Mrs. Neal D. Lanphear

## Presbyterian Ceremony Unites Neal Lanphear, Betty Arnold

An altar graced with palms gladioli and snapdragons formed the setting for a candlelight ceremony uniting in marriage Miss Betty Jo Arnold and Neal Duane Lanphear at 7 o'clock Saturday evening, February 4, in the First Presbyterian church of Plymouth.

Reverend Henry J. Walsh performed the nuptial service. The bride is the daughter of Ellen Arnold, 650 Auburn, and Leo Arnold, 8975 Beck. Mr. and Mrs. Lawrence Lanphear, Sr. of 783 South Main are the parents of the bridegroom.

A gown of white Chantilly lace, styled with three tiers of netting over a taffeta underskirt, and Juliet cap of lace trimmed in seed pearls was worn by the bride. She was given in marriage by her father. White camellias

centered on a prayer book with streamers of stephanotis composed the bridal bouquet.

Jayna Eckler, sister of the bride, was matron of honor. Her gown was of gold lace over champagne-colored taffeta, styled with scoop neckline, three quarter length sleeves and dropped waistline from which extended a full skirt. She carried a colonial bouquet of deep red roses and carnations.

Bridesmaids were Janet Lanphear, Dixie Kelb, Kathy Dowling and Celia Balfour. They carried colonial bouquets of pink roses and red carnations against gowns styled identically to that of the matron of honor's but of lighter shade.

Best man was Lawrence Lanphear, Jr. Guests were seated by James Arnold, George Kolb, Patrick J. Dowling, Jr. and John Willste.

Mrs. Arnold chose a navy crepe dress, with taffeta bustle, accented with pink accessories and corsage of pink camellias. The bridegroom's mother selected a dress of the same shade, trimmed in white at the neckline and cuffs, with orchid and white accessories and orchid corsage.

Nat Sibbold sang "I Love You Truly," "Because" and "The Lord's Prayer" as the wedding selections, accompanied by Fred Nelson at the organ.

The reception in the dining room of the church was attended by 200 guests from Plymouth, Livonia, Ypsilanti, Ann Arbor and Detroit.

For a brief wedding trip in the Detroit area, the new Mrs. Lanphear wore a beige wool dress with brown accessories and white camellia corsage.

The bride graduated from Plymouth high school in 1953. A 1949 graduate of the same school, the bridegroom attended Michigan State University for a year of study and served three years with the U. S. Army.

The couple are residing at 821 Wing street, Plymouth.

## Host of Variety Acts Featured At CAR Show This Weekend

A host of contestants from Plymouth, Northville and surrounding areas will provide an evening's entertainment for residents this Saturday night, during competition for cash prizes awarded top performers at the annual Talent show sponsored by the Plymouth Corners society, Children of the American Revolution.

The event starts at 8 p.m. in the local junior high school auditorium. Proceeds will go towards the CAR's various national projects, such as aid to mountain schools and providing educational facilities for the American Indian.

Contestants will be classed in two age categories, five to 12 years, and 12 through 18, with cash prizes awaiting top acts entered in both groups. Judges will be Mrs. Bart Connors and Lester G. Lee, both of Northville, and

Plymouthites Carl Kranish and Mrs. William Bohl.

Entrants from Plymouth and Northville, piano; Karen Pankow, tap dance; Larry Livingston, Jr. and Jim Thompson, clarinet duet; Karen Stevens, piano; Hollis Hynes, vocalist; Mary Jane West, cornet solo; Karen McAllister, vocalist; Linda and Nancy Lueth, their featured acts are: Sylvia King, tap dance; Bob Ramp vocalist.

Competing in the event from Ladywood high school in Livonia is Valerie Aalen, pianist. Northville contestants are Glenn Schultz, accordion; Richard Drew, piano; Cynthia Mel n, dance; Rosina Bailey, dance.

General chairman of the talent show is Miss Rebecca Coleman of Northville.

The local CAR society is headed by the Sarah Ann Lane chapter, Daughters of the American Revolution, Plymouth and Northville.

## Italian Student Talks to Kiwanis

An Italian and an American student who have studied under the American Field Service program told Kiwanians Tuesday evening of their impressions and experiences while living away from home.

Camillo Marazza of Milan, Italy is attending Cooley high school in Detroit under the government's exchange student plan. He had high praise for American freedom which "differs from our Italian freedom because Americans are not tied to tradition." In this vein Camillo pointed out that the power of the church reaches into every phase of life in Italy. The American school system does not measure up to Italian standards according to Camillo. "Too many students and too many subjects," said Camillo, who felt that the students did not do the volume of work in America as in Italy.

William Wheeler, at whose Detroit home Camillo is staying, was himself a summer student in Germany under the American Field Service program last year. He was impressed with the fact that Germans are very much like Americans. "I expected them to be more militaristic," Bill said.

Living at an Inn as the "adopted" home of the owners, Bill revealed that Germans drink beer as Americans do water. "They could not believe that I liked water to drink and everyone gazed curiously as I asked for a glass of water," he added.

The program was conducted by Byron Becker as an observance of Freedom Week.

## Signs of Spring Mount

One can hardly claim that "June is bustin' out all over" but there are signs of spring being reported which indicate that the days of shoveling snow are numbered.

Last week, for instance, Mrs. Ralph Galloway, 9475 Canton Center road, reported that a swarm of bees was attempting to get into an upstairs window. Bees, it is presumed, usually are not seen, heard or felt when cold weather once sets in.

Flowers too have taken a notion that it's spring. Louise Hutton, 355 Ann Arbor trail, said that morning glories have started to bloom around her home and Ethel Parmalee, 1442 Sheridan, said that cat tails in her home have unfolded.

In case you see a robin, one of those was reported a month ago.

R. A. Kirkpatrick left for a few days stay in Milwaukee Wis., and enroute will visit his son, William and family in Chicago, Ill.

Floyd Burgett and children, Jack and Judy, of Northville road, spent from Friday until Sunday with Mr. and Mrs. Alfred Burgett at Deckerville.

Mrs. Kenneth L. Hulsing

**Mother of Three Awarded  
Club's Achievement Honors**

There's never a dull moment in the life of Mrs. Kenneth L. Hulsing, chosen as the "Woman of Achievement" for this month by the Business and Professional Women's club. As such she will be honored Monday night, February 20, at the club's 6:30 meeting in the Mayflower hotel.

Along with managing a household for five, Mrs. Hulsing finds time for numerous civic projects in addition to her post as school board secretary.

With three daughters of school age, (11, 13 and 15) she has been an active participant in various parent-teachers organizations and is presently a member of the Bird School PTA, junior high and the Tenth Grade Parents group. In her 11 years of membership in school organizations Mrs. Hulsing has served in both presidential and vice presidential capacities.

Not confining her interests to school organizations alone, the school board secretary devotes much of her time to religious work in the community. Former president of the Women's League at St. John's Episcopal church, she now serves as secretary of the Women's auxiliary in the same church.

Plymouth social organizations have also claimed her interest. She is past president of the local Woman's club and has also served the DAR as regent. At the present time she is social chairman of the latter organization.

A member of the American Association of University Women, where she is education chairman, Mrs. Hulsing is also on the Citizens Advisory committee for Michigan State Normal college in Ypsilanti.

Girl Scout work is another field where she has devoted time and energy. She serves as committee chairman for Troop 5 and offers her services to the Girl Scout council as a volunteer trainer. Past jobs in Scouting held: by Mrs. Hulsing include treasurer and chairman of the Cedar Lake Area Camp committee as well as troop leadership.

Mrs. Hulsing is a member of the Plymouth Community School Planning group in connection with her post on the school board. Her name may also be found on the membership list of the State and National Affairs committee at the Chamber of Commerce.

Born in Grass Range, Montana, Mrs. Hulsing received her B. S. and secondary education degrees from Montana State college in 1936; and, as she puts it got her M. S. one day and her MRS the next, with her marriage to Kenneth Hulsing in 1938 on graduation from Ohio State university.

With a master's degree in bacteriology, the following four years were spent as serologist at the Chicago branch laboratory, Illinois Department of Public Health. The Hulsings came to Plymouth in 1942.

Despite many outside activities, February's Woman of Achievement manages to find time for family life and spare moments to pursue cooking and sewing hobbies at her home, 1010 Church street.

**Overseas Brides to Meet**

The Transatlantic Brides and Parents association will hold its next meeting Tuesday evening at the Garden City Presbyterian church. The Lincoln Park branch of the club will be guests.

The organization is composed of brides, parents and servicemen from overseas. One of its main projects is to secure funds for members wishing to visit their homes overseas. Mrs. John Cigan of Plymouth is president of the group.

**Social Notes**

About 80 boys competed in the archery events in three age divisions. There are 16 targets in the Junior Police building. First, second and third place medals in Class A went to Ronald Bondie, David Melow and Ronnie Wahn with scores of 876, 757 and 641.

Class B winners were Ronald

Soleau, 435; Billy Britcher, 398; and Donald Ackman, 382. The Class C winners were Robert Bassett, 484; Larry Smith, 467; and Bill Chappel, 294.

Members of the B. P. O. Elks serving as advisors are Elmer Passage, Don Melow, George Britcher, Tip Smith and Ed Bassett. The medals were furnished by Frank Allison of Allison Chevrolet. Trophies for a future event will be supplied by the Junior Chamber of Commerce. Adults too are invited to take up archery. Each Thursday night

at 8:30, a group of adults have been shooting targets. A 50 cents charge is used for heating the building.

Adults can also participate in rifle classes. The adult class meets each Friday night at 8:30 o'clock and the charge is also 50 cents. The Junior Police building is located in the Central Parking lot.

Major and Mrs. Norman Reichwald of Quantico, Virginia, are receiving congratulations on the birth of a daughter, Sharon Ann, weight seven pounds four ounces on February 5. Mrs. Reichwald is the former Rosemary Miller of Plymouth.

Mr. and Mrs. R. A. Kirkpatrick spent a few days last week with his sister, Mrs. Grace Cambray in Unionville.

### BIRTHS

Because there are so many hospitals in the area which are utilized by Plymouth citizens, it is impossible for The Mail to accurately obtain reports of all births. We therefore must rely on parents or relatives to kindly supply us with this information as soon as possible.

Mr. and Mrs. Jackie Street of 156 Caster avenue are the proud parents of a daughter, Jill Kae, born February 2 in Session's hospital, Northville, weight seven pounds 12 ounces. Mrs. Street is the formerly Beverly Oaks.

Mr. and Mrs. Harper Stephens of 11410 Southworth street are announcing the birth of a son, Mark Edward, born February 10 in St. Joseph's hospital, Ann Arbor, weight seven pounds seven ounces.

Mr. and Mrs. Francis Smith of 335 North Harvey street are the proud parents of a daughter, Catherine Ann, weight seven pounds seven ounces and born at Henry Ford hospital, Detroit, on February 4.

Mr. and Mrs. Levi Sockow of Rocker drive announce the birth of a daughter, Susan Lee, on February 1 in Session's hospital, Northville, weight six pounds 14 ounces.

Mr. and Mrs. Norman Reichwald of Quantico, Virginia, are receiving congratulations on the birth of a daughter, Sharon Ann, weight seven pounds four ounces on February 5. Mrs. Reichwald is the former Rosemary Miller of Plymouth.

Mr. and Mrs. R. A. Kirkpatrick spent a few days last week with his sister, Mrs. Grace Cambray in Unionville.

### Mrs. Ida M. Cook Dies in Northville

Following a lengthy illness, Mrs. Ida M. Cook of 315 Griswald, Northville, died in that community Saturday at the age of 86 years. Well-known in Plymouth where she had lived for a short while, the late Mrs. Cook had spent most of her life in Northville.

Funeral services were held Tuesday in Northville with Reverend John O. Taxis of the First Presbyterian church in Northville and Reverend Ivan E. Hodgson of First Methodist church in Northville officiating. Interment was in Rural Hill cemetery.

Survivors include: one daughter, Mrs. E. V. Cavell of Northville; two brothers, Grant Garfield of Detroit and Truman Garfield, Jr., of Ypsilanti; two sisters, Mrs. Flora Maloin of Northville and Mrs. Gordon Cameron of LaMesa, California; three grandchildren, Mrs. Sterling Eaton of Plymouth, Dr. Theodore Cavell of East Tawas and Mrs. Robert Casady of San Diego, California; six great grandchildren and two great great grandchildren.

The deceased was born July 25, 1869, in Novi township and was the daughter of Truman and Alvina Dodge Garfield. In 1887 she married James H. Cook who died in 1890.

The late Mrs. Cook was a member of the First Methodist church of Northville, an honorary member of the Detroit chapter number 116 of Eastern Star and also belonged to the Northville Patriotic club.

Mr. and Mrs. Bert Dayton of Prospect, Pa., were guests, Friday evening, of Mr. and Mrs. Harold Shirey in their home on Rocker.

### Marines Now Offering Two-Year Enlistments

Youths subject for the draft can now volunteer for the Marine Corps under a new two-year enlistment program it was announced this week by Staff Sergeant David Segel, local recruiter.

Enlistments previously were set at a minimum of three or four years. Plymouth youths interested in the new program can talk with Sergeant Segel at the Michigan Employment Security commission office on West Ann Arbor trail each Monday through Thursday, from 9 a.m. to 3:30 p.m.

Recruits now receive their basic training in San Diego.

### OBITUARIES

Mrs. Anastasia Glanbin

Mrs. Anastasia Glanbin, 1234 Beck road, passed away Thursday, February 9 at her home at the age of 75.

She was the wife of Samuel Glanbin who survives with eight sons and daughters, Irene Walling, Mrs. Virginia Urban, Mrs. Beatrice King, Mrs. Viola Novak, Sister Mary Anastasia, Mrs. Leona Urbanek, Mrs. Martha O'Brien and Donald Glanbin.

There are also 21 grandchildren and four great grandchildren surviving.

Mrs. Glanbin was born on April 18, 1880 in Germany. Funeral services were held Monday, February 13 from a Detroit funeral home and the Nativity of Our Lord church in Detroit.

Herbert C. Felton

Herbert C. Felton, 89, retired Daisy Manufacturing company machinist of 454 South Harvey street, died February 10 at Wayne County General hospital. Funeral services were held Monday in Wayne and burial was at Mallett cemetery in New Boston. Rev. Gernsey Gorton of the Wayne Methodist church officiated.

Mr. Felton was born in New Boston and is survived by his wife, Eliza, of Plymouth; a son, George of Philadelphia; and two daughters, Edith Felton and Mrs. Pearl Hopkins of Detroit.

Christian living pays off in the long run, though it is often a mighty long run.

## DALE CARNEGIE

Huey J. Guidry, Church Point, Louisiana, awoke one morning and began to worry about dressing the store windows for Christmas, a good Christmas window being very important. It requires planning, imagination and time to do the work, the importance of which is measured by its effectiveness.

He went to work at 6:30 A.M., and all he could do was worry about the window, how to trim it, would he have the time. But he was doing nothing about getting the work done. At 7:30 he went to breakfast but he couldn't eat. The thought of his problem was making him shaky. Suddenly a thought came to mind, a part of the Lord's Prayer which goes "Give us this day our daily bread." With that thought he relaxed and began to realize that instead of worrying about the windows he should be thankful that he had breakfast before him and that he was able to eat it, and that the work to be done could be accomplished.

He ate his breakfast and returned to the store, took the merchandise out of the window, cleaned up and with all working together the Christmas window began to take shape. They worked Monday, Tuesday and Wednesday, and that night they had a beautiful window to show for their efforts.

His belief: that if you stop worrying and get to work, you won't have anything to worry about.

THE FIRST OF SEVERAL weekend camping and training sessions in preparation for the National Girl Scout Encampment this summer was held Saturday and Sunday at the Plymouth-Kiwanis girl scout lodge on Plymouth road. Attending were 32 girl scouts from Plymouth and the surrounding communities of Wayne, Ypsilanti, Milan, Waltz and Flat Rock. Pictured here building a wash stand, one of the many activities participated in over the week end, are six girl scouts and an adult trainer. From left are: Lorene Hanson from Milan; Mrs. Sheldon Baker, local adult trainer; Betsy Edgar; Nita Townsend from Flat Rock; Christine Baker; Diane Bever; and Carole North. The next Plymouth overnight session will be held in April. The national encampment will be at Highland State Recreation area near Pontiac from June 29 to July 1. Local girls attending will be Diane Bever, Christine Baker, Betsy Edgar and Carole North.

PAST PRESIDENTS of the Plymouth Education association were presented keys for their efforts at a banquet held last week. The presentation was made by Earl Gibson, left, current president of the P.E.A. Others, from left, are Mrs. Nancy Tanger, Carvel Bentley, Miss Kathryn Bock, Robert Smith, Ross Hedrick, Loren Grieves and Melvin Blunk. James Latture, who returned two weeks ago after 25 years of teaching, was also to be honored as a past president and for his years of teaching, but was vacationing.

### Men In Service

Melvin E. Sawyer, 18, son of George and Lillian B. Sawyer, 11406 East Side drive, Plymouth, is completing basic military training at Lackland Air Force base, near San Antonio, Texas. The training is preparing him for entrance into Air Force technical training for an Air Force duty assignment. The course includes a scientific evaluation of his aptitude and inclination for following a particular career field.

Melvin E. Sawyer

Lackland, is the site of Air Force basic military training for men and women and home of the USAF Officer Military school, of which the USAF Officer Candidate school, the USAF Pre-Flight school and Officers Pre-Flight group are operating units.

### Hunting Violations Costly

Violations of conservation laws can have expensive and time-consuming consequences.

During a single week in late January, 85 violators paid \$1513 in fines and court costs and absorbed a total of 120 days in jail sentences.

The convictions list covered a variety of violations, including leaving rubbish on a state park site, shining deer and fishing without license.

Money from fines goes into the state library fund.

Some of the world's main ports aren't close to the sea at all. London is up-river 67 miles; Antwerp, 50 miles; Bordeaux, 60 miles; Bremen, 54 miles; and Hamburg, 69 miles.

### Car Can be Vital In Civil Defense

The family automobile, after years of yeoman service in taking father to work, mother to the market, the children to school and the whole family on vacation, today has been assigned an essential new chore in civil defense.

A new Federal Civil Defense Administration leaflet, "Four Wheels to Survival," spells out the vital role the family car must play in the event of an enemy attack on this nation.

The four-page leaflet points out that many civil defense actions, especially pre-attack, evacuation, depend on ability to move away from a probable area of danger. To keep the family car ready for any emergency, the leaflet advises such common-sense preparations as maintaining it in the best possible mechanical condition with tires inflated, battery in tip-top shape and the gas tank at least half-full at all times.

"Most cars today can move some 250 miles on a full tank of gasoline," the leaflet declares. "You may not need to move that far at any one time under emergency conditions, but it may be difficult to obtain additional gasoline for quite a while after an attack."

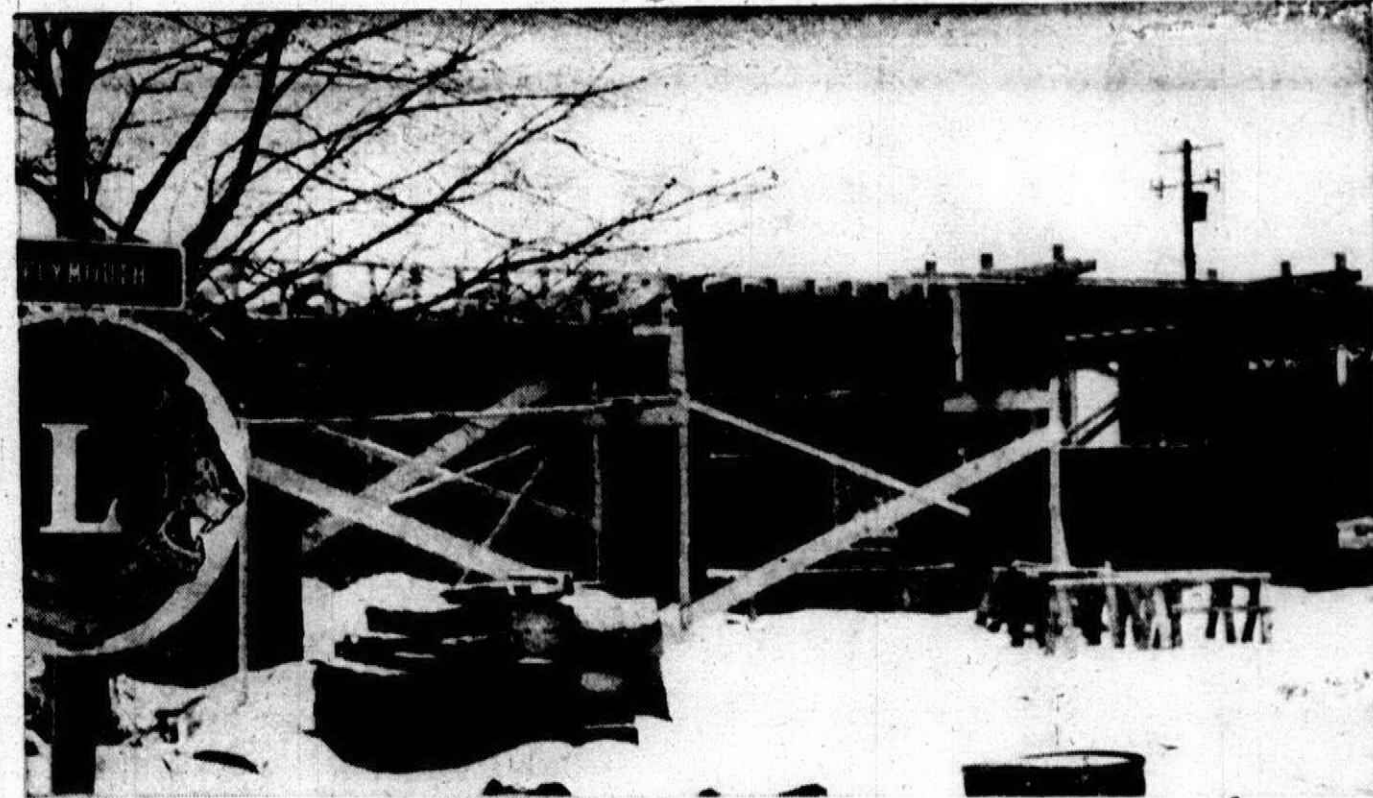

"Four Wheels to Survival" also emphasizes other essential information such as:

"Your car helps shelter you." Tests under an actual explosion at the Atomic Energy Commission's Nevada Test Site proved that modern cars, especially those with turret-top construction, give a degree of protection against blast, heat and radiation.

"Your car is your information center." Its radio, tuned in the event of enemy attack to the CONELRAD system of emergency broadcasting over frequencies 640 and 1240, will provide the principal source of official information. In addition, accurate maps should be kept in the car. "It may be necessary," the leaflet reminds, "to route you over roads you do not know."

"Your car can be your shopping center." Since food may not be readily available in an emergency, the leaflet proposes the family keep ready to put in the car a supply of food and water sufficient to last three days.

You could end most quarrels if you could get people to define what they actually mean.

THIS HOUSE BEING built on Ball street by the local Lions club was reported as one-third completed by members on the committee for the project this week. The one-story home, which will have three bedrooms, one and one-half bath, fireplace, gas heat, full basement and attached garage, was begun about the end of October and should be completed by May. The home will then be sold by the club with the proceeds to go toward high school band uniforms, boy scouts, aid to visually handicapped persons and other Plymouth Lions club charity activities. The big part of the building campaign is the roof, bricking of walls and finishing of interior, all which should get underway shortly. Bill Fehlig is chairman of the project.

### Record Timber Cut

Michigan state forests produced a record \$596,545 in timber products during 1955.

The 23 public forests in northern Michigan have produced increasing amounts of pulp, saw-logs and posts in recent years state.

In 1952, public timber lands produced \$280,000; in 1953 this jumped to \$392,000 and in 1954 a total of \$507,000 was turned back to the state.

Private timber producers bid at public auction and sealed bid sales for permits to harvest timber from public lands. Conservation Department foresters conduct the auctions, mark trees that are ripe for harvest and carry out other functions necessary to proper forest management.

Several factors have caused the continued increase in timber production. Good market conditions, better technical use of "weed" species such as aspen and active state planting and production program are probably most important.

American Indians do not have red skins, or even copper-colored. Fondness for painting themselves with red ochre or red vegetable paints led the American aborigines to be called Redskins by early explorers and traders.

TV Break-Down introduces New Medium Called "Radio"

We had a catastrophe at our house last week... The television set broke down and we had to resort to the radio...

Ann Magnani was judged the year's best actress by the critics for her performance in Tennessee Williams' "The Rose Tattoo..."

Save This Handy Week - Long TELEVISION GUIDE

Table with columns for days of the week (THURSDAY, FRIDAY, SATURDAY, SUNDAY) and times, listing various TV programs and their start times.

Ernest Borgnine received the New York Film Critics best actor award for 1955 for his portrayal of a Bronx butcher in Paddy Chayevsky's drama, "Marty..."

"Love Story," which will have Barbara Stanwyck as its star, in one of four pictures Robert Goldstein plans to produce for United Artists this year...

Paul Monash's television play, "Ball Out at 43,000," will be made into a theatrical feature...

Vera Vague has been given the role of the columnist in "The Opposite Sex" at Metro...

RKO bought screen rights to the new novel by W. R. Burnett, "Underdog," with Audie Murphy in mind...

In her new film, "Giant," Elizabeth Taylor has 41 costume changes. She wears everything from Levis to a \$16,000 ermine wrap...

Pier Angeli will just have to be more careful. Last February she suffered a broken pelvis in a fall aboard an airliner...

We hear that Ingrid Bergman is negotiating to star on TV in either "The Cat People" or "The Circular Staircase" as a TV one-shot...

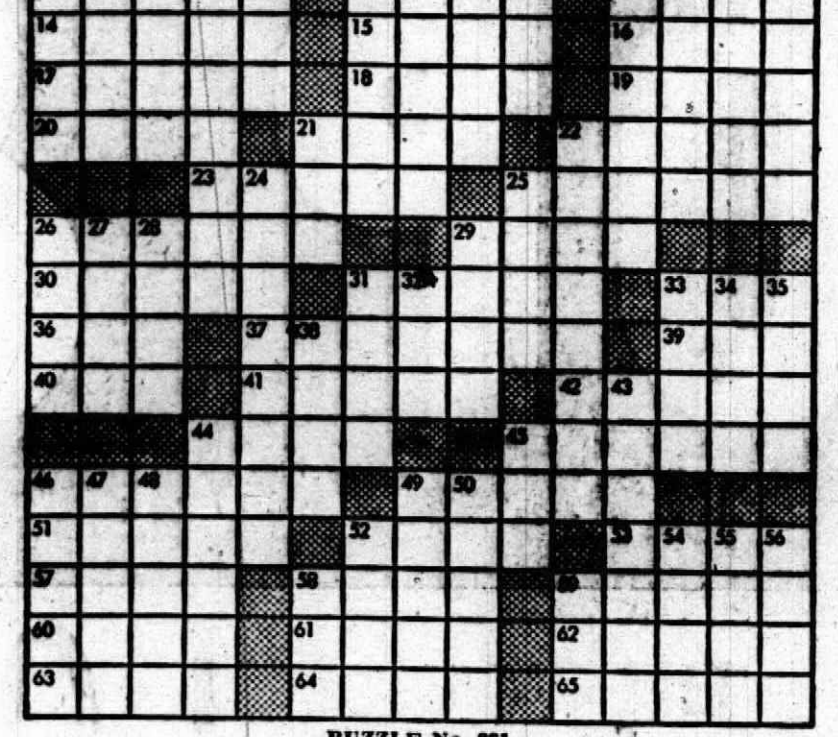

Twentieth-Fox is testing Jayne Mansfield, who is in the Broadway hit, "Will Success Spoil Rock Hunter?"...

Eight of Hollywood's popular movie stars, including four past Oscar winners, will serve as hosts and hostesses on the Academy Award Nominations show...

The 14,834 members of the film industry have submitted their preferences for the Oscar awards and only those nominated will take place April 14...

Serving as hosts and hostesses Saturday will be William Holden, Judy Holiday, Edmund O'Brien and Celeste Holm...

**FARMS FOR SALE**

800 ACRE RANCH that raised and took care of 500 black angus cattle. A sale of angus near this farm brought close to 1/2 million dollars. Approximately 2 and 1/2 miles of black-top frontage of state highway. 15 miles to Lansing. In a few years with the expansion of the college all the land could be sold for sub-division. The soil is of the best loam in the state, uses no commercial fertilizer. Land must be good to produce feed for all 500 cattle on this farm, as he buys no feed what ever. His formulae for calf meal is perfected from his own farm grain. This farm, from beef and registered cattle that are sold, would declare a dividend of 25% each year. The buildings alone would run into thousands of dollars. Owner is ready to retire from his profession and farm. This farm shown by appointment only. \$290,000.

125 ACRES on state highway and bus line. Near Ann Arbor. Nice modern house with apartment. Good dairy barn and other buildings. If you want a nice farm home, you better look at this quick. \$40,000.

THE MOTOR VEHICLE TAXES—ON THE AVERAGE—PAID TO THE STATE OF MICHIGAN BY THE OPERATOR OF THIS TRACTOR-TRAILER IN ONE YEAR EQUAL THE TOTAL MOTOR VEHICLE TAXES PAID BY THE OWNERS OF HOW MANY AVERAGE PASSENGER CARS?

(Check one, then see correct answer below.) \*

7  3  40  18

\* If you checked the third box, you're right, for it takes the motor vehicle taxes paid by 40 Michigan passenger car owners to equal those paid by the operator of the tractor-trailer shown.

**Broken Leg Gives GI Break In Food Service Career**

"One man's loss is another man's gain" proved true in the case of Martin Kreger. Plymouth high graduate of 1948, Marty is the only male enrolled in the Home Economics department at Michigan State Normal college in Ypsilanti. How he got there is a tale in itself. The happenstance involved a broken leg, which gave Marty a chance to realize his dream of a food service career. An Army mess sergeant at Fort Lewis, Washington was the victim of the mishap and Marty walked into the job as head cook for 120 men. After that it was overseas with the 95th AAA Gun Battalion where he continued serving up the battery's chow. Soon he found himself top enlisted man overseeing the cooking and serving in a consolidated mess hall at Mannheim, Germany. Aided by a staff of 60 cooks and bakers working on three shifts, he supervised the job of getting ready for 1,000 men. As time went by Marty eventually became food service instructor, a post he held for two years. After his tour of duty he decided to continue the career he'd started in the Army. Enrolling at the college in Ypsilanti last fall, Marty started on a three-year program aimed at a degree which he hopes will take him to the teaching staff at Chadsey high school in Detroit, reputed to be the only high school in the country that offers credit for courses in commercial cooking and baking. On the basis of his first semester's work the ex-GI has been awarded a state board scholarship, renewable every year. Present classes taken with the girls include Family Health, Family

**Tax Deductions For Car Listed**

The annual question of what automobile expenses are legitimate income tax deductions is answered for Michigan motorists this year in a six-page pamphlet available to the public at Automobile Club of Michigan's Plymouth office. The pamphlet, prepared by American Automobile Association, lists deductible expenses for cars for business purposes, can drivers using their cars for business, pleasure or a combination of the two according to L. B. Rice, Plymouth division manager. Taxpayers, who do not use their cars for business purposes, can deduct costs of license plates, operators' license fees, state and municipal taxes on automobiles, state gasoline taxes, interest on money borrowed on the security of an automobile, losses from fire, accident, storm or theft not compensated for by insurance or otherwise, and costs of repairing damages which do not result from a willful act of negligence. Cars used in trade, business or profession may command deduction for costs of gasoline, oil, repairs, garage rent, insurance and other necessary operation and upkeep expenses as well as for depreciation. Other aspects covered in the pamphlet include gains or losses on trade-ins, employees using their own cars for employers, car pools and using one's car to look after income-producing property.

# Michigan Bean Crop One of Largest Ever

Had any hearty Michigan bean soup lately or any of those good old-fashioned Michigan baked beans with salt pork and molasses that our mother and grandmothers took such pride in preparing? If you haven't there are a lot of bean growers in the state who hope you add Michigan bean dishes to the family menu this winter. The state's marketable navy (pea) bean crop last autumn

was 40 per cent larger than the small harvest of the previous year and nearly a quarter bigger than the average crops of the past 10 years. This is the report of the Federal-State Crop Reporting Service at Lansing, which indicates that 97 per cent of all the navy (pea) beans raised in the country in 1955 were raised here in Michigan, mostly in the "Thumb" area and the Saginaw valley.

The marketable crop totals 4,668,000 bags. One-hundred pound bags, that is, if moved by rail, the usual car loading is 800 such bags. And if we want to try and visualize how big a crop that is, try thinking of 5,710 box cars. Or 57 trainloads of 100 cars each. In the middle west we call them Michigan navy beans, but along the eastern seaboard they are called Michigan pea beans. Whichever you call them, they

are almost entirely of the Michigan variety that was propagated several years ago at Michigan State University to meet the exacting standards of the canning industry. It is the smallest navy or pea bean grown, and is preferred because it will not mush up or get soggy in being prepared for consumption. Michigan has strict standards for beans that are more stringent than Federal grade

# Your Washington Quiz

Q—Can you give me the dates of some of the state primaries this year?  
 A—The New Hampshire primary is March 13; Minnesota, March 20; Wisconsin, April 3; Illinois, April 10; Oregon, May 18; Florida, with two primary systems, first May 8, run-off May 29; California, June 5.  
 Q—What was the amount of the national production in 1955?  
 A—Department of Commerce says gross national production in 1955 was \$387 billion, a \$27 billion increase over 1954.  
 Q—Has the Declaration of Independence or the Constitution been removed from Washington, D. C., in the last 20 years?  
 A—Yes. For a period during World War II, both documents were stored in the bullion depository at Fort Knox, Kentucky. When the documents were moved into the National Archives Building in the Spring of 1952, each was placed over a vault construct-

ed of steel and reinforced concrete into which the documents can be lowered by electrically operated mechanism. Other machinery then closes over the vault a massive lid of armor plate. The vault is then fireproof, shockproof and bombproof.  
 Q—How old is the Federal Bureau of Investigation?  
 A—The FBI was created in 1908 upon an order of the then Attorney General Charles J. Bonaparte, J. Edgar Hoover first took office in 1924.  
 Q—Which national or visiting dignitaries, render a "12-gun" salute?  
 A—21-gun salute is rendered to the President of the United States, to an ex-president, chief magistrate or sovereign of a foreign country, or to members of a reigning royal family. The national anthem is played for the president, a march for an ex-president, and the national anthem of his or her country for others. The music is considered an inseparable part of the salute.

# Who's New in Plymouth

**ALONG WITH SPORTS.** Dick Hubert, 13-year-old guard on the junior high basketball team, finds time to keep up his music hobby. Listening to a trombone solo are Mr. and Mrs. H. V. Hubert with their other son, Bill, 16, a member of the varsity basketball team. Hubert was transferred from the Sandwich, Illinois branch of American Louisiana Pipeline company, to the firm's main office in Detroit where he is material supervisor. Moving to 866 Ross on October 21, the Huberts have liked their choice of Plymouth as a residence for the friendliness of its people, downtown merchants and opportunities within the community.

## Troop Honors Sixteen At Court of Awards

Receiving honors at the recent Court of Awards conducted by Troop 6 at Our Lady of Good Counsel school were the following 16 Girl Scouts who received a total of 44 proficiency badges: Christine Bartel, Della Bradley, Shelia Canine, Hollis Jean Faynes, Carol Hudson, Carolyn Heath, Kathleen Keller, Carol Konke, Nancy Richard, Lynda Robertson, Jeanne Schwartz, Gay

Shirey, Betty Taylor, Margaret Sue Terry, Susan Tichy and Barbara Troyer. Janet Graham was invested as a Scout at this meeting. She was formerly a member of the Girl Guides in Canada. Arrangements for the award ceremony, which was attended by Scout mothers, were made by Betty Taylor's patrol. Hollis Jean Haynes' patrol arranged for the refreshments.

## Veterans of Foreign Wars

On Tuesday, February 14, Chairman of Youth Activities, Jean Olson, and her committee held a party for the Underprivileged Children at our Post hall. The children enjoyed the celebration of St. Valentine's Day with ice cream, cake and games and favors.

Mary Jane Schwartz, Le May Smith, Alba Van Meter, Delores Olsaver and Hospital Chairman Beverly Brown wrapped candy packages to take to the children at Maybury sanitarium on Sunday, February 5. Arrangements were also made to take care of the repairs on the television sets the children have in their wards. This is the only form of recreation for many of the TB patients in the children's ward. Beverly would like to remind everyone of the next hospital trip on Sunday, March 4, to all the men's wards. She is still asking everyone to save their old toys and bring them to her so that she may distribute them to the children's ward at the next trip!

Auxiliary member, Loretta Korte, is in New Grace hospital for surgery. How about a card to Room 335 to cheer her on? We wish to make it clear to our readers that the Daisy Credit Union dinner in January was prepared and served entirely by our Auxiliary girls and their committees. It seems there was a misunderstanding as to who cooked and prepared the dinner held on that date.

Americanism Chairman Catherine Cline voted that the Auxiliary purchase an outdoor flag to be presented at a later date to the pupils at Starkweather School. We will also purchase three classroom flags for Truesdell School.

The Post wishes to remind everyone of the St. Patrick's Day dance on Saturday, March 17, at the Post hall. Hope you keep that date open and help us celebrate the wearing of the green! A Springtime Rummage sale will be on its way soon, so we urge you to start saving all your rummage now and when you do your spring cleaning. We can't make anything of these sales unless we have the merchandise and it is up to all of us to see that the sale is a success by providing any items which can be sold. Call President Loretta Young for pickup arrangements! Our next meeting will be on Tuesday, February 21. We urge your attendance! We remind you again to display your flag on Washington's birthday, February 22!

Two classes of people believe in voluntary control: the naive and the predatory.

**HAVE A CARE for Your HEART**

It is true that heart disease and deaths from heart disease are increasing. IT IS NOT true that nothing can be done about heart disease. Medical science has made, and is making, tremendous strides both in preventing heart disease and in prolonging the lives of people who suffer ailments of the heart. If you are worried about your heart—have a care for it. Consult your doctor without further delay. You will be better for having his advice and medication as soon as possible.

## Over 100 Students Rate High School Honor List

Following final examinations and distribution of marking period grades Plymouth high school announced that 122 students maintained a B or better average for the semester. Freshmen lead the honors with other classes trailing in respective order.

Seniors with a B or better average are John Bartz, Robert Baumgartner, Clare Bollinger, Dennis Bonnette, Mary Lou Fotee, James Gibson, Donald Gilum, David Grow, Virginia Hart, Lee Huber, Virginia Larkin, Linda Minock, Charles Moiso, Geraldine Mosher, Marilyn Paul, Barbara Reid, Barbara Smith, Stephen Veresh, and Janet Wickens.

Juniors maintaining the Honor Roll requirements are Judy Ash, Joan Becker, Danny Christensen, Judy Elliott, James Farmer, Marilyn Fry, Ann Goddard, Patricia Hawk, Fred Heidt, James Hawk, Barbara Johnson, Eileen Kelly, Robert Kennitz, Dolores Kubiak, Frederick Libbing, William Mant, Sandra Penny, Lura Puckett, Carolyn Ridley, Joan Salan, Ruth Eleanor Skaggs, Seneth Thompson and Charles Westover.

## Local Students Submit Artwork In Detroit Contest

In keeping with its practice since 1946, Plymouth high school sent entries to the Crowley Milner company and the Detroit News annual art contest. A variety of drawings made with charcoal, chalk and ink, along with a few oil paintings, were submitted.

The contest taking place at Crowley Milner, will be held during the period of February 20 through March 3. Entries will be shown on Saturday, March 3 and the contestants will have a chance to sell their paintings. Art students will be taken down on a bus February 23. Because of limited space only students with a B average or better will attend under school auspices.

Because of different training and age, the contest will be divided into three divisions. The first group is the junior high school grades 7, 8, and 9. The second division includes senior high, grades 10, 11 and 12, with less than 10 hours of art. Final division is senior high, grades 10, 11 and 12, with 10 or more hours of art.

Slides and pictures of the national contest were shown to art classes during the week of January 30, for basis of comparison. The students seeing the progress of other schools, could compare their own progress with that of others. In past contests, since Plymouth started entering, Plymouth high school has missed placing only once.

better average are Connie Beller, Donna Bish, Maxine Collins, Ann Cooper, Sandra Davis, Carol Ford, LaVerne Grady, Raymond Green, Jane Hardimon, Mary Harper, Judith Hinote, William Hubert, Ann Hulsing, Robert Isbister, Marianna Jensen, Robert Keller, Roger Kenner, John Logan, Elyen Main, Esther Puckett, Elizabeth Sarah, Martha Shoemaker, Michael Stickney, Cathy Thompson, Louvinia Tidwell, David Walasky, Richard Widmayer, Karl Williams and Elizabeth Worth.

Topping the Honor Roll averages are the following freshmen: Bette Argo, Kurt Atchinson, Lois Austin, Marlene Bassett, Florence Bolen, Claire Calahan, Patricia Chixby, Susan Dunn, Betsy Edgar, Cassandra Fisher, Diana Fotee, Joanne Gribble, Judy Henry, Terry Hoffman, Hale Huber, Kenneth Jacobus and William Jones.

Others are Joy Kalmbach, Claudia Kessler, JoAnn Killingworth, Carole Kissner, Karen Lent, Teddy Markowski, Wathena Miller, Henry Naasko, Joanne Nagy, Sandra Noll, Carole North, Joyce Aleson, Susan Overmiger, Karen Peterson, Virginia Rowland, Nora Sarah, and Robert Schultz.

Other freshmen include Allison Scott, Thomas Simmons, Richard Small, Ellen Smith, Franklin Smith, Karen Stevens, Rosemary Tallman, Yvonne Tapp, Judy Theobald, Ronald Turckett, James Urquhart, Mary Wesh, Robert Westover, Linda Williams, Janet Willoughby, Bruce Woodard, and Kathleen Yakley.

## School Gets \$20,131 Of Michigan Bell Taxes

The Plymouth school system received \$20,131 of \$8,286,848 paid to the state Primary School Fund by the Michigan Bell Telephone company in 1955 as the company remained the largest single contributor.

Robert D. Maurer, manager here for Michigan Bell, reported that the payment to the local public school system was based on a school census of 4,247, as compiled by the State Department of Public Instruction.

Schools throughout Wayne County, including the city of Plymouth, were allocated \$2,805,966 for 591,976 pupils.

The company, in common with railroads, Pullman, railway express, telegraph, and other telephone companies, pays a state property tax earmarked for the Primary Fund in lieu of other property taxes.

The 83-year-old towboat, Anna S. Cooper, built in 1882, still is hauling coal barges on the Tennessee River to steam plants at Watts Bar and Widows Creek in Tennessee.

## D.A.R. Names Five Seniors For Awards

The names of three high school seniors, from surrounding communities in addition to Miss Marilyn Paul and Miss Janice Owens, Plymouth and Northville representatives, were announced this week as candidates for the "Good Citizen" award presented each year by the Sarah Ann Cochrane chapter, Daughters of the American Revolution, Plymouth and Northville.

The award recipients are Miss Catherine Marshall, Bentley, Livonia; Miss Jean Ferrara, Garden City; and Miss Nancy Gunn of South Lyon. In the annual event, three good citizens are chosen by the senior girls in each high school, with determination of the winning candidate made by faculty members. Candidates are selected for their outstanding qualities of dependability, service, leadership and patriotism.

This year's five Good Citizens and their mothers will be honored Monday afternoon, February 20, at the DAR's 1 o'clock meeting in the home of Mrs. A. W. Hahn, 548 West Main street, Northville. Award pins will be presented by Mrs. Fraser Carmichael, Good Citizens chairman.

In addition to the award presentation, the DAR has planned a busy agenda for this meeting. Delegates will be elected for the state conference, March 15, 16 and 17, at the Hotel Hayes in Jackson when local Good Citizens will again be honored with those from other Michigan communities.

Also at Monday's meeting there will be an election of delegates for the national conference, April 20-25 in Washington, D. C.

A debate on the topic, "Should We Guarantee Higher Education through Grants to Colleges and Universities?" by students of Miss Florence Paanaoni, Northville high school speech and English teacher, will close the program agenda.

A tea and social hour will follow the meeting.

**No Kidding**  
A tourist had visited an Indian reservation to buy some curios, and was talking to an Indian chief. The tourist asked about the size of the Indian's family, and was amazed when the chief said that he had 14 children.

"Well," said the tourist, "with a family that large, don't you have an endless stream of squabbles and arguments?"

"Oh, no," the Indian replied. "We're just one big Hopi family."

## Cutler to Head Municipal Group

City Commissioner J. Rusing Cutler was elected president of the Michigan Municipal League's Wayne County Region III at a meeting of the group last Thursday held at the Warren Valley Golf club.

Livonia was host city for the meeting and its Mayor Elbert M. Harlom gave a brief welcome talk. Attending the meeting from Plymouth besides Cutler was City Manager Albert Glassford.

Nearly 100 Wayne County municipal officials attended the meeting at which debated problems involved the prevention and rise of urban slum areas water supply and sewage disposal problems.

It was stressed that prevention of slum areas can be furthered by sound health and housing

codes, a general master plan for community development, an analysis of neighborhoods, an administrative organization to coordinate and run the program, financial support for the program, rehousing of displaced families and community-wide citizen participation.

Albert Kunze of the Wayne County Road commission told about the county's \$50 million program to make more water available to communities served by the county system. He said that final details were not yet available.

## Grange Cleanings

Tonight is the night when Plymouth Grange or at least some of the members of it go to Webster hall to present the little comedy "The Wedding." We hope there will be a good crowd.

Mr. and Mrs. Roy Amrhien are enjoying the winter in Florida, have an apartment in a court where there are four other Michigan families.

Tomorrow evening we are ex-

pecting a good representation of our Plymouth Grange to go to Tecumseh to a School of Instruction for the benefit of the various officers but all members are welcome and urged to be present. The women of Tecumseh Grange will serve a lunch after the meeting.

On Friday evening of last week there was a pleasant informal meeting at the Grange

hall of the officers and committees of the Grange to plan and discuss our community project. The results will be made known at the March 1 meeting so it is very important that everyone should be there. Pot luck as usual.

A little further information regarding the visit to Webster Grange. We must take our own dishes, also sandwiches, cake or salad.

# Plymouth Avenges Previous Defeat With 58-48 Victory over Trenton

Plymouth's surprising varsity tankers took sweet revenge on Trenton last Friday by lacing a sound 58-48 defeat on the Trojans, thereby making amends for an earlier loss to the same ballclub.

It was the Rock's fourth league win against an identical number of setbacks and seemed to assure the locals of a better-than-even chance of closing their conference battling with at least a .500 finish.

Plymouth has two games remaining on the Suburban Six schedule, one at Redford Union tomorrow (a team the Rocks beat earlier) and a final contest here with cellar-dwelling Allen Park.

By virtue of the nod over Trenton, Plymouth made easier the job faced by league-leading Bentley, who defeated Belleville the same night. Redford Union stopped Allen Park in the third conference tilt Friday.

Therefore Bentley is threatened only by Redford Union in its race for final honors. Trenton

appears to be out of the picture with a 5-3 record. Bentley stands at 7-1 and Redford Union holds down second place with a 6-2 card.

The Rocks, hosts to the Trenton squad at the Plymouth gym, wound up the battle with four players in double figures in the scoring column. It was this balance of scoring that told the difference in scoring and gain Ken Calhoun paced his team with 15 points, while Tom Ferguson contributed 12, Dick Davidson added 11 and Bill Hubert listed 10. Jerry King's eight points aided in the cause.

Stepping out to an early 6-0 lead in the opening moments, Plymouth stayed in command most of the way. Despite a familiar fourth-period slump, which found the locals tallying only nine points, the Rocks still were able to exhibit enough poise to turn back the Trenton hopefuls.

In the opening quarter, the Rocks enjoyed one of their most profitable spurges, totaling 20 points against Trenton's 13 in the initial eight minutes of play. The locals continued to a 35-27 half-time lead and held a 49-40 third-stanza bulge.

Although Plymouth obviously did not come up to its earlier standards in the fourth frame, the nine points it did score were more than sufficient. Trenton at the same time was suffering from poor floor generalship and managed only eight points.

The fourth period turned into a scramble as both teams threw their offensive and defensive tactics to the winds and scampers haphazardly around the floor. Midway through the quarter, Plymouth's Davidson and Trenton's Banks were ejected by the officials for fighting. Banks at the time appeared to be the big threat facing the Rocks. He

had totaled 22 points on eight field goals and six free throws. Statistically Plymouth held another edge over Trenton. The Rocks cashed eight of 14 free throws and 27 of 58 field goals attempted. On the other hand Trenton was able to connect on only 14 of 23 charity tosses and 17 of 59 shots from the floor. The locals hit for 46 percent of their field goal tries. Trenton scored on only 29 percent.

Plymouth's coach, Charlie Ketterer, explained the victory acutely after the game: "We were able to overcome most of our mistakes that caused us to lose three other close ball games."

Among the mistakes that Plymouth was forced to make up were a total of 18 bad passes, violations and fumbles over the course of the battle. Trenton made only 12 such miscues. In bad passes alone the Rocks committed 11 while Trojans erred nine times:

**AFTER A SHAKY** start which found the Plymouth tankers losing two of their first three meets of the current season, the locals settled down and have since turned in five victories in their last six matches thereby gaining an overall record of six wins and three losses. Three swim team members who have greatly aided in this resurgence are pictured here with Swimming Coach John McFall. From left in the pool are Backstroke John Gregory and Freestylers Gary Wright and Bill Brandell.

# Tankers Rout Allen Park, 62-25, For Sixth Swim Victory of Season

The Plymouth varsity tankers strolled to their sixth victory of the current season last Thursday evening trouncing the Allen Park crew by a resounding 62-25 score in the local pool. The Rocks have lost only three meets.

Behind eight first place winners, the locals held a commanding lead throughout the entire meet as they smashed the Parkers' hopes in the initial four events by placing four first and three seconds to advance the score board to a 28-3 reading with less than half the meet gone.

The meet's initial event, the 50 yard freestyle, was by far the closest and most exciting one of the evening as the locals computed in their first tie of the current season. John Williams, Dennis Baker, and Bill Lumsden hit the finish line almost simultaneously with the time of 25.8. After short controversy, however, the judges reached a decision. Williams was awarded top slot honors as he finished a scant nose ahead of Baker and Lumsden who were given two points each for second.

Setting one of the Rock's two team records was Mike Todd who blasted the former 100 yard breaststroke mark with a first place time of 1:09.2. Picking up second and third were the Parkers' Bob Bud and Leo Willets respectively. Almost upsetting the rapid Bill Brandell in the 200 yard freestyle was Gary Wright who pushed the locals' captain into one of his closest

portions of play. Two nights later, he scored 19 more against Brader to take scoring honors for the week with 40. Tripp's Don Huebler posted 30 in two games to place second for the week's individual contributions.

League-leading Tripp thus far holds the offensive and defensive scoring marks compiled over the nearly-completed season. Tripp's cagers have tallied the highest game total (85 against Brader, January 17) and have limited their opponents to the least amount of points in one game (23 by Tait's, December 22). Tripp also boasts the player who holds the high individual scoring record of the current season (Bob Lulfs with 32 against Brader on January 5).

Tripp also has scored the most total points over the season (969) and limited their opponents to the fewest (622). Tait's has scored 742 and had 820 scored against it. Brader has totaled 707 with 893 scored against it and Bathey has tallied 676 and allowed opponents 759.

Other point-producers include: Brader's Ed Hock and Tripp's Burr Lanhues (each with 117); Tait's Bob Bruce (109); Tait's Ron Pagenkopf (107); Tripp's Don Huebler (99); Bathey's Bob Arlen and Bathey's Roger Bogenschultz (each with 90); Brader's Jerry Heaton (84); Tait's Russ Brown (62); Tripp's Jim Bloomhuff (58); Tripp's Bud Young (55); and Bathey's Neal Lanhues (31).

High single contribution last week in one game was Nedry's 21 points on eight field goals and five free throws against Bathey. Tuesday, February 7, Nedry hit for 17 in the first half but could add only four more in the final

# Local Girl Cracks Pool Swim Meet

Shirley Carter, the daughter of Mr. and Mrs. Ralph Carter, 295 Pacific, and a sophomore at Hillsdale college, set two pool records in a recent invitational swimming meet at Bay City Junior college. Shirley cracked the old mark in the 40-yard breaststroke with a 2:53 clocking and also notched a new record in the 40-yard freestyle with a 2:44 time. Shirley is a 1954 graduate of Plymouth high school.

# Tripp Recovers To Nip Bathey Upset Attempt

The Geo. Tripp cage squad staged a fourth-quarter recovery against Bathey Mfg. last Thursday evening to overcome a three-period scoring shortage and gain its fifteenth victory of the current men's recreation basketball season. Final score was 44-39.

The fired-up Bathey quintet pressed the league-leaders throughout the first three frames of action only to fall apart in the closing minutes, thereby allowing the Trippers to notch their uphill win. Earlier in the season, Bathey had managed to upset Tripp once and made at least one other spirited attempt to overthrow the conference champs.

Don Huebler, Tripp center, who only recently regained his stride, paced the way to the decision by contributing nine important points in the final stanza. Tripp tallied 15 points in the last frame as being held to only 29 in the opening three. Bathey scored only seven at the same time.

The game marked the end of the second from last week of regular scheduled action in the men's loop. Four more games remained, two of which were played Tuesday and the last two will be staged tonight.

Huebler's 14 points, all from close under the basket, paced the Tripp scoring. Duane Becker added 13 for the winners. Dwight Eckler's 19 points, 12 of which came in the first period, carried the scoring load for the hopeful Bathey five. Eckler's 12 points in the opening period shaped all the Bathey team could muster in the initial eight minutes. Dick Day contributed eight for the losers.

Other action in the men's league last week included: Tait's 45-38 decision over Brader; Tripp's 58-36 win over Brader; and Bathey's 52-43 nod over Tait's. Brader's two losses ran to three its losing skid, while Tripp's pair of victories stretched to five its win streak, clipped at ten by Bathey on January 19.

Tait's loss to Bathey also resulted in the fourth period when Dick Day pumped in 10 points in the final minutes for Bathey to break Tait's threat. Bathey had commanded most of the game on leads of 27-23 at the half and 36-32 at the end of the third period.

Day's 19 points were high for Bathey while teammate Eckler posted 17 to aid in the win. Bud Nedry's 21 points for Tait's were tops for the losers. Pat Robinson counted 10 more for Tait's.

But Tait's managed to earn a split in its two games last week by virtue of a later decision over Brader, 45-38. Nedry blasted in 19 points to lead Tait's to its victory, while Don McMurray's 15 were high for the losers.

Tait's dominated the battle with leads of four to eight points prior to the final count. Tait's led 13-9 at the end of the first frame, 24-17 at the half and 33-28 at the close of the third stanza.

Tripp's second victory of the week was its easy 58-26 handling of Brader behind Huebler's 17 points and Lulfs' 16. Jerry Heaton scored 15 for the losers. Tripp opened the match by racing to a 12-6 count and continued to widen the gap. Tripp led 26-15 at the half.

# RU Shadows Bentley Five In Cage Race

The Rocks shook up the Suburban Six league basketball standings last Friday night with a 58-48 win over the Trenton Trojans, who, previous to the defeat, were in the thick of the cage race for conference honors.

As a result Trenton sits despondently on the outside looking in.

Redford Union at the same time was continuing its close shadowing of leading Bentley. Redford Union turned back Allen Park, while Bentley ran over Belleville. So presently Bentley and Redford Union remain to decide the championship.

The standings:

Team	W	L
Bentley	7	1
Redford U.	6	2
Trenton	5	3
Plymouth	4	4
Belleville	1	7
Allen Park	1	7

# Recreation Scoring Race

With a 28-point lead over his nearest rival in the men's recreation basketball individual scoring race and only two games remaining on the regular schedule, Bob Lulfs, sharp-shooting forward for the Geo. Tripp cage squad, appears assured of capturing point-making honors this year.

Lulfs added 23 more points to his aggregate last week, thereby boosting his total to 225 in 15 contests for a 15.0 game scoring mark. Second behind Lulfs in the race for single honors is S. L. Brader's Don McMurray, who also listed 23 points last week. McMurray, a forward on the Northville quintet in the local league, has 197 points in 16 battles for a 12.3 average.

Close on the heels of McMurray and threatening to overhaul him is Tait's Bud Nedry who posted 40 additional counters in two games to raise his season mark to 186 in 13 tilts for a 14.3 game average.

Following in order behind these three leaders are: Bathey's Dick Day with 168, Tripp's Duane Becker with 155, Tripp's Mac Pierce with 149, Brader's Larry Brennan with 145, Tait's Pat Robinson with 136, Bathey's Dwight Eckler with 124 and Bathey's Bob Houghton with 120. These seven players, coupled with Lulfs, McMurray and Nedry, comprise the top ten scorers in the men's league.

Other point-producers include: Brader's Ed Hock and Tripp's Burr Lanhues (each with 117); Tait's Bob Bruce (109); Tait's Ron Pagenkopf (107); Tripp's Don Huebler (99); Bathey's Bob Arlen and Bathey's Roger Bogenschultz (each with 90); Brader's Jerry Heaton (84); Tait's Russ Brown (62); Tripp's Jim Bloomhuff (58); Tripp's Bud Young (55); and Bathey's Neal Lanhues (31).

High single contribution last week in one game was Nedry's 21 points on eight field goals and five free throws against Bathey. Tuesday, February 7, Nedry hit for 17 in the first half but could add only four more in the final

**New Rifle Club Officers Elected**

Ernest Henry was elected president of the Plymouth Gun club when the group held their election of officers recently. The club is celebrating its 19th year of activity and affiliation with the National Rifle association.

Also elected to office were:

The Athletic committee of St. Michael's Men's club in cooperation with Altar society has announced a cooking and sewing class which will begin within the next two weeks.

Due to the limitations of facilities in the school the first class will be reserved for the upper elementary girls who might not have a future opportunity to participate in such a course. Classes will be held mornings for girls on afternoon school schedules, and afternoons for those on morning schedules. Class hours will be announced by the principal.

From all indications every girl hopes to participate, and possibly in the near future all mothers of the girls can just take a vacation and let daughter take over the cooking.

If you happen to see a man in the vicinity of Blackburn and Elmira, walking with his head in the clouds just nod and smile. He is Bob Durivage and his wife, Kay, presented him with his first car on Friday at Mr. Carmel hospital, Detroit. The new little "Robert" has five sisters. Congratulations, Kay and Bob.

Mrs. Earl M. O'Hara was general chairman of the garden workshop classes which took place last Tuesday and Wednesday in the Civic room of the First Federal Bank building, Sheldon center. Others from Rosedale Gardens that were on the committee to make the affair a success were Mrs. John Riggs, Mrs. Walter Reeves, and Mrs. Harold Higgins.

The Junior High Westminster fellowship of the Rosedale Gardens Presbyterian church held a square dance in the church hall on Friday evening, February 10, from 7:30 to 10:00 p.m. Members were encouraged to invite guests and all had a wonderful time and are looking forward to their next activity.

It seems that those who read this column become more reluctant every week to call me and report any items of news such as births, deaths, people moving in or out of the Gardens, parties or various other activities.

Don't be timid about calling if you are having a party or know of any item of news, because people are genuinely interested and not just curious about the numerous activities that take place every week. Sometimes it is just a little note of someone who is sick and would welcome a card.

My phone number is GA 1-5847 and I would certainly be happy to hear from you.

Initiation of the new members of the Passage-Gayde auxiliary will be held on Thursday evening, February 23, at 8 p.m. at the Veterans Community center. All members will be contacted. Refreshments will be served following the program. Maxine Kunz is the initiation chairman.

We are glad to hear that Phyllis Miller is on the mend again. Sorry to hear that Gertrude Simonetti is on the sick list but is much better now.

Our Tiny Tot membership of the Auxiliary is growing and we now have three enrolled.

Everyone is reminded that the Auxiliary is still collecting all types of gift cards for the Retarded Children at the hospital in Lapeer. All you have to do is call Melva Gardner at 1989-R or Fern Burleson at 1068-R for further information or if you have cards to be picked up.

We wish to make a correction on the date of the Michigan Women's National Security Council luncheon. The correct date is February 17 instead of February 12 as listed.

The post held their regular bi-monthly business meeting last evening at the Veterans Community center.

Post and Auxiliary Americanism Chairman Barney Kot and Fern Burleson remind all to fly the flag on February 22, Washington's Birthday.

Principle must be above expediency if our political system is to endure.

# Sorgum Satisfied Sweet Tooth in Early Plymouth

(EDITOR'S NOTE: This is fourth in a series of articles about early industry in Plymouth written by a member of the Plymouth Historical Society.)

## THE SORGUM MILL

In any appraisal of Plymouth's early enterprises one should not miss mention of the sorgum mill. Before the coming of railroad transportation to Plymouth and even for a long time afterward, freight charges were thought prohibitive on any imported items for family use—such as "blackstrap" from the West Indies.

But the craving for sweets somehow had to be satisfied. So farmers began growing sorgum cane, the juice from which, when properly processed, became, as many still believe, a molasses superior for homemade cookies, gingerbread, candy etc.

In fact, as recently as 25 years ago a nearby revival of sorgum molasses was attempted. But evidently competition by the supermarket bottled variety was too stiff and the business folded.

Not far from Plymouth, somewhere in the vicinity of Newburg, a Mr. Dean operated a mill by the Rouge stream in which he made a superior sorgum molasses as well as apple butter. To this mill nearby farmers brought their wagonloads of cane and their own barrels.

Dean made the molasses and filled their barrels with the year's supply of this essential cooking ingredient. The cane was squeezed between rollers and the resulting juice boiled down to a beautiful light amber syrup. Many of our oldsters will testify that good sorgum molasses was an often preferred substitute for maple syrup to slather on the early morning buckwheat cakes. Fortified by eating 10 or a dozen, a strong healthy boy could buck into stove lengths quite a sizeable pile of firewood before time to leave for school.

This mill, but not its memory was long ago entirely obliterated. It is doubtful if many still living could tell exactly where it stood.

## Why Leap Year Is Celebrated

While some folks hold to the theory that leap year was created to give unwed women a chance at "popping the question," that's not exactly the scientific explanation.

Part of the reason that we observe leap year this February is because that it is evenly divisible by four, according to University of Michigan astronomer Hazel M. Losh.

The earth's rotation and revolution cycles are not evenly coordinated, which complicated ancient calendar making. The Romans tried to straighten things out by adding an extra day to every year whose number was evenly divisible by four. By 1582 they had allowed three too many leap years for every four centuries, Professor Losh notes.

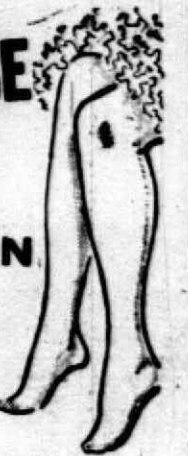

Pope Gregory XIII then took a hand to correct the situation. He decided that this division by four system should be kept but that century years should only be leap years when divisible by 400. This cut down the number of extra days being added every several years.

"There's still inaccuracy in the Gregorian system which we use today, but it only amounts to about 26 seconds a year. It will be three thousand years before our calendar and the Sun will be out of step by as much as one day," Professor Losh says. If we had continued to use the Roman calendar we'd now be about 16 days out of step.

The loss of over 4,000 seagoing ships, together exceeding 20 million gross registered tons, is recorded for World War II, according to a new study of the Twentieth Century Fund.

## THE COOPERSHOP

As Plymouth's industrial economy began to produce surpluses of such items as flour, potatoes, apples and the like, the problem of packaging for shipment had to be faced. The standard package of that day was not the sanitary paper carton nor the half peck mesh sack found on the supermarket shelves, but the wooden barrel.

Standing at the bend of the road where Mill street turns to rush down-hill into the Plymouth to Northville road was the cooper's shop. This was not a waterpowered industry but a handicraft assembly shop where the staves, heads and hoops were assembled from parts fabricated elsewhere.

The big barnlike, weather-beaten building was at times seething with feverish activity as the skilled workmen soaked and shaped the stock into all sorts of barrels: big ones, little ones, oak barrels and the ones made from softer wood. Oak barrels were usually for liquors, the others for flour, potatoes, apples, etc.

Great V-shaped racks mounted on long reached wagons constantly came to haul away the finished product much the same as our modern new car transports or haulaways take care of Detroit's automobile deliveries. These barrel wagons traveled not so far nor as rapidly as their modern prototype which roar with their loads of new cars over the highways.

Not a vestige of this cooper-smith building remains.

## New Books at Dunning Library

Several potential best sellers, based on their present popularity, were received by Dunning library this week in its latest shipment of new books.

The newcomers are "Red Shoes for Nancy" by Marguerite Hamilton, concerning a mother's sacrifice and faith in tragedy; E. M. Granger Bennett's historical novel about settlement of New France and the capture of Quebec, "Land For Their Inheritance" together with "Inspiring Messages for Daily Living" by Norman Vincent Peale.

Also added were Charlotte K. Stratton's "Rug Hooking Made Easy," "How to Earn an Income while Retired" by Norman D. Ford, a copy of Helen H. Jackson's classic novel on California, "Ramona"; "The Interpretation of Financial Statements" by Graham and McGolrick.

The new shipment also brought William R. Lundgren's story of test pilot Major Charles E. Yeager, "Across the High Frontier," "New Found World," discovery and exploration of North America by Harold Lamb; A. A. Knopf's "Secrets of Taking Good Pictures," and "How to Care for Your Cat" by Deutsch and McCoy.

Others included were the second edition of Arthur B. Moehlman's "School Administration," "The Heritage of the Past" earliest times to the close of the Middle Ages, by Stewart C. Easton; Frederick J. Ludwig's "Youth

and the Law," published through Youth Counsel Bureau;

Concluding the shipment of new books were "Me and My Russian Wife" by journalist Eddy Gilmore, Frischauer and Jackson's World War II story, "The Altmark Affair," concerning the supply ship to the Nazis' an illustrated "Automobile Repair Manual," Robert Gibbing's "Trumpets from Montparnasse," containing engravings and reproductions of paintings by the author in addition to history, art and legends of the region.

## License Holders Heard

Two Plymouth area liquor license holders have been heard on various law infractions charged by the Michigan Liquor Control commission, it was announced this week by the commission.

Owners of the Rustic Tavern, 9779 Territorial road, were fined \$150 and their license suspended seven days for "selling to a minor and minor consuming." The suspension was waived.

Also waived was a \$100 fine against the Plymouth Country club, 8768 North Territorial road. The club was charged with selling to non-members.

## No Quick Answer to Farm Problems, County Agent Tells Chamber Group

"I personally think that there is no quick answer to the farm problem," it was asserted last Saturday morning by P. R. Biebersheimer, Wayne county agricultural agent, during a discussion by the State and National Affairs committee of the Chamber of Commerce.

With several farmers as guests, the group listened to Biebersheimer state that at no time has the nation been so prosperous and agriculture so depressed.

In outlining the history of the present farm crises, the speaker pointed out that agriculture is continually producing a surplus. The farmer knows that the only way to get more money to meet the higher cost of living is to produce more. As a result, he has a big surplus of wheat, corn, rice, cotton, dairy products, pork, peanuts and other products.

Man today is not eating any more than he used to, Biebersheimer declared. In fact, he does less physical work and eats less. Farmers since World War II have become mechanized and the yield per acre is much more.

In citing examples of Michigan farmers, the speaker said that Michigan State university had the account books of 70 farmers and that their net income has dropped from \$1,700 in 1950 to \$700 a year in 1955.

The soil bank plan proposed by the administration was also discussed. Biebersheimer said that he had his "doubt" about its feasibility. He did have an encouraging belief, however, that within five years the consumption should catch up to the food production. Finding a way to keep farmers "above water" during those years presents the problem.

Robert Waldecker, Canton township farmer and a member of the Farm Bureau (not Farmers Union as reported to The mail last week), said that he believed that the big farmer would receive the most benefit from soil bank. He added that he needs to replace farm machinery but that he could not possibly get his investment back at present conditions.

Waldecker said that the farm economy usually runs two years ahead of others and that the entire nation will feel a depression unless the farmer can be aided.

The discussion also touched on the issue of subsidies. Waldecker and Edward Hart, secretary of the Chamber, both noted that while there is criticism about farm subsidies, this amount is but a "drop in a bucket" compared with the "billions of dollars spent for subsidizing industry, airlines and the merchant marine and railroads."

There is about one year of surplus wheat and two-thirds of a year of surplus corn, Biebersheimer said during the discussion period. He said that the farmer would be best off if all surpluses were destroyed, but that destroying food always seems sacrilegious to him.

The State & National Affairs committee meets every other Saturday at the Mayflower hotel, starting at 9:30 a.m. The public is invited.

It's with a great deal of reluctance we prepare to draw our California visit to a close. There are many people we haven't seen, and, of course, in a few short weeks one couldn't begin to visit all of the places of interest in this great state.

We have failed to mention, however, nice notes we received from Mr. and Mrs. Vincent Forshee who asked us to surely remember them to all of their friends back home. Another from Dr. and Mrs. Lauren Busby, former Penniman avenue residents, who left Michigan some 10 years ago. Dr. Busby will be remembered as the senior physician on the staff at Maybury Sanatorium at Northville, who left to accept the position as Director of Tuberculosis Control with the Santa Barbara Health Department. He is still with the department, and now divides his time with the Crippled Children's Service Program. Two of the Busby daughters are married. Rosamund, to the Rector of St. John's Episcopal Church in San Bernardino, and Sylvia, who now resides in Santa Barbara. Their youngest daughter, Diana, is a junior in high school. "Although we have been gone from Plymouth for ten years we still subscribe to our 'home town' newspaper and still miss the many friends we had there," Dr. Busby stated.

Remember when Plymouth sent a child speller, winner in the Detroit News state spelling contest, to the finals in Washington to represent Michigan? Well, some of you certainly do, and I had a nice note from her, too... the former Doris Shinn, now Mrs. Eldridge Smalley of Pleasant Hill, California. Mrs. Smalley reminded us that not all newcomers to California move to the southern part of the state. They moved to the San Francisco area which, they say, is really much more lovely and a much more pleasant place to live. Her husband is plant manager at the Kaiser Aircraft in San Leandro and they have a 9-year-old son, David. She closed her note by saying they had planned a Pasadena trip right after Christmas but "Holiday Check-book Blues" interfered, and they were sorry not to be able to say a warm hello to the Plymouthites that gathered at our little egg-nog party.

Last, but not least, of our former Plymouthites on our list were the Ray Williams. Ray, formerly with the Plymouth United Savings Bank and a most active worker in Kiwanis and the Chamber of Commerce is now manager of the Lompoc Branch of the Security-First National Bank of Los Angeles and they are now making their home in Lompoc. "We thoroughly enjoy California and expect to spend the rest of our lives in the Golden state. Oh, yes, we may come back for a visit in Michigan but it will be brief. We left Plymouth in 1951, and it really doesn't seem that long, but you see we keep in mighty good touch with the folks back there through the Plymouth Mail which we read religiously when it arrives," he added.

This was my ninth trip to California and after seeing it all over again, loafing ten days in one of my relative's beautiful beach houses at La Jolla, and being entertained royally by friends and relatives all over the state... I hate to say this... but I'll still take Florida for a winter's vacation. Perhaps, to be more fair, I should state California, although trying to develop its winter vacation activity, is still a summer vacation state. Only the hardest individuals dip into the heated pools in the winter here, while everyone soaks up the sea in good old Florida sun... winter or summer.

The traffic jams you encounter here are terrible, and due to the terrific influx of new residents newly opened freeways are over-taxed when the first traffic flows upon them. The building which you see everywhere is absolutely amazing, and the litter strewn along the highways is a sickening sight. The state, however, recently posted a million roadside signs saying a hundred dollar fine for littering the roadside, but in our entire travels we couldn't find one place provided to dispose of your trash. In fact, we stopped where a couple of highway trucks were picking up rubbish and asked if we might throw a sack of trash we had in our car on the truck, and were told "no" because if we were seen doing it all other motorists might want to do so, too... well... friends, that's what I mean about California... they're going places all right, but they don't know where. There's an unreality or something I feel everytime I'm here, and though you know in Florida it's there you just don't sense it, for some reason, like you do out here.

Last week we spent an interesting day in Coachella and Imperial Valleys... richest fruit and vegetable producing areas in the United States. Probably the most interesting sight to us were the miles and miles of date groves and since we knew little about the date, its cultivation and its uses, we spent a half a day learning "the Romance and Sex Life of the Date"... very interesting and we'll pass it on to you later.

City has No Choice in \$600,000 Sewer Project

It's a cinch that before anyone pays out \$600-plus for anything, they're going to make sure that they are getting their money's worth. Such is the case of the hundreds of people living in the southern portion of Plymouth for whose homes the city is proposing a sanitary sewer system to replace their septic tanks.

Opposition to the city commission's \$600,000 plan has been heard from some citizens in the affected area. Their grievance could be expected. Why should they spend money for a new sewer when they will get no more service than they can now have with septic tanks? This question will probably not be confined to the city. Many present homes in Plymouth and Canton townships will be in a sanitary sewer area within the year and they too will be required to tie into the sewer and help pay for it.

Should a person be required to pay for something he doesn't need? Is it legal?

The Wayne County Department of Health gave its answers to these questions last week. They informed city hall that Plymouth not only needs sewers in the septic tank area, but that the city will be taken to court if it doesn't proceed with the proposed plans. It might be noted that health officials usually don't back down when they once decide on something. Even right here in Plymouth, not one brick of the proposed junior high or the Sheldon road elementary school has been laid because of a health department demand that sewer facilities first be assured.

Not being sanitary engineers, we have no reason to question the health department's claim that Tonquish creek is being contaminated and that as time goes on, "an extensive health hazard will be created." Health departments are entrusted by the public to maintain health conditions within their jurisdiction and as long as the dreaded epidemics of years ago are prevented, we are not ones to dispute their advice.

The city's plan to construct sewers and the health department's ultimatum should not have surprised anyone. A person investing \$10,000 to \$20,000 in a home located in a populated area without sewers—especially

within the city limits—certainly should realize that sanitary sewers are inevitable. They also should know that sewers cost money and that no one but the property owner is going to pay for them.

There are undoubtedly hundreds of families who were discouraged from building or purchasing homes in the south side of the city because they realized that sewers and other improvements would be an added expense in future years.

According to the health department, those "future years" are here. They recommend that no more permits be issued for more subdivisions. It is no secret that builders are contemplating subdivisions and commercial buildings for vacant areas in the south and western sections of the city. It would be foolish to build hundreds of more homes without making permanent sewer connections. It would also be foolish to lay expensive sewers to these new areas and not include the present septic tank area now—rather than five or 10 years from now. Nothing can possibly be gained by waiting.

The health department is now holding a club over the city's head by politely requesting that the sewers be laid or else... We don't blame the health department. It is shameful that city officials have stalled on this sewer construction these many years. New residents from other cities are appalled to learn that Plymouth, so progressive in other ways, has nothing but septic tanks for a third of its homes.

Unless someone can advance a better or fairer plan at this time, we can see no justification in stalling any longer. Paying for the sewer will not be easy for many. But those living in other parts of the city payed for theirs in one way or another. There is little use in having sanitary sewers in two thirds of the city when the other third has none. Disease knows no boundaries. If the health or life of one small child in our community is ever jeopardized because we now fail to install proper sanitary sewers, that \$600,000 can seem mighty small. Prevention of even this one case of disease is the reason why the property owner can't afford his share of the project.

Money Becomes the Least of Legislators' Problems

Our 1956 legislature, bothered in other years by a lack of money, now faces problems created by prosperity before the scheduled April 6 windup.

The problems involve the record budget expected for 1956-57 and unnumbered dozens of special issues.

For the first time in years, lawmakers have only to work out the details of the budget to assure a surplus for next year. Gov. Williams has asked for items totaling \$60,000,000 more than this year.

Williams said this can be done without new taxes by using a \$25,000,000 surplus. Republicans, taking no chances, want to snip \$29,000,000 out of his requests to make sure.

"We can do this and still be increasing the budget for all vital services," said Senator Elmer R. Porter (R-Blissfield).

The major target in the request-cutting process will be a \$42,000,000 item for capital outlay—major building projects. Most of it is earmarked for education.

In past years, the technique has been to release only planning money for the projects, paying the actual building costs on the installment plan over the next few years.

Prosperity for the individual has created another problem among welfare recipients.

As the costs of living increase pace with bigger paychecks, the standardized sum going to those receiving welfare allowances shrinks in its buying power.

Legislators have been asked this year to increase the maximum old age assistance allowance from \$70 to \$80 and the maximum for recipients receiving medical care from \$80 to \$90. "The increases are necessary because of the higher costs of rent and fuel," said Welfare Director W. J. Maxey.

Financial experts said that the increases in old age assistance are generally followed by boosts in all other categories—aid to dependent children, the blind and disabled.

Along the same line, Democrats are in for increases in workmen's and unemployment compensation.

Republicans are expected to resist any major upgrading of benefits because, as majority leaders say, Michigan has one of the best compensation programs in the country.

Political Pots are bubbling early this year.

For more than a week, Republican and Democratic spokesmen were firing at each other over the same issue, the first round robin politicking of the season.

It all started when Republican State Chairman John Feikens announced a number of major issues which he said party leaders would pounce on during the campaign.

They include charges that union members, some Republican, were forced to contribute to Democratic campaigns, that the Williams' administration was guilty of favoritism in the collapse of the license-suspension case against Atty. Gen. Thomas M. Kavanagh (four tickets), the optometry board scandal and other issues.

Democratic State Chairman Neil J. Stables snapped back repeating the Talbot "conflict of interest" case in the Eisenhower administration.

He said Williams straightened out the optometry board business

with dispatch, that unions are only "educating their members politically" and issued a flat denial that Kavanagh was coded.

Capitol veterans saw the whole episode as a refreshing indication that neither party was willing to

100% Retirement Unnecessary in Business

Babson Park, Massachusetts. With all this talk today about President Eisenhower retiring from the Presidency I grasp the opportunity to discuss the general problem of retirement as applicable to officials and to wage earners of corporations.

COMPULSORY RETIREMENT PLANS

Probably a compulsory retirement plan is wise for most business organizations; at least, so far as it applies to the specific position which the man holds. This, however, should not necessarily mean that he would leave the employ of the company. The present custom of demoting active Presidents to inactive Chairmen of the Board might be applied to other officers and even foremen. There should be some happy medium between dropping an employee entirely and thereby losing the benefit of his years of experience, and continuing him with the business in some capacity.

Although age may not be a good yardstick, yet it is one measure of a person's energy. I forecast the time when accountants will insist that their annual audits show the age of all officers and important foremen, and probably "the age of the directors. Retirement, however, should be decided from many standpoints. Age is one definite factor.

CONSIDER CHARACTER OF WORK

Another important consideration is the character of work which an executive should do after he is sixty-five or seventy years of age. I seriously question whether it is advisable for such a man to be kept in a position requiring energy or important decisions. There are many other phases of work that he could do excellently, such as serving as

rest on its haunches, waiting for November.

If anything, Republicans were slightly more energetic than two years ago. Democrats have maintained their pace.

Major issues this year in the legislature on the campaign trails generally will be identical,

the variations involving personalities. They will be:

Highways (freeroads versus turnpike), education, mental health, highway safety, higher benefits for the unemployed or handicapped, and others.

"The even-year fever is upon us again," said one House member.

employment manager, or in public relations. These are positions which require ability that can be secured only by experience.

Therefore, I appeal for the practice of changing a man's work after he reaches the retirement age, but not necessarily making him retire from the company. This especially applies today when surgery and medicine have overcome many of the effects of age. The study of old age has already become a science, known as Gerontology. Two of the best authorities are Dwight S. Saragat of the Consolidated Edison Company of New York City, and Prof. Ward C. Halstead of Chicago University.

Why should "compulsory retirement" require 100% retirement? A man might go on half time after he reaches sixty-five or seventy. It seems wrong, from both the individual's and the company's standpoint, to make him retire altogether. It certainly should be possible to have one job continued by two men, both of whom would be acquainted with the work.

IMPORTANCE OF YOUTH

Perhaps too much consideration has been given to a "retirement age" and too little to a "promotion age." If a person is to be retired at a certain age, it seems only reasonable that he should have been promoted at a certain age. An old saying is—"It's a poor rule which does not work both ways." I consider that this suggestion is very important. Youth is very valuable to a business. We should learn to respect the suggestions of younger people.

The growth of most businesses is due to the influence of youth within the business. As people get older, their judgement is influenced by a natural increased conservatism and timidity. It is necessary that every automobile have brakes; but it is important

that these brakes be adjusted so that they "wear" only when the brakes are intended to be on.

BEWARE OF INVESTING AFTER RETIREMENT

In closing this column, let me call to your attention two dangerous temptations which face all persons who retire:

(1) A man who has made a success in his regular business too often thinks he can make a success in any business. This is a great mistake. Therefore, such a man should never start a new business and, if possible, should avoid taking a position in any business very different from the one to which he has given his life.

(2) After a person retires from business "itchy" for something to do, he may be offered a position which looks attractive, but has a "hook" in the bait. This hook is that he must invest some money in the enterprise. In three cases out of four, such an investment is very dangerous to make and the money is lost. Finally, do not let anyone get money from you by flattery and telling you how smart you are. Vanity and pride are the two most expensive luxuries.

INCOME TAX FACTS No. 1 How to Save on Your Income Tax

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Accountants and the Michigan Society of Certified Public Accountants.)

The eve of April 15 will see a mad scramble in many households to put together the necessary facts and figures for the federal income tax returns due on that date. (April 15 falls on a Sunday this year, making April 16 the deadline.)

The last minute rush produces not only long lines at Internal Revenue Service offices, but also many careless mistakes by taxpayers.

Most of the errors are very simple. For example, about one million returns are filed every year with signatures missing. (This includes joint returns with only one signature and individual returns with no signature at all.)

Little slips in arithmetic last year resulted in overpayments by taxpayers of \$18,000,000. Taxpayers got back these overpayments eventually, after the government discovered the mistakes, but the taxpayer cannot rely on the government to save him from all his errors.

The mistakes of arithmetic favoring the taxpayer were even larger—perhaps not entirely by coincidence. All returns are checked, and when an underpayment is discovered the government not only collects the difference, but also charges interest.

Opportunities Overlooked Apart from obvious mistakes, many taxpayers overlook opportunities to claim exemptions and deductions, and other ways to reduce their tax.

In order to help you avoid such pitfalls, this newspaper is publishing a series of articles prepared with the help of the national and state organizations of certified public accountants. These articles—if you save them and use them along with the official instructions that come with your tax forms—may save you money.

Your first step is to consider whether you should file at all, and then what kind of a return to file. For income tax purposes you are

not required to file a return if your gross income in 1955 was less than \$500, or if you are 65 or older and had less than \$1,200 gross income. But if you had income from self-employment of \$400 or more, the return must be filed for social security tax purposes.

Don't forget that tax on salary or wages may have been withheld during the year by your employer, even if your income was less than \$600, and the only way to get it back is to file a tax return.

Advantage of Joint Returns. A common mistake is the filing of a separate return by a wife who had a small income. If the wife files a separate return, she is not permitted to file another return jointly with her husband, nor is her husband allowed to claim an exemption for the wife on his separate return.

Most married couples will save money by filing a joint return, as this "splits" their income to put them in the same bracket as though each of them had received half the total income.

There are unusual cases, however, such as those involving capital losses, in which separate returns might result in a saving. If this is a possibility, it is best to figure both jointly and separately before deciding which way to file.

The instructions that come with your tax forms give further information. Help is also available from the Internal Revenue Service, which urges you to consult a properly qualified advisor if you need outside assistance.

★ THINKING OUT LOUD ★

One question, sometimes controversial, sometimes personal is asked each week by The Mail of four pedestrians along Plymouth's downtown streets. This week's guests are "thinking out loud" on the question:

"You often hear adults say that the younger generation is much more wild than children were in their day. Do you believe that this is true?"

JEANETTE ADAMS, 8955 Corrine (junior): "I think that we have more activities now. But I know of a case of an older person who hopped a train to Texas when he was young. So I think that they were about the same."

PAT ROEDDING, 675 Sunset (junior): "I think so. Cars weren't as common in those days. Now we have the hot rollers and kids get around more. I believe we have more things to do now too."

JEANETTE ALSBRO, 999 Penniman (soph): "I would say that we run around more at night than the adults did. There weren't as many dances or athletic events then. More kids then couldn't drive cars around."

DENNIS BONNETTE, 673 Wing (senior): "Probably a lot of people forget about the things they did when they were younger. They probably had the same existence when they were our age but feel now that they can be better parents if they can say that this isn't the way they acted."

From where I sit... by Joe Marsh. She Knew It All The Time. Chances are, long ago your grandma knew how to keep you from catching cold. Mine did. "Stay out of drafts," she'd warn. "Bundle up. Don't get wet." Then, maybe, when you grew up you found that the old lady's theories were considered old fashioned. Germs were the thing—and the way to avoid a cold was to avoid infection by somebody who already had one. Now I read where scientists aren't so sure. Germs carry a cold, of course, but they now believe something else "sets it off"—something like drafts, wet feet or going without your muffler. Grandma, take a bow! From where I sit, there's liable to be sound reasoning behind the old customs people believe in. "Early to bed, early to rise," for instance—or the practice of drinking hot milk or a glass of beer at bedtime. I'm not saying you ought to hold with these beliefs yourself... but you'd better get the facts before giving them the "chill." Joe Marsh

### Here's Unique Dessert Treat!

If you're on the lookout for a new and different dessert recipe, Mrs. Robert Brown of 9090 South Main can recommend a real treat. She gives us this week her recipe for "Funny Cake," a unique, dish that's half cake, half pie. This tempting dessert has a golden nut topping, covering a cake which rests on a butter-scootch layer next to its pastry crust.

Procedure for concocting the favorite recipe is given below:

- FUNNY CAKE**
- Butterscotch Sauce:  
 1/4 cup butter  
 1/2 cup brown sugar  
 2 tablespoons light corn syrup  
 1/2 teaspoon vanilla
- Combine butter, sugar and syrup in saucepan, cook and stir over low heat until mixture comes to a boil. Add 3 tablespoons of water and bring again to a boil. Boil 1 to 2 minutes. Remove from heat. Add vanilla.
- Cake:  
 1 1/2 cups cake flour  
 1 teaspoon baking powder  
 1/2 teaspoon of salt  
 3/4 cup sugar  
 1/4 cup shortening  
 1/2 cup milk  
 1 teaspoon vanilla  
 1 egg, unbeat
- 3 tablespoons chopped nuts
- Have ingredients at room temperature. Sift flour once before measuring. Sift together flour, baking powder, salt and sugar. Place shortening in bowl, add dry ingredients, milk and vanilla. Beat 2 minutes. Add egg, beat 1 minute. Pour batter into pastry-lined pie plate. Pour lukewarm sauce gently over batter. Sprinkle with nuts. Bake 350 degrees, 50-55 minutes. Serve with whipped cream or ice cream.
- Butterscotch will settle underneath cake next to pastry.

Ready to sample "Funny Cake," favorite in the Robert Brown household on South Main, is three-year-old Randy, as his mother serves a freshly-baked portion of the dessert.

## Tea, Tours, Panel Discussion Highlight Madonna Open House

An open house for high school senior and junior girls and their parents will be held at Madonna college Sunday, February 19. High school girls planning a college education are cordially invited to see Madonna and to hear about the opportunities for a liberal education and professional training offered by the college. The open house is scheduled from 2 to 5 p.m. It will begin with an auditorium program which will include a panel by Madonna students on the general academic divisions of study at the college. Following will be a tea for all present and a tour of the building.

Madonna college is a four-year liberal arts college for women conducted by the Felician Sisters. It is accredited by the Michigan Commission on College Accreditation. Major fields of study include English, art, music, voice, medical technology, chemistry, biology, mathematics, business, history, home economics, sociology, and minors in French, Spanish and journalism.

The college also has a strong department in Teacher Education which prepares students for either elementary or secondary teaching, in public or parochial schools. Madonna is one of the first colleges to have introduced the teaching of theology according to the scholastic method of St. Thomas Aquinas in place of the former courses in dogmatic religion.

The college is located at 36800 Schoolcraft between Newburg and Levan roads. The main open house program will take place in De Sales auditorium beneath the campus chapel.

Mr. and Mrs. Grant Camphausen of Joy road entertained at dinner, Friday evening, Mr. and Mrs. William Downing and their son, Tech. Sgt. Russell Downing, USMC and wife, who are visiting his parents before leaving for Cherry Point, North Carolina, where he will be stationed after spending the past sixteen months in Japan. Sgt. Downing has been in the service for twelve years.

Mr. and Mrs. William Stokes of Beck road entertained over the week-end; her sister, Mrs. Richard Nobel, who with her husband has spent the past two years in Puerto Rico, where he was in the army. They will now be stationed at Fort Lewis, Washington.

## V. F. W., Legion Sponsor Annual Essay Contest

The V. F. W. and American Legion Auxiliaries are sponsoring their annual essay contests, open to Plymouth junior and senior high school students, according to an announcement made in the high school last week.

"The Lamp and Our Doorway - The Statue of Liberty," is the title for the annual American Legion contest, to be written in 500 words or less. Awards for junior and senior divisions are as follows: Local awards (first) \$18; (second) \$2; district award (first) \$5; department (first) \$50; (second) \$25; (third) \$15; national awards to be announced later.

Essays will be judged on choice of subject matter, organization, and correct usage. Deadline for entries is March 15.

Title for the V. F. W. Auxiliary contest is "America - Beacon of Hope." The contest, which is for senior high students only, is to be written in not more than 1,000 words. The awards are as follows: local (first) \$10; (second) \$5; (third) bronze medal; state (first) silver medal, (second) silver medal; national (first) \$100-\$500, (second) \$25-\$100.

All essays, to qualify, must be in the high school principal's office by 3:30 p.m. March 15. Any student wishing further information may contact Carvel Bentley, high school principal, or an English teacher.

## Estates, Topic For Bank V.P. At Club Meet

Carleton B. Leonhard, vice president of the Detroit-Wabek Bank and Trust company, will address the Plymouth branch of the American Association of University Women at their meeting tonight, February 16, starting at 8 o'clock in the home of Mrs. Henry J. Walch, 737 Church street. Leonhard, considered one of Michigan's leading authorities on the subject of wills, will discuss estate management. Title of his talk will be "Let's Take the Mystery out of Wills."

Among the subjects to be covered are what happens to an estate in Michigan if a resident dies without a will, reasons for having a will drawn up by a qualified person and how a well-

planned will can conserve an estate and provide effective family protection. He will also answer questions regarding mortgages, contracts and investments.

Leonhard has been a member of the faculty at the school of Banking, University of Wisconsin; and a lecturer at the Schools of Banking at Northwestern University and the University of Michigan.

The meeting will be sponsored by the AAUW's Status of Women group, headed by Mrs. F. R. Beals as its chairman. Co-hostesses will be Mrs. Austin Pino and Mrs. William Schmidt.

## Tempting Sauce Adds Zest to Humdrum Dish

The American homemaker would do well to look to the example of the French cooks, who are experts in the art of making sauces.

Sauces can be a boon to everyday menus, as well as gourmet dishes. With a distinctive sauce, an ordinary dish can be dressed up into something "special."

A housewife can put sauces to use to help her food budget sail smoothly through the grocery store's rough seas, for a tempting delicious meal of less expensive sauce enables her to make a seafoods and not-so-choice cuts of meat.

There is no better solution to the problem of leftovers than sauces. With a tasty sauce, a leftover dish can take on new eye and taste appeal. Sauces add variety and interest to mealtime, because the same old dish is new each time it is served with a different sauce.

Not only do sauces add appeal to inexpensive foods and leftovers, but they also can make the finest foods even better. Ice cream and other frozen desserts are delicious alone, but add a delectable topping and an elegant dish results. Filet mignon is delightful by itself, but cover it with a Bernaise sauce and the steak becomes a royal dish.

Sauces can be just as simple or as elaborate as the homemaker wants to make them. The simplest to make is a plain sauce prepared by melting margarine slowly, adding salt, pepper, and a few drops of lemon juice. Don't allow the margarine to become overheated while it is melting. Serve this flavor-enhancing sauce while hot on boiled, sauteed, or broiled foods.

White sauce is a universal favorite for vegetables, fish or chicken. It is a basic sauce that may be varied in many appetizing ways by the addition of special ingredients and seasonings.

The time-conscious homemaker should take a cue from the French housewife and make a roux to keep on hand for use in her sauces. A roux is the thickening for many sauces and consists of flour cooked in margarine. The roux is cooked to a light golden color for use in white sauces. It is cooked to a deeper brown for use in brown sauces. Roux can be made in quantity for a week or longer because they do not spoil if stored in the refrigerator.

Different cooks advise slightly different proportions for making a roux. Some say the proportions should be one-half cup of melted margarine to one-half cup of flour, while others recommend on three-fourths cup of flour to three-fourths cup of flour. The roux should be stirred and cooked slowly for 15-20 minutes to make sure the flour is thoroughly done. Otherwise, lumps may remain in the mixture.

Hollandaise is an excellent base

ic sauce. It is essentially an emulsion of egg yolk and margarine, unthickened by flour. Hollandaise gets its name because it is supposed to be of Dutch origin. Every complete cookbook has at least one recipe for this sauce that makes asparagus, broccoli, and other dishes into sumptuous taste treats.

A favorite even a bride can prepare is Mornay sauce, which takes its name from a French prime minister during the reign of Henry IV. Just whip up two eggs, a half cup of grated Parmesan cheese, and a tablespoon of margarine in two cups of white sauce. This does wonders for eggs, fish, and vegetables.

Proper seasoning and the use of herbs and spices can bring added charm to sauces—but use restraint with seasonings and don't overdo a good thing.

A word of warning about sauce making: Follow the recipe's directions faithfully. There is usually good reason for a recipe to say "stir constantly," "brown before adding," "pour in slowly," or other instructions which require a little more time or work. But the extra effort is rewarded when a perfect sauce is served.

### Here's Couple Ideas On Mealtime Variety

Give an intriguing touch to your apple-date and celery salad by mixing lightly with cottage cheese.

Nuts and raisins may also be added to the mixture.

Do something special with English muffins for breakfast: blend together 1/2 cup each of soft butter and brown sugar, then add 1/2 cup chopped nuts, 2 tablespoons raisins and a generous dash of cinnamon. Spread on split English muffins and broil until lightly browned.

When stuffing pork chops, add 1/2 cup chopped peanuts to the stuffing. Watch the children's expression—there sure to ask for more!

Use a good brand of paste wax on clothes chutes or inside wooden laundry hampers to avoid snagging soiled clothes on the rough wood. It might be a good idea, also, to have hubby check the family clothes chute or hamper for rough edges and joints, then sand them down before waxing.

Photographs, in color if possible, of a room or a single item will be extremely helpful if an object should be destroyed or stolen. Finally, place the list and the pictures in a safe place such as a safety deposit box, or a fireproof safe. They will prove invaluable if you ever need to provide proof of loss.

It is only natural that the government, seeking national well being, and business, seeking profits, would disagree at times, and we should continue to see this disagreement.

### Home Inventory Guards Owner Against Loss

Do you know what the articles in your home are worth, or what you paid for them? If you can answer "yes," start the new year off right by taking an inventory of all the articles in your home.

This will protect you from loss by fire, theft or other damages and allow you to recover the money for these articles. It will also show whether you have sufficient insurance to cover a loss.

The list will take a little time to prepare, but will be well worth the effort, should anything happen. Here are some suggestions for making your list.

First, list the contents of your home by rooms. Indicate the date you bought each item and the price you paid for it. Then estimate the value of the articles today to find the replacement value of each item. Don't forget the contents of drawers, pictures on the wall and other articles so often taken for granted.

Photographs, in color if possible, of a room or a single item will be extremely helpful if an object should be destroyed or stolen. Finally, place the list and the pictures in a safe place such as a safety deposit box, or a fireproof safe. They will prove invaluable if you ever need to provide proof of loss.

### SWISS CHEESE SAUCE

Cheese adds to the flavor and texture of many tempting sauces. Although most homemakers are more familiar with white sauces that require American or cheddar cheese, there are endless possibilities for distinctive sauces which make use of the wide variety of cheeses available. This delicious sauce made with Swiss cheese is excellent for hot cooked vegetables or served on toast with crisp bacon.

- 2 tablespoons margarine
- 2 tablespoons flour
- 1 cup milk
- 3/4 teaspoon salt
- 1/8 teaspoon ground black pepper
- 1/16 teaspoon ground cayenne pepper
- 3/4 cup finely chopped Swiss cheese
- 2 teaspoons fresh lemon juice

Melt margarine in a saucepan. Blend in flour. Stir in milk. Cook until medium thickness. Add seasonings and Swiss cheese. Mix well and cook over low heat until cheese is almost melted. Stir in lemon juice. Serve over hot cooked vegetables or on toast with crisp bacon. This makes one and three-fourths cups.

## Mrs. Housewife Gets Benefit Of Farmers Week Reports

Dry milk solids, if used right, will do anything for a good cook that fluid milk will do, but never boil puddings, cream fillings, or sauces made with dry milk solids, cautions Eleanor Mullikin, Wayne County Home agent. Boiling may cause scorching or may result in the appearance of little curdled flecks.

These facts were brought out at the women's program held during Farmer's Week on the Michigan State campus. Reporting on dry milk solids research was Dr. Pearl Aldrich, of the institution administration department. She also added another caution when using dry milk: "Do not add more flour than required in your original recipe for batters or dough," she pointed out. Instead, allow the mixed product to stand 15 minutes before you handle it for rolling or pan-frying.

Telling of more research done in home economics at Michigan State were three other home economics staff members: Mrs. Alice Thorpe, Jeanne Gannon and Dr. Louise Kelley.

Mrs. Thorne told of a survey she conducted to learn how families use their homes. From these findings, she said, "We hope to get ideas to aid us in future home planning. For example we found that dining rooms or farm homes were both furnished and used for a much greater variety of activities than the town dining rooms and were used two to three times as many hours per day."

Farm families used their dining rooms for reading, sewing, studying, ironing, hobbies or farm business besides for eating meals. These facts would indicate that the multi-purpose or activities

room being included in many town homes instead of a dining room should prove successful.

The life of a cotton curtain is about one-third longer than that of a rayon curtain, but both of these fabrics will give about twice as much service if hung at windows facing the north or east as they will give if exposed to the south or west. Those results were reported by staff member in textiles and clothing at M.S.U., as the third member of the Farmer's Week panel.

### Sugar 'n' Spice Ham

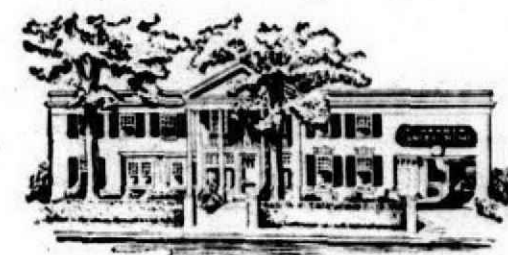

Purchase a ham slice cut about 1 inch thick. Place in shallow pan, sprinkle with brown sugar and stick with cloves. Pour 1/3 cup of plum juice over it.

Bake in a 300° F. oven for 1 1/2 hours. Then turn the slice and arrange one No. 303 can of drained blue plums on top of ham. Return to oven for 15 minutes.

Bread, nowadays, compared to that in the mid-'30's, contains four times as much thiamine, three times as much riboflavin and about twice as much calcium, iron and niacin.

## Scientists Study Further Clues In Effort to Halt Heart Disease

The person who seeks a simple explanation of why a "heart attack" occurs can best begin by visualizing a water pipe in the basement of his own home. Over the years, lime accumulates inside the pipe, narrowing and roughening its bore until the flow of water is reduced to a mere trickle. Then one day a deposit of lime is detached and wedged within the narrow passageway, blocking the channel, and further reducing the flow of water.

While this analogy is far from perfect, it does afford a reasonably accurate idea of what happens in a heart attack: A blood clot finally clogs a coronary artery whose bore has been roughened and narrowed by the long-term build-up of a fatty substance called cholesterol just beneath its inner lining, denying to a portion of the heart muscle its all-important quota of oxygenated blood. This is called atherosclerosis, more commonly known as "hardening of the arteries," which is the most usual and most serious form of arteriosclerosis.

Minor or major damage to a portion of the heart muscle may be the result. If the area involved is large or strategically located, death may shortly or promptly ensue. This is the infamous attack of "coronary occlusion with myocardial infarction," more commonly known as a heart attack. There is no more common cause of death in man today. It is the most serious challenge to medical science.

Available evidence indicates that the process just described begins to affect males shortly after adult life is reached, increasing steadily and rapidly with each decade of life, but at different rates in different men. It is sufficiently advanced in some men under 40 to produce heart attacks. It is probably the most common cause of death in males during both the sixth and seventh decades. With women the picture is somewhat different.

Research has shown that during woman's child-bearing years this disease of the arteries is either absent or of mild degree. This fact may be related to the presence in her body of an abundant quantity of the female hormones called estrogens. Many women begin to show evidence of atherosclerosis after the age of 50, but they do not commonly exhibit evidence of advanced coronary heart disease until the age of sixty or thereafter, when they are affected just about as often as men.

The enigma of atherosclerosis is being intensively studied, and many promising clues have been found and are being pursued. Why is it that countries where the diet is low in fat, notably China, have a low incidence of coronary disease? Why was the same true in England and other European countries during the war years, when fats were scarce? What roles do the hormones play?

Meanwhile, much is known about the care and treatment of

coronary artery disease. The clinical symptoms are clearly known and the fundamentals of treatment are being widely applied. The problem is how to prevent the atherosclerotic process which leads to heart attack, and often to repeated attacks until a fatal one occurs.

Great and significant advances in diagnosis have been made. Through the electrocardiogram, physicians can now find evidence of relatively mild and clinically unrecognizable attacks that have occurred. Treatment has also improved, with the result that many lives have been prolonged through application of presently available knowledge. Anticoagulant drugs which interfere with clotting of blood and minimize the tendency of blood clots to develop, are being widely used in prevention of complications and repeated attacks.

As has been the case since the dawn of recorded history—and be it remembered that 4000-year-old Egyptian mummies show unmistakable evidences of atherosclerosis—nature is still a great healer. In most cases, victims of heart attack recover to lead reasonably normal lives—often without changing jobs.

The research support program made possible by the Michigan Heart Association through funds received from the Michigan United Fund and from Memorial Contributions has as a leading objective—the discovering of the basic causes of atherosclerosis. Once the causes are identified, the chances of effecting cures or ways of preventing the disease will be substantially advanced.

## Social Security Question Column

"The Detroit-Northwest Social Security office has been getting many calls lately from self-employed persons who are preparing their income and self-employment tax returns," said Harry Baltuck, Manager of that office.

For the benefit of our readers, Baltuck lists some essential facts about social security for self-employed persons.

1. A 3 1/2% tax on net earnings up to \$4,200.00 must be paid at the same time the final income tax report is filed. Both are due by April 15, 1956.

2. The report is made on "Schedule C" which is available in the office of the Director of Internal Revenue.

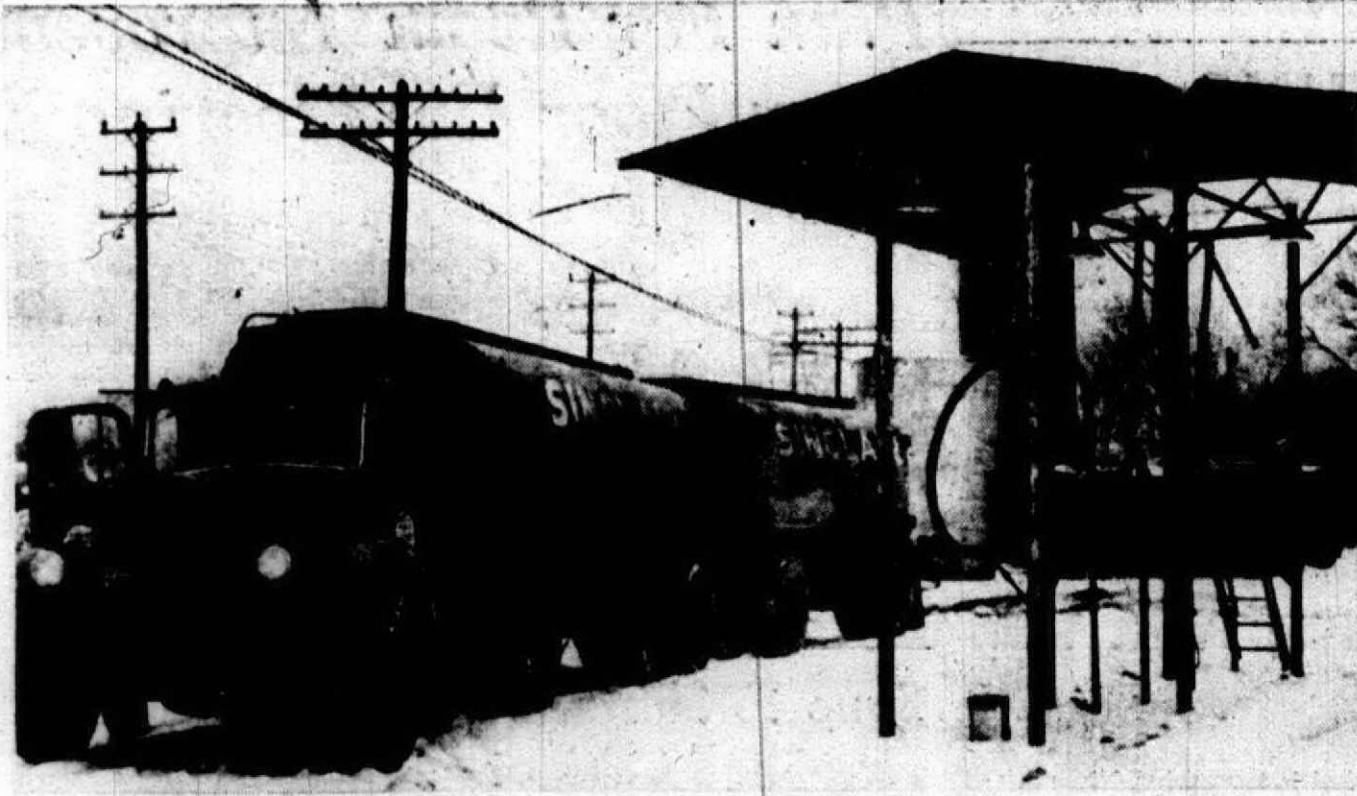

3. No report is filed if net earnings are less than \$400.00.

4. 1955 is the first year of social security coverage for self-employed architects, accountants, funeral directors and professional engineers. You will need a social security account number. If you do not have a social security card already, call your social security office.

5. There are a few occupations which are still not covered by the social security law. If you are in doubt as to whether or not your business is covered contact the social security office for more information.

6. Ministers may now secure social security coverage by filing with the Internal Revenue Service a certificate, Form 2031, indicating their desire to be covered on the same terms as self-employed persons.

The Detroit-Northwest office is located at 14800 Grand River, Detroit 27, Michigan. It services Northwest Detroit and the communities of Plymouth, Northville, Livonia, and Redford Township.

ROBERTS SUPPLY COMPANY, 639 South Mill, owned by Walter J. Roberts, has been named as the local distributor of Sinclair superflame heating oils. Pictured above is the first truckload of this oil being delivered at the Roberts Supply Company's newly constructed storage tanks and loading pump. Tanks installed by the new distributor will hold 40,000 gallons of heating oil and 30,000 gallons of gasoline.

## New Owners Spend Most

Recent buyers of new homes are among the highest spenders in the nation. New homes stimulate family spending as nothing else — for home appliances, furnishings and other homemaking equipment. Homeowners purchase more books, garden tools, automobiles, too. Not only do they buy more but they buy quality products. The high level of today's housing with ceramic tiled kitchens, built-in appliances, over-sized storage has set standards of purchase that are carried over into other fields. Generally speaking, therefore, the housing expansion has proved utterly essential to the dynamic state of the nation's economy.

## BUILDING AND REMODELING

### NEWS FOR EVERY HOME

## Modern Plumbing Installations Add Eye Appeal and Buy Appeal to Home

An essential factor in selling or renting older homes is interior attractiveness especially in bathrooms, says the Plumbing Fixture Manufacturer's Association.

Builders throughout the nation are concentrating on the installation of colored bathroom fixtures as prime movers in the sale of new homes. To compete with contemporary homes on the real estate market, older houses must spruce up; add color, spaciousness and convenience.

Small, cramped bathrooms with antiquated, noisy, fixtures, unsightly piping and worn flooring are conspicuous eyesores in older homes. With the wide variety of streamlined, colorful bathroom products now available, remodeling is a valuable and wise investment.

For example, modern lavatories, toilets and bathtubs are made in many pleasantly matching pastel shades. Vanity dressing tables, for bath or bedroom installation, come with custom built storage cabinets and vary in shape. Triangular, square, rectangular and especially fitted corner models can be obtained for placement where space is at a minimum.

An important new fixture currently being introduced in American homes is the bidet. Long a standard feature through Europe and South America, the bidet is commonly installed adjacent to toilets to permit easier and better rectal hygiene.

Installation of new, colored fixtures in an older bathroom together with proper lighting, ventilation and attractively-toned, painted or wall-papered walls will add eye appeal, convenience and luxury. The owner who wishes to rent or sell will find that modern, sanitary conven-

iences will help move his home faster and at a higher price.

Advance planning and the proper selection of fixtures are important to a successful bathroom modernization or expansion program.

Before modernizing, the existing bathroom should be examined to decide whether more "elbow room" can be obtained by re-arranging the fixtures.

Space-saving fixtures now on the market will add precious inches and avoid that cramped, crowded appearance so characteristic of old-fashioned bathrooms.

If you plan to add a bathroom it is wise to look around the house for a good, convenient location. Many average-size homes offer space possibilities for a second or third bathroom. A "waste" area under the stairs, an unused closet, an unnecessary pantry, or even a portion of a large bedroom might well hold the key to extra facilities.

You should also consider the number of people who will be using the new bath. Careful selection of fixtures can reduce bathroom congestion and give lasting satisfaction to the entire family.

The little extra time spent in advance planning for your bathroom will be well worth-while. Above all, give careful thought to the fixtures; they are the basic foundation of a beautiful and comfortable bathroom.

### HERE'S HOW . . .

#### ENAMEL UNFINISHED FURNITURE

The home craftsman can apply a professional looking finish to unpainted furniture. Tools and materials needed are a putty knife, wood filler or wood putty, No. 0, 2/0, and 4/0 sandpaper, steel wool, a 1-inch and a 3-inch good quality paint brush, turpentine undercoater, and enamel. Be sure that paint for children's furniture does not contain toxic materials.

1. Fill nail holes and cracks with filler or putty. Raise dents with a hot iron over a wet blotter.

2. When the furniture and filler are dry, sand with coarse, medium, and then fine sandpaper. Use steel wool on corners. Remove all sand and dust with a rag.

3. Apply finish in a dustfree room of average humidity and temperature about 70 degrees.

4. First apply shellac or varnish-type sealer to the surface of the wood. When the sealer is dry, sand with fine sandpaper, dust surface, and apply enamel undercoater. Both undercoater and enamel should be thoroughly mixed by pouring off most of the thin liquid, mixing the sediment with the remaining liquid, and then pouring back the thin

liquid and stirring slowly. Allow the undercoater to dry at least 24 hours, sand lightly with fine sandpaper, and remove the dust with rags dampened in turpentine.

5. Apply enamel on small and hard-to-reach surfaces, first with the small brush; then use the larger brush on large surfaces. Work from the middle toward the edges. "Flow" the enamel on and avoid brushing as much as possible. Do not let enamel run or accumulate at edges.

If care is taken, a fine finish should result.

### Color Used as 'Material' By Architect

"Color is just as much a building material as brick, wood or stone," says architect Walter T. Anicka of Ann Arbor, Mich. "You can't touch color, but you can see it. Visual impact is one of the chief elements in determining what materials to use on a house exterior."

Pointing out that the texture of materials is another important element in a home's appearance, the architect says that home-owners are "understandably enthusiastic" about the decorative possibilities of various kinds of masonry, wood, glass, and other materials. But he feels that "it's

easy to go overboard and get a "tutti-frutti" effect by using too great a variety on one house. The hodgepodge can be expensive too."

Anicka usually specifies only one or two materials for the outside walls of a house. If the main body of the house has clap-board or shingle siding, a limited section, such as a planter or part of one wall, may be of brick or stone "but not both materials," the architect emphasizes. The masonry lends a pleasing contrast in color and texture to the rest of the house, but two kinds of masonry often give a confusing visual effect.

Although textural contrast is an excellent way to create visual interest and prevent a monotonous overall appearance, proper color styling can achieve the same result at lower cost, the architect says.

"Draw up a color plan for the entire house before a brick is laid or a shingle applied," Anicka advises. "Pick a roof color first and paint the siding and trim in a related shade of that color. There's plenty of leeway for interesting color schemes because asphalt shingles, my favorite roofing material, are made in a great many solid and blended colors, both light and dark. For each roof color, there are a number of related shades of house paint. Recognizing that the roof is the 'color key,' some paint manufacturers have deliberately chosen their standard exterior house paint colors to blend with the colors in which asphalt shingles are made."

Anicka favors uniformity in the large color areas because it makes the house look bigger and more impressive. Too many colors or materials break up a house into small areas and make the whole building seem smaller, he says.

## Colored Glass For Counter Top

Steam and water, soaps and detergents, lotions and oils — the "bathroom hazards" so harmful to furniture surfaces and wall finishes — present no problem to solid-color glass, says June Cabot, home arts consultant for Libbey-Owens-Ford.

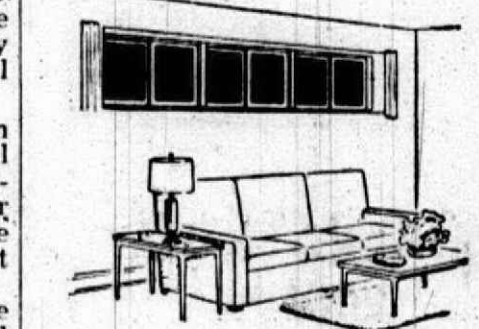

Vitrolite glass, for example, made in 10 opaque shades to complement the color scheme of any bathroom, is perfectly suited to use on counter tops, shower walls or as wall covering for the entire bathroom. It can be washed easily with soap and water, is impervious to household liquids and, because its color permeates the glass, will never show appreciable signs of wear.

## 'Ribbon' Windows Free Wall Space For Sofa or Bed

Cramped for space? The sketch below illustrates a practical way to get maximum wall area as an aid in furniture placement.

A row of ponderosa pine windows high in the wall does the trick. This leaves plenty of room for a sofa, a bed, a table, or even a high chest of drawers to be set against the wall below.

As many sashes as are desired can be installed in this "ribbon"

arrangement. Either sliding windows or awning windows are customarily used. The ponderosa pine window units are made in various stock sizes, fully assembled and ready to install.

The high position of the windows assures privacy. According to the University of Illinois Small Homes Council, high windows allow sunlight to penetrate more deeply into the room than low windows do. The long, horizontal lines of the strip of sash make the room look and feel larger than it is.

Grand openings are becoming a habit in progressive Plymouth. Newest addition to the growing list of new business ventures is Minerva's on Penniman avenue. Store manager is Mrs. Minerva Chaiken.

Recently acquired apparatus by the Plymouth's fire department for the public's benefit includes a resuscitator and a new lighting system.

The Michigan Farmer award given annually to the most outstanding 4-H club girl in Wayne county was awarded this year to Miss Sally Mackintosh, daughter of Mr. and Mrs. James Mackintosh of Maben road.

The home of Mr. and Mrs. Kenneth Fisher on Auburn avenue was the setting on Tuesday evening for a stork shower honoring Mrs. William Guindner. Guests included Mrs. Lee Sackett, Mrs. Edythe Hadley, Mrs. Richard Valpey, Mrs. Roger Vanderveen, Mrs. Loren Johnson, Mrs. H. B. Williams, Mrs. Donald Aughenbaugh, Mrs. D. Pritchett, Miss Sophie Goretzki and Mrs. Robert Spayth.

The First Presbyterian Church in Rosedale Gardens was the setting on Saturday evening February 3, for the marriage of Miss Patricia Nisley, to Technical Sergeant Elwood K. Dethloff.

Old timers reported this winter to be the worst in their memory, some going back over 70 years. Local garages were swamped with service calls to pull motorists from side roads, deliveries were hampered and garages crowded with cars that were frozen. Taxis could not begin to take care of calls and school buses ran late, due to the roads. Mrs. William Cress of Adams reported that bird gravel thrown on the walks was most satisfactory to prevent slipping.

Percy Angove, assistant superintendent in charge of Education at the Wayne County Training school was guest speaker at Tuesday evening's Kiwanis club meeting. The club was entertained during the luncheon hour by Joe Ribar and Russell Egloff with several snappy musical numbers. James Sessions, genial White Star manager, was introduced into membership by Dr. Luther Peck in one of his usual flowery and witty speeches.

Fred D. Schrader announced the early part of this week that he is constructing a small store in his building to occupy the space that was formerly vacant between his building and that of the First National Bank. The space has been rented to Mrs. Floyd Hilman who will open a modern dress shop.

Notice: The library will be closed on Monday, February 23rd in observation of Washington's birthday.

Bring and weather did much to interest many voters to poles. Result of Monday's election was as follows: George H. Robinson, 443; Floyd A. Kehrl, 369; Paul Wiedman, 367; Frank Learned, 345; Carl Shear, 343; John Henderson, 315; Henry Hondorp, 269. The first six names on the above list will appear on the March ballot, from which three will be elected for the Commission.

# HEALTH AND BEAUTY

Everyone will agree that the first step toward self-improvement is proper self-analysis. Take a good look in the mirror and you will find where you stand. Then you know what you have to do to get back in shape. It may be that your physical being needs attention, with exercise and proper diet and improved makeup and more flattering clothes. It may be that your thinking process needs attention. Your personality and the way you deal with family and friends has a great deal to do with the way you look—at least to other people.

All of us have known, at one time or another, a friend who was not too good-looking, perhaps homely, but who was so pleasant and kind, so much fun to be with, that you thought of her as one of the most attractive people you had ever met. There are a few simple questions it would be wise to ask yourself every so often. They are:

1. Have you shown genuine interest in other's conversation?
2. Have you avoided speaking unkindly or irritably to family and friends?
3. Have you complimented anyone today?
4. Have you smiled often today?
5. Have you said anything uncomplimentary about anybody today?

The answer to the first four questions should be "yes" and the answer to number five should be "no." If you seem to have a figure problem but your weight is not excessive, perhaps it is your posture. If weight is your problem, and this is best determined by a

doctor, go to work on it at once. Have you changed your hair style lately? Many of us are so busy with our family or with a job that we have little time for ourselves.

This is all right. However, you should take some little time each day to keep up your personality and your looks. You will not be properly appreciated if you don't spend some time on yourself. It is almost as unwise to spend too little time on yourself and your interests as it is unattractive to spend too much time on yourself and your interests.

# Get a record-breaking run for your money!

Only Chevrolet puts you in charge of the dynamite action and sure-fire handling qualities it takes to break the Pikes Peak record! Better try it before you plank down your dollars for any car at any price.

You've probably heard some people say that they prefer a higher priced car because of the way it "holds the road"—or the way it "clips off the miles on a long trip."

Almost everybody likes a real road car. And nowadays they're going at Chevrolet prices!

For the new Chevrolet is one of the few truly great road cars being built today! It has to be to hold the stock car record for the Pikes Peak climb. It has to have cannonball acceleration (horse-

power now ranges up to 225!) and nailed-down stability on turns—things that make for more driving pleasure and safety on the road. Come on in and try the record-breaker!

Warns Against Over-Optimism On Soil Bank Plan

Farm programs are always a compromise because consumers and taxpayers as well as producers have a stake in their costs and benefits.

That's what Arthur Mauch, farm economist at Michigan State University, told visitors to Farmer's Week on the East Lansing campus.

Citizens, in making the decision about farm programs through their legislators, must decide two things, he said. First, the level of support must be set. A high support, for instance, will boost production and increase the problems of controls and surpluses. The level of support also determines the cost of the program, Mauch pointed out.

Secondly, the method of payment must be decided, or who will really pay for the program. Under the present purchase or loan program with storage and disposal of surpluses, the consumer pays a higher price in the market. The taxpayer, then, shoulders the losses and costs of storage.

Under a direct payment method, the consumer buys at the free market price. There are no surpluses to store and the taxpayer pays for the program.

The soil fertility bank is also charged to the taxpayer, Mauch said. Consumers benefit by being assured of high production in the future. Farmers, too, will have increased buying power from the income from governmental rental payments but production will not be cut for long.

Mauch warned farmers not to expect the soil fertility bank program to solve all farm problems.

C & O Has Best Year in History

The Chesapeake and Ohio Railway in 1955 had its best year in history, setting records in net earnings, operating revenues, merchandise traffic, cash position and working capital, according to the 1955 annual report, being mailed to shareholders.

"Our best year was a record year in almost every way," Cyrus Eaton, chairman of the board, and Walter J. Tuohy, president, who signed the report jointly, told shareholders. "Best year that 1955 was, indications at the year end were that 1956 will be equal to it, probably even better," they added.

The report says that C&O had the best net earnings in company history of \$58 million compared with \$39.9 million a year ago. This was equal to \$7.25 a common share, up 45 per cent from 5.01 the year before. Effective with the final quarter, the dividend on common shares was increased to 87 1/2 cents from 75 cents, raising the annual rate to \$3.50 from \$3.

The C&O for a half century has been regarded as a "coal railroad" only, according to the report, but it points out that that is no longer so. C&O a decade ago embarked on a program to diversify its revenue sources which "has succeeded to the point where today merchandise traffic revenues contribute almost half of total freight revenue."

Covering 5,100 miles of territory "endowed by nature and improved by man," the growth of the C&O "brought to 1,200 the businesses which have settled on C&O in a dozen years." Last year alone, 116 new businesses located on C&O, sources of an estimated \$7.1 million in annual traffic revenues, the report says.

Within 400 years some 2,200 vessels have been wrecked in the turbulent seas off Cape Hatteras, where strong winds churn the Gulf Stream as it flows north across shallow reefs. Treacherous Diamond Shoals, a few miles offshore, is known as the "Graveyard of the Atlantic."

Finland, smaller than California, contains some 60,000 lakes, gouged out of the land long ago by retreating glaciers of the Ice Age. Sweden probably has close to 100,000 such lakes.

Monday, January 16, 1956

A regular meeting of the City Commission was held in the Commission Chamber of the City Hall on Monday, January 16, 1956 at 7:30 p.m.

PRESENT: Comms. Cutler, Guenther, Henry, Sincok, Terry and Mayor Daane.

ABSENT: Comms. Roberts.

Since Com. Roberts was ill, his absence was excused by the commission.

Moved by Comm. Cutler and supported by Comm. Sincok that the minutes of the regular meeting of January 3, 1956 be approved as written. Carried unanimously.

Moved by Comm. Henry and supported by Comm. Guenther that the bills in the amount of \$58,611.39, as approved by the auditing committee, be allowed and warrants drawn. Carried unanimously.

The Clerk presented the following reports for the month of December, 1955: Municipal Court, D. P. W., Health, Police, Treasurer and Fire.

Moved by Comm. Terry and supported by Comm. Cutler that the above reports be accepted and placed on file. Carried unanimously.

Mr. Edwin A. Campbell of Campbell Electrical Contracting presented his views on the operation of the Board of Electrical Examiners and the electrical inspector. The City Manager was requested to investigate the complaint and report back to the commission at the next meeting.

The Clerk presented a communication from the Bruton Realty Company requesting permission to erect a temporary sign for the advertising the sale of lots in Birch Estates Subdivision.

Moved by Comm. Cutler and supported by Comm. Sincok that a permit on a temporary basis for 6 months for the use of the street to erect an advertising sign, the size and location to be approved by the building department, upon the payment of a \$50.00 deposit. Carried unanimously.

The City Manager presented a communication from the City of Ludington concerning city representation on Boards of Supervisors. The letter was accepted and placed on file, and the City Manager instructed to acknowledge the letter explaining the position of the City of Plymouth in the matter.

Mr. D. S. Mills presented an offer to exchange Lots 94, 95 and 96, Auburn Addition to Plymouth Heights together with \$1,000 cash for city owned lots 836, Plat No. 22 (except the N. 100 feet) and S. 50 feet of Lot 835, Plat No. 22. The matter was postponed until the next regular meeting.

The City Attorney was instructed to prepare a lease agreement between the Plymouth Community District and the City of Plymouth for Lots 1 through 9 and Lots 19 through 27, both inclusive, Thomas Subdivision, owned by the city, to be used for recreational purposes, and to

prepare the proper resolution for formal action at the next regular meeting, in order to place the sale of the park in front of Starkweather School on the ballot at the next election.

The City Manager stated that on Thursday, January 19, 1956, the Planning Commission was holding a hearing relative to placing parks and playgrounds on a master plan.

Moved by Comm. Henry and supported by Comm. Cutler that the City Manager be authorized to modernize the counter in the Treasurer's office and charge the water fund for the work. Carried unanimously.

Moved by Comm. Cutler and supported by Comm. Guenther that the City Manager be authorized to enter into negotiations for a renewal of a contract with Dr. Lickfeldt for use of his facilities for a dog pound at an increased cost amounting to \$4.00 per dog impounded, and that the City Manager bring to the commission the necessary revisions to be made to the Dog Ordinance. Carried unanimously.

The following resolution was offered by Comm. Cutler and supported by Comm. Terry:

WHEREAS, the Social Security Act has been so amended by the Congress of the United States as to permit political subdivisions of the several states to extend to their employees and officers the benefits of Old Age and Survivor's Insurance, and

WHEREAS, The Michigan Legislature in regular session enacted Public Act No. 205, P. A. 1951, as amended by Act No. 39, P. A. 1955, to enable the State of Michigan or political subdivisions thereof to secure coverage for their employees under the Old Age and Survivor's Insurance provisions of Title II of the Social Security Act as amended, and

WHEREAS, An Agreement has been entered into between the State of Michigan and the Secretary of Health, Education, and Welfare to extend the benefits of the federal Old Age and Survivor's Insurance system to employees of the state or of any political subdivision thereof.

THEREFORE BE IT RESOLVED, That the governing body of Plymouth, Michigan, hereby elects coverage under the Old Age and Survivor's Insurance as provided by Act No. 205, P. A. 1951, as amended by Act No. 39, P. A. 1955.

BE IT FURTHER RESOLVED, That Russell M. Daane and Kenneth E. Way, Mayor and Clerk, respectively, and/or their successors in office, be, and they are hereby authorized and directed on behalf of the City of Plymouth, Michigan to enter into agreement with the department for the extension of the benefits under Title II of the Social Security Act subject to the provisions of Act No. 205, P. A. 1951, as amended by Act No. 39, P. A. 1955.

BE IT FURTHER RESOLVED, That the proper fiscal officers be, and they are, hereby

authorized to make all required payments into the Contribution Fund established by the said Enabling Act and to establish such system of payroll deductions from the salaries of employees and officers as may be necessary to their coverage under said Old Age and Survivor's Insurance System.

BE IT FURTHER RESOLVED, That the proper officials of the state or of the political subdivision do all things necessary to the continued implementation of said system.

BE IT FURTHER RESOLVED, That any funds payable to the City of Plymouth, Michigan from any department of the State of Michigan, be withheld by said department and transferred to the State Employees' Retirement Board to be used in the payment of any default on the part of the City of Plymouth, Michigan in accordance with paragraph V (c) of the contract between the

State of Michigan and the City of Plymouth, Michigan.

The following positions are hereby designated as those which are to be excluded:

(a) Part-time positions which normally do not require over 600 hours' work in a year.

(b) Positions for which payment is on a fee basis.

(c) Elected officials.

(d) Agricultural Labor.

For the purpose of carrying out the provisions of Title II, Sec. 218 of the Federal Social Security Act, and amendments thereof, the agreement entered into between the State of Michigan, with the approval of the Attorney General, and the Secretary of Health, Education, and Welfare is made a part of this Resolution and shall be terminated as an agreement between this political subdivision and the Department, and shall become a part of the agreement

or modification of the agreement between the State of Michigan and the Secretary of Health, Education, and Welfare. This Resolution shall be in full force and effect upon passage and approval, for all intents and purposes, except that active coverage shall begin on the 1st day of January, 1956.

Carried unanimously.

Moved by Comm. Cutler and supported by Comm. Henry that the City Manager be authorized to engage Miller, Canfield, Paddock and Stone to prepare an ordinance for the issuance of a \$600,000 revenue bond issue for sanitary sewers. Carried unanimously.

The City Manager presented reports concerning existing unsanitary and dangerous conditions at 644 Herald Street. The matter was referred to the City Attorney to recommend proper procedure to correct the conditions. Carried unanimously.

Moved by Comm. Sincok and supported by Comm. Terry that

the meeting be adjourned. Carried unanimously.

Time of adjournment was 9:48 p.m.

A THOUGHT FOR THIS WEEK: There is no such way to attain to greater measure of grace as for a man to live up to the little grace he has.—James Gordon Brooks.

## Most Waterfowl Desert Michigan During Winter

Most waterfowl have deserted Michigan and other northern areas for the milder weather of wintering grounds farther south. Game workers recently completed the state's part of a continental survey to determine the populations of waterfowl that will serve as parent breeding stock for the coming year.

Approximately 160,000 ducks, geese and swans have established winter quarters in Michigan—slightly more than the average winter populations of the last seven years, but far below the unusually high concentrations last winter.

Herbert J. Miller, Conservation Department waterfowl specialist, pointed out that these changes in waterfowl number in any one state, especially northern states, do not necessarily indicate a change in the over-all continental population.

"There are logical shifts due to food and weather conditions," Miller said, "but the over-all picture of waterfowl populations throughout the continent is the important factor in determining the potential breeders for next year's production."

Final results of the continental survey, conducted by more than 2000 wildlife workers, have not been tabulated.

Miller said the most important winter concentrations in the state consist of diving ducks along the Detroit River; Canada geese and dabbling ducks in the St. Joseph and Kalamazoo River valleys of southwestern Michigan; and flocks of Canada geese and ducks at Kensington park in Oakland county.

There is no statement so absurd that no philosopher will make it.—Cicero.

## OUTDOOR NOTES

From The MICHIGAN DEPARTMENT OF CONSERVATION

The Conservation Commission will consider purchase of 381 acres of hunting lands and 37 acres of park lands for public use at its February 9-10 meeting.

Acquisition of two fishing sites on the Jordan River in Antrim and Charlevoix counties also will be considered.

Proposed hunting land purchases include 240 acres in Pigeon River state forest, 46 acres in Fire Lake state forest, 38 acres in Chippewa River state forest and four acres for addition to the Presque Isle River wildlife flooding project.

Additions of 33 acres to Chippewa River state forest and 20 acres to the Flat River state game area are proposed under the Pittman-Robertson program.

The park land acquisition under consideration consists of 37 acres in the Sleeping Bear-Glen Lake state park area in Leelanau county.

Conditions grew more severe for deer in the upper and northern lower peninsulas last week as more snow, freezing rain and continued cold hampered the herd.

The Crystal Falls district reported that starvation losses are now certain, but gave no indication how many deer might die.

All upper peninsula districts but Newberry added six inches of snow to increase depths to two-three feet.

The Traverse City district recorded more than three inches of new snow. Gaylord and Traverse City now have 1 1/2 feet on the ground.

In Baldwin, Gladwin and Mio districts, deer are moving more freely though troubled in some places by crusted snow left from a sleet storm during the week.

Temperatures ranged from minus-10 in the upper peninsula to 39 in one southern district.

Hunters have returned 5200 post cards—50 percent of the total—in the Conservation Department's annual information poll of the firearm deer season.

Some 3000 cards are still unreturned and the Department plans to mail 2200 more before the statistical survey of the 1955 season is completed.

Also, 4500 cards will be mailed on the small game season, 2300 on archery deer, 200 on camp deer and 1200 in a special opinion poll. These mailings will probably all get under way in February, depending on how quickly license dealers return license information.

Three sets of campers braved the ice, snow and freezing temperatures to camp in three state parks in January.

Camping permits were issued in Pontiac Lake and East Tawas state parks during the month and two youngsters set up a tent at Island Lake recreation area under permission of manager Roy Russell, who didn't have any permits available.

The trio of hardy tenters are the vanguard of 110,000 campers who will spend overnight stays in state parks this year.

Road construction projects are under way at three state park areas in the upper peninsula.

At Porcupine Mountains state park, a five-mile surfacing project will complete blacktopping of M-107 from Ontonagon to the road's end in the park. Another contract is under way for a portion of a 20-mile road paralleling the park's south boundary.

Other construction will create a 4-1/2 mile road through Tah-

quamenon Falls state park and relocate two miles of M-203 at McLain state park. The relocation at McLain will move M-203 back from the shore to allow development of picnic and camp areas.

Ice fishing, an enjoyable wintertime activity on many Michigan lakes, can be marred by accidents due to carelessness.

Wise ice fishermen say the popular sport needn't be dangerous if a few safety rules are observed:

1. Stay off the ice during thawing spells. Prolonged freezing temperatures are necessary for ice to freeze solidly.

2. Don't build fires on the ice.

3. Don't gather on the ice in large groups unless the ice is at least four inches thick.

4. Warn ice fishermen of dangerous ice conditions when you are familiar with such hazards.

5. Should you accidentally break through the ice, don't try to climb out. Instead, extend both arms along the surface of the ice then kick vigorously. This will help lift the body forward and then—roll to safety.

6. When attempting to help someone who has broken through the ice, lie down flat and push some object (stick, plank, pole, etc.) to him. Don't stand near the edge of a broken ice field and never attempt a swimming rescue.

Buyers of field seeds, particularly oats and wheat, are being victimized by peddlers of little known out-of-state companies who sell at fancy prices varieties uncommon to Michigan with an agreement with the grower that the firm will buy from him or offer to sell the grower's crop.

More of this will come to light in coming months, according to John E. Garver, chief seed analyst for the Michigan Department of Agriculture, who says peddlers will make calls at fairs and also will be in evidence at fairs.

Here is how it works. The peddler usually approaches the grower with a sales pitch about some new variety of seed that has enjoyed some success in some other area in the north or in Canada. He may have clippings and literature to prove how successful this variety has been elsewhere. Not always, however, are varieties that prove excellent elsewhere suited to Michigan's nearly 6 degree range in latitude or soil variations.

The peddler does not dwell long on this nor does he say too much about the fact that the price he is asking is all out of proportion to the prevailing price for seed of proven productivity in Michigan. Suitable varieties are listed by the Michigan Crop Improvement association, and county agricultural agents usually know what they are.

The gyp artist instead talks about a "selling and commission agreement." Under this the grower buys seed at the fancy price. Difficulty stems from the objectionable features in the contract. The seed usually can pass purity and germination requirements of the Michigan Department of Agriculture.

The company agrees only to "offer for sale" the grower's production or to buy it "if needed." The contract covering the seed company's responsibility to sell the seed or buy it is vague and give a great deal of latitude. Thus the grower is overcharged for seed of a variety that may or may not be suitable in Michigan climate under the impression he has ready sale for his crop.

A fanatic philosopher is the greatest of all possible monsters.—Frederick the Great.
