Pool proposal on ballot?

To decide 2-mill tax

staff writer

Plymouth Township voters probably will face a second ballot proposal on Nov. 3 - whether to finance and build a public pool.

Jane McCourt, a Plymouth Township resident, spearheaded a group of about a dozen who circulated petitions calling for the pool. They collected enough signatures, more than 500 in a week, to qualify for a spot on the ballot.

The lawyer for the township has been asked to clarify wording and to determine whether there's enough time to get the proposal on the November ballot at this late date.

Esther Hulsing, township clerk, said she expects that the proposal will be put to a vote this fall.

McCourt proposes a one-time-only property tax of 2 mills (\$2 per \$1,000 of state equalized valuation) to construct and operate a pool.

That tax would generate about \$878,000. She wants the pool built in Township Park at Ann Arbor Trail and McClumpha.

The owner of a house with a market value of \$100,000 would pay \$100 for the pool if a 2-mill tax were ap-

A LIKELY timetable, should the proposal pass, would be to collect the money on the December 1988 tax bill, begin construction in 1989 and open for business in 1990, McCourt

She said she has received an estimate that \$650,000 could buy an outdoor Olympic-sized pool, a kiddie pool, a diving pool, a bath house and a concession stand.

The rest of that millage money, plus user and concession fees, would fund on-going operations, McCourt

"I'm real serious about this," she said. "This community is big enough to support a pool.

Plymouth township and city voters also will be asked Nov. 3 to approve a tax hike to \$1.20 from 80 cents per \$1,000 of state equalized valuation for expanded hours and more books at the Dunning-Hough Library

That tax increase (from .8 mill to 1.2 mills) would net the Plymouth District Library Board \$237,000 annually and cost the owner of a \$100,000 house an additional \$20.

Neither McCourt nor Carol Davis, president of the library board, seemed overly concerned that more than one tax increase proposal would appear on the same ballot.

McCOURT differentiates the two by noting that the pool proposal is for one year only.

"What we're doing is offering people choices how best to serve the community." Davis said.

One person not excited by the prospect of a township pool is Supervisor Maurice Breen.

"I suppose if I had young children I'd have different feelings," he said. "I've always said if people want it and vote in the dollars, we will do

McCourt is upbeat but cautiously

"There are a lot of interested people out there.

Circulating petitions was relatively easy, McCourt added, "which kind of makes me nervous about the election. This went so easy, it may be difficult to get a positive vote in November.

"I've got to be optimistic. I'm going to do my darndest."

Pyramid scam lures victims

By Diane Gale staff writer

If you're thinking about an investment that's too good to be true, it probably is and you could face a jail sentence if you get involved.

A pyramid scheme involving aeronautical code words is luring investors with a promise of making \$12,000 on a \$1,500 investment.

It's especially prevalent in Plymouth, Canton, Livonia, Ann Arbor, Ypsilanti, Walled Lake, Pontiac, Brighton and Milford, said Det. Sgt. Norm Maxwell of the Michigan State Police Northville post.

PYRAMID SCHEMES and chain promotions are felonies carrying penalties of up to seven years in prison and a \$10,000 fine.

In what appears to be a major crackdown, Maxwell said there are two copilots, four crew members

"thousands" of people involved in this pyramid scam. It was initiated outstate and has spread through

other states. In a pyramid scheme, investors contribute money and then begin to convince others to join, thereby increasing the investment pool. As more members join, those who invested early move through a quasihierarchy until the investment pool is large enough to payout the promised return. The system perpetuates itself by having enough new members contributing money in the hopes that they, too, will one day receive their promised return.

The pyramid scheme under investigation works as follows, with the titles of airline personnel representing the investors:

The plane consists of one pilot,

and eight passengers.

Meetings are held to give the pilot, copilots and crew a chance to recruit new passengers who buy seats for about \$1,500 each. The money is paid to the pilot, who is then eliminated.

The airplane splits into two planes and each of the copilots become pilots. The crew members are split into two sets of copilots and the passengers are divided into two sets of

THE PROCESS begins all over. More people are sought to buy seats and pay the new pilots.

Organizers are telling potential investors not to take the money out of bank accounts in lump sums to foil links to the scam, Maxwell said.

John Walters, assistant state attorney general, said: "There's an ongoing investigation and there's very little, if anything, I can say at this

Walters said the state attorney general's office and the Michigan State Police have received a number of calls from people wondering if the investment plan is legal.

He declined to say if there have been arrests.

An announcement from the attorney general's office about the airplane pyramid is expected sometime

Extortion charge is added

Walter Thomas Stempniewski will stand trial on armed robbery and extortion charges in connection with a Canton case. Stempniewski, 36, of Detroit is

being charged in nine similar cases from the metro Detroit area, including Westland and Garden City. A man stole money from and

forced the women to drive to a location in Detroit. But before he left them, he warned it was a crime ridden area and gave directions back to a nearby freeway, said Dave Boljesie, Canton Police information of- up. ficer

IN THE CANTON CASE, the extortion charge was added during a preliminary examination Sept. 4 in

35th District Court before Judge John MacDonald. Bond was continued at \$100,000 cash.

A 19-year-old Canton woman pointed at Stempniewski in court identifying him as the man who robbed and forced her to drive to a car parked in Detroit. The 9-year-old girl she was baby-sitting also was in the car, she said.

They were shopping Aug. 21 at Canton's K mart and had just entered the car when a man forced his way in and pointed a knife, the woman testified.

Residents are being given a second chance to earn a high school diploma by taking classes over public television Plymouth-Canton Community Education has joined with WTVS/Channel 56 in a pilot project of offering adult education training and credit via public television.

Plymouth-Canton is among 10 school districts statewide that are coordinating classes on Channel 56 for General Educational Development (G.E.D.) credit. The TV courses also are available on cable television's The Working Channel and the College Cable channel and will be available on Omnicom Cablevision channels in Plymouth and Canton.

Students can register through the community education department, at Plymouth Canton High or the Starkweather Center. The GED preparation courses will be televised from 8:30 a.m. to 3:30 p.m. Monday through Friday beginning Sept. 28.

Our goal is to help thousands of metropolitan area residents who need a GED certificate to improve employment prospects and the quality of life," says Doug Halladay, WTVS director of education.

The accessibility of this GED instruction on Channel 56 will benefit students in any curriculum but particularly those who enroll in one of

our participating districts." Others participating in the pilot program are the adult education programs of Detroit Public Schools, Hazel Park, Highland Park, L'Anse Creuse, Port Huron, Redford Union,

Pontiac, Willow Run and Ypsilanti. The 43 half-hour programs involve instruction in basic reading, writing and math skills. Workbooks and test-

The televised GED series can be used by districts: as supplementary instruction to classroom-based courses; as core instruction, around which the teacher develops lesson plans; or as homebound instruction with or without assistance from a teacher

The pilot program will be evaluated by Wayne State University's Center for Urban Studies and the data used to coordinate future televised and classroom GED instruction.

Doctors asking families to aid donor program

Seek permission to use dead relative's organs

By Marie Chestney staff writer

Nora Roberts' nephew was murdered. But in death, the young man gave new life and hope to three other people who were close to dying.

The tragic murder of this 19-yearold forged three new futures because his family said yes to one of the most difficult questions medical professionals in Michigan are now forced by law to ask

The question: "Would you agree to donate his organs to others?

Despite their grief, the young man's family agreed, and donated his heart and both of his kidneys.

The person you love is gone, but someone else lives on through him," said Roberts, who is administrative clinical supervisor for Garden City Osteopathic Hospital. "There's some good that comes from something terrible. Three people are now alive because he died.

In her nursing supervisor's job, Roberts often has to ask the same question that once was asked of her own family.

It is never, ever an easy question to ask, said those medical professionals interviewed for this story.

One one side is a grief-stricken family, trying to cope with a devastating, often sudden, loss.

On the other side are hundreds of ailing patients who are waiting and praying for a new liver, kidney or pancreas to keep them alive.

In the middle are the medical professionals, whose main goal is to sustain human life

BEFORE 1986, professionals standing in the midst of such grief often found it easier not to ask the question

Since the passage of a Michigan organ donor law in late 1986, they are now required to ask the question to the families of eligible donors.

The law requires hospitals to set up a process in which the question is asked routinely and uniformly when someone has died or death is immi-

BUT LAW or no law, it's still a sensitive area.

"Physicians and nurses ask, but it's still very hard," Roberts said. "It's not something people jump at. It's hard (for next of kin) to believe that someone is dead when they're still on a respirator. And doctors are here to promote life. It's hard for them to say someone's dead."

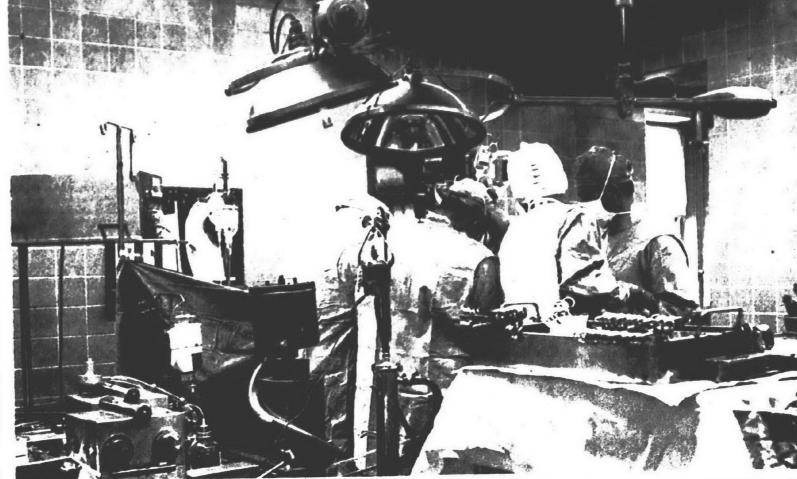

Since passage of the law, the Ann Arbor-based Organ Procurement Agency of Michigan (OPAM) has held seminars in state hospitals to give medical professionals tips on how to broach the question sensitively to grieving family members.

HAS THE law helped? Are more organs now being donated?

Having the law has created an awareness of the need for organs," said Anne Gusfa, director of nursing for St. Mary Hospital, Livonia.

Patricia Claypoole, nursing ad-ministrator for Redford Community Hospital, agreed. With the law, it's definitely a lot

easier because we have to do it now," Claypoole said. "We have to

Denise Fanelli, administrator for Botsford Hospital, said the "formalized policy and the extensive training of professionals" have both com-

bined to make a difficult task easier. "But there's still a hesitancy on the part of medical professionals for something that use to be an optional

thing," Fanelli said. CYNTHIA GILES, OPAM clinical director, said the law has not yet now allows doctors to ask the families of deceased relatives the delicate questions concerning organ donation.

made a significant difference in the number of organs being donated.

"The staffs do a superb of of asking families." Giles said. "There's been no increase in the number of internal organs donated There has been an increase in eye-skin-bone do-

OPAM recorded the following organ donations in 1985 292 kidneys. 35 hearts. 21 livers and 19 pancreases. In 1986. 310 kidneys. 44 hearts. 32 livers and 23 pancreases were donated.

Using medical teams supplied by OPAM, local hospitals can remove organs. The organs are then transplanted in nine transplant centers throughout Michigan, six in the Met-

ropolitan Detroit area. Locally, they are Children's Hospi tal. Hutzel Hospital. Mount Carmel Mercy Hospital, Beaumont Hospital.

Henry Ford Hospital and the University of Michigan Hospital. Outstate. transplant centers are in Grand Rapids. Flint and Kalamazoo

BY FAR, the biggest need is for kidneys Giles said more than 650 patients in Michigan are waiting for kidney transplant; 26 for heart transplants, two for livers, and 13 for a pancreas.

Giles said Michigan residents are given first priority when an organ becomes available. If no "match" can be made within Michigan, then the organ can go to a patient out of state. Giles said

Hospitals call OPAM when an organ is to be donated. Local hospitals use their own operating room staff. but OPAM brings in its own surgeons to remove the organ. The organ is then taken to one of the transplant

Crash victim gave new life to woman

For Patricia Boggs of Allen Park, the "gift of life" came from Phila-

It came from a 23-year-old woman who died in a car crash, and from parents who agreed to donate their daughter's organs.

"I was overjoyed. I was beginning to think it might not happen," said

Boggs, 51. "I didn't worry that I wouldn't survive the operation. My biggest fear was that they would not find an organ."

Boggs became the first person in Michigan to survive a liver transplant operation. Her own liver became damaged through chronic hep-

By September 1985, her liver had deteriorated to the point where a transplant was the only way she could continue to live.

From September to December she waited for the phone to ring. It finally did, and she was on her way to the University of Michigan Transplant Center in Ann Arbor.

A medical team from the Organ Procurement Agency of Michigan flew to Philadelphia to get the donated liver. The transplant went smoothly, and Boggs' successful transplant paved the way for all the successful transplant operations that take place today.

For the rest of her life, Boggs will be on medication. She tires easily.

But if a liver had not been donated in Philadelphia, she never would have gotten to see her daughter married. Or her first grandchild born.

'How thankful I am to that family," Boggs said. "It was a very difficult decision for them to make at that time. They gave me the gift of

Anglers find 'reel fun' in the park

Families compete in derby

Gone Fishin' was the theme and that's exactly what 55 grandparents and grandchildren did during Saturday's Wayne County Parks-sponsored event.

Anglers cast off from the dock at Newburgh Lake, in Hines Park, competing for prizes in child and adult

Among the winners

• Largest fish — Jeff Angialli,
Canton, grandchild; Donalo Zapoton,

Livonia, grandparent.

Largest family unit: Jenkins family, Plymouth, Wysonski family, Redford Township, five members.

 Youngest angler, Samantha Talbot, Plymouth, 2. Oldest angler, Cy Johnson (her great-grandfather),

It was the second annual grandparent/grandchild fishing derby.

Schools announce free meal program

Wayne County Intermediate School District has announced its policy for free and reduced-price meals and free milk, which will be followed by all schools (public and non-public), preschools, child care centers, Head Start programs, and residential child care institutions in Wayne County participating in federally reimbursed child nutrition programs. These programs include the National School Lunch Program, School Breakfast Program, Special Milk Program, Commodity School Program and the Child Care Food

All public school districts, non-public schools, child care agencies, Head Start programs, and residential child care institutions must use the following household size and income criteria for determining eligi-

Children from families whose income is at or below the levels shown are eligible for free meals or reduced-price meals.

Applications forms will be sent to all homes with a letter to parents or guardians. To apply for free or reduced-priced meals, households should fill out the form and return it to the school. Additional copies of the application form are available at the principal's office in each school. Households should answer all questions on the form.

An application that does not contain all of the following information cannot be processed by the school: (1) the total household income and the amount and source of income received by each household member (such as wages, child support, etc) or the household's food stamp case or AFDC number if the household is on foed stamps or receives AFDC; (2) names of all household members; (3) social security numbers of all household members 21 years of age or older, or the word "none" for any adult household member who does not have a social security number; and (4) the signature of an adult household member.

FOOD STAMP/AFDC households If you currently receive Food Stamps or "Aid to Families with Dependent Children" (AFDC) for your child, you only have to list your child's name and Food Stamp or AFDC case number, print your name and sign the application.

The information provided by the household is confidential and will be used only for the purpose of determining eligibility and verifying data. Applications may be verified by the school or other officials at any time during the school year.

If children are approved for free or reduced price meal or free milk benefits, the household must report to the school increases in household income over \$50 per month (\$600 per year) and decreases in household

Households may apply for benefits at any time during the school year. If a household is not currently eligible but has a decrease in household income, an increase in household size or if a household member becomes unemployed, the household should fill out an application at that

In most cases foster children are eligible for these benefits regardless of the household's income. If a household has foster children living with them and they wish to apply for free or reduced price meals for them, the household should contact the school for more information.

Under the provisions of the policy, each public school district, non-public school, preschool, child care agency, Head Start Center, and residential child care institution determines an official or officials to review applications and approve or disapprove eligibility. A parent or guardian dissatisfied with the ruling of the official may wish to discuss the decision with the determining official on an informal basis. The household also has the right to a fair hearing. This can be done by calling or writing the hearing official whose name and address is in the letter to parents. Each district, school, center or agency's main office has a copy of the complete policy, which may be reviewed by any interested party.

In the operation of the child feeding programs no child will be discriminated against on the basis of race, color, national origin, age, sex, or handicap. If any member of the household believes that the household has been discriminated against, he/she should write immediately to the Secretary of Agriculture, Washington, D.C. 20250.

Sun Plastic expects new hires, tax cuts after building expansion

Sun Plastic Coating Co. expects to roll after the first of the year. Osnearly double its work force next terhout said. Fifteen to 20 hires year after completing a 15,000square-foot addition to its leased

building in Plymouth Township. Sun Plastic, on Postiff Street behind Plaza Lanes, currently employs 21. The company applies plastic coatings to automotive and aero-

space parts. Work on the addition, already under way, is expected to be finished by mid-December, said George Osterhout, general manager. It will

double the size of the plant. Semiskilled and unskilled laborers gradually will be added to the payshould be aboard by the middle of next year.

He declined to provide pay fig-

The township board is expected to grant tax abatement on the building improvements and on new equipment as requested by Sun Plastic.

The tax breaks would amount to just less than \$10,000 the first year. That's assuming current tax rates and assessments on the building and equipment equal to the company's estimate - \$445,000 and \$200,000, respectively.

The abatement would decline slightly over most of the next 11

State law provides tax breaks to stimulate companies to renovate ag-

ing plants and to build new facilities. A \$10,000 annual tax break is fairly small as far as abatements go. Still, a dollar saved is a dollar that can be plowed back into the business, Osterhout said.

"We'd apply it to hiring another person, train another person, buy new equipment."

Sun Plastic has done business in the Plymouth community for 25 years, Osterhout said.

Japanese research:

Americans can tap it by computer

American scientists and businesspeople have a new way to tap Japa nese research before it is turned into competitive products.

A computer information service the latest research, technical and management information from Japan available in English

The service began in May. It is a

joint venture between University Microfilms International (UMI) of Ann Arbor and Dialog Informational Services, Inc. of Palo Alto, Calif

Ninety percent of the technical information coming out of Japan is written in Japanese Because of this. U.S. businesses and research institucalled "Japan Technology" makes tions often learn years later about innovations," said Mae Block, advertising and promotion manager for UMI's Japanese Technical Informa-

"WITH THIS new service, it is possible to learn about directions and findings in Japanese research quickly That's an advantage," said

For example, US auto companies would be very interested to know if Mitsubishu was starting to work on a particular electronic com-

Block pointed out that the information lag has been one-sided. Since 1957 the Japan Information Center

of Science and Technology in Japan has been gathering, abstracting, and translating research and technical information from the US (and elsewhere) and making it available with in Japan

In addition, she said, "More Japa nese have a working knowledge of English and can access U.S. publications on their own

Japan Technology provides a comprehensive overview of the total technical and business climate in Japan The service presently consists of about 75,000 article abstracts from 1985 to current issues of the 600 leading Japanese journals

EACH MONTH these Japanese publications - produced by commercial publishers, corporations professional societies, universities and the Japanese government - are shipped by air to the US shortly after their release Every article of substance is abstracted and indexed Available are abstracts covering

technical, scientific and business articles, corporate histories, industrial standards, economic reports, product news and book reviews "It has taken quite a bit of effort

to get this product out." said Block First we had to identify 600 lead-

ing publications; then we had to set up a network of translators who were specialists in various technical areas, and finally, index the information to library standards

Until now, the information flow has been one-sided because '90 percent of the technical information coming out of Japan is written in Japanese. Because of this, U.S. businesses and research institutions often learn years

later about innovations.' Mae Block, promotion manager Japanese Technical Information Service

JAPAN TECHNOLOGY is the on line equivalent of Japanese Technical Abstracts (JTA), a printed ser-vice launched by UMI in January 1986 JTA was the first product offered by the company's Japanese Technical Information Service

Current subscribers to JTA in print are primarily US corporations universities and government

Technology areas covered include automotive biotechnology ceramics, chemical fiber optics, microelectronics robotics, telecommunications and more

JTA's business coverage includes finance, production management, quality control marketing and prodnet reviews

Access to Japan Technology is by microcomputer or terminal, modem and phone line Passwords can be obtained from Dialog Information Services (1-800-227-1960) Subscribers to JTA have access to Japan Technology for \$90 per hour Non-subscribers pay \$120 per connect hour

The response to the on-line service has been very good. We are looking into breaking the product down to smaller subject segments with prices in line with other technical publications," said Block "This should make it easier for the smaller business and independent researcher to tap the service

Parking fees at Detroit Metropolitan Wayne County Airport would increase under county executive Edward McNamara's proposed 1988

At the same time, county indigent health care payments would be cut in half. McNamara sent the budget Friday to county commissioners

The balanced \$229 million budget includes a \$6 million cut in general county expenses, mostly through elimination of vacant county jobs. It is a 2.5 percent reduction from last year's budget.

"If we had to use a term (to describe the budget proposal) it would be: austere," McNamara said Tuesday at a press conference to explain the budget.

McNamara's budget proposal rests upon two key provisions:

· A 25 percent county tax on parking fees at Metro Airport.

· A statewide surcharge on traf-

Adding a surcharge on tickets issued by all county police forces would raise about \$3 million, McNamara said. The money could be used to build new jail cells.

Both items require the state legislature's approval.

If the items aren't approved, McNamara said he would order cuts in indigent health care payments to county hospitals.

'If we fail to receive that help (state) we will have to arbitrarily cut indigent health care payments.'

IN BUDGET highlights:

• The budget cut would be based upon elimination of 70 currently unfilled county jobs; however, McNamara said currently employed workers wouldn't face layoffs. An esment at the county jail.

The county currently isn't paying bills owed the state because the revenue sharing money is being withheld "They're not sending us a check, so we're not sending them a check," McNamara said.

Tax shift

Guess where the tax bucks stop?

OBBING PETER to pay Paul is a practice almost as old as mankind. The short-minded approach now has

an aura of respectability since it has been rechristened The New Federalism and covered by the umbrella of Reagonomics.

The practice already has hit local taxpayers in the pocketbook but the outcry is misdirected so those responsible continue to play the game without being called to account.

Presidents Nixon, Ford and Reagan all declared reduction of the federal deficit to be a top priority. All talked of reducing the expenditure level in Washington, D.C., and returning to the states responsibilities that are better met at that

Innocent sounding stuff.

But much more was done and city councils, township and school boards today are still wrestling with the fall-out.

THE BEST EXAMPLE may be the cutbacks in federal revenue sharing

In the past, some of the money that poured into Washington, D.C., via the income tax was returned to states who allocated shares back to the cities and townships. There were no federal strings attached to this money.

The philosophy was to let the money be spent at the local levels where real needs were best understood. Also very high-sounding but lost in today's rhetoric.

Now federal revenue-sharing is being eliminated with the money "saved" being used to reduce the federal deficit. State and municipal governments, though, have had to increase taxes to make up for the lost income because deficits are illegal for local units.

So where are we? The federal tax level stays the same, the deficit allegedly is reduced, and taxes are increased at the local level. The taxpayer doesn't get a break and the heat, when applied, is felt by Plymouth-Canton officials and Lansing officials - not in D.C.

THE REAGONOMIC apostles argue that state and local governments do not have to increase taxes just because federally shared funds have been removed. All locals have to do, they argue, is cut spending.

That argument is really shallow when these postles also are the disciples of the New Federalism. These are the same policy-makers who are returning programs and services to the states to administer.

And so the federal government is saving money by dumping programs onto the states, and

The deficit must be reduced by spending less money or raising taxes, not by shifting programs and services on the D.C. to Lansing shuttle.

saving money by taking money away from the states, while suggesting the states can do all this without raising taxes. Sometimes they can.

State governments sometimes can take on former federal programs with less federal money simply by playing the same game and passing the program down to municipalities and school districts.

The latest example in this area is the Learning Options of Growth Works. Federal funds are withdrawn, the state does nothing, and Plymouth-Canton ends up with the bill.

We have seen the same thing happen with Super Sewer, Son of Super Sewer, etc., with school lunch programs, with transportation dollars for roads, highways and bridges, and airport expansion.

The federal government has \$8 billion in a fund for airport expansion and safety improvements. The money is not being released because "not spending" the money is a "savings," which goes towards reducing the deficit.

THE FEDERAL DEFICIT will be reduced only by not spending money in the treasury.

One way to do this - the easy way - is to collect money and not spend it by eliminating programs or shifting them to the states. Another way is to increase the amount of money coming into the treasury but not spend the additional dollars coming in.

Any serious deficit-slayer will increase taxes to raise money to be applied against the deficit. Some serious deficit-slayers (not many in the Reagan camp) actually suggest increasing federal taxes. Most take the coward's route and increase the volume of unspent federal dollars by forcing increases in state and local taxes.

Uncle Sam may be robbing Peter to pay Paul but the taxpayer ends up paying Peter, Paul and

Time to toughen up rules on booze

FALL IS a great time to be a sports fan in Michigan. What with the Lions, Wolverines and Spartans - not to mention the Tigers, Mid-American conference teams and all the rest hundreds of thousands of fans will be attending sports events in the next few weeks.

But let's not kid ourselves: many of those fans will wind up drunk. That concerns us.

Frankly, we've had it with with loud, obnoxious rowdies spilling beer down our shirts. But what happens during the game is only part of the

Consider this: even if one in 50 fans gets smashed, there could be as many as 1,600 drunks driving away from the Pontiac Silverdome on any given Sunday, ALL AT THE SAME TIME. That's a scary thought. And it's not much different at other area sports arenas.

It's certainly no different at college events, despite the NCAA's self-professed alcohol ban. Nor is drinking confined just to certain sports. It's an across-the-board problem.

THE PROBLEM isn't new. It goes back as far as a century.

But there has been a reassessment of America's drinking habits lately. Drunken and stoned behavior isn't being tolerated the way it once was - especially when it comes time to get behind the wheel.

It seems our sports stadiums and arenas are among the last bastions of the old anything-goes mentality. This has to stop.

Now, our local sports moguls are probably already pulling out long lists of things they've already done to curb drinking at their stadiums.

Truth to tell, there have been some accomplishments. For instance, we think the decision to sell low-alcohol beer at Tiger Stadium was a good one. We also think it was a good idea to stop vendors from hawking beer throughout the grandstands of some local sports meccas.

Without discouraging continuation of past efforts, we say they are not enough.

WE ENCOURAGE local professional sports teams to experiment with other ways to curb public drunkenness. Earlier cutoff times for alcohol sales are among the items that could be tried. What's the sense of allowing fans to drink all the way up to the final whistle? Or even beyond halftime? We think an hour or two of mandatory sobering up time would clearly help.

As for colleges, there is an alcohol ban already in effect. Enforce it - even if it means confiscating the stuff from alumni as well as students.

But even though we think our sports moguls could do more to cut down on drunkenness at their stadiums, the responsibility isn't theirs

To those who see sports events as nothing . more than an excuse for public drunkenness we have this advice: Stay home. It's cheaper, it's safer and the rest of us won't have to worry about meeting you - head-on - when the game

To the editor:

I would like to correct some misconceptions found in Bill and Denise Schmidt's letter to the editor last Thursday

The Schmidts question the need for a public pool in Plymouth Township Park, saying there are many swimming areas nearby, such as Pinkney State Recreation Area, Murray's Lake Swim Club and Colony Farms Swim Club.

Pinkney and Kensington Metropark are not considered "nearby" for those of us with young children who need to go home for naps, or with elementary schoolers who may swim To the editor: only 1-2 hours and then tire out. These parks are ideal for occasional day trips, but just too far for daily summer fun.

Murray's Lake is a fine swim club. I put my name on the waiting list early summer of 1986 and have not been called yet.

Colony Swim Club does, in fact, have a waiting list. It is a wonderful private club, which costs much more than some of us wish to pay

I'm a member of a pool in Livonia. It costs \$160 per summer, a bargain compared to Colony and Murray's Lake. I would much rather take my children to a local pool to enjoy my friends and neighbors from Plym-

Building private backyard pools is not a "perfect solution." Many people have neither the time nor desire to care for a pool in their yard, but would gladly pay a nominal fee to be able to use a pool in their communi-

ty park. There will always be people who prefer the beach over the pool for summer activity. But as my neighbor said, "At least in a pool you know where the bottom is." If the Schmidts' eyes get "red and irritated from the chlorine," I suggest they

I admire Jane McCourt for spear-

heading the drive for a public pool. Over 600 township citizens have signed a petition to get a millage vote for a public pool on the ballot in November. I strongly suggest anyone who wishes to see this pool built register to vote if they have not already done so. To vote on the Nov. 3 ballot, register by 5 p.m. on Oct. 2 at Township Hall. Then please go out and vote on Nov. 3 for a public pool in Plymouth Township Park. Karen Sierzega,

Stories were both contrived

I would like to respond to two items in your paper on Thursday, Aug. 20.

The first was an article entitled "Air crash lawsuits pending," which referred to a lawsuit that will be filed in conjunction with the recent Northwest plane crash.

There was no substance to this article except for sensationalism and free advertising for the attorneys (addresses and law firm names in-

cluded) mentioned in the article. There have been a number of insensitive and self-serving attorneys who have made themselves known following this tragedy. You helped make this possible by printing this

The editorial entitled "Families deserve time to convey their stories' was inappropriate in two ways. In my professional and personal life, I have never met a person who needed the press to work out grief. I can appreciate an individual's need to talk about the loss, to remember, to eulogize. That is different than suggesting this process necessitates talking

to a reporter. The editor said that Northwest's decision to withhold the passenger list denied the public's right to know who died so that they could go through their own grief process. This suggests a distorted priority.

Is the public's right to know more important than the possibility of releasing a wrong name, thus leading friends and relatives to believe someone had died who had not?

In this age of super-saver coupons, etc., people buy tickets under other names. What could Northwest's motive conceivably be except to verify the names of the passengers?

It seems to me the editor was curious to know who he/she might know on the plane. Weren't we all? Surely this travesty offered enough newsworthy information without contriving these two articles.

Unlocking the secret of a forgotten script

It's been a long time since LeHugh Buzzell entrusted me with the mysterious document that has become a quiet but constant companion.

Enclosed in a blue slipcase, it is actually a long, slender book with a purple cover. The pages unfold accordion-style, sort of like some fancy book you buy for a child for a holi-

For several months now, it has traveled with me from office to briefcase to home and back. Although nowhere is it written within this document, a promise unfulfilled comes with it.

Buzzell, a Livonia resident, turned over this rare document in hopes that I could find someone to unlock the mysteries of its contents.

Sounds intriguing, I thought, and probably easy enough to solve. Well, the challenge has been absolutely fascinating, but easy, never.

THE WORLD War II Navy veteran came across the document quite by accident just after the Pacific war ended. He was serving with the occupation forces in Japan To make room for U.S. Navy forces, Buzzell and a crew of men from the USS Washington were assigned to clean out a base formerly occupied by Jap-

blazoned in gold lettering on the front was a message in Japanese. Above it was a strange, unfamiliar symbol. He later found out it was the official symbol of Japanese Emperor Hirohito.

Curious, the GI queried a few of the Japanese with whom he had become acquainted. Now he didn't know whether this was a laundry list, an inventory of supplies, a menu or a message of some importance.

But he soon found that his inquiries brought curious and sometimes frightened glances.

"We know what it says, but we can't tell you," was the typical reply. Finally, like many others, getting home took precedence over everything else, so Buzzell packed up his seabag, mystery document included, and headed back for the states.

Until recently the document, and

its unknown message, has languished in the bottom of a trunk gathering

AND AFTER more than 40 years its contents remain a secret.

With the influx of Japanese to this area, translating the document would seem a simple task. But like Buzzeil, I have run into some strange roadblocks

Apparently, the emperor wrote in a style unknown to most. So you just don't walk up to the ordinary Japanese businessman and say, "Hey. bud, what's the message here?'

You also run into some different kinds of reactions, kind of like, well, you know, "We know what it says but Sometimes you run into simple silence.

But, LeHugh, stick with me. I'll get to the bottom of this mystery. Let's resolve that before the new year, the secrets of this manuscript will be unlocked for all to know.

Gee, maybe it's a secret plan on how to take over the auto industry from the big three.

Awakening of a library

LOTS OF local folks got bent out of shape when state Sen. Doug Cruce sponsored a bill to stop public libraries from renting out videotapes of old movies

Cruce of Troy was turned off by the notion of a library's renting out Texas Chainsaw Massacre." As a good Republican, he also was unhappy that tax-supported governmental agencies are competing with taxpaying private businesses

Cruce took a lot of abuse, as I said, but he may have been onto something. Did you notice the UPI wire story that made the rounds a week ago? It cited

· Other libraries that lend smoke detectors to vacationing families, offer computer training and provide certification for baby sitters or tutors for homework.

THIS ISN'T MEANT to be a slam against Sen. Rudy Nichols. As politicians' polls go, his is as good as most. better than many.

But it is wise to beware of legislative surveys that are basically designed for two reasons: a) to show that the politician is in touch with his constituency, and b) to make sure that there are no controversial or unexpected results.

Nichols, for instance, is "particularly pleased" that 77 percent of those responding favor his new proposal for financing public schools. That sounds good, but you have to look at how the question was worded, which basically asked if people would support a massive reduction in their property taxes without a corresponding new tax and without any cutbacks to education.

In other words, would you like your tax bill slashed in half? Amazingly, 23 percent said "no."

NICHOLS ALSO noted that survey respondents are in favor of crackdowns on drugs and crime. Big surprise there. What did you expect? That 59 percent of Oakland County residents support an increase of he-

roin use and armed robberies? The drug questions, to be fair, were not so blatantly stated. They Rich Peribera

Basically, this question asks if people think drug abuse is a bad thing and whether they think pushers should be put in jail. It is not approval of a suspension of civil liberties.

There are at least two things wrong with the question First, there is no indication that the respondent is aware of current wiretapping laws or even knows what a magistrate is Second, the question implies that the action - wiretapping - will accomplish the desired result - reducing the drug problem. Old County Building set to reopen

By Wayne Peal staff writer

Restoration of the Old Wayne County building is "on target" for October completion, building archi-

County workers should move into their new offices by Thanksgiving, according a spokesman for project architects Smith, Hinchman and Grylls Associates of Detroit.

'Right now, everything's on tarcompany spokesman Larry Burns said. Contractors are entering the final phase of a 16-month project that aims to restore the 90-year-old building to its past glory.

The granite and sandstone structure served as the county seat through the mid 1950s, when offices were moved across the street to the City-County Building.

The building, bordered by Ran-

dolph, Brush, Fort and Congress, takes up a city block in downtown

It brings a touch of old Detroit to the city's most-heavily revitalized area. The Millander Center is its neighbor to the south. The Renaissance Center is within a block. It's also within walking distance of Hart Plaza and Trapper's Alley.

Workers are completing restoration projects designed to restore the building's antique woodwork and marble floors.

The county executive, county commission and county retirement, personnel, corporation counsel, health and human services and management and budget divisions will all move into the building.

The county executive's third floor office will be directly below the fourth floor office of the county commission chairman.

The old fourth floor board of supervisors meeting room is being re-

stored for the county commission. Only about 120,000 square feet of the 242,000-square-foot building will be used, though architects said that was about what could be expected in

a building that old "Today's buildings are about 80 percent efficient, but that wasn't the case back then," project architect Jeffrey Hausman said "Frequently, you'd find buildings were only 50 percent efficient because of large entryways, hallways and the like."

The building's tiled main entrance will be used as a ceremonial entrance. A new public entrance is being added below the large front stairway.

Though the building draws upon the Italian Renaissance school of architecture, "essentially, it's a pretty eclectic mix," Hausman said.

30-Year ARM

Before you buy or refinance your home, consider the advantages of our Adjustable Rate Mortgage (ARM).

Many of our ARM loan customers have saved a lot of money in mortgage interest costs over the past few years. And, at present interest rates, borrowers are finding our ARM loans to be an even better bargain. The first-year interest rate on our 15-year ARM is now only 7.25% compared to much higher rates on fixedrate loans. What's more, with the 2% annual and 6% lifetime interest rate caps that we have placed on our ARM loans, you'll pay less interest and have greater principal reduction over at least the first four years of your loan.

The lower initial interest rates on our ARM loans result in lower initial monthly payments. And, the lower monthly payments mean that it will be easier for you to qualify for the loan that you need to buy or refinance your home.

So, come to any Standard Federal branch office -and learn more about our ARM loans. We'll help you find the loan that is just right for you.

Dealers will arrive from points throughout Michigan and beyond. One of the dealers, Beth Kohmescher, will travel just a short distance to get to the event.

Kohmescher, a Plymouth resident, shows. is participating in the Antique Mart for the first time this year. She'll be selling her lamps and lamp shades, along with a few pieces of furniture.

Kohmescher has lived in Plymouth for nearly 13 years now. She's gone to Plymouth Symphony League Antique Marts in previous years and is looking forward to being a firsttime participant in this year's event,

scheduled for Friday through Sunday, Sept. 11-13, at the Plymouth Cultural Center.

IT'S BEEN about 41/2 years since Kohmescher started making the lamps and lamp shades. About 90 percent of those she carries are antiques. She also carries a few reproductions.

"Very few. And if I do an antique show, I don't take those," she said. She takes the reproductions to craft

Although she enjoys the craft shows, the antique shows are particularly enjoyable for Kohmescher. for starting to make the lamps. "I She's found the antique shows to be a bit slower in pace.

Artist to appear at benefit event

Family and children mean a lot to Pat Buckley Moss, a nationally acclaimed artist.

So much so that she has agreed to appear at a dinner and reception next week in Plymouth to benefit Straight, Inc., a substance abuse

program for young people.

An original watercolor painting
by Moss of the Mayflower Hotel Hot Air Balloon above the Mayflower II ship in Plymouth, Mass., will be auctioned at the dinner.

Tickets for the Tuesday, Sept. 15, affair, at \$150 per person, can be reserved by contacting Terry Lorenz, benefit chairwoman, at 453-8750.

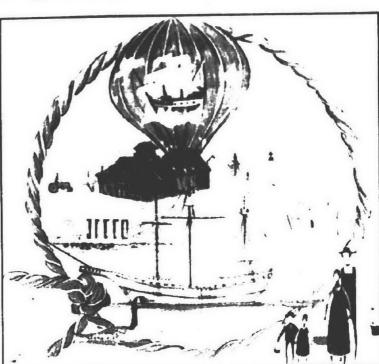

All proceeds from the auction, plus \$100 from every dinner ticket sold, will be donated to the Straight Foundation. Everyone who attends the dinner will receive a signed lithograph of the painting to be

"It helps kids. Short-term programs do not alleviate the problem. The children and parents are totally committed and totally involved," she said.

"I felt we've just got to get people to understand the need for this program. There for the grace of God go I.

It was all by accident. This was not planned

Before she began working on the lamps. Kohmescher had started doing wall stenciling For a while, she did both Although the wall stenciling was good training for the work she does now, doing both became a bit hectic

KOHMESCHER'S partner moved to Wisconsin, Kohmescher decided to continue with the lamps and lamp shades rather than with the wall stenciling

Working at home has been convenient for the Plymouth resident. She doesn't have to worry about the weather and can set her own sched-

"I can still drive for field trips," said Kohmescher, who's the mother of a 10-year-old daughter, Alexis. She's been able to be the room mother for her daughter's class.

"I can still help out at school. I can be here when she needs me. It's been

Working at home is a big help for Kohmescher during times when Alexis is sick or forgets to take her lunch to school. Kohmescher enjoys being at home and being her own boss, although it does have one draw-

"If something goes wrong, you're the only one to blame," she said with

It takes Kohmescher about 21/2 hours to do a lamp from start to finish. She usually works on four or five

The bases are fairly easy to put together, she's found. Cleaning some of the pottery for the antique bases, such as moonshine jugs, isn't always a pleasant task.

"You die at what you find inside them. I go through ammonia like all.

SHE RECENTLY found a beautiful pocket knife inside a jug; she was able to get the knife out intact.

After the pottery has been cleaned, Kohmescher lets it dry.

"The wiring's basically easy." She prefers not to drill the pottery, however; the pottery is fragile and can

be damaged in the process. "I hate to lose the antique value on

For the lamp shades, Kohmescher starts with a cardboard pattern that's traced onto colored lamp shade paper. The design's usually put on the backside of the paper.

These bears have plenty of light to see by for their tea

A graphite paper, similar to carbon paper but not as messy, is used for tracing. Kohmescher then uses a piercing tool on the lamp shades. She uses an Xacto knife to do the cutting; some artists prefer to use manicure scissors, but she's found the Xacto knife works just fine.

The shade can then be lined; Kohmescher lines most of the lamp shades except for the fabric ones. The shades are then put on the rings and trimmed.

Kohmescher's daughter likes looking at the lamps, as do other chil-

She loves them. They seem to fascinate the children." Kohmescher's found that men also like the lamps and lamp shades.

Sometimes, Kohmescher receives quantity orders. Like anything else, that means some pressure is on.

"I really don't. I enjoy doing them

The Plymouth resident loves antiques; her work allows her to buy antique items and then put them to

"So this gets it out of my system."

These days, Kohmescher doesn't have much trouble seeing the lamps leave once she's finished work on them. That was more of a problem when she was starting out.

"It's hard, but I do it." Prices for a combined lamp and lamp shade are in the \$20 to \$65

"They're not expensive, really, to do. They're just time consuming.

Mart offers a variety of antiques

The 25th annual Antique Mart of Mart all three days. the Plymouth Symphony League will offer something for everyone.

The Antique Mart will be held Friday through Sunday, Sept. 11-13, at the Plymouth Cultural Center, 525 Farmer St. Hours will be 11 a.m. to 9 p.m. Friday and Saturday, noon to 6

Donation is \$2 for adults, \$1.50 for students and senior citizens.

A preview reception will be held from 7:30 to 10 p.m. Thursday, Sept. 10, at the Plymouth Cultural Center. Ticket price is \$10 per person. Wine and hors d'oeuvres will be served. (For reservations, call 455-3199.)

Those attending the preview reception will be able to buy items that evening: a silent auction will also be held at the reception. The \$10 price for the preview reception is also good for admission to the Antique

ALL PROCEEDS from the Antique Mart will benefit the Plymouth Symphony Orchestra. The Antique Mart is the single largest fund-raising project the Plymouth Symphony League sponsors each year.

At this year's event, 22 dealers will display a variety of antiques and collectibles. Primitive furniture, caned and rush seat chairs, china, ironstone, Doultons, American brass and copper will be featured.

This year's Antique Mart will also feature children's miniatures and toys, baskets, country antique accessories and Heisey glass.

"We have six new dealers," said Sherri Lewis, co-chairwoman for the Antique Mart. "We are excited."

Food from Connie's in Plymouth's Old Village will be sold each day at the Antique Mart. Sandwiches (corned beef, turkey and chicken salad), beverages (beer, wine, soft drinks, coffee), chips and chocolate cake will be available.

This is the first time deli food has been served at the fall show, said Lewis, who's working with Peggy Blaisdell as co-chairwoman. Food was served at last winter's Plymouth Symphony League antique show, held during the Plymouth Ice Sculpture Spectacular.

"That was very successful last year." Lewis said of the winter event. The winter show will once again be held this coming year.

NO SPECIFIC fund-raising goal has been set for the fall event, although those involved hope to top the previous year's total each year. Last year's three-day attendance was between 3,400 and 3,700 people.

"We're hoping for a real good crowd," Lewis said. Attendance in previous years has been steady throughout the event and has been particularly strong on the first day.

The weather could help boost attendance at this weekend's Antique Mart. The Plymouth Cultural Center is air-conditioned and is a good place for those attending the Plymouth Fall Festival to cool off, Lewis said.

A number of local residents have worked on the 25th annual Antique Mart. In addition to co-chairwomen Peggy Blaisdell and Sherri Lewis, others are: Sue Decker, Sharon Kania and Marlene Ciofani, dealers; Cathy Kirkpatrick, treasurer; Sue Konovaliv, deli; Pam Anderson, programs and posters; Ann Talbot, hostesses; Mary Thomas, setup, cleanup and costumes; Lura Hanschu, reception; Pat McCombs, publicity.

The Gracious Alternative

Someone you love is growing older and needs just a bit more support than he or she can get in their current living situation. A nursing home isn't the answer. Normal activities like eating and dressing aren't a problem. But you would be happier knowing someone was there to provide gentle encouragement and firm support when needed, in a non-institutional atmosphere. The answer is The Plymouth

Inn, a magnificent residence for seniors who want their independence but need some supervision as well. Consider some of the many advantages:

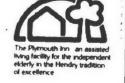

- · Spacious mini-suites for those who desire extra comfort and privacy.
- · Deluxe semi-private accomodations, richly appointed, with private lavatories and showers.

- · Easily accessible via 1-96 and I-275; only 30 minutes from both downtown Detroit and the northern suburbs, including Farmington Hills, Birmingham and West Bloomfield.
 - Tranquil landscaped grounds and lovely common areas.
 - Three delicious meals served in our central dining room by a friendly, attentive staff of professionals.
- Extensive, varied social programs and recreational opportunities.
- · Game room, chapel, beauty parlor and lounges, all designed with the special needs of our residents in mind.

The Plymouth Inn welcomes your inspection visit. When you see what we have to offer we think you will agree that

The Plymouth Inn is a very special place where your loved one can feel secure, yet independent. We invite you to call today for an appointment.

'An eye for an eye' clouds our vision

A FRIEND told me about a conversation he had with his son. My friend's son occasionally enjoys taunting another person. He wants to see whether the other will back off or will fight. The father warned his son that he could get in serious trouble because if you are dealing with a stranger he may be carrying a weap-on. The son's reply was, "I can tell those kind."

The father then told a story about himself. A car cut in front of him. He had a few words for that driver. The incident ended with both he and the other driver getting out of their cars and trading some harsh words.

A Detroit newspaper recently printed the story of Ronald Ebens, the man who killed Vincent Chin. Ebens beat Chin to death with a baseball bat. Ebens is quoted as saying, "If he (Chin) hadn't started it, he'd still be alive.

The most primitive level of morality is retaliation in kind, an eye for an eye, a tooth for a tooth. Too often today we hear of an incident that reflects this morality. A person cuts in front of me with his car. I'm going to show him. I will flip on my high lights or ride up on his bumper. The reaction may occur without thinking about the results.

EACH OF THESE reactions is an escalation of violence. Wars are fought for such reasons. We need to realize that retaliation is a most primitive level of morality. We must curb our reactions by the knowledge that we do not wish to be drawn into this kind of morality.

A person wields power when they force the other party to respond in like manner. If I curse you and thereby incite you to curse me back, I have effectively exerted my power over you. If I curse you and you choose to respond in a different way then you have retained control over your response.

When we retaliate to another person's affront we are simply joining him at his level of morals. As a result our self-esteem is lowered. We are no better than the person who "started it."

The person of Christian or Jewish faith cannot respond to an attack of this kind. We acknowledge a God who is loving and forgiving toward us. If we follow this God we must relate in like manner towards others. Forgiving, letting someone pass, staying clear, these are ways to practice a higher moral life.

We must identify retaliation for what it is: a most primitive form of violence. I have heard a religious leader defend the idea of "an eye for an eye" as scriptural and right. Such people miss the centrality of love and forgiveness in our religious heri-

RETALIATION often escalates to the point where the enemy is seen as one we must be rid of. The desire to be rid of the other person ultimately leads to murder. Retaliation is usually the way this escalates, as in the Vincent Chin killing. This incident was clearly reprehensible, but the excuse of the killer is "he started it."

Our society badly needs to examine this issue. We see an increase in violence that escalates with the idea of retaliation. I believe that violence is now the No. 1 problem in our American society. We tolerate violence. We excuse violence. We make few attempts to teach our children about the causes and reasons for the massive violence we have experienced in our lifetime.

It is our religious and our human duty to address this problem. We can begin by calling retaliation what it is: a primitive form of violence.

The Rev. David Strong is the pastor of St. Matthew United Methodist Church in Livonia.

Michigan colleges and universities reviewing their undergraduate requirements. Others include Western Michigan University, Saginaw Valley State College and Ferris State

About half of 400 colleges surveyed earlier this month indicated they had recently completed a review of their curriculums, and most of the rest were in the review process, according to the American Council on Education.

"Most colleges were trying to strengthen their general education components and put new emphasis on writing, math and computer-related skills," said Elaine El-Khawass, vice president for policy analysis and research for the education council.

At Michigan State in East Lansing, a review board is considering whether students should take a capstone course before graduating to

test their understanding of the relationship between different subjects.

In addition to emphasizing the basics of reading, writing and arithmetic, educators say critical thinking is a key to success.

At Wayne State University in Detroit, new students this fall will be required to take history, humanities, social studies and science courses or pass equivalency exams testing their general knowledge in those areas. Before graduating they must pass courses or tests demonstrating their knowledge of writing, oral expression, math and computer usage.

'We're not really stating the requirements strictly in terms of courses," said Marie Draper Dykes, associate vice president for academic affairs. "Our concern is that they demonstrate the competency. We suspect many of the students will take the tests or other options to

Gary Klotz: "I think drug testing will become common and accepted as a pre-employment tool, and you are going to see some use in

some industries after accidents or in periodic physical exams."

Troy lawyer writes drug testing manual

By Carolyn Carman special writer

Alcohol and drug abuse in the workplace, along with the controversial issue of drug testing, is fast becoming a major concern of employ-

Michigan employers now can find advice and guidelines on these issues in a book called "Combatting Alcohol and Drugs in the Michigan Workplace: A Handbook for Michigan Employers," written by Troy attorney Gary Klotz.

"Two years ago we had a client that wanted to do a drug testing program," Klotz said. "I researched to learn more about the topics, and my interest grew out of that."

The book, written in layman's language for the Michigan State Chamber of Commerce, was published in

"The first printing has already sold out, and we are only in the beginning of the promotional compaign," Klotz said

"It is the only book on the issues written specifically for state employers in light of Michigan law," Klotz said.

"The book is aimed at business people and personnel officers responsible for developing alcohol and drug plans, including drug testing programs," Klotz said.

ONE FOCUS of the book is drug testing, including how and when to test and what to do with positive test results.

'The whole area of drug testing is fraught with potential legal hazards for employers," Klotz said.

Does he believe in drug testing? 'In limited situations, it can be helpful," Klotz said.

He called it a helpful tool for personnel departments to screen out drug users from the work force and said testing current employees may have a deterrent effect on substance

abuse during the workday. Klotz says he does not believe a positive drug test can be used alone as evidence without the independent evidence of on-the-job usage like eyewitness accounts, or the employee's lack of coordination and mental

"But I don't recommend it for all companies," he said. "The companies that have adopted it most frequently are manufacturing fields where there is a concern for safety on the job."

Klotz says another area where we may see more drug testing is jobs where public safety is involved such as police and firefighters, nuclear plant employees or truck and bus drivers

"I think drug testing will become common and accepted as a pre-employment tool, and you are going to see some use in some industries after accidents or in periodic physical exams," he said.

BUT HE BELIEVES the use of random drug testing will diminish because of the legal ramifications.

"It is unconstitutional for public employees and for private employees. It is simply unfair," he said. 'Labor arbitrators have come to that conclusion.

The book also tackles legal and employee relations considerations

applicable to work rules regarding substance abuse, disciplinary measures and investigative alternatives to drug testing, Klotz said.

The phrases "impaired by" and 'under the influence of" alcohol are defined, as well as "impaired by" and "under the influence of" drugs.

There is also a workbook that assists an employer in assessing his her substance abuse policy and procedure needs.

It helps an employer tailor a program of lawful and effective policies and procedures based on company needs. Some of the headings include drafting alcohol and drug rules; developing a drug testing program; policy considerations; and investigating suspected alcohol or drug in-

"The purpose of the workbook section is to guide employers in the process of establishing new policies or reviewing existing ones," Klotz said. 'The book also contains a series of sample policies and forms."

Klotz has been with the Troy law firm of Keywell and Rosenfeld since graduating from the University of Michigan Law School 10 years ago. He lives in Troy with his wife and two daughters, ages 4 years and 11

Hills man paces stock contest

With a little more than a month left in the National Association of Investor's Corp. stock contest, Investor's Quotient, a Farmington Hills' man was narrowly leading the pack of 879 entrants.

James Arrison's selection of Activision from the NAS-DAQ stock exchange resulted in a 167 percent gain to \$2,666 as of Aug. 27. The stock, which made up Arrison's entire portfolio, was valued at 75 cents at the beginning

The contest, in cooperation with Observer & Eccentric Newspapers, challenged readers to select a fictional portfolio worth \$1,000. Winners will be those whose portfolios show the greatest growth (exclusive of dividends) over the contest period. Deadline to enter the contest was June 28. Contest results will be based on the published closing quotes of stocks on Sept. 25.

Michael W. Lynn of West Bloomfield occupies second place. Also placing his money on a single stock, he chose Viratek from NASDAQ. The stock's value has risen 164 percent; it sold for \$11 at the beginning of the contest.

Tied for third place are Randy Pitler of West Bloomfield and Ronald Schmidt of Canton Township. Both seected the same stock at the same price - International Thoroughbred Breeders from the AMEX exchange. It sold for 11/16 and has risen 133 percent.

In fifth place is Debby DiLalla of Livonia who selected Beltauf from NASDAQ. Purchase price was 1%, and it has gained 109 percent.

First prize is a weekend for two to New York City including airfare, accommodations and a tour of the New York Stock Exchange. Three second prizes of a weekend at the Westin Hotel will be awarded. Subscriptions to Better Investing magazine, the NAIC monthly publication, and Observer & Eccentric Newspapers are the third- and fourth-place prizes, respectively.

The results through Aug. 27 were compiled by Sally Janke, an investment club member. She used the closing stock prices listed in the Wall Street Journal. Stock contest winners will be announced at NAIC's national convention to be held Oct. 14-17 at the Westin Hotel in De-

Tape cassettes offer businesses learning made easier

learn that exists today

how else can I benefit by the advice of experts without sitting somewhere and reading a journal or magazine"

What's all the commotion about? Tape cassette learning, that's what

The first time I was given a "boring tape' (as I referred to it back then), it was presented to me by a business associate who was shocked at my lack of familiarity with this popular learning tool

"AFTER ALL why should I want ing."

"It's probably the best way to that's going to require that I think arn that exists today about it." I had argued It was bad enough that I had to read through 20 business publications a month, let alone begin using my car or Walkman as a portable classroom.

After being pestered by my associate for several days, I finally played the tape during an evening walk. I knew I was hooked when I took the long way home in order to finish listening to both sides of the cassette.

The world is slowly beginning to realize that the greatest invention since writing is tape cassette learning. says Arnold "Nick" Carter, to spend time listening to something vice president of communications

focus: small business

Mary **DiPaolo**

NIGHTINGALE-CONANT is the world's largest audio cassette production and distribution facility with

research at Nightingale-Conant earnings of \$35 million during fiscal year 1987

"The concept isn't new," Carter said. "Earl Nightingale founded the industry way back in 1956 by happy accident. He had bought an insurance agency and was giving weekly pep talks to motivate his agents.

"While planning an extensive va-cation, he was asked to leave recorded messages for the agents to listen to while he was away. The Strangest Secret' resulted in an overwhelming demand by the agents to share Earl's message with friends and family."

BEFORE LONG, Earl had recorded his messages on 10-inch records and within one year was selling up to 2,000 records per week.

"Right now we handle only the best," Carter said. "We've got Buscaglia, Waitley, Dyer, VanCaspel and Tracy, just to name a few. When

people are given the chance to dialogue with some of the greatest minds in our world today, how can they not take advantage of the opportunity?"

Investment Management and Research, a major brokerage firm in St. Petersburg, Fla., has some good advice for investors comtemplating investing in convertible bonds. Here are some pointers.

tor: For the investor who doesn't ally? have a feel for the way the market is going, who does not want to shut himself or herself out of capital appreciation, but who is scared by the increased volatility of the market, convertible securities represent a middle-of-the-road option. The yield spread between convertibles and long-term bonds (1 percent to 4 percent) is minor considering the appreciation potential

Income-oriented investor: Convertible bonds have an advantage over equities in that they are more income-oriented than most stocks Changes in the tax laws have made income securities more desirable because both income and long-term capital gains are now taxed at the highest marginal tax bracket.

tion: Convertibles offer protection against loss of purchasing power. In an inflationary environment, a straight bond holder loses. With a convertible bond, the client has the possibility of capital appreciation primarily because the bond is convertible into stock.

Middle-of-the-road, hesitant inves- How attractive are convertibles, re-

John Calamos, President of Noddings, Calamos Asset Management Inc., developed the accompanying

The table clearly suggests that, if conditions are right, convertibles can provide a return higher than what you may receive from a common stock. However, the conditions must be right.

In this example, convertibles came into being in Nov.1984 when IBM acquired Rolm Corp., a major corporate merger, which provided the impetus for the appreciation of the convertible

Thomas Noddings, author of Low Risk Strategy for the High Performance Investor (Probus; \$22.,50, published in 1985), studied the price Income investor afraid of infla- movement of 10 convertible issues

compared with their underlying stock

He found that, on average, the convertibles offered about % the upside opportunity of their common stock (77 percent vs. 100 percent) at about half the risk (-23 percent vs. -50 percent). In addition, the bonds offered a yield advantage of about 5 percent over the stock

How to buy them

Most convertible bonds have a par value of \$1000 at a maturity and are listed on the major exchanges. They are listed in the bond tables published in newspapers with the notation "cv". However, in order for you to find out how many shares of stock each bond represents, you would either have to call your stockbroker or consult such statistical reports as Lipper Analytical Services, Weekly Convertible Analysis Report, or Val-

ue Line Convertibles. Usually, it costs less in commissions to buy the bonds than the underlying stock, but there may be a transaction charge when you convert the bond into

Mutual funds are another alternative. Until 1984 there were only four mutual funds offering convertible securities. Lipper Analytical Services now follow 24 mutual funds that concentrate on convertibles

An important warning

Convertible bonds are complicated investment vehicles. Therefore. careful analysis must be undertaken to select those which have the best combination of stock and bond characteristics. Even more important, only your financial planner can determine if a convertible belongs in your investment portfolio. Consult an informed financial planner today

geance or principle," he said. "People try to work out their problems with companies they purchase goods from, and when they don't proceed through the right avenues and become frustrated, they realize a lawsuit is the best way to get a company's attention. And it usually does."

HOTELLING IS concerned with finding solutions to the liability insurance crisis gripping Michigan's small businesses. Unlike Willoughby, it is Hotelling's belief that the insurance companies are at fault.

"Liability is not a new problem. Rates have gone up in waves, I think, because insurance companies investments have gone down," he said. "The study should give us an inkling of whether poor investments or the awarding of huge judgments against small businesses is the reason for these high premiums.

N A BIG METRO AREA, it's rare for a person to have the same good neighbors for more than 25 years. It's really rare for a radio personality to stay on the air in the same metro area doing the same radio program for more than

Genteel and eloquent radio per sonality Bob Allison of Bloomfield Township is that rarity. For more than 25 years, he has been hosting "Ask Your Neighbor," currently heard every weekday from 10-11:30 a.m. on WEXL (1340 AM), Royal

"Ask Your Neighbor" is much more than a simple information program with a talk show host listening to callers.

"It is essentially an electronic back fence or an electronic coffee klatch," Allison said at a recent informal interview over lunch. "We have a very huge living room in which everybody wanders in and out every day and has coffee and talks with old friends."

The format has changed little from the day it premiered - Feb. 25, 1962, on WWJ. Allison is the neighborly host, who talks with callers from all over the metropolitan area, covering "common household problems and recipes."

"THE CALLERS are the experts, and the questions come from the callers. So the host sits in the middle, and the caller asks a question of how to do something, where to buy some-

gained many loyal listeners and callers, such as Great Grandmother Helen: Sunny, the Cheesecake Expert; and Helen, the Cookie Lady. Allison said that no one has yet overstayed the welcome by calling every day or monopolizing the program. Allison doesn't rush his callers, however. "We have the time to develop things. And we do. Doug Vergari is one of several outstanding runners at Salem, but the Rocks need to develop more depth to complement their top talent.

Chiefs boast quality depth

By Dan O'Meara staff writer

Depth is a key in any sport, but its importance always seems to be most obvious in cross country.

One team might have one or two outstanding runners who can always be expected to finish at the top, but that team is usually at the mercy of an opponent with better balance.

That was the case Tuesday as Plymouth Canton placed six runners between the Nos 2 and 3 runners for Plymouth Salem and defeated the Rocks 25-36 in boys cross country at Cass Benton Park.

Bill Atwell and Doug Vergari gave the Rocks first (17:12) and second (17:33) places, but the Nos. 3-8 spots belonged to Canton runners.

AS EXPECTED Jay Swiecki paced the Chiefs, being their first runner across the finish line in 17:48. Swiecki, a senior co-captain, continued his early-season progress and is just 17 seconds off his best time of a year ago.

He and fellow senior and co-captain Al Byrnes are the key figures on a Canton team that was 7-1 in dual meets and won the Western Division crown in the Western Lakes Activities Association.

"The reason we were successful was our depth," Canton coach Jim Hayes said. "Jay and Al are going to be our leaders, but we have a nice group of five-six kids."

The Chiefs graduated Bart Hall, Dean Juergens and Ron Ziemba, but they have 10 runners back with varsity experience.

SENIORS BOB Beebe, Chris Way, Bob Mayes and Kurt Roessler, juniors Brian Callon, Jim Gallagher and Brad Hibner and sophomore Matt Hall provide Canton with plenty of depth.

In Tuesday's meet, Hall was fifth (18:19), Beebe sixth (18:26), Callon seventh (18:29) and Roessler eighth

cross country

(18:35

Hall is 24 seconds away from his best time of a year ago, Beebe ran seven seconds faster than he did last year and Callon, who had a knee operation late last year, turned in a time nearly 1½ minutes better than his 186 best

Roessler may be the biggest surprise of all. He is a ways from his personal best of 17:39, but he began this season with knee trouble and was behind the rest of the veteran runners. However, he has made rapid progress in a short time.

"OUR GOAL is to get eight-nine guys running with our third guy," said Hayes, hopeful the Chiefs can repeat last year's success.

"Our season is going to be typical of Canton, and that's hard work and continued improvement from the three runner on down. Of course, we don't want to lose a Jay or an Al, wither

"We should be fine," he added.
"These kids work awful hard. You
don't get successful by just wishing.
The race is too long.

"We're going to be right there (in the division race). Last year we won a few close races, and the opposite could happen this year. It's that close."

ATWELL WAS Salem's top runner last year and will be again, with a chance to break his school record of 16:21.

"He'll be pushing that again," Rocks coach Geoff Baker said. Atwell also was 22nd in the Class A individual race.

Jay Swiecki figures to be Canton's top runner in most meets this fall. The Chiefs have a host of others to support his efforts.

Victory was anticipated by Chiefs — but 63-12?

staff writer

Everyone at Plymouth Canton assumed the Chiefs would beat Willow Run Saturday night in both teams' varsity football opener, but no one thought Canton would crush the Flyers as they did.

The Chiefs scored a school record 63 points en route to a lopsided, 63-12 victory.

"It was real good to start this way," said Canton coach Bob Khoenle. "It's always nice to start the season with a win. I've been here 11 years, and I've never seen this many (points)."

Overall the Chiefs totaled 473 yards, including punt and kick returns. On the ground, the offense churned up 193 yards while the aerial attack netted 76.

SENIOR halfback Roger Trice scored three touchdowns and rushed for 92 yards on eight carries in pacing the offense, and he also returned a punt 65 yards to paydirt. Including rushing, punt and kickoff returns, Trice had a 212-yard night.

"(Trice) put some real nice moves on those kids," said Khoenle. "He has so much natural talent.

"He has good speed and good feet. He's just a natural runner. We have some other good runners on the team,

but Roger is the guy that sparks us."

Senior halfback Joel Riggs is one of those other good runners. Riggs carried four times for 34 yards and scored on a 9-yard run from scrimmage and a 60-yard punt return.

THE CHIEFS took control early, scoring the first 28 points of the game.

Trice scored on the sixth play, staking Canton to a 6-0 lead. After the defense stopped Willow Run in three plays, Trice returned the ensuing punt.

The defense again stopped Willow Run, and this time Riggs returned the punt.

On Willow Run's next drive, Canton's Mike Flynn recovered a fumble at the Flyer 25. Five plays later Scott Browne did the honors from 9 yards out.

SOPHOMORE place-kicker Mike Krejcar added the PAT each time as Canton marched up and down the field at will.

football

The Flyers scored on a 40-yard halfback pass midway through the second quarter, but an attempt at a two-point conversion stalled at the line.

Trice danced in untouched from 2 yards out on the Chiefs' next possession. Defensive tackle Jim Crews then recovered a Flyer fumble at the Willow Run 12, setting up Trice's final TD of the game. Krejcar's PAT made it 42-6 at the half.

The second string took over in the second half.

WILLOW RUN scored its final points of the game early in the third quarter on a 19-yard pass.

Moments later, after Riggs returned a punt 36 yards to the Willow Run eight, junior halfback Kevin Stackpoole plowed in from the 2-yard line.

Backup quarterback Scott Swartzwelter added a 10yard TD early in the fourth quarter, and Stackpoole scored his second TD of the evening on a 4-yard dive with just seven minutes remaining in the game.

Krejcar was perfect on seven extra point attempts while backup place-kicker Sam Trajcevski added two of his own.

THE DEFENSE also dominated Willow Run, limiting

the Flyers to 152 yards total offense.

The Flyers were forced to punt four times, lost the ball twice on fumbles, were intercepted by senior line-backer Brian Detrich and lost the ball on downs three times. They scored twice in just 12 posessions.

"We like to think our defense is strong and it's going to get better," said Khoenle. "The mistakes we made are correctable. We got caught on a couple long passes, and that may be because the score was so lopsided. Maybe the kids just got a little lackadaisical."

The Chiefs will have their hands full Friday when they play host to seventh-ranked Westland John Glenn. "Glenn is a good, solid football team," said Khoenle. "We're really going to be put to the test.

"We plan to go after them and beat them. We'll have to play good ball, but that's what we're hoping to do."

Bullets win under-16 soccer title

The Livonia Bullets blanked four opponents last weekend en route to the Girls Under 16 Division title in the Bay Village (Ohio) Challenge Cup.

The Bullets, members of the Illitch Division of the Little Caesars Premier Soccer League, defeated the Troy Blue Streaks for the crown,

They reached the final by defeating host Bay Village (10-0), Windsor, Ont. (2-0) and the Livonia Panthers (4-0).

Goalies Dana Keller (Livonia) and Raschelle Jager (Burton) combined on the four shutouts.

Other members of the team include Denise Raphael, Lori Place, Francesca Priebe, Stephanie Speen, Christina Garry, Alyssa Belaire and Lori Godlewski, all of Livonia, Carrie Bowler, Redford, Michelle Geyer and Susan Gibson, Farmington Hills; Amy Goode, Karen Cavanaugh and Michelle McQuaid, Northville; Natalka Litkewycz, Brighton; and Mia McGinty, Dearborn.

Five of the six Livonians are freshmen at Churchill High School.

The Bullets, coached by Dennis Place, will travel next month to the Washington (D.C.) Area Girls Soccer Tournament.

THE WOLVES '77 boys soccer team, coached by Rick Hamers, captured a Labor Day Weekend International Soccer Club by blanking five straight foes in Akron, Ohio.

A PLYMOUTH HIGH SCHOOL FLASHBACK

In September of 1970, Plymouth Salem football coach Tom Moshimer moved a journeyman tailback Greg LaMirand, a 6'1" senior, into the starting quarterback position. Against rival Northville High in the opening game of the 1970 season, LaMirand, making his first start a Varsity QB threw 3 TD passes to glue-fingered 6'4" senior Charley Wolfe. That performance plus the durable running of Capt. Ed Scott, Don Chopp and Carl Huter enabled Plymouth to blitz Northville 36-8 and capture the Silver Bell emblematic of football supremacey in the rival between the two teams. It also marked the last time ever the Silver Bell was up for grab.

GOV. BLANCHARD has declared the week of Sept. 13-19 as Conservation Officer Awareness Week It coincides with the centennial of the Michigan Conservation Officer

On March 15, 1887, then governor CG Luce appointed Grand Rapids resident William Alden Smith as Michigan's first game and fish warden. Through that appointment Michigan became the first state in the union to employ a full-time, paid game and fish warden Although the first game laws were enacted in Michigan in 1859, up to 1887 they were enforced by sheriffs and local constables. Upon his appointment Smith appointed 143 deputy wardens who were paid by the counties

In those early days game and fish wardens received complaints through the mail and responded by foot, horseback, buggy or train.

In 1921 the Conservation Department - forerunner to the Michigan Department of Natural Resources - was established, and there were 160 full-time game wardens. They each covered areas of about 600 square miles and were paid \$2 50 a day plus expenses

Second-year coach George Przygodski's team has yet to run against its division rivals in the Western Division of the Western Lakes Activities Association, but Canton already is 3-0 in dual meets, having defeated Plymouth Salem and Ypsilanti in a triangular meet Tuesday at Cass

The Chiefs have everybody back from last year's team, too, and will once again be led by sophomore Lori Penland, who took first place Tuesday with a 21 15 time.

'One of our goals is to win the dual-meet championship," Przygodski said. "That's what we shoot for every year, and, when you have as many girls as we have coming back, I think we have a fair chance of doing that.

"AND, WHENEVER you have a successful program, you have a chance to win the conference championship, and that's one of our goals,

Others who will play important roles and provided scoring help Tuesday are junior Linda Schendel (third, 21:58), senior Angie Miller (fifth, 22:57), sophomore Cathy McCabe (sixth, 23:03) and senior

Sherry Sweeney (seventh, 23:09). Penland will again be the team's No. 1 runner, and Schendel, a firstyear runner who was fifth best in the WLAA two-mile last spring, has

demonstrated her capabilities. With junior Cindy Spessard, who is out with an injury, the Chiefs have three outstanding runners. MSU's Krumm recovers from early miscue on punt

staff writer

It was a moment Todd Krumm had long awaited.

His Michigan State football team took the opening kickoff and marched 65 yards for a touchdown against University of Southern California Monday at Spartan Stadium. Then Krumm and his defensive mates took to the field and stopped the Trojans without a first down. forcing a punt

Momentum, which sided with the Spartans before the opening kickoff, was mounting even more in their favor. As Krumm dropped back to receive the USC kick, he knew they could build an early advantage so great the Trojans might never regroup

There we are, playing on national TV." Krumm said later. "everyone watching, a big game

SO WHAT HAPPENED? Krumm couldn't say for certain, but he sure didn't do what he was supposed to do. He never really fielded the punt. It slipped through his outstretched hands and bounced away and was recovered by USC's Tracy Butts at the MSU 21. Six plays later the Trojans had narrowed the gap to 7-3 on a 23yard Quin Rodriguez field goal

Whatever momentum the Spartans had gained on their opening drive seemed lost, thanks to Krumm's bobble. Such a mistake might have knocked the selfconfidence out of a lesser player. Krumm, though, reacted quite differently.

"After I dropped that first punt," he said, "I settled down. I realized everyone makes mistakes."

The senior free safety made few after that. He spearheaded a Spartan defense that bottled up USC, limiting the Trojans to 61 yards rushing and six points until the game was a sure win for MSU.

Krumm's performance after his early fumble was strong enough to prompt Spartan coach George Perles

to say, "With that big interception and the number of tackles he had. I'd have to say Todd Krumm was anoth-

KRUMM MADE several key plays, but two that stood out robbed USC of touchdowns. Early in the second quarter with MSU ahead 10-3, the Trojans were at the Spartan 5-yard line. Quarterback Rodney Peete dropped back and fired a pass for Randy Tanner in the right corner of the end zone, but Krumm reached out and knocked the ball down. USC had to settle for a field

The West Bloomfield grad then washed out any hopes the Trojans might still have entertained in the final quarter. Peete drove his team from the MSU 43 to the 11, where on first down tailback Scott Lockwood took a pitchout and drifted back for a halfback option pass.

Krumm knew it was coming. "They ran that play every single game last year," he said. "For a free safety that's an easy read."

Krumm slid in front of the receiver Lockwood was throwing to, Erik Affholter, and picked off the pass. The threat was over.

After his shaky start, Krumm finished well. He had six tackles (five solos) and showed he deserved his nomination as a candidate for the Jim Thorpe Award, presented annually to college football's top defensive back. Krumm is one of 29 players so honored; midway through the season, that list will be trimmed to 10.

Should Krumm - who was also drafted by the New York Mets last spring and is still strongly considering a pro baseball career — be honored as the nation's top defensive back, he'll have earned it. Against USC, Krumm not only played every down defensively and returned punts, but covered kickoffs as well.

"I don't think I left the field," a very weary Krumm said afterward. "I'm going to feel it, I'm tellin' you."

But probably not as much as the Trojans.

Rice grad opens holes for MSU ball carriers

By C.J. Risak staff writer

Moments after Michigan State had dominated University of Southern California in both teams' football season opener, witnessed by a crowd of nearly 78,000 and millions more on national television, Spartan coach George Perles matter-of-factly recited the reasons for the victory.

"Lorenzo (White) ran for over 100 yards, Blake (Ezor) ran for more than 50 yards, Bobby (McAllister) ran for more than 60 yards.' he said.

It was a key statistic. A year

ago, the Spartans were unable to mount a consistent running attack, mainly because White - a preseason Heisman Trophy candidate was hobbled by injuries. It showed in the cumulative first quarter scoring in '86; MSU was outpointed

On Monday, MSU outgained the Trojans on the ground 238-61. And the Spartans outscored them, 10-3, in the first quarter.

Without doubt, if MSU can assert itself offensively early in its games, it will have a successful season. And to establish itself earfootball

ly, the Spartans must run the ball effectively.

"I KNEW we could run," said the newest starter on the MSU offensive line. Indeed, Bob Kula - a 6foot-412, 269-pound West Bloomfield native and Birmingham Brother Rice grad - was the only newcomer on the offensive front.

Monday's nationally televised game was not the easiest stage on which to debut. "It was different," Kula said. "But I calmed down after the first hit and played my

Kula and his teammates knew how important it was to get off to a good start against USC. "We wanted to drive, drive and score," he said. The Spartans did just that, going 65 yards in nine plays following the opening kickoff. They never did trail in the game.

"Everything was working well," said Kula, who earned himself a starting role in the spring.

'After spring ball, I spent a lot of time in the weight room," he said. "A lot of time. And I did a lot

of running." The sophomore's work paid off. he increased his weight from 258 to 269, and his bench press went from

AND YET, there's more work to be done. "We've got a great team," said Kula, then added, "But the biggest time for improvement is between the first two games. The next game (Sept. 19 at Notre Dame) I'll know what to expect. I won't be as nervous."

If Kula was intimidated at all against USC, it didn't show - during or after the game. Asked if any of the Trojans impressed him, like linebacker Marcus Cotton, an All-America candidate, Kula replied:

"He didn't impress me at all He's just a big talker. I think we got his goat early on."

Should MSU's offensive line continue to assert itself like it did against USC, it will be leaving lasting impressions throughout the Big

OU sports

Before the start of the season, Oakland University's soccer team was supposed to be strong defensively (all but one starter back), but inexperienced offensively (top three scorers gone).

And going into last weekend's Lock Haven (Pa.) Invitational, the Pioneers were expected to have the biggest problem with the host team.

'Course, that's why they play these garies. OU's defense, weakened by irjury and a questionable red card to senior starter Brian Fitzgerald (of Southfield), was victimized by East Stroudsburg in Saturday's opener 3-2. The Pioneers rebounded with a strong defensive effort against Lock

Haven Sunday, forging a 0-0 tie. In the loss to East Stroudsburg, OU played a poor opening 15 minutes and it cost them a goal. Ken Wilson got it - his first of two with Brent Festenmacher assisting.

The Pioneers evened it with just

1:03 left in the opening half. Earl Parris crossed the ball to Alan Stewart, who chipped it to freshman Sel

Eren for the goal. OU was playing without starting defender Mikael Carlstrom, who pulled a hamstring muscle in the opening half. The Pioneers then lost Fitzgerald midway through the second half when he was given a red card for taking down an East Stroudsburg player roughly. Fitzgerald did not get a yellow card.

It took East Stroudsburg just 35 seconds to capitalize on its man advantage, and again it was Wilson doing the damage. This goal came after a throw-in to Festenmacher. whose shot rebounded off OU keeper Vince Aliberti to Wilson, who con-

getting the equalizer with just 2:18 later. The scoring play started with a corner kick by Yong Song to Simon Mayo, whose header was blocked but dribbled to Erik Enyedy (from Southfield), who drilled it past the

The game appeared headed for overtime - until, with just 1:58 left, Festenmacher got off a hard shot. OU defender Matt Parkovits deflected it, but the ball went in for the game-winning goal.

The loss seemingly put the Pioneers in serious trouble going into Sunday's game with Lock Haven. Fitzgerald was forced to sit out because of his red card, and Carlstrom went to the sidelines after 10 minutes with his injury.

All parents want what's best for their children. We want them to be happy. To do something worthwhile with their lives, and something that they'll enjoy doing.

The trouble is sometimes we think we know what that is even better than our children do. So when our son first told us he wanted to be a priest. we were surprised, to say the least. Disappointed. Even a little angry. It was all we could do to let him go off to Sacred Heart Seminary, thinking in time he might change his mind.

His time at Sacred Heart has been good for all of us. He's more sure than ever he's made the right choice. He's gotten a college education, done graduate work. And we've come to realize that he hasn't changed all that much. He's still our son. The same likes and dislikes, the same funny sense of humor.

Today he's a priest as well. Sure, that means he's giving up some of the things we wanted for him, or for us. But he's not giving up anything that's important to him. Not at all. He's counselor, helper, listener, and spiritual leader for a whole lot of people who call him "Father." He's doing just what he wants to do. And that's as much as we could hope for any of God Calls

Critical weekend

Can Clarenceville dethrone Avondale?

and Dan O'Meara staff writers

It's only the second week of the season, but there are already some critical games on tap.

An early season showdown in the Metro Conference pits perennial power Auburn Heights Avondale at Livonia Clarenceville (see week ahead)

A Clarenceville win could put the Trojans on their way to their first league title since 1981

Week No. 2 also features some backyard battles Redford Bishop Borgess at Redford Union, Livonia Stevenson at Livonia Franklin and Farmington at Farmington Harri-

Another interesting matchup pits Westland John Glenn at Plymouth Canton, two schools meeting for the first time

Last week's predictions revealed that rookies can step in and compete with the veterans Both prognosticators correctly picked 12 of 16 games.

The most glaring miss last week came from the veteran sports scribe (Emons), who for some unexplained reason bet on Livonia Churchill over Sterling Heights

Of course, Sterling Heights won by only 42 points. How embarrassing. Here are this week's picks:

Patriots battle despite loss to Sexton

Visiting Livonia Franklin put up a battle Saturday, but couldn't get past two off punts Lansing Sexton in a non-league season football opener for both schools.

Tailback Alan Haller, who rushed for 125 yards on day, scored on a 7yard touchdown run with 9 30 left in the final quarter to give the Big Reds a 21-14 triumph.

Turnovers figured prominently in the scoring.

Greg Panzl, a Franklin standout defensively all day with four solo tackles and 12 assists, recovered a fumble and rambled 21 yards to give

the Patriots a 7-0 first-quarter lead. Sexton answered with a pair of TDs, the first set up by a Patriot fumble on their own 24. Sexton quarterback Garvey McIntosh capped a short TD drive with a 1yard plunge.

The Big Reds then intercepted a pass and benefitted from a roughing penalty, putting the ball on the Franklin 11. Sexton's Wayne Harris then rushed 8 yards for a score to give Sexton a 13-7 lead. (Panzl blocked the extra point.).

Franklin, however, grabbed a 14-13 halftime lead on a 3-yard TD run by Brian Drabicki. The score was set up by Craig Allard's 42-yard pass to Brian Whalen.

Franklin made a goal line stand at the 4 in the final quarter, but Sexton. helped by a short quick kick on third down, marched 39 yards for the win-

"We were in the ballgame, but they dominated the game," said Franklin coach Armand Vigna, whose team was outgained in total yardage, 245-107. "We had little offense and our defense was on the field too long. We gave them too many opportunities. John Glaza was our only lineman who was effective offensively or defensively.

Westland champions ousted by Ga. ballclub

By Brad Emons staff writer

Westland Federation reached the gold medal game Monday of the Junior Olympic Super Series (15- and 16year-olds) before succumbing to hard-throwing righthander Marc Pisciotta and his Marietta, Ga., team-

The first baseball tournament, pitting three national champions and a group of all-stars from host Youngstown. Ohio. was sponsored by the U.S. Baseball Federation and Oscar Mayer (The tournament was played at Pemberton Park)

Pisciotta, who started and paced Marietta to the 1983 Little League World Series title, the last time an American team won it, was virtually unstoppable.

Westland, which qualified for the tourney by winning the American Amateur Mickey Mantle World Series last month, could muster only two hits against the imposing Marietta hurler.

The 6-foot-5 ace, who led Marietta to the 1987 Pony League Colt Division crown, struck out 13 Westland hitters en route to his second Super Series win. The only hits he allowed were to Catholic Central High's Leo Hutchinson, the losing pitcher, and Westland John Glenn's Jerry Koester.

"I'VE BEEN TOLD he (Pisciotta) is the best 16-yearold pitcher in the nation, and I kind of believe it," said Westland manager Jerry Pitcher. "When the game started he was throwing between 87 and 90 mph.

He's legitimate. Marietta scored twice in the first inning and added three more in the second, thanks to three Westland errors, to put the game away.

Rusty Umphenour, who led Marietta with three hits, had the game-winning RBI in the first inning.

The Super Series began Friday with outslugging the host Youngstown Bees, 17-9.

Kevin Rogers (also of CC), Jimmy Bell and Bill Bannon (Livonia and Divine Child High) each had three hits in a 14-hit Westland barrage.

Westland broke a 5-5 tie by scoring seven times in the third inning, all coming after two were out. Westland

baseball

then added more insurance, scoring four times in the

Hutchinson, who pitched for the second straight day. got credit for the win.

IN SATURDAY'S second-round game against Phenix, Ala., the Dixie Youth World Series champs, Westland lost a heartbreaker, 4-3.

Bryant Satterlee (Glenn High) led a seventh inning Westland comeback, blasting a two-run double, but he was called out on a Phenix City appeal for missing the third-base bag. Satterlee had taken third and raced home on an overthrow, but the game-tying run was nullified. (Westland's Pitcher was ejected from the game protesting the call.)

Westland hurlers Paul Pencak, Ken Hendrian and Brian Burger allowed only five hits, but the trio combined to give up 13 walks.

Jeff Edmonds was the winning pitcher and Pencak was charged with the loss.

On Sunday, Westland fell to Marietta in the roundrobin finale, 8-5, but qualified for Monday's gold medal game despite a 1-2 record. With Phenix City and Youngstown also at 1-2, Westland gained the right to play in the title game thanks to a tiebreaker format based on run differential.

IN THE INITIAL meeting on successive days against Marietta, Westland jumped out to a 3-1 first-inning advantage thanks to RBI singles by Rogers and Bell.

Westland scored two more in the bottom of the sixth on a solo homer by Satterlee and an RBI sacrifice fly by Bannon, but still came up three runs short.

Rob Doherty was the big gun for Marietta, collecting three hits and scoring three times. Umphenour added a two-run homer to help hand Burger the loss.

Falcons remain strong despite loss of star duo

By Dan O'Meara staff writer

The big-name runners have graduated, but no one should expect Farmington to drop from the ranks of Class A powers in boy's cross country this fall.

Those who are knowledgeable in the sport aren't counting out the Falcons, who were runners-up in the state last year and have won the last three Western Lakes Activities Association titles.

All-American runners Chris Inch and Al Stebbins are competing at the collegiate level now, but Farmington returns a strong nucleus from a squad that also won its second and third consecutive Schoolcraft Invitational and regional championship, respectively.

The Falcons demonstrated their intention to uphold that tradition Tuesday by whipping Southfield-Lathrup (20-43) and Berkley (16-47) in a double-dual meet at Southfield's Bedford Park

"IT WAS a good race for us, to get one under our belts with the West Bloomfield Invitational coming up Brandt (18:14), Matt Langdon (18:17)

and Al (Stebbins). But we should have

as strong as it was with Chris (Inch)

boys cross country

(on Saturday)," coach Jerry Young said.

"The kids ran well. Any time in the 17s is a good time," considering the rainy and soggy conditions, he

Lathrup's Neal Deford (16:23) captured first place, but Farmington filled eight of the next nine positions in an impressive display of depth and balance.

Senior co-captain Brandon London, who was second in the WLAA and 20th in the state, was Farmington's top runner, finishing second at

HE WAS followed by teammates Steve Quenneville (17:26), Rob Holloway (17:32) and Brad Moore (17:33).

Berkley's John Murphy broke up the pack of Falcon runners, taking the No. 6 spot in 17:43, but Farmington's Matt Walter (17:44), Paul

—Jerry Young

and Greg Endres (18:28) rounded out the top 10.

Senior Ron Smedley was held out of Tuesday's race with a knee injury, but he is part of the nucleus of veterans and is expected to help make the Falcons a formidable outfit again.

While Inch, the WLAA champion and fourth best in the state, and Stebbins were considered the Nos. 1-2 men a year ago, the Falcons have their next five returning in London, seniors Walter and Smedley, junior Moore and sophomore Holloway.

SMEDLEY WAS 13th in the league and co-captain Walter 14th. Quenneville, another senior and the only one of the bunch who didn't run in the state meet, also is being counted on and, based on Tuesday's thirdplace showing, is ready to make a strong contribution.

"They're all pretty experienced kids," Young said. "Our up-front strength is probably not as strong as it was with Chris and Al. But we should have a real balanced team, and we should be bunched pretty

"We're not as strong as we were last year, but we won't be weak either.

"We're hoping to surprise a few people," he added. "We should be right up there at most of the runs and invitationals we go to."

The Falcons were 7-0 in dual meets last year, and that helped boost Young's career record to 161-43-1 in 22 seasons at Farmington.

State may seek comp pay reimbursement

ruled a Michigan state fund created to pay benefits to injured workers has the right to seek reimbursement of benefits it pays to workers who recover personal-injury damages from third parties.

The court in Cincinnati ruled that the Michigan state fund - known as the Second Injury Fund - may seek such reimbursement under a 1984 Michigan amendment, even though the man injured in the case was hurt in 1981, prior to the amendment.

The unanimous ruling by a threejudge panel of the 6th U.S. Circuit Court of Appeals reversed a decision by a U.S. District Court in Detroit in favor of plaintiffs Frank LoPiccolo of Warren and his wife, Marion.

- A federal appeals court the Second Injury Fund could not seek reimbursement of compensation damages it had paid to LoPiccolo, even though LoPiccolo was pursuing damages from other parties for his personal injury.

Frank LoPiccolo was injured in

February 1981 while unloading a railroad car at his Detroit employer. Safran Printing Co.

The LoPiccolos sued in November 1981 to recover damages from the shipper, Consolidated Rail Corp., the rail car's owner. Burlington-Northern Railroad Co.; and Blandin Paper Co., producer of paper rolls which LoPiccolo was unloading when he was hurt.

Michigan law allows an injured employee to seek compensation from his employer and also to sue a THE LOWER court had ruled that third party held to be responsible for

the employee's injury

THE DEFENDANTS had the case moved into federal district court, where the Michigan state fund sought reimbursement. When the district court ruled against it, the fund appealed to the 6th Circuit.

LoPiccolo filed a 1982 petition for employer and differential benefits with the Michigan Bureau of Workmen's Disability Compensation against Safran Printing and the state fund, alleging that he was totally and permanently disabled. Safran and the fund agreed in 1984 to begin those payments.

The state fund paid \$14,110 in accrued payments to LoPiccolo in November 1984 and continues to pay weekly differential benefits of \$159.40, according to court records.

Attorneys file appeal in auto dealers case

charges that Detroit-area car dealers consipired to limit showroom The Detroit Auto Dealers Association had been accused of conspiring

AP - The federal government has appealed a judge's dismissal of

to regulate its profits and limit comparison shopping by closing showrooms on Saturdays, Sundays and most weeknights. Federal Trade Commission attor-

neys, who brought the case in 1984, wanted Administrative Law Judge James Timony to order dealers to open their showroom on Saturdays.

Timony dismissed the charges July 21, saying an agreement among dealers setting showroom hours stemmed from a labor dispute involving salespeople and therefore was exempt from anti-trust laws.

For more than a decade, the dealers "denied to Detroit-area consumers the benefits of longer shopping hours enjoyed by consumers in virtually every other major city in the United States," government attorneys said in the appeal filed re-

'I think this appeal is a case of bureaucratic actions ignoring reality. I have no doubt the commission should uphold Judge Timony almost as a rubber stamp.'

> - Roy Hunsinger, attorney for auto dealers

The attorneys said the judge ignored evidence demonstrating that the dealers' practice is unlawful and harmful and that consumers eventually paid for the restrictive hours in the form of higher car prices.

The dealers "did not lower their prices by passing on to consumers the cost savings they gained by closing their stores at the agreed-upon time," the appeal said.

Ernest Nagata, assistant director of general litigation for the FTC in

Washington, said the dealers association will have 30 days to respond to the appeal. FTC attorneys then will have a week to submit a rebuttal before a hearing is scheduled before the FTC, which can either uphold the decision or issue one of its own.

"I think this appeal is a case of bureaucratic actions ignoring reality," said Roy Hunsinger, an attorney for the auto dealers. "I have no doubt the commission should uphold Judge Timony almost as a rubber

HOME FRONT

Creative Living section to expand

Thursday September 10, 1987, O&F

Beginning Monday, Sept. 14, the Observer & Eccentric Creative Living section will be expanded to include the Monday edition. With that expansion. On the Homefront will be a regular feature of the Creative Living every Monday Also debuting that day will be a new column. Designing Ways, by longtime interior designer Eve Garvin, Garvin's column will follow a question-and-answer format and readers will be invited to submit design problems to her which she will discuss each week. She will also give advice, discuss trends and offer where-to-buy suggestions

'Things we love do fit in

On the Homefront guest columnist Jeff Fontana is an interior designer and owner of Jeff Fontana, Designs Inc. He is a Grosse Pointe native who studied at Parsons School of Design in New York

HOUSE IS NOT a home until it reflects the personality of the owner. Personality is color, furniture, fabric, art and mementos. In past years, I think people have been afraid to show their personalities because their special possessions might reveal an inner part of them not ready to be exposed pub-

For years, a minimalist, decorator look has been the status symbol in many circles. Remember the joke about. Don't move the ash tray or the coffee table will be off balance.

Jeff Fontana

Today, thank goodness, a personal, livable look is back in vogue for home interiors. I think it is about the return of family values and the home as a safe haven a personal retreat from the world

It is exciting that more and more people are getting into and are comfortable with displaying their collectibles, some of which reflect their past and oth-

ers reflective of their interests and aspirations for their futures

SADLY, ONE OF the most often asked questions by a potential client is, "Will I have to give up everything I presently own to work with a decorator?" or "Will my shell collection accumulated over 10 summers at the beach have to go?" or "Will grandmother's chair be sent to the attic forever?

I'm always to delighted to answer that I don't get rid of a family's history. I just rearrange all those something specials into something spectacular. In fact, there is a real trend in decorating to provide instant history and roots - heirlooms - a look of stability and quality

I love to work with people, with their mementos, collections, treasures and interests. Not only is the challenge stimulating for me, but the results are very gratifying. Just to see a client walk by one of their special "things" and smile means I've done it right.

TO MAKE a house a home means being involved with what is important to the client, his history, his present day lifestyle, his future. To personalize a home is like setting a stage. Each stage is propped differently for each play, so a house becomes a home when it is decorated for people to live in

A home should be decorated with an aura of timelessness. It should grow painlessly as the people who live there grow and change, intellectually, culturally and physically. A home should always have the signature of the people who live

Decorating does not mean acquiring museum pieces or other status symbols - unless you love these, of course. It means tastefully mixing ordinary objects with special treasures and today's modern conveniences for a personal point of view, unique to you

A decorator coordinates, balances and blends furniture, styles and periods with accessories, fabrics, textures, colors and patterns, for a harmonic environment that should sizzle with personality. I like to work with clients with a master plan in mind, going from room to room with the flexibility to change as we go. Decorating is an enjoyable, lifetime project.

I just keep moving things around as they accumulate proof of a lifetime. I guess that's it our homes filled with the things we love, be they traditi onal or contemporary, because they are proof that we were here.

'Homes, Homes on the Tour.

The Marshall Historic Home Tour will feature the Tom and Lucy Franke home, "Oak Hill," (Italian Villa, 1858). It is listed in both the His-

toric American Building Survey and the National Register of Historic Places.

WO HISTORIC home tours promise excitement and interest for the next two Sunday afternoons

One is the Marshall tour, set for this weekend, and the other is the Old West Side Association tour in Ann Arbor, scheduled for Sunday, Sept. 20.

Seven homes, three commercial restorations, and four historical museums, all built between 1839 and 1933, will on display for the Marshall Historical Society's 24th annual

Three of the structures never before have been on the tour. Visitors will also enjoy the "Occasion for the Arts" - a juried arts and crafts show, parades, antique shows, and a variety of musical entertainment

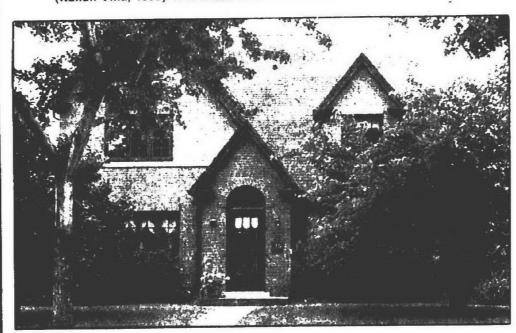

The Marshall tour is both Saturday and Sunday with home tours from 9 a.m. to 5 p.m. on Saturday and 10 a.m. to 5 p.m. Sunday Free parking and snuttle bus service is pro-

THE FOLLOWING Sunday will see five homes and one commercial building on the 15th annual homes tour in Ann Arbor. Placed on the National Register of Historic Places in 1972, the Old West Side neighborhood provides tour-goers with a pleasant Sunday afternoon in a setting once typical of the turnof-the-century Midwest.

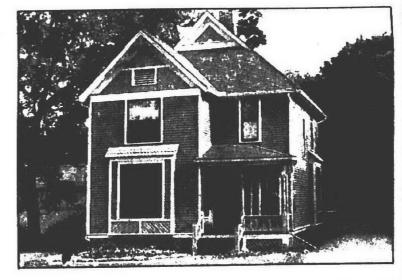

As a special features of this year's tour. three gardens near the corner of Fifth Street and West Jefferson will be open for viewing.

a home can never have enough. We're not talking salad bowls here, we mean extraordinary bowls that become functioning statements of fashion, personal taste, style and hand craftsmanship.

Bowls are back as an important accessory - on tables, on shelves, on the piano, at the entrance or exit, filled with things or as an object of visual pleasure, they're a must.

- The floor bowl is the perfect accessory with contemporary leather furniture. Hand crafted in the centuries old Indian tradition, the Shipibo bowl is entirely hand-made resulting in a unique character, making it an appreciated collector's item \$725. Gormans Gallery, Southfield.
- The reception bowl has undergone a metamorphosis from a little candy dish to a stunning architectural, handout clear glass bowl. We filled it with chocolate kisses - but not for long \$166. Ilona And Gallery, Farmington
- The fragrant bowl finds itself all over the house, wherever subtle, wafting fragrance adds a high note and the elegance of a carefully crafted, large bowl tilled with fragrant petals is needed Crystal bowl by Mikasa \$18.97 Wells Freight & Cargo, all stores.

It the seller knew or should have known about the defective condition of the house, whatever be the nature of the same, and concealed it and did not otherwise advise you of such condition, the seller may be liable to you for misrepresentation. The fact that the defect was latent and could not have been discovered by you on reasonable inspection, may stop the statute of limitations for money damage against you.

Therefore, in a case of urea-formaldehyde insulation or the like where you would not necessarily know about that condition until the walls were torn out or other testing was done, you may have a basis to pursue the seller for misrepresentation, despite eight years having elapsed You should consult with a competent real estate attorney in

Cruises and Hawaiian vacations will be featured during a free travel show at 6.45 p.m. Wednesday, Sept. 16 at the Novi Hilton, 21222 Haggerty Road, Novi. Reservations are suggested Call 553-3700, 527-8800 or 453-5200.

THE IMPORTANCE OF LOCATION

Any Realtor will tell you that the three, most important factors concerning the value of a house are LOCATION, LOCATION and LOCATION. Unfortunately most home buyers ignore this important advice.

Location is especially vital when buying a house

Location is especially wital when buying a house for maximum resale value Statistics say that you will be reselling your home long before the final mortgage payment is in the mail. Therefore, take a long, hard look, not only at the present, but the future prospects for the community and immediate neighborhood.

Select a location where raw land and house values have an increasing price trend Especially check into the zoning laws for any unfavorable change which could cause a depreciation in the value of the neighborhood and the resale price of your home in the near future. Remember — you can remove, replace or remodel a house, but you can never change the location. So choose carefully

So choose carefully
