special approval is given by the Department. A minimum clearance of one (1) inch shall be maintained by the outer casing of such flue and any combustible material. (Note: See detail B).

Section 9.15 OTHER PREFABRICATED FLUES. Other prefabricated flues may be

used provided such flues have been specifically approved by the Department for such use. Such approved vent flues must bear the trade mark of the manufacturer and must be installed in strict compliance with the manufacturer's specifications.

Section 9.16 TERMINATION OF FLUES. Type B or other patented pre-fabricated flues shall not be terminated on an exterior wall, except upon special approval of the Board of Rules of the Department.

Section 9.17 CLEARANCE. Clearance from combustible material to gas-fired space heating unit vent piping shall be such that operation of the equipment will not raise the temperatures of surrounding combustible materials or construction more than ninety (90) degrees Fahrenheit above normal room temperatures.

Section 9.18 CHIMNEYS ENTRANCE. The vent pipe shall enter the chimney or flue lining to its inner face but not beyond and shall be so cemented to the chimney wall.

(A) In entering the chimney or flue the connection shall be made at least six (6) inches above the extreme bottom.

Section 9.19 VENT CONNECTION. The vent connection shall not be smaller than the size indicated by the vent collar on the space heating unit.

Section 9.20 HORIZONTAL VENT CONNECTION. The horizontal vent connection shall not be longer than one-half the effective height of the chimney.

(A) The vent pipe shall maintain a pitch or rise of one-quarter (1/4) inch per foot of the horizontal run from the equipment to the flue or chimney.

(B) The exposed connection between a gas-fired appliance and flue or chimney shall be made with sheet metal or at least U. S. 24 gauge or other approved durable incombustible material. In the case of floor furnaces, such vent shall be constructed of asbestos cement pipe with cemented joints or material of equal insulating value. Such vent pipe shall not pass into or through any floor, ceiling, roof or exterior wall but may pass through interior partitions if properly protected by a metal thimble with a one (1) inch air space on all sides.

(C) Clearances from vent pipe to combustible material shall be in accordance with Table No. 3. The clearances from metal flue or vent connectors to combustible construction material shall be as specified in Table No. 2, where the combustible construction is protected in accordance with this table.

(4) The vent piping may be of double construction with at least two (2) inches clearance at all points between the inner lining and the outer casing. The inner lining shall be made of galvanized sheet iron of not less than U. S. 20 gauge or of copper not less than U. S. 24 gauge with tight fitting joints secured with at least two (2) metal screws in each joint. Joints in the inner lining shall be fabricated with the crimped portion extending downward inside the outer casing. The annular space between the lining and casing shall be filled with mineral wool or other non-combustible insulating material and the ends of this space shall be sealed with tight fitting metal washers or collars of the same material as used to construct the inner lining. The washer or collar on the weather end shall be so fitted as to effectively prevent water or moisture from entering the insulation filled space. A vent flue so constructed shall extend at least two (2) inches below the finished ceiling line and sufficient high to provide adequate venting (at least three (3) feet above the finished roof line) and shall be equipped with a suitable weather cap or an approved exhauster. The cross sectional area of the inner lining of such flues shall be at least twenty (20) square inches with no dimension less than five (5) inches except where special approval is given by the Department. A minimum clearance of one (1) inch shall be maintained by the outer casing of such flue and any combustible material. (Note: See detail B).

shall be equipped with an approved electric hand flashlight.

Section 10.4 FLAMMABLE LIQUIDS. Alcohol, gasoline and other flammable liquids, including the liquid which is removed from meters or from drips in gas piping shall be handled with the proper precautions and shall not be left by the workmen on the premises of the customer.

(A) Fitter's torches or furnaces, (including blow torches), shall not be left within the customer's premises from the end of one working day to the beginning of the next.

Section 10.5 GAS SUPPLY SYSTEM. No workmen, unless in the employ of the gas company, shall repair, alter or open the service pipe or service extension, or set or remove the service meter, or do any work on the parts of the gas supply system up to and including this meter.

(A) Only employees of the gas company shall be permitted to turn the gas on at a service cock or curb cock, or at any other cock which controls the supply of gas to more than one customer.

Section 10.6 PIPE CHECK. Before turning gas under pressure into any piping the installer shall assure himself that there are no openings from which gas can escape.

Section 10.7 BLOWING AIR FROM PIPES. After installation is completed and before leaving the premises, all air must be blown from piping and appliances and all pilot burners must be lighted and properly adjusted.

(A) When purging pipes supply equipment which has burners enclosed in spaces wherein gas may collect the air shall be blown from an opening outside the enclosure, such as the end of the manifold.

Section 10.8 TURNING GAS OFF. When necessary to turn gas off, a workman shall use the meter cock, or a line cock which affects only part of the piping of a single customer.

(A) Before gas is shut off from any line or piping, all users or their responsible representatives whose service is affected shall be notified in advance. It is advised that the gas is to be shut off and instructed to shut off all appliance cocks and not to open any of them again until notified that service has been restored, in accordance with the provisions of Section 10.6 and 10.7 (above).

(B) If a meter cock is found shut off, unless the workman himself has shut it off or knows that it was shut off by the customer or prevents leakage, and the cause of the leakage has been reported by the workman, he shall not turn the gas on.

Section 10.9 TURNING GAS ON. A workman shall not turn

gas on at a meter or a line cock if piping, equipment or meters are known to leak or to be defective.

Section 10.10 TURNING GAS ON WITHOUT PERMISSION. No workman or any other person shall turn gas on at a meter cock or a line cock after same has been ordered turned off by the Department or the gas company without specific permission from the agency that turned the gas off.

Section 10.11 TURNING GAS ON. Gas shall not be turned on at either a line cock or a meter cock unless gas burning equipment is connected to the piping system supplied.

Section 10.12 DUTY OF WORKMAN. IT shall be the duty of any workman to turn the gas off from any equipment, pipe or piping system and regardless of the wishes of the user thereof, to leave the gas turned off until the cause for interrupting the supply has been removed in any of the following cases:

(A) If ordered to do so by the Department.

(B) If any leakage of gas is noted.

(C) If there is any condition which threatens interruption of gas supply which may cause burner flame to be extinguished or otherwise prove dangerous.

(D) If an installation is found of some gas-fired equipment such as to cause serious personal or property hazard.

ARTICLE XI  
Repeal Clauses, Validity, Saving and penalty.

Section 11.1 REPEAL CLAUSE. All previous Ordinances, or portions of Ordinances, inconsistent with or in conflict with this Ordinance and all amendments thereto are hereby repealed.

Section 11.2 VALIDITY CLAUSE. Should any section, paragraph or provision of this Ordinance be declared by the Courts to be invalid, the same shall not affect the validity of the Ordinance as a whole or any part thereof other than the part so declared invalid.

Section 11.3 SAVING CLAUSE. Any prosecution arising from a violation of any Ordinance repealed hereunder, which prosecution may be pending at the time this Ordinance becomes effective, or any prosecution which may be started within one (1) year after the date of effect of this Ordinance in consequence of any violation of any Ordinance repealed herein which violation was committed previous to the date of effect of this Ordinance, shall be tried and determined exactly as if such Ordinance had not been repealed.

Section 11.4 PENALTY CLAUSE. Any person, persons, firm, partnership, association or corporation or any one acting in behalf of said person, persons, firm, partnership, association or corporation violating any of the

provisions of this Ordinance shall upon conviction thereof be subject to a fine of not more than One Hundred Dollars (\$100.00) or imprisonment in the County Jail or Detroit House of Correction in the discretion of the Court for a period not to exceed ninety (90) days, or to both such fine and imprisonment in the discretion of the Court. Each day that a violation of this Ordinance is continued or permitted to exist without compliance shall constitute a separate offense punishable upon conviction in the manner prescribed in this Section.

## Millington Heads Township Group For Second Year

Re-elected president of the Community Improvement association of Plymouth township at the organization's second annual meeting last week at the township hall, was Frank Millington of Beck road, who now starts his second term as head of the association.

Other officers re-elected to posts previously held were Vice president Austin Stecker and Secretary Alice DeGroat. Mrs. Paul Emrick was succeeded by Mrs. Ruth Alford as treasurer. The four directors elected for a three-year period were Ralph Garber, Austin Pino, Lloyd Shalard and Melvin Fuelling.

Roy Lindsay, township supervisor, and Mrs. Elizabeth Holmes, treasurer, were principal guests at the meeting. Reaffirming their desire to maintain a "clean, quiet, residential atmosphere in the township," the speakers mentioned the need for redoubled efforts on the part of all members. Cooperation with township officials, understanding of their problems and factual information were described as being necessary for a successful program on civic matters.

Reports from committee members on activities of the township, zoning and board matters completed the meeting agenda.

Following are the names of the members of said Board and an indication of their respective vote on said Ordinance.

Roy Lindsay yes

Norman C. Miller yes

Elizabeth Holmes yes

Louis J. Norman yes

Herald F. Hamill yes

VOTED

I do hereby further certify that a true copy of said Ordinance was published in the Plymouth Mail on the 9th day of February, A. D. 1956, as required by law.

Norman C. Miller Township Clerk

Just Depends

A man was on his way to visit some friends during summer vacation. The way led through a swamp.

"Say," he asked, "is it true that an alligator won't hurt you if you carry a torch?"

The guide thought a moment. "Depends on how fast you carry it, I reckon."

## Declares Dividend

The Board of Directors of Townsend company, New Brighton, Pennsylvania, recently declared a regular quarterly dividend of thirty cents (30c) per common share, payable February 24, 1956, to stockholders of record February 6, 1956. Townsend company is one of the nation's oldest and largest manufacturers of rivets, fasteners and cold formed parts. Dunn Steel Products here is a division of the Townsend company.

The best friends are usually not those people thought of as such.

## TABLE 3

FLUE OR VENT CONNECTOR APPLIANCES	Minimum Distance from Combustible Construction.
Boiler	6 inches 1 inch*
Warm Air Furnace	6 inches 1 inch*
Water Heater	6 inches 1 inch*
Room Heater	6 inches 1 inch*
Floor Furnace	9 inches 3 Inches**
Incinerator	18 inches Not permitted

\* Except as otherwise specified in the listing by a nationally recognized testing agency.

\*\* 3 inches for a distance of not less than three feet from outlet of the draft hood. Beyond three feet the minimum clearance is one inch.

Section 9.21 VENT PIPE INSTALLATION. The vent pipe shall be so installed as to avoid sharp turns or other restrictive features which would create excess resistance to flow of the gaseous products.

Section 9.22 VENT PIPE CONNECTIONS. Vent pipes from one or more gas-fired space heating appliances may be interconnected provided that the cross sectional area of the manifold shall be equal to the sum of the cross sectional areas of the vent collar connections of the appliances.

(A) No vent from a gas-fired heating appliance shall be interconnected with a vent pipe from an appliance burning other fuels or designed for other uses except with the specific approval of the Department.

Section 9.23 CHIMNEY CONNECTIONS. A vent pipe from a gas-fired heating appliance and vent pipes from other appliances, burning the same or other fuels, may be connected into the same chimney through separate openings located at different levels, provided that the operation of any of the equipment is not adversely affected.

Section 9.24 VENT PIPE MATERIAL. The material used for vent pipes shall be new and shall be such as to resist the corrosive action of flue gases and condensate. The vent pipe shall be rigidly and securely installed.

Section 9.25 INSTRUCTIONS. The customer shall be thoroughly instructed by the vendor or his agent as to proper and safe operations of the gas burner before it is placed in continuous service and suitable printed instructions shall be supplied by the vendor or his agent and prominently displayed near the gas burner.

## ARTICLE X

### Regulations

Section 10.1 GENERAL. Gas fitting, gas burner installation and repair work shall be done with the gas turned off.

(A) At least two (2) men shall work in any situation where the nature of the work is such as to verifiably expose any person or property to danger.

Section 10.2 MATCHES AND SMOKING. No matches, candles or other sources of ignition shall be used when working on piping or equipment filled with gas or in searching for leaks.

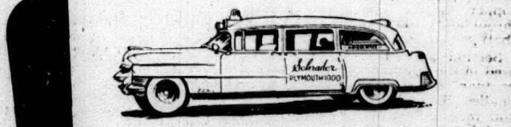

(A) Workmen or helpers shall not smoke while connecting or disconnecting gas filled piping or equipment nor shall others be permitted to smoke while in the room or near such work.

Section 10.3 ARTIFICIAL LIGHTS. Artificial lighting for use in connection with searching for leaks or work in gaseous atmosphere shall be restricted to approved electric hand flashlights or other electric lights controlled by switches only, located outside the gassy area. Every workman

## Legal Notices

J. RUSLING CUTLER, ATTORNEY, 183 N. Main street, Plymouth, Michigan. STATE OF MICHIGAN, County of Wayne, ss. 422, 548. At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the eighteenth day of January, in the year one thousand nine hundred and fifty-six. Present James H. Sexton, Judge of Probate. In the Matter of the Estate of PHILIP WIDMAIER, Deceased. Floyd A. Kehrl, executor of the last will and testament of said deceased, and final account in said matter and filed therewith his petition praying that the fees as set forth in said account be allowed and that the residue of said estate be assigned in accordance with the provisions of said last will.

It is ordered, That the Seventeenth day of February, next, at ten o'clock, in the forenoon at said Court Room, be appointed for examining and allowing said account and hearing said petition. And it is further Ordered, that a copy of this order be published once in each week for three weeks consecutively previous to said time of hearing, in the Plymouth Mail, a newspaper printed and circulated in said County of Wayne. James H. Sexton, Judge of Probate. I do hereby certify that I have compared the foregoing copy with the original record thereof and have found the same to be a correct transcript of such original record. Dated January 18, 1956. John E. Moore, Deputy Probate Register. 1-26-2-2-2-3-1956

## The Most Important

What is the most important feature of an ambulance service? There are many features which are important: a modern ambulance, well-trained attendants and prompt response to all ambulance calls. We feel that promptness of response is, however, a "must" feature and we answer all ambulance calls with the utmost dispatch.

## His Favorite Investment!

"It's the wisest motor car investment I ever made!"

"I've owned a great many makes through the years, but Cadillac wins my vote as the finest investment of them all."

"In my book, it is the best dollar investment on the highway today!"

... and its dependability is truly extraordinary. And, finally, there is the economy that comes from Cadillac's great value. In resale markets all across the land, the Cadillac car traditionally returns a higher percentage of its original cost than any other automobile built in America.

And consider what generous dividends Cadillac owners receive from their investments. ... Cadillac's superlative beauty and luxury ... Cadillac's magnificent performance and comfort ... and Cadillac's wonderful reputation among the world's motorists.

We suggest that you pay us a visit soon and investigate the latest and finest Cadillac investment of them all.

We have the car ... and the keys ... and the facts—and we'll be happy to give you all three at any time. Why not make it today?

## Handy Jim's FIX-UP TIPS For the Home

Q—Water condensing on my window sash in cold weather is running down and ruining the wallpaper. How can I remedy this?

A—Apparently your windows are made of metal, and about the only remedy is to install wood windows units. Condensation occurs when warm room air meets cold window sash and frames. Water doesn't condense on ponderosa pine, of which wood windows are made, because the inside of wood sash stays warm when it's cold outside. A piece of pine will lose from 1,360 to 1,780 times less heat than a piece of aluminum the same size, according to the American Society of Refrigerating Engineers. Thus, the inside surface of wood sash stays free of moisture, while the inside surface of metal sash becomes almost as cold as outdoors and moisture readily collects.

Question: I am making a patio with colored slate flagstones set in cement. Could you tell me how to cut these stones without splintering the edges? What can I use to bring the colors out? Would a sanding machine help?

Answer: Cut the stone by scoring the marked line with a sharp chisel and gentle hammer taps. Then repeat along the scored line with heavier taps. Reverse the stone and repeat on the opposite side. Stones 1-inch thick usually break cleanly on this treatment.

You can brighten the colors by applying liquid floor wax to the surface. It's a good idea to do this anyway, before setting in cement as splashes of cement are easier to remove and won't stain as they would on bare stone. Linseed oil also brightens them but doesn't give the same protection against cement stains.

Q—How fast does shellac dry on a floor?

A—The first coat is generally dry enough to walk on within one hour. However, not less than three hours should elapse between the first and second applications. An overnight drying period is recommended before application of the third coat.

## Hardwood Plywood Offers Wide Variety

Hardwood plywood is used more than any other material in many of the most important features of modern American homes—flush doors, wall paneling, kitchen cabinets, built-ins, room dividers and furniture.

The reason is that hardwood plywood combines the functional qualities of plywood (strength, durability, dimensional stability and lightness) with the attractive appearance of the choicest hardwoods.

Handy paneling planks of plastic-finished hardboard, 16" by 8 1/2" quickly cover new or old wall areas and provide a decorative, durable and easily cleaned surface.

The current wide use of plywood in furniture is surprising to the average person who is accustomed to thinking, when shopping for furniture, in terms of solid woods or veneers. This is carried over from the days when veneer separation sometimes did occur.

More than 85 percent of today's wood furniture is made of hardwood plywood—which, of course, has veneers as its exposed faces.

There's a growing use of hardwood plywood for home work-shop projects—for in order to get a "fine furniture" look, the home craftsman wants to use the same material as the professionals—hardwood plywood.

A charming and utilitarian corner setting with a custom look, is created by "built-ins" of beautiful hardwood plywood. Recessed shelves, cabinets and wall paneling are all of birch plywoods.

The modern adhesives have also moved hardwood plywood into

Nowadays, however, modern adhesives join the layers of plywood together in a bond stronger than the wood fibers themselves and veneer separation is a thing of the past.

kitchens in a big way, spearheading the postwar changeover from a "hospital-white" look to a warm family atmosphere in this most-used room in the home. Hardwood plywood kitchen cabinets are installed in the majority of new homes now going up. The current development of built-in kitchen appliances has created added interest in using wall paneling in the kitchen.

Genuine hardwood wall paneling is now widely recognized as an economical means of adding a distinctive feature to a home, whether new or remodeled. Wood paneling formerly was an earmark of the luxury home but the plywood process has placed it within reach of those with average means.

Among the newest trends in the use of hardwood plywood in the home are built-in closet walls and music units and room dividers.

This kitchen shown above designed by Scholz Homes, Inc. of Toledo, Ohio, is paneled in Philippine mahogany plywood with cabinets to match. Built into the wall are an oven, refrigerator and freezer.

## Tube Rack Keeps Gardening Hose Safe

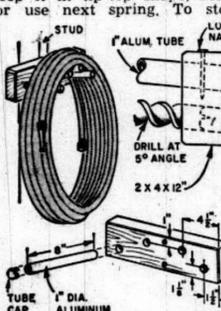

Caring for your gardening equipment during the winter will keep it in tip-top shape, ready for use next spring. To store garden hoses, try this simple rack that keeps them ready coiled, off the floor and out of the way.

Cut a 12" length of 2x4 to make the main support. Lay out the holes for the 1" Do-It-Yourself tubing and bore the holes at a slight (about 5°) angle to keep hose from sliding off. Drill 3/16" holes for the two screws that hold the 2x4 to the wall.

Cut four 8" lengths of the 1" tubing and force tubes into the bored holes. Drill holes from top edge of 2x4 into each tube end and drive in lock nail.

Screw the rack to the wall with two No. 10x2 1/2" screws. To keep dirt from getting into the tubes, snap 1" aluminum tubing end plugs into the outer ends of tubing hangers.

Reynolds Do-It-Yourself aluminum is available in local hardware and building supply stores.

## Paint Colors and Light Work Together for Comfort and Beauty

There's a sort of magic in a can of paint. With a little knowledge of the tricks you can do with properly chosen paint-colors, you can make a room seem warmer or cooler, you can apparently alter its size and shape and you can bring it remarkable new beauty.

First, you need to know that the warm colors are the reds, oranges, yellows, yellow-greens and their variations; buff, for instance, peach and cream. The cool colors include such hues as the blues, greens and violets.

Keep this fact in mind when selecting paint for a too-cool room with a north or northeast exposure. Decide on a warm color for walls and woodwork and it will seem warmer than the thermometer might justify.

When choosing paint for a south — or southwestern — room, select a cool hue and the blaze of the sun will seem less insistent. Light tints of cool — or "retreating" — colors, as they are also known, will make a small room seem larger when used on the walls. Strong tones of the warm — or "advancing" — colors will make a too-large room seem smaller, more inviting.

To make a "boxy" room more interesting, paint the wall you wish to be most interesting in a color different from the other three.

To make a too long room seem better proportioned, paint the end walls in a dark tone; the two side walls in a lighter hue.

The use of such paint-color tricks can do much to improve your home.

Trees form an important part of your home landscaping. Large trees in excellent condition often have a value of \$800 to \$1,000, or more so don't cut them down if it can possibly be avoided, says the National Arborist Association.

Plan to paint your ceiling first, then your walls and, finally, the woodwork.

UNIQUELY ATTRACTIVE fireplace at the Thomas H. Roberts home, 47950 West Ann Arbor trail, is constructed of Tennessee ledgerrock with a raised limestone ledge and slate hearth. Added note of interest is the wood storage space feature below the raised ledge. The traverse type fire screen completes this cozy unit. Seated by the fireplace is Mrs. Roberts.

## BUILDING and REMODELING — NEWS — FOR EVERY HOME

### February Good Time to Start Planning for Spring Building

If you plan on building that new home this summer, you can save real money by doing your basic planning in February. It takes months to work out your ideas, your floor plan, and your decor with your architect or builder. They can be months well spent. Most women who plan on building have collected elaborate scrap books for many months as they have run across ideas they like.

One idea that many like and a popular trend in today's new homes develops an outdoor living room almost for free. The trick is in the planning of the floor arrangement.

If you plan your home so the floor area is in the shape of an L or a U, then you have a partially enclosed space outdoors, with two or three walls.

That makes the start of your free outdoor living room. If you study and plan ahead a step further, and select a natural exterior siding like Douglas fir or western red cedar lumber which blends well with outdoor shrubs, trees and lawn, you have made step two in home planning pay off.

About all you need now is a deck of some sort, either cement or fir plank, and your outdoor living room begins to take shape. If you want extra privacy from neighbors or street, then run an inexpensive cedar fence along the exposed sides.

Yes, February planning can save you real money, but more important hours spent in study this month will give you a wonderfully livable home.

### Odd Size Lots Have Real Charm

Irregularities in a building lot such as odd shapes, adjoining hillsides or a brook running through the property often discourages prospective buyers, according to the American Institute of Architects.

"It's at this very basic stage of site selection that the architect can save the buyer money," A. J. A. points out. The architect knows what can be done with such building lots that are usually sold for much less than flat, so-called "ideal" sites. Many consider these the choicest home sites.

With the home design trend moving toward utilization of native materials in natural surroundings can be intensified and the home tied right into the terrain, if the building is sided in some lovely native material like Douglas fir or western red cedar siding, coupled with effective use of glass and brick. An increasing number of architects prefer the purity of nature's own materials and look for outcroppings of stone, thick foliage or trees. These contribute much charm and inspiration to the dwelling and site.

### Local Architect Wins Clinton School Job

The Plymouth architectural firm of Gould & Moss, Inc., has been awarded the job of drawing plans for a \$550,000 school improvement program in Clinton Community School District No. 4, Lenawee and Washtenaw counties.

Citizens of the district voted 299 to 24 to borrow the money for additional school facilities. Included in the program will be seven extra classrooms and a library for the elementary school. Additions to the high school include a gymnasium, new commercial and science departments, shop, band shell, four junior high classrooms, lockers, teachers' lounge and administration offices.

Nat Gould has been conferring with board members about the final drawings.

### Two-Car Families Can Have Low-Cost Shelter for Both Cars

Millions of American families have jumped into the two and three-car class, but most designers of older homes didn't anticipate such opulence. Result: one-car garage.

Now you can have shelter for the extra car, the West Coast Lumbermen's Association reports. If there is no yard space for two cars side by side, and you already have a one-car garage, consider the possibility of building a simple carport shelter large enough for one car built directly in front of the older garage. This can be built of Douglas fir or west coast hemlock by any good carpenter or handy husband.

Just plan your roof section of the carport so the rain water will run off harmlessly. It is a good idea to make certain the western red cedar support posts for the carport allow ample clearance for cars being driven in and out of the garage.

Many church and women's club groups have found that a "teletalk" public address system is the perfect way to insure a speaker's words being carried to the farthest corner of a room or auditorium in clearly audible, well-modulated tones.

### Plan for Split-Level House Shows 3 Dimension Styling

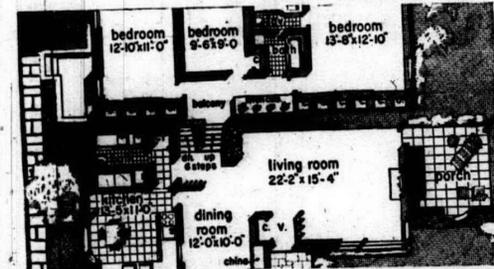

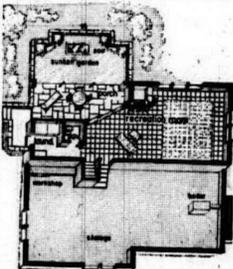

The "three-dimension" style of the floor plans below makes this home designed by Architect Rudolph A. Matern easy to visualize. The house is featured in the current edition of Small Homes Guide, along with several other designs incorporating the popular split-level feature.

Four levels are shown here, with the "split" approximately

in the center. The architect has provided full bathrooms on both main levels to limit up-and-down stair travel. Living and dining rooms and kitchen are at ground level and the recreation area is slightly below grade. The sunken garden at the rear of the house is made a part of the decorative scheme of the recreation room by use of a glass wall between the two.

The magazine points out that the split-level type of house combines the chief advantage of the traditional two-story house and the modern, rambling ranch house. It provides as much space for the same money as the two-story types and yet, like the one-story house, it requires a minimum of traveling up and down stairs.

This house has 1,415 sq. ft. of floor space on the first and second levels and 548 sq. ft. on the recreation level. For information on blueprints and their cost, write to Small Homes Guide, Dept. 1304, 82 W. Washington, Chicago 2, Ill.

### "No Messy GARBAGE Cans in Our Backyard"

... since we installed the **Majestic INDOOR INCINERATOR** "No longer any need for the messy, old garbage can! Now we just put all burnable refuse—garbage too—in our Majestic Indoor Incinerator in the basement—light it and leave it! Unique downdraft feature does the trick. This convenience ends unpleasant trips to the backyard garbage can and trash burner in all kinds of weather, too! Yes, we made a wise buy—just couldn't get along without it now!"

The top flaps of some cardboard cartons are convenient accessories when you're painting. They can be used as cardboard trays on which you can place both a paint can and a brush. The "tray" makes it an easy matter to move the paint from place to place.

**HOME OWNERS QUESTION BOX**

Q—How can I make yellow-stained piano-keys white again?  
A—Mix a paste of alcohol and powdered chalk. Rub the paste on the keys, then remove it with a clean soft cloth.

Q—Does the way a house is built have any effect on the cost of insuring it?  
A—Yes. Use of fire-resistant materials often brings insurance premiums down. For instance, insurance companies in many localities reduce the cost of fire insurance on homes protected by asphalt shingles because this roofing material minimizes the danger of fire caused by flying sparks from chimneys and other sources. In fact, building code regulations in more than 600 communities require that fire-resistant roofing be used.

## keeping in touch

E. S. EVANS, Jr., president of Evans Products company, announced the election of George M. Schueder as vice president of the company. Mr. Schueder has been associated with Evans for nearly 20 years and is in charge of production and engineering.

KENSINGTON PARK is experiencing a record attendance this winter as plenty of snow and ice has provided winter sports enthusiasts with ideal ski, skating, sledding and fishing conditions. Young sledders (and oldsters, too) are packing the Cass Benton park areas around Plymouth on weekends.

A SERIES of four workshops for kindergarten children and their mothers will be given on Tuesday, February 14 through March 6, at the Detroit Institute of Arts. William A. McGonagle of the educational department will conduct the 90-minute sessions of music, stories and art activities. Advance registration is required for either 9:30 a.m. or 2 p.m. groups.

A THOUGHT FOR THIS WEEK: The best way to secure future happiness is to be happy as is rightfully possible today.—Charles W. Eliot.

## Social Security Question Column

The Plymouth Mail with the cooperation of the Detroit-Northwest Social Security office will answer questions for its readers. Questions sent to the Mail will be answered in this column. Only the writer's initials will be used.

1. How do I go about paying my social security tax and where do I pay it? I am a carpenter and self-employed. S.J.B.

Answer: The social security self-employment tax is paid with your income tax. It is paid to the Director of Internal Revenue and is due April 15, 1956. The form to be used is Schedule C with Schedule SE attached and is a part of the income tax form 1040.

2. I will soon be 65 and want to claim social security but I have no way to get to Detroit. Can someone else go there for me? J.O.F.

Answer: The social security office at 14600 Grand River, Detroit 27, sends a representative to the Plymouth post office (basement) on the second and fourth Thursday of each month. You may contact the representative there between 9:00 a.m. and 12:00 noon. If you are unable to get to the Plymouth post office, telephone Broadway 3-1717 to make arrangements.

3. I am 67 and operate a 180 acre farm. Do I have to pay social security? E.A.L.

Answer: You are required to pay social security tax if you have annual net earnings of \$400 or more. You are required to pay this even though you may not have any income tax due for the year. If you do not have a social security number, get in touch with the Social Security office.

### Reminiscences

"Can't I persuade you to write your memoirs?"  
"No," answered Senator Sordani. "I am now concentrating most of the intellectual facilities I possess in arranging to have certain things forgotten."

## OUTDOOR NOTES

From The MICHIGAN DEPARTMENT OF CONSERVATION

Anglers who have long been disgruntled when fish refuse to bite may soon take a handful of science along to help their quest.

Fishing "savvy" is often the result of smart guesswork, years of experience or plain good luck. But Conservation Department fish workers hope to weed a lot of question marks out of this age-old recreation with a series of experiments now under way at Hastings warm-water fish research station.

The station was set up last year at the old Hastings fish hatchery to study bass, pike, panfish and other non-trout species.

The present tests will determine which foods the northern pike likes most, when he likes to feed and under what conditions. In short, research workers want to let anglers know what size and type of live bait works best, how water temperature affects fishing and whether climate or hour of day makes any difference in feeding habits.

Also, the studies will give the department more information to better manage fish population in lakes. In the studies, fish men have set up a sort of cafeteria for pike. The predator fish are given a choice of various live foods; small suckers, panfish and other types are released in the pike tanks and careful tests and observations made.

A key instrument in the work is the "gastroscope," a tubelike tool. The gastroscope lets workers take food from the fish's stomach for examination. The

food can be replaced, the fish is unharmed and the test continues. In this way, researchers learn the fish's food preferences and digestion rate under various conditions. The present tests are on northern pike, probably Michigan's most abundant predator game fish. Bass, panfish and warm-water species will be studied later.

Michigan's ring-necked pheasants started the winter in excellent condition and a recently-completed census shows populations of the state's most popular game bird to be the highest in a number of years.

Some 535 southern Michigan mail carriers, burdened under the Christmas rush, took time to count ringnecks for the Conservation Department, December 5-17. The carriers drove 324,000 rural miles on their mail routes in the two-week period and counted more than 21,000 pheasants, an average of more than six per 100 miles, the highest average of recent record.

Another happy factor was the high ratio of hens to male birds, an average of more than four to one for the whole pheasant range. Such a ratio indicates both that hunting was good and that hunters took an estimated 1,250,000 ringnecks in 1955.

The best areas, as in past years, were the Thumb counties and Ottawa county, where carriers counted an average of 18 birds per 100 miles.

The December count is a post-hunting season summary to indicate both what happened during the season and to take an early check on pre-winter conditions.

Experimental dredgings in trout streams appear to be successful in improving cover and food conditions and inducing more trout to inhabit new pools. E. H. Bacon of the Conservation Department's Institute for Fisheries Research reports that an experimental dredging project on a section of the Pigeon River in Cheboygan county resulted in higher trout populations in the dredged areas.

Fish workers also reported a reduction in the number of for-

age fish, particularly blacknose and longnose dace, after dredging operations.

The project, started in mid-1953, is scheduled for completion and thorough evaluation next fall.

Five elk were killed last week in a series of railroad accidents near Vanderbilt, where the big animals are heavily concentrated.

A cow elk and two calves were struck by a diesel locomotive Saturday night about one mile north of Vanderbilt in Otsego county. Two other elk met similar deaths earlier in the week in the same area.

Michigan's elk herd has increased rapidly in recent years and is estimated at more than 600 animals. The herd was started in 1918 when seven elk were released in Pigeon River state forest near Gaylord.

Conservation Department field workers say the elk have spread into parts of Cheboygan, Charlevoix, Montmorency, Emmet and Alpena counties. Biggest concentrations are in Otsego and Cheboygan.

Elk are protected from hunting in Michigan and at present there are no measures to restrict the growth of the herd.

Rabbit hunting season closed January 31 in the southern half of the lower peninsula, but hunters can enjoy another month of shooting in northern portions of the state.

Snowshoe hare and rabbits are legal game through March 1 in the northern lower peninsula and all of the upper peninsula. With the shorter hunting season in southern areas, the number of cottontails bagged is far below annual rabbit production. Studies by Conservation Department and Michigan State University researchers show that hunters could take almost double the annual rabbit kill in a single season without reducing the next year's production.

Cottontails can claim the title as Michigan's most popular small game animal. During the 1954-55 season, hunters bagged about 1,400,000 rabbits and another 205,000 hares.

## Re-elect Cancer Society Officers

All officers of the Plymouth chapter of the American Cancer Society were re-elected at the annual meeting held recently. Still holding office will be:

Norman Marquis, president; Mrs. Austin Stecker, vice-president; and Mrs. Harry Bartel, secretary. Holding other appointments are Charles Wyse, crusade chairman, and Mrs. E. J. Carless, public education chairman.

Other members on the board of directors are Dr. R. R. Barber, Melvin Blunk, Mrs. Harry Fountain, Dr. A. E. VanOrnum, Reverend Melbourne Johnson, Mrs. Margaret Hough, Dr. L. J. Salan, Mrs. Thomas Horn and Mrs. H. J. Brisbois. Mrs. Carless and Mrs. Horn are new members. The Plymouth chapter maintains its office at 621 Penniman avenue. Persons seeking literature concerning cancer or in need of cancer dressings may call at the center between 1 and 4 p.m. each weekday.

### Automotion

Two men from up the creek boarded one of the new double-deck busses. As they sat down near the door, the more adventurous of the two spied the stairway.

"I believe I'll climb up and see what's on top."

In a moment he came hurrying back, plodded down by his partner and said breathlessly:

"Stay where you are! There's no driver up there."

# PUBLIC VOTES MERCURY "BEST VALUE IN ITS FIELD"

19th annual nationwide survey of car owners—by independent research organization\*—shows Mercury leads its price class as "best value for the money." Whether you pick a Montclair, Monterey, or Custom, you get more car in four big ways!

- 1. NEW REFLEX-ACTION PERFORMANCE**—Go, stop, pass, climb, turn. THE BIG M responds instantly to your every command, adjusts instantly to every road. We call it "reflex action"—a new kind of performance that makes all your driving easier, safer—and far more comfortable than ever before.
- 2. NEW BIG M BEAUTY**—Here is fresh, clean, graceful beauty for the young-minded. Mercury's lines are long, sleek, road-hugging. New Flo-Tone color styling is radiant and dramatic. You enjoy a distinction in THE BIG M that is unmatched in Mercury's price class.
- 3. NEW SAFETY-FIRST DESIGN**—You get the widest choice of safety features in the field. At no extra cost, there's an impact-absorbing safety steering wheel (an exclusive in Mercury's field) and triple-strength safety door locks. And optional features such as seat belts and padded instrument panel.
- 4. PROVABLE VALUE**—Here's value you can see, and measure! Low first cost. Low operating costs. High resale value. And Mercury trade-in value has remained consistently high. No wonder Mercury was voted "best value in its field." Better see us soon.
